Q.1) In the context of India, which of the following principles is/are, implied institutionally in the parliamentary government?

1. Members of the Cabinet are Members of the Parliament.
2. Ministers hold the office till they enjoy confidence in the Parliament.
3. Cabinet is headed by the Head of the State.

Select the correct answer using the codes given below:

- a) 1 and 2 only
- b) 3 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) a

Exp) Option a is the correct answer.

In the context of India, there are mainly two principles which can be implied institutionally in the Parliamentary form of government:

Statement 1 is correct. A Member of the Cabinet must be a Member of the Parliament. If a person who is not a member of the parliament and is appointed as a minister then he/she has to get elected to either of the two houses of parliament within six months.

Statement 2 is correct. In a parliamentary form of government, the council of ministers hold office till they enjoy the **confidence of the parliament (in India's case that of Lok Sabha)**. Hence, Ministers hold the office till they enjoy confidence in the Parliament.

Statement 3 is incorrect. The President is Head of the State in India, whereas the **Cabinet is headed by the Prime Minister** of India.

Source) M Laxmikanth, Chapter 20, UPSC 2013

Q.2) Which among the following group of persons are eligible for Indian citizenship?

1. A person born in India on or after December 3, 2004 irrespective of the nationality of his/her parents.
2. A person born outside India on or after December 3, 2004 and having one of the parents as citizen of India.
3. A person of Indian origin who is ordinarily resident in India for seven years before making an application for registration.
4. A person resided in India for not less than eleven years during the last fourteen years.

Select the correct answer form the code given below:

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 4 only
- d) 3 and 4 only

Ans) d

Exp) Option d is the correct answer.

The Citizenship Act, 1955 prescribes five ways of acquiring citizenship, viz, birth, descent, registration, naturalisation and incorporation of territory.

The following person get citizenship by birth:

- 1) A person born in India **on or after January 26, 1950 but before July 1, 1987** is a citizen of India by birth irrespective of the nationality of his parents. Further, **those born in India on or after December 3, 2004 are considered citizens of India only if both of their parents are citizens of India** or one of whose parents is a citizen of India and the other is not an illegal migrant at the time of their birth. **(Hence statement 1 is incorrect.)**

- 2) The following person can get citizenship by descent:
- 3) A person born outside India on or after December 10, 1992 is considered as a citizen of India if either of his parents is a citizen of India at the time of his birth. **December 3, 2004 onwards, a person born outside India shall not be a citizen of India by descent**, unless his birth is registered at an Indian consulate within one year of the date of birth or with the permission of the Central Government, after the expiry of the said period. **(Hence statement 2 is incorrect.)**

The Central Government may, on an application, register as a citizen of India any person if he is a **person of Indian origin who is ordinarily resident in India for seven years** before making an application for registration. **(Hence statement 3 is correct.)**

Statement 4 is correct: The Central Government may, on an application, grant a certificate of naturalisation to any person if he **during the fourteen years immediately preceding the said period of twelve months, he has either resided in India or been in the service of a Government in India**, or partly the one and partly the other, for periods amounting in the aggregate to not less than eleven years. **(Hence statement 4 is correct.)**

Q.3) Consider the following statements regarding the Fundamental Rights and the Directive Principles of State Policy under the Indian constitution:

1. Unlike Fundamental rights, Directive Principles aims at establishing political democracy in the country.
2. Unlike Fundamental Rights, Directive Principles are not enforceable by courts for their violation.
3. Both Directive Principles and Fundamental rights require legislation for their implementation.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) 1 and 3 only
- d) 2 and 3 only

Ans) b

Exp) Option b is the correct answer.

Under the Indian constitution, Fundamental Rights are mentioned in the Part 3 of Articles from 12 to 35 while directive principles are mentioned in part 4 of article 36 to 51. The phrase ‘Directive Principles of State Policy’ denotes the ideals that the State should keep in mind while formulating policies and enacting laws. Fundamental Rights, on the other hand, prevent the establishment of an authoritarian and despotic rule in the country, and protect the liberties and freedoms of the people against the invasion by the State.

Statement 1 is incorrect: Directive Principles of State Policy aim to create **social and economic democracy** under which the citizens can lead a good life. Whereas, Fundamental rights aim at establishing **political democracy in the country** because they prevent the establishment of an authoritarian and despotic rule in the country, and protect the liberties and freedoms of the people against the invasion by the State.

Statement 2 is correct: Fundamental Rights are justiciable in nature, that is, they are enforceable by the courts for their violation. However, **unlike the Fundamental Rights, the directives are non-justiciable in nature**, that is, they are not enforceable by the courts for their violation.

Statement 3 is incorrect: Fundamental rights do not require any legislation for their implementation. They are automatically enforced. The courts are bound to declare a law violative of any of the fundamental rights as unconstitutional and invalid. Whereas, Directive principles require legislation for their implementation. They are not automatically enforced.

Source: M laxmikant (chap 8- Directive principles of State policy)

Q.4) With reference to the history of constitutional legislation in Modern India, what was meant by the term *Communal Award*?

- a) Offer of the British to create different states for all different religious communities at the time of independence.
- b) Award announced by the British to recognize efforts of individuals to reduce communal tensions during non-cooperation movement.
- c) Privileges in the form of large share in government services awarded by the British to communities who were loyal to them.
- d) Separate electorate awarded to members of different communities during Second Round Table Conference.

Ans) d

Exp) Option d is the correct answer.

Communal Award was separate electorate awarded to members of different communities during Second Round Table Conference.

The **Communal Award** was one of the **tactics** used by the British to **weaken the national movement**, by **driving a wedge between various diverse communities** in India (religion wise, caste wise, class wise). They would **recognize each group as a minority** in need of **special protections and representation** in the legislature (thus **promising them more benefits compared to others**). This would be done by **allocating certain seats** to a specific community and **in the elections** for those seats, **only the people belonging to that particular community would be voting** for a candidate from their community. So, although the person chosen from that seat will be representing all sections of Indian society in that constituency, only the people of his/ her community will get to vote. This privilege was **dangled as a lure** for **different communities like Industrial workers, Depressed classes**, etc by the British during the **Second Round Table Conference in Britain in 1932**, so that **Indians would be divided** and would **not be able to formulate a strong demand for a better constitution** for India. It was announced by **British PM Ramsay McDonald on August 4, 1932**.

Q.5) With reference to Gaming disorder, consider the following statements:

1. It involves giving priority to gaming to the extent that it takes precedence over daily activities.
2. World Health Organization has categorised gaming disorder as a mental health condition.
3. Indian government has limited gamers under 18 years to just three hours of online games per week under Information Technology Act, 2000.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) a

Exp) Option a is the correct answer.

Statement 1 is correct. Gaming disorder is defined in the 11th Revision of the International Classification of Diseases as a pattern of gaming behaviour (“digital-gaming” or “video-gaming”) characterized by impaired control over gaming, **increasing priority given to gaming over other activities to the extent that gaming takes precedence over other interests and daily activities**, and continuation or escalation of gaming despite the occurrence of negative consequences.

Statement 2 is correct. Gaming addictions cause physical, social and emotional damage, impairing sleep, appetites, careers and social lives. The addiction can also cause insomnia, withdrawal from social contacts, academic failure, and extreme anger and irritability. For these reasons only, the **World Health Organization** categorised **gaming disorder as a mental health condition** in 2018.

Statement 3 is incorrect. **Indian National policy** on Gaming Addiction is only in form of advisory and do not mandate any limitations on Gaming hours regulation. In India, the legal focus has been on recent laws in the **southern States seeking to ban online games** such as rummy, poker or even fantasy sports which offer prize money or financial stakes. But recently Kerala High Court quashed such a law in the State. The Kerala High Court accepted the stance of Industry that games of skill should not trigger bans on gambling. Recently, China limited **gamers under 18 years to just three hours of online games per week**. The limit is also during specified times. China made the industry responsible for enforcing the restriction.

Q.6) Consider the following statements regarding Federalism in India:

1. The new economic policy of 1991 helped in strengthening federalism in India.
2. Judicial Supremacy forms an essential part of federal polity.
3. Indian model of federalism is “Coming together”, unlike US model which is “Holding together”.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1 and 2 only

Ans) a

Exp) Option a is the correct answer.

A federal government is one in which powers are divided between the national government and the regional governments by the Constitution itself and both operate in their respective jurisdictions independently. Essentially, federalism is an **institutional mechanism to accommodate two sets of polities—one at the regional level and the other at the national level**. Each government is autonomous in its own sphere. In some federal countries, there is even a system of dual citizenship. India has only a single citizenship.

Statement 1 is correct:

The new economic policy of 1991 and the economic reforms laid out a new trajectory in which federalism got strengthened. It facilitated fiscal federalism.

The liberalisation of the Indian economy which gave considerable **autonomy to the state governments and the chief ministers to initiate business endeavours and bring in foreign** investments to their respective states, in turn, creating their own political imprimatur premised on growth and development.

Statement 2 is incorrect: To prevent conflicts between the centre and the State, there is an **independent judiciary to settle disputes**. The judiciary has the powers to resolve disputes between the central government and the States on legal matters about the division of power.

The response of judicial supremacy is that courts perform that function and other officials are bound not only to respect judges' decisions in particular cases but also, in formulating future public policy, to follow the general principles judges have laid down. It is not an essential nor it is a desired part in federal structure.

Statement 3 is incorrect: US Model of federalism is called as ‘coming together’ as all the states have come together to form a federation. However, when a **large country chooses to divide its authority between the member states and the central government, it is regarded as holding together federalism**. In this case,

power is shared among various social groups to accommodate a huge diversity. **Indian model of federalism is “holding together”.**

Laxmikanth Chapter 13 Federal System

Q.7) With reference to the ‘Objectives Resolution, 1946’, consider the following statements:

1. It served as the inspiration for Preamble in the constitution.
2. It envisioned Popular Sovereignty for the soon to be independent Indian nation.
3. It provided for vesting of residuary powers with the provinces.

Which of the statements given above is/ are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

The Objectives Resolution was a motion describing the overall aims and guiding philosophy and vision for the Constitution of the newly formed Constituent Assembly for the soon to be independent India. It was moved by Jawaharlal **Nehru** on **December 13, 1946**, and was adopted unanimously on January 22, 1947. The Muslim League had boycotted the Constituent Assembly by this time and was not a part of the deliberations regarding the Objectives Resolution.

Statement 1 is correct: The Objectives resolution served as the **inspiration** for the **Preamble** of the Constitution of independent India.

Statement 2 is correct: This resolution declared that **when India becomes an independent** sovereign country, it will **derive all its authority and power from the people of the nation**. This concept is known as **Popular Sovereignty**. This means that the **country is run according to a constitution**, which **derives its power from the people**, not a monarch, or some alien government, but the people who elect their representatives to run the country in accordance with the Constitution, which is again an **expression of the values and will of the people**. Hence this statement is **correct**.

Statement 3 is correct: The Objectives Resolution **proposed the government of independent India** to be **federal** with a **Centre and autonomous Provinces**. In this scheme, the **Residuary powers** were envisaged to be **vested in the provinces** in order to provide them with the greatest degree of autonomy. Hence this statement is **correct**.

However, **ultimately in the final constitution** of independent India, it was **decided to vest Residuary powers in the Centre**, as the nation was in a fragile state at the time of independence and a strong Centre was imperative to maintain the integrity and unity of the nation.

Source: Indian Polity by Laxmikanth, 5th edition, Ch-2, Pg-2.2

Q.8) With reference to the composition of India’s Constituent Assembly, consider the following statements:

1. It was constituted on the basis of recommendations of the Cabinet Mission.
2. Members from Princely States were proposed to be drawn through nomination.
3. Seats were reserved for various minorities but there was no separate electorate.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) a

Exp) Option a is the correct answer.

The Constituent Assembly for soon to be independent India was created in December 1946. It was fully manned by Indians who were to frame a constitution to run their soon to be independent country according to their needs, values and preferences. Following is a small discussion on its composition.

Statement 1 is correct: The Constituent Assembly was constituted in November 1946 under the scheme formulated by the Cabinet Mission Plan.

The Cabinet Mission rejected the Muslim League's call for two separate constituent assemblies, and announced a joint one with a strength of 389. Out of this 389, 296 seats were allotted to British Indian provinces and 93 seats were allotted to various Princely States in undivided India.

Statement 2 is correct: The Constituent Assembly was to be a partly elected (indirectly) and partly nominated body. The members from the **296 seats** allocated to **British Indian provinces** were **drawn through elections**, while the **members from the 93 seats** allotted to the **Princely States** were drawn through **nomination** (as the Princely States had not conceded the principle of Democracy and elections in their domains. The nominated members were the Rulers' representatives). Hence this statement is **correct**. It must also be noted here, that the **elected members** were **not directly elected**. Rather they were **indirectly elected**, as they were **chosen by the elected representatives of the people in the Provincial Legislatures**. Another point of note is that, the directly elected representatives that elected these members of Constituent Assembly were elected on the basis of a **very limited franchise** (not universal adult franchise, as right to vote was limited by the tax paid, educational qualifications as well as property owned by individuals).

Statement 3 is incorrect: The Cabinet Mission made stipulations to **protect the interests of the minorities** in line with the earlier stands of the British government while dealing with constitutional questions regarding India. Under the garb of protecting minority interests, the British provided for a system of **Separate Electorates** during the **indirect elections for membership of Constituent Assembly** as well. **Separate reservations** were made for members of the **Sikh and Muslim** communities and members representing these communities in the Constituent Assembly **were to be elected by only members of those same communities in the Provincial Legislatures**. Hence this statement is **incorrect**, as both reservations as well as separate electorates were kept for various communities while creating the Constituent Assembly. Source: Indian Polity by Laxmikanth, 5th edition, Ch-2, Pg-2.1

Q.9) In the question given below, there are two statements marked as Assertion (A) and Reason (R). Mark your answer as per the codes provided:

Assertion (A): The Constitution has described India as a 'Union of states', and not a Federation.

Reason (R): Indian polity is a result of agreement between states to form an indestructible Union.

Which of the options given below is/are correct?

- Both A and R are true and R is the correct explanation for A.
- Both A and R are true but R is not the correct explanation for A.
- A is true, while R is false.
- A is false, while R is true.

Ans) c

Exp) Option c is the correct answer.

Assertion (A) is true: Article 1 of the Constitution of India describes India as a "**Union of states**", **not Federation, despite its polity being federal in structure** and function. Hence this statement is **correct**.

Reason (R) is false: Indian polity is **not the result of any sort of agreement between its constituent states**. The states neither gave it the status of being indestructible, nor did they state that these units can secede (as seen in the case of the United States of America). Hence this statement is **incorrect**.

The Indian constitution declares India to be a Union, as **India is indestructible**, but the **states constituting it are not**. They may be **merged, or new ones may be created**, but **India as a whole can never be dissolved or finished**.

Also, **India has not been formed as a result of states coming together**, as was the case with the USA.

And the last reason is that the **states in Indian polity have no right to secede from this Union**. The states do exist and have some autonomy in their limited sphere as envisioned by the Constitution, but their existence is not absolute or permanent, and this structure has been chosen more to accommodate India's diversity for better governance.

Source: Indian Polity by Laxmikanth, 5th edition, Ch-5, Pg 5.1

Q.10) Consider the following statements regarding 'Economic Advisory Council to the Prime Minister':

1. It is an attached body to the Department of Investment and Public Asset Management, Ministry of Finance.
 2. It can suo-moto take up the any issue of macroeconomic importance and present its views to Prime Minister.
 3. The council has recently released the report on the State of Foundational Literacy and Numeracy in India.
- Which of the statements given above is/are correct?
- a) 1 and 2 only
 - b) 2 and 3 only
 - c) 1 and 3 only
 - d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

The Economic Advisory Council to the Prime Minister (EAC-PM) is an independent body constituted by the central government that advises the prime minister on economic and related issues.

Statement 1 is incorrect. **Economic Advisory Council to the Prime Minister is a non-constitutional, non-statutory, independent body** constituted to give advice on economic and related issues to the Government of India, specifically to the Prime Minister.

Statement 2 is correct. **Terms of Reference of EAC-PM:** Analysing any issue, economic or otherwise, referred to it by the Prime Minister and advising him thereon, addressing issues of **macroeconomic importance** and presenting views thereon to the Prime Minister. These could be either **suo-motu or on reference** from the Prime Minister or anyone else.

Statement 3 is correct. The **Economic Advisory Council to the Prime Minister (EAC-PM)** has released the report on the **State of Foundational Literacy and Numeracy in India**. It highlights the importance of early education years in the overall development of a child.

EAC-PM: 3 new members inducted | Business News, The Indian Express

Q.11) 'Economic Justice' as one of the objectives of the Indian Constitution has been provided in

- a) the Preamble and the Fundamental Rights
- b) the Preamble and the Directive Principles of State Policy

- c) the Fundamental Rights and the Directive Principles of State Policy
d) None of the above

Ans) b

Exp) Option b is the correct answer.

Economic justice denotes the non-discrimination between people on the basis of economic factors. It involves the elimination of glaring inequalities in wealth, income and property. A combination of social justice and economic justice denotes what is known as 'distributive justice'.

The term 'justice' in the **Preamble** embraces three distinct forms—social, **economic** and political, secured through various provisions of Fundamental Rights and Directive Principles.

The concept of Economic Justice is also **mentioned under the Directive Principles of State Policy**. Article 39 says that the State shall, in particular, direct its policy towards securing— (a) that the citizens, men and women equally, have the right to an adequate means of livelihood; (b) that the ownership and control of the material resources of the community are so distributed as best to subserve the common good; (c) that the operation of the economic system does not result in the concentration of wealth and means of production to the common detriment; (d) that there is equal pay for equal work for both men and women.

Source) M Laxmikanth, Chapter 4 and 8, UPSC 2013

Q.12) Consider the following pairs regarding the various committees of the Constituent Assembly and their Chairpersons:

Committee	Chairperson
1. Union Powers Committee	Jawaharlal Nehru
2. Provincial Constitution Committee	Dr. B.R. Ambedkar
3. Union Constitution Committee	Dr. Rajendra Prasad
4. Minorities sub-committee	J.B. Kriplani

How many pairs given above are correctly matched?

- a) Only one pair
b) Only two pairs
c) Only three pairs
d) All four pairs

Ans) a

Exp) Option a is the correct answer.

The **Constituent Assembly** was constituted in **November 1946** under the scheme formulated by the **Cabinet Mission Plan**. The Constituent Assembly established 22 committees, including the drafting committee, to prepare the constitution. The committees produced an **accepted report**, which was used to form a **drafting committee led by Dr. B.R. Ambedkar**, who was a legal member of the Indian government at the time. Out of these, eight were major committees and the others were minor committees.

Pair 1 is correctly matched and pair 2, 3 and 4 are incorrectly matched:

Major Committees and their chairman:

- 1) Union Powers Committee - Jawaharlal Nehru (Pair 1 is correct)**

- 2) **Union Constitution Committee -Jawaharlal Nehru (Pair 3 is incorrect)**
 - 3) **Provincial Constitution Committee -Sardar Patel (Pair 2 is incorrect)**
 - 4) **Drafting Committee - Dr. B.R. Ambedkar**
 - 5) **Advisory Committee on Fundamental Rights, Minorities and Tribal and Excluded Areas - Sardar Patel.**
This committee had the following five sub-committees:
 - a. Fundamental Rights Sub-Committee - J.B. Kripalani
 - b. Minorities Sub-Committee - H.C. Mukherjee (Pair 4 is incorrect)**
 - c. North-East Frontier Tribal Areas and Assam Excluded & Partially Excluded Areas Sub-Committee -Gopinath Bardoloi
 - d. Excluded and Partially Excluded Areas (other than those in Assam) Sub-Committee - A.V. Thakkar.
 - e. North-West Frontier Tribal Areas Sub-Committee
 - 6) **Rules of Procedure Committee - Dr. Rajendra Prasad**
 - 7) **States Committee (Committee for Negotiating with States) - Jawaharlal Nehru**
 - 8) **Steering Committee - Dr. Rajendra Prasad.**
- Source: Laxmikanth- Ch 2 (making of the constitution)

Q.13) With reference to the Charter Act of 1813, consider the following statements:

1. It ended the East India Company's monopoly in tea trade and trade with China.
 2. It directed the government to set aside one lakh rupees for promotion of literature and sciences among Indians.
 3. It was the first legislation to authorise collection of taxes at local levels in British Indian territories.
- Which of the statements given above is/ are correct?
- a) 2 only
 - b) 2 and 3 only
 - c) 1 and 2 only
 - d) 1 and 3 only

Ans) a

Exp) Option a is the correct answer.

The English East India Company obtained a royal permission from Queen Elizabeth in 1600 CE to exclusively be the only British company to carry out trade activities between Britain and Asian countries like India and China in the East. This was made official through the Charter Acts, which extended these monopolies. As well as trusteeship of Indian territories won by the Company on behalf of the British Crown and Parliament for a period of 20 years at a time.

Statement 1 is incorrect: By the time Charter Act of 1813 was up for promulgation (early 19th century), **Industrialisation** had gathered speed in Britain. It changed people's and economy's perspective on things. Now **people preferred laissez faire (free trade) over mercantilism** (monopoly to certain trading companies).

So, keeping in mind these facts, the British parliament passed the **Charter Act of 1813**, wherein the **Company's monopoly in trade was ended**, allowing **other British citizens to freely participate in trading** with India and earning profits. However, owing to long standing tradition and influence of the English East India Company in Britain, it was allowed to **retain its monopoly for another 20 years** (until next Charter Act renewal was due) in 2 cases

- 1) **Trade in tea**, with all countries
- 2) **Trade with China** in all materials

Hence this statement is **correct**.

Statement 2 is correct: The Charter Act, 1813 **recognized**, some **amount of responsibility** of the British Indian government in India, towards the **welfare, especially education** of the native citizens residing in British Indian territories. It announced the **obligation of the British Indian government** being run by the Company to **annually set aside a sum of Rs 1 lakhs** to ensure promotion of **literature and sciences** among inhabitants of British Indian territories and **creation of “learned natives”**. Hence this statement is **correct**.

Statement 3 is incorrect: It was the **Charter Act of 1793 (not 1813)** which gave **statutory basis** to **municipal institutions**, thus **regularising their taxation authority**, especially in Presidency areas. Hence this statement is **incorrect**.

Source: Modern Indian History by B L Grover, Ch - 40, Pg-370, Ch-39, Pg-359

Q.14) What is the primary objective of including the feature of Separation of Power in the Constitution of India?

- To help judiciary in providing complete justice to the weaker sections of the society.
- To improve the division of Labor and Functional specialization of skills.
- To provide for Checks and Balances to prevent the misuse of power.
- To promote fast decision making by limiting the encroachment of powers between the branches.

Ans) c

Exp) Option c is the correct answer.

Option a is incorrect – **Article 142 of the constitution provides** that apex court might pass some orders or decrees as is necessary for doing complete justice in any case pending before it. This sometimes leads to Supreme Court overreaching itself into powers of Executive or Legislature and hence it sometimes goes against the principle of Separation of Power.

Option b is incorrect – Although the Separation of Power provides for Division of Labor and Functional Specialization, it isn't the basic philosophy behind including the doctrine in the constitution.

Option c is correct – Separation of Power **provides for checks and balances by each organ of the government on the other two**. It prevents tyranny of the government. It ensures that justice done is free of any fear or favor.

Option d is incorrect – Separation of power rather provides the conditions for Checking and balancing the decisions of the other organs. **Although it prevents encroachment of power by other organs, this isn't the fundamental reason for its inclusion.**

Knowledge Base: Although the **Constitution** of India provides for the three organs of the government with well-defined functions, it does not advocate a rigid separation of powers. There is an equal emphasis on ensuring an effective balance of powers between the organs of the government. The purpose of the system of **checks and balances** is to prevent the arbitrary or capricious use of power.

The provisions of the **Constitution** that provide for separation of functions and powers between the three organs of Government are:

Article 50 directs the State to take steps to separate the judiciary from the executive.

Articles 74 and 163 restrict the courts from inquiring into the advice tendered by the Council of Ministers to the President and the Governor.

Articles 122 and 212 restrict the courts from questioning the validity of proceedings in the Parliament and the Legislatures.

Articles 121 and 211 restrict the Parliament and the State Legislature from discussing the Judicial conduct of a judge of the Supreme Court and the High Courts unless the resolution of removal of the judge is under consideration.

Article 361 provides immunity to the President or the Governor from being answerable to any court for the exercise and performance of the powers and duties of his office.

Indian Polity by M Laxmikanth

Q.15) “It is one part of the El Nino Southern Oscillation (ENSO) cycle. It witnesses La Ninas for two consecutive years with a transition through ENSO neutral conditions in between. During this phenomenon, winds are much stronger than usual. This makes the water in the Pacific Ocean near the equator a few degrees colder than it usually is. Even this small change in the ocean’s temperature can affect weather all over the world.”

Which of the following weather-related phenomenon is mentioned in the above paragraph?

- Double inverted El-Nino
- Madden-Julian Oscillation
- Antarctic Oscillation
- Double Dip La-Nina

Ans) d

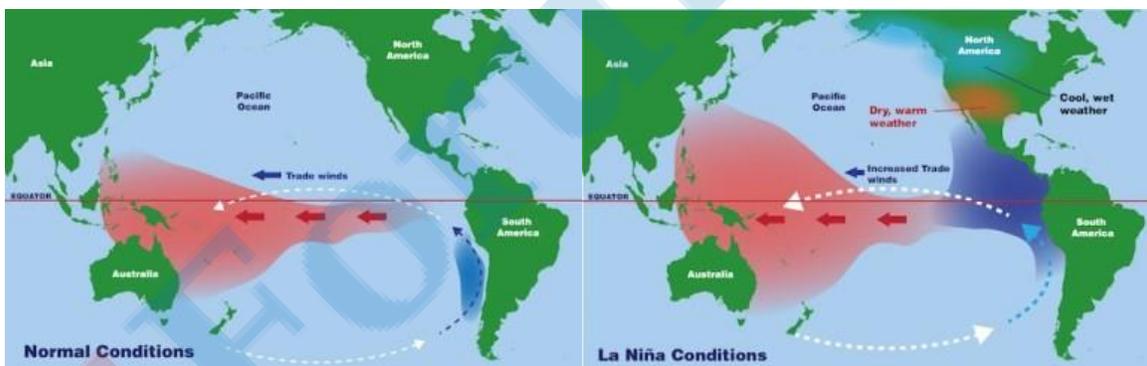

Exp) Option d is the correct answer.

The **National Oceanic and Atmospheric Administration** (NOAA) had recently declared that La Niña has re-developed.

La-Nina is a weather pattern that can occur in the Pacific Ocean every few years. In a **normal year**, winds along the equator push warm water westward. Warm water at the surface of the ocean blows from South America to Indonesia. As the warm water moves west, cold water from the deep rises up to the surface. This cold water ends up on the coast of South America.

Option d is correct. Double Dip La Nina: La Nina is one part of the **El Nino Southern Oscillation** (ENSO) cycle. But when **two La Nina’s happen one after the other** (with a transition through ENSO neutral conditions in between) then it is **usually referred to as a ‘double-dip La Nina’**.

In 2020, La Nina developed during the month of August and then dissipated in April 2021 as ENSO-neutral conditions returned.

In the **winter of a La Niña year**, these winds are much stronger than usual. This makes the water in the Pacific Ocean near the equator a few degrees colder than it usually is. Even this small change in the ocean’s temperature can affect weather all over the world.

Impact of La Nina: La Niña results in heavy or better monsoon rains in India, droughts in Peru and Ecuador, heavy floods in Australia, and high temperatures in the Indian Ocean and Western Pacific.

Knowledge Base: **Difference between El Niño and La Niña:**

Both events start in the Pacific Ocean, but they are opposites in almost every other way. La Niña causes the water in the eastern Pacific to be colder than usual. In the same region, El Niño can cause the water to be warmer than usual. So, areas that are hit with drought during La Niña years can get lots of rain in El Niño years!

Q.16) Consider the following statements regarding the doctrine of 'Basic Structure':

1. The term 'Basis Structure' was added to the Constitution of India through 44th Constitutional Amendment Act of 1978.
 2. It does not apply to any law which are placed under the Ninth Schedule of the Indian Constitution.
 3. It is applicable to all the Constitutional amendments enacted after 26th November, 1950.
 4. Bangladesh is the only country apart from India that has recognized the principle of 'Basic Structure'.
- Which of the statements given above is/are correct?
- a) 1 and 3 only
 - b) 2 only
 - c) 3 and 4 only
 - d) None of the above

Ans) d

Exp) Option d is the correct answer.

The question of whether Fundamental Rights can be amended by the Parliament under Article 368 or not was resolved in Kesavananda Bharati case (1973). It laid down a new doctrine of the 'basic structure' (or 'basic features') of the Constitution. It ruled that the constituent power of Parliament under Article 368 does not enable it to alter the 'basic structure' of the Constitution.

Statement 1 is incorrect: The term 'Basic Structure' nor its philosophy is described in the Constitution of India. **No any amendment has been ever brought to incorporate the Basic Structure Doctrine in our Constitution.** It is a judicial innovation which even Supreme Court is **yet to define or clarify as to what constitutes the 'basic structure'** of the Constitution.

Statement 2 is incorrect: The Ninth Schedule contains a list of central and state laws which cannot be challenged in courts. In IR Coelho case, the **Court determined that the ability to give absolute immunity at whom is incompatible with the basic structure theory**, and as a result, the laws included in the Ninth Schedule would **no longer have absolute immunity**. According to the IR Coelho court, laws introduced into the Ninth Schedule after 24.4.1973 are subjected to judicial review.

Statement 3 is incorrect: In **Waman Rao case 1981**, Supreme Court clarified that doctrine would be apply to constitutional **amendments enacted after April 24, 1973** (i.e., the date of the judgement in the Kesavananda Bharati case) (Including 9th schedule). On 26 November 1949, the Constituent Assembly of India adopted to the Constitution of India, and it came into effect on 26 January 1950.

Statement 4 is incorrect: The basic structure doctrine is a common law legal doctrine that the constitution of a sovereign state has certain characteristics that cannot be erased by its legislature. The doctrine is recognized in **India, Bangladesh, Malaysia, Pakistan, and Uganda.**

Doctrine of Basic Structure - Constitutional Law (legalserviceindia.com)

Q.17) In which of the following cases, there would be a compulsory termination of Indian citizenship?

1. When the citizen has obtained the citizenship by fraud
2. When the citizen has shown disloyalty to the Constitution of India.
3. When the citizen has been ordinarily resident out of India for seven years continuously.

Select the correct answer from the code given below:

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

The Citizenship Act (1955) prescribes three ways of losing citizenship whether acquired under the Act or prior to it under the Constitution, viz, renunciation, termination and deprivation.

All the Statements are correct. There would be compulsory termination of Indian citizenship by the Central government, if:

- 1) the citizen has obtained the citizenship by fraud (Statement 1 is correct)
- 2) the citizen has shown disloyalty to the Constitution of India (Hence statement 2 is correct.)
- 3) the citizen has unlawfully traded or communicated with the enemy during a war;
- 4) the citizen has, within five years after registration or naturalisation, been imprisoned in any country for two years; and
- 5) the citizen has been ordinarily resident out of India for seven years continuously (Hence statement 3 is correct.)

Knowledge Base:

Further, when a person renounces his Indian citizenship, every **minor child** of that person **also loses Indian citizenship**. However, when such a child attains the age of eighteen, he may resume Indian citizenship.

Source: Indian Polity by Laxmikant - 6th Edition - Chapter 6 - Citizenship.

Q.18) Which of the following statements proves that the authority of Indian Constitution is higher than that of Parliament?

- a) The Constitution makers were more eminent leaders than the Members of the Parliament.
- b) The Constitution of India was framed before the Parliament came into existence.
- c) Indian Constitution provides for powers and formation of the Parliament.
- d) The Constitution gives the power to Parliament to alter its Basic Structure.

Ans) c

Exp) Option c is the correct answer.

The Constitution of India which was adopted by the Constituent Assembly on 26th November, 1949 and came into force on 26th January, 1950. It drew its authority from the fact that members of the Constituent Assembly engaged in what one might call public reason. The positions. The Constituent Assembly spent a lot of time on evolving the right balance among the various institutions like the executive, the legislature and the judiciary. **The constitution specifies how parliament is to be formed and what are its powers. Thus, it is the source of authority for the parliament.**

Option a is incorrect: In no way, we can say that the Constitution makers were more eminent leaders than the Members of the Parliament. Also, even if it is so, it is not a valid reason to prove that the authority of Indian Constitution is higher than that of Parliament.

Option b is incorrect: Even though constitution was framed before the Parliament came into existence, it does not correctly explain as to why the authority of Indian constitution is higher than that of parliament

Option d is incorrect: The basic structure doctrine was not in initially Indian constitution. It is innovation by Indian judiciary after several judgements. It is propounded by the Indian Judiciary on 24th April 1973 in Kesavananda Bharati case to put a limitation on the amending powers of the Parliament so that the 'basic structure of the basic law of the land' cannot be amended in exercise of its 'constituent power' under the Constitution.

Q.19) Consider the following statements regarding the features of Indian Secularism:

1. It advocates mutual exclusion of state and religion in order to protect individual freedom.
2. It forbids state from providing any type of financial aid to any specific religious community.
3. A single standard civil law is employed in delivering justice regardless of religious affiliation.
4. It prevents the State from discriminating against any citizen on the grounds of religion.

Which of the statements given above is/are **incorrect**?

- a) 2 only
- b) 1 and 2 only
- c) 1, 2 and 3 only
- d) All of the above

Ans) c

Exp) Option c is the correct answer.

Secularism is the principle that determine the relationship between government and the religion. It plays an important role in a diverse country like India.

Option 1 is incorrect: India's secularism does **not completely separate religion and state**. But secularism in India means a state that is **neutral to all religious groups**. The 7th schedule of Indian constitution places **religious institutions, charities and trusts into Concurrent List**, which means that both the **central government** of India, and **various state governments** in India can **make their own laws** about religious institutions, charities and trusts.

Statement 2 is incorrect: The Indian Constitution **permits partial financial support** for religious schools as well as the **financing of religious buildings** and infrastructure by the state. All religions are **treated equally** by the state. It provides financial assistance to religious organizations **and levy taxes on them**. But **in western secularism**, state does **not provide financial assistance** to religious organizations or levy taxes on them.

Statement 3 is incorrect: In **Indian secularism**, different religions has its **own set of personal laws regarding marriage and divorce, maintenance, guardianship and succession, joint family and partition etc.**

In the context of India's personal laws, it is essentially pluralistic. The Hindus, Muslims, Christians, Parsis and Jews have their own separate **family laws**.

But in western secularism, a **single standard rule of law** is employed to administer justice **regardless of religious affiliation**. However, Goa is the only state in India which has a uniform civil code, which have single set of laws for all religious people.

Statement 4 is correct: **Secularism in India** provides the state to be **neutral towards all religious groups** but **not necessarily separate**. There is no obvious boundary between state and religion and all forms of religion are tolerated and supported by the government. The Constitution of India does not uphold any particular religion as the official religion of the Indian State. It **prevents the State from discriminating against any citizen on the grounds of religion (Article 15)**.

[Answered] What is secularism? Discuss how Indian concept of secularism is broader than western concept? (forumias.com)

Q.20) Consider the following statements regarding 'Open Network for Digital Commerce':

1. 'Open Network for Digital Commerce' is built by NITI Aayog in collaboration with National Informatics Centre.
2. It will facilitate consumers to access the grievance redressal mechanism against the e-commerce companies in India.

3. This project was initiated under the Declaration on Global Electronic Commerce of WTO.

Which of the statements given above is/are **incorrect**?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

Statement 1 is incorrect. The **Department for Promotion of Industry and Internal Trade (not NITI Aayog)** is building an **Open Network for Digital Commerce (ONDC)** which is designed to curb digital monopolies and standardize the on-boarding of retailers on e-commerce sites.

Statement 2 is incorrect. Open Network for Digital Commerce will make it **easier for a small retailer to be discovered**. Once a retailer lists its products or services using the ONDC open protocol, the business can be discovered by consumers on e-commerce platforms that follow the same protocol. **It is not intended for grievance redressal of consumers from e-commerce companies.**

A consumer searching for the product can see the location of the seller and opt to buy from the neighbourhood shop that can deliver faster compared to an e-commerce company.

This may promote hyperlocal delivery of goods, such as groceries, directly from sellers to consumers.

Statement 3 is incorrect. The **Declaration on Global Electronic Commerce**, adopted at the Second Ministerial Conference in May 1998, called for the establishment of a Work Programme to examine **all trade issues relating to global e-commerce**.

However, **Open Network for Digital Commerce' is not initiated under Declaration on Global Electronic Commerce under WTO.**

Q.21) The Ninth Schedule was introduced in the Constitution of India during the prime ministership of:

- a) Jawaharlal Nehru
- b) Lal Bahadur Shastri
- c) Indira Gandhi
- d) Morarji Desai

Ans) a

Exp) Option a is the correct answer.

First Constitutional (Amendment) Act of 1951, introduced the Ninth Schedule in the Constitution of India during the prime-ministership of **Jawaharlal Nehru**.

This amendment made laws placed in Ninth Schedule immune to judicial review, even if they violate any Fundamental Rights.

The Ninth Schedule was brought in the Indian Constitution on **18 June 1951** to abolish Zamindari system. The Ninth Schedule contains a list of laws that cannot be challenged in courts. Out of 284 such laws which are shielded from judicial review, 90 per cent of laws are about agriculture and landholding.

Source) <https://www.thehindubusinessline.com/news/cancel-ninth-schedule-in-the-indian-constitution-shetkari-sanghatana/article34841659.ece#:~:text=%E2%80%9CThe%20Ninth%20Schedule%20was%20brought,are%20about%20agriculture%20and%20landholding.>

UPSC 2019

Q.22) Which of the following explains the reason behind inclusion of emergency powers in the Indian constitution?

1. To safeguard federal character of constitution
 2. To safeguard unity and integrity of country
 3. To safeguard Fundamental rights of citizens
 4. To safeguard democratic political system
- Select the correct answer using the code given below:

- a) 1 and 2 only
- b) 2 and 4 only
- c) 2 and 3 only
- d) 3 and 4 only

Ans) b

Exp) Option b is the correct answer.

A state of emergency in India refers to a period of governance that can be proclaimed by the President of India during certain crisis situations. The emergency provisions are contained in Part XVIII of the Constitution of India, from Article 352 to 360. These provisions enable the Central government to meet any abnormal situation effectively.

Statements 2 and 4 are correct: The Indian Constitution contains elaborate emergency provisions to enable the President to meet any extraordinary situation effectively. The rationality behind the incorporation of these provisions is to **safeguard the sovereignty, unity, integrity and security** of the country, the **democratic political system** and the Constitution.

The inclusion of emergency powers was accepted by the Constituent Assembly because of widespread apprehension at the time that, without such powers, the new republic of India would **not survive the powerful attacks to its democratic political system** from various threats like regionalism, secessionist tendencies, militances, terrorism, hostile neighbourhood. The emergency provisions will empower the central government to tackle these threats in a unified manner and retain the democratic system in non-crisis period.

Statements 1 and 3 are incorrect: During an emergency, the Central Government becomes all powerful and the states go into the total control of the centre. It **converts the federal structure into a unitary one without a formal amendment of the Constitution**. This kind of transformation of the political system from federal (during normal times) to unitary (during emergency) is a unique feature of the Indian Constitution. Thus, emergency provisions aims not to safeguard federal feature, but on the contrary hinders the it.

Under various emergency provisions, some **fundamental rights can be taken off with the notification of the President of India**. H V Kamath observed that Fundamental rights will become meaningless and, as a result, the democratic foundations of the Constitution will be destroyed under the provisions of emergency inscribed in our Constitution.

Source: M Laxmikant (Ch 4 - preamble of the constitution)

Q.23) India is described as a Republic because:

1. The political sovereignty of India is vested in the people of the country.
2. India has accepted the British Crown as the head of the Commonwealth.
3. The head of the state is always an elected individual.
4. Indian Constitution provides for only a single citizenship.

Select the correct answer using the codes given below:

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 3 and 4 only

Ans) c

Exp) Option c is the correct answer.

A democratic polity can be classified into two categories—monarchy and republic. In a monarchy, the head of the state (usually king or queen) enjoys a hereditary position, that is, he comes into office through succession, e.g., Britain. In a republic, on the other hand, the head of the state is always elected directly or indirectly for a fixed period, e.g., USA.

Statements 1 and 3 are correct: India has a republican system in place of British monarchical system. In other words, the **Head of the State in India (that is, President) is elected**, while the Head of the State in Britain (that is, King or Queen) enjoys a hereditary position.

Therefore, the term ‘republic’ in our Preamble indicates that India has an elected head called the President. He is elected indirectly for a fixed period of five years.

A republic also means two more things: one, **vesting of political sovereignty in the people** and not in a single individual like a king; second, the **absence of any privileged class** and hence all public offices being opened to every citizen without any discrimination

Statements 2 and 4 are factually correct, but does not justify the republican character of Indian Polity.

Source: Laxmikanth Chapter 4 Preamble

Q.24) Which of the following statements is/are correct regarding the Basic Structure Doctrine?

1. It has limited the power of Parliament to amend the Constitution.
2. The Judiciary is the final authority in deciding the scope of Basic Structure.
3. It actively promotes the doctrine of judicial supremacy in India.

Select the correct answer using the codes given below:

- a) 1 only
- b) 1 and 2 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

In the Kesavananda Bharati case (1973), Supreme Court laid down a new doctrine of the ‘basic structure’ (or ‘basic features’) of the Constitution. It ruled that the constituent power of Parliament under Article 368 does not enable it to alter the ‘basic structure’ of the Constitution.

Statement 1 is correct: Supreme Court in various landmark cases has held that **certain provisions were beyond the amending power of Parliament as it affected the basic structure of the constitution**. Like in the Indira Nehru Gandhi case (1975), SC invalidated a provision of the 39th Amendment Act (1975) which kept the election disputes involving the Prime Minister and the Speaker of Lok Sabha outside the jurisdiction of all courts. Thus, Basic Structure Doctrine has set specific limits to Parliament’s power to amend the Constitution.

Statement 2 is correct: Basic Structure Doctrine places the **Judiciary as the final authority** in deciding if an amendment violates basic structure and **what constitutes the basic structure**. However, the Supreme Court is yet to define or clarify as to what constitutes the ‘basic structure’ of the Constitution.

Statement 3 is incorrect: The basic structure doctrine **promotes the theory of Constitutionalism** (doctrine that a government’s authority is determined by a body of laws or constitution) to prevent the damage to essence of Constitution of India by brute majority of the ruling majority. It promotes the concept of **‘Supremacy of Constitution’** (not Judicial Supremacy) by declaring that certain features of the Constitution cannot be amended by the Parliament.

Source: Chap 9.pmd (ncert.nic.in)Laxmikanth

Q.25) With reference to 'PM Gati Shakti', consider the following statements:

1. It is a scheme that exclusively focuses on road and railway infrastructure projects in India.
2. All the governmental clearances for the projects under the scheme will be granted through Prime Minister's Office.
3. The project will ensure last mile connectivity of infrastructure reducing the travel time for people.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 only
- c) 1 and 3 only
- d) 3 only

Ans) d

Exp) Option d is the correct answer.

PM Gati Shakti aims to institutionalize holistic planning for **major infrastructure projects**. The projects will be designed and executed with a common vision and will incorporate the infrastructure schemes of various ministries and state governments such as the Bharatmala road project, Sagarmala waterways plan, ports and the UDAN scheme.

Statement 1 is incorrect. PM Gati Shakti is **not limited to infrastructural development of rail and road projects**. It will include development of Economic Zones like textile clusters, pharmaceutical clusters, defence corridors, electronic parks, industrial corridors, agri zones will be covered to improve connectivity & make Indian businesses more competitive.

Statement 2 is incorrect. Under **PM Gati Shakti scheme**, the established portal will **highlight all the clearances that any new project would need**, based on its location. It allow stakeholders to apply for these clearances from the **relevant authority directly (not by PMO) on the portal**. The objective is to streamline the process and shorten the period required for clearances.

Statement 3 is correct. The **multi-modal connectivity** under the project will provide integrated and seamless connectivity for movement of people, goods and services from one mode of transport to another. It will facilitate the **last mile connectivity of infrastructure** and also reduce travel time for people.

PM Gati Shakti – National Infrastructure Master Plan - Explained, pointwise -ForumIAS Blog

Q.26) With reference to Indian Polity, the concept of 'Principled Distance' is related to:

- a) Judicial Activism and Parliamentary Approval
- b) Dual Polity Federal Structure
- c) Separation between religion and state
- d) Indestructible nature of States

Ans) c

Exp) Option c is the correct answer.

'Principled Distance' is a **new model of secularism**. The separation of government institutions and persons mandated to represent the state from religious institutions and religious dignitaries.

In India separation between religion and state did not mean their mutual exclusion but rather principled distance. It allows the **state to be distant from all religions so that it can intervene or abstain from interference**, depending upon which of these two would better promote liberty, equality and social justice.

Source: NCERT Class XI Indian Constitution at Work

Q.27) Consider the following statements regarding the 'Preamble of India':

1. It cannot be amended as it enjoys protection under Basic Structure doctrine.
2. It is a source of restriction on the powers of the Government of the country.
3. Both the preamble of the Constitution of the USA and India starts with 'We the people'.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 only
- c) 1 and 3 only
- d) 3 only

Ans) d

Exp) Option d is the correct answer.

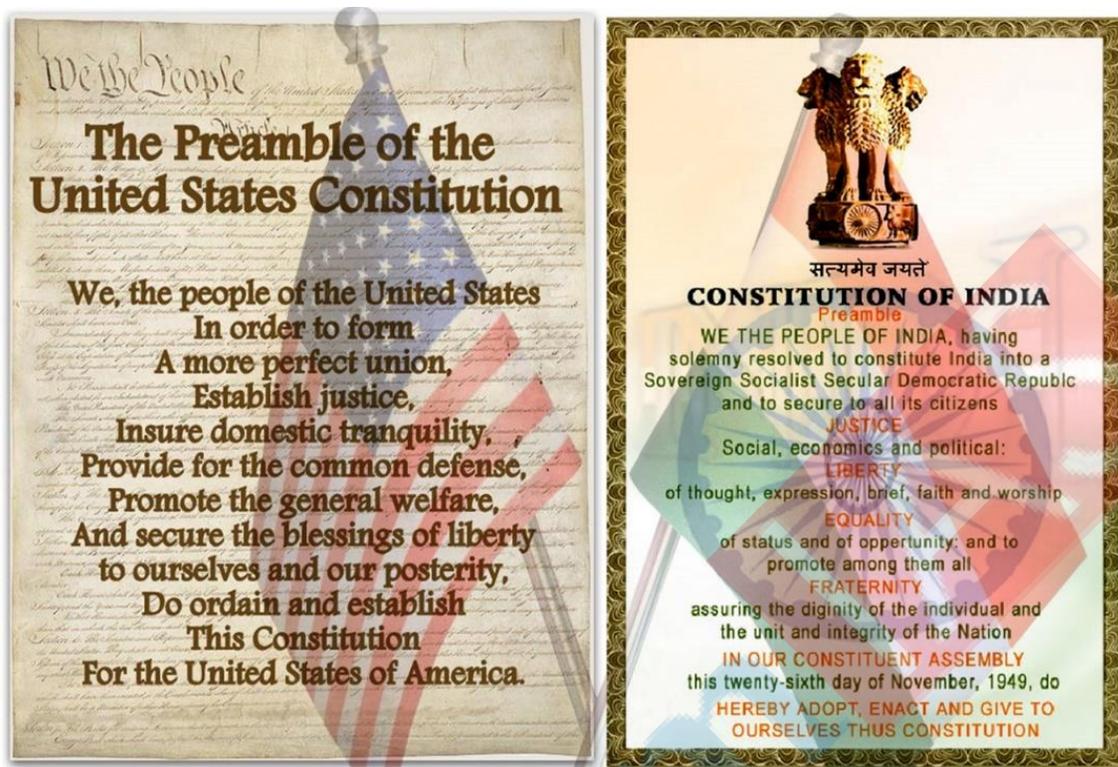

The Preamble to the Indian Constitution is based on the 'Objectives Resolution', drafted and moved by Pandit Nehru, and adopted by the Constituent Assembly. The term 'preamble' refers to the introduction or preface to the Constitution. It contains the summary or essence of the Constitution.

Statement 1 is incorrect: After the judgment of the Kesavananda Bharati case, it was **accepted that the preamble is part of the Constitution. So, as a part of the Constitution, it can be amended under Article 368 of the Constitution**, but the basic structure of the preamble cannot be amended. The 42nd Amendment Act, 1976 was the first act ever to amend the preamble of the Constitution. On December 18th, 1976, 'Socialist', 'Secular', and 'Integrity' were added to the preamble to protect economic justice and eliminate discrimination whatsoever.

Statement 2 is incorrect: The preamble shows that the **people of India are the source of authority**. It means power lies with the citizens to elect their representatives and they also have the right to criticize their representatives. According to Supreme Court in *Kesavananda Bharati Case*,

The **Preamble is not the supreme power or source of any restriction or prohibition** but it plays an important role in the interpretation of statutes and provisions of the Constitution.

Statement 3 is correct: Preamble of the Constitution the American Constitution was the first to begin with a Preamble. Many countries, including India, followed this practice. The preamble of the Constitution of the United States of America and India starts with '**We the people**'.

Source: Laxmikanth Chapter 4 Preamble of the Constitution
 Preamble of the Indian Constitution : Everything you need to know (ipleaders.in)

Q.28) For which of the following reasons, the Constitution of India provided for a single citizenship?

- To provide continuity to the federal provisions, which existed during British Colonial period.
- To avoid confusion between different rights enjoyed under State and Central units.
- To Save the financial resources required for separate Constitutions.
- To provide citizens with the same political and civil rights all over the country.

Ans) d

Exp) Option d is the correct answer.

The Constitution of India has adopted the system of single citizenship. There is only Indian Citizenship and no separate state citizenship. All citizens irrespective of the state in which they are born or reside enjoy the same rights all over the country. The other federal states like US, Switzerland and Australia have dual citizenship, that is, national citizenship as well as state citizenship.

Option a is incorrect: The reason for providing single citizenship was not to provide continuity to federal provisions.

Option b is incorrect: Dual citizenship does not create confusion but the problem of discrimination. In USA, each person is not only a citizen of USA but also of the particular state to which he belongs. Thus, he owes allegiance to both and enjoys dual sets of rights—one set conferred by the national government and another by the state government. This system creates the **problem of discrimination**, that is, a state may discriminate in favour of its citizens in matters like right to vote, right to hold public offices, right to practice professions and so on. This problem is **avoided in the system of single citizenship prevalent in India**.

Option c is incorrect: The issue of financial resources required for separate Constitutions was not of much significance. This is because financial resource is considered after agreeing on a particular philosophical framework. Here the single citizenship was opted.

Option d is correct: In India, the Constitution of India has introduced the **system of single citizenship** and provided uniform rights for the people of India to promote the feeling of fraternity and unity among them and to build an integrated Indian nation. All citizens irrespective of the state in which they are born or reside enjoy the **same political and civil rights of citizenship all over the country and no discrimination is made between them.**

Source: Indian Polity by Laxmikant – 6th Edition – Chapter 6 – Citizenship.

Q.29) With reference to constituent assembly, which of the following options correctly explains the criticism of it?

1. Members are not directly elected by people
 2. Nonfunctional as a legislative body
 3. Lack of representation to legal professionals
 4. Dominated by single political party
- Select the correct answer using the code given below:

- a) 1 only
- b) 1 and 4 only
- c) 2 and 3 only
- d) 2, 3 and 4 only

Ans) b

Exp) Option b is the correct answer.

On the recommendations of the **Cabinet Mission** which visited India in 1946, a sovereign body, the Constituent Assembly of India was formed to **draft a constitution for the country**. On 29th August 1947, under the **chairmanship of Dr. B.R. Ambedkar** the Constituent Assembly set up a Drafting Committee to prepare a Draft Constitution for India. The Constitution of India was adopted on 26 November 1949 and it came into force on 26 January 1950.

Statements 1 and 4 is correct

- 1) **The constituent assembly is not a Representative Body:** The critics have argued that the Constituent Assembly was not a representative body as its members were not directly elected by the people of India on the basis of universal adult franchise. Constituent Assembly was to be a partly elected and partly nominated body. Moreover, the **members were to be indirectly elected by the members of the provincial assemblies**, who themselves were elected on a limited franchise.
- 2) **The constituent assembly is dominated by Congress (Single Party):** The critics charged that the Constituent Assembly was dominated by the Congress party. Granville Austin, a British Constitutional expert, remarked: 'The Constituent Assembly was a one-party body in an essentially one-party country. The Assembly was the Congress and the Congress was India.'

Statements 2 and 3 are incorrect:

- 1) **The constituent assembly functioned as a Legislative body:** As per the Indian Independence Act of 1947, Assembly also became a legislative body. In other words, **two separate functions were assigned to the Assembly, that is, making of a constitution for free India and enacting of ordinary laws for the country**. These two tasks were to be performed on separate days. Thus, the Assembly became the first Parliament of free India (Dominion Legislature).
- 2) **The constituent assembly had a Lawyer-Politician Domination:** It is also maintained by the critics that the Constituent Assembly was **dominated by lawyers and politicians**. They pointed out that other sections of the society were not sufficiently represented. This, to them, is the main reason for the bulkiness and complicated language of the Constitution.

Source: M Laxmikant (chap 2- making of the constitution)

Q.30) Consider the following statements regarding 'Digital Gold':

1. It consists of digital certificates issued against holdings of the physical metal that can be redeemed in cash only.
2. The buying and selling of Digital Gold in India are regulated jointly by Reserve Bank of India and SEBI.
3. Returns on investment made in digital gold are exempted from short term and long-term capital gain tax.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) None of the Above

Ans) d

Exp) Option d is the correct answer.

Statement 1 is incorrect. Digital gold consists of **digital certificates issued against holdings of the physical metal**. These assets can be **traded digitally or redeemed in metal (not in cash)**. These are similar to **gold exchange-traded funds (ETFs)** and the government's own sovereign gold bonds. But unlike sovereign bonds, private digital gold certificates and gold ETFs are **not interest-bearing**.

Statement 2 is incorrect. Digital gold falls in a **regulatory grey zone** in certain key respects at the moment. The instrument itself **does not come directly under the purview of any financial sector regulator**, and it is not currently traded on recognised financial exchanges.

Statement 3 is incorrect. The holding period of the digital gold determines the amount of taxes an investor needs to pay. If digital gold is held for less than 36 months, returns are not taxable directly. **Long-term capital gains** from digital gold are taxed at **20% on returns** along with applicable surcharge and 4 per cent cess.

Q.31) Which of the following provisions of the Constitution of India have a bearing on Education?

1. Directive Principles of State Policy.
2. Rural and Urban Local Bodies.
3. Fifth Schedule
4. Sixth Schedule
5. Seventh Schedule

Select the correct answer using the codes given below:

- a) 1 and 2 only
- b) 3, 4 and 5 only
- c) 1, 2 and 5 only
- d) 1, 2, 3, 4 and 5

Ans) d

Exp) Option d is the correct answer.

All the below provisions of the Constitution of India, have a bearing on Education.

- 1) Directive Principles of State Policy - **Article 45**: To provide **early childhood care and education** for all children until they complete the age of six years. 86th Amendment changed the subject-matter of Article 45 and made elementary education a fundamental right under Article 21 A.

- 2) Rural and Urban Local Bodies – Education is one of the subject matters under **Schedules XI and XII**. It empowers local bodies to take steps to improve educational standards in their regions.
- 3) Fifth and Sixth Schedule – The Fifth and Sixth Schedule of the constitution provide protection to the tribals on account of their economic disadvantages so that they could maintain their tribal identity without any coercion or exploitation. This includes **promotion of education** in their own language for their upliftment.
- 4) Seventh Schedule – Under this, **education** is put under the **concurrent list** which allows both centre and states to make laws on the subject.

Source) M Laxmikanth, UPSC 2012

Q.32) Which one of the following is a reason why Indian Constitution is described as the blend of rigidity and flexibility?

- a) Both the Central and the state governments can initiate the amendment to the Constitution
- b) Ordinary Legislative power of the Parliament is superior to its Constituent power.
- c) Amendments to Constitution can be made both through a special procedure and through the manner in which ordinary laws are enacted.
- d) Private members cannot introduce constitutional amendment bill.

Ans) c

Exp) Option c is the correct answer.

Constitutions are classified into rigid and flexible. **A rigid Constitution is one that requires a special procedure for its amendment, as for example, the American Constitution. A flexible constitution, on the other hand, is one that can be amended in the same manner as the ordinary laws are made**, as for example, the British Constitution. The Constitution of India is neither rigid nor flexible but a synthesis of both.

The Indian Constitution combines both the characteristics of rigidity and flexibility through different ways of amending the Constitution. Article 368 provides for two types of amendments i.e.; some provisions can be amended by a special majority of the Parliament and some other provisions can be amended by a special majority of the Parliament and with the ratification by half of the total states.

Option a is incorrect: In India, **the power to initiate an amendment to the Constitution lies only with the Centre**. In US, the states can also propose an amendment to the Constitution. An amendment of the Constitution can be initiated only by the introduction of a bill for the purpose in either House of Parliament and not in the state legislatures

Option b is incorrect: Constituent power is superior to ordinary legislative power. Unlike the British Parliament which is a sovereign body (in the absence of a written constitution), the powers and functions of the Indian Parliament and State legislatures are subject to limitations laid down in the Constitution.

Option d is incorrect: Constitutional Amendment Bill in India **can be introduced either by a minister or by a private member** and does not require prior permission of the president.

Source: Laxmikanth Chapter 10 Amendment of the Constitution

NCERT Class XI Indian Constitution at Work

Q.33) Which of the following correctly outlines the principles of Indian socialism?

1. Nationalisation of all means of production
2. Creation of no-class social system
3. Emphasis on welfare policies
4. No use of force to implement socialist ideas
5. Abolition of Private property through peaceful means

Select the correct answer using the codes given below:

- a) 1, 2 and 3 only
- b) 3 and 4 only
- c) 2, 3 and 4 only
- d) 1, 2, 3 and 5 only

Ans) b

Exp) Option b is the correct answer.

Socialism is a **political and economic system** in which the means of production and property have public ownership and are not controlled by the government. India has always strived to make itself a socialist and welfare state right from the days of freedom struggle. The idea of socialism and welfare have originated from western ideologies but have obtained a new identity in India.

Option 2 and 4 are correct: The Indian idea of Socialism includes:

- 1) **Emphasis on welfare:** Social ideas in India is heavily leaning towards welfare of backward and poor section who are unable to lead a normal life. The state will take steps to ensure that they will have a good chance of living a normal life. This is ensured by **providing food security, health services and free education** in the form of subsidies and schemes.
- 2) **No use of force to implement Socialism:** In other countries we observe that the state has resorted to the use of violence and force for implementing socialist ideas, which has created clashes in society. In India the socialist ideas have been used as a **do-good method rather than a political ideology**.
- 3) **Balance between capitalism and Socialism:** Typical socialist states regulate the production and distribution of resources. This will mean that every industry and prosperity is government owned and there is no role for private individuals. In India there is a fine balance between state Socialism and private capitalism so that every individual gets opportunity to prosper.

Option 1, 2 and 5 are incorrect:

- 1) Indian brand of socialism is a '**democratic socialism**' and **not a 'communistic socialism'** (also known as 'state socialism'. It does not involve the **nationalisation of all means of production and distribution** and the abolition of private property. Democratic socialism, on the other hand, holds faith in a '**mixed economy**' where both **public and private sectors co-exist** side by side.
- 2) Indian socialism does not strive for destruction of class system, but it rather **promotes the positive system of co-existence among various classes** through affirmative actions like reservation polices to bring equality among various sections of the society.

Source: What is Socialism? Definition of Socialism, Socialism Meaning - The Economic Times (indiatimes.com)

<https://frontline.thehindu.com/cover-story/what-does-socialism-in-india-mean/article9982744.ece>

Q.34) In the context of Preamble of India, what does the term 'Democratic' indicates?

- a) A form of government where each organ of governance respects the powers and jurisdiction of the others.
- b) A political unit where supreme power of governance is vested in the people.
- c) A type of government where the regional units derive their power and authority from the national government.
- d) A system characterized by the absence of restraints and special privileges on the activities of individuals.

Ans) b

Exp) Option b is the correct answer.

A democratic polity, as stipulated in the Preamble, is **based on the doctrine of popular sovereignty, that is, possession of supreme power by the people.**

Democracy is of two types—direct and indirect. In direct democracy, the people exercise their supreme power directly as is the case in Switzerland. In indirect democracy, the representatives elected by the people exercise supreme power and thus carry on the government and make the laws. This type of democracy, also known as representative democracy.

The Indian Constitution provides for representative parliamentary democracy under which the executive is responsible to the legislature for all its policies and actions.

Q.35) Recently, Indian Scientists have indigenously developed a luminescent security ink from nano-materials. In this context, which one of the following statements correctly describe the usage of this ink?

- It will be useful in painting the defense equipment's for their better concealment in war fields.
- It will be helpful in combating counterfeiting of currency notes and medicines in the country.
- It will replace the existing ink used during voting process and reduce the malpractice of counterfeit voting in India.
- It will be used for concealing the confidential files of various intelligence agencies in the country.

Ans) b

Exp) Option b is the correct answer.

Indian Scientists have indigenously developed a **highly stable and non-toxic luminescent security ink** from nano-materials that will help **combat counterfeiting of currency notes, medicine, certificates, documents and branded goods.**

Indian Scientists have developed a luminescent (not concealing) security ink from nano-materials. This ink is **highly stable, less toxic** and has excitation-dependent luminescent properties. Hence, this ink has huge potential to combat counterfeiting and the common man can find out easily whether the document or product is original or fake.

Currently, Luminescent ink is used as covert tags to combat counterfeiting. Most of the security inks available today are based on luminescent materials that absorb a high-energy photon and emit low-energy photons, technically called downshifting. This covert tag is invisible under daylight, and it becomes visible under UV light. However, these single emission-based tags are prone to replication.

Source: Security ink based on nano-materials that spontaneously emits light can combat counterfeiting - ForumIAS Blog

Q.36) Which of the following statements with reference to the Constituent Assembly of newly independent India is correct?

- B R Ambedkar was the Chief Draftsman of Constitution in the Assembly.
- None of the members of the Assembly were Women.
- The Assembly adopted the Elephant as its symbol/seal.
- S Varadachari was the legal advisor to the Assembly.

Ans) c

Exp) Option c is the correct answer.

Option a is incorrect: S N Mukherjee (not Dr Ambedkar) was the chief draftsman of the Constitution in the Constituent Assembly. Hence this statement is **incorrect**. Dr **B R Ambedkar** was the **Chairman** of the **Drafting Committee** of the Assembly.

Option b is incorrect: There were 15 female members in the Constituent Assembly.

Option c is correct: The **Elephant** was chosen as the **symbol** to **represent** the **Constituent Assembly** in its **seal**. Hence this statement is **correct**.

Option d is incorrect: **Sir B N Rau** was appointed as the **constitutional/ legal advisor** to the Constituent Assembly. Hence this statement is **incorrect**.

S Varadachari was the **head** of the Assembly's **Ad Hoc Committee on the Supreme Court**. Also, he was **not a member of the Assembly**.

Source: Indian Polity by Laxmikanth, 5th edition, Ch-2, Pg-2.2, 2.4, 2.5

Q.37) With reference to various cases related to basic structure doctrine, consider the following statements:

1. The Keshvananda Bharti case upheld for first time that the Parliament cannot take away any of the Fundamental Rights.
2. The Indira Gandhi vs. Raj Narain case held judicial review to be part of the Basic structure doctrine.
3. The Minerva Mills case upheld the balance between Fundamental Rights and Directive Principles as part of the Basic structure doctrine.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 3 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

The “Basic Structure” doctrine is a doctrine made from judicial innovation specific to Indian context. The doctrine prescribes that certain features of the constitution are essential for the functioning of the state. Such features are beyond the limits of the amending powers of the Parliament. The word “Basic Structure” is not mentioned in the Constitution of India.

Statement 1 is incorrect: In the **Golak Nath case** (1967), the constitutional validity of the Seventeenth Amendment Act (1964), which inserted certain state acts in the Ninth Schedule, was challenged. Under the case Supreme Court ruled that the **Fundamental Rights are given a ‘transcendental and immutable’ position** and hence, the **Parliament cannot abridge or take away any of these rights**. The Doctrine of Basic structure though arose during Keshvanaand Bharti case, 1973.

Statement 2 is correct: In **Indira Gandhi v. Rajnarain case, 1975**, the Supreme Court added rule of Law, Free and Fair Elections and **Judicial Review** to the list of Basic structure doctrine.

Statement 3 is correct: In **Minerva Mills Case, 1980**, the Supreme Court added limited power of government to amend Constitution, Judicial Review and Harmony and formed a **balance between Fundamental Rights and Directive Principles** to the list of Basic structure doctrine.

Knowledge Base:

In Kesavananda Bharti vs. State of Kerala case, the Supreme Court stated that the Parliament has power to amend any provision of the constitution, but doing so, **the basic structure of the constitution is to be maintained**.

The following elements were recognizes as part of the Basic structure doctrine during this case: Supremacy of the Constitution, Republican and democratic form of government, Secular character of the Constitution, Separation of powers between the legislature, executive and the judiciary, Federal character of the Constitution, The mandate to build a welfare state, Unity and integrity of the nation, Sovereignty of the country, Freedoms secured to the citizens and Equality of status and the opportunity.

Source: Indian Polity by Laxmikant – 6th Edition – Chapter 11 – Basic Structure of the Constitution.

Q.38) Consider the following pairs of features of the Indian Constitution and the countries from which they were borrowed:

Feature	Source/Borrowed From
1. Cabinet system	United States
	Constitution
2. Vesting of residual powers with the Centre	Canadian Constitution
3. Advisory jurisdictions of the Supreme court	French Constitution
4. Freedom of trade, commerce and inter-course	Japanese Constitution

How many pairs given above are correctly matched?

- Only one pair
- Only two pairs
- Only three pairs
- All four pairs

Ans) a

Exp) Option a is the correct answer.

The Constitution of India has borrowed many features from other countries.

Pair 1 is incorrectly matched. Cabinet system is derived from the British constitution. Other features borrowed from British constitution - Parliamentary government, Rule of Law, legislative procedure, single citizenship, cabinet system, prerogative writs, parliamentary privileges and bicameralism

Pair 2 is correctly matched. Vesting of residual powers in the Centre are derived from the Canadian constitution.

Pair 3 is incorrectly matched. Advisory jurisdiction of Supreme court is derived from the Canadian constitution. Other features borrowed from Canada - Federation with a strong Centre, vesting of residuary powers in the Centre, appointment of state governors by the Centre, and advisory jurisdiction of the Supreme Court.

Pair 4 is incorrectly matched. Features borrowed from Australian Constitution: Concurrent List, **freedom of trade, commerce and inter-course**, and joint sitting of the two Houses of Parliament.

Knowledge Base: US Constitution - Fundamental rights, independence of judiciary, judicial review, impeachment of the president, removal of Supreme Court and high court judges and post of vice-president. French Constitution - Republic and the ideals of liberty, equality and fraternity in the Preamble.

Source: NCERT Class-XI Chapter-1 Constitution : Why and How? Page-22

Laxmikanth 6th edition Chapter-3 Salient features of the constitution page-3.14

Q.39) If the government decides to provide citizenship to a selected group of people based on religion, then such action will violate which of the following Fundamental Right?

- Right to equality
- Right to life and personal liberty
- Right against exploitation
- Right to freedom of religion

Ans) a

Exp) Option a is the correct answer.

Option a is correct: Article 14 says that the **State shall not deny to any person equality before the law or the equal protection of the laws** within the territory of India.

The discrimination in providing citizenship based on religion, by government, is an infringement of Article 14 where the government discriminated on the basis of religion thereby violating equality amongst Indians.

Option b is incorrect: Article 21 declares that no person shall be deprived of his life or personal liberty except according to procedure established by law. This right is available to both citizens and non-citizens. So, there is no violation of Article 21.

Option c is incorrect: Right against exploitation (enshrined in Article 23 and 24) prohibits traffic in human beings and forced labour and employment of children in factories, etc. This right is available to both citizens and non-citizens. As such it is not violated in the given case.

Option d is incorrect: Right to freedom of religion provides for the four rights as:

- (a) Freedom of conscience and free profession, practice and propagation of religion (Article 25).
 - (b) Freedom to manage religious affairs (Article 26).
 - (c) Freedom from payment of taxes for promotion of any religion (Article 27).
 - (d) Freedom from attending religious instruction or worship in certain educational institutions (Article 28).
- These are available to both citizens and non-citizens. None of them are violated if the government decides to give citizenship to a select group of citizens based on religion.

Source: Indian Polity by Laxmikant – 6th Edition - Chapter 7 - Fundamental Rights.

Q.40) Consider the following statements regarding ‘Global Pact on Fisheries Subsidies’ under WTO (WTO Agreement on Fisheries Subsidies):

1. WTO negotiations on fisheries subsidies were launched in 2001 at the Doha Ministerial Conference.
2. India has recently proposed that WTO members engaged in distant water fishing should stop providing subsidies for 25 years for fishing activities beyond their EEZ.
3. The Agreement on Fisheries Subsidies (Agreement) at the WTO will prohibit subsidies from being provided for Illegal, Unreported and Unregulated (IUU) fishing.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

Statement 1 is correct. WTO **negotiations on fisheries subsidies were launched in 2001** at the Doha Ministerial Conference, with a mandate to “clarify and improve” existing WTO disciplines on fisheries subsidies. The creation of fisheries subsidies disciplines has been the subject of work in the WTO's Negotiating Group on Rules since the **Doha Development Agenda** was launched in 2001, with an elaboration of the negotiating mandate agreed in 2005.

Statement 2 is correct. Recently, India has moved amendments to the draft of the proposed agreement on fisheries subsidies in WTO. It is meant to **make the accord more balanced by curbing in huge grants being given out by rich nations** for exploitative fisheries.

India has proposed that the distant water fishing nations **stop subsidising fishing in distant waters beyond their exclusive economic zones (EEZ) for 25 years.**

Statement 3 is correct. The Agreement on Fisheries Subsidies (Agreement) at the WTO Ministerial meeting to prohibit subsidies from being provided for Illegal, Unreported and Unregulated (IUU) fishing and overfished stocks.

Developing Countries and Least Developed Countries (LDCs) to have a transition period of two years from the date of entry into force of this Agreement.

The Agreement to eliminate subsidies granted to fishing vessels or fishing operators engaged in IUU fishing. No prohibition on providing subsidies for fishing regarding overfished stocks as long as such subsidies are implemented to rebuild the stock to a biologically sustainable level.

Q.41) A constitutional government by definition is a:

- government by legislature
- popular government
- multi-party government
- limited government

Ans) d

Exp) Option d is the correct answer.

A constitutional government by definition is a limited government. A constitutional government is the one that is defined by the constitution of the country. Constitution of a country is supreme law of the land; it is empowered with the sovereign authority of the people (we the people) by the framers and the consent of the legislatures of the states. It is the source of all government powers, and also **provides important limitations on the government** that protect the fundamental rights of citizens.

Source) UPSC 2020,

<https://www.britannica.com/topic/political-system/Constitutional-government>

Q.42) With reference to the comparison between the Government of India Act, 1919 and the Government of India Act, 1935, consider the following statements:

- Both the Acts provided for the establishment of Dyarchy, but at different levels of federal polity.
- The Act of 1919 provided for indirect elections to central legislature, whereas the Act of 1935 provided for direct elections.
- While the Act of 1919 introduced Bicameralism at the Centre, the Act of 1935 introduced it in selected Provinces as well.

Which of the statements given above are correct?

- 1 and 2 only
- 2 and 3 only
- 1 and 3 only
- 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

Statement 1 is correct: The **Government of India Act of 1919** introduced the system of **Dyarchy (Dual Rule)**. The **Act of 1919** introduced it at **Provincial level**, while the **Act of 1935** introduced it at **Central level**. Hence this statement is **correct**, as **both Acts** provided for the system of **Dyarchy**, but **at different levels**. The system of **Dyarchy** involved the **division of legislative subjects** into two lists - **Reserved** and **Transferred** Subjects. **Reserved** Subjects would be administered by the Governor General and his **Executive Council without being responsible** to the Legislative Council. On the other hand, **Transferred**

Subjects were to be administered by the Governor General with the aid of **popularly elected ministers responsible** to the Legislative Council.

Statement 2 is incorrect: Both the Acts, not just the Act of 1935, provided for Direct Elections, both at Centre and in Provinces. Hence this statement is **incorrect**.

Elections were first officially introduced in the Indian Council Act, 1907. Those elections were however held **indirectly**, and the **elected officials** were in a **minority**.

In the **GoI Act, 1919 Direct Elections** were **introduced for the first time** and the **majority of members** of the legislature were **chosen by election**. This principle **continued in the GoI Act, 1935** as well.

The only difference in this regard between both the Acts is that the scope of franchise (right to elect) was granted to a slightly wider population in GoI Act, 1935 than the Act of 1919.

Statement 3 is correct: Bicameralism was introduced for the first time in the Government of India Act, 1919. This act introduced Bicameralism at the **Centre**. Bicameralism means that the Legislature would **consist of two Houses**. So, the Indian Legislative Council was replaced by the Council of State (Upper House) and the Legislative Assembly (Lower House).

The **Act of 1935 kept the Central Legislature bicameral, and also introduced this arrangement in select British Provinces** as well (**Bengal, Bombay, Madras, Bihar, Assam, United Provinces**). Hence this statement is **correct**.

Source: Indian Polity by Laxmikanth, 5th edition, Ch-1, Pg-1.6, 1.7, 1.8

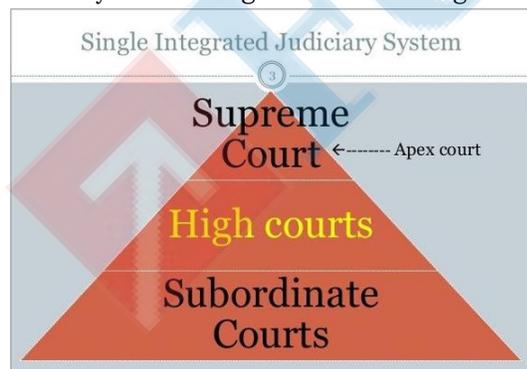

Q.43) Why Indian judiciary has been described as an integrated judiciary system?

- High court enforces only state laws of concerned respective states.
- The laws of concurrent list are only enforced by the Supreme court.
- Supreme Court has replaced the British Privy Council as the highest court of appeal.
- The decisions made by higher courts are binding on the lower courts.

Ans) d

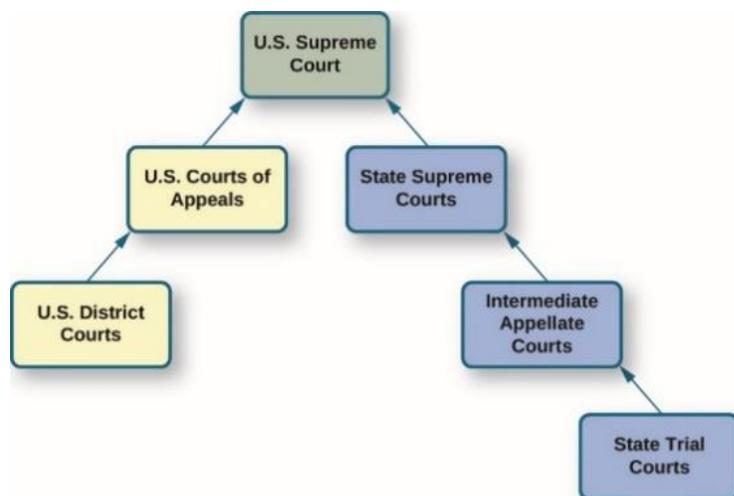

Exp) Option d is the correct answer.

The Indian Constitution has established an integrated judicial system with the Supreme Court at the top and the high courts below it. Under a high court (and below the state level), there is a hierarchy of subordinate courts, that is, district courts and other lower courts. Integrated judicial system means that **decisions made by higher courts are binding on the lower courts**. All the lower courts from the Gram Panchayat to the High Courts are integrated into the Supreme Court of India.

Integrated Judicial system

This single system of courts, adopted from the Government of India Act of 1935, **enforces both Central laws as well as the state laws**. In USA, on the other hand, the federal laws are enforced by the federal judiciary and the state laws are enforced by the state judiciary.

US Supreme court.

Option a and b are incorrect: Features of Indian judicial system is that single system of courts, enforces both Central laws as well as the state laws. **It does not exclusively enforce state laws or central laws or laws based on the concurrent list.**

Option c is incorrect: Though the statement is correct but are not correctly explaining the reason behind why Indian judiciary system are integrated. **It is the reason behind greater power of the jurisdiction of the Supreme Court that of its predecessor.**

Source: Laxmikant Ch 26 (Supreme court)

Q.44) With reference to the 'Overseas Citizen of India Cardholders', consider the following statements:

1. They are not eligible for election as the President of India.
2. They can undertake any type of research activity within India without any permission.
3. A citizen of Bangladesh cannot be registered as an Overseas Citizen of India Cardholder.

Which of the statements given above is/are **incorrect**?

- a) 1 only
- b) 2 and 3 only
- c) 2 only
- d) 1 and 3 only

Ans) c

Exp) Option c is the correct answer.

A foreign national, who was eligible to become citizen of India on 26.01.1950 or was a citizen of India on or at anytime after 26.01.1950 or belonged to a territory that became part of India after 15.08.1947 is eligible for registration as Overseas Citizen of India (OCI).

- 1) Whereas a Person of Indian Origin (PIO) means a foreign citizen (except a national of Pakistan, Afghanistan, Bangladesh, China, Iran, Bhutan, Sri Lanka and Nepal) and fulfilling certain conditions.

PIO category was merged with OCI category in 2015.

Statement 1 is correct: An overseas citizen of India cardholder shall not be entitled to the following rights (which are conferred on a citizen of India)–

- (a) He shall not be entitled to the right to equality of opportunity in matters of public employment.
- (b) **He shall not be eligible for election as President.**
- (c) He shall not be eligible for election as Vice-President.
- (d) He shall not be eligible for appointment as a Judge of the Supreme Court.

- (e) He shall not be eligible for appointment as a Judge of the High Court.
- (f) He shall not be entitled for registration as a voter.
- (g) He shall not be eligible for being a member of the House of the People or of the Council of States.
- (h) He shall not be eligible for being a member of the State Legislative Assembly or the State Legislative Council.
- (i) He shall not be eligible for appointment to public services and posts in connection with affairs of the Union or of any State except for appointment in such services and posts as the Central Government may specify.

Statement 2 is incorrect: They can undertake all activities **except research work for which special permission is required** from the Indian Mission/Post/ FRRO concerned.

Statement 3 is correct: No person, who or either of whose parents or grandparents or great grandparents is or had been **a citizen of Pakistan, Bangladesh or such other country as the Central Government may, specify, shall be eligible for registration as an Overseas Citizen of India Cardholder.**

Source: Indian Polity by Laxmikant – 6th Edition – Chapter 6 – Citizenship.

https://www.mea.gov.in/Portal/CountryQuickLink/703_PIO-OCI.pdf

Q.45) Consider the following statements regarding ‘Indian Pharmacopoeia Commission’:

1. The commission is responsible for giving approval for conducting clinical trials in India.
2. It promotes rational use of generic medicines by publishing the National Formulary of India.
3. It is an autonomous institution under the Ministry of Health and Family Welfare.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 3 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

Statement 1 is incorrect. Indian Pharmacopoeia Commission aims to promote **rational use of medicines** in the country. It set standards of drugs in the country and update regularly the standards of drugs commonly required for the treatment of diseases prevailing in this region.

Under the Drugs and Cosmetics Act, **Central Drugs Standard Control Organisation** is responsible for **approval of Drugs, Conduct of Clinical Trials**, laying down the standards for Drugs, control over the quality of imported Drugs in the country.

Statement 2 is correct. Indian Pharmacopoeia Commission publish official documents for improving the Quality of Medicines by way of adding new and updating existing monographs in the form of Indian Pharmacopoeia (IP). It promotes **rational use of generic medicines** by publishing the **National Formulary of India**. The NFI will be very beneficial for Clinicians and Healthcare professionals while prescribing the medicines to the patients.

Statement 3 is correct. Indian Pharmacopoeia Commission (IPC) is an **autonomous institution of the Ministry of Health and Family Welfare**, Government of India. Recently, Union Minister for Health and Family Welfare has launched the Sixth Edition of the National Formulary of India (NFI).

Source: Union Health Minister launches the Sixth Edition of National Formulary of India (NFI) -ForumIAS Blog

home (cdsco.gov.in)

Q.46) Preamble describe India as a sovereign nation. What does this mean?

1. No internal groups or any external authority could undermine the authority of the Indian government.
2. The laws made in India are only limited by the international laws set by United Nations Organisation.
3. India can neither acquire a foreign territory nor cede a part of its territory in favour of a foreign state.

Select the correct answer using the code given below:

- a) 1 only
- b) 2 and 3 only
- c) 1 and 2 only
- d) 3 only

Ans) a

Exp) Option a is the correct answer.

Preamble of India declares India to be of a **sovereign**, socialist, secular democratic and republican polity. The term Sovereignty, in political theory, imply the ultimate overseer, or authority, in the decision-making process of the state and in the maintenance of order.

Statement 1 is correct: India is a sovereign state. It means that India is a **supreme power and no internal groups or the external authority could undermine the authority of the Indian government**. As a sovereign state, India is free from any kind or form of foreign interference in its domestic affairs.

Statement 2 is incorrect: Though in 1949, India declared the continuation of her full membership of the Commonwealth of Nations and accepted the British Crown as the head of the Commonwealth, this extra-constitutional declaration does not affect India's sovereignty in any manner. Further, **India's membership of the United Nations Organisation (UNO) also in no way constitutes a limitation on her sovereignty**.

Statement 3 is incorrect: Being a sovereign state, **India can either acquire a foreign territory or cede a part of its territory in favour of a foreign state**. Article 2 empowers the Parliament to 'admit into the Union of India, or establish, new states on such terms and conditions as it thinks fit'. Thus, Article 2 grants two powers to the Parliament: (a) the power to admit into the Union of India new states; and (b) the power to establish new states.

Source: Laxmikanth Chapter 4 Preamble of the Constitution

Q.47) Which of the following is the correct description of the term 'citizen' in the context of India?

- a) A person enjoying full and equal membership of the Indian state.
- b) Every person living and working in India.
- c) A person enjoying rights under the Constitution of India.
- d) A person who took birth in the territory of India.

Ans) a

Exp) Option a is the correct answer.

Option a is correct: **Citizenship refers to a full and equal membership of a political community**, i.e. a political identity to an individual by its state.

Option b is incorrect: **Not every person living and working in India is its citizen**. Only those who have acquired Indian citizenship as per the provisions of the Citizenship Act, 1955 are considered as citizens. Many people come from other nations to work in India and are called foreigners or migrants.

Option c is incorrect: A citizen in India enjoys rights provided by the Constitution. In some cases, **even a foreigner enjoys some Fundamental Rights**. Some Fundamental Rights are available for citizens and foreigners alike are: Article 14, 20-28.

Option d is incorrect: Not every person who took birth on the territory of India can be its citizen. Illegal migrants are the example who are not considered as citizens even if born in India. The children of foreign diplomats posted in India and enemy aliens cannot acquire Indian citizenship by birth.

Source: Indian Polity by Laxmikant – 6th Edition – Chapter 6 – Citizenship.

<https://ncert.nic.in/textbook.php?keps1=6-10>

Q.48) With reference to the Constitution and its framework, consider the following statements:

1. A written or unwritten constitution needs to exist for a country to be called a nation.
2. A constitution specifies who has the power to make decisions in a society.
3. A constitution provides a set of basic rules that allow for minimal coordination amongst members of a society.
4. A constitution provides a new identity to its citizens.

Which of the statements given above are correct?

- a) 1, 2 and 3 only
- b) 2, 3 and 4 only
- c) 1, 3 and 4 only
- d) 1, 2, 3 and 4

Ans) b

Exp) Option b is the correct answer.

A constitution is the basic principles and laws of a nation, state, or social group that determine the powers and duties of the government and guarantee certain rights to the people in it.

Statement 1 is incorrect: A nation is a group of people who have a strong sense of unity and common consciousness. Common territory, common race, common religion, common language, common history, common culture and common political aspirations are the elements which help the formation of a nation, and yet none of these is an absolutely essential element. Constitution is not necessary for an entity to be called a nation.

For a democratic nation, either written or unwritten Constitution needs to exist.

Statement 2 is correct: A function of a **constitution** is to **specify who has the power to make decisions in a society**. It decides how the government will be constituted. It specifies the basic allocation of power in a society. It decides who gets to decide what the laws will be. In principle, this question, which gets to decide, can be answered in many ways: in a monarchical constitution, a monarch decides; in some constitutions like the old Soviet Union, one single party was given the power to decide. But in democratic constitutions, broadly speaking, the people get to decide.

Statement 3 is correct: Another function of a **constitution** is to provide a set of **basic rules** that allow for **minimal coordination amongst members of a society**. Any group will need some basic rules that are publicly promulgated and known to all members of that group to achieve a minimal degree of coordination. But these rules must not only be known, they must also be enforceable. Saying that the rules are legally enforceable gives an assurance to everybody that others will follow these, for if they do not do so, they will be punished.

Statement 4 is correct: A **constitution expresses the fundamental identity** of a people. It is by agreeing to a basic set of norms about how one should be governed, and who should be governed that one forms a collective identity. One has many sets of identities that exist prior to a constitution. But by agreeing to certain basic norms and principles one constitutes one's **basic political identity**. It defines the fundamental values that we may not trespass. So, the constitution also gives one a **moral identity**. Different nations embody different conceptions of what the relationship between the different regions of a nation and the central government should be. This relationship constitutes the **national identity** of a country.

Source: <https://ncert.nic.in/textbook/pdf/keps201.pdf>

Q.49) In the context of Indian constitution, the term ‘state’ includes-

- A politically organized territory ruled by a centralized government.
- Executive and Legislature of the Union and all the local authorities.
- An area of land that forms an independent political unit.
- Defined territory that forms a community with shared culture.

Ans) b

Exp) Option b is the correct answer.

Under the Indian constitution, **Article 12 defines the term ‘State’ as used in different Articles of Part III of the Constitution.** The framers of the Constitution used the words ‘the State’ in a wider sense than what is understood in the ordinary or narrower sense. It does not merely mean the states in the Union.

It says that unless the context otherwise requires the term ‘State’ includes the following; -

- The Government and Parliament of India, i.e., Executive and Legislature of the Union.
- The Government and Legislature of each State, i.e., Executive and Legislature of State.
- All local and other authorities within the territory of India.**
- All local and other authorities under the control of the Government of India.

Option a is incorrect: This statement defines the term ‘state’ in the context of the discipline of Political Science. But this is not the definition of term ‘state’ that is defined by Indian constitution.

Option c is incorrect: This statement defines the term nation. A nation is a community of people formed on the basis of a common language, territory, ethnicity etc.

Option d is incorrect: A defined territory that forms a community with shared culture and ruled by sovereign body define the term ‘country’.

M laxmikant (Ch 5 – Union and territory)

Q.50) Consider the following statements regarding ‘High Ambition Coalition (HAC) for Nature and People’:

- It is an informal group with the aim of ensuring ethical use of Artificial Intelligence (AI).
- One of its objectives is to prevent the loss of species and vital ecosystems.
- India is the first BRICS country to join the High Ambition Coalition (HAC) for Nature and People.

Which of the statements given above is/are correct?

- 1 and 2 only
- 2 and 3 only
- 3 only
- 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

Statement 1 is incorrect. The High Ambition Coalition (HAC) is an informal group of approximately 61 countries within the UN Framework Convention on Climate Change (UNFCCC) **committed to advancing progressive proposals on climate ambition.** It is not related to Artificial Intelligence (AI). The HAC was founded by the Republic of the Marshall Islands in 2014 with the **aim of ensuring the Paris Agreement, adopted in 2015, was as ambitious as possible.**

Statement 2 is correct. HAC coalition does **not aim to mobilise any amount** for development of climate mitigation technologies. The coalition **aims to promote an international agreement to protect at least 30 % of the of world’s land and ocean by 2030** (30×30 target).

The 30×30 target is a **global target** that aims to halt the **accelerating loss of species and protect vital ecosystems** that are the source of our economic security.

Statement 3 is correct. India is the **first BRICS country to join** the High Ambition Coalition (HAC) for Nature and People. At present, the group has more than 70 countries encouraging the adoption of the global goal to protect 30×30. The members of HAC currently include a mix of countries in the global north and south. These include European, Latin American, Africa and Asia countries are among the members.

High Ambition Coalition for Nature and People – HAC for Nature and People

Q.1) A legislation which confers on the executive or administrative authority an unguided and uncontrolled discretionary power in the matter of application of law violates which one of the following Articles of the Constitution of India?

- a) Article 14
- b) Article 28
- c) Article 32
- d) Article 44

Ans) a

Exp) Option a is the correct answer.

Article 14 of Indian Constitution says that the State shall not deny to any person **equality before the law** or the equal protection of the laws within the territory of India. The concept of 'equality before law' is an element of the concept of 'Rule of Law'. This concept has the following three elements or aspects:

- 1) Absence of arbitrary power
- 2) Equality before the law, that is, equal subjection of all citizens to the ordinary law of the land
- 3) The constitution is the result of the rights of the individual

The first and the second elements are applicable to India. This means 'equality before law' under Article 14 connotes the absence of arbitrary power with the authorities. Thus, when a legislation confers uncontrolled discretionary powers on any authority, it tends to violate the article 14 of the constitution.

Option b is incorrect. Article 28 is related to the **right to freedom of religion**. It provides that no religious instruction shall be provided in any educational institution wholly maintained out of State funds. Further, no person attending any educational institution recognized by the State or receiving aid out of State funds shall be required to attend any religious instruction or worship in that institution without his consent.

Option c is incorrect. Article 32 confers the right to remedies for the enforcement of the fundamental rights of an aggrieved citizen. Article 32 affirms the **right to move the Supreme Court if a fundamental right is violated**. Under this article, the Supreme Court can issue writs for the enforcement of any of the fundamental rights of the citizens.

Option d is incorrect. Article 44 provides for one of the Directive Principles of State Policy. Article 44 says that the "State shall endeavor to secure for the citizens a **uniform civil code** throughout the territory of India".

Source) UPSC CSE 2021

Q.2) According to Article 12 of Indian Constitution, which of the following are included in the definition of 'state'?

1. Gram Panchayat
2. Life Insurance Corporation
3. State Legislature
4. Political Parties
5. Judicial proceedings of the Supreme Court

Select the correct answer using the codes given below:

- a) 1, 2 and 3 only
- b) 1, 3 and 5 only
- c) 2, 3 and 4 only
- d) 1, 2, 3, 4 and 5

Ans) a

Exp) Option a is the correct answer.

Article 12 of Indian Constitution is a gateway provision for Part III on Fundamental Rights, and defined the term 'State' used throughout the Part. Under Indian constitution, the term 'State' has been used in different provisions concerning the fundamental rights. It is defined in a wider sense so as to include all its agencies. It is the actions of these agencies that can be challenged in the courts as violating the Fundamental Rights.

Option 1, 2 and 3 are correct: Article 12 has defined the term for the purposes of Part III. According to it, the State includes the following:

(a) Government and Parliament of India, that is, executive and legislative organs of the Union government.

(b) Government and **legislature of states**, that is, executive and legislative organs of state government.

(Hence Statement 3 is correct)

(c) **All local authorities**, that is, municipalities, district boards, improvement trusts, **gram panchayats** etc.

(Hence Statement 1 is correct)

(d) All other authorities, that is, **statutory or non-statutory authorities like LIC, ONGC, SAIL, etc.** **(Hence Statement 2 is correct)**

Option 4 and 5 are incorrect: Political Parties as such do not come under the definition of 'state' under article 12. The High Court of Madras has said that "A political party is only a group of individuals who may contest the election and thereafter, who may even govern the State. Even during, when the political parties are in power, the political party as such does not come under the definition the 'State' within the meaning of Article 12 of the Constitution of India."

In Rupa Ashok Hurra v Ashok Hurra, the Supreme Court reaffirmed and ruled that **no judicial proceeding could be said to violate any fundamental right**. It was said to be a settled position of law that superior courts of justice do not fall within the ambit of 'State' or other authorities under Article 12. Therefore, it can rightly be said that when they give judicial decisions, they do not come within the meaning of State. But, while courts perform their administrative function, they are within the State's definition.

Source: 'State' under Article 12 of the Constitution of India (ipleaders.in)

M Laxmikant- Ch-7 (Fundamental rights)

Q.3) Which of the following is the most appropriate definition of 'Freedom'?

a) Freedom is the condition in which people can develop their capabilities.

b) Freedom means absence of any type of rules and regulations.

c) Freedom is the privilege to do whatever one likes.

d) Freedom means the complete absence of restraints and constraints.

Ans) a

Exp) Option a is the correct answer.

The term 'Freedom' means the absence of restraints on the activities of individuals, and **at the same time, providing opportunities for the development of individual personalities.**

Freedom or Liberty, as elaborated in the Preamble, is very essential for the successful functioning of the Indian democratic system. **Absence of constraints is only one dimension of freedom. Freedom is also about expanding the ability of people to freely express themselves and develop their potential.** Freedom in this sense is the condition in which people can develop their creativity and capabilities.

However, Freedom does **not mean 'license' to do what one likes and has to be enjoyed within the limitations** mentioned in the Constitution itself. In brief, the freedom conceived by the Preamble or fundamental rights is **not absolute but qualified.**

Any form of social living **requires some rules and regulation. These rules may require some restraints to be imposed on the freedom of individuals but it is recognised that such constraints may also free us from insecurity and provide us with the conditions in which we can develop ourselves.** In political theory much of the discussion regarding freedom has therefore focused on trying to evolve principles by which

we can distinguish between socially necessary constraints and other restrictions. To understand which social constraints are necessary, discussions on freedom need to look at the core relationship between the individual and the society (or group, community, or state) within which she/he is placed.

Hence, in the above question, the **most appropriate definition of Freedom** is the condition in which people can develop their creativity and capabilities.

Source: NCERT XI, Political theory, chapter 2

Q.4) Consider the following statements regarding the Fundamental Rights enshrined in the Indian Constitution:

1. Any Fundamental Right can be repealed through the passage of ordinary bills.
2. Both Parliament and state legislatures have power to make laws to give effect to any Fundamental Right.
3. Ordinances issued by the President cannot be challenged in the courts as being violative of fundamental rights.

Which of the statements given above is/are **incorrect**?

- a) 1 only
- b) 2 and 3 only
- c) 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

The Fundamental Rights are enshrined in **Part III of the Indian Constitution (Articles 12-35)**. Part III of the Constitution is described as the Magna Carta of India. The Fundamental Rights are meant for promoting the **ideal of political democracy**.

Statement 1 is incorrect: Article 13 declares that all laws that are inconsistent with or in derogation of any of the fundamental rights shall be void. Article 13 (2) provides for the protection of the fundamental rights of the citizen. Parliament and the state legislatures are clearly **prohibited from making laws that may take away or abridge the fundamental rights** guaranteed to the citizen. The Parliament can curtail or repeal them but **only by a constitutional amendment act and not by an ordinary act**. Moreover, this can be done without affecting the 'basic structure' of the Constitution.

Statement 2 is incorrect: Article 35 lays down that the power to make laws to give effect to certain specified fundamental rights shall vest only in the Parliament and not in the state legislatures. Parliament shall have (and the legislature of a state shall not have) powers to make laws for prescribing punishment for those acts that are declared to be offences under the fundamental rights. These include the following: (a) Untouchability (Article 17). (b) **Traffic in human beings and forced labour (Article 23)**.

Statement 3 is incorrect: Article 13 declares that all laws that are inconsistent with or in derogation of any of the fundamental rights shall be void. Temporary laws like ordinances issued by the **President or the State Governors can be challenged in the courts as violation of Fundamental Right** and hence, can be declared as void.

Source: M laxmikant (chap 7- Fundamental rights)

Q.5) Consider the following statements:

1. Disinvestment involves compulsory transfer of more than half of the shareholding of the government in public sector enterprise to private hands.
2. The main advantage of Disinvestment is lessening of fiscal burden on the government and achieve greater inflow of private capital.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) b

Exp) Option b is the correct answer.

Statement 1 is incorrect. Disinvestment refers to a strategy of selling off or liquidating some assets like plant, division, unit, etc. owned by the government or the organization. The **key difference between Privatization and Disinvestment** is that in Privatization, the government sell more than 50 % of its shareholdings, whereas in case of Disinvestment, **shareholdings less than 50 % is sold by the government**. However, divestment doesn't necessarily bring the government stake below 51%. The government divests its stake in public sector undertakings to make money.

Statement 2 is correct. The main advantage of Disinvestment is that, it aims at **lessening the fiscal burden** on the government. The main objectives of Disinvestment are

- 1) To reduce the financial burden of the government
- 2) To improve public finances
- 3) To increase growth of the firm

The other advantages include achieve greater inflow of private capital, allow entry and exit of new firms into the market thus increasing competition.

Source: <https://blog.forumias.com/privatisation-is-far-more-difficult-than-consolidation/>
Difference between Privatization and disinvestment | Sterling Education

Q.6) What are the exceptions exclusively mentioned under Article 15 of Indian Constitution that allows the State to make special provisions for certain classes?

- 1. Special provision for transgender communities
- 2. Special provision for women and children
- 3. Special provision for economically weaker sections of citizens
- 4. Special provision for physically disabled persons
- 5. Special provision for Scheduled Castes and Scheduled Tribes

Select the correct answer using the code given below:

- a) 1, 2 and 3 only
- b) 2, 3 and 5 only
- c) 2 and 4 only
- d) 1, 2, 4 and 5 only

Ans) b

Exp) Option b is the correct answer.

Article 15 provides that the State shall not discriminate against any citizen on grounds only of religion, race, caste, sex or place of birth.

Statements 2, 3 and 5 are correct: There are **four exceptions** to the general rule of non-discrimination mentioned under Article 15 of Indian Constitution.

- 1) The state is permitted to make any **special provision for women and children**. For example, reservation of seats for women in local bodies or provision of free education for children.
- 2) The state is permitted to make any **special provision for the advancement of any socially and educationally backward classes of citizens or for the scheduled castes and scheduled tribes**. For example, reservation of seats or fee concessions in public educational institutions.

3) The state is empowered to make any special provision for the **advancement of any economically weaker sections of citizens.**

Statements 1 and 4 are incorrect: Constitution under **Article 15 does not provide any exclusive** exception for the **Special provision for transgender communities** with extended scope and Special provision for **physically disabled persons.**

Source: Laxmikanth Chapter 7 Fundamental Rights

Q.7) Consider the following statements:

1. The concept of 'equality before law' is of British origin while the concept of 'equal protection of laws' has been taken from the American Constitution.
2. Unlike the concept of 'equality before law', the 'equal protection of laws' advocates absence of special privileges in favour of any person.
3. Indian Constitution has rejected the concept of 'equal protection of laws' in favour of the concept of 'equality before the law'.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1 and 2 only

Ans) a

Exp) Option a is the correct answer.

Statement 1 is correct: The expression '**equality before law**' stems from the **English Common Law (British)** and the expression '**equal protection of law**' stems from the **American Constitution.** The concept of 'equality before law' is an element of the concept of 'Rule of Law', propounded by A.V. Dicey, the British jurist. While, the Fourteenth Amendment's Equal Protection Clause of US Constitution requires states to practice equal protection.

Statement 2 is incorrect: The expression '**equality before law**' is a **negative concept** as it implies an **absence of special privileges that favour any individual.** However, the expression '**equal protection of law**' on the other hand, is a **positive concept** as it simply means that there should be **equality of treatment of individuals in similar circumstances.**

Statement 3 is incorrect: Indian Constitution has **accepted both the concept of 'equality before law' and 'equal protection of laws'** under Article 14. It says that the State shall not deny to any person equality before the law or the equal protection of the laws within the territory of India. Wherever there is no equal protection of law, there is no equality before law. The Constitution permits the State to enact laws that apply to only certain classes of people for achieving certain reasonable objects.

Source: Laxmikanth Chapter 7 Fundamental Rights

Equality before law and equal protection of law - iPLEaders

Q.8) Which of the following principles constitute the components of 'social justice'?

1. Principle of treating equals equally
2. Rewarding people in proportion to their effort
3. Recognizing special needs of people while distributing rewards

Select the correct answer using the code given below:

- a) 1 only
- b) 1 and 2 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer

All of them are correct. The three principles of social justice are:

- 1) **Principle of treating equals equally:** It is considered that all individuals share certain characteristics as human beings. Therefore, they deserve equal rights and equal treatment.
- 2) **Proportionality:** Provided everybody starts from the same base line of equal rights, justice in such cases would mean **rewarding people in proportion to the scale and quality of their effort**. For justice in society, the principle of equal treatment needs to be balanced with the principle of proportionality.
- 3) **Recognition of special needs:** A society needs to take into account **special needs of people while distributing rewards or duties**. It does not necessarily contradict the principle of equal treatment so much as extend it because the principle of treating equals equally could imply that people who are not equal in certain important respects could be treated differently.

Source: Political Theory, NCERT XI, Chapter-4, Pg. 55-57

Q.9) Which one of the following statements most appropriately defines the meaning of 'Rights'?

- a) They are moral demands of a society for its own self-development.
- b) They are incentives given by the State to the people in return for their obedience towards the rule of law.
- c) They are reasonable claims of persons recognised by society and sanctioned by law.
- d) They are obligations mandated on the State in order to promote social welfare.

Ans) c

Exp) Option c is the correct answer.

Rights are reasonable claims of persons recognised by society and sanctioned by law.

- 1) Rights are **claims** of a person over other fellow beings, over the society and over the government. A right is possible when you make a claim that is equally possible for others. You cannot have a right that harms or hurts others. You cannot have a right to play a game in such a way that it breaks the neighbour's window
- 2) **Rights acquire meaning only in society.** Every society makes certain rules to regulate our conduct. They tell us what is right and what is wrong. What is recognised by the society as rightful becomes the basis of rights. That is why the notion of rights changes from time to time and society to society.
- 3) When the socially recognised **claims are written into law, they acquire real force.** Otherwise, they remain merely as natural or moral rights. When law recognises some claims, they become enforceable. We can then demand their application. When fellow citizens or the government do not respect these rights, we call it violation or infringement of our rights. In such circumstances citizens can approach courts to protect their rights.

Source: NCERT IX, Democratic politics chapter 6

Q.10) With reference to 'International Space Laws', which of the following agreements are signed by India?

1. Rescue Agreement
2. The Outer Space Treaty
3. Artemis Accord
4. Moon Agreement

Select the correct answer using the codes given below:

- a) 1 and 2 only
- b) 1, 2 and 4 only
- c) 2 and 4 only
- d) 1, 2, 3 and 4

Ans) b

Exp) Option b is the correct answer.

Option 1 is correct. Agreement on the **rescue of Astronauts**, the Return of Astronauts and the **return of objects** launched into Outer Space, also referred to as the **Rescue Agreement** is an international agreement setting forth rights and obligations of states concerning the rescue of persons in space. The Agreement was created by a 19 December 1967 consensus vote in the United Nations General Assembly (Resolution 2345 (XXII)). It came into force on 3 December 1968. **India** has signed and ratified the **Rescue Agreement**.

Option 2 is correct. The **Outer Space Treaty**, formally the Treaty on Principles Governing the Activities of States in the Exploration and Use of Outer Space, including the Moon and Other Celestial Bodies, is a multilateral treaty that forms the basis of international space law. Negotiated and drafted under the auspices of the United Nations, it was opened for signature on 27 January 1967, entering into force on 10 October 1967. **India has signed Outer Space Treaty on 3rd March, 1967.**

Option 3 is incorrect. The Artemis Accords are an international agreement between governments participating in the Artemis Program, an American-led effort to return humans to the Moon by 2024, with the ultimate goal of expanding space exploration. It ensures that space exploration is conducted in a **safe, sustainable and transparent manner and in full compliance with international law. India has not yet signed Artemis Accords.** US has invited India to join the accords and some preliminary official discussion on the issue took place between the two sides when Indian PM met US President at the White House for the bilateral summit last month (Sept 2021).

Option 4 is correct. The **Agreement Governing the Activities of States on the Moon and Other Celestial Bodies, better known as the Moon Treaty or Moon Agreement**, is a multilateral treaty that turns jurisdiction of all celestial bodies (including the orbits around such bodies) over to the participant countries. Thus, all activities would conform to international law, including the United Nations Charter.

India has signed this 'Agreement Governing the Activities of States on the Moon and Other Celestial Bodies' in 1982, **but never ratified it.**

As of September, 2021, it has not been ratified by any state that engages in self-launched human spaceflight (e.g. the United States, Russia (former Soviet Union), People's Republic of China) since its creation on December 18, 1979, and thus it has little to no relevancy in international law. As of January 2019, 18 states are parties to the treaty.

What is Artemis Accords? -ForumIAS Blog

Space Law Treaties and Principles (unoosa.org)

Rescue Agreement (unoosa.org)

Why India should exit the Moon Agreement - The Hindu BusinessLine

Q.11) Which of the following are envisaged by the Right against Exploitation in the Constitution of India?

1. Prohibition of traffic in human beings and forced labour
2. Abolition of untouchability
3. Protection of the interests of minorities
4. Prohibition of employment of children in factories and mines

Select the correct answer using the code given below:

- a) 1, 2 and 4 only
- b) 2, 3 and 4 only
- c) 1 and 4 only
- d) 1, 2, 3 and 4

Ans) c

Exp) Option c is the correct answer.

The Right against Exploitation under Articles 23 and 24 of the Indian Constitution guarantees the dignity of the individual. Under these -

Article 23 prohibits traffic in human beings, begar (forced labour) and other similar forms of forced labour. Any contravention of this provision shall be an offence punishable in accordance with law. This right is available to both citizens and non-citizens. It protects the individual not only against the State but also against private persons

Article 24 prohibits the employment of children below the age of 14 years in any factory, mine or other hazardous activities like construction work or railway. But it does not prohibit their employment in any harmless or innocent work.

Abolition of untouchability and protection of the interests of minorities are envisaged under Article 17 and Article 29 of the Constitution respectively.

Source) UPSC CSE 2017

Q.12) With reference to 'Article 20 of Indian Constitution', consider the following statements:

1. It prohibits the retrospective imposition of any kind of civil liability on a person.
 2. The Protection against Double Jeopardy is available in proceedings before departmental authorities.
 3. It protects an individual from any sort of compulsion to give thumb impressions or blood specimens.
- Which of the statements given above is/are correct?

- a) 1 only
- b) 1 and 2 only
- c) 2 and 3 only
- d) None of the above

Ans) d

Exp) Option d is the correct answer.

Article 20 of Indian Constitution grants protection against arbitrary and excessive punishment to an accused person, whether citizen or foreigner or legal person like a company or a corporation.

Statement 1 is incorrect: Under Article 20(a), no person shall be (i) convicted of any offence except for violation of a law in force at the time of the commission of the act, nor (ii) subjected to a penalty greater than that prescribed by the law in force at the time of the commission of the act. An **ex-post-facto law is one that imposes penalties retrospectively** (retroactively), that is, upon acts already done or which increases the penalties for such acts. The enactment of such a law is prohibited by the first provision of Article 20. However, this **limitation is imposed only on criminal laws and not on civil laws or tax laws**. In other words, **a civil liability or a tax can be imposed retrospectively**.

Statement 2 is incorrect: Article 20 states that- No person shall be prosecuted and punished for the same offence more than once. The protection against double jeopardy is **available only in proceedings before a court of law or a judicial tribunal**. In other words, it is **not available in proceedings before departmental or administrative authorities** as they are not of judicial nature.

Statement 3 is incorrect: Article 20(c) states that no person accused of any offence shall be compelled to be a witness against himself (no self-incrimination). The protection against self-incrimination **extends to both oral evidence and documentary evidence**. However, it **does not extend to** (i) compulsory production of material objects, (ii) **compulsion to give thumb impression, specimen signature, blood specimens**, and (iii) compulsory exhibition of the body. Further, it **extends only to criminal proceedings** and not to civil proceedings or proceedings which are not of criminal nature

Source: Laxmikanth Chapter 7 Fundamental Rights

Protection in respect of Conviction for Offences: A Constitutional Blend (ipleaders.in)

Q.13) Consider the following statements regarding the Cultural and Educational Rights provided under Part III of the Constitution:

1. The rights guaranteed under Article 29 are extended to both minority as well as majority religious communities.
2. The right to conserve the language covers the right to agitate for the protection of the language.
3. The right to establish educational institutions has been extended to religious minorities but not to linguistic minorities.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 only
- d) 1, 2 and 3

Ans) a

Exp) Option a is the correct answer.

Article 29 and 30 of Indian constitution provides for the cultural and educational rights available to the citizens.

Statement 1 is correct: Article 29 grants protection to both religious minorities as well as linguistic minorities. However, the Supreme Court held that the **scope of this article is not necessarily restricted to minorities only**, as it is commonly assumed to be. This is because of the use of words 'section of citizens' in the Article that **include minorities as well as majority**.

Statement 2 is correct: The Supreme Court held that the **right to conserve the language includes the right to agitate** for the protection of the language. Hence, the political speeches or promises made for the conservation of the language of a section of the citizens does not amount to corrupt practice under the Representation of the People Act, 1951.

Statement 3 is incorrect: Article 30 grants the following **rights to minorities, whether religious or linguistic:**

- 1) **All minorities shall have the right to establish and administer educational institutions of their choice.**
- 2) The compensation amount fixed by the State for the compulsory acquisition of any property of a minority educational institution shall not restrict or abrogate the right guaranteed to them. This provision was added by the 44th Amendment Act of 1978.
- 3) In granting aid, the State shall not discriminate against any educational institution managed by a minority.

Source: Indian Polity by Laxmikant – 6th edition – Chapter 7 – Fundamental Rights.

Q.14) With reference to the implementation of Directive Principles of State Policy (DPSPs) in India, consider the following statements:

1. The 25th Constitutional Amendment Act made all the DPSPs non-justiciable.
2. There is no moral obligation on the government to implement the DPSPs.
3. The 73rd Constitutional Amendment Act of 1992 has given effect to one of the Directive Principles.

Which of the statements given above is/are correct?

- a) 1 and 3 only
- b) 3 only
- c) 2 and 3 only
- d) 1 and 2 only

Ans) b

Exp) Option b is the correct answer.

Statement 1 is incorrect. All the DPSP since the adoption and enforcement of the constitution have been **non-justiciable**. The 25th amendment act provided that any law made to give effect to the Directive Principles contained in Article 39 (b) or (c) cannot be challenged on the ground of violation of the rights guaranteed by Articles 14, 19 and 31.

Statement 2 is incorrect. Though the **Directive Principles are non-justiciable**, the Constitution (Article 37) makes it clear that ‘these principles are fundamental in the governance of the country and it shall be the duty of the state to apply these principles in making laws’. Thus, they **impose a moral obligation on the state** authorities for their application.

Statement 3 is correct. The **73rd Constitutional Amendment Act, 1992**, implemented the constitutional obligation stated in Article 40 (Organisation of village panchayats).

Source: Indian Polity by M. Laxmikanth 5th edition

Q.15) Recently, Indian Scientists has indigenously developed superior multilayer series of LTCC tapes and HTCC substrates. In this context, which of the following is/are the advantages of these technologies?

1. It will result into reducing the volume and production time of satellite.
2. It will be useful in building affordable housing for economically backward sections.
3. It will be less toxic contributing towards environmental sustainability of the country.

Select the correct answer using the options given below:

- a) 1 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

CSIR- NIIST (National Institute for Interdisciplinary Science and Technology), **under** the purview of “**Advanced Manufacturing Techniques scheme**” of Department of Science & Technology (**DST**) has indigenously developed **toxic-free** and superior multilayer series of **LTCC tapes and HTCC substrates** which are on par with international standards.

These technologies **package together electronic components** like resistors, capacitors to produce multilayer circuits, an all-gold system as a substitute for the **imported commercial LTCC tape system**. It can work as a **cost-effective replacement** to the commercial LTCC tapes which India is currently importing, **thereby saving drain of heavy amount from India**.

Statement 1 is correct. These technologies are helpful in low orbit satellite systems which are in demand today. It will help in supporting **reduced satellite volume and mass**, besides **reduced production time** and **affordable cost**. These tapes find application in various **satellite communication components** which require thousands of microwave substrates every year as also in Defence Research laboratories and BHEL.

Statement 2 is incorrect. These technologies are specifically used in satellite and defense technologies and has **no useful application building affordable housing**.

Statement 3 is correct. It is **less toxic** and more environment friendly. An aqueous tape casting technique has been developed, which is **relatively health hazard free** since it does not employ volatile organic components like xylene and methyl ethyl ketone. The technology developed is a glass-free LTCC tape casting composition, which can address the brutality issues of tapes.

Source: New toxic-free, superior multilayer technology that packages together electronic components can help country’s strategic sectors-ForumIAS Blog

New toxic-free, superior multilayer technology that packages together electronic components can help country’s strategic sectors-ForumIAS Blog

Q.16) With reference to the 'Preventive Detention', consider the following statements:

1. Preventive Detention means detention of a person without trial and conviction by a court.
2. The maximum period for which a person can be detained under Preventive Detention is 2 months.
3. Only the Parliament can make a law regarding Preventive Detention.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) 1 and 2 only
- d) 1 and 3 only

Ans) a

Exp) Option a is the correct answer.

Article 22 grants protection to persons who are arrested or detained. Detention is of two types, namely, punitive and preventive.

Statement 1 is correct: Preventive detention means detention of a person without trial and conviction by a court. Its purpose is not to punish a person for a past offence but to prevent him from committing an offence in the near future. It is only a precautionary measure and based on suspicion.

Statement 2 is incorrect: The 44th Amendment act of 1978 has reduced the period of detention without obtaining the opinion of the advisory board from 3 months to 2 months. However, this provision has not yet been brought into force, hence, the original period of three months still continues.

Also, if an advisory board reports sufficient cause for an extension, its 3-month period can also be extended.

Statement 3 is incorrect: The Constitution has divided the legislative power with regard to preventive detention between the Parliament and the state legislatures. The Parliament has exclusive authority to make a law of preventive detention for reasons connected with defence, foreign affairs and the security of India. Both the Parliament as well as the state legislatures can concurrently make a law of preventive detention for reasons connected with the security of a state, the maintenance of public order and the maintenance of supplies and services essential to the community

Indian Polity by Laxmikant – 6th Edition – Chapter 7 – Fundamental Rights.

Q.17) "It is a minimum area that is sacred and in which whatever the individual does, is not to be interfered with. The existence of the 'minimum area of non-interference' is the recognition that human nature and human dignity need an area where the person can act unobstructed by others."

Which of the following ideals is referred to in the above paragraph?

- a) Positive liberty
- b) Equality
- c) Distributive Justice
- d) Negative liberty

Ans) d

Exp) Option d is the correct answer.

Negative liberty (and not positive liberty) seeks to define and defend an area in which the individual would be inviolable, in which he or she could 'do, be or become' whatever he or she wished to 'do, be or become'.

Negative liberty is the absence of obstacles, barriers or constraints. One has negative liberty to the extent that actions are available to one in this negative sense. Positive liberty is the possibility of acting – or the fact of acting – in such a way as to take control of one's life and realize one's fundamental purposes. **While**

negative liberty is usually attributed to individual agents, positive liberty is sometimes attributed to collectivities, or to individuals considered primarily as members of given collectivities.

Negative liberty is an area in which **no external authority can interfere**. Thus, there is an **absence of restraints** on the activities of the individuals. It is a minimum area that is sacred and in which whatever the individual does, is not to be interfered with.

Knowledge Base)

The arguments of positive liberty are concerned with explaining the idea of 'freedom to'. It is concerned with looking at the conditions and nature of the relationship between the individual and society and of improving these conditions such that there are fewer constraints to the development of the individual personality. **Positive liberty recognises that one can be free only in society (not outside it)** and hence tries to make that society such that it enables the development of the individual.

Source: Political Theory, NCERT XI, Chapter-2, Pg. 26-28

Q.18) Which of the following rights are available only against the State and not against a private individual?

1. Right to Equality Before Law
2. Prohibition of traffic in human beings and forced labour
3. Right to Abolition of Untouchability
4. Right to Protection Against Arrest and Detention

Select the correct answer using the codes given below:

- a) 1 and 2 only
- b) 2 and 3 only
- c) 3 and 4 only
- d) 1 and 4 only

Ans) d

Exp) Option d is the correct answer.

Most of Fundamental Rights in Indian Constitution are available against the arbitrary action of the State, but some are also available against the action of private individuals.

Option 1 and 4 are correct:

- 1) **Right to Equality Before Law (Article 14)** of the Indian Constitution guarantees that no person shall be denied the right to equality before law or the equal protection of law in the territory of India. This is a right that can be claimed by any person, whether a citizen or a non-citizen, on Indian soil. It is **available only against the state and not against the private individual**.
- 2) **Article 22 (Right to Protection Against Arrest and Detention)** deals with the protection against arrest and detention in certain cases. This article is applicable to both citizens and non-citizens. This provision extends certain procedural safeguards for individuals in case of an arrest. **It is available only against the state and not against the individual**.

Option 2 and 3 are incorrect:

- 1) **Prohibition of traffic in human beings and forced labour (Article 23)** explicitly prohibits human trafficking, child labor, untouchability, and various other activities related to it. Anyone residing in any part of the country practicing any such kind of activity will be punished according to the law. **It protects the individual not only against the State but also against private persons**.
- 2) **Abolition of Untouchability (Article 17)** abolishes 'untouchability' and forbids its practice in any form. The enforcement of any disability arising out of untouchability shall be an offence punishable in accordance with law. The Supreme Court held that the **right under Article 17 is available against private individuals**.

Horizontal application of Fundamental Rights: Issues and Concerns (madhavuniversity.edu.in)

Q.19) With reference to the concept of ‘Police State’ in polity, consider the following statements:

1. Its main objective is the establishment of economic and social democracy in a country.
2. This concept is based on the theory of Laissez-Faire.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) b

Exp) Option b is the correct answer.

The Directive Principles in India embody the concept of a ‘welfare state’ and not that of a ‘police state’, which existed during the colonial era.

Statement 1 is incorrect: A ‘Police State’ is mainly concerned with the maintenance of law and order and defence of the country against external aggression. It is a country in which the government uses the police to severely limit people’s freedom.

The concept of a ‘welfare state’ is in contrast to that of a ‘police state’. **A ‘Welfare State’ seeks to establish economic and social democracy in the country.**

Statement 2 is correct: The **concept of Police state** is based on the nineteenth century theory of individualism or **laissez-faire**. The theory of laissez faire in the 19th century envisages maximum free enterprise and contractual freedom. The law and order characterized the situation in the state. Its role was limited to the traditional role of government as a protector.

Knowledge Base:

A welfare state is a government of the State to protect and promote the economic and social welfare of its citizens. It is a core role. It is equality of opportunity, equitable distribution of wealth, and those who are unable to avail themselves of a better life for at least based on the principle of the responsibility for the public.

Source: Indian Polity by Laxmikant – 6th edition – Chapter 8 - Directive Principles of State Policy.

Q.20) Which of the arguments given below justifies the view that India should review One China Policy especially in context of Taiwan?

1. Repeated Chinese intrusions across the LAC are taking place after Galwan valley clashes in 2020.
2. Look East policy of India has largely ignored the engagement of India with Taiwan.
3. Taiwan is the potential supplier of semiconductors which is important for chip manufacturing.

Select the correct answer using the codes given below:

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is correct.

Under **One China policy**, any country willing to establish diplomatic relations with the People’s Republic of China must acknowledge that there is only “**One China**”. Apart from that the accepting country also has to cut down all formal ties (informal ties can be maintained) with Taiwan. Moreover, it can’t recognize Taiwan as an independent country.

India should review its acceptance of the One China policy for the following reasons,

Statement 1 is correct. Increased Chinese intrusions: After the Galwan valley clashes last year, repeated Chinese intrusions across the LAC are taking place. Reviewing One China policy will give a clear signal to China that India can retaliate in commensurate manner.

Statement 3 is correct. Boosting ties with Taiwan also has standalone benefits as it is a **semiconductor powerhouse** and reportedly bilateral talks are underway to bring **chip manufacturing – a key strategic sector** – to India. Further, cooperation can also be achieved in green technology, IT, digital healthcare, and telecom with Taiwanese companies as they are looking to relocate their operations from China. So, embracing Taiwan for the **strategic and economic interests of India** will elevate ties between both.

Statement 2 is incorrect. Look East policy of India has **not ignored** the engagement of India with Taiwan. India's Look East policy **started strengthening the engagement of India with East Asian countries, including Taiwan.** In 1995 India and Taiwan established complementary representative offices.

India-Taiwan relations improved gradually and since 2010 India has **refused to endorse the “one-China” policy.** At the same time, India is **not having any formal diplomatic relations with Taiwan.**

What is the core conflict between China and Taiwan? (forumias.com)

China asks India to adhere to the 'One China policy', not to enter into any agreement with Taiwan | Deccan Herald

Q.21) Which of the following statements is/are true of the Fundamental Duties of an Indian citizen?

1. A legislative process has been provided to enforce these duties.
2. They are correlative to legal duties.

Select the correct answer using the code given below:

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) d

Exp) Option d is the correct answer.

Statement 1 is incorrect. There is no provision in the Constitution for direct enforcement of any of the Fundamental Duties nor for any sanction to prevent their violation. All the Fundamental Duties under Article 51 A are 'non-justiciable'.

Statement 2 is incorrect. There is no legislative process to enforce citizens to do their fundamental duties. The legal duty is one which is required to be carried out as per law. So, there is no correlation between both duties. It has been held that these duties being duties of individual citizens cannot be enforced through mandamus.

Source) UPSC CSE 2017

Q.22) With reference to the comparison between the Fundamental Rights and the Directive Principles of State Policy, consider the following statements:

1. The focus of Fundamental Rights is at individual level, whereas the focus of Directive Principles is at community level.
2. Fundamental Rights restrict the power of the state whereas the Directive Principles requires the State to take certain positive steps.
3. The courts can declare a law as unconstitutional if it violates either the Fundamental Rights or the Directive Principles of State Policy.

Which of the statements given above is/are correct?

- a) 1 only
- b) 1 and 2 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

Fundamental Rights are enumerated in Part III of the Indian Constitution that is borrowed from US Constitution. The Directive Principles of States Policy are enumerated in Part IV of the Indian Constitution that is borrowed from the Irish Constitution.

Statement 1 is correct: Fundamental Rights promote the **welfare of the individual**. They promote the ideal of political democracy. The **Directive Principles of States Policy** promotes the **welfare of the community**. They promote the ideal of social and economic democracy.

Statement 2 is correct: Fundamental Rights are negative as they restrict the power of the state. The **Directive Principles of States Policy are positive** as they require the State to take certain steps.

Statement 3 is incorrect: Judiciary can declare a law as unconstitutional and invalid if it violates the **Fundamental Rights**. The **courts cannot declare a law violative** of any of the **Directive Principles as unconstitutional** and invalid. However, they can uphold the validity of a law on the ground that it was enacted to give effect to a directive.

Knowledge Base:

Fundamental Rights are justiciable in nature i.e.; they are legally enforceable in the court of law in case of their violation. The DPSPs are non-justiciable in nature i.e.; they are not legally enforceable in the court of law.

Source: Indian Polity by Laxmikant – 6th edition – Chapter 8 - Directive Principles of State Policy.

<https://blog.forumias.com/difference-between-fundamental-rights-and-dpspdirective-principles-of-state-policy/>

Q.23) Which of the following statements is correct with reference to the Directive Principles of State Policy?

- a) They promote political and economic democracy in the country.
- b) They have been borrowed from the Russian Constitution.
- c) These have been described as ‘novel features’ of the Indian Constitution.
- d) These are directives only to the executive organ and not to the legislative organ.

Ans) c

Exp) Option c is the correct answer.

Option a is incorrect: The **Directive Principles** aim at realising the high ideals of justice, liberty, equality and fraternity as outlined in the Preamble to the Constitution. They seek to establish **economic and social democracy** in the country. Fundamental Rights aim at promoting political democracy in the country.

Option b is incorrect: The Directive Principles of State Policy are enumerated in Part IV of the Constitution from Articles 36 to 51. **The framers of the Constitution borrowed this idea from the Irish Constitution of 1937, which had copied it from the Spanish Constitution**

Option c is correct: Dr. B.R. Ambedkar described these principles as ‘novel features’ of the Indian Constitution. The Directive Principles along with the Fundamental Rights contain the philosophy of the Constitution and is the soul of the Constitution. Granville Austin has described the Directive Principles and the Fundamental Rights as the ‘Conscience of the Constitution.

Option d is incorrect: The Directive Principles resemble the ‘Instrument of Instructions’ enumerated in the Government of India Act of 1935. The only difference is that they are instructions to the **legislature and the executive**. According to Article 36, the term ‘State’ in Part IV has the same meaning as in Part III dealing with Fundamental Rights. Therefore, it includes the legislative and executive organs of the central and state governments, all local authorities and all other public authorities in the country.

Source: Indian Polity by Laxmikant – 6th edition – Chapter 8 - Directive Principles of State Policy.

Q.24) Under the Constitution, which of the following fundamental rights is not available to an Indian citizen?

- Freedom to convert another person to one’s own religion.
- Freedom to propagate the views of others.
- Freedom of picketing and demonstration.
- None of the above-mentioned rights are guaranteed to an Indian citizen

Ans) a

Exp) Option a is the correct answer.

Option a is correct: Article 25 says that all persons are equally entitled to freedom of conscience and the right to freely profess, practice and propagate religion. One of its implications is:

Right to propagate: Transmission and dissemination of one’s religious beliefs to others or exposition of the tenets of one’s religion. **But, it does not include a right to convert another person to one’s own religion.**

Forcible conversions impinge on the ‘freedom of conscience’ guaranteed to all the persons alike. In 1977, a five-judge Bench of the Supreme Court, in *Rev. Stanislaus versus State of Madhya Pradesh*, had held that the word ‘propagate’ in Article 25 does not give “the right to convert another person to one’s own religion, but to transmit or spread one’s religion by an exposition of its tenets”. The Constitution Bench had also held there was “no fundamental right to convert another person to one’s own religion”

Option b and c are incorrect: Freedom of Speech and Expression implies that every citizen has the right to express his views, opinions, beliefs and convictions freely by word of mouth, writing, printing, picturing or in any other manner. The Supreme Court held that the freedom of speech and expression includes the following:

- Right to propagate one’s views as well as the views of others.**
- Freedom of the press.
- Freedom of commercial advertisements.
- Right against tapping of telephonic conversation.
- Right to telecast, that is, government has no monopoly on electronic media.
- Right against bandh called by a political party or organisation.
- Right to know about government activities.
- Freedom of silence.
- Right against imposition of pre-censorship on a newspaper.
- Right to demonstration or picketing but not right to strike.**

Source: Indian Polity by Laxmikant – 6th edition – Chapter 7 - Fundamental Rights.

Q.25) Which of the following benefits does the ‘Vertical Farming’ can offers in the future towards agricultural growth in the country?

- Increased Crop Yields and production.
- Economic viability due to lower cost of investments.
- Higher efficiency and conservation of water.
- Less labour and skill intensive.

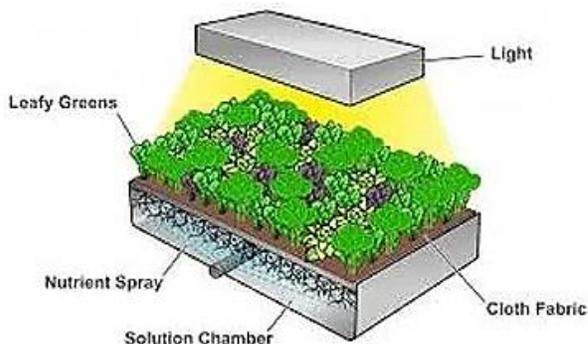

Select the correct answer using the codes given below:

- a) 1 and 3 only
- b) 1, 2 and 4 only
- c) 2 and 3 only
- d) 1, 2, 3 and 4

Ans) a

Exp) Option a is the correct answer.

Vertical farming is the practice of growing crops indoors, on vertically inclined surfaces, under artificial conditions of light and temperature. It is done in a controlled environment, with the aim of optimising plant growth. It aims at higher productivity in smaller spaces and uses soil-less methods such as hydroponics, aquaponics and aeroponics.

Advantages of Vertical Farming:

Option 1 is correct. Increased crop yield: The main advantage of utilizing vertical farming technologies is the increased crop yield that comes with a smaller unit area of land requirement. The increased ability to cultivate a larger variety of crops at once is because crops do not share the same plots of land.

Option 2 is incorrect. Economic Viability: This type of farm depends heavily on modern engineering and architecture, as well as the application of different technologies. Building vertical farms in **expensive buildings add to the total investment and operational costs.**

Option 3 is correct. Water conservation: Vertical farming allows to produce crops with 70-95% less water than required for normal cultivation. In addition, with the plants being grown in huge vertical greenhouses, the transpiration that will occur naturally will be harnessed and reused again for irrigation.

Option 4 is incorrect. Labour Costs: In vertical farming, labour costs can be even higher due to their concentration in urban centres where wages are higher, as well as the need **for more skilled labour.** Automation in vertical farms, however, may lead to the need for fewer workers. Manual pollination may become one of the more labour-intensive functions in vertical farms.

Interfere with Pollination: Vertical farming takes place in a controlled environment without the presence of insects. As such, the pollination process needs to be done manually, which will be labour intensive and costly.

Disruption to the Rural Sector: Another foreseen challenge and disadvantage of vertical farming involves the potential for disrupting the rural sector, especially those communities with economies that are dependent on agriculture. Vertical farms can render traditional farming jobs obsolete.

The future of vertical farming is brighter than once thought -ForumIAS Blog

What is Vertical Farming?-ForumIAS Blog

Advantages of Vertical Farming (eponic.com.au)

Q.26) Suppose the Parliament of India has made a law that seeks to implement the provisions of Article 39(b) and 39(c) of the Indian Constitution. Such a law cannot be declared void by the Courts even if it is in contravention to which of the following Fundamental Rights?

- Article 14 and 15
- Article 15 and 21
- Article 14 and 19
- Article 19 and 21

Ans) c

Exp) Option c is the correct answer.

Option c is correct: Article 31C states that no law which seeks to implement the socialistic Directive Principles specified in **Article 39 (b) and (c)** shall be void on the ground of contravention of the Fundamental Rights conferred by **Article 14** (equality before law and equal protection of laws) and **Article 19** (protection of six rights in respect of speech, assembly, movement, etc). Thus, it gives primacy to the implementation of the Directive Principles specified in Article 39 (b) and (c) over Fundamental Rights under article 14 and 19. Article 31C was introduced in the Indian Constitution by the 25th Amendment Act, 1971.

Source: Indian Polity by Laxmikant – 6th edition – Chapter 8 – Directive Principles of State Policy.

Q.27) Which of the following Directive Principles of State Policy were added later through various amendments to the Constitution?

- To secure opportunities for healthy development of children.
- To prevent concentration of wealth and means of production.
- To promote equal justice and to provide free legal aid to the poor.
- To make provision for just and humane conditions of work and maternity relief.

Select the correct answer from the code given below:

- 1 and 2 only
- 2 and 4 only
- 1 and 3 only
- 3 and 4 only

Ans) c

Exp) Option c is the correct answer.

The Directive Principles of State Policy are enumerated in Part IV of the Constitution from Articles 36 to 51. They were amended four times through 42nd, 44th, 86th and 97th Constitutional Amendment Acts.

Statement 1 and 3 are correct: The 42nd Amendment Act of 1976 added four new Directive Principles to the original list. They require the State:

- To **secure opportunities for healthy development of children** (Article 39).
- To **promote equal justice and to provide free legal aid to the poor** (Article 39 A).
- To take steps to secure the participation of workers in the management of industries (Article 43 A).
- To protect and improve the environment and to safeguard forests and wildlife (Article 48 A).

Statement 2 and 4 are incorrect: Article 39(c) directs the state to prevent concentration of wealth and means of production. **Article 42** directs the state to make provision for just and humane conditions of work and maternity relief. These are part of the original Constitution.

Knowledge Base:

Other amendment to DPSP:

- The 44th Amendment Act of 1978 added one more Directive Principle, which requires the State to minimise inequalities in income, status, facilities and opportunities (Article 38).

- 2) The 86th Amendment Act of 2002 changed the subject-matter of Article 45 and made elementary education a fundamental right under Article 21 A.
- 3) The 97th Amendment Act of 2011 added a new Directive Principle relating to cooperative societies. It requires the state to promote voluntary formation, autonomous functioning, democratic control and professional management of co-operative societies (Article 43B).

Source: Indian Polity by Laxmikant – 6th edition – Chapter 8 - Directive Principles of State Policy.

Q.28) What was the key ruling of the Supreme Court in the ‘State of Madras v. Champakam Dorairajan’ case?

- a) The Directive Principles of State Policy have a position of legal primacy and supremacy over the Fundamental Rights.
- b) Indian Constitution is founded on the bedrock of balance between the Fundamental Rights and the Directive Principles.
- c) The Fundamental Rights can never be amended by the Parliament, even by enacting Constitutional amendment acts.
- d) The Fundamental Rights would prevail over the Directive Principles of State Policy, in case of any conflict between the two.

Ans) d

Exp) Option d is the correct answer.

Option d is correct and Option c is incorrect. The **State of Madras v. Champakam Dorairajan** is a landmark decision of the Supreme Court of India. This judgement led to the **first amendment of the Constitution of India**. The Supreme court held that **Directive Principles of State Policy have to conform to and run as subsidiary to the Chapter of Fundamental Rights**. The Supreme Court ruled that in case of any conflict between the Fundamental Rights and the Directive Principles, the former would prevail. But, it also held that **the Fundamental Rights could be amended by the Parliament by enacting constitutional amendment acts**.

Option a is incorrect. The **42nd Amendment Act accorded the position of legal primacy and supremacy to the Directive Principles over the Fundamental Rights conferred by Articles 14, 19 and 31**. However, this extension was declared as unconstitutional and invalid by the Supreme Court in the **Minerva Mills case (1980)**. It meant that the Directive Principles were once again made subordinate to the Fundamental Rights.

Option b is incorrect. In the **Minerva Mills case (1980)**, the Supreme Court also held that **‘the Indian Constitution is founded on the bedrock of the balance between the Fundamental Rights and the Directive Principles**. They together constitute the core of commitment to social revolution. They are like two wheels of a chariot, one no less than the other. To give absolute primacy to one over the other is to disturb the harmony of the Constitution. This harmony and balance between the two is an essential feature of the basic structure of the Constitution.

<https://main.sci.gov.in/judgment/judis/1194.pdf>

Q.29) Which of the following is the most appropriate description of the term “Fabian Socialism”?

- a) An ideology that promotes gradual establishment of democratic socialism through peaceful means.
- b) An ideology that advocates the advancement of socialism through revolutionary overthrow.
- c) A type of socialistic ideology that is very protective of natural resources.
- d) A socialistic ideology that involves the market mechanism for allocating economic resources.

Ans) a

Exp) Option a is the correct answer.

Socialism is a system in which every person in the community has an equal share of the various elements of production, distribution, and exchange of resources. Such a form of ownership is granted through a democratic system of governance.

Option a is correct: Fabian socialism is a form of socialism that **advances the principles of democratic framework to achieve gradual conversion to socialism by peaceful means rather than by revolutionary overthrow.**

The Fabian Society is a British socialist organisation whose purpose is to advance the principles of democratic socialism via gradualist and reformist effort in democracies, rather than by revolutionary overthrow. **Fabians'** fundamental assumption was that **socialism** would be introduced not through class conflict, but by **way of democratic welfare legislation** administered by civil service.

Option b is incorrect: **Marx** believed that capitalist system of economy was the chief cause of the common people's misery. He insisted upon class struggle and also its intensification which would ultimately lead to the **overthrow of capitalism.** This, according to Marx, is the only way of emancipating oppressed people.

Option c is incorrect: **Green socialism** is protective of natural resources. The production process is focused on ensuring that every member of the community has enough access to basic goods. Large corporations in a green socialistic society are owned and run by the public. In addition, green socialism promotes the development and use of public transit, as well as the processing and sale of locally grown food.

Option d is incorrect: **Market socialism** refers to various economic systems that involve either public ownership or worker cooperative ownership over the means of production, or a combination of both. It involves the market mechanism for allocating economic output, deciding what to produce and in what quantity.

Source: <https://www.britannica.com/event/Fabianism>

<https://www.cambridge.org/core/journals/journal-of-british-studies/article/abs/fabian-socialism-a-theory-of-rent-as-exploitation/5C487860045F9601B8C5AE43D61DE6E5>

Q.30) Consider the following statements regarding NITI Aayog's report 'Health Insurance for India's Missing Middle':

1. The report states that the bottom thirty percent of the population are not covered under any health insurance schemes in India.
2. The uncovered sections mostly include self-employed in agriculture and informal sector in rural areas.
3. The report advocated for phasing out government supported health insurance scheme in favor of standardize health insurance products led by private sector.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) b

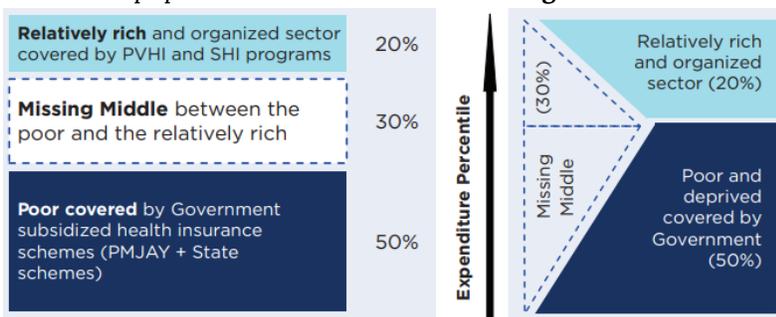

Exp) Option b is the correct answer.

Niti Aayog has released a report titled 'Health Insurance for India's Missing Middle'.

Statement 1 is incorrect. The report points out the fact that at least **30% of the population, or 40 crore individuals (not the bottom 30%)** – called the **missing middle** are devoid of any financial protection for health. Infact, the **Ayushman Bharat – Pradhan Mantri Jan Arogya Yojana (AB-PMJAY)** and State Government schemes **provide comprehensive hospitalization cover** to the **bottom 50% of the**

population. Another 20% of the population are covered through social health insurance and private voluntary health insurance.

But the **remaining 30% of the population or 40 crore individuals are without any health insurance.** This uncovered population is termed as the **missing middle.**

Statement 2 is correct. **Missing middle** (uncovered sections) predominantly constitutes the **self-employed (agriculture and non-agriculture), the informal sector in rural areas and a broad array of occupations – informal, semi-formal, and formal – in urban areas.**

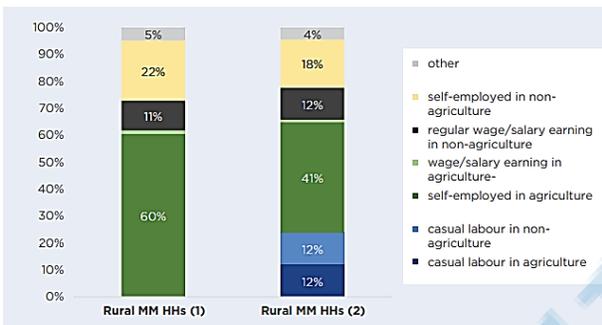

Figure 6: Primary occupation composition of rural 'missing middle' households

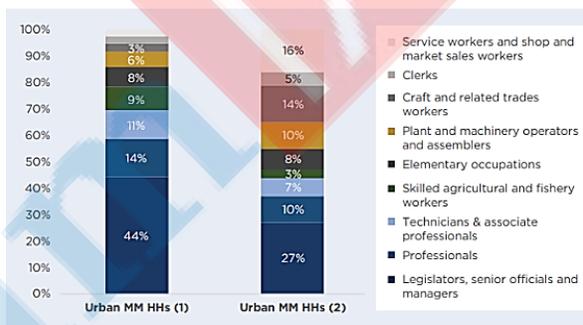

Figure 7: Primary occupation composition of urban 'missing middle' households

The occupations and nature of employment of this segment of the missing middle have a bearing on their access to affordable healthcare, and ultimately health outcomes. Their employment is precarious, incomes are unstable, and most work without any formal contract. Further, they lack any representation through unions or associations. Consequently, they lack bargaining power to negotiate safer working conditions and basic social security benefits.

Statement 3 is incorrect. The report **does not recommend phasing out government supported health insurance.** On the contrary, it advocates for the **expansion of Pradhan Mantri Jan Arogya Yojana** to a wider set of beneficiaries.

It also recommends focusing on increasing consumer awareness of health insurance and developing a modified, standardized health insurance product like 'Arogya Sanjeevani'. It is a standardised health insurance product launched by the Insurance Regulatory Development Authority of India, IRDAI) in 2020.

Source: NITI Aayog Releases Report on 'Health Insurance for India's Missing Middle' -ForumIAS Blog HealthInsurance-forIndiasMissingMiddle_28-10-2021.pdf (niti.gov.in)

Q.31) Which one of the following factors constitutes the best safeguard of liberty in a liberal democracy?

- A committed judiciary
- Centralization of powers
- Elected government
- Separation of powers

Ans) d

Exp) Option d is the correct answer.

Option d is correct. The Separation of powers between the legislature, the executive and the judiciary constitute an important safeguard of liberty in a liberal democracy. The doctrine of Separation of powers entails the division of the legislative, executive, and judicial functions of government among different organs. This separation **minimises the possibility of arbitrary excesses by the government**, since all the three organs act as check and balance on the powers of each other. Therefore, none of the three organs can usurp the essential functions of other organs.

This demarcation prevents the concentration of excessive power by any branch of the Government. It thus helps to safeguard the liberty and rights of the people in a democracy.

Subject) UPSC CSE 2021

Q.32) In context to political theory, which of the following is correct regarding the 'Harm Principle'?

- It provides that a government must prevent any physical harm to its citizens, as it is responsible to protect their life and property.
- The Right to Protection of Life, as enshrined in the Indian Constitution, is the direct reflection of this principle.
- It says that the people should be free to act as they wish, unless their actions cause harm to others.
- It proposes that if two circumstances are put before an individual, he will always choose the option causing less possible harm.

Ans) c

Exp) Option c is the correct answer.

Statement c is correct and Statement a is incorrect. The Harm Principle **says that people should be free to act as they wish unless their actions cause harm to somebody else.** Harm Principle means that there should be a constrain on a person from acting in a way that may cause harm to other. It was first proposed by English philosopher John Stuart Mill. It means people should be free to act in the way they want, however their actions should not cause harm to somebody else. Phrase "Your freedom to swing your fist ends where my nose begins" reflects the sentiment of the harm principle.

Statement b is incorrect. The Right to Freedom (and not the right to Protection of Life) is the reflection of the harm principle. Also, in the constitutional discussions in India, '**Reasonable Restrictions**' is the term used for justifiable constraints on the freedom of individuals. For example, State can impose reasonable restrictions on the exercise of right of assembly on two grounds, namely, sovereignty and integrity of India and public order including the maintenance of traffic in the area concerned.

Statement d is incorrect. According to 'Loss Aversion' Theory, if two choices are put before an individual, both equal, with one presented in terms of potential gains and the other in terms of possible losses, the former option will be chosen.

Source: NCERT XI, Political theory, chapter 2

Q.33) With reference to the offence of 'untouchability' in India, consider the following statements:

- The Constitution has defined 'untouchability' as "social disabilities imposed on certain classes of persons by reason of their birth".
- A person convicted of the offence of 'untouchability' is disqualified for election to the Parliament or state legislature.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) b

Exp) Option b is the correct answer.

Article 17 of Indian Constitution **abolishes ‘untouchability’ and forbids its practice in any form.** The enforcement of any disability arising out of untouchability shall be an offence punishable in accordance with law.

Statement 1 is incorrect: The term ‘untouchability’ has not been defined either in the Constitution or in the Act. However, the Mysore High Court held that the subject matter of Article 17 is not untouchability in its literal or grammatical sense but the ‘practice as it had developed historically in the country’. It refers to the social disabilities imposed on certain classes of persons by reason of their birth in certain caste.

Statement 2 is correct: According to the Representation of the People Act 1951, a person will be disqualified for election to the Parliament or state legislature if he convicted of an offence punishable under the Protection of Civil Rights Act, 1955. This Act provides for punishment for the preaching and practice of “untouchability”, and for the enforcement of any disability arising therefrom.

Thus, a **person convicted of the offence of ‘untouchability’ is disqualified for election to the Parliament or state legislature.**

Laxmikanth Chapter 7 Fundamental Rights

Q.34) Which among the following Directives to the State are contained in Part-IV of the Constitution of India?

1. To promote the spread of the Hindi language
2. To ensure the maintenance of adequate means of communication in the country
3. To consider the claims of Scheduled Castes in making of appointments to services
4. To raise the level of nutrition and the standard of living of people

Select the correct answer using the code given below:

- a) 1 and 3 only
- b) 1 and 2 only
- c) 2, 3 and 4 only
- d) 4 only

Ans) d

Exp) Option d is the correct answer

Apart from the Directives included in Part. IV that are considered Directive Principles of the State Policy, there are some other Directives contained in other parts of the Constitution.

Statement 1 is incorrect: **Article 351 in Part XVII** of the Constitution exhorts the State that it **shall be the duty of the Union to promote the spread of the Hindi language and to develop it** so that it may serve as a medium of expression for all the elements of the composite culture of India.

Statement 3 is incorrect: **Article 335 in Part XVI** mentions that **claims of the members of the Scheduled Castes and the Scheduled Tribes shall be taken into consideration, consistently with the maintenance of efficiency of administration, in the making of appointments to services and posts** in connection with the affairs of the Union or a State. It has **nothing to do with admission in educational institutions.** It is mentioned in **Article 46 that the State shall promote with special care the educational and economic**

interests of the weaker sections of the people, and, in particular, of the Scheduled Castes and the Scheduled Tribes, and shall protect them from social injustice and all forms of exploitation.

Statement 2 is incorrect: Statement 2 and 4 refers to directions which the Centre can give to the state government with regard to the exercise of their executive power.

(1) **the construction and maintenance of means of communication** (declared to be of national or military importance) by the state; (**Article 257 in Part XI of the Constitution**)

(2) the measures to be taken for the protection of the railways within the state;

(3) the provision of adequate facilities for instruction in the mother-tongue at the primary stage of education to children belonging to linguistic minority groups in the state; and

(4) the drawing up and execution of the specified schemes for the welfare of the Scheduled Tribes in the state

Statement 4 is correct. "To raise the level of nutrition and the standard of living of people and to improve public health" is contained in Article 47 in Part IV of Constitution.

Source: Indian Polity by Laxmikanth, 6th Edition, 8th Chapter

Q.35) Consider the following statements:

1. Atmospheric rivers are systems of rivers generated due to sudden rainfall in the region.
2. The phenomenon of atmospheric rivers is restricted to desert regions of tropical areas.
3. In wet conditions, atmospheric rivers can negatively impact the local economy by causing floods.

Which of the statements given above is/are correct?

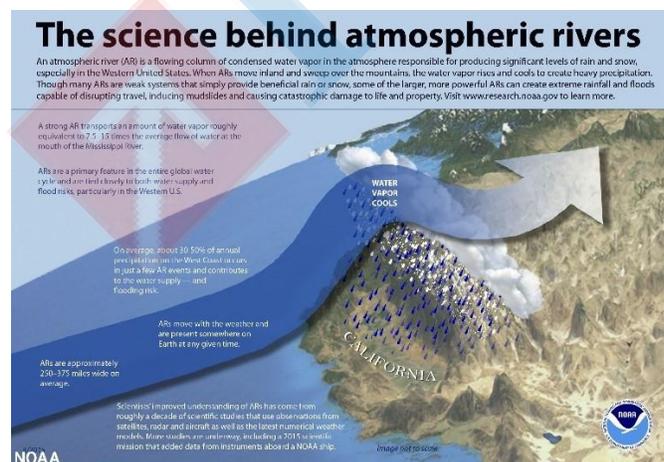

- a) 1 and 2 only
- b) 1 only
- c) 2 and 3 only
- d) 3 only

Ans) d

Exp) Option d is the correct answer.

Statement 1 is incorrect. An **atmospheric river (AR)** is a narrow corridor or filament of **concentrated moisture in the atmosphere**. Other names for this phenomenon are tropical plume, tropical connection, moisture plume, water vapor surge, and cloud band.

Not all atmospheric rivers cause damage; most are weak systems that often provide beneficial rain or snow that is crucial to the water supply, particularly in the western United States. However, those atmospheric rivers that contain the largest amounts of water vapor and the strongest winds (Strong System) can create extreme rainfall and floods.

Statement 2 is incorrect. Atmospheric rivers are long, narrow bands of moisture in the atmosphere that **extend from the tropics to higher latitudes**. These rivers in the sky can transport 15 times the volume of the Mississippi River.

Atmospheric rivers occur globally, affecting the west coasts of the world's major landmasses, including Portugal, Western Europe, Chile and South Africa.

A well-known example is the **"Pineapple Express,"** a strong atmospheric river that is capable of bringing moisture from the tropics near Hawaii over to the U.S. West Coast.

Statement 3 is correct. In dry conditions, atmospheric rivers can replenish water supplies and quench dangerous wildfires. In wet conditions, they can **cause damaging floods and debris flows**, wreaking havoc on local economies.

According to a study, Atmospheric rivers cause an average of \$1.1 billion in flood damages yearly in the western U.S. The study has also predicted that like hurricanes, atmospheric rivers are projected to grow longer, wider and wetter in a warming climate. This could lead to significantly larger economic impacts.

Source: Atmospheric river storms can drive costly flooding – and climate change is making them stronger -ForumIAS Blog

What are atmospheric rivers? | National Oceanic and Atmospheric Administration (noaa.gov)

Q.36) "To develop scientific temper, humanism and the spirit of inquiry and reform" is included under which of the following provisions of the Constitution of India?

- The Preamble
- Fundamental Rights
- Directive Principles of State Policy
- Fundamental Duties

Ans) d

Exp) Option d is the correct answer.

Fundamental Duties means that the citizens **in addition to the enjoyment of rights**, also have certain **obligations to be performed as well**.

Statement d is correct. One of the fundamental duties include **"to develop scientific temper, humanism and the spirit of inquiry and reform"**.

Other Fundamental Duties are:

- to abide by the Constitution and respect its ideals and institutions, the National Flag and the National Anthem;
- to cherish and follow the noble ideals that inspired the national struggle for freedom;
- to uphold and protect the sovereignty, unity and integrity of India;
- to defend the country and render national service when called upon to do so;
- to promote harmony and the spirit of common brotherhood amongst all the people of India transcending religious, linguistic and regional or sectional diversities and to renounce practices derogatory to the dignity of women;
- to value and preserve the rich heritage of the country's composite culture;
- to protect and improve the natural environment including forests, lakes, rivers and wildlife and to have compassion for living creatures;
- to safeguard public property and to abjure violence;
- to strive towards excellence in all spheres of individual and collective activity so that the nation constantly rises to higher levels of endeavour and achievement; and
- to provide opportunities for education to his child or ward between the age of six and fourteen years.

Source: M Laxmikanth, Preamble, FR, DPSP and FD Chapters

Q.37) Consider the following statements with reference to the 'Right to Property' in the Indian context:

1. Presently, it is neither a Constitutional right nor a legal right.
 2. It protects a person's property against executive action but not against legislative action.
 3. If this right is violated, the aggrieved person can directly move to the High Court for its enforcement.
- Which of the statements given above is/are correct?

- a) 1 and 3 only
- b) 3 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer

Statement 1 is incorrect: The right to property is a **Constitutional as well as legal right but not a Fundamental Right**. Originally, the Constitution provided for seven Fundamental Rights. However, the Right to Property (Article 31) was deleted from the list of Fundamental Rights by the 44th Amendment Act of 1978. It is made a legal right under Article 300-A in Part XII of the constitution.

Statement 2 is correct. The Right to Property protects private property against executive action but not against legislative action. It can be regulated i.e. curtailed, abridged or modified without constitutional amendment by an ordinary law of the Parliament.

Statement 3 is correct. In case of violation, the aggrieved person cannot directly move the Supreme Court under Article 32 (right to constitutional remedies including writs) for its enforcement. **He can move the High Court under Article 226.**

Source: NCERT XI, Constitution at work, Chapter 2

Q.38) Who among the following enjoys certain exceptions to the rule of Equality before Law under the Fundamental Right to Equality in India?

1. Governor of states
2. Foreign diplomats
3. United Nations agencies
4. Members of Parliament

Select the correct answer using the code given below:

- a) 1 and 4 only
- b) 2 and 3 only
- c) 1, 2 and 3 only
- d) 1, 2, 3 and 4

Ans) d

Exp) option d is the correct answer.

Statement 1 is correct: Governor of states enjoy some of immunities from the rule of equality before law. Some of these immunities are

- 1) He is not answerable to any court for the exercise and performance of the powers and duties of his office.
- 2) No criminal proceeding shall be instituted or continued against him during his term of office.
- 3) No process for arrest or imprisonment of him from any court during his term of office,
- 4) No civil proceedings shall be instituted during his term of office in any court in respect of any act done by him in his personal capacity, whether before or after he entered upon his office, until the expiration of two months next after notice has been delivered to him

Statement 2 is correct: The foreign sovereigns (rulers), ambassadors and diplomats enjoy immunity from criminal and civil proceeding.

Statement 3 is correct: The UNO and its agencies enjoy the diplomatic immunity.

Statement 4 is correct: Members of parliament and state legislature also enjoy immunity from anything said or any vote given by him in parliament/ state legislature or any committee thereof.

Source: Indian Polity by M Laxmikanth 5th edition - chapter 7 – Fundamental rights

Q.39) Which of the following rights has been made available to the prisoners in India through various Supreme court judgements?

1. Right to vote
2. Right to life
3. Right to be treated equally before the law
4. Right to speedy trial

Select the correct answer using the codes given below:

- a) 1, 2 and 3 only
- b) 2 and 3 only
- c) 2, 3 and 4 only
- d) 1, 2, 3 and 4

Ans) c

Exp) Option c is the correct answer.

Constitution of India does not expressly provide the provisions related to the prisoners' rights but in the case of **T.V. Vatheeswaran v. State of Tamil Nadu**, it was held that the Articles 14, 19 and 21 are available to the prisoners as well as freemen. Prison walls do not keep out fundamental rights.

Article 14 of the Constitution of India says that the State shall not deny to any person **equality before law or the equal protection of laws** within the territory of India.

Article 21 of the Constitution of India says that No person shall be deprived of his life or personal liberty except according to procedure established by law. **This includes right to speedy trial as a fundamental right to the prisoners.**

Right to vote is not available to prisoners in India as of yet.

RIGHTS OF PRISONERS IN INDIA: A LEGAL ANALYSIS » (lawaudience.com)

Rights of Prisoners under Indian Law (legaldesire.com)

Q.40) Consider the following pairs:

National Parks/Wildlife Sanctuaries **Located in states**

Sanctuaries

- | | |
|-------------------------------------|-----------------------------|
| 1. Debrigarh Wildlife Sanctuary | Chhattisgarh |
| 2. Rani Jhansi Marine National Park | Andaman and Nicobar Islands |
| 3. Kanger Valley National Park | Odisha |

How many pairs given above are correctly matched?

- a) None of the pairs
- b) Only one pair
- c) Only two pairs
- d) All three pairs

Ans) b

Exp) Option b is the correct answer.

This question is based on the article “Odisha to relocate 420 families from Debrigarh wildlife sanctuary in Bargarh district” published in “Down To Earth” on 22nd October 2021.

Pair 1 is incorrect.

Debrigarh wildlife sanctuary is located in **Odisha (not Chhattisgarh)**. A third of the sanctuary’s area is bound by the **Hirakud Dam**, thus forming a mini catchment for the reservoir. **The sanctuary** is also an important biogeographic zone from both the ecological and environmental points of view.

The **sanctuary finds a special mention because of noted freedom fighter Veer Surendra Sai**.

Pair 2 is correct. Rani Jhansi Marine National Park is located in the **Andaman and Nicobar Islands** in the Bay of Bengal. It was founded in 1996, and covers 256 km. It commemorates Lakshmibai, the Rani of Jhansi (1828–58). It is located in the Ritchie's Archipelago and is about 30 km from Port Blair. It contains coral reefs and mangrove forests. The biggest attraction in the park is a **fruit-eating bat**.

Pair 3 is incorrect. Kanger Valley National Park gets its name from the **Kanger river**. It was declared a national park in 1982 by the Government of India and located near **Jagdalpur** in the Bastar region of **Chhattisgarh**.

Source: Odisha to relocate 420 families from Debrigarh wildlife sanctuary in Bargarh district -ForumIAS Blog

List of important National Parks in India |ForumIAS Blog

Q.41) Right to Privacy is protected as an intrinsic part of Right to Life and Personal Liberty. Which of the following in the Constitution of India correctly and appropriately imply the above statement?

- Article 14 and the provisions under the 42nd Amendment to the Constitution
- Article 17 and the Directive Principles of State Policy in Part IV
- Article 21 and the freedoms guaranteed in Part III
- Article 24 and the provisions under the 44th Amendment to the Constitution

Ans) c

Exp) Option c is the correct answer.

In Justice K. S. Puttaswamy (Retd) and others vs Union of India (2017), the Supreme Court observed that 'Right to Privacy' is an integral part of Right to Life and Personal Liberty guaranteed in Article 21 of the Constitution. A nine-judge bench of the Supreme Court declared that the right to privacy is a Fundamental Right protected under Part III of the Constitution of India. While primarily focused on the individual's right against the State for violations of their privacy, this landmark judgement had repercussions across both State and non-State actors and is likely to result in the enactment of a comprehensive law on privacy.

Source) UPSC CSE 2018

Q.42) With reference to the Freedom of Movement guaranteed under Article 19 of Indian constitution, consider the following statements:

- The State can impose reasonable restrictions on this right for the protection of the interests of any Scheduled Tribe.
- The freedom to move outside the borders of India is covered under this right.

Which of the statements given above is/are correct?

- 1 only
- 2 only
- Both 1 and 2
- Neither 1 nor 2

Ans) a

Exp) Option a is the correct answer.

Statement 1 is correct: There are **2 limitations** imposed as ‘reasonable restrictions’ to the exercise of Freedom of Movement guaranteed under Article 19 of Indian constitution:

- 1) **interests of general public**
- 2) **interests of any scheduled tribe.**

The system of **Inner Line Permits** is an **example** of restriction of this right in order to ensure well-being of the tribals and the preservation of their unique and private culture.

Statement 2 is incorrect: The freedom to **leave the borders of India** as per an individual’s will and return back, ceiling a citizen have been covered under the **expanded scope of Article 21**, by **judicial activism** in **Maneka Gandhi case, 1978.**

This subsection of **Article 19** covers only the **freedom of Indian citizens** to move **freely** between one **state to another**, no matter the place of birth, or residence or work, **without the need of any permits or documents.** This has been done to promote the feelings of unity, integrity and fraternity among Indian citizens.

Source: Polity by Laxmikanth, 5th edition, Ch-7

Q.43) The 86th Constitutional Amendment Act of 2002 made changes to which of the following provisions?

1. Fundamental Rights
2. Directive Principles of State Policy
3. Fundamental Duties

Select the correct answer using the code given below:

- a) 1 only
- b) 2 and 3 only
- c) 1 and 2 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

Statement 1 is correct. The 86th Amendment Act of 2002 made elementary education a Fundamental Right under Article 21 A. Thus 86th Constitutional Amendment Act of 2002 made changes to Fundamental Right.

Statement 2 is correct. The 86th Amendment Act of 2002 changed the subject-matter of Article 45. The amended directive principle requires the State to provide early childhood care and education for all children until they complete the age of six years. Thus 86th Constitutional Amendment Act of 2002 made changes to Directive Principles of State Policy.

Statement 3 is correct. The 86th Amendment Act of 2002 made changes to the Fundamental Rights, Directive Principles of State Policy and Fundamental Duties. It added the Eleventh Fundamental Duty which provides that the citizens should provide opportunities for education to his child or ward between the age of six and fourteen years.

Source: M Laxmikanth

Q.44) Consider the following statements with respect to the provisions of ‘Martial Law’ in India”

1. The ‘Martial Law’ can be imposed only on the ground of ‘armed rebellion within India’.
2. The declaration of Martial Law automatically results in the suspension of the writ of Habeas Corpus.
3. ‘Martial Law’ is defined by the Constitution as ‘military rule under extraordinary circumstances’.

Which of the statements given above is/are correct?

- a) 1 only
- b) 1 and 3 only
- c) 2 only
- d) None

Ans) d

Exp) Option d is the correct answer.

Article 34 provides for the **restrictions on fundamental rights while martial law is in force** in any area within the territory of India. However, the expression ‘martial law’ has not been defined anywhere in the Constitution.

Statement 1 is incorrect. Martial Law is imposed **to restore the breakdown of law and order due to any reason.** The martial law is imposed under extraordinary circumstances like war, invasion, insurrection, rebellion, riot or any violent resistance to law.

Statement 2 is incorrect. The Supreme Court held that the declaration of martial law **does not ipso facto result in the suspension of the writ of habeas corpus.** However, during the operation of martial law, the military authorities impose restrictions and regulations on the rights of the civilians, can punish the civilians and even condemn them to death.

Statement 3 is incorrect. ‘Martial law’ is **not defined anywhere** in the Constitution. It means ‘military rule’. Source: Indian Polity, M. Laxmikanth, 6th Edition, Chapter-7

Q.45) Recently, which one of the following became first and only vaccine shown to have the capability of significantly reducing malaria and endorsed by the World Health Organisation?

- a) Falciparum
- b) Plasmodex
- c) Mosquirix
- d) Anopheles

Ans) c

Exp) Option c is the correct answer.

The new vaccine “**RTS,S/ASO1 (RTS.S)**” with its trade name “**Mosquirix**” was endorsed by the World Health Organisation (WHO) recently. This is the first and only vaccine shown to have the capability of **significantly reducing malaria**, and life-threatening severe malaria, in tests on young African children.

Mosquirix has been developed by **British pharmaceutical company GlaxoSmithKline** in partnership with the PATH Malaria Vaccine Initiative. It was approved for the pilot programme in 2015. The vaccine acts against **P. falciparum**, the deadliest malaria parasite globally, and the most prevalent in **Africa**. The malaria vaccine should be provided in a schedule of 4 doses in children from 5 months of age for the reduction of malaria disease and burden.

Knowledge Base:

Malaria: It is caused by the bite of the **female Anopheles mosquito** (vector) if the mosquito itself is infected with a malarial parasite. It is **preventable and curable**. There are **five kinds of malarial parasites** – Plasmodium falciparum, Plasmodium vivax (the commonest ones), Plasmodium malariae, Plasmodium ovale, and Plasmodium knowlesi.

Children aged under 5 years are the **most vulnerable** group affected by malaria; in 2019, they accounted for 67% (274,000) of all malaria deaths worldwide.

In 2019, **India** had an estimated **5.6 million cases** of malaria compared to about 20 million cases in 2000, according to WHO.

Source: Explained: What is Mosquirix, the first malaria vaccine to get the WHO’s backing? -ForumIAS Blog

Q.46) Which one of the following most accurately reflects the view of Libertarians?

- a) They believe that open and fair competition is necessary to achieve equality.
- b) They believe that public control over essential resources is necessary to achieve equality.
- c) They believe that political, social and economic equalities are interlinked.
- d) They believe that only state intervention can ensure equal opportunities to all.

Ans) a

Exp) Option a is the correct answer.

Liberals uphold the principle of competition as the most efficient and fair way of distributing resources and rewards in society. They believe that while states may have to intervene to try and ensure a minimum standard of living and equal opportunities for all, this cannot by itself bring equality and justice to society. Competition between people in free and fair conditions is the most just and efficient way of distributing rewards in a society. Socialism advocates some kind of government regulation, planning and control over certain areas such as education and healthcare. Unlike Socialists, liberals do not believe that political, economic and social inequalities are necessarily linked. They maintain that inequalities in each of these spheres should be tackled appropriately.

Source: Chapter 3, Political Theory Class XI NCERT

Q.47) Which of the following statements is/are correct regarding the Fundamental Duties as enshrined in the Indian Constitution?

1. Fundamental Duties extend to all persons whether citizens or foreigners.
2. They are automatically enforceable and does not need any executive decree.
3. They have been added in Part III of the Constitution so as to keep them on par with Fundamental Rights.

Select the correct answer using the code given below:

- a) 1 only
- b) 3 only
- c) 1 and 2 only
- d) None

Ans) d

Exp) Option d is the correct answer.

Article 51A was added to the Indian Constitution for incorporation of Fundamental Duties.

Statement 1 is incorrect: Unlike some of the Fundamental Rights which extend to all persons whether citizens or foreigners, the **Fundamental Duties are confined to citizens only and do not extend to foreigners.**

Statement 2 is incorrect: Like the Directive Principles, the fundamental duties are also non-justiciable. The Constitution does not provide for their direct enforcement by the courts. **Thus, they are not automatically enforceable.**

Statement 3 is incorrect: The 42nd Constitutional Amendment Act in 1976 added a new part, namely, **Part IVA to the Constitution.** This new part consists of only one Article, that is, Article 51A which specifies a code of 11 fundamental duties of the citizens.

Source: Indian Polity by Laxmikanth, 6th Edition, 9th Chapter

Q.48) Which of the following statements are correct regarding the significance of the Directive Principles of State Policy in India?

1. They refer to the goals and objectives which should be adopted by a society.
2. They facilitate stability and continuity in government policies.

3. They are intended to avoid any type of conflict between the Centre and the states.
4. They are supplementary to the fundamental rights of the citizens.

Select the correct answer using the code given below:

- a) 1, 2 and 4 only
- b) 2 and 4 only
- c) 1, 2 and 3 only
- d) 1, 2, 3 and 4

Ans) a

Exp) Option a is the correct answer.

Statement 1 is correct. DPSPs contain the goals and objectives that we as a society should adopt. For example, article 38 to provide minimum inequalities in income, status, facilities and opportunities, Article 39 A- to provide equal justice and to provide free legal aid to poor etc.

Statement 2 is correct. They facilitate stability and continuity in domestic and foreign policies in political, economic and social spheres in spite of the changes of the party in power.

Statement 3 is incorrect. DPSP does not contain as such provisions to avoid conflict between the Centre and states. Instead, DPSPs provisions can lead to sometimes the conflict between the Centre and states. For example, when **Centre gives direction** to state to implement some principles, but in case of **non-compliance, it can dismiss the state government** and thus leading to conflict.

Statement 4 is correct. They are supplementary to the fundamental rights of the citizens. They are intended to fill in the vacuum in Part III by providing for social and economic rights.

Source: NCERT Class-XI Indian constitution at work Chapter-2 page-43

Q.49) Which of the following statements is correct about the relationship between rights and duties of a citizen?

- a) Rights are progressive in nature while duties are regressive.
- b) Both rights and duties originate from the idea of integrity of nation.
- c) There's a complementary relationship between rights and duties.
- d) Rights and duties are completely independent and disjointed from each other.

Ans) c

Exp) Option c is the correct answer

Rights are what one wants others to do for him/her, whereas duties are those acts that one should perform for others. Thus, **a right comes with an obligation to show respect for the rights of others. The obligations that accompany rights are in the form of duties.** Every right implies a co-relative duty and vice-versa. The State protects and enforces rights and it is the duty of all citizens to be loyal to the state. Thus, the **relationship between the rights is complementary.**

NCERT XI, Political theory, Chapter 5,

Q.50) Consider the following statements regarding 'DigiSaksham' programme:

1. The focus area of the scheme is to enhance the employability of youth by imparting digital skills.
2. The programme is a joint initiative of Google India and the Ministry of Skill Development and Entrepreneurship.
3. Under the programme, it is mandatory for all the applicants to get training through Instructor Led Mode Training (ILT).
4. The scheme will be implemented in the field by Aga Khan Rural Support Programme-India.

Which of the statements given above are correct?

- a) 1, 2 and 3 only
- b) 2 and 4 only
- c) 1 and 4 only
- d) 1, 2, 3 and 4

Ans) c

Exp) Option c is the correct answer.

Statement 1 is correct. A digital skills programme called **DigiSaksham** seeks to enhance the **employability of youth** by **imparting digital skills** that are required in an increasingly technology-driven era. The initiative gives priority to the job-seekers of semi-urban areas belonging to disadvantaged communities, including those who have lost their jobs due to the Covid-19 pandemic.

Statement 2 is incorrect. The programme is a joint initiative of **Microsoft India** and the **Ministry of Labour & Employment**. The Jobseekers can access the training through **National Career Service (NCS)** Portal. It is an extension of the Government's ongoing programs to support the youth from rural and semi-urban areas.

Statement 3 is incorrect. Under the DigiSaksham initiative, there will be basically three types of training viz. **Digital Skills - Self paced learning, VILT mode training (Virtual Instructor led) and ILT mode training (Instructor led)**. The ILT training which is in person training would be conducted at the Model Career Centres (MCCs) and National Career Service Centres (NCSC) for SCs/STs across the country. It is **not mandatory** for the applicants to get training through Instructor led mode Training (ILT).

Statement 4 is correct. DigiSaksham will be implemented in the field by **Aga Khan Rural Support Programme India (AKRSP-I)**. Aga Khan Rural Support Programme (India) is a non-government development organization. AKRSP(I) works as a catalyst for the betterment of rural communities by providing direct support to local communities.

Q.1) With reference to the Finance Commission of India, which of the following statements is correct?

- It encourages the inflow of foreign capital for infrastructure development.
- It facilitates the proper distribution of finances among the Public Sector Undertakings.
- It ensures transparency in financial administration.
- None of the statements (a), (b) and (c) given above is correct in this context.

Ans) d

Exp) Option d is the correct answer.

Set up under Article 280 of the Constitution, the Finance Commission is a Constitutionally mandated body that is at the Centre of fiscal federalism. Its core responsibility is to evaluate the state of finances of the Union and State Governments, recommend the sharing of taxes between them, lay down the principles determining the distribution of these taxes among States. Thus, **none of the statements given in above options are correct with reference to Finance Commission.**

The Finance Commission is required to make recommendations to the President of India on the following matters:

- The distribution of the net proceeds of taxes to be shared between the Centre and the states, and the allocation between the states of the respective shares of such proceeds.
- The principles that should govern the grants-in-aid to the states by the Centre (i.e., out of the consolidated fund of India).
- The measures needed to augment the consolidated fund of a state to supplement the resources of the panchayats and the municipalities in the state on the basis of the recommendations made by the state finance commission.
- Any other matter referred to it by the president in the interests of sound finance.

Source) UPSC CSE 2011

Q.2) Which of the following statements rightly explains the term ‘federalism’?

- It is a political system characterised by the division of power between the two Houses of Union Legislature.
- It is a political system that involves giving dual citizenship to citizens compulsorily.
- It is the system of having an elected and non-hereditary Head of the State.
- It is a system of government in which power is divided between a central authority and various constituent units of the country.

Ans) d

Exp) Option d is the correct answer.

Option a is incorrect: The presence of **two Houses in a Legislature** is termed as **Bicameralism**. However, **both Unitary** (like the **United Kingdom**) and **Federal** (like **United States of America**) polities **may have a Bicameral Legislature**. Hence this is **not a correct** definition of Federalism.

Generally, these two Houses have **different powers and functions**, with one being more powerful than the other. These two Houses are **present at the same level of polity** (such as both at the Centre like Rajya Sabha & Lok Sabha, or both at state level like Vidhan Sabha and Vidhan Parishad).

Option b is incorrect: **Dual citizenship** means that a **same individual is recognized as a citizen**, with some intrinsic rights, by **different sets of polities**. It may mean that a person can hold citizenship of **two different countries** (like **Canada** allows), or it may also mean that a person is recognized as a citizen of both the **nation and the state** in which he is born/ resides (such as in the **USA**). However, **grant of Dual Citizenship** to citizens **does not necessarily** mean that a polity is Federal (as **Canada is a Unitary state**, while **USA is a**

federal state, likewise **India** is a **federal state**, but it only has **Single citizenship**). Hence this statement is **incorrect**.

Option c is incorrect: A polity wherein the **Head of the State** is an **elected representative (not a hereditary head** such as a monarch), is known as a **Republic, not a Federal Polity**. Hence this statement is **incorrect**.

Option d is correct: A **feature** that can be said to be **constant** throughout all polities characterised as Federal, is that there is a **division of power across various tiers (levels of government)** - such as Centre, Regional/ State, Local, etc. **Federalism is a system of government in which power is divided between a central authority and various constituent units of the country**. A federation has minimum two levels of government. All these levels of governments enjoy their power somewhat independent of the other.

Indian Polity by Laxmikanth, 5th edition, Ch-3, Pg3.2; Ch-4, Pg-4.3, Ch-13

Q.3) With reference to the differences between Federal features of USA and India, consider the following statements:

1. The allocation of seats in upper houses of legislatures of both countries is on the basis of the population of each State.
2. While the states in America have been guaranteed territorial integrity, the states in India have not.
3. While there is a single constitution in India, in America each state has its own constitution.

Which of the statements given above is/ are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 3 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

Both India and the United States of America are federal polity in structure. This means that there is a division of power between a central and a regional government. However, there are significant differences in many features and structures relating to Federalism in both countries.

Statement 1 is incorrect: Both US and India have a bicameral legislature. The upper and the lower houses of US legislature are called as the House of Senate and the House of Representatives respectively, and the Indian Parliament has Lok Sabha and Rajya Sabha as its Lower and Upper house respectively.

The allocation of seats in Rajya Sabha is made on the basis of the population of each State. However, in USA, all states are given equal representation in the Senate irrespective of their population. USA has 50 states and the Senate has 100 members–2 from each state.

Statement 2 is correct: The United States of America was created as a result of an agreement among recently liberated states under British colonisation in North America. So, their **constitution was designed** such that the **autonomy and powers** of the **constituent states** were **preserved** to a great extent. So according to the **American constitution**, the **Central government cannot create or merge states** or alter their boundaries with a **simple legislation**, if at all, thus **almost guaranteeing their existence in perpetuity**. Hence the **states in America have absolute territorial integrity**.

On the other hand, in **India**, the **constitution created a federal polity** with a **bias** for a **strong centre**. So as per **Article 2, 3 and 4**, the **Central Parliament** can **easily create or destroy or merge a state**, or alter its boundaries or name, by passing a **simple legislation** with **ordinary procedure (simple majority)**, **without the consent** of the states involved. Thus, **states in India, do not have territorial integrity**. Rather, the **Indian nation** is the one whose **integrity is paramount**, as **no state can declare** that it is **seceding**. Hence this statement is **correct**.

Statement 3 is correct: Despite being a federal polity, **India** has a **single constitution**, that **governs** governance at **both the centre** and in the **states**. This was done by the makers of the constitution to foster feelings of fraternity, brotherhood and unity among Indians, who are very diverse and were very loosely united at the time of independence.

On the other hand, since **America** was formed as a **result of agreement between states** coming together, they **retained their power** by opting to **run the government according to their own constitution**. Hence **each state in America**, has its **own constitution** in **addition to a common constitution** which is **applicable to the entire USA**. Hence this statement is **correct**.

 Indian Polity by Laxmikanth, 5th edition, Ch-13

Q.4) With reference to the changes in the territory of states/Union Territories in India, consider the following statements:

1. The Indian Constitution requires Parliament to get the consent of all state(s) involved in creation/ merger of states.
2. A Parliamentary bill providing for alteration in the boundaries of a Union Territory must be referred to the legislature of the concerned Union Territory.

Which of the statements given above is/ are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) d

Exp) Option d is the correct answer.

The constitution of India describes India as a Union in Article 1. Despite having a federal structure, where the state governments have reasonable autonomy within the spheres allocated to them by the constitution, the Indian constitution has a bias towards a strong Centre. So as is often used to describe Indian polity, the constitution is federal in structure but Unitary in spirit. This is visible in various provisions as well.

Statement 1 is incorrect: As per **Articles 2 and 3**, the **Parliament** at the Centre can **create new states, or make adjustments** in existing states (**size, boundaries, name**, etc). They mention that the Parliament does **not need to gain the consent of the state** in question, for **any** of the **activities (not just name or boundary change)** mentioned before. Hence this statement is **incorrect**.

The **Parliament can unilaterally** create or merge or change any territorial feature of any state. To do so, only a **simple legislation** requiring **ordinary/ simple majority** will be sufficient, and it would **not be considered** to be an **amendment under Article 368** (as per **Article 4**).

Statement 2 is incorrect: A bill contemplating the changes in the area/boundaries/name **of a state** can be introduced in the Parliament only with the prior recommendation of the President. Also, before recommending the bill, the President has to refer the same to the state legislature concerned for expressing its views within a specified period. But, **in case of a union territory, no reference need be made to the concerned legislature to ascertain its views and the Parliament can itself take any action as it deems fit**.

Q.5) Consider the following statements regarding the UNESCO Creative Cities Network:

1. Recently, Srinagar has been designated as a part of UNESCO Creative Cities Network.
2. The initiative will provide funding to the selected cities in various category in order to preserve the creative elements in urban areas.
3. India has become the only country having cities recognized for all the categories of creative field in the Network.

Which of the statements is/are correct?

- a) 1 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) a

Exp) Option a is the correct answer.

Recently UNESCO picked Srinagar as creative city. UNESCO Creative Cities Network (UCCN) was launched in 2004 to promote cooperation among cities which recognized creativity as a major factor in their urban development.

Statement 1 is correct. Recently, UNESCO has selected **Srinagar** as part of the UNESCO Creative Cities Network (UCCN) under the **Crafts and Folk Arts category**. Srinagar became one of 49 cities worldwide to join the UNESCO Creative Cities Network (UCCN). In 2019, Mumbai has been designated as Creative City of Films.

Statement 2 is incorrect. There is **no provision of financial support** or funding under UNESCO Creative Cities Network. By joining the Network, cities acknowledge their commitment to **sharing best practices**, developing partnerships that promote creativity and the cultural industries, strengthening participation in cultural life and integrating culture in urban development plans. However, tag would give global recognition to the cities and help it in getting international funding.

Statement 3 is incorrect. India does not have recognition for all the categories of creative field in the Network. The cities under categories of Design, Literature and Media Art are yet to be recognized. The UNESCO Creative Cities Network covers seven creative fields: **Crafts & Folk Art, Design, Film, Gastronomy, Literature, Media Arts, and Music.**

- 1) **Mumbai** has been designated as **Creative City of Films** and **Hyderabad** a Creative City of **Gastronomy**.
- 2) Earlier, **Chennai and Varanasi** were included as UNESCO cities **of music** while **Jaipur** was included as the **City of Crafts and Folk Arts**.

Explained: How Srinagar earned UNESCO creative tag -ForumIAS Blog

Q.6) Which of the following statements is correct regarding Cooperative Federalism?

- a) Cooperative Federalism involves a competition between the Union and the states for more control over finances.
- b) Bringing Cooperative Federalism in India will always require amendments in the federal scheme of Constitution under Article 368.
- c) Cooperative Federalism mainly involves delegation of maximum possible legislative functions to the states by the Centre.
- d) Article 261 of Indian Constitution ensures Cooperative Federalism in Public acts, records and judicial proceedings.

Ans) d

Exp) Option d is the correct answer.

The Indian model of federalism is 'cooperative', as laid down by the Supreme Court in State of Rajasthan v. Union of India. Cooperative Federalism believes in treating states as partners and not merely dependents or beneficiaries of the Union Government.

Option a is incorrect: Cooperative federalism means that though there is a constitutional provision for the distribution of powers, in practice, these powers are to be exercised jointly by the Centre and the states. These governments are interdependent and not independent.

However, Competitive Federalism is a concept which envisions a vertical relationship between the states and the Union, where the states are seen as dependents of the Union and have to compete among each other in order to receive bigger share of limited resources. Cooperative federalism does not signify a competition between the Centre and states for power. Hence this statement is incorrect.

Option b is incorrect: Article 368 of the Indian constitution provides the mechanism for making amendments to the constitution. It has made the provision for a fairly rigid and difficult process of amendment on matters that have the potential to disturb the federal nature of our polity. However, cooperative federalism is more a concept and style of administration rather than actual change in legislative domains and respective powers of the Centre and the states, and hence most often no amendment, let alone amendment under Article 368, is required. **Hence this statement is incorrect.**

Some changes require amendments – **like the passage of the GST Act, but some like the abolishment of Planning Commission do not require any amendments.**

Option c is incorrect: Cooperative Federalism is **not a way to re allocate division of legislative or executive powers between the centre and the states.** It is a concept which involves giving the states a bigger platform to express their needs and contribute ideas on how the Central and respective state governments can ensure maximum progress within the legislative spheres allocated to them by the Constitution. They both behave as partners, and hold discussions on how to best execute policies, within the existing framework, rather than the states being passive players who are dependent on the Centre for resources and direction. Hence this statement is incorrect.

Option d is correct: Cooperative federalism is the horizontal relationship between union and states and shows neither is above the other. Indian constitution has incorporated instruments to ensure co-operation between the centre and states to ensure that cooperation is necessary for the proper growth of the country.

Article 261 of the Constitution of India provides that full faith and credit shall be given throughout the territory of India to all the public acts, records, and judicial proceedings of the Union and every State. This is a step to promote cooperation and faith between the centre and the states.

Q.7) Which of the following are provisions/ features of the Indian constitution that creates a federation with strong Unitary bias?

1. President's rule under Article 356.
2. Language to be used in the Legislature under Article 210.
3. Governor's power to reserve any Bill for consideration of the President.
4. Jurisdiction of the Union in relation to territories outside India.
5. Power of Parliament to legislate with respect to a matter in the State List.

Select the correct answer using the code given below:

- a) 1, 2 and 4 only
- b) 3 and 5 only
- c) 1, 3 and 5 only
- d) 1, 2, 3, 4 and 5

Ans) c

Exp) Option c is the correct answer.

The constitution of India describes India as a Union in Article 1. Despite having a federal structure, where the state governments have reasonable autonomy within the spheres allocated to them by the constitution, the Indian constitution has a bias towards a strong Centre. So as is often used to describe Indian polity, the constitution is federal in structure but Unitary in spirit. This is visible in various provisions as well.

Option 1 is correct: Article 356 of Part XVIII of the Constitution relates to the provisions governing **declaration of Emergency**, specifically declaration of **President's Rule in a state (State/ Constitutional emergency)**. This is a type of emergency that is declared when the Governor of a state feels that the government of the state cannot be run in accordance with constitutional provisions. It results in the **control** of that **particular state going directly** into the hands of the **Centre**.

This means that the **executive decisions relating to that state** are taken by the **President on advice of the central Council of Ministers**, and the **legislation** for that state is done by the **Parliament, not the state legislature**. Thus, this provision gives extraordinary power to the Union, while diminishing the autonomy of the state considerably. Hence this option is **correct**.

Option 2 is incorrect: Article 210 of Part VI of the Indian Constitution is a provision relating to the **procedures and working** of the **State Legislatures**. It details out which all **languages** may be used to conduct the **proceedings** in the State Legislature. It has **no bearing on Centre-State relations**. Hence it is an **incorrect** option.

Option 3 is correct: Article 201 of Part VI of the Indian constitution relates to the **proceedings** in the **State Legislature**, specifically with respect to the **passage of Bills** and other legislations.

This provision gives a **special power** to the **Governor**, to **reserve any Bill** submitted for approval by the State Legislature, for **consideration of the President**. Doing so, **shifts the ultimate destiny** of such a Bill to the **Central Executive** (President advised by the Central Council of Ministers). After this step, the passage of the Bill is **dependent upon the wishes of the Central Executive**, giving it **greater power than State Legislative**. Hence this option is **correct**.

Option 4 is incorrect: Article 260 of Part VI pertains to the **jurisdiction** of the **Centre to administer** and **matters related** to **territories outside India**. This is **not related** to giving the **Union overwhelming powers** with respect to states. Hence this option is **incorrect**.

Option 5 is correct: Article 249 of Part VI pertains to the **special provision** that **allows the Parliament to legislate on any matter** in the **State List** (in Schedule VII) (which is **normally** considered in domain of state legislatures, and hence **out of bound for the Union**, as it should be under Federal principle of Distribution of Power).

Although a **Special Majority** ($\frac{2}{3}$ members present & voting) in the **Rajya Sabha is required** to authorise this, still having such a provision provides **a way for the Union to exert power over the states**. Hence this option is **incorrect**.

Source: NCERT Class XI, Constitution at Work, Ch-7, Pg-161,162;
Indian Polity by Laxmikanth, 5th edition, Ch-13, Pg 13.3, 13.4, 13.5

Q.8) Consider the following statements with reference to the Central Information Commission:

1. Chief Information Commissioner is appointed by the President.
2. Chief Information Commissioner is not eligible for reappointment.
3. Information Commissioners hold office for a term prescribed by the Central Government or until they attain the age of 65 years.
4. The Commission has the power to order a Public Authority to compensate the complainant.

Which of the statements given above is/ are correct?

- a) 1 and 4 only
- b) 2 and 3 only
- c) 1, 2 and 3 only
- d) 1, 2, 3 and 4

Ans) d

Exp) Option d is the correct answer.

Central Information Commission was constituted through the provisions of the **Right to Information Act (2005)**. Hence, it is not a constitutional body. The Central Information Commission is a high-powered independent body which looks into the complaints made to it and decide the appeals.

Statement 1 is correct: The Commission consists of a Chief Information Commissioner and not more than ten Information Commissioners. **They are appointed by the President on the recommendation of a committee** consisting of the Prime Minister as Chairperson, the Leader of Opposition in the Lok Sabha and a Union Cabinet Minister nominated by the Prime Minister.

Statement 2 and 3 are correct: The **Chief Information Commissioner and an Information Commissioner shall hold office for such term as prescribed by the Central Government** or until they attain the age of **65 years**, whichever is earlier. They are **not eligible for reappointments**.

Statement 4 is correct:

In appropriate cases the Central Information Commission may **order the public authority to compensate the complainant**. It may require the public authority to compensate the complainant for any loss or other.

Source: Indian Polity by Laxmikanth, 6th Edition Chapter 57

<https://cic.gov.in/introduction>

Q.9) With reference to the relations between the Central and state Executive in India, consider the following statements:

1. A single state is allowed to delegate its executive functions to the Central government.
2. The Centre cannot delegate its executive functions to a state government without its consent.
3. All decisions regarding delegations of executive functions between Centre and States are taken only by the President and respective state's Governor.

Which of the statements given above is/ are correct?

- a) 1 only
- b) 2 and 3 only
- c) 1 and 2 only
- d) 1 and 3 only

Ans) a

Exp) Option a is the correct answer.

Statement 1 is correct: The **constitution does not have a very rigid scheme of division** between the Centre & the States, when it comes to **Executive functions**. This has been **done to avoid situations of deadlock** while implementing laws. So, the Constitution has made **provisions that allow a state's Governor to**

delegate some of the **executive functions of the state government** to the **Centre**, with the **consent of the Central government**. Hence this statement is **correct**.

Statement 2 is incorrect: In order to ensure smooth functioning of administration, the **Constitution** has **provided for mutual delegation** of **Executive functions** between the **Centre and the states**. This means that **both can delegate** their executive functions to the others, either conditionally or unconditionally.

While a **state government/ legislature cannot delegate** its executive functions to the **Central government without its consent**, the **reverse is possible**. This means that the **Centre can delegate** its executive functions to a **state government, without its consent, provided this delegation is directed by the Parliament (through a law), not the President**. Hence this statement is **incorrect**.

Statement 3 is incorrect: The **Centre can delegate** its executive functions to a **state government, without its consent, provided this delegation is directed by the Parliament (through a law), not the President**. Hence the **Parliament too may be involved** in a special case of delegation of Executive Power (when **delegation is made without consent** of the state government). So, it's **not just the President and the Governor** who are **involved in decisions regarding mutual delegation** of executive functions. Rather it **also involves** the **Central government, the state government, and on occasion, the Parliament**. Hence this statement is **incorrect**.

Source: Indian Polity by Laxmikanth, 5th edition, Ch-14, Pg-14.5

Q.10) Which of the following reasons are correct for Madras high court declaring Tamil Nadu legislation of granting internal reservation to the Vanniyar community unconstitutional?

1. There was no quantifiable data on population, socio-educational status and other parameters of community.
2. During the passage of the act, state legislature was not empowered to make changes in the Backward class lists.
3. The idea of internal reservation is not recognised under Indian Constitution and goes against the Basic Structure Doctrine.

Select the correct answer using the codes given below:

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) a

Exp) Option a is the correct answer.

Recently, The Tamil Nadu Assembly had passed a special Act that divided the existing 20% quota for the 'Most Backward Classes/De-notified Communities' category into three parts. Among them, the largest share of 10.5% was specified as exclusive to the Vanniyar community and its various sub-castes.

Statement 1 and 2 are correct.

The Act has been **struck down** by Madras High Court due to **following reasons**:

- 1) The Act had been passed by the State **without any quantifiable data on population, socio-educational status**, and representation of the backward classes in the services.
- 2) The Act was **unconstitutional**, mainly on the ground that the **Assembly had no legislative competence to pass the law on the date of the enactment**. This was because the 102nd Amendment to the Constitution empowered the President to notify the backward classes list for each State was in force.
- 3) Later, the Government of India brought the **105th Amendment** to make it explicit that the States could make changes in the Backward class lists.

- 4) The government acted hastily, as it had earlier appointed a commission under a retired High Court judge to compile quantifiable data on all castes so that the State could justify its 69% total reservation. But it did not wait for its report.

Statement 3 is incorrect. Supreme Court in 2020 has **acknowledged the concept of internal reservation** in India. It stated that states can provide internal reservation within Schedule Castes, Scheduled Tribes and socially and educationally backward classes to remove inequalities

Source: Reservation Within quota-ForumIAS Blog

SC verdict on internal reservation likely to impact Karnataka BJP too | Bengaluru News - Times of India (indiatimes.com)

Q.11) In India, other than ensuring that public funds are used efficiently and for the intended purpose, what is the importance of the office of the Comptroller and Auditor General (CAG)?

1. CAG exercises exchequer control on behalf of the Parliament when the President of India declares national emergency/financial emergency.
2. CAG reports on the execution of projects or programmes by the ministries which are discussed by the Public Accounts Committee.
3. Information from CAG reports can be used by investigating agencies to press charges against those who have violated the law while managing public finances.
4. While dealing with the audit and accounting of government companies, CAG has certain judicial powers for prosecuting those who violate the law.

Which of the statements given above is/are correct?

- a) 1, 2 and 4 only
- b) 2 only
- c) 2 and 3 only
- d) 1, 2, 3 and 4

Ans) c

Exp) Option c is the correct answer.

The Comptroller and Auditor General (CAG) of India is the constitutional authority, established under Article 148 of the Constitution of India.

He is empowered to Audit all receipts and expenditure of the Government of India and the State Governments, including those of autonomous bodies and corporations substantially financed by the Government.

The CAG is also the statutory auditor of Government-owned corporations and conducts supplementary audit of government companies in which the Government has an equity share of at least 51 per cent or subsidiary companies of existing government companies.

Statements 2 and 3 are correct. The reports of the CAG are laid before the Parliament/Legislatures and are being taken up for discussion by the Public Accounts Committees (PACs) and Committees on Public Undertakings (CoPUs), which are special committees in the Parliament of India and the state legislatures. Also, information from CAG reports can be used by investigating agencies to press charges against those who have violated the law while managing public finances. This was seen during 2G and Commonwealth Games scams.

Statements 1 and 4 are incorrect. CAG does not exercise exchequer control on behalf of the Parliament when the President of India declares national emergency/financial emergency. The CAG does not have any judicial powers.

Source) UPSC CSE 2012

Q.12) With reference to the special provisions for legislations regarding special areas in India, consider the following statements:

1. An order by the President can repeal or amend any Parliamentary law with respect to Union territory of Andaman and Nicobar Islands.
2. The Legislatures of states having Tribal Areas can restrict application of Parliamentary laws in those areas.
3. The Governors of states having Scheduled Areas can direct the modification of Parliamentary laws in those areas.

Which of the statements given above is/ are correct?

- a) 1 and 2 only
- b) 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

The constitution has divided legislative subjects into 3 categories - Union, State & Concurrent List. The Parliament is entitled to legislate on any subject mentioned in the Union List (and Concurrent List) throughout the territory of India. However, the Constitution has stipulated certain exceptions to this rule, to accommodate the well-being of various diverse groups with special/ different needs in a vast country like India.

Statement 1 is correct: The President can make regulations for the peace, progress and good government of the Union Territories of- the Andaman and Nicobar Islands, Lakshadweep, Dadra and Nagar Haveli and Daman and Diu, and Ladakh. A regulation so made has the same force and effect as an act of Parliament. **It may also repeal or amend any act of Parliament in relation to these union territories.**

Statement 2 is incorrect: Article 244 of the Constitution also declares some special areas known as **Tribal Areas** (specifically in states of **Assam, Tripura, Meghalaya & Mizoram**), which are inhabited by **tribes who have not assimilated** with the modern society and **need special protection** with respect to their environment, land and customs. In order to ensure this, according to the constitution, the **Governor** of these states (**not the State Legislatures**) can **declare that certain acts of the Parliament**, even if they fall under the Union List are **not applicable or apply with exceptions or modifications to these areas**. Hence this statement is **incorrect**.

Statement 3 is correct: Article 244 of the Constitution envisages a **special system of administration** for certain **areas called Scheduled Areas** (enumerated in **Schedule V**). These areas are **inhabited by "aboriginals"** who are **socially and economically backward**, and hence **require special protection**. So, the constitution provides that the **Governors** of the **states enumerated in Schedule V** can **declare** according to their **discretion that certain acts of the Parliament**, even if they fall under the Union List are **not applicable or apply with exceptions or modifications to these areas**. Hence this statement is **correct**.

Source:

https://legislative.gov.in/sites/default/files/21_The%20Constitution%20%28Andaman%20Nicobar%29%20ST%20Order%201959.pdf

Q.13) Consider the following statements with reference to the Lokpal and Lokayukta:

1. There is no uniformity of powers of Lokayukta of different states.
2. Lokpal cannot Suo motu proceed against any public servant.
3. The Prime Minister has been kept completely outside the purview of the Lokpal.

Which of the statements given above is/ are correct?

- a) 2 only
- b) 1 and 2 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

The Lokpal and Lokayukta Act, 2013 provided for the establishment of Lokpal for the Union and Lokayukta for States. The Act allows setting up of anti-corruption ombudsman called Lokpal at the Centre and Lokayukta at the State-level. They perform the function of an "ombudsman" and inquire into allegations of corruption against certain public functionaries and for related matters.

Statement 1 is correct: As per the Lokpal and Lokayukta Act, 2013, **every state has the autonomy to frame their own laws, thus the Lokayukta's powers vary from state to state** on various aspects, such as tenure, and the need for sanction to prosecute officials. Some states such as Rajasthan, Karnataka, Andhra Pradesh and Maharashtra have created the Lokayukta as well as Up-Lokayukta, while some other states have created only the Lokayukta.

Statement 2 is correct: Unless a complaint has been made, **Lokpal cannot Suo motu proceed against any public servant.** As per the Lokpal Act, the "complaint" means a complaint, made in such form as may be prescribed, alleging that a public servant has committed an offence punishable under the Prevention of Corruption Act, 1988. Jurisdiction of Lokpal includes Group A, B, C and D officers and officials of Central Government.

Statement 3 is incorrect: The **Prime Minister has been brought under the purview of the Lokpal with subject matter exclusions** and specific process for handling complaints against the Prime Minister. The Lokpal has jurisdiction to inquire into allegations of corruption against anyone who is or has been **Prime Minister, or a Minister in the Union government, or a Member of Parliament.**

Source: Indian Polity by Laxmikanth, 6th Edition Chapter 60

Q.14) Which of the properties/ income of the states among the following are exempted from Central taxation?

1. Buildings and the offices of state government departments.
2. Equity & Debt Investments made by the state government.
3. Premises of state Public Sector Enterprises.
4. Machines imported for road construction, or tunnel digging by the state government.

Select the correct answer using the code given below:

- a) 1 and 2 only
- b) 2 and 3 only
- c) 3 and 4 only
- d) 1, 3 and 4 only

Ans) a

Exp) Option a is the correct answer.

Statement 1 is correct: Any **property/ income/ asset** which is used by the **state governments to carry out their sovereign functions** (carry out the **roles and duties of governance entrusted** to them by the **constitution**) are **exempt from taxation** by the **Central government.**

Since the **buildings, housing and the offices** of various **government departments** are used to **provide governance services** to the people in a state, such **properties owned by the state** are **exempt from any taxation**. Hence this **Statement is correct**.

Statement 2 is correct: The **government**, both at Centre and in the states, **makes investments** in various **assets like equities and debt funds**, through proper channels in order to be able to **raise resources** for their budgets, so that they may meet **revenue expenses** (welfare expenses like subsidies, pensions, salaries, etc) as well as **capital expenditure** (creating new infrastructure, etc). So, **such assets, although normally taxed**, are **exempt from central taxation** (such as **securities transaction tax, dividend distribution tax, capital gains tax, etc**), as it is in the **service of providing public services (a sovereign function)** by the state governments. Hence this **Statement is correct**.

Statement 3 is incorrect: The Constitution mentions that **property or income of corporations or companies owned by the state government** (such as **state PSEs** like UP Power Corporation Ltd, etc) are **not exempt from Central taxation, even if they are in the service of the public**. Hence this **Statement is incorrect**.

Statement 4 is incorrect: The **Supreme Court** in an **advisory opinion in 1963**, held that the **immunity granted to a state** in respect of **Central taxation does not extend to Excise or Custom duties**. This means that **if a state imports anything, even if it is for a public purpose, like machines for digging tunnels or laying roads, from abroad, it will have to pay custom duty** (which is a **central tax**). Hence this **Statement is incorrect**.

Q.15) Consider the following statements regarding 'Bhasha Sangam Initiative':

1. It is an initiative of the NGO 'Leap for Word' in collaboration with Ministry of Culture.
2. The initiative aims to improve the English language skills of teachers at elementary levels in rural areas.
3. Bhasha Sangam Mobile App is developed to provide sentences of daily usage in both script and audio format.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 3 only
- d) 1 and 3 only

Ans) c

Exp) Option c is the correct answer.

Statement 1 is incorrect. **Bhasha Sangam** is an initiative of the **Ministry of Education** under **Ek Bharat Shreshtha Bharat**. Recently, Union Education Minister has launched the Bhasha Sangam Initiative for schools, Bhasha Sangam Mobile App and Ek Bharat Shreshtha Bharat Quiz App.

Statement 2 is incorrect. The aim of **Bhasha Sangam Initiative** is to **teach school students** basic sentences of everyday usage in **22 Indian languages**. This will help students to acquire basic conversational skills in an Indian language other than their mother tongue. It does not aim to improve the English language skills of teachers at elementary levels in rural areas.

Statement 3 is correct. **Bhasha Sangam Mobile App** is an initiative of the **Department of Higher Education (DoHE)** in collaboration with MyGov. The App initially has **100 sentences of everyday usage in 22 Indian languages**. These sentences are available in **both Roman script and in the script of the given language and also in audio format**.

Knowledge Base:

Ek Bharat Shreshtha Bharat:

- 1) Ek Bharat Shreshtha Bharat was announced by the **Prime Minister on 31st October, 2015** on the occasion of the 140th birth anniversary of Sardar Vallabhbhai Patel.
- 2) The scheme aims to **promote engagement amongst the people of different states/UTs** so as to enhance mutual understanding and bonding between people of diverse cultures, thereby securing stronger unity and integrity of India.
- 3) The **Ministry of Human Resource Development (Now Ministry of Education)** has been designated **Nodal Ministry** for coordination of the programme.

Ek Bharat Shreshtha Bharat programme -ForumIAS Blog

Q.16) To protect the interest of states in the financial matters, the Constitution lays down that certain bills can be introduced in the Parliament only on the recommendation of the President. In this context, which of the following are those bills?

1. A bill which imposes or varies any tax or duty in which states are interested.
2. A bill which affects the principles on which money is distributed to states.
3. A bill which imposes any surcharge on any specified tax for the purpose of the Centre.
4. A bill which reduces the salaries and allowances of the members of Rajya Sabha.

Select the correct answer using the codes given below:

- a) 1 and 2 only
- b) 2, 3 and 4 only
- c) 1, 2 and 3 only
- d) 3 and 4 only

Ans) c

Exp) Option c is the correct answer.

Articles 268 to 293 in Part XII of the Constitution deal with Centre-state financial relations. The constitution of India has divided the legislative, executive, and financial powers between the centre and the states.

Option 1, 2 and 3 are correct: In order to protect the interest of states in the financial matters, the Constitution lays down that the following bills can be introduced in the Parliament only on the recommendation of the President:

- 1) A bill which **imposes or varies any tax or duty in which states are interested;**
- 2) A bill which varies the meaning of the expression '**agricultural income**' as defined for the purposes of the enactments relating to Indian income tax;
- 3) A bill which affects the **principles on which moneys are or may be distributable to states;** and
- 4) A bill which **imposes any surcharge on any specified tax or duty for the purpose of the Centre.**

Option 4 is incorrect: A bill to regulate the income tax of military and paramilitary professionals along with salaries and allowances of the members of Parliament can be amended by a **simple majority of the two Houses of Parliament** without any recommendation from President of India. Further **these bills are outside the scope of centre-state financial relations.**

Source: Laxmikanth Chapter 14 Centre-State Relations

Q.17) With reference to Centre-state relations during emergency, consider the following statements:

1. During National Emergency, President of India can cancel the transfer of finances from the Centre to the states.

2. During State Emergency, all the Money bills passed by the state legislature automatically gets reserved for the consideration of the President.

3. During Financial Emergency, Centre can give directions to the states to reduce the salaries of any class of persons serving in the state.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 only
- c) 3 only
- d) 1 and 3 only

Ans) d

Exp) Option d is the correct answer.

The Centre-state financial relations (under Articles 268 to 293 in Part XII of the Constitution) in normal times undergo changes during emergencies.

Statement 1 is correct: While the proclamation of **national emergency (under Article 352)** is in operation, the president can modify the constitutional distribution of revenues between the Centre and the states. This means that the **President can either reduce or cancel the transfer of finances (both tax sharing and grants-in-aid) from the Centre to the states.** Such modification continues till the end of the financial year in which the emergency ceases to operate.

Statement 2 is incorrect: Article 365 says that whenever a state fails to comply with or to give effect to any direction from the Centre, it will be lawful for the president to hold that a situation has arisen in which the government of the state cannot be carried on in accordance with the provisions of the Constitution. However, there is **no provision of automatic reservation of Money Bill** passed by state government to President of India.

Under Financial Emergency, Centre can give directions to the states to reserve all money bills and other financial bills for the consideration of the President.

Statement 3 is correct: While the proclamation of financial emergency (under Article 360) is in operation, the Centre can give directions to the states: (i) to observe the specified canons of financial propriety; (ii) to **reduce the salaries and allowances of all class of persons serving in the state;** and (iii) to reserve all money bills and other financial bills for the consideration of the President.

Source: Laxmikanth Chapter 14 Centre-State Relations

Q.18) With reference to law making power in India, consider the following statements:

- 1. In India, only Parliament is authorized to make extraterritorial legislation.
- 2. The power to make laws with respect to levy of residuary taxes is vested in respective state legislature.
- 3. Both the Parliament and State legislatures has the power to make laws regarding Goods and Services Tax.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

Statement 1 is correct: The Parliament **alone can make 'extraterritorial legislation'**. The parliament may enact legislation that has an impact beyond the territories in the interest of the people who are native of

India. Thus, the laws of the Parliament are also applicable to the Indian citizens and their property in any part of the world.

Statement 2 is incorrect: The power to make laws with respect to residuary subjects (i.e., the matters which are not enumerated in any of the three lists) is vested in the Parliament. This residuary power of legislation includes the power to levy residuary taxes.

Under this provision, the Parliament has imposed gift tax, wealth tax and expenditure tax.

Statement 3 is correct: The 101st Amendment has paved the way for the introduction of a new tax regime (i.e., goods and services tax - GST) in the country. Accordingly, the Amendment conferred concurrent taxing powers upon the Parliament and the State Legislatures to make laws for levying GST on every transaction of supply of goods or services or both.

Source: Laxmikanth Chapter 14 Centre-State Relations

Q.19) If Rajya Sabha passes a resolution under Article 249, Parliament can make a law with respect to certain matter in the State List. Under such scenario, which one of the following statements is correct?

- The resolution must be passed with the prior recommendation of the President of India.
- The resolution must be passed by a simple majority.
- The resolution remains in force for the period prescribed by the Rajya Sabha but not exceeding two years.
- The resolution does not restrict the power of a state legislature to make laws on the same matter.

Ans) d

Exp) Option d is the correct answer.

Under Article 249 of the Constitution, Rajya Sabha can authorize the Parliament to make a law on a subject enumerated in the State List.

Option a is incorrect: If the Rajya Sabha declares that it is necessary in the national interest that Parliament should make laws with respect to goods and services tax or a matter in the State List, then the Parliament becomes competent to make laws on that matter. The resolution does not need prior recommendation of the President of India.

Option b is incorrect: A resolution under Article 249 must be supported by two-thirds of the Rajya Sabha members present and voting.

Option c is incorrect: The resolution remains in force for one year; it can be renewed any number of times but not exceeding one year at a time. The laws cease to have effect on the expiration of six months after the resolution has ceased to be in force.

Option d is correct: The provision under Article 249 including the resolution does not restrict the power of a state legislature to make laws on the same matter. But, in case of inconsistency between a state law and a parliamentary law, the latter is to prevail.

Q.20) “This emerging technology is a network of always-on virtual environments in which many people can interact with one another and with digital objects through virtual representations of themselves. Many tech companies are aiming to introduce in many online activities, including work, play, studying and shopping.” Which one of the following technologies is most appropriately described in the above given paragraphs?

- Non-Fungible Tokens
- Immersive Virtual Reality
- Exascale Computing
- Metaverse

Ans) d

Exp) Option d is the correct answer.

The “metaverse” is a network of **always-on virtual environments** in which many people can interact with one another and digital objects through **virtual representations** of themselves.

There are **3 key aspects of the metaverse**: presence, interoperability and standardization.

- 1) **Presence** is the feeling of actually being in a virtual space, with virtual others. This sense of presence is achieved through virtual reality (VR) technologies such as head-mounted displays. It improves the quality of online interactions.
- 2) **Interoperability** means being able to seamlessly travel between virtual spaces with the same virtual assets. That is, one virtual representation created, can be used in different virtual worlds.
- 3) **Standardization**-These are common technological standards are essential for widespread adoption. This **enables interoperability** of platforms and services across the metaverse.

It is extremely important to the future of the economy and society as a whole. Companies like Facebook are aiming to make it the setting for many online activities, including **work, play, studying and shopping**.

Knowledge Base:

- 1) **Non-Fungible Tokens**: It is **data** added to a file that **creates a unique signature**. It can be an image file, a song, a tweet, a text posted on a website, a physical item, and various other digital formats. This basically means that someone can own a digital file (and that it's marked with code to differentiate it from any digital replicas).
- 2) **Immersive virtual reality**: It is the presentation of an **artificial environment that replaces users' real-world surroundings** convincingly enough that they are able to suspend disbelief and fully engage with the created environment. Immersiveness is an important element of virtual reality applications, such as VR gaming and VR therapy.
- 3) **Exascale computing**: It refers to **computing systems capable of at least one exaflop or a billion billion calculations per second** (10^{18}). That is 50 times faster than the most powerful supercomputers being used today and represents a thousand-fold increase over the first Peta scale computer that came into operation in 2008.

What is immersive virtual reality (immersive VR)? - Definition from WhatIs.com (techtarget.com)

<https://www.lanl.gov/projects/exascale-computing-project/#:~:text=Exascale%20computing%20refers%20to%20computing,came%20into%20operation%20in%202008.>

Q.21) Which one of the following in Indian polity is an essential feature that indicates that it is federal in character?

- a) The independence of judiciary is safeguarded.
- b) The Union Legislature has elected representatives from constituent units.
- c) The Union Cabinet can have elected representatives from regional parties.
- d) The Fundamental Rights are enforceable by Courts of Law.

Ans) a

Exp) Option a is the correct answer.

The establishment of an **independent judiciary** necessarily indicates the federal character of Indian polity. The Constitution establishes an independent judiciary headed by the Supreme Court to settle the disputes between the Centre and the states or between the states. This helps in maintaining the separate jurisdiction and authority of both the Centre and the States.

Following are the federal features of Indian Constitution:

- 1) Dual polity consisting of the Union at the Centre and the states at the periphery.
- 2) Written Constitution
- 3) Division of powers between the Centre and the states (by Schedule VII)
- 4) Supremacy of the Constitution
- 5) Rigidity of the constitution
- 6) Bicameral legislature consisting of Rajya Sabha and Lok Sabha
- 7) Independency of judiciary

Q.22) Consider the following statements regarding ‘Surcharge’:

1. It is a tax levied by the government for specific purposes.
2. The proceeds from this tax are not shared with the state governments.
3. The 101th Constitutional Amendment allows the imposition of Surcharges over GST.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) 2 and 3 only
- d) 1 and 3 only

Ans) b

Exp) Option b is the correct answer.

Surcharge (under Article 271) refers to an additional charge, fee, or tax that is added to the cost of a good or service beyond the initially quoted price. Surcharge is levied on the payable tax and not the overall income of those citizens who earn more than 50 lakhs per annum.

Statement 1 is incorrect: A surcharge applies to those persons whose income is more than Rs. 50 lakhs. This **money is not collected for any specific cause, but can be used for any reason as the Union Government sees fit.** Interestingly, it is applicable on the tax payable and not the total income. This collection also goes to the Consolidated Fund of India and **can be used for any purpose.** Cess is collected to raise funds for a particular cause like education, health, infrastructure, etc.

Statement 2 is correct: A surcharge is a tax on tax that is **imposed by the Union government but not shared with states. As it can be used for any public purpose as decided by the Union government,** this being an exception under Article 270 of the Constitution. Under this article taxes levied and collected by the Union and distributed between the Union and the States.

Statement 3 is incorrect: After to the **101st Constitution Amendment Act, 2016**, Article 271 has been amended to state that an **additional tax/surcharge cannot be imposed over and above the GST tax rates.** The GST Council's power to recommend a special rate is confined to raising resources only during any natural calamity or disaster.

<https://www.newindianexpress.com/opinions/columns/2021/jun/24/revenue-for-states-bring-cess-surcharge-in-divisible-pool-2320559.html>

Q.23) Which of the following type of taxes are imposed and collected by the Centre but the proceeds are assigned to the states?

1. Stamp duties on promissory notes
2. Estate duty in respect of property other than agricultural land
3. Stamp duties on bills of exchange
4. Taxes on railway fares and freights

Select the correct answer using the codes given below:

- a) 1 and 2 only
- b) 2 and 4 only
- c) 1 and 3 only
- d) 3 and 4 only

Ans) b

Exp) Option b is the correct answer.

Article 268 to 293 in Part XII of the Constitution deal with Centre–state financial relations. it ensures stable revenue in a way to economic growth. Article 269 deals with certain taxes that are levied and collected by the central government but are assigned to the state government. All taxes on the “sale or purchase of goods” and “taxes on the consignment of goods” are covered by Article 269(1).

Option 2 and 4 are correct:

Succession Duty, Central Sales Tax, Estate Duty, **Taxes on railway fares and freights, Estate duty in respect of property other than agricultural land** are taxes that are imposed and collected by the centre but are assigned to the states. These taxes also do not come under Consolidation fund of India.

Option 1 and 3 are incorrect: Stamp duties on bills of exchange, cheques, promissory notes, policies of insurance, transfer of shares are the taxes that levied by the centre but collected and appropriated by the states. It is included in Article 268 of the Indian constitution. The proceeds of these duties levied within any state do not form a part of the Consolidated Fund of India, but are assigned to that state.

Source: Laxmikanth Chapter 14 Centre–State Relations

Q.24) With reference to different types of grants given to the states, which of the following statement is correct?

- a) Statutory Grants are fixed amount of sum given to each state as decided in Budget of each financial year.
- b) Discretionary Grants are given for raising the level of administration of the scheduled areas in a state.
- c) Statutory Grants under Article 275 are given to the states on the recommendation of the Finance Commission.
- d) Discretionary Grants needs to be approved by the Public Accounts Committee of Parliament before it can be voted by the Lok Sabha.

Ans) c

Exp) Option c is the correct answer.

Constitution provides for grants-in-aid to the states from the Central resources. There are two types of grants-in-aid, viz, statutory grants and discretionary grants.

Option a is incorrect: Article 275 empowers the Parliament to make grants to the states which are in need of **financial assistance and not to every state**. Also, different sums may be fixed for different states.

Option b is incorrect: Article 282 empowers both the Centre and the states to make any grants for **any public purpose**, even if it is not within their respective legislative competence. Under this provision, the Centre makes grants to the states. “These grants are also known as **discretionary grants**. These grants have a two-fold purpose: to help the state financially to **fulfil plan targets**; and to give some leverage to the Centre to influence and **coordinate state action** to effectuate the national plan.”

Constitution provides for **statutory grants for promoting the welfare of the scheduled tribes in a state or for raising the level of administration of the scheduled areas in a state** including the State of Assam.

Option c is correct: Article 275 empowers the Parliament to make grants to the states

which are in need of financial assistance and not to every state. **The statutory grants under Article 275 (both general and specific) are given to the states on the recommendation of the Finance Commission.**

Option d is incorrect: Excess Grant (not Discretionary Grant) is granted when money has been spent on any service during a financial year in excess of the amount granted for that service in the budget for that year. **Before the demands for excess grants are submitted to the Lok Sabha for voting, they must be approved by the Public Accounts Committee of Parliament.**

Under article 282, both centre and states are able to make any grants for public purpose even if they are not within their legislative competence.

Source: Laxmikanth Chapter 14 Centre-State Relations

Q.25) Consider the following statements:

1. The crude oil naturally exists in a liquid state whereas shale oil naturally exists in a solid state.
2. Shale oil extraction is preferable over crude oil extraction due to its potential to produce water as a byproduct.
3. At present, there is no large-scale commercial production of shale oil and gas in India.

Which of the statements given above is/are correct?

- a) 1 only
- b) 1 and 2 only
- c) 2 and 3 only
- d) 1 and 3 only

Ans) d

Exp) Option d is the correct answer.

Recently, Cairn Oil & Gas has announced that it is partnering with US-based Halliburton to start shale exploration in the Lower Barmer Hill formation, Western Rajasthan.

Statement 1 is correct. The main difference between crude oil and shale oil is that crude oil naturally exists in a liquid state whereas shale oil naturally exists in a solid state.

Shale oil is **an unconventional oil produced from oil shale rock fragments**. The other difference between shale oil (also known as Tight Oil) and conventional crude is that the shale oil is conventional crude deposits and its **extraction requires the creation of fractures in oil and gas rich shale** to release hydrocarbons through a process called hydraulic fracking.

Statement 2 is incorrect. The production of oil from shales has a **potentially serious impact on the environment**. Four specific areas of concern dominate discussion regarding development of the resource: greenhouse gas output, **water consumption and potential ground water pollution**, surface disturbance, and socioeconomic effects. **It does not produce water as a by-product.**

Statement 3 is correct. Currently, there is **no large-scale commercial production of shale oil** and gas in India. Earlier, State-owned ONGC had found prospects of shale oil at the **Cambay basin in Gujarat and the Krishna Godavari basin in Andhra Pradesh**. However, the company concluded that the quantity of oil flow observed in these basins did not indicate “**commerciality**” and that the **general characteristics of Indian shales are quite different from North American ones**.

Source: ‘Tight oil’: What is shale and its potential in India -ForumIAS Blog

Q.26) Which one of the following statements is correct regarding ‘Zonal councils?’

- They are executive bodies constituted under the orders of Ministry of Home Affairs.
- Each Zonal council consists of all Members of Parliament from that zone.
- Each chief minister acts as a vice-chairman of the council by rotation for a period of one year at a time.
- They are empowered with investigating powers on subjects in which the states or the Centre have a common interest.

Ans) c

Exp) Option c is the correct answer.

The idea of creation of Zonal Councils was mooted by the first Prime Minister of India, Pandit Jawahar Lal Nehru in 1956 when during the course of debate on the report of the States Re-organization Commission, he suggested that the States proposed to be reorganized may be grouped into four or five zones having an Advisory Council ‘to develop the habit of cooperative working’ among these States.

Option a is incorrect: The Zonal Councils are **the statutory (and not the constitutional or executive) bodies**. They are established by an act of the Parliament, that is, States Reorganization Act of 1956. The act divided the country into five zones and provided a zonal council for each zone.

Option b is incorrect: All the Members of parliament are not represented in each Zonal council. Home minister of Central government is the common chairman of the five zonal councils. Each zonal council consists of the following members: (a) home minister of Central government. (b) chief ministers of all the States in the zone. (c) Two other ministers from each state in the zone. (d) Administrator of each union territory in the zone.

Option c is correct: The **Chief Ministers of the States** included in each zone act as **Vice-Chairman** of the Zonal Council for that zone by **rotation**, each holding office for a **period of one year at a time**.

Option d is incorrect: Each Zonal Council is an **advisory body** and may discuss any matter in which some or all of the States represented in that Council, or the Union and one or more of the States represented in that Council, have a common interest and advise the Central Government and the Government of each State concerned as to the action to be taken on any such matter. It **has not been empowered with investigating powers**.

Source: https://www.mha.gov.in/division_of_mha/centre-state-division/zonal-council#:~:text=Each%20Zonal%20Council%20is%20an,concerned%20as%20to%20the%20action
Laxmikanth Chapter Inter State Relations

Q.27) Consider the following statements regarding ‘Inter-State Trade and Commerce in India’:

- State legislature can make laws providing for monopolies in favour of the states.
- State legislature can impose restriction on the freedom of trade only after prior approval from the President.
- Both Parliament and State Legislature can give preference to one state over another in the case of scarcity of goods in any part of India.

Which of the statements given above is/are correct?

- 1 only
- 1 and 2 only
- 2 and 3 only
- 1 and 3 only

Ans) b

Exp) Option b is the correct answer.

Articles 301 to 307 in Part XIII of the Constitution deal with the trade, commerce and intercourse within the territory of India. Article 301 declares that trade, commerce and intercourse throughout the territory of India shall be free. The object of this provision is to break down the border barriers between the states and to create one unit with a view to encourage the free flow of trade, commerce and intercourse in the country.

Statement 1 is correct: The freedom (under Article 301) is subject to the nationalisation laws (i.e., laws providing for monopolies in favour of the Centre or the states). Thus, the Parliament or the state legislature can make laws for the carrying on by the respective government any trade, business, industry or service, whether to that exclusion, complete or partial, of citizens or otherwise.

Parliament can **impose restrictions on the freedom of trade commerce** and intercourse between the states or within a state in public interest. But the Parliament cannot give preference one state over another or discriminate between the state **except in the case of scarcity of goods in any part of India**.

Statement 2 is correct: The legislature of a state can impose reasonable restrictions the freedom of trade, commerce and intercourse with that state or within that state in public interest. But, **a bill for this purpose can be introduced in the legislature only with the previous sanction of the president**.

Statement 3 is incorrect: Parliament can **give preference one state over another** or discriminate between the state only in the **case of scarcity of goods in any part of India**. State Legislature cannot give preference to one state over another or discriminate between the states.

Source: Laxmikanth Chapter 15 Inter State Relations

Q.28) Consider the following statements regarding Inter-State Water Disputes Act and River Boards Act of 1956:

1. The Inter-State Water Disputes Act empowers the Central government to set up an ad hoc tribunal for the adjudication of a dispute between two or more states.
2. The appellate jurisdiction against the order of the tribunal lies with Supreme Court of India only.
3. A river board can be established by the concerned state governments with the prior approval of Central government.

Which of the statements given above is/are correct?

- a) 1 only
- b) 1 and 2 only
- c) 2 and 3 only
- d) 1 and 3 only

Ans) a

Exp) Option a is the correct answer.

Article 262 of the Constitution provides for the adjudication of inter-state water disputes. It makes two provisions: (1) Parliament may by law provide for the adjudication of any dispute or complaint with respect to the use, distribution and control of waters of any inter-state river and river valley. (2) Parliament may also provide that neither the Supreme Court nor any other court is to exercise jurisdiction in respect of any such dispute or complaint. Under this provision, the Parliament has enacted two laws [the River Boards Act (1956) and the Inter-State Water Disputes Act (1956)].

Statement 1 is correct: The Inter-State Water Disputes Act empowers the Central government to set up an ad hoc tribunal for the adjudication of a dispute between two or more states in relation to the waters of an inter-state river or river valley.

Statement 2 is incorrect: The decision of the tribunal would be **final and binding on the parties** to the dispute. **Neither the Supreme Court nor any other court is to have jurisdiction** in respect of any water dispute which may be referred to such a tribunal under this Act.

Statement 3 is incorrect: The River Boards Act, 1956 provides for the establishment of river boards for the regulation and development of inter-state river and river valleys. A river board is **established by the Central government on the request of the state governments** concerned to advise them

Source: Laxmikanth Chapter 12 Inter-State Relations

Q.29) Consider the following statements regarding the functions of Inter-State Council as per the Constitution of India:

1. It can enquire, decide and adjudicate upon disputes which may arise between states.
2. It plays a supportive role in the constitutional appointment of the Chief Election Commissioner.
3. It can discuss subjects in which the states have a common interest.

Which of the statements given above is/are correct?

- a) 1 and 3 only
- b) 1 only
- c) 2 and 3 only
- d) 3 only

Ans) d

Exp) Option d is the correct answer.

Article 263 contemplates the establishment of an Inter-State Council to effect coordination between the states and between Centre and states. Thus, the President can establish such a council if at any time it appears to him that the public interest would be served by its establishment.

Statement 1 is incorrect and 3 is correct: Even though the President is empowered to define the duties of an inter-state council, Article 263 specifies the duties that can be assigned to it in the following manner:

- (a) **enquiring into and advising (not deciding) upon disputes which may arise between states;**
- (b) **investigating and discussing subjects in which the states or the Centre and the states have a common interest;** and

(c) making recommendations upon any such subject, and particularly for the better co-ordination of policy and action on it.

Statement 2 is incorrect: Inter-State Council **does not play any role in any of the constitutional appointments** of the President, Chief Justice of India or Chief Election Commissioner. Various study group have suggested that the Council should not lend a hand in the constitutional appointments of the such as the President, the Chief Justice of India, the Chief Electoral Commissioner, the Governors etc.

Knowledge Base:

Additional Information regarding Inter-State Council:

1) Members of the Inter-state Council: The Prime Minister is the Chairman of the Inter-State Council. The Council members are the Chief Ministers of all the States and Union Territories with Assembly, the Governors of the Union Territories without Assembly, the Governors of the States under the rule of the President, and the six Ministers in the Cabinet nominated by the Council Chairman. The five ministers nominated by the council chairman are regular invitees to the cabinet.

1) The Council is assisted by a secretariat called the Inter-State Council Secretariat. This secretariat was set-up in 1991 and is headed by a secretary to the Government of India. Since 2011, it is also functioning as the secretariat of the Zonal Councils

<https://www.legalserviceindia.com/legal/article-4723-inter-state-council-functions-and-powers.html>

Q.30) ‘Mysuru Declaration’, recently seen in news, is related to which one of the following?

- a) Development and Fabrication Electronic chips for automobile sector.
- b) Inclusive and Accountable Local Self Governments in delivery of services.
- c) Sustainable and Efficient production of inland fisheries in India.
- d) Promotion and Development of disaster resilient infrastructure in urban areas

Ans) b

Exp) Option b is the correct answer.

Mysuru declaration is aimed at **recognising Citizen Centric Services** as the “Heart of Governance”.

The Ministry of Panchayat Raj in association with National Institute of Rural Development and Panchayat Raj and Abdul Nazir State Institute of `Rural Development and Panchayat Raj, Mysuru had organised a National Consultative Workshop on Citizen Charter and Delivery of Services by Panchayats.

The declaration also aims to **promote inclusive and accountable Local Self Governments in delivery of services** in consonance with the priorities and the aspirations of our citizens.

As part of the declaration, participating states have committed to:

- 1) Increase the availability of Citizen Services at the grassroots levels in a timely and efficient manner, commencing with offering of the following basic, statutory and/ or essential services at the Gram Panchayat level from 1st April 2022
- 2) Implement the highest standards of professional integrity and accountability towards timely delivery of Public Services

Source: Mysuru Declaration on Service Delivery by Panchayats signed-ForumIAS Blog

Q.31) Which one of the following suggested that the Governor should be an eminent person from outside the State and should be a detached figure without intense political links or should not have taken part in politics in the recent past?

- a) First Administrative Reforms Commission (1966)
- b) Rajamannar Committee (1969)
- c) Sarkaria Commission (1983)
- d) National Commission to Review the Working of the Constitution (2000)

Ans) c

Exp) Option c is the correct answer.

Sarkaria Commission was constituted by the Government of India in 1983 to look after the situation on various matters, the most important being centre-state relations. The important recommendations of the Sarkaria Commission were -

- 1) Setting up a permanent inter-state council
- 2) Article 356 should be used sparingly
- 3) Institution of all-India service should be strengthened
- 4) Residuary power should remain with the parliament
- 5) Reasons should be communicated to the state when state bills are vetoed by the President
- 6) Centre should have powers to deploy its armed forces, even without the consent of states. However, it is desirable that the states should be consulted
- 7) Procedure of consulting the chief minister in the appointment of the state governor should be prescribed in the constitution itself
- 8) **The Governor should be an eminent person from outside the State**
- 9) **Governor should be a detached figure without political links or should not have taken part in politics in the recent past**
- 10) Governors should be allowed to complete their term of five years
- 11) Commissioner for linguistic minorities should be activated

Source) UPSC CSE 2019

Q.32) A person named 'D' is involved in a car accident in the state of Maharashtra. As a result, Maharashtra civil court grants person 'D' Rs. 10,000 in damages. But the defendant person who ran into person 'D' lives in Rajasthan and refuses to pay 'D'. In such scenario, which one of the following statements is correct?

- Person 'D' has to file a fresh appeal against the defendant in the civil court of Rajasthan in order to get relief.
- The defendant has to pay the damages as the orders of civil courts in any part of India are capable of execution anywhere within India.
- The defendant will not have to pay the damages as he is not the resident of the state of Maharashtra.
- Person 'D' will have to seek remedy from the Supreme Court of India as the court of one state cannot enforce the penal laws of another state.

Ans) b

Exp) Option b is the correct answer.

Under the Constitution, the jurisdiction of each state is confined to its own territory. Hence, it is possible that the acts and records of one state may not be recognised in another state. To remove any such difficulty, the Constitution contains the **“Full Faith and Credit” clause**.

Under this clause, **final judgements and orders of civil courts in any part of India are capable of execution anywhere within India (without the necessity of a fresh suit upon the judgement)**. The rule applies **only to civil judgements and not to criminal judgements**. In other words, it does not require the courts of a state to enforce the penal laws of another state.

Since, the nature of the case in the above illustration is civil, the judgement of civil court is applicable for execution anywhere within India. Hence, the defendant has to pay the damages as the orders of civil courts in any part of India are capable of execution anywhere within India

Source: Laxmikanth Chapter 12 Inter-State Relations

Q.33) The Belgaum territorial dispute, which is often seen in news, is related to-

- Karnataka and Tamil Nadu
- Telangana and Andhra Pradesh
- Chhattisgarh and Madhya Pradesh
- Maharashtra and Karnataka

Ans) d

Exp) Option d is the correct answer.

The Belgaum territorial dispute is between the **states of Karnataka and Maharashtra**. Currently, **Belgaum or Belagavi is part of Karnataka** but is claimed by Maharashtra. At the time of Independence, the region of Belagavi (the Belgaum) was part of the Bombay presidency. However, the region was integrated with the state of Mysore (now Karnataka) during the reorganization of states on linguistic lines.

Basis of Maharashtra's claim on Belgaum: The essential claim of pro-Marathi groups is that Belagavi is a largely Marathi-speaking region with many parts being exclusively Marathi speaking and that the region should be a part of Maharashtra. Moreover, Maharashtra also points out the historical fact that the revenue records in these Marathi-speaking areas are also kept in Marathi.

Source: <https://blog.forumias.com/belgaum-border-dispute-explained-latest-flashpoint-in-belagavi-border-dispute-between-maharashtra-and-karnataka/>

Q.34) With reference to the Governor of a state in India, consider the following statements:

1. The power of Governor to prorogue the state legislature is not his discretionary power.
2. In some cases, the Governor can refuse the cabinet's recommendation of summoning the legislature.
3. When the Governor uses his discretionary power, his actions cannot be challenged in any court.

Which of the statements given above is/are correct?

- a) 1 only
- b) 1 and 2 only
- c) 3 only
- d) 2 and 3 only

Ans) b

Exp) Option b is the correct answer.

The governor is the constitutional head and he functions as a vital link between the union government and the state government. Article 157 and Article 158 of the Constitution of India specify eligibility requirements for the post of governor. One person can be appointed as Governor for two or more States.

Statement 1 is correct: The power of governor to prorogue the House is not his discretionary power. Article 174 provides the governor to summon, prorogue and dissolve the house(s) in consonance with the aid **and advice of the chief minister and his council** of ministers.

Statement 2 is correct: The governor can refuse summoning the house **when** the Chief Minister appears to have **lost the majority** and the legislative members of the House propose a no-confidence motion against the Chief Minister, then the Governor can decide on his/her own on summoning the House.

Statement 3 is incorrect: The actions of the Governor, when using his discretionary powers can be challenged in court. In **the Nabam Rebia case**, the supreme court said that discretionary power of the Governor is **extremely limited** and entirely **amenable to judicial review**. The governor can summon/dissolve the assembly only when he is satisfied that the cabinet loses the majority.

Source: What the law says about a governor's power to summon, prorogue or dissolve an assembly (theprint.in)

Laxmikanth Chapter 12 Inter-State Relations

Q.35) With reference to law making procedure in India, consider the following statements:

1. The authority to repeal any law is vested with the President under Article 245 of the Constitution.
2. The sunset clause in the legislation allows the law to be activated on a particular date in the future.
3. The Constitution of India does not permit ordinance route for repealing any law in the country.

Which of the statements given above is/are **incorrect**?

- a) 1 and 2 only
- b) 2 only
- c) 3 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

The Prime Minister has announced that the three contentious farm laws would be repealed. The process of repealing the laws will take place in the upcoming Winter Session of Parliament.

Statement 1 is incorrect.

Article 245 of the Indian Constitution which gives Parliament the power to make laws also gives the **legislative body (not President)** the power to repeal them. According to a Lok Sabha secretariat note, "Just as **the Legislature has the power to enact laws, similarly it has the power to repeal laws**. The efficacy of the Legislature depends upon the possession of the power to repeal the existing law, for without this attribute the power to enact would be a nullity, and the body of the law a series of contradictory enactments. Consequently, the legislative power to repeal prior laws is not inhibited by any constitutional prohibitions, but exists as a necessary part and increment of the legislative power and function. No statute can make itself secure against repeal."

Statement 2 is incorrect.

In public policy, a **sunset provision or sunset clause** is a measure within a statute, regulation or other law that provides that the law **shall cease to have effect after a specific date**, unless further legislative action is taken to extend the law. It does not activate the law or any provision within the law.

For example, the anti-terror legislation **Terrorist and Disruptive Activities (Prevention) Act 1987**, commonly known as **TADA**, had a sunset clause, and was allowed to lapse in 1995.

Statement 3 is incorrect.

Laws can be repealed in two ways either through an **ordinance or through legislation**. In case an ordinance is used, it would need to be replaced by a law passed by Parliament within six months. If the ordinance lapses because it is not approved by Parliament, the repealed law can be revived.

Source: Explained: The process for repealing a law-ForumIAS Blog

Explained: How a law is repealed in India | India News - Times of India (indiatimes.com)

Explained | How to repeal a law (thehindu.com)

Q.36) Consider the following statements with reference to the impact on the state after the President's rule has been imposed:

1. President can take up all the powers of the Governor of the state.
2. President can suspend the State Legislative Assembly but cannot dissolve it.
3. President can declare that the powers of the state legislature are to be exercised by the Parliament.

Which of the statement given above is/are correct?

- a) 1 only
- b) 1 and 2 only
- c) 2 and 3 only
- d) 1 and 3 only

Ans) d

Exp) Option d is the correct answer.

Under **Article 356 of the Constitution of India**, if a state government is unable to function according to Constitutional provisions, the Union government can take direct control of the state machinery. This is popularly known as **President's Rule**. It is also known as 'State Emergency' or 'Constitutional Emergency'.

Statement 1 is correct: The **President acquires extraordinary powers** when the President's Rule is imposed in a state. **He can take up the functions of the state government and powers vested in the governor or any other executive authority in the state.** He can assume to himself **all or any of the powers vested in or exercisable by the Governor** or any body or authority in the State other than the Legislature of the State.

Statement 2 is incorrect: The **President can do both i.e., he can either suspend or dissolve the state legislative assembly.** "The state legislative assembly should be dissolved only after the Parliament has approved the presidential proclamation. Until such approval is given, the president can only suspend the assembly."

Statement 3 is correct: The **President** can declare that the powers of the state legislature are to be exercised by the Parliament.

A **law made by the Parliament or president or any other specified authority continues to be operative even after the President's Rule.** This means that the period for which such a law remains in force is not coterminous with the duration of the proclamation. But it can be repealed or altered or re-enacted by the state legislature.

Source: Indian Polity by Laxmikant, 6th Edition Chapter 16

Q.37) Which among the following can be a source of non-tax revenue for states in India?

1. Police services
2. Forests
3. Postage
4. Escheat

Select the correct answer using the code given below:

- a) 1, 2 and 4 only
- b) 2, 3 and 4 only
- c) 1, 3 and 4 only
- d) 1, 2 and 3 only

Ans) a

Exp) Option a is the correct answer.

The state receives revenue from both tax and non-tax sources. Tax sources include **State GST, State Excise etc.** The major sources of non-tax revenues of the states come from **irrigation, forests, fisheries, state public sector enterprises and escheat and lapse.** Non-tax revenue can also come from various services that state can provide including **electricity, polices services for providing security, municipal services** etc. Escheat is the right of the government to own unclaimed property and assets. The doctrine of escheat is invoked when a person dies without any will or heirs. **Revenue from postage and telegraph is received by Union and not state.**

Source: Indian Polity by Laxmikant, 6th Edition Chapter 14

Q.38) Consider the following statements with reference to the borrowing powers of the states in India:

1. States need to obtain the Centre's consent to borrow, if the state is already indebted to the Centre.
2. The states cannot give the security of the Consolidated Fund of State for borrowing.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) a

Exp) Option a is the correct answer.

The constitution has provided for provisions for Union and State government to raise resources from borrowing.

Statement 1 is correct: A state cannot raise any loan without the consent of the Centre, if there is **still outstanding any part of a loan made to the state by the Centre** or in respect of which a guarantee has been given by the Centre.

Statement 2 is incorrect: A state government can borrow within India upon the security of the **Consolidated Fund of the State** or can give guarantees, but both within the limits fixed by the legislature of that state. Thus, **both State and Union Governments have to give the security** of their respective Consolidated Funds.

Source: Indian Polity by Laxmikant, 6th Edition Chapter 14

Q.39) Consider the following statements with reference to the Joint State Public Service Commission (JSPSC) and State Public Service Commission (SPSC) in India:

1. JSPSC is a statutory body, while SPSC is a Constitutional body.
2. Both JSPSC and SPSC presents its annual performance report to the President.
3. The Chairperson of both the SPSC and the JSPSC can be removed by the Governor of State.

Which of the statements given above is/are correct?

- a) 1 only
- b) 1 and 2 only
- c) 2 and 3 only
- d) 1 and 3 only

Ans) a

Exp) Option a is the correct answer.

Statement 1 is correct: SPSC is a Constitutional body. Articles 315 to 323 in Part XIV of the Constitution also deal with the **composition, appointment and removal of members, power and functions and independence of a SPSC** along with UPSC.

The **Constitution makes a provision for the establishment of a Joint State Public Service Commission (JSPSC)** for two or more states. While the UPSC and the SPSC are created directly by the Constitution, **a JSPSC can be created by an act of Parliament on the request of the state legislatures** concerned. Thus, **a JSPSC is a statutory and not a constitutional body.**

Statement 2 is incorrect: A JSPSC presents its annual performance report to each of the concerned state **Governors**. Each Governor places the report before the state legislature. Article 323 mandates that the State Public Service Commission will submit its annual report of its performance to the Governor.

Statement 3 is incorrect: The Constitution has made certain provisions to safeguard and ensure the independent and impartial functioning of a SPSC. The **chairman or a member of a SPSC can be removed from office by the president** only in the manner and on the grounds mentioned in the Constitution. Therefore, they enjoy the security of tenure.

The chairman and members of a JSPSC are appointed by the President. They hold office for a term of six years or until they attain the age of 62 years, whichever is earlier. **They can be suspended or removed by the president.** They can also resign from their offices at any time by submitting their resignation letters to the president.

Source: Indian Polity by Laxmikant, 6th Edition Chapter 44

Q.40) Which of the following provisions are included under Special and Differential Treatment (S&DT) under World Trade Organisation?

1. Longer time periods for implementing agreements.
2. Option to opt out of the agreement with certain conditions.
3. Measures to increase trading opportunities.
4. Support to help build the infrastructure to implement technical standard.

Select the correct answer using the codes given below:

- a) 1 and 4 only
- b) 1, 3 and 4 only
- c) 2, 3 and 4 only
- d) 1, 2, 3 and 4

Ans) b

Exp) Option b is the correct answer.

India's Commerce and Industry Minister has said that developed countries linking World Trade Organisation (WTO) reforms with special and differential treatment (S&DT) being provided to poor and developing nations is "unfair".

WTO agreements contain **special provisions** which give **developing countries** special rights and allow other members to treat them more favorably. These are called "**special and differential treatment provisions**" (abbreviated as S&D or SDT).

Statement 1, 3 and 4 are correct. These special provisions include:

- 1) **longer time periods for implementing agreements** and commitments
- 2) measures to **increase trading opportunities** for these countries
- 3) provisions requiring all WTO members to **safeguard the trade interests** of developing countries
- 4) **support to help** developing countries build the **infrastructure to undertake WTO work, handle disputes and implement technical standards.**
- 5) Provisions related to least-developed country (LDC) members

Statement 2 is incorrect. The provisions under **Special and differential treatment (S&DT)** does not include preference to opt out of the agreement under any condition.

Developed nations want to expand WTO agenda –Forum IAS Blog

Q.41) The Parliament can make any law for whole or any part of India for implementing international treaties:

- a) with the consent of all the states.
- b) with the consent of the majority of states.
- c) with the consent of the states concerned.
- d) without the consent of any state.

Ans) d

Exp) Option d is the correct answer.

The Parliament can make laws on any matter in the State List for implementing the international treaties, agreements or conventions. It can be done **without the consent of the states**. This provision enables the Central government to fulfil its international obligations and commitments.

Some examples of laws enacted under the above provision are United Nations (Privileges and Immunities) Act, 1947; Geneva Convention Act, 1960; Anti-Hijacking Act, 1982 and legislations relating to environment and TRIPS.

Source) UPSC CSE 2013

Q.42) Consider the following statements with reference to the Attorney General and Advocate General:

1. Both Attorney General and Advocate General are full-time counsel for the Government of India and the Government of State respectively.
2. Both the Attorney General and Advocate General has the right to audience in all courts of India.
3. The Attorney General is appointed by the President while Advocate General is appointed by the Governor.

Which of the statement given above is/are correct?

- a) 3 only
- b) 1 and 3 only
- c) 2 and 3 only
- d) 1 and 2 only

Ans) a

Exp) Option a is the correct answer.

Article 76 provides for the office of the **Attorney General of India**, while **Article 165** provides for the **Advocate General of a State**.

Statement 1 is incorrect: The **Attorney General is not a full-time counsel** for the Government. He **does not fall in the category of a government servant**. Further, he is not debarred from private legal practice. Similarly, the **Advocate General is not a full-time counsel** for the state Government.

Statement 2 is incorrect: As in the performance of his official duties, the Attorney General has the right of audience in all courts in the territory of India and not the Advocate general of State. In the performance of his official duties, **the Advocate General is entitled to appear before any court of law within the state not across India**.

Statement 3 is correct: The **Attorney General (AG)** is appointed by the **President**. The **Advocate General** is appointed by the **Governor**.

Source: Indian Polity by Laxmikanth, 6th Edition Chapter 52 and 53

Q.43) Consider the following statements with reference to the National Human Rights Commission (NHRC):

1. It does not have its own investigating staff for investigation into complaints.
2. It can look into a complaint/violation only within one year of its occurrence.
3. It can visit jails and detention places to study the living conditions of inmates.

Which of the statements given above is/ are correct?

- a) 1 and 2 only
- b) 1 and 3 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

The **National Human Rights Commission** is a statutory. It was established in 1993 under a legislation enacted by the Parliament, namely, **the Protection of Human Rights Act, 1993**.

Statement 1 is incorrect: NHRC has its own investigating staff for an investigation into complaints of human rights violations. It is headed by a Director General of Police. Besides, it is empowered to utilize the services of any officer or investigation agency of the Central government or any state government for the purpose. It has also established effective cooperation with the NGOs with first-hand information about human rights violations.

Statement 2 is correct: The commission is not empowered to inquire into any matter after the expiry of one year from the date on which the act constituting a violation of human rights alleged to have been committed. In other words, it can look into a matter within one year of its occurrence.

Statement 3 is correct: NHRC can visit any jail or any other institution where persons are detained or lodged for purposes of reformation, under intimation to the State Government. It can study the living condition of the inmates and make recommendations thereon.

Source: Indian Polity by Laxmikanth, 6th Edition Chapter 55

Q.44) Which among the following is **incorrect** about the powers of the Election Commission of India?

- It allots election symbols to political parties along with settling disputes related to it.
- It sets limits on campaign expenditure per candidate for all the political parties.
- It introduced the Electoral Photo Identity Card for the elections to Lok Sabha in India.
- It has the power to de-register parties for violations listed in the Representation of People Act, 1951.

Ans) d

Exp) Option d is the correct answer.

The Election Commission of India is an autonomous constitutional authority responsible for administering Union and State election processes in India. The body administers elections to the Lok Sabha, Rajya Sabha, State Legislative Assemblies in India, and the offices of the President and Vice President in the country.

Option a is correct: The Election Symbols (Reservation and Allotment) Order, 1968 empowers the EC to recognize political parties and allot symbols. Under Paragraph 15 of the Order, it can decide disputes among rival groups or sections of a recognized political party staking claim to its name and symbol.

Option b is correct: Election Commission of India sets limits of campaign expenditure per candidate to all the political parties and also monitors the same. **Under Section 77 of the Representation of the People Act (RPA), 1951**, every candidate shall keep a separate and correct account of all expenditures incurred between the date on which they have been nominated and the date of declaration of the result. An incorrect account or expenditure beyond the cap can lead to disqualification of the candidate by the ECI for up to three years, under RPA, 1951.

Option c is correct: The Election Commission introduced the Electoral Photo Identity Card (EPIC) in 1994-95 to identify the voters at the time of polls. The Commission **allows certain alternative documents** like government I-cards, passports, **PAN cards, driving license**, bank/post office account passbook, property documents, SC/ST/OBC certificate, pension documents, freedom fighter identity card, arms license, certificate of the physically handicapped, job cards issued under NREGA and health insurance scheme smart cards to establish the identity of the electors in the polling stations. The present coverage of EPIC at the national level has been above 99%.

Option d is incorrect: The Election Commission does not have the power to deregister political parties even for the gravest violations **under section 29A of the Representation of People Act, 1951**.

Source: <https://economictimes.indiatimes.com/news/politics-and-nation/election-panel-renews-proposal-for-power-to-deregister-parties/articleshow/91948667.cms>

Indian Polity by Laxmikanth, 6th Edition Chapter 42

<https://eci.gov.in/about/about-eci/the-functions-electoral-system-of-india-r2/>

Q.45) With reference to Camels in India, consider the following statements:

1. Camels have low gestation period and high meat yield that makes them suitable for domestication purposes.
 2. Slaughtering of camels and their temporary migration is prohibited by the Rajasthan government.
 3. Population of camels in Rajasthan is declining due to restricted movement caused by Indira Gandhi Canal.
- Which of the statements given above is/are correct?

- a) 1 only
- b) 2 and 3 only
- c) 2 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

Statement 1 is incorrect. The **gestation period** of Camel is **15 months long** and has a **limited saleable meat yield** (less than 5 kg a day). Further high cost of maintenance, high cost of milk, and strong flavour of camel milk, all make it **unsuitable for the domesticating camel** for economic benefits.

Statement 2 is correct. Rajasthan's government enacted The **Rajasthan Camel (Prohibition of Slaughter and Regulation of Temporary Migration or Export) Act, 2015**. The Act aims to prohibit the slaughter of camels and also to **regulate their temporary migration or export from Rajasthan**. But the Act does not show positive results. Camels are now sold in the grey market, further driving down camel prices. Camels that should normally command a price of Rs 40,000 plus, reportedly sell in this grey market for less than Rs 5,000. The ban has benefitted only the meat traders and corrupt officials.

Statement 3 is correct. According to the article published in National Geographic, the camel population in India has been in decline, especially in Rajasthan because of the **Indira Gandhi Canal which hampered the movement of Raikas and Camels**.

Other reason for declining Camel Population:

- 1) **Change in lifestyle:** Replacement of the nomadic-pastoral way of life by agriculture. Individually owned farmlands that are often fenced restrict the movements of camels. Camels are rarely used for ploughing along with that shrinking of grazing grounds, shortage of fodder also a reason for reduced camel population.
- 2) **Other means of transport:** Camels are replaced largely by road networks.
- 3) **Fewer benefits for Raikas:** Raikas do not sell dead camels for their bones and also do not eat camel meat. Raikas believe they were born of Lord Siva's skin to protect camels.

Source: Decline in India's camel population is worrying-ForumIAS Blog

Q.46) Consider the following statements with reference to the Central Bureau of Investigation (CBI):

1. The CBI is completely exempted from the Right to Information Act, 2005.
2. The CBI can investigate for cross-border crimes.
3. The sanction of state governments is required by CBI under all circumstances.

Which of the statements given above is/ are correct?

- a) 2 only
- b) 2 and 3 only
- c) 1 and 2 only
- d) 1, 2 and 3

Ans) a

Exp) Option a is the correct answer

The establishment of the CBI was recommended by the Santhanam Committee on Prevention of Corruption. The CBI is not a statutory body but derives its power to investigate from the Delhi Special Police Establishment Act, 1946.

Statement 1 is incorrect:

The Section 24 of the RTI Act exempts security and intelligence agencies including the CBI from the ambit of the transparency law **except for that related to the allegations of corruption and violations of human rights.**

Statement 2 is correct: The Central Bureau of Investigation (CBI) works closely with international law enforcement agencies to geo locate criminals and fugitives and ensure their return to India. **CBI is a premier investigative agency and it has substantial experience in investigating complex crimes with international linkages.** for example, recently the Central Bureau of Investigation probe into cow smuggling along the India-Bangladesh border.

Statement 3 is incorrect: According to Section 6 of the Delhi Special Police Establishment Act of 1946 under which the CBI functions, the State's consent is required to extend CBI investigation beyond Union Territories. The Supreme Court and High Courts, however, can order CBI to investigate a crime anywhere in the country without the consent of the state. This is usually done for exceptional and rare cases. Thus, permission is not required for all cases.

Q.47) Consider the following statements with reference to the National Commission for Scheduled Tribes (NCST):

1. The Chairperson of the NCST must be appointed only from the ST Community.
2. The Central government and the state governments are mandated to consult the NCST on all major policy matters affecting the STs.
3. NCST can suggest measures to be taken to ensure full implementation of the Provisions of Panchayats (Extension to the Scheduled Areas) Act, 1996.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 3 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

Article 338-A in the Constitution provides for the National Commission for Scheduled Tribes (NCST).

Statement 1 is incorrect: NCST consists of a chairperson, a vice-chairperson and three other members. They are appointed by the President by warrant under his hand and seal. Their conditions of service and tenure of office are also determined by the President. It is **not mandated that the chairman be from the ST community only.** This is followed more as a convention.

Statement 2 is correct: The Centre as well as state governments need to consult the National Commission for Scheduled Tribes (NCST) on all major policy matters, according to the rules of procedure from 2021. However, the rules have not specified what major policy matters would need to be referred to the NCST.

Statement 3 is correct: Several functions have been provided by the President to the NCST. It includes the **measures that need to be taken to ensure full implementation of the Provisions of Panchayats (Extension to the Scheduled Areas) Act, 1996.**

Q.48) Which of the following bodies are under the administrative control of the Ministry of Personal, Public Grievances and Pensions?

1. Union Public Service Commission
2. Central Bureau of Investigation
3. Central Vigilance Commission
4. Central Information Commission

Select the correct answer using the code given below:

- a) 1 and 3 only
- b) 1 and 4 only
- c) 2, 3 and 4 only
- d) 1, 2, 3 and 4

Ans) d

Exp) Option d is the correct answer.

The **Ministry of Personnel, Public Grievances and Pensions is the coordinating agency of the Central Government** in personnel matters specially issues concerning recruitment, training, career development, staff welfare as well as the post retirement dispensation. Allocation of Business Rules defines the work allotted for the Ministry. The **Ministry handles most of autonomous central bodies such as UPSC, CBI, CVC, CIC, SSC, Lokpal among others.**

1, 2, 3 and 4 are correct

UPSC is a Constitutional Body under Article 315-323 Part XIV Chapter II of the Constitution of India to discharge their duties, functions, and obligations assigned under Article 320. The **UPSC conducts various examinations in accordance with the Rules of examination as notified by the Government of India** in a just, fair and impartial manner for making a merit-based selection and recommendation of candidates for various Group A and Group B Services of the Govt. of India. **Central Bureau of Investigation (CBI) is the premier investigating police agency** in India. CBI also provides assistance to the Central Vigilance Commission and Lokpal. **Central Vigilance Commission is the apex vigilance institution**, free of control from any executive authority, monitoring all vigilance activity under the Central Government and advising various authorities in Central Government organizations in planning, executing, reviewing and reforming their vigilance work. The **Chief Information Commission (CIC) is the authorized body in India to act upon complaints received from individuals who have been unable to submit requests of information to a Central or State Public Information Officer** due to either the officer not having been appointed, or the respective officer refused to entertain the application under the Right to Information Act (RTI Act).

Q.49) With reference to Centre-State relations on matters enumerated in the Concurrent List, consider the following statements:

1. In case of any dispute in jurisdiction of subjects, Concurrent List takes precedence over both the State List and the Union list.
2. Generally, the state government executes laws on Concurrent subject even if enacted by the Centre.
3. The President can legislate on subjects in concurrent list, only if authorised by both houses of Parliament.

Which of the statements given above is/ are correct?

- a) 1 and 2 only
- b) 2 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

The constitution of India has **divided legislative subjects** into **3 categories** - **Union List, State List** and **Concurrent List** (enumerated in **Schedule VII**). The **Concurrent List** contains subjects/ matters on which **both the Centre and the states are free to make laws**.

Statement 1 is incorrect:

In **case of any dispute or overlap** in jurisdiction of subjects, the Constitution provides that **Union List** takes the **precedence over both the others, followed by the Concurrent List** which takes **precedence over State List** (not the Concurrent List taking the predominance over **Union and state List**). Hence this statement is **incorrect**.

Statement 2 is correct: The Constitution has provided that the **Execution of a law** enacted on a **subject** in the **Concurrent list lies with the state government ordinarily**. This means **even if** that particular **legislation on Concurrent list subject** has been **enacted by the Union**, it is **executed by the state government**. Hence this statement is **correct**.

It must be noted that **this is the case ordinarily**. In **special circumstances** if there is a **specific provision** in the **Constitution** or some **law passed by the Parliament, entrusting the execution** of laws on certain Concurrent List subjects to the **Centre**, then the **state does not have any role** to play. However, this is the **exception not the rule**.

Statement 3 is incorrect: The President is a part of the Executive. As such the Constitution does not provide for the **President/Executive to legislate on any matter, be it in Concurrent list, or Union or State List**. This is under the principle of 'Separation of Powers'. The President can only promulgate ordinances, that too when the **Parliament is not in session (Thus it is the Council of Ministers, not the parliament, on the directions of which President promulgate ordinances)**. Hence this statement is incorrect.

Source: Indian Polity by Laxmikanth, 5th edition, Ch-14, Pg-14.2, 14.3, 14.4

Q.50) Consider the following statements regarding Like-Minded Developing Countries (LMDC):

1. It is a group of small islands developing countries situated in Indian and Pacific oceans.
2. The exclusive focus of the group is to convince powerful nations to curb their carbon emissions sharply.
3. Recently, the Ministerial Meeting of Like-Minded Developing Countries was hosted by India.

Which of the statements given above is/are **incorrect**?

- a) 1 and 2 only
- b) 2 only
- c) 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

Statement 1 is incorrect. **Like-Minded Developing Countries (LMDC)** is a group of developing countries who have organised themselves as **block negotiators in international organizations** such as the United Nations and the World Trade Organization. They represent **more than 50%** of the world's population.

Small Island Developing States (SIDS) are group of small islands developing countries situated in Indian and Pacific oceans. It is a distinct group of 38 UN Member States and 20 Non-UN Members/Associate Members of United Nations regional commissions that face unique social, economic and environmental vulnerabilities.

Statement 2 is incorrect. The focus of Like-Minded Developing Countries is **not exclusively on climate issues**. It deals with **all the major issues** that impacts the developing world like trade, multilateral reforms, health etc.

They have organised themselves as **block negotiators in international organizations such as the United Nations and the World Trade Organization**.

Statement 3 is incorrect. The ministerial meeting of LMDC was hosted by **Bolivia (not India) recently**. At the ministerial meeting of the Like-Minded Developing Countries (LMDC), India has said that climate finance cannot continue at the levels decided in 2009 and emphasised that it should be at least \$1 trillion to meet the goals of addressing climate change.

Source: India calls for hike in climate finance to \$1trillion -ForumIAS Blog

Small island nations threatened by climate change seek voice in U.N. negotiations : NPR

Q.1) In India, separation of judiciary from the executive is enjoined by

- the Preamble of the Constitution
- a Directive Principle of State Policy
- the Seventh Schedule
- the conventional practice

Ans) b

Exp) Option b is the correct answer.

Directive Principles of State Policy (DPSP) is enshrined in Part-IV (Article 36 to 51) of the constitution.

According to Article 50, the State shall take steps to separate the judiciary from the executive in the public services of the State.

Accordingly, the Criminal Procedure Code (1973) separated the judiciary from the executive in the public services of the state. Prior to this separation, the district authorities like the collector, the sub-divisional officer, the tehsildar and so on used to exercise judicial powers along with the traditional executive powers. After the separation, the judicial powers were taken away from these executive authorities and vested in the hands of district judicial magistrates who work under the direct control of the state high court.

Source) UPSC CSE 2020

Q.2) Consider the following pairs:

List I	List II
Type of Writ	Description
1. Habeas Corpus	It protects an individual against unlawful imprisonment.
2. Mandamus	It prevents a court from exceeding its jurisdiction.
3. Prohibition	It directs a public servant to perform his legal duties.
4. Certiorari	It prevents illegal usurpation of public office by a person.

How many pairs given above are correctly matched?

- Only one pair
- Only two pairs
- Only three pairs
- All four pairs

Ans) a

Exp) Option a is the correct answer.

The Supreme Court (under Article 32) and the high courts (under Article 226) can issue the writs of habeas corpus, mandamus, prohibition, certiorari and quo-warranto. The Parliament (under Article 32) can empower any other court to issue these writs.

Pair 1 is correct: A writ of habeas corpus means that the court orders that the arrested person should be presented before it. It can also order to set free an arrested person if the manner or grounds of arrest are not lawful or satisfactory.

- The writ of habeas corpus can be issued against both public authorities as well as private individuals. The writ is not issued in following cases:
 - Detention is lawful

- b. The proceeding is for contempt of a legislature or a court
- c. Detention is by a competent court
- d. Detention is outside the jurisdiction of the court.

Pair 2 is incorrect: Mandamus writ is issued when the court finds that a particular office holder is not doing legal duty and thereby is infringing on the right of an individual.

- 2) The writ of mandamus cannot be issued against the following authorities:
- a. Against a private individual or body
 - b. To enforce departmental instruction that does not possess statutory force
 - c. When the duty is discretionary and not mandatory
 - d. To enforce a contractual obligation
 - e. Against the president of India or the state governors
 - f. Against the chief justice of a high court acting in judicial capacity

Pair 3 is incorrect: Prohibition is the writ issued by a higher court (High Court or Supreme Court) when a lower court has considered a case going beyond its jurisdiction.

- 3) The writ of prohibition can be issued only against judicial and quasi-judicial authorities. It is not available against administrative authorities, legislative bodies, and private individuals or bodies.

Pair 4 is incorrect: Under Certiorari writ, the court orders a lower court or another authority to transfer a matter pending before it to the higher authority or court.

Whereas, Quo-Warranto means 'by what authority or warrant'. It is issued by the court to enquire into the legality of claim of a person to a public office. Hence, it prevents illegal usurpation of public office by a person. The writ can be issued only in case of a substantive public office of a permanent character created by a statute or by the Constitution. It cannot be issued in cases of ministerial office or private office. Unlike the other four writs, this can be sought by any interested person and not necessarily by the aggrieved person.

Indian polity by M Laxmikanth pdf. Page no- 223 to 226.

Q.3) With reference to the Lok Adalats in India, consider the following statements:

1. Only judicial officers can serve as the chairman or members of a Lok Adalat.
2. Cases which are pending in courts of law cannot be taken up in Lok Adalats.
3. Their decisions are final and binding and no appeal against their decision lies with any court.
4. The jurisdiction of Permanent Lok Adalats include cases related to public utility services.

Which of the statements given above is/are correct?

- a) 3 and 4 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1 and 4 only

Ans) a

Exp) Option a is the correct answer.

Lok Adalats are one of the many Alternate Dispute Redressal (ADR) mechanisms in India. These were formed for settling disputes through conciliation and negotiation between the parties outside courts of law. These were created under the Legal Services Authorities Act, 1987.

Statement 1 is incorrect: According to the Legal Services Authorities Act, 1987; **every Lok Adalat organised for an area shall consist of such number of serving or retired judicial officers** and other persons of the area as may be specified by the agency organizing such Lok Adalat. Generally, a Lok Adalat **consists of a judicial officer as the chairman and a lawyer (advocate) and a social worker as members.**

Statement 2 is incorrect: Cases which are in pre litigation stages (not yet opened in a court of law), as well as those that are **already pending in a court of law**, both, can be brought to the Lok Adalats. Hence this statement is **incorrect**.

Statement 3 is correct: In order to make the **Lok Adalats effective** and not just an additional step in the judicial process, the Act provided that the **decision of the Lok Adalats is final (no appeal) and binding** on the parties (i.e the parties **have to follow the decision and instructions of the Lok Adalat**).

However, it must be noted that this **does not mean** that the **parties don't have any other remedy** in this matter if they are dissatisfied with the decision. They can **file litigation in any court of law**, according to the jurisdiction of their case and **fight the case in a completely new beginning** there. However, it will **not be in continuance** of the **proceedings in the Lok Adalats**, as there **can be no appeal against their decisions**.

Statement 4 is correct: The **Legal Services Authorities Act, 1987** was **amended in 2002** to provide for establishment of **Permanent Lok Adalats (Section 22-B)**. **These have been established to specifically deal with cases related to public utility services**, like **electricity, water supply**, municipal garbage disposal system, etc. Hence this statement is **correct**.

Knowledge Base:

There is no court fee payable when a matter is filed in a Lok Adalat. If a matter pending in the court of law is referred to the Lok Adalat and is settled subsequently, the court fee originally paid in the court on the complaints/petition is also refunded back to the parties.

<https://nalsa.gov.in/lok-adalat>

Q.4) The Courts in India can adjudicate which of the following types of cases?

1. A dispute between two citizens of India
2. A dispute between India and any of its neighbouring countries.
3. An International commercial arbitration
4. A dispute between the Centre and any state.

Select the correct answer using the code given below.

- a) 1, 2, 3 and 4
- b) 1 and 4 only
- c) 1, 3 and 4 only
- d) 1 and 3 only

Ans) c

Exp) Option c is the correct answer.

Judiciary is an important organ of the government that deals with Dispute Resolution; Judicial Review; and Upholds the Law and enforces Fundamental Rights of Indian citizens.

Statement 1 is correct. The **Supreme Court, High Court, Subordinate courts and tribunals** are authorized to resolve the disputes between two citizens. As the dispute between the two citizens is of civil nature and no crime is registered, police have no jurisdiction to interfere in the civil dispute. Hence it lies under the jurisdiction of Judiciary.

Statement 2 is incorrect. The disputes between India and its neighbouring countries are resolved by **diplomatic methods, (not by Indian courts)** including negotiations, good offices, mediation, inquiry and conciliation. **Negotiations** between nations in conflict can be either **bilateral or multilateral** that are conducted directly between Heads of State or Ambassadors or special representatives of the countries involved.

The dispute between the rulings of courts of two different countries is dealt with by the **International Court of Justice**.

Statement 3 is correct. Under the Arbitration and Conciliation Act, 1996, **International Commercial Arbitration can also be initiated in the Supreme Court.** For an international commercial arbitration, the Supreme Court must be petitioned. In the case of a domestic arbitration, the petition would lie before the high court within whose local limits the principal civil court is located

Statement 4 is correct. The **Supreme Court of India** under its Original Jurisdiction is empowered to resolve the disputes between the **Centre and one or more states**; or between the Centre and any state or states on one side and one or more other states on the other side.

LAXMIKANT (PARLIAMENT; SUPREME COURT-6TH EDITION)

Q.5) Which of the following are the new climate targets announced by India at Conference of Parties 26, Glasgow?

1. To increase the non-fossil energy capacity to 5000 GW.
2. To meet half of its energy requirements from renewable energy by 2030.
3. To achieve the target of Net Zero carbon emission by 2070.
4. To increase biofuel production by 45% in the next decade.

Select the correct answer using the code given below:

- a) 1 and 2 only
- b) 2 and 3 only
- c) 2, 3 and 4 only
- d) 1, 2, 3 and 4

Ans) b

Exp) Option b is the correct answer.

India recently announced new climate targets at COP26 under its '**Panchamrit strategy**'. It has taken a bold leap towards cementing its commitment to clean energy and letting the world know its future approach towards fighting climate change.

India made **five big-ticket announcements** at the climate change meeting in Glasgow:

Statement 1 is incorrect. India will increase its **non-fossil energy capacity to 500GW** (India had earlier extended its target to 450GW out of which 100GW is already installed) by 2030.

Statement 2 is correct. India will meet **50% of its energy requirements from renewable energy by 2030**. Please note that renewable energy sources are different from non-fossil sources. Non-fossil sources also include, scalable nuclear power and hydroelectricity.

Statement 3 is correct. By the year **2070**, India will **achieve the target of Net Zero carbon emission**. By **2030**, India will reduce the **carbon intensity of its economy by 45%**. India has achieved 25% of emission intensity reduction of GDP b/w 2005 -2016, and is on the path to achieve more than 40% by 2030.

India will reduce the total projected carbon emissions by one billion tonnes from now onwards till 2030.

Statement 4 is incorrect. There is **no target to increase biofuel production** by 45% in the next decade, by India at Conference of Parties 26.

Source: India announces new climate targets at COP26 - Explained, pointwise -ForumIAS Blog.5)

Q.6) In India, which of the following Rights are guaranteed to an Indian citizen who is being arrested for an offence?

1. The Right to be informed about the grounds of arrest.
2. The Right to remain silent during the process of interrogation.

3. The Right to be presented before a magistrate.
4. The Right to use confessions made in police custody as evidence for legal release.

Select the correct answer using the code given below.

- a) 1 and 2 only
- b) 1, 3 and 4 only
- c) 3 and 4 only
- d) 1, 2 and 3 only

Ans) d

Exp) Option d is the correct answer.

The person who is arrested for the criminal wrong or an any offence which has been mentioned in any code i.e., **Indian Penal Code, 1860 or Code of Criminal Procedure, 1973** has been granted certain rights under the Indian Constitution.

Statement 1 is correct. **Article 22 (1)** of the Indian Constitution and **Section-50, of CrPc 1973** states that no person who is arrested shall be detained in custody **without being informed of the offense committed** by the person being arrested. Section-50 of CrPc 1973 also mentions that if a person is arrested **without any warrant (legal document)** he/she should be immediately informed of the particulars of the type of offence which he has committed which has been mentioned in the code and states him whether the offence which he has committed is a **bailable offence** or a **non-Bailable offence**.

Statement 2 is correct. In The Case of **Nandini Sathpathy V. P.L.Dani**, it was stated that no one can **force any accused to answer any question** or give a statement and the accused has the **right to remain silent during the process of interrogation**. It highlights **Article-20(3) of the Indian Constitution**, which says that no person accused of any offense shall be compelled to be a witness against himself i.e., the principle of Self-Incrimination. That means the accused has a **right to remain silent**.

Statement 3 is correct. **Article 22(2)** of the Indian Constitution states that every person who is arrested and detained in custody shall be **produced before the nearest magistrate** within a period of **twenty-four hours** of arrest **excluding the time necessary for the journey from the place of arrest to the court of the magistrate**. And no such person shall be detained in custody beyond the given period without the authority of a magistrate.

Statement 4 is incorrect. According to **Section 26 of the Indian Evidence Act**, any confession made by any person in the police custody **cannot be used as evidence** either against the accused or in favour of the accused for any legal release until and unless it has been proved in the immediate presence of a Magistrate as against or in favour of a person accused.

<https://www.legalserviceindia.com/legal/article-7839-rights-of-arrested-person.html>

Q.7) With reference to the differences between Cognizable offences and non-Cognizable offences, consider the following statements:

1. Unlike Non-cognizable offences, Cognizable offences are those in which the police can arrest an accused without a warrant.
2. All Cognizable offences are bailable whereas all non-Cognizable offences are non-bailable.

3. Generally, Non-cognizable offences are less serious in nature as compared to Cognizable offences. Which of the statements given above is/are correct?

- a) 1 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

In India, the major legislation governing the criminal trial in India is the Criminal Procedure Code, 1973 (Cr.PC) along with the Indian Evidence Act, 1872.

Statement 1 is correct. Cognizable offences are those in which the police **can investigate and arrest** the offender **without a warrant**. Examples of these are murder, rape, theft, rioting, robbery, and sedition. In **non-cognizable offences**, the police do not have the power to arrest a person for a crime without a warrant. Examples of non-cognizable offences are assault, cheating, forgery, defamation, public nuisance, etc.

Statement 2 is incorrect. The **Cognizable offences** are both **bailable and non-bailable**. Whereas **Non-Cognizable offences** are **bailable**. Bailable offence means that bail can be taken as a right without any prohibition. Whereas non-bailable offences are offences the judge critically examines the facts and other relevant factors to decide whether to grant bail or not.

Statement 3 is correct. Non-cognizable offences are less serious or grave in nature. Non-serious crimes such as assault, cheating, forgery, defamation, public nuisance, etc. are non-cognizable offences. **Cognizable offences are generally serious crimes.** The Criminal Procedure Code, 1973 (CrPC) under Section 2(c) states that an offence that is punishable with death, imprisonment for life, or imprisonment for more than 3 years shall be cognizable.

Source: <https://egyankosh.ac.in/bitstream/123456789/52040/1/Block-2.pdf>
<https://egyankosh.ac.in/bitstream/123456789/38901/1/Unit-1.pdf>

Q.8) With reference to the Subordinate Courts in India, consider the following statements:

- 1. The District Judge has original jurisdiction but no appellate jurisdiction.
- 2. The District Judge does not have the authority to award capital punishment.
- 3. The District Judge has supervisory powers over the subordinate courts in the district.

Which of the statements given above is/ are correct?

- a) 3 only
- b) 1 and 2 only
- c) 2 and 3 only
- d) 1 and 3 only

Ans) a

Exp) Option a is the correct answer.

Subordinate Courts refer to various legal courts in a state, below the High Court. The Indian constitution makes some provisions to regulate the organisation of these courts in Articles 233 to 237 of Part VI. These courts (also alternatively known as Lower Courts) are also arranged hierarchically in subordination to the High Court of a state.

Statement 1 is incorrect: The **District Judge** has **original** as well as **appellate jurisdiction** in **both, civil cases** as well as **criminal cases** in a **district**.

The **district judge** is the **highest judicial authority** in a **district**. He is known as a **District Judge**, when hearing **civil cases**, and is known as a **Sessions Judge**, when hearing **criminal cases**. Whatever the case or nomenclature, it is one and the same person adjudicating both types of cases.

Statement 2 is incorrect: The District Judge has the power to **award even the capital punishment (death sentence)**, while **hearing a criminal case**, as a **Sessions Judge**. Hence this statement is **incorrect**.

It must be noted that though a district judge **may award** the capital punishment, it **can be carried out, only if and when it is confirmed** by the **High Court** under which that Sessions Court falls. This is true for **all cases** where a **capital punishment has been announced** by the district judge, whether there has been an **appeal or not**.

Statement 3 is correct: The High Court does supervise all the subordinate courts in the state. But day to day supervisory powers over the various subordinate courts in a particular district, are vested in the District Judge. **He has supervisory powers over all the subordinate courts in the district.**

If any person has **any issues** with the **orders and decisions** of the **district judge**, such a person may **appeal against** it in the **respective state's High Court**.

Q.9) Which of the following is/are features of the concept of 'Rule of Law' as applicable in India?

1. It is borrowed from the American Constitution.
2. It forms a part of the 'basic structure' of Indian constitution.
3. It signifies equal subjection of all citizens to the ordinary law of the land.

Select the correct answer using the code given below

- a) 1 and 2 only
- b) 3 only
- c) 2 and 3 only
- d) 2 only

Ans) c

Exp) Option c is the correct answer.

Rule of law is a concept propounded by A.V. Dicey.

Statement 1 is incorrect. The concept of **Rule of Law** is borrowed from the **British Constitution**. Whereas it is the **Equal Protection of law** whose element is **Rule by law** that is borrowed from the American Constitution.

Statement 2 is correct. The Rule of Law is one of the major elements of the 'basic structure' of the constitution. It is in the **Indra Nehru Gandhi V Raj Narayan case** that the Supreme Court held that the 'Rule of Law' as embodied in Article 14 is a **'basic feature' of the constitution**. Hence, it cannot be destroyed even by an amendment.

Statement 3 is correct. The concept of 'Rule of Law' has the following three elements or aspects:

- 1) Absence of arbitrary power, that is, no man can be punished except for a breach of law.
- 2) Equality before the law, that is, **equal subjection of all citizens (rich or poor, high or low, official or non-official) to the ordinary law of the land** administered by the ordinary law courts.
- 3) The primacy of the rights of the individual, that is, the constitution is the result of the rights of the individual as defined and enforced by the courts of law rather than the constitution being the source of the individual rights.

The first and the second elements are applicable to the Indian System and not the third one. In the Indian System, the constitution is the source of the individual rights.

Source: LAXMIKANT (CH-FUNDAMENTAL RIGHTS, BASIC STRUCTURE OF INDIAN CONSTITUTION, PIL)

<https://m.thewire.in/article/law/supreme-court-pil-constitution-law/>

<https://blog.ipleaders.in/rule-law-relevance/>

Q.10) With reference to 'Web 3.0', consider the following statements:

1. It is the next version of the internet where data will be stored in centralized repositories governed by the central regulator.
2. The user of Web 3.0 will not be required to have an active internet connection to access online ecosystem.
3. The services of this version will make the use of blockchain technology.

Which of the statements given above is/are correct?

- a) 2 and 3 only
- b) 2 only
- c) 1 and 3 only
- d) 3 only

Ans) d

Exp) Option d is the correct answer.

Web 3.0 has emerged as a new tech buzzword. The term incorporates a bunch of next-gen ideas, all pointing towards elimination of the dominance of the big tech companies over the internet.

Statement 1 is incorrect. Web 3.0 will be permissionless and democratic. In a Web 3.0 universe, **people will control their own data** and will be able to move around from social media to email to shopping using a single personalized account, creating a public record on the blockchain of all of that activity.

All **data will be interconnected** in a **decentralized way**. In the current generation of the internet (Web 2.0), data is mostly stored in the centralised repositories.

THREE STAGES OF INTERNET CONSUMPTION

	Web1	Web2	Web3
Time period*	1990-2005	2005-till date	2021 -
Where data is stored	Server's file system	On-premise/Cloud	Blockchain, distributed across multiple networks
Examples	Static web pages	User generated content like Social media, and web applications like e-commerce etc...	NFTs, cryptocurrency transaction
Who owns data	Companies running the webpages	Companies that host application, cloud service providers	No one owns the data
Transacting	No transaction possible	Payment gateways for currency transactions	Transaction happens using crypto tokens

Statement 2 is incorrect. The user of Web 3.0 **will require active internet connection** to access online ecosystem. It is meant to "automatically" interface with systems, people and home devices. As such, content creation and decision-making processes will involve both humans and machines. This would enable the intelligent creation and distribution of highly-tailored content straight to every internet consumer.

Statement 3 is correct. **Web 3.0** is the next version of the internet, where services will **run on blockchain**. It is a decentralized internet that runs on a public blockchain, which is also used for cryptocurrency transactions. It would make the internet more intelligent, or process information with near-**human-like intelligence** through the power of AI systems.

Q.11) In India, Judicial Review implies

- a) The power of the Judiciary to pronounce upon the constitutionality of laws and executive orders.
- b) The power of the Judiciary to question the wisdom of the laws enacted by the Legislatures.
- c) The power of the Judiciary to review all the legislative enactments before they are assented to by the President.
- d) The power of the Judiciary to review its own judgements given earlier in similar or different cases.

Ans) a

Exp) Option a is the correct answer.

Judicial Review is the power of the Courts to determine the **constitutionality of the Legislative acts and executorders**. Judicial review is the power of the judiciary to examine the constitutionality of legislative enactments and executive orders of both the Central and State governments. On examination, if they are found to be violative of the Constitution (ultra vires), they can be declared as illegal, unconstitutional and invalid (null and void) by the judiciary. Consequently, they cannot be enforced by the Government.

The scope of judicial review before Indian courts has evolved in three dimensions:

- 1) to ensure fairness in administrative action.
- 2) to protect the constitutionally guaranteed fundamental rights of citizens
- 3) to rule on questions of legislative competence between the centre and the states

Source) UPSC CSE 2017

Q.12) Consider the following statements regarding the Gram Nyayalayas in India:

1. These have been created under the Legal Services Act, 1987.
2. Being a Civil Court, Gram Nyayalaya cannot try any criminal case.
3. The Gram Nyayalayas are guided by the principle of natural justice.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 only
- c) 3 only
- d) 1 and 3 only

Ans) c

Exp) Option c is the correct answer.

Gram Nyayalayas are mobile courts that have been created at the level of intermediate Panchayats, to ensure people have access to speedy and convenient justice near their location in small everyday matters. They were recommended by the 114th report of the Law Commission to improve access to justice at grass roots level.

Statement 1 is incorrect: Gram Nyayalayas have **statutory backing**, and have been created under the **Gram Nyayalaya Act, 2008 (not the Legal Services Act, 1987)**. Hence this statement is **incorrect**.

The **Legal Services Act, 1987** resulted in the formation of **Permanent Lok Adalats** at various levels manned by the **Legal Services authorities** at **national, state, district** as well as **Taluka level**.

The Gram Nyayalayas were envisioned to bring speedy justice in rural areas, to the doorstep of the people, at Panchayat level. Under the **Gram Nyayalaya Act, 2008**, it is the **respective State Government** which **decides** whether it will **set up Gram Nyayalayas** or not. This is done by the state government **in consultation** with the **respective High Courts**.

Statement 2 is incorrect: In order to provide **comprehensive access to justice at grassroots level**, the Act stipulated that the **Gram Nyayalayas**, despite being at a very small level, **can adjudicate both civil and criminal cases**. Hence this statement is **incorrect**.

It must be noted that the **jurisdiction** of these courts in **civil and criminal matters is not complete and unlimited**. Rather it is **limited to only those criminal and civil matters** which are **specified in the First and Second schedule of the Act**. Both these **schedules can be amended** by **both - the Central** as well as **State Governments** to include or exclude certain matters from the jurisdiction of the Gram Nyayalayas in that particular state.

Statement 3 is correct: The Gram Nyayalaya shall not be bound by the rules of evidence provided in the Indian Evidence Act, 1872 but shall be guided **by the principles of natural justice and subject to any rule made by the High Court**.

Source: Indian Polity by Laxmikanth, 5th edition, Ch-35, Pg-35.8, 35.9, 35.6, 35.5

Q.13) Which of the following are considered as Criminal Offence under Indian laws?

1. Defacing, destroying or stealing of a property.
2. Breach of contract where money is owed to another party.
3. Torts involving personal injuries against private individuals.
4. Operating Gambling in public gaming houses.
5. Cultivation of opium, cannabis or coca plants without license.

Select the correct answer using the code given below.

- a) 1, 2, 3 and 5 only
- b) 2 and 5 only
- c) 1, 4 and 5 only
- d) 1, 2 and 4 only

Ans) c

Exp) Option c is the correct answer.

Criminal offence are acts that are unlawful and punishable by the specific laws of a state or a country. Whereas Civil offense means an act which is triable by a Criminal Court or by a special Judge appointed under the Criminal Law Amendment Act, 1952.

Civil law deals with acts related to individuals to which harm caused can be repaid by compensation or monetary relief. Criminal law deals with a crime that causes damage to a person which is an offence against society as well.

Statement 1 is correct. The offence of theft and Criminal Misappropriation that involve defacing, destroying, or stealing of a property is a **criminal offence under Section 378 of Indian Penal Code, 1860**. It is punishable with imprisonment of either description for a term which may extend to 3 years or with fine, or with both.

Statement 2 is incorrect. The Supreme Court recently ruled that mere breach of contract is not in itself a **criminal offence and gives rise to the civil liability of damages**. Any **breach of contract**, such as where items are not fit for purpose or when money is owed to another is **not considered a criminal offence** unless it involves something like fraud. It is considered a matter between private parties rather than something that affects society.

Statement 3 is incorrect. The law of torts in India is a body of law that addresses and provides remedies for **non-contractual acts of civil wrongdoings (not criminal offences)**. It is concerned with **personal injuries against private individuals**. A tort can be against either a private individual or property. The property can be movable or immovable. The injured party receives monetary compensation. **The common forms of torts include trespass, assault, battery, negligence, nuisance, defamation, etc.** Even though many of these results in civil liability and criminal offence, torts are civil offences.

Statement 4 is correct. Gambling that involves risking or staking of money or any other valuable security is a **criminal offence** under the **Public Gambling Act 1867**. The act prohibits running or operating public

gaming houses. Any violation of the law under this act could attract a fine of **Rs.200 or imprisonment of up to 3 months.**

Statement 5 is correct. The **Cultivation of opium, cannabis or coca plants without license** is a **criminal offence** under the **Narcotic Drugs and Psychotropic Substances Act, 1985**. The offence can account for rigorous imprisonment of up to 10 years and fine up to Rs.1 lakh on the accused.

Q.14) Which of the following provisions have been provided by the Constitution to ensure the independence of Supreme Court in India?

1. The salaries and allowances of the judges are not subjected to the vote of the Parliament.
2. Parliament cannot discuss the conduct of the judges under any condition.
3. The judiciary has the power to penalize those who are found guilty of Contempt of Court.
4. All appointments of officers and staffs of the Supreme Court are made by the Chief Justice of India.

Select the correct answer using the code given below:

- a) 1 and 3 only
- b) 3 and 4 only
- c) 1, 3 and 4 only
- d) 1, 2, 3 and 4

Ans) c

Exp) Option c is the correct answer.

The Indian Constitution has ensured the independence of the judiciary through a number of measures. The legislature is not involved in the process of appointment of judges. The Supreme Court has been assigned a very significant role in the Indian democratic political system. It is a federal court, the highest court of appeal, the guarantor of the fundamental rights of the citizens and guardian of the Constitution.

Statement 1 is correct: The judiciary is not financially dependent on either the executive or legislature. The Constitution provides that the salaries and allowances of the judges are not subjected to the approval of the legislature. The salaries, allowances and pensions of the judges and the staff as well as all the administrative expenses of the Supreme Court are charged on the Consolidated Fund of India. Thus, they are non-votable by the Parliament.

Statement 2 is incorrect: Parliament cannot discuss the conduct of the judges except when the proceeding to remove a judge is being carried out. This gives the judiciary independence to adjudicate without fear of being criticized. The Constitution prohibits any discussion in Parliament or in a State Legislature with respect to the conduct of the judges of the Supreme Court in the discharge of their duties, except when an impeachment motion is under consideration of the Parliament.

Statement 3 is correct: The actions and decisions of the judges are immune from personal criticisms. The judiciary has the power to penalise those who are found guilty of contempt of court. This authority of the court is seen as an effective protection to the judges from unfair criticism. The Supreme Court can punish any person for its contempt. Thus, its actions and decisions cannot be criticized and opposed by anybody. This power is vested in the Supreme Court to maintain its authority, dignity and honour.

Statement 4 is correct: To maintain the independence of the judiciary, the Chief Justice of India has been given powers to appoint officers and servants of the Supreme Court without any interference from the executive. He can also prescribe their conditions of service.

Q.15) Consider the following pairs:

Landmark Cases often seen in Newspapers

- | | Related To |
|--|--|
| 1. Thwaha Fasal vs Union of India | Challenging the Constitutional validity of The Citizenship (Amendment) Act, 2019 |
| 2. Union of India vs K.A. Najeeb | Constitutional position of Lieutenant Governor of Delhi vis-a-vis the Council of Ministers |
| 3. Paramvir Singh vs. Baljit Singh & Ors | Installation of CCTV cameras in police stations |

How many pairs given above are correctly matched?

- None of the pairs
- Only one pair
- Only two pairs
- All three pairs

Ans) b

Exp) Option b is the correct answer.

This question is based on the article “**A new jurisprudence for political prisoners**”.

Pair 1 is incorrectly matched. In **Thwaha Fasal Vs Union of India**, Supreme Court stated that- “Mere Association with a terrorist organisation as a member or otherwise will not be sufficient to attract the offence U/S38/39 Of **UNLAWFUL ACTIVITIES (PREVENTION) ACT, 1967**, unless The Association Is with Intention to Further Its Activities”. Instead of presumption of innocence, the UAPA holds presumption of guilt of the accused. This makes it hard to obtain bail. This has been rectified in this judgement.

Pair 2 is incorrectly matched. In **Union of India vs K.A. Najeeb (2021)**, the larger Bench said that even the stringent provisions under Section 43D (5) of UAPA do not curtail the **power of the constitutional court to grant bail on the ground of violation of fundamental rights**. This case is **not related to** Constitutional role and position of Lieutenant Governor of Union Territory of Delhi.

Pair 3 is correctly matched. In **Paramvir Singh vs. Baljit Singh & Ors**, Special Leave Petition was filed to **examine the status of the installation of CCTV cameras in police stations** as well as the position of compliance with the dictates of Section 161(3) proviso of the CrPC. This section says that any statement made to the Police under this section may also be recorded by audio-visual electronic means. The Court impleaded all States and Union territories and asked them to submit the exact position of the CCTV cameras in every Police Station in their territory as well as the status of the constitution of the Oversight Committee.

Q.16) Consider the following statements with reference to the Collegium System of judicial appointments in India:

1. The principal objective of the Collegium System is to ensure that the best available talent is brought to the Supreme Court Bench.
2. The Collegium System was established by the Supreme Court through its judgement in the 'State of Madras v. Champakam Dorairajan' Case.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) a

Exp) Option a is the correct answer.

Statement 1 is correct: The ruling in the Third Judges Case where the collegium system finds its origin to the current system of appointment of judges and created the collegium of the Chief Justice of India and four senior-most judges. **It states that the principal objective of the collegium is to ensure that the best available talent is brought to the Supreme Court Bench.**

Statement 2 is incorrect: The collegium system finds its origins in the three cases called the "Judges cases" in India. In the 1981 SP Gupta case, also called the "first judges' case", the judges suggested that the executive must have the biggest say in judicial appointments. 12 years later, in 1993, a nine-judge bench in the "second judges' case" said that the CJI must be given priority in such appointments. **The Second Judges Case (1993) introduced the Collegium system**, holding that "consultation" really meant "concurrence". It added that it was not the CJI's individual opinion, but an institutional opinion formed in consultation with the two senior-most judges in the Supreme Court This was reiterated in the "third judges' case" in 1998.

Source: https://www.business-standard.com/article/current-affairs/sc-appointments-what-is-the-collegium-system-and-how-does-it-work-122101100824_1.html

<https://www.google.com/url?sa=t&rct=j&q=&esrc=s&source=web&cd=&ved=2ahUKEwiw2Jijhur6AhX6F7cAHcTBAAEQFnoECCIQAQ&url=https%3A%2F%2Findianexpress.com%2Farticle%2Fexplained%2Fprinciple-of-seniority-and-next-cji-chandrachuds-51-collegium-8203275%2F&usg=AOvVaw1-n9zBOTEVrykIE4WICeO>

Q.17) With reference to the State Administrative Tribunals (SAT) in India, consider the following statements:

1. Only the State Governments have the authority to establish SATs.
2. The Chairman and members of an SAT are appointed by the Governor after consultation with the High Court of the state concerned.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) d

Exp) Option d is the correct answer.

The Constitution in Article 323A, Part XIV A, gives the Parliament the authority to create any law to provide for establishment of Administrative Tribunals. The Parliament in 1985, passed a law pursuant to this power. This led to the establishment of a Central Administrative Tribunal (CAT) as well as many State Administrative Tribunals (SATs).

Statement 1 is incorrect: The Administrative Tribunals Act of 1985 empowers the Central government to establish the State Administrative Tribunals (SATs) on specific request of the concerned state governments.

Under the powers granted by the constitution in Article 323A, the Indian Parliament passed the Administrative Tribunals Act, 1985. According to this law, the authority to establish an administrative tribunal (whether Central or state), lies with the Central (not state) Government only.

Statement 2 is incorrect: The Chairman and members of the SAT are appointed by the President (not the Governor) after consultation with the Governor (not the Chief Justice of the High Court) of the state concerned.

Source: Indian Polity by Laxmikanth, 5th edition,

Q.18) Consider the following statements:

1. It is a theory of judicial interpretation that encourages judges to limit the exercise of their own power.
2. According to this theory, the judges must try to stick to the laws enacted by the legislature.
3. This theory provides that judges should hesitate to strike down laws unless they are obviously unconstitutional.

The above statements refer to which of the following theories?

- a) Judicial Activism
- b) Judicial Overreach
- c) Judicial Restraint
- d) Judicial Review

Ans) c

Exp) Option c is the correct answer.

Judicial activism and judicial restraint are facets of that uncourageous creativity and pragmatic wisdom. Judicial Restraint is a theory of judicial interpretation that encourages judges to **limit the exercise of their own power**. Judicial restraint limits the power of a judge to interpret law in a broad manner or strike down a legislation. In judicial activism, the judge takes more freedom to deviate from conventional interpretation, so that a law can be applied to a given set of facts. He can overrule laws as well as judgments. According to the philosophy of judicial restraint, there is no scope of interpretation of the Constitution, and changes can be made through amendments only. In case of judicial activism, Constitution can be interpreted in a broad manner. According to the theory of judicial restraint, the judge **must stick to the laws enacted by the legislature and should uphold them unless they are unconstitutional**. In judicial activism, the judge can interpret laws according to the changing needs of the society and prevent injustice.

When the judiciary appears to have transgressed its jurisdiction, triggering a grave **violation of the doctrine of separation of powers, the term “judicial overreach”** is widely used. It is also commonly known as judicial adventurism.

Source: Laxmikanth 6th edition chapter-28 page-28.2

<http://www.legalservicesindia.com/article/2019/Judicial-Activism-and-Judicial-Restraint.html#:~:text=Judicial%20Restraint%20is%20a%20theory%20of%20judicial%20interpretation,strike%20down%20laws%20unless%20they%20are%20obviously%20unconstitutional.>

Q.19) Which of the following doctrines provides that, ‘when some particular provision of a statute is against the Constitution, only that offending provision will be declared void by the Court and not the entire statute’?

- a) Doctrine of Pith and Substance
- b) Doctrine of Eclipse

- c) Doctrine of Severability
d) Doctrine of Colourable Legislation

Ans) c

Exp) Option c is the correct answer.

While interpreting the Constitution, the Supreme Court is guided by a number of doctrines. The important doctrines are mentioned below:

Option a is incorrect: The Doctrine of Pith and Substance states that if the substance of legislation falls within a legislature's lawful power, the legislation does not become unconstitutional just because it impacts an issue beyond its area of authority.

Option b is incorrect: The Doctrine of Eclipse says that any law inconsistent with Fundamental Rights is not invalid. It is not dead totally but overshadowed by the fundamental right. The inconsistency (conflict) can be removed by a constitutional amendment to the relevant fundamental right so that eclipse vanishes and the entire law becomes valid.

Option c is correct: The Doctrine of Severability means that when some particular provision of a statute offends or is against a constitutional limitation, **only that offending provision will be declared void by the Court and not the entire statute**. Article 13 of the Constitution of India provides for Doctrine of severability which states that all laws in force in India before the commencement of Constitution shall be void in so far, they are inconsistent with the provisions of the Constitution.

Option d is incorrect: The Doctrine of Colourable Legislation strictly prohibits doing indirect things when it is not allowed to do so directly. It tests whether the legislature has enacted a law as per its authorised competency or not.

Q.20) With reference to Remote Voting, consider the following statements:

1. Election Commission of India has introduced 'Remote Voting' which is based on Aadhar linked internet connected devices.
2. It will allow electors to vote from locations other than assigned polling stations.
3. It has been made mandatory for all the senior citizens and physically handicapped persons from 2022 by Election Commission of India.

Which of the statements given above is/are correct?

- a) 1 and 2 only
b) 2 only
c) 2 and 3 only
d) 1 and 3 only

Ans) b

Exp) Option b is the correct answer.

This question is based on the article **"Poll commission plans to map migrant population for remote voting"**.

Statement 1 is incorrect. Election Commission of India is **planning** to introduce 'Remote Voting' in remote areas. **Remote Voting** will be a voting machine which has **no linkage with the Internet**. It will mostly be an **EVM**. Election Commission would find areas with around 1000-1500 remote voters and will make arrangements and set up a booth.

At the Booth, EC is trying to develop and deploy a machine that has an electronic display which will show the ballot paper of the voter's constituency once they press a number on the screen.

After voting, the machines **can be sealed** and depending on the states, EC can fly them for counting to one location.

Statement 2 is correct. Remote voting refers to a mechanism that **allows electors to vote from locations other than polling stations assigned to their registered constituencies**. There are lakhs of voters who are unable to exercise their voting rights on account of **geographical barriers** due to different reasons, remote voting aims to bridge that gap. This will make the electoral process more **inclusive**.

Statement 3 is incorrect. The Election Commission has **planned to start mapping the population of migrant workers** across the country to prepare a roadmap for the introduction of remote voting. It has **not yet made it mandatory** for any section of the society.

Source: Poll commission plans to map migrant population for remote voting -ForumIAS Blog

Q.21) Consider the following statements:

1. The motion to impeach a Judge of the Supreme Court of Indian cannot be rejected by the Speaker of the Lok Sabha as per the Judges (Inquiry) Act, 1968.
2. The Constitution of India defines and gives details of what constitutes 'incapacity and proved misbehaviour' of the Judges of the Supreme Court of India.
3. The process of impeachment of the Judges of the Supreme Court of India is given in the Judges (Inquiry) Act, 1968.
4. If the motion for the impeachment of a Judge is taken up for voting, the law requires the motion to be backed by each House of the Parliament and supported by a majority of total membership of that House and by not less than two-thirds of total members of that House present and voting.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 3 only
- c) 3 and 4 only
- d) 1, 3 and 4 only

Ans) c

Exp) Option c is the correct answer.

Statement 1 is incorrect. According to provisions of Judges (Inquiry) Act, 1968, the motion to impeach a judge of the Supreme Court of India **can be rejected by the Speaker** of the Lok Sabha.

Statement 2 is incorrect. The Constitution of India **does not define** or give details of what constitutes 'incapacity and proved misbehaviour' of the Judges of the Supreme Court of India.

Statement 3 is correct. The **Judges Enquiry Act (1968) regulates** the procedure relating to the **removal of a judge of the Supreme Court** by the process of impeachment. It states that a removal motion signed by 100 members (in the case of Lok Sabha) or 50 members (in the case of Rajya Sabha) is to be given to the Speaker/ Chairman.

Statement 4 is correct. If the motion for the impeachment of a Judge is taken up for voting, the law requires the motion to be backed by each House of the Parliament and supported by a majority of total membership of that House and by not less than two-thirds of total members of that House present and voting. After the motion is passed by each House of Parliament, an address is presented to the president for removal of the judge. Finally, the president passes an order removing the judge.

Source) UPSC CSE 2019

Q.22) Consider the following statements with reference to the decisions of the Supreme Court in the Kesavananda Bharati Case (1973):

1. Supreme Court ruled that Parliament cannot violate the 'Basic Structure' of the Constitution through amendments.
 2. Supreme Court reserved to itself, the right to decide which part of the Constitution forms the Basic Structure.
 3. The Supreme Court upheld its earlier decision and held that Preamble is not a part of the Constitution.
- Which of the statements given above is/are correct?

- a) 1 only
- b) 1 and 2 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

Statement 1 is correct: In 1973, the Supreme Court gave a decision that has become very important in regulating the relations between the Parliament and the Judiciary since then. **In the famous Kesavananda Bharati case supreme Court ruled that there is a basic structure of the Constitution and it cannot be violated by parliament through amendment.**

1) In the Kesavananda Bharati case (1973), the Supreme Court overruled its judgment in the Golak Nath case (1967) and upheld the validity of the 24th Amendment Act (1971) and stated that Parliament is empowered to abridge or take away any of the Fundamental Rights. At the same time, it laid down a new doctrine of the 'basic structure' of the Constitution.

Statement 2 is correct: Supreme court in the Kesavananda Bharati case (1973) reserved to itself the right to decide whether various matters are part of the basic structure of the Constitution. This case is perhaps the best example of how judiciary uses its power to interpret the Constitution. The Supreme Court is yet to define or clarify as to what constitutes the 'basic structure' of the Constitution.

Statement 3 is incorrect: In the Berubari Union case (1960) the Supreme Court specifically opined that Preamble is not a part of the Constitution. **In the Kesavananda Bharati case (1973) the Supreme Court rejected its earlier opinion in Berubari Union case (1960) and held that Preamble is a part of the Constitution.** It observed that the Preamble is of extreme importance and the Constitution should be read and interpreted in the light of the grand and noble vision expressed in the Preamble. In the LIC of India case (1995) also, the Supreme Court again held that the Preamble is an integral part of the Constitution.

Chapter name- Preamble of the constitution, page no- 133

Q.23) Consider the following statements with reference to the Supreme Court and the High Courts:

1. Both the Supreme Court and the High Courts are empowered to issue writs for the enforcement of fundamental rights of a citizen.
2. Unlike Supreme Court, the High Courts cannot issue writs for the enforcement of rights other than fundamental rights.
3. Under Public Interest Litigation, a person can approach the court for enforcing the rights of other persons.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

Judiciary is entrusted with the task of protecting rights of individuals. The Constitution provides two ways in which the Supreme Court and the High Courts can remedy the violation of rights:

- 1) It can restore fundamental rights by issuing writs of Habeas Corpus; mandamus etc. (article 32). The High Courts also have the power to issue such writs (article 226).
- 2) The Supreme Court and the High Courts can declare a law as unconstitutional and therefore non-operational (article 13).

Statement 1 is correct: The Constitution has constituted the Supreme Court as the guarantor and defender of the fundamental rights of the citizens. **The Supreme Court under article 32 is empowered to issue writs including habeas corpus, mandamus, prohibition, quo warranto and certiorari for the enforcement of the fundamental rights of an aggrieved citizen. The high courts under Article 226 are also empowered to issue writs for the enforcement of the Fundamental Rights.** It means, when the Fundamental Rights of a citizen are violated, the aggrieved party has the option of moving either the high court or the Supreme Court directly.

Statement 2 is incorrect: There is also a difference between the writ jurisdiction of the Supreme Court and that of the high court. The Supreme Court can issue writs only for the enforcement of the Fundamental Rights and not for other purposes. **The high court, on the other hand, can issue writs not only for the enforcement of the fundamental rights but also for other purposes. It means that the writ jurisdiction of the high court is wider than that of the Supreme Court.**

Statement 3 is correct: The introduction of Public Interest Litigation in India was facilitated by the relaxation of the traditional rule of 'locus standi'. According to this rule, only that person whose rights are infringed alone can move the court for the remedies. However, under the **Public Interest Litigation, any member of the public having 'sufficient interest' can approach the court for enforcing the rights of other persons and redressal of a common grievance.**

Indian polity by M Laxmikanth pdf. Chapter name- Supreme court, Judicial review and public interest litigation. Page no- 631,644,672

Q.24) Which of the following is considered as the final interpreter of the Indian Constitution?

- a) Parliament of India
- b) Supreme Court of India
- c) President of India
- d) Council of Ministers

Ans) b

Exp) Option b is the correct answer.

The **Supreme Court of India** is the **final interpreter of the Indian Constitution**. The Supreme Court is the **highest appellate Court of India**, and it exercises its appellate jurisdiction in all civil, criminal, and constitutional matters. The Supreme Court has been vested with advisory jurisdiction to advise the President on any question of fact or law that may be referred to it. It upholds the federal principle of maintaining the balance between the various organs of government and the centre and the states; it guards and protects the fundamental rights of the citizens; it ensures the constitutional validity of legislative, quasi-legislative, executive, or quasi-judicial actions of the state; it also interprets the laws made by the government.

Source: <https://egyankosh.ac.in/bitstream/123456789/70387/1/Unit-5C.pdf>

Q.25) With reference to customer centric initiatives of RBI, consider the following statements:

1. Retail Direct Scheme has been launched by RBI to provide credit access to 'non-schedule banks' in India.
2. Integrated Ombudsman Scheme aims at resolving customer complaints against all the entities that is regulated by RBI.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) b

Exp) Option b is the correct answer.

Statement 1 is incorrect. RBI Retail Direct Scheme aims to enhance access to the government securities market for retail investors (not for 'non-schedule banks'). Under the scheme, retail investors will be able to easily open and maintain their government securities account online with the RBI, free of cost. RBI had announced the scheme in its February 2021 monetary policy. Through this account, they can directly invest in securities issued by the Government of India and the State Governments.

Statement 2 is correct. Integrated Ombudsman Scheme aims to further improve the grievance redress mechanism for resolving customer complaints against all the entities regulated by RBI. The scheme is based on 'One Nation-One Ombudsman'. This means that there will be one portal, one email, and one address for customers to file their complaints.

Q.26) Consider the following statements with reference to the concept of 'Separation of Powers':

1. It is an organizational structure where responsibilities and powers are divided between groups rather than being centrally held.
2. The doctrine of Separation of Powers is the basis of the American Presidential system.
3. Separation of Powers between the legislature, executive and judiciary is an element of basic structure of Indian Constitution.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

Statement 1 is correct: Separation of powers is an organizational structure where responsibilities, authorities, and powers are divided between groups rather than being centrally held. Separation of powers is most closely associated with political systems, in which the legislative, executive, and judicial powers of government are vested in separate bodies.

Statement 2 is correct: The doctrine of separation of powers is the basis of the American presidential system. The legislative, executive and judicial powers of the government are separated and vested in the three independent organs of the government.

Statement 3 is correct: From the various judgements of the Supreme Court, the following have emerged as 'basic features' of the Constitution or elements of the 'basic structure' of the constitution:

- 1) Supremacy of the Constitution
- 2) Sovereign, democratic and republican nature of the Indian polity

- 3) Secular character of the Constitution
- 4) **Separation of powers between the legislature, the executive and the judiciary**
- 5) Federal character of the Constitution
- 6) Unity and integrity of the nation
- 7) Welfare state (socio-economic justice)
- 8) Judicial review
- 9) Freedom and dignity of the individual
- 10) Parliamentary system

 Indian polity by M Laxmikanth pdf. Page no-229,289.

Q.27) With reference to the Advisory Jurisdiction of the Supreme Court, consider the following statements:

1. Whenever the President seek the advice of Supreme Court in any matter, the Court is obligated to give an opinion.
2. The opinion expressed by the Supreme Court under its Advisory Jurisdiction is always considered as a judicial pronouncement.
3. The President can ask for the Court's opinion on any question of law but not on a question of fact.

Which of the statements given above is/are correct?

- a) 1 and 3 only
- b) 2 only
- c) 1 and 2 only
- d) None of the above

Ans) d

Exp) Option d is the correct answer.

Advisory Jurisdiction of the Supreme Court

Statement 1 is incorrect: The Constitution (Article 143) authorises the President to seek the opinion of the Supreme Court in the two categories of matters:

- 1) On any question of law or fact of public importance which has arisen or which is likely to arise.
- 2) On any dispute arising out of any pre-constitution treaty, agreement, covenant, engagement, sanad or other similar instruments.

In the first case, **the Supreme Court may tender or may refuse to tender its opinion to the President.** But, in the second case, the Supreme Court 'must' tender its opinion to the President.

Statement 2 is incorrect: In both the cases, the opinion expressed by the Supreme Court is **only advisory and not a judicial pronouncement.** Hence, it is not binding on the president; he may follow or may not follow the opinion. However, it facilitates the government to have an authoritative legal opinion on a matter to be decided by it.

Statement 3 is incorrect: The Constitution (Article 143) authorises the President to seek the opinion of the Supreme Court in the two categories of matters:

- 1) On **any question of law or fact** of public importance which has arisen or which is likely to arise.
- 2) On any dispute arising out of any pre-constitution treaty, agreement, covenant, engagement, sanad or other similar instruments.

Source: Pages 624-625, Chapter 26, Indian polity by M. Laxmikant

Q.28) Consider the following statements with reference to Tribunals in India:

1. The original Constitution did not contain provisions with respect to tribunals.
2. A tribunal for the adjudication of tax-related disputes can be established only by the Parliament.
3. Article 323B of the Constitution provides for the establishment of administrative tribunals in India.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1 and 2 only

Ans) a

Exp) Option a is the correct answer.

Tribunals are institutions established for discharging judicial or quasi-judicial duties. The objective is to reduce case load of the judiciary or to bring in subject expertise for technical matters.

Statement 1 is correct: The original Constitution did not contain provisions with respect to tribunals.

The 42nd Amendment Act of 1976 added a new Part XIV-A to the Constitution. This part is entitled as 'Tribunals' and consists of only two Articles—Article 323 A dealing with administrative tribunals and Article 323 B dealing with tribunals for other matters.

Statement 2 is incorrect: Under Article 323 B, the Parliament and the state legislatures are authorised to provide for the establishment of tribunals for the adjudication of disputes relating to the following matters:

(a) Taxation

- (b) Foreign exchange, import and export
- (c) Industrial and labour
- (d) Land reforms
- (e) Ceiling on urban property
- (f) Elections to Parliament and state legislatures (g) Food stuffs
- (h) Rent and tenancy rights

Statement 3 is incorrect: Article 323 A empowers the Parliament to provide for the establishment of administrative tribunals for the adjudication of disputes relating to recruitment and conditions of service of persons appointed to certain specified public services. In other words, Article 323 A enables the Parliament to take out the adjudication of disputes relating to service matters from the civil courts and the high courts and place it before the administrative tribunals.

While Article 323 A contemplates establishment of tribunals for public service matters only, Article 323 B contemplates establishment of tribunals for certain other matters.

Q.29) Which among the following are quasi-judicial body?

1. National Green Tribunal
2. Central Information Commission
3. Election Commission
4. NITI Aayog
5. Reserve Bank of India

Select the correct answer using the code given below:

- a) 1, 2, 3 and 5 only
- b) 2, 3 and 4 only
- c) 1, 3 and 5 only
- d) 1, 2, 3, 4 and 5

Ans) a

Exp) Option a is the correct answer.

A quasi-judicial body is a body which has powers and procedures resembling those of a court of law or judge such as an arbitrator or tribunal board. It is obliged to objectively determine facts and draw conclusions from them so as to provide the basis of an official action.

Option 1 is correct: The **National Green Tribunal** is a **statutory quasi-judicial body** created as a result of **National Green Tribunal Act 2010**. It is **created** for effective and **expeditious disposal of cases** relating to **environmental protection and conservation of forests** and other natural resources. Thus, it is a **quasi-judicial body, adjudicating on environmental matters**. Hence this option is **correct**.

Option 2 is correct: The **Central Information Commission (CIC)** is a **statutory body** created under the **Right to Information Act, 2005**. The Commission has certain **powers and functions** mentioned in **sections 18, 19, 20 and 25** of the RTI Act, 2005. These broadly relate to **adjudication in second appeal for giving information; direction for record keeping, suo motu disclosures** receiving and **enquiring into a complaint** on inability to file RTI, etc. Hence the CIC is a **specialised body adjudicating** on matters related to **transparency in governance**. Thus, CIC is a Quasi-Judicial body. Hence this option is **correct**.

Option 3 is correct: The **Election Commission of India (ECI)** is a **constitutional body** created under **Article 324** of the Indian constitution. Apart from its **other responsibilities**, it also acts **like a court of law on matters like disqualifications of members of Parliament or state legislatures**, or for **punishing people/ political parties violating the model code of conduct** during the elections, etc. Hence it is a **specialised body adjudicating on certain matters** related to **elections**. Thus, ECI is a Quasi-Judicial body. Hence this option is **correct**.

Option 4 is incorrect: The **NITI Aayog** is a **think tank** that has **replaced the Planning Commission** in 2014. It is an **advisory body** that helps the **Central and state governments coordinate** on various issues and policies through **cooperative federalism**. This is done by **researching policies and publishing reports and advisories and model laws** for the governments to act on. This body **does not have the power to adjudicate** on any matter, **or award any sort of punishments**. Hence it is **not a quasi-judicial body** and this option is **incorrect**.

Option 5 is correct: **Reserve Bank of India** is a **statutory** as well as **regulatory body** created under the **Reserve Bank of India Act, 1935**. It is India's **central bank** whose main responsibility is to **regulate the banking sector**. It is also considered to be a **quasi-judicial body**, as it has the **power to punish any individual or bank found breaking the various regulations** created for the banking sector. Hence this option is **correct**.

Indian Polity by Laxmikanth, 5th edition, Ch-42, Pg-42.5

Q.30) Which one of the following statements correctly describe the purpose of 'O-SMART' scheme, recently seen in news?

- The scheme aims to mentor and provide guidance to selected 'outstanding' students of higher elementary schools in India.
- The scheme aims at stepping up ocean research and early warning weather systems.
- The scheme aims to develop an intelligent traffic management system in urban metropolitan cities in India.
- The scheme aims to step-up the manufacturing of electronic components for satellite production in India.

Ans) b

Exp) Option b is the correct answer.

The Cabinet Committee on Economic Affairs has approved the continuation of the umbrella scheme "Ocean Services, Modelling, Application, Resources and Technology (O-SMART)" for the period from 2021-26.

Option b is correct. O-SMART scheme: The O-SMART Scheme was launched by the **Ministry of Earth Sciences**. It aims at **stepping up ocean research** and setting up **early warning weather systems**. It addresses ocean development activities such as services, technology, resources, observations and science and provides necessary scientific and technological background required for implementation of various aspects of Blue Economy.

Objectives of the scheme:

- (a) To provide forecasts and services based on the continuous observation of oceans
- (b) To develop technologies and exploratory surveys for the sustainable harnessing of oceanic resources (both living and non-living) and
- (c) To promote front-ranking research in ocean sciences.

Source: Cabinet approves continuation of the umbrella scheme "Ocean Services, Modelling, Application, Resources and Technology (O-SMART)" -ForumIAS Blog

Q.31) With reference to India, consider the following statements:

1. Judicial custody means an accused is in the custody of the concerned magistrate and such accused is locked up in police station, not in jail.
2. During judicial custody, the police officer in charge of the case is not allowed to interrogate the suspect without the approval of the court.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) b

Exp) Option b is the correct answer.

The provisions for custody in India are governed by Section 167 of the Code of Criminal Procedure. A person may be held in the custody of the police or in judicial custody. The first thing that happens to a suspect on arrest is that he is taken into police custody, following which he is taken before a magistrate. From there, he may either be remanded to judicial custody or be sent back into police custody.

Statement 1 is incorrect. Police Custody means that police has the physical custody of the accused while **Judicial Custody means an accused is in the custody of the concerned Magistrate**. In Police custody, the accused is lodged in police station lockup while in **Judicial Custody, he is locked up in the jail**.

Statement 2 is correct. During Judicial Custody, the police officer in charge of the case is **not allowed to interrogate the suspect. However, the court may allow the interrogations to be conducted** if it opines the interrogation being necessary under the facts produced before the court.

However, during police custody, the police officer in charge of the case, may interrogate the suspect.

Q.32) Consider the following statements with respect to the 'Ad Hoc' Judges in the Indian Judiciary:

1. There is no Constitutional provision for the appointment of Ad Hoc judges in the Supreme Court.
2. During discharge of official duties, an Ad Hoc judge enjoys all the jurisdiction and powers as that of a regular judge of the court.
3. The President of India appoints the Ad Hoc judge.

Which of the statements given above is/are correct?

- a) 1 and 3 only
- b) 2 only
- c) 1 and 2 only
- d) 2 and 3 only

Ans) b

Exp) Option b is the correct answer.

An ad hoc judge is a judge appointed by a special procedure for a specific project, case, or period only—as opposed to, and in contrast to, a regular judge.

Statement 1 and 3 are incorrect: According to the Indian Constitution, the Chief Justice of India (CJI) can appoint a judge of a High Court as an ad hoc judge of the Supreme Court for a temporary period. An ad hoc judge can be appointed when there is a lack of quorum of the permanent judges to hold or continue any session of the Supreme Court. CJI can do so only after consultation with the chief justice of the High Court concerned and with the previous consent of the president. The judge so appointed should be qualified for appointment as a judge of the Supreme Court.

Statement 2 is correct: An ad hoc judge will also enjoy all the jurisdiction, powers and privileges of a judge of that concerned court.

Note: While attending the court proceedings in Supreme Court, ad hoc judge enjoys all the jurisdiction, powers and privileges (and discharges the duties) of a judge of the Supreme Court.

Source: **Indian polity by M. Laxmikant**

Q.33) Which of the following are included in the original jurisdiction of the Supreme Court of India?

1. The dispute between the Union Government and the state governments.
2. The dispute regarding the distribution of water of the inter-state rivers.
3. The dispute regarding the enforcement of fundamental rights of citizens.
4. The disputes relating to the election of members of Parliament.

Select the correct answer using the code given below.

- a) 1, 2 and 3 only
- b) 3 and 4 only
- c) 1 and 3 only
- d) 1, 3 and 4 only

Ans) c

Exp) Option c is the correct answer.

The Supreme Court has original, appellate and advisory jurisdiction.

Article 131 of the Indian Constitution deals with the original jurisdiction of the Supreme Court. Original jurisdiction of a court refers to a matter for which the particular court is approached first.

Statement 1 is correct. Article 131 provides that the Court will be competent to exercise original jurisdiction in **disputes where the Union Government and one or more states constitute one party and one or more states constitute the other party.**

Statement 2 is incorrect. The original jurisdiction of the Supreme Court **does not extend to inter-state water disputes.** The **Inter-State Water Disputes Act of 1956** has excluded the original jurisdiction of the Supreme Court in disputes between states with respect to the use, distribution or control of the water of inter-state rivers or river valleys.

Statement 3 is correct. The Supreme Court of India **has original jurisdiction** in the dispute regarding the enforcement of Fundamental Rights though it is **not exclusive** as the **High Courts of India** are also

empowered to issue writs for the enforcement of the Fundamental Rights. That means, a person whose fundamental rights are violated has the option of moving either to the High Court or Supreme Court directly.

Statement 4 is incorrect. The disputes relating to the election of members of Parliament and state legislatures lies under the **original jurisdiction of High courts** whereas the disputes regarding the presidential and Vice-presidential elections lie under the jurisdiction of Supreme Court.

Q.34) With respect to the Indian Judiciary, consider the following statements:

1. Special Leave Petitions can be filed in Supreme Court only.
2. The Constitution of India itself provides for the Appeal by Special Leave.
3. Special Leave Petitions can be filed for both civil and criminal matters.

Which of the statements given above is/are correct?

- a) 1 only
- b) 1 and 2 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

The Supreme Court is authorised to grant in its discretion special leave to appeal from any judgement in any matter passed by any court or tribunal in the country (except military tribunal and court martial).

Statement 1 is correct: Article 136 in the Constitution of India provides for Special leave to appeal by the Supreme Court. Thus, it can be filed in SC only. Thus, the scope of this provision is very wide and it vests the Supreme Court with a plenary jurisdiction to hear appeals. On the exercise of this power, the Supreme Court itself held that 'being an exceptional and overriding power, it has to be exercised sparingly and with caution and only in special extraordinary situations

Statement 2 is correct: Article 136 in the Constitution of India provides for Appeal by Special Leave to the Supreme Court.

Statement 3 is correct: This SLP provision contains the following four aspects under which it can be filed:

- 1) It is a discretionary power and hence, cannot be claimed as a matter of right.
- 2) It can be granted in any judgement whether final or interlocutory.
- 3) **It may be related to any matter—constitutional, civil, criminal, income-tax, labour, revenue, advocates, etc.**
- 4) It can be granted against any court or tribunal and not necessarily against a high court (of course, except a military court).

Source: **Indian polity by M. Laxmikant**

Q.35) With reference to 'Facial Recognition Technology', consider the following statements:

1. It is a method of biometric identification of an individual.
2. Each person has unique faceprint like thumbprints, which is utilized by the Facial Recognition Technology.
3. Recently, European Union has made it mandatory to install this technology at all the major international airports in its member states.

Which of the statements given above is/are correct?

- a) 1 only
- b) 1 and 2 only
- c) 2 and 3 only
- d) 3 only

Ans) b

Exp) Option b is the correct answer.

Facial recognition is the technology/software that maps, analyzes, and then confirms the identity of a face in a photograph or video.

Statement 1 is correct. Facial Recognition Technology is a method of biometric identification that uses that body measures, in this case face and head, to verify the identity of a person through its facial biometric pattern and data. The technology collects a set of **unique biometric data of each person** associated with their **face and facial expression** to identify, verify and/or authenticate a person.

Statement 2 is correct. In the same way that thumbprints are unique, each person has their own faceprint. The face capture process of the Face recognition technology transforms analog information (a face) into a set of digital information (data) based on the person's facial features. The face's analysis is essentially turned into a mathematical formula. The numerical code is called a **faceprint**.

Statement 3 is incorrect. European Union has not made any rules to install Face recognition technology in all the major international airports in its member states.

European Union is in the **process of banning** this technology. The **threat to individual privacy** is a significant downside of facial recognition technology. People don't like having their faces recorded and stored in a database for unknown future use. Privacy is such a big issue that some cities, including San Francisco, California and Cambridge, Massachusetts, have banned law enforcement's use of real-time facial recognition surveillance.

Source: Use of facial recognition technology by police is dangerous-ForumIAS Blog

Q.36) With reference to the Competition Commission of India (CCI), consider the following statements:

1. It is a non-statutory body.
2. It has the responsibility to impart training on competition issues.
3. It consists of maximum four members including chairperson.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 1, 2 and 3
- c) 2 only
- d) 1 only

Ans) c

Exp) Option c is the correct answer.

Statement 1 is incorrect. Competition Commission of India (CCI) is a **statutory body established under the Competition Act, 2002**. It is tasked with ensuring a fair and healthy competition in economic activities of the country.

Statement 2 is correct. CCI Undertake competition advocacy, create public awareness and impart training on competition issues.

Statement 3 is incorrect. CCI is a quasi-judicial body which has **one chairperson and six other members** appointed by the Central Government.

Knowledge Base: **Additional Information**

Competition Commission of India

1) It is to act as an antitrust watchdog and ensure that there is no abuse of dominant position by a company in the market.

2) **Functions of CCI**

- a. Eliminate practices that have an adverse impact on competition.
- b. Secure the interest of consumers and ensure that their welfare is not compromised.
- c. Undertake competition advocacy, create public awareness and impart training on competition issues.
- d. Ensure smooth alignment of sectoral regulatory laws and competition laws.
- e. Ensures that foreign companies abide by the country's competition laws.
- f. It guarantees that no enterprise abuses their 'dominant position' through the control of supply, manipulating purchase prices, or adopting practices that deny market access to other competing firms.
- g. Please note: the appeals from CCI goes to National Company Law Appellate Tribunal (NCLAT) constituted under the Companies Act, 2013.

Source: <https://www.google.com/amp/s/cleartax.in/g/terms/cci-competition-commission-of-india/amp>

Q.37) Which of the following is/are the tools by which the Supreme Court of India can exercise Judicial Activism?

1. Public Interest Litigation
2. Article 142 of the Indian constitution
3. Power of Judicial Review

Select the correct answer using the codes given below:

- a) 1 and 3 only
- b) 1 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

Judicial activism denotes the proactive role played by the judiciary in the protection of the rights of citizens and in the promotion of justice in the society.

Option 1 is correct: The chief instrument through which Judicial Activism has flourished in India is Public Interest Litigation (PIL). In normal course of law, an individual can approach the courts only if he/she has been personally aggrieved. A person whose rights have been violated, or who is involved in a dispute could move the court of law. The concept of Public Interest Litigation (PIL) originated and developed in the USA in the 1960s. In the USA, it was designed to provide legal representation to previously unrepresented groups and interests.

Option 2 is correct: Article 142 of the Indian Constitution, which gives the Supreme Court the authority to issue an order to ensure full justice in the case at hand, is a significant provision in relation to judicial activism.

The Supreme Court's decision in *M Siddiq (D) Thr Lrs v. Mahant Suresh Das and Ors* (2019) overturned the Allahabad High Court's (2010) ruling in accordance with Article 142 of the Indian constitution, which is an illustration of Judicial Activism.

Option 3 is correct. The concept of **judicial activism is inherent in judicial review.** **Judicial Review** empowers the court to uphold the constitution and declare the laws and action inconsistent with the

constitution as void. Judicial activism is necessary for ensuring proper discharge of duties by other organs. Judicial activism, as regards constitutional cases, falls under the rubric of what is commonly called judicial review.

Q.38) Which of the following action will most likely fall in the category of ‘Contempt of Court’?

- Comment on the administrative side of the judiciary.
- Willful breach of an undertaking given to a Court.
- Criticism of the judicial acts in any manner.
- Reporting judicial proceedings without the permission of the Court.

Ans) b

Exp) Option b is the correct answer.

The term ‘Contempt of Court’ has not been defined by the Constitution. However, it has been defined by the Contempt of Court Act of 1971. Both the Supreme Court and the High Courts have the power to punish for contempt of court, either with simple imprisonment or with fine or both.

Civil Contempt Vs Criminal Contempt

The Contempt of Court can be ‘civil’ or ‘criminal’. Civil Contempt is the willful disobedience of any judgement, order, writ or other process of a court or **willful breach of an undertaking given to a court.**

(Hence, Option b is correct)

Criminal Contempt is the publication of any matter or doing an act which:

- Scandalises or lowers the authority of a court (The expression “scandalising the court” has not been defined); or
- Prejudices or interferes with the due course of a judicial proceeding; or
- Interferes or obstructs the administration of justice in any other manner.

However, the following are ‘not’ considered ‘Contempt of Court’:

- Innocent publication and distribution of some matter;
- Fair and accurate report of judicial proceedings; **(Hence, Option d is not correct)**
- Fair and reasonable criticism of judicial acts; and
- Comment on the administrative side of the judiciary. **(Hence, Option a is not correct)**

In Shiv Shankar Case (1988), the Supreme Court held that **a criticism of the court that does not impair and hamper the administration of justice cannot be punished as contempt. (Hence, Option c is not correct)**

Source: **Page 629, Chapter 26, Indian polity by M. Laxmikant**

<https://frontline.thehindu.com/other/article30243868.ece>

Q.39) Consider the following statements:

- Only the Bar Council of India has the authority to designate an Advocate as ‘Senior Advocate’.
 - Only the ‘Advocates-on-Record’ are entitled to file a matter or document before the Supreme Court.
 - Only the ‘Senior Advocates’ and the ‘Advocates-on-Record’ can argue a matter in the Supreme Court.
- Which of the statements given above is/are correct?

- 1 only
- 1 and 2 only
- 2 only
- 2 and 3 only

Ans) c

Exp) Option c is the correct answer.

Three categories of Advocates are entitled to practice law before the Supreme Court. They are: Senior Advocates, Advocates-on-Record and Other Advocates.

Statement 1 is incorrect: Senior Advocates are Advocates who are designated as such by the Supreme Court of India or by any High Court. The Court can designate any Advocate, with his consent, as Senior Advocate if in its opinion by virtue of his ability, standing at the Bar or special knowledge or experience in law the said Advocate is deserving of such distinction. A Senior Advocate is not entitled to appear without an Advocate-on-Record in the Supreme Court or without a junior in any other court or tribunal in India.

Statement 2 is correct: Only Advocates-on-Record are entitled to file any matter or document before the Supreme Court. They can also file an appearance or act for a party in the Supreme Court.

Statement 3 is incorrect: Other Advocates are advocates whose names are entered on the roll of any State Bar Council maintained under the Advocates Act, 1961 and they can appear and argue any matter on behalf of a party in the Supreme Court but they are not entitled to file any document or matter before the Court.

Source: Page 629, Chapter 26, Indian polity by M. Laxmikant

Q.40) India is the world's largest recipient of remittances in 2021. In this context, which of the following is/are correct reason for the increase in remittances in India during this period?

1. Higher global fuel prices
2. Economic recovery in the United States of America
3. Accelerated development of Fintech and digital transfer apps

Select the correct answer using the codes given below:

- a) 1 and 2 only
- b) 2 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

This question is based on the article "India, world's largest recipient of remittances, received \$87 billion in 2021: World Bank" published by Indian Express on 18th Nov 2021.

The World Bank has released its Migration and Development Brief Report. **India is the world's largest recipient of remittances.** It received \$87 billion in 2021. India had received over \$83 billion in remittances in 2020. It is generally observed that **exchange rate, oil price, and domestic GDP** have a substantial impact on India's inward remittances. The United States was the biggest source of remittance for India, accounting for over 20% of these funds.

Reasons for the increase in Remittances:

- 1) As the global economy trends on nascent recovery from the coronavirus pandemic, Oil prices have risen. The Indian migrants (mostly in gulf countries) are more vulnerable to the oil price shocks. **Stronger oil prices and the resulting pickup in economic activity in Gulf** led to higher remittances in India. **Hence option 1 is correct.**
- 2) **Savings repatriation:** A portion of the recorded rise in remittances could represent repatriated savings of emigrants returning home after losing their jobs or not finding new opportunities. Remittance flows from migrants have greatly complemented government cash transfer programs to support families suffering economic hardships during the COVID-19 crisis.

- 3) Migrants' determination to support their families in times of need, aided by economic **recovery in Europe and the United States** which in turn was supported by the Fiscal Stimulus and employment support programs. **Hence option 2 is correct.**
- 4) The shift to more formal channels was facilitated by the **accelerated development of Fintech and digital transfer apps** such as G-pay and Alipay, which have made the digital transfer of funds more accessible and cheaper per transaction, leading to an overall increase in remittances. **Hence option 3 is correct.**

Q.41) The power to increase the number of judges in the Supreme Court of India is vested in

- a) the President of India
- b) the Parliament
- c) the Chief Justice of India
- d) the Law Commission

Ans) b

Exp) Option b is the correct answer.

The power to **increase the number of judges** in the Supreme Court of India is **vested in the Parliament**. At present, the Supreme Court consists of thirty-four judges (one chief justice and thirty-three other judges). In 2019, the centre notified an increase in the number of Supreme Court judges from thirty-one to thirty-four, including the Chief Justice of India. This followed the enactment of the Supreme Court (Number of Judges) Amendment Act, 2019. Originally, the strength of the Supreme Court was fixed at eight (one chief justice and seven other judges).

Source) UPSC CSE 2014

Q.42) Consider the following statements:

1. The Constitution declares only the Supreme Court as a 'Court of Record' and no such status is accorded to High Courts.
2. Supreme Court Records are of evidentiary value and cannot be questioned when produced before any court.

Which of the statements given above is/ are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) b

Exp) Option b is the correct answer.

A **court of record is a trial court or appellate court in which a record of the proceedings is captured and preserved**, for the possibility of appeal. **Article 129 declares Supreme Court to be a court of record.**

Statement 1 is incorrect: The constitution declares both the High courts and Supreme Court as court of record.

The constitution under Article 215 gives High Courts to act as courts of record. Every High Court shall be a court of record and shall have all the powers of such a court including the power to punish for contempt of itself. Article 129 declares the Supreme Court a court of record.

Statement 2 is correct: As a Court of Record, the **judgments, proceedings, and acts of the Supreme Court are recorded for perpetual memory** and testimony. Such **records are admitted to be of evidentiary value and cannot be questioned** when produced before any court. They are recognized as legal precedents and legal references.

Q.43) According to Part 5 of the Constitution, which of the following constitute a part of the Union Executive?

1. The President
2. Comptroller and Auditor General of India.
3. The Supreme Court
4. The Attorney General
5. The Prime Minister

Select the correct answer using the codes given below:

- a) 1 and 5 only
- b) 2, 4 and 5 only
- c) 1, 4 and 5 only
- d) 1, 2, 3, 4 and 5

Ans) c

Exp) Option c is the correct answer.

Part V of the Indian constitution deals with the executive, parliament, legislative powers of president, the union judiciary and Comptroller and Auditor General of India.

Articles 52 to 78 in Part V of the Constitution deal with the Union executive. The Union executive consists of **the President, the Vice- President, the Prime Minister, the council of ministers and the attorney general of India.**

Indian polity by M Laxmikanth pdf. Chapter name- President, chief minister, council of minister.

Indian constitution at work NCERT Class 11th. Chapter name- Judiciary.

Q.44) Consider the following statements with reference to the High Courts in India:

1. The pensions of judges of High Courts are charged on the Consolidated Fund of the state.
2. A decision regarding the transfer of a High Court judge cannot be challenged in any court.
3. The jurisdiction and powers of a High Court cannot be changed by the state legislature in any manner.

Which of the statements given above is/are **incorrect**?

- a) 3 only
- b) 2 and 3 only
- c) 1 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

Statement 1 is incorrect: The salaries, allowances and pensions of the Supreme Court judges and the staff as well as all the administrative expenses of the **Supreme Court are charged on the Consolidated Fund of India.** Thus, they are non-votable by the Parliament (though they can be discussed by it). The salaries and allowances of the High Court judges, the **salaries, allowances** and pensions of the staff as well as the administrative expenses **of a high court are charged on the consolidated fund of the state.** Thus, they are

non-votable by the state legislature (though they can be discussed by it). However, the **pension of a high court judge is charged on the Consolidated Fund of India and not the state.**

Statement 2 is incorrect: In 1977, the Supreme Court ruled that the transfer of high court judges could be resorted to only as an exceptional measure and only in the public interest and not by way of punishment. Again in 1994, the **Supreme Court held that judicial review is necessary to check arbitrariness in transfer of judges. But only the judge who is transferred can challenge it.**

Statement 3 is incorrect: The jurisdiction and powers of a high court in so far as they are specified in the Constitution cannot be curtailed both by the Parliament and the state legislature. But, in other respects, the **jurisdiction and powers of a high court can be changed both by the parliament and the state legislature.**

Source: Indian Polity by Laxmikanth, 6th Edition: Chapter-34

Q.45) With reference to 'Ecological Sustainability', why preserving landraces (wild crops) is important?

1. Adaptation to environmental stress
2. Boosting Farmers income
3. Promoting Animal Diversity
4. Nutritional Security

Select the correct answer using the codes given below:

- a) 1 and 3 only
- b) 1, 2 and 4 only
- c) 2, 3 and 4 only
- d) 1 and 4 only

Ans) b

Exp) Option b is the correct answer.

Landrace refers to the domesticated and locally adapted variety of a species of animal or plant. It develops over time, through adaptation to its natural and cultural environment.

Thus, it also refers to **naturally occurring variants** of commonly cultivated crops. These are different from commercially grown crops, which are developed by selective breeding (hybrids) or through genetic engineering to express a certain trait over others.

Why preserving landraces is important?

- 1) **Adaptation to environmental stress:** Genetic diversity ensures a natural mechanism for crops to develop traits to face challenging situations. However, given the large-scale human interference in crop selection and breeding, that ability is now lost in most commercially crops. **Hence option 1 is correct.**
- 2) On the other hand, naturally occurring landraces still have a large pool of still untapped genetic material, which can provide solutions to climate change induced biotic and abiotic stress factors.
- 3) **Boosting farmers income:** With proper agricultural practices, landraces can give better yield with lower input costs. **Hence option 2 is correct.**
- 4) **Nutritional security:** Landraces are richer in nutrients than commercially grown variants. **Hence option 4 is correct.**

Promoting Animal diversity is not related to preservation of Wild crops and the not the reason for preservation of Landraces (wild crops). Hence option 3 is not correct.

Source: In age of hybrid crops, the importance of preserving landraces-ForumIAS Blog

Q.46) Consider the following statements with reference to the High Court's power of Judicial review:

1. The Constitution explicitly confer the power of judicial review on High Courts.
2. High Courts are barred from considering the constitutional validity of any central law.

Which of the statements given above is/ are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) a

Exp) Option a is the correct answer.

Judicial review is the power of a high court to examine the constitutionality of legislative enactments and executive orders.

Statement 1 is correct: Though the phrase 'judicial review' has nowhere been used in the Constitution, **the provisions of Articles 13 and 226 explicitly confer the power of judicial review on a high court.** The constitutional validity of a legislative enactment or an executive order can be challenged in a high court on various grounds such as infringement of fundamental rights.

Statement 2 is incorrect: High Courts can look into the constitutional validity of laws made by both the Central government and the state governments. On examination, if they are found to be violative of the Constitution (ultra-vires), they can be declared as illegal, unconstitutional and invalid (null and void) by the high court. Consequently, they cannot be enforced by the government.

Source: Indian Polity by Laxmikanth, 6th Edition: Chapter-34

Q.47) Consider the following statements with respect to the Pre-Constitution agreements and treaty:

1. It means such an agreement which was executed before the commencement of the Constitution and which continues to be in operation after commencement.
2. The original jurisdiction of the Supreme Court does not extend to any dispute arising out of any pre-constitution treaty and agreement.
3. The President cannot seek the opinion of the Supreme Court on any pre-constitution legal matters.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 only
- d) 1, 2 and 3

Ans) a

Exp) Option a is the correct answer.

Pre-constitutional laws are the ones which were enacted and enforced before the Indian Constitution came into existence.

Statement 1 is correct: Pre-Constitution agreement means that, which have been **entered into or executed before the commencement of the Constitution** and which **continues to be in operation** after such commencement.

Statement 2 is correct: As a federal court, the Supreme Court has exclusive original jurisdiction with regards to any dispute:

- 1) Between the Centre and one or more states; or
- 2) Between the Centre and any state or states on one side and one or more other states on the other side; or
- 3) Between two or more states.

However, this jurisdiction of the Supreme Court **does not extend a dispute arising out of any pre-Constitution treaty, agreement, covenant, engagement, sanad or other similar instrument.**

Statement 3 is incorrect: Article 143 authorises the President to seek the opinion of the Supreme Court in the two categories of matters:

- 1) On any question of law or fact of public importance which has arisen or which is likely to arise.
- 2) **On any dispute arising out of any pre-constitution treaty, agreement, covenant, engagement, sanad or other similar instruments.**

Source: Indian Polity, M. Laxmikanth, 6th Edition, Chapter-26, Supreme Court

Q.48) Consider the following statements with reference to the Central Administrative Tribunal (CAT):

1. Appeals against the orders of the CAT could be made only in the Supreme Court.
2. Its jurisdiction does not extend to the secretarial staff of the Parliament.
3. It is a multi-member body consisting of a Chairman and a Vice-chairman.

Which of the statements given above is/are correct?

- a) 3 only
- b) 2 only
- c) 1 and 2 only
- d) 2 and 3 only

Ans) b

Exp) Option b is the correct answer

The Central Administrative Tribunal (CAT) was established in 1985 through the Administrative Tribunals Act. The CAT is responsible for adjudication or trial of matters connected with recruitment and conditions of service of personnel in public service in India.

Statement 1 is incorrect: Originally, appeals against the orders of the CAT could be made only in the Supreme Court and not in the high courts. However, in the Chandra Kumar case (1997), the Supreme Court declared this restriction on the jurisdiction of the high courts as unconstitutional, holding that judicial review is a part of the basic structure of the Constitution. **It laid down that appeals against the orders of the CAT shall lie before the division bench of the concerned high court.** Consequently, now it is not possible for an aggrieved public servant to approach the Supreme Court directly against an order of the CAT, without first going to the concerned high court.

Statement 2 is correct: The CAT exercises original jurisdiction in relation to recruitment and all service matters of public servants covered by it. Its jurisdiction extends to the all-India services, the Central civil services, civil posts under the Centre and civilian employees of defence services. However, **the members of the defence forces, officers and servants of the Supreme Court and the secretarial staff of the Parliament are not covered by it.**

Statement 3 is incorrect: The CAT is a multi-member body consisting of a chairman and members. Originally, the CAT consisted of a Chairman, Vice-Chairman and members. Later, in 2006, the provision for the Vice-Chairman was removed by the Administrative Tribunals (Amendment) Act, 2006. **Hence, there are now no Vice-Chairman in the CAT.**

Source: Indian Polity by Laxmikanth, 6th Edition: Chapter-35

Q.49) With reference to the First Information Report (FIR), consider the following statements:

1. The term 'First Information Report' is defined in the Code of Criminal Procedure, 1973.
2. A police station can register a 'Zero FIR' even if the offence was committed outside its jurisdiction.
3. Only a person, who is either the victim of offence or an eyewitness to the offence, can file the FIR.

Which of the statements given above is/are correct?

- a) 1 only
- b) 1 and 2 only
- c) 2 only
- d) 2 and 3 only

Ans) c

Exp) Option c is the correct answer.

First Information Report (FIR): It is with the registration of an FIR that the police can begin their investigations into a crime. The FIR usually mentions the date, time and place of the offence, details the basic facts of the offence, including a description of the events. There is a prescribed form in which the police register an FIR and it is signed by the complainant. The complainant also has a legal right to get a free copy of the FIR from the police.

Statements 1 is incorrect: The term First Information Report (FIR) is **not defined in the Indian Penal Code (IPC), Code of Criminal Procedure (CrPC), 1973, or in any other law.** FIR is the information given to a police officer as per the provisions of Section 154 of the Code of Criminal Procedure (CrPC).

There are three important elements of an FIR:

- 1) the information must relate to the commission of a cognizable offence
- 2) it should be given in writing or orally to the head of the police station and,
- 3) it must be written down and signed by the informant, and its key points should be recorded in a daily diary.

Statement 2 is correct. A zero FIR can be filed in any police station, regardless of whether the offence was committed under the jurisdiction of that particular police station.

When a police station receives a complaint regarding an alleged offence that has been committed in the jurisdiction of another police station, it registers an FIR, and then transfers it to the concerned police station for further investigation. This is called a Zero FIR.

No regular FIR number is given. After receiving the Zero FIR, the concerned police station registers a fresh FIR and starts the investigation.

Statement 3 is incorrect. All an informant has to do to file an FIR is to visit the local police station and furnish information, orally or in writing, about the commission of an offence. Further, **anyone can file an FIR – the person approaching the police does not necessarily have to be the victim of or an eyewitness to an offence.**

Knowledge Base:

What is the difference between a complaint and an FIR?

The CrPC defines a “complaint” as “any allegation made orally or in writing to a Magistrate, with a view to his taking action under this Code, that some person, whether known or unknown, has committed an offence, but does not include a police report.”

However, an FIR is the document that has been prepared by the police after verifying the facts of the complaint. The FIR may contain details of the crime and the alleged criminal.

<https://ncert.nic.in/textbook.php?hess3=6-10>

Q.50) With reference to the ‘Early Harvest Agreements’, consider the following statements:

1. They are signed between two countries to liberalize tariffs on certain goods before the finalization of a Free Trade Agreement.
2. Until now, India has not signed any Early Harvest Agreements with any country due to its past experiences with trade deals.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) a

Exp) Option a is the correct answer.

Statement 1 is correct. An Early Harvest Scheme (EHS) is **an agreement between two states (or regional trading blocs) which liberalizes tariffs on certain goods preceding the conclusion of a Free Trade Agreement (FTA)**. Signing Early Harvest Agreements is often cited as good strategy since it signals commitment from both nations and starts trade in a small way.

Statement 2 is incorrect. India is about to sign early-harvest agreements and negotiating free trade agreements (FTAs) with the UK, the European Union, and the United Arab Emirates. **India has signed early-harvest deal with Thailand and Singapore. India-Australia Economic Cooperation and Trade Agreement is also an early harvest deal signed by the two countries.**

Some experts believe the targets are too big right now and we are understaffed at present.

India should be mindful of the past experience of FTAs, especially concerning EHAs, since they have resulted in adverse developments for India. Besides, it also expanded trade deficit.

FTA with Thailand also had an EHA component. It resulted in an inverted duty structure and India suffered quite a bit.

Source: India must tread with caution on early-harvest deals, say experts -ForumIAS Blog

<https://www.dezshira.com/library/qa/what-is-an-early-harvest-scheme-ehs-and-what-role-have-they-played-in-india-s-development-of-free-trade-agreements-ftas-or-regional-trade-agreements-rtas-with-its-neighbors-3081.html>

Q.1) We adopted parliamentary democracy based on the British model, but how does our model differ from that model?

1. As regards legislation, the British Parliament is supreme or sovereign but in India, the power of the Parliament to legislate is limited.

2. In India, matters related to the constitutionality of the Amendment of an Act of the Parliament are referred to the Constitution Bench by the Supreme Court.

Select the correct answer using the code given below.

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) c

Exp) Option c is the correct answer.

Statement 1 is correct. Parliamentary **sovereignty is a principle of the UK** constitution. It makes Parliament the supreme legal authority in the UK, which can create or end any law. Generally, the courts cannot overrule its legislation and no Parliament can pass laws that future Parliaments cannot change.

Indian Parliament is not a sovereign body like the British Parliament. The Indian Parliament may, in exercise of its constituent power, amend by way of addition, variation or repeal any provision of the Constitution in accordance with the procedure laid down for the purpose. However, the Parliament cannot amend those provisions which form the 'basic structure' of the Constitution. This was ruled by the Supreme Court in the Kesavananda Bharati case (1973).

Statement 2 is correct. In India, matters related to the **constitutionality of an amendment of an act** of the Parliament are referred to the **Constitution Bench by the Supreme Court**. A Constitution Bench is a bench of the Supreme Court having five or more judges on it. These benches are not a routine phenomenon. A vast majority of cases before the Supreme Court are heard and decided by a bench of two judges (called a Division Bench), and sometimes of three. Constitution Benches are set up when the case involves a substantial question of law pertaining to the interpretation of the Constitution (Article 145(3) of the Constitution, which mandates that such matters be heard by a bench of not less than five judges).

Presently, Constitution Benches are set up on an ad hoc basis as and when the need arises. The idea behind a Constitution Bench is clear: it is constituted in rare cases to decide important questions of fact or legal and/or constitutional interpretation.

UPSC CSE 2021

Q.2) With reference to 'Zero Hour', consider the following statements:

1. In India, the proceedings of every parliamentary sitting generally start with Zero Hour.

2. It allows the Members of the Parliament to raise important matters without any prior notice.

3. It is nowhere mentioned in the Rules of Procedure of the Parliament.

Which of the statements given above is/are correct?

- a) 3 only
- b) 2 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

Statement 1 is incorrect: The first hour of every parliamentary sitting is slotted for **Question hour**. During this time, the members ask questions and the ministers usually give answers. **Zero hour** is the time gap **between the question hour and the agenda**. The zero hour starts immediately after the question hour and lasts until the agenda for the day is taken up.

Statement 2 is correct: Zero Hour is an informal device available to the members of the Parliament to **raise matters without any prior notice**.

Statement 3 is correct: Unlike the question hour, the zero hour is **not mentioned in the Rules of Procedure**. It is an Indian innovation in the field of parliamentary procedures and has been in existence since 1962.

Questions: Lok Sabha

M LAXMIKANT

Q.3) Consider the following pairs regarding Closure Motion:

Types of Closure Motion	Description
1. Simple Closure	a member moves it when the 'matter having been sufficiently discussed be now put to vote'
2. Closure by Compartments	clauses of a bill or a lengthy resolution are grouped into parts before the debate and the entire part is put to vote
3. Guillotine Closure	only important clauses are taken up for debate and voting and the intervening clauses are taken as passed.
4. Kangaroo Closure	undiscussed clauses of a bill or a resolution are also put to vote along with the discussed ones

How many pairs given above are correctly matched?

- Only one pair
- Only two pairs
- Only three pairs
- All four pairs

Ans) b

Exp) Option b is the correct answer.

Closure motion is moved by a member to **cut short the debate on a matter** before the House. If the motion is approved by the House, debate is stopped forthwith and the matter is put to vote.

Pair 1 is correctly matched: **Simple Closure** is closing debate when a member moves it when the 'matter having been **sufficiently discussed** be now put to vote'.

Pair 2 is correctly matched: Closure by Compartment happens when the clauses of a bill or a **lengthy resolution** are **grouped into parts** before the commencement of the debate. The debate covers the part as a whole and the entire part is put to vote.

Pair 3 is incorrectly matched: Guillotine Closure is one when the undiscussed clauses of a bill or a resolution are also put to vote along with the discussed ones **due to want of time** (as the time **allotted for the discussion is over**).

Pair 4 is incorrectly matched: Kangaroo Closure happens only when **important clauses are taken up for debate and voting** and the intervening clauses are skipped over and taken as passed.

Source: M laxmikant (Chap- 22: Parliament)

Q.4) Which of the following provisions are enshrined in the Indian Constitution to ensure independence and impartiality of the office of Lok Sabha Speaker?

1. S/he can be removed by a resolution passed by the Lok Sabha by an effective majority.
2. S/he has not been given any voting power in the Lok Sabha, except on his removal motion.
3. After being appointed as Speaker, he/she resigns from his/her party to remain politically neutral.
4. The salaries and allowances of the Speaker are charged on the Consolidated Fund of India.

Select the correct answer from the code given below:

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 4 only
- d) 3 and 4 only

Ans) c

Exp) Option c is the correct answer.

As the office of the Speaker is vested with great prestige, position and authority, independence and impartiality become its sine qua non. A number of safeguards are taken to ensure the independence and impartiality of the office of the Speaker.

Statement 1 is correct: The Speaker is provided with a security of tenure. He can be removed only by a **resolution passed by the Lok Sabha by an effective majority** (i.e., a majority of all the then members of the House) and not by an ordinary majority (i.e., a majority of the members present and voting in the House). This motion of removal can be considered and discussed only when it has the support of at least 50 members.

Statement 2 is incorrect: The Speaker cannot vote on a bill in the Lok Sabha in the first instance. **He can exercise a casting vote in the event of a tie.** This makes the position of Speaker impartial.

Statement 3 is incorrect: In **Britain**, the Speaker is strictly a nonparty man. There is a convention that the **Speaker has to resign from his party and remain politically neutral.** This healthy convention is **not fully established in India** where the Speaker does not resign from the membership of his party on his election to the exalted office.

Statement 4 is correct: The salaries and allowances of the Speaker are fixed by Parliament, and they are charged on the Consolidated Fund of India (i.e., not subjected to the Parliamentary approval).

Knowledge Base:

Other provisions to ensure the independence and impartiality of the office of the Speaker:

- 1) His salaries and allowances are fixed by Parliament. They are charged on the Consolidated Fund of India and thus are not subject to the annual vote of Parliament.
- 2) His work and conduct cannot be discussed and criticised in the Lok Sabha except on a substantive motion.

3) His powers of regulating procedure or conducting business or maintaining order in the House are not subject to the jurisdiction of any Court.

Source: Indian Polity by Laxmikant – 6th Edition – Chapter 22 Parliament.

Q.5) Consider the following statements regarding ‘Lesser Florican’:

1. They are endemic to Eastern African continent and fly to India only during winters.
2. The breeding and wintering sites of the bird requires sufficient grass cover.
3. It is one of the priority species for recovery under Integrated Development of Wildlife Habitat scheme.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 3 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

A recent study has for the first time **tracked the longest in-country migration route of lesser Floricans** from Rajasthan to Maharashtra’s Ahmednagar district.

Statement 1 is incorrect. The **lesser florican** (*Sypheotides indicus*), also known as **the likh or kharmore** is **endemic to the Indian Subcontinent only. They are not found in African continent.** The bird breeds mainly in the central and western parts of India. It is found in India throughout the year and not just in winters.

Lesser florican is the **smallest of India’s three resident bustards** (the other two are Bengal florican and great Indian bustard). It occurs in **dry (tall) grasslands** with scattered bushes, scrub, and in agricultural fields of millet, cotton, and some cereal crops.

Statement 2 is correct. The lesser florican has separate breeding and wintering sites with rainfall and land-use intrinsically linked to the sprightly florican’s breeding habits. **Sufficient grass cover is particularly important during the breeding season.** Large trees with big canopy **are not desirable in the florican habitat.**

Statement 3 is correct. The lesser florican was included as one of the **priority species for recovery** by the Ministry of Environment, Forest and Climate Change (MoEFCC) in **2009**, under the **scheme of Integrated Development of Wildlife Habitat.**

Knowledge Base:

Integrated Development of Wildlife Habitats’ (IDWH): It is an on-going Centrally Sponsored Scheme in which financial assistance is provided to State/UT Governments for protection and conservation of wildlife and its habitats in Protected Areas (PAs) as well as outside PAs and also for the recovery programmes of the critically endangered species.

Components of the scheme:

- 1) Support to Protected Areas (National Parks, Wildlife Sanctuaries, Conservation Reserves and Community Reserves)
- 2) Protection of Wildlife Outside Protected Areas
- 3) Recovery programmes for saving critically endangered species and habitats

Source: Longest in-country migration route of lesser florican from Rajasthan tracked-ForumIAS Blog

Lesser florican on verge of extinction in Madhya Pradesh (mongabay.com)

Integrated Development of Wildlife Habitats – Vikaspedia

Q.6) Consider the following statements with reference to the Public Accounts Committee:

1. The committee has the equal number of members from both Lok Sabha and Rajya Sabha.
2. The committee examines the annual audit reports of the Comptroller and Auditor General of India.
3. Its recommendations are binding on the ministers.
4. Public account committee is concerned with the questions of policy in broader sense.

Which of the statements given above is/are correct?

- a) 2 only
- b) 1 and 3 only
- c) 2 and 3 only
- d) 2 and 4 only

Ans) a

Exp) Option a is the correct answer.

Statement 1 is incorrect: Public account committee was set up first in 1921 under the provisions of the Government of India Act of 1919 and has since been in existence. **At present public account committee consists of 22 members (15 from the Lok Sabha and 7 from the Rajya Sabha).** The members of public account committee are elected by the Parliament every year from amongst its members according to the principle of proportional representation by means of the single transferable vote. Thus, all parties get due representation in it.

Statement 2 is correct: The function of public account committee is to examine the annual audit reports of the Comptroller and Auditor General of India (CAG), which are laid before the Parliament by the President. Audit report on appropriation accounts, audit report on finance accounts and audit report on public undertakings are the three audit reports submitted by the Comptroller and Auditor General of India (CAG) to the president.

Statement 3 and 4 are incorrect: Public account committees' effectiveness is limited by the following:

- 1) **It is not concerned with the questions of policy in broader sense.**
- 2) It conducts a post-mortem examination of accounts (showing the expenditure already incurred).
- 3) It cannot intervene in the matters of day-to-day administration
- 4) **Its recommendations are advisory and not binding on the ministries.**
- 5) It is not vested with the power of disallowance of expenditures by the departments.

Source: Indian polity by M Laxmikanth pdf 6th edition. Chapter name-Parliamentary committees. Page no-580 and 581.

Q.7) Which of the following are among the participants to elect the members to the 'Legislative Council' of a State?

1. Members of local bodies in the State.
2. All graduates of three years standing and residing within the State.
3. Members of the Legislative Assembly of the State.
4. Members of Lok Sabha elected from the State.
5. Members of Rajya Sabha nominated from the State.

Select the correct answer using the code given below:

- a) 1, 2 and 3 only
- b) 2, 4 and 5 only
- c) 1, 2, 4 and 5 only
- d) 1, 3, 4 and 5 only

Ans) a

Exp) Option a is the correct answer.

There is no uniformity in the organization of State legislatures. Most of the States have a unicameral system, while others have a bicameral system. At present, only six States have two Houses (bicameral). These are Andhra Pradesh, Telangana, Uttar Pradesh, Bihar, Maharashtra and Karnataka.

In the States having bicameral system, the State legislature consists of the Governor, the Legislative Council and the Legislative Assembly. The Legislative Council (Vidhan Parishad) is the upper house (second chamber or house of elders), while the Legislative Assembly (Vidhan Sabha) is the lower house (first chamber or popular house).

Unlike the members of the Legislative Assembly, the members of the Legislative Council are indirectly elected. The maximum strength of the council is fixed at one-third of the total strength of the assembly and the minimum strength is fixed at 40.

Manner of Election

Of the total number of members of a legislative council:

- 1) $\frac{1}{3}$ are elected by the members of local bodies in the State like municipalities, district boards, etc., **(Hence Option 1 is correct)**
- 2) $\frac{1}{12}$ are elected by graduates of three years standing and residing within the State, **(Hence Option 2 is correct)**
- 3) $\frac{1}{12}$ are elected by teachers of three years standing in the State, not lower in standard than secondary school,
- 4) $\frac{1}{3}$ are elected by the members of the Legislative Assembly of the State from amongst persons who are not members of the assembly, and **(Hence Option 3 is correct)**
- 5) the remainder are nominated by the Governor from amongst persons who have a special knowledge or practical experience of literature, science, art, cooperative movement and social service.

Members of Lok Sabha elected from the State and Members of Rajya Sabha nominated from the State **do not participate in the elections of the State Legislative Council. (Hence Options 4 and 5 are incorrect)**

Thus, $\frac{5}{6}$ of the total number of members of a Legislative Council are indirectly elected and $\frac{1}{6}$ are nominated by the Governor. The members are elected in accordance with the system of proportional representation by means of a single transferable vote.

Q.8) Which of the following statements is/are correct regarding the differences/similarities between the Presidential form of Government and the Parliamentary form of Government?

1. The Executive is responsible to the legislature in only Parliamentary form of government and not in Presidential form of government.
2. Unlike in Parliamentary system, President cannot dissolve the lower house under Presidential system.
3. In both Parliamentary system and Presidential system, the governments can be removed through a vote of no-confidence.

Select the correct answer using the codes given below:

- a) 1 and 2 only
- b) 1 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) a

Exp) Option a is the correct answer.

A Presidential system is also called a **congressional system**. It refers to a system of governance in which **the President** is the Chief Executive and is **elected directly** by the people. Whereas, A Parliamentary form of democracy refers to a system of governance in which the citizens elect representatives to the legislative Parliament.

Statement 1 is correct: The **executive is accountable** to the **legislature only** in parliamentary form of government. There is concentration and fusion of powers between the Legislative and the Executive. Whereas, **in presidential form** of government, the **executive is not accountable** to the legislature. Powers are separated and the Legislature, the Executive and the Judiciary **work separately**.

Statement 2 is correct: In **parliamentary form** of government, the president can **dissolve the lower house** and there is dual executive as leader of the state and leader of the government are different. But **in presidential form** of government, the President **cannot dissolve** the lower house. There is a single executive, as the leader of the state and the leader of the government is the same.

Statement 3 is incorrect: President in Parliamentary form has a fixed tenure and cannot be removed by a vote of no-confidence. In a Parliamentary form of government, the **tenure of the legislature and the executive are not fixed**. If no confidence motion is passed in the house the government will be replaced with a new government. As the Prime Minister's tenure depends upon the majority support in the House, whenever a government fails to prove its majority, the Prime Minister is in no other position but to resign and the entire Council of Ministers have to step down from power along with him.

While in a Presidential form of government the tenures of both the Legislature and the Executive are fixed. Neither of them can be removed before the end of their tenure. Elections are held regularly and cannot be disturbed by passing of no-confidence motion or other procedures.

Difference Between Parliamentary and Presidential Form of Government - GeeksforGeeks

Q.9) With reference to powers of Lok Sabha and Rajya Sabha, consider the following statements:

- Both Lok Sabha and Rajya Sabha exercises control over executive by introducing No-confidence motion.
- Under Indian Constitution, Rajya Sabha has no powers with regards to discontinuance of resolution of national emergency.
- Lok Sabha can reject all or any of the recommendations of the Rajya Sabha regarding the Money Bill.

Which of the statements given above is/are correct?

- 1 only
- 1 and 3 only
- 2 only
- 2 and 3 only

Ans) d

Exp) Option d is the correct answer.

Under the Constitution, the Parliament of India consists of three parts viz, the President, the Council of States and the House of the People. In 1954, the Hindi names 'Rajya Sabha' and 'Lok Sabha' were adopted by the Council of States and the House of People respectively. The Rajya Sabha is the Upper House (Second Chamber or House of Elders) and the Lok Sabha is the Lower House (First Chamber or Popular House). The former represents the states and union territories of the Indian Union, while the latter represents the people of India as a whole.

Statement 1 is incorrect: Article 75 of the Constitution says that the council of ministers shall be collectively responsible to the Lok Sabha. It means that the ministry stays in office so long as it enjoys confidence of the majority of the members of the Lok Sabha. In other words, the **Lok Sabha, not Rajya Sabha can remove the ministry from office by passing a no-confidence motion**.

No confidence motion can be introduced **only in the lower house** i.e., Lok Sabha. Rajya Sabha is not permitted to introduce no confidence motion against the Council of Ministers.

Statement 2 is correct: Under Article 352, the President can declare a national emergency when the security of India or a part of it is threatened by war or external aggression or armed rebellion.

A resolution for discontinuance of the national emergency can be passed **only in the Lok Sabha**. Rajya Sabha has no powers with regard to discontinuance of National Emergency. The 44th Amendment Act of 1978 provided that, where one-tenth of the total number of members of the Lok Sabha give a written notice to the Speaker (or to the President if the House is not in session), a special sitting of the House should be held within 14 days for the purpose of considering a resolution disapproving the continuation of the proclamation.

Statement 3 is correct: As per the provisions of article 109 of the Constitution, the Rajya Sabha has limited powers with respect to Money Bills. **A Money Bill after having been passed by the Lok Sabha, and sent to Rajya Sabha for its recommendations, has to be returned to Lok Sabha by the Rajya Sabha, with in a period of fourteen days** from the date of its receipt, with or without recommendations. **It is open for the Lok Sabha, to either accept or reject all or any of the recommendations of the Rajya Sabha.**

Powers of the Lok Sabha

- ◆ Makes Laws on matters included in Union List and Concurrent List. Can introduce and enact money and non money bills.
- ◆ Approves proposals for taxation, budgets and annual financial statements.
- ◆ Controls the executive by asking questions, supplementary questions, resolutions and motions and through no confidence motion.
- ◆ Amends the Constitution.
- ◆ Approves the Proclamation of emergency.
- ◆ Elects the President and Vice President and removes Judges of Supreme Court and High Court.
- ◆ Establishes committees and commissions and considers their reports.

Powers of Rajya Sabha

- ◆ Considers and approves non money bills and suggests amendments to money bills.
- ◆ Approves constitutional amendments.
- ◆ Exercises control over executive by asking questions, introducing motions and resolutions.
- ◆ Participates in the election and removal of the President, Vice President, Judges of Supreme Court and High Court. It can alone initiate the procedure for removal of Vice President.
- ◆ Can give the Union parliament power to make laws on matters included in the State list.

Difference of powers between Lok Sabha and Rajya Sabha

M laxmikant (Chapter 22- Parliament)

Q.10) With reference to ‘Global Gateway Plan’, consider the following statements:

1. The plan aims to invest globally in infrastructure, digital and climate projects.
2. Global Gateway projects will be developed and delivered through Team Europe Initiatives under the European Commission.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) c

Exp) Option c is the correct answer.

The European Commission has announced an international infrastructure plan called the “Global Gateway Plan”.

Statement 1 is correct. **Global Gateway Plan** aims to invest €300 billion (\$340 billion) globally in **infrastructure, digital and climate projects by 2027**. This will help strengthen health, education and

research systems across the world. The investment will be made in projects that can be delivered with high standards, good governance, transparency while ensuring financial sustainability at the same time.

Statement 2 is correct. The Plan will be implemented in a **Team Europe** approach that brings together funding by the EU, its Member States and European financial institutions. The decision has been taken by the **European Commission's** new European strategy to boost smart, clean and secure links in digital, energy and transport, as per the press release.

EU launches €300 billion 'Global Gateway' plan to rival China in boosting global infra (republicworld.com)

Q.11) Consider the following statements:

1. In India, there is no law restricting the candidates from contesting in Lok Sabha election from three constituencies at a time.
2. In 1991 Lok Sabha Election, Shri Devi Lal contested from three Lok Sabha constituencies.
3. As per the existing rules, if a candidate contests in one Lok Sabha election from many constituencies, his/her party should bear the cost of bye-elections to the constituencies vacated by him/her in the event of his/her winning in all the constituencies.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) 1 and 3 only
- d) 2 and 3 only

Ans) b

Exp) Option b is the correct answer.

Statement 1 is incorrect. In 1996, the **Representation of the People Act, 1951**, was amended which restricted the number of seats one candidate could contest in one election to two constituencies. And whenever they have won in more than one, the candidates can retain only one, forcing by polls in the rest.

Statement 2 is correct. In 1991 Lok Sabha Election, **Shri Devi Lal contested from three Lok Sabha constituencies.** (Although such information need not be remembered by students, it can be validated by eliminating other statements).

Statement 3 is incorrect. There is **no such provision** that if a candidate contests in one Lok Sabha elections from many constituencies, then his/her party should bear the cost of bye-elections to the constituencies vacated by him/her in the event of him/her winning in all the constituencies. In every case, the Election Commission of India (ECI) bears the cost of elections/bye-elections in all the constituencies in Lok Sabha and assembly elections as well.

UPSC CSE 2021

Q.12) With reference to 'Money bills', consider the following statements:

1. They can be introduced either by a minister or by a private member.
2. They requires the certification of the speaker whenever transmitted to the Rajya Sabha.
3. Defeat of Money bills introduced in Lok Sabha leads to the resignation of the government.

Which of the statements given above is/are correct?

- a) 1 only
- b) 1 and 2 only
- c) 3 only
- d) 2 and 3 only

Ans) d

Exp) Option d is the correct answer.

Article 110 of the Constitution deals with the definition of **Money bills**. Money bills are concerned with financial matters like taxation, public expenditure. Whereas, the bills mentioned in **Articles 117 (1) and Article 117 (3) are financial bills**.

Statement 1 is incorrect: Ordinary bills can be introduced either by a minister or by a private member. Whereas, **Money bill** can be introduced **only by a minister**. It cannot be introduced by any private member.

Statement 2 is correct: **Money bills** always requires the certification of the speaker whenever transmitted to the Rajya Sabha. Whereas, **ordinary bills do not require the certification** of the speaker when transmitted to the Rajya Sabha (if it has originated in the Lok Sabha).

Statement 3 is correct: Money bill's defeat in the Lok Sabha **leads to the resignation of the government**. Defeat of non-Money bills introduced by a minister in Lok Sabha may lead to the resignation of the government. But if ordinary or non-money bill is introduced by any private member of the parliament then defeat will not lead to the resignation of the government.

Source: M Laxmikanth (Chapter- 22, Parliament)

Q.13) What are the ways through which Parliament controls the executive?

1. Not passing Motion of Thanks
2. Passing of cut motion
3. Anti-defection law
4. Half-an-hour discussion
5. Removal of Deputy-speaker of Lok Sabha

Select the correct answer using the code given below:

- a) 1 and 3 only
- b) 1, 2 and 4 only
- c) 2, 3 and 4 only
- d) 1, 3 and 5 only

Ans) b

Exp) Option b is the correct answer.

The Constitution of India established a parliamentary form of government in which the **Executive is responsible** to the Parliament for its policies and acts. The **Parliament exercises control over the Executive through question-hour, zero hour, half-an-hour discussion, short duration discussion, calling attention motion, adjournment motion, no-confidence motion, censure motion and other discussions**.

It also supervises the activities of the Executive with the help of its committees like committee on government assurance, committee on subordinate legislation, committee on petitions, etc

Statement 1 is correct: The first session after each general election and the first session of every fiscal year is addressed by the President. In this address, the President outlines the policies and programmes of the government in the preceding year and ensuing year. This address of the President, is discussed in both the Houses of Parliament on a motion called the 'Motion of Thanks'. At the end of the discussion, the motion is put to vote. This **motion must be passed in the House. Otherwise, it amounts to the defeat of the government**. This inaugural speech of the President is an occasion available to the members of Parliament to raise discussions and debates to examine and criticise the government and administration for its lapses and failures.

Statement 2 is correct: The ministers are collectively responsible to the Parliament in general and to the Lok Sabha in particular. The Lok Sabha can also **express lack of confidence in the government by passing**

a Cut Motion. It is a power given to the members of the Lok Sabha that enables its members to oppose any demand in a Finance Bill proposed by a government.

Statement 3 is incorrect: The anti-defection law punishes individual Members of Parliament (MPs) for leaving one party for another. It is intended to regulate the defecting MPs. It does not regulate or control executive in any manner.

Statement 4 is correct: Through Half-an-Hour Discussion, Parliament can **discuss a matter of sufficient public importance**, which has been subjected to a lot of debate and the answer to which needs elucidation on a matter of fact. This keeps executive accountable to the Parliament.

Statement 5 is incorrect: Deputy Speaker is not the part of the executive and hence, his/her removal does not impact Parliaments control over executive. The position of Deputy Speaker is usually offered to opposition party in India and he acts as a chairperson in the public accounts committee which functions as checks on the executive.

Anti-defection annual conference (prsindia.org)

Q.14) In which of the following cases, a member of Parliament will be liable to be disqualified on the ground of defection according to the Tenth Schedule?

1. If he/she voluntarily gives up membership of his party after being elected as Presiding officer of house.
2. If he/she votes contrary to any direction issued by his political party.
3. If he/she, as a nominated member, joins any political party within six months of taking his seat.
4. If he/she, as an independent member joins any political party after being elected.

Select the correct answer using the code given below:

- a) 1 and 3 only
- b) 2 only
- c) 2 and 4 only
- d) 2, 3 and 4 only

Ans) c

Exp) Option c is the correct answer.

The Tenth Schedule contains the provisions with respect to the **disqualification of members** of Parliament and the state legislatures **on the ground of defection**. It has been made to stop the horse trading in the politics and increase the faith in the democracy.

Statement 1 is incorrect: The disqualification on the ground of defection does **not apply** if a member, after being **elected as the presiding officer** of the House, voluntarily gives up the membership of his party. This exemption has been provided in view of the dignity and impartiality of this office.

Statement 2 is correct: A member of a House belonging to any political party **becomes disqualified** for being a member of the House, if he voluntarily gives up his membership of such political party or **he votes or abstains from voting in such House contrary to any direction issued by his political party without obtaining prior permission of such party**.

Statement 3 is incorrect: If a nominated members joins any political party **within six months of taking his seat**, he will **not** be considered as a case of defection. A nominated member of a House becomes disqualified for being a member of the House if he joins any political party after the expiry of six months from the date on which he takes his seat in the House.

Statement 4 is correct: An independent member of a House (elected without being set up as a candidate by any political party) **becomes disqualified** to remain a member of the House if he **joins any political party after such election**. There is no any provision of getting approval from president before joining any party to escape from defection.

Source: M laxmikant (Chapter 76, Anti defection law)

Q.15) Consider the following statements regarding 'She is a Changemaker' Programme:

1. It is a pan-India scheme that aims to impart vocational training to women in various technical crafts.
2. It has been launched by the National Commission for Women.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) b

Exp) Option b is the correct answer.

Statement 1 is incorrect. The 'She is a Changemaker Programme' programme aims to undertake **capacity building of women political leaders** and improve their **decision-making** and communication skills including, oration, writing etc. The programme is for women representatives at all levels, **gram panchayats to parliament members** and political workers including office bearers of National/State political parties. The programme will benefit every woman who wishes to make an identity for herself in politics and help her to claim her rightful space in politics.

Statement 2 is correct. **National Commission for Women (NCW)** has launched a **pan-India** capacity building programme named 'She is a Changemaker'. The programme will be undertaken by NCW in association with region-wise training institutes.

Source: NCW Launches a Pan-India Capacity Building Programme 'She is a Changemaker' for Women in Politics-ForumIAS Blog

Q.16) A Joint Session of Parliament can be called for which of the following types of bills?

1. Money bill
2. Ordinary bill
3. Financial bills (I)
4. Constitutional Amendment bills under Article 368

Select the correct answer using the code given below:

- a) 1, 2 and 3 only
- b) 2, 3 and 4 only
- c) 2 and 3 only
- d) 2 only

Ans) c

Exp) Option c is the correct answer.

Joint sitting is an **extraordinary machinery** provided by the Constitution aimed to maintain a much-needed **synergy between the two houses** of the Parliament. **Article 118** provides that President of India may after consultation with the chair of the Rajya Sabha and the Speaker of Lok Sabha may make rules for **procedure of joint session** of parliament.

Statements 2 and 3 are correct:

- 1) **Ordinary Bill and Financial bills (I)** are sent for the President's assent only after being approved by both the Houses. In case of a deadlock due to disagreement between the two Houses, a joint sitting of both the houses can be summoned by the president to resolve the deadlock.

Statements 1 and 4 are incorrect:

- 1) **Money bill** is sent for the President's assent even if it is approved by only Lok Sabha. There is no chance of any disagreement between the two Houses as the Rajya Sabha has limited rights over money bills. Hence, there is no provision of joint sitting of both the Houses in this regard.

- 2) **Constitution Amendment Bill:** As per Article 368, the Indian Constitution can be amended by both houses of parliament by 2/3rd majority. In case of disagreement between both houses, there is no provision to summon joint session of parliament.

Knowledge Base:

When can Joint Sitting be called?

A Joint Sitting can be called under any one of the following three situations after a bill has been passed by one House and transmitted to the other House:

1. if the bill is rejected by the other House;
2. if the Houses have finally disagreed as to the amendments to be made in the bill; or
3. if more than six months have elapsed from the date of the receipt of the bill by the other House without the bill being passed by it.

In the above three situations, the president can summon both the Houses to meet in a joint sitting for the purpose of deliberating and voting on the bill.

Source: M Laxmikant (Chapter 22, Parliament)

[Answered] joint session of the two houses of the Parliament. -ForumIAS Blog

Q.17) With reference to Rajya Sabha, consider the following statements:

1. Rajya Sabha can authorise the Parliament to create new All-India Services.
2. A resolution for the removal of the Vice-President can be introduced only in the Rajya Sabha.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) c

Exp) Option c is the correct answer.

The Rajya Sabha is the upper house of the bicameral Parliament of India. As of 2021 it has a maximum membership of 245, of which 233 are elected by the legislatures of the states and union territories using single transferable votes through open ballots, while the president can appoint 12 members for their contributions to art, literature, science, and social services.

Statement 1 is correct: Under Article 312 of Indian Constitution, Rajya Sabha can authorise the Parliament to create new All-India Services common to both the Centre and the states.

Statement 2 is correct: Rajya Sabha alone can initiate a move for the removal of the vice-president. In other words, a resolution for the removal of the vice-president can be introduced only in the Rajya Sabha and not in the Lok Sabha (Article 67).

Source: M Laxmikant (Ch 22: Parliament)

NCERT Class XI: Indian Constitution at work (Chapter 5: Legislature)

Q.18) With reference to Parliamentary Elections after Independence, consider the following statements:

1. The highest number of seats ever in any election to Lok Sabha was won by the Janta party in 1984.
2. Seventeenth Lok Sabha of 2019 has the highest percentage of women Member of Parliaments since Independence.
3. The 10th Lok Sabha election of 1991 recorded the highest voter participations since independence.
4. The first ever coalition government in Centre was formed by Communist Party of India (M) in 1977.

Which of the statement given above is/are correct?

- a) 1 and 2 only
- b) 2 only
- c) 1, 2 and 4 only
- d) 3 and 4 only

Ans) b

Exp) Option b is the correct answer.

Statement 1 is incorrect: Congress party under the leadership of Rajiv Gandhi won the highest seat ever (**Congress 415**) in the general election of Eighth Lok Sabha (1984). Riding on the wave of sympathy in response to assassination of Indira Gandhi, the Congress party under Rajiv Gandhi's leadership (son of Indira Gandhi) came to power in a landslide victory.

Statement 2 is correct: In the general election of seventeenth Lok Sabha (2019) election, out of the 716 women candidates who contested elections, 78 have been elected, which is 14% of the house. This is higher than sixteenth Lok Sabha election (2014) where there were 62-woman MPs in the house and the highest ever since independence.

Statement 3 is incorrect: The general election of **17th Lok Sabha (2019) elections registered a record voter turnout of 67.11%, highest since the independence.** This record breached the previous turnout of 65.95% voting notched up in 2014, according to tentative data released by the Election Commission (EC). Voting was the lowest ever in parliamentary elections of 1991 with just 53 per cent of the electorate exercising their right to vote.

Statement 4 is incorrect: A coalition government is a form of government in which political parties cooperate to form a government. **Janta party (not the Communist Party of India (M)) formed the first ever coalition government in Centre under the leadership of Morarji Desai (1977-1977).** But the first coalition government to complete its full-term was the Atal Bihari Vajpayee-led National Democratic Alliance from 1999.

Source: M Laxmikanth (Chapter 71, Elections; Chapter 75, Coalition government)
History of Indian Parliament Elections (Lok Sabha)- Factly

Q.19) Arrange the following items in the correct order of the passing of an ordinary bill in the Parliament:

1. Consideration Stage
2. Stage of General Discussion
3. Third Reading
4. Assent of the President
5. Publication of the bill in the Gazette

Select the correct answer from the code given below:

- a) 1-2-3-4-5
- b) 2-1-3-4-5
- c) 5-2-1-3-4
- d) 5-1-2-3-4

Ans) c

Exp) Option c is the correct answer.

A bill is a proposal for legislation and it becomes an act or law when duly enacted. Every ordinary bill has to pass through the following five stages in the Parliament before it finds a place on the Statute Book:

1) First Reading - The **introduction of the bill and its publication in the Gazette** constitute the first reading of the bill. No discussion on the bill takes place at this stage.

The member who wants to introduce the bill has to ask for the leave of the House. When the House grants leave to introduce the bill, the mover of the bill introduces it by reading its title and objectives. Later, the bill is published in the Gazette of India. If a bill is published in the Gazette before its introduction, leave of the House to introduce the bill is not necessary.

2) **Second Reading** - During this stage, the bill receives not only the general but also the detailed scrutiny and assumes its final shape. This stage involves **three more sub-stages, namely, stage of general discussion, committee stage and consideration stage.**

(a) **Stage of General Discussion** - The principles of the bill and its provisions are discussed generally, but the details of the bill are not discussed.

(b) **Committee Stage** - This committee examines the bill thoroughly and in detail, clause by clause. It can also amend its provisions, but without altering the principles underlying it.

(c) **Consideration Stage** - The House, after receiving the bill from the select committee, considers the provisions of the bill clause by clause. Each clause is discussed and voted upon separately. The members can also move amendments and if accepted, they become part of the bill.

3) **Third Reading** - At this stage, the debate is confined to the acceptance or rejection of the bill as a whole and no amendments are allowed. If the majority of members present and voting accept the bill, the bill is regarded as passed by the House and transmitted to the second House.

4) **Bill in the Second House** - the bill passes through all the three stages, that is, first reading, second reading and third reading.

5) **Assent of the President** - Every bill after being passed by both Houses of Parliament either singly or at a joint sitting, is presented to the president for his assent. If the president gives his assent to the bill, the bill becomes an act and is placed on the Statute Book.

So, for the given question the correct order would be: **Publication of the bill in the Gazette - Stage of General Discussion - Consideration Stage - Third Reading - Assent of the President.**

Source: Indian Polity by Laxmikant - 6th Edition - Chapter 22 Parliament.

Q.20) With reference to 'Socio-Economic Policies of States', which one of the following statements best describes the term 'New Welfarism'?

- It is a policy of prioritising the supply of public goods such as basic health and primary education through top-down approach.
- It is a form of neo-liberal policy that seeks for greater role of private sector in welfare sectors like education and health.
- It focuses on the role of state in providing subsidized tangible essential goods and services such as bank accounts, cooking gas, toilets, electricity etc.
- It is an approach that entails direct monetary benefits to the targeted group instead of providing physical support system.

Ans) c

Exp) Option c is the correct answer.

Recently released National Family Health Survey (NFHS-5) shows remarkable improvement in New Welfarism.

New Welfarism has entailed **the subsidised public provision of essential goods and services, normally provided by the private sector.** Such as bank accounts, cooking gas, toilets, electricity, housing, etc.

New Welfarism does not prioritise the supply of public goods such as basic health and primary education as governments have done around the world historically.

NFHS-5 data show the success of New Welfarism:

- Firstly, striking **improvements in household access** to improved sanitation, cooking gas and bank accounts used by women.

- 2) Secondly, **Improvement in case of stunting** and diarrhoea on child-related outcomes.
- 3) Thirdly, India witnesses a **non-monopoly of any political party in regional performance**. For instance, the improvements in Rajasthan have happened under the Congress, in MP and Haryana under the BJP, in Odisha under the BJD, and in UP under both Samajwadi Party and BJP.

Source: What the latest NFHS data says about the New Welfarism-ForumIAS Blog

Q.21) In India, which of the following reviews the independent regulators in sectors like telecommunications, insurance, electricity, etc.?

1. Ad Hoc Committee set up by the Parliament.
2. Parliamentary Department Related Standing Committee
3. Finance Commission
4. Financial Sector Legislative Reforms Commission
5. NITI Aayog

Select the correct answer using the code given below.

- a) 1 and 2 only
- b) 1, 3 and 4 only
- c) 3, 4 and 5 only
- d) 2 and 5 only

Ans) a

Exp) Option a is the correct answer.

Independent regularity authorities are agencies of modern democratic governments. They are parts of the executive wing with a certain degree of statutory or constitutional autonomy, reporting directly to the legislature. Like the general executive, they are accountable to the legislature and subject to judicial review. Ad Hoc Committee set up by the Parliament and Parliamentary Department Related Standing Committee review the independent regulators in sectors like telecommunications, insurance electricity, etc.

Finance Commission and NITI Aayog are advisory bodies and do not review the independent regulators in sectors like telecommunications. Financial Sector Legislative Reforms Commission (FSLRC) also had no role in reviewing independent regulators.

Source) UPSC CSE 2019

Q.22) With reference to the method of Proportional Representation for elections, consider the following statements:

1. The system of Territorial Representation represents the electorate more effectively as compared to Proportional Representation system.
2. The List System of Proportional Representation is adopted for the election of the Rajya Sabha members.
3. This system does not give any scope for organising by-elections.

Which of the statements given above is/are correct?

- a) 1 only
- b) 3 only
- c) 1 and 2 only
- d) 2 and 3 only

Ans) b

Exp) Option b is the correct answer.

Proportional representation is the idea that the seats in parliament should be in proportion to the votes cast.

Statement 1 is incorrect: Under **territorial representation**, every member of the legislature represents a geographical area known as a constituency. From each constituency, only one representative is elected. In this system, a candidate who secures majority of votes is declared elected. This **simple majority system of representation does not represent the whole electorate**. The **system of proportional representation** aims at removing the defects of territorial representation. Under this system, **all sections of the people get representation in proportion to their number**.

Statement 2 is incorrect: There are two kinds of proportional representation, namely, single transferable vote system and list system. In **India**, the **single transferable vote system is adopted** for the election of members to the **Rajya Sabha and state legislative council and for electing the President and the Vice-President**.

Single transferable vote is an electoral system in which seats are allocated to candidates in order to achieve proportional representation, and where each candidate is ranked in order of preference by voters. As the vote-count develops and candidates are either elected or eliminated, it is transferred to other candidates in line with the voter's preferences.

In the list system, electors vote for one of several lists of candidates, usually prepared by the political parties. Each party is granted seats in proportion to the number of popular votes it receives.

Statement 3 is correct: The system of proportional representation has the following demerits:

- 1) It is highly expensive.
- 2) **It does not give any scope for organising by-elections.**
- 3) It eliminates intimate contacts between voters and representatives.
- 4) It promotes minority thinking and group interests.
- 5) It increases the significance of party system and decreases that of voter.

Source: Indian Polity by Laxmikant – 6th Edition – Chapter 22 Parliament.

<https://uk-engage.org/2013/08/what-are-the-advantages-and-disadvantages-of-using-a-proportional-representation-pr-electoral-system/>

Q.23) With reference to 'Delimitation Commission' in India, consider the following statements:

1. The orders of the Commission cannot be called in question before any court.
2. Modifications to orders of the Commission can only be done by the Lok Sabha and not by State Legislative Assemblies.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) a

Exp) Option a is the correct answer.

Delimitation literally means the act or process of fixing limits or boundaries of territorial constituencies in a country or a province having a legislative body. The job of delimitation is assigned to a high-power body. Such a body is known as Delimitation Commission or a Boundary Commission.

Statement 1 is correct: The Delimitation Commission in India is a high-power body whose orders have the force of law and cannot be called in question before any court. These orders come into force on a date to be specified by the President of India in this behalf.

Statement 2 is incorrect: The copies of its orders are laid before the Lok Sabha and the State Legislative Assembly concerned, but **no modifications are permissible therein by them**.

Source: <https://eci.gov.in/delimitation-website/delimitation/>

Q.24) In India, President is an integral part of the Parliament. In this context, consider the following statements:

1. A bill passed by both the houses of Parliament cannot become law without the President's assent.
2. S/he is the Leader of the House of the Lok Sabha.
3. S/he presides over joint sitting of two Houses of Parliament.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 and 3 only
- c) 1 and 2 only
- d) 1 and 3 only

Ans) a

Exp) Option a is the correct answer.

Under the Indian constitution, the Parliament of India consists of three parts viz, the President, the Council of states (Rajya Sabha) and the House of the people (Lok Sabha).

Statement 1 is correct: Though the president of India is not a member of either House of Parliament and does not sit in the Parliament to attend its meetings, still he is an integral part of Parliament. This is because, **a bill passed by both the houses of Parliament cannot become law without the President's assent.**

Statement 2 is incorrect: Leader of the House in Lok Sabha is the Prime Minister by default if she/he is a member of the Lok Sabha. If the Prime Minister is not a member of Parliament's Lower House, she or he might appoint another minister to serve as Leader of the House.

Statement 3 is incorrect: Lok Sabha Speaker presides over a joint sitting of the two Houses of Parliament. Such a sitting is summoned by the President to settle a deadlock between the two Houses on a bill.

Source: Indian Polity by Laxmikant – 6th Edition – Chapter 22 Parliament

Q.25) Consider the following statements with reference to Public Key Cryptography:

1. It is a communication where people exchange messages that can only be read by one another.
2. Data that is encrypted with the public key can be decrypted only with the corresponding private key.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) c

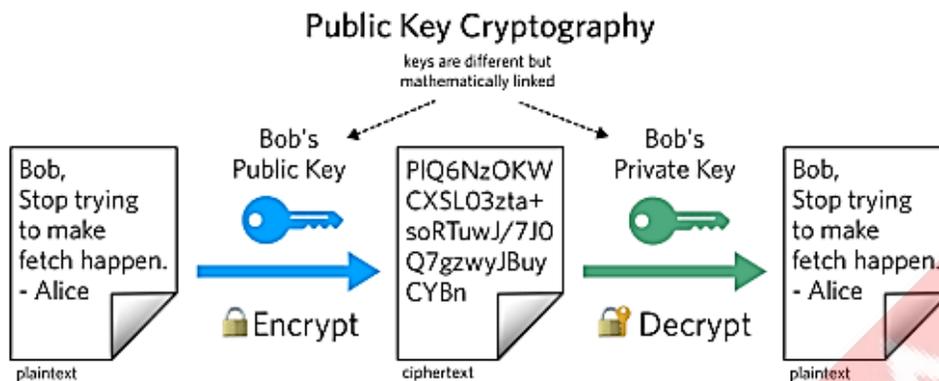

Exp) Option c is the correct answer.

The research undertaken by the Indian Army in the field of Quantum Technology will help leapfrog into next-generation communication and transform the current system of cryptography in the Indian Armed Forces to Post Quantum Cryptography (PQC).

Statement 1 is correct. Public-key cryptography also called asymmetric cryptography is communication where people exchange messages **that can only be read by one another.** In the Symmetric-key Cryptography both the sender and receiver share a single key. The sender uses this key to encrypt plaintext and send the cipher text to the receiver. On the other side the receiver applies the same key to decrypt the message and recover the plain text.

Statement 2 is correct. Data that is encrypted with the public key can be decrypted only with the corresponding private key. In **Public-Key Cryptography two related keys (public and private key) are**

used. Public key may be freely distributed, while its paired private key remains a secret. The public key is used for encryption and for decryption private key is used.

Source: <https://pib.gov.in/PressReleaseIframePage.aspx?PRID=1786012>
<https://economictimes.indiatimes.com/definition/cryptography>

Q.26) With reference to the Legislative Council in a State, consider the following Statements:

1. A Legislative Council can be created by the Parliament only when Rajya Sabha passes a resolution to that effect.
2. The Act of Parliament to create a Legislative Council is considered a Constitutional Amendment under Article 368.
3. The actual strength of the Legislative Council in a State is fixed by the Governor of that State.
4. The retiring members of the Council are eligible for re-election and re-nomination for any number of times.

Which of the Statements given above is/are correct?

- a) 2 and 3 only
- b) 4 only
- c) 3 and 4 only
- d) 1, 2, 3 only

Ans) b

Exp) Option b is the correct answer.

There is no uniformity in the organisation of State legislatures. Most of the States have a unicameral system, while others have a bicameral system. At present, only six States have two Houses (bicameral). These are Andhra Pradesh, Telangana, Uttar Pradesh, Bihar, Maharashtra and Karnataka.

In the States having bicameral system, the State legislature consists of the Governor, the Legislative Council and the Legislative Assembly. The Legislative Council (Vidhan Parishad) is the upper house (second chamber or house of elders), while the Legislative Assembly (Vidhan Sabha) is the lower house (first chamber or popular house).

Statement 1 is incorrect: The Constitution provides for the abolition or creation of legislative councils in states. Accordingly, **the Parliament can abolish a legislative council (where it already exists) or create it (where it does not exist), if the legislative assembly of the concerned state passes a resolution to that effect.**

Statement 2 is incorrect: Such a specific resolution must be passed by the state assembly by a special majority, that is, a majority of the total membership of the assembly and a majority of not less than two-thirds of the members of the assembly present and voting. **This Act of Parliament is not to be deemed as**

an amendment of the Constitution for the purposes of Article 368 and is passed like an ordinary piece of legislation (ie, by simple majority).

Statement 3 is incorrect: Unlike the members of the legislative assembly, the members of the legislative council are indirectly elected. The maximum strength of the council is fixed at one-third of the total strength of the assembly and the minimum strength is fixed at 40. It means that the size of the council depends on the size of the assembly of the concerned state. This is done to ensure the predominance of the directly elected House (assembly) in the legislative affairs of the state. Though the Constitution has fixed the maximum and the minimum limits, **the actual strength of a Council is fixed by Parliament.**

Statement 4 is correct: Like the Rajya Sabha, the legislative council is a continuing chamber, that is, it is a permanent body and is not subject to dissolution. But, one-third of its members retire on the expiration of every second year. So, a member continues as such for six years. The vacant seats are filled up by fresh elections and nominations (by governor) at the beginning of every third year. **The retiring members are also eligible for re-election and re-nomination any number of times.**

Source: 725-728, M. Laxmikant 6th Edition.pdf

Q.27) With reference to the Anglo-Indians, consider the following statements:

1. The term 'Anglo-Indian' is defined in the Indian Constitution
2. The original Indian Constitution of 1950 provided for the reservation for Anglo-Indians in Lok Sabha.
3. The 104th Constitutional Amendment Act, 2020 discontinued the reservation of Anglo-Indians in the Lok Sabha.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

The Constitution provides for the reservation of seats for certain classes of citizens like the SCs and STs.

Statement 1 is correct. The term Anglo-Indians is defined by the Constitution. Article 366 defines Anglo-Indian as a person whose father or any of whose other male progenitors in the male line is or was of European descent but who is domiciled within the territory of India and is or was born within such territory of parents habitually resident therein and not established there for temporary purposes only.

Statement 2 is correct: The provision for reservation for Anglo-Indian in Lok Sabha was provided in the original Indian Constitution. Originally, this provision was to operate till 1960 but has been extended by the Eighth Amendment Act, 1960 for a period of ten years (i.e., up to 1970). It was extended till 2020 by the 95th Amendment Act, 2009.

Statement 3 is correct: The 104th Constitutional Amendment Act, 2020 extend the reservation of seats for SCs and STs in the Lok Sabha and states assemblies from Seventy years to Eighty years **but did not extend the reserved seats for the Anglo-Indian community in the Lok Sabha and state assemblies.**

Knowledge Base:

Article 366(2) of the original Constitution defines the Anglo-Indian as a person whose father or any other male progenitor in the male line is or was of European descent, but who is domiciled within the territory of India and is or was born within such territory of parents habitually resident therein and not established there for temporary purposes only.

Source: Indian Polity by Laxmikant – 6th Edition – Chapter 22 Parliament.

Q.28) Which of the following States/Union Territories in India have bicameral legislature?

1. Puducherry
2. Andhra Pradesh
3. Uttar Pradesh
4. Rajasthan
5. Bihar
6. Karnataka
7. Jammu & Kashmir

Select the correct answer using the code given below:

- a) 1, 2, 3, 5 and 7 only
- b) 2, 3, 5 and 6 only
- c) 2, 3, 4, 5 and 6 only
- d) 1, 2, 3, 5 and 6 only

Ans) b

Exp) Option b is the correct answer.

Bicameralism is the practice of having two Houses of Parliament. At the State level, the equivalent of the Lok Sabha is the Vidhan Sabha (Legislative Assembly), and that of the Rajya Sabha is the Vidhan Parishad (Legislative Council). Under Article 169, Parliament may by law create or abolish the second chamber in a State if the Legislative Assembly of that State passes a resolution to that effect by a special majority. At present, six Indian States have bicameral legislatures.

Pondicherry and Rajasthan do not have a bi-cameral legislature (Hence, option 1 and 4 are incorrect)

Only Six States in India are having a Bicameral Legislature ie Both Legislative Assembly and Legislative Council:

- 1) **Andhra Pradesh (Hence, option 2 is correct)**
- 2) **Telangana**
- 3) **Uttar Pradesh (Hence, option 3 is correct)**
- 4) **Bihar (Hence, option 5 is correct)**
- 5) **Maharashtra**
- 6) **Karnataka. (Hence, option 6 is correct)**

In 2019, the Jammu & Kashmir Legislative Council was abolished through the J&K Reorganisation Act, 2019. This act reduced the State of J&K to the Union Territories of J&K and Ladakh. **(Hence, option 7 is incorrect)**

Note: In 2020, Andhra Pradesh Legislative Assembly passed the resolution for abolition of the Legislative Council. This resolution is yet to be cleared by the Parliament of India to finally abolish the council.

Knowledge Base:

Article 169 (Creation and Abolition): The Parliament can abolish a Legislative Council (where it already exists) or create it (where it does not exist) by a simple majority, that is, a majority of the members of each House present and voting, if the legislative assembly of the concerned state, by a special majority, passes a resolution to that effect. Special majority implies a majority of the total membership of the assembly and a majority of not less than two-thirds of the members of the assembly present and voting.

<https://www.thehindu.com/opinion/op-ed/what-is-bicameral-legislature/article26763394.ece>

<https://prsindia.org/articles-by-prs-team/bengal-wants-upper-house-back-how-states-have-councils>

Q.29) With reference to the position of Legislative Council of a State and the Rajya Sabha under the Indian Constitution, consider the following Statements:

1. Like the Rajya Sabha, the Legislative Councils cannot reject or amend a Money Bill.
2. Unlike the Rajya Sabha, the Legislative Council does not participate in the election of the President of India.
3. The Legislative Council does not have any exclusive or special powers as enjoyed by the Rajya Sabha.

Which of the Statements given above are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

Even though both the council and the Rajya Sabha are second chambers, the Constitution has given the council much lesser importance than the Rajya Sabha.

Statement 1 is correct: A Money Bill can be introduced only in the assembly and not in the legislative council. The Legislative councils, like the Rajya Sabha, **cannot amend or reject a money bill**. It should return the bill to the assembly within 14 days, either with recommendations or without recommendations.

Similarly, a Money Bill can be introduced only in the Lok Sabha and not in the Rajya Sabha. **Rajya Sabha cannot amend or reject a Money Bill**. It should return the bill to the Lok Sabha within 14 days, either with recommendations or without recommendations

Statement 2 is correct: The Council does not participate in the election of the President of India and representatives of the state in the Rajya Sabha. The council has no effective say in the ratification of a constitutional amendment bill. In this respect also, the will of the assembly prevails over that of the council.

Statement 3 is correct: The Rajya Sabha has been given four exclusive or special powers that are not enjoyed by the Legislative Council of a State: 1. It can authorise the Parliament to make a law on a subject enumerated in the State List (Article 249). 2. It can authorise the Parliament to create new All-India Services common to both the Centre and states (Article 312). 3. It alone can initiate a move for the removal of the vice president. 4. A proclamation can remain effective even if it is approved by the Rajya Sabha alone (Articles 352, 356 and 360).

Source: 546, 725-728, M. Laxmikant 6th Edition.pdf

Q.30) Consider the following statements with reference to Magnetars:

1. A Magnetar is a type of neutron star that has an ultra-powerful magnetic field.
2. Magnetars can be more luminous than Sun even in an inactive state.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) c

Exp) Option c is the correct answer.

Statement 1 is correct. A magnetar is **extremely dense type of neutron star**, and its defining feature that it has an ultra-powerful magnetic field, **trillions of times stronger than sun**.

Statement 2 is correct. Even in an inactive state, magnetars can be one hundred thousand times more luminous than our Sun. The energy that was released is equivalent to that which our Sun radiates in one hundred thousand years. Magnetars can cause starquakes, or earthquakes on stars.

Source: [https://www.sciencealert.com/a-dead-star-has-erupted-with-all-the-fire-and-fury-of-100-000-](https://www.sciencealert.com/a-dead-star-has-erupted-with-all-the-fire-and-fury-of-100-000-suns#:~:text=%22Even%20in%20an%20inactive%20state,astrophysicist%20Alberto%20J.%20Castro%20D%20Tirado)

[suns#:~:text=%22Even%20in%20an%20inactive%20state,astrophysicist%20Alberto%20J.%20Castro%20D%20Tirado](https://www.thehindu.com/sci-tech/What-are-magnetars/article14640121.ece)

<https://www.thehindu.com/sci-tech/What-are-magnetars/article14640121.ece>

Q.31) Out of the following statements, choose the one that brings out the principle underlying the Cabinet form of Government:

- An arrangement for minimizing the criticism against the Government whose responsibilities are complex and hard to carry out the satisfaction of all.
- A mechanism for speeding up the activities of the Government whose responsibilities are increasing day by day.
- A mechanism of parliamentary democracy for ensuring collective responsibility of the Government to the people.
- A device for strengthening the hands of the head of the Government whose hold over the people is in a state of decline.

Ans) c

Exp) Option c is the correct answer.

Parliamentary democracy envisages a cabinet form of government with a President as a titular head (and a governor in the states) with responsibility of ministers to the Parliament.

One of the key features of Parliamentary System of Government is that the Executive is responsible to the Legislature. Thus, Under Article 75(3), In India the Council of Ministers is collectively responsible to the House of People (Lok Sabha). The Council of Ministers remains in office as long as they enjoy the support and confidence of the Lok Sabha.

The features of parliamentary government in India are:

- Presence of nominal and real executives;
- Majority party rule,
- Collective responsibility of the executive to the legislature,**
- Membership of the ministers in the legislature,
- Leadership of the Prime Minister or the Chief Minister,
- Dissolution of the lower House (Lok Sabha or Assembly).

Source) UPSC CSE 2017

Q.32) With reference to the Secretariat of Parliament in India, consider the following statements:

- One of its functions is to ensure payment of salary and other allowances to the Members of the House.
- It is headed by Minister of Parliamentary Affairs.
- The recruitment and service conditions of the secretarial staff are regulated by the Council of Ministers.

Which of the statements given above is/are correct?

- 1 only
- 2 only
- 1 and 3 only
- 2 and 3 only

Ans) a

Exp) Option a is the correct answer.

Each House of Parliament has separate secretarial staff of its own under Article 98, though there can be some posts common to both the Houses. The Secretariat is an independent body which functions under the ultimate guidance and control of the Presiding Officer.

Statement 1 is correct: The main activities of the Secretariat include the following: -

- 1) providing secretarial assistance and support to the effective functioning of the House.
- 2) **payment of salary and other allowances to the Members of the House.**
- 3) providing amenities as admissible to Members of the House.
- 4) servicing the various Parliamentary Committees.
- 5) preparing research and reference material and bringing out various publications.
- 6) recruitment of manpower in the Rajya Sabha Secretariat and attending to personnel matters. preparing and publishing a record of the day-to-day proceedings of the House and
- 7) bringing out such other publications, as may be required concerning the functioning of the House.

Statement 2 is incorrect: The secretariat of each House is headed by a **secretary-general (not the Minister of Parliamentary Affairs)**. He is a permanent officer and is appointed by the presiding officer of the House.

Statement 3 is incorrect: Parliament may by law regulate the recruitment and the conditions of service of persons appointed to the secretarial staff of either House of Parliament.

Knowledge Base:

In the discharge of his Constitutional and statutory responsibilities, the Presiding Officer is assisted by the Secretary-General (whose pay scale, position and status etc. is equivalent to that of the highest ranking official in the Government of India i.e., Cabinet Secretary), functionaries of the level of the Additional Secretary, Joint Secretary and other officers and staff of the Secretariat at various levels. These are not regulated by the Council of Ministers.

Source: Indian Polity by Laxmikant – 6th Edition – Chapter 22 Parliament.

<https://rajyasabha.nic.in/RajyaSabhaSecretariat>

Q.33) With reference to the Parliament in India, consider the following statements:

1. A bill passed by the Rajya Sabha but pending in the Lok Sabha does not lapse on the dissolution of the Lok Sabha
2. A bill passed by the Lok Sabha but pending in the Rajya Sabha does not lapse on the dissolution of the Lok Sabha.
3. Prorogation of the House does not affect the bills pending before the House.

Which of the statements given above is/are correct?

- a) 1 and 3 only
- b) 3 only
- c) 1 and 2 only
- d) 2 and 3 only

Ans) b

Exp) Option b is the correct answer.

Dissolution ends the very life of the existing House, and a new House is constituted after general elections are held.

Statements 1 and 2 are incorrect: When the Lok Sabha is dissolved, all business including bills, motions, resolutions, notices, petitions and so on pending before it or its committees lapse. However, some pending bills and all pending assurances that are to be examined by the Committee on Government Assurances do not lapse on the dissolution of the Lok Sabha. The position with respect to lapsing of bills is as follows:

- 1) A bill pending in the Lok Sabha lapses (whether originating in the Lok Sabha or transmitted to it by the Rajya Sabha).
- 2) A bill passed by the Lok Sabha but pending in the Rajya Sabha lapses.
- 3) A bill not passed by the two Houses due to disagreement and if the president has notified the holding of a joint sitting before the dissolution of Lok Sabha, does not lapse.
- 4) A bill pending in the Rajya Sabha but not passed by the Lok Sabha does not lapse.
- 5) A bill passed by both Houses but pending assent of the president does not lapse.
- 6) A bill passed by both Houses but returned by the president for reconsideration of Houses does not lapse.

Statement 3 is correct: Prorogation terminates both the sitting and the session of the House. It is **done by the President of India**. Prorogation does **not affect the bills or any other business pending before the House**. However, all pending notices (other than those for introducing bills) lapse on prorogation and fresh notices have to be given for the next session.

Source: Indian Polity by Laxmikant – 6th Edition – Chapter 22 Parliament.

Q.34) With reference to Indian Parliament, Consider the following statements about Department Related Standing Committees (DRSCs):

1. They are constitutional bodies mentioned in Part V of the Constitution of India.
2. The term of office of each standing committee is coterminous with the life of Lok Sabha.
3. They secure accountability of the Council of Ministers towards the Parliament.
4. They assist the Parliament in scrutinizing the bills referred to it.

Which of the statements given above is/are correct?

- a) 2, 3 and 4 only
- b) 3 only
- c) 3 and 4 only
- d) 1, 2, 3 and 4

Ans) c

Exp) Option c is the correct answer.

Each Department Related Standing Committee consists of 31 members (21 from Lok Sabha and 10 from Rajya Sabha). The members of the Lok Sabha are nominated by the Speaker, just as the members of the Rajya Sabha are nominated by the Chairman from amongst its members. A minister is not eligible to be nominated as a member of any of the standing committees. In case a member, after his nomination to any of the standing committees, is appointed a minister, he then ceases to be a member of the committee

Statement 1 is incorrect: They are not constitutional bodies. On the recommendation of the Rules Committee of the Lok Sabha, 17 DRSCs were set up in the Parliament in 1993. In 2004, seven more such committees were set up, thus increasing their number from 17 to 24. Out of the 24 Departmental Standing Committees, 8 work under the Rajya Sabha and 16 under the Lok Sabha.

Statement 2 is incorrect: The term of office of each standing committee is one year from the date of its constitution.

Statement 3 is correct: They secure more accountability of the Council of Ministers to the Parliament. Through Committees, Parliament exercises its control and influence over administration and keeps vigilance over the executive.

Statement 4 is correct: The Committees aid and assist the Legislature in discharging its duties and regulating its functions effectively, expeditiously and efficiently. They assist the Parliament in thoroughly and systematically scrutinizing the bills and matters which could not be discussed on the floor at length. These bills are referred to the Committee by the Chairman or the Speaker. The Committees also provide the expertise on a matter which is referred to them.

Knowledge Base:

These DRSCs are entrusted with the following functions: -

- (a) to consider the Demands for Grants of the related Ministries/Departments and report thereon. The report shall not suggest anything of the nature of cut motions;
- (b) to examine Bills, pertaining to the related Ministries/Departments, referred to the Committee by the Chairman or the Speaker, as the case may be, and report thereon;
- (c) to consider the annual reports of the Ministries/Departments and report thereon; and
- (d) to consider national basic long term policy documents presented to the Houses, if referred to the Committee by the Chairman or the Speaker, as the case may be, and report thereon.

Source: https://rajyasabha.nic.in/Committees/DepartmentRelatedSC_RS?id=17

Q.35) Which among the following statements is/are correct with regards to Type 1 Diabetes?

- 1. It accounts for the vast majority (over 90%) of diabetes worldwide.
- 2. It is the major type of diabetes in childhood but can occur at any age.

Select the correct answer using the code given below:

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) b

Exp) Option b is the correct answer.

Diabetes is a serious chronic condition that occurs when the body cannot produce enough insulin or cannot effectively use the insulin it does produce.

The 10th edition of the International Diabetes Federation Diabetes Atlas has been released. It has been reported that Diabetes is one of the fastest-growing global health emergencies of the 21st century.

Type 1 diabetes is a condition in which your immune system destroys insulin-making cells in the pancreas. The condition is usually diagnosed in children and young people, so it used to be called juvenile diabetes

Statement 1 is incorrect: Type 2 Diabetes accounts for the vast majority (and not Type 1) of diabetes worldwide. Type 2 diabetes is a lifelong disease that keeps your body from using insulin the way it should. People with type 2 diabetes are said to have insulin resistance

Statement 2 is correct: Type 1 diabetes is the major type of diabetes in childhood but can occur at any age. It cannot be cured, people with type 1 diabetes **require insulin to survive.**

Knowledge Base:

- 1) In 2021, one in 10 adults worldwide, which means around 537 million people are now living with diabetes. This is higher than the 463 million adults who lived with the condition in 2019.
- 2) Diabetes now ranks among the top 10 causes of global mortality, responsible for an estimated 6.7 million deaths in 2021. Furthermore, Globally, 88% of adults living with undiagnosed diabetes are in low- and middle-income countries.

Source: <https://www.downtoearth.org.in/blog/health/a-new-report-shows-worrying-growth-of-the-diabetes-pandemic-80558>

Q.36) Which of the following pairs are correctly matched?

List I	List II
Cut motions	Description
1. Policy Cut Motion	The amount of the demand be reduced by ₹100
2. Token Cut Motion	The amount of the demand be reduced to Rs 1
3. Economy Cut Motion	The amount of the demand be reduced by a specified amount

Select the correct answer using the code given below:

- a) 1 only
- b) 2 and 3 only
- c) 3 only
- d) 1 and 2 only

Ans) c

Exp) Option c is the correct answer.

Each demand of budget is voted separately by the Lok Sabha. The members of Parliament can discuss the details of the budget during this stage. They can also move motions to reduce any demand for grant. Such motions are called as 'cut motion'.

Pair 1 is incorrect: Policy cut motion represents the disapproval of the policy underlying the demand. **It states that the amount of the demand be reduced to Re 1 (and not reduced by ₹100).** The members can also advocate an alternative policy. Policy cut motion represents the disapproval of the policy undermining the demand. However, if a member moves the cut, they have to indicate in precise terms the details of the policy which they want to discuss and should be confined to the specific points mentioned in the cut notice.

Pair 2 is incorrect: Token Cut Motion ventilates a specific grievance that is within the sphere of responsibility of the Government of India. **It states that the amount of the demand be reduced by ₹100 (and not to be reduced to Re 1).**

Pair 3 is correct: Economy Cut Motion represents the economy that can be affected in the proposed expenditure. **It states that the amount of the demand be reduced by a specified amount (which may be either a lump sum reduction in the demand or omission or reduction of an item in the demand).**

Source: <https://www.business-standard.com/about/what-is-cut-motion>

Indian polity by M Laxmikanth pdf 6th edition. Chapter name-Parliament. Page no-541.

Q.37) Consider the following statements with reference to the Joint Sitting of the Parliament:

- 1. It is governed by the Rules of Procedure of both Lok Sabha and Rajya Sabha.
- 2. No new amendments can be proposed to a bill at a joint sitting.
- 3. The bill is deemed to have been passed only if it is passed by a majority of the total membership of both the houses of parliament.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 only
- c) 1 and 3 only
- d) None of the above

Ans) d

Exp) Option d is the correct answer.

As per Article 108 of Constitution a Joint sitting is an extraordinary mechanism provided by the Constitution of India to resolve a deadlock between the two Houses over the passage of a bill. **It is to be noted that the provisions of Joint seating are applicable to ordinary bills or financial bills only. Not all bills can be referred to a joint sitting of Parliament. There are two exceptions.**

- 1) **Money bill under Article 110.**
- 2) **Constitution amendment bill under Article 368.**

Statement 1 is incorrect: The joint sitting is governed by the Rules of Procedure of Lok Sabha and not of Rajya Sabha. The quorum to constitute a joint sitting is one-tenth of the total number of members of the two Houses.

Statement 2 is incorrect:

The Constitution has specified that at a joint sitting, new amendments to the bill cannot be proposed **except in two cases:**

- 1) those amendments that have caused final disagreement between the Houses; and
- 2) those amendments that might have become necessary due to the delay in the passage of the bill.

Statement 3 is incorrect: The bill in dispute in joint sitting of the two houses is deemed to have been passed by a majority of the total number of members of both the Houses present and voting (and not by a majority of the total membership of both the houses of parliament). Normally, the Lok Sabha with greater number wins the battle in a joint sitting.

Source: Indian polity by M Laxmikanth pdf 6th edition. Chapter name-Parliament. Page no-534 and 535.

Q.38) Consider the following statements with reference to the Constitutional provisions regarding the Budget:

1. Parliament does not have right either to discuss or to vote on the expenditures charged on the Consolidated Fund of India.
2. The term 'budget' has nowhere been used in the Constitution of India.
3. With regard to the enactment of budget, Parliament can reduce or abolish a tax but cannot increase it.
4. Vote on the demands for grants is an exclusive privilege of the Lok Sabha and Rajya Sabha has no power regarding it.

Which of the statements given above are correct?

- a) 1, 2 and 3 only
- b) 2, 3 and 4 only
- c) 1, 3 and 4 only
- d) 1, 2, 3 and 4

Ans) b

Exp) Option b is the correct answer.

Article 112 of the Constitution deals with the budget which is a statement of the estimated receipts and expenditure of the Government of India in a financial year.

Statement 1 is incorrect: According to the constitutional provisions, the budget expenditure charged on the Consolidated Fund of India shall not be submitted for the vote of Parliament. However, it can be discussed by the Parliament.

Statement 2 is correct: The Constitution refers to the budget as the 'annual financial statement'. The term 'budget' has nowhere been used in the Constitution of India.

Statement 3 is correct: The Constitution of India contains the following provisions with regard to the enactment of budget:

- 1) **Parliament can reduce or abolish a tax but cannot increase it.**

- 2) The President shall in respect of every financial year cause to be laid before both the Houses of Parliament a statement of estimated receipts and expenditure of the Government of India for that year.
- 3) No demand for a grant shall be made except on the recommendation of the President.
- 4) No money shall be withdrawn from the Consolidated Fund of India except under appropriation made by law.
- 5) No money bill imposing tax shall be introduced in the Parliament except on the recommendation of the President, and such a bill shall not be introduced in the Rajya Sabha.

Statement 4 is correct: The Constitution of India has defined the relative roles or position of both the Houses of Parliament with regard to the enactment of the budget in the following way:

- 1) A money bill or finance bill dealing with taxation cannot be introduced in the Rajya Sabha—it must be introduced only in the Lok Sabha.
- 2) **The Rajya Sabha has no power to vote on the demand for grants; it is the exclusive privilege of the Lok Sabha.**
- 3) The Rajya Sabha should return the Money bill (or Finance bill) to the Lok Sabha within fourteen days. The Lok Sabha can either accept or reject the recommendations made by Rajya Sabha in this regard.

Source: Indian polity by M Laxmikanth pdf 6th edition. Chapter name-Parliament. Page no-536 and 537.

Q.39) With reference to Private Member's Bills and Public Bills, Consider the following statements:

1. Both types of bills can be introduced in the Parliament after only seven days' notice.
2. No private member's bill has been passed by Parliament of India till date.
3. A bill introduced by an elected member of Parliament is called as public bill, while a bill introduced by a nominated member is called as private bill.

Which of the statements given above is/are **incorrect**?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

Statement 1 is incorrect: The introduction of Public Bills in the House requires seven days' notice. The introduction of Private Bills in the House requires one month's notice.

Statement 2 is incorrect: The last time a private member's bill was passed by both Houses was in **1970**. It was the **Supreme Court (Enlargement of Criminal Appellate Jurisdiction) Bill, 1968**. **14** private member's bills – five of which were introduced in Rajya Sabha – have **become law** so far. Some other private member bills that have become laws include:

- 1) Proceedings of Legislature (Protection of Publication) Bill, 1956, in the Lok Sabha;
- 2) The Salaries and Allowances of Members of Parliament (Amendment) Bill, 1964, introduced by in the Lok Sabha and
- 3) The Indian Penal Code (Amendment) Bill, 1967 introduced in the Rajya Sabha. Etc.

Statement 3 is incorrect: Private member's bill is introduced by any member of Parliament other than a minister (not necessarily a nominated member) while the public bill is introduced by a minister (and not any other elected member). Public bill reflects of the policies of the government. Private member's bill reflects the stand of opposition party or a member of parliament on public matter.

Q.40) Consider the following pairs in context of places in news:

Place in news	Country/Region
1. Barbados	Caribbean Islands
2. Donbas	Poland
3. Amami Islands	China

Which of the pairs given above is/are correctly matched?

- 1 only
- 1 and 2 only
- 1 and 3 only
- 2 and 3 only

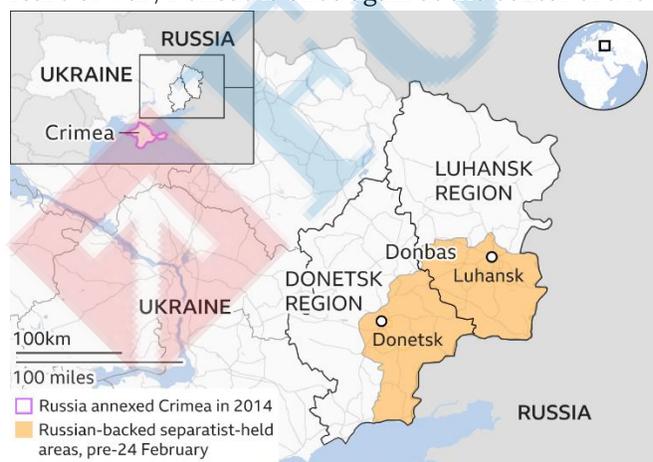

Ans) a

Exp) Option a is the correct answer.

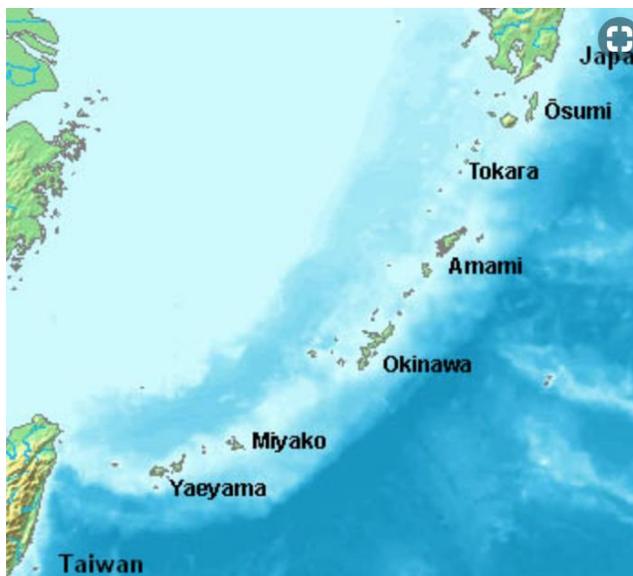

Pair 1 is correctly matched: Barbados is an island in the **Caribbean region** of the Americas, and the most easterly of the Caribbean Islands. It recently became the newest republic in the world. This is the first time since the 1970s that a Caribbean state has become a republic.

Pair 2 is incorrectly matched: Donbas is a small region in **eastern Ukraine (and not Poland)** adjoining the Russian border. With Russia mobilizing thousands of troops on its border with Ukraine, which has **sparked fears of war**, Donbas is once again at the center of a looming conflict.

Pair 3 is incorrectly matched: The **Amami Islands** is an archipelago near East China Sea that belongs to Kagoshima Prefecture, **Japan (and not China)**. Recently, sighting of an unidentified submarine believed to be Chinese was reported by Japan.

Q.41) Consider the following statements:

1. In the election for Lok Sabha or State Assembly, the winning candidate must get at least 50 percent of the votes polled, to be declared elected.
2. According to the provisions laid down in the Constitution of India, in Lok Sabha, the Speaker's post goes to the majority party and the Deputy Speaker's to the Opposition.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) d

Exp) Option d is the correct answer.

Statement 1 is incorrect. As India follows the First Past the Post System, where a candidate who polls more votes than any other candidate is declared elected.

Statement 2 is incorrect. As per the constitution, the speaker and deputy speaker in Lok Sabha are elected among its members. It is not a constitutional provision but a convention that Speaker's post goes to the majority party and the Deputy Speaker's to the Opposition.

Source) UPSC CSE 2017

Q.42) Consider the following statements with reference to the finance bill and appropriation bill:

1. A Finance Bill is a Money Bill.
2. The government of India cannot withdraw money from the Consolidated Fund of India till the enactment of the appropriation bill.

3. Unlike the Appropriation Bill, the amendments seeking to reject or reduce a tax can be moved in the case of finance bill.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

Statement 1 is correct: A Finance Bill is a Money Bill as defined in Article 110 of the Constitution. It is accompanied by a Memorandum explaining the provisions included in it. The Finance Bill is introduced to give effect to the financial proposals of the Government of India for the following year. At the time of presentation of the Annual Financial Statement before Parliament, a Finance Bill is also presented in fulfillment of the requirement of Article 110 (1)(a) of the Constitution, detailing the imposition, abolition, remission, alteration or regulation of taxes proposed in the Budget.

Statement 2 is correct: Appropriation act authorizes the payments from the Consolidated Fund of India. This means that the government cannot withdraw money from the Consolidated Fund of India till the enactment of the appropriation bill. Under Article 114(3) of the Constitution, no amount can be withdrawn from the Consolidated Fund without the enactment of appropriation bill by Parliament. The Appropriation Bill becomes the Appropriation Act after President gives its assent to the bill.

Statement 3 is correct: The Finance Bill is introduced to give effect to the financial proposals of the Government of India for the following year. It is subjected to all the conditions applicable to a Money Bill. **Unlike the Appropriation Bill, the amendments seeking to reject or reduce a tax can be moved in the case of finance bill.** According to the Provisional Collection of Taxes Act of 1931, the Finance Bill must be enacted within 75 days.

<https://www.indiabudget.gov.in/budget2011-2012/ub2011-12/keybud/keybud2011.pdf>

Q.43) With reference to the parliamentary committees in parliamentary system of government, Consider the following statements:

1. The Constitution of India makes no mention of parliamentary committees.
2. Parliamentary committees provide a forum for building consensus across political parties.
3. Consultative Committees are a type of Parliamentary committees.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

Statement 1 is incorrect: The Constitution of India makes a mention of Parliamentary Committees at different places, but without making any specific provisions regarding their composition, tenure, functions, etc. All these matters are dealt by the rules of two Houses.

Statement 2 is correct: Parliamentary Committees provide a forum for building consensus across political parties. The proceedings of the House during sessions are televised, and MPs are likely to stick to

their party positions on most matters. Committees have closed door meetings, which allow them to freely question and discuss issues and arrive at a consensus.

Statement 3 is incorrect A parliamentary committee means a committee that:

- 1) Is appointed or elected by the House or nominated by the Speaker / Chairman
- 2) Works under the direction of the Speaker / Chairman
- 3) Presents its report to the House or to the Speaker /Chairman
- 4) Has a secretariat provided by the Lok Sabha / Rajya Sabha

The consultative committees, which also consist of members of Parliament, are not parliamentary committees as they do not fulfil above four conditions.

Source: <https://prcindia.org/theprsblog/importance-parliamentary-committees>

Indian polity by M Laxmikanth pdf 6th edition. Chapter name-Parliamentary committees. Page no-576.

Q.44) The origin of this committee can be traced back to the standing financial committee set up in 1921. It was first constituted in the post-independence era on the recommendation of John Mathai. Originally the committee had 25 members but in 1956 its membership was raised to 30. All the members of this committee are from Lok Sabha only. The Rajya Sabha has no representation in this committee.

- a) Public Accounts Committee
- b) Estimates Committee
- c) Committee on Public Undertakings
- d) Business Advisory Committee

Ans) b

Exp) Option b is the correct answer.

Option a is incorrect: Public Accounts Committee was set up first in 1921 under the provisions of the Government of India Act of 1919. At present, it consists of 22 members (15 from the Lok Sabha and 7 from the Rajya Sabha). The members are elected by the Parliament every year from amongst its members according to the principle of proportional representation by means of the single transferable vote. Thus, all parties get due representation in it. The term of office of the members is one year. A minister cannot be elected as a member of the committee.

Option b is correct: The origin of Estimates Committee can be traced to the standing financial committee set up in 1921. The first Estimates Committee in the post-independence era **was constituted in 1950 on the recommendation of the then finance minister John Mathai.** Originally the committee had 25 members but in 1956 its membership was raised to 30. **All the thirty members of estimates committee are from Lok Sabha only. The Rajya Sabha has no representation in this committee.** These members are elected by the Lok Sabha every year from amongst its own members, according to the principles of proportional representation by means of a single transferable vote. Thus, all parties get due representation in it. The function of the committee is to examine the estimates included in the budget and suggest 'economies' in public expenditure. Hence, it has been described as a 'continuous economy committee'.

Option c is incorrect: Committee on Public Undertakings was created in 1964 on the recommendation of the Krishna Menon Committee. Originally the committee had 15 members (10 from the Lok Sabha and 5 from the Rajya Sabha). However, in 1974, its membership was raised to 22 (15 from the Lok Sabha and 7 from the Rajya Sabha). The members of this committee are elected by the Parliament every year from amongst its own members according to the principle of proportional representation by means of a single transferable vote. Thus, all parties get due representation in it. The term of office of the members is one year. A minister cannot be elected as a member of the committee.

Option d is incorrect: Business Advisory Committee regulates the programme and time table of the House. It allocates time for the transaction of legislative and other business brought before the House by

the government. The Lok Sabha committee consists of 15 members including the Speaker as its chairman. In the Rajya Sabha, it has 11 members including the Chairman as its ex officio chairman.

Source: Indian polity by M Laxmikanth pdf 6th edition. Chapter name-Parliamentary committees. Page no-580,582,583,594.

Q.45) Which among the following statements is/are **incorrect** with regards to Media Regulation in India:

1. Press Council of India is assigned with the authority to regulate all kind of media coverage including Print, Radio and TV news.
2. The News Broadcasters and Digital Association (NBDA) is a self-regulatory body for the digital broadcasters.

Select the correct answer using the code given below:

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) a

Exp) Option a is the correct answer.

Ministry of Broadcasting and Information oversees both print and digital media in India. There are also some **autonomous bodies** that keep eyes on specific sections of the media.

Statement 1 is incorrect: Press Council of India is vested with **statutory powers** for preserving the freedom of Press and for maintaining and improving the standards of **newspapers, print media, and radio (and not TV news)**. It is established under **Press Council Act, 1978**.

Statement 2 is correct: News Broadcasters & Digital Standards Association administers broadcastings, which has been **voluntarily drawn by the NBDA** (News Broadcasters & Digital Association) for its member broadcasters to demonstrate their commitment to **responsible broadcasting and to self-regulate themselves**. It is the collective voice of the news, current affairs and digital broadcasters in India. It is an organization funded entirely by its members.

Knowledge Base:

- 1) Recently, the **Parliamentary Standing Committee on Communications and Information Technology** has submitted two reports titled “Ethical Standards in Media Coverage” and “Suspension of Telecom Services/Internet and Its Impact” to the Parliament.
- 2) One of the key recommendations is that a **‘Media Council’** should be set up with statutory powers to enforce its powers to **check “irregularities”** in print, electronic and digital media platforms. This is because existing regulatory bodies like the Press Council of India (PCI) and News Broadcasting and Digital Standards Authority (NBDSA) have limited efficacy because they **do not have the powers to enforce their decisions**.

Q.46) Consider the following statements with reference to the Consultative Committees:

1. These committees are headed by a member of parliament other than a minister.
2. These committees provide a forum for informal discussions between the ministers and the members of Parliament on policies of the government.
3. Consultative committees are constituted by the Ministry of Home Affairs.

Which of the statements given above is/are correct?

- a) 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1 and 2

Ans) a

Exp) Option a is the correct answer.

Consultative Committees for various Ministries or Departments are normally constituted after general election to the Lok Sabha and as and when necessary. The constitution of these committees is generally timed with the summoning of the Budget Session of Parliament.

Statement 1 is incorrect: Consultative committees of parliament are attached to various ministries or departments of the Central Government. They consist of members of both the Houses of Parliament. **The Minister / Minister of State in charge of the Ministry concerned acts as the chairman of the consultative committee of that ministry.**

Statement 2 is correct: Consultative Committees provide a forum for informal discussions between the ministers and the members of Parliament on policies and programmes of the government and the manner of their implementation. Discussions at the meetings of these committees are held in a free and frank manner, cutting across party lines.

Statement 3 is incorrect: Consultative Committees are constituted by the Ministry of Parliamentary Affairs (and not by the ministry of home affairs). The guidelines regarding the composition, functions and procedures of these committees are formulated by Ministry of Parliamentary Affairs. The Ministry also makes arrangements for holding their meetings both during the session and the inter-session period of Parliament.

Indian polity by M Laxmikanth pdf 6th edition. Chapter name-Parliamentary committees. Page no-596.

Q.47) What are the basic functions of Parliament in India?

1. Exercising control over the Council of Ministers
2. Implementation of the Laws
3. Final interpretation of Constitution
4. Amending various provisions of the Constitution
5. Enactment of Annual Financial Statement of Government

Select the correct answer using the code given below:

- a) 1, 2 and 5 only
- b) 3, 4 and 5 only
- c) 1, 4 and 5 only
- d) 1, 2, 3, 4 and 5

Ans) c

Exp) Option c is the correct answer.

The Parliament occupies a central position and has a **multifunctional role**. It has legislative, executive, financial, constitutional, judicial, electoral powers and functions associated with it.

Statement 1 is correct: The Constitution of India established a parliamentary form of government in which the **Executive is responsible to the Parliament** for its policies and acts. Hence, the Parliament exercises control over the Executive through **question-hour, zero hour, half-an-hour discussion, short duration discussion, calling attention motion, adjournment motion, no-confidence motion, censure motion and**

other discussions. It also supervises the activities of the Executive with the help of its committees like committee on government assurance, committee on subordinate legislation, committee on petitions, etc.

Statement 2 is incorrect: The primary function of Parliament is to **make laws** for the governance of the country or frame the laws according to current scenario of the society but the **implementation of laws is totally the role of the executive.** Executive has responsibility for the governance of a state.

Statement 3 is incorrect: Neither the executive nor the Parliament has the power to be the final interpreter and protector of the constitution, the **power lies in the hand of the Supreme Court.** The **final interpreter, protector & guardian of the Indian Constitution is the Supreme Court of India.**

Statement 4 is correct: Parliament is vested with the **powers to amend the Constitution** by way of addition, variation, or repeal of any provision. The major part of the Constitution can be amended by the Parliament with special majority, that is, a majority of the total membership of each House and a majority of not less than two thirds of the members present and voting in each House. Some other provisions of the Constitution can be amended by the Parliament with simple majority, that is, a majority of the members present and voting in each House of Parliament. Only a few provisions of the Constitution can be amended by the Parliament (by special majority) and with the consent of at least half of the state Legislatures (by simple majority).

Statement 5 is correct: According to Indian Constitution, no tax can be levied or collected and no expenditure can be incurred by the Executive except under the authority and with the approval of Parliament. Hence, the **budget (Annual Financial Statement)** is placed before the Parliament for its approval. The **enactment of the budget by the Parliament** legalises the receipts and expenditure of the government for the ensuing financial year.

NCERT Class VIII: Social and Political Life III Ch 10

Q.48) Consider the following statements with reference to the Contingency Fund of India:

1. Any expenditure incurred from this fund does not require any kind of authorization from the Parliament.
2. The Corpus of this fund has been fixed by the Constitution.
3. The Cabinet Secretary holds the fund on behalf of the President of India.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 only
- c) 1 and 3 only
- d) None

Ans) d

Exp) Option d is the correct answer.

The Constitution of India provides for the following three kinds of funds for the Central government:

- 1) Consolidated Fund of India (Article 266)
- 2) Public Account of India (Article 266)
- 3) Contingency Fund of India (Article 267)

Statement 1 is incorrect: Article 267 of the Constitution mandates formation of a corpus under Contingency Fund of India to deal with any emergency situation. The Parliament enacted the contingency fund of India Act in 1950. **Any expenditure incurred from this fund requires a subsequent authorization from the Parliament.** And the corpus has to be replenished with the same amount later.

Statement 2 is incorrect: Article 267 of the Constitution mandates formation of a corpus under Contingency Fund of India to deal with any emergency situation. The constitution itself has not fixed the corpus of the fund. The fund size is enhanced from time to time by the government. In 2005, the corpus of

the fund was raised from Rs 5 crore to Rs 500 crore. The government enhanced the Contingency Fund of India from Rs 500 crore to Rs 30,000 crore through the Finance Bill 2021. **The fund can be increased through a Finance Bill** when the Parliament is in the session. Or through Ordinance if the House is not in session.

Statement 3 is incorrect: The Union finance secretary (not the cabinet secretary) holds the fund on behalf of the President of India. The fund size is enhanced from time to time by the government. President can make advances out of it to meet unforeseen expenditure pending its authorization by the Parliament.

Indian polity by M Laxmikanth pdf 6th edition. Chapter 22- parliament. Page no-546.

Q.49) Consider the following statements with respect to Parliamentary Forums in India:

1. They are constituted at the start of Budget Session each year.
2. They seek to provide a platform to the Members of Parliament to have interactions with subject experts on a matter.
3. The Speaker of Lok Sabha is the ex-officio Vice-President of all the parliamentary forums.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 and 3 only
- c) 2 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

The first Parliamentary Forum on Water Conservation and Management was constituted in the year 2005. At present, there are eight Parliamentary forums. Each Forum consists of not more than 31 members (excluding the President, Co-President and Vice-Presidents) out of whom not more than 21 are from the Lok Sabha and not more than 10 are from the Rajya Sabha.

Statement 1 is incorrect: They are permanent forums constituted by the Parliament to discuss specific issues of public importance. **They are not constituted every year** at the start of Budget Session. Also, the duration of the office of members of the forum is co-terminus with their membership in the respective Houses. A member may also resign from the forum by writing to the Speaker/Chairman

Statement 2 is correct: It seeks to provide a platform to the members to have interactions with the ministers concerned, experts and key officials from the nodal ministries with a view to have a focused and meaningful discussion on critical issues with a result-oriented approach for speeding up the implementation process.

Statement 3 is incorrect: The Speaker of Lok Sabha is the ex-officio President of all the Forums except the Parliamentary Forum on Population and Public Health wherein the Chairman of Rajya Sabha is the ex-officio President and the Speaker is the ex-officio, Co-President. The Deputy Chairman of Rajya Sabha, the Deputy Speaker of Lok Sabha, the concerned Ministers and the Chairman of Departmentally-Related Standing Committees are the **ex-officio Vice Presidents** of the respective Forums.

Knowledge Base:

The first Parliamentary Forum on Water Conservation and Management was constituted in the year 2005. Subsequently, seven more Parliamentary forums were constituted. At present, there are eight Parliamentary forums namely:

- 1) Parliamentary Forum on Water Conservation and Management (2005)
- 2) Parliamentary Forum on Youth (2006)
- 3) Parliamentary Forum on Children (2006)

- 4) Parliamentary Forum on Population and Public Health (2006)
- 5) Parliamentary Forum on Global Warming and Climate Change (2008)
- 6) Parliamentary Forum on Disaster Management (2011)
- 7) Parliamentary Forum on Artisans and Crafts-people (2013)
8. Parliamentary Forum on Millennium Development Goals (2013)

Source: M. Laxmikant 6th Edition.pdf

Q.50) Which one of the following agencies/organizations has released the National Multidimensional Poverty Index (MPI)?

- a) Department of Health and Research
- b) Oxfam India
- c) United Nations Development Programme (UNDP)
- d) NITI Aayog

Ans) d

Exp) Option d is the correct answer.

This question is based on the following articles “**One out of every two Bihar households is multidimensionally poor: NITI Aayog**” published in Down To Earth on 27th November 2021.

Option d is correct. India’s first **National MPI (multidimensional poverty index)** has been released by **Niti Aayog**. National MPI seeks to measure poverty across its multiple dimensions and in effect complements existing poverty statistics based on per capita consumption expenditure.

Methodology: The index has used the globally accepted and robust methodology developed by the Oxford Poverty and Human Development Initiative (OPHI) and the United Nations Development Programme (UNDP) for Global MPI.

Indicators: The index is based on three equally weighted dimensions – health, education and standard of living – which in turn are represented by 12 indicators.

Key findings of the National MPI:

- 1) **Multidimensionally Poor:** Around 25.01% of the Indian population is multidimensionally poor. Bihar has the maximum percentage of the population living in poverty among all the States and the Union Territories, with over 50% of the population in the State identified as “multidimensionally poor”.
- 2) **Poverty Criteria:** The report took a person spending less than Rs 47 a day in cities and one spending less than Rs 32 a day in villages as poor.
- 3) **Healthy Nutrition:** Some 37.6% of Indian households are deprived of healthy nutrition levels.
- 4) **Child and Adolescent Mortality:** Some 2.7% households have reported child and adolescent mortality. A household is deprived if any child or adolescent under 18 years of age has died in the household in the five-year period preceding the survey.
- 5) **Education:** At least 13.9% households have a member aged 10 years or older who has not completed six years of schooling. At least 6.4% of households have a school-aged child not attending school up to the age at which he/she would complete class 8.

Q.1) Consider the following statements:

1. The President shall make rules for the more convenient transaction of the business of the Government of India.
2. All executive actions of the Government of India shall be expressed to be taken in the name of the Prime Minister.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) a

Exp) Option a is the correct answer.

Statement 1 is correct. According to Article 77(3), the President shall make rules for the more convenient transaction of the business of the Government of India and for the allocation among Ministers of the said business.

Statement 2 is incorrect. According to Article 77(1), all executive action of the Government of India shall be expressed to be taken in the name of the President (and not the Prime Minister).

Source) UPSC CSE 2014

Q.2) In case of which of the following types of bills, the Governor has to obligatorily reserve them for the consideration of President, after they have been passed by the State Legislature?

1. If the bill endangers the position of the state High Court.
2. If the bill is dealing with compulsory acquisition of property.
3. If the bill is against the provisions of Directive Principles of State Policy.
4. If the bill is against the larger interest of the country

Select the correct answer using the code given below:

- a) 1 only
- b) 1 and 4 only
- c) 2 and 3 only
- d) 1, 2, 3 and 4

Ans) a

Exp) Option a is the correct answer.

When a bill is sent to the Governor after it is passed by state legislature, he can give his assent to the bill, or withhold his assent to the bill, or return the bill or reserve the bill for the consideration of the President.

Statement 1 is correct: In one case reserving the bill is obligatory, that is, where the bill passed by the state legislature **endangers the position of the state high court.**

Statement 2, 3 and 4 are incorrect: In addition, the **Governor can also reserve** (discretionary power of the Governor and not obligatory on the Governor) the bill if it is of the following nature:

- (1) Ultra-vires, that is, **against the provisions of the Constitution. (Statement 4 is incorrect)**
- (2) Opposed to the **Directive Principles of State Policy. (Statement 3 is incorrect)**
- (3) **Against the larger interest of the country.**
- (4) Of grave national importance.
- (5) Dealing with compulsory acquisition of property under Article the Constitution.

However, in the above-mentioned cases, the reservation is not obligatory but on the discretion of the Governor.

Source: Indian Polity by Laxmikant – 6th Edition – Chapter 30 – Governor.

Q.3) With reference to pardoning powers of President of India, consider the following pairs:

Power	Explanation
1. Remission	Awarding a lesser sentence due to physical disability.
2. Respite	Reducing the period of sentence without changing its character.
3. Reprieve	Staying the execution of a sentence for a temporary period.

How many of the pairs above are correctly matched?

- a) None of the pairs
- b) Only one pair
- c) Only two pairs
- d) All the three pairs

Ans) b

Exp) Option b is the correct answer.

Pair 1 is incorrect. **Remission** implies **reducing the period of sentence** without changing its character. For example, a sentence of rigorous imprisonment for two years may be remitted to rigorous imprisonment for one year.

Pair 2 is incorrect. **Respite** denotes **awarding a lesser sentence** in place of one originally awarded due to some special fact, such as the **physical disability** of a convict or the pregnancy of a woman offender.

Pair 3 is correct. **Reprieve** implies a **stay of the execution of a sentence** (especially that of death) for a temporary period. Its purpose is to enable the convict to have time to seek pardon or commutation from the President.

Source: M Laxmikanth Polity. Chapter 17. President

Q.4) What were the reasons that the framers of Indian Constitution opted for Parliamentary System of Government rather than Presidential System of Government?

- 1. The Parliamentary System inherently establishes a much more stable government in comparison to Presidential System.
- 2. Unlike Presidential System, the Parliamentary System provides for a strict 'Separation of Powers' between the executive and the legislature.
- 3. The Parliamentary System provides scope for giving representation to various sections and regions in the government.

Select the correct answer using the codes given below:

- a) 2 only
- b) 3 only
- c) 1 and 3 only
- d) 2 and 3 only

Ans) b

Exp) Option b is the correct answer.

The Constitution of India has opted for the British parliamentary System of Government rather than American Presidential System of Government. The parliamentary system is also known as the 'Westminster'

model of government, responsible government and cabinet government. The Constitution establishes the parliamentary system not only at the Centre but also in the states.

Statement 1 is incorrect: The parliamentary system **does not provide a stable government**. There is no guarantee that a government can survive its tenure. The ministers depend on the mercy of the majority legislators for their continuity and survival in office.

On the contrary, the Presidential System provides for a more stable government than the Parliamentary System. In the Presidential System, the President is the head of the government. The President is elected by an electoral college for a **fixed tenure of four years. He cannot be removed by the Congress except by impeachment** for a grave unconstitutional act.

Statement 2 is incorrect: In the parliamentary system, the legislature and the executive are together and inseparable. The cabinet acts as the leader of legislature as well as the executive. Hence, the whole system of government **goes against the letter and spirit of the theory of separation of powers**. In fact, there is a fusion of powers.

Statement 3 is correct: India is one of the most heterogeneous States and most complex plural societies in the world. Hence, the Constitution-makers adopted the parliamentary system as it offers **greater scope for giving representation to various section, interests and regions in the government**. This promotes a national spirit among the people and builds a united India.

Q.5) With reference to various types of Solar Cells, consider the following statements:

1. Silicon-based inorganic solar cells cannot be commercialized as they become unstable in the presence of humidity.
 2. Perovskite solar cells are an affordable and eco-friendly alternative to silicon-based inorganic solar cells.
- Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) b

Exp) Option b is the correct answer.

Researchers from the Indian Institute of Technology (IIT), Guwahati, have developed Hybrid Perovskite-based Devices that can generate electricity through solar energy at a power conversion efficiency of more than 21%.

Statement 1 is incorrect. Perovskite solar cell (and not Silicon-based inorganic solar cells) are unstable towards humidity and oxygen, which restricts their commercialisation.

Silicon-based inorganic solar cells technology requires high-temperature processing that results in the high price of solar panels. Further, the recycling of solar panels is perilous and complicated.

Statement 2 is correct. The Perovskite-based devices also called photovoltaic devices are considered as an alternative to silicon based inorganic solar cells. These Perovskite-based devices are **affordable, easy to manufacture, eco-friendly and can be recycled easily**. Researchers have used a coating of appropriate material on perovskite-based devices so that it becomes 'stable' or less readily affected by the environment, in this case, humidity and oxygen.

Source: Making solar cells efficient, cheaper, recyclable: IIT-Guwahati finds a way -ForumIAS Blog

Q.6) In the context of the Constitution of India, the President can be removed from his office by a process of impeachment for-

- a) Constitutional Misconduct of Grave Nature
- b) Holding any other office of profit under the Union Government
- c) Violation of the Constitution
- d) Being an undischarged insolvent

Ans) c

Exp) Option c is the correct answer.

The President of India can be removed from office by a process of impeachment for ‘**violation of the Constitution**’. The Constitution does not define the meaning of the phrase ‘violation of the Constitution’. The impeachment charges can be initiated by either House of Parliament. These charges should be signed by one-fourth members of the House (that framed the charges), and a 14 days’ notice should be given to the President.

After the impeachment resolution is passed by a majority of two-thirds of the total membership of that House, it is sent to the other House, which should investigate the charges. The President has the right to appear and to be represented at such investigation. If the other House also sustains the charges and passes the impeachment resolution by a majority of two-thirds of the total membership, then the President stands removed from his office from the date on which the resolution is so passed. Thus, an **impeachment is a quasi-judicial procedure** in the Parliament.

Source: Laxmikanth

Q.7) With reference to the advice tendered by Council of Ministers to the President, consider the following statements:

1. The 44th Constitutional Amendment Act authorised the President to return a matter once for reconsideration of Council of Ministers.
2. The advice tendered by Council of Ministers to the President can be inquired in Supreme Court only.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) a

Exp) Option a is the correct answer.

Statement 1 is correct: The 42nd Constitutional Amendment Act of 1976 (enacted by the Indira Gandhi Government) made the President bound by the advice of the council of ministers headed by the prime minister. Later, the **44th Constitutional Amendment Act of 1978** (enacted by the Janata Party Government headed by Morarji Desai) authorised the President to **require the council of ministers to reconsider such advice either generally or otherwise**. However, he ‘shall’ act in accordance with the advice tendered after such reconsideration. In other words, the President may **return a matter once for reconsideration of his ministers**, but the reconsidered advice shall be binding.

Statement 2 is incorrect: Article 74(2) states that the advice tendered by Ministers to the President **shall not be inquired into in any court**. The Supreme Court has clarified the implications of Art. 74(2) in S.R. Bommai v. Union of India. No court is concerned with what advice was tendered by the Minister to the President. The court is **only concerned with the validity of the order** and not with what happened in the

inner councils of the President and the Minister. An **order cannot be challenged on the ground that it is not in accordance with the advice tendered by the Minister.**

Source: Laxmikanth Chapter 20

<https://blog.ipleaders.in/council-of-ministers-aid-advice-its-scope-ambit/>

Q.8) With reference to the qualifications for appointment as the President of India and Governor of a state, which of the following statements is/are correct?

1. Both should be qualified for elections as a member of Lok Sabha.
2. Both should be a citizen of India.
3. Both should have completed 25 years of age.
4. Both should hold an office under the Union government or a state government for at least ten years.

Select the correct answer using the code given below:

- a) 1, 2 and 3 only
- b) 2 and 3 only
- c) 2 only
- d) 2 and 4 only

Ans) c

Exp) Option c is the correct answer.

Statement 1 is incorrect. A President should be qualified for elections as a member of Lok Sabha but it is not a criterion for the Governor of a state.

Statement 2 is correct. Both the President and the Governor **should be a citizen of India** for his appointment.

Statement 3 is incorrect. Both the President and the Governor should **have completed 35 years** of age.

Statement 4 is incorrect. The President should not hold any office of profit under the Union government or state government. A sitting President or the Vice-President of the union, the governor of any state and a minister of Union or any state is deemed to not hold any office of profit.

Source: Laxmikanth revised edition chapter-30 page- 30.4, Chapter-17 page-17.4

Q.9) In relation to the Council of Ministers, why Prime Minister is called the ‘first among the equals’?

1. The President can appoint only those persons as ministers who are recommended by the Prime Minister.
2. The Ministers are Constitutionally required to communicate all decisions relating to their ministry to the Prime Minister.
3. The resignation or death of an incumbent Prime Minister automatically dissolves the entire Council of Ministers.

Select the correct answer using the codes given below:

- a) 1 only
- b) 1 and 2 only
- c) 2 and 3 only
- d) 1 and 3 only

Ans) d

Exp) Option d is the correct answer.

Lord Morley described **Prime Minister as ‘primus inter pares’ (first among equals)** and ‘key stone of the cabinet arch’. He said, “The head of the cabinet is ‘primus inter pares’, and occupied a position which so long as it lasts, is one of exceptional and peculiar authority” The term "prime minister" can be compared to "primary minister" or "first minister".

Statement 1 is correct: Prime Minister recommends persons who can be appointed as ministers by the president. The **President can appoint only those persons as ministers** who are recommended by the Prime Minister. Prime Minister can ask a minister to resign or advise the President to dismiss him in case of difference of opinion.

Statement 2 is incorrect: It is the duty of the **Prime Minister (not Council of Ministers) to communicate to the President** all decisions relating to the administration of the affairs of the Union and proposals for legislation.

Statement 3 is correct: Since the Prime Minister stands at the head of the council of ministers, the other ministers cannot function when the Prime Minister resigns or dies. In other words, the **resignation or death of an incumbent Prime Minister automatically dissolves the council of ministers** and thereby generates a vacuum. The resignation or death of any other minister, on the other hand, merely creates a vacancy which the Prime Minister may or may not like to fill.

Source: Laxmikanth Chapter 19

Q.10) Consider the following statements with reference to the Gig Economy:

1. It is characterized by short-term contracts or freelance work.
2. The Code on Social Security (2020) provides provisions for gig economy workers.
3. Digital platforms such as Uber and Ola, which act as a bridge by facilitating transaction between sellers and consumers, corresponds to gig economy.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

Recent Code on Social Security Bill, 2020, for the first time in Indian law acknowledges platform workers and gig workers as new occupational categories. The bill attempts to define 'platform work' outside of the traditional employment category.

Statement 1 is correct. The Gig Economy is characterized by **short-term contracts or freelance work as opposed to permanent jobs**. It often involves connecting with customers through an online platform. For example, delivery boys of app-based food, consultants, bloggers. The platform work economy is sometimes referred to as the gig worker economy, but Gig economy is a broader term that includes platforms like Uber, Ola Cabs, Swiggy, etc.

- 1) According to the World Bank, around 6% of the world's labour force is part of the gig economy. Globally, more than half of gig jobs are driven by demand for low-skilled, low-wage work. Only around 30% of them require specialized skills and expertise.

Statement 2 is correct. The Code on Social Security (2020) makes provisions for gig economy workers, mandating that the Union and state governments frame and notify relevant welfare schemes. These would provide life and disability cover, health and maternity benefits, old age protection, education, provident funds, injury benefits, and other types of measures.

Statement 3 is correct. Gig Economy describes a way of working where work is assigned on a short-term or job-by-job basis via platforms such as Uber, a taxi app, Zomato, a takeaway food service.

Digital technology has popularised platform-enabled gig work as it made it possible for businesses to leverage gig work to offer on-demand services to users. Instead of hiring employees to offer services to users, platforms act as a bridge by facilitating transaction between sellers and consumers. For instance, a

taxi driver looking for customers is better benefited by an app like Uber that instantly connects him to someone looking for a cab, rather than to look for one himself.

Source: <https://blog.forumias.com/gig-workers-and-their-challenges/>

Q.11) Consider the following statements:

1. According to the Constitution of India, a person who is eligible to vote can be made a minister in a State for six months even if he/she is not a member of the Legislature of that State.
2. A person convicted of a criminal offence and sentenced to imprisonment for five years is permanently disqualified from contesting an election.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) d

Exp) Option d is the correct answer.

Both Statements 1 and 2 are incorrect. Every citizen who is 18 years old on the qualifying date (January 1 of the year in case) unless disqualified, is eligible to be enrolled as a voter. Whereas an individual should be at least 25 years of age or more to be a member of the Legislative Assembly or a minister of the state. Thus, not every person who is eligible to vote can be made a minister in a State unless he is of the age as specified. To be able to become a minister, a person should be a member of the state Legislature, however, as an exception, an individual who is not an MLA can be considered as the CM if he gets himself elected to the State Legislature within six months from the date of his appointment.

As per Section 8 of the Representation of People Act 1951, a person convicted of any offence and sentenced to imprisonment for not less than **two years (not five years)** shall be disqualified from the date of such conviction and shall continue to be **disqualified for a further period of six years (not permanently disqualified)** since his release.

Source) UPSC CSE 2020

Q.12) Which of the following statements correctly defines the term 'Kitchen Cabinet'?

- a) It is the informal decision-making body with Prime Minister as its head and may include his friends, family and ministers as its members.
- b) It is an extra-constitutional Parliamentary body to facilitate in depth examination of policy issues.
- c) It is a group of members from opposition party that scrutinises the policies and actions of the ruling government.
- d) It is formal body that is collectively responsible to the Lower House of the Parliament for transact of government functions.

Ans) a

Exp) Option a is the correct answer.

Option a is correct. The 'Kitchen Cabinet' also called as 'Inner Cabinet' is the is the highest **informal decision-making body** consisting of the **Prime Minister** as its head and some **15 to 20** most important ministers. It may be composed of not only cabinet ministers but also outsiders like friends and family members of the prime minister. It advises the prime minister on important political and administrative issues and assists him in making crucial decisions.

Option b is incorrect. **Cabinet Committees** are extra constitutional bodies set up by Prime Minister according to the requirements of the situation. It can be temporary or permanent in nature that targets to reduce enormous workload of cabinet and facilitates in-depth examination of policy issues.

Option c is incorrect. **Shadow Cabinet** is a **British political institution** where a group of members from the opposition party holds the responsibility **to scrutinize the policies and actions of the ruling government**. It strengthens democracy and would help each party to develop capable leaders who could conduct an informed debate. It works under the Leader of the Opposition and will have expert party workers or neutral members assisting them.

Option d is incorrect. The **Council of Ministers** is a wider constitutional body that is collectively responsible to lower house of the Parliament. Its functions are determined by Cabinet Ministers for implementing government policies or businesses.

LAXMIKANT CHOCOUNCIL OF MINISTERS; CABINET COMMITTEES)

Q.13) With reference to the ‘Vice President of India,’ consider the following statements:

1. Under original Constitution, the Vice-President was elected by the two Houses of Parliament assembled at a joint meeting.
2. When the post of President falls vacant, the Vice President succeeds to the post for the remainder of the term of the President.
3. The election of a person as Vice-President cannot be challenged on the ground that the electoral college was incomplete.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

The Vice president of India is the deputy to the head of state of India, i.e., the president of India. The office of vice president is the second-highest constitutional office after the president and ranks second in the order of precedence and first in the line of succession to the presidency. The Vice-President is also the ex officio chairman of the Rajya Sabha.

Statement 1 is correct: The original Constitution provided that the **Vice-President would be elected by the two Houses of Parliament assembled at a joint meeting**. This cumbersome procedure was done away by the 11th Constitutional Amendment Act of 1961. Presently, he is elected by the members of an electoral college consisting of the members of both Houses of Parliament.

Statement 2 is incorrect: Though the office of the Indian Vice-President is modelled on the lines of the American Vice-President, there is a difference. The American Vice-President succeeds to the presidency when it falls vacant, and remains President for the unexpired term of his predecessor. The **Indian Vice-President, on the other hand, does not assume the office of the President when it falls vacant for the unexpired term**. He merely serves as an acting President until the new President assumes charge.

Statement 3 is correct: All doubts and disputes in connection with election of the Vice-President are **inquired into and decided by the Supreme Court** whose decision is final. The election of a person as Vice-President **cannot be challenged** on the ground that the **electoral college was incomplete** (i.e., existence of any vacancy among the members of electoral college). If the election of a person as Vice-President is

declared void by the Supreme Court, acts done by him before the date of such declaration of the Supreme Court are not invalidated (i.e., they continue to remain in force).

Source: LAXMIKANT Ch 20

Q.14) With reference to Central Council of Ministers, consider the following statements:

1. The total number of ministers in the Council cannot exceed 15% of the total strength of both houses of Parliament.
2. Every minister have the right to speak and take part in the proceedings of either House of Parliament.
3. The salaries and allowances of ministers are determined by the President on the advice of the Prime Minister.

Which of the statements given above is/are correct?

- a) 1 and 3 only
- b) 2 only
- c) 2 and 3 only
- d) 1 and 2 only

Ans) b

Exp) Option b is the correct answer.

The Central Council of Ministers is the principal executive organ of the Government of India. It is chaired by the prime minister and consists of the heads of each of the executive government ministries.

Statement 1 is incorrect: According to Article 75, the Prime Minister shall be appointed by the President and the other Ministers shall be appointed by the President on the advice of the Prime Minister. The total number of ministers, including the Prime Minister, in the Council of Ministers **shall not exceed 15% of the total strength of the Lok Sabha (not 15% of total strength of Parliament)**. This provision was added by the 91st Amendment Act of 2003.

Statement 2 is correct: Every minister shall have the right to speak and take part in the proceedings of either House, any joint sitting of the Houses and any Committee of Parliament of which he may be named a member. But he shall not be entitled to vote.

Statement 3 is incorrect: The salaries and allowances of ministers are determined by Parliament (not by the President) from time to time. A minister gets the salary and allowances that are payable to a member of Parliament.

Source: LAXMIKANT Ch 20

Q.15) Consider the following statements with reference to the India Semiconductor Mission (ISM):

1. It has been setup as an independent business division within Digital India Corporation.
2. Under this mission, a Design Linked Incentive (DLI) Scheme has been introduced to offer financial incentives to semiconductor industry.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) c

Exp) Option c is the correct answer.

Semiconductors and displays are the foundation of modern electronics driving the next phase of digital transformation under **Industry 4.0**. Semiconductors and display manufacturing is a technology-intensive

sector involving huge capital investments, high risk, **long gestation** and payback periods, and rapid changes in technology, which require significant and sustained investments.

Statement 1 is correct. India Semiconductor Mission (ISM) has been **setup as an Independent Business Division within Digital India Corporation**. It is provided with administrative and financial autonomy to formulate and drive India's long-term strategies for developing semiconductors and display manufacturing facilities and semiconductor design ecosystem.

Statement 2 is correct. The Design Linked Incentive (DLI) Scheme, introduced under the India Semiconductor Mission, shall **offer financial incentives as well as design infrastructure** support across various stages of development and deployment of semiconductor design for Integrated Circuits (ICs), Chipsets, System on Chips (SoCs), Systems & IP Cores and semiconductor linked design over a period of 5 years. The Design Linked Incentive (DLI) Scheme shall extend product design linked incentive of **up to 50% of eligible expenditure** and product deployment linked incentive of 6% - 4% on net sales for five years.

Source:

<https://pib.gov.in/PressReleasePage.aspx?PRID=1781723#:~:text=The%20India%20Semiconductor%20Mission%20will,on%20Semiconductors%20and%20Display%20ecosystem.>

Q.16) In case a Minister disagrees with policy decisions of the Council of Ministers, then:

1. S/he may give his resignation.
2. S/he may advise the President to dissolve the Council of Ministers.
3. S/he may be removed by the President on advice of the Prime Minister.
4. S/he may give a statement in Parliament regarding his differing views when the policy is being discussed.

Which of the statements given above are correct?

- a) 1, 3 and 4 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 4 only

Ans) c

Exp) Option c is the correct answer.

Recently the government in the United Kingdom has seen quick succession of resignations of the PM and other Ministers of the Council of Ministers (CoM). This is due to the principle of Collective Responsibility, which governs the decision making of the CoM in a Parliamentary Democracy. Both India and the UK have a system of Parliamentary Democracy. Article 75 of the Indian Constitution, states that the CoM is collectively responsible to the Parliament. This has significant bearing in case a single Minister of the CoM disagrees with the policy decisions.

Statement 1 is correct: Since **Article 75** insists on the principle of **collective responsibility**, the Minister with the dissenting opinion can **either agree** with the decision (having **expressed his dissent behind closed doors** within the CoM **only**). Or if his **conscience does not allow him to agree** with a certain decision, he can **resign his post as a Minister** of the CoM.

Statement 2 is incorrect: **Only the Prime Minister**, as the **head of the CoM**, and **not any other Minister** has the **right/ authority to advise the President to dissolve the CoM**. Hence this statement is **incorrect**.

Statement 3 is correct: If the **dissenting Minister refuses** to put up a **joint front, or resign** from the CoM on his own, the **PM** (and nobody else) may use his powers as the head of the CoM and **advise the President to remove** such a Minister from the CoM, so that the decisions of the CoM appear collective, and not fractured, in the Parliament. Hence this statement is **correct**.

Statement 4 is incorrect: As discussed previously, **Article 75**, makes it mandatory for the CoM to observe the principle of **Collective Responsibility**. This means that **members of CoM can disagree within closed walls** during its discussions, but **once a decision is taken**, they **all have to agree** with it, **abide** by it, and **defend it in the Parliament and in public**. So, **any Minister with a dissenting view**, must either **convince his colleagues** during closed door discussions of the CoM, or **himself change his view** to agree with it, or failing all else, **resign**. He/ She however, **cannot under any circumstance**, go out in the public or in the Parliament and **give a contrary statement registering his disagreement** with the policies of the CoM, while he is still occupying a post as a Minister. Hence this statement is **incorrect**.

Source: Indian Polity by Laxmikanth, 5th edition, Ch-20, Pg-20.3

Q.17) In which of the following way(s) the office of Attorney General of India differs from the office of Solicitor General of India?

1. Unlike Attorney General, the Constitution of India does not mention about the office of Solicitor General.
2. Unlike Solicitor General, Attorney General has the right to speak and participate in the proceedings of the Parliament.

Select the correct answer using the code given below:

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) c

Exp) Option c is the correct answer.

Statement 1 is correct: The Constitution (Article 76) has provided for the office of the Attorney General for India. He is the highest law officer in the country. However, the Constitution of India does not mention about the solicitor general and additional solicitor general. Solicitor General and Additional Solicitor General's office are governed by Law Officers (Conditions of Service) Rules, 1987.

Statement 2 is correct: In the performance of his official duties, the Attorney General has the right to speak and to take part in the proceedings of both the Houses of Parliament or their joint sitting and any committee of the Parliament of which he may be named a member, but without a right to vote. He enjoys all the privileges and immunities that are available to a member of Parliament. **Solicitor general has no right to speak and participate in the proceedings of the parliament.**

Source: Indian Polity by M. Laxmikant

Q.18) With reference to the procedure for the removal of the Vice President of India, consider the following statements:

1. The motion for his removal can be introduced in the Rajya Sabha only.
2. The motion for his removal is required to be passed in both the Houses by Special Majority.
3. An advance notice is needed before the proceedings for the removal can take place.
4. 'Violation of the Constitution' is the only ground mentioned in the Constitution for his removal.

Which of the statements given above is/ are correct?

- a) 1 and 2 only
- b) 1 and 3 only
- c) 3 and 4 only
- d) 1, 3 and 4 only

Ans) b

Exp) Option b is the correct answer.

The Vice President of India is the second highest constitutional office in India. He is a part of the Union Executive. The constitution contains various provisions with respect to the office of the Vice President - including his selection, term, duties, removal, etc. The provisions regarding his removal are mentioned in Article 67 of the Indian constitution.

Statement 1 is correct: The **Vice President** is the **Ex-Officio Chairperson** of the **Rajya Sabha**, and **primarily all his duties** lie in **that House of the Parliament** only (except when he is Acting as the President due to some emergency). Hence, as per **Article 67(b)** of the Indian constitution, the **motion for removing** the Vice-President from his office before the expiry of his term can be **originated in the Rajya Sabha only**. Hence this statement is **correct**.

This is in **contrast** to the office of the **President**, as the **motion** for his **impeachment (removal)** can be **originated in either House** of the Parliament.

Statement 2 is incorrect: The **motion for the removal** of the Vice President originates in the Rajya Sabha, but is **required to be passed in both**, the **Rajya and the Lok Sabha**, before it can take effect. So, both the Houses of the Parliament take part in the process of the Vice-President's removal.

In **Rajya Sabha**, where the removal motion originates, only an **Effective (not Special) Majority is required**. Hence this statement is **incorrect**.

Effective majority means **more than 50% of the strength** of the House **at that particular point of time**. In **Lok Sabha**, a different type of majority - a **Simple Majority** is required. Simple Majority means **more than 50%** of the number of members **present and voting at that time**.

Statement 3 is correct: According to **Article 67(b)** of the Indian constitution, **no proceedings** (i.e., introduction of the motion for removal) **for the removal** of the Vice President can take place, **without a compulsory advance notice period of 14 days**. Hence this statement is **correct**.

Statement 4 is incorrect: The **constitution** has **provided NO grounds** for the **removal of the Vice President**. These **may or may not be mentioned in the motion** for his **removal**. Hence this statement is **incorrect**.

It must be noted that '**Violation of the constitution**' is the **ground for removal** of the **President**, as mentioned in the **Indian constitution**.

Source: Indian Polity by Laxmikanth, 5th edition, Ch-18, Pg-18.3;

<https://vicepresidentofindia.nic.in/vice-president-india-and-constitution>

https://www.constitutionofindia.net/constitution_of_india/the_union/articles/Article%2067

Q.19) With reference to the Prime Minister in Indian Polity, consider the following statements:

1. S/he advises the President regarding the summoning and proroguing of sessions of Parliament.
2. S/he has a duty to keep the President informed of the affairs related to Union administration.
3. S/he acts as the Supreme Commander of the armed forces.

Which of the statements given above is/are correct?

- a) 1 only
- b) 1 and 2 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

The Prime Minister (PM) is the head of the party/ coalition which commands the majority in India's Parliamentary democratic system. Article 74, 75 and 78 details the various duties and responsibilities of the PM with respect to the executive as well as the legislative organs of the government.

Statement 1 is correct: Among the various areas of his responsibilities, are the **responsibilities of the PM towards the Parliament**. He is the one who **advises the President** as to the **dates** on which the **Parliament should be summoned, and when its sessions should be prorogued**. Hence this statement is **correct**.

Statement 2 is correct: The Constitution (**Article 78**) envisages the **PM as the channel/ conduit** which **relays all the communication** regarding various aspects of **administration, the bureaucracy** as well as the **decisions of the Council of Ministers** to the **President**. Hence this statement is **correct**.

Statement 3 is incorrect: It is the **President**, as the **head of the Executive (not the PM)**, who is the **supreme commander** of all the **3 wings of Indian armed forces**. Hence this statement is **incorrect**.

Source: Indian Polity by Laxmikanth, 5th edition, Ch-19, Pg-19.2, 19.3, 19.4; Ch-17, Pg-17.9

Q.20) Troika refers to the top grouping that consists of the current, previous and the incoming presidencies of which of the following?

- G-20
- European Union
- United Nations General Assembly
- Asian Development Bank

Ans) a

Exp) Option a is the correct answer.

Troika refers to the **top grouping within the G20** that consists of the **current, previous and the incoming presidencies**; currently they are **Indonesia, Italy and India**.

The G20 is the premier forum for **international economic cooperation**, which reflects a recognition that global prosperity is interdependent, and our economic opportunities and challenges are interlinked. G20 countries have come together to better prepare for the future.

As a founding member of the G20, India has used the platform to raise issues of vital importance and those that impact on the most vulnerable around the world.

Source: https://www.mea.gov.in/press-releases.htm?dtl/34551/India_enters_G20_Troika

Q.21) Consider the following statements:

- The Chief Secretary in a State is appointed by the Governor of that State.
- The Chief Secretary in a State has a fixed tenure.

Which of the statements given above is/are correct?

- 1 only
- 2 only
- Both 1 and 2
- Neither 1 nor 2

Ans) d

Exp) Option d is the correct answer.

Neither 1 nor 2 is correct. The Chief Secretary of the state is **appointed by the Chief Minister** of the state. **There is no fixed tenure of a Chief Secretary in a state.**

However, at the central level, there is assured tenure of two years for Cabinet Secretary, Home Secretary, Defence Secretary, Foreign Secretary as well as RAW and IB chief.

The Administrative Reform Commission in 1969 had recommended that a Chief secretary should have a minimum tenure of three to four years.

Source) UPSC CSE 2016

Q.22) With reference to the executive in a state, consider the following statements:

1. A Vote of no confidence against Council of Ministers leads to the fall of Government.
2. The ministers hold office during the pleasure of the Governor.

Which of the statements given above is/ are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) c

Exp) Option c is the correct answer.

In the Parliamentary system, the core of the Executive in a state is formed by the Council of Ministers (CoM) led by the Chief Minister.

Statement 1 is correct: Article 164 of the Indian Constitution **mandates the CoM to follow the Principle of Collective Responsibility.** This means that **all the members of the CoM are together responsible to the state legislature** for their **acts of omission** (what they decide not to do) **and commission** (what they decide to do). In case of passing of no confidence motion against CoM it will result in **fall of government.**

Statement 2 is correct: Article 164 says that the ministers shall hold office during the pleasure of the Governor.

Source: Indian Polity by Laxmikanth, 5th edition, Ch-20, Pg-20.3, 20.4

Q.23) Consider the following statements:

1. During National Emergency, the Central government can give executive directions to a state on any matter.
2. During President's Rule, the state Council of Ministers is dismissed and the state legislature is suspended or dissolved.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) c

Exp) Option c is the correct answer.

Statement 1 is correct: During **National Emergency declared under Article 352**, the state executive and legislature continue to function and exercise the powers assigned to them under the Constitution. But during a national emergency, the executive power of the Centre extends to directing any state regarding the manner in which its executive power is to be exercised.

That is the Centre becomes entitled to give executive directions to a state on 'any' matter. Thus, the **state governments are brought under the complete control of the Centre.**

Statement 2 is correct: During **Emergency declared under Article 356**, the state executive is **dismissed and the state legislature is either suspended or dissolved.** Article 357 provides for the administrators the state by the President through the Governor and the Parliament makes laws for the state. In brief, the **executive and legislative powers of the state are assumed by the Centre.** Under this, the Parliament can delegate the power to make laws for the state to the President or to any other authority specified by him. Under this, the relationship of only the state under emergency with the Centre undergoes a modification.

Source: Indian Polity by Laxmikant – 6th Edition – Chapter 16 – Emergency.

Q.24) With reference to the comparison between the Cabinet Committees and the Group of Ministers (GoM) in the Indian Polity, consider the following statements:

1. Neither of the two bodies are mentioned in the constitution.
2. Both are ad hoc bodies created to consider only the Demands for Grants of the Ministries.
3. While Cabinet Committees consist of only ministers of Cabinet rank, ministers of any rank can be a part of GoM.

Which of the statements given above is/ are correct?

- a) 1 only
- b) 1 and 3 only
- c) 1 and 2 only
- d) 2 and 3 only

Ans) a

Exp) Option a is the correct answer.

In order to carry out the complex administrative tasks of a country as vast and diverse as ours, certain innovations are made by the Executive from time to time. An example of these innovations are bodies like the Cabinet Committees and the Group of Ministers (GoM). While somewhat similar, these bodies are different in many ways.

Statement 1 is correct: Both Cabinet Committees and GoM are extra-constitutional bodies. This means that they **don't owe their existence to the constitution** (i.e., they are **not mentioned in it**). They are an **instrument of the Executive's innovation** in order to **lighten the administrative workload** and better tackle some emergency situations requiring more attention and coordination of the Executive. Hence this statement is **correct**.

Cabinet Committees are found **mentioned in the Rules of Business**, which provide the option of establishing them by the **order of the Prime Minister**. The **GoM is created on the instructions of the PM** to tackle certain emergent issues and critical problems. They are **not mentioned in any Rules or Procedures** relating to the Parliament or the Executive.

Statement 2 is incorrect: It is the Department-related Parliamentary Standing Committees which consider the Demands for Grants of the related Ministries/Departments.

The **Cabinet Committees** can be of **two types - Standing (permanent**, like Economic Affairs Committee, Appointments Committee, etc) or **ad hoc (temporary)**. On the other hand, the **GoM is a strictly ad hoc body only**. It is **created to look into a certain critical issue** requiring greater focus, attention and coordination, and is **disbanded after the issue has been managed** (for ex GoM for Commonwealth Games, 2010 hosted by India). Hence this statement is **incorrect**.

Statement 3 is incorrect: Both Cabinet Committees, as well as GoM can have ministers as its members who are of the Cabinet rank, as well as any other rank, if they have a role to play, or are related in some way with the issue being resolved by these. **Hence this statement is incorrect.**

Source: Indian Polity by Laxmikanth, 5th edition, Ch-21, Pg-21.1, 21.2

Q.25) Which among the following statements is/are correct with regard to 'Gaganyaan Mission' programme?

1. Gaganyaan is India's first Human Space Flight to send humans to Medium-earth Orbit.
2. Two unmanned missions and one manned mission are approved as part of the programme.
3. Russia trains the astronauts who were selected to become crew of the Gaganyaan mission.

Select the correct answer using the code given below:

- a) 1 only
- b) 1 and 2 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

Gaganyaan is India's first Human Space Flight Programme to be **launched by the ISRO**. The Gaganyaan Programme envisages undertaking the demonstration of human spaceflight in the short-term and will lay the foundation for a sustained Indian human space exploration programme in the long run.

Statement 1 is incorrect: Gaganyaan would demonstrate India's capability to send humans to low earth orbit (LEO) (**and not Medium-Earth Orbit**) onboard an Indian Launch Vehicle and bring them back to earth safely.

Statement 2 is correct:

As part of this programme, two unmanned missions and one manned mission are approved by Government of India (GoI).

The objective of Gaganyaan programme is to demonstrate indigenous capability to undertake human space flight mission to LEO. The 1st Uncrewed mission of Gaganyaan(G1) are scheduled to be launched during the beginning of the 2nd half of 2022. This will be followed by a second Uncrewed mission at the end of 2022 carrying "Vyom Mitra", a spacefaring human-robot developed by ISRO. Finally, the **first crewed Gaganyaan Mission will be launched in 2023.**

Statement 3 is correct: Russia and France are two main countries currently aiding India in the Gaganyaan Mission. Russia will be **training the astronauts** who will go onboard the Gaganyaan Mission. It will also provide equipment like a spacesuit, crew seat and Viewport. France will be training **medical support personnel** for the mission. It will also be supplying fireproof carry bags made in France to shield equipment from shocks and radiation.

Recently four Indian officers, who were selected to become astronauts to crew Gaganyaan into orbit, have completed their one-year training course in Russia.

Knowledge Base:

- 1) GSLV Mk III, also called the LVM-3 (Launch Vehicle Mark-3,) the three-stage heavy lift launch vehicle, will be used to launch Gaganyaan as it has the necessary payload capability.

Q.26) Consider the following statements about the effect of National emergency on the Fundamental Rights of the citizens:

1. Unlike Article 358, Article 359 suspends the fundamental rights for the entire duration of Emergency.
2. Unlike Article 358, Article 359 suspends the fundamental rights in case of both External as well as Internal Emergency.
3. Neither Article 358 nor Article 359 result in the suspension of fundamental rights guaranteed by Articles 20 and 21.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 3 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

Statement 1 is incorrect. Article 358 suspends Fundamental Rights under Article 19 for the **entire duration** of Emergency while Article 359 suspends the enforcement of Fundamental Rights for a **period specified** by the president which may either be the entire duration of Emergency or a shorter period.

Statement 2 is correct. Article 358 operates only in case of **External Emergency** (that is, when the emergency is declared on the grounds of war or external aggression) and not in the case of Internal Emergency (ie, when the Emergency is declared on the ground of armed rebellion). On the other hand, Article 359, operates in case of **both External Emergency** as well as **Internal Emergency**.

Statement 3 is correct. Article 358 is confined to **Fundamental Rights under Article 19 only** whereas Article 359 extends to all those Fundamental Rights whose enforcement is suspended by the Presidential Order.

According to Article 358, when a proclamation of national emergency is made, the six Fundamental Rights under Article 19 of the Constitution are automatically suspended.

The 44th Amendment Act of 1978 restricted the scope of Article 359 by **not allowing President to suspend the right to move the Court for the enforcement of fundamental rights guaranteed by Articles 20 to 21.**

In other words, **the right to protection in respect of conviction for offences (Article 20) and the right to life and personal liberty (Article 21) remain enforceable even during emergency.**

Source: M. Laxmikanth Chapter 16 Emergency Provisions

Q.27) With reference to the comparisons between the provisions for National Emergency and Financial Emergency in the Indian constitution, consider the following statements:

1. Declaration of both types of Emergencies has to be approved by the Parliament within 1 month.
2. Both needs to be approved by a two-third majority of members in both the Houses of Parliament.
3. Both types of Emergencies can continue to operate for an indefinite period of time.
4. President's revocation of both types of Emergencies requires Parliamentary approval by a simple Majority.

Which of the statements given above is/ are correct?

- a) 1 and 2 only
- b) 3 only
- c) 1 and 3 only
- d) 2 and 4 only

Ans) b

Exp) Option b is the correct answer.

Emergency provisions are a group of provisions in Part XVIII of the Indian constitution, which deal with the centre-state relations in case of any unforeseen situation. The rationale behind these provisions is to safeguard sovereignty, unity, integrity and security of the country, the political system and its Constitution.

Statement 1 is incorrect: Declaration of **National Emergency** under **Article 352** of the constitution requires **Parliamentary approval (from both Houses)** within **1 month** of declaration in order to be valid. While in the case of the declaration of **Financial Emergency**, this period is **2 months**. Hence this statement is **incorrect**.

Originally the time period allotted for **Parliamentary approval** of declaration of **National Emergency was 2 months too**. However, **after the Debacle of the Emergency in 1975**, the new government through the **44th Constitutional Amendment Act, 1978, reduced this period to 1 month** in this case **to prevent future misuse** of this provision.

Statement 2 is incorrect: Originally declaration of both National and Financial Emergency approval by the Parliament required only a Simple Majority in both the Houses. However, after the Emergency in 1975, the new government, through the 44th Constitutional Amendment Act, 1978 made the Parliamentary approval for National Emergency's declaration possible only when passed through a Special Majority (more than $\frac{2}{3}$ members present & voting) in both the Houses. The provisions for Parliamentary approval in case of Financial Emergency remained untouched, and still require only a Simple Majority in both the Houses.

Statement 3 is correct: There is no limit on the total duration of time for which both, the National as well as Financial Emergencies can remain in operation. Hence this statement is correct.

However, it must be noted that there is a major difference between these two on this front. While the Financial Emergency can continue to remain in operation without any periodic confirmation required for its continuance from the Parliament, in case of National Emergency, the procedure is slightly different. In case of National Emergency, a Parliamentary approval, from both the Houses of the Parliament is required every 6 months for it to continue. Also note, that in case of President's Rule, this redeclaration can only extend to a maximum of 3 years (6 months at a time).

Statement 4 is incorrect: The President can revoke both, the National Emergency, as well as Financial Emergency through a proclamation, at any time. In both cases, no Parliamentary approval is required for the revocation proclamation of the president. Hence this statement is incorrect.

Note, that in case of National Emergency only, Lok Sabha can pass a resolution, demanding discontinuation of the National Emergency, at any time, with just a Simple Majority. This was another of the safeguards added by the 44th Constitutional Amendment Act of 1978 to prevent misuse of Emergency provisions.

Source: Indian Polity by Laxmikanth, 5th edition, Ch-16, pg-16.2, 16.3, 16.6, 16.10

Q.28) With reference to the various important provisions of the Indian constitution, consider the following pairs:

Article No	Subject Matter
1. Article 352	Imposition of National Emergency
2. Article 356	Duty of Union to protect States against external aggression & internal disturbance
3. Article 360	Failure of constitutional machinery in states
4. Article 365	Effect of failure to comply with directions given by the Union to states

How many pairs given above are correctly matched?

- Only one pair
- Only two pairs
- Only three pairs
- All four pairs

Ans) b

Exp) Option b is the correct answer.

Emergency provisions are a group of provisions in Part XVIII of the Indian constitution, which deal with the centre-state relations in case of any abnormal situation. The rationale behind these provisions was to safeguard sovereignty, unity, integrity and security of the country, its political system and its Constitution.

Pair 1 is correct: Article 352 declares **what is meant by a National Emergency**. According to it, the President can declare National Emergency when the **security of India or a part of it is threatened by a) war, or b) external aggression or c) armed rebellion**.

Pair 2 is incorrect: Article 356 declares the **effect of the failure of constitutional machinery in a state**, i.e., **President's Rule/ State emergency**. It is Article 355, which deals with the **duty of the Union to protect states against external aggression & internal disturbance and ensuring that government in each state is carried on according to the provisions of the constitution (i.e., properly working constitutional machinery in the state)**.

Pair 3 is incorrect: Article 360 deals with the **definition of situations** in which a **Financial Emergency** may be announced in **entire India or a part thereof**.

Pair 4 is correct: Article 365 is a provision which **supports Article 356 in declaring the President's Rule** in a state of the country. This Article says that the **states are bound to follow the directions** given by the **Union Executive**. In case the **state wilfully ignores** these directions, it will be said to **mean a breakdown of constitutional machinery** in that state and will make it **liable to be declared under President's Rule/ State Emergency**.

Source: Indian Polity by Laxmikanth, 5th edition, Ch-16, Pg-16.1, 16.5, 16.6, 16.9

Q.29) Which of the following type(s) of responsibility is enforced by the Constitution on the Council of Ministers?

1. Collective Responsibility
2. Individual Responsibility
3. Legal Responsibility

Select the correct answer using the code given below.

- a) 1, 2 and 3
- b) 1 only
- c) 2 and 3 only
- d) 1 and 2 only

Ans) d

Exp) Option d is the correct answer.

Statement 1 is correct: Article 75 states that the Council of Ministers are collectively responsible to the Lok Sabha. When the Lok Sabha passes a no-confidence motion against the Council of Ministers, all the ministers have to resign including those ministers who are from Rajya Sabha.

Statement 2 is correct: Article 75 also contains principle of Individual responsibility. It states that ministers hold office during the pleasure of President. The President can remove the minister only on the advice of Prime Minister. In case of difference of opinion, the Prime Minister can ask President to remove a minister. This provision helps in realisation of collective responsibility.

Statement 3 is incorrect: In Britain, every order of the King is countersigned by a minister, thus making the minister legally responsible for the action. But in India, all orders are issued in the name of the President, hence there is no provision for legal responsibility.

Source: Indian Polity - M Laxmikanth - Fifth Edition, Page - 20.3, 20.4

Q.30) Which among the following statements are correct with regards to NFTs (Non-fungible Tokens)?

1. They are not plagiarism-proof.
2. The process of minting an NFT is totally free-of-cost.
3. Each NFT has a digital signature that makes it impossible for an NFTs to be exchanged for another.

Select the correct answer using the code given below:

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

Non-Fungible Tokens (NFTs) are unique cryptographic tokens that exist on a blockchain and cannot be replicated. They are one-of-a-kind **assets in the digital world that can be bought and sold** like any other piece of property, but they have no tangible form of their own.

Statement 1 is correct: NFTs are **not plagiarism-proof**. NFTs are like a deed that confirms the ownership of the asset. This does not restrict anyone to counterfeit or copy the asset. For example, a song can, be turned into NFT. One may have full ownership rights of the song but this **cannot prevent someone else copying the same**.

Statement 2 is incorrect: There are **several costs** that are incurred while minting and selling an NFT. This includes platform fees, minting fees, sales fees etc. Thus, minting an NFT is **not free-of-cost**.

Statement 3 is correct: Each NFT has a **digital signature that makes it impossible for NFTs to be exchanged for or equal to one another** (hence, non-fungible). Physical money and cryptocurrencies are “fungible,” meaning they can be traded or exchanged for one another.

Source: <https://www.livemint.com/opinion/online-views/nfts-are-overhyped-but-useful-for-our-creative-economy-11638896564067.html>

<https://www.cnbctv18.com/cryptocurrency/how-to-mint-nfts-astep-by-step-guide-12058112.htm>

Q.31) Consider the following statements:

1. No criminal proceedings shall be instituted against the Governor of a State in any court during his term of office.
2. The emoluments and allowances of the Governor of a State shall not be diminished during his term of office.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) c

Exp) Option c is the correct answer.

Statement 1 is correct. According to provisions made in the Constitution, Governor of a state has following immunity-

Article 361(2): During his term of office, he is immune from any criminal proceedings, even in respect of his personal acts.

Statement 2 is correct. As par Article 158(4) of the Indian Constitution, the emoluments and allowances of the Governor cannot be diminished during his term of office.

Source) UPSC CSE 2018

Q.32) With reference to Cabinet Committees in Indian polity, consider the following statements:

1. All the Cabinet Committees are chaired by the Prime Minister.
2. Currently, there are twenty-four Cabinet Committees functioning in India.
3. No Cabinet Committee can take any binding decisions on any ministries/departments without the approval of full Cabinet.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) None

Ans) d

Exp) Option d is the correct answer.

Cabinet committees are those extra-constitutional bodies that help in the management of the complex business of the government. These committees draw their roots from the Indian Council Act, 1861. These are mentioned in the Rules of Business, which are an instrument of the Executive's innovation in order to lighten the administrative workload.

Statement 1 is incorrect: Most (not all) of the Cabinet Committees are chaired by the Prime Minister. Hence this statement is **incorrect**.

Especially **those cabinet committees** of which **PM is a part**, he/she **is the chairman by default**. However, **other important Ministers** like those of **Finance or Home** are **also chairman** of some important Cabinet Committees, for example the **cabinet committee on Parliamentary Affairs** is chaired by the **Home Minister**.

Statement 2 is incorrect: As of 2022, there are eight Cabinet committees functioning namely:

- 1) Appointments Committee of the Cabinet
- 2) Cabinet Committee on Accommodation
- 3) Cabinet Committee on Economic Affairs
- 4) Cabinet Committee on Parliamentary Affairs
- 5) Cabinet Committee on Political Affairs
- 6) Cabinet Committee on Security
- 7) Cabinet Committee on Investment and Growth
- 8) Cabinet Committee on Employment and Skill Development

Statement 3 is incorrect: Cabinet committee is a group of ministers which can take collective decisions that are **binding across various ministries/departments**. **Cabinet Committees do make recommendations** for the Cabinet to act upon, however, **some of the Cabinet committees** are also **empowered to take decisions on their own**. The decisions of Cabinet Committee on Political Affairs or the Cabinet Committee on Economic Affairs is quite **final and does not need the approval of the full Cabinet**.

Source: Indian Polity by Laxmikanth, 5th edition, Ch-21, Pg-21.1,21.2

Q.33) With reference to the differences between the Council of Ministers (CoM) and the Cabinet, consider the following statements:

1. Unlike the Cabinet, the CoM does not usually meet as a body to transact government business and has no collective functions.
2. While the CoM is a constitutional body, the term 'Cabinet' is not mentioned in the Constitution.
3. While the CoM is presided over by the Prime Minister, the Cabinet Secretary presides over Cabinet meetings.

Which of the statements given above is/ are correct?

- a) 1 only
- b) 2 and 3 only
- c) 1 and 2 only
- d) 1 and 3 only

Ans) a

Exp) Option a is the correct answer.

India is a Parliamentary Democracy. Its Executive consists of the Council of Ministers headed by the Prime Minister advising the President at its core. The Cabinet is a smaller and more central part of the Council of Ministers which handles all the core and most important decision making of the government. Following is a discussion on some of the differences between these two bodies.

Statement 1 is correct: The **Council of Minister (COM)** is a **very wide body**, containing **various levels and types of Ministers**, having **different powers and functions**, so the **CoM does not have any uniform collective function** as such. CoM does not usually meet as a body to transact government business and has no collective functions. On the other hand, the **Cabinet** is the **innermost circle of the Executive**, consisting of **Ministers holding the most important portfolios** as well as the **Prime Minister**. It is this cabinet which **takes all the important politico-administrative decisions**, and **tenders the advice to the President**, that is often found mentioned in the constitution.

Statement 2 is incorrect: The **CoM finds mention in the Indian constitution in Article 74 and 75** which details its **structure and role in the Parliamentary democracy**. The word **cabinet** was **not found originally** in the constitution, but by the **44th constitutional amendment of 1978**, the word 'cabinet' was **inserted in Article 352**. This Article only defines a cabinet saying it is 'the council consisting of the Prime Minister and other ministers of cabinet rank appointed under Article 75' and **does not describe its power and functions**. Hence this statement is **incorrect**, as **both the words find mention in the Indian Constitution**. The only difference is that the constitution describes CoM in detail, while the Cabinet is only mentioned once and briefly.

Statement 3 is incorrect: The Prime Minister is the *de jure* (real) head of the Executive. **So, it is the Prime Minister only who presides over both, the CoM and the Cabinet meetings. Hence this statement is incorrect.**

Source: Indian Polity by Laxmikanth, 5th edition, Ch-20, pg-20.4, 20.5

Q.34) With reference to the imposition of President's Rule in a state, consider the following statements:

1. It can be imposed if a state fails to comply with the directions given to it by the Union government.
2. It must be approved by the Parliament within two months from the date of its proclamation.
3. A resolution approving the proclamation of President's Rule requires only a simple majority.
4. The 44th Amendment Act provides some conditions for its extension beyond one year.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1, 3 and 4 only
- d) 1, 2, 3 and 4

Ans) d

Exp) Option d is the correct answer.

Article 355 imposes a duty on the Centre to ensure that the government of every state is carried on in accordance with the provisions of the Constitution. And the Centre takes over the government of a state

under Article 356 in case of failure of constitutional machinery in state. This is popularly known as ‘President’s Rule’ or ‘State Emergency’ or ‘Constitutional Emergency’.

Statement 1 is correct: The President’s Rule can be proclaimed under Article 356 on two grounds—one mentioned in Article 356 itself and another in Article 365:

1) **Article 356** empowers the President to issue a proclamation, if he is satisfied that a situation has arisen in which the **government of a state cannot be carried on in accordance with the provisions of the Constitution**.

2) **Article 365** says that **whenever a state fails to comply with or to give effect to any direction from the Centre**, it will be lawful for the President to hold that a situation has arisen in which the government of the state cannot be carried on in accordance with the provisions of the Constitution.

Statement 2 is correct: A proclamation imposing President’s Rule must be **approved by both the Houses of Parliament** within **two months** from the date of its issue. However, if the proclamation of President’s Rule is issued at a time when the Lok Sabha has been dissolved or the dissolution of the Lok Sabha takes place during the period of two months without approving the proclamation, then the proclamation survives until 30 days from the first sitting of the Lok Sabha after its reconstitution, provided the Rajya Sabha approves it in the meantime.

Statement 3 is correct: Every resolution approving the proclamation of President’s Rule or its continuation can be passed by either House of Parliament **only by a simple majority, that is, a majority of the members of that House present and voting**.

Statement 4 is correct: The **44th Amendment Act of 1978** provided that, beyond one year, the President’s Rule can be extended by six months at a time only when the following two conditions are fulfilled:

- 1) a **proclamation of National Emergency should be in operation in the whole of India**, or in the whole **or any part of the state**; and
- 2) the **Election Commission must certify** that the general elections to the legislative assembly of the concerned state cannot be held on account of difficulties.

Knowledge Base:

A proclamation of President’s Rule may be revoked by the President at any time by a subsequent proclamation. Such a proclamation does not require the parliamentary approval.

Source: Indian Polity by Laxmikant – 6th Edition – Chapter 16 – Emergency.

Q.35) Consider the following statements regarding National Family Health Survey-5:

1. The Phase-II of the National Family Health Survey-5 covers only the North-Eastern states and Union Territories of India.
2. All States and Union Territories covered under Phase-II have achieved replacement level of fertility.
3. More than half of the children and women are anaemic in all the phase-II States/Union Territories covered.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 only
- c) 1 and 3 only
- d) 3 only

Ans) d

Exp) Option d is the correct answer.

The National Family Health Survey (NFHS) is a large-scale, multi-round survey conducted based on the representative samples collected from households throughout India. NFHS is released by the **Ministry of Health and Family Welfare (MOHFW)**.

But the MOHFW designated the International Institute for Population Sciences (IIPS), Mumbai, as the nodal agency. The IIPS is responsible for providing coordination and technical guidance for the survey.

Statement 1 is incorrect. Ministry of Health and Family Welfare (MOHFW) has released the 2019-21 National Family Health Survey (NFHS-5) that belongs to phase-2 states along with all-India data. **Not only the North Eastern states and Union Territories are included in the Phase II of the Survey.**

States covered in NFHS-5 phase II: Arunachal Pradesh, Chandigarh, Chhattisgarh, Haryana, Jharkhand, Madhya Pradesh, NCT of Delhi, Odisha, Puducherry, Punjab, Rajasthan, Tamil Nadu, Uttar Pradesh and Uttarakhand.

Statement 2 is incorrect. According to the findings of NFHS-5 Phase II, Total Fertility Rates (TFR) declined from 2.2 to 2.0 at the national level. All Phase-II States have achieved replacement level of fertility (2.1) except Madhya Pradesh, Rajasthan, Jharkhand and Uttar Pradesh.

The total fertility rate (TFR) of a population is the average number of children that would be born to a woman over her lifetime.

Statement 3 is correct. According to the survey, more than half of the children and women (including pregnant women) are anaemic in all the phase-II States/UTs and all-India levels compared to NFHS4.

Assam is among the worst-performing states, with a huge spike in anaemic cases.

Knowledge Base:

Other Key Findings of NFHS-5 Phase II:

- 1) **Contraceptive Prevalence Rate (CPR):** Increased from 54% to 67% at an all-India level and in almost all Phase-II States/UTs with an exception of Punjab.
- 2) **Full immunization drive:** Improved among children aged 12-23 months from 62% (NFHS-4) to 76% at an all-India level.
- 3) **Institutional births:** Increased substantially from 79% to 89% at all-India levels. Institutional delivery is 100% in Puducherry and Tamil Nadu and more than 90 per cent in 7 States/UTs out of 12 Phase II States/UTs.]
- 4) **Child Nutrition:** When compares to NFHS-4, 1. Stunting – declined from 38.4% to 35.5%, 2. Wasting declined from 21% to 19.3%, 3. Underweight – declined from 35.8% to 32.1% and 4. Overweight – Increased from 2.1% to 3.4%. Further, breastfeeding is also shown an improvement from 55% in 2015-16 to 64% in 2019-21.
- 5) **Child marriage:** Declined from 27% to 23% in the last five years. West Bengal and Bihar had the highest prevalence of girl child marriage, and this has remained unchanged since the NFHS-4.
- 6) **Women's empowerment:** Significant progress has been recorded between NFHS-4 and NFHS-5 in regard to women operating bank accounts from 53% to 79% at an all-India level.

What is National Family Health Survey (NFHS)? | ForumIAS Blog

Q.36) Which of the following statements is/are correct about the appointment of Chief Ministers of the states?

1. The person must be a member of the respective state legislature before being appointed as Chief Minister.
2. The person must prove his/her majority in the state legislative assembly before being appointed as Chief Minister.

Select the correct answer the code given below.

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) d

Exp) Option d is the correct answer.

Statement 1 is incorrect. According to the Constitution of India, a person **need not be a member of state legislatures** at the time of appointment to the post of Chief Minister. He can be appointed as Chief Minister for **6 months** and within that tenure, he/she must become a member of the state legislature.

Statement 2 is incorrect. The Constitution of India **does not require the person** to prove his/her majority in state legislative assembly before being appointed as the Chief Minister. The Governor may first appoint him/her as Chief Minister and then can ask them to prove their majority in legislative assembly in a reasonable period.

Source: LAXMIKANT

Q.37) Which of the following are considered as part of the executive branch of a State Government?

1. Governor
2. Chief Minister
3. State Council of Ministers
4. Advocate General of State
5. Lokayukta

Select the correct answer using the code given below:

- a) 1, 2, 3 and 4 only
- b) 2, 3 and 4 only
- c) 1, 2 and 3 only
- d) 1, 2, 3, 4, and 5

Ans) a

Exp) Option a is the correct answer.

The government is based on the separation of powers and consists of three organs such as the Legislature, Executive and the Judiciary. The State Executive is the part of the state government which enforces the law and is responsible for the administration of the state.

Statement 1, 2, 3, and 4 are correct: The **State Executive** is made up of the following:

- 1) **Governor** - Governor is the nominal head of a state.
- 2) **Chief Minister** - The Chief Minister is the most powerful functionary at the State Government level and is the executive head of the state.
- 3) **Council of Ministers** - It is responsible for being the senior decision-making body of the executive branch. It is chaired by the Chief Minister and consists of the heads of each of the executive government ministries.
- 4) **Advocate General of the State** - He is the highest law officer in the state.

Statement 5 is incorrect: **Lokayukta** is an independent and impartial functionaries created to investigate the actions and decisions of public servants. These functionaries are held at par with the Judges of the Supreme Court and High Court; and **independent of the legislature and executive.**

Source: <https://egyankosh.ac.in/bitstream/123456789/68095/3/Unit-9.pdf>

Q.38) With reference to the office of the Governor of states, consider the following statements:

1. A Governor whose term has expired can be reappointed in the same state.
2. In the absence of President, his oath is administered by the Chief Justice of India.
3. A Governor enjoys the security of tenure and a fixed term of five years.
4. As per the Constitution, he may be removed only if he is proved to be of unsound mind.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 1 only
- c) 2 and 4 only
- d) 1 and 3 only

Ans) b

Exp) Option b is the correct answer.

Statement 1 is correct: The President may transfer a Governor appointed to one state to another state for the rest of the term. A Governor whose term has expired may be **reappointed in the same state or any other state**.

Statement 2 is incorrect: The **oath** of office to the Governor is administered by the **chief justice of the concerned state high court, and in his absence, the senior-most judge of that court** available. Before entering upon his office, the Governor has to make and subscribe to an oath or affirmation. In his oath, the Governor swears:

- (a) to faithfully execute the office;
- (b) to preserve, protect and defend the Constitution and the law; and
- (c) to devote himself to the service and well-being of the people of the state.

Statement 3 is incorrect: A Governor holds office for a term of five years from the date on which he enters upon his office. However, this term of five years is **subject to the pleasure of the President**. He may be removed by the President at any time. **The Governor has no security of tenure and no fixed term of office**. Further, he can resign at any time by addressing a resignation letter to the President.

Statement 4 is incorrect: The **Constitution does not lay down any grounds** upon which a Governor may be removed by the President.

Knowledge Base:

A Governor can hold office beyond his term of five years until his successor assumes charge. The underlying idea is that there must be a Governor in the state and there cannot be an interregnum. The President can make such provision as he thinks fit for the discharge of the functions of the Governor in any contingency not provided for in the Constitution, for example, the death of a sitting Governor. Thus, the chief justice of the concerned state high court may be appointed temporarily to discharge the functions of the Governor of that state.

Source: Indian Polity by Laxmikant – 6th Edition – Chapter 30 – Governor.

Q.39) With reference to the ordinance making power of Governor and President, consider the following statements:

1. Contrary to the President, the Governor can issue an ordinance only when both Houses of a bicameral state legislature are not in session.
2. Unlike the President, the Governor cannot make ordinance on the subjects listed in the Concurrent List.
3. An ordinance issued by both of them becomes ineffective only after six months of reassembly of Parliament/state legislature.
4. Unlike President, the power of Governor to issue ordinances is a discretionary power.

Which of the statements given above are **incorrect**?

- a) 1, 2 and 3 only
- b) 2 and 4 only
- c) 1, 2 and 4 only
- d) 1, 2, 3 and 4

Ans) d

Exp) Option d is the correct answer.

An ordinance is any law promulgated by the President/Governor when the Parliament/State Legislative assembly is not in session. These ordinances have the same legal force and effect as an Act of Parliament/State legislature, but they are only temporary in nature.

Statement 1 is incorrect: The President may issue an ordinance only when both Houses of Parliament are not in session, or when one of the two Houses is not in session.

The **Governor can only promulgate** an ordinance when the legislative assembly is not in session (in the case of a unicameral legislature) or when both Houses of the state legislature are not in session (in the case of a bicameral legislature) or when **either of the two Houses of the state legislature is not in session**. The final provision implies that an ordinance can be promulgated by the Governor even if only one House (in the case of a bicameral legislature) is in session, because a law can be passed by both Houses, not just one.

Statement 2 is incorrect: The **President's ordinance-making authority is coextensive with Parliament's legislative authority**. This means that he/she can issue ordinances on subjects that the Parliament can legislate on.

The **Governor's ordinance-making authority is coextensive with the state legislature's legislative authority**. This means that he/she can only issue ordinances on subjects that the state legislature can legislate on. It means that he/she can promulgate ordinance also on the subjects mentioned in the Concurrent List.

Statement 3 is incorrect: An **ordinance** issued by the both the President and Governor becomes **ineffective six weeks after the reassembly of Parliament/state legislature**. It may be terminated earlier than the six-week period if both Houses of Parliament pass resolutions opposing it (or legislative assembly passes a resolution opposing it and the legislative council agrees).

Statement 4 is incorrect: The **ordinance-making authority of both President and Governor is not discretionary**. This means that they can only issue or withdraw an ordinance with the advice of the respective Council of Ministers.

Source: Indian Polity by Laxmikant – 6th Edition – Chapter 30 – Governor.

Q.40) Consider the following statements:

1. FC-5 Potato variety has a lower moisture content making it ideal to make snacks such as potato chips.
2. FC-5 Potato recently been granted Plant Variety Protection certificate under Protection of Plant Varieties and Farmers' Rights Act, 2001.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) a

Exp) Option a is the correct answer.

Statement 1 is correct. The FC5 variety, registered in the US as FL2027, has a **lower moisture content** (80 per cent, compared with 85 per cent for other varieties), which is **ideal to make snacks such as potato chips** and for processing.

According to patent documents, the breed confers traits, including **resistance to herbicides**, and insect, bacterial, fungal or viral diseases. It also boasts of uniformity and an increase in the **concentration of starch** and other carbohydrates which decrease the tendency of tubers to bruise.

Statement 2 is incorrect. The Protection of Plant Varieties and Farmers Rights (PPV&FR) Authority has revoked (not granted) a PVP (Plant Variety Protection) certificate granted to PepsiCo India Holding (PIH) on a potato variety (FL-2027).

PepsiCo earlier filed a lawsuit against the farmers for illegally growing, producing and selling the variety without permission of PepsiCo.

However, farmers have cited **Section 39** of the **Protection of Plant Varieties and Farmers' Rights (PPV&FR) Act, 2001** which specifically says that a farmer is allowed to grow and sell any variety of crop or even seed as long as they don't sell branded seed of registered varieties.

Q.41) Which of the following is/are the function(s) of the Cabinet Secretariat?

1. Preparation of agenda for Cabinet Meetings
2. Secretariat assistance to Cabinet Committees
3. Allocation of financial resources to the Ministries

Select the correct answer using the code given below:

- a) 1 only
- b) 2 and 3 only
- c) 1 and 2 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

The Cabinet Secretariat is responsible for the administration of the Government of India as per the (Transaction of Business) Rules, 1961 and the Government of India (Allocation of Business) Rules 1961.

This Secretariat provides Secretarial assistance to the Cabinet and its Committees, and also assists in decision-making in Government by ensuring Inter-Ministerial coordination. It also prepares agenda for Cabinet Meetings.

The Cabinet Secretariat ensures that the President, the Vice President and Ministers are kept informed of the major activities of all Ministries/Departments by means of monthly summary of their activities.

It does not allocate financial resources to the Ministries.

Source) UPSC CSE 2014

Q.42) With reference to the powers/functions of the Governor of a state, consider the following statements:

1. S/he has the power to pardon a sentence inflicted by a Court Martial.
2. His/her recommendation is necessary for making a Demand for a Grant in the legislative assembly.
3. S/he can make advances out of the Consolidated Fund of the State without the authorization from the State legislative assembly.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) 1 and 3 only
- d) 2 and 3 only

Ans) b

Exp) Option b is the correct answer.

Statement 1 is incorrect: Although the President can pardon sentences inflicted by court martial (military courts), **the governor cannot.**

Statement 2 is correct: The **financial powers** and functions of the Governor are:

- 1) He sees that the Annual Financial Statement (state budget) is laid before the state legislature.
- 2) Money bills can be introduced in the state legislature only with his prior recommendation.
- 3) **No demand for a grant can be made except on his recommendation.**
- 4) He constitutes a finance commission after every five years to review the financial position of the panchayats and the municipalities.

Statement 3 is incorrect: The **Governor can make advances out of the Contingency Fund of the state** to meet any unforeseen expenditure.

No amount can be withdrawn from the Consolidated Fund of the State without the authorization from the State legislative assembly.

Knowledge Base:

The judicial powers and functions of the Governor are:

- 1) He can grant pardons, reprieves, respites and remissions of punishment or suspend, remit and commute the sentence of any person convicted of any offence against any law relating to a matter to which the executive power of the state extends.
- 2) He is consulted by the President while appointing the judges of the concerned state high court.
- 3) He makes appointments, postings and promotions of the district judges in consultation with the state high court.
- 4) He also appoints persons to the judicial service of the state (other than district judges) in consultation with the state high court and the State Public Service Commission.

Source: Indian Polity by Laxmikant – 6th Edition – Chapter 30 – Governor

Q.43) With reference to the appointment of ministers of the State, consider the following statements:

1. The ministers are appointed by Governor only on the advice of Chief Minister.
 2. The nominated members of state legislatures cannot be appointed as the minister.
 3. The Governor can dismiss an individual Minister from a State Council of Ministers on his/her discretion.
- Which of the statements given above is/are correct?

- a) 1 only
- b) 2 and 3 only
- c) 1 and 2 only
- d) 1 and 3 only

Ans) a

Exp) Option a is the correct answer.

Statement 1 is correct. The Council of Ministers of the state is appointed by Governor **only on the advice of the Chief Minister.** The Governor can appoint only those persons as ministers which are recommended by Chief Minister. The Governor cannot exercise his/her personal discretion in the appointment of Council of Ministers.

Statement 2 is incorrect. Both elected and nominated members are eligible for being appointed as the minister of the state.

Statement 3 is incorrect: Kerala's Governor **Arif Mohammed Khan** recently threatened to sack ministers who "lowered the dignity" of his office. The Governor tweeted from his tweeter handle "the CM and Council of Ministers have every right to advise Governor but statements of individual ministers that lower the

dignity of the office of the Governor, can invite action including withdrawal of pleasure”. **There has been no occasion so far of a Governor unilaterally removing a minister from the government.**

According to the constitutional experts “**The Governor can withdraw the pleasure only on the advice of the Chief Minister.** Pleasure after all, is not a personal or individual matter. It is constitutional pleasure. That means, when the Government in office has majority in the legislature, the Governor has pleasure and when the Government loses its majority, the pleasure comes to an end.” **Hence a Governor cannot remove any individual minister on his personal choice or discretion.**

Source: LAXMIKANT (5TH EDITION-STATE COUNCIL OF MINISTERS; STATE LEGISLATURES)

<https://www.liveweb.in/interviews/governors-withdrawal-of-pleasure-in-minister-is-not-constitutionally-valid-without-chief-ministers-advice-pdt-achary-212605>

<https://www.thehindu.com/news/cities/Kochi/governor-cannot-dismiss-a-minister-unless-recommended-by-chief-minister-says-former-secretary-general-of-lok-sabha/article66022313.ece>

Q.44) Which of the following are propositions laid down by the Supreme Court on imposition of President’s Rule in a state under Article 356?

1. Courts can restore the dissolved state legislative assembly if the Presidential proclamation is found to be unconstitutional.
2. Courts can review the correctness of the material on which the President took the action.
3. The state legislative assembly is dissolved only after the Parliament has approved the Presidential proclamation.

Select the correct answer using the code given below:

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

In SR Bommai case (1994), the Supreme Court laid down certain propositions on imposition of President’s Rule in a state under Article 356. It stated that the Presidential proclamation imposing President’s Rule is subject to judicial review.

Statement 1 is correct: If the Judiciary holds the Presidential proclamation to be unconstitutional and invalid, it has power to **restore the dismissed state government and revive the state legislative assembly if it was suspended or dissolved.**

Statement 2 is incorrect: The court had stated that although the **sufficiency or otherwise of the material cannot be questioned** but the legitimacy of inference drawn from such material is certainly open to judicial review. The satisfaction of the President must be based on relevant material. The action of the President can be struck down by the court if it is based on irrelevant or extraneous grounds or if it was found to be malafide or perverse. Burden lies on the Centre to prove that relevant material exists to justify the imposition of the President’s Rule. But the court cannot go into the correctness of the material or its adequacy but it can see whether it is relevant to the action.

Statement 3 is correct: The state **legislative assembly should be dissolved only after the Parliament has approved** the Presidential proclamation. **Until such approval is given, the President can only suspend the assembly.** In case the Parliament fails to approve the proclamation, the assembly would get reactivated.

Knowledge Base:

Other provisions made by SR Bommai case:

- 1) Secularism is one of the ‘basic features’ of the Constitution. Hence, a state government pursuing anti-secular politics is liable to action under Article 356.

- 2) The question of the state government losing the confidence of the legislative assembly should be decided on the floor of the House and until that is done the ministry should not be unseated.
- 3) Where a new political party assumes power at the Centre, it will not have the authority to dismiss ministries formed by other parties in the states.
- 4) The power under Article 356 is an exceptional power and should be used only occasionally to meet the requirements of special situations.

Source: Indian Polity by Laxmikant – 6th Edition – Chapter 16 – Emergency.

Q.45) With reference to the election of the President of India, consider the following statements:

1. The value of the vote of each MLA varies from State to State.
2. The value of the vote of MPs of the Lok Sabha is more than the value of the vote of MPs of the Rajya Sabha.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) a

Exp) Option a is the correct answer.

Statement 1 is correct. Value of vote of a MLA: Every elected member of the legislative assembly of a state shall have as many votes as there are multiples of one thousand in the quotient obtained by dividing the population of the state by the total number of the elected members of the assembly. Therefore, it varies with population of state.

Statement 2 is incorrect. Value of vote of an MP: Every elected member of either House of Parliament shall have such number of votes as may be obtained by dividing the total number of votes assigned to members of the legislative assemblies of the states by the total number of the elected members of both the Houses of Parliament. Thus, the value of a MP of Lok Sabha is same as that of an MP from Rajya Sabha.

Source) UPSC CSE 2018

Q.46) Which of the following are the powers and functions of the Chief Minister?

1. S/he advises the Governor on the appointment of chairman of the State Public Service Commission.
2. S/he lays the report of State Public Service Commission before the state legislature.
3. S/he advises the Governor regarding the summons and prorogues of the sessions of the state legislatures.
4. S/he make the rules for transaction of business of the state government.

Select the correct answer using the options given below:

- a) 1,2 and 3 only
- b) 1, 3 and 4 only
- c) 1 and 3 only
- d) 2 and 4 only

Ans) c

Exp) Option c is the correct answer.

The Chief Minister is the chief spokesperson of the government of a State. Article 163-167 of Part VI of Indian Constitution deals with the provisions associated with Chief Minister.

Statement 1 is correct. The Chief Minister of state advises the Governor regarding the appointment of the chairman and members of the **State Public service Commission**. Article 316 of **Indian Constitution** deals with the appointment of chairperson and members of the public service Commission.

Statement 2 is incorrect. Under **Article 323 of the Indian Constitution**, the State Commission present a report annually to the Governor of the State about the work done by the Commission. The **Governor lays that report of State Public Service** Commission before the state legislature together with a memorandum explaining the cases where the advice of the commission was not accepted and the reason for such non acceptance.

Statement 3 is correct. The Chief Minister of State **advises the Governor** regarding **summoning and proroguing of the sessions** of both the houses of State Legislature. The Governor further under **Article 174**, shall summon the House at a time and place, as she or he thinks fit.

Statement 4 is incorrect. All executive action of the Government of a State shall be expressed to be taken in the name of the Governor. It is the **Governor who make rules** for the more convenient transaction of the business of the Government of the State and **not the Chief Minister**, for the allocation of work among Ministers appointed for the said business. If the business is beyond the scope of the ministers, the Governor under the Constitution acts in his own discretion on it. The Chief Minister directs, guides and controls the activities of the ministers transacting the work.

LAXMIKANT (CH-GOVERNOR, CM)

Q.47) With reference to Advocate General of a State, consider the following statements:

1. S/he is appointed by the President of India after consultation with Governor and the Chief Justice of the High court of respective state.
2. S/he advises the government on legal matters of the state that is referred by governor.
3. S/he have the right to speak and take part in proceeding of both houses of the state legislature.
4. S/he has the fixed tenure of 5 years or up to 65 years of age, whichever is earlier.

Which of the statements given above are correct?

- a) 1, 2 and 3 only
- b) 2 and 3 only
- c) 3 and 4 only
- d) 1, 2 and 4 only

Ans) b

Exp) Option b is the correct answer.

Article 165-177 of Part VI of the Indian Constitution deals with the authority and functions of Advocate General of State.

Statement 1 is incorrect. The **Governor** of each state (**not the President**) shall appoint a person who is qualified to be appointed as a **Judge of a High Court** to be Advocate General for the State. There is no provision of consulting with Chief Justice of High Court for appointment of Advocate General.

Statement 2 is correct. The Advocate General advice the state government on **any legal matters** that is referred to him by the Governor of the state.

Statement 3 is correct. **Article 177** of the Indian Constitution gives the Advocate-General of State the **right to speak** in and **take part in the proceedings of the Legislative Assembly of the State**, or both Houses i.e., the state Legislative Council (in case of bicameral legislature). He also has the right to speak in, and otherwise to take part in the proceedings of, any committee of the Legislature of which he may be named a member but is **not entitled to vote**.

Statement 4 is incorrect. The Constitution does not fix the term of office/tenure of Advocate General in India. The Advocate General of a state holds office during pleasure of Governor. He can be **removed by Governor at any time during his/her service.** The Constitution does not contain the procedure and grounds to remove the Advocate General of State. He may also quit his office by writing to Governor. He resigns when Government resigns or is replaced.

Q.48) Consider the following statements:

1. As per the Constitution of India, the decision of the President of India is final on whether a particular matter falls under Governor's discretion or not.
 2. The Governor of a state is an ex-officio member of Governing Council of NITI Aayog.
- Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) d

Exp) Option d is the correct answer.

The Governor is known as the chief executive head of the state. Article 153-163 in Part VI of the Indian Constitution deals with several provisions for the Governor.

Statement 1 is incorrect. According to **Article 163 in the Indian Constitution**, if any question arises whether any matter falls under the Governor's discretion (power) or not as per the Constitution of India then the **decision of Governor is final not the President.** And the validity of anything done by the Governor as per it cannot be questioned on the ground that he should or should not have acted as per freedom or power.

Statement 2 is incorrect: The Chief minister (and not the Governor) of the state is member of NITI Aayog which is headed by the Prime Minister.

Source: [https://indiankanoon.org/doc/674146/LAXMIKANT\(CH-GOVERNOR\)](https://indiankanoon.org/doc/674146/LAXMIKANT(CH-GOVERNOR))

Q.49) Consider the following pairs:

Type of Veto	Explanation
1. Absolute Veto	President withholds his assent to a bill
2. Suspensive Veto	Only a higher majority of Parliament can override this Veto power
3. Qualified Veto	Power to reject the bill altogether
4. Pocket Veto	The President does not act upon the bill

How many pairs given above are correctly matched?

- a) Only one pair
- b) Only two pairs

- c) Only three pairs
d) All four pairs

Ans) b

Exp) Option b is the correct answer.

When a bill is introduced in the Parliament, Parliament can pass the bill and before the bill becomes an act, it must be presented to the Indian President for his approval. It is on President of India to either reject the bill, return the bill, or withhold his assent to the bill. The choice of the President over the bill is called his veto power. Veto Power of the President of India is guided by Article 111 of the Indian Constitution.

Pair 1 is correct. Absolute Veto is the power of the President to **withhold the assent to the bill**. When the President exercises his absolute veto, a bill never sees the day of the light. The bill ends even after passed by the Indian Parliament and does not become an act. President uses his absolute veto-When the bill passed by the Parliament is a Private Member Bill and when the cabinet resigns before President could give his assent to the bill. In India, the President has exercised his absolute veto before.

Pair 2 is incorrect. A Suspensive Veto is the power of the President to **return the bill to the Parliament with or without consideration**. His suspensive veto can be overridden by the re-passage of the bill by the Indian Parliament. If the Parliament resends the bill with or without amendment to the Indian President, he must approve the bill without using any of his veto powers. **With respect to state bills, the state legislature has no power to override the suspensive veto of the President**. Governor can withhold the bill for the President's consideration and even if state legislature resends the bill to the Governor and the Governor sends it to the President, he still can withhold his assent. Whereas a **Qualified Veto is one that can be** overridden by Parliament with a high majority if the President withholds their assent on the bill.

Pair 3 is incorrect. The **Qualified Veto** is the power of president to withhold the assent but it can be overridden by the legislature with a **higher majority**. **This type of veto is not used by the President of India.**

Pair 4 is correct. Pocket Veto is the power of the President to not act upon the bill is termed as a pocket veto. Constitution does not give any time-limit to President within which he has to act upon the bill. Therefore, the President uses his pocket veto where he doesn't have to act upon the bill.
Source: LAXMIKANT(CH-PRESIDENT)

Q.50) Consider the following statements with reference to the trends of capital markets in India post-liberalization:

1. Share of the private corporate sector in Gross Fixed Capital Formation (GFCF) has increased.
2. Share of the public sector in Gross Fixed Capital Formation has fallen.

Which of the statements given above is/are correct?

- a) 1 only
b) 2 only
c) Both 1 and 2
d) Neither 1 nor 2

Ans) c

Exp) Option c is the correct answer.

Gross fixed capital formation (GFCF), is defined as the acquisition of produced assets (including purchases of second-hand assets), including the production of such assets by producers for their own use, minus disposals.

Statement 1 is correct. The share of the **private corporate sector in Gross Fixed Capital Formation (GFCF) has increased sharply post-liberalization**. The banking sector was opened to new private sector banks.

Along with this, non-banking financial institutions have become a significant force in the capital market. Opening up the mutual fund market to private asset management companies also boosted the GFCF.

Statement 2 is correct. The share of the public sector in Gross Fixed Capital Formation (GFCF) has fallen. The main issue, is the health of public sector banks. A large **accumulation of NPA's** is affecting the health of Public Sector Banks. The flow of commercial finance from the capital market (public issue of shares) is inadequate/ negligible. For instance, taking an average of the three years ending 2019-20, only 2 per cent of the flow of commercial finance came from public issues. The major source remains bank credit, which accounted for 49 per cent of the flows.

Q.1) The fundamental object of Panchayati Raj system is to ensure which among the following?

1. People's participation in development
2. Political accountability
3. Democratic decentralization
4. Financial mobilization

Select the correct answer using the code given below.

- a) 1, 2 and 3 only
- b) 2 and 4 only
- c) 1 and 3 only
- d) 1, 2, 3 and 4

Ans) c

Exp) Option c is the correct answer.

Grass-roots democracy was established in India not to ensure any political accountability, but to ensure **citizen's participation in governance** and development leading to democratic decentralization. So, the term **“democratic decentralization”** is an appropriate replacement for the term “political accountability”. Moreover, political accountability already existed in the villages by way of elections to State legislatures.

Financial mobilization was never the basis for the establishment of Panchayati raj. Local financial mobilization (by way of octroi taxes etc.) is the outcome of the establishment of the PRIs, not its objective. In fact, only few states have devolved financial powers to their PRIs.

Source) UPSC CSE 2015

Q.2) What was the intention behind inclusion of Articles 371 to 371-J in the Constitution of India?

1. To meet the aspirations of the people of backward regions of the states
2. To deal with the disturbed law and order condition in some parts of the states
3. To deal with the border issues with neighboring countries in North-Western India.
4. To protect the cultural and economic interests of the tribal people of the states

Select the correct answer using the codes given below:

- a) 1, 3 and 4 only
- b) 1, 2 and 3 only
- c) 1, 2 and 4 only
- d) 1, 2, 3 and 4

Ans) c

Exp) Option c is the correct answer.

Articles 371 to 371-J in Part XXI of the constitution contain special provisions for twelve states viz., Maharashtra, Gujarat, Nagaland, Assam, Manipur, Andhra Pradesh, Telangana, Sikkim, Mizoram, Arunachal Pradesh, Goa and Karnataka. Originally, the constitution did not make any special provisions for these states. They have been incorporated by the various subsequent amendments made in the context of reorganization of the states or conferment of statehood on the Union Territories. **The intention behind adding special provisions to the constitution are following:**

- 1) **To meet the aspirations of the people of backward regions of the states**
- 2) **To protect the cultural and economic interests of the tribal people of the states**
- 3) **To deal with the disturbed law and order condition in some parts of the states**
- 4) **To protect the interests of the local people of the states. Hence Option 1, 2 and 4 is correct.**

Option 3 is incorrect: To deal with border issues in North-Western India is not one of the reasons behind providing special provisions to these states. If we see the states that are provided for the special provisions under the part, only a part of Gujarat can be considered as part of North-Western India. But in Gujarat also

the rationale behind providing such special provision is to ensure equitable development throughout the state, not to deal with border issue.

Source: Indian polity by M Laxmikanth 6th edition pdf. Chapter name- Union and its territory. Page no- 809 and 810.

Q.3) Consider the following statements with reference to the special provisions regarding Manipur:

1. The President can create a committee of the Manipur Legislative Assembly consisting of the members elected from the Hill Areas of the Manipur.
2. It is the responsibility of Governor to submit an annual report regarding the administration of the hill areas of Manipur to the President.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) c

Exp) Option c is the correct answer.

Articles 371 to 371-J in Part XXI of the constitution contain special provisions for twelve states viz., Maharashtra, Gujarat, Nagaland, Assam, Manipur, Andhra Pradesh, Telangana, Sikkim, Mizoram, Arunachal Pradesh, Goa and Karnataka.

Statement 1 is correct: Article 371-C makes the special provisions for Manipur to meet the aspirations of the people of backward regions of the states. **Under article 371-C the President is authorized to provide for the creation of a committee of the Manipur Legislative Assembly consisting of the members elected from the Hill Areas of the state.** The President can direct that the Governor shall have special responsibility to secure the proper functioning of that committee.

Statement 2 is correct: Under article 371-C the Governor has responsibility to submit an annual report to the President regarding the administration of the Hill Areas of Manipur. The Central Government can give directions to the State Government as to the administration of the Hill Areas.

Source: Indian polity by M Laxmikanth 6th edition pdf. Chapter name- SPECIAL PROVISIONS FOR SOME STATES. Page no- 813.

Q.4) Arrange the following states in a chronological order according to the year of formation as a state?

1. Nagaland
2. Tripura
3. Himachal Pradesh
4. Mizoram

Which of the following option given below is correct?

- a) 1-2-3-4
- b) 1-3-2-4
- c) 3-1-2-4
- d) 3-2-1-4

Ans) b

Exp) Option b is the correct answer.

The political map of India underwent continuous changes after the large-scale reorganization of the states in 1956 due to the pressure of popular agitations and political conditions. The demand for the creation of

some more states on the basis of language or cultural homogeneity resulted in the bifurcation of existing states.

Option 1: The State of Nagaland was formed by taking the Naga Hills and Tuensang area out of the state of Assam **in 1963**. This was done to satisfy the movement of the hostile Nagas. However, before giving Nagaland the status of the 16th state of the Indian Union, it was placed under the control of governor of Assam in 1961.

Option 3: On the recommendation of the Shah Commission (1966), the Punjabi-speaking areas were constituted into the unilingual state of Punjab and the Hindi-speaking areas were constituted into the State of Haryana and the hill areas were merged with the adjoining union territory of Himachal Pradesh. **In 1971, the union territory of Himachal Pradesh was elevated to the status of a state (18th state of the Indian Union).**

Option 2: In 1972, in Northeast India the two union territories of **Manipur and Tripura and the sub-state of Meghalaya got statehood** and the two union territories of Mizoram and Arunachal Pradesh (originally known as North-East Frontier Agency–NEFA) came into being. With this, the number of states of the Indian Union increased to 21 (Manipur 19th, Tripura 20th and Meghalaya 21st).

Option 4: In 1987, three new States of **Mizoram, Arunachal Pradesh and Goa** came into being as the 23rd, 24th and 25th states of the Indian Union respectively. The union territory of Mizoram was conferred the status of a full state as a sequel to the signing of a memorandum of settlement (Mizoram Peace Accord) in 1986 between the Central government and the Mizo National Front, ending the two-decade-old insurgency. Source: Indian polity by M Laxmikanth 6th edition pdf. Chapter name- UNION and its TERRITORY. Page no- 149 to 152.

Q.5) With reference to recent technological advancement in the country, which one of the following statements correctly describe ‘Digital Embossing Technology’?

- It is a technology used to develop Silicon semiconductors through 3D printing process.
- It is a technology used in designing and developing Braille Maps for Visually challenged students.
- It is a method of creating a three-dimensional object layer-by-layer using a computer created design.
- It is a type of printing that involves storing digital information on the object through embossing technique.

Ans) b

Exp) Option b is the correct answer.

Digital Embossing Technology is a novel digital printing process, **enables the structuring of surfaces**. This means that the feel of the surface now also corresponds to the optical design. In digital embossing, a transparent medium is printed in a layer of uncured UV paint. The resulting physical and chemical reactions produce a deep structure. Digital embossing **eliminates the need for printing plates, molds, chemicals, and solvents, emitting no pollutants or waste** and reduces overall energy use.

Digital Embossing Technology has been introduced, designed and implemented for the **first time in India by National Atlas & Thematic Mapping Organisation (NATMO)**. **Visually challenged students from all over the country will have access soon to Braille Maps designed and developed using Digital Embossing Technology**. The maps produced using this technology are not only useful for high-speed production of the maps but can also produce Braille Maps that can be used by more people for years together.

Knowledge Base:

National Atlas & Thematic Mapping Organisation (NATMO): It was established in 1997. It is a subordinate department under the **Department of Science & Technology, Ministry of Science & Technology**.

Its functions include:

- 1) Compilation of the National Atlas of India in Hindi, English and other regional languages

- 2) Preparation of thematic maps based on socio-economic, physical, cultural, environmental, demographic and other issues
- 3) Preparation of maps/atlas for visually impaired
- 4) Digital mapping and training using Remote sensing, GPS and GIS technology
- 5) Training and Research & Development.

Q.6) Consider the following statements with reference to the difference between the union of India and territory of India:

- a) Union of India includes union territories and territories that may be acquired while the territory of India includes only states.
- b) Union of India includes states and union territories while the territory of India includes territories that may be acquired.
- c) Union of India includes the states that are already in existence while territory of India includes states that are newly established.
- d) Union of India includes only states while the territory of India includes not only the states but also union territories and territories that may be acquired.

Ans) d

Exp) Option d is the correct answer.

The names of states and union territories and their territorial extent is mentioned in the first schedule of the Constitution. At present, there are 28 states and 8 union territories.

According to Article 1, the territory of India can be classified into three categories:

- 1) Territories of the states
- 2) Union territories
- 3) Territories that may be acquired by the Government of India at any time.

The 'Territory of India' is a wider expression than the 'Union of India' because the **Union of India includes only states while the Territory of India includes not only the states, but also union territories and territories that may be acquired by the Government of India at any future time.** The states are the members of the federal system and share a distribution of powers with the Centre. The union territories and the acquired territories are directly administered by the Central government.

Source: Indian polity by M Laxmikanth pdf. Page no-140.

Q.7) With reference to Panchayat Samiti in India, consider the following statements:

1. It is a local government body at the tehsil or Taluka level in India.
2. It is mandatory for every Indian state to constitute a Panchayati samiti at the intermediate level.
3. District magistrate acts as ex-officio chairman of the panchayat samiti.

Which of the statements given above are correct?

- a) 1 and 3 only
- b) 1 only
- c) 1 and 2 only
- d) 3 only

Ans) b

Exp) Option b is the correct answer.

The Panchayati Raj system is the first tier or level of democratic government. The Panchs and the Gram Panchayat are answerable to the Gram Sabha because it is the members of the Gram Sabha who elected them.

Statement 1 is correct: The Janpad Panchayat or the Panchayat Samiti is created at the Tehsil or taluka level. The Panchayat Samiti has many Gram Panchayats under it. Panchayat Samiti is the middle tier of the Panchayati Raj System. These are named differently in different States.

Statement 2 is incorrect: According to the Constitution, it is mandatory for every state to constitute panchayats at village, intermediate and district levels. However, there is an exception that, **states with population less than 20Lakh may not be required to constitute panchayat at intermediate level.**

Statement 3 is incorrect: Chairperson of the Panchayat at the intermediate level shall be elected by the elected members of Panchayat samiti from amongst the members. (Hence, District Magistrate is not the ex-officio chairman)

Q.8) Measuring land and keeping land records at village level is the main work of which of the following?

- Patwari
- Sarpanch
- Tehsildar
- Panchayat Secretary

Ans) a

Exp) Option a is the correct answer

Measuring land and keeping land records is the main work of the Patwari. The Patwari is known by different names in different states - in some villages, such officers are called **Lekhpal**, in others **Kanungo or Karamchari or Village Officer**, etc. Each **Patwari is responsible for a group of villages.** The **Patwari maintains and updates the records of the village.** The Patwari is also responsible for organizing the collection of land revenue from the farmers and providing information to the government about the crops grown in this area.

All states in India are divided into districts. For managing matters relating to land, these districts are further subdivided. These sub-divisions of a district are known by different names such as tehsil, taluka, etc. **At the head is the District Collector and under him/her are the revenue officers, also known as tehsildars. They have to hear disputes. They also supervise the work of the Patwaris and ensure that records are properly kept and land revenue is collected.**

Q.9) Consider the following statements with reference to the Panchayati Raj Institutions in India:

- The term Gram Sabha has not been defined in the constitution.
- No more than three villages can be covered under a Panchayat.
- One of the powers of Gram Sabha is finalization of list of below poverty line people in Panchayat area.

Which of the statements given above is/are correct?

- 2 only
- 3 only
- 1 and 2 only
- 1 and 3 only

Ans) b

Exp) Option b is the correct answer.

The Gram Sabha is the fulcrum of the Panchayati Raj and village development. People use the forum of the Gram Sabha to discuss local governance and development, and make need-based plans for the village.

Statement 1 is incorrect: The term **Gram Sabha is defined** in the **Constitution of India** under Article **243(b)**. It is a permanent body. **Gram Sabha is the Sabha of the electorate**. All other institutions of the Panchayati Raj like the Gram Panchayat, Block Panchayat and Zilla Parishad are constituted by elected representatives. The **Gram Sabha is a meeting of all adults who live in the area covered by a Panchayat. Anyone who is 18 years old or more and who has the right to vote** is a member of the Gram Sabha.

Statement 2 is incorrect: There is **no specific bar on number of villages in a Panchayat**. It can even be **one village or number of villages** under a Panchayat. Every **Village Panchayat is divided into wards, i.e. smaller areas**. Each ward elects a representative who is known as the Ward Member (Panch). **All the members of the Gram Sabha also elect a Sarpanch who is the Panchayat President**. The Ward Panchs and the Sarpanch form the Gram Panchayat. The Gram Panchayat is elected for five years.

Statement 3 is correct: Constitution mentions that **Gram Sabha exercises such powers and performs such functions at the village level as the Legislature of a State may, by law, provide**. For instance, they approve of the plans, programmes and projects for social and economic development before such plans, programmes and projects are taken up for implementation by the Panchayat at the village level. It is **also responsible for the identification or selection of persons as beneficiaries under the poverty alleviation, preparing list of people Below Poverty Line** and other programmes.

Source: NCERT Class VI: Social and Political Life Chapter 5: Panchayati Raj

Q.10) Recently, terms like 'Held to Maturity', 'Available for Sale' and 'Fair Value Through Profit and Loss account' were seen in news. They are related to-

- Fixed Deposit accounts of Non-Resident Indians in Schedule Banks
- Insurance Products underwritten by a private Company
- Registered Accounts of Foreign Portfolio Investors at SEBI
- Investment Portfolios of Indian Banks

Ans) d

Exp) Option d is the correct answer.

The Reserve Bank of India proposed a new investment category for banks—**fair value through profit and loss (FVTPL)** account. This is a part of its initiatives to align lenders investment portfolio regulations with the global accounting standards.

Currently, the **Investment Portfolios of Banks** at present are **classified under three categories: held to maturity (HTM), held for trading (HFT) and available for sale (AFS)**.

- Held to maturity (HTM):** RBI said debt instruments with fixed or determinable payments and fixed maturity, with the intent of holding till maturity, shall now be classified as HTM. Corporate bonds have also been allowed to be held under HTM, which was not the case earlier.
- Available for Sale:** Debt instruments held by a bank till maturity or sold before maturity would be eligible for AFS. Equity instruments will also be classified under AFS.
- Fair Value Through Profit and Loss account:** It will be the residual category where all investments that do not qualify for inclusion in HTM or AFS shall be categorized. This category can have investments such as securitisation receipts (SRs), mutual funds, alternate investment funds, equity shares, derivatives (including those undertaken for hedging), among others.

Source: FVTPL Account: Banks may get a new investment category -ForumIAS Blog

Q.11) The Government enacted, the Panchayat Extension to Scheduled Areas (PESA) Act in 1996. Which one of the following is **not** identified as its objective?

- To provided self-governance
- To recognize traditional rights
- To create autonomous regions in tribal areas
- To free tribal people from exploitation

Ans) c

Exp) Option c is the correct answer.

The PESA Act was enacted to extend the provisions of 73rd and 74th Amendment Acts to the Fifth Schedule areas. Thus, it was meant to provide institutions of local self-governance in the Scheduled Areas and to recognize the traditional rights of the tribals. The provisions of this Act address some of the most complex problems of exploitation and marginalization of the tribals.

The act did not have any provisions of creating any autonomous regions.

Source: UPSC CSE 2013

Q.12) Consider the following Committees and their key recommendations with reference to Panchayati Raj Institutions (PRIs) in India:

Committee	Recommendation
1. Balwant Rai Mehta Committee	Creation of Mandal Panchayat
2. Ashok Mehta Committee	Three-tier system
3. G.V.K. Rao Committee	Creation of post of District Development Commissioner
4. L M Singhvi Committee	Constitutional Recognition to Panchayats

How many of the above given pairs are correctly matched?

- One pair only
- Two pairs only
- Three pairs only
- All the four pairs

Ans) b

Exp) Option b is the correct answer.

To fulfill the vision of **Article 40** i.e. '**organization of village panchayats**'; the government took several steps including constituting various committees to give panchayats a structure. This ultimately **culminated in the 73rd and 74th Constitutional Amendment**, establishing Panchayati Raj Institutions (PRIs) in India.

Pair 1 is incorrect: In January 1957, the Government of India appointed a committee to examine the working of the Community Development Programme (1952) and the National Extension Service (1953) and to suggest measures for their better working. The chairman of this committee was **Balwant Rai G Mehta**. It recommended establishment of a **three-tier panchayati raj system**—gram panchayat at the village level, panchayat samiti at the block level and zila parishad at the district level. **Mandal Panchayat was recommended by Ashok Mehta committee.**

Pair 2 is incorrect: In December 1977, the Government appointed a committee on Panchayati Raj Institutions under the chairmanship of Ashok Mehta. Its **key recommendation was that the three-tier system of Panchayati raj should be replaced by the two-tier system**, that is, zila parishad at the district level, and below it, the mandal panchayat consisting of a group of villages with a total population of 15,000 to 20,000.

Pair 3 is correct: The Committee to review the existing Administrative Arrangements for Rural Development and Poverty Alleviation Programmes under the chairmanship of G.V.K. Rao was appointed by the Planning Commission in 1985. One of its **key recommendations was the creation of the post of District Development Commissioner**. And he should act as the chief executive officer of the Zila Parishad and should be in charge of all the development departments at the district level.

Pair 4 is correct: In 1986, Rajiv Gandhi government appointed a committee to prepare a concept paper on 'Revitalisation of Panchayati Raj Institutions for Democracy and Development' under the chairmanship of L.M. Singhvi. It **recommended that the Panchayati Raj institutions should be constitutionally recognised, protected and preserved**. For this purpose, a new chapter should be added in the Constitution of India. This will make their identity and integrity reasonably and substantially inviolate. It also suggested constitutional provisions to ensure regular, free and fair elections to the Panchayati Raj bodies.

Source: Indian Polity by Laxmikanth, 6th Edition, Chapter-38

Q.13) Consider the following statements with reference to the State Election Commissioner:

1. S/he is consulted by state Government during the formation of Election Tribunal.
2. The conditions of service and tenure of his office are determined by the State Legislature.
3. S/he cannot be removed from the office except in the manner prescribed for the removal of a judge of the High Court.

Which of the statements given above is/ are correct?

- a) 2 only
- b) 3 only
- c) 1 and 2 only
- d) 1 and 3 only

Ans) d

Exp) Option d is the correct answer.

The **Constitution of India vests in the State Election Commission, consisting of a State Election Commissioner, the superintendence, direction and control** of the preparation of electoral rolls for, and the conduct of **all elections to the Panchayats and the Municipalities** under the **Articles 243K, and 243ZA**.

Statement 1 is correct: Some of the states have provided for a provision to setup an Election Tribunal at the State level to take up election related disputes. In this regard, for example in Punjab, an **Election Tribunal is constituted by the State Government in consultation with the State Election Commissioner** for each district or part thereof, at the District or Sub-Divisional Headquarters.

Statement 2 is incorrect: The **conditions of SEC's service and tenure of office are determined by the governor**. His conditions of service cannot be varied to his disadvantage after his/her appointment.

Statement 3 is correct: The **State Election Commissioner** has the status, salary and allowance of a Judge of a High Court and **cannot be removed from office except in like manner and on the like grounds as a Judge of a High Court**. The **provisions of Article 243K** of the Constitution, which provides for setting up of SECs, are **almost identical to those of Article 324** related to the Election Commission.

Source: Indian Polity by Laxmikanth, 6th Edition, Chapter-38

Q.14) The PESA Act, 1996 extends the provisions of Part IX of the Constitution relating to the Panchayats to which of the following groups of states?

- Andhra Pradesh, Madhya Pradesh, Odisha, and Gujarat
- Madhya Pradesh, Tamil Nadu, Mizoram and Nagaland
- Himachal Pradesh, Kerala, Meghalaya and Assam
- Tamil Nādu, Rajasthan, Bihar and Nagaland

Ans) a

Exp) Option a is the correct answer.

The **provisions of Part IX of the constitution relating to the Panchayats were not applicable to the Fifth Schedule areas**. However, the Parliament is allowed to extend these provisions to such areas, subject to such exceptions and modifications as it may specify. Under this provision, the **Parliament has enacted the “Provisions of the Panchayats (Extension to the Scheduled Areas) Act”, 1996**, popularly known as the PESA Act or the Extension Act. At present, **ten states have Fifth Schedule Areas**. These are: **Andhra Pradesh, Telangana, Chhattisgarh, Gujarat, Himachal Pradesh, Jharkhand, Madhya Pradesh, Maharashtra, Odisha and Rajasthan**. All the ten states have enacted requisite compliance legislations by amending the respective Panchayati Raj Acts.

Source: Indian Polity by Laxmikanth, 6th Edition, Chapter-38

Q.15) Consider the following statements regarding ‘Account Aggregator’(AAs):

- It is a non-banking financial company that facilitates sharing of financial information from one financial institution to other in a real-time.
- The financial data cannot be shared by the Account Aggregators without the consent of the individual.
- The license for Account Aggregators (AAs) is issued by the Security and Exchange Board of India.
- They can store the customer’s financial data for one year from the collection period.

Which of the statements given above is/are correct?

- 1 and 2 only
- 1, 2 and 4 only
- 2 and 3 only
- 1, 2, 3 and 4

Ans) a

Exp) Option a is the correct answer.

Complementing the Pradhan Mantri Jan Dhan Yojana, India recently unveiled the **account aggregator (AA) network** to overcome the challenges of access to micro-credit for individuals and micro, small and medium enterprises (MSMEs).

Statement 1 is correct: An **Account Aggregator (AA)** is a type of RBI regulated entity (with an **NBFC-AA license**) that helps an individual securely and digitally access and **share information from one financial institution** they have an account with to any other regulated financial institution in the AA network. It facilitates sharing of **financial information in a real-time** and data-blind manner between regulated entities.

Statement 2 is correct: Privacy protection principles is ingrained in the **Account Aggregator (AA) network**. It requires the individual’s permission to share data with financial institution. The data shared on the AA network is **end-to-end encrypted**. It is encrypted by the sender and can be decrypted only by the recipient.

Statement 3 is incorrect: The licence for Account Aggregators (AAs) is issued by the **Reserve Bank of India (RBI) and not by SEBI**.

Statement 4 is incorrect: Account Aggregator are not allowed to store, process, and sell the customer's data. These design principles ensure that **ownership of the data lies with individuals and is not monetized**. So, no conflict of interest arises when data is shared across the AA platform.

Q.16) Consider the following statements with reference to the District Planning Committee (DPC) in India:

1. It consolidate the plans prepared by both panchayats and municipalities in the district.
2. The provisions of the composition of such committees are made by the respective State legislature.
3. 50 per cent of the members of DPC are nominated by the Governor of the respective state.

Which of the above given statements is/are correct?

- a) 1 and 2 only
- b) 1 only
- c) 2 and 3 only
- d) 1 and 3 only

Ans) a

Exp) Option a is the correct answer.

The **formation of District Planning Committees (DPCs) is mandated by the Article 243ZD of the 74th Amendment of the Constitution**. District Planning Committees serve as a link between Panchayats and Urban Local Bodies.

Statement 1 is correct: **District Planning Committees (DPCs) consolidate the plans** prepared by panchayats and municipalities in the district, and **to prepare a draft development plan for the district as a whole**. Every District Planning Committee in **preparing the draft development plan, deals with matters of common interest between the Panchayats and the Municipalities including spatial planning, sharing of water and other physical and natural resources**, the integrated development of infrastructure and environmental conservation. It also discusses the extent and type of available resources whether financial or otherwise.

Statement 2 is correct: It is **the State legislature that may make provisions with respect to the composition of district planning committees**. Furthermore, state legislature can also make provisions with respect to the manner of election of members of such committees, the functions of such committees in relation to district planning and the manner of the election of the chairpersons of such committees.

Statement 3 is incorrect: **The four-fifths of the members of a district planning committee are elected by the elected members of the District Panchayat and municipalities** in the district from amongst themselves. **(Through this we can say that, the governor does not nominate 50% of the members to DPC)**. The representation of these members in the committee is in proportion to the ratio between the rural and urban populations in the district.

Source: Indian Polity by Laxmikanth, 6th Edition, Chapter-39

Q.17) Which among the following are the sources of income for the Urban Local Bodies (ULBs) in India?

1. Property Tax
2. Payment for Public Utilities
3. Loan from financial institutions
4. Excise Duty

Select the correct answer using the code given below:

- a) 2 and 3 only
- b) 1 and 4 only
- c) 1, 2 and 3 only
- d) 1, 2, 3 and 4

Ans) c

Exp) Option c is the correct answer.

Option 1 is correct: Property tax is the amount that is **paid by the landowner to the municipal corporation or the local government** for his/her area. The tax must be paid every year. Property, office buildings, and residential homes that are rented out to third parties are considered real estate assets. Property tax is charged by the government on all tangible real estate that an individual owns. These real estate assets could include residential homes, office buildings and premises rented out to third parties. **It also known as house tax.**

Option 2 is correct: The non-tax revenue for local government comes from municipal properties, fees and fines, royalty, profits and dividends, interest, user charges and miscellaneous receipts. **The user charges (i.e., payment for public utilities) include water charges, sanitation charges, sewerage charges and so on.**

Option 3 is correct: The urban **local bodies raise loans from** the state government as well as **financial institutions** to meet their capital expenditure. They can borrow from the financial institutions or other bodies only with the approval of the state government.

Option 4 is incorrect: Excise duty was a form of indirect tax that was levied by the Central Government of India for the production, sale, or license of certain goods prior to GST. However, Excise **duty charges continue to be in force for alcohol and narcotics which are collected by state governments and not local government.**

Q.18) Consider the following statements with reference to the Provisions of the Panchayats (Extension to the Scheduled Areas) Act, 1996 or PESA Act:

1. It confers powers to the Gram Sabha to ensure proper functioning of Panchayats.
2. Scheduled Tribes have been ensured at least 50 percent reservation of the seats at every Panchayat in Scheduled Areas.
3. At intermediate or district levels Governor can nominate such Scheduled Tribes which have no representation in the Panchayat.

Which of the above given statements is/are correct?

- a) 1 and 3 only
- b) 1 and 2 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

The **provisions of Part IX of the constitution relating to the Panchayats are not applicable to the Fifth Schedule areas.** However, the **Parliament may extend these provisions to such areas, subject to such exceptions and modifications as it may specify.** Under this provision, the Parliament has enacted the “Provisions of the Panchayats (Extension to the Scheduled Areas) Act”, 1996, popularly known as the PESA Act or the Extension Act.

Statement 1 is correct: The PESA Act conferred the powers to Gram Sabha, whereas state legislature has given an advisory role to ensure the proper functioning of Panchayats and Gram Sabhas. The objective

is to provide self-rule for the bulk of the tribal population, to have village governance with participatory democracy and to make the Gram Sabha a nucleus of all activities.

Statement 2 is correct: According to the PESA Act, 1996, the reservation of seats in the Scheduled Areas at every Panchayat shall be in proportion to the population of the communities in that Panchayat for whom the reservation is sought to be given under Part IX of the Constitution. **It has also provided that the reservation for the Scheduled Tribes shall not be less than one-half of the total number of seats.** According to the act, all seats of Chairpersons of Panchayats at all levels in Scheduled Areas shall be reserved for the Scheduled Tribes.

Statement 3 is incorrect: The state government (not the governor) may nominate such Scheduled Tribes which have no representation in the Panchayat at the intermediate level or the Panchayat at the district level. But such nomination shall not exceed one-tenth of the total members to be elected in that Panchayat. Source: Indian Polity by Laxmikanth, 6th Edition, Chapter-38

Q.19) Consider the following statements with reference to the State Finance Commission:

1. It functions under the guidance of the Union Finance Commission.
2. It is constituted under the 74th Amendment Act of the Constitution.
3. They recommend principles for the devolution of funds to both the Panchayats and Municipalities.

Which of the above given statements is/are correct?

- a) 3 only
- b) 1 and 2 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) a

Exp) Option a is the correct answer.

A State Finance Commission reviews a state's panchayats' financial situation and provides recommendations to the governor.

Statement 1 is incorrect: State Finance Commission is created under Article 243-I of the Indian Constitution which says that the Governor of a State shall establish a Finance Commission to review the financial position of the Panchayats. It does **not work under the guidance of Finance Commission** established under **Article 280**.

Statement 2 is incorrect: The 74th Amendment Act added a new Part IX-A to the Constitution of India. This part is entitled as 'The Municipalities' and consists of provisions from Articles **243-P to 243-ZG**. On the other hand, **73rd Amendment act** added a new Part-IX to the Indian Constitution. This section is titled 'The Panchayats' and it **contains provisions from Articles 243 to 243 O. The established of State Finance Commission is done under the Article 243-I, and thus it comes under 73rd Amendment.**

Statement 3 is correct: The functions of a State Finance Commission are identical to those of the Central Finance Commission. It distributes state resources to Panchayati Raj institutions at all three levels in the form of taxes, duties, and levies to be collected by the state and local governments. State Finance Commission **give recommendations on the principles which should govern the distribution between the State and the Panchayats of the net proceeds of the taxes, duties, tolls and fees leviable by the State.** It also oversees the finances and suggests principles for devolution of funds for municipalities.

Q.20) In the context of Glasgow Leaders Declaration on Forests and Land Use, consider the following statements:

Statement 1: India has declined to sign the Glasgow Leaders' Declaration on Forests and Land Use that aims to “halt deforestation” by 2030.

Statement 2: The initiative puts a mandatory limit on individual country to increase forest coverage area by 10,000 Sq Km annually.

Which one of the following is correct in respect of the above statements?

- Both Statement 1 and Statement 2 are correct and Statement 2 is the correct explanation of Statement 1
- Both Statement 1 and Statement 2 are correct and Statement 2 is not the correct explanation of Statement 1
- Statement 1 is correct but Statement 2 is not correct
- Statement 1 is not correct but Statement 2 is correct

Ans) c

Exp) Option c is the correct answer.

India at UNFCCC (COP 26) declined to join Deforestation declaration, this has been followed by India declining joining several such international platforms related to climate change.

Statement 1 is correct: India did not sign the **Glasgow Leaders' Declaration on Forests and Land Use** – an ambitious declaration initiated by the United Kingdom to “**halt deforestation**” and **land degradation by 2030**. The declaration has over 105 signatories including the UK, US, Russia and China. **India, Argentina, Mexico, Saudi Arabia and South Africa are the only G20 countries that did not sign the declaration.**

Statement 2 is incorrect: **Declaration on Forests and Land Use** committed to halt and reverse forest loss and land degradation by 2030 by strengthening their efforts to conserve and restore forests and other terrestrial ecosystems and accelerate their restoration. **There is no mandatory limit on any country under the initiative.**

India did not sign the **Declaration on Forests and Land Use** as it objected as the “**trade**” being **interlinked to climate change and forest issues** in the agreement. India said, “The declaration interlinks trade to climate change and forest issues. **Trade falls under the WTO and should not be brought under climate change declarations.** We had asked the word “trade” to be removed, but they did not agree. So, we have not signed the declaration.”

What COP26 does for forests and what to look for in 2022 | IUCN

Q.21) Local self-government can be best explained as an exercise in

- Federalism
- Democratic decentralization
- Administrative delegation
- Direct democracy

Ans) b

Exp) Option b is the correct answer.

Local self-government can be best explained as an exercise in democratic decentralization.

Democratic decentralization helps to further democratize local self-government to enable it to enjoy more authority, shoulder greater responsibility, take more initiative and experience greater autonomy in the management of the affairs of the local area.

Source) UPSC CSE 2017

Q.22) With reference to local self-governance in India, consider the following statements:

1. The constitution does not confer any inherent taxation powers on the local bodies.
2. The subject of Local governance falls under the Concurrent legislative jurisdiction under the Seventh Schedule of the Constitution.
3. Powers and functions of Gram Sabha are clearly mentioned in the Constitution.

Which of the statements given above is/ are correct?

- a) 1 only
- b) 2 and 3 only
- c) 1 and 2 only
- d) 1 and 3 only

Ans) a

Exp) Option a is the correct answer.

Local governance refers to institutions involving locals at the levels of villages and cities in order to take care of day-to-day administration related to running an area smoothly, such as health services, roads, waste disposal, water provision, etc. Local governance institutions were given constitutional status in India through the 73rd and 74th Constitutional Amendment Acts of 1992.

Statement 1 is correct: The **Panchayati raj system (system of local governance)** was given **constitutional sanction**, through the **73rd and 74th Constitutional Amendment Acts of 1992**. While the constitution makes some provisions mandatory for all panchayats in all states, some provisions are voluntary and have been left to the discretion of the state legislatures to decide as they see fit, for panchayats in their area. One such matter is the matter of Finances of a Panchayat. **The constitution does not confer any particular tax raising powers on the Panchayats.** It is for the state legislatures to decide which taxes the panchayats in that state are eligible to levy and collect. **Hence this statement is correct.**

Panchayats, in general have been given the power to raise finances through taxation and levy of local user fees and penalties, through the state Acts by which they are established. Their finances are also supplemented through grants by the state and central governments.

Statement 2 is incorrect: India is a federal polity in its working. This means there is a **distribution of power** among various levels of governance - like national, state, and local. So, to clarify the roles, responsibilities, authorities and limits of various levels of government, our **constitution divided various subjects** which could be legislated upon into **3 lists - Union, State & Concurrent**, placed in the **7th Schedule** to the constitution. The 73rd and 74th constitutional amendment acts of 1992, **placed local governance in the State (not the Concurrent) List**. Thus, **matters related to local governance (both rural and urban)** are placed under the **legislative competence of the state** (i.e., that the State Legislature makes laws on matters deciding about various issues related to local government). Hence this statement is **incorrect**.

Statement 3 is incorrect. The act provides for a Gram Sabha as the foundation of the Panchayati raj system. It is a body consisting of persons registered in the electoral rolls of a village comprised within the area of Panchayat at the village level. Thus, it is a village assembly consisting of all the registered voters in the area of a panchayat. **It may exercise such powers and perform such functions at the village level as the legislature of a state determines.** Empowering the Gram Sabhas could have been a powerful weapon for transparency, accountability and for involvement of the marginalized sections. However, a number of the State Acts have not spelt the powers of Gram Sabhas nor have any procedures been laid down for the functioning of these bodies or penalties for the officials

Source: Indian Polity by Laxmikanth, 5th edition, Ch-38, Pg-38.1, 38.2, 38.8

Q.23) With reference to the local governance in India, consider the following statements:

1. The provisions of Part IX do not apply to the Union Territories.
2. The President can make exceptions to decide which provisions of Part IX apply to Scheduled Areas.

Which of the statements given above is/ are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) neither 1 nor 2

Ans) d

Exp) Option d is the correct answer.

Statement 1 is incorrect: Part IX of the constitution was introduced by the **73rd Constitutional Amendment Act, 1992**, to give constitutional status to local governance institutions in rural areas. **The provisions of this Part are applicable to the Union territories.** But the President may direct that they would apply to a Union territory subject to such exceptions and modifications as he/she may specify. **Statement 2 is incorrect:** The **provisions relating to local governance** may be **modified and applied partly to UTs and Scheduled areas.** However, the **authority** on whose **discretion** this rests is **different in both cases.** Hence this statement is **incorrect.**

While it is the President who decides which provisions and with what modifications are applicable to UTs, **it is the Parliament, which decides which provisions and with what modifications** are applicable to **Scheduled Areas.** It is in pursuance to this power, that the Parliament enacted the **Panchayat (Extension to Scheduled Areas) Act, 1996 (PESA).**

Source: Indian Polity by Laxmikanth, 5th edition, Ch-38, Pg-38.11

Q.24) With reference to the Metropolitan Planning Committee (MPC), consider the following statements:

1. The Constitution makes it mandatory for States to set up MPCs in Metropolitan areas.
2. It consists of members from both urban as well as rural local bodies.
3. The Governor can make provision with respect to the functions of MPC in relation to planning and coordination for the metropolitan area.

Which of the statements given above is/ are correct?

- a) 1 and 2 only
- b) 2 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) a

Exp) Option a is the correct answer.

The constitution in Article 243ZE under Part IX A, provides for the establishment of a Metropolitan Planning Committee (MPC) to help with the development planning of the big metro areas.

Statement 1 is correct: **The Constitution makes it mandatory for States to set up MPCs in areas with population of 10 lakh and above.** MPC is required to prepare a draft development plan.

Statement 2 is correct: Although this is a **body related to urban local governance**, and is under **Part IX A, elected members from both urban local bodies and rural local bodies (only chairpersons of Panchayats in that metropolitan area)** form a **part of this committee.** Hence this statement is **correct.**

This has been done to provide **due representation to the interests and needs of the people** residing in **peri-urban and rural areas adjoining massive metropolitan areas**, who are often affected by the activities in the metropolitan area (traffic, Law & order, environmental issues, etc).

Statement 3 is incorrect: The **constitution mentions** that the **main function of this committee** is to create **draft development plans** for the **metropolitan areas** by **combining municipal and panchayat development plans**. The **state legislature** may make provisions with respect to the following:

- 1) The composition of such committees;
- 2) The manner of election of members of such committees;
- 3) The representation in such committees of the Central government, state government and other organisations;
- 4) **The functions of such committees in relation to planning and coordination for the metropolitan area;** and
- 5) The manner of election of chairpersons of such committees.

Q.25) Consider the following statements regarding 'Beating Retreat Ceremony':

1. The ceremony is organized every year on the next day of Independence Day Celebration.
2. The chief guest during the Beating Retreat Ceremony is the President of India.
3. The Beating Retreat Ceremony is unique and exclusive tradition of India.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 only
- c) 1 and 3 only
- d) 1 only

Ans) b

Exp) Option b is the correct answer.

Union Minister of Science & Technology has said that Botlab Dynamics Private Limited, a start-up supported by Technology Development Board will light up the sky with 1000 Drones Light Show at 'Beating the Retreat Ceremony'

Statement 1 is incorrect: The Beating Retreat ceremony is organized **every year after the Republic Day Celebration** on January 29. The ceremony takes place at the Vijay Chowk, filling it with lights, music, and patriotism.

Statement 2 is correct: The Beating Retreat ceremony occasion is organised and held by the Indian Army, with the **President of India as the principal chief guest**. The programme is organized in front of Rashtrapati Bhawan on Raisina Road.

Statement 3 is incorrect: The ceremony is not exclusive to India. It has a long tradition across various countries. The **ceremony began in 17th century England**, when King James II ordered his troops to beat drums, lower flags and organize a parade to announce the end of a day of combat. The ceremony is currently held by Armed Forces in the **UK, US, Canada, New Zealand, Australia**, and India, among others.

Knowledge Base:

In India, the ceremony traces its origins to the **early 1950s**, when **Major Roberts of the Indian Army** indigenously developed the **unique ceremony of display by the massed bands**. Currently, it is played by bands from the **Indian Army, Indian Navy, and Indian Air Force, as well as Army pipe bands** and, beginning in 2016, a massed formation of bands from the Central Armed Police Forces and the Delhi Police.

Q.26) With reference to the composition of Panchayats, consider the following statements:

1. There is a reservation of seats for SC/STs only at the village and intermediate levels.
2. Reservation for backward classes for the post of chairperson is not mandatory at any level of Panchayats.
3. The reservation of both seats and the post of chairperson for women is mandatory at all levels.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

The 73rd Constitutional Amendment Act of 1992, gave constitutional status to Panchayati raj system (rural local governance). This introduced Part IX in the constitution which consists of some mandatory provisions with respect to Panchayats, such as compulsory establishment, periodic elections, reservations in composition, etc.

Statement 1 is incorrect: Article 243D of the constitution lays down that there will compulsorily be a reservation of seats for people from the SC and ST communities at all the levels of Panchayats - at village, intermediate, as well as district level. Hence this statement is incorrect.

This reservation is in **proportion to the population** of these communities to the total population of the area. This has been done to **improve political representation**, as well as **socio-economic empowerment** of these **vulnerable communities** starting from the grass root level.

Statement 2 is correct: As far as the office of the Chairpersons of Panchayats at various levels is concerned, the constitution has not made any mandatory provisions regarding reservations for Backward Classes. They have left the decision to the respective state legislatures, who shall make provisions in this regard in the legislations through which they establish Panchayats in the state. Also, reservations for SC/ ST for the office of Chairperson of Panchayat, at any level, is not mandatory. It is optional, and differs from state to state.

It must also be noted, that this is true in case of reservation of normal seats as well, as far as Backward Classes are concerned. It is solely dependent on the discretion of respective state legislatures. Also, in the case of SC/ST, the constitution has left the exact quantum of reservation to be provided in case of the office of Chairperson at each level to the state legislatures.

Statement 3 is correct: Article 243D of the constitution itself provides for reservation for women in Panchayats. According to it, at least (state legislatures can provide for even more, but not less than) 1/3rd of all seats, as well as posts of Chairpersons, at each level of Panchayats are to be reserved for women. Hence this statement is correct.

This has been done to **improve political representation**, as well as **socio-economic empowerment of women** starting from the grass root level.

Q.27) Consider the following statements:

1. Maharashtra is the most urbanized state in India with more than half of the population living in urban areas.
2. In India, the Census Commission defines a metropolitan city as urban agglomeration having a population of over one million.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) d

Exp) Option d is the correct answer.

Statement 1 is incorrect: Goa is the most urbanised state with 62.17% of the population living in urban areas. But if one goes by geographical area and total population, Tamil Nadu is the most urbanised state. In Kerala, 47.72% of people live in urban areas and in Maharashtra 45.23%.

Among all the States and Union territories, the National Capital Territory of Delhi and the Union territory of Chandigarh are most urbanized with 97.5% and 97.25% urban population respectively.

Statement 2 is incorrect: In India, the Census Commission defines a **metropolitan city as urban agglomeration having a population of over four million**. Delhi, Mumbai, Kolkata, Chennai, Hyderabad, Bangalore, Ahmedabad, Pune, Surat and Nashik are those Indian cities that have over 4 million people.

Q.28) Which of the following items are included within the purview of the Municipalities under the Twelfth Schedule of the Indian constitution?

1. Planning for economic and social development
2. Safeguarding the interests of weaker sections of society
3. Technical training and vocational education
4. Slum improvement and upgradation
5. Implementation of land reforms

Select the correct answer using the codes given below:

- a) 1 and 3 only
- b) 2, 3 and 5 only
- c) 1, 2 and 4 only
- d) 1, 3, 4 and 5 only

Ans) c

Exp) Option c is the correct answer.

Twelfth Schedule of the Indian constitution contains the powers, authority and responsibilities of Municipalities. This schedule contains 18 functional items placed within the purview of municipalities. Twelfth Schedule was added by the 74th Amendment Act of 1992.

Statement 1, 2 and 4 are correct: Twelfth Schedule of the Indian constitution contains following items:

1) Urban planning including town planning	7) Fire services	13) Promotion of cultural, educational and aesthetic aspects
2) Regulation of land use and construction of buildings	8) Urban forestry, protection of the environment and promotion of ecological aspects	14) Burials and burial grounds, cremations and cremation grounds and electric crematoriums

SFG 2023 | LEVEL 1 | Test #7 - Solutions | ForumIAS

3) Planning for economic and social development	9) Safeguarding the interests of weaker sections of society, including the handicapped and mentally retarded	15) Cattle ponds, prevention of cruelty to animals
4) Roads and bridges	10) Slum improvement and upgradation	16) Vital statistics including registration of births and deaths
5) Water supply for domestic, industrial and commercial purposes	11) Urban poverty alleviation	17) Public amenities including street lighting, parking lots, bus stops and Public conveniences
6) Public health, sanitation, conservancy and solid waste management	12) Provision of urban amenities and facilities such as parks, gardens, playgrounds	18) Regulation of slaughter houses and tanneries

Statement 3 and 5 are incorrect: The subject of land reforms and education including primary and secondary schools; technical training and vocational education are included in **11th Schedule and are not included under 12th Schedule**. 11th Schedule contains the provisions that **specify the powers, authority and responsibilities of Panchayats**. This schedule was added by the 73rd Amendment Act of 1992. It has 29 matters.

Source: Laxmikanth Chapter 39 Municipalities

Q.29) With reference to District Planning committee, consider the following statements

1. The constitution of India provided that every district India shall constitute a District Planning committee.
2. Members of the Lok Sabha and the State legislative Assembly are Specially invited permanent members of District Planning committee.
3. District Magistrate shall be appointed as the ex-officio secretary of the District Planning Committee.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

Statement 1 is correct:

Articles 243ZD of the constitution of India, provided there shall be constituted in every district a District Planning committee. Its aim is to consolidate the plans Prepared by the Panchayats and the Municipalities in the district and to prepare a draft development plan for the district as a whole.

Statement 2 is correct:

The District Planning committee of different districts shall consist of such number of members as may be specified by the state government by notification.

Specially invited permanent members of District Planning committee are -

(a) Such members of the Lok Sabha and the State legislative Assembly whose constituencies fall in that district;

(b) Member of the Rajya Sabha, registered as voter in the district.

(c) Adhyaksha of the Zila Parishad and the chairman / mayor of the Municipal Bodies shall also be permanent specially invited members on the condition that they have not been elected as member of the committee.

Statement 3 is correct:

District Magistrate / Deputy Commissioner shall be the ex-officio secretary of the District Planning Committee. He /she will be responsible for preparing records of important matters to be laid before the Committee, for presenting the same, for issuing notices of decision and for doing causal ancillary functions;

http://www.nrcddp.org/DPC/District_Planning_Committee_Jharkhand.pdf

Q.30) With reference to 'e-DNA', consider the following statements:

1. It is an organismal DNA that is released from an organism into the environment.
2. It cannot be obtained from aquatic environment due to its dilution by hydrological processes.
3. It can be an effective tool for early detection of native and invasive species in the ecosystem.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 1 and 3 only
- c) 3 only
- d) 2 and 3 only

Ans) b

Exp) Option b is the correct answer.

Statement 1 is correct: Environmental DNA (eDNA) is **organismal DNA** that can be found in the environment. Environmental DNA originates from **cellular material shed by organisms** (via skin, excrement, etc.) into aquatic or terrestrial environments that can be sampled and monitored using new molecular methods.

Statement 2 is incorrect: Environmental DNA **can be obtained from aquatic or terrestrial environments** that can be sampled and monitored using new molecular methods. In aquatic environments, eDNA is diluted and distributed by currents and other hydrological processes, but it **only lasts about 7–21 days**, depending on environmental conditions.

Statement 3 is correct: eDNA technology is important for the **early detection of invasive species as well as the detection of rare and cryptic species**. Detection of species using eDNA can improve biodiversity assessments and provide information about status, distribution, and habitat requirements for lesser-known species.

Application of eDNA methods for **invasive species** monitoring may include **periodically collecting water samples and screening them for several invasive species at once**.

Source: DNA from air may help identify, track animals in the wild: Studies -ForumIAS Blog
Environmental DNA (eDNA) | U.S. Geological Survey (usgs.gov)

Q.31) In the areas covered under the Panchayat (Extension to the Scheduled Areas) Act, 1996, what is the role/power of Gram Sabha?

1. Gram Sabha has the power to prevent alienation of land in the Scheduled Areas.
2. Gram Sabha has the ownership of minor forest produce.
3. Recommendation of Gram Sabha is required for granting prospecting licence or mining lease for any mineral in the Scheduled Areas.

Which of the statements given above is/are correct?

- a) 1 only
- b) 1 and 2 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

The Panchayat (Extension of the Scheduled Areas) Act, 1996 or PESA, was enacted by the Centre to ensure self-governance through gram sabhas for people living in scheduled areas. It legally recognizes the right of tribal communities, residents of the scheduled areas, to govern themselves through their own systems of self-government. It also acknowledges their traditional rights over natural resources.

Statement 1 is correct. Section 4(m)(iii) of PESA requires the State to enact laws for the purpose of empowering Gram Sabhas and Panchayats at the appropriate level “to prevent alienation of land in the Scheduled Areas and to take appropriate action to restore any unlawfully alienated land of a Scheduled Tribe”.

Statement 2 is correct. Section 4(m)(ii) of PESA endows the Panchayats at the appropriate level and the Gram Sabha with the ownership of minor forest produce.

Statement 3 is incorrect. According to the provisions of the PESA Act, 1996 the recommendations of the Gram Sabha or the Panchayats at the appropriate level shall be made mandatory prior to grant of prospecting licence or mining lease for **minor minerals (not any mineral)** in the Scheduled Areas.

Source) UPSC CSE 2012

Q.32) With reference to Town Area Committee, which of the following statements is/are correct?

1. It is non-statutory body established by respective state governments.
2. It is always an entirely nominated body including the chairperson, who is nominated by District Judge.

Choose the correct answer using the options given below:

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) d

Exp) Option d is correct.

Around eight types of urban local bodies are created in India for the administration of urban areas. Town Area Committee is among the those and it is set up for the administration of a small town. Features of the committee are:

Statement 1 is incorrect - A town area committee is **created by a separate act of a state legislature**. It is a semi-municipal authority and is entrusted with a limited number of civic functions like drainage, roads, street lighting, and conservancy. A notified area committee is established by a notification in the government gazette.

Statement 2 is incorrect - The composition, functions and other matters related to the Town Area Committee are governed by the act. **It may be wholly elected or wholly nominated by the state government or partly elected and partly nominated**. It is not necessary being entirely a nominated body. Notified Area Council is an entirely nominated body, that is, all the members of a notified area committee including the chairman are nominated by the state government.

Q.33) In opposition to enhancing the powers of panchayat, this national leader said-

“A population which is hidebound by caste; a population which is infected by ancient prejudices; a population which thinks that some are high and some are low – can it be expected to have the right notions even to discharge bare justice? Sir, I deny that proposition, and I submit that it is not proper to expect us to submit our life, and our liberty, and our property to the hands of these Pancha's.”

Which one of the following national leaders spoken words given in the above passage?

- a) Mahatma Gandhi
- b) Sardar Vallabhbhai Patel
- c) Dr. B. R. Ambedkar
- d) Jawahar Lal Nehru

Ans) c

Exp) Option c is the correct answer.

Dr. B.R. Ambedkar felt that the faction and caste-ridden nature of rural society would defeat the noble purpose of local government at the rural level.

When the Bombay Legislative Council debated enhanced powers for panchas through a Village Panchayats Bill, **Ambedkar lashed out**. “A population which is hidebound by caste; a population which is infected by ancient prejudices; a population which flouts equality of status and is dominated by notions of gradations in life; a population which thinks that some are high and some are low – can it be expected to have the right notions even to discharge bare justice? Sir, I deny that proposition, and I submit that it is not proper to expect us to submit our life, and our liberty, and our property to the hands of these panchas.”

Option a is incorrect: Mahatma Gandhi wanted the central government to have very limited powers. He **wanted villages to rule themselves the traditional way**, through sarpanches and panchas (village chiefs and councillors). He was a strong advocator of Panchayati Raj system.

Option b and d are incorrect: Both J L Nehru and Sardar Patel looked upon extreme localism as a threat to unity and integration of the nation. They recognized the inherent inequalities and injustices prevalent in the Indian villages.

Source: <https://timesofindia.indiatimes.com/blogs/Swaminomics/ambekar-vs-gandhi-the-risks-of-village-empowerment/>

<https://ncert.nic.in/textbook/pdf/keps208.pdf>

Q.34) With reference to ‘Finances of Panchayati Raj in India’, consider the following statements:

1. Union government provide grants to the Panchayats based on the recommendations of Finance Commission of India.
2. The internal resource generation at the Panchayat level is the major source of funds for Panchayats in India.
3. Panchayats cannot borrow money in the forms of loans.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) a

Exp) Option a is the correct answer.

The finances of Gram Panchayat come from both the state and the federal government. Grants from the Central Finance Commission are currently one of the most important sources of funds for Gram Panchayats. In addition, grants from state finance commissions are also available. Most Gram Panchayats have largely untapped revenue sources as well.

Statement 1 is correct: A major portion of Part IX of the Constitution deals with structural empowerment of the PRIs but the real strength in terms of both autonomy and efficiency of these institutions is dependent on their financial position (including their capacity to generate own resources). In general, Panchayats in

our country receive funds in the following ways: (i) **Grants from the Union Government based on the recommendations of the Central Finance Commission as per Article 280 of the Constitution.** (ii) Devolution from the State Government based on the recommendations of the State Finance Commission as per Article 243-I. (iii) Loans / grants from the State Government. (iv) Programme-specific allocation under Centrally Sponsored Schemes and Additional Central Assistance. (v) Internal Resource Generation (tax and non-tax).

Statement 2 is incorrect: Across the country, States have not given adequate attention to fiscal empowerment of the Panchayats. The Panchayats own resources are meager. Kerala, Karnataka and Tamil Nadu are the states which are considered to be progressive in PRIs empowerment but even there, the Panchayats are heavily dependent on government grants. **Internal resource generation at the Panchayat level is weak.** This is partly due to a thin tax domain and partly due to Panchayats own reluctance in collecting revenue.

Statement 3 is incorrect: Loans can be obtained by local bodies from financial institutions for implementation of various schemes relating to Urban Development, Water Supply and Roads etc. **A Panchayat may borrow money as loans from state governments, and market borrowings.**

Q.35) Consider the following statements:

1. Wheat absorb moisture while paddy lose moisture after harvesting.
2. Farmers have to take a price cut on Minimum Support Price when selling wheat stocks below certain moisture limit.
3. Government recently decided to remove the moisture content limit while buying paddy crop.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) a

Exp) Option a is the correct answer.

Government of India's recent draft proposal proposes to change the moisture content limit for wheat and paddy. This has made farmers worried ahead of the rabi procurement season that begins April 2022.

Statement 1 is correct: Moisture content (MC) is the **weight of water** contained in paddy or wheat expressed in percent. The moisture content has been a sensitive issue for farmers. After harvesting, **wheat absorbs moisture while rice loses it.**

Statement 2 is correct: Currently, farmers have to take a **price cut on Minimum Support Price (MSP)** when selling **wheat stocks above the 12% moisture limit.** Stocks with above 14% moisture are rejected.

However, according to the proposed new rules, **the ideal moisture content in wheat may be reduced to 12% from 14%.** This means that wheat stocks with moisture content above 12% will not be procured even with a price cut.

Statement 3 is incorrect: Currently there is **no proposal** or decision from Government **to remove the moisture content limit** while selling paddy crop. However, in the proposals for the paddy, **permissible moisture content** has been reduced from 17% to 16%. Untimely rain ahead of procurement season and lack of sheltered storage space at the mandis makes it difficult for farmers to keep their stocks dry.

Source: Centre may reduce the moisture content limit for wheat, paddy. Why this will hurt farmers - ForumIAS Blog

Q.36) Which of the following are the probable reasons behind the ineffective performance of Panchayats in India?

1. They do not accommodate the diverse sections of the village society.
2. The position of panchayats is subordinate to the bureaucracy at state level.
3. Parallel bodies have bypassed the role and responsibilities of Panchayats.

Select the correct answer using the codes given below:

- a) 1 and 2 only
- b) 2 and 3 only
- c) 2 only
- d) 3 only

Ans) b

Exp) Option b is the correct answer.

Even after conferring the constitutional status and protection through the 73rd Amendment Act (1992), the performance of the Panchayati Raj Institutions (PRIs) has not been satisfactory and not up to the expected level. The various reasons for this sub-optimal performance are as follows

Statement 1 is incorrect: Panchayati Raj system in India has **accommodated various sections of society through reservation of seats for scheduled castes and scheduled tribes** in every panchayat (i.e., at all the three levels) in proportion of their population to the total population in the panchayat area. Further, the state legislature shall provide for the reservation of offices of chairperson in the panchayat at the village or any other level for the SCs and STs. It also provides for the reservation of not less than one-third of the **total number of seats for women** (including the number of seats reserved for women belonging the SCs and STs). This is not the reason for ineffective performance of Panchayats in India.

Statement 2 is correct: In some States, the Gram Panchayats have been placed in a position of subordination. Hence, the **Gram Panchayat Sarpanches have to spend extraordinary amount of time visiting Block Offices for funds and/or technical approval.** These interactions with the Block staff office distort the role of Sarpanches as elected representatives. Hence, the position of panchayats is subordinate to the bureaucracy at state level.

Statement 3 is correct: Parallel Bodies (PBs) are created for supposedly speedy implementation and greater accountability. However, there is little evidence to show that such PBs have avoided the evils including that of partisan politics, sharing of spoils, corruption and elite capture. Missions (in particular) often bypassing mainstream programmes, create disconnect, duality, and alienation between the existing and the new structures and functions. **PBs usurp the legitimate space of PRIs and demoralize the PRIs by virtue of their superior resource endowments.**

Source: Laxmikanth Chapter 38 Panchayati Raj

Q.37) With reference to Panchayat Extension to Scheduled Areas (PESA) Act, 1996, consider the following statements:

1. It provided the Gram Sabha to protect common properties of the tribal communities based on their traditional systems.
2. The act also applies to the schedule areas of the Sixth schedule of the Indian Constitution.
3. The reservation of seats in the Scheduled Areas in every Panchayat should be in proportion to the population of the Scheduled caste and Scheduled tribe communities.

Which of the statements given above is/are correct?

- a) 1 and 3 only
- b) 1 only
- c) 2 and 3 only
- d) 3 only

Ans) a

Exp) Option a is the correct answer.

The provisions of Part IX of the constitution relating to the Panchayats are not applicable to the Fifth Schedule areas. However, the Parliament may extend these provisions to such areas, subject to such exceptions and modifications as it may specify. Under this provision, the Parliament has enacted the “**Provisions of the Panchayats (Extension to the Scheduled Areas) Act**”, 1996, popularly known as the PESA Act or the Extension Act.

Statement 1 is correct: PESA Act ensures: Gram sabha to protect the traditions, beliefs and culture of the tribal communities. Also, it provides that Local disputes to be resolved by the gram sabha, Gram sabha to **manage and protect common properties based on their traditional systems of management and protection**

Statement 2 is incorrect: The PESA Act the provisions of Part IX of the Constitution relating to the panchayats to the **fifth scheduled areas**. At present **ten states have Fifth Schedule Areas**. These are: Andhra Pradesh, Telangana, Chhattisgarh, Gujarat, Himachal Pradesh, Jharkhand, Madhya Pradesh, Maharashtra, Odisha, and Rajasthan. All ten states have enacted requisite compliance legislations by amending the respective Panchayati Raj Acts.

The four northeastern states of Assam, Meghalaya, Tripura and Mizoram are included under 6th Schedule of Indian Constitution and PESA act is not applicable for these areas.

Statement 3 is correct: The reservation of seats in the Scheduled Areas in every Panchayat should be in proportion to the population of the communities for whom reservation is sought to be given under Part IX of the Constitution. Such seats may be allotted by rotation to different constituencies in a Panchayat. However, the reservation for the Scheduled Tribes shall not be less than one-half of the total number of seats. Further, **all seats of Chairpersons of Panchayats at all levels shall be reserved for the Scheduled Tribes.**

Q.38) Which of the following are the mandatory provisions under the 73rd Constitutional Amendment Act, 1992?

1. Constitution of a State Finance Commission after every five years.
2. Indirect elections to the post of chairperson of panchayats at the district levels
3. Giving representation to members of the Parliament in the panchayats

Select the correct answer using the codes given below:

- a) 1 and 2 only
- b) 1 only
- c) 2 only
- d) 1 and 3 only

Ans) a

Exp) Option a is the correct answer.

The 73rd Amendment Act was passed in 1992 and came into effect on 24th April 1993 which inserted Part IX consisting of Article 243 to 243-O, and the Eleventh Schedule enumerating 29 functional items. The Act gave certain powers to the state government to constitute gram panchayats at a local level and provide them with all the necessary assistance to operate as a unit of self-governance.

Statement 1 and 2 are correct: The compulsory (obligatory or mandatory) provisions of the 73rd Constitutional Amendment Act (1992) or the Part IX of the Constitution are:

- 1) Organisation of Gram Sabha in a village or group of villages.
- 2) Establishment of panchayats at the village, intermediate and district levels.

- 3) Direct elections to all seats in panchayats at the village, intermediate and district levels.
- 4) Indirect elections to the post of chairperson of panchayats at the intermediate and district levels.**
- 5) 21 years to be the minimum age for contesting elections to panchayats.
- 6) Reservation of seats (both members and chairpersons) for SCs and STs in panchayats at all the three levels.
- 7) Reservation of one-third seats (both members and chairpersons) for women in panchayats at all the three levels.
- 8) Fixing tenure of five years for Panchayat at all levels and holding fresh elections within six months in the event of supersession of any Panchayat.
- 9) Establishment of a State Election Commission for conducting elections to the Panchayat.
- 10) Constitution of a State Finance Commission after every five years to review the financial position of the Panchayat.**

Statement 3 is incorrect: Giving representation to members of the Parliament (both the Houses) and the state legislature (both the Houses) in the panchayats at different levels falling within their constituencies are the **voluntary provisions** under 73rd Constitutional Amendment Act.

Source: https://cbpbu.ac.in/userfiles/file/2020/STUDY_MAT/POL_SC/73rd%20and%2074th-converted.pdf

Q.39) A person can be disqualified from being a member of panchayat under which of the following circumstances?

1. If disqualified under any law for the time being in force for the purpose of elections to the legislature of the state concerned.
2. A person of 21 years old can be disqualified on the ground that he is less than 25 years of age.
3. If S/he is dismissed from the service of a local authority.

Select the correct answer using the codes given below:

- a) 1 only
- b) 1 and 2 only
- c) 2 and 3 only
- d) 1 and 3 only

Ans) d

Exp) Option d is the correct answer.

The provisions under **article 243F – Part IX** of the Indian Constitution states the disqualifications for Membership of Gram Panchayat. This ensures greater stability in village polity, participation of all sections of society, helps reduce corruption and non-development issues.

Statement 1 and 3 are correct: A person shall be **disqualified for being chosen** as or for being a member of panchayat if he is so disqualified, (a) **under any law for the time being in force** for the purpose of elections to the legislature of the state concerned, or (b) **under any law made by the state legislature.**

If he has been dismissed from the service of a local authority, it will be a ground of disqualification for being chosen as or for being a member of panchayat.

Statement 2 is incorrect: No person shall be disqualified on the ground that he is less than 25 years of age if he has attained the age of 21 years. All questions of disqualifications shall be referred to such authority as the state legislature determines.

Source: Laxmikanth Chapter 38 Panchayati Raj

Q.40) Consider the following statements regarding ‘Bioenergy Crops’:

1. These are crops that are grown only through bio-manure and without any application of chemical fertilizers.

2. Recent studies have shown these crops are responsible for inducing heating effects that are leading to a net increase in air temperature.

3. Eucalyptus, miscanthus and switchgrass are some of the examples of Bioenergy crops.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 only
- c) 1 and 3 only
- d) 3 only

Ans) d

Exp) Option d is the correct answer.

Statement 1 is incorrect.

Bioenergy crops are defined as **any plant material used to produce bioenergy** and not the crops that can be grown through the usage of bio-manure. Bioenergy crops have the capacity to produce large volumes of biomass, high energy potential and can be grown in marginal soils.

Statement 2 is incorrect.

Researchers have found that the **global air temperature decreases** by 0.03~0.08 °C with strong regional contrasts and inter-annual variability after 50 years of **large-scale bioenergy crop cultivation**. These crops exert strong regional biophysical effects, leading to a **global net change in air temperature of -0.08 °C ~ +0.05 °C**. According to a study, converting annual crops to perennial **bioenergy crops can induce a cooling effect** on the areas where they are cultivated.

Statement 3 is correct.

Eucalyptus, poplar, willow, miscanthus and switchgrass are some of the examples of bioenergy crops. Researchers have also demonstrated the **importance of the bioenergy crop type choice**. For example, cultivating eucalypt shows generally cooling effects that are more robust than if switchgrass is used as the main bioenergy crop, implying that eucalypt is superior to switchgrass in cooling the lands biophysically.

Source: Bioenergy crops create cooling effect on cultivated areas: Study -ForumIAS Blog

Q.41) If a particular area is brought under the Fifth Schedule of the Constitution of India, which one of the following statements best reflects the consequence of it?

- a) This would prevent the transfer of land of tribal people to non-tribal people.
- b) This would create a local self- governing body in that area.
- c) This would convert that area into a Union Territory.
- d) The State having such areas would be declare a Special Category State.

Ans) a

Exp) Option a is the correct answer.

Option a is correct. The Fifth Schedule of the Constitution **deals with the administration and control of Scheduled Areas as well as of Scheduled Tribes residing in any State other than the States of Assam, Meghalaya, Tripura and Mizoram.**

Governor can make regulations for the peace and good government of a scheduled area after consulting the tribe's advisory council. Such regulations may prohibit or **restrict the transfer of land by tribal to non-tribal members** or among members of the scheduled tribes, regulate the allotment of land to members of the scheduled tribes.

Option b is incorrect. According to the provisions of Paragraph 4, under Article 244(1) of Fifth Schedule of the Constitution of India, the Tribes Advisory Councils (TAC) **shall be established in each State having**

Scheduled Areas therein and, if the President so directs, also in any State having Scheduled Tribes but not Scheduled Areas. Tribal advisory council is an advisory body, not a governing body.

Option c is incorrect. Bringing any particular area under the Fifth Schedule of the Constitution of India does not convert the area into a Union Territory.

Option d is incorrect. Bringing any particular area under the Fifth Schedule of the Constitution of India does not get declared as a Special Category State.

Source: UPSC CSE 2022

Q.42) Under 73rd Constitutional Amendment Act, a panchayat constituted upon the dissolution of a panchayat before the expiration of its duration continues for-

- The full period of five years from the date of announcement of the election results
- Only for the remainder of the period for which the dissolved panchayat would have continued
- Six months or less to hold any election for constituting the new panchayat for such period.
- The period decided by the state legislature in consultation with State Election Commission

Ans) b

Exp) Option b is the correct answer.

The 73rd **Constitutional Amendment Act** provides for a **five-year term of office** to the panchayat at every level. However, it can be dissolved before the completion of its term. Further, fresh elections to constitute a panchayat shall be completed (a) before the expiry of its duration of five years; or (b) in case of dissolution, before the expiry of a period of six months from the date of its dissolution.

A **panchayat constituted upon the dissolution of a panchayat** before the expiration of its duration shall continue **only for the remainder of the period for which the dissolved panchayat would have continued** had it not been so dissolved. In other words, a panchayat reconstituted after **premature dissolution does not enjoy the full period of five years** but remains in office only for the remainder of the period.

Source: Laxmikanth Chapter 38 Panchayati Raj

Q.43) With reference to 'Evolution of Urban bodies in India', consider the following statements:

- The Calcutta Municipal Corporation was the first municipal corporation to be set up in India.
- Lord Ripon's Resolution of Local Self-Government introduced a two-tier system of local governance at municipality level.
- Under the Government of India Act of 1919, local self-government became a reserved subject under the direct charge of Governor.

Which of the statements given above is/are correct?

- 1 only
- 2 only
- 2 and 3 only
- 1 and 3 only

Ans) b

Exp) Option b is the correct answer.

The 74th Constitutional Amendment Act, 1992 is very important for the urban local bodies. This Constitutional Amendment Act recognized urban local bodies (ULBs) as the third tier of urban government by assigning them specific civic functions. The origins of urban local bodies in India can be traced back to the early days of British rule, when the company administration was responsible for the construction and maintenance of roads, irrigation, and schools among other things.

Statement 1 is incorrect: The **first municipal corporation in India was established in Madras** in 1687 as a result of a **Charter Act passed by James II**, the British monarch at the time. Municipal governance in India

was first introduced in 1687 when the Madras Municipal Corporation was formed, followed by the creation of the Calcutta Municipal Corporation and the Bombay Municipal Corporation in 1726.

Statement 2 is correct: In 1882, **Lord Ripon's Resolution of Local Self-Government** created the outline and structure of municipal governance in India. It introduced a **two-tier system of governance at municipal level** to increase governance efficiency through decentralisation of functions. According to Lord Ripon's Resolution of Local Bodies in 1882, district boards and local boards were formed. Such boards in rural areas were known as 'taluk' or 'tehsil'.

Statement 3 is incorrect: Under the dyarchical scheme introduced in the provinces by Government of India Act of 1919, local self-government became a transferred subject under the charge of responsible Indian minister.

Laxmikanth Chapter 39 Municipalities

Q.44) Under 74th Constitutional Amendment Act of 1992, which of the following persons can be provided representation in a municipality?

1. The members of the state legislative assembly representing constituencies that comprise, wholly or partly, the municipal area.
2. Members of Lok Sabha elected from any constituency within the state in which the municipality is located.
3. Persons having special knowledge or experience in municipal administration
4. The members of the state legislative council registered as electors within the municipal area

Select the correct answer using the codes given below:

- a) 1 and 4 only
- b) 1, 2 and 3 only
- c) 1, 3 and 4 only
- d) 2 and 3 only

Ans) c

Exp) Option c is the correct answer.

According to the **74th Constitutional Amendment Act of 1992**, the members of a municipality shall be elected directly by the people of the municipal area. For this purpose, each municipal area shall be divided into territorial constituencies to be known as wards. The state legislature may provide the manner of election of the chairperson of a municipality.

Statement 1, 3 and 4 are correct & Statement 2 is incorrect: 74th Constitutional Amendment Act provide for the representation of the following persons in a municipality:

- 1) **Persons having special knowledge or experience in municipal administration** without the right to vote in the meetings of municipality.
- 2) **The members of the Lok Sabha and the state legislative assembly representing constituencies that comprise wholly or partly the municipal area.**
- 3) The members of the Rajya Sabha and the **state legislative council registered** as electors within the municipal area.
- 4) The **chairpersons of committees** (other than wards committees).

Source: Laxmikanth Chapter 39 Municipalities

Q.45) Consider the following statements:

1. The responsibility for safety and security of the Prime Minister of India lies with Special Protection Group (SPG).

2. The 'Blue Book' is issued by Ministry of Defense that contains detailed instructions for security of Prime Minister during visits to the states.
3. The local police is entrusted to take a final decision regarding the arrangements for the security of PM's states visit.

Which of the statements given above is/are **incorrect**?

- a) 3 only
- b) 1 and 2 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

The Ministry of Home Affairs has sought a report after the Prime Minister was trapped on a flyover for 20 minutes by protesters in Punjab in what is being reported as a serious security lapse.

Statement 1 is correct.

The **Special Protection Group (SPG)** is responsible for the safety and security of the Prime Minister. The Special Protection Group (SPG) is an agency of the Government of India whose sole responsibility is protecting the Prime Minister of India. It was **formed in 1988 by an Act of the Parliament of India**. The SPG protects the Prime Minister at all times both in India and abroad, as well as the Prime Minister's immediate family members residing with him/her at his/her official residence.

Statement 2 is incorrect.

For visits to the states, the SPG follows the instructions as stated in the 'Blue Book'. The instructions in the '**Blue Book**' are issued by the **Ministry of Home Affairs**. The Blue Book mandates that three days before any visit by the prime minister, the SPG holds an Advance Security meeting with everyone involved in securing the event, including Intelligence Bureau officials in the concerned state, state police officials and the concerned district magistrate.

Statement 3 is incorrect.

At Advance Security Meeting, everything, including the smallest of details, is discussed. The meeting discusses the PM's travel, how he will be escorted and decisions are taken along with the inputs of the central and local intelligence.

Central intelligence agencies are responsible for providing inputs about any threat. However, it is the **Special Protection Group (not Local Police) that takes the final call on how the security is to be arranged**. The SPG never allows the PM's movement until the local police give the go-ahead. State police are also supposed to conduct anti-sabotage checks and secure the route.

Source: Explained: How the Prime Minister's security is planned -ForumIAS Blog

Q.46) Consider the following statements regarding 74th Amendment Act of 1992:

1. The act provides for the constitution of Ward Committees in all municipalities with a population of 3 lakhs or more.
2. The maintenance of the accounts of the municipalities and other audit shall be done according to the guidelines of the state finance commission.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) a

Exp) Option a is the correct answer.

74th Amendment Act of 1992 has added a new Part IX-A to the Constitution of India. This part is entitled as ‘The Municipalities’ and consists of provisions from Articles 243-P to 243-ZG. The act gave constitutional status to the municipalities. It has brought them under the purview of justiciable part of the Constitution.

Statement 1 is correct: 74th Amendment Act of 1992 provides for constitution of Ward Committees in all municipalities with a population of 3 lakhs or more.

Statement 2 is incorrect: The maintenance of the accounts of the municipalities and other audit shall be done in accordance with the provisions in the State law. The State Legislatures will be free to make appropriate provisions in this regard depending upon the local needs and institutional framework available for this purpose.

Source: Laxmikanth Chapter 39 Municipalities

Q.47) With reference to ‘Central Council of Local Government’, consider the following statements:

1. It was constituted in 1993 as an attached body of Ministry of Panchayati Raj.
2. The council works as an advisory body dealing with matters of urban local government only.
3. It performs the functions of making proposals for legislation with regard to local government.

Which of the statements given above is/are correct?

- a) 1 only
- b) 1 and 2 only
- c) 2 and 3 only
- d) 1 and 3 only

Ans) c

Exp) Option c is the correct answer.

Statement 1 is incorrect: The Central Council of Local Government was **set up in 1954**. It was **constituted under Article 263** of the Constitution of India by an **order of the President of India**. Originally, it was known as the Central Council of Local Self-Government. However, the term ‘self-government’ was found to be superfluous and hence was replaced by the term ‘government’ in the 1980s.

Statement 2 is correct: The Council is an **advisory body**. It consists of the Minister for Urban Development in the Government of India and the ministers for local self-government in states. The union minister acts as the Chairman of the Council. Till 1958, it dealt with both urban as well as rural local governments, but **after 1958 it has been dealing with matters of urban local government only**.

Statement 3 is correct: The Council performs the following functions with regard to local government: (i) Considering and recommending the policy matters (ii) **Making proposals for legislation** (iii) Examining the possibility of cooperation between the Centre and the states (iv) Drawing up a common programme of action (v) Recommending Central financial assistance (vi) Reviewing the work done by the local bodies with the Central financial assistance

Source: Laxmikanth Chapter 39 Municipalities

Q.48) Why the phrase ‘Union of States’ is preferred over ‘Federation of States’ for India in the Constitution?

1. Unlike American Federation, the Indian Federation is not the result of an agreement among the states.
2. Indian states have no right to secede from the federation.
3. In order to ensure the territorial integrity of the Indian states.

Select the correct answer using the code given below:

- a) 1 and 2 only
- b) 1 and 3 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) a

Exp) Option a is the correct answer.

Article 1 describes India that is, Bharat as a 'Union of States' rather than a 'Federation of States'. This provision deals with name of the country and the type of polity.

Statement 1 is correct: Although the Constitution of India is federal in structure Indian country is described as 'Union'. According to Dr. B.R. Ambedkar, the phrase 'Union of States' has been preferred to Federation of States because **the Indian Federation is not the result of an agreement among the states like the American Federation.**

Statement 2 is correct: The Indian states have no right to secede from the federation. Though the country and the people may be divided into different States for convenience of administration, the country is one integrated whole, its people a single people, living under a single imperium derived from a single source.

Statement 3 is incorrect: Indian states are not guaranteed the territorial integrity, because Union can redraw boundaries of a state or create a new state out of an existing one even without the consent of the state. And India is often said as Indestructible union of destructible units.

Source: <https://www.legalserviceindia.com/legal/article-1429-indestructible-union-of-destructible-states.html>

Indian polity by M Laxmikanth 6th edition pdf. Chapter name- Union and its territory. Page no-140 and 139.

Q.49) Using the powers enshrined in Articles 2 and 3 of the Constitution of India, the Parliament can do which of the following?

- 1. Admit new territories as new state of India.
- 2. Split or merge existing Indian states.
- 3. Transfer and exchange of territories to neighboring countries.
- 4. Alter the names and boundaries of existing Indian States.

Select the correct answer using the code given below:

- a) 1, 2 and 3 only
- b) 1, 2 and 4 only
- c) 1, 3 and 4 only
- d) 1, 2, 3 and 4

Ans) b

Exp) Option b is the correct answer.

Statement 1 is correct: Article 2 of Indian constitution empowers the Parliament to admit new states on such terms and conditions as it thinks fit into the Union of India. Article 2 grants two powers to the Parliament:

- 1) **The power to admit into the Union of India new states (Statement 1 is correct)**
- 2) **The power to establish new states.**

The first refers to the admission of states which are already in existence, while the second refers to the establishment of states which were not in existence before.

Statement 2 is correct: Article 3 of Indian constitution authorizes the Parliament to:

- 1) Form a new state by separation of territory from any state or by uniting two or more states or parts of states or by uniting any territory to a part of any state. **(Statement 2 is correct)**

- 2) **Increase the area of any state**
- 3) **Diminish the area of any state**
- 4) Alter the boundaries of any state
- 5) Alter the name of any state. **(Statement 4 is correct)**

Statement 3 is incorrect: Transfer and exchange of territories to neighboring countries is not the subject matter of either article 2 or 3. These matters are dealt with the help of different constitutional amendments. The supreme court has held that the power of Parliament to diminish the area of a State (under Article 3) does not cover the cession of Indian territory to a foreign country. Indian territory can be ceded to a foreign state only by amending the Constitution Under Article 368. Consequently, the 9th Constitutional Amendment Act (1960) was enacted to transfer the said Berubari Union to Pakistan (Berubari Union case 1960).

Source: Indian polity by M Laxmikanth 6th edition pdf. Chapter name- Union and its territory. Page no-140 and 141.

Q.50) Consider the following statements regarding ‘2 Vs 2 Agri-Market Access Issues’:

1. It is deal formed under the plurilateral agreement of World Trade Organization for two most important crops.
2. Under this deal, two agri-products will be exported to another country with two agri-products being imported from that country.
3. Recently, India and Russia have decided to sign framework agreement for implementing the “2 Vs 2 Agri-Market Access Issues”.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 only
- c) 2 and 3 only
- d) 1 and 3 only

Ans) b

Exp) Option b is the correct answer.

Statement 1 is incorrect: 2 Vs 2 Agri-Market Access Issues’ is a **bilateral agreement** (not under WTO) by two countries decided by their own **individual policy preference and mutual understanding**. It is **not mentioned under any agreement of World Trade Organisation**.

Statement 2 is correct: Under 2 Vs 2 Agri-Market Access Issues, **two Agricultural Products** from India will be **exported to the US**. Similarly, two American products will be **imported to India**.

From the Indian Side, **Indian mangoes & pomegranate** have been chosen for **export to the USA** while the **US will export cherries and Alfalfa hay** to India.

Statement 3 is incorrect: In accordance with the discussions at the 12th India – USA trade policy forum meeting, **India and the United States** have signed the framework agreement for implementing the “2 Vs 2 Agri-Market Access Issues”.

Source: Indo US Trade- Commerce gets a fillip with improving Agri Market Access -ForumIAS Blog

Q.1) Consider the following statements:

1. The Parliament (Prevention of Disqualification) Act, 1959 exempts several posts from disqualification on the grounds of 'Office of Profit'.
2. The above-mentioned Act was amended five times.
3. The term 'Office of Profit' is well-defined in the Constitution of India.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 3 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) a

Exp) Option a is the correct answer.

Statement 1 is correct. Article 102 of the Constitution of India provides that a person shall be disqualified from his membership of parliament if he holds any office of profit under the Government of India or the Government of any State. Parliament has enacted the Parliament (Prevention of Disqualification) Act, 1959, which has exempted several posts from disqualification on the grounds of 'Office of Profit'.

Statement 2 is correct. The Parliament (Prevention of Disqualification) Act, 1959 has been amended five times.

Statement 3 is incorrect. The expression 'office of profit' has not been well-defined in the Constitution or in the Representation of the People Act, 1951.

Source: UPSC CSE 2019.

Q.2) Which of the following provisions in the Constitution of India can be amended only by the special majority of the Parliament?

1. Admission or establishment of new states
2. Use of official language
3. Fundamental Rights
4. Directive Principles of State Policy

Select the correct answer using the codes given below

- a) 1, 2 and 3 only
- b) 3 and 4 only
- c) 2, 3 and 4 only
- d) 1, 2, 3 and 4

Ans) b

Exp) Option b is the correct answer.

Article 368 of the Indian Constitution provides for two types of amendments that are by special majority of Parliament and also through the ratification of half of the states by a simple majority.

The federal provisions of the Constitution can only be amended by a special majority of the Parliament and also with the consent of half of the state legislatures by a simple majority.

And by a simple majority of Parliament that is, a majority of the members of each House present and voting (similar to the ordinary legislative process).

Option 1 and 2 is incorrect: A number of provisions in the Constitution can be amended by a simple majority of the two Houses of Parliament outside the scope of Article 368. These provisions include:

- 1) Admission or establishment of new states.
- 2) Use of official language.

Option 3 and 4 is correct: A number of provisions in the Constitution need to be amended by a special majority of the Parliament, that is, a majority of the total membership of each House and a majority of two-thirds of the members of each House present and voting. The expression 'total membership' means the total number of members comprising the House irrespective of fact whether there are vacancies or absentees.

The provisions which can be amended by this way includes:

- 1) **Fundamental Rights**
- 2) **Directive Principles of State Policy**
- 3) **All other provisions which are not covered by the first and third categories.**

Knowledge Base:

Other provisions amended by the simple majority are following:

- 1) Formation of new states and alteration of areas, boundaries or names of existing states
- 2) Abolition or creation of legislative councils in states.
- 3) Second Schedule—emoluments, allowances, privileges and so on of the president, the governors, the Speakers, judges, etc.
- 4) Quorum in Parliament.
- 5) Salaries and allowances of the members of Parliament.
- 6) Rules of procedure in Parliament.
- 7) Privileges of the Parliament, its members and its committees.
- 8) Use of English language in Parliament.
- 9) Number of puisne judges in the Supreme Court.
- 10) Conferment of more jurisdictions on the Supreme Court.

Source: Indian polity by M Laxmikanth pdf 6th edition. Chapter name—Amendment of the constitution. Page no-280 and 281.

Q.3) Consider the following statements with reference to provisions of funding of elections in India:

1. The anonymous donations made by individuals in cash to the political parties should not be more than 2 Lakh Rupees.
2. A corporate company is free to donate any amount of money to any political party.
3. The political parties cannot receive funds from the foreign companies.

Which of the above-given statements is/are correct?

- a) 1 only
- b) 2 only
- c) 1 and 2 only
- d) 2 and 3 only

Ans) b

Exp) Option b is the correct answer.

Several reforms have been put in place for electoral funding in India including provisions for donations as well cash limits etc.

Statement 1 is incorrect: In the 2017 budget, **the limit for anonymous cash donations by any individual to a political party has been lowered from ₹20,000 to ₹2,000 (not 2 Lakh)**. This means that now the political parties cannot receive more than ₹2,000 as cash donations. However, they are not required to inform the Election Commission of India of the details of persons who donate under ₹2,000. They must keep records of persons making above ₹2,000 donations.

Statement 2 is correct: In 2017 budget, the limit on corporate contributions from 7.5 per cent of the net profit of a company's past three financial years has been removed. This means that **now a company can**

donate any amount of money to any political party. Further, the obligation of the company to report such donations in its profit and loss account has also been lifted.

Statement 3 is incorrect: In 2018 budget, **the receiving of foreign funds by the political parties has been allowed.** In other words, the political parties can now receive funds from the foreign companies. Accordingly, the Foreign Contribution (Regulation) Act, 2010, has been amended.

Source: Indian Polity by Laxmikanth, 6th Edition, Chapter –73

Q.4) Consider the following statements with reference to the procedure for the amendment of the Constitution as laid down in Article 368:

1. The bill for constitutional amendment requires prior permission of the President for its introduction in the Parliament.
2. The bill affecting the federal provisions of the Constitution must be ratified by the state legislatures of half of the states by a special majority.
3. The President has no power to withhold his assent to a Constitutional amendment bill.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 3 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

Article 368 in Part XX of the Constitution deals with the powers of Parliament to amend the Constitution and its procedure. The Parliament in exercise of its constituent power can amend by way of addition, variation or repeal any provision of the Constitution in accordance with the procedure laid down for the purpose.

Statement 1 is incorrect: The bill can be introduced either by a minister or by a private member and does not require prior permission of the president. An amendment of the Constitution can be initiated only by the introduction of a bill for the purpose in either House of Parliament and not in the state legislatures.

Statement 2 is incorrect: The bill affecting the federal provisions of the Constitution must be ratified by the state legislatures of half of the states by a simple majority (and not by special majority) that is, a majority of the members of the House present and voting. **Special majority of the Parliament** is a majority of the total membership of each House and a majority of two-thirds of the members of each House present and voting.

Statement 3 is correct: The constitutional amendment bill passed by both the Houses of Parliament and ratified by the state legislatures, where necessary, the bill is presented to the president for assent. **The President must give his assent to the bill. He can neither withhold his assent to the bill nor return the bill for reconsideration of the Parliament.** After the president's assent, the bill becomes an Act (i.e., a constitutional amendment act) and the Constitution stands amended in accordance with the terms of the Act.

Source: Indian polity by M Laxmikanth pdf 6th edition. Chapter name-Amendment of the constitution. Page no-278 and 279.

Q.5) Which of the following statements best describes the term “Dark Genome”?

- a) DNA outside of the regions conventionally defined as genes.
- b) Defective genes that cause hereditary diseases.
- c) A part of DNA that helps in cancer treatment.
- d) Genome without specific characteristics.

Ans) a

Exp) Option a is the correct answer.

Scientists investigating the DNA outside our genes (the 'dark genome'), have discovered recently evolved regions that code for proteins associated with schizophrenia and bipolar disorder.

Option a is correct: Dark genome refers to 'DNA outside of the regions conventionally defined as genes. They are genes/proteins for which there is minimal knowledge on biological function and, allied to this, limited tools for their analysis (such as antibodies). Thus, it adversely affects the precision medicine initiative.

Source: <https://www.thehindu.com/sci-tech/science/plumbing-the-dark-genome-for-new-genes/article33828495.ece>

Q.6) With reference to promotion of State civil service officers to All-India services, consider the following statements:

1. Constitution has specified the quota for the promotion of state civil services officers to All-India services.
2. Officers of state civil services are promoted to All India services based on the recommendation of the respective State Public Service Commission.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) d

Exp) Option d is the correct answer.

Statement 1 is incorrect: Promotion rules for state service officers are governed through All- India Services Act of 1951. The **Constitution has not specified** the quota. Senior posts not exceeding thirty-three percent reserved in IAS, IPS and IFS are required to be filled by state service officers that is specified under **All-India Services Act, 1951**.

Statement 2 is incorrect: **All India Services Act of 1951** specifies the quota of state officers to be promoted for All-India services. Such promotions are based **on the recommendation of a selection committee** constituted in each state for this matter. Chairman or member of UPSC presides over such committee.

Source: Laxmikant, chapter on public services.

Q.7) Consider the following statements with reference to the Representation of the People Act, 1951:

1. The act provides for the allocation of seats in the Lok Sabha to various states.
2. Political speeches made for the conservation of the language of a section of the citizens amount to corrupt practice under the act.
3. Registration of political parties in India is governed by the provisions of this act.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 3 only
- d) 1 and 3 only

Ans) c

Exp) Option c is the correct answer.

Representation of the People Act, 1951 provided for the provisions for actual conduct of elections to the Houses of Parliament and to the House or Houses of the Legislature of each State, the qualifications and disqualifications for the membership of these Houses, the corrupt practices and other election offences.

Statement 1 is incorrect: The Representation of the People Act, 1950 (and not Representation of the People Act, 1951) provided for the allocation of seats in the House of the People and in the Legislative Assemblies and Legislative Councils of States. Article 81 and Article 170 of the Indian Constitution provide broad guidelines regarding the composition of Lok Sabha and State Legislative Assemblies. A detailed plan about the allocation of seats in Lok Sabha and State Legislative assemblies was provided by the Representation of the People Act, 1950.

Statement 2 is incorrect: According to the Supreme Court of India, the right to conserve the language includes the right to agitate for the protection of the language. Hence, the **political speeches or promises made for the conservation of the language of a section of the citizens does not amount to corrupt practice under the Representation of the People Act, 1951.**

Statement 3 is correct: Registration of political parties in India is governed by the provisions of Section 29A of the Representation of the People Act, 1951. An association seeking registration under the said Section has to submit an application to the Commission within a period of 30 days following the date of its formation, as per the guidelines prescribed by the Commission in exercise of the powers conferred by Article 324 of the Constitution of India and Section 29A of the Representation of the People Act, 1951.

Indian polity by M Laxmikanth. Chapter name- Election laws. Page no- 1191 to 1193.

Q.8) With reference to Acquisition of property by the Government in India, consider the following statements:

1. A person is not entitled to the compensation, when Government acquires land under his personal cultivation and even if it is under the ceiling limit.
2. Government is liable to provide compensation on acquiring the property of a minority educational institution.
3. Both parliament and state legislature have authority to enact legislation for the compulsory acquisition of private property.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

Statement 1 is incorrect: After the 44th amendment the Government mandatorily compensates for acquiring the land held by a person within ceiling limit and under his personal cultivation.

Statement 2 is correct: After acquiring the property of **minority educational institution, government is liable to provide compensation** to such institution. Also, such compensation amount shall not restrict or abrogate the rights provided to them. This was also added by 44th amendment act.

Statement 3 is correct: Under **Article 300A** both **Parliament and state legislature** can make laws for the **compulsory acquisition** and requisition of private property by the government. The acquired property should be used **only for public purpose** as may be specified under the law. The person whose property has been acquired have to be compensated for such acquisition along with a proper rehabilitation and resettlement.

Source: statement 1,2 and3: Laxmikanth 5th edition chapter on rights and liabilities., page no: 64.1

Q.9) Consider the following statements with reference to the right to vote in India:

1. A prisoner who is serving a sentence of imprisonment is not entitled to vote in an election.
2. Voting rights are available to Non-Resident Indians but not to Overseas Citizenship of India card holders.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) c

Exp) Option c is the correct answer.

Statement 1 is correct: According to Election Commission of India, prisoners do not have voting rights under the Representation of People (RP) Act 1951. The Supreme Court 1997 judgment held that the effect that **any person who is confined in prison while serving a sentence of imprisonment on his conviction for any offence** or is under lawful confinement in a prison or in a police custody for any reason **is not entitled to vote in an election.**

Statement 2 is correct: Till the year 2010, NRIs were not allowed to vote in the elections. However, **post 2010 an amendment permitted NRIs to vote at their particular constituency** in India but the voting required the direct presence of the NRI in India at the particular polling booth where the name was registered. **OCI cardholders do not get voting rights**, cannot hold a government job and purchase agricultural or farmland. They cannot travel to restricted areas without government permission.

Q.10) Which of the following countries share their border with Kazakhstan?

1. Russia
2. Afghanistan
3. China
4. Kyrgyzstan
5. Tajikistan
6. Turkmenistan

Select the correct answer from the code given below

- a) 1, 2, 4 and 6 only
- b) 2, 4, 5 and 6 only
- c) 1, 3, 5 and 6 only
- d) 1, 3, 4 and 6 only

Ans) d

Exp) Option d is the correct answer.

China, Russia, Turkmenistan, Uzbekistan and Kyrgyzstan share their borders with Kazakhstan.

Recently, **violent unrest** has been taken in **Kazakhstan after the increase in fuel prices**. The reasons for the crisis in Kazakhstan include: Rise in LPG prices; Inflation; Unrest against the authoritarian government.

Source: Instability in Kazakhstan will resonate in regional geopolitics-ForumIAS Blog

Q.11) In the context of India, which one of the following is the characteristic appropriate for bureaucracy?

- An agency for widening the scope of parliamentary democracy
- An agency for strengthening the structure of federalism
- An agency for facilitating political stability and economic growth
- An Agency for the implementation of public policy

Ans) d

Exp) Option d is the correct answer.

Bureaucracy refers to an administrative policy-implementation group, which is a body of non-elected government officials.

The major objective of bureaucracy in India has not been Parliamentary democracy's expansion but rather the implementation of the decisions taken by the executive. With All India Services at the helm of major bureaucratic structure, it cannot be said that strengthening of federal structure is its main characteristic.

India's bureaucratic system's most important function since independence has been implementation of public policy, making the decisions of the government reach a conclusion on the ground level. Parliamentary democracy results often in change at the helm of executive, the static and permanent bureaucracy provides continuity of policies and execution rather than political stability.

Q.12) Consider the following statements with reference to the disqualifications under the Anti-Defection Law:

- If an elected member of House voluntarily gives up his party membership, he/she can be disqualified under Anti-defection law.
- A nominated member of a House can be disqualified if he/she joins any political party within six months from the date on which he takes his seat in the House.
- An independent member of a House cannot be disqualified if he/she joins a political party.

Which of the statements given above is/are correct?

- a) 1 only
- b) 1 and 2 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) a

Exp) Option a is the correct answer.

The 52nd Amendment Act of 1985 provided for the disqualification of the members of Parliament and the state legislatures on the ground of defection from one political party to another. It made changes in four Articles of the Constitution and added a new Tenth Schedule to the Constitution. This act is referred to as the 'anti-defection law'

Statement 1 is correct: Under the anti-defection law, members of a political party can be disqualified and removed from the membership of the House if he voluntarily gives up the membership from the party after being elected or defies the direction or whip of the party leadership in the House.

Statement 2 is incorrect: A nominated member of a House becomes disqualified for being a member of the House if he joins any political party after the expiry of six months from the date on which he takes his seat in the House. This means that he may join any political party within six months of taking his seat in the House without inviting this disqualification.

Statement 3 is incorrect: An independent member of a House (elected without being set up as a candidate by any political party) becomes disqualified to remain a member of the House if he joins any political party after such election.

Q.13) With reference to India Enterprise Architecture (IndEA), consider the following statements:

1. It is a framework that integrates all the Medium, Small and Micro Enterprises in the country on a single digital platform.
2. It links the Performance Measurement Systems of the enterprises to the Sustainable Development Goals.
3. It has been developed by the Union Ministry of Commerce and Industry.

Which of the statements given above is/are correct?

- a) 2 only
- b) 2 and 3 only
- c) 1 only
- d) 1 and 3 only

Ans) a

Exp) Option a is the correct answer.

India Enterprise Architecture (IndEA) was launched in 2018 by Government of India as a way to establish Unity in Diversity in the domain of e-Governance.

Statement 1 is incorrect. India Enterprise Architecture (IndEA) is a framework that makes all **Government services digitally accessible** in an integrated manner to citizens through multiple channels like web, mobile and common service delivery outlets. It enables the planned development and implementation of understandable, Robust, Complete, Consistent and Stable architectures independently and in parallel by all governments and their agencies across India.

Statement 2 is the correct answer. One of the major principles of India Enterprise Architecture (IndEA) is linking all enterprise architectures with **sustainable development goals**. The Performance Measurement Systems of enterprises are derived from and are linked to Sustainable Development Goals that are prioritized by the Government.

Statement 3 is incorrect. IndEA is developed by a working group constituted by Standardisation Testing and Quality Certification (STQC), under **Ministry of Electronics and Information Technology (MeitY) (not Ministry of Commerce and Industry)**. The India Enterprise Architecture (IndEA) has been notified as a **e-Governance standard** by the Ministry of Electronics and Information Technology (MeitY) in October 2018. Knowledge Base:

India Digital Ecosystem Architecture 2.0 or InDEA 2.0 is a framework that promotes the evolution of digital ecosystems. It consists of a set of 27 principles in 5 categories, namely, ecosystem, architecture, business, technology, and architecture governance. It also consists of architectural patterns that inform, guide, and enable the development of large digital systems, with a focus on the public sector

Source: https://www.meity.gov.in/writereaddata/files/IndEA_Framework_1.0.pdf

Q.14) Consider the following statements:

1. The size of council of ministers cannot exceed to 15% of total Lok Sabha members.
2. A Member of Parliament if disqualified under 10th schedule shall also be disqualified from any remunerative political posts.
3. The President can remove a minister even while Council of Ministers enjoys the confidence of the Lok Sabha.

Which of the statements given above are correct?

- a) 1 and 3 only
- b) 2 and 3 only
- c) 1 and 2 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

91st Amendment Act, 2003 introduced with the provisions to limit the size of council of ministers, to debar defectors and strengthen the anti-defection law.introduced with the provisions to limit the size of council of ministers, to debar defectors and strengthen the anti-defection law.

Statement 1 is correct: 91st Amendment Act 2003, added **clause 1A to article 75**. This provision restricted the size of the council of ministers to 15% of total strength of Lok Sabha members including the prime minister. Prior to this, prime minister had discretion of appointing anyone to the council of minister, hence making large sized cabinets and putting pressure on public exchequer.

Statement 2 is correct: Article 361-B A member of a house belonging to any political party when disqualified under law of defection **disqualifies for the remunerative political post**. It includes office under centre or state government where salary is paid out of public exchequer or office of a body wholly or partially owned by such governments.

Statement 3 is correct: Article 75 of the Indian Constitution contains the principle of individual responsibility. It states that the ministers hold office during the pleasure of the President, which means that the **President can remove a minister even at a time when the COM enjoys the confidence of the Lok Sabha**. However, the President removes a minister only on the advice of the Prime Minister.

Q.15) Which of the following is the main aim of the ‘Padhe Bharat Campaign’ launched by the Government of India?

- To bring “out of school” children below 14 years into the ambit of formal education.
- To promote joyful reading culture among the children by ensuring the availability of appropriate reading books.
- To ensure 100% Gross Enrolment Ratio of the tribal children at the elementary level of education.
- To ensure availability of quality education to all through the creation of Massive Open Online Courses (MOOCs).

Ans) b

Exp) Option b is the correct answer.

Padhe Bharat is a 100 Days Reading Campaign which is in alignment with the National Education Policy (NEP) 2020. **It emphasizes on the promotion of joyful reading culture for children by ensuring the availability of age-appropriate reading books for children in local/mother tongue/regional/tribal Language.** It will focus on children studying in Bal Vatika to Grade 8. It aims to have the participation of all stakeholders at the national and state level including children, teachers, parents, community, educational administrators etc.

Q.16) Consider the following statements with reference to the Citizen Charters in India:

- They contain standards for transparent and time-bound public service delivery.
- ‘Sevottam’ is a model for Citizen Charters proposed by First Administrative Reforms Commission in India.
- They are enforceable in the court of law.

Which of the above given statements is/are correct?

- 1 and 2 only
- 1 only
- 2 and 3 only
- 1 and 3 only

Ans) b

Exp) Option b is the correct answer.

Citizen's Charter is a document of commitments made by a government organization to the citizens/client groups in respect of the services/schemes being provided to them or to be provided to them.

Statement 1 is correct: The basic objective of the Citizens Charter is to empower the citizens in relation to public service delivery. The Charter should lay out explicit standards of service delivery so that users understand what they can reasonably expect from service providers. These standards should be transparent, time-bound, relevant, accurate, measurable and specific.

Statement 2 is incorrect: Sevottam Model is a model for Citizen Charters proposed by 2nd ARC (Administrative Reforms Commission) (and not the First ARC) for public Service Delivery. The word, Sevottam, is a combination of two Hindi words: ‘Seva’ (service) and ‘Uttam’ (excellence). Sevottam Model is now regarded as a standard model for providing services in citizen centric governance. The model is developed by rectifying the drawbacks in the earlier mechanisms of public service delivery like Citizen Charters (CC), and is gradually adopted by various departments under Central and State government.

Statement 3 is incorrect: The Citizen's Charter is not legally enforceable and, therefore, is non-justiciable. However, it is a tool for facilitating the delivery of services to citizens with specified standards,

quality and time frame etc. There can be provisions for grievance redressal but legal recourse to the courts is available.

Source: <https://darp.gov.in/citizens-charters-handbook>

Q.17) With reference to powers of Centre and States regarding the All-India Services, consider the following statements:

1. State governments are not consulted by the Centre while making the rules regarding recruitment of All India Services.
2. State government cannot take disciplinary action against an officer of Indian Administrative Services.
3. For creating a new All India Services, a resolution must be passed by the Rajya Sabha with a simple majority

Which of the statements given above is/are **incorrect**?

- a) 1 and 3 only
- b) 2 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

All India Services are those which are **common** to both by Central and State governments. At present there are three all-India services, i.e., Indian Administrative Services, Indian Police Services, and Indian Forest Services.

Statement 1 is incorrect: Central government **consults** the state governments on making rules for **recruitment and service conditions** of the members of all- India services. Central government is so authorised under **All India Services Act of 1951**.

Statement 2 is incorrect: **State governments can take disciplinary action against IAS officers for misconducts while working in the affairs of the State Government.** The all-India services are jointly controlled by central and state governments. The Government in connection with whose affairs the officer is serving is competent suspend or institute departmental proceedings against an IAS officer.

Statement 3 is incorrect: According to **article 312, Parliament** can create a **new All- India Services when Rajya Sabha passes the resolution** for the same in the national interest or deems it necessary to do so. This resolution needs to pass with support of **two-third** members present and voting (**not simple majority**). Rajya Sabha is given this power to protect the interest of states in Indian federal system.

Q.18) Which of the following statements are correct regarding the Constitution (First Amendment) Act, 1951?

1. Ninth Schedule was added through this act to protect the land reforms from the judicial review.
2. It empowered the State Governments to make special provisions for the advancement of socially and economically backward classes.
3. It authorized the Government to nationalize any trade.
4. It provided for the establishment of a common High Court for two or more states.

Select the correct answer using the codes given below:

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 4 only

d) 3 and 4 only

Ans) a

Exp) Option a is the correct answer.

Statements 1 and 2 are correct: The First constitutional Amendment Act of 1951 added the following provisions to the constitution of India:

- 1) Empowered the state to make special provisions for the advancement of socially and economically backward classes.
- 2) It provided for the saving of laws providing for acquisition of estates, etc.
- 3) Added Ninth Schedule to protect the land reforms and other laws included in it, from the judicial review.

Statement 3 is incorrect: Fourth constitutional Amendment Act, 1955 (and not first amendment act, 1951) Authorized the Government to nationalize any trade.

Other provisions added by the Fourth constitutional Amendment Act, 1955 are following:

- 1) It made the scale of compensation given in lieu of compulsory acquisition of private property beyond the scrutiny of courts.
- 2) It included some more Acts in the Ninth Schedule.
- 3) Extended the scope of Article 31 A (savings of laws)

Statement 4 is incorrect: Seventh Amendment Act, 1956 (and not first amendment act, 1951) provided for the establishment of a common High Court for two or more states.

Other provisions added by the Fourth constitutional Amendment Act, 1955 are following:

- 1) It abolished the existing classification of states into four categories i.e., Part A, Part B, Part C and Part D states, and reorganized them into 14 states and 6 union territories.
- 2) Extended the jurisdiction of high courts to union territories.
- 3) Provided for the appointment of additional and acting judges of the high court.

Source: <https://legislative.gov.in/constitution-first-amendment-act-1951>

Q.19) Consider the following statements with reference to the features of Right to Information Act in India:

1. The Act prohibits the disclosure of information which comes under Official Secrets Act, 1923.
2. The Act has no provision for self-disclosure of information by the Public Authorities.
3. If information sought under the RTI concerns the life and liberty of a person, it shall be provided within 48 hours.

Which of the above given statements is/are correct?

- a) 1 and 2 only
- b) 3 only
- c) 1 and 3 only
- d) 1 only

Ans) b

Exp) Option b is the correct answer.

The **Right to Information Act 2005 mandates timely response to citizen's requests for government information.** The basic object of the Right to Information Act is to empower the citizens, promote transparency and accountability in the working of the Government, contain corruption, and make our democracy work for the people in a real sense.

Statement 1 is incorrect: Section 8 (2) of the RTI Act provides for disclosure of information exempted under Official Secrets Act, 1923 if larger public interest is served. The term "public interest" is not defined in the RTI Act. Because of this, public authorities - more specifically, Public Information Officers,

Appellate Authorities and Information Commissioners - will need to judge each case on its merit and in light of any emerging guidance or best practice.

Statement 2 is incorrect: The **Suo Moto disclosure under Section 4 of Right to Information Act, 2005 orders the public authorities to publish the information** to the public on regular intervals voluntarily and not on the demand of the public. **Hence the Statement is incorrect.**

Statement 3 is correct: In normal course, **information to an applicant shall be supplied within 30 days from the receipt of application by the public authority.** If **information sought concerns the life or liberty of a person, it shall be supplied within 48 hours.** In case the application is sent through the Assistant Public Information Officer or it is sent to a wrong public authority, five days shall be added to the period of thirty days or 48 hours, as the case may be.

Q.20) Consider the following statements regarding 'India State of Forest Report 2021':

1. The dense forest cover in India has increased in the last two decades.
2. The forest cover in India is expanding on private land while it is decreasing in forests managed by the government in the last 10 years.
3. Every state in the North East has experienced fall in the levels of forest cover during 2019-21.
4. According to the report more than half of the total forest area in the country is prone to forest fires.

Which of the statements given above are correct?

- a) 1, 2 and 3 only
- b) 2 and 3 only
- c) 2, 3 and 4 only
- d) 1, 2, 3 and 4

Ans) b

Exp) Option b is the correct answer.

The **India State of Forest Report (ISFR) 2021** has been released by the Ministry of Environment, Forests and Climate Change (MoEFCC).

Statement 1 is incorrect: In the last 20 years, **India's forest cover has increased by 38,251sq km.** But, during this period, **dense forests have reduced by 10,140 sq km,** and open forests have increased by 48,391 sq km. So, while the total forest cover has grown, they have increased mainly in the degraded forest category; good quality forests have reduced.

Statement 2 is correct: According to India State of Forest Report (ISFR) 2021, in the last 10 years, forest cover inside Recorded Forest Area has reduced by 14,071 sq. km, while it has increased by 35,779 sq. km outside. So, **forest cover is expanding on private land** (mainly as plantation) and **decreasing in forests managed by the government.**

Statement 3 is correct: According to this report, **during 2019-21, every northeastern state reports loss in forest cover.** Manipur recorded the largest loss in forest cover. States in the **North East have recorded the highest loss in forest cover.** This is due to numerous natural calamities, particularly landslides and heavy rains, and anthropogenic activities such as shifting agriculture, pressure of developmental activities and felling of trees.

Statement 4 is incorrect: The survey has found that **35.46 %** (not more than half) of the forest cover is **prone to forest fires.** Out of this, 2.81% is extremely prone, 7.85% is very highly prone and 11.51% is highly prone. India reported 345,989 forest fires from November 2020 to June 2021, according to the State of Forests Report, 2021.

Q.21) For election to the Lok Sabha, a nomination paper can be filed by:

- anyone residing in India.
- a resident of the constituency from which the election is to be contested.
- any citizen of India whose name appears in the electoral roll of a constituency.
- any citizen of India.

Ans) c

Exp) Option c is the correct answer.

According to section 4 (d) of the Representation of People Act, 1951, for election to Lok Sabha, a nomination paper can be filed by any citizen whose name appears in the electoral rolls of any parliamentary constituency.

Q.22) A civil servant cannot be removed without giving a “reasonable opportunity of being heard” through an enquiry. But this safeguard will not be available to a civil servant in which of the following situations?

- If s/he is removed on the grounds of conviction on a criminal charge.
 - If the removing authority is satisfied that it is not practicable to hold such an inquiry.
 - If President or Governor is satisfied not to hold an inquiry in the interest of state security,
- Select the correct answer from the code given below

- 1 only
- 2 and 3 only
- 3 only
- 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

Article 311 places two restrictions on the above ‘Doctrine of Pleasure’. In other words, it provides two safeguards to civil servants against any arbitrary dismissal from their posts:

- A civil servant cannot be dismissed or removed by an authority subordinate to that by which he was appointed.
- A civil servant cannot be dismissed or removed or reduced in rank except after an inquiry in which he has been informed of the charges against him and given a reasonable opportunity of being heard in respect of those charges

However, the second safeguard (holding inquiry) is not available in the following three cases:

Option 1 is correct: Where a civil servant is dismissed or removed or reduced in rank on the **ground of conduct which has led to his conviction on a criminal charge;** or

Option 2 is correct: Where the **authority empowered to dismiss or remove** a civil servant or to reduce him in rank is satisfied that for some reason (to be recorded in writing), **it is not reasonably practicable to hold such inquiry;** or

Option 3 is correct: Where the **President or the Governor is satisfied that in the interest of the security** of the state, it is not expedient to hold such inquiry.

Q.23) Consider the following statements with reference to the Right of Children to Free and Compulsory Education Act:

1. The Act seeks to give effect to the 86th Constitutional Amendment Act of 2002.
2. The Act mandates private schools to reserve 25% of their seats in elementary classes for the students belonging to Schedule Castes and Schedule Tribes.
3. The Act mandates the No Detention Policy for the children till the elementary classes.

Which of the above-given statements is/are correct?

- a) 1 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1 and 2 only

Ans) a

Exp) Option a is the correct answer.

Statement 1 is correct: Right to Education Act (RTE) provides free and compulsory education to children and enforces it as a fundamental right under Article 21-A. The RTE Act makes it mandatory for the State to provide free and compulsory education to all children from the age of 6 to 14 years. **This is stated as per the 86th Constitution Amendment Act via Article 21A. The Right to Education Act seeks to give effect to this amendment.**

Statements 2 is incorrect: The Act required government schools to provide free and compulsory education to all admitted children. **Section 12(1)(c)** mandates that **non-minority private unaided schools should reserve at least 25% of seats in entry-level grades for children from economically weaker and disadvantaged backgrounds (and not only the students from the Schedule Caste and Schedule Tribes).**

Statement 3 is incorrect: Earlier, as per the **Section 16 of the RTE Act, 2009**, “no child could be held back or expelled till the completion of elementary education” which was famously known as “no detention policy” **However, the “No Detention Policy” has been removed under The Right of Children to Free and Compulsory Education (Amendment) Act, 2019.**

Q.24) With reference to All India Judicial Services, consider the following statements:

1. Constitution empowers the parliament to create All India judicial services with prior permission of President.
2. Creation of such a service is deemed to be an amendment under article 368.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) d

Exp) Option d is the correct answer.

Creation of All India Judicial Services (AIJS) was first proposed by law commission in 1958

Statement 1 is incorrect: The **42nd Constitutional amendment in 1976** amended Article 312 of the Constitution. It provides that Parliament can create one or more All-India Services, including an AIJS,

common to the Union and the States. It does not require prior permission of President. **The Rajya Sabha passes the resolution with support of not less than two third members present and voting. Thereafter, parliament enact law for its creation.**

Statement 2 is incorrect: Article 368 is not deemed to be amended for the law enacted for creating all India judicial service under **article 312**. The said service should not include any post inferior to that of a district judge.

Source: Laxmikanth, Chapter 66.

Q.25) With reference to ‘Climate Hazards and Vulnerability Atlas of India’, consider the following statements:

1. It is developed by the Geological Survey of India in collaboration with Indian Space Research Organisation.
2. It provides month wise hazard levels of all districts of India.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) b

Exp) Option b is the correct answer.

India Meteorological Department (IMD) has released India’s first “Climate hazards and vulnerability Atlas of India”.

Statement 1 is incorrect: The Climate Hazards and Vulnerability Atlas of India is developed by the scientists at Climate Research and Services (CRS) office of the **India Meteorological Department (IMD)**, Pune (**not the by Geological Survey of India in collaboration with Indian Space Research Organisation**).

Statement 2 is correct: The atlas features extreme rainfall, drought, cold wave, heatwave, dust storms, hail storm, thunderstorm, cyclones, snowfall, lightning, winds and fog. The atlas provides a month wise **range of vulnerability with risks** ranging from nil, low, moderate, high and very high categories **for every Indian district**.

Climate hazards and vulnerability Atlas of India: Sundarbans is cyclone capital of India: IMD report- ForumIAS Blog

Q.26) With reference to Rights and Liabilities of the Government, consider the following statements:

1. As per Doctrine of Escheat, when a person dies without any will or heirs, his/her property accrues to the government.
2. According to Lapse principle, any property found without any owner will be possessed by the government.
3. Under Bona Vacantia, rights to property are terminated when there is a failure to follow appropriate procedures.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) 1 and 3 only
- d) 2 and 3 only

Ans) a

Exp) Option a is the correct answer.

Article 296 of constitution of India provides property accruing by escheat or lapse or as bona vacantia.

Statement 1 is correct: Doctrine of Escheat provides that when owner of any property dies without an heir his rights would have so transferred to His Majesty or to the Ruler of an Indian State before the independence era. But now it shall devolve on the government. However, the government takes the property subject to all its obligations and liabilities.

Statement 2 is incorrect: Under the lapse, if there is a failure to follow appropriate procedures while establishing ownership over a property, then such ownership rights will be terminated. And the rightful ownership will be vested with the government.

Statement 3 is incorrect: Under bona vacantia, if the **property is found without any owner**, then it shall, vest in the Union or in that State.

Source: Laxmikanth, chapter on rights and liabilities of the government.

Q.27) Consider the following statements with reference to the Delimitation Commission:

1. Its orders cannot be challenged in any court of law.
2. The Commission determines its own procedure and has all the powers of a civil court under the Code of Civil Procedure, 1908.
3. They must be constituted in India before every General election.

Which of the statements given above is/are correct?

- a) 1 only
- b) 1 and 2 only
- c) 2 only
- d) 1 and 3 only

Ans) b

Exp) Option b is the correct answer.

Delimitation is the process of fixing limits or boundaries of territorial constituencies in a country or a province having a legislative body. Delimitation Commission or a Boundary Commission is a high-powered body.

Statement 1 is correct: The Delimitation Commission is a high-powered body whose orders have the force of law and cannot be called in question before any court. These orders come into force on a date to be specified by the President of India in this behalf. The copies of its orders are laid before the House of the People and the State Legislative Assembly concerned, but no modifications are permissible therein by them.

Statement 2 is correct: The Commission determines its own procedure and in the performance of its functions it has all the powers of a civil court under the Code of Civil Procedure, 1908. The Commission has power to require any person to furnish any information on such points or matters as in the opinion of the Commission may be useful for, or relevant to, any matter under the consideration of the Commission.

Statement 3 is incorrect: According to Article 82 of the Constitution, **the Parliament enacts a Delimitation Act following each census (not before every General election)** and Article 170 states that after each census, states are divided into territorial constituencies based on the Delimitation Act. In India, Delimitation Commissions have been constituted 4 times – in 1952 under the Delimitation Commission Act, 1952, in 1963 under Delimitation Commission Act, 1962, in 1973 under Delimitation Act, 1972 and in 2002 under Delimitation Act, 2002.

Q.28) Which of the following can be considered as examples of e-governance initiatives in India:

1. MCA21
2. DARPAN
3. Digital Locker System
4. Jeevan Pramaan

Select the correct answer using the code given below:

- a) 1, 2 and 3 only
- b) 2, 3 and 4 only
- c) 1 and 4 only
- d) 1, 2, 3 and 4

Ans) d

Exp) Option d is the correct answer.

Several e-governance initiatives have been launched in India by the government.

Option 1 is correct: MCA21 is an e-Governance initiative of Ministry of Corporate Affairs (MCA), Government of India that enables an easy and secure access of the Ministry of Corporate Affairs services to the corporate entities, professionals and citizens of India.

Option 2 is correct: DARPAN (The Digital Advancement of Rural Post Office for A New India) aims to improve quality of service, add value to services and achieve financial inclusion of un-banked rural population. DARPAN is Information Technology (IT) modernization project aimed at realizing financial inclusion of un-banked rural population. It offers core banking services to the account holders.

Option 3 is correct: Digi-Locker serves as a platform to enable citizens to securely store and share their documents with service providers who can directly access them electronically.

Option 4 is correct: Digital Life Certificate for Pensioners Scheme of the Government of India known as Jeevan Pramaan seeks digitize the whole process of securing the life certificate. Jeevan Pramaan is a biometric enabled digital service for pensioners. Pensioners of Central Government, State Government or any other Government organization can take benefit of this facility.

Q.29) With reference to immunities provided to Ministers and Judicial officers against the lawsuits, consider the following statements:

1. The Constitution of India grants immunity from civil proceedings to the Ministers for their personal acts.
2. The acts done by the Judicial officers in discharge of his/her official duties can only be questioned in civil courts.

Which of the statements given above is/are correctly matched?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) d

Exp) Option d is the correct answer.

The Constitution of India confers certain immunities to the Ministers, Judicial officers, President, Governor and Civil Servants against lawsuits in India.

Statement 1 is incorrect. The Ministers **do not enjoy any immunity** for their personal acts and can be sued for crimes as well as torts (civil offences) in ordinary courts like that for the common citizens.

Statement 2 is incorrect. The Judicial Officers' Protection Act, of 1850 states that **No Judge, Magistrate, Justice of the Peace, Collector, or other person acting judicially shall be liable to be sued in any Civil Court** for any act done or ordered to be done by him in the discharge of his judicial duty.

LAXMIKANT-5TH EDITION -RIGHTS AND LIABILITIES OF GOVERNMENT.

Q.30) Consider the following statements regarding 'Negative Ion Technology':

1. It is used to embed negative ions in personal products of human use.
2. Negative ions are believed to produce biochemical reactions that increase levels of the mood among humans.
3. Products using this technology can contain radioactive materials and therefore continuously emit ionizing radiation.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

Statement 1 is correct: Negative ion technology embeds negative ions in personal products and is currently being advertised as a means to maintain health, balance energy, and improve well-being.

An ion is an atom, or a molecule, which has gained or lost one or more electrons. If the **atom is neutral, the ion is electrically charged**. A **negative ion comes from an atom that has gained one or more electrons**. Negative ions are made when sunlight, radiation, air, or water break down oxygen.

Statement 2 is correct: Negative ions are odourless, tasteless, and invisible molecules that we inhale in abundance in certain environments like the mountains, waterfalls, and beaches. Once they reach our bloodstream, negative ions are **believed to produce biochemical reactions that increase levels of the mood chemical serotonin**, helping to alleviate depression, relieve stress, and boost our daytime energy.

Statement 3 is correct: The radiation detected in some of the Negative Ion Technology products has been higher than the background level, and in some cases high enough to require licensing. These products were found to **contain radioactive materials** and therefore continuously **emit ionizing radiation**. Exposure to ionizing radiation can cause adverse **health effects**, and wearing the products for extended periods could pose health risks that include **tissue and DNA damage**.

Knowledge Base:

Negative Ion Technology is used in certain **silicone wristbands, quantum or scalar-energy pendants, sleep masks, jewellery** among others as a means to **maintain health, balance energy, and improve well-being**.

Source: Negative Ion Technology: Adding radioactive substances in wearables unjustified –ForumIAS Blog
Negative Ions Create Positive Vibes (webmd.com)

Benefits of negative ions (teqoya.com)

Q.31) Consider the following statements:

1. The Election Commission of India is a five-member body.
2. Union Ministry of Home Affairs decides the election schedule for the conduct of both general elections and by-election.

3. Election Commission resolves the disputes relating to splits/mergers of recognized political parties.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 only
- c) 2 and 3 only
- d) 3 only

Ans) d

Exp) Option d is the correct answer.

Election Commission consists of a Chief Election Commissioner and such number of Election Commissioners as the President may deem it necessary subject to the law made by Parliament in this regard. Currently, it consists of Chief Election Commissioner and two Election Commissioners (**3 members not the five**).

Election Commission decides (**not the Union Ministry of Home Affairs**) election schedule for the conduct of both general elections and bye-elections.

Election Commission also resolves the disputes relating to splits/mergers of recognized political parties.

Source: UPSC CSE 2017

Q.32) Consider the following statements with reference to the Anti-Defection Law:

1. Petition can be given by a member of the House to disqualify another member on grounds of defection.
2. The decision taken by presiding officer regarding disqualification arising out of defection, is not subject to Judicial review.
3. The law does not specify a time-period for the Presiding Officer to decide on a disqualification of members.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

The Tenth Schedule was inserted in the Constitution in 1985. It lays down the process by which legislators may be disqualified on grounds of defection by the Presiding Officer of a legislature. The anti-defection law sought to prevent political defections.

Statement 1 is correct: Legislators may be disqualified on grounds of defection by the Presiding Officer of a legislature based on a **petition by any other member of the House**.

Statement 2 is incorrect: Originally, the anti-defection law provided that the decision of the presiding officer is final and cannot be questioned in any court. **However, in Kihoto Hollohan**

Case (1993), the Supreme Court declared this provision as unconstitutional on the ground that it seeks to take away the jurisdiction of the Supreme Court and the high courts. **Hence the decision taken by presiding officer of the house is subject to judicial review on the grounds of mala fides.**

Statement 3 is correct: **The anti-defection law does not specify a time-period for the Presiding Officer to decide on a disqualification of members.** The courts can intervene only after the Presiding Officer has decided on the matter, the petitioner seeking disqualification has no option but to wait for this decision to be made.

Indian polity by M Laxmikanth. Chapter name- Anti defection law. Page no-1243.

Q.33) Which of the following are the advantages of being recognized as the National and State parties?

1. The candidates of these parties require only one proposer to file election nomination.
2. The parties are provided with space by the Government for campaigning and organizing rallies.
3. The Election Commission of India provides election symbols to both of these parties for their exclusive nationwide use.
4. The parties might be provided with land by the government to establish their party office.

Select the correct answer using the code given below:

- a) 1, 2 and 4 only
- b) 1, 3 and 4 only
- c) 1, 2 and 3 only
- d) 1 and 4 only

Ans) d

Exp) Option d is the correct answer.

India has a multi-party system as Indian politics is dominated by several national and regional parties. The evolution of Indian political party system can be traced to the formation of the Congress, as a political platform in 1885. Other parties and groups originated later.

Statement 1 is the correct answer. If the candidate is contesting the election from a recognised political party, then only **one elector** of the constituency is required to propose the file nomination.

Statement 2 is incorrect. There is **no such advantage being provided** by the government of India to the political or state parties in India. The candidates of the parties have to arrange the spaces by themselves.

Only, the expenditure incurred on the travelling and other expenses of star campaigners is not included in the election expenditure of the party candidate. The National and State parties can have up to 40-star campaigners while registered-unrecognised parties can have up to 20-star campaigners.

Statement 3 is incorrect. If a party is recognised as a State Party', it is entitled for exclusive allotment of its reserved symbol to the candidates set up by it in the State (**and not the nationwide use of that symbol**) in which it is so recognised, and if a party is recognised as a 'National Party' it is entitled for exclusive allotment of its reserved symbol to the candidates set up by it throughout India. Hence the statement is incorrect.

Statement 4 is the correct answer. The National Political Parties which have been recognized as such by the **Election Commission of India and the State recognized parties** shall be considered for **allotment of land for construction of office building**. The land allotted to political parties may comprise of one or more plots. In case a political party has been allotted land earlier, fresh allotment of land in accordance with the norms specified by government after deducting the quantum of land already allotted.

Q.34) Consider the following statements with reference to the social audits in India:

1. In India, the concept of Social Audit was formally introduced in 1952 to measure the effectiveness of Community Development Programme.
2. The Social Audit of Corporate Social Responsibility (CSR) activities is not mandatory under Companies Act, 2013.
3. There is a provision for mandatory Social Audit by Gram Sabha in the Mahatma Gandhi National Rural Employment Guarantee Act 2005.

Which of the above-given statements is/are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 3 only
- d) 1 only

Ans) b

Exp) Option b is the correct answer.

Social auditing is a process by which an organization / government accounts for its social performance to its stakeholders and seeks to improve its future social performance. The concept was pioneered by Charles Medawar in 1972.

Statement 1 is incorrect: In India, the initiative of conducting social audits was taken by Tata Iron and Steel Company Limited (TISCO), Jamshedpur in the year 1979. It gained significance after the 73rd amendment of the constitution relating to Panchayat Raj institutions. In India, social audits were first made statutory in a 2005 Rural Employment Act and government also issued the Social Audit Rules in 2011 under the MGNREGA Act.

Statement 2 is correct: Under the current legal framework, there is no provision of social audit of Corporate Social Responsibility (CSR) expenditure made by the companies. However, companies are required to file details of CSR activities annually in the MCA21 registry. The CSR disclosures made by the companies in MCA21 are captured in a user-friendly manner and put in the National CSR Data Portal. In addition, companies are required to provide additional information regarding CSR expenditure in their Profit & Loss Account and the same is required to be audited by the statutory auditors of the company.

Statement 3 is correct: In pursuance of Section 17(1) of the MGNREGA, 2005, Gram Sabha is required to conduct regular and mandatory social audits of all the projects under the scheme taken up within the Gram Panchayat'

Q.35) With reference to 'Udyam System of Registration for Micro, Small and Medium Enterprises (MSMEs)', consider the following statements:

1. It was launched by Union Ministry of Commerce and Industry.
2. The registration on the portal is necessary for an MSMEs to get benefits under Priority Sector Lending Scheme.
3. An enterprise should get separate registration numbers for its manufacturing and service activities.

Which of the statements given above is/are correct?

- a) 2 only
- b) 1 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) a

Exp) Option a is the correct answer.

The Ministry of MSME has released the data regarding the number of Scheduled Castes (SC) owned enterprises covered under the Udyam system of registration.

Statement 1 is incorrect: Udyam System of registration an online system for registering MSMEs, launched by the Union MSME ministry (not Ministry of Commerce and Industry). This portal is more streamlined than the previous Udyog Aadhaar Memorandum. The portal is also fully integrated with Income Tax and GST IN systems.

Statement 2 is correct: The **registration on Udyam portal is necessary for any MSME** (regardless of the social category of ownership) that wants to avail concessions or benefits from the Central and State governments and want to get covered under schemes of the governments, **including priority sector lending of banks.**

Statement 3 is incorrect: According to Ministry of Micro, Small & Medium Enterprises, **no enterprise shall have more than one Udyam Registration Number**, if an Enterprise is involving in both manufacturing and service, then both the activities will be clubbed in one Udyam Registration. They are eligible for registration under the system.

FAQs for Registration on Udyam Registration Portal (taxguru.in)

Q.36) Consider the following statements with reference to the By-Elections in India:

1. By-election to the house of Parliament or a state legislature must be held within three months of occurrence of the vacancy.
2. By-elections may not be held if the remainder of the term of the member whose vacancy is to be filled is less than one year.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) b

Exp) Option b is the correct answer.

In India, by elections is held in one or a few constituencies due to the death or resignation of candidates. However, it can also be held if an elected member resigns or gets disqualified under parliamentary law. A member of a legislative assembly often leaves his position vacant on various grounds, especially when he/she becomes inept. It could be the person's untimely death or a criminal conviction, which makes him ineligible to continue in office.

Statement 1 is incorrect: In India by-elections to the house of Parliament or a state legislature must be held within six months (not three months) of occurrence of the vacancy. By-election is held with a definite purpose, which is to fill a political office that has become vacant.

Statement 2 is correct: By-elections are not mandatorily conducted where the remainder of the term of the member whose vacancy is to be filled is less than one year. Also, when the Election Commission in consultation with the Central Government, certifies that it is difficult to hold the by-elections within the said period then By-elections can be deferred.

Q.37) With reference to service conditions of Civil servants in India, consider the following statements:

1. Members of the state civil service holds office during the pleasure of President.
2. Constitution provides the compensation to members of public service, if post is abolished before the expiry of agreed period.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) b

Exp) Option b is the correct answer.

Doctrine of pleasure has its origin in England common law, under which crown can remove anyone with services under its employ at any time.

Statement 1 is incorrect: As per article 310, every member of the civil service of state or **person holding civil post under state** hold office during the pleasure of the **Governor not President**.

Statement 2 is correct: Under article 310 of the Constitution, a civil servant will be entitled to get compensation under the following conditions-

- 1) when the post held by him is done away before the expiration of contract period.
- 2) If he is to vacate office for reason not related with misconduct on his part.

Source: Laxmikanth, chapter on public services

Q.38) Which of the following are the different types of observers in Parliamentary and Assembly Elections in India?

1. Expenditure Observers
2. Post-Poll Observers
3. Awareness Observers
4. Feedback Observers

Select the correct answer using the code given below.

- a) 1, 2 and 3 only
- b) 2 and 4 only
- c) 1, 3 and 4 only
- d) 1, 2, 3 and 4

Ans) a

Exp) Option a is the correct answer.

Option 1 is the correct answer. **Expenditure Observers** from Central Government Services are appointed to keep a **close watch on election expenditure of the candidates** and to ensure that no inducement is offered to the electors during the entire election process for exercise of their franchise.

Option 2 is the correct answer. To observe the poll proceedings on the poll day in selected critical polling stations **micro observers or post poll observers** are appointed. They observe the proceedings the Polling Stations on poll day from the mock poll the completion and process sealing of EVMS and other documents to ensure that all instructions of the Commission are complied with the Polling Parties the Polling Agents.

Option 3 is the correct answer. To oversee the efficient and effective management of the electoral process at the field level, mainly in **respect of voter awareness and facilitation**, **awareness Observers** are appointed. They observe the interventions undertaken by the election machinery to bridge the gap in people's participation in the electoral process particularly in regard to voters' turnout. They also monitor the various media related aspects of RP Act 1951 and observe the mechanism directed by the Commission at District levels checking the problem of 'Paid News'.

Option 4 is incorrect. There is **no such observer** being appointed by the election commission of India. Rather **Police Observers** are appointed monitors all activities relating to force deployment, law and order situation and co-ordinate between the Civil and Police administration to ensure free and fair election.

Q.39) Consider the following statements with reference to the procedure of amendment of Indian Constitution:

1. A Bill for the amendment of provisions of Article 368, has to be ratified by not less than half of the states.

2. The power to initiate an amendment to the Constitution lies with the Indian Parliament only.
3. Indian constitution has no provision for holding a joint sitting for the deadlock over the passage of a constitutional amendment bill.
4. According to the Constitution, if a state once approves a Constitutional amendment bill, it cannot withdraw its approval to such a bill.

Which of the statements given above are correct?

- a) 1, 2 and 3 only
- b) 2 and 3 only
- c) 1, 3 and 4 only
- d) 1, 2, 3 and 4

Ans) a

Exp) Option a is the correct answer.

Article 368 lays down the process by which the Parliament can amend the constitution.

Statement 1 is correct: In the case of amendment of provisions mentioned in Article 368, It needs to be ratified by not less than half of the states. **Ratification should be done by a resolution passed by the state legislature. However, this must be passed before the amendment Bill is presented to the President for his assent.**

Statement 2 is correct: Amendment can be initiated only by the introduction of a bill for the purpose in either house of the Parliament. The bill can be introduced either by a minister or by a private member and does not require the prior permission of the President.

Statement 3 is correct: In India there is no provision for holding a joint sitting of both the Houses of Parliament if there is a deadlock over the passage of a constitutional amendment bill. A provision for a joint sitting is made in the case of an ordinary bill.

Statement 4 is incorrect: The Constitution of India does not prescribe the time frame within which the state legislatures should ratify or reject an amendment submitted to them. **Also, the constitution is silent on the issue whether the states can withdraw their approval after submitting their approval.**

Source: Indian polity by M Laxmikanth pdf 6th edition. Chapter name-Amendment of the constitution. Page no-283.

Q.40) Project Beacon and Project Vijayak, often seen in news, is related to-

- a) Design and development of Buoyancy Glider for enhancing underwater Domain Awareness
- b) Construction and maintenance of Critical Road Infrastructure
- c) Addressing the issue of poaching of endangered species in the protected areas of India.
- d) Development of Man Portable Anti-Tank Guided Missiles.

Ans) b

Exp) Option b is correct.

Border Roads Organisation (BRO) through its frontline projects – Vijayak and Beacon has created a new record by keeping the Zoji La pass on the Srinagar–Leh National Highway open for vehicular traffic (Usually, it remains closed in winters due to high snow).

Project Beacon: It was launched in the 1960's. This is the oldest project of the BRO. The project currently looks after road **infrastructure development and maintenance** in the important areas of Kashmir.

Project Vijayak: It was launched by BRO in 2010. Project Vijayak along with Project Himank are responsible for the construction and maintenance of critical road infrastructure in Ladakh.

Project DANTAK: It was established in 1961 with the objective of developing roads, telecommunication networks and other such landmark infrastructure-related projects in Bhutan.

Project Sampark: It was raised by BRO in 1975. It looks after the construction, improvement and maintenance of strategic roads in the border district of Jammu, Kathua, Doda, Udhampur, Rajouri, Reasi and Poonch.

Source: Project Beacon and Project Vijayak: Border Roads Organisation breaks record at ZojiLa battling extreme weather conditions -ForumIAS Blog

Q.41) The Ninth Schedule was introduced in the Constitution of India during the Prime Ministership of

- a) Jawaharlal Nehru
- b) Lal Bahadur Shastri
- c) Indira Gandhi
- d) Morarji Desai

Ans) a

Exp) Option a is the correct answer.

First Constitutional (Amendment) Act 1951, introduced the Ninth Schedule in the Constitution of India during the prime-ministership of Jawaharlal Nehru.

This amendment made laws placed in Ninth Schedule immune to judicial review, even if they violate any Fundamental Rights.

Source: UPSC CSE 2019

Q.42) Consider the following statements with reference to the Coalition Governments:

1. In India, the first coalition government at the Centre was formed by Janta Party in 1977.
2. To be called as a coalition, it must have at least three political parties as partners.
3. A coalition government always works on the basis of a common minimum programme.

Which of the above-given statements is/are correct?

- a) 3 only
- b) 1 only
- c) 2 and 3 only
- d) 1 and 3 only

Ans) b

Exp) Option b is the correct answer.

The term '**coalition**' is derived from the Latin word '**coalitio**' which means 'to grow together'. Thus, technically, **coalition means the act of uniting parts into one body or whole**. Politically, coalition means an alliance of distinct political parties.

Statement 1 is correct: First coalition government in India at Centre was formed by Janta Party in 1977.

This was a historic year in Indian Politics, which gave India its first-ever Coalition government, that too formed by non-Congress Parties. Prime Minister Morarji Desai was the first Non-Congress Prime Minister during the period from March 1977 to June 1979.

Statement 2 is incorrect: Coalitions usually occur in modern parliaments when no single political party can muster a majority of votes. **Two or more parties, who have enough elected members between them to form a majority, can proceed to form a government. Thus, a coalition implies the existence of at least two (not three) partners.**

Statement 3 is incorrect: The keynote of coalition politics is generally compromise. A **coalition government may generally work on the basis of a common minimum programme but it is not necessarily true always. When a political party in coalition has the majority to run the government on her own (as can be seen in India in present scenario) the common minimum programme might not be followed.**

Knowledge Base: The Common Minimum Programme is a **document outlining the minimum objectives to achieved by a coalition government**. The document has acquired prominence since coalition governments have become the norm in India.

Source: Indian Polity by Laxmikanth, 6th Edition, Chapter -75

Q.43) With reference to the lawsuits by or against the government, consider the following statements:

1. While filing a court case against government, the Central government should be referred to as the 'Government of India'.
2. A lawsuit can be filed against the government by an organization for breaching of contractual liabilities.
3. The Government in India can be sued for civil wrongs committed by its officials while performing the non-sovereign functions.

Which of the statements given above is/are correct?

- a) 1 and 3 only
- b) 2 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

Statement 1 is incorrect. According to **Article 300 of the Indian Constitution**, an individual or organization can file a lawsuit in the High Court or Supreme Court against the central government by the name of the **Union of India not by the Government of India**, and in case of the Government of a State, it's by the name of the State by sending 2 months prior notice under Section 80 of the CPC.

Statement 2 is the correct answer. As per the exercise of its executive power, the Union or a state can **enter into contracts** for the acquisition, holding and disposal of property, or to carry on any trade or business, or for any other purpose **with any organization**. But any **breach of the contract does not immunize the government from a contractual liability**, making the government suable in contracts. This means that the contractual liability of the Union government and the state governments is the same as that of an individual under the ordinary law of contract. Hence **the government in India can be sued by the organization on breach of contract from their part**.

Statement 3 is the correct answer. As per the ruling in the **P and O Steam Navigation Company case (1861)** it was stated that the government (Union or states) in India can be sued for civil wrongs done by the government officials **only in the exercise of its non-sovereign functions** but not in the sovereign functions like administering justice, constructing a military road, commandeering goods during war, etc. It was reaffirmed by the Supreme Court in the post-independence era in the Kasturi Lal case (1965).

Source: LAXMIKANT-5TH EDITION -RIGHTS AND LIABILITIES OF GOVERNMENT.

Q.44) Which of the following are the roles and duties of Chief Electoral Officer (CEO) in India?

1. He ensures arrangements at election booths and demonstration of Electronic Voting Machines (EVMs) in every district.
2. He reviews the law-and-order situation in the state during elections.
3. He allocates symbols to the contesting candidates.
4. He scrutinises the nomination forms of contesting candidates.

Select the correct answer using the code given below.

- a) 1 and 2 only
- b) 1, 3 and 4 only
- c) 2 and 3 only
- d) 1, 2 and 4 only

Ans) a

Exp) Option a is the correct answer.

In India, the Election machinery is operated effectively by the Election Commission of India, Chief Electoral Officer, Returning Officer, Electoral Registration Officer, Presiding officers and the Observers.

Statement 1 is the correct answer. The **Chief Electoral Officer (CEO)** ensures arrangements at election booths and **demonstration of EVMs in every district**. He also looks out the proper sealing of EVM and election papers.

Statement 2 is the correct answer. The Chief Electoral Officer (CEO) reviews the **law-and-order situation** in the state and makes a detailed assessment to ensure that timely measures are taken. His role is to maintain inter-state coordination and sealing of borders as needed. He ensures whether the security deployment plan is in compliance with the Election Commission of India's directives and also ensures that Helpline and the Complaint Cell are functioning at different levels in the state.

Statement 3 is incorrect. A **Returning Officer** (not CEO) who oversees the election in a constituency or sometimes in two constituencies, as directed by the Election Commission **is responsible for allotting symbols** to the contesting candidates.

Statement 4 is incorrect. The **Returning Officer (not CEO)** examines the **nomination papers** and decide all objections which may be made to any nomination and may, either on such objection or on his own motion, after such summary inquiry, if any, as he thinks necessary, or reject any nomination.

Source: <https://www.thehindu.com/opinion/op-ed/returning-officer/article27050005.ece>

[https://www.elections.in/political-corner/role-and-functions-of-chief-electoral-officer/LAXMIKANT\(CH-ELECTIONS\)](https://www.elections.in/political-corner/role-and-functions-of-chief-electoral-officer/LAXMIKANT(CH-ELECTIONS))

Q.45) With reference to 'International Customary Law', consider the following statements:

1. International Customary Law is derived from the general practices that are accepted as laws in various countries.
2. These laws are not binding legal rules as they are not supported through international agreements or treaties.
3. Indian Judicial and legal system has not recognized the validity of this law.

Which of the statements given above is/are correct?

- a) 1 only
- b) 1 and 3 only
- c) 2 only
- d) 2 and 3 only

Ans) a

Exp) Option a is the correct answer.

Parliamentary committee on external affairs has presented a report titled "India and international law" in the Lok Sabha. The report discusses how Indian courts have dealt with international law.

Statement 1 is correct: Customary international law refers to international obligations arising from established international practices, as opposed to obligations arising from formal written conventions and treaties. **Customary international law results from a general and consistent practice of States that they follow from a sense of legal obligation.** Two examples of customary international laws are the doctrine of non-refoulement and the granting of immunity for visiting heads of state.

Statement 2 is incorrect: International customary laws are **binding legal rules** that have developed on global or region levels through continued practice. States recognize that treaties and customary international law are sources of international law and, as such, are binding. This is set forth, for example, in the Statute of the International Court of Justice. One example of the **binding nature of customary international law is its application by national and international courts and tribunals.**

Statement 3 is incorrect: Supreme Court of India has been of the view that **Customary International Law (CIL)**, unless contradictory to domestic law, is **part of the Indian legal regime** even if the parliament has not enacted a law for that. In **Vellore Citizens Welfare Forum v. Union of India**, it held that CIL which is not contrary to the municipal law shall be deemed to have been incorporated in India's domestic law. This principle has been affirmed in subsequent decisions like in **Research Foundation for Science v. Union of India**. Here, the SC, relying on the Vellore Citizen case, declared that the **precautionary principle**, an environmental law concept, **is part of CIL and thus part of Indian law**.

Customary Law (lac.org.na)

Q.46) With reference to Anti defection law, consider the following statements:

1. Deputy chairman of Rajya Sabha is not disqualified under anti-defection law when s/he voluntary gives up the membership of his/her party.
2. A 'defection' by at least one-third of the elected members of a political party is considered a 'merger'.
3. Abstaining from voting by a member of the House, against the directives of his party, can be considered as defection.

Which of the statements given above is/are correct?

- a) 1 only
- b) 3 only
- c) 1 and 3 only
- d) 2 and 3 only

Ans) c

Exp) Option c is the correct answer.

The Anti-Defection Law was passed in 1985 through the **52nd amendment, adding Tenth Schedule** to the Indian Constitution. The main intent of the law was to prevent political defections.

Statement 1 is correct: A member of a house when elected for the office of presiding officer is not subjected to disqualification under anti defection law if he/she voluntary gives up the membership of his/her party or rejoins it after ceasing to hold the said office. Speaker or the Deputy Speaker of the House of People, Deputy Chairman of the Council of States can voluntarily give up their party membership without attracting the disqualification under anti-defection law.

Statement 2 is incorrect: As per the 52nd Amendment Act, 1985 Act, a 'defection' by one-third of the elected members of a political party was considered a 'merger'.

But the 91st Constitutional Amendment Act, 2003, changed this and **presently at least two-thirds of the members of a party have to be in favour of a "merger" for it to have validity.**

Statement 3 is correct: A legislator is deemed to have defected if he either voluntarily gives up the membership of his party or **disobeys the directives of the party leadership on a vote. This implies that a legislator defying (abstaining or voting against) the party whip on any issue can lose his membership of the House.**

Source: statement 1 and 2: Laxmikanth chapter on anti-defection law

Statement 3: <https://prindia.org/theprsblog/the-anti-defection-law-explained?page=51&per-page=1>

Q.47) Consider the following statements with reference to the reforms made by the Government to promote governance in India:

1. PRAGATI Scheme has been launched for capacity building of civil services in India.
2. Common Services Centers offer both public and private services in rural and remote areas.

3. Mission Karmyogi is aimed at improving the monitoring of government projects.

Which of the above-given statements is/are correct?

- a) 1 and 2 only
- b) 2 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

Governance is commonly defined as the exercise of power or authority by political leaders for the well-being of their country's citizens or subjects. Various governance reforms have been promoted by the government in recent times.

Statement 1 is incorrect: 'Mission Karmayogi' (not the PRAGATI Scheme), also called the National Programme for Civil Services Capacity Building (NPCSCB) is launched for the capacity building of Civil Services in India. It aims to prepare Indian civil servants for the future by making them more creative, constructive, imaginative, proactive, innovative, progressive, professional, energetic, transparent, and technology-enabled. It aims to do comprehensive reform of the capacity-building apparatus at the individual, institutional and process levels for efficient public service delivery.

Statement 2 is correct: Common Service Centers are the access points for delivery of essential public utility services, social welfare schemes, healthcare, financial, education and agriculture services, apart from **host of B2C services to citizens in rural and remote areas** of the country. Thus, it **provides both public and private services to the citizens.** It is a pan-India network catering to regional, geographic, linguistic and-cultural diversity of the country, thus enabling the Government's mandate of a socially, financially and digitally inclusive society.

Statement 3 is incorrect: Pro-Active Governance and Timely Implementation I.e., PRAGATI Scheme (and not the Mission Karmyogi) is a unique integrating and interactive platform aimed at addressing common man's grievances, and simultaneously **monitoring and reviewing important programmes and projects of the Government of India as well as projects flagged by State Governments.** The PRAGATI platform uniquely bundles the three latest technologies: Digital data management, video-conferencing, and geo-spatial technology.

Source: <https://pib.gov.in/PressReleaseIframePage.aspx?PRID=1655663>

<https://digitalseva.csc.gov.in>

<https://www.meity.gov.in/pragati-20-pro-active-governance-and-timely-implementation>

Q.48) Which of the following is/are the conditions for recognition of a party as a National Party?

1. If the party secures 4 % of the valid votes in 3 states at a general election for the Lok Sabha.
2. If the party wins 3% of seats in legislative assembly at general election of the state legislative assembly.
3. If the party wins 2% of seats in Lok Sabha at general elections from three states.

Select the correct answer using the code given below:

- a) 1 only
- b) 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

Statement 1 is incorrect. A party can be recognized as a national party if it **secures six per cent of valid votes** polled in any four or more states at a general election to the Lok Sabha or to the legislative assembly; and, **in addition, it wins four seats in the Lok Sabha** from any state or states.

Statement 2 is incorrect. If a party wins **three per cent of seats in the legislative assembly** at a general election to the legislative assembly of the state concerned or 3 seats in the assembly then it will be liable to be **recognized as State Party** not the National Party. Hence the given condition is for recognition of state party.

Statement 3 is the correct answer. A party can be recognized as a national party if it wins **two per cent of seats in the Lok Sabha** at a general election; and these candidates are elected **from three states**.

Source: LAXMIKANT (CH-POLITICAL PARTIES)

Q.49) Consider the following statements with reference to the Model Panchayat Citizen Charter framework:

1. It has been released by Ministry of Rural Development in collaboration with National Institute of Rural Development.
2. It aims to align the delivery of public services with Sustainable Development Goals at panchayat level.
3. Under this framework, draft of Citizen Charters for panchayats needs the approval of the respective Gram Sabha.

Which of the above-given statements are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

Citizen Charters is voluntary and written document that spells out the service provider's efforts taken to focus on their commitment towards fulfilling the needs of the citizens/customers. A Model Panchayat Citizens Charter/ framework for delivery of the services across the 29 sectors of 11th Schedule of Constitution, aligning actions with localised Sustainable Development Goals (SDGs) as prepared by Ministry of Panchayati Raj (MoPR) in collaboration with National Institute of Rural Development & Panchayati Raj (NIRDPR) was released by Union Minister of Rural Development, Agriculture and Farmers Welfare & Panchayati Raj.

Statement 1 is incorrect: Model Panchayat Citizens Charter framework has been prepared by the **Ministry of Panchayati Raj (MoPR) (not the Ministry of Rural Development) in collaboration with National Institute of Rural Development & Panchayati Raj (NIRDPR)**. NIRDPR is an autonomous organization under the Union Ministry of Rural Development.

Statement 2 is correct: Model Panchayat Citizens Charter framework has been developed for the delivery of the services across the 29 sectors (mentioned under schedule 11 of the Constitution for Panchayats), and it aims to align the delivery of these public services with Sustainable Development Goals at panchayat level.

Statement 3 is correct: Panchayats would be utilizing this framework, and with the due approval of Gram Sabha, would draw up a Citizens Charter, detailing the different categories of services rendered to the citizen by the Panchayat, the conditions for such service and also the time limit for such service.

Source: <https://pib.gov.in/PressReleaseIframePage.aspx?PRID=1724464>

Q.50) Consider the following statements with reference to the Hyderabad Declaration:

1. The Declaration pledges for exclusive financial support from Central and State Governments for development of digital services.

2. The Declaration aims at the Integration of all State/District public portals with Centralized Public Grievance Redress and Monitoring System.

Which of the above-given statements is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) b

Exp) Option b is the correct answer.

24th National Conference on e-Governance 2021 was held at **Hyderabad** in **January 2022**. '**Hyderabad Declaration**' on e-Governance was adopted in this National conference. The **Hyderabad Declaration** aims to transform citizen services through use of technology by leveraging the artifacts of **India Stack that include Aadhaar, UPI, Digi Locker, UMANG, e Sign and consent framework**.

Statement 1 is incorrect: There is no mention of any exclusive financial support for the development of digital services. The Declaration is focused on collaboration between states and Centre for better e-governance.

Statement 2 is correct: A key feature of the declaration was that both **central and state government should collaborate for integration of all State/District portals with CPGRAMS for seamless Redressal of Public Grievances**. It would uplift good governance to higher level through healthy competition among States and UTs and among Central Ministries by benchmarking services.

Source: <https://pib.gov.in/PressReleaseIframePage.aspx?PRID=1788564>

Q.1) Which of the following are **not** necessarily the consequences of the proclamation of the President's rule in a State?

1. Dissolution of the State Legislative Assembly
2. Removal of the Council of Ministers in the State
3. Dissolution of the local bodies

Select the correct answer using the code given below:

- a) 1 and 2 only
- b) 1 and 3 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

When President's Rule is imposed in a state, the President dismisses Council of Ministers in the State. Dissolution of the State Legislative Assembly and local bodies is not necessarily a consequence of the proclamation of the President's rule in a State. The President may either suspend or dissolve the State Legislative Assembly.

Source: PYQ 2017

Indian Polity by Laxmikant – 6th Edition – Chapter 16 - Emergency Provisions.

Q.2) With reference to the 'District Councils' for Tribal Areas of some states, consider the following statements:

1. Each Autonomous district has a fully elected district council.
2. Laws made on village administration by these Councils require the assent of the Governor.
3. The Governor is empowered to dissolve the district council on recommendation of the State Government.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) 1 and 3 only
- d) 2 and 3 only

Ans) b

Exp) Option b is the correct answer.

The Sixth Schedule of the Constitution deals with the administration of the tribal areas in the four northeastern states of Assam, Meghalaya, Tripura and Mizoram.

Statement 1 is incorrect: Each **autonomous district has a district council** consisting of 30 members, of whom **four are nominated by the Governor** and the remaining **26 are elected on the basis of adult franchise**. The elected members hold office for a term of five years and nominated members hold office during the pleasure of the Governor. Each autonomous region also has a separate regional council.

Statement 2 is correct: The **district** and regional **councils** administer the areas under their jurisdiction. They **can make laws** on certain specified matters like land, forests, canal water, shifting cultivation, **village administration**, inheritance of property, marriage and divorce, social customs and so on. The district council can establish, construct or manage primary schools, dispensaries, markets, ferries, fisheries, roads and so on in the district. It can also make regulations for the control of money lending and trading by non-tribals. But all **such laws require the assent of the Governor**.

Statement 3 is incorrect: The Governor can appoint a commission to examine and report on any matter relating to the administration of the autonomous districts or regions. **Governor may dissolve** a district or regional council on the **recommendation of the commission**.

Source: Indian Polity by Laxmikant – 6th Edition – Chapter 41 – Scheduled and Tribal Areas.

Q.3) With reference to the Fifth Schedule of the Constitution, consider the following statements:

1. A region is declared as a Scheduled Area by the President but any change in its area can be done only by the Governor of respective State.
2. The executive power of a State does not extend to the Scheduled Areas.
3. The President can direct to establish a Tribes Advisory Council in states without Scheduled Areas.
4. A Governor can make a regulation to repeal any act of the state legislature in Scheduled Areas, with President's assent.

Which of the statements given above are correct?

- a) 1, 3 and 4 only
- b) 1, 2 and 3 only
- c) 2, 3 and 4 only
- d) 3 and 4 only

Ans) d

Exp) Option d is the correct answer.

The Scheduled Areas are defined in the Fifth Schedule are inhabited by 'aboriginals' who are socially and economically rather backward, and special efforts need to be made to improve their condition.

Statement 1 is incorrect: The **President is empowered to declare an area to be a scheduled area**. He can **also increase or decrease its area**, alter its boundary lines, rescind such designation or make fresh orders for such redesignation on an area in consultation with the Governor of the state concerned.

Statement 2 is incorrect: The **executive power of a state extends to the Scheduled Areas**. But the Governor has a special responsibility regarding such areas. He has to submit a report to the President regarding the administration of such areas, annually or whenever so required by the President. The executive power of the Centre extends to giving directions to the states regarding the administration of such areas.

Statement 3 is correct: Each state having Scheduled Areas has to establish a **tribe's advisory council** to advice on welfare and advancement of the scheduled tribes. A similar council **can also be established in a state having scheduled tribes but not Scheduled Areas therein, if the President so directs**. It is to consist of 20 members, three-fourths of whom are to be the representatives of the scheduled tribes in the state legislative assembly.

Statement 4 is correct: The Governor have several powers in respect to the Scheduled Areas. He may make a **regulation to repeal** or amend any **act** of Parliament or the **state legislature**, which is applicable to a scheduled area. **But all such regulations require the assent of the President**.

Source: Indian Polity by Laxmikant – 6th Edition – Chapter 41 – Scheduled and Tribal Areas.

Q.4) Consider the following statements with reference to the National Integration Council:

1. It is neither a constitutional nor a statutory body.
2. It is chaired by the President of India.
3. Meetings of the national integration council are mandatorily convened biennially.
4. The representatives of industry, business and trade unions are also included as the members of council.

Which of the statements given above is/are correct?

- a) 1 and 4 only
- b) 4 only
- c) 1, 2 and 3 only
- d) 2 and 4 only

Ans) a

Exp) Option a is the correct answer.

The objectives of the National Integration Council (NIC) are to achieve unity in diversity, freedom of religions, secularism, equality, justice-social-economic and political, and fraternity among all communities.

Statement 1 is correct: National Integration Council is neither a Constitutional body nor a Statutory body. It is an extra-constitutional body. The National Integration Council (NIC) was constituted in 1961 at a national conference on 'unity in diversity' convened by the Central government, at New Delhi.

Statement 2 is incorrect: National integration council is chaired by the Prime minister of India (and not by the President of India) It is consisted of the prime minister as chairman, central home minister, chief ministers of states, seven leaders of political parties, the chairman of the UGC, two educationists, the commissioner for SCs and STs and seven other persons nominated by the prime minister.

Statement 3 is incorrect: Meetings of the national integration council are convened as per requirement from time to time. There is no regular or specified time interval for convening meetings of the national integration council.

Statement 4 is correct: In 1968, the Central government revived the National Integration Council. Its size was increased from 39 to 55 members. **The representatives of industry, business and trade unions are also included as a members of national integration council.**

Q.5) Consider the following statements regarding 'SEED scheme':

1. It is a scheme for economic empowerment of Divyangjans in India.
2. The scheme provides free coaching for the deserving candidates to enable them to appear in competitive examinations.
3. The scheme also has the provisions of Health insurance.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 1 and 3 only
- c) 2 and 3 only
- d) 1, 2, and 3

Ans) c

Exp) Option c is the correct answer.

The Ministry of Social Justice and Empowerment has launched the Scheme for Economic Empowerment of De-Notified Tribes (SEED).

Statement 1 is incorrect: The Scheme for Economic Empowerment of DNTs (SEED) aims to economically empower De-notified, Nomadic and Semi Nomadic Communities (not the Divyangjans). De-notified, Nomadic and Semi-Nomadic Tribes are the most neglected, marginalised and economically and socially deprived communities. In 2014, the Ministry of Social Justice & Empowerment constituted a National

Commission for DE notified, Nomadic and Semi Nomadic Tribes for a period of three years. This commission gave recommendations and prepared draft lists of DNT/NT/SNT Communities.

Statement 2 and 3 are correct: The Government has decided to create an umbrella scheme for empowerment of these communities and accordingly, the Scheme for Economic Empowerment of DNTs, SNTs & NTs (SEED) has been formulated with **four components** that affect their livelihood.

The four components of the SEED scheme are:

- 1) **Educational empowerment- Free coaching to students from these communities for Civil Services, entry to professional courses like medicine, engineering, MBA, etc.**
- 2) **Health Insurance through PMJAY of National Health Authority.**
- 3) Livelihoods to support income generation, and
- 4) **Housing (through PMAY/IAY)**

Q.6) Which among the following is/are a special feature that distinguishes a pressure group from a political party?

1. While the political parties can be informal but to be the recognized as a pressure group it must be a formal entity.
2. Pressure groups are always confined to a few people, while parties involve a larger number of people.
3. Pressure groups do not seek to get into power, while political parties do.
4. Pressure groups do not seek to mobilise people, while political parties do.

Select the correct answer using the codes given below:

- a) 1 and 2 only
- b) 1, 2 and 3 only
- c) 3 only
- d) 3 and 4 only

Ans) c

Exp) Option c is the correct answer.

A pressure group is a group of people who are organized actively for promoting and defending their common interest.

Option 1 is incorrect. Political parties are formal organizations, they need to be registered with designated authority (In India – Election Commission of India). Pressure groups can be formal or informal in nature. They can be registered as a society, but it is not a mandatory provision.

Option 2 is incorrect. Some Pressure groups are confined to a few people, but some groups are very big like farmer associations.

Option 3 is correct. Pressure groups are organisations that attempt to influence government policies. **But unlike political parties, pressure groups do not aim to directly control or share political power.** Promoting the **interests of a group of society or interests of particular sections of society is the usual aim** of Pressure or interest groups. Professional associations of teachers, doctors, lawyers; business associations, trade unions are some examples of Pressure or interest groups.

Option 4 is incorrect. Pressure groups seek to mobilise people to effectively influence the government policies.

Q.7) At the national level, which ministry is the nodal agency to ensure effective implementation of the Scheduled Tribes and Other Traditional Forest Dwellers (Recognition of Forest Rights) Act, 2006?

- Ministry of Environment, Forest and Climate Change
- Ministry of Panchayati Raj
- Ministry of Rural Development
- Ministry of Tribal Affairs

Ans) d

Exp) Option d is the correct answer.

The Union Ministry of Tribal Affairs (MoTA) is the nodal agency for the implementation of the Scheduled Tribes and Other Traditional Forest Dwellers (Recognition of Forest Rights) Act, 2006. The ministry deals with forest and livelihood objectives at the national level.

UPSC 2021

Q.8) Which of the following method would be used to introduce Hindi language in the ‘Proceedings of the High Courts’?

- A Presidential order authorizing the same on the request of the Supreme Court.
- A Presidential order authorizing the use of Hindi on the request of the Governor.
- Governor can authorize the same with the previous consent of the President.
- An Act passed by the State Legislature by a simple majority.

Ans) c

Exp) Option c is the correct answer.

The constitutional provisions dealing with the language of the courts and legislation are as follows:

Article 348 of Constitution on Language to be used in the Supreme Court and in the High Courts and for Acts, Bills, etc. suggests that until Parliament provides otherwise, the following are to be in the English language only:

- All proceedings in the Supreme Court and in every High Court.
- The authoritative texts of all bills, acts, ordinances, orders, rules, regulations and bye-laws at the Central and state levels.

However, Article 348 also suggests that Governor of a state, with the previous consent of the President, can authorise the use of Hindi or any other official language of the state, in the proceedings in the high court of the state, but not with respect to the judgements, decrees and orders passed by it.

Further, a provision of the law made by the Parliament i.e., The Official Languages Act, 1963, enables the Governor of a state, with the previous consent of the President, to authorise the use of Hindi or any other official language of the state for judgements, decrees and orders passed by the high court of the state but they should be accompanied by an English translation.

Knowledge Base: A state legislature can prescribe the use of any language (other than English) with respect to bills, acts, ordinances, orders, rules, regulations or bye-laws, but a translation of the same in the English language is to be published.

Source: Indian Polity by Laxmikant – 6th Edition – Chapter 45 - Official Language.

Q.9) With reference to the provisions related to the Official Language Act of 1963, consider the following statements:

- The act provides for use of English for all official purpose of Union for indefinite period of time.

2. The states that have not adopted Hindi as an official language can also use Hindi for communication with the Union and the other States.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) c

Exp) Option c is the correct answer.

The Official Language Act 1963, provide for the languages which may be used for the official purposes of the Union, for transaction of business in Parliament, for Central and State, Acts and for certain purposes in High Courts.

Statement 1 is correct. The Official Language Act 1963 provides for the **continued use of English (even after 1965), in addition to Hindi**, for all official purposes of the Union and also for the transaction of business in Parliament. Notably, this act enables the **use of English indefinitely (without any time-limit)**. The act was amended in 1967 to make the use of English, in addition to Hindi, compulsory in some cases.

Statement 2 is correct. The **Official Language Act in 1963** provide that the English language should be used for purposes of **communication between the Union and a State** which has not adopted Hindi as its Official Language. The Act do not prevent a **State which has not adopted Hindi as its official language from using Hindi for purposes of communication with the Union or with a State** which has adopted Hindi as its official language, or by agreement with any other State, and in such a case, it shall not be obligatory to use the English language for purposes of communication with that State.

LAXMIKANT (CH-OFFICIAL LANGUAGE)

Q.10) ‘Tobin Funnel model’, recently seen in news, is related to:

- a) Net Government Spending and Money Supply in an economy
- b) Duty on spot currency trades and market stability
- c) Relationship between net exports and country’s exchange rate.
- d) Impact of inflation on interest rate in an economy

Ans) a

Exp) Option a is the correct answer.

The Government has recently signalled that India will exit its extraordinary fiscal and monetary policies of pandemic times, gradually.

Tobin Funnel model: As per this model, a nation-state has control over two taps; **one for net government spending and another for money supply**. The water rushes through a common funnel into a tank below. The moment the tank below the funnel gets full, it overflows in the form of inflation. The volume of the tank depends on the supply side of the economy.

So, the underlying assumption in the Tobin funnel is that fiscal and monetary policy can sometimes be used alone and sometimes in combination for policy coordination.

How Tobin model creates policy dilemma?

The extra government borrowing creates huge public debt. For example, in the case of India, the bond market believes that the Centre’s borrowing program in the next fiscal year is too high. Along with this, there is inflation and RBI is the inflation manager of the economy as well as debt manager. Now the dilemma is whether RBI should raise interest rates to tackle inflation or keep them low to support the government budget.

Option b is incorrect: The **Tobin tax** is a **duty proposed on spot currency trades to penalize short-term currency trading** in order to stabilize markets and disincentive speculation. The Tobin tax can be used to generate revenue streams for countries that see a great deal of short-term currency movement.

Option c is incorrect: When an increase in one form of **net exports drives up a country's exchange rate**, it is called the **Dutch Disease**. Such instances make other exports non-competitive in the world market and impairs the ability of domestic products to compete with imports. The term originated from the supposed effect of natural gas discoveries on the Netherlands economy.

Option d is incorrect: **Fisher effect** is a concept developed by Irving Fisher (1867–1947) which shows **relationship between inflation and the interest rate**, expressed by an equation popular as the fisher equation, i.e., the nominal interest rate on a loan is the sum of the real interest rate and the rate of inflation expected over the duration of the loan.

Q.11) Under which Schedule of the Constitution of India can the transfer of tribal land to private parties for mining be declared null and void?

- a) Third Schedule
- b) Fifth Schedule
- c) Ninth Schedule
- d) Twelfth Schedule

Ans) b

Exp) Option b is the correct answer.

Under the Fifth Schedule of the Constitution of India, the Governor of a State can make regulations that prohibits or restricts transfer of land by Schedule Tribes to the other parties. In *Samatha vs. State of Andhra Pradesh* (1997), the Supreme Court declared that the transfer of tribal land to private parties for mining was null and void under the Fifth Schedule.

Source: PYQ 2019

Indian Polity by Laxmikant – 6th Edition – Chapter 41 – Scheduled and Tribal Areas.

Q.12) With reference to 'Multi-state Co-operative Societies' (MSCS), consider the following statements:

1. The Board of Directors of MSCS have members from all the states of India.
2. National Cooperative Development Corporation is the controlling authority of MSCS in India.
3. The state of Uttar Pradesh has the highest number of MSCS in the country.

Which of the following statements given above is/are correct?

- a) 1 only
- b) 1 and 2 only
- c) 2 and 3 only
- d) None of the above

Ans) d

Exp) Option d is the correct answer.

Cooperatives are enterprises which are owned, controlled and run by its members to realize their common economic, social, and cultural needs and aspirations. In 2002, the Centre passed a **Multi-State Cooperative Societies Act** that allowed for registration of societies with **operations in more than one state**.

Statement 1 is incorrect: Multi-state cooperatives draw their membership from more than one states, and they are thus registered under the Multi-State Cooperative Societies Act. Their **board of directors has representation from all states they operate in (not all the States of India).**

Statement 2 is incorrect: The **Central Registrar of Societies is the controlling authority** of Multi-State Co-operative Societies, but on the ground the State Registrar takes actions on his behalf. The **National Cooperative Development Corporation (NCDC) works for the promotion of the cooperative movement in India.** It is tasked with planning, promoting, coordinating and financing cooperative development programs at the national level.

Statement 3 is incorrect: **Maharashtra has the highest number of multistate cooperative societies at 567,** followed by Uttar Pradesh (147) and New Delhi (133). Credit societies constitute the bulk of the registered societies, followed by agro-based ones (which include sugar mills, spinning mills etc).

Knowledge Base:

Recently, the Cabinet has approved the extensive amendments to the Multi-State Cooperative Societies Act (MSCS). The Act was last amended in 2002.

Salient features of the amendment:

1) Formation of specific bodies: The Bill also has specific provisions for setting up

- **Cooperative Election Authority** will be formed to conduct free, fair and timely elections to coops. This, in turn, will help reduce incidents of complaints and malpractices. There is a provision to debar offenders for three years to bring in more electoral discipline.
- **Cooperative information officer:** S/he will enhance transparency by providing members timely access to information.
- **Cooperative ombudsman:** The ombudsman will provide a mechanism for redressal of member grievances in a structured fashion.

2) To increase ease of doing business: The Bill proposes to reduce the period of registration, with a provision for the applicants to seek additional time of two months for rectification of mistakes.

3) Encourages a comprehensive digital ecosystem: The Bill provides for electronic submission and issuance of documents, thus providing for a comprehensive digital ecosystem.

Source: <https://blog.forumias.com/govt-amends-multi-state-cooperative-societies-act-to-bring-in-transparency/>

<https://blog.forumias.com/multistate-cooperatives-govt-plans-to-amend-the-law-explained-pointwise/>

Q.13) With reference to language of judiciary in India, consider the following statements:

1. The Official languages Act empowers the Governor of a State to authorize the use of any official language of state for the judgements of High Court, with the consent of President.
2. The Parliament of India can authorize the use of Hindi for the proceedings of the Supreme Court.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) c

Exp) Option c is the correct answer.

Article 348 of the Indian Constitution deals with the language to be used in the Supreme Court and in the High Courts and for Acts, Bills, etc. of the Parliament and State legislature.

Statement 1 is correct. According to Section 7 of the Official Languages Act, 1963 and under Article 348 (2) of the Indian Constitution, **the Governor of a State after the consent of the President can authorise the use of Hindi or any of the official language** of the State for judgement, decrees and orders of High Court. Any such judgement, decree or order of High Court which is in any language other than the English language, shall be along with the translation of the same in the English language issued under the authority of the High Court.

Statement 2 is correct. Article 348 (1) of the Constitution of India provides that all proceedings in the Supreme Court and in every High court shall be in English Language until **Parliament otherwise provides.** The Parliament of India has not made any provisions for the use of Hindi in Supreme Court.

Laxmikant (CH-OFFICIAL LANGUAGE)

Q.14) Which of the following is/are the special directives for the protection of linguistic minorities in India?

1. Every State should provide adequate facilities for instruction in the mother tongue at the primary stage of education.
2. The President of India appoints a Special Officer for Linguistic Minorities to investigate all matters relating to their safeguard.
3. The Special Officer for Linguistic Minorities permits the linguistic minorities in states to establish and administer the educational institutions.

Select the correct answer using the code given below.

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) a

Exp) Option a is the correct answer.

According to the Report of the National Commission for Religious and Linguistic Minorities, the linguistic minority status of a community is determined by numerical inferiority, non-dominant status in a state, and possessing a distinct identity.

Statement 1 is correct. The **Seventh Constitutional Amendment Act, 1956 inserted Article-350 A** to the Indian Constitution that every State and of every local authority within the State should provide adequate facilities for instruction in the **mother-tongue at the primary stage of education** to children belonging to **linguistic minority groups**; and the President can issue directions to any State as he considers necessary or proper for securing the provision of such facilities.

Statement 2 is correct. According to **Article-350B of the Indian Constitution**, there shall be a **Special Officer for linguistic minorities** to be **appointed by the President of India**. The Special Officer investigates all matters relating to the safeguards provided for linguistic minorities and report to the President upon those matters from time to time as the President directs. The President lays the reports before each House of Parliament, and sent to the Governments of the States concerned.

Statement 3 is incorrect. Establishing and administering the educational institutions of their choice is the **Fundamental Right of the linguistic minorities in India and do not require permission** of Special Officer for Linguistic Minorities. **Article 30 (1) of the Constitution of India** provides a fundamental right to linguistic minorities to establish and administer educational institutes of their choice.

Source: <https://legislative.gov.in/constitution-seventh-amendment-act-1956#:~:text=Restriction%20on%20practice%20after%20being,and%20the%20other%20High%20Courts.>

Q.15) Consider the following statements regarding ‘Quantum Key Distribution’ technology:

1. It is a technology for secure communication by utilizing a cryptographic protocol.
2. The encrypted protocol in this technique is restricted only to one sided communication at a time.
3. It works on the principles of quantum superimposition.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 1 and 3 only
- c) 3 only
- d) 2 and 3 only

Ans) b

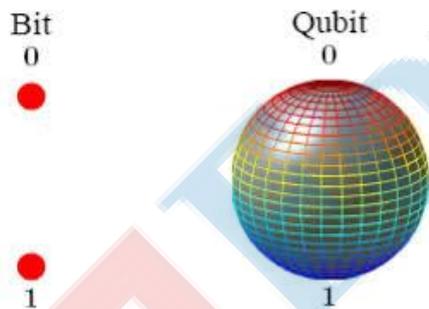

Exp) Option b is the correct answer.

A team of scientists from the Défense Research and Development Organization (DRDO) and Indian Institute of Technology (IIT) Delhi has successfully demonstrated the Quantum Key Distribution (QKD) link between Prayagraj and Vindhyachal in Uttar Pradesh, a distance of more than 100 kilometres

Statement 1 is correct: Quantum Key Distribution (QKD) is primarily a mechanism to undertake **secure communication** which utilizes a **cryptographic protocol** involving various components of quantum mechanics.

Statement 2 is incorrect: The Quantum Key Distribution technology enables **two communicating sides to come up with random secret keys** shared by both of them and known exclusively to them, so only they can use it to encrypt and decrypt messages, thus achieving a very highly-secure communication.

Statement 3 is correct: The Conventional computers process information in ‘bits’ or 1s and 0s, following classical physics under which our computers can process a ‘1’ or a ‘0’ at a time. Quantum computers compute in qubits. They exploit the properties of quantum mechanics, the science that governs how matter behaves on the atomic scale. **In this scheme of things, processors can be a 1 and a 0 simultaneously, a state called quantum superposition. Because of quantum superposition, a quantum computer – if it works to plan – can mimic several classical computers working in parallel.**

Source: DRDO and IIT Delhi scientists demonstrate Quantum Key Distribution between two cities 100 kilometers apart (forumias.com)

Telecom secretary asks C-DoT to work on 6G, launches Quantum Communication Lab (forumias.com)

Q.16) Which of the following statements is/are correct regarding Classical Languages in India?

1. There are six languages that are given Classical language status by the government of India.
2. A language used in the body of ancient texts, which is considered a valuable heritage by generations can be declared as a classical language.
3. Eminent scholars in classical Indian languages are provided with two major international awards annually.

Select the correct answer using the code given below.

- a) 1 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

Statement 1 is correct. The **six languages** in India enjoy the 'Classical Languages in India' status namely Tamil (declared in 2004), Sanskrit (2005), Kannada (2008), Telugu (2008), Malayalam (2013), and Odia (2014).

Statement 2 is correct. Any language can be declared as a Classical language if it fulfils the given criteria: -

(1) The language must have high antiquity of its early texts/recorded history over a period of 1500-2000 years;

(2) **A language used in the body of ancient literature/texts, which is considered a valuable heritage by generations of speakers.**

(3) The literary tradition of the language must be original and not borrowed from another speech community;

(4) The classical language and literature being distinct from modern can have discontinuity between the classical language and its later forms or its offshoots.

Statement 3 is correct. Once a language is notified as a Classical language, the Human Resource and Development Ministry provides certain benefits to promote it:

1) **Two major annual international awards for scholars of eminence in classical Indian languages.**

2) A Centre of Excellence for studies in Classical Languages is set up.

3) The University Grants Commission is requested to create, to start with at least in the Central Universities, a certain number of Professional Chairs for the Classical Languages so declared.

LAXMIKANT (CH-OFFICIAL LANGUAGE)

Q.17) With reference to the Committee of Parliament on Official Language, consider the following statements:

1. The members of the Committee on Official Language are elected from both houses of Parliament.
2. The Union Minister of Culture is the ex-officio chairman of the committee.
3. The Committee reviews the progress made in the use of Hindi for official purposes of the Union.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

The Official language Act, 1963 and Article 344 of the Indian Constitution provides with the establishment and provision associated with the Commission and Committee of Parliament on official language.

Statement 1 is correct. The Committee on official languages **consists of thirty members**, of whom twenty shall be members of the **House of the People** and ten shall be members of the **Council of States**. **These members are** elected respectively by the members of the House of the People and the members of the Council of States. The election is in accordance with the **system of proportional representation** by means of the single transferable vote.

Statement 2 is incorrect. The Chairman of Committee is elected by the members of the committee. As per the traditional criteria of the committee, the union home minister (**not Minister of Culture**) is appointed as the **Chairman of the official language committee**. Currently, the Union Home Minister, Shri Amit Shah, is the chairman of Parliamentary Committee on Official Language.

Statement 3 is correct. The purpose of the Committee is

- 1) **To review the progress made in the use of Hindi for official purposes of Union, and**
- 2) To make recommendations to increase the use of Hindi in official communications.

Source: <https://rajbhasha.gov.in/en/constitutional-provisions>

LAXMIKANT (CH-OFFICIAL LANGUAGES)

Q.18) Which of the following Commission investigates the constitutional matters and legal safeguards of the Anglo-Indian community?

- a) National Commission for Scheduled Castes
- b) National Commission for the welfare of Anglo-Indians
- c) National Commission for Minorities
- d) National Commission for Backward Classes

Ans) a

Exp) Option a is the correct answer.

Option a is correct. The **National Commission for Scheduled Castes** is a Constitutional body established under Article 338 of the Indian Constitution. It provides safeguards against the exploitation of Scheduled Castes and **Anglo-Indian communities** to promote and protect their social, educational, economic and cultural interests. **There is no separate Commission for the welfare of Anglo-Indian community.**

Source: <http://ncsc.nic.in/pages/display/9-about-us>

Q.19) With reference to the provisions in the Indian Constitution, consider the following statements:

1. The President of India specifies the castes or tribes to be treated as Scheduled Castes and Scheduled Tribes in each state and Union Territory of India.
2. The 105th Constitutional Amendment Act empowers the President of India to identify the Socially and Educationally Backward classes in states.
3. The Constitution of India has clearly defines the terms Schedule Caste and Schedule Tribes.

Which of the statements given above is/are correct?

- a) 1 only
- b) 1 and 2 only
- c) 2 and 3 only
- d) 1 and 3 only

Ans) a

Exp) Option a is the correct answer.

Article 330 to 342 in Part XVI of the Indian Constitution deals with special provisions associated with SC, ST, Anglo Indians and OBCs.

Statement 1 is correct. The **President of India** holds power to **specify as to what castes** or tribes in each state and Union Territory are **to be treated as Scheduled Castes and Scheduled Tribes**. The President issues the notification after **consulting the governor** of the state concerned. But, any **inclusion or exclusion of any caste or tribe** from Presidential notification can be done only by the Parliament and not by a subsequent Presidential notification.

Statement 2 is incorrect: The 105th Constitutional Amendment act empowers of State Governments (**not the President of India**) to identify and specify Socially and Economically Backward Classes (SEBCs). As per the Act, every State or Union territory may **prepare and maintain** a list of socially and educationally backward classes, for its own purposes. The entries in these state lists may be different from the **Central List. The President of India is empowered to identify and specify the Socially and Economically Backward Classes for the Central List only as per the 102nd Constitutional Amendment Act.**

Statement 3 is incorrect. The Constitution of India **does not define** the Scheduled Castes, Scheduled Tribes and Other Backward Castes.

Q.20) Consider the following statements regarding Coastal Vulnerability Index:

1. The index has been recently developed and released by Indian Meteorological Department under Ministry of Earth Science.
2. The parameters used in determining the coastal risks includes tidal range and historical rate of relative sea-level change.

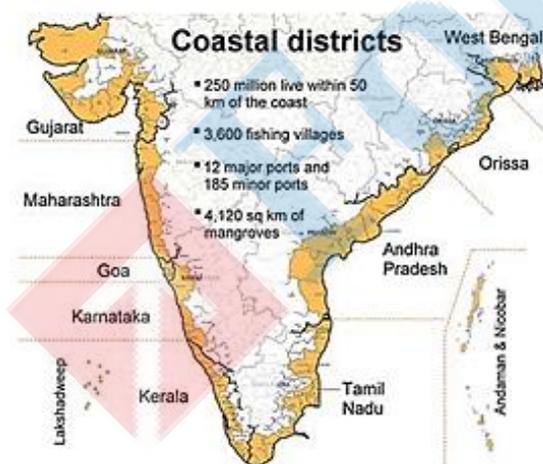

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) b

Exp) Option b is the correct answer.

Statement 1 is incorrect: Indian National Centre for Ocean Information Services (INCOIS) (not Indian Meteorological Department) has prepared the Coastal Vulnerability Index (CVI). INCOIS has carried out a **coastal vulnerability assessment for the entire Indian coast at States level.** It has brought out an Atlas comprising 156 maps to prepare a Coastal Vulnerability Index.

Statement 2 is correct: The atlas determines the **coastal risks** due to future sea-level rise based on the physical and geological parameters for the Indian coast. The parameters used are: **a) Tidal range b) Wave height c) Coastal slope d) Coastal elevation e) Shoreline change rate f) Geomorphology and g) Historical rate of relative sea-level change.**

Source: INCOIS carries out coastal vulnerability assessment-ForumIAS Blog
 ESSO-INCOIS-Indian National Centre for Ocean Information Services

Q.21) Under the Scheduled Tribes and Other Traditional Forest Dwellers (Recognition of Forest Rights) Act, 2006, who shall be the authority to initiate the process for determining the nature and extent of individual or community forest rights or both?

- a) State Forest Department
- b) District Collector/Deputy Commissioner
- c) Tahsildar/Block Development Officer/Mandal Revenue Officer
- d) Gram Sabha

Ans) d

Exp) Option d is the correct answer.

Under the provisions of the Act, the **Gram Sabha shall be the authority to initiate the process for determining the nature and extent of individual or community forest rights or both** that may be given to the forest dwelling Scheduled Tribes and other traditional forest dwellers and the Gram Sabha shall, then, pass a resolution to that effect and thereafter forward a copy of the same to the Sub-Divisional Level Committee.

Source: CSE Prelims 2013

<https://tribal.nic.in/downloads/FRA/FRAActnRulesBook.pdf>

Q.22) Part XVI of the Constitution of India provides special provisions for certain classes. In this context, which of the following provisions are included under this part?

1. Reservation for women in Legislatures
2. Reservation for SC/STs in Private Jobs
3. Educational Grants for Anglo-Indian community
4. Formation of National Commission for Backward Classes

Select the correct answer using the code given below.

- a) 1, 3 and 4 only
- b) 1 and 3 only
- c) 3 and 4 only
- d) 1, 2, 3 and 4

Ans) c

Exp) Option c is the correct answer.

In order to realise the objectives of equality and justice as laid down in the Preamble, the Constitution makes special provisions for the scheduled castes (SCs), the scheduled tribes (STs), the backward classes (BCs) and the Anglo-Indians. These special provisions are contained in Part XVI of the Constitution from Articles 330 to 342A are related to the following:

- 1) Reservation in Legislatures
- 2) Special Representation in Legislatures
- 3) Reservation in Services and Posts
- 4) **Educational Grants (Hence option 3 is correct)**
- 5) **Appointment of National Commissions (Hence option 4 is correct)**
- 6) Appointment of Commissions of Investigation

Option 1 is incorrect. Under part XVI seats are reserved in the House of the People for – (a) the Scheduled Castes; [(b) the Scheduled Tribes except the Scheduled Tribes in the autonomous districts of Assam; and] (c) the Scheduled Tribes in the autonomous districts of Assam. There is **no provision of reservation for women in legislatures.**

Option 2 is incorrect. Part XVI does not contain provisions for reservation of certain classes in Private jobs. Hence this option is incorrect.

Option 3 is correct. Under part XVI, article 337 provides for special provision with respect to **educational grants for the benefit of Anglo-Indian community. Hence this statement is correct.**

Option 4 is correct. Under part XVI, article 338B provides for a Commission for the socially and educationally backward classes to be known as the **National Commission for Backward Classes.**

Q.23) With reference to the Home Minister's Advisory Committees of the Union Territories, consider the following statements:

1. These are constituted only for those Union Territories that do not have legislature.
2. They consist of nominated members from civil society.
3. They are consulted for the matters related to internal security.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

Under the Government of India (Allocation of Business) Rules 1961, Ministry of Home Affairs is the nodal ministry for all matters of Union Territories relating to legislation, finance and budget, services and appointment of Lt. Governors and Administrators.

Statement 1 is correct: The 5 UTs **without legislature** (Andaman & Nicobar Islands, Chandigarh, Daman & Diu and Dadra & Nagar Haveli, Lakshadweep and Ladakh) have the forum of Home Minister's Advisory Committee (HMAC)/Administrator's Advisory Committee (AAC).

Statement 2 is correct: While Home Minister's Advisory Committee is chaired by the Union Home Minister, Administrator's Advisory Committee is chaired by the Administrator of the concerned UTs. The **Advisory Committees have the following members:**

- 1) **Administrator of the UT**
- 2) **Member of Parliament representing the UT**
- 3) **Representatives of the District Panchayats and Municipal Council of the respective UTs**
- 4) **Nominated members from the civil society.**

Statement 3 is correct: The Advisory Committee shall be consulted in the matters related to:

- 1) General issues relating to social and economic development of the UTs.
- 2) All legislative proposals concerning UT in regard to the matters in the State List.
- 3) **Internal security related matters.**
- 4) Such matters related to Annual Financial Statement of the Union in so far as it concerns the UT.

Source: Indian Polity by Laxmikant – 6th Edition – Chapter 40 – Union Territories.

https://www.mha.gov.in/sites/default/files/Lakshadweep_16022018.PDF

Q.24) Which of the followings may be the correct reasons for creation of Union Territories in Independent India?

1. Special treatment and care of the tribal people
2. Political and administrative consideration
3. Cultural distinctiveness
4. Resolution of Inter-state water sharing dispute

Select the correct answer using the codes given below:

- a) 1 and 2 only
- b) 2, 3 and 4 only
- c) 1, 2 and 3 only
- d) 3 and 4 only

Ans) c

Exp) Option c is the correct answer.

The concept of Union Territory was first introduced in the **States Reorganization Act, 1956**. It refers to those territories that are too small to be independent or are too different (economically, culturally and geographically) to be merged with the surrounding states or are financially weak or are politically unstable. The union territories have been created for a variety of reasons. These are

Political and administrative consideration, cultural distinctiveness, Strategic importance, Special treatment and care of the backward and tribal people.

Statement 1 is correct: Special treatment and care of the tribal people- During the British Rule, certain areas due to their tribal nature were constituted as 'scheduled districts' in 1874. In 1956, they were constituted as the 'union territories' by the 7th Constitutional Amendment Act (1956). This includes Manipur, Tripura, Mizoram and Arunachal Pradesh (later elevated to statehood).

Statement 2 is correct: Political and administrative consideration- Union Territories like Delhi is the administrative capital of India while Chandigarh is the administrative capital of both Haryana and Punjab. These Union Territories are formed due to political and administrative consideration.

Statement 3 is correct: Cultural Distinctiveness- Many of the Union Territories have a different culture than their surrounding States as they were earlier under the rule of Portuguese (Daman and Diu) and French (Puducherry). Hence, these UTs cannot be merged with the surrounding states.

Statement 4 is incorrect: Inter-state water dispute arise when there is a dispute between two or more states on the use, distribution and control of rivers flowing in two or more states. **It is not the correct reason for creation of Union Territories in Independent India.**

Source: Ch. 40 Laxmikanth

Q.25) Consider the following pairs:

Places seen in news	Countries
1. Port of Duqm	Morocco
2. Razzaza Lake	Iraq
3. Abyei region	Ukraine
4. Snake Island	Mediterranean Sea

Which of the pairs given above is/are correct?

- a) 1, 3 and 4 only
- b) 2 only
- c) 2 and 4 only
- d) 2 and 3 only

Ans) b

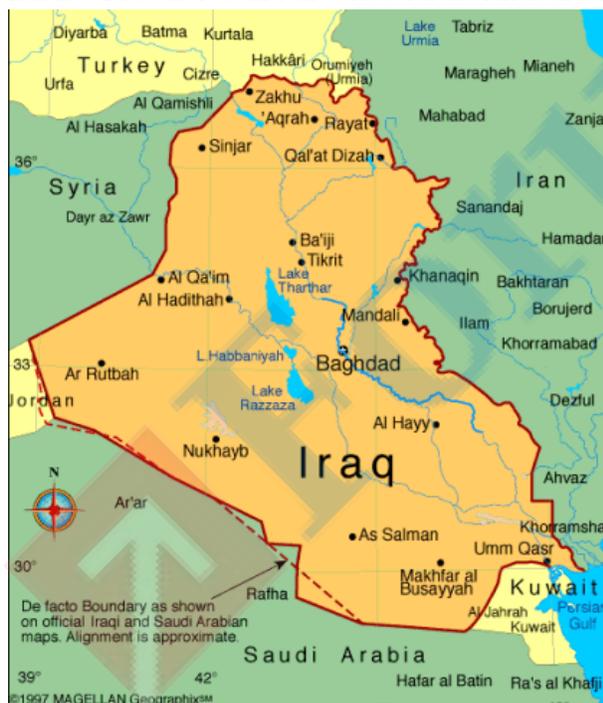

Exp) Option b is the correct answer.

Pair 1 is incorrectly matched: Duqm Port & Drydock is a seaport located in **Oman**. It is situated on the south-eastern seaboard of Oman, overlooking the Arabian Sea and the Indian Ocean. It is strategically located, near the Chabahar port in Iran. With the Assumption Island being developed in Seychelles and

Agalega in Mauritius, Duqm fits into India's proactive maritime security roadmap. Oman is India's closest defence partner in the Gulf region. It provides critical operational support to Indian naval deployments in the Arabian Sea for anti-piracy missions. To counter Chinese maritime influence, India has secured access to the key Port of Duqm in Oman for military use, reconnaissance aircraft, and logistical support. Recently, India had deployed an attack submarine to Duqm port in the western Arabian Sea.

Pair 2 is correctly matched: Razzaza Lake is the **second-largest lake in Iraq** and is part of a wide valley that includes the lakes of Habbaniyah, Tharthar and Bahr al-Najaf. Iraq's Razzaza Lake was once a tourist attraction known for its beautiful scenery and an abundance of fish that locals depended on. Now, dead fish litter its shores and the once-fertile lands around it have turned into a barren desert.

Pair 3 is incorrectly matched: The Abyei Area is an area of 10,546 km² on the **border between South Sudan and the Sudan** that has been accorded "special administrative status" by the 2004 Protocol on the Resolution of the Abyei Conflict (Abyei Protocol) in the Comprehensive Peace Agreement (CPA) that ended the Second Sudanese Civil War.

The Indian infantry group with around 570 soldiers will be deployed under the **UN Interim Security Force for Abyei (UNISFA)** in the Abyei region in Africa, which is between northern and southern Sudan and is claimed by both.

Pair 4 is incorrectly matched: Snake Island, or Zmiinyi Island, also known as Serpent Island is an **island belonging to Ukraine and is located in the Black Sea (not the Mediterranean Sea)**, near the Danube Delta. It plays an important role in delimiting the territorial waters of Ukraine. During Russia-Ukraine war this Island is a region of major face-off between these two powers.

Q.26) Consider the following statements with reference to the objectives of Indian foreign policy:

1. It aims to strengthen India's international campaign against terrorism.
2. It aims for India to establish herself as a 'Big Brother' in south Asian region.
3. It aims to reform and restructure the UN Security Council to maintain a multi-polar world order.
4. It aims at establishing India as a strongest 'Nuclear Power' at international level.

Which of the statements given above are correct?

- a) 1, 2 and 4 only
- b) 1, 3 and 4 only
- c) 1 and 3 only
- d) 1, 2 and 3 only

Ans) c

Exp) Option c is the correct answer.

The foreign policy of India regulates India's relations with other states of the world in promoting its national interests. It is determined by a number of factors, viz., geography, history and tradition, social structure, political organization, international milieu, economic position, military strength, public opinion and leadership.

From its very inception, India's foreign policy has been aimed at achieving certain objectives. India's foreign policy is directed towards the realization of the following objectives:

- 1) It aims to protect India's core national interests and concerns in a rapidly changing international environment by fostering support and understanding in the international community.
- 2) To preserve the autonomy of the decision-making process and to play a pioneering role in the establishment of a stable, prosperous and secure global order.
- 3) **To strengthen India's international campaign against terrorism.** Over the years, terrorism has emerged as the most formidable challenge not only to the safety and well-being of the common people but also to the greater cause of international peace and security. **(Hence statement 1 is correct.)**
- 4) To build an international environment which is supportive of India's rapid economic growth including higher investments, trade, access to technology and strengthening India's energy security.
- 5) To work closely with P-5 countries and to build strategic ties with the major powers such as the USA, the EU, Japan, Russia, and China.
- 6) It aims to ensure that cross-border terrorism is brought to an end and the entire infrastructure of terrorism operating from Pakistan is dismantled.
- 7) To further the gains from India's 'Act East' Policy (erstwhile 'Look East' Policy) and aspire for substantive progress in several areas of common interest to India and ASEAN.
- 8) It aims to continue to work closely with regional groupings like the EU and G-20 for furthering India's interests in the international arena.
- 9) **To reform and restructure the UN Security Council and maintain multi-polarity in a world order that respects the principles of sovereignty and non-intervention.** **(Hence Statement 3 is correct.)**

Statement 2 is incorrect: According to India foreign policy, it does not aim to establish it as a big brother in south Asia region. The objective of India's foreign policy is to intensify and strengthen ties with neighbours through mutually beneficial cooperation and by acknowledgement of each other's legitimate concerns.

Statement 4 is incorrect: it is not objective of India's foreign policy. India does not aim to establish it as a strongest nuclear power at international level. India has adopted its nuclear doctrine in 2003 which aims at **Building and maintaining a credible minimum deterrent.** India follows "No First Use" policy which says that nuclear weapons will only be used in retaliation against a nuclear attack on Indian territory or on Indian forces anywhere.

Q.27) Consider the following statements with reference to the Territories Acquired by the Government of India:

1. A Constitutional Amendment Bill needs to be introduced in the Parliament to enable India to acquire any territories.
2. The constitutional provisions for the administration of union territories de facto applies to the acquired territories.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) b

Exp) Option b is the correct answer.

Under Article 1 of the Constitution, the territory of India comprises three categories of territories: (a) territories of the states; (b) union territories; and (c) **territories that may be acquired by the Government of India at any time**. At present, there are no acquired territories.

Statement 1 is incorrect: Being a sovereign state, India can acquire foreign territories according to the modes recognised by international law, i.e., cession (following treaty, purchase, gift, lease or plebiscite), occupation (hitherto unoccupied by a recognised ruler), conquest or subjugation. **There is no constitutional amendment bill is required to be introduced in Parliament for such acquisition.** So, when India acquires a foreign territory, it automatically becomes Indian territory because of the implicit nature of sovereignty. But to make it a legal entity, such as state or union territory or the part thereof, an act by parliament would be required. The acquired territories are directly administered by the Central government.

Statement 2 is correct: Since there are no separate provisions in the Constitution relating to the administration of Acquired Territories, the **constitutional provisions for the administration of union territories also apply to the acquired territories.** Thus, the acquired territory of Pondicherry, Karaikal, Yanam and Mahe, was being administered by the President of India through a Chief Commissioner until it was made a Union Territory, in 1962. Parliament has plenary power of legislation regarding such territory as in the case of Union Territories.

Source: ch. 40 laxmikanth

<https://www.shahucollegelatur.org.in/Documents/UnionanditsTerritory.pdf>

Q.28) With reference to 'States and Union Territories', consider the following statements:

1. Unlike in Union Territories, States in India share a distribution of power with the Centre.
2. President of India is the constitutional and executive head of both States and Union Territories.
3. There is no Union territory larger in size than any state of India.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 only
- d) 1 and 3 only

Ans) c

Exp) Option c is the correct answer.

Under Article 1 of the Constitution, the territory of India comprises three categories of territories: (a) territories of the states; (b) union territories; and (c) territories that may be acquired by the Government of India at any time.

Statement 1 is correct: States relationship with Centre is federal. They share a distribution of power with the Centre. **Union Territories relationship with Centre is unitary.** They are under the direct control and administration of the Centre. They do not have any autonomy.

Statement 2 is incorrect: The **executive head of states is known as Governor.** The executive head of Union Territory is known by various designations—administrator or lieutenant governor or chief commissioner. A governor is a constitutional head of the state. An administrator is an agent of the president.

Statement 3 is incorrect: Ladakh is the largest Union Territory which is larger in size than many Indian states like Himachal Pradesh, Uttarakhand, Punjab, Haryana and Kerala etc. So, the statement is incorrect.

Source: ch. 40 laxmikanth

Q.29) With reference to ‘Co-operative Societies in India’, consider the following statements:

1. It is the duty of the State to promote co-operative societies under Article 43-B of Indian Constitution.
2. As per the Constitution, the subject of Cooperative Societies falls under the Concurrent list.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) a

Exp) Option a is the correct answer.

A Cooperative Society is a voluntary organization of individuals who are mostly workers and small producers. They are organized under joint management on democratic methods to improve their domestic and business conditions and capital collection.

Statement 1 is correct: The 97th Constitutional Amendment Act of 2011 gave a constitutional status and protection to co-operative societies. In this context, it made the following three changes in the constitution:

- 1) It made the right to form co-operative societies a fundamental right (Article 19(1)(c)).
- 2) **It included a new Directive Principle of State Policy on promotion of cooperative societies (Article 43-B).**
- 3) It added a new Part IX-B in the Constitution which is entitled “The Cooperative Societies” (Articles 243-ZH to 243-ZT).

Statement 2 is incorrect: “Cooperative Societies” is a Subject of State List (not the Concurrent List) in the 7th Schedule via entry 32 of the State List in the Constitution of India.

Source: Ch. 64 Laxmikanth

Q.30) With reference to ‘One Ocean Summit’, consider the following statements:

1. The summit was recently organised by India in cooperation with World Ocean Council.
2. It aims to mobilise the international community to take tangible action towards preserving sustainable ocean ecosystems.
3. In this summit, India proposed an initiative for a "High Ambition Coalition on Bio-diversity Beyond National Jurisdiction".

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

The Prime Minister has recently addressed the high-level segment of the One Ocean Summit.

Statement 1 is incorrect: The **One Ocean summit** was organised by **France (not in India)** in cooperation with the **United Nations and the World Bank (and not World Ocean Council)**. The United Nations has declared the decade between 2021 and 2030 as the ‘Decade of Ocean Science for Sustainable Development’ to raise awareness and restore declining marine life.

Statement 2 is correct: The objective of the **One Ocean summit** is to mobilise the international community to take **tangible action** towards **preserving and supporting healthy and sustainable ocean ecosystems**.

Statement 3 is incorrect: Launched at the **One Ocean Summit** in February 2022, the ‘**High Ambition Coalition on Biodiversity Beyond National Jurisdiction**’ is a **French (not Indian) initiative** which brings together many delegations engaged in the **BBNJ negotiations** on a common and ambitious outcome at the highest political level. **In this summit India supported (and not proposed) this French initiative.** The “BBNJ Treaty”, **also known as the “Treaty of the High Seas”**, is an international agreement on the conservation and sustainable use of marine biological diversity of areas beyond national jurisdiction, **currently under negotiation at the United Nations.** This new instrument is **being developed within the framework of the UNCLOS**, the main international agreement governing human activities at sea. It will achieve **a more holistic management of high seas activities**, which should better balance the conservation and sustainable use of marine resources. BBNJ **encompasses the high seas, beyond the exclusive economic zones or national waters of countries.**

Q.31) The Government enacted, the Panchayat Extension to Scheduled Areas (PESA) Act in 1996. Which one of the following is **not** identified as its objective?

- To provided self-governance
- To recognize traditional rights
- To create autonomous regions in tribal areas
- To free tribal people from exploitation

Ans) c

Exp) Option c is the correct answer.

The PESA Act was enacted to extend the provisions of 73rd and 74th Amendment Acts to the Fifth Schedule areas. Thus, it was meant to provide institutions of local self-governance in the Scheduled Areas and to recognise the traditional rights of the tribals. The provisions of this Act address some of the most complex problems of exploitation and marginalisation of the tribals.

The act did not have any provisions of creating any autonomous regions.

Source: PYQ 2013

https://www.mha.gov.in/sites/default/files/PESAAct1996_0.pdf

Q.32) With reference to the provisions related to regional languages, consider the following statements:

- The Governor, with President’s consent, can adopt any language as state’s official language even if it is outside the Eighth Schedule of the Indian Constitution.
- The state legislature can adopt any number of languages for official purpose of the state.

Which of the statements given above is/are correct?

- 1 only
- 2 only
- Both 1 and 2
- Neither 1 nor 2

Ans) c

Exp) Option c is the correct answer.

Article 345 of the Indian Constitution deals with the official language or languages of a States.

Statement 1 is correct. As per the provisions of Official Language Act 1963, the states **can adopt the languages mentioned in Eight Schedule** of the Indian Constitution. However, the choice of the state is **not limited to the languages enumerated in the Eighth Schedule** of the Constitution. **They can even opt their regional languages as the official language of the state by the Governor of a State** with the previous consent of the President. For example-Andhra Pradesh has adopted Telugu, Kerala has adopted Malayalam etc.

Statement 2 is correct. The provisions mentioned in **Articles 346 and 347 of the Indian Constitution** state that the legislature of a State may by law adopt **any one or more of the languages** in use in the State or Hindi as the Language or Languages to be used **for all or any of the official purposes** of that State. But the English language shall continue to be used for those official purposes within the State for which it was being used immediately before the commencement of this Constitution.

Source: <https://rajbhasha.gov.in/en/constitutional-provisions>

LAXMIKANT (CH-OFFICIAL LANGUAGE)

Q.33) With reference to the ‘Board of Multi-State Co-operative Societies’, consider the following statements:

1. A Minister in the Centre or State Government can be elected as the Chairperson of the Board.
2. The conduct of elections to such a Board is the responsibility of Election Commission of India.
3. A person is not eligible to hold the office of chairperson of more than two such Boards at the same time.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 1 and 3 only
- c) 2 and 3 only
- d) 3 only

Ans) d

Exp) Option d is the correct answer.

Statement 1 is incorrect: No member of a board shall be eligible to be elected as the chairperson or president or vice-chairperson or vice-president of a multi-state cooperative society **if such member is a Minister in the Central Government or a State Government.**

Statement 2 is incorrect: As per the provisions of MSCS ACT 2002, the conduct of elections to the board of a multi-state cooperative society shall be the responsibility of the existing board (**not the Election Commission of India**).

The recent amendment bill to MSCS ACT 2002 suggests a Cooperative Election Authority to ensure that elections are held in a fair, free and timely manner. This, in turn, will help reduce incidents of complaints and malpractices. There is a provision to debar offenders for three years to bring in more electoral discipline.

Statement 3 is correct: No person shall be eligible to hold, at the same time, office of a president or chairperson or vice-president or vice-chairperson on **the board of more than two multistate cooperative societies.**

Source: <https://mscs.dac.gov.in/Guidelines/GuidelineAct2002.pdf>

https://www.business-standard.com/article/economy-policy/cabinet-clears-amendments-to-multi-state-cooperative-societies-act-122101201091_1.html

Q.34) Consider the following statements with reference to different Union territories of India:

1. Before independence, Dadra and Nagar Haveli was ruled by French.
2. A regulation made by the President can repeal or amend any act of Parliament in relation to the union territory of Lakshadweep.
3. The President can make regulations for the peace, progress and good government of the Andaman and Nicobar Islands, Delhi and Daman and Diu.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 only
- c) 3 only
- d) 1 and 3 only

Ans) b

Exp) Option b is the correct answer.

Statement 1 is incorrect. The **Portuguese (and not The French)** ruled this territory until its liberation in 1954. Subsequently, the administration was carried on till 1961 by an administrator chosen by the people themselves. Dadra and Nagar Haveli were small undefended Portuguese overseas territories, part of Portuguese India since 1779. The territories were enclaves, without any access to the sea, administered by the Portuguese Governor of the district of Damão.

Statement 2 is correct and 3 is incorrect. A regulation made by the President has the same force and effect as an act of Parliament and **can also repeal or amend any act of Parliament** in relation to these union territories.

The **President** can make **regulations** for the **peace, progress and good government** of the Andaman and Nicobar Islands, Lakshadweep, Dadra and Nagar Haveli, and Daman and Diu but **not Delhi**. In the case of Puducherry also, the President can legislate by making regulations but only when the assembly is suspended or dissolved. A regulation made by the President has the same force and effect as an act of Parliament and **can also repeal or amend any act of Parliament** in relation to these union territories.

Knowledge Base: The legislative power of Parliament for the union territories on subjects of the State List remain unaffected even after establishing a local legislature for them.

Source: Indian polity, M Laxmikanth

Q.35) Which of the following is correct regarding the recent ‘Pledge’ made by P5 members ahead of a review of the Non-Proliferation Treaty (NPT), 1970?

- a) It advocated for an early resolution for time bound Universal Nuclear Disarmament.
- b) It emphasised on adopting multilateral diplomatic approaches to avoid military confrontations.
- c) It aims to create a new international organisation for the control and regulation of atomic technologies.
- d) It urged all the UN members to sign and ratify Non-Proliferation Treaty.

Ans) b

Exp) Option b is the correct answer.

Five permanent United Nations Security Council (also known as the Permanent Five, Big Five, or P5) members have **pledged** to avoid the ongoing arms race and to prevent the proliferation of nuclear weapons. This pledge was made **ahead of a review of the Non-Proliferation Treaty (NPT), 1970**.

Option a is incorrect: The five permanent UNSC members made the pledge that the spread of atomic weapons must be prevented. This is because a nuclear war cannot be won and must never be fought. However, there is **no agreement with respect to time bound universal nuclear disarmament among P5 countries**.

Option b is correct: The pledges made by P5 members on nuclear proliferation are-

- 1) The further **spread of such weapons must be prevented**. A nuclear war cannot be won and must never be fought.
- 2) Adopting **bilateral and multilateral diplomatic approaches to avoid military confrontations** and to increase mutual understanding and confidence.
- 3) Engaging in **constructive dialogue** with mutual respect and acknowledgement of each other's security interests and concerns.

Option c is incorrect: The P5 countries have expressed their intention to maintain and further strengthen their national measures to prevent unauthorised or unintended use of nuclear weapons. There is **no pledge of any new organisation** to control and regulation of atomic technologies. Currently, **International Atomic Energy Agency** serves as an intergovernmental forum for scientific and technical co-operation in the peaceful use of nuclear technology and nuclear power worldwide.

Option d is incorrect: P5 countries have **pledged to abide by a key article in the Non-Proliferation Treaty (NPT)** under which countries have committed to full future disarmament from nuclear weapons. The pledge does not include calling the members of UN to join **Non-Proliferation Treaty (NPT)**.

Source: Why UNSC joint statement on nuclear weapons is important-ForumIAS Blog

<https://blog.forumias.com/non-proliferation-world-powers-vow-to-stop-spread-of-nuclear-weapons/>

Q.36) With reference to 'Special Provisions for Delhi', consider the following statements:

1. The strength of the council of ministers is fixed at ten per cent of the total strength of the Legislative Assembly.
2. The Lieutenant Governor is empowered to promulgate ordinances during recess of the assembly.
3. In the case of difference of opinion between the Lt. Governor and his council of ministers, the decision of the council of ministers prevails.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 3 only

Ans) a

Exp) Option a is the correct answer.

The **69th Constitutional Amendment Act of 1991** provided a special status to the Union Territory of Delhi, and redesignated it the **National Capital Territory of Delhi** and designated the administrator of Delhi as the lieutenant (lt.) governor. It created a legislative assembly and a council of ministers for Delhi. Previously, Delhi had a metropolitan council and an executive council.

Statement 1 is correct: The strength of the assembly is fixed at 70 members, directly elected by the people. The **strength of the council of ministers is fixed at ten per cent** of the total strength of the assembly, that is, seven—one chief minister and six other ministers.

Statement 2 is correct: The **lt. governor is empowered to promulgate ordinances during recess of the assembly**. An ordinance has the same force as an act of the assembly. **Every such ordinance must be approved by the assembly within six weeks from its reassembly**. He/she can also withdraw an ordinance at any time. But he cannot promulgate an ordinance when the assembly is dissolved or suspended.

Statement 3 is incorrect: The Council of Ministers headed by the Chief Minister aids and advises the Lt. Governor in the exercise of his functions except in so far as he is required to act in his discretion. In the case of **difference of opinion between the Lt. Governor and his ministers, the Lt. Governor is to refer the matter to the President for decision and acts accordingly**.

Source: Ch. 40 Laxmikanth

Q.37) The Indian Constitution prescribes mandatory reservation for Scheduled Caste and Scheduled Tribes in which of the following bodies?

1. Lok Sabha
2. Rajya Sabha
3. Legislative assembly of a state
4. All three levels of panchayat bodies
5. Chairpersons of Urban Local Bodies

Select the correct answer using the codes given below:

- a) 1, 2 and 3 only
- b) 1, 3 and 4 only
- c) 1, 3 and 5 only
- d) 1, 2, 3, 4 and 5

Ans) b

Exp) Option b is the correct answer.

Option 1 and 3 is correct: Article 330 and 332 of the Indian constitutions provides for the Reservation of seats for scheduled castes and scheduled tribes in the House of the people (Lok Sabha) and legislative assemblies of the states respectively. The Constitution provided for the reservation of seats for scheduled castes and scheduled tribes in the house of people and assembly of each state on the basis of population ratios. Parliament in 2019 passed a Constitutional amendment bill to extend quota to SCs and STs in Lok Sabha and state assemblies by another 10 years. Reservation for members of Scheduled Castes (SCs) and Scheduled Tribes (STs), given for the past 70 years in Lok Sabha and state assemblies was due to end on January 25, 2020.

Option 2 is incorrect: The Indian constitution does not prescribe the reservation of seats for scheduled castes and scheduled tribes in Rajya Sabha.

Option 4 is correct: 73rd constitutional amendment act of 1992 has provided for the reservation of seats for scheduled castes and scheduled tribes in every panchayat (I.e., at all the three levels) in proportion of their population to the total population in the panchayat area. The state legislature shall provide for the reservation of offices of chairperson in the panchayat at the village or any other level for the SCs and STs.

Option 5 is incorrect: The 74th constitutional amendment act provides for the reservation of seats for the scheduled castes and the scheduled tribes in every municipality in proportion of their population to the total population in the municipal area. The offices of Chairpersons in the Municipalities shall be reserved for the Scheduled Castes, the Scheduled Tribes and women in **such manner as the Legislature of a State may, by law, provide**. Hence reservation for chairpersons of urban local bodies is based on the discretion of State Legislatures and not mandatory as per the constitution.

Indian polity by M Laxmikanth pdf. Chapter names- parliament, state legislative assembly and panchyati raj.

<https://indiankanoon.org/doc/119845688/>

Q.38) Consider the following statements with reference to the ‘Control of the Union over the Administration of Scheduled Areas and the Welfare of Scheduled Tribes’:

1. According to the Constitution, the Parliament must appoint a Commission to report on the administration of the Scheduled Areas.
2. Union has executive power to give directions to a State for the welfare of the Scheduled Tribes in the State.

3. First commission regarding the administration of Scheduled Areas and the Welfare of STs was appointed under DB Kalelkar.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 only
- c) 2 and 3 only
- d) 1 and 3 only

Ans) b

Exp) Option b is the correct answer.

Article 339 of Indian constitution extends the Control of the Union over the administration of Scheduled Areas and the welfare of Scheduled Tribes.

Statement 1 is incorrect: The President (not the Parliament) may at any time appoint a Commission to report on the administration of the Scheduled Areas and the welfare of the Scheduled Tribes in the States. He can appoint such a commission at any time but compulsorily after ten years of the commencement of the Constitution. The order may define the composition, powers and procedure of the Commission and may contain such incidental or ancillary provisions as the President may consider necessary or desirable.

Statement 2 is correct: The executive power of the Union shall extend to the giving of directions to a State as to the drawing up and execution of schemes specified in the direction to be essential for the welfare of the Scheduled Tribes in the State.

Statement 3 is incorrect: Two commissions were appointed by the President regarding the administration of Scheduled Areas and the welfare of Scheduled Tribes. **First commission was appointed in 1960. It was headed by U.N. Dhebar (not DB Kalelkar) and submitted its report in 1961.** The second commission was appointed in 2002 under the chairmanship of Dilip Singh Bhuria. It submitted its report in 2004.

Indian polity by M Laxmikanth pdf. Chapter name- Special Provisions Relating to Certain Classes. Page no-1143.

Q.39) Which of the following groups of languages are included under schedule 8 of the constitution?

- a) Nepali, Kashmiri, Sanskrit and Rajasthani
- b) Nepali, Urdu, Konkani, and Rajasthani
- c) Konkani, English, Santhali and Punjabi
- d) Nepali, Maithili, Sanskrit and Punjabi

Ans) d

Exp) Option d is the correct answer.

Option a, b and c are incorrect. English is the language which is the official language of a state but is still **not recognized in the 8th schedule** of the constitution of India. Similarly, **Rajasthani language is still not included in the 8th** scheduled of the constitution and Rajasthan government is trying to include it into 8th schedule.

Option d is correct. The Eighth Schedule of the Constitution specifies 22 languages (originally 14 languages). These are Assamese, Bengali, Bodo, Dogri (Dongri), **Gujarati**, Hindi, Kannada, Kashmiri, Konkani, Mathili (Maithili), Malayalam, Manipuri, **Marathi, Nepali**, Odia, **Punjabi, Sanskrit**, Santhali, Sindhi, Tamil, Telugu and Urdu. Sindhi was added by the 21st Amendment Act of 1967; Konkani, Manipuri and Nepali were added by the 71st Amendment Act of 1992; and Bodo, Dongri, Maithili and Santhali were added by the 92nd Amendment Act of 2003.

<https://www.hindustantimes.com/lok-sabha-elections/tried-to-get-rajasthani-included-in-eighth-schedule-of-constitution-bikaner-mp/story-LHzvylzNwG1wrX33rlA2TO.html>

Q.40) Consider the following statements regarding ‘Artificial Neural Network (ANN)’:

1. It is a computational model that mimics the way nerve cells work in the human brain.
2. It is a machine learning algorithm that process numbers or organize data in a standard pattern similar to supercomputers.
3. The time taken to train the networks to perform complex tasks is the major limitation of ANN technology.
4. These networks have their own decision-making process like human brain.

Which of the statements given above are correct?

- a) 1 and 3 only
- b) 1 and 4 only
- c) 2 and 4 only
- d) 1, 2, 3 and 4

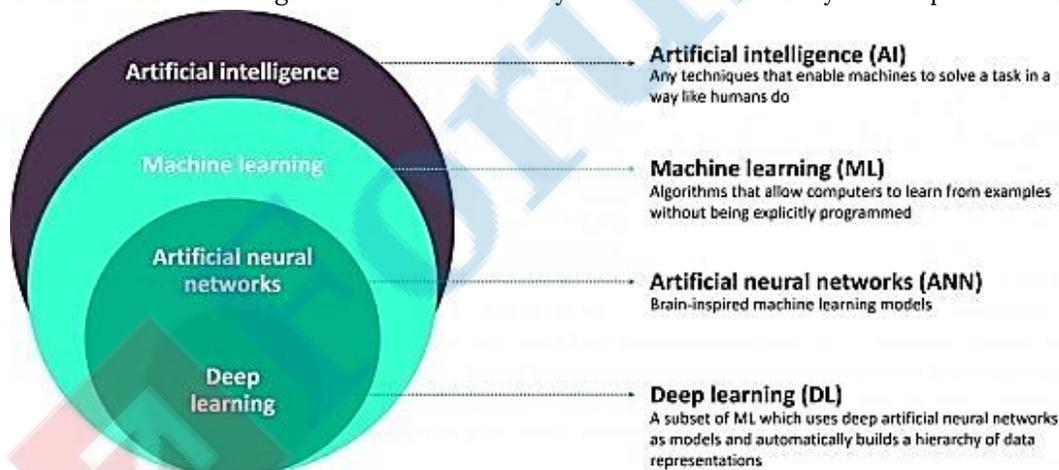

Ans) a

Exp) Option a is the correct answer.

Recently, the global Artificial Neural Network (ANN) Market report was published. As per the current report, ANN Market is to set phenomenal growth from 2021 to 2028.

Statement 1 is correct: Artificial Neural Networks (ANN) also known as Neural Networks are a vital **subset of machine learning** and are at the heart of deep learning algorithms.

Their name and structure are inspired by the **human brain, mimicking the way that biological neurons signal to one another**. It is basically a **computational model that mimics the way nerve cells work in the human brain**. It is designed to simulate the way the human brain analyses and processes information.

Statement 2 is incorrect: Artificial Neural Networks (ANN) are not like other machine learning algorithms that process numbers or organize data, it is an algorithm that learns from **experience and repeated tasks performed by users**.

Statement 3 is correct: The most significant of **limitations** of Artificial Neural Network (ANN)

is the **time it takes to train networks**, which frequently demand an acceptable level of computational power for even complex tasks. Other limitation include neural networks are computer systems in which the user categorizes the trained data and gets responses. They have the ability to fine-tune the responses, but they **do not have access to the specific decision-making process**.

Statement 4 is incorrect: The other limitation of ANN to consider is that **neural networks are computer systems in which the user categorises the trained data and gets responses**. They have the ability to fine-tune the responses, but unlike the human brain, **they do not have access to the specific decision-making process**.

Artificial Neural Network - an overview | ScienceDirect Topics

What is an Artificial Neural Network (ANN)? - Definition from Techopedia

Q.41) In the areas covered under the Panchayat (Extension to the Scheduled Areas) Act, 1996, what is the role/power of Gram Sabha?

1. Gram Sabha has the power to prevent alienation of land in the Scheduled Areas.
2. Gram Sabha has the ownership of minor forest produce.
3. Recommendation of Gram Sabha is required for granting prospecting licence or mining lease for any mineral in the Scheduled Areas.

Which of the statements given above is/are correct?

- a) 1 only
- b) 1 and 2 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

Statement 1 and 2 are correct and Statement 3 is incorrect: According to the provisions of the PESA Act, 1996 the recommendations of the Gram Sabha or the Panchayats at the appropriate level shall be made mandatory prior to grant of prospecting licence or mining lease **for minor minerals (not any mineral) in the Scheduled Areas**.

Section 4(m)(iii) of PESA requires the State to enact laws for the purpose of empowering Gram Sabhas and Panchayats at the appropriate level **“to prevent alienation of land in the Scheduled Areas and to take appropriate action to restore any unlawfully alienated land of a Scheduled Tribe”**.

Section 4(m)(ii) of PESA **endows the Panchayats at the appropriate level and the Gram Sabha with the ownership of minor forest produce**.

Source: PYQ 2012

https://www.mha.gov.in/sites/default/files/PESAAct1996_0.pdf

Q.42) Which of the following are correct with reference to the manifestation of phenomenon of regionalism in India?

1. Inter-state boundary disputes.
2. Forming an organization which advocates a militant approach for separation from India.
3. Demand for separate statehood by people of certain areas.
4. Demand of Union Territories for full-fledged statehood.

Select the correct answer using the codes given below:

- a) 2 and 4 only
- b) 2, 3 and 4 only
- c) 1 and 3 only
- d) 1, 2, 3 and 4

Ans) d

Exp) Option d is the correct answer.

Regionalism refers to sub-nationalism and sub-territorial loyalty. It implies the love for a particular region or state in preference to the country as a whole. Sub regionalism is a love for a particular region in preference to the state of which the region forms a part.

Option 1 is correct: The forces of regionalism in India are visible in the inter-state disputes. The people of Punjab and Haryana are involved in a dispute over the issue of transfer of Chandigarh to Punjab and the transfer of certain areas of Abohar and Fazilka to Haryana. The boundary disputes between Maharashtra and Karnataka on Belgaum, between Karnataka and Kerala on Kasargod, between Assam and Nagaland on Rangma reserved forests in Rangapani area, between Assam and Meghalaya on Langpih, Hakumari and Jingiran river areas of Garo hills, and between Assam and Arunachal Pradesh on Pasighat area are manifestations of regionalism.

Option 2 is correct: It is a form of regionalism that **involves militant and fundamentalist groups advocating a separation from India** on the basis of ethnicity or any other factor. **For example, Isac Muivah's National Socialist Council of Nagaland (NSCN-IM), the Islamic fundamentalist groups in J&K, United Liberation Front of Asom (ULFA) in Assam** are examples of such an **extreme dimension of regionalism**.

Option 3 is correct: People of certain areas demand for separate statehood is a manifestation of regionalism. (Like Telangana, Bodoland, Uttarakhand, Vidarbha, Gorkhaland etc.). After 1956 reorganization of states of India, there continues to be demands for separate statehood in various parts of the country. The rise in the number of states of the Indian Union from 16 in 1956 to 28 in 2000 tends to prove the correctness of this statement.

Option 4 is correct: People of certain Union Territories demand for full-fledged statehood are a manifestation of regionalism (like Manipur, Tripura, Puducherry, Delhi, and Goa, Daman and Diu and so on). Most of such demands have already been accepted. In 1971, Himachal Pradesh got the status of a full state and thereafter Manipur, Tripura, Mizoram, Arunachal Pradesh (former NEFA), Sikkim got full statehoods.

Source: Indian polity by M Laxmikanth pdf. Chapter name- national integration. Page no- 1260.

<https://www.preservearticles.com/political-science/forms-of-regionalism-found-in-indian-political-system/30538>

Q.43) For which among the following States, there are the provisions for the administration of Tribal Areas under the Sixth Schedule of the Constitution?

- Arunachal Pradesh, Mizoram, Tripura, Manipur
- Assam, Meghalaya, Tripura, Mizoram
- Assam, Manipur, Tripura, Mizoram
- Arunachal Pradesh, Meghalaya, Tripura, Mizoram

Ans) b

Exp) Option b is the correct answer.

The Constitution, under Sixth Schedule, contains special provisions for the administration of tribal areas in the four northeastern states of Assam, Meghalaya, Tripura and Mizoram.

The Tribal Areas under Sixth Schedule include:

- Assam - **North Cachar Hills District**, Karbi Anglong District and Bodoland Territorial Areas District.
- Meghalaya - Khasi Hills District, Jaintia Hills District and Garo Hills District.
- Tripura - Tripura Tribal Areas District.
- Mizoram - **Chakma District**, Mara District and **Lai District**.

In Assam, the Statutory Autonomous Councils are constituted for Social, Economic, Educational, Ethnic and Cultural advancement of the Scheduled Tribe (ST) communities living in Core Areas as well as in Satellite Areas covering many districts of Assam. There are six Statutory **Autonomous Councils**:

- 1) Rabha Hasong Autonomous Council
- 2) **Mising Autonomous Council**
- 3) Tiwa Autonomous Council
- 4) Deori Autonomous Council
- 5) Thengal Kachari Autonomous Council
- 6) **Sonowal Kachari Autonomous Council.**

Knowledge Base:

The tribal people in other parts of India have more or less adopted the culture of the majority of the people in whose midst they live. The tribes in Assam, Meghalaya, Tripura and Mizoram, on the other hand, still have their roots in their own culture, customs and civilization. These areas are, therefore, treated differently by the Constitution and sizeable amount of autonomy has been given to these people for self-government.

Source: Indian Polity by Laxmikant – 6th Edition – Chapter 41 – Scheduled and Tribal Areas.
<https://assam.gov.in/government/410>

Q.44) With reference to the special provisions for some states in Constitution, consider the following statements:

1. The President gives special responsibility to the state legislatures to set up development boards for certain areas in Maharashtra and Gujarat.
2. The Legislative Assembly of the state of Goa must consist of not less than 30 members.
3. The Governor has the special responsibility with respect to law and order in the state of Manipur.
4. Parliament may provide a number of seats for people of different sections in the Nagaland legislative assembly, in order to protect their rights and interests.

Which of the statements given above is/are correct?

- a) 1 and 3 only
- b) 2 and 4 only
- c) 2 only
- d) 1, 3 and 4 only

Ans) c

Exp) Option c is the correct answer.

States that have special provisions under Article 371(A-J):

Statement 1 is incorrect: Article 371 – Maharashtra and Gujarat

Governors (**not state legislatures**) of the states of Maharashtra and Gujarat are given special responsibilities to set up development boards in regions such as Vidarbha, Marathwada, Kutchh etc.

Statement 2 is correct: Article 371I – Goa

The Legislative Assembly of the state of Goa must consist of not less than 30 members.

Statement 3 is incorrect: Article 371H – Arunachal Pradesh

The governor of Arunachal Pradesh will have special responsibility with respect to law and order in the state (not the Governor of Manipur).

Statement 4 is incorrect: Article 371F – Sikkim

Article 371F was incorporated into the Constitution in 1975. **It states that the Legislative Assembly shall consist of not less than 30 members. In order to protect the rights and interests of the different sections**

of the population in the state of Sikkim (not the state of Nagaland), seats in the assembly are provided to people of these different sections.

Q.45) The United Nations Educational, Scientific and Cultural Organization (UNESCO) has pledged to map around 80% of the world's ocean floors by 2030. Which of the following is/are the advantages of mapping ocean floors?

1. To better deal with oil spills
2. Understanding Seismic and Tsunami risks
3. Assessment of future effects of climate change
4. Potential for offshore infrastructure

Select the correct answer using the codes given below:

- a) 1 and 4 only
- b) 1, 2 and 3 only
- c) 2 and 3 only
- d) 1, 2, 3 and 4

Ans) d

Exp) Option d is the correct answer.

The United Nations Educational, Scientific and Cultural Organization (UNESCO) has pledged to map around 80% of the world's ocean floors by 2030. At present, only 20% of the seabed has been mapped and studied. The ocean floor will be mapped by Deploying a fleet of 50 dedicated mapping vessels, intensifying the use of sonar on autonomous vessels, the transmission of cartographic data archived by governments and corporations and using other tools. The ocean floor is being mapped and studied to identify the following: I) Location of ocean faults, II) Workings of ocean currents and III) tides and Transport of sediments.

Option d is correct: The ocean floor mapping will help us understand **seismic and tsunami risks**, sustainable fisheries resources, ways to **deal with oil spills**, air crashes and shipwrecks, **potential for offshore infrastructure** and in **assessing the future effects of climate change**, whether it be temperature increases or sea-level rise.

Source: Understanding oceans: Why UNESCO wants to map 80% of the world's seabed -ForumIAS Blog
<https://www.downtoearth.org.in/news/science-technology/understanding-oceans-why-unesco-wants-to-map-80-of-the-world-s-seabed-81525>

Q.46) Consider the following statements:

1. Union territory is administered by the President acting through an administrator appointed by him.
2. President can make laws on any subject of the Seventh Schedule including the State List for all the union territories.
3. The authority to put Union Territory under the jurisdiction of the High Court of adjacent state is vested in the Parliament of India.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 only
- c) 1 and 3 only
- d) 3 only

Ans) c

Exp) Option c is the correct answer.

The Union Territories are those areas which are under the direct control and administration of the Central government. Hence, they are also known as 'centrally administered territories. Articles 239 to 241 in Part VIII of the Constitution deal with the union territories.

Statement 1 is correct: Every union territory is **administered by the President acting through an administrator** appointed by him. **An administrator of a union territory is an agent of the President and not head of state like a governor.** The President can specify the designation of an administrator; it may be Lieutenant Governor or Chief Commissioner or Administrator. The President can also appoint the governor of a state as the administrator of an adjoining union territory.

Statement 2 is incorrect: The **Parliament (not President) can make laws on any subject of the three lists of Seventh Schedule (including the State List) for the union territories.** This power of Parliament also extends to Puducherry and Delhi, which have their own local legislatures. This means that, the legislative power of Parliament for the union territories on subjects of the State List remain unaffected even after establishing a local legislature for them.

Statement 3 is correct: The **Parliament can establish a High Court for a union territory or put it under the jurisdiction of the High Court of adjacent state.** Delhi is the only union territory that has a High Court of its own (since 1966). The Bombay High Court has got jurisdiction over two union territories—Dadra and Nagar Haveli, and Daman and Diu. Andaman and Nicobar Islands, Chandigarh, Lakshadweep and Puducherry are placed under the Calcutta, Punjab and Haryana, Kerala, and Madras High Courts respectively.

Source: ch. 40 laxmikanth

Q.47) Consider the following statements with reference to the features and impacts of Gujral Doctrine:

1. It led to the resolution of water sharing dispute between India and Pakistan.
 2. The Doctrine exclusively focusses on India's diplomatic relations with Southeast Asian nations.
 3. Under this Doctrine, India firmly refused to sign the Comprehensive Test Ban Treaty (CTBT) in 1996.
- Which of the statements given above are correct?

- a) 1 and 3 only
- b) 2 and 3 only
- c) 1 and 2 only
- d) None of the above

Ans) d

Exp) Option d is the correct answer.

The Gujral Doctrine is a milestone in India's foreign policy. It was propounded and initiated by the then Foreign Minister I.K. Gujral in 1996, in the Deve Gowda Government. The Doctrine is a set of five principles to guide the conduct of foreign relations with **India's immediate neighbours**. These five principles arise from the belief that India's stature and strength cannot be isolated from the quality of its relations with its neighbours. It, thus, recognizes the supreme importance of friendly, cordial relations with neighbours.

These principles are:

- 1) **With neighbours like Bangladesh, Bhutan, Maldives, Nepal and Sri Lanka, India does not ask for reciprocity but gives and accommodates what it can in good faith and trust.**
- 2) No South Asian country should allow its territory to be used against the interest of another country of the region.
- 3) No country should interfere in the internal affairs of another.
- 4) All South Asian countries must respect each other's territorial integrity and sovereignty.
- 5) They should settle all their disputes through peaceful bilateral negotiations.

Impacts and Application of Gujral Doctrine:

- 1) The Doctrine led to the resolution of the **water-sharing dispute** with Bangladesh (**and not Pakistan**) in just three months in 1996-97. **(Statement 1 is incorrect)**
- 2) This almost coincided with the treaty with Nepal for taming the Mahakali River for the generation of hydel power.
- 3) It was followed by agreements with Sri Lanka for expanding development cooperation.
- 4) Also, it led to the starting of **composite dialogue** with Pakistan.
- 5) The composite dialogue was based on the principle that while entire spectrums of relationships came under **sincere problem-solving dialogues**.
- 6) Cooperation must begin on agreed terms in agreed areas (trade, travel, culture etc.) even as certain disputes remained unresolved (Kashmir, terrorism).

Statement 2 is incorrect: The Gujral Doctrine advocates that India, being the biggest country in South Asia should extend unilateral concessions to the smaller neighbours. **The Gujral doctrine is formulated on India's accommodating approach towards its smaller neighbours on the basis of the principle of non-reciprocity.** It recognizes the supreme importance of friendly and cordial relations with India's neighbours. **Hence the doctrine does not focus on India's diplomatic relations with Southeast Asian Nations.**

Statement 3 is incorrect: IK Gujral can be remembered for two significant contributions to Indian foreign policy. One, he propounded the 'Gujral doctrine' which is considered a milestone in India's foreign policy. **Two, despite international pressure, Gujral firmly refused to sign the Comprehensive Test Ban Treaty (CTBT) in October 1996. Hence refusal to sign the CTBT is not related to the Gujral Doctrine.**

Source: <https://idsa.in/askanexpert/GujralDoctrine%3F>

Indian polity by M Laxmikanth pdf. Chapter name- Foreign policy. Page no-1278.

<https://pib.gov.in/Pressreleaseshare.aspx?PRID=1796196#:~:text=It%20is%20an%20overarching%20programme,various%20Government%20welfare%20Schemes%20and>

Q.48) Consider the following statements with reference to the National Commission for Minorities:

1. This Commission was set by a resolution of Home Ministry in 1978.
2. It has the powers of a civil court while performing its functions.
3. It is the implementing agency for the Prime Minister's New 15 Point Programme for welfare of Minority Communities.

Which of the statements given above is/are correct?

- a) 1 and 3 only
- b) 3 only
- c) 2 only
- d) 2 and 3 only

Ans) c

Exp) Option c is the correct answer.

Statement 1 is incorrect: National Commission for Minorities is a statutory body under the National Commission for Minorities Act, 1992. In 1993, the first **Statutory National Commission for minorities was set up under Ministry of Minority Affairs** and five religious communities the Muslims, Christians, Sikhs, Buddhists and Zoroastrians (Parsis) were notified as minority communities. Further in 2014, Jains have also been notified as minority community. National Commission for Minorities' (NCM's) predecessor i.e., the Minority Commission (MC) was set up by a resolution of Home Ministry in 1978.

Statement 2 is correct: The national commission for minorities has all the powers of a civil Court while making recommendations with regard to the protection of the minority rights enshrined in statute,

conducting research and educational efforts on such topics as the socio-economic and educational development of minority groups, and issuing reports related to minority rights.

Statement 3 is incorrect: The Ministry of minority affairs (and not National Commission for Minorities) is the agency for implementing the Prime Minister's New 15 Point Programme for welfare of Minority Communities. On the other hand, the National Commission for Minorities Ensures that the **Prime Minister's 15-Point Programme for the Welfare of Minorities** is implemented and the programmer for minority communities are actually functioning.

<https://www.minorityaffairs.gov.in/sites/default/files/15pp-english.pdf>

Q.49) Consider the following statements regarding the 'Inner Line Permit', often seen in news:

1. It is an official travel document issued by the Government of India to allow inward travel of foreigners into a protected area for a limited period.
2. Presently, this permit is issued for states of Nagaland, Manipur and Assam only.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) d

Exp) Option d is the correct answer.

Statement 1 is incorrect: Inner Line Permit (ILP) is an official travel document issued by the Government of India to allow inward travel of an **Indian citizen (not Foreigners)** into a protected area for a limited period. It is obligatory for Indian citizens from outside those states to obtain a permit for entering into the protected state. The document is an effort by the government to regulate movement to certain areas located near the international border of India. This is an offshoot of the Bengal Eastern Frontier Regulations, 1873, which protected Crown's interest in the tea, oil and elephant trade by prohibiting "British subjects" from entering into these "Protected Areas" (to prevent them from establishing any commercial venture that could rival the Crown's agents). The word "British subjects" was replaced by Citizen of India in 1950. Despite the fact that the ILP was originally created by the British to safeguard their commercial interests, it continues to be used in India, officially to protect tribal cultures in northeastern India. There are different kinds of ILP's, one for tourists and others for people who intend to stay for long-term periods, often for employment purposes.

Statement 2 is incorrect: The system is in force today in **three Northeastern states – Arunachal Pradesh, Nagaland and Mizoram (not Assam and Manipur)**, and no Indian citizen can visit any of these states unless he or she belongs to that state, nor can he or she overstay beyond the period specified in the ILP.

Source: <https://eastsiang.nic.in/service/inner-line-permit-eilp/>

<https://indianexpress.com/article/explained/what-is-inner-line-permit-and-will-it-address-north-east-states-concerns-over-cab-6145508/>

Q.50) Consider the following statements regarding 'New India Literacy Programme':

1. The objective of the scheme is to impart critical life skills that are essential for a citizen.
2. The scheme will be implemented through volunteerism via online mode.
3. The scheme will cover non-literates of the age of 15 years and above in India.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

Government has approved a new scheme “New India Literacy Programme” for the period FYs 2022-2027 to cover all the aspects of Adult Education to align with National Education Policy 2020.

Statement 1 is correct: The objective of New India Literacy Programme is to impart not only **foundational literacy and numeracy** but also to cover other **critical life skills components** which are necessary for a citizen of the **21st century**. These include financial literacy, digital literacy, commercial skills, health care and awareness, child care and education, and family welfare; basic education (including preparatory, middle, and secondary stage equivalency) vocational skills (with a view towards obtaining local employment).

Statement 2 is correct: Under the program, **schools** will be used for conducting survey of beneficiaries and Voluntary Teachers (VTs). The scheme will be **implemented through volunteerism** through **online mode**. The training, orientation, workshops of volunteers, may be organized through face-to-face mode. All material and resources shall be provided digitally for easy access to registered volunteers through easily accessible digital modes, viz, TV, radio, cell phone-based free/open-source Apps/portals, etc.

Statement 3 is correct: The scheme will cover **non-literates of the age of 15 years and above** in all state/UTs in the country. The target for Foundational Literacy and Numeracy for FYs 2022-27 is 5 (five) crore learners @ 1.00 crore per year by using “Online Teaching, Learning and Assessment System (OTLAS)” in collaboration with National Informatics Centre, NCERT and NIOS in which a learner may register him/herself with essential information like name, date of birth, gender, Aadhaar number, mobile number etc.

<https://pib.gov.in/PressReleasePage.aspx?PRID=1798805>

Q.1) Consider the following statements about Particularly Vulnerable Tribal Groups (PVTGs) in India:

1. PVTGs reside in 18 States and one Union Territory.
2. A stagnant or declining population is one of the criteria for determining PVTG status.
3. There are 95 PVTGs officially notified in the country so far.
4. Irular and Konda Reddi tribes are included in the list of PVTGs.

Which of the statements given above are correct?

- a) 1, 2 and 3
- b) 2, 3 and 4
- c) 1, 2 and 4
- d) 1, 3 and 4

Ans) c

Exp) Option c is the correct answer.

Particularly Vulnerable Tribal Groups (PVTGs) are centrally recognized special category from among the Scheduled Tribe. It was constituted during the 4th five-year plan on the basis of the report of the Dhebar commission (1960-61).

Statement 1 is correct. PVTGs reside in 18 States and Union Territory of Andaman & Nicobar Islands.

Statement 2 is correct. Such groups were identified by one or more of the following features:

- 1) Pre-agricultural level of technology,
- 2) Low level of literacy,
- 3) Economic backwardness,
- 4) A declining or stagnant population.

Statement 3 is incorrect. There is total 75 tribal groups that have been categorized by Ministry of Home Affairs as Particularly Vulnerable Tribal Groups (PVTGs).

Statement 4 is correct. Konda reddy of Khammam district of Telangana and Irular of Tamil Nadu are in the list of PVTGs.

Source) UPSC CSE 2019

Q.2) Which of the following statements is/are correct reason/s for the migration of people from rural to urban areas?

1. Urban areas provide anonymity that helps the poor people to engage in low status work that they would not be able to do in the village.
2. Informal nature of jobs in rural areas pushes the people to look for formal jobs in urban areas.
3. Decline of common property resources in rural areas

Select the correct answer using the code given below:

- a) 2 only
- b) 1 and 3 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

Demography is the systematic study of population. Demography studies the trends and processes associated with population including – changes in population size; patterns of births, deaths, and migration; and the structure and composition of the population, such as the relative proportions of women, men and different age groups.

Statement 1 is correct. In India people migrate from rural to urban areas mainly due to poverty, high population pressure on the land, lack of basic infrastructural facilities like health care, education, etc. For

the socially oppressed groups like the Scheduled Castes and Scheduled Tribes, this may offer some partial protection from the daily humiliation they may suffer in the village where everyone knows their caste identity. The anonymity of the city also allows the poorer sections of the socially dominant rural groups to **engage in low status** work that they would not be able to do in the village.

Statement 2 is correct. Another important pull factor for majority of the rural migrants to urban areas is the **better opportunities**, availability of **regular work** and relatively higher wages. In **rural areas, the nature of jobs is informal that pushes the people to look for formal jobs in urban areas.**

Better opportunities for **education, better health facilities** and sources of entertainment, etc., are also quite important pull factors.

Statement 3 is correct. The flow of rural-to-urban migration has also been accelerated by the continuous **decline of common property resources** like ponds, forests and grazing lands. Now, these resources have been turned into private property, or they are exhausted. If people no longer have access to these resources, but on the other hand have to buy many things in the market that they used to get free (like fuel, fodder or supplementary food items), then their hardship increases.

Knowledge Base: Apart from these factors, **natural disasters** such as, flood, drought, cyclonic storms, earthquake, tsunami, wars and local conflicts also give extra push to migrate.

Q.3) With reference to provisions regarding the disabled persons, which of the following statements is/are correct?

1. Census 2011 for the first time gave a universal definition of disability.
2. India is the first country to ratify the Marrakesh Treaty, which facilitates access to published works for visually impaired persons.
3. Right of Persons with disabilities Act, 2016 does not consider mental illness as disability.

Select the correct answer using the code given below:

- a) 1 and 2 only
- b) 1 and 3 only
- c) 2 only
- d) 2 and 3 only

Ans) c

Exp) Option c is the correct answer.

Statement 1 is incorrect. According to **Census 2011** from conceptual point of view **there is no universal definition of what constitutes a disability** or of who should be considered as having a disability.

Statement 2 is correct. **India became the first country in the world to ratified the Marrakesh Treaty.** The treaty seeks to facilitate access to published works for persons who are visually impaired, or otherwise print disabled.

Statement 3 is incorrect. In the RPWD Act, 2016, the list has been expanded from 7 to 21 conditions and **now it include mental illness as disability.**

Source: <http://ialpasoc.info/wp-content/uploads/2017/10/DATA-ON-DISABILITY-ACROSS-VARIOUS-COUNTRIES.ppt#:~:text=China%20is%20a%20developing%20country%2C%20with%20the%20largest,42.77%C2%A0million%20%2851.55%25%29%20and%20women%20account%20for%2040.19%C2%A0million%20%2848.45%25%29%2C>

Q.4) Who among the following would be treated as literate in India as per Census 2011?

- A person aged seven and above, who can both read and write with understanding in any language.
- A person aged five and above, who has an understanding of any Indian language even if he cannot read or write.
- A person of any age who can read in any language but not necessarily write.
- None of the above-mentioned categories of persons can be treated as literate as per Census 2011.

Ans) a

Exp) Option a is the correct answer.

For the purpose of census 2011, a **person aged seven and above, who can both read and write with understanding in any language, is treated as literate. A person, who can only read but cannot write, is not literate.** In the censuses prior to 1991, children below five years of age were necessarily treated as illiterates. **Literacy levels have improved considerably after independence,** and almost two-thirds of our population is now literate. But improvements in the literacy rate have to struggle to keep up with the rate of growth of the Indian population, which is still quite high. The results of 2011 census reveal that there has been an increase in literacy in the country. **The literacy rate in the country is 74.04 per cent, 82.14% for males and 65.46% for females.**

Source: <https://knowindia.india.gov.in/profile/literacy.php>

Q.5) Consider the following statements regarding 'Angadias System':

- It is a form of parallel banking system that uses a person to send cash from one state to another.
- The system has been banned by RBI due to suspicions of transfer of black money in India.

Which of the statements given above is/are correct?

- 1 only
- 2 only
- Both 1 and 2
- Neither 1 nor 2

Ans) a

Exp) Option a is the correct answer.

Recently an FIR has been registered against three Mumbai Police officials for allegedly threatening Angadias and extorting money from them in south Mumbai.

Statement 1 is correct: The Angadia system is a century-old parallel banking system in the country where **traders send cash generally from one state to another** through a person called **Angadia** that stands for courier.

Statement 2 is incorrect: The Angadia system is legal in India. It is by and large used in the jewellery business with Mumbai – Surat being the most popular route as they are two ends of the diamond trade. But since the business deals in cash and there is no account maintained for the same, there **have been suspicions** that it is used **for transfer of black money like the hawala transaction which is generally used across countries.**

Source: Explained: Who are Angadias? (forumias.com)

Q.6) Consider the following statements:

- In India, more than half of the workforce is self-employed.
- Informal sector employs more than 70% of employed labour force in India.

Which of the above statements is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) c

Exp) Option c is the correct answer.

Statement 1 is correct. Lack of regular salaried employment generation is a feature of industrial development in India. As a result, greater proportion of people are self-employed. Self-employment is the biggest source of employment in the Indian economy. **According to the 2020-21 Periodic Labour Force Survey (PLFS), 55.6% of India's workers are self-employed.** Also, according to the World Bank, self-employed accounts for about 76.01% of India's total workforce.

Statement 2 is correct. Organised sector is defined as units employing 10 or more people and registered with the government to ensure proper wages, pension and other benefits. In India, majority of the units do not fulfill these criteria and are in the unorganized or informal sector. As per economic survey, **informal sector employs about 80% (i.e. more than 70%) of employed labour force** in India.

Also, according to International Labour Organisation, about 81% of all employed persons in India make a living by working in the informal sector.

Q.7) Consider the following statements regarding the tribal communities in India:

1. All the tribals in India belong to the Negrito race.
2. Tribal society is generally more egalitarian than mainstream Indian society.
3. Tribes of India are located throughout the country except the Himalayan region.

Which of the statements given above is/ are correct?

- a) 2 and 3 only
- b) 2 only
- c) 1 and 2 only
- d) 1 and 3 only

Ans) b

Exp) Option b is the correct answer.

Tribal communities in India live in various ecological and geo-climatic conditions ranging from plains and forests to hills and inaccessible areas. These groups are at different stages of social, economic and educational development.

Statement 1 is incorrect: As far as **ethnicity is concerned, tribals are multi-ethnic.** Although many classifications have been presented by different anthropologists, all agree that Indian tribals can be classified into 3 basic ethnic groups – **Proto Australoid, Mongoloid and Negrito (so all the tribals in India don't belong to any one ethnic group such as the Mongoloid group)**. For example, tribes in Odisha like Santhal, Gond, Koya, etc have Australoid ethnicity; whereas tribes in the north-east like Garo, Khasi, etc have Mongoloid ethnicity, while the Ong and Jarawa in Andaman & Nicobar Islands have Negrito ethnicity.

Statement 2 is correct: Unlike **mainstream Indian society which is organised in a hierarchy** based on concepts like **economic class, Jati, Varna, etc**, the **tribal society is quite egalitarian.** There are **no huge differences in standard of living, or material possessions or rights of individuals in a tribal society.**

For example, unlike the mainstream Indian society which is patriarchal and gives more rights to men over women, in tribal society the status and rights of both men and women are mostly at par.

For example, while in mainstream society, those in governance like politicians, bureaucrats, etc have more political rights than common citizens, in tribal societies, the political structure is relatively simple consisting of only a chief to act as a leader to coordinate activities, with only a few special powers.

Statement 3 is incorrect: Geographically the tribes of India have been divided into the following geographical zones: **the Himalayan region**; Middle India Region; Western India Region; South India Region and the Island Region.

The tribes inhabiting the Himalayan region are the Akas, Daflas, Apatanis, Mishmis, Khamptis, Singphos, Kukis, Khasis, Garos, Lepchas, Bhotias, Tharus, amongst others.

Q.8) Consider the following statements:

1. Matrilineal societies are those in which women exercise authority and dominance in society.
2. Presently, no evidence of the existence of any Matrilineal group can be found in India.

Which of the above given statements is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) d

Exp) Option d is the correct answer.

The structure of the family can be studied both as a social institution in itself and also in its relationship to other social institutions of society.

Statement 1 is incorrect: A patriarchal family structure exists where the men exercise authority and dominance, and **matriarchy where the women play a similarly dominant role.**

Matrilineal societies are those in which the lineage and inheritance are traced through a group's female members and children are part of their mother's kinship group. In matrilineal societies, women inherit property from their mothers but do not exercise control over it, nor are they the decision makers in public affairs.

In contrast, in patrilineal systems, group membership is determined through men and children are part of their father's kinship group.

Statement 2 is incorrect. Presently, the three tribes of Meghalaya – Khasis, Jaintias, and Garos – practise a matrilineal system of inheritance.

Source: NCERT Class XII: Indian Society; Chapter 3: Social Institutions: Continuity and Change

Q.9) Which of the following is/are major components of liberalization in Indian economy?

1. Protection of Indian market and indigenous businesses from global competition.
2. Easing of rules that were regulating trade and finance in the country.
3. Greater integration of Indian economy with the global market.

Select the correct answer using the code given below:

- a) 1 and 2 only
- b) 2 only
- c) 3 only
- d) 2 and 3 only

Ans) d

Exp) Option d is the correct answer.

Statement 1 is incorrect. The policy decision of liberalization taken by the government opened up the Indian economy to the world market. Thus, it **exposed the Indian businesses and companies to global competition.**

Statement 2 is correct. Liberalization included economic reforms which meant steady easing of regulations on trade and finance in the economy.

Statement 3 is correct. Since July 1991, the Indian economy has witnessed a series of reforms in all major sectors of the economy (agriculture, industry, trade, foreign investment and technology, public sector, financial institutions etc.) This led to **greater integration of the Indian economy with the global market which proved to be beneficial for the country.**

Source: NCERT text book, XIIth class, Social Change and Development in India, Chapter 6, Page nos. 97 and 98

Q.10) With reference to “Operation Ganga”, which of the following statements is correct?

- a) It was launched by government of India to clean River Ganga in collaboration of IIM, Bangalore.
- b) It was launched to help stranded Indian nationals to come back to India from Ukraine.
- c) It is an effort for evacuation of Indians and foreign nationals from Afghanistan following the Taliban’s takeover of the nation.
- d) It was launched by the Indian Armed Forces to evacuate Indian citizens from Yemen during Yemen Crisis.

Ans) b

Exp) Option b is the correct answer.

Option a is incorrect: National Mission for Clean Ganga (NMCG) (not Operation Ganga) is a government of India initiative for cleaning River Ganga.

Option b is correct: Operation Ganga was launched to help stranded Indian nationals come back to India from Ukraine through special flights amidst the **Russian invasion of Ukraine.**

Since Ukraine is currently a no-fly zone, citizens and students are being evacuated to nearby countries after which they are being flown to India.

Statement c is incorrect. Operation Devi Shakti: Under this Operation, **Indians and foreign nationals are being evacuated from Afghanistan following the Taliban’s takeover of the nation.**

Statement d is incorrect: Operation Raahat was launched by the Indian Armed Forces, to evacuate Indian citizens and foreign nationals of 41 countries from Yemen during the 2015 Yemen Crisis.

Source: India launches Operation Ganga to evacuate stranded Indian nationals in Ukraine (forumias.com)
India’s evacuation mission from Afghanistan named “Operation Devi Shakti”-ForumIAS Blog

Q.11) With reference to National Rural Health Mission, which of the following are the jobs of ‘ASHA’, a trained community health worker?

1. Accompanying women to the health facility for antenatal care check-up.
2. Using pregnancy test kits for early detection of pregnancy
3. Providing information on nutrition and immunization

4. Conducting the delivery of baby

Select the correct answer using the codes given below:

- a) 1, 2 and 3 Only
- b) 2 and 4 Only
- c) 1 and 3 Only
- d) 1, 2, 3 and 4

Ans) a

Exp) Option a is the correct answer.

The National Rural Health Mission (NRHM) was launched by the Hon'ble Prime Minister on 12th April 2005, to provide accessible, affordable and quality health care to the rural population, especially the vulnerable groups.

One of the key components of the National Rural Health Mission is to provide every village in the country with a trained female community health activist ASHA or Accredited Social Health Activist. Selected from the village itself and accountable to it, the ASHA will be trained to work as an interface between the community and the public health system. Following are the key components of ASHA: (**only statements 1, 2 and 3 are correct**)

- 1) ASHA will be the first port of call for any health-related demands of deprived sections of the population, especially women and children.
- 2) ASHA will provide information to the community on determinants of health such as **nutrition**, basic sanitation & hygienic practices, healthy living and working conditions, information on existing health services.
- 3) ASHA will use pregnancy **test kits for early detection of pregnancy**, counsel women on birth preparedness, importance of safe delivery, breast-feeding and complementary feeding, immunization, contraception and prevention of common infections including Reproductive Tract Infection/Sexually Transmitted Infections (RTIs/STIs) and care of the young child.
- 4) ASHA will act as a depot older for essential provisions being made available to all habitations like Oral Rehydration Therapy (ORS), Iron Folic Acid Tablet
- 5) Empowered with knowledge and a drug-kit to deliver first-contact healthcare, every ASHA is expected to be a fountainhead of community participation in public health programmes in her village.
- 6) ASHA will mobilise the community and facilitate them in accessing health and health related services available at the Anganwadi/sub-centre/primary health centers, such as immunisation, Ante Natal Check-up (**includes accompanying women to the health facility**), Post Natal Check-up supplementary nutrition, sanitation and other services being provided by the government.

Statement 4 is incorrect. ASHA workers cannot conduct deliveries of babies. The role of ASHA workers is limited to counsel pregnant women about Antenatal Care (ANC), birth preparedness and danger signs during pregnancy. She has to provide information about the importance, duration, and frequency of breastfeeding to lactating mothers.

Source) UPSC CSE 2012

Q.12) With reference to tribals in India, which of the following statements is/are correct?

1. The state with highest proportion of Schedule Tribes is Madhya Pradesh.
2. Tribal sub-plan is applicable to all the states where Schedule Tribes are found.
3. Funds available under Tribal sub plan are non-lapsable.

Select the correct answer using the code given below:

- a) 1 only
- b) 2 and 3 only
- c) 3 only

d) 1 and 3 only

Ans) c

Exp) Option c is the correct answer.

Statement 1 is incorrect. If we look at the share of tribals in the state population, the North Eastern states have the highest concentrations. The **state with highest proportion of schedule tribes is Mizoram (94.5 %)**.

Statement 2 is incorrect. Tribal Sub-Plan (TSP) aims to bridge the gap between the Schedule Tribes (STs) and the general population with respect to all socio-economic development indicators in a time-bound manner. TSP is **not applicable to states where tribals represent more than 60% of the population**.

Statement 3 is correct. Funds available under the Tribal sub-plan are **non-divertible and non-lapsable**. Although it has been recommended that a **non-lapsable fund should be created to pool funds that could not be utilised in a financial year**.

Source: NCERT Class-12 Indian society Chapter-3 Social Institutions : continuity and change Page-51

https://www.censusindia.gov.in/Census_Data_2001/India_at_Glance/scst.aspx

<https://prsindia.org/policy/report-summaries/tribal-sub-plan>

Q.13) As per the Constitution of India, which among the following characteristics usually qualify for being in the Central/State list of Other Backward Classes in India?

1. Socially Backward
2. Educationally Backward
3. Economically Backward
4. Politically Backward

Select the correct answer using the codes given below.

- a) 1 and 2 only
- b) 3 and 4 only
- c) 1, 2 and 4 only
- d) 1, 2 and 3 only

Ans) a

Exp) Option a is the correct answer.

In India, large group of castes were of low status and were also subjected to varying levels of discrimination. These were usually the service and artisanal castes who occupied the lower rungs of the caste hierarchy. Such caste groups have been clubbed in Other Backward Classes (OBCs) in constitutional scheme.

Options 1 and 2 are correct: The Constitution of India recognizes the possibility that there may be groups other than the Scheduled Tribes and Scheduled Castes who suffer from social disadvantages. **These groups – which need not be based on caste alone, but generally are identified by caste – were described as the 'socially and educationally backward classes**. Thus, **social and educational backwardness is largely the criteria for deciding the OBCs**.

Options 3 and 4 are incorrect: **Economic backwardness** can be there in OBCs; however, this is **not considered a criterion for deciding the other backward classes** in India. Similarly **political backwardness may or may not be there**. In fact, after the land reforms in India, OBCs saw a political upliftment and many political leaders came to the fore representing the interests of the OBCs. In the constitutional scheme, there is no criteria of political backwardness for OBCs.

Source: NCERT Class XII: Indian Society; Chapter 5: Patterns of Social Inequality and Exclusion

Q.14) Consider the following pairs:

Concept	Meaning
1. Green economy	It provides a better quality of life for all within the ecological limits of the planet.
2. Weightless economy	It promotes easy movement of goods from one country to another.
3. Knowledge economy	It is a system of consumption and production that is based on intellectual capital.

How many pairs given above are correctly matched?

- None of the pairs
- Only one pair
- Only two pairs
- All three pairs

Ans) c

Exp) Option c is the correct answer.

Pair 1 is correctly matched. UNEP has defined the green economy as "one that results in improved human well-being and social equity, while significantly reducing environmental risks and ecological scarcities. It is low carbon, resource efficient, and socially inclusive". Another definition for green economy offered by the Green Economy Coalition defines green economy as "a resilient economy that provides a **better quality of life for all within the ecological limits of the planet.**"

Pair 2 is incorrectly matched. Weightless economy involves **production of information-based products** like software, media and entertainment. In other words, it refers to trade in intangible or abstract products and services.

Pair 3 is correctly matched. Knowledge economy is a system of consumption and production that is based on intellectual capital. In a knowledge economy, the workforce is engaged in **design, development, technology, marketing, sales and service of products** and not in their physical manufacturing or distribution.

Source: NCERT text book, XIIth class, Social Change and Development in India, Chapter 6, Page 99

Q.15) Consider the following statements regarding the Wireless Charging:

- It uses electromagnetic induction to transfer electric energy from the charger to the smartphone.
- It has an increased speed of charging compared to conventional wired charging.
- If all the smartphone users in the world adapt the wireless charging; it would positively impact the environment.

Which of the statements given above is/are correct?

- 1 and 2 only
- 1 and 3 only
- 2 and 3 only
- 1 only

Ans) d

Exp) Option d is the correct answer.

Most consumers who are investing in flagship smartphones are opting for wireless chargers. However, there are some people who are still wary of adopting this tech, despite its convenience.

Statement 1 is correct: Wireless charging uses **electromagnetic induction** to transfer electric energy from the charger to the smartphone. For wireless charging to work, one needs a phone that supports wireless charging and a compatible wireless charger.

Electromagnetic induction is a phenomenon by which a rapidly changing magnetic field produces electric energy in a closed loop that interacts with that magnetic field.

Statement 2 is incorrect: The most significant disadvantage of wireless charging is the lack of speed. Wireless charging is getting faster with proprietary implementations by brands like Oppo and Xiaomi but remains very far behind compared to proprietary wired charging, which can today charge phones at 100W and 120W capacities.

Statement 3 is incorrect: Wireless charging averagely uses 47% more power than wired charging. The extra power consumption by a single wireless charger may not significantly increase the consumption of electric energy. **But if all smartphone users in the world switch to wireless charging, it would have the negative (and not the positive) impact on the environment because of increased electric power consumption.**

Source: Explained: How does wireless charging work and the effect it has on phone's battery-ForumIAS Blog

Q.16) With reference to the 'caste system' in the Indian subcontinent, consider the following Statements:

1. Caste as an institution is an exclusive characteristic of the Hindu society.
2. Caste became a rigid institution during the Rig Vedic period.
3. Castes were traditionally linked to the occupation.

Which of the statements given above is/are correct?

- a) 1 only
- b) 1 and 2 only
- c) 3 only
- d) 2 and 3 only

Ans) c

Exp) Option c is the correct answer.

Caste is an institution uniquely associated with the Indian sub-continent. While social arrangements producing similar effects have existed in other parts of the world, the exact form has not been found elsewhere.

Statement 1 is incorrect: Although it is an institution characteristic of Hindu society, **caste has spread to the major non-Hindu communities of the Indian sub-continent.** This is especially true of Muslims, Christians and Sikhs.

Statement 2 is incorrect: In its earliest phase, in the Rig Vedic period, the caste system was really a varna system and consisted of only four major divisions. These divisions were not very elaborate or very rigid, and they were not determined by birth. Movement across the categories seems to have been not only possible but quite common.

Statement 3 is correct: Castes were traditionally linked to occupations. A person born into a caste could only practice the occupation associated with that caste, so that occupations were hereditary, i.e., passed on from generation to generation. On the other hand, **a particular occupation could only be pursued by the caste associated with it – members of other castes could not enter the occupation.**

Source: Page 42-43, NCERT Class XII: Indian Society; Chapter 3: Social Institutions: Continuity and Change

Q.17) With reference to 'Old and New social movements' in India, consider the following statements:

1. Old Social Movements had reorganization of political power as a primary goal, while New Social Movements focus on quality-of-life issues.

2. In Old Social Movements, role of political parties was central, whereas in New Social Movements civil society organizations have assumed the central role.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) c

Exp) Option c is the correct answer.

Statement 1 is correct. Old social movements were concerned about issues like struggle of workers against capitalists for better wages, better social security and health facilities from the state, establishing new types of state etc. Thus, reorganization of power distribution among different sections of society was primary objective of old social movements. New social movements focus on quality-of-life issues like having a clean environment, human rights, LGBT issues, etc.

Statement 2 is correct. Political parties played a central role in old social movements. For example, role of Indian National Congress in the national movement, Communist party of China in the Chinese Revolution and Bolshevik Party in Russian Revolution. In new social movements, civil society organizations like NGOs and international organizations like Amnesty International, Green Peace are playing the central role.

Source: NCERT text book, XIIth class, Social Change and Development in India, Chapter 8, Page nos. 144

Q.18) In the context of India, consider the following statements:

- 1. The growth rate of population substantially decreased after independence due to adoption of birth control measures.
- 2. The proportion of population in the age group of 0–14 years has increased drastically in the last five decades.
- 3. The main reason for the decline in the death rate after 1921 was the increased level of control over epidemic diseases.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 1 and 3 only
- c) 3 only
- d) 2 and 3 only

Ans) c

Exp) Option c is the correct answer.

India is the second most populous country in the world after China, with a total population of 121 crores (or 1.21 billion) according to the Census of India 2011. The growth rate of India's population has not always been very high. Between 1901–1951 the average annual growth rate did not exceed 1.33%, a modest rate of growth. In 1921, there was a negative rate of growth of – 0.03%. This was because of the influenza epidemic during 1918–19 which killed about 12.5 million persons or 5% of the total population of the country.

Statement 1 is incorrect: The growth rate of population substantially increased after independence from British rule going up to 2.2% during 1961–1981. Since then although the annual growth rate has decreased it remains one of the highest in the developing world.

Statement 2 is incorrect: The population in the age group 0–14 years is decreasing whereas it is increasing in the age group 15–59 years as is clear from the following table:

TABLE 2: AGE COMPOSITION OF THE POPULATION OF INDIA, 1961-2026

Year	Age Groups			Total
	0-14 Years	15-59 Years	60+ Years	
1961	41	53	6	100
1971	42	53	5	100
1981	40	54	6	100
1991	38	56	7	100
2001	34	59	7	100
2011	29	63	8	100
2026	23	64	12	100

Statement 3 is correct: The principal reasons for the decline in the death rate after 1921 were increased levels of control over famines and epidemic diseases. **The latter (control over epidemic diseases) is the most important reason for decline in death rate.** A pandemic is an epidemic that affects a very wide geographical area – see the glossary.

Knowledge Base:

The major epidemic diseases in the past were fevers of various sorts, plague, smallpox and cholera. But the single biggest epidemic was the influenza epidemic of 1918-19, which killed as many as 170 lakh people, or about 5% of the total population of India at that time. (Estimates of deaths vary, and some are much higher. Also known as 'Spanish Flu', the influenza pandemic was a global phenomenon.

Source: NCERT Class XII, Chapter 2: Indian Society

Q.19) With reference to the 2011 Census of India, consider the following statements:

1. The birth rate in Urban areas of India is more than the birth rate in the rural areas of India.
2. The difference between the birth rate and the death rate of population in India has stabilized.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) d

Exp) Option d is the correct answer.

India is the second most populous country in the world after China, with a total population of 121 crores (or 1.21 billion) according to the Census of India 2011.

Statement 1 is incorrect: The birth rate is the number of live births per 1000 population per year. India's total birth rate was 22.4 in 2011 census, among them rural birth rate was 22.4 and urban birth rate was 17.3. The highest birth rate in India is of Uttar Pradesh (25.9) and Bihar (26.4).

Statement 2 is incorrect: The rate of natural increase or the growth rate of population refers to the difference between the birth rate and the death rate. When this difference is zero (or, in practice, very small) then we say that the population has 'stabilized', or has reached the 'replacement level', which is the rate of growth required for new generations to replace the older ones that are dying out. **The population growth rate in India has not stabilized.** The growth rate of population substantially increased after independence from British rule going up to 2.2% during 1961-1981. Since then although the annual growth rate has decreased it remains one of the highest in the developing world.

Q.20) Consider the following statements regarding ‘REWARD Project’:

1. It is a joint partnership project of the Government of India, State Government of Rajasthan and the World Bank.
2. The project aims to help national and state institutions adopt improved watershed management practices.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) b

Exp) Option b is the correct answer.

The Government of India, State Governments of Karnataka and Odisha and the World Bank have signed a \$115 million REWARD Project.

Statement 1 is incorrect: The REWARD project is being implemented in states such as Odisha and Karnataka. The Government of India, State Governments of Karnataka and Odisha (**not Rajasthan**) and the World Bank have signed a \$115 million REWARD Project.

Statement 2 is correct: REWARD stands for Rejuvenating Watersheds for Agricultural Resilience through Innovative Development Programme. It aims to **help national and state institutions adopt improved watershed management practices** to help **increase farmers’ resilience to climate change, promote higher productivity and better incomes.**

Source: Govt of India, World Bank sign loan agreement of \$115 million for implementation of REWARD Project-ForumIAS Blog

https://dolr.gov.in/sites/default/files/Financial%20Management%20Expert-merged_0.pdf

<https://pib.gov.in/PressReleasePage.aspx?PRID=1799348>

Q.21) With reference to India, the terms ‘Halbi, ho and Kui’ pertain to:

- a) Dance forms of Northwest India
- b) Musical instruments
- c) Pre-historic cave paintings
- d) Tribal languages

Ans) d

Exp) Option d is the correct answer.

Halbi, also known as Bastari, is an **Eastern Indo-Aryan language and is spoken by tribes across the central part of India.**

It is written in Devanagari and Odia script; however, it is used mainly as an oral language, particularly for trade, and few Halbi speakers can read and write their language.

Ho is **tribal language, which is written in Warang Chiti** script. It is the mother tongue of nearly 10 lakh tribal people living in Odisha and Jharkhand.

Kui is a **South-Eastern Dravidian language spoken by the Kandhas.** It is mostly spoken in Odisha, and written in the Odia script. The Kui language was also referred to as the Kuinga language during the historical period. It is closely related to the Gondi and Kuvi languages.

Source) UPSC CSE 2021

Q.22) With reference to demographic dividend, which of the following statements is/are correct?

1. It occurs when there is an increase in fertility rate and decline in mortality rate.
2. Demographic dividend necessarily leads to economic growth.
3. A country must go through demographic transition to receive demographic dividend.

Select the correct answer using the code given below:

- a) 1 and 2 only
- b) 2 only
- c) 2 and 3 only
- d) 3 only

Ans) d

Exp) Option d is the correct answer.

Statement 1 is incorrect. Demographic Dividend is achieved by **decline in both fertility rate and mortality rate**. A country that experiences low birth rates with low death rates receives an economic dividend or benefit from the increase in productivity of the working population that ensues.

Statement 2 is incorrect. Demographic dividend can be **converted into actual growth only if** the rise in the working age group is accompanied by increasing levels of **education and employment**. If the new entrants to the labour force are not educated then their productivity remains low. If they remain unemployed, then they are unable to earn at all and become dependents rather than earners. Thus, changing age structure by itself cannot guarantee any benefits unless it is properly utilised through planned development.

Statement 3 is correct. To receive a demographic dividend, a country must go through a demographic transition, where it switches from a largely rural agrarian economy with high fertility and mortality rates to an urban industrial society characterized by low fertility and mortality rates.

Source: NCERT Class-12, Indian society Chapter-2 The Demographic structure of Indian society Page-14

Q.23) Which of the following provisions are included in the Scheduled Castes and the Scheduled Tribes (Prevention of Atrocities) Amendment Act, 2015?

1. Social or economic boycott of SCs /STs has been recognised as an offence.
2. Mandatory completion of the trial of a case within six months from the date of filing of the chargesheet.
3. Anticipatory bail will be allowed to the accused in certain specified circumstances.

Select the correct answer using the code given below:

- a) 1 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1 and 2 only

Ans) a

Exp) Option a is the correct answer.

The Scheduled Castes and the Scheduled Tribes (Prevention of Atrocities) Amendment Act, 2015, was a significant step taken to affirm the trust of the SC/STs in the law. The amendments, which came into effect in January 2016, expand the original Act of 1989.

Option 1 is correct: The new offences include more instances of “atrocities” recognised as crimes against SCs and STs. These include forcible tonsuring of head, garlanding with footwear, denying a SC/ST member access to irrigation facilities, using or permitting manual scavenging, dedicating SC/ST women as devadasis, abusing in the name of caste, committing atrocities by dubbing someone a witch, **social or economic boycott**, preventing SC/ST candidates from filing nomination to contest elections, hurting a

SC/ST by removing his or her clothes, forcing a SC/ST member to leave his or her house, village or residence, and so on.

Option 2 is incorrect: The Amendment Act introduced the establishment of exclusive special courts and special public prosecutors to try offences under the PoA Act, so that cases are disposed of expeditiously. The law requires these courts to take direct cognisance of an offence, **and as far as possible, complete the trial of the case within two months from the date of filing of the chargesheet.**

Option 3 is incorrect: The new law, however, does not touch Section 18 of the original Scheduled Castes and the Scheduled Tribes (Prevention of Atrocities) Act of 1989. This provision does not allow an accused person, who is alleged to have caused injury to and insulted a Dalit, to apply for anticipatory bail.

Q.24) With reference to Indian Society, consider the following statements about the term 'Adivasis':

1. They are the group of people who lived very close to the forests.
2. They are a homogenous population divided into only a few large groups.
3. Many of them have their own language systems.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 1 and 3 only
- c) 3 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

Statement 1 is correct: Adivasis means **original inhabitants or communities who lived and often continue to live close to forests.**

Statement 2 is incorrect: Around 8 per cent of India's population is Adivasi. **Adivasis are not a homogeneous population, and there are over 500 different Adivasi groups in India.** Adivasis are exceptionally diverse in states like Madhya Pradesh, Orissa, Gujarat, Maharashtra, Rajasthan, Andhra Pradesh, Chhattisgarh, Jharkhand, West Bengal and in the north-eastern states. Odisha is home to more than 60 different tribal groups. Adivasi societies are also most distinctive because there is often very little hierarchy among them.

Statement 3 is correct: They have their own language systems. E.g., Santali is the most established tribal language with the largest number of speakers. Indigenous peoples or Adivasis have not integrated into the Hindu caste society from the earlier times but their Indigenous religious beliefs contain many aspects of Hinduism.

Ch-7, Class VIII NCERT

Q.25) Recently, start-up at the Indian Institute of Science (IISc) has launched 'mWRAPR'. In this context, which one of the following is correct regarding 'mWRAPR'?

- a) It is a tool for disposal of e-waste through automatic salvaging of the components.
- b) It is device developed to monitor wild animals in core areas of forests.
- c) It is India's first indigenous bio-sample collection kit.
- d) It is an artificial intelligence-based robot characterized with human emotions.

Ans) c

Exp) Option c is the correct answer.

Azooka Labs, a start-up at the Indian Institute of Science (IISc) has launched mWRAPR.

mWRAPR is India's first **indigenous bio-sample collection kit**. It can be used as a bio sample collection kit and storage medium for samples destined for genomic sequencing labs, biobanks and research labs handling biological samples for molecular analysis. The kit **helps to preserve genetic content in all types of biological samples** including microbiomes, saliva, cells, tissues, blood, body fluids and faecal tubes.

Significance of this development: It is the only Molecular Transport Medium to be manufactured in India that competes with other notable foreign bio-sample collection kits.

Source: IISc startup launches India's first indigenous bio-sample collection kit -ForumIAS Blog
<https://www.thehindu.com/news/cities/bangalore/iisc-incubated-startup-azooka-develops-indias-first-indigenous-bio-sample-collection-kit/article38376919.ece>

Q.26) Which of the following statements is/are correct regarding the steps taken to deal with the practice of manual scavenging in India?

1. The National Commission for Safai Karamcharis has been established as a Constitutional body.
2. Offences under the “The Prohibition of Employment as Manual Scavengers and their Rehabilitation Act, 2013” are made cognizable and non-bailable.

Select the correct answer using the code given below:

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) b

Exp) Option b is the correct answer.

Statement 1 is incorrect. The National Commission for Safai Karamcharis (NCSK) was constituted as a statutory body by an Act of Parliament viz. ‘National Commission for Safai Karamcharis Act, 1993. It continued as statutory body till 2004. With the lapsing of the “The National Commission for Safai Karamcharis Act, 1993” w.e.f. 29.2.2004, the Commission is acting as a **non-Statutory** body of the Ministry of Social Justice and Empowerment whose tenure is extended from time to time through Government Resolutions.

Statement 2 is correct. Every offence under the Prohibition of Employment as Manual Scavengers and their Rehabilitation Act, 2013 **are cognizable and non-bailable.**

Q.27) Consider the following statements about the Malthusian Theory of Population Growth:

1. Malthusian Trap says that increased food production as a result of advanced agricultural techniques creates higher population levels.
2. Malthusian theory indicates an inverse relationship between human population and living standards.
3. Malthus believed that catastrophic events like famines and epidemics, that cause mass deaths, were inevitable.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

Thomas Robert Malthus was an 18th-century British economist best known for developing an exponential formula used to forecast population growth, which is currently known as the Malthusian growth model. Malthusian theory of population was based on a comparative analysis between the growth of population and food production of a particular region.

Statement 1 is correct: Malthusian ‘Trap’ also called Malthusian Population Trap is named after English economist Thomas Malthus who elaborated on the concept in his 1798 book **An Essay on the Principle of Population**. It refers to the idea that increased food production as a result of advanced agricultural techniques creates higher population levels. This concept also says that, “as the human population grows there is increasing pressure on earth’s resources, which in turn acts as a check on the further rise in population.”

Statement 2 is correct: In his book, Malthus argued that while rise in food production in a country can lead to improved living standards for the general population, the benefit is likely to be temporary. This is because, increasing availability of food would encourage people to have more kids since they could afford to feed them now, thus leading to a rise in the total population and a drop in per capita income levels. **Malthus said that there was an inverse relationship between human population and living standards with rising population leading to lower living standards.**

Statement 3 is correct: According to Malthus, the population growth always outstrips growth in production of subsistence resources, the only way to increase prosperity is by controlling the growth of population. Unfortunately, humanity has only a limited ability to voluntarily reduce the growth of its population (through ‘preventive checks’ such as postponing marriage or practicing sexual abstinence or celibacy). **Malthus believed therefore that ‘positive checks’ to population growth – in the form of famines and diseases – were inevitable because they were nature’s way of dealing with the imbalance between food supply and increasing population.**

<https://www.thehindu.com/specials/text-and-context/the-malthusian-trap/article65943594.ece>

Q.28) Census data from India suggests that population growth is on the decline since 1991. Even though the fertility and population growth rates are declining, India’s population is projected to increase from 1.2 billion today to an estimated 1.6 billion by 2050. This phenomenon is best explained by which of the following terms?

- a) Demographic Dividend
- b) Population Momentum
- c) Demographic Dependency
- d) Age Group pyramid

Ans) b

Exp) Option b is the correct answer.

India’s Demographic Transition can be captured from the Census data published by the office Registrar General and Census Commissioner of India under the Ministry of Home Affairs. The census data suggests that population growth is on the decline since 1991. The average number of children a woman expected to give birth during her life was 3.8 in 1990, and this has fallen to 2.0 children per woman today.

As per the National Family Health Survey-5, the present Total Fertility Rate at the national level is 2.0.

Option a is incorrect: The demographic ‘dividend’ is always derived from the age structure of the population. The ‘demographic dividend’ results from an increase in the proportion of workers relative to non-workers in the population. Changes in the age structure due to the demographic transition lower the

'dependency ratio', or the ratio of non-working age to working-age population, thus creating demographic dividend.

Option b is correct: Even though the fertility and population growth rates are declining, India's population is projected to increase from 1.2 billion today to an estimated 1.6 billion by 2050 due to population momentum. **Population momentum refers to a situation, where a large cohort of women of reproductive age will fuel population growth over the next generation, even if each woman has fewer children than previous generations did.**

Option c is incorrect: There is no such term as 'Demographic Dependency'. However, there is a term called dependency ratio. The dependency ratio is a measure comparing the portion of a population which is composed of dependents (i.e., elderly people who are too old to work, and children who are too young to work) with the portion that is in the working age group, generally defined as 15 to 64 years.

Option d is incorrect: The Age Group pyramid show the effect of a gradual fall in the birth rate and rise in the life expectancy. As more and more people begin to live to an older age, the top of the pyramid grows wider. As relatively fewer new births take place, the bottom of the pyramid grows narrower.

Source: NCERT Class XII, Chapter 2: Indian Society

Q.29) For strengthening Unity in India on account of presence of linguistic and other diversities, great efforts were needed. Which of the following best reflects actions which have helped in maintenance of this unity?

1. Commitment to practices of pluralism through democratic means.
2. Building the loyalties of various groups in society
3. Imposition of a single identity and the denunciation of diversity
4. Crafting responsive policies of cultural recognition

Select the correct answer using the code given below.

- a) 1, 2 and 3 only
- b) 2, 3 and 4 only
- c) 1 and 4 only
- d) 1, 2 and 4 only

Ans) d

Exp) Option d is the correct answer.

Statement 1 is correct. India's commitment to practices of pluralism, institutional accommodation and conflict resolution through democratic means helped in its unity. Critical for building a multicultural democracy is a recognition of the shortcomings of historical nation-building exercises and of the benefits of multiple and complementary identities.

Statement 2 is correct. For unity, efforts were required to build the loyalties of all groups in society through identification, trust and support.

Statement 3 is incorrect. National cohesion does not require the imposition of a single identity and the denunciation of diversity.

Statement 4 is correct. Successful strategies to build "state nations" can and do accommodate diversity constructively by crafting responsive policies of cultural recognition. They are effective solutions for ensuring the longer-term objectives of political stability and social harmony.

Source: <https://ncert.nic.in/textbook.php?lesy1=6-7>

Q.30) With reference to 'Surety Bonds', consider the following statements:

1. These bonds are a substitute for bank guarantees for contractors of government infrastructure projects.
2. These are issued by a bank on behalf of the contractor to the entity which is awarding the project.
3. Reserve bank of India is a regulatory authority for Surety Bonds.

4. It works as a legally binding contract between three parties.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 1, 2 and 3 only
- c) 1 and 4 only
- d) 3 and 4 only

Ans) c

Exp) Option c is the correct answer.

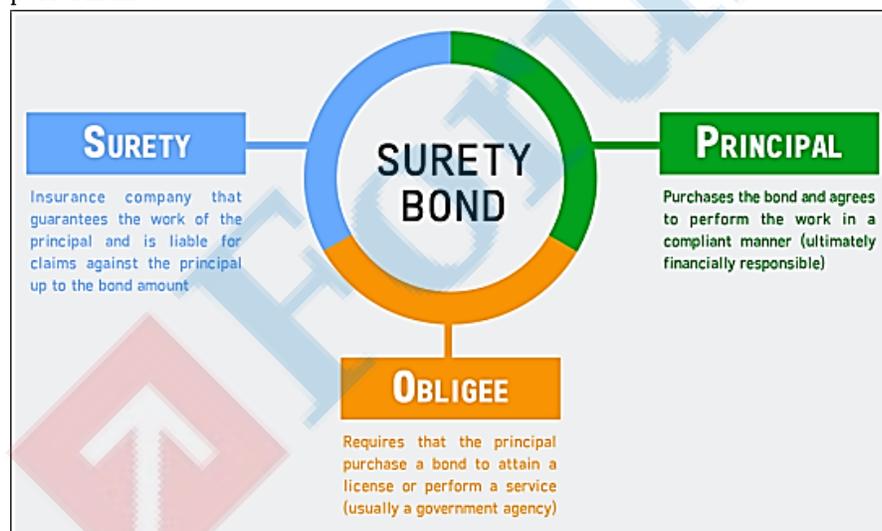

Statement 1 is correct: In the Budget 2022-23, the government has allowed the use of **surety insurance bonds as a substitute for bank guarantees in case of government procurement and also for gold imports.**

Surety bonds are mainly aimed at infrastructure development, mainly to reduce indirect cost for suppliers and work-contractors thereby diversifying their options and acting as a substitute for bank guarantee. The move to frame rules for surety contracts will help address the large liquidity and funding requirements of the infrastructure sector. It will also create a level-playing field for large, mid and small contractors.

Statement 2 is incorrect: Surety bond is provided by an insurance company (not the banks) on behalf of the contractor to the entity which is awarding the project.

Statement 3 is incorrect: Insurance Regulatory and Development Authority of India (IRDAI) (and not the Reserve Bank of India) is a regulatory authority for these surety bonds. IRDAI has released final guidelines to ensure orderly development of surety insurance business in India. The IRDAI (Surety Insurance Contracts) Guidelines, 2022 have come into effect from 1st April, 2022.

Statement 4 is correct: A surety bond is a **legally binding contract** entered into by **three parties—the principal, the obligee and the surety.** The obligee, usually a government entity, requires the principal, typically a business owner or contractor, to obtain a surety bond as a guarantee against future work performance.

Surety Definition (investopedia.com)

Irdai issues guidelines on surety insurance product. Key things to know (livemint.com)

Q.31) With reference to land reforms in independent India, which one of the following statements is correct?

- a) The ceiling laws were aimed at family holdings and not individual holdings.
- b) The major aim of land reforms was to provide agricultural land to all the landless.

- c) It resulted in the cultivation of cash crops as a predominant form of cultivation.
d) Land reforms permitted no exemptions to the ceiling limits.

Ans) b

Exp) Option b is the correct answer.

Land reform usually refers to redistribution of land from the rich to the poor. More broadly, it includes regulation of ownership, operation, leasing, sales, and inheritance of land (indeed, the redistribution of land itself requires legal changes).

Option a is incorrect. Land ceiling refers to **fixing a cap on the size of landholding a family or individual** can own. Any surplus land is distributed among landless people like tenants, farmers, or agricultural labourers. The ceiling laws were aimed at both family holdings and individual holdings in India.

With a cap on the size of landholding, an individual/family could hold equitable distribution of land was possible to an extent. With only landlord abolition and no land ceiling, the land reforms would not have been at least partially successful. Land ceiling ensured that the rich farmers or higher tenants did not become the new avatar Zamindars.

Option b is correct. Land reforms include agrarian reforms which deal with measures to improve the productivity of land, especially agricultural land. In an agrarian economy like India with great scarcity, and an **unequal distribution, of land**, coupled with a large mass of the rural population below the poverty line, there are compelling economic and political arguments for land reform. Hence the major objective of the land reform agenda was to provide agricultural land to all the landless.

Option c is incorrect. Cultivation of cash crops requires much more other inputs rather than the mere availability of holdings. Commercialisation of Agriculture led to the cultivation of cash crops as a predominant form of cultivation in India. Land reforms did not lead to commercialisation of Agriculture in India.

Option d is incorrect. The laws of Land Ceiling set a limit on how much land an individual or corporation could hold, also known as a land “ceiling” and **allowed the government to reappportion surplus land to the landless**. However, certain exemption to the ceiling limits were allowed for plantation crops like tea and coffee and some registered cooperatives.

Source) UPSC CSE 2019

Q.32) Consider the following pairs:

Type of capital	Components
1. Cultural capital	Knowledge, education and skills.
2. Economic capital	Real estate, cash and commodities.
3. Social capital	Government departments, association membership and non-government organisations.

How many pairs given above are correctly matched?

- a) None of the pairs
b) Only one pair
c) Only two pairs
d) All three pairs

Ans) d

Exp) Option d is the correct answer.

The social resources can be divided into three forms of capital – economic capital in the form of material assets and income; cultural capital such as educational qualifications and status; and social capital in the form of networks of contacts and social associations.

Pair 1 is correct. Cultural capital includes non-economic resources that enable social mobility. Examples of cultural capital would include **knowledge, skills, and education**.

Subtypes of cultural capital: embodied, objectified and institutionalized.

Embodied cultural capital consists of knowledge and skills we acquire over time, through education and socialization that exists within us.

Objectified cultural capital consists of material objects such as works of arts, and clothes.

Institutionalized cultural capital consists of institutional acceptance or recognition in the form of academic qualifications and credentials.

Pair 2 is correct. Economic capital may take the form of **cash** or other assets like **real estate, commodities, equipment, vehicles**, and so forth which may be disposed of for cash in the market.

Pair 3 is correct. At the societal level **social capital** is considered ‘collectively-owned capital’. It is associated with trust, trustworthiness, civic norms, **association membership**, and voluntary activities. Examples include the institutions created to meet basic and fundamental needs, Government and **non-government organisations** such as courts, police, emergency services, various **government departments**, and even corporations.

Knowledge Base: Often, these three forms of capital overlap and one can be converted into the other.

As economic capital, which is immediately and directly convertible into money and may be institutionalized in the form of property rights; as cultural capital, which is convertible, in certain conditions, into economic capital and may be institutionalized in the form of educational qualifications; and as social capital, made up of social obligations (“connections”), which is convertible, in certain conditions, into economic capital and may be institutionalized in the form of a title of nobility.

Cultural capital is a sociological concept that was first introduced by the sociologist Pierre Bourdieu.

Bourdieu also claimed that cultural capital is directly proportionate to economic capital; people are more likely to obtain more cultural capital when their parents possess more economic capital.

Source: NCERT XII - Indian society - Chapter 5, Page 83.

Q.33) Consider the following events:

1. Operation Smiling Buddha
2. First Non-Congress Government at the Centre
3. Launch of Aryabhata, India’s first satellite
4. First demonetization in Independent India

Which of the following is the correct chronological sequence of the above events?

- a) 1-2-4-3
- b) 3-1-2-4
- c) 1-3-2-4
- d) 3-1-4-2

Ans) c

Exp) Option c is the correct answer.

The correct chronological order of the events given above is -

- 1) **Operation Smiling Buddha**, India's first nuclear test, **was conducted in May, 1974** at Pokhran, Rajasthan. Then-Prime Minister Indira Gandhi called the test a peaceful nuclear explosion. It is also termed as Pokhran-I.
- 2) The first Indian satellite, **Aryabhata**, **was launched in 1975** using a Russian rocket. It provided India with the basis of learning satellite technology and designing.
- 3) In the **year 1977, First Non-Congress Government led by Morarji Desai was formed** at the Centre. He was the candidate of Janata Party, a coalition formed by Jay Prakash Narayan during the emergency. Morarji Desai was the 4th PM of the country. First three, Pandit Nehru, Lal Bahadur Shastri and Indira Gandhi, all belonged to Congress Party.
- 4) In **January 1978, the Indian government demonetised Rs 1,000, Rs 5,000 and Rs 10,000 notes**, which was quite substantial at that point of time. The move was enacted under the High Denomination Bank Note (Demonetisation) Act, 1978. Under the law all "high denomination bank notes" ceased to be legal tender after January 16, 1978. People who possessed these notes were given till January 24 the same year – a week's time – to exchange any high denomination bank notes.

Hence, Option c is correct.

Q.34) With reference to the Dravidian Movement, consider the following statements:

1. It was mostly violent and associated with militant activities.
2. All South Indian states supported this movement throughout its existence.
3. This movement opposed the cultural domination of Brahminical traditions.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 3 only
- c) 1 and 3 only
- d) 2 and 3 only

Ans) b

Exp) Option b is the correct answer.

Dravidian movement was one of the first regional movements in Indian politics, peaked in 1940s to 1960s.

Statement 1 is incorrect: At no point, this movement resorted to arms although some members of this movement wanted to create a Dravida nation. It employed democratic means like public debates and the electoral platform to achieve its ends. This was the reason why this movement acquired political power in the State and became influential at the national level too.

Statement 2 is incorrect: The Dravidian movement spoke in terms of the whole of south India; **however, lack of support from other States limited the movement to Tamil Nadu.**

Statement 3 is correct: Under the leadership of E.V. Ramasamy 'periyar', the Dravidian movement led to the formation of Dravida Kazhagam. The organisation had its root in anti-Brahmins domination and affirmed regional pride against the political, economic and cultural domination of the brahmin traditions which they associated with Aryans.

Q.35) Recently, Ministry of New and Renewable Energy released a draft policy framework for Distributed Renewable Energy. In this context, which one of the following statements correctly describe the term 'Distributed Renewable Energy'?

- a) It involves distribution of the energy from the renewable sources through a separate transmission line.
- b) It involves generation of electricity from renewable energy sources near the point of use instead of centralized generation sources.
- c) It involves balanced distribution of energy from the mix of both renewable and non-renewable sources in order to decrease transmission losses.
- d) It means the reduced consumption of electricity due to wider distribution network of renewable energy.

Ans) b

Exp) Option b is the correct answer.

The Ministry of New and Renewable Energy (MNRE) released a draft policy framework for Distributed Renewable Energy (DRE).

Distributed Renewable Energy (DRE) is the term used when electricity is **generated from renewable energy sources near the point of use** instead of **centralized generation sources** from power plants.

Objectives of the policy on Distributed Renewable Energy:

- 1) Increasing the adoption of DRE-based livelihood solutions by enabling easy finance for the end-user
- 2) Developing effective DRE livelihood applications through innovation as well as research and development.
- 3) Forming a committee to monitor the progress of DRE projects, which will meet at least once every six months.
- 4) Make available a digital catalogue of DRE-powered solutions to be used by various stakeholders to raise awareness.

Problems faced by Distributed Renewable Energy (DRE) in India: Lack of proper financing channels, consumer awareness, consumer affordability and quality products/standards are some of the major challenges facing DRE in India.

Source: MNRE's new policy framework recognises distributed renewable energy as solution for uplifting rural economy-ForumIAS Blog

Q.36) Which of the following statements is/are correct regarding the National Population Register (NPR)?

1. It is prepared under the provisions of Census Act, 1948.
2. It is prepared by Office of the Registrar General under the Ministry of Home Affairs.
3. It is optional for a 'usual resident of India' to register in the NPR.
4. NPR database would contain demographic as well as biometric details.

Select the correct answer using the code given below:

- a) 2 only
- b) 2 and 4 only
- c) 1 and 4 only
- d) 1, 2 and 4 only

Ans) b

Exp) Option b is the correct answer.

Statement 1 is incorrect. National population register is a Register of usual residents of the country. It is conducted under provisions of the **Citizenship Act 1955 and the Citizenship (Registration of Citizens and issue of National Identity Cards) Rules, 2003**. It is being prepared at the local (Village/sub-Town), sub-District, District, State and National level.

Statement 2 is correct. It is conducted by **Office of the Registrar General and census commissioner** under ministry of Home affairs

Statement 3 is incorrect. It is **mandatory** for every usual resident of India to register in the NPR.

Statement 4 is correct. The objective of the NPR is to create a comprehensive identity database of every usual resident in the country. The **database would contain demographic as well as biometric particulars.**

Source: <https://ncert.nic.in/textbook/pdf/lesy102.pdf>

<https://www.censusindia.gov.in/2011-Common/IntroductionToNpr.html>

Q.37) With reference to the consequences of the Green Revolution in India, consider the following statements:

1. Agricultural productivity increased sharply.
2. It increased the income disparity between the landowners and the labourers.
3. Primarily the small farmers were able to benefit from the new technology.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) a

Exp) Option a is the correct answer.

The Green Revolution in India was initiated in the 1960s by introducing high-yielding varieties of rice and wheat to increase food production in order to alleviate hunger and poverty.

Statements 1 is correct. Agricultural productivity increased sharply because of the new technology. India was able to become self-sufficient in foodgrain production for the first time in decades. Green Revolution has enabled India to achieve growth in national foodgrain production since the mid-1960s. India increased its average cereal production by 47% between the periods 1960s and 1970s.

Statement 2 is correct

Under the impact of Green Revolution, the landowners' income per unit of land increased between 50 and 100 percent and that of labour between 25 and 30 percent. Thus, landowners cornered most of the benefits giving **rise to disparity between the landowners and the labourers.**

Statement 3 is incorrect. However, there were certain negative social effects that were pointed out by sociologists who studied the Green Revolution areas, as well as adverse environmental impacts. In most of the Green Revolution areas, it was primarily the medium and large farmers who were able to benefit from the new technology. This was because inputs were expensive, and small and marginal farmers could not afford to spend as much as large farmers to purchase these inputs.

Source: <https://ncert.nic.in/textbook.php?lesy2=4-8>

Q.38) With reference to 'Sanskritization' in India, consider the following statements:

1. It is the process by which a 'higher' caste group assumes religious authority through ritual practices.
2. This practice is only confined to the caste people of Hindu society.
3. It can help towards the social mobility of certain caste groups.

How many of the above given statements are correct?

- a) Only one statement is correct
- b) Only two statements are correct
- c) All the statements are correct
- d) None of the statements is correct

Ans) a

Exp) Option a is the correct answer.

The concept 'Sanskritization' was first introduced by Prof. M.N. Srinivas, an Indian sociologist. He explained the concept of Sanskritization in his book "Religion and society among the Coorgs of South India" to describe the cultural mobility in the traditional caste structure of Indian society

Statement 1 is incorrect. It may be briefly defined as the process by which a 'low' caste or tribe or other group takes over the customs, ritual, beliefs, ideology and style of life of a 'high' and, in particular, a 'twice-born (Dwija) caste'.

Statement 2 is incorrect. It is primarily a process that takes place within the Hindu space though Srinivas argued that it was visible even in sects and religious groups **outside Hinduism. Sanskritization process is not only confined to the caste people of Hindu society, it is also found among the tribal society.**

Sanskritization as a concept has been criticised at different levels. One, it has been criticised for exaggerating social mobility or the scope of 'lower castes' to move up the social ladder. For it leads to no structural change but only positional change of some individuals.

Statement 3 is correct. Sanskritization **is helpful in the social mobility of lower caste.** In this process a caste is only trying to change the status and not the social structure.

Source: <https://ncert.nic.in/textbook.php?lesy2=2-8>

Q.39) Consider the following statements regarding the 'Dependency Ratio':

1. It can be used to understand the relative economic burden of the workforce.
2. Presently, the total dependency ratio in India is around 50 percent.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) c

Exp) Option c is the correct answer.

The dependency ratio is a measure of the number of dependents aged **zero to 14 and over the age of 65**, compared with the total population aged 15 to 64.

Statement 1 is correct. This demographic indicator gives insight into the **number of people of non-working age**, compared with the **number of those of working age**. It is also used to understand the relative economic burden of the workforce and has ramifications for taxation. The dependency ratio is also referred to as the total or youth dependency ratio.

Statement 2 is correct. According to World Bank, in 2021, the total dependency ratio for India was 48.27 percent. Total dependency ratio (0-14 and 65+ per 15-64) of India fell gradually from 79 percent in 1971 to 48.27 ratio in 2021.

<https://www.investopedia.com/terms/d/dependencyratio.asp>

Q.40) Consider the following statements regarding ‘Sustainable Cities India Program’:

1. It is jointly designed by United Nations Environment Program and National Institute of Urban Affairs.
2. It intends to enable cities to decarbonize and reduce the emissions.
3. This initiative will help towards India’s commitment to achieve net-zero carbon emission by 2070.

Which of the following statements are correct?

- a) 1 and 2 only
- b) 1 and 3 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

Statement 1 is incorrect: The World Economic Forum (WF) (not the United Nations Environment PROGRAM) and The National institute of Urban affairs have signed a Memorandum of Understanding (MoU) to collaborate on a jointly designed ‘Sustainable Cities India program’.

Statement 2 is correct: The aim of the project is to enable cities to decarbonize in a systematic and sustainable way that will reduce emissions and deliver resilient and equitable urban ecosystems (and not to generate sustainable employment).

Statement 3 is correct: This initiative is particularly noteworthy as it comes after the Prime Minister of India stated India’s commitment to turn net-zero by 2070 as a climate mitigation response at COP26. It will contribute towards this goal of turning net zero.

Source: Sustainable Cities | GEF (thegef.org)

World Economic Forum and the National Institute of Urban Affairs sign a MoU to collaborate on a jointly designed ‘Sustainable Cities India program’ (forumias.com)

Q.41) With reference to consumers’ rights/ privileges under the provisions of law in India, which of the following statements is/are correct?

1. Consumers are empowered to take samples for food testing.
2. When a consumer files a complaint in any consumer forum, no fee is required to be paid.
3. In case of death of a consumer, his/her legal heir can file a complaint in the consumer forum on his/her behalf.

Select the correct answer using the codes given below:

- a) 1 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

The new **Consumer Protection Act, 2019** came into force on 20th July 2020 and it will empower consumers and help them in protecting their rights through its various notified rules and provisions. The new act will be swift and less time consuming compared to the older Consumer Protection Act, 1986 in which single-point access to justice was given making it a time-consuming exercise.

Statement 1 is correct. The Food Safety and Standards Act, passed by Indian Parliament in 2006, gives **local consumers the power to take samples**, get those tested and lodge complaints for prosecution of those accused of food adulteration.

Statement 2 is incorrect. Under the new **Consumer Protection Act, 2019**, a **nominal fee is payable for filing a complaint before the District Forum, State or National Commission**. The prescribed fee payable for filing a complaint before the District Forum, State or National Commission is varied.

Statement 3 is correct. According to **The Consumer Protection Act, 2019**, a **complainant** means his **legal heir or legal representative** in case of death of a consumer. In case of death of a consumer, his/her legal heir can file a complaint in the consumer forum on his/her behalf.

Source) UPSC CSE 2012

Q.42) Which of the following is the most correct description of ‘Globalization’?

- Increased competition in the market.
- Relaxing tariffs barriers on the imported goods.
- Opening of doors to private sector.
- An interdependence of nations around the globe fostered through free trade.

Ans) d

Exp) Option d is the correct answer.

In economic terms, **Globalization is described as an interdependence of nations around the globe fostered through free trade**. It spreads the products, technology, information, and jobs across national borders and cultures. It **allows free flow of goods and services, labour technology, investments etc** through a more free international trading.

Globalization is the word used to describe the growing interdependence of the world’s economies, cultures, and populations, brought about by cross-border trade in goods and services, technology, and flows of investment, people, and information. Countries have built economic partnerships to facilitate these movements over many centuries. But the term gained popularity after the Cold War in the early 1990s, as these cooperative arrangements shaped modern everyday life.

Statement a is incorrect. Globalization promotes competition in the market, as it promotes free market. But it is a narrow understanding of globalization as it can also be achieved with other measures like privatization.

Statement b is incorrect. Relaxing tariff barriers on the imported goods is a part of globalization. But **it is just a measure to achieve globalization**.

Statement c is incorrect. **Privatization** (and not Globalization) means opening of the door of industrial activities to the private sector which was exclusively reserved for public sector only except nuclear energy and defence.

Source: Chapter - NCERT XII, Social Change and Development in India, chapter 4

<https://www.investopedia.com/terms/g/globalization.asp>

https://nios.ac.in/media/documents/SrSec318NEW/Book1_318.pdf

Q.43) With reference to the New Economic Policy of 1991, consider the following statements:

- Industrial licencing was abolished for many industries.
- Disinvestment was made in public sector companies.
- Trade unionism became weaker after the New Economic Policy of 1991.

Which of the above given statements are correct?

- 1 and 2 only
- 2 and 3 only
- 1 and 3 only
- 1, 2 and 3

Ans) d

Exp) option d is the correct option.

Statement 1 is correct.

Since the 1990s, however, the government has followed a policy of liberalisation. Private companies, especially foreign firms, are encouraged to invest in sectors earlier reserved for the government, including telecom, civil aviation, power etc. **Licences are no longer required to open industries. The industrial policy reforms have reduced/abolished the industrial licensing requirements**, removed restrictions on investment and expansion, and facilitated easy access to foreign technology and foreign direct investment.

Statement 2 is correct.

Privatisation of the public sector enterprises by selling off part of the equity of **PSEs to the public is known as disinvestment**. This accelerated after the 1991 Reforms. The objectives of disinvestment were to raise resources through sale of PSUs to be directed towards social welfare expenditures, raising efficiency of PSUs etc.

Statement 3 is correct.

Multinational companies do **outsource across the globe, with developing countries like India providing cheap labour. Globalisation opened up this opportunity**. Because small companies have to compete for orders from the big companies, they keep wages low, and working conditions are often poor. **It became more difficult for trade unions to organise in smaller firms.**

Source: <https://ncert.nic.in/textbook.php?lesy2=5-8>

Q.44) With reference to Commodification, consider the following statements:

1. It is a process of transforming something into a product that can be bought and sold in the market.
2. It is responsible for making commodities penetrate in societies and expands their geographical reach.
3. Intangible cultural heritage of a country can be commodified for commercial purposes.

Which of the statements given above is/are correct?

- a) 1 only
- b) 1 and 2 only
- c) 2 and 3 only
- d) 1 and 3 only

Ans) d

Exp) Option d is the correct answer.

The growth of capitalism around the world has meant the extension of markets into places and spheres of life that were previously untouched by this system.

Statement 1 is correct. Commodification is the process of transforming something into a product/commodity for commercial purposes i.e an **item to be bought and sold** in the market and becomes part of the **market economy**. It occurs when things that were earlier not traded in the market become commodities.

Statement 2 is incorrect. It is the process of **Commercialisation** that is responsible for making commodities penetrate in societies, expands the geographical reach of commerce, and makes markets more pervasive in everyday life. While commodification is a process of transformation not marketing.

Statement 3 is correct. Intangible cultural heritage of a country can be commodified for commercial purposes. The **commodification of culture** involves a construction of culture wherein the cultural items and traits are being promoted as symbols of a particular culture.

Q.45) Consider the following statements regarding ‘Pan India 3D Maps Program’:

1. The program is implemented with the collaborative efforts of the Ministry of Panchayati Raj and Ministry of Urban Development and Housing.
2. It will create pan-India three dimensional maps for 100 Indian cities depicting reality.
3. It also aims to provide clear ownership rights of property in rural inhabited areas with help of digital land records.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 only
- c) 1 and 3 only
- d) 2 and 3 only

Ans) b

Exp) Option b is the correct answer.

On the 1st Anniversary of the Release of Geospatial Data, the union minister has said that the SVAMITVA scheme with the help of drones will survey all the over 6 lakh Indian villages. At the same time, Pan India 3D Maps Program will prepare 3D Maps for 100 Indian cities.

Statement 1 is incorrect: Pan India 3D Maps Program was launched by **private technology firm Genesys International**. Whereas it is **SWAMITVA is a Central Sector** Scheme is implemented with the collaborative efforts of the Ministry of Panchayati Raj, State Revenue Department, State Panchayati Raj Department and Survey of India (**not the Ministry of Urban Development and Housing**).

Statement 2 is correct: Pan India 3D Maps Program will create **pan-India 3D maps** for 100 Indian cities. These 3D maps would depict reality as it is. The maps will be available in a **freemium model** which will be partly free and partly paid.

Statement 3 is incorrect: Pan India 3D Maps Program would benefit a huge number of start-ups, private enterprises as the 3D maps will unlock the potential of augmented reality and new areas of growth. **SWAMITVA scheme** aims to provide clear **ownership of property in rural inhabited** (Abadi) areas by mapping of land parcels using drone technology and providing ‘Record of Rights’ to village household owners with issuance of legal ownership cards (Property cards/Title deeds) to the property owners.

Source: Mapping of 6 lakh villages under the SVAMITVA scheme and pan-India 3D Maps for 100 cities undertaken, which will be a game changer for India -ForumIAS Blog

Q.46) Consider the following statements:

- 1.Environmental activism strengthened in the post-cold war globalization era.
2. Glocalization is when foreign firms incorporate the aspects of local traditions.
3. The introduction of World Wide Web has contributed massively to the expansion of the global economy.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

Globalization refers to the process of interconnection or integration of world economies and arising effect on other aspects of society.

Statement 1 is correct: Growing global trade and the ramping up of extraction of natural resources has caused great strain on the environment. It resulted in several **global accords to limit carbon emissions including the Paris Climate accord and Kyoto Protocol. Increasing activism for the environment has been particular of the post-cold war globalization** debate as global warming has becoming a real concern with devastating consequences.

Statement 2 is correct: Glocalization refers to the **mixing of the global with the local** e.g., McDonald's goes vegetarian during the Navaratri festival. foreign firms use this strategy to incorporate aspects of local tradition, to enhance the marketability of their product in local market. In India, we find that all the foreign television channels like Cartoon Network use Indian languages.

Statement 3 is correct: The introduction of the World Wide Web in 1991 was transformative. **Commercial internet has contributed massively to the expansion of the global economy**, experiencing a 4.4-fold growth from US\$11.1 trillion to US\$73.5 trillion since 1980.

Source: social change and development, chapter 6

Q.47) Regionalism in post-independent India can be associated with demands for?

1. Political autonomy
2. Religious identity
3. Cultural aspirations

Select the correct answer using the codes given below:

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

Statement 1 is correct. Political autonomy e.g Kashmir Issue is not just a dispute between India and Pakistan. It has external and internal dimensions. It involves the issue of kashmiri identity known as kashmiriyat and the aspirations of the people of J&K for Political Economy

Statement 2 is correct. Religious identity e.g Khalistan movement (In 1980, the Akali Dal launched a movement on the question of distribution of water between Punjab and its neighbouring states. A section of religious leaders raised the question of autonomous sikh identity. The more extreme elements started advocating secession from India and the creation of Khalistan.

Statement 3 is correct. Cultural aspirations e.g Movements among tribals of North-east The isolation of the NE region, its complex social character and its backwardness compared to other part of the country have all resulted in the complicated set of demands from the states of North East region.

Source: Politics in India since Independence (Class 12 NCERT) Chapter 8 Regional aspirations

Q.48) Consider the following statements:

1. Punjabi Suba Movement was a political agitation for the creation of a Punjabi speaking state.
2. The Telangana Movement was a non-violent movement against the Nizam of Hyderabad.
3. The Tebhaga Movement was a peasant agitation that occurred in Bengal.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer:

Social movements can be classified into three types redemptive or transformatory, reformatory and revolutionary social movement.

Statement 1 is correct: Punjabi Suba movement was a political agitation launched for the creation of Punjabi Suba or **Punjabi speaking state in the Punjab.**

Statement 2 is incorrect: The Telangana movement (1948-51) was **an armed revolt of peasants under the leadership of the Communist Party of India. It was against oppressive landlordism patronized by the autocratic rule of the Nizam of Hyderabad.** P.C. Joshi, the then General Secretary of the Communist Party of India, provided inspiration for the armed struggle in Telangana. He arranged for the supply of arms and ammunition to the struggling peasants.

Statement 3 is correct: Tebhaga Movement (1946-47) was the sharecroppers' movement demanding two thirds of the produce from land for themselves and one third for the landlords. The uprising was due to the share cropping system that prevailed in the Bengal. Tebhaga literally means 'three shares' of harvests.

Source: NCERT Class XII: Social Change and Development in India, Chapter 8: Social Movements

Q.49) With respect to the various terms used in demographics and their descriptions, consider the following pairs:

Term	Description
1. Infant Mortality Rate	Number of deaths of babies less than 29 days old per total live births in a year
2. Total Fertility Rate	Sum of the age specific fertility rates of all women multiplied by 5 per 1000
3. Sex Ratio	Number of females per 1000 males in the population

How many pairs given above are correctly matched?

- None of the pairs
- Only one pair
- Only two pairs
- All three pairs

Ans) c

Exp) Option c is the correct answer.

Pair 1 is incorrect: Infant Mortality Rate (IMR) is the number of **infant deaths during the year divided by total live births during the year**, all of which is then **multiplied by 1000**. These infants include **babies up to 1 year of age and not just less than 29 days of age.**

The numerator, i.e., number of Infant Deaths has 2 parts:

- Neonatal mortality:** Number of deaths of **babies less than 29 days old** per total live births in a year, all of which is multiplied by 1000.
- Post neonatal mortality:** **Number of deaths of babies more than 29 days old but less than 1 years old**, per total live births in a year, all of which is multiplied by 1000.

Pair 2 is correct: Total Fertility Rate (TFR) is the **sum of the Age Specific Fertility Rates (ASFR) for all age groups of women multiplied by 5**, the whole being **divided by 1000**. The ASFR is used for **all age groups from 15-19 to 45-49**.

Pair 3 is correct: Sex Ratio is defined as the **number of females per 1000 males in the entire population**. There are other types of sex ratios like sex ratio at birth, child sex ratio, etc.

Q.50) Which of the following is/are the advantages of 'Satellite Internet'?

1. It can provide global coverage at any location on earth even in the areas where fibre connections can't reach.
2. It provides low latency compared to fibre optical internet resulting into reduced amount of time for information exchange.
3. It is highly compatible with Virtual Private Network to encrypt internet traffic on unsecured networks.
4. The satellites positioned in Geosynchronous orbits provide stronger internet signals than the satellites in Low Earth Orbits.

Select the correct answer using the codes given below:

- a) 1 and 3 only
- b) 1 only
- c) 2 and 4 only
- d) 1 and 4 only

Ans) b

Exp) Option b is the correct answer.

Satellite Internet is the technology that beams the internet down from a satellite that's orbiting the earth. Jio, Bharti Airtel One Web and Starlink want to send thousands of these satellites to orbit.

Jio will use geostationary (GEO) and medium earth orbit (MEO) satellites, while Starlink and One Web use low earth orbit (LEO) satellites.

Statement 1 is correct: Global Coverage: Satellite links give **coverage at any location on earth**. A single satellite in the geostationary orbit can cover distances as large as whole oceans or continents. This wide area coverage makes internet access quick and easy despite all kinds of geographical obstacles.

Statement 2 is incorrect. Latency is the **amount of time it takes information from your computer to reach its destination**. In the case of satellite internet, to send data to space, to Internet Service Provider and back again which causes it to have **high latency or a high ping rate**. Latency has been a drawback for

satellite internet for a for a long time as it involves multiple steps. So, satellite internet provides higher latency compared to cable and Fiber internet. Cable and Fiber internet offers latency in the range of 20 to 50 milliseconds (ms), whereas satellite internet ranges can be as high as 600 ms.

Statement 3 is incorrect. Virtual Private Network are not compatible with satellite internet. VPNs demand high bandwidth for both uploads and downloads; they require low latency, high bandwidth setup which is the complete opposite of what we get with satellite internet.

Statement 4 is incorrect: As LEO satellites orbit closer to the earth, they are able to provide stronger signals and faster speeds than traditional fixed-satellite (Geosynchronous) systems. Because Latency, or the time needed for data to be sent and received, is contingent on proximity.

11 Advantages and Disadvantages of Satellite Internet (honestproscons.com)

Q.1) The money multiplier in an economy increases with which one of the following?

- a) Increase in the Cash Reserve Ratio in the banks
- b) Increase in the Statutory Liquidity Ratio in the banks
- c) Increase in the banking habit of the people
- d) Increase in the population of the country

Ans) c

Exp) Option c is the correct answer.

The multiplier effect is an economic term, referring to the proportional amount of increase, or decrease, in final income that results from an injection, or withdrawal, of capital in effect. Money multiplier is a phenomenon of creating money in the economy in the form of credit creation. It measures the impact that a change in economic activity—like investment or spending—will have on the total economic output of something.

Option c is correct: Increase in Banking habits of the people can lead to increase in money multiplier in an economy. When a customer makes a deposit into a short-term deposit account, the banking institution can lend one minus the reserve requirement to someone else. While the original depositor maintains ownership of their initial deposit, the funds created through lending are generated based on those funds. If a second borrower subsequently deposits funds received from the lending institution, this raises the value of the money supply even though no additional physical currency actually exists to support the new amount.

Increase in the Cash Reserve Ratio in the banks, increase in the Statutory Liquidity Ratio will lead to decline in money multiplier because of reduced ability of the banks to lend.

An Increase in population of a country in itself do not have a direct impact on money multiplier

Source) UPSC CSE Pre 2021

Q.2) With reference to the 'Concept of Depreciation', consider the following statements:

- 1. It is a measure to account for the reduction in value of capital goods due to their wear and tear.
- 2. Unexpected/sudden destruction of goods are not taken into account while calculating depreciation.
- 3. In India, the Ministry of Finance decides the rates of depreciation of assets.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 3 only

Ans) a

Exp) Option a is the correct answer.

The term depreciation refers to an accounting method used to allocate the cost of a tangible or physical asset over its useful life. Depreciation represents how much of an asset's value has been used. It allows companies to earn revenue from the assets they own by paying for them over a certain period of time.

Statement 1 is correct: The monetary value of an asset decreases over time due to use, wear and tear or obsolescence. This decrease is measured as depreciation. Depreciation is an **annual allowance for wear and tear of a capital good**. In other words, it is the cost of the good divided by number of years of its useful life. Assets such as machinery and equipment are expensive. Instead of realizing the entire cost of an asset in year one, companies can use depreciation to spread out the cost and match depreciation expenses to related revenues in the same reporting period. This allows a company to write off an asset's value over a period of time, notably its useful life.

Statement 2 is correct: Depreciation of fixed capital assets refers to **normal wear and tear and foreseen obsolescence**. Depreciation is also called consumption of fixed capital. Loss of fixed assets happen on account of normal wear and tear, normal rate of accidental damages and expected obsolescence. Depreciation **does not take into account unexpected or sudden destruction or disuse of capital as can happen with accidents**, natural calamities or other such extraneous circumstances.

Statement 3 is incorrect: Every asset (except human beings) goes for depreciation in the process of their uses, which means they 'wear and tear'. The governments of the economies decide and announce the rates by which assets depreciate. It is **done in India by the Ministry of Commerce and Industry** and a list is published, which is used by different sections of the economy to determine the real levels of depreciations in different assets. For example, a residential house in India has a rate of 1 per cent per annum depreciation, an electric fan has 10 per cent per annum, etc., which is calculated in terms of the asset's price.

Ramesh Singh Chapter 1

<https://www.investopedia.com/terms/d/depreciation.asp>

Q.3) Which of the following items will **not** be taken into consideration during the calculation of Gross Domestic Product by the Expenditure Method?

1. Net increase in Inventory of businesses
2. Household expenditure on services
3. Government expenditure on public goods & services
4. Brokerage paid for the transfer of shares
5. Transfer Payments made by the Government
6. Import of agricultural commodities

Select the correct answer using the code given below:

- a) 2, 3 and 6 only
- b) 1, 4 and 5 only
- c) 4 and 5 only
- d) 5 only

Ans) d

Exp) Option d is the correct answer.

Calculation of Gross Domestic Product (GDP) – the value of goods and services produced in a country's economy – is one of the ways of calculating the national income of a country. There are multiple methods which may be used for calculating this figure. One of these methods is the Expenditure method.

GDP = C + G + I + X

Where, C is the consumptive expenditures of firms and households in an economy; G is the expenditure made by the government, I is the investment made by the household and the firms; and X is the Net of Exports and Imports in an economy.

Option 1 is incorrect: An **increase in Inventory (goods/ raw materials stocked for production/ sale later)** is considered as a form of **Capital Formation**, i.e. **Investment** by a firm. Hence it will be **included under the 'I' head** of the equation.

Option 2 is incorrect: **Expenditure on various services by a household** (example – paying **plumbers and electricians**, buying movie tickets, **booking cabs**, etc) is one of the **core economic activities** in a nation. It is **included** under the **'C' head** of the equation.

Option 3 is incorrect: The **expenses** incurred by the **government** to provide **public good and services like roads** (buying materials, hiring labour, etc), **free primary education** (constructing school buildings, paying

salaries to teachers, etc) all would be **included** under the ‘G’ head of the equation and hence included in calculation of GDP.

Option 4 is incorrect: When assets such as bonds and shares are procured, it signifies a change in ownership and does not affect the value of goods and services; hence, the transactions are not involved in expense calculation. However, **the brokerage paid for the transfer of shares is considered while using the expenditure method.**

Option 5 is correct: Transfer Payments are **one sided economic transaction** where a service or sum of money is provided without any service or monetary consideration in return. For example, **donations to charities, international aid** to poor war-torn countries, etc. Since these transactions **don’t create any new value** of goods and services, they are **not included in the GDP.**

Option 6 is incorrect: All imports, whether of **agricultural commodities** for **food security** purposes (like **edible oil imports**) or **luxury item imports** like **gadgets**, etc, are **included** under the **head of ‘X’** in the equation and hence included in the calculation for GDP.

NCERT Class 12 Economy - Macroeconomics, Ch-2

Q.4) Which of the following are the flaws in using Gross Domestic Product as an index for greater well-being of the people of a nation?

1. It does not take into account inequality in income.
2. It does not account for technological advancements
3. It excludes non-marketed activities.
4. It does not include externalities caused by an economic activity.

Select the correct answer from the code given below:

- a) 1, 2 and 3 only
- b) 1 and 4 only
- c) 2, 3 and 4 only
- d) 1, 2, 3 and 4

Ans) d

Exp) Option d is the correct answer.

Gross domestic product (GDP) is the value of the goods and services produced by the nation’s economy less the value of the goods and services used up in production. GDP is also equal to the sum of personal consumption expenditures, gross private domestic investment, net exports of goods and services, and government consumption expenditures and gross investment.

Statement 1 is correct: GDP does not provide information about the distribution of income, which bears importantly on the welfare of individuals within an economy. GDP per capita is only an average. When GDP per capita rises by 5%, it could mean that GDP for everyone in the society has risen by 5% or that the GDP of some groups has risen by more while the GDP of others has risen by less—or even declined.

Statement 2 is correct: GDP does not factor in the increases in technology that improves the well-being. For example, the internet has made it easier for people to arrange for travel directly instead of going through a travel agent—these personal efforts to book travel are not counted in GDP but the services of a travel agent would be counted, leading GDP growth to understate the increase in welfare.

Statement 3 is correct: Another shortcoming of GDP as a measure of economic well-being is **GDP’s exclusion of non-market activities that create welfare for households**. Because GDP uses market prices to value goods and services, it excludes the value of almost all activity that takes place outside markets. Child care provided in day-care centers is part of GDP, whereas child care by parents at home is not.

Volunteer work also contributes to the well-being of those in society, but GDP does not reflect these contributions.

Statement 4 is correct: Externalities refer to the benefits (or harms) a firm or an individual causes to another for which they are not paid (or penalised). Externalities do not have any market in which they can be bought and sold thus they are not part of GDP calculation. For example, let us suppose there is an oil refinery which refines crude petroleum and sells it in the market. We can estimate the value added of the refinery. The value added of the refinery will be counted as part of the GDP of the economy. But in carrying out the production the refinery may also be polluting the nearby river. This may cause harm to the people who use the water of the river. Hence their well-being will fall.

Source: <https://www.brookings.edu/wp-content/uploads/2018/08/WP43-8.23.18.pdf>

Q.5) Which of the following are the correct implications of promoting ‘Daylight Harvesting Technology’?

1. It will reduce carbon footprint of various facilities.
2. It reduces electrical lighting energy consumption.
3. It will improve building energy efficiency.

Select the correct answer using the codes given below:

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

Statement 1, 2 and 3 are correct: Daylight Harvesting works on the simple premise that **facilities can optimally utilize natural light** where available and cut down on the use of artificial light during daylight hours. The Ministry of Science & Technology has decided to promote a unique Start-up in Daylight Harvesting Technology.

The implication of this policy can lead to a) **Reduced carbon footprint**, b) **Improve building energy efficiency** and c) **reduces electrical lighting energy consumption**.

Source: Ministry of Science & Technology has decided to promote a unique, possibly India's first, Start-up in latest Daylight Harvesting Technology-ForumIAS Blog

Benefits of Daylight Saving Time | Home Matters | AHS

Q.6) With reference to the methods of Gross Domestic Product calculation, consider the following statements:

1. In a fixed base index, weight assigned to various economic activities and goods automatically changes as the economy changes structurally.
2. In chain method, the base period keeps changing from year to year.
3. Unlike fixed base method, chain base method cannot be used if data on previous year is not available.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) 1 and 3 only
- d) 2 and 3 only

Ans) d

Exp) Option d is the correct answer.

The Indian government is mulling over the 'Chain-base' methodology for calculating the gross domestic product (GDP) that will keep updating weights assigned to various products and activities in the economy.

Statement 1 is incorrect: In a fixed base index, weight assigned to various economic activities and goods changes only if two conditions are met simultaneously- Economy should change its structure and Government should take action to change the weights and base. So, mere change in economic structure is not sufficient condition for change in weights automatically, government should also take active step to change it.

Statement 2 is correct: In **chain base method**, the **base period is not fixed**. In this method, the year immediately preceding the one for which the price index has to be calculated is assumed as the base year. In most cases, the shift resulted in significant changes in the numbers of the preceding year, indicating the better outcome produced by this method. The advantage of the chain base method is that the GDP estimation method will capture the structural changes by allowing new activity and items to be added every year in the economy.

Statement 3 is correct: A **disadvantage of the chain method** is that **if the data for any one of the year is not available** then we **cannot compute the chain index number for the subsequent period**. This is so because we need to calculate the link relatives, which are not possible to be calculated in this case. In fixed base method the base is fixed so data can be computed even if data on previous year is not available.

Source: <https://economictimes.indiatimes.com/news/economy/policy/india-may-switch-to-chain-base-mechanism-for-gdp-estimates/articleshow/72480916.cms?from=mdr>
<https://www.theindianwire.com/business/govt-exploring-chain-base-method-for-estimating-gdp-with-changing-weights-240527/>

Q.7) Opportunity cost analysis plays a crucial role in determining a business's capital structure. In this context what does Opportunity cost imply?

- Minimum cost incurred for availing the benefits from an option chosen.
- Any potential loss avoided by not selecting an option.
- The cost incurred while selecting an option.
- Any potential forgone benefit from a missed option not chosen.

Ans) d

Exp) Option d is the correct answer.

Option d is correct. **Opportunity costs** represent the potential benefits that an individual, investor, or business misses out on when choosing one alternative over another. Opportunity cost is the **forgone benefit that would have been derived from an option not chosen**.

Examples of opportunity cost include investing in a new manufacturing plant in Uttar Pradesh as opposed to Maharashtra, deciding not to upgrade company equipment, or opting for the most expensive product packaging option over cheaper options.

The formula for calculating an opportunity cost is simply the difference between the expected returns of each option. Consider a company is faced with the following two mutually exclusive

Source: <https://www.investopedia.com/terms/o/opportunitycost.asp>

Q.8) With reference to 'GDP Deflator', consider the following statements:

- It is a more comprehensive measure of inflation as against wholesale price indices.
- Unlike Consumer Price Index, GDP deflator accounts for all goods and services, whether produced domestically or outside.
- In India, GDP deflator data is only available on a quarterly basis along with GDP estimates.

Which of the statements given above is/are correct?

- a) 1 only
- b) 1 and 2 only
- c) 1 and 3 only
- d) 2 and 3 only

Ans) c

Exp) Option c is the correct answer.

The **GDP deflator, also called implicit price deflator**, is a measure of inflation. It is the ratio of the value of goods and services an economy produces in a particular year at current prices to that of prices that prevailed during the base year. GDP price deflator measures the difference between real GDP and nominal GDP.

Statement 1 is correct: GDP Deflator helps show the extent to which the increase in gross domestic product has happened on account of higher prices rather than increase in output. Since the **deflator covers the entire range of goods and services produced in the economy** – as against the limited commodity baskets for the wholesale or consumer price indices – it is seen as a **more comprehensive measure of inflation**.

Statement 2 is incorrect: The GDP deflator underestimates true inflation. The reason is that the GDP deflator reflects the prices of all goods and services **produced domestically in the country**, whereas the **CPI** reflects the prices of all goods and services **bought by domestic Consumer** (whether they are produced in India or not is immaterial).

For example, suppose the price of an airplane produced by an Indian company which is sold to the Indian Air Force rises. Although the plane is a part of GDP it is not the part of the basket of goods and services purchased by an Indian consumer. Thus, the price increase shows up in the GDP deflator, but not in the CPI.

Now suppose the Toyota raises the price of its cars. Since Toyota cars are made in the Japan, they are not a part of India's GDP. But Indian consumers buy Toyotas and so the car is part of Indian consumers' basket of goods. Hence a price increase of an imported consumer good, such as Toyota, gets reflected in the CPI, but not in the GDP deflator.

Statement 3 is correct: The GDP deflator reflects up-to-date expenditure patterns. **GDP deflator is available only on a quarterly basis along with GDP estimates**, whereas CPI and WPI data are released every month.

Ramesh Singh Chapter 7 INFLATION AND BUSINESS CYCLE

<https://www.economicdiscussion.net/gdp/underestimation-of-inflation-by-gdp-deflator-with-calculation/15342>

Q.9) In this market, there exist few sellers having large market shares. The firms are producing homogenous or differentiated products. Firms under this market are interdependent and fall in price of one firm affects the profits of all firms in the industry.

The above paragraph best describes which of the following markets?

- a) Perfect competition
- b) Monopoly
- c) Monopolistic competition
- d) Oligopoly

Ans) d

Exp) Option d is the correct answer.

Oligopoly refers to a market situation in which there are a **few firms selling homogeneous or differentiated products**. In India, markets for automobiles, cement, steel, aluminium, etc., are the examples of oligopolistic market.

- 1) Each firm produces a **significant portion of the total output**. There exists **severe competition among different firms** and each firm try to manipulate both prices and volume of production to outsmart each other.
- 2) Every seller influences and is influenced by the behaviour of other firms.
- 3) Firms under oligopoly are **interdependent**. A firm considers the action and reaction of the rival firms while determining its price and output levels. A change in output or price by one firm evokes reaction from other firms operating in the market. For example, market for cars in India is dominated by few firms (Maruti, Tata, Hyundai, Ford, Honda, etc.). A change by any one firm in any of its vehicle will induce other firms to make changes in their respective vehicles.

Knowledge Base:

Other features:

- 1) There are barriers to entry in oligopoly market. Patents, requirement of large capital, control over crucial raw materials, etc., are some of the reasons, which prevent new firms from entering into industry.
- 2) The oligopoly is likely to lie somewhere between the two extremes of monopoly and perfect competition.

Source: Microeconomics, NCERT XI, Chapter-6, Pg. 99

<https://www.yourarticlelibrary.com/oligopoly-market/the-oligopoly-market-example-types-and-features-micro-economics/9140>

Q.10) Recently, 'Pal – Dadhvav' massacre was seen in news. It is related to-

- a) Russia-Ukraine war site
- b) German paratroopers during World War II
- c) Tribal uprising against British rule in India
- d) Prisoner of war at Andaman and Nicobar Island

Ans) c

Exp) Option c is the correct answer.

On March 7, 2022 the Gujarat government marked 100 years of the Pal-Dadhvav killings, calling it a massacre “bigger than the Jallianwala Bagh”.

Pal – Dadhvav massacre took place on March 7, 1922 in Pal-Chitariya and Dadhvaav villages of Sabarkantha district, then part of Idar state (present-day Gujarat). On this day, villagers from Pal, Dadhvav, and Chitariya had gathered on the banks of River Heir as part of the 'Eki movement' led by one Motilal Tejawat.

The movement was to protest against the land revenue tax (lagaan) imposed on the peasants by the British and feudal lords. However, the British Paramilitary force was on the hunt for Tejawat. They heard of this gathering and reached the spot. **Nearly 2000 Bhil Tribals under the leadership of Tejawat lifted their bows and arrows**. But the Britishers opened fire on them. Nearly 1,000 tribals (Bhils) fell to bullets. But Tejawat was taken safely from there, and later he returned to the spot to christen it 'Veer Bhumi'.

Recognition of Pal-Dadhvav massacre: The Pal-Dadhvav massacre was brought into focus at the Republic Day parade this year. The **Republic Day tableau** featured a seven-ft statue of Tejawat, inspired by the statue at the memorial. A song describing Tejawat as 'Koliyari no Vanio Gandhi' was also sung at the tableau.

Source: Explained: What was the Pal-Dadhvav massacre, whose centenary the Gujarat govt is observing? - ForumIAS Blog

Q.11) Despite being a high saving economy, capital formation may not result in significant increase in output due to:

- a) weak administrative machinery
- b) illiteracy
- c) high population density
- d) high capital-output ratio

Ans) d

Exp) Option d is the correct answer.

If capital-output ratio is high, then capital formation may not result in significant increase in output. A high capital-output ratio means that the capital is less productive and thus even high investments does not guarantee significant increase in output.

Capital output ratio is the amount of capital needed to produce one unit of output. It assesses the amount of investment capital necessary for a country or other entity to generate the next unit of production.

Source) UPSC CSE Prelims 2018

Q.12) Which of the following statements are the correct with reference to Purchasing Power Parity (PPP)?

1. Purchasing Power Parity exchange rates stay relatively stable when compared with market exchange rate.
2. It helps in determining the differences in the quality of goods and services between the countries.
3. It takes into accounts the cost of non-traded goods and services like haircuts or massages.
4. It allows comparison of living costs and standards across different countries in the world.

Select the correct answer using the codes given below:

- a) 1 and 4 only
- b) 2, 3 and 4 only
- c) 1, 3 and 4 only
- d) 2 and 4 only

Ans) c

Exp) Option c is the correct answer.

Purchasing Power Parity (PPP) is a theory that compares the purchasing powers of currencies from different countries around the world. PPP theory aims to look at differing world economies as if they were on a single currency, creating parity between different world currencies. PPP can be used to determine how much more or less expensive it can be to live in another country.

Statement 1 is correct: PPP exchange rate helps to **determine trends in exchange rates over the long term**. Market exchange rates tend to move towards the PPP exchange rate. PPP exchange rates **stay relatively stable** when compared with financial world market rates. Comparing GDP using market rates can mean more volatility in comparisons, even when the individual countries' markets are stable.

Statement 2 is incorrect: Purchasing Power Parity **does not consider differences in the quality of goods between countries**. The same product, for example, can have a different quality in different countries. Thus, it is difficult for us to determine identical baskets of goods and services.

Consumer tastes and preferences also vary across countries. Often, manufacturers use a differentiation approach rather than product standardization. They adapt their offerings to local tastes in each country. And purchasing power parity does not capture such a difference.

Statement 3 is correct: Purchasing Power Parity accounts for **non-traded goods**. GDP measures a country's economic productivity as it relates to the sale of tangible, internationally traded goods. However, PPP **accounts for the cost of non-traded goods and services**—like haircuts or massages—which also speaks to the productivity of a given economy.

Statement 4 is correct: Purchasing Power Parity provides real-world examples of living costs and standards. Every year, The Economist releases a comparative list of what 55 countries around the world charge for a McDonald's Big Mac called the Big Mac Index. This example of PPP uses a recognizable good as a point of comparison between the living costs around the world, which is similar to the research of the ICP. Laypeople can look at the PPP of different goods in different places, and get a sense of how expensive or affordable their current home economy is.

<https://www.masterclass.com/articles/purchasing-power-parity-explained>

Q.13) Which of the following statements is correct regarding the term *Green GDP*?

- It is the amount of investment made in sustainable activities in an economy.
- It is the value of goods and services only created by climate friendly activities.
- It is the value of goods and services calculated after accounting for monetary loss due to environmental damage.
- It is the GDP value created by the forest resources of a nation.

Ans) c

Exp) Option c is the correct answer.

The standard **GDP** is a statistic that calculates the **value of goods and services** produced in a nation's **economy** in a particular year. It is generally a **measure of economic activity** in a country. It **assumes** that the **natural capital** (raw materials such as timber, water, coal, petroleum, fertile soil, minerals, etc) that are **required as inputs** for these activities are **constant** and need no accounting.

However recently a new concept called "**Green GDP**" has come to the fore. It believes in **accounting** for the **value of raw materials** provided by **nature** freely as well as the **loss in monetary terms** due to **continuous depletion** of these resources - either due to **overexploitation** or due to **environmental damage** and **pollution** which renders them useless, or hampers in their regeneration.

Source: Indian Economy by Ramesh Singh, 12th edition, Glossary
<https://www.thehindu.com/opinion/op-ed/natural-capital-in-the-21st-century/article23971804.ece>
<https://www.thehindu.com/news/national/centre-to-start-measuring-green-gdp-of-states/article24082165.ece>

Q.14) With reference to Complementary Goods, consider the following statements:

- If the price of a good increases, then the demand for the complementary good will increase simultaneously.
- They compete with each other in an open market economy.

Which of the statements given above is/are correct?

- 1 only
- 2 only
- Both 1 and 2
- Neither 1 nor 2

Ans) d

Exp) Option d is the correct answer.

A complementary good is a product or service that provides value to another product or service. In other words, they are two things that the customer utilizes in conjunction with one another. Cereal and milk, for example, or a DVD and a DVD player.

Statement 1 is incorrect: Complementary goods are products which are bought and used together. An **increase in the price of Good X will lead to a reduction in quantity demand for X and this might then lead to lesser demand for the complement Good Y.** Here Y is the complementary good to X. Complements are said to be in **joint demand**. For Example, an increase in the price of computer will lead to a decrease in the demand for the software package.

Hence, as the product's price rises, the user's demand for the complementary product declines. It is because customers are reluctant to buy the complementary good alone. **Therefore, the market price of the complementary good or service can decline as consumer demand weakens.**

Statement 2 is incorrect: Complementary goods are consumed together, whereas substitute goods are the ones that fulfill a common want. **Substitute goods are more like competitors** in the markets, whereas complementary goods are positively associated with one another.

An example of a substitute good can be **Coke and Pepsi (Competitors), whereas a complement good is the razor and the blades (Complementary).**

Source: NCERT chapter 2 Theory of Consumer Behaviour

<https://keydifferences.com/difference-between-substitute-goods-and-complementary-goods.html>

Q.15) Recently, the term 'Temporary Protection Directive' (TPD) was seen in news. In this context, which one of the following statements correctly describe this term?

- It is a directive for providing commando security cover to important personalities in India.
- It is a United Nation Security Council guidelines for providing protection to social workers and Journalist working in War areas.
- It is the European Commission's measure to provide immediate and temporary protection to displaced persons belonging to non-EU countries.
- These are telecom guidelines by Telecom Regulatory Authority of India for 5G spectrum auction in the country.

Ans) c

Exp) Option c is the correct answer.

Responding to refugee crisis due to the Russian invasion of Ukraine, the **EU** has made the unprecedented decision to activate the European Union's Council Directive known as the **Temporary Protection Directive** (TPD). The war in Ukraine is the **first time that the EU has invoked** the TPD.

The European Commission describes **Temporary Protection Directive** as an exceptional measure to provide **immediate and temporary protection to displaced persons from non-EU countries** and those unable to return to their country of origin.

The directive applies when there is a risk that the standard asylum system is struggling to cope with demand stemming from a mass influx risking a negative impact on the processing of claims.

Source: What is the Temporary Protection Directive of 2001, and why has the EU invoked it for refugees of the Ukraine war? -ForumIAS Blog

Q.16) Which of the following statements regarding the Price Elasticity of Demand is correct?

- It is the maximum amount a consumer is willing to pay for an additional unit of a product.
- It is the amount of change in demand of a good due to change in its price.
- It is the change in the demand of a good due to change in purchasing power of the consumer.
- It is the practice of setting the price of a product equal to the extra cost of producing an extra unit.

Ans) b

Exp) Option b is the correct answer.

Price elasticity measures how much the supply or demand of a product changes based on a given change in price.

Statement a is incorrect: The **maximum amount** a consumer is **willing to pay** for an **additional unit** of a product is referred to as the **Marginal Benefit** and not Price Elasticity of Demand. It is the measure of how the cost or value of a product changes. Companies need to take both concepts into consideration when manufacturing, pricing, and marketing a product.

Statement b is correct: **Price elasticity of Demand** measures **how much** the **demand** of a **product changes** based on a given **change in price**. Generally, the demand for goods that are easily replaceable is very volatile with respect to prices. A small increase in the price of such goods (termed as elastic goods) reduces their demand and vice versa.

Statement c is incorrect: The **change in demand** for a good or service caused by a **change in a consumer's purchasing power** resulting from a **change in real income** is termed as **Income Effect**, not the Price Elasticity of Demand.

This change can be the result of a rise in wages etc., or because existing income is freed up by a decrease or increase in the price of a good that money is being spent on.

Statement d is incorrect: In economics, the **practice of setting the price** of a product to **equal** the **extra cost of producing an extra unit** of output is called **Marginal Cost Pricing**, and not Price Elasticity of Demand. By this policy, a producer charges, for each product unit sold, only the addition to total cost resulting from materials and direct labour.

Source: <https://www.investopedia.com/terms/p/priceelasticity.asp#:~:text=Key%20Takeaways-.Price%20elasticity%20of%20demand%20is%20a%20measurement%20of%20the%20change,supply%20to%20change%20very%20much.>

Q.17) Which of the following may indicate that an economy is facing deflation?

1. Rise in general price of goods
2. Fall in the money supply
3. Fall in the aggregate demand

Select the correct answer using the code given below:

- a) 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

Deflation causes the nominal costs of capital, labor, goods, and services to fall, though their relative prices may be unchanged.

Statement 1 is incorrect: **Deflation** is a **decrease in the general price level** of goods and services. In other words, deflation is negative inflation. When it occurs, the **value of currency increases** over time. Thus, more goods and services can be purchased for the same amount of money.

Statement 2 is correct: Deflation happens when the demand for goods falls in relation to the supply. **The reduction in demand occurs due to a reduction in the supply of money in an economy.** In simple words, a shortage of money in circulation leads to a reduction in demand for goods, thus leading to deflation. A fall in money supply can mean that people, instead of spending their money immediately, prefer to save more of it. This discourages spending in the economy. Thus, leading to a decline in demand.

Statement 3 is correct: Negative events in the economy, such as recession, may cause a **fall in aggregate demand.** A decline in aggregate demand typically results in subsequent lower price and finally deflation if continued over longer period.

Source: <https://corporatefinanceinstitute.com/resources/knowledge/economics/deflation/>

Q.18) With reference to different Economic Principles, consider the following pairs:

Economic Principles	Outcome
1. Law of Diminishing Marginal Utility	With consumption of additional item, the amount of satisfaction produced is increased
2. Law of Diminishing Marginal Rate of Substitution	Consumer can never substitute one commodity for another without changing the level of satisfaction.
3. Law of Diminishing Marginal productivity	Increase in the quantity of one production variable will always increase the output

Which of the pairs given above is/are correctly matched?

- a) 1 and 2 only
- b) 1 only
- c) 2 and 3 only
- d) None of the above

Ans) d

Exp) Option d is the correct answer.

Pair 1 is incorrectly matched: The law of diminishing marginal utility holds that as we consume more of an item, the amount of satisfaction produced by each additional unit of that good declines. The change in utility gained from utilizing an additional unit of a product is known as marginal utility.

Pair 2 is incorrectly matched: Marginal Rate of Substitution is the rate at which consumer can substitute one commodity for another without changing the level of satisfaction. Marginal substitution is diminishing, meaning a consumer chooses the substitute in place of another good, rather than simultaneously consuming more. This law states that as a consumer gets more and more unit of a commodity, he will be willing to give up less and fewer units of another commodity so that the level of satisfaction of the consumer remains the same.

Pair 3 is incorrectly matched: The Law of Diminishing Marginal Product is an economics concept. It says that, at early stages of production, if we increase 1 production variable and the rest of the things remain the same, the product total production may increase. If, however, we continue to increase the input of that production variable, it will produce lesser returns (on average) per production variable. In simple words, an

increase in the quantity of 1 production variable will increase the output up to a certain point. After that point, it will give less gain for each unit added. The return on investment goes down.

Ncert 12th Chapter 3 Production and Cost

Q.19) Which one of the following statements correctly describe the term ‘Income Effect’ in an economy?

- It a situation whereby a middle-income economy is failing to transition to a high-income economy.
- It is the change in quantity supplied due to a change in the market price of the good.
- It is the change in demand for a good caused by a change in consumer's purchasing power.
- It the narrowed difference between disposable income and discretionary income.

Ans) c

Exp) Option c is the correct answer.

In microeconomics, income effect is the resultant **change in demand for a good or service** caused by an increase or decrease in a consumer's purchasing power or real income. As one's income grows, the income effect predicts that people will begin to demand more (and vice-versa).

- The income effect is the change in the consumption of goods by consumers based on their income (purchasing power). The substitution effect happens when consumers replace cheaper items with more expensive ones due to price changes or when their financial conditions improve, and vice-versa.
- The income effect can be both direct (when it is directly related to a change in income) or indirect (when consumers make buying decisions not directly related to their incomes).
- When a consumer chooses to make changes to the way they spend because of a change in income, the income effect is said to be direct. For example, a consumer may choose to spend less on clothing because their income has dropped.
- An income effect becomes indirect when a consumer is faced with making buying choices because of factors not related to their income. For instance, food prices may go up, leaving the consumer with less income to spend on other items. This may force them to cut back on dining out, resulting in an indirect income effect.

NCERT 12th Glossary

Q.20) Consider the following statements regarding ‘Northern River Terrapin’:

- It is one of the largest species of riverine turtle native to Southeast Asia.
- It is one among a few turtles having an herbivorous diet of waterside plants.
- It is categorised as ‘Critically Endangered’ on IUCN Red list.

Which of the statements given above is/are correct?

- 1 and 3 only
- 3 only
- 2 and 3 only
- 1, 2 and 3

Ans) a

Exp) Option a is the correct answer.

Forest officials had installed GPS transmitters on Northern River Terrapin in Indian Sundarbans. After just six weeks, at least three of these turtles have travelled hundreds of kilometres and are now in Bangladesh.

Statement 1 is correct: Northern River Terrapin (*Batagur baska*) is a species of **riverine turtle** native to Southeast Asia. It is one of **Asia's largest freshwater** and breakwater turtles.

Northern River Terrapin

Statement 2 is incorrect: Northern River Terrapin have an **omnivorous diet**, taking waterside plants and **small animals such as clams**. They spend most of their time in water and only come on land to lay eggs. They are even known to undertake long seasonal migrations to the sandbanks where they were hatched.

Statement 3 is correct: Northern River Terrapin are categorised as '**Critically Endangered**' on IUCN Red list. **Other protection includes CITES:** Appendix I and **Wildlife (Protection) Act, 1972:** Schedule I.

Source: Northern River Terrapin: Endangered turtles play fast and loose with borders -ForumIAS Blog

Q.21) Which among the following steps is most likely to be taken at the time of an economic recession?

- Cut in tax rates accompanied by increase in interest rate
- Increase in expenditure on public project
- Increase in tax rates accompanied by reduction of interest rate
- Reduction of expenditure on public projects

Ans) b

Exp) Option b is the correct answer.

Economic Recession refers to a **significant decline in general economic activity in a designated region**. Increase in expenditure on public projects will have a **multiplier effect** on the pace of economic growth of the country. Public expenditure has the expansionary effect on the growth of national income, employment opportunities, etc.

Private investors are incapable of making massive investments on the various infrastructural projects like road-bridge-dam construction, power plants, transport and communications, etc. It is imperative that the government undertakes such projects. **Greater the public expenditure, higher is the level of economic development.**

Source) UPSC CSE Pre 2021

Q.22) Consider the following statements with regards to the Land Reforms in India:

- The First Five-Year Plan included the policies of land reforms.
- The abolition of the zamindari system was an important aspect of the land reforms.
- Tenancy laws were uniformly implemented throughout India.

Which of the statements given above is/are correct?

- 1 only
- 2 only
- 1 and 2 only
- 1 and 3 only

Ans) c

Exp) Option c is the correct answer.

Land reform is a **form of agrarian reform involving the changing of laws, regulations, or customs regarding land ownership**. Land reform may consist of a government-initiated or government-backed property redistribution, generally of agricultural land.

Statement 1 is correct: Land reform policy was spelled out in the First Five-Year Plan. The plan aimed to reduce disparities in income and wealth, eliminate exploitation, and provide security to tenants, as well as achieve social transformation through equality of status and an opportunity for different sections of the population to participate in development initiatives.

Statement 2 is correct: From the 1950s to the 1970s, a series of land reform laws were passed – at the national level as well as in the states. The **first important legislation was the abolition of the zamindari system**, which removed the layer of intermediaries who stood between the cultivators and the state. Of all the land reform laws that were passed, this was probably the most effective. In most areas it succeeded in taking away the superior rights of the zamindars over the land and weakening their economic and political power.

Statement 3 is incorrect: Because land is subject to state control in India and the relationship between production and land tenure varies from state to state, the **national policy recommendations resulted in differing tenancy reform laws in each state**.

Tenancy is completely prohibited in some states but completely free in others. Punjab and Haryana have not prohibited tenancy whereas Karnataka has a near complete ban on tenancy. Some states have conferred ownership rights on tenant cultivators except for sharecroppers, whereas West Bengal chose to provide owner-like rights only to the sharecroppers. Some states, such as Maharashtra and Orissa, chose to provide different tenancy reform regimes for different areas within the state.

<https://ncert.nic.in/textbook/pdf/lesy204.pdf>

Q.23) Consider the following statements with reference to Economic Growth and Economic Development:

1. Unlike Economic Growth, Economic Development does not require changes in income, savings and investments in an economy.
2. Increase in government spending can foster Economic Growth while reduction in income inequality may indicate Economic Development.
3. Unlike Economic Growth, Economic Development is measured by quantitative factors such as increase in real GDP.

Which of the above given statements is/are correct?

- a) 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) a

Exp) Option a is the correct answer.

Even though the terms economic development and economic growth sound similar, there is a significant difference between the two.

Statement 1 is incorrect: Economic growth refers to an increase in the real output of goods and services in the country. In other words, the increase should be in terms of increase of output of goods and services, and not due to a mere increase in the market prices of existing goods.

Economic development implies changes in income, savings and investment along with progressive changes in socioeconomic structure of country (institutional and technological changes).

Economic development is defined as a sustained improvement in material well-being of society. Economic development is a wider concept than economic growth.

Statement 2 is correct:

Economic Growth relates to a gradual increase in one of the components of Gross Domestic Product: consumption, **government spending**, investment, net exports.

Economic Development relates to growth of human capital, decrease in inequality figures, and structural changes that improve the quality of life of the population.

Statement 3 is incorrect:

Economic Growth is measured by **quantitative factors such as increase in real GDP or per capita income**. The qualitative measures such as HDI (Human Development Index), gender-related index, Human poverty index (HPI), infant mortality, literacy rate etc. are used to measure economic development

Source:

https://nios.ac.in/media/documents/SrSec318NEW/318_Economics_Eng/318_Economics_Eng_Lesson3.pdf

Q.24) Which of the following statements are correct regarding the causes for stagnation of Indian agricultural sector during colonial period?

1. Exploitative land revenue settlements had impoverished the peasantry
2. Large scale Commercialisation of agriculture leading to shortage of food crops
3. Lack of irrigation facilities negatively impacting the overall production
4. Low levels of technology, resulting in poor agricultural productivity

Select the correct answer using the code given below:

- a) 1 and 4 only
- b) 1, 2 and 3 only
- c) 1, 3 and 4 only
- d) 1, 2, 3 and 4

Ans) c

Exp) Option c is the correct answer.

Statement 1 is correct. The **stagnation in the agricultural sector** during colonial period was caused mainly because of the various systems of **land settlement** that were introduced by the colonial government particularly, under the **zamindari system**. The main interest of the zamindars was only to collect rent regardless of the economic condition of the cultivators; this caused immense misery and social tension among the latter.

Statement 3 and 4 are correct. Besides this, **low levels of technology, lack of irrigation facilities** and negligible use of fertilisers, all added up to aggravate the plight of the farmers and contributed to the **dismal level of agricultural productivity**.

Statement 2 is incorrect. There was, of course, some evidence of a relatively higher yield of cash crops in certain areas of the country due to **commercialisation of agriculture**. **But there was no large-scale commercialisation of agriculture and thus could not be attributed as a reason behind the stagnation of the Indian agriculture sector during the colonial period.**

Despite some progress made in irrigation, India's agriculture was **starved of investment** in terracing, flood-control, drainage and desalinisation of soil. While a small section of farmers changed their cropping pattern from food crops to commercial crops, a large section of tenants, small farmers and sharecroppers neither had resources and technology nor had incentive to invest in agriculture.

Source: Indian Economic Development' Class 11-NCERT

Q.25) Consider the following pairs with reference to various International Conventions and their subject matter:

International Conventions	Subject matter
1. Third Geneva Convention (2005)	Treatment of Prisoners of War
2. New York Convention (1958)	Protection of Civilian Persons in Time of War
3. Vienna Convention (1961)	Diplomatic relations between independent countries.
4. Basel Convention (1992)	Reducing Greenhouse gas and Climate change

How many pairs given above is/are correctly matched?

- One pair only
- Two pairs only
- Three pairs only
- All four pairs

Ans) b

Exp) Option b is the correct answer.

This question is based on the article “**What are the Geneva Conventions guidelines during wartime?**”. As the Russian-Ukraine Conflict gets intense, there is growing concern surrounding the issue of violations of human rights and Geneva Conventions. The above given international conventions are often seen in news and it therefore becomes important from exam point of view.

Pair 1 is correctly matched: The **Geneva Conventions (1949)** and their Additional Protocols are international treaties that contain the most important rules limiting the barbarity of war. The convention contains four treaties, formalized in 1949 and three additional protocols, the first two of which were formalized in 1977 and the third in 2005.

- The first Geneva Convention protects wounded and sick soldiers on land during the war.
- The second Geneva Convention protects wounded, sick and shipwrecked military personnel at sea during the war.
- The **third Geneva Convention applies to prisoners of war.**
- The fourth Geneva Convention affords protection to civilians, including in occupied territory.

Pair 2 is incorrectly matched: The Convention on the Recognition and Enforcement of Foreign Arbitral Awards, commonly known as the **New York Convention**, was adopted by a United Nations diplomatic conference on 10 June 1958 and entered into force on 7 June 1959. It is the **foundational instrument for international arbitration**, it applies to arbitrations that are not considered as domestic awards in the state where recognition and enforcement is sought. The Convention requires courts of contracting states to give effect to private agreements to arbitrate and to recognize and enforce arbitration awards made in other contracting states.

Pair 3 is correctly matched: The **Vienna Convention on Diplomatic Relations of 1961** is an international treaty that defines a **framework for diplomatic relations between independent countries**. Its aim is to facilitate “the development of friendly relations” among governments through a uniform set of practices and principles; most notably, it codifies the longstanding custom of diplomatic immunity, in which

diplomatic missions are granted privileges that enable diplomats to perform their functions without fear of coercion or harassment by the host country.

Pair 4 is incorrectly matched: The **Basel Convention (1992) on the Control of Transboundary Movements of Hazardous Wastes and Their Disposal**, usually known as the Basel Convention, is an international treaty that was designed to **reduce the movements of hazardous waste between nations, and specifically to prevent transfer of hazardous waste** from developed to less developed countries (LDCs).

Q.26) The concept of 'Invisible hand' in relation to an economy entails which of the following?

- An unobservable market force that helps the demand and supply of goods to reach equilibrium automatically.
- Unregistered firms in a market which destabilise the market equilibrium by their distortive price policies.
- Invisible role of Government in controlling the production of goods to maintain the market equilibrium.
- Distortions in the demand-supply curve in a market due to hoarding and black-marketing of goods.

Ans) a

Exp) Option a is the correct answer.

The **Invisible Hand** is a metaphor for the unseen forces that move the free market economy, where self-interested individuals operate through a system of mutual interdependence.

Definition: The unobservable market force that helps the demand and supply of goods in a free market to reach equilibrium automatically is the invisible hand.

The phrase invisible hand was introduced by Adam Smith in his book 'The Wealth of Nations'. He assumed that an economy can work well in a free-market scenario where everyone will work for his/her own interest.

In a free-market scenario where there are no regulations or restrictions imposed by the government, if someone charges less, the customer will buy from him. Therefore, you have to lower your price or offer something better than your competitor. Whenever enough people demand something, it will be supplied by the market and everyone will be happy. The seller ends up getting the price and the buyer will get better goods at the desired price.

Q.27) With reference to the New Strategic Disinvestment Policy of Central Public Sector Enterprises (CPSEs), consider the following statements:

- The Department of Investment and Public Asset Management is the nodal department for the Strategic disinvestment.
- Strategic disinvestment in CPSEs includes the transfer of management control to a private entity.
- The Banking sector is recognized as a strategic sector under this policy.

Which of the statements given above is/are correct?

- 2 only
- 3 only
- 1 and 2 only
- 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

Divestment or disinvestment means selling a stake in a company, subsidiary or other investments. Businesses and governments resort to divestment generally as a way to pare losses from a non-performing asset, exit a particular industry, or raise money.

Statement 1 is correct: Strategic disinvestment is transferring the ownership and control of a public sector entity to some other entity (mostly to a private sector entity). Unlike the simple disinvestment, strategic sale implies some sort of privatization. The **Union Cabinet has approved a new process of strategic disinvestment with a view to expediting privatization of select PSUs.** Under the new policy, the **Department of Investment and Public Asset Management (DIPAM) under the Ministry of Finance has been made the nodal department** for the strategic stake sale.

DIPAM and NITI Aayog will jointly identify PSUs for strategic disinvestment. The decision has been taken with a view to streamlining and speeding up the process.

Statement 2 is correct: Strategic disinvestment is defined as the **sale of substantial portion of Government shareholding in identified CPSEs up to 50 per cent or more, along with transfer of management control.**

Statement 3 is correct: The **government has decided that bare minimum presence of the public sector enterprises would be there which are considered strategic.** And remaining will be either privatized or merged or subsidiarized with other CPSEs or closed. The 4 sectors that come under it are **Atomic energy, Space and Defense; Transport and Telecommunications; Power, Petroleum, Coal and other minerals; and Banking, Insurance and financial services.**

Source: <https://dipam.gov.in/strategic-disinvestment>

<https://pib.gov.in/PressReleasePage.aspx?PRID=1693899>

Q.28) Consider the following statements:

1. The Lorenz curve represents the wealth distribution of the nation.
2. The Gini Coefficient of India has increased in the past decade.
3. The Gini Coefficient can be represented graphically through the Lorenz curve.

Which of the above statements is/are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) d

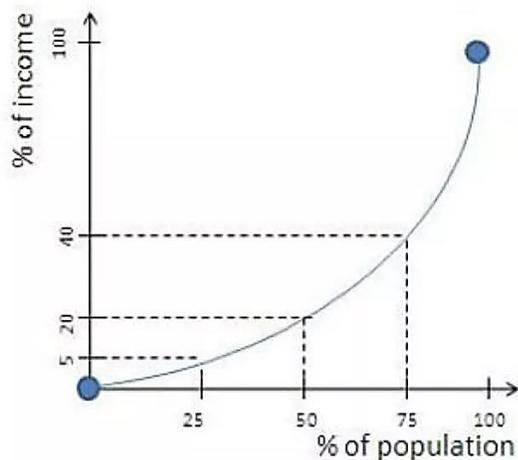

Exp) Option d is the correct answer.

Many graphical representations of distribution of resources aid in understanding the economy in better manner.

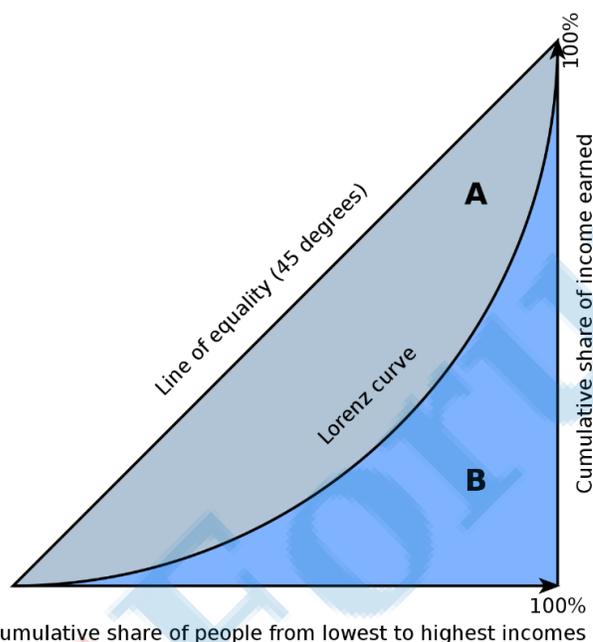

Statement 1 is correct: The **Lorenz curve is the graphical representation of wealth distribution** developed by American economist Max Lorenz in 1905. On the graph, a **straight diagonal line represents perfect equality of wealth distribution; the Lorenz curve lies beneath it, showing the reality of wealth distribution.**

Statement 2 is correct: The Gini (inequality in income distribution) coefficient points to an increasing inequality in India. The coefficient increased to 35.7 per cent in 2011 and to 47.9 per cent in 2018.

Statement 3 is correct: The **Gini index is often represented graphically through the Lorenz curve**, which shows income (or wealth) distribution by plotting the population percentile by income on the horizontal axis and cumulative income on the vertical axis. The Gini co-efficient is equal to the area below the line of perfect equality minus the area below the Lorenz curve, divided by the area below the line of perfect equality.

Knowledge Base:

Source: <https://www.investopedia.com/terms/l/lorenz-curve.asp>
<https://ncert.nic.in/textbook/pdf/kest106.pdf>

Q.29) Which of the following can be considered as factors responsible for Balance of Payment crisis faced by India in 1991?

1. The Gulf War
2. Rising Fiscal Deficit
3. Huge drop in foreign exchange reserves
4. Consistent rise in the general price level of goods
5. "The Great Recession" around the world economy

Select the correct answer using the code given below:

- a) 2 and 5 only
- b) 1, 2 and 3 only
- c) 1, 2, 3 and 4 only
- d) 1, 2, 3, 4 and 5

Ans) c

Exp) Option c is the correct answer.

Economic reforms refer to the fundamental changes that were launched in 1991 with the plan of liberalising the economy and quickening its rate of economic growth. The Narasimha Rao Government, in 1991, started the economic reforms in order to rebuild internal and external faith in the Indian economy.

Option 1 and 2 are correct: Gulf War was a conflict between Iraq and 34 other countries, led by the United States. It started with the invasion of Kuwait. This affected oil prices. India's **oil import bill swelled**, exports slumped, credit dried up, and investors took their money out. **Large fiscal deficits, over time, had a spillover effect on the trade deficit** culminating in an external payments crisis. By the end of the 1980s, India was in serious economic trouble. The Government Expenditure was more than the earnings. Hence the Fiscal Deficit was high. The **Gross Fiscal deficit rose from 9 % of GDP in 1980-81 to 12.7 % of GDP in 1990-91**. The Internal Debt of the Government rose due to the above reason. It rose from 35 % of GDP in 1985-86 to 53 % of GDP in 1990-91.

Option 3 and 4 are correct: Before **economic reforms occurred, imports grew at a very high rate without matching the growth of exports**. Government **could not restrict imports even after imposing heavy tariffs and fixing quotas**. This had **resulted in huge balance of payment of crisis**. Added to that, **there was a consistent rise in the general price level of essential goods in the economy**.

By **June 1991, India had less than \$1 billion in foreign exchange reserves**, bar barely enough to cover imports for three weeks. India lacked sufficient foreign exchange reserves to conduct international trade and was about to default on its international debt obligations. Investors withdrew their funds. By June 1991, India had less than \$1 billion in foreign exchange reserves, barely enough to cover imports for three weeks. India lacked sufficient foreign exchange reserves to conduct international trade and was about to default on its international debt obligations. The average rate of inflation was 7.5 percent in 1989-90, which went up to 10 percent in the year 1990-91. In 1991-92, it crossed 13 percent.

Option 5 is incorrect: The Global Financial Crisis of 2008-2009 is widely referred to as “The Great Recession.”

The Global Financial Crisis of 2008-2009 refers to the massive financial crisis the world faced from 2008 to 2009. It began with the housing market bubble, created by an overwhelming load of mortgage-backed securities that bundled high-risk loans.

Source: <https://ncert.nic.in/ncerts/l/keec103.pdf>

<https://www.imf.org/external/pubs/ft/wp/2004/wp0443.pdf>

Q.30) Consider the following statements regarding ‘Facility for Low Carbon Technology Deployment Project’:

1. The project was launched by United Nations Industrial Development Organisation.
2. Under the project, annual innovation challenges are conducted with an opportunity to win financial assistance.
3. The project is funded by World Bank in collaboration with Government of India and Japan.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 3 only
- d) 1, 2 and 3

Ans) a

Exp) Option a is the correct answer.

This question is based on the article “BEE observes its 20th foundation day with the National Innovation Conclave on Low Carbon Technologies”.

Statement 1 is correct: The Facility for Low Carbon Technology Deployment (FLCTD) Project was launched in 2016 by United Nations Industrial Development Organisation (UNIDO) in collaboration with the Bureau of Energy Efficiency (BEE). It aims to identify innovative energy efficiency and low carbon technology solutions that address the existing technology gaps in the Indian industrial and commercial sectors.]

Statement 2 is correct: Under the Project, **annual innovation challenges** are conducted in the following **six areas:** Waste Heat Recovery, Space Conditioning, Pumps, Pumping Systems and Motors, Industrial IoT, Industrial Resource Efficiency and Electrical Energy Storage.

The winners of the challenge receive financial assistance of up to US\$50,000 to validate their innovation and demonstrate its efficacy (performance) in actual field conditions – a necessary step before commercialization.

Statement 3 is incorrect: The project is being funded by Global Environment Facility (GEF) and not by World Bank. **Global Environment Facility (GEF)** was established on the eve of the 1992 Rio Earth Summit to help tackle our planet's most pressing environmental problems.

An **independently operating financial organization**, the GEF provides grants for projects related to biodiversity, climate change, international waters, land degradation, the ozone layer, persistent organic pollutants (POPs), mercury, sustainable forest management, food security, sustainable cities.

Source: FLCTD Project: BEE observes its 20th foundation day with the National Innovation Conclave on Low Carbon Technologies -ForumIAS Blog
FLCTD (low-carbon-innovation.org)

Q.31) With reference to the funds under Members of Parliament Local Area Development Scheme (MPLADS), which of the following statements are correct?

1. MPLADS funds must be used to create durable assets like physical infrastructure for health, education etc.
2. A specified portion of each MP's fund must benefit SC/ST populations.
3. MPLADS funds are sanctioned on yearly basis and the unused funds cannot be carried forward to the next year.
4. The district authority must inspect at least 10% of all works under implementation every year.

Select the correct answer using the code given below:

- a) 1 and 2 only
- b) 3 and 4 only
- c) 1, 2 and 3 only
- d) 1, 2 and 4 only

Ans) d

Exp) Option d is the correct answer.

Statements 1 is correct. The Members of Parliament Local Area Development Scheme (MPLADS) is an ongoing Central Sector Scheme which was launched in 1993-94. The Scheme enables the Members of Parliament to **recommend works for creation of durable community assets** based on locally felt needs to be taken up in their constituencies in the area of national priorities namely drinking water, education, public health, sanitation, roads etc.

All works to meet locally felt infrastructure and development needs, with an emphasis on creation of durable assets in the constituency are permissible under MPLADS as prescribed in the scheme guidelines.

The Ministry of Statistics and Programme Implementation has been responsible for the policy formulation, release of funds and prescribing monitoring mechanism for implementation of the Scheme.

Statements 2 is correct. MPs are to recommend every year, **works costing at least 15 per cent of the MPLADS entitlement for the year for areas inhabited by Scheduled Caste population and 7.5 per cent for areas inhabited by S.T. population.**

Statements 3 is incorrect. The funds under MPLADS are non-lapsable. Thus, funds are not relapsed if unused in a year but is carried forward to the next year.

Statements 4 is correct. The District Authority would be responsible for overall coordination and supervision of the works under the scheme at the district level and **inspect at least 10% of the works under implementation every year.** The District Authority should involve the MPs in the inspections of projects to the extent feasible.

Source) UPSC CSE Prelims 2020

Q.32) Which one of the following statements is most closely related to the Amartya Sen's idea of development?

- It emphasises on provisioning of basic needs for all.
- It links the human development to income levels in the society.
- It sees human beings as beneficiaries of all development activities.
- It emphasizes on expanding freedom to improve human development.

Ans) d

Exp) Option d is the correct answer.

Option a is incorrect: Basic Needs approach of human development was initially proposed by the International Labour Organisation (ILO). It identified six basic needs i.e.: health, education, food, water supply, sanitation, and housing. It ignored the question of human choices.

Option b is incorrect: Income approach links the human development to income. The idea is that the level of income reflects the level of freedom an individual enjoys.

Option c is incorrect: Welfare approach of human development sees human beings as beneficiaries or targets of all development activities. People are treated as passive recipients. It is the responsibility of the government for increasing levels of human development by maximising expenditure on education, health, social secondary and amenities.

Option d is correct: Amartya Sen's idea of development is based on Capability approach. According to him, **development is the process of expanding human freedom.** He advocated building human capabilities in the areas of health, education and access to resources that is the key to increasing human development.

Source: <https://ncert.nic.in/ncerts/l/legy104.pdf>

Q.33) You often hear the terms 'recession' and 'depression' in relation to movement of economies around the globe. In this context, how would you differentiate between recession and depression?

- While demand may or may not decrease during a recession, there is always a general fall in total demand during a depression.
- While the inflation rate decreases during a recession, depression is characterized by higher inflation.
- Unlike recession, depression is characterized by a fall in the employment rate.
- Depression typically lasts for longer time than recession.

Select the correct answer using the code given below:

- 1, 2 and 3 only
- 3 and 4 only
- 4 only
- 1, 2 and 4 only

Ans) c

Exp) Option c is the correct answer.

An economic recession is often defined as a decline of real gross domestic product (GDP) for **two consecutive quarters**. On the contrary, an economic depression is typically understood as an extreme downturn in economic activity **lasting several years**. A depression is a more severe recession.

Statement 1 is incorrect: There is a **general fall in demand** as economic activities takes a downturn **during recession**. Thus, there is no increase in demand even at a decreasing rate. Similarly, during depression, an extremely low aggregate demand in the economy causes activities to decelerate.

Statement 2 is incorrect: Inflation remains lower or/and shows further signs of falling down during recession. The inflation is **comparatively much lower during the times of depression**.

Statement 3 is incorrect: **Employment rate falls/unemployment rate grows** during both recession and depression. The employment avenues start shrinking forcing unemployment rate to grow fast during these times.

Statement 4 is correct: Depressions tend to be much more severe and **they tend to last for a much longer period of time than recession**.

Indian Economy, Ramesh Singh, Chapter-7, Inflation and Business Cycles

Q.34) With reference to the Special Data Dissemination Standard (SDDS) of the International Monetary Fund, consider the following statements:

1. It was established for the member countries as a framework for providing their economic and financial data to the public.
2. India has subscribed to the Special Data Dissemination Standard.
3. The SDDS Plus is open only to the economies with systemically important financial sectors.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 only
- d) 1, 2 and 3

Ans) a

Exp) Option a is the correct answer.

Under the Special Data Dissemination Standards (SDDS) of the International Monetary Fund (IMF), central banks undertake the responsibility of disseminating information under certain data categories, such as, analytical accounts of the banking sector, analytical accounts of the central bank, balance of payments, international reserves and exchange rates. The IMF requires that these data should be available at regular intervals in public domain.

Statement 1 is correct: The **Special Data Dissemination Standard (SDDS) was established** in 1996 to guide members that have/seek access to **international capital markets** in the provision of their economic and financial data to the public.

Statement 2 is correct: **India had subscribed to the IMF's Special Data Dissemination Standard** in 1996. More than 95 percent of IMF member countries participate in the e-GDDS, SDDS, or SDDS Plus. The Reserve Bank of India is one of the earliest central bank signatories of SDDS.

Statement 3 is incorrect: In 2012, the **Special Data Dissemination Standard (SDDS) Plus** was created as an upper tier of the IMF's Data Standards Initiatives to help address data gaps identified during the global financial crisis. **The SDDS Plus is open to all SDDS subscribers, although it is principally aimed at**

economies with systemically important financial sectors. In addition to the requirements under the SDDS, the SDDS Plus emphasizes more ambitious data dissemination practices to enhance data transparency and help strengthen the international financial system.

Knowledge Base:

The **General Data Dissemination System (GDDS)** was established in 1997 for member countries with less developed statistical systems as a **framework for evaluating their needs for data improvement and setting priorities.**

Both the General Data Dissemination System (GDDS) and the SDDS are expected to enhance the availability of timely and comprehensive statistics and therefore contribute to the pursuit of sound macroeconomic policies; the SDDS is also expected to contribute to the improved functioning of financial markets.

Q.35) With reference to Sagar Parikrama, consider the following statements:

1. It is a programme launched by Ministry of Defense in collaboration with coastal state governments.
2. It will conduct the navigation journey in all the coastal states to demonstrate solidarity with all fisherfolk in the country.
3. The initiative has been launched as a part of Atmanirbhar Bharat Programme of making India self-sufficient.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 only
- c) 2 and 3 only
- d) 3 only

Ans) b

Exp) Option b is the correct answer.

Oceans are vital to the economies, security and livelihoods of Indian coastal states. India has a coastline of 8118 km covering 9 maritime States/4 UTs and providing livelihood support to millions of coastal fisherfolk.

Statement 1 is incorrect: Sagar Parikrama is launched by **Ministry of Fisheries, National Fisheries Development Board** along with Government of Gujarat, Indian Coast Guard, Fishery Survey of India and Gujarat Maritime Board.

Statement 2 is correct: Sagar Parikrama is a **navigation journey** to be conducted in all coastal states/UTs through a pre-decided sea route to demonstrate solidarity with all fisherfolk, fish farmers and concerned stakeholders.

Statement 3 is incorrect: **Sagar Parikrama** initiative has been launched as a part of 'Azadi Ka Amrit Mahotsava' and not as a part of Atmanirbhar Bharat. Azadi Ka Amrit Mahotsava is one of the significant initiatives of the Government of India to celebrate and commemorate 75 years of independence and the glorious history of its people, culture and achievements.

Q.36) Suppose the Gross Domestic Product (GDP) of a country is increasing constantly. In such a scenario, which of the following is definitely true?

1. The quality and standard of life is increasing within the middle class and lower class in the same proportion.
2. The income inequality is decreasing in the country.

3. The volume of goods and services produced within the country is increasing
4. The unemployment rate is declining in the country.

Select the correct answer from the code given below:

- a) 1 and 2 only
- b) 3 only
- c) 2, 3 and 4 only
- d) None

Ans) d

Exp) Option d is the correct answer.

Gross domestic product, or GDP, measures the total output of the economy, including activity, stability, and growth of goods and services; as such, it's seen as a proxy for the economy.

Statement 1 is incorrect: Economic growth and economic development may mean that the quality of life increases faster within the **middle class than within the lower class. The lower class may not gain in the same proportion as individuals who are placed in higher income groups.**

Statement 2 is incorrect: The **rising GDP may or may not lead to decline in inequality** depending upon the distribution of the income.

Statement 3 is incorrect: Gross domestic product (GDP) is the total monetary or market value of all the finished goods and services produced within a country's borders. **Sometimes it may happen that the increase in GDP is not due to increase in volume of goods and services produced but merely due to increase in inflation. Due to inflation, GDP increases and does not actually reflect the true growth in an economy.**

Statement 4 is incorrect: **GDP and unemployment rates usually go together** because a decrease in the GDP is reflected in a decrease in the rate of employment. A rise in employment levels is a natural result of increased GDP levels caused by an increase in consumer demands for goods and services. But we have seen instances of **jobless growth** in India (**constant unemployment despite rising GDP**).

Q.37) Which of the following are the correct impacts of the economic policies pursued by the colonial government in India?

1. Commercialization of agriculture led to the emergence of the capitalist landowner in India.
2. De-industrialization of textiles sector in India.
3. One-way free trade regime in India led to ruralisation of the population.

Select the correct answer from the code given below:

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

Britain's relationship with her Indian colony was one of political subordination, but economic exploitation formed the core of this relationship. This process of colonization was geared clearly to benefit the mother country, even at the cost of the colony.

Statement 1 is incorrect: Commercialisation of agriculture led to differentiation within the agricultural sector, but **did not create the figure of the 'capitalist landowner'** as in Britain. The **lack of any simultaneous large scale industrial development** meant that accumulated agrarian capital had no viable channels of investment, for it to be converted into industrial capital. Commercialization increased the level of sub-infeudation in the countryside and money was channelised into trade and usury.

Statement 2 is correct: With the coming of industrialisation in England, there was a massive import of machine made clothes from English factories to Indian markets. This import of large amount of products manufactured by mechanical looms in England led to increase threat for the handicraft industries as the British goods were sold at a much cheaper price. This made a huge impact on the Indian handloom weaving industry leading to its virtual collapse. **This process of uneven competition faced by the Indian handloom industry was later dubbed by the Indian nationalist leaders as de-industrialisation.**

The **drain of wealth** checked and retarded capital formation in India while the same portion of wealth **accelerated the growth of British economy.** The surplus from British economy re-entered India as finance capital, further draining India of its wealth. This had immense effect on income and employment potential within India.

Statement 3 is correct: The British enforced a **one way free trade**, whereby the entry of Indian commodities in British markets was restricted by high custom duties. In turn, the Industrial Revolution in Europe enabled the mass production of cheap machine-made goods, which flooded Indian markets. Unable to compete with this, Indian commodities lost both their overseas and domestic markets. This destructive process led to **deindustrialisation** that in turn led to the decline of many cities and a process of **ruralisation of India.** Many artisans, faced with diminishing returns and repressive policies abandoned their professions, moved to villages and took to agriculture.

Knowledge Base:

The major components of this drain were salaries and pensions of civil and military officials, interests on loans taken by the Indian Government from abroad, profits on foreign investment in India, stores purchased in Britain for civil and military departments, payments to be made for shipping, banking and insurance services which stunted the growth of Indian enterprise in these services.

https://nios.ac.in/media/documents/SrSec315NEW/315_History_Eng/315_History_Eng_Lesson17.pdf

Q.38) Consider the following statements with reference to the foreign trade in India during the British Rule:

1. India never had a trade surplus under the British rule.
2. Increase in exports from India led to flow of huge volume of silver and gold into India.
3. About half of the total foreign trade from India was done with Britain only.

Which of the above given statements is/are correct?

- a) 1 and 3 only
- b) 2 and 3 only
- c) 3 only
- d) 1 and 2 only

Ans) c

Exp) Option c is the correct answer.

Before the colonial period, India was a big player in the foreign trade. Having established itself well on the world map, pre-colonial India was blooming with opportunities. **At the beginning of 19th century, the share of India in the world economy was around 20%. But by the time British left India, the share was reduced to around 4%.**

Statement 1 is incorrect and Statement 2 is incorrect: Foreign trade of India during the colonial period generated a surplus due to excess exports. However, this surplus export did not flow any silver or gold into India. Rather, this surplus export was utilized to make payments for:

- (1) The costs made for the office set up by the colonial government in Britain
- (2) Expenses on the war fought by the British government
- (3) Import of invisible items etc.

All of this led to the drain of Indian wealth.

Statement 3 is correct: Britain retained its monopoly control and ruled over India's imports and exports. Half of India's foreign trade was only authorized to Britain. And the rest half was allowed to trade with only handful of other countries like Ceylon (Sri Lanka), China, and Persia (Iran).

Q.39) Consider the following pairs:

Schemes	Features
1. One Nation, One Ration Card	Successfully expanded to all the 36 states/UTs in India recently
2. PM SVANidhi	Provides collateral free working capital loans to street vendors
3. Pradhan Mantri Kaushal Vikas Yojana	Recognition of Prior Learning is one its component

How many of the above pairs are correctly matched?

- a) Only one pair
- b) Only two pairs
- c) All three pairs
- d) None of the pairs

Ans) c

Exp) Option c is the correct answer.

Pair 1 is correct. Assam has become the 36th State/UT to implement One Nation One Ration Card (ONORC). With this, the ONORC plan is successfully implemented in all the 36 states/UTs, making food security portable throughout the country.

The 'One Nation, One Ration Card' is a tech-driven system that ensures hassle-free delivery of subsidized food grains to all beneficiaries anywhere in the country. It provides a nation-wide portability of ration cards under National Food Security Act (NFSA)

Pair 2 is correct. Ministry of Housing & Urban Affairs launched a scheme PM Street Vendor's AtmaNirbhar Nidhi (PM SVANidhi) to empower Street Vendors. The scheme extends loans to them for their holistic development and economic upliftment. The scheme intends to facilitate **collateral free working capital loans of up to INR10,000/- of one-year tenure**, to approximately 50 lakh street vendors. It helps to resume their businesses in the urban areas, including surrounding peri-urban/rural areas.

Pair 3 is correct. Recognition of Prior Learning (RPL) is a component of Pradhan Mantri Kaushal Vikas Yojana (PMKVY) Scheme in which individuals with prior learning experience or skills are assessed and certified. Skill India Mission was launched and under its flagship scheme, Pradhan Mantri Kaushal Vikas Yojana (PMKVY), **Recognition of Prior Learning (RPL) programme** was launched with a focus on re-skilling and up-skilling in prominent trades. The Skill India Mission covers short-term training, long term training, apprenticeship training of industry, skill development and entrepreneurship, as well as some of the skill programmes of other Union Ministries too.

Q.40) Consider the following statements regarding 'Swatantrata Sainik Samman Yojana':

1. The scheme provides a one-time monetary felicitation to freedom fighters for their contribution in the national freedom struggle.
 2. The Ministry of Statistics and Programme Implementation is the nodal ministry for the yojana.
- Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) d

Exp) Option d is the correct answer.

The government has recently approved the continuation of the Swatantrata Sainik Samman Yojana (SSSY) till 2025-26.

Statement 1 is incorrect: Swatantrata Sainik Samman Yojana (SSSY) aims to provide a monthly Samman Pension (not one-time monetary felicitation) to freedom fighters, as a token of respect for their contribution in the national freedom struggle and on their demise to their eligible dependents viz. spouses and thereafter, unmarried and unemployed daughters and dependent parents.

Statement 2 is incorrect: Ministry of Home Affairs is the nodal agency for the scheme. In 1972, to commemorate the 25th Anniversary of Independence, a regular scheme for grant of freedom fighters' pension was introduced. Thereafter, in 1980, a scheme by the name 'Swatantrata Sainik Samman Pension Scheme' was implemented. From 2017-18 onwards, the nomenclature of the Scheme has been changed to 'Swatantrata Sainik Samman Yojana'.

Source: Government has approved continuation of Swatantrata Sainik Samman Yojana(SSSY) -ForumIAS Blog

Q.41) With reference to India's Five -Year Plans, which of the following statements is/are correct?

1. From the Second Five -Year Plan, there was a determined thrust towards substitution of basic and capital good industries.
2. The Fourth Five -Year Plan adopted the objective of correcting the earlier trend of increased concentration of wealth and economic power.
3. In the Fifth Five -Year Plan, for the first time, the financial sector was included as an integral part of the Plan.

Select the correct answer using the code given below:

- a) 1 and 2 only
- b) 2 only
- c) 3 only
- d) 1, 2 and 3

Ans) a

Exp) Option a is the correct answer.

Statement 1 is correct. From the Second Five -Year Plan, there was a determined thrust towards substitution of basic and capital good industries. India adopted the strategy of Import Substitution Industrialization (ISI) with the objective to build a self -reliant economy.

Statement 2 is correct. The Fourth Five -Year Plan adopted the objective of correcting the earlier trend of increased concentration of wealth and economic power. The Plan now aimed to assist the less prosperous sections of agriculture to improve their position and make a yet bigger contribution to the national economy.

Statement 3 is incorrect. For the first time in Indian planning, Financial sector became an integral part of the plan in the Ninth Five – Year Plan.

Q.42) Which of the following shows the deglobalisation trends around the world?

1. Brexit (United Kingdom's departure from the European Union)
2. Disruptions in global supply chains after COVID-19 pandemic
3. Huge decline in Global foreign direct investment flows in 2021
4. Russia-Ukraine war
5. Climate change

Select the correct answer from the code given below:

- a) 1, 4 and 5 only
- b) 2, 3 and 5 only
- c) 1, 2 and 4 only
- d) 1, 2, 3, 4 and 5

Ans) c

Exp) Option c is the correct answer.

Deglobalization or deglobalisation is the process of diminishing interdependence and integration between certain units around the world, typically nation-states. It is widely used to describe the periods of history when economic trade and investment between countries decline.

Option 1 is correct. Brexit is the name given to the United Kingdom's departure from the European Union. **It is a combination of Britain and exit.**

Brexit shows up the failures of globalisation. **Brexit is a unique example of deglobalisation** that will hurt Britain's economy as trade ties with the EU are weakened.

Option 2 is correct.

The COVID-19 pandemic blocked the **world economy to retreat from global economic integration**. World trade was declined. The pandemic has reinforced concerns around the world that supply chains have gone too far. Export bans have been imposed over concerns about inadequate domestic production of medical equipment, personal protective equipment, and pharmaceuticals. **Protectionism and Vaccine nationalism** was witnessed around countries.

Option 3 is incorrect.

Global foreign direct investment (FDI) flows showed a strong rebound in 2021, up 77% to an estimated \$1.65 trillion, from \$929 billion in 2020, surpassing their pre-COVID-19 level, according to UNCTAD's Investment Trends Monitor.

Option 4 is correct.

Risks of deglobalization have risen markedly since the Russian invasion of Ukraine. The war also greatly compounds a number of pre-existing adverse global economic trends, including rising inflation, extreme

poverty aiding deglobalization. Supply chain disruptions, disruption to the international division of labour are some impacts of the war leading to deglobalization trends.

Option 5 is incorrect.

Economic globalisation, and not deglobalisation has contributed to climate change.

Freer flow of goods, services, technologies, finance and people is essential to deal with the challenges of climate change.

Also, globalisation and not **deglobalization can** reduce negative consequences of climate change. **Globalisation accelerates the diffusion of climate-friendly technologies** through global networks of industry, capital flows and research and development. In addition, the spread of new technologies will facilitate monitoring and increase transparency on climate action.

Q.43) Consider the following statements with reference to the Liquidity trap:

1. It is a situation when expansionary monetary policy does not increase the market interest rates.
2. Public would not want to purchase bonds during a Liquidity trap situation.
3. Open market operations has no effect on the market interest rates in case of a Liquidity trap.
4. Savings rates are high during Liquidity trap.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 4 only
- c) 1, 3 and 4 only
- d) 1, 2, 3 and 4

Ans) d

Exp) Option d is the correct answer.

Statement 1 is correct. Liquidity trap is a situation **when expansionary monetary policy (increase in money supply) does not increase the interest rate**, income and hence does not stimulate economic growth.

Liquidity trap is the extreme effect of monetary policy. It is a situation in which the general public is prepared to hold on to whatever amount of money is supplied, at a given rate of interest. They do so because of the fear of adverse events like deflation, war.

There is a liquidity trap at a short-term zero percent interest rate. When the interest rate is zero, the public would not want to hold any bond, since money, which also pays zero percent interest, has the advantage of being usable in transactions.

Statement 2 is correct. During a liquidity trap, consumers choose to avoid bonds and keep their funds in cash savings. It is because of the prevailing belief that interest rates could soon rise, which would push bond prices down. Because bonds have an inverse relationship to interest rates, many consumers do not want to hold an asset with a price that is expected to decline.

Statement 3 is correct. In case of Liquidity trap, a monetary policy carried out through **open market operations has no effect on either the interest rate, or the level of income.** In a liquidity trap, the monetary policy is powerless to affect the interest rate.

Statement 4 is correct. In a liquidity trap situation, the interest rates in an economy are at extremely low levels and **savings rates are high.**

Source: <https://economictimes.indiatimes.com/definition/liquidity-trap>

Q.44) Consider the following statements about National monetisation pipeline (NMP):

1. Under NMP, the government transfers revenue rights to private parties in return for money or revenue share.
2. Roads, railways and power sector assets comprise more than half of the assets to be monetized under NMP.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) c

Exp) Option c is the correct answer.

The Union Budget 2021-22 envisioned preparation of a “National Monetisation Pipeline” (NMP) to provide a direction to the monetisation initiative and visibility of investors. In pursuance of the same, NITI Aayog was tasked with creation of the National Monetisation Pipeline (NMP) for brownfield core infrastructure assets.

Statement 1 is correct. NMP aims to unlock value in **brownfield projects by engaging the private sector, transferring to them revenue rights and not ownership in the projects**, and using the funds so generated for infrastructure creation across the country.

In a monetisation transaction, the **government is basically transferring revenue rights to private parties for a specified transaction period in return for upfront money, a revenue share**, and commitment of investments in the assets.

Statement 2 is correct. **Roads, railways and power sector assets will comprise over 66% of the total estimated value of the assets to be monetised**, with the remaining upcoming sectors including telecom, mining, aviation, ports, natural gas and petroleum product pipelines, warehouses and stadiums.

Q.45) New Delhi declaration of BRICS adopted recently, deals with which one of the following subjects?

- a) To cooperate for promotion of modern technologies
- b) To resolve all disputes by peaceful means
- c) To promote the generation of solar power
- d) To build a parallel multilateral trading system

Ans) b

Exp) Option b is the correct answer.

Russian president announced military action in Ukraine to protect Russians from genocide and for de-Nazification and demilitarization of Ukraine.

At the end of the **virtual 13th BRICS Summit** on Thursday, the **New Delhi Declaration** was adopted.

Paragraph 22 of the New Delhi declaration adopted on September 9, 2021, stated: “We (BRICS) underscore the **inadmissibility of the threat or use of force against the territorial integrity or political independence of any state**, or in any other manner inconsistent with the purposes and principles of United Nations.

The Declaration stated: “We express our concerns at the continuing conflicts and violence in different parts of the world. We affirm our commitment to the **principles of non-interference** in the internal affairs of States and reiterate that all **conflicts must be resolved by peaceful means** and through diplomatic and political efforts in line with the international law.”

XIII BRICS Summit: New Delhi Declaration (utoronto.ca)

Q.46) Consider the following statements about Factoring in India:

1. It is a financing arrangement in which a company sell its ‘accounts receivable’ to a third party to meet short-term liquidity needs.
2. Entities conducting factoring business are registered with the Reserve Bank of India.
3. In India, Non-Banking Financial Company (NBFC) are permitted to undertake factoring business.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 and 3 only
- c) 1 and 2 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

Statement 1 is correct. Factoring is a type of finance in which a business would sell its accounts receivable (invoices) to a third party to meet its **short-term liquidity needs**. Under the transaction between both parties, the factor would pay the amount due on the invoices minus its **commission or fees**.

Government of India has recently amended the **Factoring Regulation Act, 2011** which widens the scope of companies that can undertake factoring business.

Statement 2 is correct. It is compulsory for all entities to get registered with Reserve Bank of India to conduct factoring business.

An entity not registered with the Bank may not conduct the business of factoring unless it is an entity mentioned in Section 5 of the Factoring Act, 2011 i.e. a bank or any corporation established under an Act of Parliament or State Legislature, or a Government Company as defined under the Companies Act, 1956.

Statement 3 is correct. All the existing non-deposit taking NBFC-Investment and Credit Companies (NBFC-ICCs) with asset size of ₹1,000 crore & above will be permitted to undertake factoring business subject to satisfaction of certain conditions.

Source: https://www.rbi.org.in/Scripts/BS_PressReleaseDisplay.aspx?prid=53131

Q.47) Barbell strategy seen in the news related to the economic survey, relates to which of the following?

- a) It is an investing strategy by investing in both high-risk and low-risk assets.
- b) It is a marketing strategy where a company focus solely on their desired public image.
- c) It is an economic policy position favouring government intervention in the market process
- d) It is an industrial policy for subsidizing export industries and promoting import-substitution.

Ans) a

Exp) Option a is the correct answer.

The barbell strategy is an **investing strategy that aims to find a balance between risk and reward by investing in high-risk and low-risk assets** while eschewing more middle-risk options.

The barbell investing strategy is commonly used for fixed-income investing, but can also be used in equity markets. The goal is to lower an investor's overall risk profile while still giving exposure to higher-risk, higher-yielding assets.

In the Economic Survey the government explained how the Barbell Strategy, was put to use to cushion the Covid blow on India.

Under this strategy, a combination of safety nets for vulnerable sections and **real-time information-based policy adjustment** was brought into play to tackle the challenges posed by the COVID pandemic.

India adopted Barbell policy instead of its conventional policy approach known as the **Waterfall method** as Covid spread its tentacles in the country.

Source: <https://economictimes.indiatimes.com/news/economy/policy/how-barbell-strategy-mentioned-in-last-years-economic-survey-was-put-to-work/articleshow/89242062.cms>

Q.48) Which of the following is correct with reference to the National Statistical Office?

- It is an autonomous body under the Ministry of Commerce and Industry.
- It compiles the Index of Wholesale Price Index (WPI) every month.
- It was formed on the recommendation of the Rangarajan Commission.
- It has been recently separated from the National Sample Survey Office (NSSO).

Ans) c

Exp) Option c is the correct answer.

National Statistical Office acts as the nodal agency for planned development of the statistical system in the country, lays down and maintains norms and standards in the field of statistics, involving concepts and definitions, methodology of data collection, processing of data and dissemination of results.

Option a is incorrect: National Statistical Office is an autonomous body under the **Ministry of Statistics and Programme Implementation**.

Option b is incorrect: National Statistical Office compiles and releases the **Index of Industrial Production (IIP) every month** in the form of 'quick estimates'; conducts the **Annual Survey of Industries (ASI)**; and provides statistical information to assess and evaluate the changes in the growth, composition and structure of the organized manufacturing sector.

Whole-sale price index (WPI) in India is published by the **Office of Economic Adviser**, Ministry of Commerce and Industry.

Option c is correct: NSO was formed on the recommendations of the **Rangarajan Commission**.

Option d is incorrect: The **National Statistical Office (NSO)** consists of the **Central Statistical Office (CSO)**, the computer center and the **National Sample Survey Office (NSSO)**. CSO and NSSO were merged into NSO in 2019.

Q.49) Consider the following statements about Purchasing managers Index (PMI):

- It is done on monthly basis based on facts such as new orders, output and employment.
- It is an indicator of business activity in both the manufacturing and services sectors.
- A PMI figure above 50 denotes expansion in business activity.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 and 3 only
- c) 1 and 2 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

Purchasing Managers' Index or PMI is an economic indicator, which is derived after monthly surveys of different companies.

Statement 1 is correct. The PMI helps in determining whether **the market conditions, as seen by purchasing managers, is expanding, contracting or staying the same.** It is used to provide information regarding the current and future business conditions.

The PMI is derived by sending **fact-based questions to a large number of companies in the concerned sector.**

The questions are factual in nature and the survey is not meant for opinions, intentions, or expectations. The questions are related to 5 key variables. The variables with their weights in the index are – new orders (30%), output (25%), employment (20%), suppliers' delivery times (15%) and stock of items purchased (10%). The surveys are conducted on a **monthly basis.**

Statement 2 is correct.

The index shows trends in both the manufacturing and services sector.

The Purchasing Managers' Index (PMI) is an index of the prevailing direction of economic trends in the manufacturing and service sectors.

Statement 3 is correct. The headline PMI is a number from 0 to 100. **A PMI above 50 represents an expansion** in business activity when compared with the previous month. Anything below 50 denotes contraction.

Source: <https://www.investopedia.com/terms/p/pmi.asp>

Q.50) Recent studies have shown that wind speeds in major Indian cities has been slowing down significantly over several decades. In this context, which of the following might be the most likely implications of slowing wind speed?

1. Changing rainfall patterns
2. Low output from wind energy sector
3. Higher transpiration rate in agricultural sector
4. Air pollution in cities will take longer to get dispersed

Select the correct answer using the codes given below:

- a) 1, 2 and 3 only
- b) 2, 3 and 4 only
- c) 1, 2 and 4 only
- d) 1, 2, 3 and 4

Ans) c

Exp) Option c is the correct answer.

This question is based on the article **“Winds of Change in Urban India that demand close investigation”** published in **Live Mint** on 26th Feb 2022. A recent analysis has shown that wind speed in major Indian cities has been slowing down consistently and significantly over several decades. The average wind speed has fallen by 47% in Hyderabad, 47% in Bengaluru, 46% in Kolkata.

The implications of Slowing wind speed are:

Statement 1 is correct: Slow winds **cannot carry moisture** for long which will result in **altered rainfall patterns**.

Statement 2 is correct: **Falling wind speed** also has huge implications for the **wind-energy sector and thus for the clean energy sector**. Typically, a 5% fall in wind speed can lead to an almost 17% fall in wind energy in an average turbine.

Statement 3 is incorrect: **Agriculture** depends crucially on **transpiration** (a plant's exhalation of water vapour), which in turn needs evaporation which is dependent on wind speed. So, falling wind **speed reduce the transpiration rate** and impact plant growth.

Statement 4 is correct: **Wind-dispersed plant species** also depend on wind speeds for survival. They also affect **natural disasters and ocean dynamics**. This also means **that air pollution in cities** will take longer to get dispersed, exacerbating public-health problems.

Q.1) Consider the following statements:

1. The Governor of the Reserve Bank of India (RBI) is appointed by the Central Government.
2. Certain Provisions in the Constitution of India give the Central Government the right to Issue directions to the RBI in public interest.
3. The Governor of the RBI draws his power from the RBI Act.

Which of the above statements are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

Statement 1 is correct. Section 8(1)(a) of the Reserve Bank of India Act, 1934, provides that there shall be one Governor and not more than four Deputy Governors to be appointed by the **central government** on the central board of RBI.

Statement 2 is incorrect. Section 7 of the RBI Act provides that **Central Government** may from time to time give such directions to the Bank as it may, after consultation with the Governor of the Bank, consider necessary in the **public interest**. Constitution of India does not provide any provision for Central Government the right to issue directions to the RBI in Public interest.

Statement 3 is correct. According to RBI Act, the Governor shall have **powers of general superintendence and direction of the affairs and the business of the RBI**. He/she may exercise all powers and do all acts and things which may be exercised or done by the RBI.

Q.2) Regarding the currency deposit ratio, which of the following statement is **incorrect**?

- a) It is the ratio of money held by the public in currency to the money they hold in bank deposits.
- b) High currency deposit ratio reflects people's high preference for savings in banks.
- c) An increase in currency deposit ratio will lead to decrease in money multiplier.
- d) It depends on the seasonal pattern of expenditure.

Ans) b

Exp) Option b is the correct answer.

Statement a is correct. The **currency deposit ratio (CDR) is the ratio of money held by the public in currency to that they hold in bank deposits**. It shows the amount of money that people hold as a proportion of aggregate deposits (bank deposits). It is the relationship between the amount of cash a person holds and the amount of money she maintains in readily accessible bank accounts, such as checking accounts. It reflects people's preference for liquidity.

Statement b is incorrect. The currency deposit ratio does **not reflect people's preference for savings**. On the contrary, it **shows people's preference for liquidity** i.e., the amount they would hold in form of currency in proportion to bank deposits.

Statement c is correct. An increase in cash deposit ratio leads to a decrease in money multiplier. An increase in cash deposit ratio mean people holding cash more in hand and depositing less thus leading to decrease in money multiplier.

While an increase in deposit rates will **induce depositors to deposit more**, thereby leading to a decrease in Cash Deposit ratio. This will in turn lead to a rise in Money Multiplier.

Statement d is correct. The currency deposit ratio is a purely behavioural parameter which depends,

among other things, on the seasonal pattern of expenditure. For example, CDR **increases during the festive season as people convert deposits to cash balance** for meeting extra expenditure during such periods.

<https://economictimes.indiatimes.com/definition/currency-deposit-ratio>

Q.3) Which one of the following statements is correct with reference to deposit insurance facility provided by the Deposit Insurance and Credit Guarantee Corporation (DICGC)?

- It does not apply to foreign banks operating in India.
- Each depositor is eligible for an insurance cover of up to Rs. 5 lakhs.
- The premium for the insurance is paid by the depositors in form of annual payment from their bank accounts.
- The deposits of Central government or State governments in banks are not insured by the DICGC.

Ans) b

Exp) Option b is the correct answer

Statement a is incorrect. All commercial banks **including branches of foreign banks** functioning in India, local area banks and regional rural banks are insured by the DICGC.

Statement b is correct. The cover of Rs 5 lakh per depositor is provided by the Deposit Insurance and Credit Guarantee Corporation (DICGC). Deposits in public and private sector commercial banks, local area banks, small finance banks, regional rural banks, cooperative banks, Indian branches of foreign banks, and payments banks are all insured by the DICGC.

Statement c is incorrect. The **premium** for Deposit insurance is **paid by banks** to the DICGC and **not be passed on to depositors**. Banks currently pay a minimum of 10 paise on every Rs 100 worth of deposits to the DICGC as premium, which is **now being raised to a minimum of 12 paise**.

Statement d is incorrect. DICGC insures the following:

- The DICGC insures all deposits such as savings, fixed, current, recurring, etc. deposits except the following types of deposits
- Deposits of foreign Governments;
- 3) Deposits of Central/State Governments;**
- Inter-bank deposits;
- Deposits of the State Land Development Banks with the State co-operative bank;
- Any amount due on account of and deposit received outside India
- Any amount, which has been specifically exempted by the corporation with the previous approval of Reserve Bank of India

Q.4) With reference to Indian economy, what is 'Banker's Acceptance'?

- It is a letter from a bank guaranteeing that the buyer's payment to a seller will be received for the correct amount.
- It is a financial instrument that represents a bank's guarantee for the payment at a future date.
- It is a direct payment method in which the issuing bank makes the payments to the beneficiary.
- It is a secondary payment method in which the bank pays the beneficiary only when the holder cannot.

Ans) b

Exp) Option b is the correct answer.

Option a is incorrect: A letter of credit is a letter from a bank guaranteeing that a buyer's payment to a seller will be received on time and for the correct amount. If the buyer is unable to make a payment on the purchase, the bank will be required to cover the full or remaining amount of the purchase. It may be offered as a facility.

Option b is correct: The banker's acceptance is a financial instrument that the bank (instead of the account holder) guarantees for the payments at a future date. Banker's Acceptance is a bill of Exchange drawn on and 'accepted' by a bank as its commitment to pay a third party. The parties involved in a banker's acceptance are the Drawer (the bank's customer), the Acceptor (a bank or an Acceptance House), the Discounter (a bank which could be the accepting bank itself or a different bank or a discount house) and the Re-discounter (another bank, discount house or the Central Bank). A Banker's Acceptance is accepted, when a Bank writes on the draft its agreement to pay it on maturity. The Bank becomes the primary obligator of the draft or bill of exchange drawn on and accepted by it.

Option c is incorrect: Commercial Letter of Credit is a direct payment method in which the issuing bank makes the payments to the beneficiary.

Option d is incorrect: Standby letter of credit is a secondary payment method in which the bank pays the beneficiary only when the holder cannot. A standby letter of credit is a bank's commitment of payment to a third party in the event that the bank's client defaults on an agreement.

Q.5) Consider the following statements regarding the doctrine of 'Responsibility to Protect (R2P)':

1. It is an international norm that puts an obligation on the Security Council to prevent the proliferation of nuclear weapons.
2. It was adopted in international law at 2005 United Nations World Summit.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) b

Exp) Option b is the correct answer.

Russia has invoked a controversial doctrine of right to protect or **Responsibility to Protect (R2P)** in context of Ukrainian aggression.

Statement 1 is incorrect: The **Responsibility to Protect** – known as R2P – is an international norm that seeks to ensure that the international community never again fails to halt the **mass atrocity crimes of genocide, war crimes, ethnic cleansing and crimes against humanity**. The concept emerged in response to the failure of the international community to adequately respond to mass atrocities committed in Rwanda and the former Yugoslavia during the 1990s. It **does not put any obligation on Security Council** to prevent the proliferation of nuclear weapons.

Statement 2 is correct: The **International Committee on Intervention and State Sovereignty** developed the concept of R2P during 2001. The Responsibility to Protect was **unanimously adopted in 2005 at the UN World Summit**, the largest gathering of Heads of State and Government in history. It is articulated in paragraphs 138 and 139 of the **World Summit Outcome Document**. The principle of the Responsibility to Protect is based upon the underlying premise that sovereignty entails a responsibility to protect all populations from mass atrocity crimes and human rights violations.

Source: Debunking Russia's international law justifications -ForumIAS Blog
 What is R2P? - Global Centre for the Responsibility to Protect (globalr2p.org)
 United Nations Office on Genocide Prevention and the Responsibility to Protect

Q.6) Consider the following statements regarding National Asset Reconstruction Company Limited (NARCL) and India Debt Resolution Company Limited (IDRCL):

1. The NARCL is responsible for valuing bad loans while the IDRCL is responsible for selling stressed assets in the market.
2. Both NARCL and IDRCL are wholly owned subsidiaries of the Reserve Bank of India.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) a

Exp) Option a is the correct answer.

Both the National Asset Reconstruction Company Ltd and India Debt Resolution Company were announced during the Annual Budget 2021-2022. These two entities will incentivize quicker action on resolving stressed assets, and help in better value realization. This approach will also permit freeing up banks personnel to focus on increasing business and credit growth.

Statement 1 is correct: The NARCL has been incorporated under the Companies Act and has applied to the Reserve Bank of India for license as an Asset Reconstruction Company (ARC). NARCL is basically a bad bank created by the government in the mould of an asset reconstruction company. The NARCL will pick up bad loans above a certain threshold from banks and would aim to sell them to prospective buyers of distressed debt. **The NARCL will also be responsible for valuing bad loans to determine at what price they would be sold.** The bad bank would provide government receipts to banks as it takes on non-performing assets from their books.

The IDRCL is a service company or an operational entity, which will manage assets and loop in market professionals and turnaround experts. **It will try to sell the stressed assets in the market.**

Statement 2 is incorrect: Both NARCL AND IDRCL are not wholly owned subsidiaries of Reserve Bank of India. For IDRCL Public Sector Banks (PSBs) and Public FIs will hold a maximum of 49% stake and the rest will be with private sector lenders. For NARCL, State-owned banks will hold 51% stake, while FIs or debt management companies will hold 49%.

Q.7) With reference to the Micro-Finance Institutions in India (MFI), consider the following statements:

1. All the micro-finance institutions are regulated by the Reserve Bank of India.
2. Overall share of the MFIs in extending microfinance loans to borrowers is not more than 50% in India.
3. In urban areas, MFIs cannot extend loans to households having annual household income exceeding Rs 1 Lakh.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 only
- c) 2 and 3 only

d) 1 and 3 only

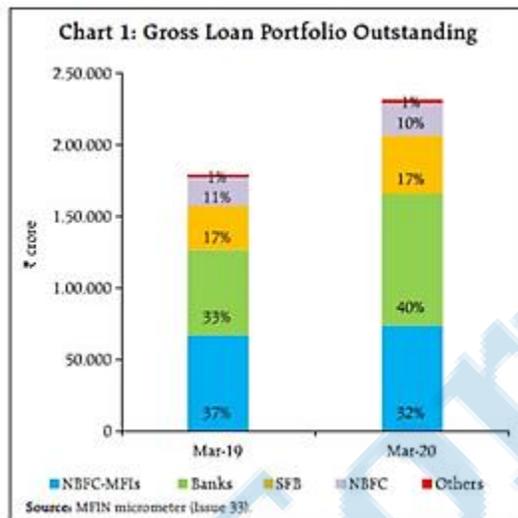

Ans) b

Exp) Option b is the correct answer.

Micro-Finance Institutions (MFIs) encompass a host of financial institutions engaged in advancing loans to low-income groups. For example, Non-Banking Financing Companies (NBFC)-MFIs, Banks, Small Finance Banks (SFBs), NBFCs and Non-profit MFIs are different categories of the Micro-Finance Institutions (MFI) working in India. These are microfinance loans having small amounts, with short tenures, extended without collateral and with the frequency of loan repayments greater than that for traditional commercial loans. Some facts related to this are.

Statement 1 is incorrect. RBI regulates Non-Banking Financing Companies (NBFC)-MFIs, Banks, SFBs, and NBFCs, **except** the **Non-profit MFIs**. Whereas, the Non-profit MFIs are mostly registered as Societies or Trusts, and are regulated by the respective Acts.

Statement 2 is correct. The **overall Gross Loan Portfolio (GLP)** of MFIs, i.e., outstanding amount of loans extended to microfinance borrowers is around **32%**. Further, NBFC-MFIs and Scheduled Commercial Banks (SCBs) hold a major chunk of the microfinance portfolio, with a combined share of 72 per cent as on March 31, 2020.

Statement 3 is incorrect. Microfinance loans mean **collateral-free loans** to households. It can be given to a household having annual household income not exceeding Rs. **1,25,000 in rural areas** and **Rs 2,00,000 in urban/semi urban areas**, respectively.

Q.8) With reference to Indian economy, consider the following statements:

1. Credit growth of banks has been steadily increasing during the last five years.
 2. Credit intensity of Non-Banking Financial Companies has been rising steadily during the past ten years.
- Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

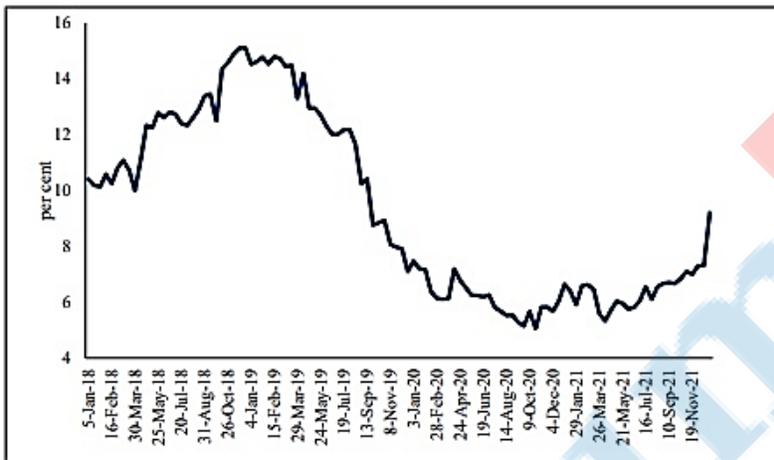

Ans) d

Exp) Option d is the correct answer.

Non-Banking Financial Company (NBFC) is a company registered under the Companies Act, 2013 NBFCs are engaged in the business of loans and advances, acquisition of shares/stocks/bonds/debentures/securities issued by Government or local authority or other marketable securities of a like nature, leasing, hire-purchase, insurance business, chit business.

Statement 1 is incorrect: The credit growth had been declining since 2019. The credit growth was 5.3 per cent at beginning of April 2021 and started to increase since then, but was still modest and stood at 7.3 per cent as on 17th December 2021. However, the credit growth has picked up sharply in December to 9.2 per cent as on 31st December 2021.

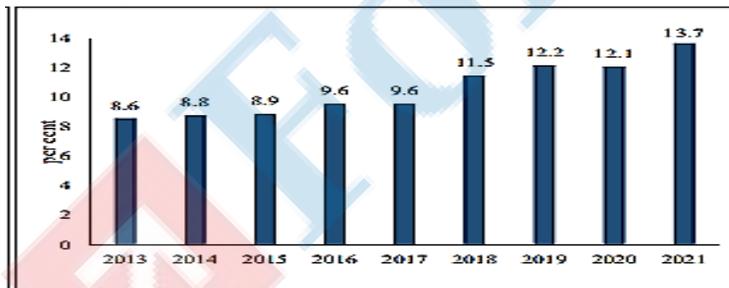

Figure 13: Bank Credit growth (YoY)

Source: RBI

Statement 2 is incorrect: The credit intensity of NBFCs, measured by NBFC credit as a ratio of GDP has been rising and stood at 13.7 at end March 2021. Credit intensity was stagnant in 2017 compared to previous year. Also, it declined in 2020 compared to previous year.

Figure 16: NBFC's Credit to GDP Ratio

Source: Trends and Progress of Banking in India, RBI
Note: Data is at end-March; GDP data used is GDP at current market prices (base:2011-12)

Knowledge Base: A non-banking institution which is a company and has principal business of receiving deposits under any scheme or arrangement in one lump sum or in installments by way of contributions or in any other manner, is also a non-banking financial company (Residuary non-banking company).

Source: <https://www.indiabudget.gov.in/economicsurvey/doc/eschapter/echap04.pdf>

<https://www.rbi.org.in/Scripts/FAQView.aspx?Id=92>

Q.9) With reference to the monetary policy tools of the Reserve Bank of India, consider the following statements:

1. A Reverse Repo Rate is the interest rate at which the Central Bank gives loans to commercial banks.
2. Reserve Bank of India conducts Variable Rate Reverse Repo (VRRR) auctions to increase liquidity in the banking system.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) d

Exp) Option d is the correct answer.

The Reserve Bank of India has decided to merge the 28-day variable rate reverse repo (VRRR) auctions with the fortnightly 14-day main auction in view of the moderation in surplus liquidity.

Statement 1 is incorrect: Reverse repo rate is the interest rate paid to commercial banks when they deposit their excess funds in the central bank or when the central bank borrows money from them. In other words, it is the rate at which the RBI borrows from the commercial banks. When banks have excess funds but don't have any other lending or investment options, they deposit/lend the surplus funds with the RBI and earn interest on the deposited funds. It is always lower than repo rate.

Repo rate is the rate at which the central bank gives loans to commercial banks against government securities.

Statement 2 is incorrect: The decision of Reserve Bank India (RBI) to conduct **variable rate reverse repo (VRRR) auctions aims to absorb excess liquidity from the banking system.**

Q.10) With reference to 'Indian Grey Hornbill', consider the following statements:

1. It is a fairly common hornbill species found only in the Indian subcontinent.
2. The male hornbill is slightly smaller than the female hornbill.
3. The bird is categorised as 'Vulnerable' under IUCN Red list of Threatened species.
4. Indian Grey Hornbill is being reintroduced in Gir forest after almost ninety years.

Which of the statements given above is/are correct?

- a) 1, 2 and 3 only
- b) 1 and 4 only
- c) 2, 3 and 4 only
- d) 3 and 4 only

Ans) b

Exp) Option b is the correct answer.

Statement 1 is correct: Indian Grey Hornbill (*Ocyeros birostris*) is a fairly **common hornbill species found only in the Indian subcontinent.** It is a medium-sized hornbill with a brownish-grey body.

Indian Grey Hornbill

Statement 2 is incorrect: Indian Grey hornbill has a **curved ivory-coloured beak** that is long, blackish at the base, and has a sharp, narrow protruding casque. Male and female birds look very similar, though the **female is slightly smaller** and has a **less prominent casque** (an enlargement of the bones of the upper mandible or the skull, either on the front of the face, or the top of the head, or both).

Statement 3 is incorrect: Indian Grey Hornbill is categorised as '**Least Concern**' (not Vulnerable) under IUCN Red list of Threatened species. The species is found mainly on the plains up to about 2,000 ft (610 m). It is found from the foothills of the Himalayas southwards, bounded to the west by the Indus system and to the east by the Ganges Delta.

Statement 4 is correct: Gujarat Forest Department is reintroducing the Indian grey hornbill (IGH) in **Gir Forest after almost ninety years** when they vanished from this largest contiguous forest tract in western India.

Source: Indian grey hornbill reintroduced in Gir after decades -ForumIAS Blog
 Indian Grey Hornbill: Unsung Hero of Urban Forests (round.glass)

Q.11) In India, the central bank's function as the 'lender of last resort' usually refers to which of the following?

1. Lending to trade and industry bodies when they fail to borrow from other sources
2. Providing liquidity to the banks having a temporary crisis
3. Lending to governments to finance budgetary deficits

Select the correct answer using the code given below.

- a) 1 and 2
- b) 2 only
- c) 2 and 3
- d) 3 only

Ans) b

Exp) Option b is the correct answer.

A lender of last resort is an institution, usually a country's central bank, that **offers loans to banks or other eligible institutions that are experiencing financial difficulty or are considered highly risky or near collapse.**

The lender of last resort functions is to **protect individuals** who have deposited funds and to prevent customers from withdrawing out of panic from banks with temporary limited liquidity. Commercial banks usually try not to borrow from the lender of last resort because such action indicates that the bank is experiencing a financial crisis.

Source) UPSC 2021

Q.12) The term 'Digital Payment Index' has been in news lately. In this context, consider the following statements:

1. This index has demonstrated significant adoption of digital payments in India in recent years.

2. It is compiled by the National Payments Corporation of India (NPCI).
3. 'Payment performance' is the major parameter in this index.

Which of the statements given above is/are correct?

- a) 1 only
b) 1 and 3 only
c) 3 only
d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

The Reserve Bank had announced construction of a composite Reserve Bank of India – Digital Payments Index (RBI-DPI) with March 2018 as base to capture the extent of digitization of payments across the country.

Statement 1 is correct: The Reserve Bank of India (RBI) has constructed a composite Digital Payments Index (DPI) to capture the extent of digitization of payments across the country. This index has demonstrated significant growth representing the rapid adoption and deepening of digital payments across the country in recent years.

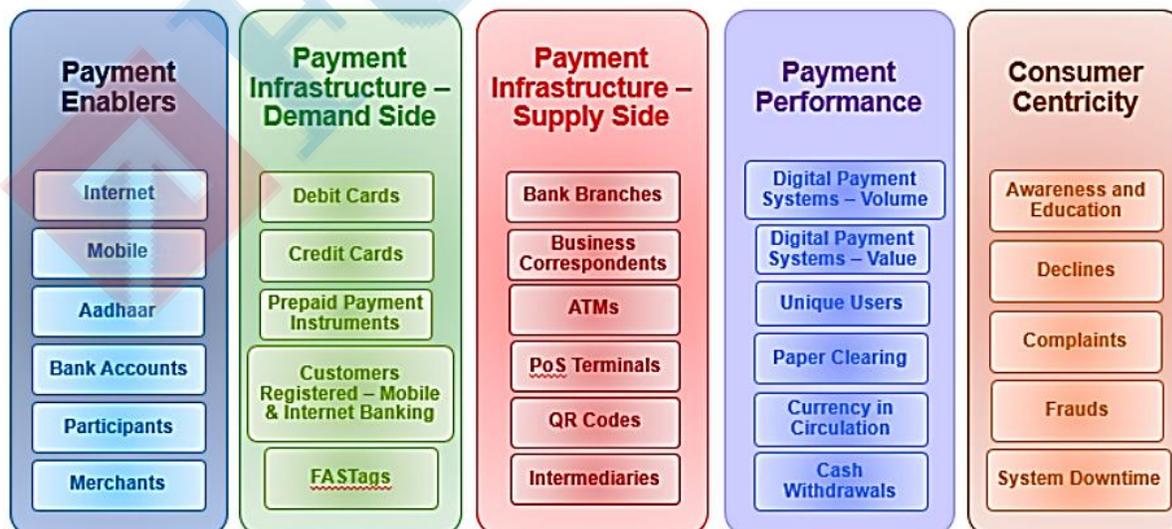

Statement 2 is incorrect: It has not been compiled by The National Payments Corporation of India (NPCI). It is issued by the Reserve Bank of India. It has been constructed with March 2018 as the base period, i.e., DPI score for March 2018 is set at 100. It is published on RBI's website on a semi-annual basis from March 2021 onwards with a lag of 4 months. The index for March 2022 stands at 349.30 as against 304.06 for September 2021, which was announced on January 19, 2022.

Statement 3 is correct: The 'payment performance' is the major parameter in this index and carries the maximum weight. The RBI-DPI comprises 5 broad parameters that enable measurement of deepening and penetration of digital payments in the country over different time periods.

5 Parameters:

- (a) Payment Enablers (weight 25%),
(b) Payment Infrastructure – Demand-side factors (weight 10%),
(c) Payment Infrastructure – Supply-side factors (weight 15%),
(d) Payment Performance (weight 45%) and
(e) Consumer Centricity (weight 5%).

Q.13) Consider the following statements in the context of cross border insolvency in India:

1. Insolvency and Bankruptcy Code (IBC) does not have any standard instrument to restructure the firms involving cross border jurisdictions.
2. The foreign creditors cannot make claims against a domestic company under the Insolvency and Bankruptcy Code.
3. At present, there is no international framework to deal with issues involving cross border insolvency.

Which of the statements given above is/are **incorrect**?

- a) 1 only
- b) 2 and 3 only
- c) 3 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

The Insolvency and Bankruptcy Code (IBC) has created a cohesive and comprehensive insolvency ecosystem. Cross border insolvency signifies circumstances in which an insolvent debtor has assets and/or creditors in more than one country. Typically, domestic laws prescribe procedures, for identifying and locating the debtors' assets; calling in the assets and converting them into a monetary form; making distributions to creditors in accordance with the appropriate priority etc. for domestic creditors/debtors. However, there are various insolvency cases in which corporations owes assets and liabilities in more than one country.

Statement 1 is correct: At present, Insolvency and Bankruptcy Code, 2016 (IBC) provides for the domestic laws for the handling of an insolvent enterprise. **IBC at present has no standard instrument to restructure the firms involving cross border jurisdictions.** The absence of standardized cross border insolvency framework creates complexities and raises various issues such as: The extent to which an insolvency administrator may obtain access to assets held in a foreign country and the Recognition of the claims of local creditors in a foreign administration.

Statement 2 is incorrect: Presently, while foreign creditors can make claims against a domestic company, the IBC currently does not allow for automatic recognition of any insolvency proceedings in other countries. Cross border insolvency is regulated by Section 234 and 235 of IBC. IBC empowers the Central Government to enter into bilateral agreements with other countries to resolve situations about cross-border insolvency.

Statement 3 is incorrect: **The United Nations Commission on International Trade Law (UNCITRAL) on Cross-Border Insolvency, 1997 has emerged as the most widely accepted legal framework to deal with cross-border insolvency issues.** It provides a legislative framework that can be adopted by countries with modifications to suit the domestic context of the enacting jurisdiction. It allows foreign professionals and creditors direct access to domestic courts and enables them to participate in and commence domestic insolvency proceedings against a debtor. It provides a framework for cooperation between insolvency professionals and courts of countries.

Knowledge Base: The United Nations Commission on International Trade Law (UNCITRAL) is the core legal body of the United Nations system in the field of international trade law. UNCITRAL secretariat is located

in Vienna, Austria. India was a founder member of UNICTRAL. It plays an important role in developing framework/ model laws for harmonization and modernization of the law of international trade including cross border insolvency issues.

Source: <https://www.indiabudget.gov.in/economicsurvey/doc/eschapter/echap04.pdf>

Q.14) With reference to capital market in India, which of the following statements is **incorrect**?

- a) A 'Rights Issue' is an invitation to the existing shareholders to purchase additional new shares in the company.
- b) An 'Initial Public Offering' denotes a transition from a public limited company to a private company.
- c) A 'Qualified Institutional Placement' enables a company to issue shares to the public without going through standard regulatory procedures.
- d) A 'Buyback' can help a company to reduce the number of shares available in the open market

Ans) b

Exp) Option b is the correct answer.

In the last financial year 2021-2022, the money raised by IPOs has been greater than what has been raised in any year in last decade by a large margin. Overall, during April-November 2021, ₹1.81 lakh crore has been raised through equity issues through diverse modes viz., public offerings, rights, Qualified Institutional Placements (QIP) and preferential issues.

Statement a is correct: A rights issue is an invitation to existing shareholders to purchase additional new shares in the company. This type of issue gives existing shareholders securities called rights. With the rights, the shareholder can purchase new shares at a discount to the market price on a stated future date. Through the rights issue the company is giving shareholders a chance to increase their exposure to the stock at a discount price.

Statement b is incorrect: An initial public offering (IPO) refers to the process of offering shares of a private corporation to the public in a new stock issuance for the first time. It also denotes a transition from a private to a public company. An IPO allows a company to raise equity capital from public investors. IPOs provide companies with an opportunity to obtain capital by offering shares through the primary market.

Statement c is correct: Qualified institutional placements (QIPs) are a way to issue shares to the public without going through standard regulatory compliance. QIP is a designation of a securities issue given by the Securities and Exchange Board of India (SEBI). QIP allows an Indian-listed company (**public company**) to raise capital from domestic markets without the need to submit any pre-issue filings to market regulators. QIPs were created to avoid dependency on foreign resources for raising capital. Qualified institutional buyers (QIBs) are the only entities allowed to purchase QIPs.

Statement d is correct: A buyback, also known as a share repurchase, is when a company buys its own outstanding shares to reduce the number of shares available on the open market.

Q.15) Consider the following statements regarding Stree Manoraksha Project:

1. It is launched by National Institute of Mental Health and Neurosciences with support from the Ministry of Women and Child Development.
2. The project aims at providing mental support to elderly women facing isolation and loss of zeal to live a meaningful life.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) a

Exp) Option a is the correct answer.

During International Women's Day week, Union Minister for Women and Child Development has launched "Stree Manoraksha project".

Statement 1 is correct: Stree Manoraksha Project is launched by **National Institute of Mental Health and Neurosciences (NIMHANS), Bangalore, with support and funding from the Ministry of Women and Child Development.**

Statement 2 is incorrect: The project aims to provide training and supervision in psychosocial and mental health care for staff and counsellors of all One Stop Centres (OSCs) across the country to support women facing various forms of gender-based violence.

Source: Union Minister for Women & Child Development launches "Stree Manoraksha Project"-ForumIAS Blog

Q.16) With reference to Non-Banking Financial Companies (NBFCs), consider the following statements:

1. Unlike banks, Demand deposit are not accepted in NBFCs.
2. Unlike banks, no NBFC needs to maintain Capital Adequacy Ratio.
3. Deposits made in both banks and NBFCs are secured under Deposit Insurance and Credit Guarantee Corporation.
4. Some NBFCs are classified as 'systemically important' by the Reserve Bank of India.

Which of the statements given above are correct?

- a) 1 and 4 only
- b) 2, 3 and 4 only
- c) 1 and 2 only
- d) 1, 3 and 4 only

Ans) a

Exp) Option a is the correct answer.

A Non-Banking Financial Company (NBFC) is a company registered under the Companies Act, 1956. They raise loans and funds from their customers and advances to ultimate spenders. However, their principal business does not include activities like agricultural, industrial, purchase or sale of any immovable property.

Statement 1 is correct: The primary difference between NBFC and a bank is **NBFC cannot accept demand deposits** i.e., Saving and Current accounts. Although there are some deposits taking NBFC(NBFC-D), but they accept only Time Deposits e.g., Bajaj Finance.

Statement 2 is incorrect: Some **NBFCs need to maintain capital adequacy ratio**, as prescribed by the RBI. Under the existing regulatory framework for NBFCs, Systemically Important NBFCs are required to maintain a regulatory capital of 15% against its risk weighted assets.

The purpose of capital adequacy ratio (CAR) is availability of adequate capital a present to handle losses in the face of a risk. High CAR is considered good as they are in a better position to deal with unexpected losses.

Statement 3 is incorrect: **Deposit Insurance and Credit Guarantee Corporation Act, 1961** provides insurance of deposits and guaranteeing of credits. DICGC **only insures bank's deposits**. It does not apply

to non-banking financial companies (NBFCs). Hence, the repayment of deposits by NBFCs is not guaranteed by RBI.

Statement 4 is correct. NBFCs whose **asset size is of ₹ 500 crore or more as per last audited balance sheet are considered as 'systemically important' NBFCs by RBI.** The rationale for such classification is that the activities of such NBFCs will have a bearing on the financial stability of the overall economy.

RBI also releases the list of Domestic Systemically Important Banks (D-SIBs)

State Bank of India (SBI), ICICI Bank and HDFC Bank have been identified by RBI as Domestic Systemically Important Banks (D-SIBs).

Source: Indian Economy by Ramesh Singh. Chapter on Banking in India, pg no. 12.3- 12.4

Q.17) With reference to financial markets, which of the following statements is correct?

- Capital market is a place where buyers and sellers indulge in trade of financial securities for a period of minimum five years.
- A Primary market is one in which a company issues its new shares on a stock exchange.
- The long-term financial market does not include stock purchases in the primary market.
- Cash Management Bill is one of the important instruments in long term financial market.

Ans) b

Exp) Option b is the correct answer.

Statement a is incorrect. Capital market is a place where buyers and sellers indulge in **buying/selling of financial securities** like bonds, stocks. (**Not necessarily 5 years**). The long-term financial market of an economy is known as the '**capital market**'. This market makes it possible to raise long-term money (capital), i.e., for a period of minimum 365 days and above.

Statement b is correct. A primary market is one in which a company issues **new security in stock exchange**. Whereas Secondary market deals with the exchange of prevailing or previously-issued securities among investors.

Statement c is incorrect. Long term financial market includes commodity and stock purchases in **both primary market and secondary market**. Primary market is the market for new shares or securities.

Statement d is incorrect. The Government of India, in consultation with the RBI, decided to issue a new short-term instrument, known as **Cash Management Bills**, since August 2009 to meet the temporary cash flow mismatches of the government. The Cash Management Bills are non-standard and discounted instruments **issued for maturities less than 91 days**.

Knowledge Base: Capital markets are used to sell different financial instruments, including equities and debt securities. These markets are divided into two categories: primary and secondary markets.

The best-known capital markets include the stock market and the bond markets. This market seeks to improve transactional efficiencies by bringing suppliers together with those seeking capital and providing a place where they can exchange securities.

Source: <https://www.worldbank.org/en/publication/gfdr/gfdr-2016/background/long-term-finance#:~:text=Definition,public%20and%20private%20equity%20instruments>.

Ramesh Singh Indian economy page: 341 (pdf)

Q.18) With reference to Open Market Operations (OMOs), consider the following statements:

- It can be used for both increasing or decreasing the supply of money in the banking system.
- It is conducted through E-Kuber platform of the Reserve bank of India.
- Operation Twist is a type of OMO under which sale and purchase of Governments securities is conducted simultaneously.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

Open market operations (OMOs) are an effective quantitative policy tool at the disposal of RBI. It helps in maintaining the impact on inflation and interest rate levels.

Statement 1 is correct: OMOs refers to the purchase and sale of government securities(G-sec), done by RBI on the government's behalf. When G-sec is bought, it increases the liquidity or money supply in the market on the other the hand when G-sec is sold, money supply is decreased, or liquidity is drained from the market.

Statement 2 is correct: RBI carries out the OMO through commercial banks and does not directly deal with the public. Eligible participants are required to key in their bids on **RBI's core banking electronic solution platform E-Kuber**.

Statement 3 is correct: Simultaneous purchase and sale of government securities under OMOs is popularly known as Operation Twist. It involves buying long-end debt while selling short-tenor bonds to keep borrowing costs down.

Operation Twist is a way employed by the central bank to manage yields in the market. It is a program of quantitative easing used by the RBI that was first introduced by the Federal Reserves in US in 1961.

Since prices and yields move in opposite directions, by purchasing longer-term bonds, the RBI can help drive the bond prices up and yields down. At the same time, selling shorter-term bonds should cause their yields to go up (since their prices would fall). In combination, these two actions twist the shape of the yield curve.

Q.19) In context of the Ways and Means Advances (WMA), often seen in news, consider the following statements:

1. It is a temporary loan facility provided by the Reserve Bank of India to State governments.
2. The interest rate charged on such loans is always equal to the Repo Rate.
3. WMA funding is much costlier than borrowings from the market.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) 1 and 2 only
- d) 1, 2 and 3

Ans) a

Exp) Option a is the correct answer.

Ways and Means Advances (WMA) Scheme was introduced in 1997. Its objective is to meet mismatches in the receipts and payments of the government.

Statement 1 is correct: Ways and Means Advances (WMA) Scheme was introduced in 1997. These are **temporary loan facilities** provided by the **Reserve Bank of India (RBI)** to the **central and state**

governments to meet mismatches in the receipts and payments. The limits for WMA are decided by the government and RBI mutually and revised periodically.

Statement 2 is incorrect: There are two types of WMAs –1. Normal Ways and Means Advances; and 2. Special Drawing Facilities against government securities/Special WMA

The rate of interest applicable for Normal WMA funding from RBI is the repo rate **The interest levied for special WMAs could be lower than the repo rate due to the backing of government securities.**

Special WMA or Special Drawing Facility is provided against the collateral of the government securities held by the state. After the state has exhausted the limit of SDF, it gets normal WMA. **The interest rate for SDF is generally one percentage point less than the repo rate.**

Statement 3 is incorrect: WMA funding is much cheaper than borrowings from markets as it is charged at the repo rate. WMA can be an alternative to other tools of borrowing like raising longer-tenure funds from the markets, issue of State government securities or borrowing from financial institutions for short-term funding.

Source: <https://blog.forumias.com/ways-and-means-advances/>

Q.20) Consider the following statements:

1. The 1954 Hague Convention deals with the protection of cultural property in the event of armed conflict.
2. Blue Shield emblem is designated by European Union to provide resources for protection of World Heritage sites.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) a

Exp) Option a is the correct answer.

UNESCO is in contact with Ukrainian authorities to mark cultural sites and monuments with the distinctive “Blue Shield” emblem of the 1954 Hague Convention for the Protection of Cultural Property in the Event of Armed Conflict to avoid deliberate or accidental damages.

Statement 1 is correct: The convention for the **Protection of Cultural Property in the Event of Armed Conflict also known as the Hague Convention** was adopted in 1954 under the auspices of UNESCO. It aims to **protect cultural property** such as monuments of architecture, art or history, archaeological sites, works of art, manuscripts, books and other objects of artistic, historical or archaeological interest, as well as scientific collections of any kind regardless of their origin or ownership.

Statement 2 is incorrect: Blue Shield emblem is designated by **Hague Convention** (and not by European Union) to provide resources for protection of World Heritage sites. The **1954 Hague Convention designates an emblem** for a cultural **property that should be protected**, and for identification of those working to protect it. The Blue Shield organization (NGO) took up the emblem of the Convention as a symbol of their protective work, set in a blue circular background.

Knowledge Base:

Blue Shield: It was founded in 1996. It is an independent, neutral, non-governmental, non-profit, international organization which strives to protect heritage during armed conflicts and disasters across the world.

This includes all forms of cultural property including museums, monuments, archaeological sites, archives, libraries and audio-visual material, and significant natural areas, as well as intangible heritage.

Source: 1954 Hague Convention and “Blue Shield” emblem: UN cultural agency moves to protect Ukraine’s heritage sites -ForumIAS Blog

Q.21) An increase in the Bank Rate generally indicates that the:

- Market rate of interest is likely to fall
- Central Bank is no longer making loans to commercial banks
- Central Bank is following an easy money policy
- Central Bank is following a tight money policy

Ans) d

Exp) Option d is the correct answer.

Bank rate or discount rate is the rate of interest which a central bank charges on the loans and advances to a commercial bank. An increase in bank rate means that Central Bank is following a tight money policy. Under this situation, banks will have to pay higher rate of interest which will make borrowing costlier. Thus, banks need to raise to their lending rates to accommodate the increase in the bank rate.

Source) UPSC CSE Pre 2013

Q.22) With reference to the Reserve Bank of India (RBI), consider the following statements:

- All Indian banks require a licence from the RBI for opening a new branch anywhere in India.
- RBI manages the market borrowing programme of the state governments in India.
- The interest rates on all categories of deposits and loans of banks are solely determined by the RBI.
- The Central and the state Governments are required to maintain a minimum cash balance with the RBI.

Which of the statements given above is/are correct?

- 2 and 4 only
- 2 only
- 1, 2 and 4 only
- 1 and 3 only

Ans) a

Exp) Option a is the correct answer.

RBI was established under RBI act in 1935 as a private bank. It was converted into central bank after nationalisation in 1949.

Statement 1 is incorrect: For commencing banking operations in India, whether by an Indian or a foreign bank, a licence from the Reserve Bank is required. The opening of new branches by banks and change in the location of existing branches are also regulated as per the Branch Authorisation Policy. This policy has recently been liberalised significantly and **Indian banks no longer require a licence from the Reserve Bank for opening a branch at a place with population of below 50,000.**

Statement 2 is correct: RBI acts as the banker for government. **As the debt manager of the state governments, the mandate of the Reserve Bank is to manage the market borrowing programme of the state governments.** The function of management of public debt is done by the Internal Debt Management Department (IDMD) of the Reserve Bank. **IDMD of RBI manages the Market Borrowing Programme (MBP).** This involves issue and servicing aspects i.e., retirement of rupee loans, interest payment on the loan and handling operational issues.

Statement 3 is incorrect: The **interest rates on most of the categories of deposits and lending transactions have been deregulated and are largely determined by banks.** However, the Reserve Bank regulates the interest rates on savings bank accounts and deposits of non-resident Indians (NRI), small loans up to rupees two lakh, export credits and a few other categories of advances.

Statement 4 is correct:

All the State Governments are required to maintain a minimum cash balance with the Reserve Bank, which varies from state to state depending on the relative size of the state budget and economic activity.

Under the administrative arrangements, the Central Government is required to maintain a minimum cash balance with the Reserve Bank. Currently, this amount is Rs.10 crore on a daily basis and Rs.100 crore on Fridays, as also at the end of March and July.

Q.23) With reference to Priority Sector Lending (PSL), consider the following statements:

1. The guidelines for PSL in India are issued by the Reserve Bank of India.
2. Financing of certain types of start-ups are included under priority sector lending.
3. Foreign banks operating in India are exempted from priority sector lending.
4. Self Help Groups are considered as 'Weaker Section' to avail Priority sector loans.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 and 3 only
- c) 1 and 4 only
- d) 1, 2 and 4 only

Ans) d

Exp) Option d is the correct answer.

Priority Sector means those sectors which the Government of India and Reserve Bank of India consider as important for the development of the basic needs of the country and are to be given priority over other sectors. The banks are mandated to encourage the growth of such sectors with adequate and timely credit.

Statement 1 is correct: RBI issues guidelines for priority sector lending in India. It enlists the sector requiring financial and credit assistance from banks. At present commercial banks are required to maintain 40% quota for priority sector. RBI first time issued guideline in 1968 for priority sectors which included agriculture, small industries, and exporters till 1985.

Statement 2 is correct: In 2020, RBI has increased the scope of priority sector by including **financing of start-ups** with funding up to 50 crores and loans to farmers for installation of solar plants and compressed biogas plants. Revised PSL guidelines enable better credit penetration and increase the lending to small and marginal farmers and weaker sections.

Statement 3 is incorrect: As per the revised RBI guidelines **foreign banks with less than 20** branches as well as the foreign banks in India with more than 20 branches are required to **maintain 40 % of credit** to priority sector lending.

Statement 4 is correct. As per the RBI circular released in 2016, there are **eight broad categories** of the Priority Sector Lending. They are: (1) Agriculture (2) Micro, Small and Medium Enterprises (3) Export Credit (4) Education (5) Housing (6) Social Infrastructure (7) Renewable Energy (8) Others.

The others category includes personal loans to weaker section, loans to distressed persons, loans to state sponsored organisations for SC/ST.

Self Help Groups are considered as Weaker Sections to avail Priority sector loans.

Source: statement 1 : Indian Economy by Ramesh Singh , chapter on banking in India

Statement 2 : <https://indianexpress.com/article/business/banking-and-finance/rbi-expands-priority-sector-lending-categories-includes-start-ups-6583136/>

Statement 3: <https://www.rbi.org.in/Scripts/NotificationUser.aspx?Id=11959&Mode=0>

Q.24) Consider the following pairs:

Monetary Policy stance of the Reserve Bank of India	Action taken by the Reserve Bank
1. Accommodative Stance	RBI may lower the interest rates
2. Neutral Stance	The policy priority of RBI is equal on both inflation and economic growth.
3. Hawkish Stance	RBI increases the lending rate of interest to the banks.
4. Calibrated tightening	RBI always reduces the Repo Rate

How many pairs given above is/are correctly matched?

- a) One pair only
- b) Two pairs only
- c) Three pairs only
- d) All four pairs

Ans) c

Exp) Option c is the correct answer.

Central banks' decisions rely on an assessment of their monetary policy stance.

Pair 1 is correct: An accommodative stance means the Monetary Policy Committee (MPC) is willing to either lower rates or keep them unchanged Accommodative monetary policy is a strategy used by central banks that is aimed **at keeping interest rates low** in order to infuse more cash into the economy to boost growth. Rate hike is ruled out. Inflation is not the immediate concern and hence RBI is willing to cut the interest rate.

Pair 2 is correct: Neutral stance indicates that central bank **may cut or hike interest rate**. Range of rates consistent with full employment, trend growth, and stable prices. An economy in this state presumably would not need to be stimulated or slowed by monetary policy. Hence policy **priority is equal on both inflation and economic growth**.

Pair 3 is correct: Hawkish stance indicates the tight monetary policy where main aim of central bank is to control inflation. RBI is in favour of high interest rate to curb the money supply in market.

Pair 4 is incorrect: Calibrated tightening refers to the non-obligation of increasing **repo rate at every policy meeting** in current rate cycle. So, RBI will either keep repo rate unchanged or may increase it. It will not reduce it. **But the overall stance is tilted towards a hike in the repo rate**.

Source: <https://www.moneycontrol.com/news/business/explained-accommodative-neutral-and-hawkish-stances-in-rbi-monetary-policy-8066221.html>

Q.25) Consider the following pairs:

Rescue Missions	Associated with
1. Operation Sukoon	Evacuation of Indians after Iraqi forces invaded Kuwait
2. Operation Rahat	Evacuation of Indians as well as foreign nationals from war torn Yemen
3. Operation Ganga	Evacuation of Indian students from the War-torn Afghanistan

Which of the pairs given above is/are correct?

- a) 1 and 2 only
- b) 2 only
- c) 3 only
- d) 1 and 3 only

Ans) b

Exp) Option b is the correct answer.

Pair 1 is incorrectly matched: Operation Sukoon (2006): India evacuated not just Indians but also nationals of neighbouring countries with the help of the Indian navy when **conflict between Israel and Hezbollah broke out in 2006.**

1990 Kuwait airlift: Around 1,70,000 Indians were brought back home after Iraqi forces invaded Kuwait, kicking off the first Gulf War.

Pair 2 is correctly matched: Operation Rahat (2015): India evacuated nearly 4,000 citizens along with foreign nationals of 26 countries from war-torn Yemen.

Pair 3 is incorrectly matched: Operation Ganga (2022): The 700 Indian students were finally successfully evacuated from the **north-eastern Ukrainian city of Sumy** through **Operation Ganga. As a result of Indian diplomacy**, the Ukrainians and Russians agreed to provide safe passage to the Sumy students. A humanitarian corridor was established for extraction of students which was quite challenging to be established.

Source: Sumy success: With Operation Ganga winding down, India must now take a clear position on Ukraine crisis -ForumIAS Blog

Q.26) Consider the following statements:

- 1. An increase in the Cash Reserve Ratio may reduce the credit availability in the economy.
- 2. An increase in Repo Rates may result in an increase in the cost of borrowing.
- 3. Lower Bank Rates can help to lower the cost of funds for borrowers.
- 4. An increase in the Statutory Liquidity Ratio will tend to reduce money supply in economy.

Which of the statements given above are correct?

- a) 2 and 3 only
- b) 1 and 4 only
- c) 1, 2 and 3 only
- d) 1, 2, 3 and 4

Ans) d

Exp) Option d is the correct answer.

Statement 1 is correct:

Cash Reserve Ratio (CRR): The average daily balance that a bank is required to maintain with the Reserve Bank as a per cent of its net demand and time liabilities (NDTL) as on the last Friday of the second preceding fortnight that the Reserve Bank may notify from time to time.

If the RBI decides to increase the CRR, then bank have to keep higher cash. **This will reduce the credit in the economy as the banks now have less money to lend**, less lending means less borrowing and investment and hence reduction in income and aggregate demand.

Statement 2 is correct:

Repos or Repurchase Agreements is an instrument which allows banks to borrow money from the RBI to manage short term needs of liquidity against the selling of government securities with an agreement to repurchase the same government securities at a predetermined date and rate. The rate at which the RBI lends to the banks is called Repo Rate.

An increase in repo rates means an increase in the cost of borrowing. This is because when the repo rate rises, the borrowing cost for banking institutions also rises, which is passed on to account holders in the form of higher loan and deposit interest rates.

Statement 3 is correct:

Bank Rate: The rate at which the Reserve Bank is ready to buy or rediscount bills of exchange or other commercial papers.

Managing the bank rate is a method by which central banks affect economic activity. **Lower bank rates can help to expand the economy by lowering the cost of funds for borrowers**, and higher bank rates help to reign in the economy when inflation is higher than desired.

Statement 4 is correct. Statutory Liquidity Ratio or SLR is a minimum percentage of deposits that a commercial bank has to maintain in the form of liquid cash, gold or other securities.

As SLR is increased banks will have to keep more liquidity with themselves. So, the less amount of funds will be available to the banks for credit creation. **The total money supply in the economy will decrease**, this will lead to less demand.

https://www.rbi.org.in/Scripts/BS_CircularIndexDisplay.aspx?Id=12024

Statement 2: <https://cleartax.in/g/terms/payment-banks>

Q.27) With reference to Marginal Cost of Funds based Lending Rate (MCLR), consider the following statements:

1. It is the maximum rate of interest above which the banks cannot lend.
2. It replaced the earlier Base Rate structure of determining lending rates.
3. It is determined internally by the banks.

Which of the statements given above is/are correct?

- a) 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

Marginal Cost of Funds-based Lending Rate (MCLR) is a methodology to determine lending rates for banks. The Reserve Bank of India introduced the MCLR system on April 1, 2016.

Statement 1 is incorrect: MCLR refers to the **minimum limit** below which banks or lender cannot lend. Because of slower transmission of monetary policy under MCLR, in 2019 RBI switched to the external benchmark linked lending rate (EBLR) system. Banks need to link their loan interest rate to external benchmark such as:

- 1) RBI repo rate
- 2) 91- day and 182 -day treasury bills.
- 3) any other benchmarks by financial benchmarks limited.

Statement 2 is correct: Earlier, Base Rate determines the lending rate. But base rate differed from bank to bank hence fell short of its aim at better assessment of transmission of monetary policy. Hence in 2015 banks shifted to new methodology of calculating their lending rate which is MCLR.

Statement 3 is correct: MCLR is a tenor-linked internal benchmark, which means the rate is determined internally by the bank depending on the period left for the repayment of a loan. Under the MCLR regime, banks are free to offer all categories of loans on fixed or floating interest rates.

Source: statement 1: <https://www.rbi.org.in/Scripts/NotificationUser.aspx?Id=11677&Mode=0>

<https://indianexpress.com/article/explained/what-the-increase-in-mclr-means-for-you-your-loan-7877241/>

statement 2: Indian economy by Ramesh Singh, chapter on banking in India, page no 12.8

statement 3: <https://cleartax.in/s/mclr>

Q.28) Which of the following factors leads to ineffective/weak transmission of monetary policy in India?

1. Asset-liability mismatch in Indian banking system
2. Lack of flexibility in interest rates of Term deposits
3. Higher interest rates offered by small saving schemes
4. Weak balance sheets of the banking sector

Select the correct answer using the code given below:

- a) 1, 2 and 4 only
- b) 3 and 4 only
- c) 1, 2 and 3 only
- d) 1, 2, 3 and 4

Ans) d

Exp) Option d is the correct answer.

Monetary policy transmission is the process through which policy action of the central bank is transmitted to meet the objectives of economic growth and maintaining optimum inflation. Traditionally, four key channels of monetary policy transmission are identified, viz., interest rate, credit aggregates, asset prices and exchange rate channels.

Statement 1 is correct: There are several factors which **impede monetary transmission to deposit and lending rates of banks.**

The factors include mismatch of banks' assets and liabilities, competitive pressure for small savings schemes, and assets quality of scheduled commercial banks.

Consequences of **asset-liability mismatch are interest rate risk and liquidity risk** as deposits are of shorter maturity, they are repriced faster than loans. This results in banks paying higher interest whenever a deposit matures and is rebooked. Hence having influence on transmission of monetary policy.

Statement 2 is correct: Around 58% of the total deposits are term deposits and 77% of the term deposits are for 1 year and above. **Most of the term deposits have fixed interest rate which means the transmission is effective only for fresh deposits.** Besides, banks have no incentive to decrease the deposit rate with the decrease in repo rate due to high operating expenses of savings accounts and already stressed balance sheets.

Statement 3 is correct: Higher interest rates offered by competing saving instruments such as small saving schemes and debt mutual fund schemes have impeded transmission. The interest rates on small saving schemes, administered by the central government, in principle are set with a lag.

Statement 4 is correct:

Effective monetary transmission is impeded by weak balance sheets due to low loss-absorption capacity to deal with troubled loans. Increased cost of funds and liquidity crunch due to high NPAs impacting bank's profitability, further impacting transmission

Source: statement 1 :https://www.business-standard.com/article/finance/several-factors-still-hinder-monetary-transmission-to-bank-rates-rbi-121071800505_1.html#:~:text=The%20factors%20include%20mismatch%20of,hinder%20effective%20transmission%20of%20rates.

Statement 2: <https://www.businesstoday.in/opinion/columns/story/monetary-policy-transmission-in-india-rbi-reserve-bank-of-india-central-bank-repo-rate-231896-2019-10-07>

Statement 3:

https://rbidocs.rbi.org.in/rdocs/Bulletin/PDFs/02AR_1507202139851293AB184273A8507E80FE0668CF.PDF

Q.29) Consider the following pairs:

List I	List II
Term	Description
1. Certificates of Deposits	These can be issued by commercial banks and financial institutions.
2. Commercial paper	Unsecured and short-term debt instrument issued by corporations.
3. Cash Management bill	Issued to meet the temporary mismatches in the cash flow of the Government.

How many pairs given above are correctly matched?

- Only one pair
- Only two pairs
- All three pairs
- None of the above pairs

Ans) c

Exp) Option c is the correct answer.

Pair 1 is correct: Certificates of Deposits (CDs) are issued by commercial banks and financial institutions to raise additional funds. These are issued in multiples of 25 lakh, subject to a minimum amount of 1 crore. The maturity period ranges from three months to one year in the case of banks and one year to three years in the case of other financial institutions.

Certificate of Deposit (CD) is a negotiable money market instrument and issued in dematerialized form or as a Promissory Note against funds deposited at a bank or other eligible financial institution for a specified time period.

Similar to Fixed deposits, the CD aims to denote in writing that you have deposited money in the bank for a fixed period, and the bank would pay you interest - based on the amount and the period of your Deposit.

Pair 2 is correct: Commercial paper is an unsecured, short-term debt instrument issued by corporations. It is typically used to the finance short-term liabilities such as payroll, accounts payable, and inventories. It was introduced in 1990.

Commercial Papers (CPs) are issued by Corporate, Primary Dealers (PDs) and the All-India Financial Institutions (FIs) to raise funds. These are issued in denominations of 5 lakh or multiples of it, subject to a minimum amount of 1 crore. The maturity period is three to six months.

Pair 3 is correct: Cash Management Bills (CMBs) are short term debt instruments issued to meet the temporary mismatches in the cash flow of the Government of India. The Cash Management Bills have the generic character of Treasury-bills but are issued for maturities less than 91 days. Like Treasury bills these are zero coupon bonds issued at a discount. In 2010, Government of India, in consultation with Reserve Bank of India introduced it.

Q.30) With reference to 'UPI 123Pay facility' recently launched by the Reserve Bank of India, consider the following statements:

1. UPI 123PAY method can initiate and execute transactions without the need for an internet connection.
2. Users can initiate a secured call from their phones to a predetermined Interactive Voice Response number to complete UPI based transaction.
3. Users can also install an app on phones through which certain UPI functions will be available on their phones.

Which of the statements given above are correct?

- a) 1 and 2 Only
- b) 2 and 3 Only
- c) 1 and 3 Only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

Reserve Bank of India has launched new UPI service for feature phones called UPI123Pay. It has also launched a 24x7 helpline for digital payments called 'Digisaathi'.

Statement 1 is correct. UPI 123PAY is a **three-step offline method** to initiate and execute transactions that will work on simple feature phones. It will allow users to use feature phones for almost all transactions except scan and pay. The service **does not need an internet connection for transactions**. Users just need to link their bank account with their phones to use the service.

UPI123Pay offers users four options to make payments without internet connectivity-

Statement 2 is correct. Interactive Voice Response (IVR): Users would be required to initiate a secured call from their feature phones to a predetermined IVR number and complete UPI on-boarding formalities to start making financial transactions like money transfer, mobile recharge, EMI repayment, balance check, among others.

Statement 3 is correct. App-based functionality: One could install an app on feature phones through which several UPI functions, available on smartphones, will be available on their feature phone, except the **scan and pay** feature which is currently **not available**.

Missed call facility: The missed call facility will allow users to access their bank account and perform routine transactions such as receiving, transferring funds by giving a missed call on the number displayed at the merchant outlet. The customer will receive an incoming call to authenticate the transaction by entering UPI PIN.

Proximity sound-based payments: One could utilize the proximity sound-based payments option, which uses **sound waves to enable contactless**, offline, and proximity data communication on any device.

Reserve Bank of India - Press Releases (rbi.org.in)

Q.31) Under which of the following circumstances may 'capital gains' arise?

1. when there is an increase in the sales of a product.
2. when there is a natural increase in the value of the property owned.
3. when you purchase a painting and there is a growth in its value due to increase in its popularity.

Select the correct answer using the codes given below:

- a) 1 only
- b) 2 and 3 only
- c) 2 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

Statements 2 and 3 are correct. Capital gain is an increase in a capital asset's value and is considered to be realized when the asset is sold. Realized capital gains and losses occur when an asset is sold, which triggers a taxable event. Unrealized gains and losses, sometimes referred to as paper gains and losses, reflect an increase or decrease in an investment's value but are not considered a capital gain that should be treated as a taxable event.

Statement 1 is incorrect. Increase sale of a product doesn't imply the increase of value of that product. So, no capital gain.

Source) UPSC CSE Pre 2012

Q.32) Consider the following statements with reference to the Exchange Traded Funds (ETFs):

1. Through ETFs, one can only invest in equities and not in debt instruments.
2. Compared to Mutual Funds, ETFs generally have higher liquidity.
3. ETFs can be actively bought and sold on the stock exchanges.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 3 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

An exchange traded fund (ETF) is a cluster of different securities merged together in a single fund that is traded on the stock exchange. It is a marketable security that tracks an index, a commodity, **bonds**, or a basket of assets like an index fund. An exchange-traded fund is a type of pooled investment security that operates much like a mutual fund. An ETF can be structured to track anything from the price of an individual commodity to a large and diverse collection of securities. ETFs can even be structured to track specific investment strategies.

Statement 1 is incorrect. An exchange traded fund (ETF) also allows a person to invest in debt instruments. Debt ETFs allow the investors to realise returns on their investments through exposure to fixed-income securities. Debt ETFs in India are sometimes referred to as bond ETFs due to their high exposure to bonds as the underlying asset.

Statement 2 is correct. Exchange-traded funds (ETFs) have higher liquidity than mutual funds, making them not only popular investment vehicles but also convenient to tap into when cash flow is needed.

Statement 3 is correct: The main difference between ETF and Mutual Fund is that while ETFs can be actively bought and sold on the stock exchanges, just like any other shares. But one can only purchase a unit of a Mutual Fund from a fund house even though these can be listed on the exchanges.

Source: <https://www.mutualfundssahihai.com/en/what-exchange-traded-fund-etf>

<https://www.mutualfundssahihai.com/en/what-exchange-traded-fund-etf>

<https://www.investopedia.com/terms/e/etf.asp>

Q.33) Which of the following would most likely lead to a rise in the bond yields?

1. Rise in market interest rates
2. Increase in Fiscal Deficit
3. Rise in inflation
4. Increase in foreign investments

Select the correct answer using the codes given below:

- a) 1 and 2 only
- b) 2, 3 and 4 only
- c) 1 and 3 only
- d) 1, 2 and 3 only

Ans) d

Exp) Option d is the correct answer.

Option 1 is correct: Rise in market Interest Rates, will cause a fall in bond prices, as the higher interest rate will give investors better returns in bank deposits rather than the returns offered by the bonds. And as Bond Prices and Bond Yields are inversely related, a fall in Bond Prices would mean a **rise in Bond Yields, as market rates increase.**

Option 2 is correct: Fiscal Deficit of the government represents the amount of borrowings that the government has undertaken. An increase in Fiscal Deficit would mean that the government plans to spend more than its revenues by increasing its borrowing from the market. This leaves lesser capital for other economic players, making loans costlier (through an increase in interest rates). And as Interest Rates and Bond Yields are directly related (as explained above), there is an **increase in bond Yields when there is an increase in Fiscal Deficit.**

Option 3 is correct:

If there is a rise in inflation in the economy, the central bank will most likely follow a Dear Money policy and increase policy rates for other banks. Thus, making loans expensive, in order to suck out money from the economy. Thus, the result of increase in inflation, will be increasing interest rates. As **interest rates and bond yields are directly related, an increase in inflation will cause a rise in bond yields too.**

Option 4 is incorrect: If there is a rise in foreign investments in the country, it means an increase in investors' demand for the country's assets including bonds. As the demand for government/ corporate bonds increase, the bond price will also increase. This will lead to a decrease in the bond yield as bond price and bond yield are inversely related to each other. **Thus, the increased demand for the bond results in rising bond prices—and falling bond yields.**

Source: <https://www.investopedia.com/ask/answers/why-interest-rates-have-inverse-relationship-bond-prices/>

<https://www.investopedia.com/ask/answers/061715/how-bond-yield-affected-monetary-policy.asp#:~:text=A%20bond%27s%20yield%20is%20based,and%20bond%20yields%20to%20rise.>

Q.34) Which of the following statements is/are correct in context to the Prompt Corrective Action (PCA) framework of the Reserve Bank of India (RBI)?

- Capital, Asset Quality and Leverage are the key areas for monitoring in the PCA framework.
- The PCA framework is applicable on both Payment Banks and Small Finance Banks.
- Whenever PCA is enforced on a bank, it may face restrictions on branch expansions.
- Both statements (a) and (c) are correct in the above given context.

Ans) d

Exp) Option d is the correct answer.

Prompt Corrective Action or PCA is a framework under which financial institutions with weak financial metrics are put under watch by the RBI.

Earlier the RBI had imposed PCA only on banks. Now the PCA framework is extended to NBFCs.

The move comes in the wake of large NBFCs such as IL&FS, DHFL, SREI Group and Reliance Capital getting into financial trouble over the last few years.

Statement a is correct. Capital, asset quality and leverage will be the key areas for monitoring in the revised PCA framework.

Indicators to be tracked for capital, asset quality and leverage would be CRAR/ common equity **tier I ratio, net NPA ratio and tier I leverage ratio**, respectively.

Statement b is incorrect. All Scheduled Commercial Banks are under the ambit of PCA framework (**Excluding Small Finance Banks, Payment Banks** and Regional Rural Banks).

Statement c is correct. PCA is enforced by RBI when banks breach certain regulatory requirements such as return on asset, minimum capital, and quantum of non-performing assets. Banks under PCA **face restrictions like dividend distribution, branch expansion, and management compensation or may require promoters to infuse capital in the bank.**

Q.35) Consider the following statements regarding Biological and Toxin Weapons Convention:

- It was negotiated under the Conference of the Committee on Disarmament in Geneva, Switzerland in 1972.
- The treaty allows for only the P5 countries to possess, produce and stockpile biological and toxin weapons while prohibiting their usage.
- World Chemical & Biological Organisation is the implementation agency of the convention.
- India has refused to ratify the treaty due to perceived discrimination in possession and production of weapons of mass destruction.

Which of the statements given above is/are correct?

- a) 1 only
- b) 1, 2 and 3 only
- c) 2 and 4 only
- d) 1, 2, 3 and 4

Ans) a

Exp) Option a is the correct answer.

India has emphasized on following the Biological and Toxin Weapons Convention (BTWC) at the UNSC meeting on Ukraine.

The meeting came after a request from Russia who claimed that the US is involved in bioweapon manufacture in the war-torn country, something that the US has strongly dismissed.

Statement 1 is correct: The Biological Weapons Convention (BWC) was negotiated by the **Conference of the Committee on Disarmament in Geneva, Switzerland**. It opened for signature in 1972 and entered into force in 1975.

Statement 2 is incorrect: The convention effectively prohibits the **development, production, acquisition, transfer, stockpiling and use of biological and toxin weapons**. If a state possesses any agent, toxin, or delivery system for them, they have nine months from entry into force of the treaty to destroy their stockpiles, or divert them for peaceful use. **There is no exception to any countries for production and possession of biological and toxin weapons.**

Statement 3 is incorrect: There is **no implementation body of the Biological Weapons Convention**, allowing for blatant violations as seen in the past. There is a review conference every five years to review the convention's implementation and establish confidence-building measures.

Statement 4 is incorrect: The Convention has reached almost universal membership, with 183 States Parties and four Signatory States. **India is also a party to the convention**. Ten states have neither signed nor ratified the BTWC: Chad, Comoros, Djibouti, Eritrea, Israel, Kiribati, Micronesia, Namibia, South Sudan, and Tuvalu.

Source: Important to adhere to convention on biological weapons: India -ForumIAS Blog

Q.36) Consider the following statements with reference to the State Development Loans:

1. The purpose of issuing such loans is to meet the budgetary needs of state governments.
2. These loans are issued through normal auctions conducted by the Reserve Bank of India.
3. These securities do not qualify for Statutory Liquidity Ratio (SLR) status.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 only
- d) 1, 2 and 3

Ans) a

Exp) Option a is the correct answer.

Statement 1 is correct: **State Development Loans are bonds that are issued by the state government to manage their state finances and fund their fiscal deficit**. Each state is allowed to issue securities up to a certain limit per year. SDLs are traded at a spread above the benchmark G-sec security of the same tenor. The spread is based on the state finances.

Statement 2 is correct: State Development Loans are issued in the primary market through normal auctions conducted by the Reserve Bank of India and traded in the secondary market. Interest on state development loan is serviced at half-yearly intervals and the principal is repaid on the maturity date.

Statement 3 is incorrect: SDLs qualify for Statutory Liquidity Ratio (SLR) status, that is a proportion of deposits to be maintained in liquid sovereign securities. So, investors are mainly nationalised banks, who on account of their huge deposit base have a large SLR requirement.

Q.37) Consider the following statements regarding the Non-Resident Indian (NRI) Deposits made in Indian banks:

1. Such type of deposits are denominated in India's domestic currency only.
2. Such type of deposits are excluded from the Balance of Payments record of India.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) d

Exp) Option d is the correct answer.

Non-Resident Indian Deposits are foreign currency deposits made in an Indian bank by a non-resident Indian. These deposits can be repatriated by the NRI on maturity along with the interest earned. There are different kinds of schemes offered to NRIs like **FCNR (B) or foreign currency nonresident (banks) and non-resident external (rupee accounts or NRE (RA))**.

Statement 1 is incorrect: Non-Resident Indian deposits are foreign currency deposits made in an Indian bank by a non-resident Indian. These deposits can be repatriated by the NRI on maturity along with the interest earned. There are different kinds of schemes offered to NRIs like **FCNR (B) or foreign currency non-resident (banks)** and non-resident external (rupee accounts or NRE (RA)).

Statement 2 is incorrect: NRI deposits are included in the capital account under Balance of Payment. They have been an important source of foreign exchange in times of crisis. NRI deposits are capital flows and hence, vulnerable to outflows.

Source: <https://economictimes.indiatimes.com/markets/stocks/news/learn-with-etmarkets-how-are-nri-deposits-different-from-remittances/articleshow/54668390.cms?from=mdr>

Q.38) Consider the following statements with reference to Securities and Exchange Board of India:

1. Presently, it is functioning as a statutory body in India.
2. The Chairman of SEBI is nominated by the Union Government.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) c

Exp) Option c is the correct answer.

Statement 1 is correct: Securities and Exchange Board of India was established as a non-statutory body without any statutory power. Following the passage of the **Securities and Exchange Board of India Act by Parliament in 1992, it was given autonomous and statutory powers.** Securities and Exchange Board of India is thus presently a statutory body and a market regulator, which controls the securities market in India. The basic functions of Securities and Exchange Board of India is to protect the interests of investors in securities and to promote and regulate the securities market.

Statement 2 is correct: The board consists of a Chairman and several other whole time and part time members. **The chairman is nominated by the union government.** The others include two members from the finance ministry, one member from Reserve Bank of India and five other members are also nominated by the Centre. The headquarters of Sebi is situated in Mumbai and the regional offices are located in Ahmedabad, Kolkata, Chennai and Delhi.

Source: <https://www.business-standard.com/about/what-is-reserve-bank-of-india#collapse>
<https://www.business-standard.com/about/what-is-sebi#collapse>

Q.39) “In this type of investment, a company may take controlling ownership in a business entity of another country. Foreign companies are directly involved with day-to-day operations in the business entity in other country. The foreign companies not only bring money, but also knowledge and technology.”

The above description can be most appropriately summed up by which of the following?

- a) Foreign Institutional Investment
- b) Investment by Participatory Notes
- c) Foreign Direct Investment
- d) Offshore Derivatives Instrument

Ans) c

Exp) Option c is the correct answer.

Option a is incorrect: Foreign institutional investment is the portfolio investment by foreign institutions like mutual funds, insurance companies, pension funds, etc., in shares and debentures. Foreign institutional investors (FIIs) are those institutional investors which invest in the assets belonging to a different country other than that where these organizations are based.

Option b is incorrect: Participatory notes are often referred to as PNs or P-Notes. These are financial instruments used by investors and hedge funds to invest in the Indian securities, and no registration is required with the SEBI. Investments flowing in through PNs are considered as offshore derivative investments (ODIs).

Option c is correct: Foreign direct investment (FDI) a type of investment is when a company takes controlling ownership in a business entity in another country. With Foreign direct investment, foreign companies are directly involved with day-to-day operations in the other country. It means foreign companies not only bring money to other country but also knowledge, skills and technology. Foreign direct investment takes place when an investor establishes foreign business operations or acquires foreign business assets, including establishing ownership or controlling interest in a foreign company.

Option d is incorrect: Offshore derivatives instruments (ODIs) are investment vehicles used by overseas investors for an exposure in Indian equities or equity derivatives. These investors are not registered with SEBI, either because they do not want to, or due to regulatory restrictions. These investors approach a foreign institutional investor (FII), who is already registered with SEBI.

Source: <https://economictimes.indiatimes.com/definition/fiis>
<https://www.business-standard.com/about/what-is-fdi>

<https://enterslice.com/learning/foreign-venture-capital-investment-fvci-in-india/#:~:text=The%20term%20%E2%80%9Cforeign%20venture%20capital,and%20also%20proposed%20to%20make>

Q.40) With reference to Cluster and Thermobaric weapons, consider the following statements:

1. Cluster Munitions are precision weapons to target small group of individuals.
2. Thermobaric weapons use oxygen from the air for a large-high-temperature blast.
3. There are no international treaties or convention governing the usage of Cluster and Thermobaric weapons.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 and 3 only
- c) 2 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

Statement 1 is incorrect: Cluster Munitions are **non-precision weapons** that are designed to injure or kill human beings indiscriminately over a large area and to destroy vehicles and infrastructure such as runways, railway or power transmission lines.

Statement 2 is correct: Thermobaric weapons also known as aerosol bombs, fuel-air explosives, or vacuum bombs – use oxygen from the air for a large-high-temperature blast.

A thermobaric weapon causes significantly greater devastation than a conventional bomb of comparable size.

Statement 3 is incorrect: There is a **Convention on Cluster Munitions (CCM)**. It is an international treaty adopted in 2008. It **prohibits the use, transfer, production, and stockpiling of cluster bombs**. Currently, 110 states are parties to the convention and 13 other countries have signed up but are yet to ratify it. Neither Russia nor Ukraine are signatories.

Thermobaric weapons are not prohibited by any international law or agreement, but their use against civilian populations in built-up areas, schools or hospitals, could attract action under The **Hague Conventions** of 1899 and 1907.

Source: Explained: What are cluster bombs and thermobaric weapons, allegedly used by Russia against Ukrainians?-ForumIAS Blog

Q.41) Consider the following statements:

1. The Reserve Bank of India manages and services Government of India Securities but not any State Government Securities.
2. Treasury bills are issued by the Government of India and there are no treasury bills issued by the state Governments.
3. Treasury bills offer are issued at a discount from the par value.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 3 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

Statement 1 is incorrect. The Government securities comprise dated securities issued by the Government of India and state governments as also, treasury bills. As an agent of the Government, the Reserve Bank of India manages and services these securities through its public debt offices located in various places. **State Government Securities are issued by the state governments. These issues are also managed and serviced by the Reserve Bank of India.**

Statement 2 is correct. Treasury bills (T-bills) offer short-term investment opportunities, generally up to one year. They are thus useful in managing short-term liquidity. These bills are issued only by the central government, and the State governments do not issue any treasury bills.

Statement 3 is correct. T-bills are issued at a discount and are redeemed at par. At present, the Government of India issues four types of treasury bills, namely, 14-day, 91-day, 182-day and 364-day. Source) UPSC 2018

Q.42) With reference to the Asset Reconstruction Companies (ARCs) in India, which of the statements given below is **incorrect**?

- Banking Regulations Act, 1949 provides the legal basis for the establishment of ARCs in India.
- They are regulated by the Reserve Bank of India as Non-Banking Financial Company.
- They are not permitted to undertake lending activities in India.
- ARCs in India are required to maintain the Capital Adequacy Ratio (CAR).

Ans) a

Exp) Option a is the correct answer.

Asset Reconstruction Company (ARC) is a specialized financial institution that buys the Non-Performing Assets (NPAs) from banks and financial institutions. It helps banks in cleaning up their balance sheets by buying their bad loans.

Option a is incorrect. The Securitisation and Reconstruction of Financial Assets and Enforcement of Security Interest (SARFAESI) Act, 2002 provides the legal basis to set up the Asset Reconstruction Company.

Asset Reconstruction Company (ARC) is a company registered under the **Companies Act** and registered with Reserve Bank of India under section 3 of The **Securitisation and Reconstruction of Financial Assets and Enforcement of Security Interest (SARFAESI) Act, 2002**.

Option b is correct. ARCs are regulated by RBI as a Non-Banking Financial Company [NBFC] (under RBI Act, 1934). They function under the supervision and control of the Reserve Bank of India (RBI).

Option c is correct. ARCs are not permitted to undertake lending activities. One ARC can be a sponsor or investor in another ARC or it can acquire debt from another ARC.

Option d is correct. The ARCs also have to maintain a capital adequacy ratio (CAR) of 15% of its risk-weighted assets.

Capital Adequacy Ratio is also known as Capital to Risk (Weighted) Assets Ratio (CRAR)

A high CAR indicates that a bank has an adequate amount of capital to deal with unexpected losses. A lower CAR means, a bank is at a higher risk of failure.

Q.43) With reference to Call money Market, consider the following statements:

- It is non-interest-earning financial loan with a pre-fixed maturity date.
- It is a short-term loan made by a financial institution to another financial institution.

Which of the statements given above are correct?

- a) 1 only
- b) 2 only
- c) both 1 and 2
- d) neither 1 nor 2

Ans) b

Exp) Option b is the correct answer.

Statement 1 is incorrect. Call money, also known as "money at call," is a short-term financial loan that is payable **immediately, and in full, when the lender demands it. Unlike a term loan, which has a set maturity and payment schedule, call money does not have to follow a fixed schedule**, nor does the lender have to provide any advanced notice of repayment. **It is an interest paying loan** but due to its short-term nature, it does not feature regular principal and interest payments which longer term loans might.

Statement 2 is correct. Call money is a short-term, interest-paying loan from **one to 14 days** made by a **financial institution to another financial institution**. Due to the short-term nature of the loan, it does not feature regular principal and interest payments, which longer-term loans might. The interest charged on a call loan between financial institutions is referred to as the **call loan rate**.

Source: <https://www.investopedia.com/terms/c/call-money.asp>

Q.44) Which of the following statements correctly defines the term 'Credit Spread'?

- a) It is the difference between the returns from two different debt instruments having the same maturity but different credit rating.
- b) It is the difference between the interest rate that a bank charges on a borrower and the interest rate a bank pays to a depositor.
- c) It is the difference between amount of credit availed by people in rural areas from a formal source and that from an informal source.
- d) It is the difference between the repo rate and average interest rate charged by commercial banks.

Ans) a

Exp) Option a is the correct answer.

Option a is correct. **Credit spread** is the **difference between the yield (return)** of two different debt instruments with the same maturity but different credit ratings. In other words, the spread is the difference in returns due to different credit qualities. It is used to reflect the additional yield required by an investor for taking on additional credit risk. For example, if a 5-year Treasury note is trading at a yield of 3% and a 5-year corporate bond is trading at a yield of 5%, the credit spread is 2% (5% – 3%).

Q.45) Consider the following statements:

1. The celestial signals from the early period of the universe are exceptionally faint.
2. Scientists have not yet deciphered the wavelength band of the signals from the early period of the Universe.

Which of the statements given above is/are the correct reasons for difficulty faced in detection of radio wave signals from an early period of the Universe?

- a) 1 only

- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) c

Exp) Option c is the correct answer.

Indian astronomers have refuted the recent claim of a discovery of a radio wave signal from Cosmic Dawn, the time in the infancy of our Universe when the first stars and galaxies came into existence.

Statement 1 is correct: Detecting a **Radio wave signal from Cosmic Dawn**, the time in the infancy of our Universe when the first stars and galaxies came into existence, is **extremely difficult**. This is because the celestial signal is **exceptionally faint** – buried in sky radio waves that come to us from the gas in our own Galaxy, the Milky Way, which are a million times brighter.

Statement 2 is correct: Some Scientists from USA have claimed that they have deciphered the wavelength band of the signals from the early period of the Universe. However, the researchers from Raman Research Institute, an autonomous institute of the Department of Science & Technology, refuted this claim. So, this claim stands falsified and statement 2 becomes correct.

Detecting a faint signal from such an early period of the Universe is **extremely difficult**. The celestial signal is **exceptionally faint** – buried in sky radio waves that come to us from the gas in our own Galaxy, which are a million times brighter. Besides, this cosmic signal is in a radio wavelength band used by numerous terrestrial communications equipment and TV and FM radio stations, which makes detecting the extra-terrestrial signal extremely difficult.

Knowledge Base:

SARAS 3 Radio Telescope: SARAS 3 radio telescope was invented and built by the astronomers at **Raman Research Institute**, an autonomous research institute engaged in research in basic sciences.

The telescope was designed, built and deployed in India to **detect extremely faint radio wave signals from the depths of time, from our “Cosmic Dawn”** when the first stars and galaxies formed in the early Universe. Source: SARAS 3 radio telescope refutes recent claim of the discovery of a radio wave signal from cosmic dawn -ForumIAS Blog

Q.46) Which of the following is the main aim of Standing Deposit Facility (SDF), recently introduced by the Reserve Bank of India?

- a) To increase demand in the economy by increasing the money supply.
- b) To absorb excess liquidity from the banking system in India.
- c) To ensure effective monetary policy transmission at ground level.
- d) To ensure that banks have enough capital to handle certain amount of losses.

Ans) b

Exp) Option b is the correct answer.

When banks have excess funds, they lend it to the RBI at the reverse repo rate in order to get returns from these extra funds. To execute the reverse repo rate functions, RBI needs government securities as collaterals.

Option b is correct. SDF is a monetary tool that allows banks to park their access liquidity with RBI without any collateral. RBI has introduced this tool to absorb excess liquidity in the market as it plays an important role in determining the policy rates.

Due to demonetization, funds with banks increased majorly and recently RBI also increased the reverse repo rate, these changes started attracting more funds towards the reverse repo operations. As the collaterals with RBI are limited in nature, it introduced a new facility known as Standing deposit facility,

that allows RBI to execute reverse repo operations without using collaterals to absorb excess funds in the banking sector.

Banks too continue to earn interest (though possibly lower than the existing reverse repo rate). In effect, it will empower the RBI to suck out as much liquidity as needed.

Source: <https://indianexpress.com/article/explained/everyday-explainers/what-is-standing-deposit-facility-7859803/>

Q.47) Arrange the following events in a chronological order according to their year of occurrence:

1. Introduction of Kisan Credit cards
2. Enactment of FRBM Act
3. Setting up of Narasimham-I committee.
4. Establishment of National Bank for Agriculture and Rural Development.

Select the correct answer from the code given below:

- a) 4-1-3-2
- b) 3-4-2-1
- c) 4-3-1-2
- d) 3-1-4-2

Ans) c

Exp) Option c is the correct answer.

The correct sequence is: 4-3-1-2

4- National Bank for Agriculture and Rural Development was established in 1982 on the recommendation of B. Sivaraman Committee for the overall regulation and licensing of regional rural banks and apex cooperative banks in India.

3- The Ministry of Finance set up Narasimham Committee – I in 1991 to analyse India's banking sector and recommend reforms. As India liberalized its economy in 1991, it was felt that banks were not performing efficiently. During the economic crises, it was recognized that banks have a crucial role to play in the economy and, hence, the banking sector had to be more competitive and effective.

1- The Kisan Credit Card (KCC) scheme was introduced in 1998 for issue of Kisan Credit Cards to farmers on the basis of their holdings to help them to purchase inputs for the agriculture.

2- The Fiscal Responsibility and Budget Management (FRBM) Bill was introduced in the parliament of India in the year 2000 for providing legal backing to the fiscal discipline to be institutionalized in the country. Subsequently, the **FRBM Act was passed in the year 2003.**

Q.48) With reference to Urban Co-operative Banks (UCBs) in India, consider the following statements:

1. These banks do not come under the regulatory jurisdiction of the Reserve Bank of India.
2. They can lend money only for the non-agricultural purposes.
3. UCBs are required to maintain stipulated levels of Cash Reserve Ratio (CRR) and Statutory Liquidity Ratio (SLR).

Which of the statements given above is/are correct?

- a) 1 and 3 only
- b) 3 only
- c) 2 and 3 only
- d) 2 only

Ans) b

Exp) Option b is the correct answer.

Statement 1 is incorrect. The Urban Banks Department of the Reserve Bank of India is vested with the responsibility of regulating and supervising primary (urban) cooperative banks, which are popularly known as Urban Cooperative Banks (UCBs).

Statement 2 is incorrect: Till 1996, these banks were allowed to lend money only for non-agricultural purposes. **This distinction does not hold today.**

Statement 3 is correct: According to the RBI, all primary (urban) co-operative banks (UCBs) (scheduled as well as non-scheduled) are required to **maintain** stipulated level of cash reserve ratio (CRR) and statutory liquidity ratio (SLR).

Source: <https://www.rbi.org.in/commonman/English/scripts/urbanbankdept.aspx>

https://m.rbi.org.in/scripts/BS_ViewMasCirculardetails.aspx?Id=5155&Mode=0

Q.49) With reference to different types of assets of Indian banks, consider the following pairs:

Type of Assets	Explanation
1. Sub-Standard Assets	Such assets are considered as uncollectible by the bank
2. Doubtful Assets	Such assets have not yet come under the category of 'Non-Performing Assets'
3. Loss Assets	Such assets are mandatorily written off from the bank's balance sheet completely

How many of the above pairs are correctly matched?

- a) Only one pair
- b) Only two pairs
- c) All three pairs
- d) None of the pairs

Ans) d

Exp) Option d is the correct answer.

NPA or Non-Performing Asset are loans or advances where the customers do not repay principal amount and interest within an allocated certain period of time.

Pair 1 is incorrect. The **Sub-Standard Assets** are loans and advances which has remained NPA for a period less than or equal to 12 months. In such cases, the current net worth of the borrower is not enough to

ensure recovery of the dues to the banks in full. These are characterised by the distinct possibility that the banks will sustain some loss, if deficiencies are not corrected.

Pair 2 is incorrect. Doubtful Assets are the Assets that has remained in the sub-standard category for a period of 12 months. The **Sub-Standard Assets** are loans and advances which **has remained NPA for a period less than or equal to 12 months.**

Pair 3 is incorrect. A loss asset is one where loss has been identified by the bank or internal or external auditors or the RBI inspection but **the amount has not been written off wholly.** In other words, such an asset is considered uncollectible and of such little value that its continuance as a bankable asset is not warranted although there may be some salvage or recovery value.

https://www.rbi.org.in/scripts/BS_ViewMasCirculardetails.aspx?Id=449

Q.50) Recently, government has approved the continuation of various sub-schemes under the Umbrella Scheme “Relief and Rehabilitation of Migrants and Repatriates”. In this context, which one of the following is the nodal ministry for this umbrella scheme?

- Ministry of External Affairs
- Ministry of Minority Affairs
- Ministry of Home Affairs
- Ministry of Personnel, Public Grievances & Pensions

Ans) c

Exp) Option c is the correct answer.

The government has approved the continuation of the **seven existing sub-schemes** under the Umbrella Scheme “Relief and Rehabilitation of Migrants and Repatriates” for the period 2021-22 to 2025-26.

Relief and Rehabilitation of Migrants and Repatriates Scheme: The scheme aims to enable migrants and repatriates, who have suffered on account of displacement, to earn a reasonable income and to facilitate their inclusion in mainstream economic activities. **Ministry of Home affairs is the nodal ministry for the scheme.**

There are seven sub-schemes under Relief and Rehabilitation of Migrants and Repatriates Scheme namely:

- Relief and Rehabilitation of displaced families of Pakistan Occupied Areas of Jammu and Kashmir and Chhamb.
- Relief assistance to Sri Lankan Tamil refugees.
- Relief assistance to Brus lodged in relief camps in Tripura.
- Enhanced relief to 1984 Anti-Sikh Riot Victims.
- Financial Assistance and other facilities to the families of affected civilian victims of terrorist violence including militancy, insurgency, communal/ Left Wing Extremism violence and cross border firing and victims of mine/IED blasts on Indian Territory.
- Grants-in-aid to Central Tibetan Relief Committee (CTRC).
- Grants-in-Aid to Government of West Bengal for infrastructure development in 51 erstwhile Bangladeshi enclaves in India, situated in Cooch Behar District and for resettlement of 922 returnees from erstwhile Indian enclaves in Bangladesh.

Source: Government has approved continuation of Umbrella Scheme “Relief and Rehabilitation of Migrants and Repatriates” -ForumIAS Blog

Q.1) In the context of independent India's economy, which one of the following was the earliest event to take place?

- a) Nationalization of Insurance companies
- b) Nationalization of State Bank of India
- c) Enactment of Banking Regulation Act
- d) Introduction of First Five-Year Plan

Ans) c

Exp) Option c is the correct answer.

Nationalization of State Bank of India – 1955;
Introduction of First Five-Year Plan – 1951;
Enactment of Banking Regulation Act – 1949;
Nationalization of Insurance Companies – 1955-56

Source) UPSC CSE Pre 2009

Q.2) The 15th Finance Commission has recommended a total 'Post Devolution Revenue Deficit Grant' of Rs. 86,201 crores for the financial year 2022-23. Regarding this Post Devolution Revenue Deficit Grant, consider the following statements:

1. The word "Post Devolution Revenue Deficit Grant" is mentioned in Article 275 of the Indian Constitution.
2. It is duty of the Union Government to release this grant to all states, irrespective of their financial position.
3. The Department of Expenditure, under the Ministry of Finance, releases such amount to the respective state governments.

Which of the statements given above is/are **incorrect**?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 only
- d) 1, 2 and 3

Ans) a

Exp) Option a is the correct answer.

Option 1 is incorrect: Although the central government provides the Post Devolution Revenue Deficit Grants to the States under Article 275 of the Constitution, the word "Post devolution revenue deficit grant" is **not mentioned in Article 275**.

Option 2 is incorrect: It is **not mandatory** for the central government to provide this grant to all states. Such grants will be released to those states **based on the recommendation of the finance commission**. For example, recently the Union government released 86,201 crores to 14 states.

Option 3 is correct: Finance commission has only advisory power i.e., it can only recommend. The ultimate authority rests with the union government and the **Department of Expenditure (Ministry of Finance) will release** the approved amount to the respective state governments.

Source:

<https://www.pib.gov.in/PressReleasePage.aspx?PRID=1865563#:~:text=The%20Fifteenth%20Finance%20Commission%20has,in%2012%20equated%20monthly%20instalments.>

Q.3) With reference to the 'Fiscal marksmanship', which of the following statements is correct?

- a) It is the difference between the budgetary expenditures and the government's revenue receipts.
- b) It refers to the accuracy of the government's forecast of fiscal parameters.

- c) It refers to the sharing of tax revenues by the Union government with the states as per the spirit of fiscal federalism.
- d) It is the deflationary effect of a progressive taxation system on a country's economy.

Ans) b

Exp) Option b is the correct answer.

Fiscal marksmanship essentially refers to the **accuracy of the government's forecast of fiscal parameters** such as revenues, expenditures and deficits etc. In other words, if the difference between what the government projected in the Budget and the actual figures a year later is large then it reflects poor fiscal marksmanship. It helps determine the creditability of the budget numbers of the government.

Source: <https://indianexpress.com/article/explained/explained-what-ails-with-the-credibility-of-indias-budget-numbers-6239577/>

Q.4) With reference to taxation regime in India, which one of the following statements is correct regarding 'Surcharge'?

- a) It is a form of a temporary tax levied by the government with specific purposes.
- b) The government can utilise the proceeds of surcharge for whichever purpose it deems fit.
- c) The 101st Constitutional Amendment Act gives the power to Central Government to ordinarily impose surcharge over and above the GST.
- d) The proceeds from surcharge mandatorily needs to be shared with State governments.

Ans) b

Exp) Option b is the correct answer.

Option a is incorrect: **Surcharge** is an additional charge or tax. In simple words, a surcharge is a tax on tax. It is levied as a percentage on the income tax payable as per normal rates. In case no tax is due for a financial year, then no surcharge is levied. **Unlike a cess**, which is meant to raise revenue for a temporary need, **surcharge is usually permanent in nature.**

Option b is correct: Parliament can impose a surcharge for 'the purposes of the Union'. The exact import of this phrase is not clear, but it is logical that the Union can impose a surcharge only on its tax base. Unlike a cess, in the case of a surcharge, there is **no need to stipulate the purpose at the time of levy and it is the discretion of the Union** to utilise the proceeds of the surcharges for whichever purpose it deems fit.

Option c is incorrect: Pursuant to Constitution (One Hundred and First Amendment) Act, 2016, a surcharge **cannot ordinarily be imposed over and above the Goods and Service Tax.**

Option d is incorrect: The proceeds from surcharges **need not be shared with State Governments.** The concept of surcharge and the language for 'purposes of the Union' in Article 271 was interpreted to mean that surcharge proceeds are **separate from income tax proceeds** for the purposes of distribution and therefore it is not the obligation of Union to share proceeds from surcharge with the states.

Q.5) With reference to 'Electronically Transmitted Postal Ballot System' (ETPBS), consider the following statements:

1. It can be utilized by the government employees posted on diplomatic missions outside India.
2. Citizens aged 80 years and above can opt for postal ballot.
3. The Conduct of Election Rules, 1961 was amended recently to allow Non-Resident Indian to use the ETPBS.

Which of the statements given above is/are correct?

- a) 1 only
- b) 1 and 2 only
- c) 3 only
- d) 1 and 3 only

Ans) b

Exp) Option b is the correct answer.

The Chief Election Commissioner has told members of the Indian community in South Africa and Mauritius that the facility to extend the Electronically Transmitted Postal Ballot System (ETPBS) facility to overseas voters is being contemplated.

Statement 1 is correct: The Electronically Transmitted Postal Ballot System (ETPBS) enables entitled **service voters to cast their vote** from their preferred location, which is **outside their originally-assigned voting constituency**. Persons working in **Central forces under Arms Act**, government officials deployed in embassies outside the country and **government employees on diplomatic missions outside India** are classified as service voters

Statement 2 is correct:

In October 2019, the Law Ministry amended the Conduct of Election Rules to allow people with disabilities and those who are 80 years of age or above to opt for postal ballot during Lok Sabha and assembly elections. In January, 2022 Election Commission of India has allowed journalists authorized by the poll panel to cast their votes through a postal ballot facility.

Statement 3 is incorrect: The Conduct of Election Rules, 1961 was amended in 2016 to **allow service voters** to use the ETPBS. In 2020, Election Commission of India had written to the Law Ministry **proposing NRIs be allowed to vote through postal ballots** following which the matter has been under consideration by the government.

Source: Postal Ballots for NRIs being contemplated -ForumIAS Blog

Assembly Election 2021: ETPBS to allow for transmission of postal ballots to service voters; an overview- Politics News, Firstpost

Q.6) Which of the following best describes the distinction between public goods and private goods?

- a) Public goods are generally rival in nature but private goods are non-rivalrous.
- b) Purchasing power of a person determines whether he/she can avail the private goods whereas it is not so in public goods.
- c) Public goods are produced by the government only whereas the private goods are produced by private sector only.
- d) Unlike public goods, user of private goods can voluntarily refuse to pay for the goods and services enjoyed.

Ans) b

Exp) Option b is the correct answer.

Option a is incorrect: The **benefits** of public goods are enjoyed by **all people** and it is **non rivalrous** in nature. E.g., **The Clean environment** (air, water, sanitation etc.) is a public good which upon its consumption cannot be reduced and its benefit is not limited to any particular person. But the **private goods** such as **chocolate** are reduced upon its consumption and are generally **rival** in nature.

Option b is correct: **Purchasing power** of a person **determines** his/her access to **private goods** E.g A person's capability to buy laptops, bikes is dependent upon his/her ability to pay. But in the case of **public**

good such as food, clean drinking water one's ability to pay **don't play a significant role** because of **government's interference** in terms of providing subsidy, public investment etc.,

Option c is incorrect: Public goods are produced by both the public and private players e.g. electricity.

Option d is incorrect: Also, public good faces a free rider problem. Some users of public goods voluntarily refuse to pay for the goods and services that are offered freely by the government e.g **User fees for water and roads are not paid by some users.** However, in the case of **private goods** the buyer and seller relation are maintained by the **one's willingness to pay for the goods and services. E.g., Without paying one cannot enter the Movie theatre.**

Source: NCERT Class XII: Introductory Macroeconomics (pg no 67)

Q.7) Which of the following activities can have a positive effect on fiscal consolidation in India?

1. Implementation of the FRBM Act
2. Ensuring debt sustainability
3. High tax expenditure
4. Increasing off-budget borrowings
5. Introduction of Goods and Services Tax
6. Direct Benefit Transfer of government subsidies

Select the correct answer using the code given below:

- a) 1, 2 and 6 only
- b) 2, 4, 5 and 6 only
- c) 1, 2, 5 and 6 only
- d) 1, 2, 3 and 5 only

Ans) c

Exp) Option c is the correct answer

Fiscal consolidation refers to the ways and means of narrowing the fiscal deficit.

Option 1 is correct. Fiscal consolidation aims at reducing government deficits and debt accumulation. The Fiscal Responsibility and Budget Management (FRBM) Act gives the **targets for fiscal consolidation in India.**

Option 2 is correct. A country's public debt is considered sustainable if the government is able to meet all its current and future payment obligations. Timely payments help in preventing extra payments in the form of interests. Thus, ensuring sustainability of debt will help in fiscal consolidation path.

Option 3 is incorrect. Tax expenditure is revenue forgone due to tax concessions and exemptions. **High tax expenditure affects tax revenues and hence leads to higher fiscal deficits.**

Option 4 is incorrect. Although Off-budget liabilities are not incorporated in the calculation of fiscal deficit, **they are included in the calculation of government debt.** Thus, higher and increasing off-budget borrowings will increase government debt.

Option 5 is correct. GST has widened the tax base. **A wider tax base improves revenue collections.** This will help reduce revenue deficit and thus promote fiscal consolidation.

Option 6 is correct. Direct Benefit Transfer of government subsidies will help plug subsidy leaks. This will save money and thus will help in fiscal consolidation.

Source: NCERT Class XII: Introductory Macroeconomics,

Q.8) Consider the following pairs:

Types of Deficit	Meaning
1. Effective Revenue Deficit	Excess of government's revenue expenditure over total receipts.
2. Primary Deficit	Indicates the government's borrowings that are utilised to pay the interest on loans.
3. Monetised Deficit	Part of public deficit financed by borrowings from abroad.

Which of the pairs given above is/are correctly matched?

- 1 and 2 only
- 2 only
- 2 and 3 only
- 1 and 3 only

Ans) b

Exp) Option b is the correct answer.

Pair 1 is incorrect. The revenue deficit refers to the excess of government's revenue expenditure over revenue receipts (not total receipts).

Revenue deficit = Revenue expenditure – Revenue receipts

On the contrary, Effective Revenue Deficit is the **difference between revenue deficit and grants for creation of capital assets**. The concept of effective revenue deficit was suggested by the Rangarajan Committee on Public Expenditure and introduced in 2011-12 budget. It is aimed to deduct the money used out of borrowing to finance capital expenditure. The concept has been introduced to ascertain the actual deficit in the revenue account after adjusting for expenditure of capital nature.

Pair 2 is correct. Primary deficit is the difference between the fiscal deficit of the current year and the interest paid by the government on loans obtained in the past. It **indicates the government's borrowings that are utilised to pay the interest on loans rather than on capital expenditure**.

Pair 3 is incorrect. Monetized deficit is the part of the government deficit which is financed by borrowing from RBI. Monetised deficit, also known as debt monetisation, is the monetary support that Reserve Bank of India (RBI) extends to the Centre as part of the government's borrowing programme. In other words, the term refers to the **purchase of government bonds by the central bank to finance the spending needs of the government**. Monetisation of deficit was in practice in India till 1997, whereby the central bank automatically monetised government deficit through the issuance of ad-hoc treasury bills.

Source: Macroeconomics, NCERT XII, Chapter-5, Pg. 65

http://arthapedia.in/index.php?title=Effective_Revenue_deficit

<https://economictimes.indiatimes.com/markets/stocks/news/deficit-monetisation-is-it-really-as-simple-as-rbi-printing-more-money/articleshow/75968757.cms?from=mdr>

Q.9) With regard to infrastructure-related schemes, which of the following statements is/are correct?

- National Monetisation Plan includes the monetisation of both central and state governments assets.
- National Infrastructure Pipeline is wholly funded by the Union government.
- National Monetisation Plan includes green field and brown field projects, but National Infrastructure Pipeline includes only brownfield projects.

Select the correct answer using the code given below:

- a) 1 only
- b) 2 only
- c) 1 and 3 only
- d) None of the above

Ans) d

Exp) Option d is the correct answer.

The National monetisation plan (NMP) was announced in the Union Budget 2021-22. It is a way to convert the government's infrastructure assets into monetary value. In this case, the government will monetise the contracts to build railways, roads, power grids, bridges and so on.

The National Infrastructure Pipeline (NIP) for FY 2019-25 is a first-of-its-kind, whole-of-government exercise to provide world-class infrastructure to citizens. The plan will help India to reach \$5 trillion economy by 2025.

Statement 1 is incorrect: The National monetisation plan (NMP) includes selection of de-risked and brownfield core assets. Further, currently, only assets of **central government line ministries and CPSEs in infrastructure sectors** have been included. Process of coordination and collation of asset pipeline from states is currently ongoing and the same is envisaged to be included in due course.

Statement 2 is incorrect: National Infrastructure Pipeline will be funded jointly by the Centre, states and the private sector in the proportion of 39:39:22 (39 % each by the centre and states and **22% by the private sector**).

Statement 3 is incorrect: **NMP covers brownfield assets only.** Whereas NIP covers **all projects (Greenfield or Brownfield, under conceptualization or under implementation or under Development) of project cost greater than Rs. 100 crore per project.**

Source: Press Information Bureau (pib.gov.in)

National Infrastructure Pipeline: Invest in Infrastructure Projects in India | IIG (indiainvestmentgrid.gov.in)

Q.10) Recently, the term 'Wright Mons' was seen in news. It is related to:

- a) first airplane model designed by Wright Brothers.
- b) comet like asteroid discovered in Kuiper Belt.
- c) mountainous feature found on Pluto.
- d) type of Crypto Ransomware appeared online.

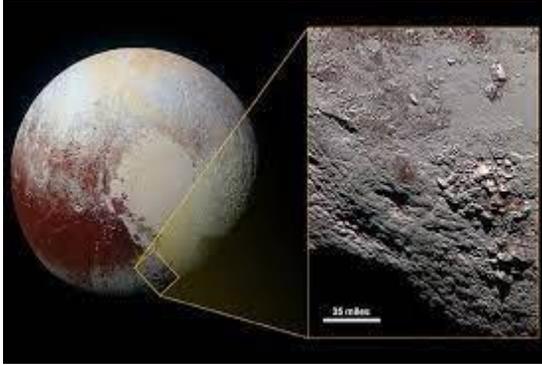

Ans) c

Exp) Option c is the correct answer.

The National Aeronautics and Space Administration's (NASA) **New Horizons probe** has reported new findings of Pluto. The probe reported that icy lava flows have recently (no more than a billion years ago) covered substantial tracts of its surface. The findings drew particular attention to a mountainous feature named Wright Mons.

Wright Mons is a mountainous feature found on Pluto. It was informally named by the New Horizons team in honour of the Wright brothers. It is about 150 km across its base and has a central depression (a hole) 40-50 km wide, with a floor at least as low as the surrounding terrain.

Scientists claim that Wright Mons is a volcano and cite the lack of impact craters as evidence that it is not likely to be older than 1-2 billion years.

Wright Mons

The volume of Wright Mons exceeds 20 thousand cubic kilometres. Although considerably less than the volume of Mars's biggest volcanoes, this is similar to the total volume of Hawaii's Mauna Loa, and much greater than the volume of its above sea-level portion.

Source: Pluto: 'Recent' volcanism raises puzzle – how can such a cold body power eruptions? -ForumIAS Blog

Q.11) If another global financial crisis happens in the near future, which of the following action/policies are most likely to give some immunity to India?

1. Not depending on short-term foreign borrowings
2. Opening up to more foreign banks
3. Maintaining full capital account convertibility

Select the correct answer using the code given below:

- a) 1 only
- b) 1 and 2 only
- c) 3 only
- d) 1, 2 and 3

Ans) a

Exp) Option a is the correct answer.

Statement 1 is correct. The Short-term debts have to be returned at a shorter interval. This renders an economy vulnerable if the economy is already facing economic crisis as it has an obligation to return the debt as well as interest payments (debt service). Example: Many economies like Mexico, Argentina etc who faced crisis were seen to have borrowed large amounts of short-maturity debt. So, the ideal scenarios is not to depend upon short-term debt during crisis.

Statement 2 is incorrect. Opening up to the foreign banks and depending upon them is not a good idea during crisis. It has been empirically observed in World Bank Research that in many cases (like during Global Financial Crisis 2007-08) that foreign banks reduced their lending during crisis. Many of them choose to retreat from cross-border banking in general, including through cutting back on new entry.

Statement 3 is incorrect. Capital account convertibility would mean that there is no restriction on conversion of the domestic currency into a foreign currency. It is recognised that capital flows are sensitive to macroeconomic conditions. Any deterioration in fiscal conditions, inflation management, balance of payments, or any other economic crisis may cause a cessation or reversal of capital flows. This might make the economy vulnerable if it already suffering from economic crisis.

Q.12) Consider the following statements in context of the recently adopted Sustainable Public Procurement policy:

1. It was launched by the Government e-Marketplace (GeM) in association with United Nations Framework Convention on Climate change (UNFCCC).
2. The Policy allows the option of reverse auction, where seller can quote a future buyback price of the product.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) b

Exp) Option b is the correct answer.

Statement 1 is incorrect: Sustainable Public procurement policy was **launched not in association with UNFCCC but with United Nations Environment Programme (UNEP)**. GeM in association with UNEP launched an initiative of sustainable public procurement policy to promote environment-friendly policy.

Statement 2 is correct: The new feature called **reverse auction (buyback option)** was introduced in this initiative. It permits **seller to quote the price of new products along with the price of buyback for the same product**. For instance, if the government buys Air conditioner from a seller, then the seller needs to quote the buyback price of AC after it becomes obsolete. This way **disposal of electronic waste can be made safe**.

Source: <https://www.pib.gov.in/PressReleasePage.aspx?PRID=1831192>

Q.13) Which among the following is the correct description of the term, 'Seigniorage'?

- a) The cost of metal incurred by a government when it issues new coins.
- b) The cost incurred by a government when it issues currency.
- c) The loss made by a government due to soiling and mutilation of the currency in circulation.
- d) The profit made by a government when it issues currency.

Ans) d

Exp) Option d is the correct answer.

Seigniorage refers to **the profit made by a government when it issues currency**. It is simply the **difference in the value of the currency versus the cost of producing** it. Seigniorage is a way for governments who mint their currency to make an economic profit. The cost of producing currency is generally lower than the face value of the currency itself.

Monetary seigniorage can be used as an effective monetary policy tool. It can result in debt monetization. **Debt monetization** is when a central bank will buy interest-bearing debt with non-interest-bearing money. It can be a useful tool to control the debt level of an economy.

Source: <https://www.investopedia.com/terms/s/seigniorage.asp>

<https://corporatefinanceinstitute.com/resources/knowledge/economics/seigniorage/>

Q.14) In the context of the Indian economy, consider the following statements:

1. The increase in the share of revenue deficit in the gross fiscal deficit indicates that the quality of public expenditure is declining.
2. An increase in the fiscal deficit can boost a sluggish economy.

3. Government may introduce new taxes to deal with the revenue deficit.

Which of the statement(s) given above is /are correct?

- a) 1 and 3 only
- b) 2 only
- c) 1, 2 and 3
- d) 1 and 2 only

Ans) c

Exp) Option c is the correct answer.

A fiscal deficit is the excess of the total government expenditure over receipts from both tax and non-tax sources excluding borrowings, during a fiscal year in both current and capital accounts.

A revenue deficit is the excess of estimated government expenditure over receipts during a fiscal year in revenue account.

Statement 1 is correct. The share of the revenue deficit in the gross fiscal deficit (RD-GFD) indicates the proportion of borrowed resources exhausted on revenue expenditure rather than investment. It reflects the quality of expenditure – **a higher RD-GFD points to decline in quality** since fiscal multipliers tend to be lower for capital outlays than for current expenditure.

Statement 2 is correct. An **increase in the fiscal deficit, can boost a sluggish economy** by giving more money to people who can then buy and invest more.

Statement 3 is correct. When total revenue expenditure exceeds total revenue receipts it leads to a revenue deficit. The **Centre often resorts to borrowings and divestments to make up for this gap in revenue, alongside the introduction of new or increasing taxes.**

Source: https://m.rbi.org.in/scripts/BS_ViewBulletin.aspx?Id=20872

https://www.google.com/amp/s/m.economictimes.com/budget-faqs/how-does-revenue-fiscal-and-primary-deficit-impact-the-economy/amp_articleshow/88250152.cms

Q.15) With reference to 'Climate Change', which one of the following statements correctly describe the term 'Social Cost of Carbon' (SCC)?

- a) It is the total impact of excess carbon emission on the vulnerable sections including tribals, women and children.
- b) It is a mechanism to set price on carbon by defining a tax rate on greenhouse gas emissions.
- c) It is the marginal cost of the impacts caused by emitting one extra tonne of greenhouse gas.
- d) It is the number of work days lost by people due to negative impacts of atmospheric carbon.

Ans) c

Exp) Option c is the correct answer.

Option c is correct: The **social cost of carbon (SCC)** is the **marginal cost of the impacts caused by emitting one extra tone of greenhouse gas** (carbon dioxide equivalent) at any point in time, **inclusive of 'non-market' impacts on the environment and human health.**

The social cost of carbon is a calculation focused on taking corrective measures on climate change which can be deemed a form of market failure

When we emit a ton of carbon dioxide in the atmosphere, it sticks around for a while and causes warming, affecting human outcomes. The social cost of carbon is the total damage that an additional ton of CO₂ has on outcomes, converted into monetary term.

Option b is incorrect: A carbon tax directly sets a price on carbon by defining a tax rate on greenhouse gas emissions or – more commonly – on the carbon content of fossil fuel.

Option d is incorrect: Carbon trading is the process of buying and selling permits and credits that allow the permit holder to emit carbon dioxide.

Q.16) Which of the following items are credited into the Consolidated Fund of India?

1. Revenues received by the Government of India
2. The loans obtained from foreign governments
3. Provident fund deposits
4. Remittances received from abroad

Select the correct answer using the code given below:

- a) 1 and 2 only
- b) 1, 2 and 3 only
- c) 2 and 4 only
- d) 1, 2 and 4 only

Ans) a

Exp) Option a is the correct answer.

Consolidated Fund of India is the most important of all government accounts. Revenues received by the government and expenses made by it, excluding the exceptional items, are part of the Consolidated Fund.

Statement 1 is correct: All revenues received by the Government of India are credited into the Consolidated Fund of India.

Statement 2 is correct: All loans raised by the Central Government by issue of public notifications, treasury bills (internal debt) and loans obtained from foreign governments and international institutions (external debt) are credited into the Consolidated Fund of India.

Statements 3 and 4 are incorrect: All other public money (other than those which are credited to the Consolidated Fund of India) received by or on behalf of the Government of India shall be credited to the **Public Account of India**. This includes **provident fund deposits**, judicial deposits, savings bank deposits, departmental deposits, **remittances** and so on. This account is operated by executive action, that is, the payments from this account can be made without parliamentary appropriation. Such payments are mostly in the nature of banking transactions.

Source: https://cca.ind.nic.in/govt_accounts.asp

<https://economictimes.indiatimes.com/definition/consolidated-fund>

https://www.business-standard.com/podcast/finance/what-is-the-consolidated-fund-of-india-122010700095_1.html

Q.17) Which of the following can be considered as the appropriate objectives of the Government's Budgeting?

1. Provision of all types of goods and services to the citizens
2. Redistribution of income among the citizens
3. Reduction or expansion of aggregate demand in an economy
4. Disincentivizing the production of certain goods

Select the correct answer using the code given below:

- a) 1 and 2 only
- b) 2 and 4 only
- c) 1 and 3 only
- d) 2, 3 and 4 only

Ans) d

Exp) option d is the correct answer.

Option 1 is incorrect. Government budget decisions can influence the provision of **public goods** such as roads, water, food etc., but its impact on **private goods** such as cars, cosmetics etc., is not as good as it is

in public goods. Also, such goods and services may not reach all the citizens given the implementation issues, corruption etc., **So statement 1 is extreme and absurd** and hence it is wrong.

Option 2 is correct. The other important function of the budget is its impact on the **distribution of wealth and national income**. For instance, the **direct tax such as income tax, corporate tax, surcharge redistributes** the wealth from rich to poorer section of the population. The government sector affects the personal disposable income of households by making transfers and collecting taxes.

Option 3 is correct. The government may need to correct fluctuations in income and employment. The overall level of employment and prices in the economy depends upon the level of aggregate demand. In any period, the level of demand may not be sufficient for full utilisation of labour and other resources of the economy. The government thus needs to intervene to raise the aggregate demand.

On the other hand, there may be times when demand exceeds available output under conditions of high employment and thus may give rise to inflation. In such situations, restrictive conditions may be needed to reduce demand.

The intervention of the government whether to expand demand or reduce it constitutes the stabilisation function.

Option 4 is correct Government through its budgetary policy especially through its taxation policy both encourages and discourages the production of a particular goods and services. It discourages junk food by imposing **fat tax (Kerala became the first state in India to implement a fat tax of 14.5% on junk food** like pizzas, burgers and more). Government by giving the tax incentives or reducing the tax rate can encourage the production of certain goods. For example, in the face of 2nd wave of Covid19 pandemic, the GST Council on **slashed tax rates on drugs, medical grade oxygen and testing kits to 5%** to encourage its production. Source: 12th NCERT Introductory Macroeconomics (pg no 66,67)

Q.18) With reference to budget of Union Government of India, which of the following are considered as the components of capital expenditure?

1. Investment in equities by the Government
2. Grants given to state governments for creation of assets
3. Loans given to the foreign nations
4. Investment on building of roads and ports

Select the correct answer using the code given below:

- a) 1, 2 and 4 only
- b) 1, 3 and 4 only
- c) 3 and 4 only
- d) 1, 2, 3 and 4

Ans) b

Exp) option b is the correct answer.

Option 1 is correct. Capital expenditure is the **money spent on the acquisition** of assets like land, buildings, machinery, equipment, as well as **investment in shares or equities**.

Option 2 is incorrect. All those expenditures that are incurred by the government for purposes other than the creation of physical or financial assets are called **revenue expenditures**. **Grants given to states including for creation of assets** is considered as **revenue expenditure by the Union government** as it doesn't result in creating any assets for the Union government. Other revenue expenditures are **Salaries, wages, pensions, subsidies, interest payments**.

Option 3 is correct. Loans given to foreign nations, or any entity are treated as assets of the government because they accrue **income in the form of interest**. Additionally, the **recipient of loan (unlike grants) are bound to repay** the amount hence it is considered as assets. Hence the **loans are capital expenditure**.

Option 4 is correct. Government by spending on **infrastructure** creates an **asset** for the country. For example, government's investment on **building roads and ports** creates financial assets and supports economic activity in the country. So, they **are components of capital expenditure**.

Q.19) Consider the following statements with reference to the Intellectual Property Rights (IPR) regime in India:

1. A biological process to create a seed or plant cannot be patented in India.
2. The Department for Promotion of Industry and Internal Trade is the nodal Department for the administration of various laws related to IPRs.
3. The number of patents filed annually in India has consistently increased during the last five years.
4. India grants the highest number of patents among all the BRICS nations.

Which of the statements given above are correct?

- a) 1, 2 and 3 only
- b) 2 and 3 only
- c) 1, 2 and 4 only
- d) 1 and 3 only

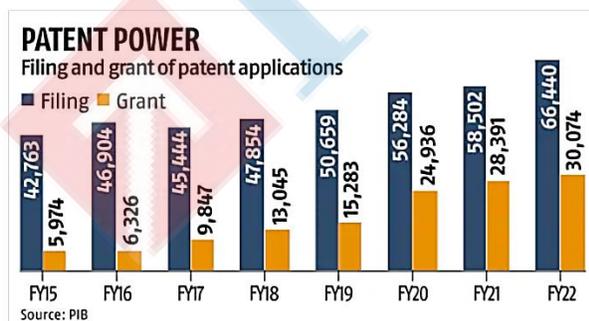

Ans) a

Exp) Option a is the correct answer.

Statement 1 is correct: According to **Section 3(j) of India's Patents Act 1970**, a seed or a plant, or a biological process to create a seed or plant cannot be patented. The Patents Act - 1970 does not allow plants and animals, including seeds, varieties, and species, and essentially biological processes for production or propagation of plants and animals from being patented.

Statement 2 is correct: **The Department for Promotion of Industry and Internal Trade (DPIIT), Ministry of Commerce and Industry, is the nodal Department in India for administration of various laws related to IPRs. It includes IPRs** such as Patents, Trade Marks, Industrial Designs, Geographical Indications of Goods, Copyrights, Semiconductor Integrated Circuit Layout Designs. It is also mandated for the vetting of Memorandum of Understandings (MoUs) signed with various Ministries/ Departments of Government of India in terms of IPR issues and at international negotiations. The Department also deals with international organizations pertaining to IPR such as World Intellectual Property Organization (WIPO).

Statement 3 is correct: **Filing of intellectual property (IP) patents in India rose 30% in the last five years.** The number of patents annually filed in India has continuously increased during the last five years.

Statement 4 is incorrect: The economic Survey pointed out that the number of patents granted in India remains a fraction of China, the US, Japan, and South Korea. Though patents filed in India have grown considerably, as per the World Intellectual Property Organization (WIPO), the number is still a fraction of

the 5.30 lakh patents granted in China. Since China is a part of BRICS, so we cannot say that India grants a higher number of patents as compared to all the BRICS nations.

Q.20) The Noise Pollution (Regulation and Control) Rules of 2000 have been notified under which of the following Acts?

- The Environment (Protection) Act, 1986
- Air (Prevention and Control of Pollution) Act, 1981
- Wild Life (Protection) Act, 1972
- The Water (Prevention and Control of Pollution) Act, 1974

Ans) a

Exp) Option a is the correct answer.

Noise is any unwanted sound that causes annoyance, irritation and pain to the human ear is termed 'noise'. Noise pollution and its sources are regulated under **The Noise Pollution (Regulation and Control) Rules, 2000 under The Environment (Protection) Act, 1986**. The Act has defined ambient acceptable noise levels, silence zones, restrictions on the use of loudspeakers, horns, sound-emitting construction equipment, and bursting of crackers.

Source: Explained: What constitutes 'noise', and how can noise pollution harm you? -ForumIAS Blog

Q.21) A decrease in tax to GDP ratio of a country indicates which of the following?

- Slowing economic growth rate.
 - Less equitable distribution of national income.
- Select the correct answer using the codes given below.

- 1 only
- 2 only
- Both 1 and 2
- Neither 1 nor 2

Ans) a

Exp) Option a is the correct answer.

Option 1 is correct. Tax to GDP ratio compares the amount of taxes collected by a government to the amount of income that country receives for its products. A decrease in tax to GDP ratio of a country indicates a slowing economic growth. When tax revenues grow at a slower rate than the GDP of a country, the tax-to GDP ratio drops.

Option 2 is incorrect. A decrease in tax to GDP ratio of a country does not indicate a less equitable distribution of national income. Tax to GDP ratio and income inequality are not directly correlated with each other.

Source) UPSC CSE Pre 2015

Q.22) Which of the following events may lead to fiscal drag in an economy?

- Rise in income
- Progressive Taxation
- Increasing Repo rate

4. Deflation

Select the correct answer using the code given below:

- a) 1, 2 and 3 only
- b) 1 and 2 only
- c) 1, 3 and 4 only
- d) 2 and 4 only

Ans) b

Exp) Option b is the correct answer.

Fiscal drag is an economic term whereby **inflation or income growth** moves **taxpayers into higher tax brackets**. This in effect increases government tax revenue without actually increasing tax rates.

Option 1 and 2 are correct. Fiscal drag happens when **income growth** moves tax payers into higher tax brackets, because of **progressive taxation** system. This results in larger share of income going into taxes, reducing aggregate demand as consumer spending decreases.

Inflation can cause a drag as it reduces the **money left in the hands of people**. The **increase in taxes reduces aggregate demand** and consumer spending from taxpayers **as a larger share of their income now goes to taxes**, which leads to **deflationary policies**, or **drag**, on the economy.

Progressive taxation, whereby individuals are moved into higher tax brackets because of inflation or increased income, is a fiscal policy that results in fiscal drag.

Option 3 is incorrect. **Change in repo rates** controls the **flow of money** in the economic system. Increasing **repo rate would decrease the money supply** in the system and thus would lead to deflationary pressures. This would not result in Fiscal Drag.

Option 4 is incorrect. Fiscal drag happens **when inflation (and not deflation)** moves tax payers into higher tax brackets, because of progressive taxation system. This results in larger share of income going into taxes, reducing aggregate demand as consumer spending decreases. This ultimately leads to drag on the economy.

Source: <https://www.investopedia.com/terms/f/fiscal-drag.asp>

Q.23) In the context of Ricardian Equivalence, what will be the most likely consequence of increased government expenditure through debt financing?

- a) Aggregate demand of goods and services remains unchanged
- b) Aggregate supply of goods and services will decrease
- c) Aggregate demand of goods and services will rise sharply
- d) Aggregate demand of goods and services will decrease

Ans) a

Exp) option a is the correct answer.

Debt government spending means a part of expenditure by the government facilitated through borrowing. **The Ricardian Equivalence** states that when a government tries to stimulate an economy by increasing **debt-financed government spending**, **demand** remains **unchanged**. It is so because **people will save more because they anticipate the increase in tax rate** by the government to pay off its accumulated debts.

Source: 12th NCERT Introductory Macroeconomics (pg no 79)

Q.24) The Fiscal Responsibility and Budget Management Act (FRBM) act mandates the submission of three documents along with Annual financial statements. Among these, which of the following documents envisages a fiscal deficit target for the country?

- a) The Medium-term Fiscal Policy Statement

- b) The Macroeconomic Framework Statement
- c) The Fiscal Policy Strategy Statement
- d) The External Sector debt statement

Ans) a

Exp) Option a is the correct answer.

Option a is correct. The **Medium-term Fiscal Policy Statement** is presented under the Fiscal Responsibility and Budget Management (FRBM) Act, 2003. It **sets out three-year rolling targets** for specific fiscal indicators. These indicators include the following:

- (1) **fiscal deficit as a percentage of GDP;**
- (2) revenue deficit as a percentage of GDP;
- (3) primary deficit as a percentage of GDP;
- (4) tax revenue as a percentage of GDP;
- (5) non-tax revenue as a percentage of GDP; and
- (6) Central Government debt as a percentage of GDP.

Option b is incorrect. The Macroeconomic Framework Statement assesses the prospects of the economy with respect to the **GDP growth rate, fiscal balance** of the central government and **external balance**.

Option c is incorrect. The Fiscal Policy Strategy Statement **sets the priorities of the government** in the fiscal area, examining current policies and **justifying any deviation** in important fiscal measures.

Option d is incorrect The External sector debt statement is **not even a one of the three documents mandated by FRBM act, 2003** to be submitted before parliament along with Annual financial statement.

Source: 12th NCERT Introductory Macroeconomics (pg no 70)

Economic Survey 2022-23 (pg no 54,55)

Q.25) Which one of the following international/regional organizations has recently adopted the ‘Master Plan for Transport Connectivity’?

- a) Group of Twenty (G-20)
- b) Association of South East Asian Nations (ASEAN)
- c) Bay of Bengal Initiative for Multi-Sectoral Technical and Economic Cooperation (BIMSTEC)
- d) North Atlantic Treaty Organization (NATO)

Ans) c

Exp) Option c is the correct answer.

Recently, the **fifth summit** of the Bay of Bengal Initiative for Multi-Sectoral Technical and Economic Cooperation (BIMSTEC) was concluded in March, 2022 in Colombo. The organization is also celebrating its **25th year of the formation**, which was launched in 1997. The summit had **three important outcomes**:

- 1) Expanding the **grouping’s agenda**, deepening cooperation between the member countries and planning systematically for consistency and coherence.
- 2) The **BIMSTEC charter** was finalised after more than two decades. It articulates the purpose, principles, legal standing and regular meeting of the organisation. It stipulates that **consensus** is required for **admission of new members** and increasing the **number of observer countries** of the organisation.
- 3) The **Master Plan for Transport Connectivity** has been adopted. It has been proposed to extend the **trilateral highway project** between Thailand, Myanmar and India to Laos and Cambodia. Further, Bangladesh, Bhutan and Nepal have also shown interest in the project. These measures will ensure seamless connectivity through **multi-modal channels**. It will deepen cooperation in the region.

The organization has proposed to conclude the **regional free trade agreement**. It will give a fillip to the organisation’s efforts. The MoU has been signed for **legal assistance in criminal matters**. Further,

additional MOUs have been signed for mutual cooperation between **diplomatic academics** and **training institutes**. An **Eminent Persons' Group (EPG)** is to be established on the lines of the **EU, G20, and ASEAN**. It will formulate a vision document for the region. It will suggest a roadmap to address the challenges in the future.

Source: <https://blog.forumias.com/fulfilling-the-potential-of-the-bay-of-bengal-community/>

Q.26) Which of the following is the most appropriate explanation of the term ‘Tax Multiplier’?

- It is a measure of effect of government spending on the GDP of the country.
- It is a measure of the effect of change in tax rates on the GDP of the country.
- It is a measure of the effect of tax rates on the personal disposable income of a person.
- It is the impact of the number of multiple taxes on the prices of goods and services.

Ans) b

Exp) Option b is the correct answer.

Option a is incorrect A **fiscal multiplier** measures the effect that increases in **government spending** will have on a real Gross Domestic Product (**GDP**).

Option b is correct. **Tax multiplier** is a measure of the **effect of tax rates on the real GDP of the country**. A tax cut (increase) will cause an increase (reduction) in consumption and output. It is **always less than fiscal multiplier** because an increase in government spending directly affects total spending whereas tax multiplier enters the picture only through their impact on **disposable income**, which influences household consumption.

Option c is incorrect. The **income tax rate** will either increase or decrease the personal disposal income. **Higher the tax rate, lower the personal disposable income and vice versa**. Going by the definition of tax multiplier it is incorrect as it is **restricted to individual income**.

Option d is incorrect. The impact of multiple taxes on the prices of goods and services is known as **cascading of taxes**.

Source: 12th NCERT Introductory Macroeconomics (pg no 73,74)

Q.27) With reference to Deficit financing, consider the following:

Assertion(A): The deficit financing by government necessarily leads to higher inflation in the country.

Reason(R): Deficit financing leads to a situation where aggregate demand may exceeds aggregate supply in an economy.

Which of the options given below is correct?

- Both A and R are correct and R is the correct explanation of A
- Both A and R are correct but R is not the correct explanation of A
- A is true but R is false
- A is false but R is true

Ans) d

Exp) option d is the correct answer.

Assertion(A) is incorrect. **Deficit financing** (budget deficit) by the government **raises the aggregate demand** in the economy because of easy availability of money. It might create an inflationary situation as **too much money is chasing a few goods**. However, if the **government policy** is framed in a manner that **raises the total output** of the economy or **releases the unutilised potential** of the economy then the inflation may not occur. **So, A is not correct because of the word “necessarily”**

Reason(R) is correct. As deficit budgeting infuses **more money** into the economy it leads to a situation of **excess of aggregate demand over aggregate supply**.

Source: 12th NCERT Introductory macroeconomics (pg no 78)

Q.28) With reference to the Off-budget Borrowings, consider the following statements:

1. These are the loans that public sector undertakings take on behalf of the Union Government.
2. These constitute one of the largest items in the fiscal deficit of the Government.
3. Repayment of principal and interest of such borrowings is done from the Central Government Budget.

Which of the statements given above is/are correct?

- a) 1 only
- b) 1 and 3 only
- c) 3 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

Statement 1 is correct and 2 is incorrect: Off-budget borrowings are loans that are taken not by the Centre directly, but by **another public institution, like** public sector undertakings, **which borrow on the directions of the central government. These also include the deferred payments of bills and loans by the Centre.** These items constitute off-budget borrowings because these loans and deferred payments are not part of fiscal deficit calculations. **Off budget borrowings is not counted in the calculation of fiscal deficit.** This helps keep the country's fiscal deficit within acceptable limits.

Statement 3 is correct: Off-budget Borrowings are those financial liabilities that are raised by public sector undertakings for which repayment of entire principal and interest is done from the Central Government Budget.

Such borrowings are made by state-owned firms to fund government schemes but are not part of the official budget calculations.

This means that though the borrowing is not a part of the consolidated fund of India, the interest payment for such borrowings is made out of the consolidated fund.

Extra Budgetary Resources (EBR) are taken into account while calculating the Government Debt

Source: <https://indianexpress.com/article/explained/why-govt-borrows-off-budget-and-how-7162925/>

Q.29) Consider the following statements with reference to the Gender responsive budgeting:

1. India started releasing a Gender Budget along with the Union Budget since 2005-2006.
2. All the states and union territories in India have adopted a gender-responsive budgeting.
3. Since its introduction, the share of Gender responsive budget has been below 10% of the total expenditure of Union government.

Which of the statements given above is/are correct?

- a) 1 only
- b) 1 and 3 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

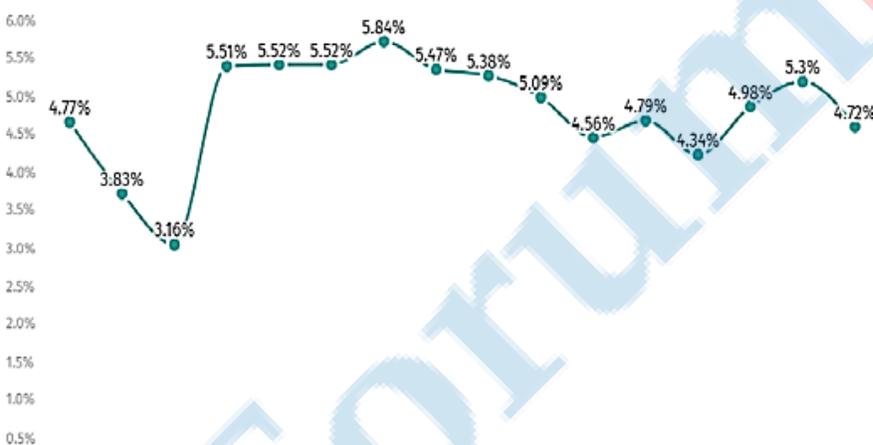

Gender Budgeting is a powerful tool for achieving gender mainstreaming so as to ensure that benefits of development reach women as much as men. It is not an accounting exercise but an on-going process of keeping a gender perspective in policy/ programme formulation, its implementation and review. Gender Budgeting entails dissection of the Government budgets to establish its gender differential impacts and to ensure that gender commitments are translated in to budgetary commitments.

Statement 1 is correct: India started releasing a Gender Budget along with the Union Budget in 2005-06. The Gender Budget has two parts: **Part A** includes schemes with 100 per cent allocation for women such as the widow pension scheme, girls' hostel scheme and maternity benefit scheme; and **Part B** with schemes allocating at least 30 per cent of funds for women, such as the mid-day meals programme, the rural livelihoods mission and the biogas programme. Since its inception, the gender budget has been **dominated by allocations under Part B**, accounting for at least two-thirds of the total Gender Budget.

Statement 2 is incorrect: In India, many crucial sectors such as health and education are funded by both central and state governments. **At least 16 states in India have adopted gender-responsive budgeting (and not all the states in India) and introduced schemes benefitting women, which are included in the state budgets.** These allocations do not get counted in the Union Gender Budget statement.

Statement 3 is correct: The direction provided by India's 2022-23 budget predominantly focuses on stimulating growth, with several new initiatives launched to place the country on a well-defined path of economic recovery. But unfortunately, despite the country's big vision, the quantum of **this year's gender budget, like previous years, has continued to remain below six per cent of the total expenditure and less than one per cent of the gross domestic product (GDP).** However, as a proportion of total expenditure, the gender budget has **declined from 4.4 per cent to 4.3 per cent for 2022-23.** This is despite the 4.72 per cent of the total expenditure allocated to women's programmes in the pre-pandemic era of 2020.

Gender budget (As % of Union budget)

Source: https://www.business-standard.com/budget/article/what-india-s-gender-budgets-have-achieved-121012500149_1.html

<https://wcd.nic.in/gender-budgeting>

Q.30) Recently, Reserve Bank of India (RBI) has introduced the Standing Deposit Facility (SDF). In this context, which one of the following correctly describe the purpose of Standing Deposit Facility?

- It is a facility through which banks can borrow an additional amount of overnight money from RBI.
- Under this facility, banks can take out one-year and three-year loans at the same one-day repo interest rate.
- It will allow the RBI to absorb excess liquidity from commercial banks without giving government securities in return to the lenders.
- It will include the outright purchase of government securities for the purpose of injecting long-term liquidity.

Ans) c

Exp) Option c is the correct answer.

The Reserve Bank of India (RBI) has introduced the Standing Deposit Facility (SDF), an additional tool for absorbing liquidity, at an interest rate of 3.75%.

The **standing deposit facility** allows the RBI to **absorb excess cash from the economy** by sucking liquidity from **commercial banks without giving government securities in return** to the lenders. The RBI has fixed the SDF rate at 3.75 per cent.

Under the SDF, the banks can place **deposits with the RBI on an overnight basis**. The RBI, however, retains the flexibility to absorb liquidity for longer tenors under the SDF with appropriate pricing, as and when the need arises. All liquidity adjustment facility (LAF) participants will be eligible to participate in the SDF scheme, according to the RBI's website.

The extraordinary liquidity measures undertaken in the wake of the pandemic combined with the liquidity injected through various other operations of the RBI have left a liquidity overhang of the order of Rs 8.5 lakh crore in the system. This has pushed up the retail inflation level in the system.

Hence, that's why SDF has been introduced. It will help **reduce the excess liquidity in the system** and also **control inflation**.

Source: RBI Standing Deposit Facility: Is It The Same as Reverse Repo Rate? (news18.com)

<https://blog.forumias.com/explained-what-is-sdf-the-rbis-new-tool-to-absorb-excess-liquidity-to-control-inflation/>

Q.31) If a commodity is provided free to the public by the Government, then

- the opportunity cost is zero.
- the opportunity cost is ignored.
- the opportunity cost is transferred from the consumers of the product to the tax-paying public.
- the opportunity cost is transferred from the consumers of the product to the Government.

Ans) c

Exp) Option c is the correct answer.

Opportunity cost is the forgone benefit that would have been derived by an option not chosen. For example, If you decide to spend two hours studying on a Friday night. The opportunity cost is that you cannot have those two hours for leisure.

When a commodity is provided free to the public by the government then the opportunity cost is transferred to the tax-paying public.

Source) UPSC CSE Pre 2018

Q.32) With reference to the Indian Economy, consider the following statements:

- Tax avoidance is any legal method used by a taxpayer to minimize the amount of tax owed to the government.
- Tax evasion is an illegal way to minimize tax liability done by making a false declaration to tax authorities.
- Tax terrorism is harassing of tax payers by the government to pay unreasonable taxes through legal means.

Which of the statements given above is/are correct?

- 1 and 2 only
- 3 only
- 2 and 3 only
- 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

Statement 1 is correct: Tax avoidance is any legal method used by a taxpayer to minimize the amount of income tax owed. Individual taxpayers and corporations can use forms of tax avoidance to lower their tax bills. Tax credits, deductions, income exclusion, and loopholes are forms of tax avoidance.

Statement 2 is correct: Tax Evasion is an illegal way to minimize tax liability through fraudulent techniques usually by deliberately making a **false declaration** or no declaration to tax authorities – such as by declaring less income, profits or gains than the amounts actually earned, or by overstating deductions.

Statement 3 is correct: Tax terrorism is a way to terrorise honest taxpayers to pay unreasonable taxes but through legal means. Government of India levied taxes on big corporate houses through retrospective amendment in taxation laws which leads to harassing of tax payers. (Vodafone and Cairn Cases were cited as instances of tax terrorism by legal experts).

Knowledge Base: Tax planning is process of **analyzing one's financial situation** in the most efficient manner. Through tax planning one can **reduce one's tax liability**. It involves planning one's income in a legal manner to avail various exemptions and deductions. Under **Section 80C**, one can avail tax deduction if specific investments are made for a specific period up to a **limit of Rs 1, 50,000**. The most popular ways of saving tax are investing in **PPF accounts, National Saving Certificate**, Fixed Deposit, Mutual Funds and Provident Funds.

Q.33) With reference to India's public debt profile, consider the following statements:

1. The commercial borrowing is the largest component of India's total external debt.
2. US dollar denominated debt is the largest component of India's external debt.
3. India's public debt as a percent of GDP has been continuously rising during last decade.
4. Central government's external debt is higher than its internal debt.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 2 and 4 only
- c) 1 and 3 only
- d) 2, 3 and 4 only

Ans) a

Exp) Option a is the correct answer.

Statement 1 is correct: The **commercial borrowing is the largest component** of India's total external debt followed by **NRI deposits and Short term credit**. The share of **long term credit** in India's external sector debt profile is **higher** than that of **short term credit**.

(The below tabular column need not to be memorised)

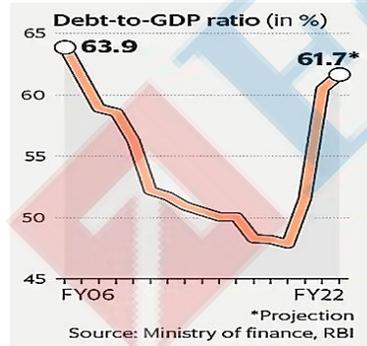

Table 8: External Debt Outstanding

		(US\$ billion)							
		Dec-19	Mar-20	Jun-20	Sep-20 PR	Dec-20 PR	Mar-21 PR	Jun-21 PR	Sep-21 P
1.	Multilateral	60.2	59.9 (-0.4)	64.7 (8.0)	67.0 (3.6)	68.1 (1.6)	69.7 (2.5)	70.2 (0.6)	71.4 (1.7)
2.	Bilateral	27.3	28.1 (2.9)	28.5 (1.6)	29.3 (2.7)	30.5 (4.3)	30.9 (1.3)	30.8 (-0.5)	30.9 (0.5)
3.	International Monetary Fund	5.5	5.4 (-1.3)	5.5 (0.8)	5.6 (2.3)	5.7 (2.3)	5.6 (-1.6)	5.7 (0.6)	23.3 (310.8)
4.	Trade Credit	6.9	7.0 (1.9)	6.8 (-2.6)	7.0 (2.8)	6.5 (-7.5)	6.3 (-3.1)	5.7 (-8.8)	5.6 (-1.7)
5.	Commercial Borrowings	223.1	219.5 (-1.6)	211.0 (-3.9)	206.8 (-2.0)	207.9 (0.5)	213.1 (2.5)	213.4 (0.2)	218.8 (2.5)
6.	NRI Deposits (above one-year)	133.1	130.6 (-1.9)	132.7 (1.6)	137.3 (3.4)	140.5 (2.3)	141.9 (1.0)	141.5 (-0.3)	141.6 (0.0)
7.	Rupee Debt	1.1	1.0 (-5.2)	1.0 (-5.2)	1.0 (2.0)	1.0 (0.9)	1.0 (-2.2)	1.0 (-0.8)	1.0 (-1.6)
8.	Total Long-Term Debt (1 to 7)	457.2	451.6 (-1.2)	450.2 (-0.3)	454.0 (0.8)	460.2 (1.4)	468.5 (1.8)	468.3 (-0.1)	492.5 (5.2)
9.	Short-term Debt	106.8	106.9 (0.1)	105.0 (-1.7)	102.8 (-2.1)	103.5 (0.7)	101.1 (-2.4)	102.5 (1.4)	100.6 (-1.9)
9a.	Trade Related Credits	102.4	101.4 (-1.0)	101.2 (-0.2)	99.4 (-1.8)	99.6 (0.2)	97.3 (-2.4)	99.2 (2.0)	97.4 (-1.8)
	Total (8+9)	564.0	558.4 (-1.0)	555.2 (-0.6)	556.8 (0.3)	563.8 (1.3)	569.6 (1.0)	570.8 (0.2)	593.1 (3.9)

Source: RBI, Ministry of Finance, Staff calculations

Statement 2 is correct: As far as currency composition of external debt is concerned, **US dollar** denominated debt remained the **largest** component of India's external debt, **with a share of 53.2 percent** at end-March 2022, followed by the **Indian rupee (31.2 per cent)**, **SDR (6.6 per cent)**, **yen (5.4 per cent)**, and **the euro (2.9 per cent)**.

Statement 3 is incorrect. Public debt of India is **not steadily** rising in the last decade. Outstanding debt is the accumulation of borrowings over the years. Outstanding debt of the government **decreased from 66.7% of GDP in 2004-05 to 48% of GDP in 2018-19**.

Statement 4 is incorrect. Central governments **external debt is lower** than the internal debt. However, the external debt to GDP ratio increased to 21.1 per cent at end-March 2021 from 20.6 per cent at end-March 2020. Over the years, the Union government has followed a considered strategy to reduce its dependence on foreign loans in its overall loan mix.

SFG 2023 | LEVEL 1 | Test #13 – Solutions | 

[https://www.rbi.org.in/Scripts/BS_PressReleaseDisplay.aspx?prid=53948#:~:text=US%20dollar%20denominated%20debt%20remained,euro%20\(2.9%20per%20cent\).](https://www.rbi.org.in/Scripts/BS_PressReleaseDisplay.aspx?prid=53948#:~:text=US%20dollar%20denominated%20debt%20remained,euro%20(2.9%20per%20cent).)

Q.34) With reference to the PM Ghati Shakti scheme, consider the following statements:

1. It aims to bring convergence among the various infrastructure schemes launched by both the Union and state governments.
2. The PM Ghati Shakti Digital portal facilitates the electronic transfer of funds from one department to another.
3. The scheme uses the Spatial technology and Geographic Information system to enhance the infrastructure planning in the country.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) c

Exp) option c is the correct answer.

Statement 1 is correct: PM Gati Shakti will **incorporate the infrastructure schemes of both Union and State Governments** like **Bharatmala, Sagarmala**, inland waterways, dry/land ports, UDAN etc. **Economic Zones** like textile clusters, pharmaceutical clusters, defence corridors, electronic parks, industrial corridors, fishing clusters, agri zones will be covered to improve connectivity & **make Indian businesses more competitive.**

Statement 2 is incorrect: The PM Ghati Shakti digital portal **brings 16 Ministries together for integrated planning and implementation** of infrastructure connectivity projects. The objective is to ensure that all departments have visibility of each other's activities providing critical data while planning & execution of projects in a comprehensive manner. **It has nothing to do with financial transactions so statement 2 is incorrect.**

Statement 3 is correct: The PM Ghati Shakti will also leverage **spatial planning tools with ISRO imagery developed by BiSAG-N (Bhaskaracharya National Institute for Space Applications and Geoinformatics).** Ministries such as **agriculture, fisheries, animal husbandry**, dairying, schools, and higher education, and health will now have to **upload their Geographic Information System (GIS) data** of new infrastructure on Gati Shakti portal. This move will ensure that there is better planning of large infrastructure projects.

Q.35) Consider the following statements:

Statement 1: Murshidabad in West Bengal has become the first Indian city to become a member of the Global Silk City Network.

Statement 2: The city of Murshidabad is well known for the production of fine silk, which started as early as eighteenth century.

Which one of the following is correct in respect of the above statements?

- a) Both Statement 1 and Statement 2 are correct and Statement 2 is the correct explanation of Statement 1.
- b) Both Statement 1 and Statement 2 are correct but Statement 2 is not the correct explanation of Statement 1.
- c) Statement 1 is correct but Statement 2 is incorrect.
- d) Statement 1 is incorrect but Statement 2 is correct.

Ans) d

Exp) Option d is the correct answer.

Silk Cities Initiative is an independent professional and academic initiative for contextual knowledge exchange, research and advocacy. Global Silk City Network helps artisans and craftsmen to exchange knowledge, build trade relations and understand various craftsmanship techniques. Currently, 13 best silk-producing cities and nine countries are members of this network.

Statement 1 is incorrect: Bengaluru has become the **first Indian city** to become a member of the Global Silk City Network. There are historical reasons why Bengaluru has been included in the Silky City Network. The International Sericultural Commission was held at Lyon in the 1950s and came to Bengaluru in 2013. Also, Bengaluru is the Silicon Valley of India and Lyon has a big cluster of innovation and IT.

Statement 2 is correct: West Bengal's Murshidabad district – known to produce fine silk over the past 300 years – may join the Global Silk City Network in future. The history of silk weaving in Murshidabad goes back to the **early eighteenth century during the Mughal rule**, when the Nawab of Bengal, Murshid Quli Khan, shifted his capital from Dhaka to a town on the east of the Bhagirathi River and named it Murshidabad.

Source: <https://blog.forumias.com/bengaluru-joins-global-network-of-silk-cities/>

Q.36) With reference to the Credit Guarantee Fund Trust for Micro and Small Enterprises, consider the following statements:

1. It is a joint initiative of Ministry of Micro, Small & Medium Enterprises and Industrial Development Bank of India (IDBI).
2. Currently, the scheme is being implemented through Scheduled Commercial Banks only.

Which of the above statements is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) d

Exp) Option d is the correct answer.

Statement 1 is incorrect: Credit Guarantee Fund Trust for Micro and Small Enterprises (**CGTMSE**) is jointly set up by **Ministry** of Micro, Small & Medium Enterprises (**MSME**), Government of India and Small Industries Development Bank of India (**SIDBI**) to make collateral free credit facilities available to **MSEs (Micro & Small Enterprises)**. Credit Guarantee Fund Trust for Micro and Small Enterprises is **not formed in association with IDBI**.

SIDBI set up on 2nd April 1990 under an Act of Indian Parliament, acts as the Principal Financial Institution for **Promotion, Financing and Development of the Micro, Small and Medium Enterprise (MSME) sector as well as for co-ordination of functions of institutions engaged in similar activities**.

Statement 2 is incorrect: The Scheduled Commercial Banks are not the only lending institution under this scheme. The institutions which are eligible for lending under the scheme included scheduled commercial banks, select Regional Rural Banks, National Small Industries Corporation Ltd., North Eastern Development Finance Corporation Ltd. and SIDBI.

Knowledge Base:

Industrial Development Bank of India was established in 1964 as, a development finance institution, which provided financial services to industrial sector. It is under the **ownership of Life Insurance Corporation of India and Government of India**.

Source: <https://www.cgtmse.in/>

Q.37) With reference to different types of taxes and their description, consider the following pairs:

Type of Tax	Description
1. Ad Valorem Tax	A tax assessed on the total value of the item
2. Tobin Tax	A Duty on spot currency trades
3. Pigouvian Tax	A tax on businesses that create products with negative effects on society
4. Transfer Tax	A tax on capital gains from the sale of long term financial instruments

Which of the pairs given above are correct?

- 1, 2 and 3 only
- 2, 3 and 4 only
- 1, 3 and 4 only
- 1, 2, 3 and 4

Ans) a

Exp) Option a is the correct answer.

Pair 1 is correct: The Latin phrase **ad valorem** means "**according to value.**" So all ad valorem taxes are based on the **assessed value** of the item being taxed. An example for ad valorem tax is imposition of 28% GST on luxury cars. Here, if the price of a car is Rs 10 lakh, the GST amount will be Rs 2.8 lakhs

Pair 2 is correct: Tobin Tax is a concept of taxing **spot transactions (speculative)** on **currencies in forex trading** on the stock market so as to **discourage speculation** and **promote currency stability** which is important for the real economy. The Tobin tax is sometimes referred to as the **Robin Hood tax**, as many see it as a way for governments to take small amounts of money from the people making large, short-term currency exchanges.

Pair 3 is correct: Pigouvian Tax or **Sin Tax** is a duty assessed on **businesses** that create **services or products** like **liquor, tobacco products, coal mining**, etc which have **adverse effects** on **society** like **environmental pollution, damage to public health**, etc, whose **price** of these **externalities** has **not been included** in the sale price of the product. A **carbon emissions tax** or a tax on plastic bags are examples of Pigouvian taxes.

Pair 4 is incorrect: Transfer Tax charge levied on the **transfer of ownership or title to property** from one individual or entity to another.

A **tax on capital gains** from sale of **long term financial instruments** is a **part of Long Term Capital Gains (LTCG) tax**.

Source: <https://www.investopedia.com/terms/a/advaloremntax.asp>

<https://www.investopedia.com/terms/t/tobin-tax.asp>

<https://www.investopedia.com/terms/p/pigoviantax.asp>.

Q.38) Which of the following statement is correct about the newly announced e-Passport?

- It is fitted with microchip that carries the biometric information of a passport holder
- The Government have asked all the physical passport holders to mandatorily switch to e-passport before 2030

- c) It has a data security/leakage risk compared to physical passport.
d) The implementation of this initiative is likely to create departmental silos within government.

Ans) a

Exp) Option a is the correct answer.

The **Ministry of External Affairs** signed an agreement with **Tata Consultancy Services (TCS)** Limited for the second phase of the **Passport Seva Programme PSP-V2.0**. The agreement envisages issuing a **e passport** to the citizens.

Option a is correct: Under this e passport system, new and renewed passports will be fitted with a **microchip** that will hold **all biometric information regarding the applicants**.

Option b is incorrect: The government said that obtaining an **e passport is voluntary**. Government had announced **no policy of replacing** the old passport with this new e-passport.

Option c is incorrect: Current passports are scanned at the immigration counters to reveal the travel record of the citizen. But the **e-passport users will have physical storage of their biometric data** in a chip which will **reduce risk of data leakage**.

Option d is incorrect: **Silos** occur when barriers exist **preventing the interdepartmental sharing** of knowledge. The implementation of this scheme will likely to result in **creating a more effective integration (not silos) between various wings of the Government** like the MEA and the local police network that can work in harmony for verification of applicants and **quick tracing in case of emergency situations**.

Source: <https://www.thehindu.com/news/national/explained-india-headed-for-e-passports-government-plans-ambitious-expansion-of-digital-network-and-passport-offices/article38202783.ece>

Q.39) Arrange the following taxes in decreasing order of their contributions towards the total tax revenue of the Union Government in FY 2021-22:

1. Corporation Tax
2. Goods and Services Tax
3. Excise duties
4. Custom duties

Select the correct answer using the code given below:

- a) 1-2-3-4
- b) 1-2-4-3
- c) 2-3-4-1
- d) 2-1-3-4

Ans) d

Exp) Option d is the correct answer.

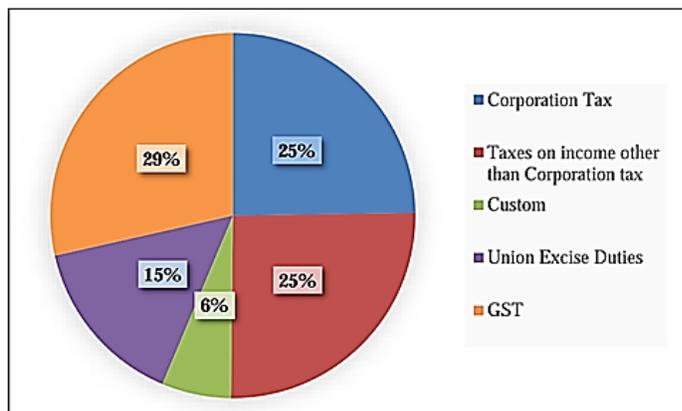

Option 2: Goods and services tax is an **indirect tax** levied on the supply of goods and services. It is a destination-based tax. It has subsumed almost all the indirect taxes except a few state taxes. GST contribution to total gross tax revenue is **29%**

Option 1: Corporation tax is a **direct tax** imposed on the net income or profit that enterprises make from their businesses. Its contribution is **around 25%**.

Option 3: Excise duty is an **indirect tax** applied to goods manufactured domestically in the country, while Customs is levied on those coming from outside of the country. Its share in total gross tax revenue is **15%**

Option 4: Customs duty is the **indirect tax** imposed on goods when they are transported across international borders. Otherwise, it is the tax that is levied on the import and export of goods. Its share in total gross tax revenue is **6%**

Figure 14: Composition of taxes in Gross Tax Revenue in 2021 -22 BE

Source: Union Budget Documents

Source: Economic Survey 2022 (pg no 57)

Q.40) The World Food Price Index, 2022 is released by which among the following organizations?

- World Economic Forum
- International Fund for Agricultural Development (IFAD)
- United Nation World Food Programme
- Food and Agriculture Organization (FAO)

Ans) d

Exp) Option d is the correct answer.

Food and Agriculture Organization's (FAO) **World food price Index** averaged 159.3 points in March 2022 breaking an earlier record of 137.6 points scaled 11 years ago in February 2011.

World Food Price Index is released by **Food and Agriculture Organization (FAO)** since 1996.

It aims to help in monitoring the developments in the global agricultural commodity markets. The index is a **measure of the monthly change in international prices of a basket of food commodities**. It consists of the average of five commodity group price indices. Such as cereal, vegetables, dairy, meat and sugar. Also, these five indices are given weightage based on the average export shares. The Base Year of the index is 2014-16.

Reasons for World Food Price index at an all-time high:

- The World Food Price Index has shown huge volatility in the last two years due to the Covid-19 pandemic and now the Russia-Ukraine war.
- The index had crashed to a four-year low in 2020 due to demand destruction triggered by pandemic-induced lockdowns across countries.
- But as demand returned with governments lifting economic activity and movement restrictions, supply chain disruptions came to the fore. These disruptions worsened after the port closures in the Black Sea and Azov Sea, plus Russian banks being cut off from the international payments system.

Source: <https://blog.forumias.com/fao-food-prices-record-high-due-to-ukraine-war-disruptions/>

Q.41) What is the difference between “vote-on-account” and “interim budget”?

- The provision of a “vote-on-account” is used by a regular Government, while an “interim budget” is a provision used by a caretaker Government
- A “vote-on-account” only deals with the expenditure in Government budget, while an “interim budget” includes both expenditure and receipts.

Select the correct answer using the code given below:

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) b

Exp) Option b is the correct answer.

Statement 1 is incorrect. Vote on account and interim budget can be presented by both the regular government and the caretaker government.

An interim budget is presented by the government when it does not have time to present a full budget. Mostly, it is because the general election is around the corner.

Vote-on-Account is a special provision by which the government obtains Parliament's approval for funds sufficient to incur expenditure for a part of the year (till the formation of a new government) enabling it to incur expenses till a full budget is prepared.

Vote-On-Account represents the expenditure side of the government's budget while general budget includes both income and expenditure in the form of Financial and Appropriation Bill.

Statement 2 is correct. A "vote-on-account" only deals with the expenditure in Government budget, while an "interim budget" includes both expenditure and receipts. Vote on account is just an interim permission to spend money as against an interim Budget which is an elaborate financial statement of expenditure and receipts including changes in taxes and government policies.

Source) UPSC CSE Pre 2011

Q.42) Which among the following is/are the possible consequences of external debt default by a country?

1. It can cause a devaluation of the domestic currency of the country.
2. It can make the imports expensive and the exports cheaper for the country.
3. It can cause a substantial rise in interest rates.
4. It will make the country more attractive to foreign investors.

Select the correct answer using the code given below:

- a) 1, 2 and 4 only
- b) 1 and 2 only
- c) 3 only
- d) 1, 2 and 3 only

Ans) d

Exp) Option d is the correct answer.

Sovereign debt is debt created when a country borrows money and creates bonds in a currency other than its own. It is also called National Debt. Sovereign debt is at higher risk for sovereign default because the government cannot inflate or print its way out of the debt.

Sovereign default is the failure by a government to repay its national debts.

Consequences of Sovereign Defaults :

- 1) First, and possibly worst, **the sovereign's currency will be devalued**, making it less acceptable to others. **(Hence, Statement 1 is correct)**
- 2) **It will make imported goods more expensive**, and in general hurting the economy of the defaulting country. On the other hand, goods and services in the defaulting country become cheaper for visitors **using other currencies which may lead to increases in exports and tourism. (Hence, Statement 2 is correct)**

- 3) The **interest rates will increase** exponentially on many mortgages, car loans, and student/business loans, resulting in substantially less disposable income to spend on goods and services, which could ultimately lead to a recession. **(Hence, Statement 3 is correct)**
- 4) The country becomes **less attractive to investors**, and it will become **difficult for the state to access new funds from the international bond market**. **(Hence, Statement 4 is incorrect)**

Source: <https://www.investopedia.com/terms/s/sovereign-default.asp>

<https://www.outlookindia.com/business/what-happens-when-a-country-defaults-on-its-debts-news-191946>

Q.43) Consider the following comparison between the Central Sector Scheme and Centrally Sponsored Scheme:

1. Central Sector Schemes are implemented by the Central government while the Centrally Sponsored Schemes are implemented by the State governments.
2. Central Sector Scheme is formulated on subjects mentioned in Union list only while the Centrally Sponsored Scheme is formulated on subjects mentioned in State list only.
3. Central Sector Scheme is fully funded by the Central government while the Centrally Sponsored Scheme is divided between the Centre and States.
4. MGNREGA is a Central Sector Scheme while Pradhan Mantri Mudra Yojana is a Centrally Sponsored Scheme.

Which of the statements given above are correct?

- a) 1 and 3 only
- b) 2 and 4 only
- c) 1, 2 and 3 only
- d) 3 and 4 only

Ans) a

Exp) Option a is the correct answer.

Central welfare schemes, implemented by the government to provide financial and other aids to individuals who cannot support themselves, can be categorized into two sections – centrally sponsored schemes and central sector schemes.

Statement 1 is correct: Central Sector Schemes are the government schemes which are designed, planned and **implemented** by the **Central government**. Whereas the implementation of **Centrally Sponsored Schemes** is made under the **union territory or state government**.

Centrally Sponsored Schemes (CSS) are implemented by state governments of India but are largely funded by the Central Government with a defined State Government share.

Statement 2 is incorrect: Central Sector Scheme is formulated mainly on subjects in **Union List** while the **Centrally Sponsored Scheme** focuses on subjects in **State List**. **Centrally Sponsored Scheme** may also be formed for Concurrent List.

Statement 3 is correct: Central Sector Schemes are the schemes that are **entirely and directly funded** by the **Central government**. Whereas **Centrally Sponsored Scheme** is divided into three parts (a) core of the core (b) core and (c) optional. These are divided on the basis of the financial involvement of the states.

Statement 4 is incorrect: Pradhan Mantri Mudra Yojana is a **Central Sector Scheme** while the **MGNREGA** is a **Centrally Sponsored Scheme**. The MGNREGA scheme which comes under the core of the core group will see the state pooling in 25% of funds whereas the rest is taken care of by the Centre.

Source: https://www.aisect.org/blog/blog_detail/The-Difference-Between-Central-Sector-Schemes-and-Centrally-Sponsored-Schemes

http://www.arthapedia.in/index.php?title=Central_Sector_and_Centrally_Sponsored_Schemes

<https://www.business-standard.com/about/what-is-centrally-sponsored-schemes>

<https://ganderbal.nic.in/service/centrally-sponsored-schemes/>

Q.44) Which of the following will most likely result in an addition to non-tax revenue receipts of the Government of India?

1. Receiving external grants
2. Taking loans from the market
3. Payment of interest by state government on loans received from Union Government
4. Fees and fines received by the Union government
5. Buying assets in the foreign territory by the Government of India

Select the correct answer using the code given below:

- a) 1, 3 and 4 only
- b) 2, 3 and 5 only
- c) 1, 2 and 3 only
- d) 3, 4 and 5 only

Ans) a

Exp) Option a is the correct answer.

Non-Tax Revenue is the income earned by the government from sources other than taxes.

It consists mainly of **interest receipts** on loans to States and Union Territories, **dividends and profits from Public Sector Enterprises** including surplus of **Reserve Bank of India transferred** to Government of India, and **external grants and receipts for services** provided by the Central Government. These services include **fiscal services** like currency, coinage and mint, **general services** such as Public Service Commission and police, **social services** like education and health, and **economic services** like irrigation, transportation and communication

Option 1 is correct: As receiving grants is considered as **revenue** of the government because the government is under **no obligation to repay it**. Also, it is **non tax revenue because it is coming from the source other than the tax**.

Option 2 is incorrect: **Revenue receipts are essentially a one-way transaction** i.e. need not be paid back by the receiver. Hence **loans are not classified even as revenue receipts** therefore it is **not a non-tax revenue. Loans are classified as debt capital receipts**.

Option 3 is correct: **The State government paying interest rate** on the loan it got from the union government or **repaying the principal amount** is a non-tax revenue for the Union Government.

Option 4 is correct: **Fees, Penalties and fines received by the Union government are part of non-tax revenue.**

Option 5 is incorrect: Buying assets in foreign government means an outflow of revenue so it cannot be considered as revenue. It is considered as **capital expenditure**.

Q.45) With reference to 'Indian Purple Frog', consider the following statements:

1. The distribution of the frog is limited to the North Eastern states of Assam and Meghalaya.
2. It has one of the oldest lineages among all living frogs on Earth.
3. It is a species that mostly lives underground.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 only
- c) 2 and 3 only
- d) 1 and 3 only

Ans) c

Exp) Option c is the correct answer.

New research has been conducted by a biologist on Purple Frog. The purple frog (*Nasikabatrachus sahyadrensis*), Indian purple frog or pignose frog is a frog species of the genus *Nasikabatrachus*.

Statement 1 is incorrect: Indian Purple Frog was first discovered in 2003 in the Idukki district of Kerala by S.D. Biju from the Tropical Botanic Garden and Research Institute, India and Franky Bossuyt from Brussels. The frog is **endemic to the Western Ghats**. Its distribution limited mainly to **Kerala and some parts of Tamil Nadu**.

Statement 2 is correct: The purple frog is a unique animal. This frog has an evolutionary history that goes back 120 million years. This is **one of the oldest lineages among all living frogs on Earth**. Species with such old lineages are termed a 'living fossil'.

Statement 3 is correct: The Indian Purple Frog is a fossorial species—that lives **underground emerging just once a year**. It has physical adaptations that help it survive in such extreme conditions. Its breeding activity coincides with pre-monsoon showers. The male frogs take their cue from these and emerge from their burrows to call potential partners – these calls can be heard up to 100 meters away. These animals are very sensitive to disturbances. Any interference with their calling behaviour withdraws them into their burrows.

Source: <https://blog.forumias.com/the-purple-frogs-lineage-is-120-million-years-old-it-has-seen-earth-itself-evolve/>

Q.46) With reference to the SMILE scheme, consider the following statements:

1. It is a Central Sector Scheme.
2. It aims to promote the rehabilitation of persons engaged in begging.
3. It provides scholarships for transgender students.
4. It will be implemented by the government with the help of Voluntary Organizations.

Which of the statements given above are correct?

- a) 1, 2 and 4 only
- b) 1 and 3 only
- c) 2, 3 and 4 only
- d) 1, 2, 3 and 4

Ans) d

Exp) Option d is the correct answer.

SMILE stands for Support for Marginalised Individuals for Livelihood and Enterprise. It aims to provide welfare and rehabilitation to the Transgender community and the people engaged in the act of begging.

Statement 1 is correct: **SMILE scheme** is a **Central Sector Scheme**. So, it is **100% funded** by the **Central government**. The two sub-schemes of SMILE are:

- 1) Central Sector Scheme for Comprehensive Rehabilitation for Welfare of Transgender Persons
- 2) Comprehensive Rehabilitation of persons engaged in the act of Begging.

Statement 2 is correct: The sub-scheme **Comprehensive Rehabilitation of persons engaged in the act of Begging** provides for welfare and **rehabilitation** to the **people engaged in the act of begging**.

Statement 3 is correct: The sub-scheme **Central Sector Scheme for Comprehensive Rehabilitation for Welfare of Transgender Persons** provides for:

- 1) Scholarships for Transgender Students studying in IX and till post-graduation to enable them to complete their education.
- 2) **Skill Development** and **Livelihood under the PM-DAKSH scheme**.
- 3) Composite Medical Health and Housing facility in the form of 'Garima Greh'

- 4) Provision of Transgender Protection Cell in each state will monitor cases of offences and ensure timely registration, investigation and prosecution of offences.
- 5) Creating a National Portal & Helpline.

Statement 4 is correct: This umbrella scheme would cover several comprehensive measures including welfare measures for both transgender persons and persons who are engaged in the act of begging with focus extensively on rehabilitation, provision of medical facilities, counseling, education, skill development, economic linkages etc with the support of **State Governments/UTs/Local Urban Bodies, Voluntary Organizations, Community Based Organizations (CBOs)** and institutions and others.

Knowledge Base: The sub-scheme Comprehensive **Rehabilitation of persons engaged in the act of Begging** provides for

- 1) Survey and Identification of beneficiaries shall be carried out by the Implementing Agencies.
- 2) Outreach work will be done to mobilise the persons engaged in begging to avail the services available in the Shelter Homes.

The shelter homes will facilitate education for children engaged in the act of Begging.

Source: <https://blog.forumias.com/union-minister-for-social-justice-empowerment-launches-smile-scheme/>

<https://blog.forumias.com/union-minister-launches-pm-daksh-portal-and-pm-daksh-mobile-app/>

Q.47) Generally if the money granted by the Parliament to the government is not spent by the end of the financial year, then:

- a) The unspent balance expires and returns to the Consolidated Fund of India.
- b) No fresh money is allotted to the service until the unspent money is fully utilized.
- c) The government can't make a demand for grant for that particular service in the next Budget.
- d) The unspent money is automatically carried forward to the next financial year as a reserve fund.

Ans) a

Exp) Options a is the correct answer.

The budget is based on the principle of annuity, that is, the Parliament grants money to the government for one financial year.

Under the '**Rule of Lapse**' if the granted money is not spent by the end of the financial year, **then the balance expires and returns to the Consolidated Fund of India**. It facilitates **effective financial control** by the Parliament as no reserve funds can be built without its authorization. However, the observance of this rule leads to heavy rush of expenditure towards the close of the financial year. This is popularly called as '**March Rush**'.

Source: Macroeconomics-Budgeting

Q.48) In terms of economy, Fiscal Slippage may result in which of the following situations?

1. Rise in government borrowings
2. Crowding out of corporate borrowers from the market
3. Decrease in yields of the government securities

Select the correct answer using the code given below:

- a) 2 only
- b) 1 and 2 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

Fiscal slippage refers to the missing of fiscal targets in the country's budget.

Statement 1 is correct: Fiscal Slippage may lead to **rising state government borrowings** which could derail fiscal consolidation, fuel inflation, **increase interest rates**. The Government may force the central bank to change its interest rate target, in order to keep inflation where it wants it

Statement 2 is correct: Fiscal Slippage may lead to **higher borrowings**. Higher borrowings from the Centre and states have led to **hardening in borrowing rates, threatening to crowd out corporate borrowers from the market**.

Statement 3 is incorrect: Fiscal Slippage may lead to higher borrowings. Higher borrowings from the Centre and states have led to rise in borrowing rates. As the investor base for G-Sec and State Development Loans (SDLs) are almost the same, the **continuous and large supply of SDLs** had resulted in hardening of yields of the central government securities. Thus, it **increases yields of the central government securities**.

Knowledge Base: Yield hardening means **bond yields are rising, which indicates that bond prices are falling**. In the current context, this is with reference to the 10-year G-sec (or government bond), the yield on which has gone up from 5.9 per cent towards the end of January 2021 to about 6.2 per cent now.

Source: <https://economictimes.indiatimes.com/markets/stocks/news/fiscal-slippage-will-fuel-inflation-harden-rates/articleshow/65631665.cms>

<https://www.financialexpress.com/economy/rbi-warns-of-fiscal-slippage-inflation/963660/>

<https://www.thehindubusinessline.com/opinion/countercyclical-fiscal-policy-may-not-help/article33710640.ece>

Q.49) Consider the following statements:

1. Coal sector was nationalized by the Government of India under Indira Gandhi.
2. Now, coal blocks are allocated on lottery basis.
3. Till recently, India imported coal to meet the shortages of domestic supply, but now India is self-sufficient in coal production.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 and 3 only
- c) 3 only
- d) 1, 2 and 3

Ans) a

Exp) Option a is the correct answer.

Statement 1 is correct. Indira Gandhi government nationalized coal sector in 1971-73 period. This was reversed by NDA government in 2015, opening the sector to private players.

Statement 2 is incorrect. Under the new policy, the allocation is done on the basis of bidding process-the firm offering the highest per tonne price is allotted the mine.

Statement 3 is incorrect. Though India has fifth largest reserve coal reserve in the world, it is not self-sufficient as it has to import high quality coal to meet its domestic demand.

Source) UPSC CSE Pre 2019

Q.50) Recently proposed by the European Union, the 'Digital Markets Act' is related to:

- a) promotion of Digital currency
- b) curbing market dominance of Big-tech giants
- c) regulation of e-commerce business
- d) developing Artificial Intelligence based market products

Ans) b

Exp) Option b is the correct answer.

Recently, Negotiators from the European Parliament and EU member states have agreed on a landmark law Digital Markets Act (DMA) to curb the market dominance of Big tech giants.

The DMA's focus is on companies termed as 'gatekeepers', which include Apple, Facebook, Google, etc. These companies will have to comply with the new rules.

Significance of the law:

- 1) The law makes the digital sector fairer and more competitive in the EU market.
- 2) It helps prevent abusive business practices of large platforms and is compared to historic antitrust reforms to the banking, energy and telecom sectors.
- 3) It widens consumer choices.
- 4) It gives rivals a better chance to survive against the world's powerful tech companies
- 5) Once implemented it sets a new precedent for tech regulation worldwide.
- 6) It averts years of procedures and court battles needed by EU to punish Big Tech's monopolistic behaviour where cases can end with huge fines, but little change on how these giants do business.
- 7) The law will give Brussels unprecedented authority to keep an eye on decisions by the giants

Source: <https://blog.forumias.com/let-global-principles-guide-messaging-interoperability/>

Q.1) With reference to casual workers employed in India, consider the following statements:

1. All casual workers are entitled for Employees Provident Fund Coverage.
2. All casual workers are entitled for regular working hours and overtime payment.
3. The government can by a notification specify that an establishment or industry shall pay wages only through its bank account.

Which of the above statements are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

Statement 1 is incorrect. A casual worker is a worker on a temporary employment with generally limited entitlements and little or no security of employment. The main attribute is the absence of a continuing relationship of any stability with an employer, which could lead to their not being considered ‘employees’ at all.

Now, EPFO registration generally applies only to establishments that have 20 or more workers. So, if we go by this “20 worker” technical rule, then if a casual worker is employed in an organisation with less than 20 workers, then he will not be entitled to get EPF coverage.

Statement 2 is correct. Casual workers (should) have all those rights that are enjoyed by regular workers, since the definition of employee includes casual labour as per Supreme Court guidelines. Employees in India **are entitled for regular working hours and overtime payment according to Minimum Wages Rules, 1950.**

Statement 3 is correct. The Payment of Wages (Amendment) Act 2017 provides that the Government may specify that the employer of any industrial or other establishment **shall pay wages to every employee only by cheque or by crediting the wages in his bank account.**

Source) UPSC CSE Pre 2021

Q.2) Which of the following policy actions can be considered as a move towards ‘Capital Account Convertibility’ in India’s Balance of Payment system?

1. Increasing the foreign portfolio investment limits in the Indian debt markets.
2. Easing of the external commercial borrowing framework.
3. Liberalized Foreign Direct Investment
4. Limiting NRI’s investment in G-sec

Select the correct answer using the codes given below:

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1, 2, and 3 only
- d) 1, 2, 3 and 4

Ans) c

Exp) Option c is the correct answer.

Capital account convertibility means the freedom to conduct investment transactions without any constraints. Typically, it would mean no restrictions on the amount of rupees you can convert into foreign currency to enable you, an Indian resident, to acquire any foreign asset. Similarly, there should be no restraints on a NRI bringing in any amount of dollars or dirhams to acquire an asset in India.

Statements 1, 2 and 3 are correct. The recent moves towards Capital account convertibility include **increasing the foreign portfolio investment limits in the Indian debt markets, introducing the Fully Accessible Route (FAR)** – through which non-residents can invest in specified government securities without any restrictions and the **easing of the external commercial borrowing** framework by relaxing end-user restrictions. Inward FDI is allowed in most sectors, and outbound FDI by Indian incorporated entities is allowed as a multiple of their net worth.

Statement 4 is incorrect. **Limitation on Non-Resident Indians** to invest in Government securities **restrict the flow of currency** and hence it **does not aid** the process of full capital account convertibility in India.

Knowledge Base: BoP – Capital and current account.

Source: All you want to know about capital account convertibility - The Hindu BusinessLine

Q.3) Which of the following statements correctly defines the term ‘Official Reserve Transactions’?

- All the transactions made out of Consolidated Fund of India.
- Withdrawal of money from the Special Drawing Rights with the IMF.
- Transactions made to bridge the gap in the balance of payments.
- Reserves used by the Government before the passage of the Money Bill.

Ans) c

Exp) Option c is the correct answer.

The balance of payments (BoP) records the transactions in goods, services and assets between residents of a country with the rest of the world for a specified time period typically a year.

Option c is correct: A country could use its **reserves of foreign exchange in order to balance any deficit in its balance of payments. Such transactions are called official reserve transactions.** Since the official reserve transactions are made to bridge the gap in the BoP, they are seen as the accommodating item in the BoP (all others being autonomous).

Official reserve transactions are more relevant under a regime of fixed exchange rates than when exchange rates are floating. Flexible or Floating Exchange Rate is determined by the market forces of demand and supply. In Fixed Exchange Rate system, the Government fixes the exchange rate at a particular level.

Source: Pages 5-8, Chapter 6, NCERT Macroeconomics

Q.4) In the questions given below, there are two statements marked as Assertion (A) and Reason (R). Read the statements and choose the correct option.

Assertion (A): Petroleum products are one of the important export commodities for India.

Reason (R): The refining industry has been modernized and upgraded continuously for achieving cost reduction.

Which of the Options given below is correct?

- Both (A) and (R) are true and (R) is the correct explanation of (A).
- Both (A) and (R) are true and (R) is not the correct explanation of (A).
- (A) is correct but (R) is wrong.
- (A) is wrong but (R) is correct.

Ans) a

Exp) Option a is the correct answer.

Owing to rise in global crude oil prices and cheaper crude oil sourced from Russia have lifted the share of **India’s petroleum products in exports to their highest ever at 21.2 per cent during April–August 2022.**

Assertion is correct: India is one of largest importers of crude oil but it is also one of the largest exporters of refined oil given the presence of refineries. Petroleum products is one of the important export commodities for India.

Reason is correct: The refining industry has been modernized and upgraded continuously with the indigenous and imported technologies for refining cost reduction. From a deficit scenario in 2001 the country has achieved self-sufficiency in refining and is the major exporter of quality petroleum products. India, has achieved the refining capacity of about 249 million tonnes a year, equivalent to about 5 million barrels per day (bpd). Refining capacity is expected to climb to 298 million tonnes a year by 2025.

Q.5) “This phenomenon occurs when a huge amount of matter, like a cluster of galaxies, creates a gravitational field that distorts and magnifies the light from distant galaxies that are behind it but in the same line of sight. This effect allows researchers to study the details of early galaxies too far away to be seen with current technology and telescopes.”

Which one of the following interstellar phenomena is described in the above given paragraph?

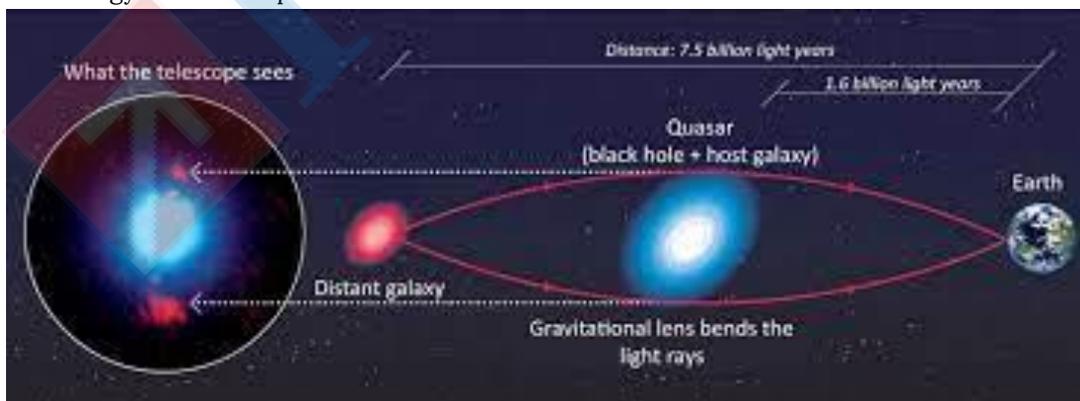

- Gamma Ray Burst
- Stephan's Quintet
- Gravitational Lensing
- Fast Radio Burst

Ans) c

Exp) Option c is the correct answer.

NASA's Hubble Space Telescope has discovered the farthest star ever seen to date. They have nicknamed that star as “Earendel”. This discovery of the most distant star was made possible by a phenomenon known as ‘**gravitational lensing**’.

Gravitational Lensing: A gravitational lens can occur when a huge amount of matter, like a cluster of galaxies, **creates a gravitational field** that distorts and **magnifies the light from distant galaxies that are behind it** but in the same line of sight. The effect is like looking through a giant magnifying glass. This effect allows researchers to **study the details of early galaxies** too far away to be seen with current technology and telescopes.

This effect was **predicted to exist by Albert Einstein's General Theory of Relativity** in the early 20th century.

Knowledge Base: **Earendel:** It is the most distant star discovered by the Hubble Space Telescope. The star has been officially called WHL0137-LS, but it has been nicknamed “Earendel”, which means “morning star” in Old English. The star is more than 12.9 billion light-years away and likely existed within the first billion years after the beginning of the universe.

Q.6) With reference to the ‘Developing District as Export Hub’ initiative, consider the following statements:

1. It is an initiative of the Directorate General of Foreign Trade (DGFT).
2. It includes the export of registered Geographical Indication (GI) products from the districts.
3. It will be overseen by the senior-most Member of Parliament from the District.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 only
- c) 1 and 3 only
- d) 3 only

Ans) a

Exp) Option a is the correct answer.

Every District has products and services which are being exported, and can be further promoted, along with new products / services, to increase production, grow exports, generate economic activity and achieve the goal of AtmaNirbhar Bharat, Vocal for local and Make in India.

Statement 1 is correct: Department of Commerce, through Directorate General of Foreign Trade (DGFT) is working with the State / UT Governments in a phased manner to achieve this objective through Developing District as Export Hub Scheme.

Statement 2 is correct: In the initial phase, product/services (GI products, agricultural clusters, toy clusters etc.) with export potential in each District have been identified. Institutional mechanism in the form of State Export Promotion Committees (SEPC) at the state level and District Export Promotion Committees (DEPCs) at the district level are being created to provide support for export promotion and to address the bottlenecks for export growth in the districts.

Statement 3 is incorrect: DEPCs may be headed by DM/Collector/DC/District Development Officer of the District and co-chaired by designated DGFT Regional Authority.

Source: <https://commerce.gov.in/wp-content/uploads/2021/03/Devolping-Districts-as-Export-Hubs.pdf>

Q.7) Which of the following best describes the term Net International Investment Position (NIIP)?

- a) It is the difference between a nation's gross national product (GNP) and its gross domestic product (GDP).
- b) It is the difference between a nation's stock of foreign assets and a foreigner's stock of that nation's assets.
- c) It is the difference between a nation's Foreign Direct Investments (FDIs) and Foreign Portfolio Investments (FPIs)
- d) It is difference between a nation's imports from foreign nations and domestic exports to foreign nations.

Ans) b

Exp) Option b is the correct answer.

Net International Investment Position (IIP) can be viewed as a nation's balance sheet with the rest of the world at a specific point in time. NIIP is an important barometer of a nation's financial condition and

creditworthiness. A nation with a positive NIIP is a creditor nation, while a nation with a negative NIIP is a debtor nation.

Option a is incorrect: Net foreign factor income (NFFI) is the difference between a nation's gross national product (GNP) and its gross domestic product (GDP).

Option b is correct: A net international investment position (NIIP) measures the gap between a nation's stock of foreign assets and a foreigner's stock of that nation's assets.

Option c is incorrect: Foreign investments can be classified as Foreign direct investments (FDIs) and Foreign Portfolio Investments (FPIs). NIIP does not reflect the difference between a nation's Foreign Direct Investments (FDIs) and Foreign Portfolio Investments (FPIs)

Option d is incorrect: Net Trade Balance defines the difference between a nation's imports from foreign nations and domestic exports to foreign nations.

Source: <https://www.investopedia.com/terms/n/net-international-investment-position-niip.asp>

Q.8) With reference to the Mahatma Gandhi National Rural Employment Guarantee Scheme (MGNREGS), consider the following statements:

1. It guarantees 100 days of skilled manual work.
2. All districts except for those that have a 100% urban population are covered under it.
3. It is monitored by the Ministry of Labour and Employment.
4. It is mandatory to conduct Social Audit of all Works executed under MGNREGA.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 1 and 3 only
- c) 2 and 4 only
- d) 3 and 4 only

Ans) c

Exp) Option c is the correct answer.

The National Rural Employment Guarantee Act, 2005 introduced the scheme. In 2010, NREGA renamed as MGNREGA. It is one of the world's largest employment guarantee programs.

Statement 1 is incorrect: Under the scheme, every rural household whose adult member volunteers to do unskilled manual work is entitled to get at least 100 days of wage employment in a financial year. It aims to enhance the livelihood security of people.

Statement 2 is correct: The Act currently covers all districts except for those that have a 100% urban population.

Statement 3 is incorrect: Ministry of Rural Development (MRD), Government of India in association with state governments monitors the implementation of the scheme.

Statement 4 is correct: Section 17 of the MGNREGA has mandated Social audit of all Works executed under the MGNREGA. Social Audit is the examination and assessment of a programme/scheme conducted with the active involvement of people and comparing official records with actual ground realities. Social Audit is a powerful tool for social transformation, community participation and government accountability.

Knowledge Base:

Features of MGNREGS:

- 1) It is a Demand-driven scheme. Worker to be hired when he demands and not when the Government wants it.
- 2) Gram Panchayat is mandated to provide employment within 15 days of work application failing which worker is entitled to unemployment allowance.
- 3) Payment of wages within 15 days of completion of work failing which worker is entitled to delay compensation of 0.05% per day of wages earned.

- 4) Women empowerment: Minimum one-third of the workers should be women
- 5) Minimum wages: Wage payment should be according to the Minimum Wages Act 1948 for agricultural laborers in the State.
- 6) Gram Sabhas conduct Social audits to enable the community to monitor the implementation of the scheme.
- 7) Both the Center and the States share the funding of the scheme.
- 8) Significance of MGNREGA
- 9) The programme mandates that at least 60 percent of the works undertaken must be related to land and water conservation.
- 10) The water conservation structures built under MGNREGA have potentially conserved at least 28,741 million cubic metres of water in the past 15 years.
- 11) The scheme provides support in times of distress and individuals are not forced to migrate into cities.
- 12) The program provided a sigh of relief to millions of migrants and other people who lost their livelihood in the pandemic times.
- 13) The scheme has led to the creation of common community assets. These assets are built by communities on common lands thereby creating a sense of responsibility towards the structure which results in better care.

Source: <https://blog.forumias.com/mgnrega/>

<https://blog.forumias.com/mgnrega-issues-and-significance-explained-pointwise/>

Q.9) With reference to the international trade, consider the following statements:

1. Tariffs are a type of trade barrier that can have the effect of raising the relative prices of imported products.
2. The World Trade Organisation agreements strictly prohibit the imposition of trade barriers.
3. 'Quotas' are mainly aimed at generating extra revenue for the government.

Which of the statements given above is/are correct?

- a) 1 only
- b) 3 only
- c) 1 and 2 only
- d) 2 and 3 only

Ans) a

Exp) Option a is the correct answer.

A trade barrier refers to any regulation or policy that restricts international trade, especially tariffs, quotas, licenses etc.

Statement 1 is correct: **Tariffs are a type of protectionist trade barrier that can come in several forms.** Tariffs may benefit a few domestic sectors. Tariffs are **paid by domestic consumers and not the exporting country**, but they have the effect of raising the relative prices of imported products.

Statement 2 is incorrect: The **World Trade Organisation agreements** in general follows the following principles:

- (a) Most Favored Nation- All nations should be treated equally. No one country can grant any other member country any special favour.
- (b) Non-Discrimination
- (c) National Treatment- Same treatment to all products, either local or foreigners.
- (d) Reciprocity- Lowering of import duties and other trade barriers in return for similar concessions from another country.

The Technical Barriers to Trade Agreement (TBT) tries to ensure that regulations, standards, testing and certification procedures do not create superfluous obstacles to trade. The WTO agreements **also allow exceptions** in some circumstances. Three of these issues are:

- (a) actions taken against dumping (selling at an unfairly low price)
- (b) subsidies and special “countervailing” duties to offset the subsidies
- (c) emergency measures to limit imports temporarily, designed to “safeguard” domestic industries.

Statement 3 is incorrect: Quotas are a type of nontariff barrier governments enact to restrict trade. **Quotas focus on limiting the quantities** of a particular good that a country imports or exports for a specific period, whereas tariffs impose specific fees on those goods.

Governments design **tariffs** to raise the overall cost to the producer or supplier seeking to sell products within a country. Tariffs **provide a country with extra revenue** and they offer **protection to domestic producers** by causing imported items to become more expensive.

Quotas are more effective in restricting trade than tariffs, especially if domestic demand for something is not price-sensitive. Applied selectively to various countries, they can be utilized as a coercive economic weapon.

Knowledge Base:

Types of Trade barriers:

- (a) Tariff Barriers. These are taxes on certain imports. They raise the price of imported goods making imports less competitive.
- (b) Non-Tariff Barriers. These involve rules and regulations which make trade more difficult. For example, if foreign companies have to adhere to complex manufacturing laws it can be difficult to trade.
- (c) Quotas. A limit placed on the number of imports.
- (d) Voluntary Export Restraint - Similar to quotas, this is where countries agree to limit the number of imports.
- (e) Subsidies. A domestic subsidy from government can give the local firm a competitive advantage.
- (f) Embargo. A complete ban on imports from a certain country.

Source: https://www.wto.org/english/thewto_e/whatis_e/tif_e/agrm8_e.htm

<https://www.investopedia.com/terms/q/quota.asp#:~:text=A%20quota%20is%20a%20government,between%20them%20and%20other%20countries.>

Q.10) The ‘FASTER (Fast and Secured Transmission of Electronic Records)’ Platform was launched to-

- a) improve accessibility of police records to the central agencies through encrypted and secure platform.
- b) communicate interim orders, stay orders, and bail orders of the Supreme Court to the concerned authorities.
- c) faster redressal of corporate grievances through inter-departmental coordination across different ministries.
- d) provide information regarding financial frauds for effective forensic audit and investigation.

Ans) b

Exp) Option b is the correct answer.

FASTER (Fast and Secured Transmission of Electronic Records) Platform is a digital platform to **communicate interim orders, stay orders, and bail orders of the Supreme Court to authorities concerned** through a secured electronic communication channel. It is developed by **Registry of the Supreme Court** in collaboration with the National Informatics Centre (NIC).

FASTER Cell has been established in the Registry of the Supreme Court. The cell will transmit digitally signed records of proceedings or orders related to bail and release passed by the court to the nodal officers and duty holders concerned through email.

To reach all districts of India, 73 nodal officers have been nominated at various levels. All nodal officers have been connected through a specific Judicial Communication Network (JCN) by creating a secured pathway.
Source: FASTER Platform: CJI launches software to transmit court orders swiftly –ForumIAS Blog

Q.11) In the context of India, which of the following factors is/are contributor/s to reducing the risk of a currency crisis?

1. The foreign currency earnings of India's IT sector
2. Increasing the government expenditure
3. Remittances from Indians abroad

Select the correct answer using the code given below.

- a) 1 only
- b) 1 and 3 only
- c) 2 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

A decline in the value of a country's currency brings currency crisis. In this situation, there is speculation in the market that the central bank of the country does not have sufficient foreign exchange reserves.

Statements 1 and 3 are correct. The foreign currency earnings of India's IT sector and remittances increase country's foreign reserves, thus increasing demand for Indian currency and reducing risk of currency crisis.

Statement 2 is incorrect. Increasing the government expenditure does not bring foreign currency in the country.

Source) UPSC CSE Pre 2019

Q.12) With reference to the Special Economic Zones (SEZ) in India, consider the following statements:

1. Since it is treated as a foreign territory, the value added by firms in SEZ is not added to the Gross Domestic Product of India.
2. The firms in the SEZ are not allowed to sell its products in India's domestic market.
3. Units in SEZ are required to be net foreign exchange earners within a specified time limit.

Which of the statements given above is/are correct?

- a) 1 and 3 only
- b) 3 only
- c) 1 only
- d) 2 and 3 only

Ans) b

Exp) Option b is the correct answer.

The Special Economic Zones (SEZs) Act was enacted in 2006 with an aim to create special economic zones. Units in SEZs used to enjoy 100% income tax exemption on export income for the first five years, 50% for the next five years and 50% of the ploughed back export profit for another five years.

Government plans to table the Development of Enterprise and Service Hubs (DESH) Bill in the Parliament. This bill will replace the current Special economic zones (SEZ) Act, 2005.

Statement 1 is incorrect: Special Economic Zone (SEZ) is a specifically delineated duty-free enclave and shall be deemed to be foreign territory for the purposes of trade operations and duties and tariffs only. The **value added by firms is added to the Gross Domestic Production.** The SEZ is a geographical region that has economic laws different from a country's typical economic laws. The goal is to increase foreign investments.

Statement 2 is incorrect: In the current SEZ regime, a firm is allowed to sell in the domestic market after the duty is paid on the final product.

Statement 3 is correct: Units in SEZ are required to achieve net foreign exchange positive cumulatively in five years (i.e, export more than they import).

Source: <https://blog.forumias.com/govt-proposes-new-sez-law/>

<https://blog.forumias.com/draft-development-of-enterprise-and-service-hubs-desh-bill-sezs-to-be-turned-into-mfg-hubs-for-domestic-markets/>

Q.13) Which of the following statements is the correct description of the term “Antitrust cases” that was recently in news?

- It is a regulation that encourages competition by limiting the market power of any particular company.
- It refers to a situation where a group of similar companies agrees on prices in order to increase profits and limit competition.
- It is a particular form of collusive behaviour by which firms agree to submit common bids to eliminate price competition.
- It refers to the legal action brought against companies that are charged with limiting free competition in the market.

Ans) d

Exp) Option d is the correct answer.

Competition Commission of India (CCI) has fined Google twice – for abusing its dominant position in the market with its Android mobile operating system (OS) and for anti-competitive policies in its in-app billing and payment processing.

Option a is incorrect: **Antitrust** refers to a field of economic policy and laws dealing with monopoly and monopolistic practices. Antitrust laws prevent multiple firms from colluding or forming a cartel to limit competition through practices such as price fixing. **Antitrust laws are regulations that encourage competition by limiting the market power of any particular firm.** This often involves ensuring that mergers and acquisitions don't overly concentrate market power or form monopolies, as well as breaking up firms that have become monopolies.

Option b is incorrect: A **cartel** is an **association of similar companies** or businesses that have grouped together in order to **prevent competition** and to control prices.

Option c is incorrect: **Bid rigging** is a particular form of collusive price-fixing behaviour by which firms coordinate their bids on procurement or project contracts. There are two common forms of bid rigging. In the first, **firms agree to submit common bids**, thus **eliminating price competition**. In the second, firms agree on which firm will be the lowest bidder and rotate in such a way that each firm wins an agreed upon number or value of contracts.

Option d is correct: **Antitrust case is a legal action** brought against parties who are charged with **limiting free competition** in the market place. The Competition Commission of India (CCI) is empowered under the Competition Act, 2002 to check whether companies, especially large tech companies are not eliminating healthy competition in the market and creating a monopoly.

Knowledge Base:

Under Section 27 of the Competition Act, CCI has the power to impose such a penalty as it may deem fit which shall be not more than 10% of the average turnover for the last three preceding financial years upon each of such persons or enterprises which are parties to such agreements or abuse.

In 2014, the Supreme Court ruled that the penalty should be imposed not on the “total/ entire turnover of the offending company” but on “relevant turnover”.

Q.14) With reference to the Indian economy, consider the following statements:

Assertion: The share of formal jobs has remained greater than informal jobs in India in post-liberalization period.

Reason: The share of the services sector in India's Gross Domestic Product has remained higher than agriculture sector, in the post-liberalization period.

Which of the following options is correct?

- Both Assertion and Reason are correct and Reason is the correct explanation of the Assertion.
- Both Assertion and Reason are correct but Reason is not the correct explanation of the Assertion.
- Assertion is correct but Reason is incorrect.
- Assertion is incorrect but Reason is correct.

Ans) d

Exp) Option d is the correct answer.

Liberalisation was expected to formalise India's largely informal agrarian economy, with labour moving from agriculture to the organised industrial sector. But we have witnessed contractualisation of the employment.

Assertion is incorrect: The **quality of employment in India has declined** in the post-liberalisation period. Of around 61 million jobs created in India over 22 years post-liberalisation of the economy, **92% were informal jobs**, according to an analysis of National Sample Survey Office (NSSO) data for 2011-12. While formal workers comprised 6% of the total workforce in 1999-2000, this increased to around 9% in 2011-12, showing that the jobs that were created in the formal sector were mainly informal, employing workers with low earnings and with limited or no social protection.

Reason is correct: Agriculture accounted for nearly 30 per cent of the total GDP in 1991, and now accounts for 17.4 per cent of the economy. The services sector presently contributes nearly 54 per cent to domestic GDP and this was 39 per cent in 1991.

The industry sector's contribution to GDP stands at 29 per cent now against 30 in 1991.

Services sector contributes over 50 per cent to India's GDP. While Covid-19 pandemic has had an adverse impact on most sectors of the economy, the services sector has been the worst affected as its' share in India's GVA declined from 55 per cent in 2019-20 to 53 per cent in 2021-22.

Q.15) Consider the following statements regarding 'Rashtriya Gram Swaraj Abhiyan (RGSA)':

1. The objective of the scheme is to improve the governance capabilities of Panchayati Raj Institutions.
2. The scheme only covers Panchayati Raj Institutions created under Part IX of Indian Constitution.
3. It is a Central Sector Scheme having no financial contribution from the state Governments.

Which of the statements given above is/are correct?

- a) 1 only
- b) 1 and 2 only
- c) 2 and 3 only
- d) 1 and 3 only

Ans) a

Exp) Option a is the correct answer.

Statement 1 is correct: Rashtriya Gram Swaraj Abhiyan (RGSA) aims to **improve the governance capabilities of Panchayati Raj Institutions**. The scheme was **first approved in 2018** for implementation from 2018-19 to 2021-22. It will comprise Central and State components. The Central Components will be fully funded by the Government of India. The funding pattern for State Components will be in the ratio of 60:40 for Centre and States respectively, 90:10 for NE, Hilly States and Union Territory (UT) of J&K and 100% for UTs.

Statement 2 is incorrect: The scheme of Rashtriya Gram Swaraj Abhiyan will **extend to all States and UTs of the country** and will also **include institutions of rural local government in non-Part IX areas**, where Panchayats do not exist.

Statement 3 is incorrect: Cabinet Committee on Economic Affairs has approved the continuation of revamped **Centrally Sponsored Scheme** of Rashtriya Gram Swaraj Abhiyan (RGSA). It is continued for implementation during the period from 2022 to 2026 at a total cost of ₹5911 crore including **Central Share of ₹3700 crore and State share of ₹2211 crore**.

Source: Cabinet approves continuation of revamped Centrally Sponsored Scheme of Rashtriya Gram Swaraj Abhiyan(RGSA) -ForumIAS Blog

Q.16) The Ministry of Women and Child Development does not consider the Global Hunger Index (GHI) as a realistic parameter because of which of the following reasons?

- a) All the indicators used to assess hunger levels are children-related that does not represent the entire population.
- b) Complete absence of opinion polls from the methodology of the index.
- c) The GHI estimations are based on a very small sample size.
- d) The base year for the GHI is too old to represent the current nutritional conditions.

Ans) c

Exp) Option c is the correct answer.

The Global Hunger Report 2022 released by Concern Worldwide and Welt Hunger Hilfe, Non-Government Organisations from Ireland and Germany respectively, has ranked India at 107 among 121 countries. The index is an erroneous measure of hunger and suffers from serious methodological issues.

Option a is incorrect: The Indian government has primarily maintained two major objections over the past two installments of the GHI. In a press release, the ministry of women and child development (MWCD) says, "Three out of the four indicators used for calculation of the index are related to the health of children and cannot be representative of the entire population." So, **all indicators are not children-related.**

Option b and d are incorrect: India has not pointed out these as a reason to criticize the GHI.

Option c is correct: The ministry of women and child development claims that the fourth and most important indicator estimate of Proportion of Undernourished (PoU) population is **based on an opinion poll conducted on a very small sample size of 3000.**

The FAO estimate is based on "Food Insecurity Experience Scale (FIES)" Survey Module conducted through Gallop World Poll, which is an "opinion poll" based on "8 questions". The data collected from a miniscule sample for a country of India's size through FIES has been used to compute PoU value for India which is not only wrong and unethical; it also reeks of obvious bias.

Knowledge Base:

India is ranked second lowest amongst the SAARC nations, with Pakistan at 99, Bangladesh at 84, Nepal at 81, and even the crisis-stricken Sri Lanka at 64. Only Afghanistan is ranked lower at 109.

The GHI official website mentions that they don't use the FIES and instead rely on the prevalence of undernourishment indicators assessed by the FAO using the Food Balance Sheet, which is based primarily on data officially reported by member countries, including India.

Source: <https://pib.gov.in/PressReleasePage.aspx?PRID=1868103>

Q.17) Consider the following pairs with reference to various Prime Ministers of India and the Poverty alleviation schemes introduced under their tenure:

Prime Minister	Poverty alleviation scheme introduced by the government
1. Jawahar Lal Nehru	Integrated Rural Development Programme.
2. Indira Gandhi	Jawahar Rozgar Yojana
3. Lal Bahadur Shastri	Food for Work Programme
4. P.V. Narsimha Rao	National Social Assistance Programme

How many pairs given above are correct?

- Only one pair
- Only two pairs
- Only three pairs
- All four pairs.

Ans) a

Exp) Option a is the correct answer.

Poverty alleviation programmes are launched by government to remove poverty and provide better access to work, food and basic facilities to the poor people.

Pair 1 is incorrect: The Integrated Rural Development Program (IRDP) was launched by the Government of India (**Morarji Desai**) during 1978 and implemented during 1980. The program aimed at providing employment opportunities to the poor and a chance to enhance their skill sets. The focus of IRDP was also mainly on the target group i.e. small and marginal farmers, agricultural labourers and rural artisans. Its goal is to provide long term employment to disadvantage group and increasing rural small scale industry production.

Pair 2 is incorrect: **Jawahar Rozgar Yojana was launched in 1989(V.P. Singh)** launched with the merger of two schemes National Rural Employment Programme and Rural Landless Guarantee Programme (RLGP) aimed at providing sustainable employment to rural population.

Objectives of Jawahar Rozgar Yojana:

- (a) Providing employment opportunities to unemployed and under-employed population in the rural areas.
- (b) Developing rural Infrastructure and establishments for the benefits of the rural areas.
- (c) Preference was given to the OBCs, SC/STs etc.
- (d) Special reservation for women 30% of the employment opportunities.

Pair 3 is incorrect: **Food for work programme** was started in **1970s**. Under this scheme by **food grains were provided instead of wages** aiming to address poverty and food security in backward regions. Under this scheme some **unskilled manual labour** like constructing kutch road, cleaning historical monuments etc. was given to disadvantage group and were provided with food grains. This scheme later in 2001 revamped into National food for work programme.

Pair 4 is correct: In 1995, during P.V. Narsimha Rao government, **National Social Assistance programme (NSAP) was launched.** It represents a significant step towards the fulfilment of the **Directive Principles of State Policy under article 41 and 42 enshrined in the Constitution** of India which encourage the State to undertake number of welfare measures. The National Social Assistance Programme (NSAP) then comprised of

- 1) National Old Age Pension Scheme (NOAPS),
- 2) National Family Benefit Scheme (NFBS) and
- 3) National Maternity Benefit Scheme (NMBS).

These programmes target at providing social assistance benefit to the widows, destitute, aged, the BPL households in the case of death of the primary breadwinner and for maternity. It ensures minimum national standards in addition to the benefits that the States were then providing or would provide in future.

<https://www.indiamapped.com/yojanas-in-india/jawahar-rozgar-yojana/>

<https://www.indiamapped.com/yojanas-in-india/food-for-work-programme/>

<https://nsap.nic.in/circular.do?method=aboutus>

Q.18) With reference to the poverty levels, consider the following statements:

1. Absolute poverty is when people earn just enough money to afford the bare necessities of life.
2. Relative poverty is when people earn just enough money to maintain the average standard of life in the society of their living.

Which of the statements given above is/are **incorrect**?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) c

Exp) Option c is the correct answer.

Poverty line refers to the limit according to the government standards below which one is classified as poor. In India, Tendulkar Committee has formulated a new poverty line in (2004-2005). According to this, **uniform poverty line basket for rural and urban areas of each state has been defined.**

On the basis of income and consumption, poverty is classified into **Absolute poverty and Relative poverty.**

Statement 1 is incorrect: Absolute poverty is when household income is below a certain level. This makes it impossible for the person or family to meet basic needs of life including food, shelter, safe drinking water, education, healthcare, etc.

Statement 2 is incorrect: Relative poverty is the condition in **which people lack the minimum amount of income needed in order to maintain the average standard of living in the society** in which they live. Relative poverty is defined relative to the members of a society and, therefore, differs across countries. People are said to be impoverished if they cannot keep up with the standard of living as determined by society.

Relative poverty also changes over time. As the wealth of a society increases, so does the amount of income and resources that the society deems necessary for proper conditions of living.

Q.19) Which of the following statements are correct regarding the challenges in the school education in India?

1. Prevalence of rote learning as a practise of studying in most schools.
2. Lack of standard assessment method to track the student performance in schools.
3. Burden on teachers to spend their time in non-teaching tasks.
4. Lack of capacity building of teachers

Select the correct answer using the code given below:

- a) 1 and 3 only
- b) 1, 2 and 3 only
- c) 2, 3 and 4 only
- d) 1, 2, 3 and 4

Ans) d

Exp) Option d is the correct answer.

Sustainable Development Goal 4 is about quality education. It aims at securing inclusive and equitable quality education and promoting lifelong learning opportunities for all.

Statement 1 is correct: Rote learning or memorisation of information based on repetition and recalling our education suffers from the drawback of testing knowledge than developing knowledge. It promotes learning deficit among students specially of primary classes. ASER 2018 showed that in grade 5, only half of all children could read a grade 2 level text fluently.

Statement 2 is correct: assessments in most of the schools were done in an ad hoc and dispersed manner. There is a lack of consistent and high-quality data with the purpose of various assessments. **Standardized assessment is missing**, which makes it difficult to effectively measure and track student performance.

Statement 3 is correct: School teachers occupied with non-teaching activities leading to degradation of quality of education in India. Instead of providing education which is their primary role, they have to deal

with tasks like election duty, data collection. It increases the stress level among the teachers. **According to the report by the National Institute of Educational Planning and Administration (NIEPA) only 19% of a teacher's annual school hours are spent on teaching activities.**

Statement 4 is correct: Data from SATH States has shown that teachers' capacity is very weak on pedagogy as well as on content of the topics. Particularly in middle and secondary grades. **Many teachers are scoring themselves <60-70% in papers of the grades that they teach.** The situation is similar for upper primary teachers in English, Hindi and Math.

Knowledge Base: National Education Policy (NEP) aims at achieving foundational skills which includes reading, writing and arithmetic for all children in primary school, and beyond by 2025

Q.20) Which one of the following statements regarding Parliamentary Committee on Official Language is correct?

- It is a statutory committee setup in 1976 under the Official Languages Act, 1963.
- It reviews the progress made in the use of Eighth schedule languages for the Official purposes of the Union.
- The committee submit its report to the Parliament, from where it is sent to all the State Legislatures.
- Speaker of the Lok Sabha has been the Chairman of the Committee as per Rules of Procedure of Lok Sabha.

Ans) a

Exp) Option a is the correct answer.

Statement a is correct: The **Committee of Parliament on Official Language** came into existence as a result of the arrangements made in the **Official Language Act, 1963**. The Act was created to determine the official language policy of the Union after 26 January, 1965. It envisaged to adopt Hindi for official purposes. **Section 4 (1) of the Act** provides that the Official Language Committee will be constituted after the expiry of ten years from the date of commencement of Section 3 of the said Act (i.e. 26 January, 1965). Accordingly, the **Committee of Parliament on Official Language was formed in January, 1976.**

Statement b is incorrect: According to the provisions of the Official Language Act, 1963, the duties entrusted to the Committee are to **review the progress made in the use of Hindi (not Eighth Schedule languages) for the official purposes of the Union.**

Statement c is incorrect: The Committee of Parliament on Official Language **submit report to the President (not Parliament)** while making recommendations on use of Hindi for the official purposes of the Union. The **President will get that report laid before every House of Parliament** thereafter and send it to all the State Governments.

Statement d is incorrect: As a convention, the **union Home minister has been the Chairman** of the Committee from time to time, **not the Speaker**. The Committee comprises 30 members of Parliament, 20 from Lok Sabha and 10 from Rajya Sabha. These members are to be elected respectively by the members of Lok Sabha and Rajya Sabha in accordance with the system of proportional representation by means of the single transferable vote.

Knowledge Base:

Official Language of the Union: Article 343 of the Constitution of India stated that the official language of the Union is Hindi in Devanagari script, with the official use of English to continue for 15 years from 1947.

Later, the Official Languages Act of 1963 allowed for the continuation of English alongside Hindi in the Indian government indefinitely until legislation decides to change it.

Source: Union Home Minister presided over the 37th meeting of the Parliamentary Official Language Committee -ForumIAS Blog

Q.21) Which of the following would include Foreign Direct Investment in India?

1. Subsidiaries of foreign companies in India
2. Majority foreign equity holding in Indian companies
3. Companies exclusively financed by foreign companies
4. Portfolio investment

Select the correct answer using the codes given below:

- a) 1, 2, 3 and 4
- b) 2 and 4 only
- c) 1 and 3 only
- d) 1, 2 and 3 only

Ans) d

Exp) Option d is the correct answer.

Option 1, 2 and 3 are correct. The Subsidiaries of foreign companies in India, majority foreign equity holding in Indian companies and Companies exclusively financed by foreign companies come under the FDI. Foreign Direct Investment (FDI) is the investment through capital instruments by a person resident outside India (a) in an unlisted Indian company; or (b) in 10 percent or more of the post issue paid-up equity capital on a fully diluted basis of a listed Indian company.

Option 4 is incorrect. Foreign Portfolio Investment is any investment made by a person resident outside India in capital instruments where such investment is (a) less than 10 percent of the post issue paid-up equity capital on a fully diluted basis of a listed Indian company or (b) less than 10 percent of the paid up value of each series of capital instruments of a listed Indian company.

Off all the listed options, except Portfolio investment all will come under FDI in India.

Knowledge Base:

Foreign portfolio investment is the purchase of securities of foreign countries, such as stocks and bonds, on an exchange. Direct investment is seen as a long-term investment in the country's economy, while portfolio investment can be viewed as a short-term move to make money.

Source) UPSC CSE Pre 2012

Q.22) With reference to the World Bank & International Monetary Fund (IMF), consider the following statements:

1. IMF aims at economic development and poverty reduction, whereas aim of the World Bank is to ensure the stability of the international monetary system.
2. To become a member of the World Bank Group, a country must first join the IMF.
3. Both World bank and IMF grants loans to Private sector.

Which of the statements given above is/are correct?

- a) 2 and 3 only
- b) 3 only
- c) 2 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

Statement 1 is incorrect.

The **International Monetary Fund (IMF)** primarily aims to ensure the stability of the international monetary system—the system of exchange rates and international payments that enables countries and their citizens to transact with each other. It aims to **facilitate the expansion and balanced growth of international trade**. On the contrary, the **World Bank Group primarily aims at reducing poverty**, increasing shared prosperity, and promoting sustainable development. It provides financing, policy advice, and technical assistance to governments, and also focuses on strengthening the private sector in developing countries.

Statement 2 is correct. To become a member of the World Bank, under the International Bank for Reconstruction and Development (IBRD) Articles of Agreement, a **country must first join the International Monetary Fund (IMF) and not vice-versa**.

Statement 3 is incorrect. IMF loans are meant to **help only member countries** tackle balance of- payments problems, stabilize their economies, and restore sustainable economic growth. Thus, **IMF only lends to the governments, not the private sector or civil society**.

On the contrary, the **International Finance Corporation (IFC) of the World Banks lends to the private sector** while Multilateral Investment Guarantee Agency (MIGA) encourages private companies to invest in foreign countries.

Knowledge Base: Resources for IMF loans to its members on non-concessional terms are provided by member countries, primarily through **their payment of quotas**. Multilateral (New Arrangements to Borrow) and bilateral borrowing agreements serve as a second and third line of defence, respectively, by providing a temporary supplement to quota resources.

On the other hand, the World Bank's financial reserves come from several sources - from **funds raised in the financial markets, from earnings on its investments, from fees paid in by member countries**, from contributions made by members (particularly the wealthier ones) and from borrowing countries themselves when they pay back their loans.

Source: <https://www.worldbank.org/en/about/history/the-world-bank-group-and-the-imf>

<https://www.worldbank.org/en/about/leadership/members>

Q.23) With the reference to organic farming in India, consider the following statements:

1. All states in India have their own state organic certification agencies.
2. Organic farming accounts for about ten percent of the net sown area in the country.
3. Sikkim is the only Indian state to have become fully organic in India.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 3 only
- c) 1 and 3 only
- d) 2 and 3 only

Ans) b

Exp) Option b is the correct answer.

Organic farming can be defined as an agricultural process that uses biological fertilisers and pest control acquired from animal or plant waste.

Statement 1 is incorrect.

Currently, only 12 states – Madhya Pradesh, Gujarat, Telangana, Sikkim, Bihar, Karnataka, Odisha, Rajasthan, Uttarakhand, Chhattisgarh, Tamil Nadu and Uttar Pradesh have their own state organic certification agencies accredited by Agricultural and Processed Food Products Export Development Authority (APEDA).

Statement 2 is incorrect. Organic farming is in a **nascent stage in India**. About 2.78 million hectares of farmland was under organic cultivation as of March 2020, according to the Union Ministry of Agriculture and Farmers' Welfare. **This is two per cent** of the 140.1 million ha net sown **area in the country**.

The top three states, **Madhya Pradesh, Rajasthan and Maharashtra** account for about half the area under organic cultivation. The top 10 states account for about 80 per cent of the total area under organic cultivation.

Statement 3 is correct. **Sikkim** is the only Indian state to have become **fully organic** so far. A majority of the states have only a small part of their net sown area under organic farming. Even the top three states that account for the largest area under organic cultivation – Madhya Pradesh, Rajasthan and Maharashtra – have only around 4.9, 2.0 and 1.6 per cent of their net sown area under organic farming respectively.

Q.24) Consider the following statements with reference to the Female Labour Force Participation in India:

1. It has consistently increased in India during the last two decades, mainly due to liberalization reforms.
2. Female Labour Force Participation is higher in rural areas than urban areas in recent past.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) b

Exp) option b is the correct answer.

The **labor force participation rate measures the percentage of adults who are either employed or actively looking for a job**. The participation of women in the labour force varies considerably across developing countries and emerging economies, far more than in the case of men.

Statement 1 is incorrect: The **female labour force participation has not increased consistently in last two decades. Female participation rates declined from 34.1 per cent in 1999-00 to 27.2 per cent in 2011-12**, and wide gender differences in participation rate also persists. As per PLFS 2020-21, all India Female Labour Participation Rate is at 25.1.

Statement 2 is correct: The **Periodic Labour Force Survey (PLFS) data in 2020-2021 highlights that female labour force participation in rural area is higher than urban areas**.

Q.25) With reference to 'Nidhi Companies', consider the following statements:

1. They are a type of financial institutions that raise funds exclusively from their members.
2. A Nidhi company can provide loans to its members only.
3. They come under the dual regulation of Reserve Bank of India and Department of Company Affairs.

Which of the statements given above are correct?

- a) 1 and 3 only
- b) 1 and 2 only
- c) 1, 2 and 3
- d) 2 and 3 only

Ans) c

Exp) Option c is the correct answer.

The government of India has released the Nidhi (amendment) Rules, 2022. This amendment brings changes to the Nidhi Rules, 2014 to safeguard the interest of the general public.

Statement 1 is correct: Nidhi companies are a type of **non-bank lenders** that **raise funds exclusively from their members** and give loans to them.

Statement 2 is correct: To become a Nidhi company, the entity has to first register as a public limited company which has more disclosure requirements than a private limited company.

Nidhi Company can provide loans only to its members. And they cannot give loans to companies.

Statement 3 is correct: Nidhi Companies are regulated by the **Reserve Bank of India (RBI)** for deposit-taking and by the **Department of Company Affairs (DCA)** for **operational matters and deployment of funds.**

Source: Central Government amends Nidhi Rules, 2014 to safeguard the interest of general public - ForumIAS Blog

Q.26) Consider the following pairs regarding the types of unemployment and their examples:

Type of Unemployment	Example/Explanation
1. Frictional	Unemployment occurring due to automation
2. Structural	Unemployment in skiing resort in summer months
3. Cyclical	Unemployment during 2008 Financial Crisis

Which of the above given pairs is/are matched correctly?

- a) 2 only
- b) 3 only
- c) 1 and 2 only
- d) 2 and 3 only

Ans) b

Exp) Option b is the correct answer.

Unemployment is when a person who's actively seeking employment can't find work – but its effects go beyond any one individual looking for a job. Unemployment also has implications for families, employers, and the economy. There are several kinds of employment.

Pair 1 is incorrect: **Frictional unemployment** is the **result of people voluntarily leaving their jobs. People who've resigned from their jobs and graduates seeking their first jobs** need time to find employment, leaving them unemployed in the interim. Looking for a job, seeking a replacement employee, and finding the right employee for a job take time, but frictional unemployment isn't necessarily bad. This type of

unemployment usually is short term, and it's present even in a healthy economy as people leave their jobs to seek new opportunities. **Job loss due to automation would not fall under frictional unemployment.**

Pair 2 is incorrect: Fundamental changes in the economy and labor markets, such as evolving technology, government policies, and competition, can create structural unemployment. This means that while jobs are available, the people who could fill those roles either don't have the right skills for them or aren't in the right location. **Examples would include job loss due to automation. Unemployment in skiing resort in summer months would be an example of seasonal unemployment.**

Pair 3 is correct: The term "cyclical unemployment" refers to the variation in the number of unemployed workers during cycles of economic strength and weakness. When demand for a product or service declines, production also goes down. This creates less need for employers to hire people who are looking for jobs, causing the unemployment rate to increase. **During the early stages of the COVID-19 pandemic, for example, people were confined to their homes, leading many businesses to shut down.** During this economic downturn, many employees of those businesses weren't needed and were left unemployed. **The financial crisis of 2008 provides an example of cyclical unemployment.**

NCERT Class XI: Indian Economic Development; Chapter-7

Q.27) Which among the following can be considered as the features of an open economy?

1. Allowing foreign Investment in a country
2. Trade in services across national borders
3. Following Fixed Exchange Rate
4. Complete Convertibility of Capital Account

Select the correct answer using the code given below:

- a) 1 and 2 only
- b) 2, 3 and 4 only
- c) 1, 2 and 4 only
- d) 1, 2, 3 and 4

Ans) c

Exp) Option c is the correct answer.

An open economy is one that trades commodities, services as well as financial assets with other countries. An open economy is one that conducts business with other countries in a variety of ways.

Option 1 is correct: Open economy allows inflow and outflow of money and is not highly restrictive about it. Thus, it **allows various kinds of foreign investment** in the economy in form of foreign direct investment (FDI) as well as Foreign Institutional Investors etc.

Option 2 is correct: Open economy allows easy trade in both goods and services. Essentially it is the amount of trade one country does with other countries that define its openness.

Option 3 is incorrect: Fixed exchange rate is not a feature of an open economy. It is rather more likely to occur in a closed economy as they tend to regulate the movement of foreign currency in a highly restrictive manner. On the other hand, a floating exchange rate is an exchange rate system where a country's currency price is determined by the foreign exchange market, depending on the relative supply and demand of other currencies, this is more likely to happen in open economies.

Option 4 is correct: Full capital account convertibility opens up the country's markets to global players including investors, businesses, and trade partners. A fully convertible capital account provides three key benefits. These are stock market returns, reduction in transaction cost due to free rupee convertibility, and improvement in savings and investments which effectively accelerates growth.

<https://www.thehindubusinessline.com/opinion/columns/slate/all-you-want-to-know-about/article33215196.ece>

Q.28) With reference to the economy, the term 'invisibles' refers to?

- It is an international transaction that includes an exchange of non-tangible goods.
- They are one-sided economic transactions between a resident entity and a non-resident entity.
- It is the difference between a nation's gross national product and gross domestic product.
- It is two-way transaction where money is usually recovered through disposal of the assets.

Ans) a

Exp) Option a is the correct answer.

Option a is correct: An invisible trade is an international transaction that includes an exchange of non-tangible goods. Customer service outsourcing, overseas banking transactions, and the medical tourism industry all are examples of invisible trade. Invisible trade or the exchange of non-tangible goods represents an increasing percentage of the world's business. Global financial services and insurance companies, shipping services, and tourism all engage in invisible trade.

Option b is incorrect: Current transfers are one-sided transaction transfers characterized by a resident entity in one nation providing a non-resident entity with an economic value.

The two main types of current transfers are general government transfers, which are conducted between governments of two countries, and other sector transfers, such as those involving worker remittances or premiums associated with non-life insurances.

Option c is incorrect: Net foreign factor income (NFFI) is the difference between a nation's gross national product (GNP) and gross domestic product (GDP).

NFFI is the difference between the aggregate amount that a country's citizens and companies earn abroad and the aggregate amount that foreign citizens and overseas companies earn in that country.

Option d is incorrect: Capital account transactions are two way and multiple transactions. In **capital account transactions, paid money can be recovered through periodical income or by disposal of the asset created.** Likewise, the received money needs to be repaid periodically and settled finally by repaying the full amount.

Indian economy by Shankar Ganesh. Page no-282.

Q.29) Consider the following statements with reference to the Autonomous and Accommodating Transactions:

- Autonomous transactions are international economic transactions made independently of the state of the Balance of Payments.
- Accommodating transactions are the transactions made to cover the deficit occurred due to the autonomous transactions.

Which of the statements given above is/are correct?

- 1 only
- 2 only
- Both 1 and 2
- Neither 1 nor 2

Ans) c

Exp) Option c is the correct answer.

Statement 1 is correct: Autonomous transactions are the International economic transactions that are made independently of the state of the Balance of Payments (BOP). These transactions take place due to

some economic motives like earning income and profit maximization. They have nothing to do with foreign exchange payments. Autonomous transactions are generally called 'above the line items' in Balance of payments. It is autonomous transactions which make deficit or surplus in BOP. BOP is in deficit if the autonomous receipts are less than autonomous payments. BOP is in surplus if the autonomous receipts are greater than autonomous payments.

Statement 2 is correct: Accommodating transactions are determined by the net consequences of the autonomous items. Accommodating transactions refer to transactions that are made to cover deficit or surplus arising from autonomous transactions. Accommodating transactions are called 'below the line items. Because of government financing, official settlements are seen as accommodating items to keep the BOP identity.

Class 11th NCERT. Indian Economic Development. Chapter 6. Open economy macroeconomics.

Q.30) Consider the following statements regarding 'UN Human Rights Council (UNHRC)':

1. The member states of the council are elected by the United Nations General Assembly through direct and secret ballot.
2. The council has the authority to carry out the Universal Periodic Review of human rights records of all UN member state.
3. The rights and privileges of any council member can be suspended only by the UN Security Council.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 only
- c) 2 and 3 only
- d) 1 and 3 only

Ans) a

Exp) Option a is the correct answer.

Statement 1 is correct: The Human Rights Council is an **inter-governmental body** within the 'United Nations' system. The UNHRC replaced the former United Nations Commission on Human Rights. The Council was created by the United Nations General Assembly in 2006 by a resolution. The Council is made of **47 Member States, elected by the General Assembly of the UN through direct and secret ballot.** The General Assembly takes into account the candidate States' contribution to the promotion and protection of human rights, as well as their voluntary pledges and commitments in this regard.

Statement 2 is correct: The UN Human Right council carries out the **Universal Periodic Review** of all UN member states. This allows civil **society groups to bring accusations of human rights violations in member states** to the attention of the UN. The Council holds no fewer than three regular sessions a year, for a total of at least ten weeks. If one third of the Member States requests so, the Council can hold a special session to address human rights violations and emergencies.

Statement 3 is incorrect: As per the rules, the **United Nations General Assembly (UNGA) can suspend the rights and privileges of any Council member** that it decides has persistently committed gross and systematic violations of human rights during its term of membership. To suspend a member, one needs a **two-thirds majority vote by the General Assembly.** The United Nations General Assembly (UNGA) has **voted to suspend Russia from the UN Human Rights Council (UNHRC).**

Note: This is **only the second time the UNGA** has suspended a country from the 47-member UN Human Rights Council after its formation in 2006. In 2011, **Libya was thrown out** through a resolution adopted by UNGA through consensus.

Q.31) Consider the following statements:

Human capital formation as a concept is better explained in terms of a process which enables

1. Individuals of a country to accumulate more capital.
2. Increasing the knowledge, skill levels and capacities of the people of the country.
3. Accumulation of tangible wealth.
4. Accumulation of intangible wealth

Which of the statements given above is/are correct?

- a) 1 and 2
- b) 2 only
- c) 2 and 4
- d) 1, 3 and 4

Ans) c

Exp) Option c is the correct answer.

Statements 2 and 4 are correct whereas Statements 1 and 3 are incorrect.

Investment in education, in health, on- the job training, migration and information are the sources of human capital formation. This will lead to enhancement in the knowledge, skill levels and capacities of the people of the country. These are the essential needed for human capital formation.

Intangible wealth includes patents, intellectual property rights etc. Thus, if more patents and IPs are generated it indicates that population is more educated- pointing to human capital formation.

Knowledge Base: A substantial part of the human capital formation takes place in one's life when she/he is unable to decide whether it would maximise her/his earnings. Children are given different types of school education and health care facilities by their parents and the society. The peers, educators and society influence the decisions regarding human capital investments even at the tertiary level, that is, at the college level. Moreover, the human capital formation at this stage is dependent upon the already formed human capital at the school level. Human capital formation is partly a social process and partly a conscious decision of the possessor of the human capital.

Q.32) With reference to economy, consider the following statements:

Assertion (A) – Depreciation of rupee can result in an increase in domestic inflation.

The Reason (R) - Depreciation leads to an increase in the prices of imported goods.

Which of the following options is correct?

- a) Both Assertion (A) and Reason (R) are the true and Reason (R) is a correct explanation of Assertion (A).
- b) Both Assertion (A) and Reason (R) are the true but Reason (R) is not a correct explanation of Assertion (A).
- c) Assertion (A) is true and Reason (R) is false.
- d) Assertion (A) is false and Reason (R) is true.

Ans) a

Exp) Option a is the correct answer.

Assertion (A) is correct: As Rupee depreciates, the cost of imports goes up, which in turn increases the external deficit as well as the fiscal deficit. A weaker Rupee **raises the cost of all imports**, thereby increasing the price of goods and putting upward pressure of **domestic inflation**.

Reason (R) is correct: **The biggest impact of a weakening rupee is inflation, given India imports more than 80% of its crude oil.**

Depreciation reduces the value of a country's currency when compared with the currency of other countries. **Depreciation discourages imports because the imported goods become more expensive** due

to a reduction in the value of rupee. **As the goods become more and more expensive it leads to rising inflation.**

Thus Reason (R) is a correct explanation of Assertion (A).

Source: <https://www.outlookindia.com/business/rupee-at-record-low-rupee-vs-dollar-why-is-rupee-falling-and-how-will-it-impact-the-indian-economy-and-people-why-is-indian-rupee-falling-news-205888>

Q.33) Which of the following are the possible reasons for the rise in economic inequality after the 1991 economic reforms in India?

1. Reduction in public investment in agriculture
 2. Decline in the availability of casual labour
 3. Poor growth of public expenditure in social sectors
 4. Rapid decline in foreign direct investments in India
- Select the correct answer using the code given below:

- a) 1 and 2 only
- b) 2, 3 and 4 only
- c) 1 and 3 only
- d) 1, 3 and 4 only

Ans) c

Exp) Option c is the correct answer.

Statement 1 is correct. The share of agriculture investment in the total investment declined from 11.4% in 1980s to 7.4% in 2000s. Evidence show that inequality increased in post-reform period India. Even with a doubling of per capita consumption growth in the post-reform decade, the decline in poverty was less by a quarter compared to the pre-reform decade.

There has been a **relative neglect of the agriculture sector** by policymakers. While economic development entails a move from the off-farm to industry and services, deficiencies of public investments in agriculture, and in the rural economy more generally, has been problematic precisely because the productivity of agriculture determines the standards of living of the majority of the people in India.

Statement 2 is incorrect. Post-reform period saw an **increase in casual labour and not a decline.** The growth of the labour-intensive manufacturing sector has been slow and has been lagging behind the service sector, which is less labour intensive. Also, a high growth in the post-liberalisation period has been accompanied by **increased informalisation and de-unionisation of workforce.** Economically and socially deprived sections of society were mostly employed as casual labour. These are some of the worrisome features of the labour market, as these workers have low bargaining power and earn meagre wages.

Statement 3 is correct. Public expenditure on social sectors has suffered after 1991. As a percentage of GDP, social sector expenditure after 1991 was generally less than what it was in the late 1980s. This has impacted the improvement in health and quality of education in India, which affects economic growth and its distribution.

Statement 4 is incorrect. India's foreign direct investments has **increased significantly since 1991.** FDI into India increased from \$97 million in 1990-91 to about \$84,835 million in FY 21-22.

<https://theprint.in/economy/97-mn-in-1991-to-82-bn-in-2021-how-reforms-made-india-a-go-to-destination-for-fdi/699786/>

Q.34) Which of the following statements correctly describes the term ‘Factoring’?

- a) It is a type of supply chain finance where the bank/financial institution provides the seller an immediate amount of its invoice at a discounted rate.
- b) It is a method of calculating the total cost of all the factors of production to produce a good or service.
- c) It is a type of finance where the seller combines its different financial debts to form a consolidated financial instrument which is issued to investors.
- d) It is a type of finance where the seller would sell its invoices to a third party to meet its short-term cash requirements.

Ans) d

Exp) Option d is the correct answer.

Option a is incorrect. Reverse factoring is a type of supply chain finance where the bank/financial institution provide seller an immediate amount on approved invoices at a discounted rate. It increases the payment terms without the need to negotiate the amount. It provides a secured supply chain and Diversified sources of capital.

Option b is incorrect. Factor cost (not the factoring) is the total cost of all the factors of production consumed or used in producing a good or service.

Option c is incorrect. A securitization is a financing tool for financial companies that helps them raise funds. It is the process by which a company clubs its different financial assets/debts to form a **consolidated financial instrument that** is issued to investors. In return, the investors in such securities get interest. It raises the liquidity in the market and is useful if a company has already issued many loans to its customers and wants to further add to the number.

Option d is correct. Factoring is a **type of finance** in which a seller would sell its invoices or the accounts receivable to a third party to meet its short-term liquidity needs. The major advantage of this process is that a company doesn't have to wait for two or three months and can address its liquidity needs by approaching a financial institution. Under the transaction between both parties, the factor or the third party would pay the amount due on the invoices minus its commission or fees.

Q.35) With reference to ‘Mission Vatsalya’, consider the following statements:

1. The mission consists of schemes and policies for the empowerment and protection of women.
2. It will be implemented in partnership with the private sector as well as volunteer groups through a national level portal.
3. The scheme assists States/Union Territories in delivering the mandate of the Juvenile Justice Act 2015.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 only
- c) 2 and 3 only
- d) 1 and 3 only

Ans) c

Exp) Option c is the correct answer.

The Ministry of Women and Child Development has sent its draft guidelines for Mission Vatsalya Scheme to States and Union Territories to seek their suggestions.

Statement 1 is incorrect: Mission Vatsalya focuses on **Child Protection Services and child welfare services**. It is essentially a renamed version of the pre-existing scheme called Child Protection Services. The objectives of the mission are to secure a healthy and happy childhood for every child in India.

Mission Shakti will consist of the schemes and policies for the **empowerment and protection of women**. Mission Shakti will cover schemes under two categories:

SAMBAL: This category will include schemes such as One Stop Centre, Mahila Police Volunteer, Women's Helpline, Swadhar, Ujjawala among others.

SAMARTHYA: This category will include schemes such as Beti Bachao Beti Padhao, Pradhan Mantri Matru Vandana Yojana among others.

Statement 2 is correct: Under the Vatsalya mission, the Government plans to **partner with the private sector as well as volunteer groups** for its scheme for the protection of vulnerable children such as those abandoned or missing. For this, a **Vatsalya portal will be developed** that will allow volunteers to register so that State and District Authorities can engage them in executing various schemes.

Statement 3 is correct: The Vatsalya mission will foster a sensitive, supportive and synchronized ecosystem for the development of children, **assist States/UTs in delivering the mandate of the Juvenile Justice Act 2015** and to achieve the SDG goals.

Components under the mission: It will include statutory bodies; service delivery structures; institutional care/services; non-institutional community-based care; emergency outreach services (through Childline or the national helpline 1098 for children); training and capacity building.

 “Mission Shakti, Mission Poshan 2.0, and Mission Vatsalya” – 3 Umbrella schemes of Ministry of WCD - ForumIAS Blog

Q.36) With reference to SENSEX in India, consider the following statements:

1. It is one of the benchmark indexes of the BSE Limited.
2. It is comprised of 50 of the largest and most actively-traded stocks.
3. Its value is calculated in terms of both Indian rupees and U.S. dollars.
4. Its composition is re-evaluated once in every five years as per the performance of stocks of the companies.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 3 and 4 only
- c) 1 and 3 only
- d) 2 and 4 only

Ans) c

Exp) Option c is the correct answer.

Statement 1 is correct. Sensex is the benchmark index of the BSE in India. It was launched in 1986, as a basket of 30 stocks representing the country's largest, financially-sound companies listed on the BSE.

Sensex is a Free-float Market Capitalisation weighted stock market index. That is in this index, the total shares issued by the company is made available for trading to the general public. **It does not consider promoters holding, government holding, and other shares that will not be available in the market for trading in the ordinary course of events. The market capitalization of any company in Sensex is determined by the stock price multiplied by the number of shares outstanding.**

Statement 2 is incorrect. SENSEX is the benchmark index of the Bombay Stock Exchange (BSE) in India. **The SENSEX index is made up of 30 (not 50) of the BSE's largest and most actively traded stocks, and it serves as a gauge for the Indian economy.**

On the other hand, **National Stock Exchange-Fifty (NIFTY 50)** is a benchmark-based index of National Stock Exchange's showcasing the **top 50 equity stocks** listed on the stock exchange.

Statement 3 is correct. Sensex is calculated in **Indian rupees and U.S. dollars**. As they reflect both domestic and international benchmarks for the Indian market and reflect changes in both stock prices and exchange rates properly.

Statement 4 is incorrect. The Sensex is reviewed and re-evaluated **semi-annually each year in June and December**. It involves re-evaluation of the constituents of a particular index as it deals with addition and removal of stocks from the index and their re-ranking based on the current market situation.

Q.37) Which one of the following statements is correct regarding 'Inequality'?

- According to Kuznets Curve, economic growth initially leads to increased economic inequality in an economy.
- Phillips Curve measures the degree of income inequality in an economy.
- A Gini Coefficient of 1 means that everyone in the population has the same income.
- The Gini coefficient for India has rapidly reduced during the last decade.

Ans) a

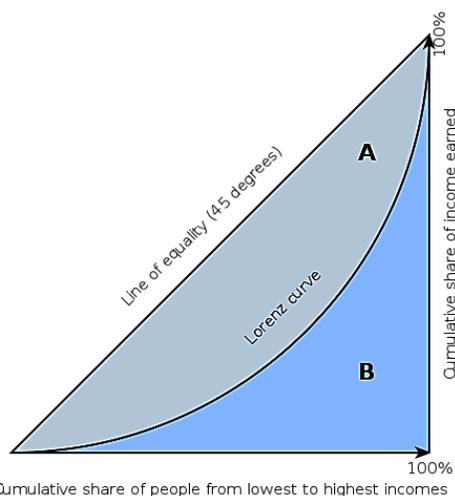

Exp) Option a is the correct answer.

Option a is correct. Kuznets Curve shows the relationship between economic growth and inequality. It is inverted U shaped meaning that as initially economic growth leads to greater inequality, followed later by the reduction of inequality. Simon Kuznets indicates that **inequalities rise with economic growth up to a point and then decline**. This is the so-called Kuznets **inverted 'U' shape curve**. Initially economic growth **increase overall inequality** as the rural-urban transformation takes place and labour moves from low productivity agriculture to high productivity urban industrial and service sector activities.

 Investopedia

Option b is incorrect. **Lorenz curve** shows the degree of inequality in income and wealth in a given economy.

The Philips Curve provides a relationship between inflation and unemployment. The theory claims that with economic growth comes inflation, which in turn should lead to more jobs and less unemployment. The Phillips curve states that inflation and unemployment have a stable and inverse relationship.

Option c is incorrect. Gini coefficient, is a degree of the distribution of income across a population. A Gini Coefficient of zero means that everyone has the same income, while a Coefficient of 1 represents a single individual receiving all the income. Gini index or coefficient measures distribution of income across population. Gini coefficient of 1 indicates full inequality and 0 indicates full equality. Thus, higher Gini coefficient indicates greater inequality.

Option d is incorrect. The Gini coefficient was 35.7 per cent in 2011 in India. The coefficient increased to 47.9 per cent in 2018. Due to the COVID-19 pandemic, the Gini coefficient increased further. India is only second to Russia in the world in terms of inequality.

Q.38) Which of the following are the components of India's Foreign Exchange Reserves?

1. Special Drawing Rights
2. Investment in US treasury bonds by Reserve Bank of India
3. Silver holdings of the Reserve Bank of India
4. Reserve tranche position with International Monetary Fund

Select the correct answer from the options given below:

- a) 1, 2, and 4 only
- b) 2 and 3 only
- c) 1 and 4 only
- d) 1, 2, 3, and 4

Ans) a

Exp) Option a is the correct answer.

India's Foreign Exchange Reserves comprise Foreign Currency Assets, Gold, SDR's and Reserve tranche position with International Monetary Fund (IMF).

Option 1 is correct. The Special Drawing Rights (SDR) is an forex reserve asset **created by the IMF** to supplement the official reserves of its member countries.

The SDR is not a currency. It is a potential claim on the freely usable currencies of IMF members. As such, SDRs can provide a country with liquidity.

Option 2 is correct. India's Foreign Exchange Reserves comprise Foreign Currency Assets, Gold, SDR's and Reserve tranche position with International Monetary Fund (IMF). **Foreign currency assets include investments in US Treasury bonds**, Bonds/Treasury Bills of other selected Governments, deposits with foreign central banks, foreign commercial banks etc.

Option 3 is incorrect. Silver holding of the RBI is **not included** in the foreign exchange reserves of India.

Option 4 is correct. A **reserve tranche** is a part of country's forex reserve. A reserve tranche is a portion of the required quota of currency each member country must provide to the **International Monetary Fund (IMF)** that can be utilized **for its own purposes**—without a service fee or economic reform conditions.

Source: <https://indianexpress.com/article/business/economy/india-rbi-gold-reserves-7607754/#:~:text=Data%20from%20the%20Reserve%20Bank,metal%20held%20in%20September%2020.&text=46%3A09%20am-,Data%20from%20the%20Reserve%20Bank%20shows%20that%20the%20central%20bank,gold%20as%20of%20September%202021.>

Q.39) Which of the following conditions is **not** conducive for the occurrence of the demographic dividend in a country?

- When a country is having a bell-shaped population pyramid.
- When mortality and fertility rate is on a declining trend
- When the share of non-working age population is larger than working age population
- When conducive economic policies are put in place.

Ans) c

Exp) Option c is the correct answer.

Statement a is correct: Dome-shape or bell-shaped pyramid is seen in countries like India, Bangladesh, Mexico and Brazil that are witnessing demographic dividend phase. The population growth rates decline and life expectancy increases and becomes about 70 years. Lower- middle portion slightly bulges out and the shape of the pyramid resembles dome or bell.

Statement b is correct: Demographic Dividend is the result of **decline in a country's mortality and fertility** and the subsequent change in the age structure of the population.

Statement c is incorrect: Demographic dividend **is not conducive** when dependency ratio is high. Demographic dividend is a **window of opportunity** when share of the **working age population** between 15 and 64 years of age increases and share of children and elderly people age group decreased. Thus, changes in the age structure due to the demographic transition **lower the 'dependency ratio'**.

Statement d is correct: Demographic Dividend is a **demographic and economic concept**. It refers to an accelerated economic growth that a nation experiences once in a lifetime. It occurs when working age population grows at a faster pace than dependent population, provided that government **policies and institutions** are conducive to create employment opportunities for an expanding labour force.

Source: <https://egyankosh.ac.in/bitstream/123456789/76242/1/Unit-3.pdf>

Q.40) Consider the following statements:

1. The Aadhaar Act stipulates that an individual should reside in India for a period of 12 weeks for being eligible to obtain an Aadhaar.
2. The Aadhaar can be issued to minor children under the age of five years based on the demographic information of their parents.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) b

Exp) Option b is the correct answer.

Comptroller and Auditor General (CAG) of India has pulled up the Unique Identification Authority of India (UIDAI) over a range of issues related to the issuance of Aadhaar Cards.

Statement 1 is incorrect: The Aadhaar Act stipulates that an individual should **reside in India** for a **period of 182 days or more** in the twelve months immediately preceding the date of application for **being eligible to obtain an Aadhaar**. In 2019, this condition was relaxed for non-resident Indians holding valid Indian Passport.

However, UIDAI has not prescribed any specific proof/document or process for confirming whether an applicant has resided in India for the specified period and takes confirmation of the residential status through a casual self-declaration from the applicant.

Statement 2 is correct: For children below 5 years no biometrics will be captured. Their UID be processed on the basis of **demographic information and facial photograph linked with the UID of their parents**. These children will need to update their biometrics of ten fingers, iris and facial photograph, when they turn 5 and 15.

Knowledge Base:

Other issues raised by CAG report:

- 1) **All Aadhaar numbers are not supported with actual documents containing personal information.** According to the CAG, all the Aadhaar numbers stored in the UIDAI database were not supported with documents relating to the personal information of their holders and even after nearly ten years the UIDAI could not identify the exact extent of the mismatch.
- 2) **Charging Fees for Voluntary Update:** UIDAI appeared to have charged people for biometric updates when poor quality data was fed in during enrolment. UIDAI did not take responsibility for poor quality biometrics and put the onus on the resident and charged fees for it.
- 3) **No Data Archiving Policy:** UIDAI maintains one of the largest biometric databases in the world; but does not have a data archiving policy, which is considered to be a vital storage management best practice.
- 4) **No Proper Grievance Redressal Procedure:** The process of capturing grievances/complaints have not been streamlined by UIDAI and does not display a clear picture for analysis.

Q.41) In a given year in India, official poverty lines are higher in some states than in other because

- a) Poverty rates vary from state to state
- b) Price levels vary from state to state

- c) Gross state product varies from state to state
- d) Quality of public distribution varies from state to state

Ans) b

Exp) Option b is the correct answer.

The current methodology for poverty estimation is based on the recommendations of an Expert Group to Review the Methodology for Estimation of Poverty (Tendulkar Committee) established in 2005. For 2011-12, the poverty lines were fixed at daily expenditure of ₹27.2 in rural areas and ₹33.3 in urban areas. According to a planning commission report, **these poverty lines would vary from State to State because of inter-state price differentials.**

Q.42) In relation to foreign currency market, which of the following correctly describes a 'hard currency'?

- a) Currency which is very volatile and has low demand in the forex market.
- b) Currency which has high liquidity and demand in the forex market
- c) Currency which is under pressure of depreciation due to exit of other currencies
- d) Currency which enters the market due to re-purchasing of bonds by the Government before their maturities.

Ans) b

Exp) Option b is the correct answer.

Statement a is incorrect: A soft currency is one with a **value that fluctuates**, predominantly lower relative to other currencies, because there is **less demand for that currency in the forex markets**. This lack of demand may be driven by a variety of factors, but is most often a result of the country's political or economic uncertainty.

Statement b is correct: **Hard Currency** refers to the currency in which everyone shows highest faith and it is demanded by every economy for transactions. Such a currency has **high level of liquidity**, which also makes them always **scarce** and **less available**.

Statement c is incorrect: **Heated Currency** refers to a currency which is under high pressure of depreciation due to high probability of hard currency's exit from the economy. It is also known as currency under **heat or under hammering**.

Statement d is incorrect: The term **Cheap Currency** was being first used by J.M. Keynes. When a government starts re-purchasing its bonds before their maturities, the money which flows into the economy is known as the Cheap currency.

Q.43) With reference to the General Agreement on Trade in Services (GATS) of World Trade Organization (WTO), consider the following statements:

1. It is an international treaty which was created as a result of Uruguay Round Negotiations.
2. All the services are covered within the ambit of GATS.
3. The services covered by the treaty are automatically opened to competition.

Which of the statements given above are **incorrect**?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

The General Agreement on Trade in Services (GATS) is one of the landmark achievements of the World Trade Organization (WTO). It is related to liberalization of trade in services. Some of the features are:

Statement 1 is correct. It is an **international treaty** of the WTO which emerged a result of the **Uruguay Round Negotiations**. It entered into force in 1995. It aimed at creating a credible and reliable system of international trade rules; ensuring fair and equitable treatment of all participants (principle of non-discrimination); stimulating economic activity through guaranteed policy bindings; and promoting trade and development through progressive liberalization for trade in the services sector.

Statement 2 is incorrect. The GATS applies in principle to all service sectors, with two exceptions. **First exclusion** is related to “**services supplied in the exercise of governmental authority**”, and **Second exclusion** is related to a bulk of **Air Transport Services**. It exempts from coverage measures affecting air traffic rights and services directly related to the exercise of such rights.

Statement 3 is incorrect. Services covered by the GATS are **not automatically opened** to competition. WTO members guarantee access to their markets only in those sectors and modes of supply specified in their “**schedules of commitments**”, subject to any “limitations” they wish to maintain. These schedules provide legally binding commitments. The only obligation that applies across all services covered by the GATS is the most-favoured-nation (MFN) principle, meaning suppliers of services from all countries are treated in the same way.

Source: https://www.wto.org/english/thewto_e/20y_e/services_brochure2015_e.pdf

https://www.wto.org/english/tratop_e/serv_e/gatsqa_e.htm

Q.44) Higher economic growth would necessarily lead to which of the following?

1. Reduction in inequality
2. Reduction in poverty
3. Reduction in unemployment

Select the correct answer using the code given below:

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 only
- d) None of the Above

Ans) d

Exp) Option d is the correct answer.

Economic Growth means the increase in the level of GDP of the country. It can be possible only when all the factors of production are applied in the right manner i.e., land, labor, capital, and entrepreneurship.

Economic growth widens opportunities and provides the resources needed to invest in human development. This also encourages people to send their children, including girls to schools in the hope of getting better economic returns from investing in education.

Option 1 is incorrect. Economic growth means an increase in national income but **economic growth may not reduce income inequality because**

- 1) Economic growth often creates the **best opportunities** for those who are **highly skilled and educated**.
- 2) Modern economies are creating an increased number of **part-time/flexible service sector jobs**. In these sectors, wages have been lagging average earnings.

Option 2 is incorrect. **Economic growth does not necessarily reduce poverty.** Economic growth leads to poverty reduction **only when** it is accompanied by **equitable income distribution as well**. Suppose there is a disparity in income distribution and a wide gap between the income earned by the top and bottom income

strata. In case of income inequality, economic growth will lead to concentration of income in the hands of the few rich, the level of poverty might increase.

Option 3 is incorrect. Economic growth **does not necessarily lead to reduction in unemployment. The phenomenon of jobless growth is often seen in economies around the world.** For example, growth cannot solve **structural and frictional unemployment**; this is unemployment caused by lack of skills and geographical immobility.

Q.45) The Council on Energy, Environment and Water (CEEW) has recently released a study titled 'Managing Forest Fires in a Changing Climate', In this context, consider the following statements:

1. Most of the Northeastern Region has not witnessed forest fire incidences in recent decades due to cooler climate.
2. In India, there has been a ten-fold increase in forest fires in the past two decades.
3. Among the Indian states, Tamil Nadu has had the highest number of forest fire incidences in the last two decades.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 only
- c) 2 and 3 only
- d) 1, 2 and 3

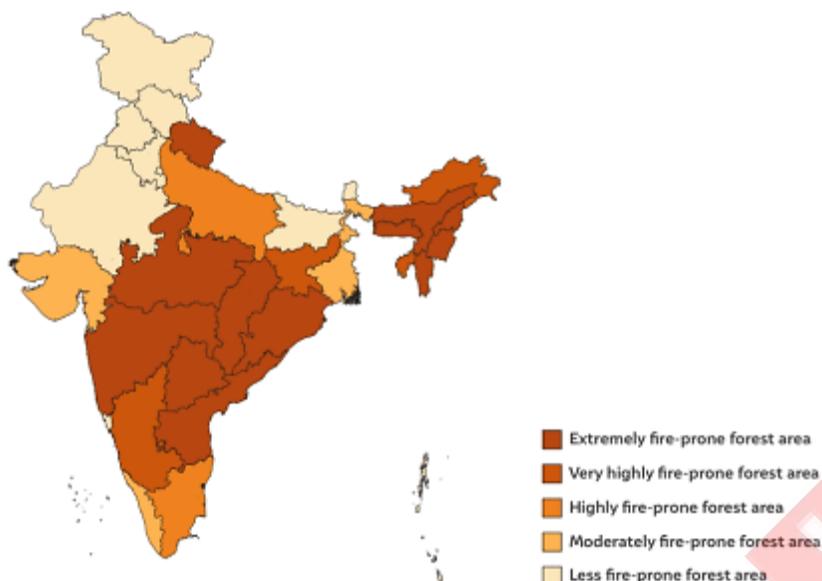

Ans) b

Exp) Option b is the correct answer.

Council on Energy, Environment and Water (CEEW) has released a study titled 'Managing Forest Fires in a Changing Climate'.

Statement 1 is incorrect: Most of the North-eastern Region are **witnessing an increased frequency of forest fire incidents** in recent decades. More than 75 % of Indian districts are extreme climate event hotspots, and more than 30 % of districts are extreme forest fire hotspots.

Statement 2 is correct: The study points toward the increase **in Forest Fires in India**. There has been a **ten-fold increase in forest fires in the past two decades**, and more than 62% of Indian states are prone to high-intensity forest fires.

Fire Prone Region in India

Statement 3 is incorrect: Mizoram has had the highest number of forest fire incidences in the last two decades, with more than 95% of its districts being forest fire hotspots. Andhra Pradesh, Assam, Chhattisgarh, Odisha and Maharashtra are the most prone to high-intensity forest fire events caused by rapid changes in the climate.

Source: <https://blog.forumias.com/forest-fires-frequency-intensity-went-up-in-past-2-decades-study/>

Q.46) With reference to the Real Effective Exchange Rate (REER), which of the following statement is **incorrect**?

- It is used as a measure for observing external competitiveness of Indian economy
- It captures inflation differential between India and its trading partners.
- It signifies the quantity of domestic goods required to purchase one unit of a given basket of foreign goods
- An increase in a country's REER indicates that its exports are becoming cheaper.

Ans) d

Exp) Option d is the correct answer.

Statement a is correct: The Real effective exchange rate (REER) is **the weighted average of a country's currency in relation to an index or basket of other major currencies**. It is calculated as the weighted average of the real exchange rates of all of a country's trade partners. The weights being the shares of the respective countries in its foreign trade.

Real Effective Exchange Rate (REER) serve as a gauge for **assessing the fair value of a currency, the external competitiveness** of an economy and even serve as **guideposts for setting monetary and financial conditions**. A REER is a summary indicator of movements of the home currency against a basket of currencies of trading partners.

Statement b is correct: REER takes **price differential and inflation into account** and, therefore, is said to be a better indicator of the competitiveness of the country in terms of exchange rates.

Real effective exchange rate is a weighted average of nominal exchange rates adjusted for relative price differential between the domestic and foreign countries.

Statement c is correct: REER is interpreted as the quantity of domestic goods required to purchase one unit of a given basket of foreign goods.

Statement d is incorrect: An increase in a nation's REER is an indication that its exports are becoming more expensive and its imports are becoming cheaper. It means it is losing its trade competitiveness.

Q.47) In the context of international trade, which one of the following conditions make a product eligible for 'Countervailing duty'?

- When the product has potential of harming the environment of destination country.
- When the product has potential of destabilising the currency of importing country.
- When the product has not followed the international sanitary rules while production process.
- When the product has received unfair advantage through export subsidy in the source country.

Ans) d

Exp) Option d is the correct answer.

Countervailing duties or CVDs are tariffs on imported goods that are imposed **to offset subsidies given by the exporting country's government**. CVDs help offset any negative domestic impacts that producers of the same good might experience due to foreign competition, who in this case, would receive a subsidy to export the same good. If left unchecked, such subsidized imports can have a severe effect on the domestic industry, forcing factory closures and causing huge job losses. As export subsidies are considered to be an unfair trade practice, the World Trade Organization (WTO)—which deals with the global rules of trade between nations—has detailed procedures in place to establish the circumstances under which countervailing duties can be imposed by an importing nation.

Source: <https://www.investopedia.com/terms/c/countervailingduties.asp>

Q.48) Why women compared to men have a higher incidence of poverty in India?

- The income disparity between men and women
- Women are increasingly employed in the unorganized sector
- Discrimination against women in the inheritance of land and property.

Select the correct answer using the codes given below:

- 1 and 2 only
- 2 and 3 only
- 1 and 3 only
- 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

Option 1 is correct. Women make a substantial proportion of poor people. Studies have shown that women headed household in rural areas are the poorest. The **income disparity between men and women** is evident due to vast **differentials in wages paid** to men and women.

Option 2 is correct. Women are increasingly employed in the unorganized sector as unskilled labour. They are also engaged in **home-based work** where they get low wages. Female-headed households are often poor, as **women do not get jobs or credit to set up their own businesses**. In recent years, the term 'feminization of poverty' is used to denote the specific characteristics of poverty where women are directly affected adversely as a result of development process.

Option 3 is correct. Although laws in India provides for right of inheritance of property to daughters/women. But, such laws are seldom used in practice. Women are not generally given ownership

rights over ancestral property and very rarely they get a share in their father's property in India. This is one of the reason why women have a higher incidence of poverty compared to men.

<http://egyankosh.ac.in/bitstream/123456789/58865/1/Unit3.pdf>

Q.49) In the context of Agricultural land holdings in India, consider the following statements:

1. The highest number of operational agricultural landholdings is in Maharashtra.
2. The number of small and marginal farmers declined drastically in the last decade.
3. Higher proportion of women hold land in northern states as compared to southern states.

Which of the above statements is/are correct?

- a) 1 only
- b) 1 and 2 only
- c) 3 only
- d) None

Ans) d

Exp) Option d is the correct answer.

Operational land holdings are all land which is used wholly or partly for agricultural production and is operated as one technical unit by one person alone or with others without regard to the title, legal form, size or location. According to **10th Agriculture Census 2015-16**, the total number of operational holdings in the country has increased from 138.35 million in 2010-11 to 146.45 million in 2015-16 showing an increase of 5.86%.

Statement 1 is incorrect. In a total of 146.45 million operational agricultural land holdings in the country, the highest number of operational land holdings in India belonged to **Uttar Pradesh (23.82 million)**. UP is followed by Bihar (16.41 million), Maharashtra (15.29 million), Madhya Pradesh (10.00 million).

Statement 2 is incorrect. According to the 10th agricultural census, the number of small and marginal agricultural land holdings in the country has **registered a marginal increase in 2015-16 compared to 2010-11**. The **small and marginal holdings** taken together (0.00-2.00 ha.) constituted **86.08%** of the total holdings in 2015-16 against **85.01%** in 2010-11 while their share in the **operated area** stood at **46.94%** in the current census as against **44.58%** in 2010-11.

Classification	Range (ha)	2010-11 (mn.)	2015-16 (mn.)	% change
Small	<1	117.25	125.86	7.34%
Medium	1-4	19.72	19.3	-2.13%
Large	4-10	0.98	0.83	-15.31%

Statement 3 is incorrect. As per the data on women's operational holdings from the agriculture census of 2011, in **southern states** an average of **15.4% of women hold land**, and in the north-eastern states, 14.1%. With these low figures, these states outperform the northern states where 9.8% of women hold land, and the eastern states where 9.2% of women do i.e., **more women in the southern states hold land as compared to the rest of the country**. All the southern states fall within the first 10 ranks, with Andhra Pradesh reporting the best figure-17.2% of the state's women hold land, giving it the fourth place in the all-India ranking.

Q.50) Consider the following statements with reference to Kodavas:

1. They are an ethnolinguistic group from the region of Coorg in Karnataka.
2. They belong to a traditional landless group with hunting as their survival occupation.
3. In India, they have been permitted to carry firearms without a license.
4. Kodava Takke Language has been classified as an Endangered Language by UNESCO.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 1, 2 and 4 only
- c) 1, 3 and 4 only
- d) 2, 3 and 4 only

Ans) c

Exp) Option c is the correct answer.

Recently the researchers have published a book titled “A Place Apart: Poems from Kodagu”. It is a bilingual edition of 21 poems by Appana. This book will help spread awareness about the endangered Kodava takke language.

Statement 1 is correct: Kodavas are an **ethnolinguistic group** from the region of **Kodagu (Coorg) in Karnataka**. They speak the Kodava language.

Statement 2 is incorrect: Kodavas are **traditionally land-owning agriculturists**, with martial customs.

Statement 3 is correct: Kodavas worship **ancestors and weapons**. They are the **ones in India permitted to carry firearms without a license**. As per the exemption, continuing from the British-era rule, the people from the hill district of Kodagu can possess pistols, revolvers and double-barrelled shotguns without a licence.

Statement 4 is correct: Kodava takke belongs to the Dravidian group of languages. This language **doesn't have a script**. But over the years, it has found its way into a written form through Kannada.

The language has been **classified as an Endangered Language by UNESCO** as it is spoken by just 166,187 people according to the 2001 census.

Several factors have contributed to the Kodava language becoming endangered. For instance, with the coming of the Haleri dynasty, Kannada became the language of communication, the language of the court and state. The language took a further back seat when the British introduced Kannada as the medium of education.

Karnataka HC upholds Arms Act exemption for Kodavas: History behind community's right to own guns without a licence (firstpost.com)

Q.1) With reference to chemical fertilizers in India, consider the following statements:

1. At present, the retail price of chemical fertilizers is market-driven and not administered by the Government.
2. Ammonia, which is an input of urea, is produced from natural gas.
3. Sulphur, which is a raw material for phosphoric acid fertilizer, is a by-product of oil refineries.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 and 3 only
- c) 2 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

Statement 1 is incorrect. The retail price of chemical fertilizers is not market-driven as the government subsidizes the fertilizers. Under Nutrient Based Subsidy Scheme (NBS), the fertilizers are provided to the farmers at the subsidized rates based on the nutrients (N, P, K & S) contained in these fertilizers. Also, Urea is outside the Nutrient Based Subsidy scheme and the government fixes the retail price.

Statement 2 is correct. Ammonia, which is an input of urea, is produced from natural gas. In this process, natural gas molecules are reduced to carbon and hydrogen. The hydrogen is then purified and reacted with nitrogen to produce ammonia.

Statement 3 is correct. Sulphur is a by-product of oil refineries. Also, Sulphur is used by the fertiliser industry to manufacture primarily phosphates or phosphoric acid, and also other fertilisers like ammonium sulphate.

Source) UPSC CSE Pre 2020

Q.2) With reference to the Index of Eight Core Industries, consider the following statements:

1. It is released by the Ministry of Finance with the assistance from Central Statistics Office.
2. The refinery products industry currently has the highest weightage in the index.
3. The core industries comprise more than half of the total weight of items in the Index of Industrial Production (IIP).

Which of the statements given above is/are correct?

- a) 1 only
- b) 1 and 3 only
- c) 2 only
- d) 2 and 3 only

Ans) c

Exp) Option c is the correct answer.

Index of Eight Core Industries (ICI) refers to index that measures performances of eight selected core industries which includes **Natural Gas, Coal, Refinery Products, Crude Oil, Cement, Electricity, Steel, and Fertilizers**. These core industries owe to their **strong impact** on the general economic activities and the other industrial activities.

Statement 1 is incorrect: **Index of Eight Core Industries (ICI)** is production volume index that measures the collective and individual production **performances of core industries**. This index is compiled and released by the **Office of the Economic Adviser (OEA)**, Department of Industrial Policy and Promotion (DIPP), Ministry of Commerce and Industry.

Statement 2 is correct: The Index of Eight Core Industries **highest weight** is currently possessed by the **Refinery Products Industry (28.04%)** followed by Electricity Industry (19.85%), Steel Industry (17.92%). The

eight core sector industries in decreasing order of their weightage: Refinery Products> Electricity> Steel> Coal> Crude Oil> Natural Gas> Cement> Fertilizers.

Statement 3 is incorrect: The Eight Core Industries comprise **40.27 percent (less than 50%)** of the weight of items included in the Index of Industrial Production (IIP). Index of Industrial Production is an indicator that **measures the changes in the volume of production** of industrial products during a given period. IIP is published monthly by the **Central Statistical Organization (CSO)**, Ministry of Statistics and Programme Implementation.

Source: Growth of eight core sectors down to 4.5% in July 2022 from 9.9% July 2021 - Investing.com India <https://pib.gov.in/PressReleasePage.aspx?PRID=1786593>

Q.3) Consider the following statements regarding the regulation of competition among businesses in India:

1. Presently, Monopolistic and Restrictive Trade Practices Act (MRTP) prevents the monopoly of any business in Indian markets.
2. The dominance of a firm in India is determined by its size alone.
3. The Competition Commission of India does not have Suo Moto powers to take action against any company.

Which of the statements given above is/are **incorrect**?

- a) 1 only
- b) 2 and 3 only
- c) 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

The **Competition Commission of India (CCI)** recently passed two separate orders against the tech giant Google. The two orders-imposed penalty of INR 1337 crore and INR 937 crore (total INR 2237 crore) on Google for abuse of dominant market position.

Statement 1 is incorrect: Monopolistic and Restrictive Trade Practices Act (MRTP) Act was repealed and replaced by The Competition Act. The Competition Act was passed in 2002, on the recommendations of **Raghavan Committee**. Competition Act of 2002 emerged as an improvement over Monopolistic and Restrictive Trade Practices Act (MRTP) act to shift the focus from controlling monopoly to initiating competition in the economy. MRTP Act was a competition law, that was created in India, in 1970 to prevent concentration of economic power in few hands.

Statement 2 is incorrect: Dominance of a firm was determined by its size according to the MRTP act, which was repelled and replaced by Competition Act, 2002. The dominance of a firm in the market is **determined by its structure** in the case of Competition Act. Section 4 of the Competition Act, 2002 determines the dominant position by whether the enterprise is in such a **position of economic strength that it can operate independently of competitive forces; or can affect the relevant market in its favour.** (A dominant firm is one which account for a significant share of a given market and has a significantly larger market share than its next largest rival).

Statement 3 is incorrect: According to the Competition Act, Competition Commission of India can act on a **complaint filed by an informant** pertaining to an anti-trust activity or **can take action Suo motu**. Through this provision, it acts as a competition regulator, and an antitrust watchdog for smaller organizations that are unable to defend themselves against large corporations.

SFG 2023 | LEVEL 1 | Test #15 – Solutions | 

Q.4) Sometimes seen in news, the “TReDS” is:

- an electronic platform for third-party guarantee-free loans to the Micro and Small enterprises, especially in the absence of collateral.
- an electronic platform for facilitating the financing of trade receivables of Micro, small and Medium Enterprises (MSMEs) through multiple financiers.
- a platform to support traditional artisans to provide sustainable employment.
- a post COVID Resilience and Recovery Programme to revitalize the MSME sector.

Ans) b

Exp) Option b is the correct answer

TReDS(Trade Receivables Discounting System) is an institutional mechanism set up in order to **facilitate the discounting of invoices for MSMEs from corporate buyers through multiple financiers. It involves three participants MSME Supplier, Corporate Buyer and Financier. It is a platform for uploading, accepting, discounting, trading and settling invoices / bills of MSMEs** and facilitating both receivables as well as payables factoring (reverse factoring). It is an electronic platform.

Option a is incorrect. Credit Guarantee Scheme for Micro & Small Enterprises (CGTMSE) – It is a platform for third-party guarantee-free loans to the Micro and Small enterprises (MSEs), especially in the absence of collateral. It provides Credit guarantee for loans up to Rs. 2 crores, without collateral and third-party guarantee.

Option c is incorrect. SFURTI (Scheme of Fund for Regeneration of Traditional Industries) – a platform to support traditional artisans to provide sustainable employment

Option d is incorrect. Emergency Credit Line Guarantee Scheme (ECLGS)– is a post COVID Resilience and Recovery Programme to revitalize the MSME sector.

Source: <https://vikaspedia.in/e-governance/digital-payment/payment-systems-in-india/trade-receivables-discounting-system-treds>

Q.5) Several jute mills in West Bengal have been experiencing closure and suspension of their operations in the recent past. Which among the following is the most appropriate reason behind this?

- Ban on the export of Jute products from India
- Increase in temperature and heat waves due to global warming
- Labour strikes and lock-outs
- High Procurement prices of raw jute

Ans) d

Exp) Option d is the correct answer.

Option d is correct: Several jute mills in West Bengal have announced temporary suspension of their operations this year. This is because **mills are procuring raw jute at prices higher than what they are selling them at after processing.** Mills do not acquire their raw material directly from the farmers. There are two reasons for the same:

- First, because the **farmers are far-off from the mills locations** and the procurement process is cumbersome. Mills would have to go to multiple farmers to acquire the requisite quantity as no single farmer produces enough to fulfil the requirements of the entire mill. The procurement now flows through middlemen or traders. As a standard practice, the middlemen charge mills for their services, which involves procuring jute from farmers, grading, bailing and then bringing the bales to the mills.
- The government has a **fixed Minimum Support Price (MSP) for raw jute procurement** from farmers which is **₹4,750 per quintal** for the 2022-23 season. However, **jute reaches mill at ₹7,200 per quintal**

that is, ₹700 more than the ₹6,500 per quintal cap for the final product. This is why the procuring price is higher than the selling price.

The situation was made particularly worrisome by the **occurrence of Cyclone Amphan** in May 2020 and the subsequent rains in major jute producing States. These events led to lower acreage, which in turn led to lower production and yield compared to previous years.

Source: [https://www.thehindu.com/specials/text-and-context/the-recent-woes-of-the-jute-industry-in-west-](https://www.thehindu.com/specials/text-and-context/the-recent-woes-of-the-jute-industry-in-west-bengal/article65373299.ece#:~:text=What%20made%20the%20situation%20particularly,yield%20compared%20to%20previous%20years.)

Q.6) What do you understand by the term “grandfathering” clause in economics?

- It is the process of consolidating all swap agreements between two entities into one single agreement.
- It refers to the practice of providing credit to entities that do not have the capability to repay.
- It is agreement in which two parties exchange the principal amount of a loan and the interest in one currency for the principal and interest in another currency.
- It is a special provision by which any entity can be exempted from a new law, rule or regulation.

Ans) d

Exp) Option d is the correct answer.

Option a is incorrect. Bilateral netting is the process of **consolidating all swap agreements between two parties into one single**, or master, agreement.

Option b is incorrect. Zombie lending refers to the practice of providing credit to entities that do not have the capability to repay. One way of ever-greening loans is lending a new loan to a borrower on the verge of default, near the repayment date of an existing loan, to facilitate its repayment. Zombies are typically identified using the interest-coverage ratio, the ratio of a firm’s profit after tax to its total interest expense. Firms with an interest-coverage ratio lower than one are unable to meet their interest obligations from their income.

Option c is incorrect. A currency swap is **an agreement in which two parties exchange the principal amount of a loan and the interest in one currency for the principal and interest in another currency.** At the inception of the swap, the equivalent principal amounts are exchanged at the spot rate.

Option d is correct. The ‘Grandfathering’ clause is a special provision by which any entity can be exempted from a new law, rule or regulation. This means the regulations would continue to apply in certain cases in the future. Usually, grandfathering is extended only to a limited number of people.

Such a provision is generally made in a bid to allow new regulations to be enforced without creating a chaos in the existing system. For example, if the capital gains accrued prior to January 31 on mutual funds/ equity will be grandfathered this means that all the gains on mutual funds/ equity until January 31 will be exempt from taxation. Only the gains made after that date will be taxed. Grandfathering is to exempt someone or something from a new law or regulation.

Q.7) Which one of the following statements most appropriately describes the term ‘Shadow Entrepreneurs’?

- They are optimistic individuals with the ability to pick out financial opportunities and exiting when a business hits its peak.
- They are rare individuals that come up with a great idea or product that no one has thought of before.
- They are individuals who manage a business that sells legitimate goods and services but they do not register their businesses.
- They are individuals with a strong skillset in a specific area obtained through education or apprenticeship.

Ans) c

Exp) Option c is the correct answer.

Shadow entrepreneurs are individuals who manage a business that sells legitimate goods and services but they do not register their businesses. This means that they do not pay tax, operating in a shadow economy where business activities are performed outside the reach of government authorities. Types of businesses include **unlicensed taxicab services, roadside food stalls and small landscaping operations**. Researcher at Imperial College Business School found that, India has **second highest number of shadow entrepreneurs in the world** after Indonesia.

Causes for Rise in Shadow entrepreneurs:

- Taxation & Enforcement:** High tax rates accompanied by loose enforcement induces tax avoidance, discourage investment in formal businesses, and drive entrepreneurial activity toward the informal sector.
- Impact of Covid-19:** Shadow entrepreneurs, offering technology-mediated services, bring complementary services that traditional service providers may be constrained to offer or consumers might not be able to access due to lockdown constraints.
- Technological Advancements:** Shadow entrepreneurship is also promoted through technology-enabled new markets and also entry of new and tech savvy con

Shadow entrepreneur: India has second-highest number of shadow entrepreneurs in the world - Times of India (indiatimes.com)

Q.8) With reference to ‘Revamped Distribution Sector Scheme’, consider the following statements:

- It aims to improve the operational efficiencies and financial sustainability of power distribution companies in India.
- All Private and State-owned Power Distribution companies are eligible for financial assistance under the scheme.
- Power Grid Corporation of India is the nodal agency for the implementation of the scheme.

Which of the statements given above is/are correct?

- 1 and 2
- 3 only
- 1 only
- 1 and 3

Ans) c

Exp) Option c is the correct answer.

Prime Minister has recently launched the Revamped Distribution Sector Scheme and National Solar rooftop portal. He also laid the foundation stone of various green energy projects of NTPC.

Statement 1 is correct: The Revamped Distribution Sector Scheme aims to improve the

operational efficiencies and financial sustainability of DISCOMs/ Power Departments excluding Private Sector DISCOMs by providing conditional financial assistance for strengthening of supply infrastructure.

National portal for Rooftop solar will enable **online tracking of the process of installation of rooftop solar plants**, starting from registering the applications to release of subsidy in residential consumers ('beneficiaries') bank account after installation and inspection of the plant.

Statement 2 is incorrect: All **State-owned Distribution companies** and State /UT Power Departments (referred to as DISCOMs collectively) **excluding private Sector power companies** will be **eligible for financial assistance** under the revamped scheme. The scheme would be optional to DISCOMs and will be implemented in urban and rural areas of all States/UTs except private DISCOMs. The Scheme would be available till the year 2025-26.

Statement 3 is incorrect: **Power Finance Corporation (PFC) and Rural Electrification Corporation (REC)** have been nominated as the nodal agencies for the implementation of the scheme.

Knowledge Base: The Objectives of the Revamped Distribution Sector Scheme:

- Reduction of AT&C losses to pan-India levels of 12-15% by 2024-25.
- Reduction of ACS-ARR gap to zero by 2024-25.
- Developing Institutional Capabilities for Modern DISCOMs
- Improvement in the quality, reliability, and affordability of power supply to consumers through a financially sustainable and operationally efficient Distribution Sector.

Q.9) With reference to 'Ethanol Blending in India', consider the following statements:

- The Ethanol Blended Petrol programme in India was launched immediately after the Global Oil Crisis of 1970s.
- Recently, the Government advanced the target of 20 per cent ethanol blending in petrol to 2025 from 2030.
- At present, the ethanol targeted for petrol blending is under exempted category in Goods and Services tax (GST) regime in India.

Which of the statements given above is/are correct?

- 2 only
- 2 and 3 only
- 1 and 3 only
- 1, 2 and 3

Ans) a

Exp) Option a is the correct answer.

Ethanol can be produced from crops like sugarcane, maize, wheat, etc. which have high starch content. In India, **ethanol is mainly produced from sugarcane molasses** by fermentation process

Since ethanol is produced from plants that harness the power of the sun, ethanol is also considered as renewable fuel.

Statement 1 is incorrect: Government of India had **launched the Ethanol Blended Petrol (EBP) Programme in January, 2003 (not in 1973)** for sale of 5 percent ethanol blended petrol in nine States and four UTs.

Statement 2 is correct: The central government has also released an expert committee report on the Roadmap for Ethanol Blending in India by 2025. The roadmap proposes a gradual rollout of ethanol-blended fuel to achieve E10 fuel supply by April 2022 and phased rollout of E20 from April 2023 to April 2025. The

government of India has **advanced the target for 20 per cent ethanol blending in petrol (also called E20) to 2025 from 2030**. E20 will be rolled out from April 2023.

Statement 3 is incorrect: The GST on ethanol meant for blending under the Ethanol Blended Petrol is set at 5%. In 2018, the Government has **lowered Goods and Services Tax rate to 5% from 18%** on ethanol meant for blending. **It is not exempted under GST regime in India.**

Source: <https://blog.forumias.com/understanding-ethanol-blending/>

https://www.niti.gov.in/sites/default/files/2021-06/EthanolBlendingInIndia_compressed.pdf

Q.10) With reference to the territories in the news recently and the countries to which they belong, consider the following pairs:

Territories in News	Countries
1. Transnistria	Ethiopia
2. Nagorno-Karabakh	Azerbaijan
3. Falkland Islands	United States of America

Which of the pairs given above is/are correct?

- a) 1 and 2 only
- b) 2 only
- c) 3 only
- d) 2 and 3 only

Ans) b

Exp) Option b is the correct answer.

Pair 1 is incorrect: Transnistria – officially called the Pridnestrovian Moldavian Republic – is a narrow strip of land between **Moldova and western Ukraine**. It is an **unrecognized break-away state** that left Moldova after the collapse of the Soviet Union in 1990. It has de-facto independence, but it is **not recognized so by the UN**. Transnistria retains its independence largely due the military support provided by the Russian army stationed in the Transnistrian territory. It is internationally recognised as part of Moldova

THE HINDU

Tensions in Transnistria

The small region wedged between Moldova to its west and Ukraine to its east risks being dragged into the ongoing conflict

TRANSNISTRIA FACTFILE

- Split from Moldova in 1991-92 war, amid collapse of the Soviet Union. Becomes a self-declared independent state not recognised internationally
- Referendum in 2006 saw 97.2% vote in favour of joining Russia
- Its a separatist region that permanently hosts estimated 1,500 Russian "peacekeeping" troops
- Population: **4,70,000**
- Area: **4,000 sq km**

RECENT DEVELOPMENTS

Apr 25-27, 2022: Transnistria officials claim series of incidents:

- Explosions hit state security HQ in Tiraspol. Separatist authorities blame Ukrainian "infiltrators"
- Blasts at Mayak radio centre damage Soviet-era masts used to broadcast Russian news
- Attack on military unit in village of Parcani, just outside Tiraspol
- Shots fired from Ukraine towards Kolbasna village, location of large Russian arms depot

Russia could use flare-up of tensions as pretext for invasion. If Russia reinforces Transnistria, it might then move on to Ukraine's key port city of Odesa

Pair 2 is correct: Nagorno-Karabakh is a **landlocked, mountainous and forested region** within the boundaries of Azerbaijan. It is a disputed territory **internationally recognized as part of Azerbaijan** but mostly governed by the Republic of Artsakh, de facto independent state with an Armenian ethnic majority backed by neighbouring Armenia. It is located in the **South Caucasus region**, which straddles the border between Eastern Europe and Western Asia and spans the southern part of the Caucasus mountains. It is roughly made up of modern-day Armenia, Azerbaijan, and Georgia. The capital of Nagorno-Karabakh is Stepanakert.

Pair 3 is incorrect: Falkland Islands is an **archipelago in the South Atlantic Ocean**. The Islands have internal self-governance, and the **UK takes responsibility for their defence and foreign affairs**. The Government

of Argentina has recently launched a campaign demanding negotiation with the UK to settle the territorial dispute over the Falkland Islands. The dispute has been continuing since the early 19th century. Both countries fought a war in 1982 over the dispute. The result was UK's victory. At present, Falkland Island continues to operate as a self-governing British Overseas Territory.

Q.11) Which one of the following situations best reflects "Indirect Transfers" often talked about in media recently with reference to India?

- An Indian company investing in a foreign enterprise and paying taxes to the foreign country on the profits arising out of its investment.
- A foreign company investing in India and paying taxes to the country of its base on the profits arising out of its investment.
- An Indian company purchases tangible assets in a foreign country and sells such assets after their value increases and transfers the proceeds to India.
- A foreign company transfers shares and such shares derive their substantial value from assets located in India.

Ans) d

Exp) Option d is the correct answer.

Indirect transfers refer to situations where when foreign entities own shares or assets in India, the shares of such foreign entities are transferred instead of a direct transfer of the underlying assets in India. The amendments made in the Income Tax Act in 2012 clarified that if a company is registered or incorporated outside India, its shares will be deemed to be or have always been situated in India if they derive their value substantially from the assets located in India. As a result, the persons who sold such shares of foreign companies before the enactment of the Act (i.e., May 28, 2012) also became liable to pay tax on the income earned from such sale.

Q.12) Which of the following is **not** a challenge faced by the Food Processing Sector in India?

- Poor availability of primary processing, storage and distribution facilities
- Many Food Processing Industries are in the unorganized sector.
- Only 49% FDI is permitted in the food-processing sector, leading to fund shortages.
- Inadequate focus on quality and safety standards

Ans) c

Exp) Option c is the correct answer.

The Food Processing Industry (FPI) has been touted as a sunrise sector of Indian economy. The food processing sector has been growing at an Average Annual Growth Rate of around 8.41 % between 2014-18. The sector constitutes 8.83 % and 10.66 % of gross value added in manufacturing and agriculture sector respectively.

However, there are still many challenges to the realisation of its full potential. Currently it accounts for less than 10% of the total food in India.

Statements a and d are correct: The Ministry of Food Processing Industries has identified six key challenges faced by the food processing industry:

- 1) gaps in supply chain infrastructure (i.e., **lack of primary processing, storage and distribution facilities**);
- 2) inadequate link between production and processing;
- 3) seasonality of operations and low capacity utilisations;
- 4) institutional gaps in supply chain, viz., dependence on APMC markets, etc.;
- 5) **inadequate focus on quality and safety standards**; and
- 6) lack of product development and innovation

Statement b is correct: The **Food Processing Industry** in India is **highly fragmented** and **dominated** by the **unorganised sector**. These small players **do not have many funds** at their disposal. Hence they are **unable to invest in machinery** that can add much value beyond Primary processing. This prevents them from creating products that are in demand by the modern consumer, while making the operation **cheaper** due to the **huge quantity of order**. According to ASI date, 39,748 food processing enterprises are in the organised sector in 2016-17 while the number of unincorporated enterprises as per NSSO data stood at 24,59,929 in 2015-16.

Statement c is incorrect: The Food Processing sector was **opened** to a **100% FDI under Automatic Route** in **2016**. Further, in 2017, 100 per cent FDI under the Government route for retail trading, including through e-commerce, is permitted in respect of food products manufactured and/or produced in India.

Q.13) Consider the following statements:

1. Demutualisation is a process through which the debt of a company is transformed into equity shares.
2. Corporatization is transferring control of a government-owned entity to a private entity.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) d

Exp) Option d is the correct answer.

Statement 1 is incorrect: Demutualization is a process by which a private, member-owned company, such as a co-operative, or a mutual life insurance company, **legally changes its structure, in order to become a public-traded company owned by shareholders**. Demutualisation allows such associations to conduct

commercial business to make a profit just like a normal corporate entity. Demutualisation would also allow the exchange to put in place a board of directors, to look after day-to-day operations.

Statement 2 is incorrect: Corporatization occurs when the government reorganizes the structure of a government-owned entity into one that resembles a private entity (not transferring control to private entity). Corporatized companies tend to have a board of directors, management, and shareholders. But the government is the only shareholder, and the shares in the company are not publicly traded.

The goal of the government is to **retain ownership** while allowing the entity to operate efficiently and competitively.

Disinvestment is the action of an organization or government selling or liquidating an asset or subsidiary.

Source: <https://economictimes.indiatimes.com/what-does-demutualisation-mean/articleshow/1302065.cms>

Q.14) With reference to 'National Investment Fund (NIF)', consider the following statements:

1. The fund is created by the Department of Investment and Public asset management (DIPAM).
2. The capital in the fund is to be mobilised through bonds issued by the Reserve Bank of India.
3. NIF is permanent in nature and is maintained outside the Consolidated fund of India.
4. The funds from NIF can be used for recapitalization of public sector banks in India.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 2, 3 and 4 only
- c) 1, 3 and 4 only
- d) 1 and 3 only

Ans) c

Exp) Option c is the correct answer.

The Government of India constituted the **National Investment Fund (NIF)** on 3rd November, 2005, into which the **proceeds from disinvestment of Central Public Sector Enterprises** were to be channelized.

Statement 1 is correct: National Investment Fund is created by **Department of Investment and public asset management (DIPAM), Ministry of Finance**. In 2016, The Department of Disinvestment was renamed as Department of Investment and Public Asset Management (DIPAM) under Ministry of Finance. It deals with all matters relating to the sale of Central Government equity through offer for sale or private placement or any other mode in the erstwhile Central Public Sector Undertakings.

Statement 2 is incorrect: National Investment Fund is **not mobilized through Public Investment bond**, but it is mobilized from the **proceeds from Disinvestment** which include Central Government equity through offer for **sale or private placement**. As the Fund will be professionally managed, to provide sustainable returns without depleting the corpus, by UTI Asset Management Company Ltd.; SBI Funds Management Company Pvt. Ltd etc.

Statement 3 is correct: The corpus of the National Investment Fund will be of a **permanent nature**. And the disinvestment proceeds will be **credited to the existing 'Public Account' (Out of the Consolidation fund of India) under the head of National Investment Fund**. 75 per cent of the annual income of the Fund will be used to finance selected social sector schemes, which promote education, health and employment. The residual 25 per cent of the annual income of the Fund will be used to meet the capital investment.

Statement 4 is correct: The **funds from National Investment Fund (NIF) can be used for recapitalization of public sector banks and public sector insurance companies** so as to strengthen them.

Source: <https://dipam.gov.in/national-investment-fund> Ramesh Singh

Q.15) With reference to the governance of the National Capital Territory of Delhi, consider the following statements:

1. All executive actions by the government of Delhi shall be taken in the name of the President.
2. Lieutenant Governor can reserve certain bills passed by the Legislative Assembly for the consideration of the President.
3. The legislative assembly can make rules to consider the matters of day-to-day administration of the NCT of Delhi.

Which of the statements given above is/are correct?

- a) 2 only
- b) 2 and 3 only
- c) 1 and 2 only
- d) 1 and 3 only

Ans) a

Exp) Option a is the correct answer.

Delhi is a Union Territory under Schedule 1 of the Constitution. It has the absence of statehood. However, it has been declared as the “National Capital Territory” which is governed under Article 239AA.

Statement 1 is incorrect: The Government of National Capital Territory of Delhi Act, 1991 specifies that all executive action by the government, whether taken on the advice of the Ministers or otherwise, **must be taken in the name of the Lieutenant Governor**. The 2021 Amendment Act adds that on certain matters, as specified by the LG, his opinion must be obtained before taking any executive action on the decisions of the Minister/ Council of Ministers.

Statement 2 is correct: The LG can reserve certain Bills passed by the Legislative Assembly for the consideration of the President. These Bills are those: (i) which may diminish the powers of the High Court of Delhi, (ii) which the President may direct to be reserved, (iii) dealing with the salaries and allowances of the Speaker, Deputy Speaker, and members of the Assembly and the Ministers, or (iv) relating to official languages of the Assembly or the NCT of Delhi. The LG can also reserve those Bills for the President which incidentally cover any of the matters outside the purview of the powers of the Legislative Assembly.

Statement 3 is incorrect. The NCT of Delhi (Amendment) Act, 2021 **prohibits the Legislative Assembly** from making any rule to enable itself or its committees to:

- 1) consider the matters of day-to-day administration of the NCT of Delhi and
- 2) conduct any inquiry in relation to administrative decisions

Further, the Act provides that all such rules made before its enactment will be void.

Q.16) Which of the following institutions publishes The Global Competitiveness Report?

- a) International Monetary Fund
- b) United Nations Conference on Trade and Development
- c) World Economic Forum
- d) World Bank

Ans) c

Exp) Option c is the correct answer.

The Global Competitiveness Report is published by the World Economic Forum (WEF). The Global Competitiveness Rankings have been paused in the **wake of the COVID-19 pandemic** and challenges brought by it to the countries. **The most recent global competitiveness ranking was released in 2019 in which India was ranked 58th**

The report has **twelve pillars of competitiveness**. These are:

- (a) Institutions
- (b) Appropriate infrastructure
- (c) Stable macroeconomic framework
- (d) The good health and primary education
- (e) Higher education and training
- (f) Efficient goods markets
- (g) Efficient labour markets
- (h) Developed financial markets
- (i) Ability to harness existing technology
- (j) Market size—both domestic and international
- (k) Production of new and different goods using the most sophisticated production processes
- (l) Innovation

Knowledge Base: Aspirants should not confuse the Global Competitiveness Index released by WEF with the **World Competitiveness Index released by the Swiss based Institute for Management Development (IMD)**.

Source: <https://www.thehindu.com/business/india-ranks-68th-on-global-competitiveness-index-singapore-on-top/article29623469.ece>

Q.17) With reference to the space sector in India, consider the following statements:

1. The New Space India Limited (NSIL) has been created as a public sector company to commercialise the space assets of ISRO.
2. The newly created IN-SPACE is an agency created to promote private sector participation in the space sector.
3. Indian Space Association chaired by Prime Minister is created to fast-track the approval of space related activities in India.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 3 only
- d) 1, 2 and 3

Ans) a

Exp) Option a is the correct answer.

The global space economy is currently valued at about USD 360 billion. Despite being among a few spacefaring nations in the world, **India accounts for only about 2% of the space economy.** **Promoting the private sector** will enable the Indian space program to remain **cost competitive** within the global space market.

Statement 1 is correct: In order to commercially exploit the products and services emanating from the Indian Space Programme, the New Space India Limited (NSIL) has been incorporated in March 2019. It is a wholly-owned Government of India company under the administrative control of Department of Space (DoS). It is the commercial arm of Indian Space Research Organisation.

Statement 2 is correct: IN-SPACE is an autonomous agency in the Department of Space (DOS). To facilitate private sector participation, the government has created the **Indian National Space Promotion**

and Authorisation Centre (IN-SPACe), as a single-window, independent, nodal agency. IN-SPACe is responsible to promote, enable, authorise and supervise various space activities of the privates' sectors including the building of launch vehicles & satellites and providing space-based services; sharing of space infrastructure and premises under the control of DOS/ISRO; and establishment of new space infrastructure and facilities.

Statement 3 is incorrect: Indian Space Association (ISpA) is only an advisory body and it is not headed by the Prime Minister. ISpA is an apex, non-profit industry body exclusively working towards the successful exploration, collaboration, and development of the private and public Space Industry in India. It engages with all Stakeholders and act as a catalyst for accelerating the exchange of knowledge, information and technology of space-related domains amongst all stakeholders to make India self-reliant in space technology.

Q.18) With reference to the recent trends related to Service Sector of Indian economy, consider the following statements:

1. The service sector's contribution to India's total Gross Value Addition has been steadily increasing in the last 5 years.
2. The share of female labour force in health sector is higher than the share of male labour force.
3. India's software export was the largest contributor to its total service sector exports in the last fiscal.

Which of the statements given above is/are correct?

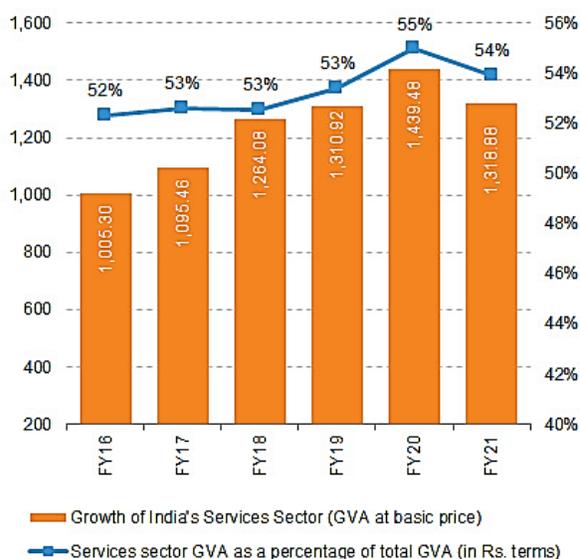

- a) 1 and 2 only
- b) 2 and 3 only
- c) 3 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

Statement 1 is incorrect: Services sector contributes over 50 per cent to India's GDP. While Covid-19 pandemic has had an adverse impact on most sectors of the economy, the services sector has been the worst affected as its' share in India's GVA declined from 55 per cent in 2019-20 to 54 per cent in 2021-22.

Services sector GVA at basic prices at current prices
(in US\$ billion)

Statement 2 is correct: Among the employed, the share of females is higher than that of their male counterparts in the health sector with 52%. The share of female employees was also substantial in the sectors of Education (44.6%), IT/BPOs (37.6%), and Financial Services (31.1%).

Statement 3 is correct: India's software exports, with a share of more than 40 per cent in total services exports is the largest contributor to the service sector exports in 2021-22. It remained relatively resilient during Covid-19 period with higher demand for digital support, cloud services and infrastructure modernisation catering to the new pandemic challenges.

Commodity Group	Share (per cent)	
	2010-11	2020-21
Total Services Exports	100	100
Travel	12.7	4.1
Transportation	11.4	10.6
Insurance	1.6	1.2
GNIE*	0.4	0.3
Software Services	42.6	48.5
Business Services	19.3	23.9
Financial Services	5.2	2.1
Communication	1.3	1.4

Q.19) With reference to the Start-ups in India, consider the following statements

1. Among the Indian states, Karnataka has the highest number of recognised start-ups.
2. Unicorn is a term given to Start-up company whose annual profit is more than \$1 billion.
3. Under the Start-up India initiative, there is no direct fund allocation from Union government to states governments.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 3 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

Start-ups in India have grown remarkably over the last six years, most of these belong to the services sector. As of 2022 there were more than **61,400 start-ups** that have been recognised in India

Statement 1 is incorrect: With a total of **11,308 start-ups Maharashtra has the highest number of recognised start-ups in India** while **Karnataka has total of 8,881**. Recently, **Delhi has replaced Bangalore as the start-up capital of India**. Over 5,000 recognised start-ups were added in Delhi while 4,514 start-ups were added in Bangalore between 2019 to 2021.

Statement 2 is incorrect; Unicorn is a term used in the venture capital industry to describe a privately held start-up company with a market valuation of over \$1 billion.

Statement 3 is correct: There is no direct fund allocation from DPIIT to States/UTs under Start-up India initiative. However, Government of India has established a Fund of Funds for Start-ups (FFS) with corpus of **Rs. 10,000 crores**, to meet the funding needs of start-ups. **DPIIT is the monitoring agency** and Small Industries Development Bank of India (**SIDBI**) **is the operating agency for FFS. The flow of funds is Government > SIDBI > Venture Capitals > Start-ups.**

Q.20) With reference to the 'Air-Independent Propulsion' technology, consider the following statements:

1. It allows a conventional submarine to remain submerged for much longer than ordinary diesel-electric submarines.
2. It allows a non-nuclear submarine to operate without access to atmospheric oxygen.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) c

Exp) Option c is the correct answer.

Statement 1 is correct: AIP (Air-Independent Propulsion) technology allows a **conventional submarine to remain submerged for much longer than ordinary diesel-electric submarines**. All conventional submarines have to surface to run their generators that recharge the batteries that allow the boat to function underwater. However, the more frequently a submarine surfaces, the higher the chances of it being detected. AIP allows a submarine to remain submerged for more than a fortnight compared to two to three days for diesel-electric boats.

Statement 2 is correct: Air-independent propulsion (AIP), or air-independent power, is marine propulsion technology that **allows a non-nuclear submarine to operate without access to atmospheric oxygen** (by

surfacing or using a snorkel). AIP can augment or replace the diesel-electric propulsion system of non-nuclear vessels.

<https://newsonair.com/2022/01/27/all-about-dr-dos-massive-air-independent-propulsion-system-tableau/>

Q.21) Which of the following activities constitute real sector in the economy?

1. Farmers harvesting their crops
2. Textile mills converting raw cotton into fabrics
3. A commercial bank lending money to a trading company
4. A corporate body issuing Rupee Denominated Bonds overseas

Select the correct answer using the code given below:

- a) 1 and 2 only
- b) 2, 3 and 4 only
- c) 1, 3 and 4 only
- d) 1, 2, 3 and 4

Ans) a

Exp) Option a is the correct answer.

There are three sectors of any domestic economy:

- 1) General government sector
- 2) Real sector
- 3) Financial sector

Options 1 and 2 are correct: The real sector of the economy consists of enterprises (non-financial corporations), households and non-profit institutions serving households. **Non-financial organizations comprise all resident units involved in production of market goods and non-financial services. Market goods and services are those goods and services that are sold at market prices (economically significant prices).**

Options 3 and 4 are incorrect: The financial sector consists of corporations principally engaged in financial intermediation or in auxiliary financial activities that contribute to financial intermediation.

Source) UPSC CSE Pre 2022

Q.22) With reference to the Patents Act 1970 in India, consider the following statements

1. The discovery of any new property or new use for a known substance is eligible for Patent under the Act.
2. The Act ensures that government can never allow a third party to produce a patented product or process without the consent of the patent owner.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) d

Exp) Option d is the correct answer.

A patent is an exclusive set of rights granted for an invention that provides a new way of doing something or offers a new technical solution to a problem. It is of two types: product patent and process patent. Indian patents are governed by the Indian Patent Act of 1970. **Under the act, patents are granted if the invention fulfils the following criteria:**

It should be novel

It should have inventive step/s or it must be non-obvious

It should be capable of Industrial application

Statement 1 is incorrect: Section 3 of Indian Patents Act 1970 deals with **what does not qualify as an invention under the Act.**

Section 3(d) in particular excludes “the mere discovery of a new form of a known substance which does not result in the enhancement of the known efficacy of that substance.

or the mere discovery of any new property or new use for a known substance (**Hence statement 1 is incorrect**)

or of the mere use of a known process, machine or apparatus unless such known process results in a new product

or employs at least one new reactant” from being eligible for protection under patent law.

Section 3(d) prevents what is known as “evergreening” of patents.

It is a corporate, legal, business, and technological strategy for extending/elongating the term of a granted patent in a jurisdiction that is about to expire, in order to retain royalties from them, by taking out new patents.

Statement 2 is incorrect: There is a provision for compulsory licensing in the Patents act 1970. It is an authorization granted by the Government to someone else i.e., a third party to produce a patented product without the consent of the patent owner. Thus, the patent owner cannot take undue advantage of exclusive rights granted by patent. Hence, compulsory licencing tries to eliminate misuse of patent rights by a patent holder in view of public health or anti-competitive practices which would result in restricting trade or hindering technology transfer. (**Hence statement 2 is incorrect.**)

Source: <https://www.thehindu.com/news/national/explained-the-indian-patent-regime-and-its-clash-with-the-us-norms/article65464988.ece>

<https://sagaciousresearch.com/blog/secondary-patenting-or-evergreening-india/>

Q.23) With reference to the Information Technology–Business Process Management (IT–BPM) sector, consider the following statements

1. The software & engineering services constitute the majority share of the IT–BPM sector.
2. It is the largest employer within the organised private sector.
3. More than half of India’s IT–BPM sector’s export earning comes from the United States of America.

Which of the statements given above is/are correct

- a) 1 only
- b) 2 only
- c) 2 and 3 only
- d) 1, 2 and 3

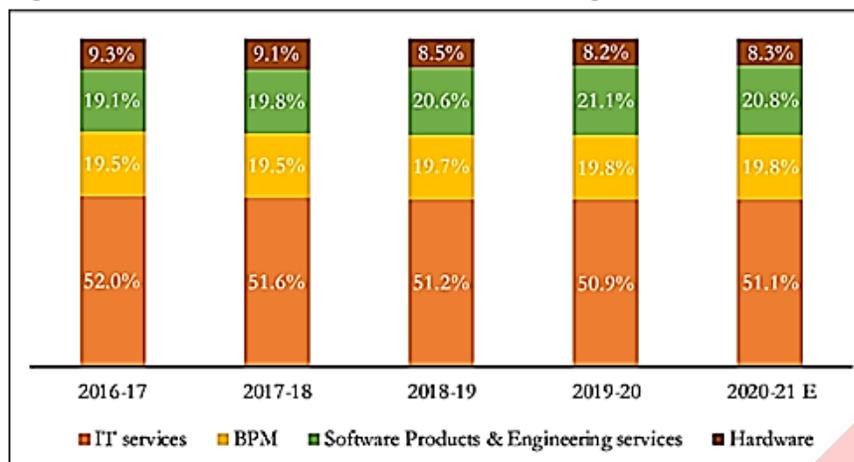

Ans) c

Exp) Option c is the correct answer.

The Information Technology–Business Process Management (IT–BPM) sector is a major segment of India’s services. During 2020–21, according to NASSCOM’s provisional estimates, IT–BPM revenues (excluding e–commerce) reached US\$ 194 billion, growing by 2.26 per cent YoY, adding 1.38 lakh employees

Statement 1 is incorrect Within the IT–BPM sector, **IT services constitute the majority share (> 51 per cent).** Its share has been consistent over the last many years. The share of **Software & Engineering services** in the IT–BPM sector, which was consistently growing each year, saw a slight decline to **20.78 per cent in 2020–21.** **BPM services** share remained same at **19.8 per cent**, while that of **Hardware services** slightly improved to **8.3 per cent.** In 2020–21,

Figure 5: Sub-sectors share in IT-BPM Revenue (excluding hardware & e-commerce)

Source: NASSCOM. Note: E: Estimate.

Statement 2 is correct: The IT-BPM industry in India constitutes **8% of India's GDP**. The industry is the **largest employer within the organised private sector**, employing almost 4.14 million people currently.

Statement 3 is correct: **The United States remained the biggest source of exports** revenues amounting **US\$ 92.1 billion** in 2020-21. This accounts for about **62 per cent of total IT-BPM exports**. This is followed by the **UK**, which is the **second** largest export market for IT-BPM services with a share of around **17 per cent**. The revenue from exports to the UK amounted to US\$ 25.2 billion in 2020-21. **Europe (excluding UK) and Asia-Pacific** account for **11.5 per cent and 7.7 per cent** respectively of the export earnings of India.

Q.24) With reference to the Transfer Price and Safe Harbour rules under Income Tax Act, consider the following statements

1. Transfer price is a price which represents the value of goods or services exchanged between independently operating units of the same organisation.
2. Safe Harbor is a circumstance under which the income tax authorities shall accept the transfer pricing declared by the tax assessee.

Which of the statements given above is/are correct

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) c

Exp) Option c is the correct answer.

Transfer pricing refers to the rules and methods for pricing **transactions** within and between enterprises under **common ownership or control**. **Multinational companies can manipulate** transfer prices in order to shift profits to low tax regions. To **remedy this**, regulations enforce an **arm's length transaction rule** which means **transactions between two or more unrelated and unaffiliated parties agree to do business, acting independently**.

Statement 1 is correct: **Transfer price is a price which represents the value of goods or services between independently operating units of an organisation**. But, the expression "transfer pricing" generally refers to prices of transactions between associated enterprises which may take place under conditions differing

from those taking place between independent enterprises. It refers to the value attached to transfers of goods, services and technology between related entities. It also refers to the value attached to transfers between unrelated parties which are controlled by a **common entity**.

Statement 2 is correct: Safe Harbor is a circumstance under which the income tax authorities shall accept the transfer pricing declared by the tax assessee. Which means that where an eligible assessee has entered into an eligible transaction then the transfer price declared by the assessee in respect of such transaction shall be accepted by the income-tax authorities. The condition is that this transfer pricing should be in accordance with the circumstances as specified under the rules of Income tax Act.

Q.25) Consider the following statements with respect to the India-Nordic summit:

1. India is the only country besides United States to engage with Nordic countries on summit level.
2. The first ever India-Nordic summit was recently held in 2022.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) a

Exp) Option a is the correct answer.

Statement 1 is correct: India is the **only other country** besides the United States that the Nordic countries engage with on a summit level. Nordic countries are important for India as they collectively represent an economy of more than \$1.6 trillion. All these countries figure among the top achievers in several areas of human endeavour, particularly innovation, clean energy, green technologies, and education. **Total bilateral trade** in goods and services between India and the Nordic countries **is \$13 billion**.

Statement 2 is incorrect: India-Nordic summit is a summit between India and Nordic Countries namely **Denmark, Iceland, Finland, Sweden and Norway**. The **first India-Nordic summit** was held in Stockholm, Sweden **in 2018**. The second India-Nordic summit was held in 2022 at Christiansborg Palace in Copenhagen, Denmark. It primarily focused on post-pandemic economic recovery, climate change, renewable energy, and the evolving global security scenario.

Source: <https://blog.forumias.com/joint-statement-2nd-india-nordic-summit/>

Q.26) With reference to the Reinsurance Companies in India, consider the following statements:

1. Reinsurance companies have been kept out of regulatory jurisdiction of the Insurance Regulatory and Development Authority of India.
2. The foreign reinsurance companies are prohibited from operating in India.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) d

Exp) Option d is the correct answer.

The term **reinsurer** refers to a company that provides **financial protection to insurance companies**. Reinsurers handle **risks** that are too large for insurance companies to handle on their own and make it possible for insurance companies to obtain more business.

Statement 1 is incorrect The **Insurance Regulatory and Development Authority (IRDA)** of India is a regulatory body entrusted with a task to **regulate, promote** and ensure orderly growth of the **insurance and reinsurance industries in India**.

Statement 2 is incorrect: **Swiss Reinsurance Company Ltd, India Branch, Lloyd's India Reinsurance Branch** are some of the **foreign reinsurance branches operating in India**. Recently the Insurance Regulator Development Authority (IRDA) has **allowed foreign reinsurance branches**, including **Lloyd's India**, to **repatriate up to 20% of the excess assigned capital** to attract more players and allow free movement of capital.

Source: <https://new.irdai.gov.in/frbs>

<https://www.livemint.com/insurance/news/foreign-reinsurers-can-repatriate-up-to-20-of-assigned-capital-irdai-11666794235825.html>

Q.27) With reference to the Indian economy, consider the following statements:

1. Insurance penetration is measured as the ratio of insurance premium to the population of the country.
2. Insurance density is calculated as the ratio of insurance premium to the GDP of the country.
3. India performs better in terms of life insurance penetration than the non-life insurance penetration.

Which of the statements given above is/are correct?

- a) 1 and 3 only
- b) 1 and 2 only
- c) 3 only
- d) 2 and 3 only

Ans) c

Exp) Option c is the correct answer.

Statement 1 is incorrect: Internationally, the potential and performance of the insurance sector are generally assessed based on two parameters, viz., insurance penetration and insurance density. **Insurance penetration is measured as the percentage of insurance premium to GDP** of the country.

Statement 2 is incorrect: **Insurance density** is calculated as the **ratio of insurance premium to population**.

Statement 3 is correct: In India, insurance penetration was 2.71 per cent in 2001 and has increased to **4.2 per cent in 2020**. As of 2020, the penetration for **life insurance** in India is **3.2 percent** and **nonlife insurance** penetration are **1 percent**.

Source: Economic survey (pg no 144-146)

Q.28) Consider the following statements regarding 'Limited Liability Partnership' (LLP):

1. In LLP, the partners are not responsible or liable for another partner's misconduct or negligence.
2. In India they are governed under the provisions of the Companies Act, 2013.
3. They can issue an Initial Public Offering only after the prior approval of SEBI.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 and 3 only
- c) 3 only
- d) 1 and 3 only

Ans) a

Exp) Option a is the correct answer.

Statement 1 is correct: Limited Liability Partnership (LLP) is an **alternative corporate business** form in which some or all partners (depending on the jurisdiction) have limited liabilities. Under this, partners are **not responsible or liable for another partner's misconduct or negligence**. This is an important difference from the traditional unlimited partnership in which each partner has joint liability.

Statement 2 is incorrect: All limited liability partnership in India is governed under **the Limited Liability Partnership Act of 2008**. The Ministry of Corporate Affairs implements the Act.

Statement 3 is incorrect: The LLP is same as ordinary partnership and the only difference between LLP and ordinary partnership is the liability of LLP partners is limited. **LLP cannot issue IPO** and **cannot use public money** as a company does.

Ministry Of Corporate Affairs - Nature of Limited Liability Parterneship (LLP) (mca.gov.in)

Q.29) Consider the following statements with reference to the Micro insurance in India:

1. It is an insurance policy designed for the betterment of the economically vulnerable population of the country.
2. Under Microinsurance, only life insurance policies can be provided, not the general insurance policies.
3. District Co-operative Banks and Regional Rural Banks can be appointed as a micro-insurance agent in India.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

Statement 1 is correct: Micro insurance is a type of insurance policies designed for the betterment of the economically vulnerable population of the country. The category of micro insurance has been created by the Insurance Regulatory and Development Authority of India (IRDAI). Micro insurance can provide insurance cushioning for the economically vulnerable population. Such plans can provide a sense of security to low-income people that are unable to afford the popular form of insurance. Micro insurance is an insurance plan created for providing insurance solutions to individuals living in a rural area.

Statement 2 is incorrect: According to IRDAI, a micro-insurance policy is:

A general or life insurance policy (not only the life insurance policy) with a sum assured of Rs 50,000 or less

A general micro-insurance product is any:

- (a) Health insurance contract
- (b) Any contract covering belongings such as
- (c) Hut
- (d) Livestock
- (e) Tools or instruments or
- (f) Any personal accident contracts
- (g) They can be on an individual or group basis

A life micro-insurance product is:

- (a) A term insurance contract with or without return of premium
- (b) Any endowment insurance contract or
- (c) A health insurance contract
- (d) They can be with or without an accident benefit rider and
- (e) Either on an individual or group basis

There is flexibility in the regulations for insurers to offer composite covers or package products that include life and general insurance covers together

Statement 3 is correct: In India, the first micro-insurance regulation was introduced by IRDA in 2005, with the IRDA (Micro-insurance) Regulations, 2005. **The IRDA (Micro-insurance) Regulations, 2005** was amended in the year 2015 with the goal of increasing micro-insurance penetration in India. It **allowed District Co-operative Banks, Regional Rural Banks, and Business Correspondents of Scheduled Commercial Banks** to be appointed as **micro-insurance agents**.

Q.30) With reference to the Shigella Bacteria, consider the following statements:

1. The presence of this bacteria can result in Diarrhoea in humans.
2. There are currently no vaccines for infection caused by Shigella bacteria.
3. An outbreak of Shigella bacteria recently occurred in State of Kerala.

Which of the statements given above is/are correct?

- a) 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

Shigella is a genus of bacteria that causes an infection called shigellosis.

Statement 1 is correct: Shigella is a bacterium that belongs to the **Enterobacter family** – a group of bacteria that **reside in the intestine**, not all of which cause disease in humans. It mainly affects the intestine and results in diarrhoea, sometimes bloody, stomach pain, and fever. **Shigella is one of the leading bacterial causes of diarrhea worldwide.**

Statement 2 is correct: The cornerstone of shigella treatment is the maintenance of hydration and electrolyte balance. Antibiotics are also recommended for reducing illness duration and for preventing transmission. However, currently, there are **no vaccines available for shigellosis.**

Statement 3 is correct: The Kerala health department identified Shigella bacteria outbreak as the cause for the food poisoning incident in Kasaragod district of Kerala.

Knowledge Base:

- 1) Shigellosis is a food- and water-borne infection, and can happen when someone consumes contaminated food.
- 2) Shigellosis is primarily a disease of poor and crowded communities that **do not have adequate sanitation or safe water.**
- 3) The incubation period of shigellosis is typically 1–4 days.
- 4) The disease is easily **spread by direct or indirect contact** with the excrement of the patient. Shigella is generally transmitted through contaminated food or water, or through person-to-person contact.
- 5) There are four types of Shigella bacteria that affect humans – Shigella sonnei, Shigella flexneri, Shigella boydii, and Shigella dysenteriae. The fourth type causes the most severe disease because of the toxin it produces.

Q.31) With reference to 'Quality Council of India (QCI)', consider the following statements:

1. QCI was set up jointly by the Government of India and the Indian Industry.
2. Chairman of QCI is appointed by the Prime Minister on the recommendations of the industry to the Government.

Which of the above statements is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) c

Exp) Option c is the correct answer.

The Quality Council of India is an autonomous body set up by the Ministry of Commerce and Industry, Government of India jointly with the Indian Industry.

It is registered as a non-profit society and is governed by a Council with equal representations of government, industry and consumers. The Chairman of QCI is appointed by the Prime Minister on the recommendations of the industry to the Government.

Source) UPSC CSE Pre 2017

Q.32) Consider the following statements with reference to the MSME sector in India:

1. They contribute around one-third of the total GDP of India.
2. MSME related products comprises more than 40% of India's total exports.
3. Currently, there are no goods reserved to be produced only by MSME.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

Micro, Small & Medium Enterprises (MSMEs) contribute significantly to the economic and social development of the country by fostering entrepreneurship and by generating employment opportunities.

Statement 1 is correct: According to the MSME ministry data, there are about 6.3 crore MSMEs in India which contribute about 29% to the country's GDP (i.e. around 1/3 of GDP). The government has taken several initiatives to nurture and promote the MSMEs such as the revision in the definition of MSMEs, SFURTI, launch of CHAMPION portal etc.

Statement 2 is correct: MSME related products export share of all India exports stood at 49.4% and 49.8% for FY21 and FY20 respectively. India aims to achieve the challenging target of 1 trillion in exports by 2027.

Statement 3 is correct: In 2015, the government has lifted curbs on making 20 items that had been exclusively meant for micro and small enterprises, dropping one of the last remaining industrial production controls and opening the way for their manufacture on a large scale. Thus, currently there are no reservations on the production of certain items by MSME only.

Knowledge Base:

Earlier and Revised Definition of MSMEs

Earlier MSME Classification

Criteria: Investment in Plant & Machinery or Equipment

Classification	Micro	Small	Medium
Manufacturing Enterprises	Investment < ₹ 25 lac	Investment < ₹ 5 cr.	Investment < ₹ 10 cr.
Services Enterprise	Investment < ₹ 10 lac	Investment < ₹ 2 cr.	Investment < ₹ 5 cr.

Revised MSME Classification

Composite Criteria: Investment and Annual Turnover

Classification	Micro	Small	Medium
Manufacturing & Services	Investment < ₹ 1 cr. & Turnover < ₹ 5 cr	Investment < ₹ 10 cr. & Turnover < ₹ 50 cr.	Investment < ₹ 20 cr. & Turnover < ₹ 100 cr.

Economic Survey 2021-2022, Chapter - Industry and Infrastructure, Page no. 282

Q.33) With reference to 'Insurance Regulatory and Development Authority (IRDA)', consider the following statements:

1. It is a statutory body formed under the General Insurance Business Act of 1972.
2. It regulates the investment of funds by the insurance companies in India.
3. It is mandatory for the government to appoint the members of IRDA from public-sector insurance companies only.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 only
- c) 2 and 3 only
- d) 1 and 3 only

Ans) b

Exp) Option b is the correct answer.

The Insurance Regulatory and Development Authority of India (IRDAI) is an **autonomous and statutory body**. It is responsible for managing and regulating the insurance and reinsurance industry in India.

Statement 1 is incorrect: Insurance Regulatory and Development Authority of India (IRDAI), is a statutory body formed under an Act of Parliament, i.e., **Insurance Regulatory and Development Authority Act, 1999 (IRDAI Act 1999)** for overall supervision and development of the Insurance sector in India. The powers and functions of the Authority are laid down in the IRDAI Act, 1999 and Insurance Act, 1938.

Statement 2 is correct: Section 14 of IRDAI Act, 1999 lays down the duties, powers and functions of IRDAI the powers and functions of the Authority include **regulating investment of funds by insurance companies**. It also has functions like protection of the interests of the policy holders in matters concerning

assigning of policy, nomination by policy holders, insurable interest, settlement of insurance claim, surrender value of policy and other terms and conditions of contracts of insurance etc.

Statement 3 is incorrect: It is only the tradition to hire people from **public sector insurance companies and not an obligation on part of Government.** Recently, the government had appointed a senior executive from the private sector as member (non-life) in the IRDAI.

The authority is a **ten-member body** consisting of a chairman, **five whole-time members, four part-time members**, all of the appointments are done by the **Government of India.**

Irdai: Govt appoints Devasia as member IRDAI, BFSI News, ET BFSI (indiatimes.com)

Q.34) With reference to Foreign Direct Investment (FDI) in insurance sector, consider the following statements:

1. FDI under automatic route in insurance company cannot exceed 49% limit.
2. It is mandatory for insurance companies with foreign investment to have the majority of their directors as resident Indians.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) b

Exp) Option b is the correct answer.

The Finance Ministry notified the **Indian Insurance Companies (Foreign Investment) Amendment Rules, 2021.** These rules will apply to all insurers irrespective of the stake held by the foreign partner.

Statement 1 is incorrect: Parliament had passed the **Insurance Amendment Bill 2021** to increase the FDI limit in the insurance sector to 74% from 49%. Government raised the **permissible FDI limit from 49percent to 74percent** in Insurance Companies under the automatic route and allow foreign ownership and control with safeguards.

Statement 2 is correct: As per **Insurance Companies Amendment Rules, 2021**, any Indian insurance company with foreign investment exceeding 49% should have half of its board of directors as an independent director. Indian insurance companies, with foreign investment, should have the **majority of their directors and key management persons as resident Indians.**

Economic Survey-Industry and Infrastructure

Q.35) With reference to the findings of the National Family Health Survey (NFHS)-5 and its comparison with the findings of NFHS-4, consider the following statements:

1. The total fertility rate at national level has declined below the replacement level of 2.1.
2. The Sex Ratio at Birth has declined for all the states except Tripura.
3. While Infant Mortality Rate has declined across all states, malnourishment among children has been increasing.
4. Obesity has increased for both men and women across all states.

Which of the statements given above is/are correct?

- a) 1 and 4 only
- b) 1, 3 and 4 only
- c) 2 and 3 only
- d) 1 only

Ans) d

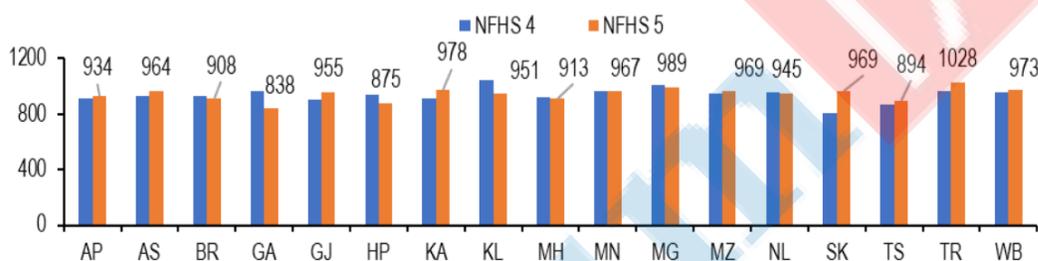

Exp) Option d is the correct answer.

National Family Health Survey (NFHS) is released by the Ministry of Health and Family Welfare (MoHFW). The MoHFW designated the International Institute for Population Sciences (IIPS), Mumbai, as the nodal agency.

Statement 1 is correct: Total Fertility Rates (TFR) declined from 2.2 to 2.0 at the national level. This is below the replacement level of fertility of 2.1 children per woman. Only six States – Bihar, Meghalaya, Manipur, Jharkhand and Uttar Pradesh – have a TFR above two. India is ageing faster than anticipated. The total fertility rate (TFR) is the average number of children a woman would give birth to during her lifetime if she were to pass through her childbearing years (15-49 years) experiencing the present-day age-specific fertility rates.

Statement 2 is incorrect: Sex ratio at birth is the number of female children born per 1,000 male children born. Sex ratio at birth has declined in seven states. The most notable decline was in Goa (from 966 to 838), and Kerala (from 1,047 to 951). Only Tripura has a sex ratio at birth above 1,000 (i.e., more females born than males).

Figure 3: Sex ratio at birth for children born in the last five years

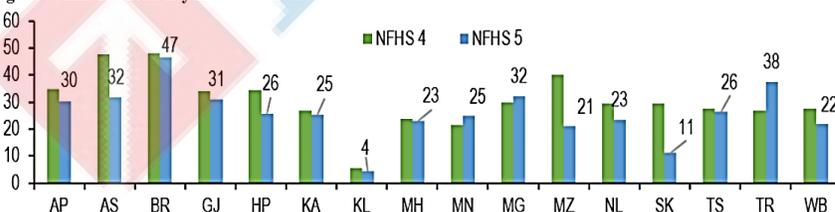

Statement 3 is incorrect: IMR has marginally declined in most of the states (and not all states). In case of Manipur, Meghalaya and Tripura, IMR has increased since NFHS-4.

Assam has seen one of the largest drops in IMR, from 48 deaths (per 1,000 live births) to 32 deaths. IMR remains high in Bihar (47 deaths per 1,000 live births).

However, nutritional status of children below 5 years of age is worsening.

- 1) Stunting or chronic malnutrition (i.e., low height with respect to age) has increased in 11 of the 17 states.
- 2) Proportion of severely wasted children has increased in 13 of the 17 states. Wasting or acute malnutrition refers to low weight with respect to height.
- 3) The proportion of children who are underweight (low weight with respect to age) has increased in 11 of the 17 states. In Bihar and Gujarat, 40% or more of the children under the age of five years are underweight.

Figure 5: Infant Mortality Rate across states

Statement 4 is incorrect. The proportion of women and men, between the age of 15-49 years, who are overweight or obese have increased across nearly all states (except Gujarat and Maharashtra).

<https://blog.forumias.com/nfhs-5-and-its-findings/>

SFG 2023 | LEVEL 1 | Test #15 – Solutions | 

Q.36) With regards to Special Purpose Acquisition Company (SPAC), which of the following statements is correct?

- It is mandated to return money to investors when there is a split within a company.
- General Public cannot act as investors in SPAC.
- It focuses more on commercial operations than on raising capital from the market.
- A company can go public in less time through SPAC route as compared to a conventional IPO process.

Ans) d

Exp) Option d is the correct answer.

A special purpose acquisition company (SPAC) is a corporation formed for the sole purpose of raising investment capital through an initial public offering (IPO). Such a business structure allows investors to contribute money towards a fund, which is then used to acquire one or more unspecified businesses to be identified after the IPO. Therefore, this sort of shell firm structure is often called a “blank-check company” in popular media.

Statement a is incorrect: The SPACs are mandated to **return money to their investors in the event no merger is made within two years. There is no mandate with respect to return of money to the investors in case of split within a company.**

Statement b is incorrect: Investors in SPACs can range from well-known **private equity funds** and **celebrities** to the **general public**.

Statement c is incorrect: A special purpose acquisition company (SPAC) is a company that has **no commercial operations and is formed strictly to raise capital** through an initial public offering (IPO) or the purpose of acquiring or merging with an existing company.

Statement d is correct: A company can go public through the SPAC route in a matter of months, while the conventional IPO process is an arduous process that take anywhere from **six months to more than a year**. SPACs gained popularity in 2020 may partly be due to their **shorter time frame for going public**, as many companies chose to forego conventional IPOs because of the market volatility and uncertainty triggered by the global pandemic.

Source:

<https://www.investopedia.com/terms/s/spac.asp#:~:text=SPACs%20seek%20underwriters%20and%20institutional,if%20the%20SPAC%20is%20liquidated.>

Q.37) With reference to ‘Inland waterways’ in India, which one of the following statements is **incorrect**?

- The matters relating to shipping and navigation on inland waterways fall under the purview of both the Centre and the States.
- An inland waterway in India can be declared a national waterway only through an Act of the Parliament.
- The Inland Vessels Act, 2021 provides that separate rules must be framed by each state for regulation of inland waterways.
- Inland Waterways Authority of India is a statutory body set up for the regulation of shipping and navigation in country.

Ans) c

Exp) Option c is the correct answer.

India has various Inland Water Transport (IWT) options that comprise rivers, canals, backwaters, creeks, and tidal inlets. India has over **5,000 km of navigable inland waterways** under development. These not only form a competitive alternative mode of transportation with lower operating cost (30% lower than the railways and 60% lower than road) but also a sustainable mode in freight logistics and passenger transport.

Statement a is correct: According to item **32 of Concurrent List**, matters relating to **shipping and navigation on inland waterways** as regards mechanically propelled vessels, and the rule of the road on such waterways, and the carriage of passengers and goods on inland waterways, subject to the provisions with respect to national waterways, **fall under the purview of both the Centre and the States.**

According to item 24 of the Central List of the Constitution, matters relating to shipping and navigation on inland waterways, declared by Parliament to be national waterways, as regards mechanically propelled vessels; and the rule of the road on such waterways are now the responsibility of the Central Government.

Statement b is correct: Unlike in the case of declaring roads as national highways, an **inland waterway can be declared a national waterway only through an Act of the Parliament.** Therefore, the proposal has to go through the processes involved in enacting an Act of Parliament, such as approval by Cabinet, introduction of a Bill in one of the Houses of Parliament, debates in both the Houses, etc.

Statement c is incorrect: The **Inland Vessels act, 2021** will regulate the safety, security and registration of inland vessels. It provides for a **unified law for the entire country**, instead of separate rules framed by the States and bring uniformity in the application of the law. It will also **help in reducing the water pollution** caused by these inland vessels as this bill directs the Central Government to designate **a list of chemicals, substances**, etc.as pollutants.

Statement d is correct: Inland Waterways Authority of India is a **statutory body set up in 1986 through the Inland Waterways Authority of India Act, 1985** for regulation and development of inland waterways for the purposes of shipping and navigation in the country. It primarily administers the provisions of the Act and frames the rules thereunder and is directly responsible for the regulation and development of national waterways. The mandate of IWAI is fast **evolving from a regulator to a facilitator** in development of waterways, **improving navigation and enhancing transportation capacity on such waterways through Private participation.**

Source: echap09.pdf (indiabudget.gov.in)

echap08.pdf (indiabudget.gov.in)

<https://iwai.nic.in/sites/default/files/1013443659FAQ%20JMVP%20Final%20PDF.pdf>

Q.38) With reference to the hybrid annuity model (HAM) and Build-operate-transfer (BOT) Public-private partnership (PPP) models, consider the following statements:

1. While in BOT the government entirely finances the project, in HAM, the concessionaire bears the entire cost.
2. Unlike in BOT, the concessionaire has no right to collect revenue from the project in HAM.
3. In both HAM and BOT, the concessionaire designs and builds the project.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

Public Private Partnership (PPP) is an arrangement where a project is undertaken jointly by the government/ public sector and a player from the private sector. This is generally done to ensure that assets of the public sector (for example infra like ports, roads/ highways, etc) are made well with private sector expertise, while the private sector also gets economic opportunities. There are various models in PPP. Two of them - Hybrid Annuity Model (HAM) and Build Operate Transfer (BOT) have been very popular and often used.

Statement 1 is incorrect: BOT is conventional PPP model in which private partner is responsible to design, build, operate (during the contracted period) and transfer back the facility to the public sector. Private sector partner has to bring the finance for the project and take the responsibility to construct and maintain it.

However, in **HAM** it is **initially split between the government and the concessionaire** in a ratio of **40:60**. The government pays **40%** of the cost by breaking it into **part annuity (equal instalments)**. The **concessionaire** arranges for the remaining **60%** in the form of **equity and loans**, for the **period of construction**. He is **reimbursed** for that 60% thereafter.

Statement 2 is correct: In **BOT**, the **concessionaire recovers** the cost of the project by **operating the asset** created and **collecting the revenue** from it till such a time as the **initial amount** put in by him and their fees is recovered. After which the **ownership reverts back** to the **public sector**. On the other hand, in **HAM** the **ownership always stays** with the **public sector** and the concessionaire never gets to operate the asset or collect revenue from it. The remaining of the 60% of project cost is refunded to the concessionaire by the government, again in equal instalments (annuity), once the project is completed and the asset is handed over to the government.

Statement 3 is correct: In **both HAM and BOT**, the **designing and building** of the **asset** is entrusted to the **private** concessionaire. It is a **highly specialised** task of engineering and construction and the **requisite expertise is present** in the **private sector**.

Knowledge Base:

HAM:

- 1) Mixture of features of BOT (Annuity) and EPC (Engineering, Procurement and Construction)
- 2) The remaining 60% of the project cost that is to be given by the government to the concessionaire after the completion of the project is a variable annuity.

BOT:

- 1) Conventional PPP model in which the concessionaire is responsible for financing the entire project as well as design and creation of the asset.

Source: http://arthapedia.in/index.php/Hybrid_Annuity_in_Infrastructure_Sector

Q.39) With reference to the Semiconductors manufacturing in India, which of the following statements is/are correct?

1. India currently imports most of its semiconductor chips requirements.
2. Chip design and manufacturing is a highly capital-intensive business.
3. Product Linked Incentive scheme provides fiscal support of up to 50% of project cost for firms looking to set up semiconductor fabrication facilities in India.
4. Government has set up India Semiconductor Mission as specialized and independent division of National Informatics Centre.

Choose the correct answer using the codes given below:

- a) 1, 2 and 3 only
- b) 2 and 4 only
- c) 3 only
- d) 1, 2 and 4 only

Ans) a

Exp) Option a is the correct answer.

Government of India is taking steps to promote the manufacturing of semiconductor chips in India. Reasons for the same are as follows:

Statement 1 is correct - India imports almost all semiconductors to meet its demand, which is estimated to reach around \$100 billion by 2025 from about \$24 billion now. Further, these chips are made with embedded instructions, which may contain malware or backdoors and are impossible to diagnose. And as Semiconductor chips are used in various strategic areas like, defence and telecom, the domestic manufacturing of chips assumes strategic importance and would provide a measure of security. Further, it will cut the import bill too.

Statement 2 is correct - Chip design and manufacturing is a highly capital-intensive business. The ISRO and the DRDO have their respective fab foundries but they are primarily for their own requirements and also not as sophisticated as the latest in the world. A semiconductor fabrication facility (or fab) can **cost multiples of a billion dollars to set up even on a relatively small scale** and lagging by a generation or two behind the latest in technology. It calls for a developed ecosystem for the business to thrive. As per a government estimate, it would cost roughly \$5-\$7 billion to set up a chip fabrication unit in India.

Statement 3 is correct - To encourage semiconductor manufacturing in India, the Govt has decided to extend the PLI (Production-Linked Incentive) scheme with a budgeted incentive of Rs 76,000 crore over the next six years. The **scheme envisages providing fiscal support of up to 50% of project cost for firms looking to set up display and semiconductor fabrication facilities (FABS) in India.** The govt will work closely with the states establish High-Tech Clusters with requisite infrastructure in terms of land, semiconductor grade water, high quality power, logistics and research.

Statement 4 is incorrect - India Semiconductor Mission is a specialised and independent business division of Digital India Corporation. The mission has been set up with the objective of building a vibrant semiconductor besides displaying ecosystem in order for India to emergence as a global hub in electronics manufacturing and design. It is authorised to negotiate with applicants under semiconductor fab scheme and display fab scheme. It has also been given autonomy to decide appropriate technology mix, node generation, applications, capacity etc. The scheme was launched with the aim of attracting large investments in manufacturing AMOLED-based display panels or TFT LCD.

Q.40) The term ‘W Boson’, recently mentioned in the news, refers to:

- A recently discovered habitable exoplanet.
- Genetically engineered variety of wheat with additional nutritive value.
- Particles used to treat polluting materials at site.
- Fundamental particle that governs the behavior of matter in universe.

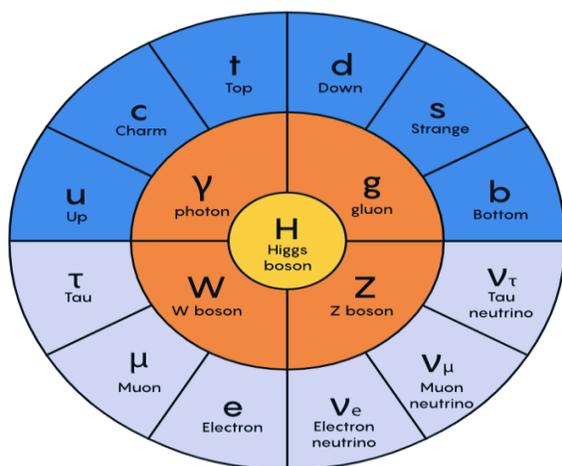

Ans) d

Exp) Option d is the correct answer.

The W boson is a **fundamental particle** which was discovered in 1983. Together with the Z boson, it is responsible for the weak force, one of four **fundamental forces that govern the behaviour of matter in universe**. The W boson, which is electrically charged, changes the very make-up of particles. It switches protons into neutrons, and vice versa, through the weak force, triggering nuclear fusion and letting stars burn.

Knowledge Base:

- 1) Researchers from the Collider Detector at Fermilab (CDF) Collaboration in the U.S announced that they have made a precise measurement of the mass of the so-called W boson. They stated that the W boson is slightly heavier than that predicted by the so-called Standard Model of particle physics.
- 2) The Standard Model of Elementary Particles is a theoretical construct in physics that describes particles of matter and their interaction.
- 3) It is a description that views the elementary particles of the world as being connected by mathematical symmetries, just as an object and its mirror image are connected by a bilateral (left-right) symmetry.
- 4) These are mathematical groups generated by continuous transformations from, say, one particle to another.

● QUARKS ● LEPTONS ● GAUGE BOSONS ● HIGGS BOSON

Source: <https://blog.forumias.com/the-standard-model-of-particle-physics-gets-a-jolt/>

Q.41) With reference to foreign-owned e-commerce firms operating in India, which of the following statements is/are correct?

1. They can sell their own goods in addition to offering their platforms as market-places.
2. The degree to which they can own big sellers on their platforms is limited.

Select the correct answer using the code given below:

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) b

Exp) Option b is the correct answer.

After Walmart's \$16bn purchase of Flipkart in 2018, the rules for foreign-owned e-commerce firms were tightened further, with unexpected severity. Two restrictions predominate.

Statement 1 is incorrect: First, foreign firms are prevented from holding inventory or selling their own goods, which both Amazon and Walmart do in other countries They can offer their platforms only as "marketplaces" for other buyers and sellers in India.

Statement 2 is correct: Second, the degree to which they can own big sellers on their platforms is limited, to prevent those sellers acting covertly on their behalf.

Source) UPSC CSE Pre 2022

Q.42) Which of the following statements regarding the logistics sector of the Indian economy is correct?

- Inventory sector constitutes the majority of the share of the logistics sector.
- The logistics sector in India is highly automated
- More than 60% of the logistics sector in India is run by organised players.
- The cost to GDP ratio of the Indian logistic sector is one of the highest in the world.

Ans) d

Exp) Option d is the correct answer.

Logistics Industry includes all activities of the supply chain such as transportation, customer service, inventory management, flow of information and order processing. Other activities of the supply chain are warehousing, material handling, purchasing, packaging, information dissemination and maintenance among others.

Statement a is incorrect: The logistics sector in India is **dominated** by the **transport sector**. It constitutes over **85%** of the logistics sector by **value**.

Statement b is incorrect: The Indian Logistic sector is marked by **low productivity** which mainly because it is **labour surplus and capital deficient**. So, there is a very **low level of investment in technology, machinery and automation** like forklifts, GPS trackers, conveyor belts, etc.

Statement c is incorrect: The Indian Logistic sector is **highly fragmented**. This is due to the presence of **many small players**. This market is **dominated by unorganised players in India**. Only **10%** of the logistics sector in India is run by **organised players**. This is also one of the reasons for low productivity and high costs of the Indian logistics sector.

Statement d is correct: The **cost to GDP ratio** of the logistics sector in India is **one of the highest** and the **worst in the world**. While for **India** it stands at about **13-14%** of the GDP, for the **rest of the world** it is around **7-8%** of the GDP. This **reduces** the **competitiveness** of Indian businesses as well as the logistic sector individually in India compared to that in the other countries.

Knowledge Base: Some Miscellaneous facts about the Indian Logistics Sector:

- It is growing at a high speed of around 10% CAGR in the past 4-5 years.
- Ranked 44th (up from 54 in 2014) in World Bank's Logistics Performance Index in 2018.
- It has been valued at USD\$ 150 billion, contributing 14.4 % of the country's GDP.
- Said to employ about 21.24 million as of 2016.
- Awarded "Infrastructure Status" by the government in 2017 (Eases financing facilities)

Source:

<https://www.indianchamber.org/sectors/logistic/#:~:text=Sector%20%3A%20Logistic&text=Being%20the%20fastest%20evolving%20industry,by%20the%20end%20of%202020>.

https://lsc-india.com/content/overview_on_logistics_industry

<https://www.thehindubusinessline.com/opinion/impact-of-logistics-industry-on-economic-growth-amidst-a-pandemic/article36139749.ece>

Q.43) Which of the following statements is correct with regard to Pradhan Mantri Gram Sadak Yojna- Phase III?

- The Ministry of Road Transport and Highways is the nodal ministry for the implementation of the scheme.
- The Phase III of the scheme also involves connectivity to Gramin Agricultural Markets (GRAMs).
- The funds for the scheme would be shared equally between the Centre and States.
- The scheme will remain operational till 2035.

Ans) b

Exp) Option b is the correct answer.

Pradhan Mantri Gram Sadak Yojana (PMGSY) Phase-I was launched in December 2000 as a 100 % centrally sponsored scheme with an objective **to provide single all-weather road connectivity to eligible unconnected habitation of designated population size** (500+ in plain areas and 250+ in North-East, hill, tribal and desert areas, 00 - 249 population in LWE districts as per Census, 2001) for overall socio-economic development of the areas.

Option a is incorrect.

The **Ministry of Rural Development along with state governments is responsible for the implementation of PMGSY.**

The Phase II of PMGSY was approved in May 2013. Under PMGSY phase II, the roads already built for village connectivity were to be upgraded to enhance rural infrastructure.

Option b is correct.

Phase III was approved by the Cabinet in July 2019. It involves the **consolidation of Through Routes and Major Rural Links connecting habitations to Gramin Agricultural Markets (GrAMs), Higher Secondary Schools, and Hospitals.**

Option c and d are incorrect.

The funds for the scheme in **Phase-III would be shared in the ratio of 60:40 between the Centre and State for all States except for 8 North Eastern and 3 Himalayan States** (Jammu & Kashmir, Himachal Pradesh & Uttarakhand) for which it is 90:10. The duration of the scheme is 2019-20 to 2024-25.

Source: <https://vikaspedia.in/social-welfare/rural-poverty-alleviation-1/schemes/pradhan-mantri-gram-sadak-yojana>

Q.44) Consider the following statements with reference to the Housing development by Government of India:

1. Pradhan Mantri Awas Yojana (Urban) is a scheme for Economically Weaker Sections (EWSs) only.
2. Affordable Rental Housing Complexes (ARHCs) is a sub-scheme under Pradhan Mantri Awas Yojana.
3. Identification of all beneficiaries for PM Awas Yojna is done by using the Socio Economic and Caste Census of 2011.

Which of the above given statements is/are correct?

- a) 2 only
- b) 3 only
- c) 1 and 2 only
- d) 1 and 3 only

Ans) a

Exp) Option a is the correct answer.

The **Pradhan Mantri Awas Yojana (Urban) Programme was launched by the Ministry of Housing and Urban Poverty Alleviation (MoHUPA),** in Mission mode envisions provision of Housing for All by 2022.

Statement 1 is incorrect: The scheme addresses urban housing shortage among the EWS/LIG and MIG (Middle Income Groups) categories including the slum dwellers by ensuring a pucca house to all eligible urban households. The beneficiary family should not own a pucca house either in his/her name or in the name of any member of his/her family in any part of India to be eligible to receive central assistance under the mission.

Statement 2 is correct: Affordable Rental Housing Complexes (ARHCs) is a sub-scheme under Pradhan Mantri Awas Yojana - Urban (PMAY-U). This will provide ease of living to urban migrants/ poor in Industrial Sector as well as in non-formal urban economy to get access to dignified affordable rental housing close to their workplace.

Statement 3 is incorrect: For **identification as a EWS or LIG beneficiary under the Pradhan Mantri Awas Yojana (Urban) scheme, an individual loan applicant will submit self-certificate/ affidavit** as proof of income. There is **no provision of identification** of beneficiary through **SECC-2011**.

Source: <https://vikaspedia.in/social-welfare/urban-poverty-alleviation-1/schemes-urban-poverty-alleviation/pradhan-mantri-awas-yojana-housing-for-all-urban>
<https://pmaymis.gov.in/>

Q.45) With reference to Shallow Ecologism and Deep Ecologism, consider the following statements:

1. Shallow Ecologism refers to focusing on lifestyle without any consideration for environment conservation.
2. Deep Ecologism involves radically changing the relationship of humans with nature.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) b

Exp) Option b is the correct answer.

Statement 1 is incorrect: Shallow ecologism, also referred to as weak ecologism, refers to the philosophy wherein the present lifestyle is continued, but with **specific tweaks to minimise the damage to the environment**. Thus, it **does consider environment concerns, but** believes that environmental preservation **should only be practiced to the extent that it meets human interests**. This branch of ecologism primarily serves to maintain the lifestyle of those dwelling in developed countries. For example, using vehicles that cause less pollution or air conditioners that do not release chlorofluorocarbons (CFCs).

Statement 2 is correct: Deep ecologism refers to the philosophy wherein the exponents believe that **humans should radically change their relationship with nature**. It rejects shallow ecologism as it prioritises humans above nature. It aims to preserve nature subsequent to environmental destruction. For instance, the US constitutes only 5% of the world's population, but consumes 17% of the world's energy consumption.

Source: <https://www.thehindu.com/sci-tech/energy-and-environment/shallow-and-deep-ecologism/article65404155.ece>

Q.46) Consider the following statements with reference to the industrial sector in India:

1. Steel production in India has consistently grown over the last decade.
2. The manufacturing sector contributes towards one-third of India's GDP
3. Coal provides for more than half of India's energy needs.

Which of the above-given statements is/are correct?

- a) 3 only
- b) 2 only
- c) 1 and 3 only
- d) 2 and 3 only

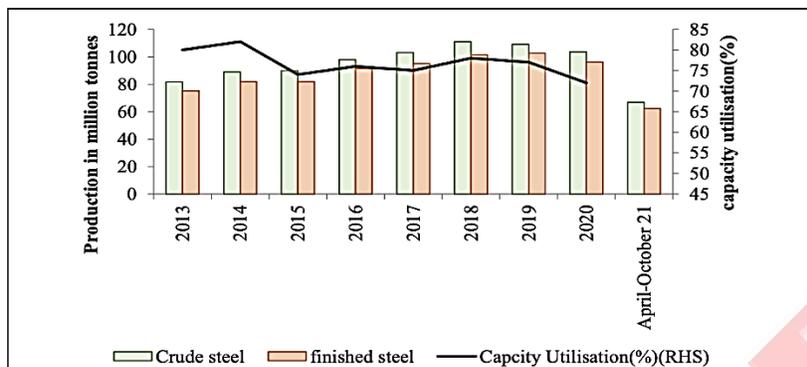

Ans) a

Exp) Option a is the correct answer

Industry or the secondary sector of the economy is another important area of economic activity. After independence, the government of India emphasized the role of industrialization in the country's economic development in the long run.

Statement 1 is incorrect: The Indian industry experienced a halt due to COVID-19 in business activity. Logically, the production of steel could not have grown consistently. The impact of the pandemic on the industrial sector is reflected in the **negative growth of 8.4 percent** in 2020-21. The production of steel over the last decade can be seen from the below graph.

Figure 18: Production and capacity utilization

Source: Survey calculations based on data from Ministry of Steel *indicates provisional figure

Statement 2 is incorrect: Manufacturing is among the major economic activities that involve value addition that has consequential positive multiplier effects in the economy. India has the **fifth-largest manufacturing base in the world. The share of manufacturing in GDP has remained stagnant at about 17% (and not one third).** In fact New manufacturing Policy aims to raise the contribution to 25% of GDP by 2025

Statement 3 is correct: Coal is the most important and abundant fossil fuel in India and **accounts for 55 percent of the country's energy need.** Commercial primary energy consumption in India has grown by about 700% in the last four decades.

Source: <https://www.indiabudget.gov.in/economicsurvey/> (Chapter-8)

Q.47) Consider the following statements with reference to the Central Public Sector Enterprises (CPSEs) in India:

1. The New Public Sector Enterprise Policy envisages privatizing or closing of all Public Sector Enterprises.
2. MahaRatna status can be granted to a company only if it has 100 percent government stake.
3. Insurance is considered a 'Strategic sector' as per the New Public Sector Enterprise Policy.

Which of the above-given statements is/are correct?

- a) 2 only
- b) 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

Central Public Sector Enterprises (CPSEs) are an important constituent of the Indian industry. As on March, 2020 there were 256 CPSEs that were operational.

Statement 1 is incorrect: As per the Union Budget 2021-22 announcement, the government has approved a policy of strategic disinvestment of public sector enterprises that will provide a clear roadmap for disinvestment in all non-strategic and strategic sectors. The **New Public Sector Enterprise (PSE) Policy envisages the classification of CPSEs into Strategic and Non-Strategic Sectors. And as per the policy, the non-strategic CPSEs will be privatized or otherwise shall be closed.**

Statement 2 is incorrect: The Government of India categorizes Central Public Sector Enterprises (CPSEs) under three different categories – Maharatna, Navratna, and Miniratna. Maharatna status is granted to a company which has recorded more than Rs. 5,000 crores of net profit for three consecutive years, an average annual turnover of Rs. 25,000 crore for three years or should have an average annual net worth of Rs. 15,000 crore for three years.

Statement 3 is correct: The strategic sectors as per the policy are as under: **atomic energy; space and defense; transport and telecommunication; power; petroleum; coal and other minerals; banking, insurance, and financial services.** Under the 4 broad baskets in which the strategic sectors are classified- i.e., **national security, critical infrastructure, energy and minerals and financial services.** As per the policy, only a bare minimum presence of CPSEs in the aforesaid strategic sectors is to be maintained. Source: <https://www.indiabudget.gov.in/economicsurvey/> (Chapter-8)

Q.48) With reference to the Swiss Challenge method of bidding, consider the following statements:

1. It offers the features of both open auction and closed tender to discover the best price for an asset.
2. It can help banks to maximize the value realized from auction of stressed assets.
3. It can lead to more innovative project proposals and quicker execution for public projects.
4. It is the best method to avoid the allegations of favouritism and corruption in the award of public projects.

Which of the above statements are correct?

- a) 1 and 3 only
- b) 2 and 4 only
- c) 1, 2 and 3 only
- d) 1, 2, 3 and 4

Ans) c

Exp) Option c is the correct answer.

Under the Swiss Challenge method of procurement, a candidate makes a proposal for a project, which the government puts before the public to seek more proposals. Once these are received, the original candidate is allowed to match the best bid.

The method was upheld by the Supreme Court of India for awarding public projects and the Government of India has tried out this method in road and railway projects.

Statement 1 is correct: The **Swiss Challenge allows a seller to mix-and-match the features of both an open auction** and a closed tender to discover the best price for an asset.

Statement 2 is correct: If Swiss Challenge **is applied to bankruptcy cases, banks may get to maximize more from the auction of stressed assets.**

Statement 3 is correct: If applied to public projects, it **may lead to more innovative project proposals and quicker execution**, as a bidder with a good idea needn't wait for the government to set the ball rolling.

Statement 4 is incorrect: But on the flip side, by allowing a bidder to initiate an idea and giving him the first right of refusal, **the Swiss Challenge can promote favouritism in the award of public projects, opening the doors to corruption.** To guard against this, legal experts suggest an open list of public projects that allow Swiss Challenge and full public disclosure of bid details when the government receives a proposal.

Source: <https://theprint.in/india/governance/modi-govt-plans-national-policy-framework-for-swiss-challenge-system-of-public-procurement/564401/>

<https://www.thehindubusinessline.com/opinion/columns/slate/all-you-wanted-to-know-about-swiss-challenge/article24194034.ece>

Q.49) Consider the following statements with reference to the Telecom sector in India:

1. There are more telephone subscribers in rural areas than in urban areas.
2. The Government is implementing a Comprehensive Telecom Development Plan for improving mobile connectivity in the North-Eastern Region.
3. Revenues from Non-telecom sources are always included while calculating Adjusted Gross Revenue of telecom operators.

Which of the above-given statements is/are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 2 only
- d) 1 and 3 only

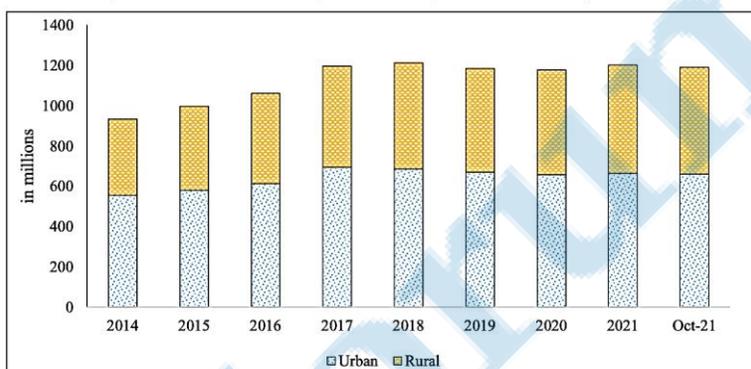

Ans) c

Exp) Option c is the correct answer.

India is the **world's second-largest telecommunications market**. The telecommunication sector is one of the most powerful sectors impacting social and economic development of a country.

Statement 1 is incorrect: As on March 2021, **45 percent of subscribers were based in rural India and 55 percent in urban areas**. There are more than **1200 million telephone subscribers in India**. Internet penetration is close to 830 million.

Figure 35: Number and Composition of Telephone Subscribers (in millions)

Source: DoT. As in March month of each year

Statement 2 is correct: The Government of India is implementing a **Comprehensive Telecom Development Plan (CTDP) for the North-Eastern Region and Comprehensive Telecom Development Plan for Islands to provide mobile connectivity in the uncovered villages** and along National Highways in the North-east. With the implementation of this project, the high-speed internet/ broadband connectivity will be available in Lakshadweep Islands. The plan is not being launched for Jammu and Kashmir

Statement 3 is incorrect: Adjusted Gross Revenue (AGR) is the usage and licensing fee that telecom operators are charged by the Department of Telecommunications (DoT). It is divided into spectrum usage charges and licensing fees, pegged between 3-5 percent and 8 percent respectively. The charges used to be calculated based on all revenues earned by a telecom companies – including non-telecom related sources such as deposit interests and asset sales. **However, as per recent reforms, non-telecom revenue will be excluded on prospective basis from the definition of Adjusted Gross Revenue of telecom operators.**

Source: <https://www.indiabudget.gov.in/economicsurvey/> (Chapter-8)

Q.50) Which of the following is the correct description of the role of Chief of Defense Staff in India?

- a) S/he is the Principal Military Advisor to the Defence Minister on all tri-services matters.
- b) S/he is the Primary command authority for all the three forces.
- c) S/he is the Head of the Nuclear Command Authority.
- d) S/he is the chief Selector of Head of all three wings of armed forces in India.

Ans) a

Exp) Option a is the correct answer.

Chief of Defense Staff (CDS) acts as the **permanent Chairman of the Chiefs of Staff Committee** which will also have three service chiefs as members. His core function will be **to foster greater operational synergy between the three service branches** of the Indian military and keep inter-service frictions to a minimum. He would be **the Principal Military Advisor to the Defence Minister on all tri-services matters**. Thus, the CDS will be the single-point military adviser to the Defence Minister on matters involving all three services and the **service chiefs will be obliged to confine their counsel to issues pertaining to their respective services**. The CDS is **also vested with the authority to provide directives** to the three chiefs.

Option b, c and d are incorrect. CDS **does not enjoy any command authority** over any of the forces. CDS is first among equals, he enjoys the rank of Secretary within the Department of Defense and his powers will be confined to **only the revenue budget**. He is **not the Head of the Nuclear Command Authority but will perform an advisory role** in the Nuclear Command Authority (NCA). He is also **not the chief Selector** of Head of each armed forces in India.

<https://www.thehindu.com/news/national/chief-of-defence-staff-and-top-level-military-reforms/article65419500.ece>

Q.1) A rapid increase in the rate of inflation is sometimes attributed to the “base effect”. What is “base effect”?

- a) It is the impact of drastic deficiency in supply due to failure of crops
- b) It is the impact of the surge in demand due to rapid economic growth
- c) It is the impact of the price levels of previous year on the calculation of inflation rate
- d) None of the statements (a), (b) and (c) given above is correct in this context

Ans) c

Exp) Option c is the correct answer.

The base effect relates to inflation in the corresponding period of the previous year. If the inflation rate was too low in the corresponding period of the previous year, even a smaller rise in the Price Index will arithmetically give a high rate of inflation for current year.

Source: UPSC CSE Pre 2011

Q.2) Rapid urbanisation and migration to cities have caused severe urban housing shortages in India, particularly for the economically weaker sections. In this context, which of the following measures are taken by the Government of India to boost affordable housing?

1. Granting infrastructure status to affordable housing
2. Formation of Affordable Housing Fund under the National Housing Bank (NHB)
3. PM Awas Yojana (Urban) may use the land from rural areas falling within the notified Planning area
4. Enactment of Real Estate Regulatory Authority (RERA) Act

Select the correct answer using the code given below

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1, 3 and 4 only
- d) 1, 2, 3 and 4

Ans) d

Exp) Option d is the correct answer.

The Government of India have undertaken a number of initiatives to boost affordable housing:

Option 1 is correct: The Government of India have granted **infrastructure status to affordable housing** which enables affordable housing sector to avail the associated benefits such as **lower borrowing rates**, tax concessions and increased flow of foreign and private capital.

Option 2 is correct: The Union budget 2018-19 announced a dedicated **Affordable Housing Fund (AHF) under the National Housing Bank (NHB)**. NHB using this fund will refinance the Primary Lending Institutions in respect of their **individual loans**. This fund will be sourced from priority sector lending shortfall.

Option 3 is correct: As land availability within the urban areas is very low, the government has extended the **PMAY - Urban scheme to include rural areas falling within the notified Planning / Development area**. It is clear that availability of encumbrance free land within existing municipal areas for urban housing schemes is not an easy task. **Therefore, provision has been made to include rural areas falling within the notified Planning/Development areas, under ambit of PMAY (U)**. It would leverage availability of additional land at cheaper cost for construction of affordable houses”.

Option 4 is correct: On 1st May 2017, the Government incorporated the Real Estate Regulatory Authority (RERA) Act. The goal of RERA is to improve the efficiency and transparency in the real estate sector of India. Before RERA, home buyers were facing many issues regarding properties. The most prominent among them were delayed deliveries, **unfair pricing, quality of the construction, etc.** RERA is meant to rectify those

problems and thereby streamline the real estate sector of India. RERA is effectively cleansing the system from the brokers that are earning money by cheating their customers. **The property developers in affordable housing segment work with registered brokers, and thus they have noticed a sharp decrease in customer complaints. Hence RERA is helping in both regulation of prices and improve the transparency in affordable housing sector.**

Q.3) With reference to the National Pharmaceutical Pricing Authority (NPPA), consider the following statements:

1. It is an independent office functioning under the Ministry of Health and Family Welfare.
2. It monitors the prices of both controlled and decontrolled drugs in India.
3. If the consumers have been overcharged for controlled drugs, NPPA can recover these overcharged amounts from manufacturers.

Select the correct answer using the code given below:

- a) 1 and 2 only
- b) 2 and 3 only
- c) 2 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

Statement 1 is incorrect: The National Pharmaceutical Pricing Authority was set up as an **attached office of the Department of Pharmaceuticals, Ministry of fertilisers and chemicals (not the ministry of Health and Family Welfare).**

Statement 2 is correct. It can fix/ revise the prices of controlled bulk drugs and formulations and to enforce prices and availability of the medicines in the country, under the Drugs (Prices Control) Order, 1995. It **can also monitor the prices of decontrolled drugs** in order to keep them at reasonable levels.

Statement 3 is correct: The National Pharmaceutical Pricing Authority Is also **entrusted with the task of recovering amounts overcharged** by manufacturers for the controlled drugs from the consumers.

Source: <https://pharmaceuticals.gov.in/dpconppa>

Q.4) Which of the following measures is most **unlikely** to be taken to avoid a currency crisis in India?

- a) Encouraging exports from India
- b) Reduction of Interest rate by the Reserve Bank of India
- c) Increasing the public expenditure by the Government of India
- d) Selling the US dollars and gold by reserve bank of India

Ans) c

Exp) option c is the correct answer.

A **currency crisis** involves the sudden and steep decline in the value of a nation's currency, which causes negative ripple effects throughout the economy.

Option a is incorrect. All **exports** by domestic residents reflect **earnings of foreign exchange**. For instance, Indian exporters will expect to be paid in rupees and, to buy our goods, foreigners must sell their currency

and buy rupees. It will consequently **increase the demand of Indian rupees** in the foreign currency exchange market and thus bring currency stability.

Option b is incorrect: Inflation is closely related to **interest rates**, which can influence exchange rates. **Higher the interest rate fixed by RBI, higher the inflow of foreign currency.** This will increase the demand for a country's currency.

Option c is correct. Increasing the public expenditure by Government of India will further **increase the supply of domestic currency and aggravate the situation of currency crisis.** Hence decreasing the public expenditure would be the right step to avoid currency crisis.

Option d is incorrect: Central banks and governments can intervene to help stabilise a currency by **selling off reserves of foreign currency or gold.** This will reduce the demand of foreign currency and **increase the demand of Indian rupees and will help in avoiding currency crisis.**

Knowledge Base: The basic concept is to increase the demand of a currency in a crisis in foreign market and reduce the supply of currency in a crisis in the market.

Q.5) Consider the following statements with reference to the Association of Asian Election Authorities (AAEA):

1. Election Commission of India is a founder member of the AAEA.
2. It promotes citizens' participation in the electoral and civic process.
3. India recently has been elected as the new Chair of the AAEA for the first time since its inception.

Which of the statements given above is/are correct?

- a) 1, 2 and 3
- b) 2 only
- c) 1 and 3 only
- d) 1 and 2 only

Ans) d

Exp) Option d is the correct answer.

AAEA was **established in 1998** in pursuance of the resolution passed by participants of the **Symposium on Asian Elections in the 21st century** held from **January 26-29, 1997 in Manila, Philippines.** The AAEA was conceived to promote and institutionalize open and transparent elections, independent and impartial election authorities, professionalizing Asian election authorities, **citizen participation in the electoral and civic process**, information sharing, and the development of resources for election-related information and research.

Statement 1 is correct and statement 3 is incorrect: **Election Commission of India is a founder member** of the AAEA. India has also served on the Executive Board of the AAEA as the Vice Chair during 2011-13 **and Chair during 2014-16 (not first time in 2022).** India has been unanimously elected as the new **Chair of the Association of Asian Election Authorities (AAEA) second time** for 2022-2024 at the recently held meeting of the Executive board and General Assembly at **Manila, Philippines.**

Statement 2 is correct: AAEA provides a **non-partisan forum in the Asian region (not globally) for sharing experiences and best practices among election authorities.** One of its key objectives is to discuss and act upon ways to promote open and transparent elections with the objective of supporting good governance and democracy. The AAEA was conceived to promote and institutionalise open and transparent elections, independent and impartial election authorities, professionalising Asian election authorities, **citizen**

participation in the electoral and civic process, information sharing, and the development of resources for election-related information and research.

Q.6) Which of the following is/are the likely benefit/s of a certain level of Inflation in economy?

1. Easier for government to achieve its fiscal deficit target
2. According to the Philip's Curve, the rising unemployment can be fought with increased inflation.
3. It encourages the domestic savings by earning high interest rate

Select the correct answer using the code given below:

- a) 1 and 2 only
- b) 1 and 3 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) a

Exp) Option a is the correct answer.

Inflation is a general rise in the prices of goods and services. It is the result of an increase in the amount of money relative to the supply of available goods. I.e., **too much money chasing too few goods**. While high inflation is generally considered harmful, some economists believe that a small amount of inflation can help drive economic growth.

Option 1 is correct. In the short term, the government, which is the single largest borrower in the economy, benefits from high inflation. Inflation allows the government **to meet its fiscal deficit target**. Fiscal deficit limits are expressed as a percentage of the nominal GDP. As the nominal GDP rises because of inflation, the same amount of fiscal deficit (borrowing) becomes a smaller percentage of the GDP.

Option 2 is correct. Economists believe that an inverse relationship exists between inflation and unemployment, and that rising unemployment could be fought with increased inflation. This relationship is defined in the famous Phillips curve.

Option 3 is incorrect. **High inflation eats away the real interest** earned from keeping one's money in the bank or similar savings instruments. Earning a 6% nominal interest from a savings deposit effectively means earning 0% interest if inflation is at 6%. By the reverse logic, **borrowers are better off** when inflation rises because they end up paying a lower "real" interest rate. So, the inflation discourages the savings instead of encouraging them.

Q.7) Consider the following pairs:

Initiatives of Niti Aayog	Description/Purpose of programme
1. Project SATH-E	Enables adoption of energy efficient technology in power loom sector.
2. LiFE Campaign	Bringing behavioral changes to replace the 'use and dispose'

3. Shoonya initiative
- economy with 'circular' economy. promoting the adoption of electric vehicle across the Country.

Which of the pairs given above is/are correct?

- a) 1 and 2 only
b) 2 and 3 only
c) 1 and 3 only
d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer

On January 1, 2015 NITI Aayog was established through government resolution replacing the planning Commission. It envisages the vision of Maximum Governance, Minimum Government. It is the premier policy think tank of the government echoing the spirit of cooperative federalism. With this policy of 'Bottom-up' approach, NITI Aayog has undertaken various initiatives like Aspirational district programme, Atal innovation mission, SDG index e.tc.

Statement 1 is incorrect: Project SATH-E, 'Sustainable Action for Transforming Human Capital-Education', was launched in 2017. It aimed at making Jharkhand, Odisha and Madhya Pradesh as 'role model' States for the school education sector

The first phase of SATH-E was completed in March 2020. Achievements were made in learning enhancement programmes, governance reforms, teacher training, IT-enabled monitoring of schools etc.

Statement 2 is correct: LiFE campaign was introduced in UN Climate Change Conference (UNFCCC COP26). It is aimed at bringing change in the lifestyle of people to replace the use and dispose economy. It enables people to adopt the sustainable and environmentally friendly choices. The Mission aims to create and nurture a global network of individuals, namely 'Pro-Planet People' (P3).

Approach of LiFE Campaign:

- 1) Focus on Individual Behaviours

Make life a mass movement /Jan Andolan to focus on behaviours and attitudes of individuals and communities.

- 2) Co-create Globally

Crowdsource ideas across the world, through top universities, think tanks and international organisations

- 3) Leverage Local Cultures

Leverage climate-friendly social norms and household practices of different cultures worldwide.

A circular economy is a model of production and consumption, which involves sharing, leasing, reusing, repairing, refurbishing and recycling existing materials and products as long as possible.

Statement 3 is correct: The Shoonya campaign plans at improving air quality in India by increasing the usage of electric vehicles (EVs) in the country.

The Shoonya campaign brings together consumers and industry sector. It promotes the adoption of EV to reduce emissions from the commercial passenger and urban freight sector. The campaign is administered by NITI Aayog and RMI along with leading industry. It has three components:

- (a) Corporate Branding Programme
(b) Consumer Awareness Drive
(c) Resource Toolkit

Source: <https://www.niti.gov.in/project-sath-e>

<https://www.niti.gov.in/life>

<https://shoonya.info/about-us>

Q.8) With reference to the G20, consider the following statements:

1. Its policies and decisions are non-binding to its members.
2. It mandates for the currency swapping arrangements among the members in case of financial crisis situation.
3. It has helped in improving representation of emerging economies in the International Monetary Fund's governance structure.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

The Group of 20 (G20) is an informal political and economic forum comprised of Argentina, Australia, Brazil, Canada, China, France, Germany, India, Indonesia, Italy, Japan, Republic of Korea, Mexico, Russia, Saudi Arabia, South Africa, Turkey, the United Kingdom, the United States and the European Union.

Statement 1 is correct: The role of the G20 is mainly to put pressure on the international community, to facilitate dialogue, and to institutionalize a new power balance. This is because any proposals, policies, or principles that the G20 adopt are **non-binding**.

Statement 2 is incorrect: G20 does not mandate for the currency swapping arrangements among the members in case of crisis situation. Such arrangements are not the function of G-20. The G20 plays the role of the main coordinator of global financial issues and has responded to crises in the GFA since 2008. Due to the informal nature of the G20, it mostly serves as a forum for communication and does not propose mandatory policies for the members.

Statement 3 is correct: The G20 strengthened the firepower of Multilateral Financial Institutions to deal with crises, and marginally **enhanced the representation of emerging economies in the IMF's governance structure**. Emerging economies, however, were not the direct beneficiaries of the enhanced global safety net to which they contributed, as this was mostly used to bail out countries in the European Monetary Union. The IMF was also nudged towards streamlining its crisis lending protocols by mitigating the stigma effect and becoming nimbler in providing liquidity in future crises.

Source: <https://www.e-ir.info/2018/10/01/reform-of-the-global-financial-architecture-the-role-of-brics-and-the-g20/>

<https://www.livemint.com/opinion/online-views/the-post-pandemic-g-20-role-in-the-global-financial-architecture-11606056093408.html>

Q.9) With reference to the Indian economy, demand-pull inflation can be caused by which of the following?

1. Increase in welfare expenditure
2. Higher purchasing power of consumers
3. Raising tax rates
4. Increase in prices of raw materials
5. Increased labour costs

Select the correct answer using the code given below:

- a) 1 and 2 only
- b) 1, 2 and 5 only
- c) 1, 2 and 3 only
- d) 2, 4 and 5 only

Ans) a

Exp) Option a is the correct answer.

Inflation can be divided into **Demand pull inflation and Cost-push inflation.**

Demand-pull inflation is caused by an increase in aggregate demand, driven by the four sections of the macroeconomy: households, business, governments, and foreign buyers. It is caused by an expanding economy, increased government spending, or overseas growth.

Option 1 is correct: as increase in welfare expenditure means increase in government spending. This in turn will increase demand pull inflation.

Option 2 is correct: When the consumers have higher income levels and have a higher purchasing power then they feel confident and they spend more and even take on more debt to spend. This leads to a steady increase in demand, which means higher prices and higher demand-pull inflation.

Option 3 is incorrect: as an increased rate of taxes would reduce the personal disposable income of a person. Thus, it is one of the **measures used** by the government and RBI **to fight demand pull inflation.**

Option 4 and 5 are incorrect: Cost push inflation is caused by the **decrease in the aggregate supply** of goods and services resulting from an increase in the cost of production. An increase in the **costs of raw materials or labour can contribute to cost-push inflation** (not demand-pull inflation).

Source:

<https://www.investopedia.com/articles/05/012005.asp#:~:text=Aggregate%20supply%20is%20the%20total,results%20in%20cost%2Dpush%20inflation.>

Q.10) Which of the following best describes the term “Bioeconomy”?

- An economy that mimics the basic functions of the biology and biospheres.
- An economy where biomass is exclusively used for energy production.
- An economy where biofuels are used for methods of transportation and production.
- An economy using renewable natural resources to produce products and services.

Ans) d

Exp) Option d is the correct answer.

The term **Bioeconomy** generally refers to **an economy using renewable natural resources to produce food, energy, products and services.** The important renewable natural resources include the **biomass in forests, soil, fields, bodies of water and the sea and fresh water.**

Bioeconomy as a **concept acquired prominence when European Union announced Bioeconomy strategy as early as 2012.** This strategy was reviewed for the relevancy in 2018. As per the revised strategy the Bioeconomy covers all sectors and systems that rely on biological resources (animals, plants, micro-organisms and derived biomass, including organic waste), their functions and principles. It includes and interlinks: land and marine ecosystems and the services they provide; all primary production sectors that use and produce biological resources (agriculture, forestry, fisheries and aquaculture); and all economic and industrial sectors that use biological resources and processes to produce food, feed, bio-based products, energy and services.

Source: https://birac.nic.in/webcontent/1594624763_india_bioeconomy_rep.pdf

Q.11) If a commodity is provided free to the public by the Government, then

- the opportunity cost is zero.
- the opportunity cost is ignored.
- the opportunity cost is transferred from the consumers of the product to the tax-paying public.
- the opportunity cost is transferred from the consumers of the product to the Government.

Ans) c

Exp) Option c is the correct answer.

Opportunity cost is the forgone benefit that would have been derived by an option not chosen. For example, if you decide to spend two hours studying on a Friday night. The opportunity cost is that you cannot have those two hours for leisure.

When a commodity is provided free to the public by the government then the opportunity cost is transferred to the tax-paying public as the cost of that commodity is ultimately paid by the government from the tax-payers money.

Source: UPSC PRELIMS

Q.12) In the Economic Survey 2021-22, the term ‘Refined Core Inflation’ has been mentioned. In this context, which of the following statements best describes the term ‘Refined Core Inflation’?

- It is calculated by excluding the volatile food and fuel prices from overall inflation.
- It is calculated separately for major fuel items such as ‘petrol and diesel and other fuels for vehicle’.
- It excludes main fuel items, ‘food and beverages’ and ‘fuel and light’ from the headline retail inflation.
- It is inflation-related to all the goods, and services of an economy.

Ans) c

Exp) Option c is the correct answer.

Option a is incorrect: Core inflation – It is inflation related to all the commodities, goods, and services in the economy minus the volatile food prices and fuel prices. It is more stable than headline inflation due to the absence of volatile commodities like food and petroleum.

Option b is incorrect: There is no such inflation calculation separately for major fuel items.

Option c is correct: Refined Core Inflation excludes main fuel items like, ‘petrol and diesel for vehicle’ and ‘lubricants and other fuels for vehicles’, in addition to ‘food and beverages’ and ‘fuel and light’ from the headline retail inflation. Refined core inflation is much below core inflation which shows that the impact of fuel in conventional core inflation is quite substantial.

Option d is incorrect Headline inflation- It is inflation related to all the economy’s commodities, goods, and services. The headline inflation includes inflation in a basket of goods that includes commodities like food and energy.

Source: Pg 164, Economic Survey 2021-22

What the Economic Survey’s ‘Refined’ Core Inflation Tells us About Fuel Price Rise (thewire.in)

Headline Inflation - Overview, How To Calculate, Applications (corporaterefinanceinstitute.com)

Q.13) Consider the following statements regarding production of Onions in India:

- The Onions produced during Rabi season contributes majorly in the total production of Onions.
- The onion production has been steadily increasing in the past 5 years.
- Gujarat is the topmost onion producing state in India during last decade.

Which of the statement given above is/are Correct?

- 1 only
- 2 only
- 2 and 3 only
- 1, 2 and 3

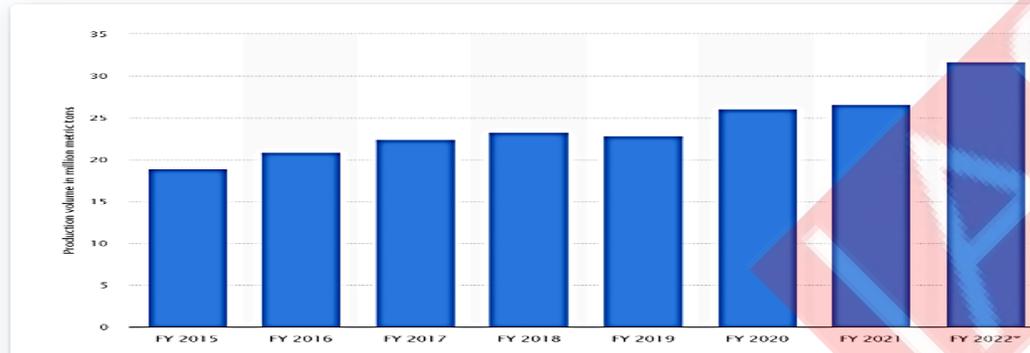

Ans) a

Exp) Option a is the correct answer.

Statement 1 is correct: The Rabi season accounts for about 70 per cent of total onion production in a year. The seasonal component is found to put downward pressure (negative values) on prices coinciding with the Rabi harvest period, and upward pressure (positive values) in other months, reaching peak in December.

Statement 2 is incorrect: Onion production of India has increased from 22.43 mmt in FY 2017 to 26.64 mmt in FY 2021. However, this **increase was not steady**. As can be seen from below figure, the production declined in FY 2019 compared to FY 2018.

(in million metric tons)

Statement 3 is incorrect: The Major Onion producing states are Maharashtra, Karnataka, Madhya Pradesh, Gujarat, Bihar, Andhra Pradesh, Rajasthan, Haryana and Telangana. **Maharashtra** ranks first in Onion production with a share of 39% followed by Madhya Pradesh with a share of 17% in 2020-21. Maharashtra have maintained an average share of 30% in onion production in the last decade.

Knowledge Base: The onion is India's most "political" vegetable. **Seasonality in production and irregular shocks are two important components contributing to the variations in prices** of agriculture commodities. Seasonality in prices is a result of the varying pattern of production of these commodities during different months of a year. On the other hand, shocks often originate from uncertain weather conditions and other unpredictable events.

Q.14) Consider the following statements regarding the current scenario of Edible oil in India:

- India is the world's largest consumer and importer of vegetable oil.
- In terms of type of edible oil consumed in India, Soyabean oil represented the highest share.
- In order to increase the production of oilseeds, National Food Security Mission: Oilseeds (NFSM-Oilseeds) is implemented in all the districts of India.

Which of the statement given above is/are correct?

- 1 and 2 only
- 2 only
- 3 only
- 1 and 3 only

Ans) c

Exp) Option c is the correct answer.

India is one of the major oilseeds growing country. The oilseed production in India has grown by almost 43 per cent from 2015-16 to 2020-21. The oil production in India has however lagged behind its consumption necessitating import of edible oils.

Statement 1 is Incorrect: India is the world's second largest consumer and World's largest importer of vegetable oil. As urbanization increases, the dietary habits and traditional meal patterns are expected to shift towards processed foods that have a high content of vegetable oil. Vegetable oil consumption in India is, therefore, expected to remain high due to high population growth and consequent urbanization.

Statement 2 is Incorrect: In terms of types of edible oil consumed in India, palm oil represented 33% of the total, while soyabean oil, rapeseed and sunflower oil comprised 23%, 15% and 8% respectively. Cottonseed oil and groundnut oil made up the remainder.

Statement 3 is Correct: The Government is promoting the production and productivity of oilseeds through the centrally sponsored scheme of **National Food Security Mission: Oilseeds (NFSM-Oilseeds) from 2018-19 onwards in all districts of India.**

Knowledge Base: **NFSM-Oilseeds:** Under this scheme, interventions such as production of foundation and certified seed and distribution of certified seeds and seed minikilt's of latest high yielding varieties are undertaken. This mission will help to increase the production and productivity of the oilseeds.

Source: Pg 239 Economic survey 2021-22

India's edible oil consumption expected to reach 26M-27M tonnes by... (ofimagazine.com)

Q.15) Consider the following pairs:

Reports/Index	Released by
1. World Press Freedom Index	Reporters Without Borders
2. Global Food Policy Report	International Food Policy Research Institute
3. State of Inequality in India	NITI Aayog

Which of the pairs given above is/are correct?

- 1 and 2 only
- 2 only
- 2 and 3 only
- 3 only

Ans) a

Exp) Option a is the correct answer.

Pair 1 is correct: World Press Freedom Index is released by Reporters Without Borders. Index highlights degree of freedom that journalists, news organisations and netizens have in each country, and government's efforts to respect such freedom. India recently slipped 8 places to 150 in 2022 WPFI from last year's 142nd rank out of 180 countries.

Pair 2 is correct: International Food Policy Research Institute (IFPRI) has released the Global Food Policy Report 2022 titled 'Climate change and food systems. It reported that:

- Global food production will grow by about 60% by 2050 as compared to the levels in 2010.
- However, regional differences in access to food mean that nearly 50 crore people would still remain at the risk of going hungry.
- India's food production could drop by 16%** and the number of those at risk of hunger could increase by 23% by 2030 due to climate change.

4) The average temperature across India will rise in the range of 2.4 degrees Celsius to 4.4 degrees Celsius by 2100 and heatwaves during summer are projected to triple by that year.

Pair 3 is incorrect: The State of Inequality in India Report has been released by the **Economic Advisory Council to the Prime Minister (EAC-PM) (not by NITI Aayog)** and written by the Institute for Competitiveness. The report presents a holistic analysis of the depth and nature of inequality in India. The report looks at five key areas that influence the nature and experience of inequality- income distribution, labour market dynamics, health, education and household characteristics. It reported that the share of the top 1% accounts for 6-7% of the total incomes earned while the **top 10% accounts for one-third of all incomes earned.**

Q.16) With reference to the initiatives taken by the multilateral organizations, consider the following pairs:

Initiative	Description
1. Contingent Reserve Arrangement of BRICS	It provides short term liquidity support to the members to help mitigate the Balance of Payments crisis.
2. Creating Investable Cities Initiative	It provides advisory support to help cities across Asia and the Pacific to meet their climate resilience goals.
3. Asian Development Fund	It provides grants to Asian Development Bank's most vulnerable developing member countries.

How many of the pairs give above are matched correctly?

- Only One pair
- Only Two pairs
- All the Three pairs
- None

Ans) c

Exp) Option c is the correct answer.

Pair 1 is correct: The **BRICS Contingent Reserve Arrangement** proposes to **provide short-term liquidity support to the members through currency swaps to help mitigating BOP crisis situation**, in case such a situation arises. The BRICS CRA will help India and other signatory countries to forestall short-term liquidity pressures, provide mutual support and further strengthen financial stability. It would also

contribute to strengthening the global financial safety net and complement existing international arrangements (from IMF) as an additional line of defence.

Pair 2 is correct: The **Asian Development Bank (ADB)** has launched a new initiative known as **Creating Investable Cities initiative**. It aims to provide direct advisory support to help cities across Asia and the Pacific to meet their climate resilience goals while improving their infrastructure and urban services. The Creating Investable Cities initiative, unveiled at the World Cities Summit in Singapore, will support these partner cities in mainstreaming climate resilience into their policies and projects, developing local resources mobilization strategies, and improve their access to private sector finance.

Pair 3 is correct: The **Asian Development Fund (ADF)** provides **grants to Asian Development Bank's poorest and most vulnerable developing member countries**. Established in 1974, the ADF initially provided loans on concessional terms. Grants were introduced in 2005, and beginning 2017, with ADB's concessional lending financed from its ordinary capital resources (OCR), the ADF has become a grant-only facility.

Q.17) Which of the following statement is correct with regard to the Bretton Woods Agreement?

1. The Agreement had a proposal of issuance of a new international reserve currency called the bancor.
2. Under it, every country had to peg their currency to the U.S. dollar which was in turn pegged to the price of gold.
3. It created three new organizations - International Monetary Fund, General Agreement on Tariffs and Trade and World Bank.

Select the correct answer using the code given below:

- a) 2 and 3 only
- b) 2 only
- c) 1 and 3 only
- d) 1 and 2 only

Ans) b

Exp) Option b is the correct answer.

The Bretton Woods Agreement was negotiated in July 1944 by delegates from 44 countries at the United Nations Monetary and Financial Conference held in Bretton Woods, New Hampshire. Thus, the name "Bretton Woods Agreement."

Option 1 is incorrect: The principal goals of Bretton Woods Agreement was to create an efficient foreign exchange system, preventing competitive devaluations of currencies, and promoting international economic growth. The primary designers of the Bretton Woods System were the famous British economist John Maynard Keynes and American Economist Harry Dexter White. Keynes' hope was to establish a powerful global central bank to be called the Clearing Union and **issue a new international reserve currency called the bancor (it did not materialize)**. White's plan envisioned a more modest lending fund and a greater role for the U.S. dollar, rather than the creation of a new currency. In the end, the adopted plan took ideas from both, leaning more toward White's plan.

Option 2 is correct: Under the Bretton Woods System, **gold was the basis for the U.S. dollar and other currencies were pegged to the U.S. dollar's value**. The system was a compromise between the fixed exchange rates of the gold standard, seen as conducive to rebuilding the network of global trade and

finance, and the greater flexibility to which countries had resorted in the 1930s to restore and maintain domestic economic and financial stability.

Option 3 is incorrect: The Bretton Woods Agreement also **created two important organizations**—the **International Monetary Fund (IMF)** and the **World Bank**. While the Bretton Woods System was dissolved in the 1970s, both the IMF and World Bank have remained strong pillars for the exchange of international currencies.

The General Agreement on Tariffs and Trade (GATT), established in April 1947 with 23 members, was the beginning of the multilateral trade system.

Knowledge Base: The **Bretton Woods System had crumbled** by 1973. The Bretton Woods System effectively came to an end in the early 1970s when President Richard M. Nixon announced that the U.S. would no longer exchange gold for U.S. currency. **Now the countries may adopt any exchange arrangement** for their currency at the time, except pegging its value to the price of gold.

Source: <https://www.investopedia.com/terms/b/brettonwoodsagreement.asp>
<https://blog.forumias.com/world-trade-organisation-must-get-back-to-trade/>

Q.18) In which of the following conditions does the outflow of capital from a country is most likely to occur?

- Devaluation of the domestic currency
- Decrease in tax rates in the domestic country
- Decrease in the interest rates in foreign nations
- Recent national elections giving a clear majority to a party.

Ans) a

Exp) Option a is the correct answer.

In economics, capital flight is a phenomenon characterized by large outflows of assets and/or capital from a country due to some events, resulting in negative economic consequences to that country. The events that can lead to capital outflows may be generally categorized as political or economic.

Option a is correct: The **flight of capital** can be triggered by some macroeconomic factors such as **exchange rate fluctuations**. The **devaluation** of the **domestic currency** lowers investors' confidence, causing them to withdraw their capital from a country.

Option b is incorrect: Other economic reasons may also trigger capital flight. These reasons include a significant **tax increase** or **declining interest rates**. For example, after the French government introduced its version of the wealth tax, the country experienced an exodus of wealthy individuals and their private capital.

Option c is incorrect: Both domestic (push) and external (pull) factors may create capital flight. An example for push is the **increase in interest rate by the US Fed** may make high returns for US financial assets. Increase in US interest rate implies more interest rate in US banks as compared to Indian banks. Here the US investors who have invested in India may find that US is also attractive now because of the rate of interest hike there. Also, decrease in interest rates in foreign nations will have the opposite effect. This will make India an attractive destination for the investors.

Option d is incorrect: Various **political events** frequently become the reasons for capital outflows from a country. For example, political turmoil (including political instability and risks of civil conflicts) may shake **investors' confidence** regarding the country's economic prospects, thus causing capital flight. Whereas elections providing clear majority to party is the sign of stable government, in such cases investor confidence is increased. This may cause more capital inflow in the economy.

Knowledge Base:

The sudden departure of large sums of money or assets is a detrimental event that triggers several negative consequences for the affected country. It reduces the strength of the economy as it means a loss of tax revenue. Additionally, rapid capital outflows reduce the purchasing power of citizens in the affected

country, and major assets may be devalued. Finally, it can trigger a sort of domino effect if other people become panicked and start withdrawing their capital.

The shift in investors' preferences (e.g., from risky investments to safe investments) can also contribute to capital flight. This is especially common for developing countries that are generally distinguished by a high level of risk.

In addition, the government plans to pursue nationalization (i.e., seizing private assets and placing them under the government's control) can be another trigger for capital outflows.

Source: <https://corporatefinanceinstitute.com/resources/economics/capital-flight/>

Q.19) Recently the International Monetary Fund agreed on a bailout package for Sri Lanka. Which of the following is the correct form of bailout provided in this case?

- Borrowing for crisis-prevention and crisis-mitigation for countries with very strong policy frameworks
- To provide policy support and affordable financing to strengthen members' resilience related to climate change.
- The financial assistance to meet balance of payments shortfalls that resulted from trade liberalization measures implemented by other countries.
- Extending financial support to low-income countries as they are facing protracted balance of payments problems.

Ans) d

Exp) Option d is the correct answer.

Bailout is a general term for extending **financial support to a country** facing a potential bankruptcy threat. It can take the form of **loans, cash, bonds, or stock purchases**. A bailout may or may not require reimbursement and is often accompanied by greater government oversight and regulations. When a country borrows from the IMF, it agrees to adjust its economic policies to overcome the problems that led it to seek funding.

Option a is incorrect: The **Flexible Credit Line (FCL)** was designed to meet the demand for **crisis-prevention and crisis-mitigation lending for countries with very strong policy frameworks and track records in economic performance**. This instrument was created as part of IMF reforms for lending to countries facing a cash crunch. To date, five countries—Chile, Colombia, Mexico, Peru and Poland—have had FCL arrangements. The FCL has provided a valuable backstop for these countries, and helped boost market confidence during a period of heightened risks.

Option b is incorrect: The **Resilience and Sustainability Facility (RSF)** complements the existing IMF lending toolkit by helping **low-income and vulnerable middle-income countries address longer-term challenges, including those related to climate change and pandemic preparedness**. The RSF was created under the Resilience and Sustainability Trust (RST) to provide policy support and affordable longer-term financing to strengthen members' resilience and sustainability, and contribute to prospective balance of payments stability.

Option c is incorrect: The **Trade Integration Mechanism (TIM)** was introduced by IMF in April 2004 to assist member countries to **meet balance of payments shortfalls that might result from trade liberalization measures implemented by other countries**. The TIM is not a special lending facility, but rather a policy designed to make resources more predictably available under existing IMF lending facilities. Three member countries (Bangladesh, the Dominican Republic, and the Republic of Madagascar) have so far requested and obtained support in accordance with the TIM.

Option d is correct: IMF had reached an Agreement on an Extended Fund Facility Arrangement with Sri Lanka. The **Extended Fund Facility (EFF)** and the corresponding Extended Credit Facility (ECF) for low-income countries are the Fund's main tools for medium-term support to countries facing protracted balance of payments problems.

For emerging and advanced market economies in crises, the bulk of IMF assistance has been provided through Stand-By Arrangements (SBAs) to address short-term or potential balance of payments problems. The Standby Credit Facility (SCF) serves a similar purpose for low-income countries.

Knowledge Base:

Bailout policies come in various forms, the most common being direct loans or guarantees of third-party (private) loans to the rescued entity. These direct loans are often on terms favouring the entity being rescued. Sometimes even direct subsidies are provided to the parties concerned. Stock purchases are also not uncommon.

Bailouts have several advantages. First, they ensure continued survival of the entity being rescued under difficult economic circumstances. Secondly, a complete collapse of the financial system can be avoided, when industries too big to fail start to crumble. The government in these cases steps in to avoid the insolvency of institutions that are needed for the smooth functioning of the overall markets.

Bailouts also have their disadvantages. Anticipated bailouts encourage a moral hazard by allowing not only promoters but also other stakeholders (customers, lenders, suppliers) to take higher-than-recommended risks in financial transactions. This happens because they start counting on a bailout when things go wrong.

Q.20) Consider the following statements with reference to the World Forestry Congress (WFC):

1. It is financed by Food and Agriculture Organization (FAO).
2. The Seoul Declaration was adopted at the recent World Forestry Congress.
3. The Congress is an intergovernmental meeting of delegations of member countries.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 2 only
- d) 1 and 3 only

Ans) c

Exp) Option c is the correct answer.

The **fifteenth World Forestry Congress** was hosted by the **Government of the Republic of Korea, in Seoul, from 2 to 6 May 2022.**

Statement 1 is incorrect: The **World Forestry Congress (WFC) is the largest and most significant gathering of the world's forestry sector** and it has been held **every six years**. The first Congress was held in Italy in 1926. **FAO has helped host countries organize the Congress since 1954. Responsibility for the organization and financing of each Congress lies with the host country (not FAO).**

Statement 2 is correct: The **Seoul Declaration was adopted at the XV World Forestry Congress**, held in Seoul, South Korea. The Declaration was **signed by 141 participant countries**. The declaration urges that responsibility for forests should be shared and integrated across institutions, sectors and stakeholders. Furthermore, it urges for investments in Forests, Circular Bioeconomy and Climate Neutrality and Need for Innovative Technologies and Mechanisms.

Statement 3 is incorrect: **World Forest Congress is not an intergovernmental meeting; it has no formal constituencies nor country delegations.** The implementation of recommendations is a matter for those to whom these are addressed – stakeholders like governments, international organizations, scientific bodies, forest owners, among others – in the light of their own particular circumstances. The Congress functions are advisory, not executive, and participants attend the Congress in their personal capacity. The implementation of recommendations is a matter solely for those to whom they are addressed in light of

their own particular circumstances - governments, international organizations, scientific bodies and forest owners, among others.

Source: <https://www.fao.org/newsroom/detail/newly-adopted-seoul-forest-declaration-identifies-priority-action-areas/en/>

<https://www.fao.org/event/world-forestry-congress/en#:~:text=Under%20the%20theme%20of%20Building,Goals%20%2C%20the%20Paris%20Agreement%20on>

Q.21) Supply of money remaining the same when there is an increase in demand for money, there will be:

- a) a fall in the level of prices
- b) an increase in the rate of interest
- c) a decrease in the rate of interest
- d) an increase in the level of income and employment

Ans) b

Exp) Option b is the correct answer.

If the demand increase when the supply is same, there will be a shortage, it will lead to an increase in prices. Similarly, when supply of money remains the same but the demand for it increases then there will be an increase in interest to be charged.

Q.22) With respect to the NHB Residex, consider the following statements:

1. It is India's first-ever official residential price index.
2. It was prepared by National Housing Bank on behest of Ministry of Housing and Urban Affairs.
3. The index can predict future trends of the housing market prices.

Which of the statements given above is/are correct?

- a) 1 and 3 only
- b) 2 and 3 only
- c) 1 and 2 only
- d) 3 only

Ans) a

Exp) Option a is the correct answer.

Statement 1 is correct: NHB RESIDEX is India's first-ever official residential price index. NHB Residex from the National Housing Bank, designed by a technical advisory committee comprising Government representatives, lenders and property market players, is a set of benchmarks that aims to track housing price indicators across Indian cities.

Statement 2 is incorrect: NHB RESIDEX, India's first official housing price index, was an initiative of the National Housing Bank (NHB), undertaken at the behest of the Government of India, Ministry of Finance (not the Ministry of Housing and Urban Affairs). The index was formulated under the guidance of a Technical Advisory Committee (TAC) comprising of stakeholders from the housing market.

Statement 3 is correct: NHB RESIDEX will help recognize current trends in micro as well as macro markets, and predict future behaviour of the housing market. It will be of immediate use to banks, HFCs, developers, and home-buyers.

Source: <https://nhb.org.in/en/about-residex/>

<https://residex.nhbonline.org.in/About-Residex.aspx>

Q.23) With reference to the multilateral bodies, consider the following pairs:

Institution	Function
1. International Bank for Reconstruction and Development	Providing loans to the middle income and creditworthy low-income countries.
2. International Development Association	Providing grants even without repayment liability to the countries to improve living conditions.
3. International Finance Corporation	Advises governments to encourage private investment and improving the investment climate in the Country.

How many of the pairs given above are matched correctly?

- Only One pair
- Only Two pairs
- All the Three pairs
- None of the pairs

Ans) c

Exp) Option c is the correct answer.

The World Bank Group is one of the world's largest sources of funding and knowledge for developing countries. Its five institutions share a commitment to reducing poverty, increasing shared prosperity, and promoting sustainable development.

These are:

- The International Bank for Reconstruction and Development
- The International Development Association
- The International Finance Corporation
- The Multilateral Investment Guarantee Agency
- The International Centre for Settlement of Investment Disputes.

Pair 1 is correct: The **International Bank for Reconstruction and Development (IBRD)** is a global development cooperative owned by 189 member countries. It supports the World Bank Group's mission by **providing loans, guarantees, risk management products, and advisory services to middle-income and creditworthy low-income countries**, as well as by coordinating responses to regional and global challenges.

Pair 2 is correct: The **International Development Association (IDA)** is the part of the World Bank that helps the world's poorest countries. Established in 1960, IDA aims to reduce poverty by **providing zero to low-interest loans** (called "credits") and **grants** for programs that boost economic growth, reduce inequalities, and improve people's living conditions.

IDA lends money on concessional terms. This means that IDA credits have a zero or very low interest charge and repayments are stretched over 30 to 40 years. More than half of IDA countries receive all, or half, of

their IDA resources on **grant terms, which carry no repayments at all**. These grants are targeted to the low-income countries at higher risk of debt distress.

In addition to concessional loans and grants, IDA provides significant levels of debt relief through the Heavily Indebted Poor Countries (HIPC) Initiative and the Multilateral Debt Relief Initiative (MDRI).

Pair 3 is correct: International Finance Corporation is the largest global development institution focused on the private sector in developing countries. IFC was founded in 1956 on an idea that the private sector has the potential to transform developing countries. It helps countries develop their private sectors in a variety of ways:

- Investing in companies through loans, equity investments, debt securities and guarantees.
- Mobilizing capital from other lenders and investors through loan participations, parallel loans and other means.
- Advising businesses and governments to encourage private investment and improve the investment climate.

Source: <https://www.worldbank.org/en/who-we-are/ibrd>

https://www.ifc.org/wps/wcm/connect/corp_ext_content/ifc_external_corporate_site/about+ifc_new
<https://ida.worldbank.org/en/what-is-ida>

Q.24) With reference to the Asian Development Bank (ADB), consider the following statements:

1. Japan has the maximum share in ADB, followed by China and India.
2. All the members have equal voting rights in decision making process of ADB.
3. For lending purposes, the member countries are categorized on the basis of per capita income and creditworthiness.

Which of the statements given above are **incorrect**?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) a

Exp) Option a is the correct answer.

The Asian Development Bank (ADB) is a regional development bank headquartered in Manila, Philippines. The ADB aims to provide for sustainable and inclusive economic growth by financing projects in areas like education and health, while also helping improve the capital markets and business infrastructure in target countries.

Statement 1 is incorrect: The **Asian Development Bank** has 67 members from Asia and the Pacific, of which 48 are from within Asia and the Pacific and 19 outside. **Japan owns 15.677% of ADB, followed by the United States (15.567%), China (6.473%), and India (6.473%).** ADB is also an official United Nations Observer.

Statement 2 is incorrect: The decision-making process of **Asian Development Bank** is similar to the World Bank's process and uses a **weighted voting method in which votes are awarded in proportion to members' capital contributions (and not the equal voting rights to all the members).**

Statement 3 is correct: ADB's Classification and Graduation Policy **determines the eligibility** of developing member countries (DMCs) to borrow **based on two main criteria, (1) per capita income and (2) creditworthiness.** DMCs are classified into:

- (a) Group A (Concessional assistance-only): those in need of greatest concessionality and eligible for Asian Development Fund (ADF) grants
- (b) Group B (OCR blend): those that need some concessionality, and
- (c) Group C (Regular OCR only): those in need of least concessionality. India is in this group.

DMCs within these groups are further differentiated to determine the mix of funds and lending terms they can access, based on ADB's (i) concessional assistance policy and (ii) policy on diversified financing terms.

Knowledge Base:

The bank was set up in 1966 under the leadership of Japan as one of the first industrialized states in Asia. India was a founding member of ADB in 1966 and is now the bank's fourth-largest shareholder and top borrower.

Source: <https://www.adb.org/who-we-are/about>

<https://www.adb.org/what-we-do/public-sector-financing/lending-policies-rates>

Q.25) Consider the following statements with respect to the “Declaration for the Future of the Internet”:

1. The declaration was launched by the Global Network Initiative.
2. India is not a party to this declaration.
3. The declaration aims to establish a code of practice for how democratic countries should engage with the web.

Which of the statements given above is/are correct?

- a) 1 and 3 only
- b) 2 and 3 only
- c) 1 and 2 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

Statement 1 is incorrect: The **United States (and not the Global Network Initiative)** launched the **Declaration for the Future of the Internet** jointly with more than 60 partners from around the world. The Declaration is a political commitment among partners to advance an affirmative vision for the Internet and digital technologies. The Declaration's principles include commitments to protecting human rights and fundamental freedoms of all people, **promote a global Internet that advances the free flow of information, advancing “inclusive and affordable” connectivity** and strengthening the multi-stakeholder approach to governance that keeps the Internet running for the benefit of all.

Statement 2 is correct: India, China and Russia are among the nations that have not signed this declaration. These Declaration's **principles are not legally binding** but should rather be used as a reference for public policymakers as well as citizens, businesses and civil society organizations.

Statement 3 is correct: The declaration was signed by 61 nations and **aims to establish a code of practice for how democratic countries should engage with the web. The declaration's vision for the internet is broad— aspiring to promote universal internet access, protect human rights, ensure fair economic competition, design secure digital infrastructure, promote pluralism and freedom of expression, and guarantee a multi-stakeholder approach to internet governance.** While this is an ambitious scope for a three-page nonbinding document, the priorities are admirable and reflect the diverse interests of the signatories.

<https://www.thehindubusinessline.com/info-tech/white-house-60-global-partners-launch-the-declaration-of-the-future-of-the-internet-india-not-on-the-list/article65366407.ece>

Q.26) With reference to the supply of oil and control of oil prices across the world, consider the following statements:

1. The OPEC+ nations regulate the prices of crude oil in market by adjusting the global supply of crude oil.
2. All oil production function of OPEC+ nations are performed by their respective National Oil Companies.
3. The output pact is an agreement among the OPEC+ nations to deal with sharp fall in global prices of oil.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 only
- c) 2 and 3 only
- d) 1 and 3 only

Ans) d

Exp) Option d is the correct answer.

OPEC stands for the Organization of the Petroleum Exporting Countries, was formed in Baghdad in 1960 by Iraq, Iran, Kuwait, Saudi Arabia, and Venezuela. It has 13 members apart from the founding members it include-Algeria, Angola, Congo, Equatorial Guinea, Gabon, Libya, Nigeria and the United Arab Emirates. Its headquarters is in the Austrian capital Vienna. In 2016, OPEC formed an alliance with other oil-producing nations to create OPEC+. The 10 countries now in OPEC+ include Azerbaijan, Bahrain, Brunei, Kazakhstan, Malaysia, Mexico, Oman, Russia, South Sudan, and Sudan.

Statement 1 is correct. OPEC+ nations **hold the power to control the supply and demand of crude oil** to balance the market. As Oil and gas stocks are influenced by the cost of oil. OPEC directly influences the value of these stocks. OPEC+ regulates the supply of oil in order to influence the price of the commodity on the world market. The group can achieve this by **coordinating supply cuts when the price is deemed too low and supply increases** when its members believe prices are too high. They keep prices high by lowering supplies when the demand for oil slumps.

Statement 2 is incorrect. In OPEC countries most of the oil production functions are performed by the **National oil companies (NOC)**. Whereas the oil production function in non-OPEC countries (Azerbaijan, Bahrain, Brunei, Kazakhstan, Malaysia, Mexico, Oman, Russia, South Sudan, and Sudan) which export crude oil and together with OPEC nations form the **OPEC+ group, is performed by International or Investor-owned oil companies (IOC)**.

Statement 3 is correct. The **OPEC+ group of countries enter into a two-year agreement with each other** known as **output pact proposal** which entailed to steep cuts in crude production to deal with any sharp fall in the price of oil if economic activity around the world crashes. The OPEC+ cannot enter into such output pact proposal with non-OPEC+ countries individually, as it will defeat the purpose of OPEC+ as a group to control over the production or prices of crude oil.

Q.27) Which of the following are the advantages of currency-swap arrangements for India?

1. Does not carry any exchange rate risks.
2. May help in bringing down the cost of capital for Indian entities while accessing foreign capital market.
3. May strengthen the Indian rupee.
4. Increases the investors' confidence in India.

Select the correct answer from the code given below:

- a) 1, 2 and 3 only
- b) 2, 3 and 4 only
- c) 1, 3 and 4 only
- d) 1, 2, 3 and 4

Ans) d

Exp) Option d is the correct answer.

Currency swap arrangement is an arrangement between two friendly countries **to involve in trading in their own local currencies**. As per the arrangements, **both countries pay for import and export trade at the pre-determined rates of exchange**, without bringing in third country currency like the US Dollar.

Statement 1 is correct: These **swap operations carry no exchange rate** or other market **risks** as transaction terms are set in advance. Hence, it provides benefit to the country which is getting dollars to use reserves at any time in order to maintain an appropriate level of balance of payments or short-term liquidity. It will aid in bringing greater stability to foreign exchange and capital markets in India.

Statement 2 is correct: A **currency swap** is a swap that involves the exchange of cash flows denominated in two currencies. It will not only enable the agreed amount of capital being available to India on tap for use, it would also help in bringing down the cost of capital for Indian entities while accessing foreign capital market.

Statement 3 is correct: A dollar swap arrangement would help India in **supporting the rupee**, which has depreciated significantly against the US currency over the past few months due to various global and domestic factors. Currency swaps have emerged as an important derivative tool after the global financial crisis of 2008 to hedge the exchange rate risks.

Statement 4 is correct: **Swap agreements** in US dollar provide **confidence** to the market and prevent excess volatility in financial and foreign exchange markets.

Knowledge Base:

Under currency swap arrangements, a country provides dollars to a foreign central bank which at the same time provides the equivalent funds in its currency to the former based on the market exchange rate at the time of the transaction. The parties agree to swap back these quantities of their two currencies at a specified date in the future which could be the next day or even two years later using the same exchange rate as in the first transaction.

Source: https://economictimes.indiatimes.com/markets/forex/india-exploring-benefits-of-currency-swap-agreements/articleshow/21678758.cms?utm_source=contentofinterest&utm_medium=text&utm_campaign=cppst

Q.28) Which of the following is/are the reasons for divergence between Wholesale Price Index (WPI) and Consume Price Index (CPI) based Inflation rates in recent times?

1. The food articles have a higher weightage in WPI than in CPI.
2. The services group that makes about one-fourth of the CPI weightage, is not included in WPI.
3. The contribution of fuel group in WPI inflation is higher than CPI.

Select the correct answer using the code given below.

- a) 1, 2 and 3
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1 and 2 only

Ans) b

Exp) Option b is the correct answer.

The year-on-year inflation rate based on the WPI, and the CPI-C has recorded a divergence since June 2019. Between June 2019 and February 2021, wholesale inflation was lower than retail inflation, while between March 2021 and December 2021, wholesale inflation remained above the retail inflation. This divergence relies on certain factors.

Statement 1 is incorrect. One of the major reasons for the **CPI inflation being higher than WPI inflation** has been that **food articles** had a higher weight (48.3 per cent) in CPI than in WPI (24.3 percent). This factor plays an important role whenever the primary trigger of inflation is food inflation. The retail food inflation can rise sharply due to **supply chain disruptions**. As supply-side bottlenecks eased, and effective supply-side measures are taken particularly for certain items food inflation witnesses a decline. The high weight of food in the CPI makes CPI more responsive to changes in food prices over WPI. Hence any food inflation can cause the CPI inflation rates to take a lead over WPI.

Statement 2 is correct. The **Services group in CPI**, makes up about a **one-fourth of the index (28.3)**, includes education, health, recreation, and goods such as gold jewellery **but this Services group are not included in WPI**. This missing of services group creates a huge divergence in the items included of CPI and WPI and hence a great divergence in their calculation.

Statement 3 is correct. The inflation in CPI subgroup ‘transport and communication’, includes the petrol and diesel for vehicle is **steadily inched up**, while **WPI’s sub-group ‘fuel and power’**, which includes petrol and diesel mostly **remains very volatile**. Hence, the contribution of fuel group in WPI inflation was **higher on account of their higher weight in the index** as compared to that of subgroup ‘transport and communication’ in the CPI. Hence there is huge divergence in the value of WPI and CPI due to different weightage of these fuel items.

Source: <https://www.indiabudget.gov.in/economicsurvey/doc/eschapter/echap05.pdf>

<https://www.thehindubusinessline.com/opinion/understanding-the-cpiwpi-divergence/article7924096.ece>

Q.29) Consider the following pairs:

Type of Indices	Released By
1. Wholesale Price Index	Office of Economic Advisor
2. Consumer Price Index of Industrial workers	Ministry of Labour & Employment.
3. GDP Deflator	Ministry of Statistics and Programme Implementation
4. Producer Price Index	Bureau of Labor Statistics.

How many pairs given above is/are correct?

- One pairs only
- Two pairs only
- Three pairs only
- All the four pairs

Ans) c

Exp) Option c is the correct answer.

A price index (PI) is a measure of how prices change over a period, or in other words, it is a way to measure inflation. There exists certain types of Price Indices like-Whole Sale price index; Consumer Price Index; Producer Price Index; Export price index; Import price index; GDP deflator etc which is adopted by different countries as per the demand in their economies.

Pair 1 is correct. The **Wholesale Price Index (WPI)** is the price of a representative basket of wholesale goods. It covers a broad range of goods, from raw materials to finished manufacturers. This index measures the changes in the price of goods and services at the wholesale market. In India, the WPI is **published by the Office of the Economic Adviser**, Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry, Government of India. The Wholesale Price Index (WPI) in India is available monthly only.

Pair 2 is correct. The **Consumer Price Index of Industrial workers** is released by the **Labour Bureau, an attached office of the Ministry of Labour & Employment**. The index is **compiled every month** based on the retail prices collected from 317 markets spread over 88 industrially important centres in the country.

Pair 3 is correct. The GDP deflator is also called as **implicit price deflator**. It is a measure of inflation that is represented as the ratio of the value of goods and services an economy produces in a particular year at current prices to that of prices that prevailed during the base year. GDP deflator is published by the **Ministry of Statistics and Programme Implementation** and is available only on a quarterly basis along with GDP estimates.

Pair 4 is incorrect. **Producer Price Index (PPI)** measures the average change in the price a producer receives for his goods/services sold in the domestic market/exports. **PPI is not measured and calculated in India** till yet, but **NITI AYOJ is preparing it to release it soon**. PPI is a totally new concept for India. It will track inflation minus tax component. The most important part of PPI will be services, as currently there is no index tracking inflation in the sector that contributes about 55% to India's GDP. Whereas it is **in US that this index is published monthly by the Bureau of Labor Statistics**.

Knowledge Base:

In India, there are four consumer price index numbers, which are calculated, and these are as follows:

- (a) CPI for Industrial Workers (IW)
- (b) CPI for Agricultural Labourers (AL)
- (c) CPI for Rural Labourers (RL) and
- (d) CPI for Urban Non-Manual Employees (UNME).

While the Ministry of Statistics and Program Implementation collects CPI (UNME) data and compiles it, **the remaining three are collected by the Labour Bureau in the Ministry of Labour**.

Q.30) With reference to the various space missions to Venus, consider the following statements:

1. DAVINCI+ is a NASA mission to study various geological features of Venus.
2. VERITAS was launched by the European Space Agency to create a 3-dimensional reconstruction of the topography of Venus.

SFG 2023 | LEVEL 1 | Test #16 – Solutions | ForumIAS

3. ISRO will launch its first ever mission to Venus called Shukrayaan, when Venus will be in close proximity to Earth.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

Statement 1 is correct: DAVINCI+, 'Deep Atmosphere Venus Investigation of Noble gases, Chemistry, and Imaging', is one of the two **missions of NASA to study planet Venus**. It is the first US-led mission to the planet's atmosphere since 1978. It will try **to understand Venus' composition** to see how the planet formed and evolved. It will make observations and take measurements of noble gases and other elements. Significantly, this mission will also try to return the **first high resolution photographs of a geological feature** that is unique to Venus. This feature, which is called "tesserae" may suggest that Venus has tectonic plates like Earth.

Statement 2 is incorrect: VERITAS, 'Venus Emissivity, Radio Science, InSAR, Topography, and Spectroscopy' **is also a NASA mission to Venus**. It will map the planet's surface to determine its geologic history and understand the reasons why it developed so differently from Earth. VERITAS will orbit Venus with a radar that will help to **create a three-dimensional reconstruction of its topography** which might be able to tell scientists if processes such as plate tectonics and volcanism are still active there. This mission will also map the emissions from Venus's surface that may help in determining the type of rocks that exist on Venus. It will also determine if active volcanoes are releasing water vapour into the atmosphere.

Statement 3 is correct: Indian Space Research Organization (ISRO) is planning to **launch its first ever Venus Mission, called Shukrayaan, in 2024**. It aims to study the Venusian atmosphere which is toxic and corrosive in nature as clouds of sulphuric acid cover the planet. The space agency is targeting a launch date in December 2024 when the earth and Venus will be in such close proximity that the spacecraft can be placed in Venus' orbit with the least amount of propellant. The next similar window would be available in 2031.

Source: <https://indianexpress.com/article/explained/nasa-missions-to-venus-davinci-veritas-explained-7342499/>

<https://www.thehindu.com/sci-tech/science/isro-plans-mission-to-venus-eyes-dec-2024-launch-window/article65382339.ece>

Q.31) With reference to land reforms in independent India, which one of the following statements is correct?

- a) The ceiling laws were aimed at family holdings and not individual holdings.
- b) The major aim of land reforms was providing agricultural land to all the landless.
- c) It resulted in cultivation of cash crops as a predominant form of cultivation.
- d) Land reforms permitted no exemptions to the ceiling limits.

Ans) b

Exp) Option b is the correct answer.

Option a is incorrect: In some states the unit of application of the land reforms on the basis of individual while in some states the 'family' was the unit for determining the land holding ceiling.

Option b is correct: The main objective of the land reforms was the redistribution of land across society so that land is not held in the hands of a few people. Land ceiling was adopted to disburse surplus land amongst small and marginal farmers and the landless.

Option c is incorrect: One of the aims of the land reforms was to switch from cash crops to food crops. It resulted in increase in production of food crops.

Option d is incorrect: Numerous exemptions in the ceiling limits were an important factor which limited the success of land reforms in independent India.

Source: UPSC CSE Pre 2019

Q.32) With reference to taxation for Hindu Undivided Family (HUF) under Income Tax Act of 1961, consider the following statements:

1. A Hindu Undivided Family can be created through a contract under the provisions of Income tax act.
2. Hindu Undivided Family is treated as a 'person' under the Income-tax Act.
3. Only the members of the community governed by Hindu Law can form a HUF for the taxation purpose.

Which of the statements given above are **incorrect**?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

Hindu Undivided Family is treated as a 'person' under the Income-tax Act, 1961. The purpose of behind Hindu Undivided Family is to pool the asset of members to get the tax benefits.

Statement 1 is incorrect: HUF is created through marriage automatically and cannot be created through contract. It is automatically created in a Hindu family. For example, a family of two spouses along with children can create an HUF and get certain relaxation in computation of taxes.

Statement 2 is correct: Hindu Undivided Family ('HUF') is treated as a 'person' under section 2(31) of the Income-tax Act, 1961. HUF is a separate entity for the purpose of assessment under the Act.

Under Hindu Law, an HUF is a family which consists of all persons lineally descended from a common ancestor and includes their wives and unmarried daughters. An HUF cannot be created under a contract, it is created automatically in a Hindu Family.

Statement 3 is incorrect: HUF for the purpose of tax benefit can be formed by family who is not governed by Hindu law. Jain and Sikh families even though are not governed by the Hindu Law, but they are treated as HUF under the Act. HUF has a separate entity for the purpose of assessment under the Act.

Q.33) With reference to foreign entities working in India, consider the following statements:

1. If a foreign company is a resident company of India than their entire income, including their global income is liable to be taxed in India.
2. A Liaison Office is mandatorily subjected to payment of income tax in India.
3. Branch office of a foreign entity can acquire immovable property in India.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer

According to the Companies Act 2013, a foreign company is a body incorporated outside India. It conducts business through an agent or by itself, operates physically or electronically and in any other manner in India. They are governed by the rules and policies of FDI, FEMA, RBI and Companies Act 2013. In order to conduct its business any foreign entity has the following

- 1) Joint Venture with an Indian Company
- 2) Wholly owned subsidiary company
- 3) Liaison Office
- 4) Project Office
- 5) Branch Office
- 6) Limited Liability Partnerships (LLP)

Statement 1 is correct: If the place of effective management (POEM) of a foreign company is in India, then the foreign company will be deemed to be a resident company. If it is a resident company, then their entire income (including their global income) is liable to be taxed in India.

Statement 2 is incorrect: A **Liaison Office (LO)** is an office that facilitates close working relationships between the parent company across India and the business parties in India. **Liaison offices cannot earn any income in India and generally not subject to Income Tax in India.** Since they cannot conduct business activities and hence cannot earn profit due to Indian exchange control regulations.

Statement 3 is correct: A **Project Office or Branch Office is treated as an Indian Permanent Establishment of its Foreign headquarter. The Branch office or project office of a foreign entity have the permission to acquire property for their own use.** But It cannot acquire property for leasing or renting out. However, entities from Pakistan, Bangladesh, Sri Lanka, Afghanistan, Iran, Nepal, Bhutan, China, Hong Kong and Macau require prior approval by the Reserve Bank before acquiring any immovable property in India.

Knowledge Base: In October 2021, the international community agreed a landmark deal to establish a global minimum effective corporate tax rate of 15% for large multinational enterprises (MNEs). It has important implications for the use of tax incentives around the world.

Source: <https://www.investindia.gov.in/taxation>

<https://www.rbi.org.in/commonperson/English/Scripts/FAQs.aspx?Id=1303#Q4>

Q.34) Consider the following pairs:

Entities	Tax incentives given in India.
1. Special Economic Zone	100% exemption provided from income tax on export for first 10 years.
2. Start-ups	Investments made above the fair market

- value in eligible start-ups are exempted from tax.
3. International Financial Service Sector Investors are not mandated to pay GST on (IFSC) investments carried out in IFSC.

Which of the pairs given above is/are correct?

- a) 1 only
 b) 2 and 3 only
 c) 1 and 3 only
 d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

A tax incentive is a government measure that aimed at encouraging individuals and businesses to spend or to save money by reducing the amount of tax that they have to pay.

Statement 1 is incorrect: Special Economic Zone (SEZ) is a geographical region in a country which is subject to special regulations which are less restrictive than those governing the rest of the country. 100% Income Tax exemption on export income for SEZ units under Section 10AA of the Income Tax Act for first 5 years, 50% for next 5 years thereafter and 50% of the ploughed back export profit for next 5 years.

Statement 2 is correct: The government has exempted the eligible start-ups for **tax being levied on investments above the fair market value**. Such investments include **investments made in eligible startups by resident** angel investors, family or funds which are not registered as venture capital funds. Also, the investments made by incubators above fair market value is exempt.

Statement 3 is correct: International Financial Services Centre (IFSC) attends to customers outside the jurisdiction of the domestic economy. **Gujarat International Finance Tec-City (GIFT)** is India's first International Financial Services Centre (IFSC). In IFSC, Goods and Services Tax (GST) Benefits provided to:

1) Investors: No GST will be levied on transactions carried out in IFSC exchanges

2) Units in IFSC: No GST on services: (a) received by unit in IFSC.

(b) provided to IFSC / SEZ units and Offshore clients

However, GST applicable on services provided to Domestic Tariff Area.

Q.35) Which among the following are the members of the North Atlantic Treaty Organization (NATO)?

1. Poland
2. Finland
3. Greece
4. Sweden
5. Lithuania

Select the correct answer using the code given below:

- a) 1, 2 and 4 only
 b) 1, 3 and 5 only
 c) 2, 3 and 4 only

d) 3, 4 and 5 only

Ans) b

Exp) Option b is the correct answer.

NATO is an **intergovernmental military alliance** between **30 member states – 28 European and two North American**. Established in the aftermath of World War II, the organization implements the North Atlantic Treaty, which was signed in Washington, D.C., on 4 April 1949.

Option 1, 3 and 5 are correct. At present, NATO has 30 members. In 1949, there were 12 founding members of the Alliance: **Belgium, Canada, Denmark, France, Iceland, Italy, Luxembourg, the Netherlands, Norway, Portugal, the United Kingdom and the United States**. The other member countries are: **Greece and Turkey (1952), Germany (1955), Spain (1982), the Czech Republic, Hungary and Poland (1999), Bulgaria, Estonia, Latvia, Lithuania, Romania, Slovakia and Slovenia (2004), Albania and Croatia (2009), Montenegro (2017) and North Macedonia (2020)**. Provision for enlargement is given by Article 10 of the North Atlantic Treaty. NATO **currently recognizes Bosnia and Herzegovina, Georgia, and Ukraine as aspiring members**, and has invited **Finland and Sweden** to join the alliance after their applications for membership, **but they are not members as of now**.

Source: <https://www.nato.int/nato-welcome/index.html>

Q.36) Consider the following statements, with reference to different taxes in India:

1. Commodities transaction tax is imposed on agricultural commodities traded at commodities exchange markets.
2. Securities transaction tax is charged only when the profit is made by selling or buying of securities.
3. Recently the Government has introduced the wealth tax on the assets acquired by an Indian citizen.

Which of the statements given above is/ are **incorrect**?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

A type of tax where the impact and the incidence fall on the same person can be defined as a Direct Tax. The tax is paid directly by the organisation or an individual. E.g., income tax. The Net Direct Tax collection of direct tax for financial year 2022-2023 is of Rs. 7,00,669 crores. It includes Corporation Tax (CIT) at Rs. 3,68,484 crore and Personal Income Tax (PIT) including Securities Transaction Tax (STT) at Rs. 3,30,490 crores

Statement 1 is incorrect: The Commodity Transaction tax is **levied on non-agricultural commodities** e.g., silver, gold, and non-ferrous metals like copper as well as energy products such as natural gas and crude oil. It is imposed at the **rate of 0.01%**.

Commodity transaction tax was introduced in the 2013-14 Union Budget. The tax was introduced to differentiate between derivative trading in the commodities market and derivative trading in the securities market.

Statement 2 is incorrect: securities transaction tax is levied on purchasing and selling of securities irrespective of loss or profit made. It is levied and collected by the central government.

Securities transaction tax or STT was introduced in the year 2004. It aimed at avoiding tax evasion in case of capital gains According to the Securities Contract Act, 1956, following are the transactions covered under the same.

- (a) Shares, bonds, debentures
- (b) Derivatives traded in the market
- (c) Units issued by any collective investment scheme to customers
- (d) Government securities that are share in nature.
- (e) Rights or interests in securities
- (f) Mutual funds that are based on equity trading

Statement 3 is incorrect: wealth tax was a type of direct tax that was abolished in 2016. Under the wealth tax act 1957, Wealth tax was levied on individuals, Hindu Undivided families and companies. **It was calculated on assets acquired, at the end of a financial year.** Also, tax was charged on the market value of assets owned regardless of whether they generate profit or not. As the collection of tax was expensive than the benefit derived. It was abolished due to administrative issues. However, wealth tax on individuals was replaced with an additional surcharge of 2 per cent on those having taxable income of over Rs 1 crore. In 2019, the surcharge further increased to 3% on those earning Rs 2.5 crores and 7% for those earning above Rs. 5 crores.

Knowledge Base: The figures of Direct Tax collections for the FY 2022-23, show that net collections are made at Rs. 7,00,669 crores as compared to Rs. 5,68,147 crores in the corresponding period of the preceding Financial Year i.e., FY 2021-22. Hence there is an increase of 23%.

Q.37) With reference to indicators measuring tax efficiency in India, Consider the following statements:

1. Tax buoyancy refers to the change in amount of government revenue generated due to varying tax rate.
2. Tax elasticity refers to the increase in government revenue with respect to change in GDP in a year.
3. Higher tax buoyancy may decrease the interest rates for borrowing from the market.
4. High tax elasticity is desirable for the higher economic growth in country.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 4 only
- d) 3 and 4 only

Ans) d

Exp) Option d is the correct answer.

Taxes are the source of revenue for the government. It is essential to have an indicator measuring the efficiency and revenue mobilization. It helps in determining the level of taxation in a country. Such indicators include:

Statement 1 is incorrect: Tax Buoyancy is calculated as a ratio of percentage growth in tax revenues and growth in nominal GDP for a given year.

1) Tax buoyancy = change in tax revenue / change in GDP

Tax is said to be buoyant if the gross tax revenues increase more with respect to a rise in GDP figures.

Statement 2 is incorrect: Tax Elasticity refers to change in tax revenue in response to change in tax rate. For example, the corresponding changes in tax revenue when the government reduces corporate income tax from 30 per cent to 25 per cent indicates tax elasticity.

Statement 3 is correct: Tax buoyancy is an important factor to know the expected level of government borrowings from the debt market. **Higher tax buoyancy mean that the government need to borrow less**

from the debt market. This results in lowering the interest rates. And corporates would borrow loan at low interest rate.

IMF study of 34 OECD nations in 2014 found that countries who had long-term tax buoyancy figures above one, also improved their deficit ratios.

Statement 4 is correct: A high tax elasticity is said to be a particularly desirable feature in economy. It leads to higher economic growth. It helps the government financing the expenditure related to development by rising tax revenue. Instead of increasing tax or borrowing from the market which leaves little space for the corporate sector to borrow.

Source: <https://www.thehindubusinessline.com/economy/tax-buoyancy-improves-thanks-to-indirect-levy/article64303208.ece>

<https://www.elibrary.imf.org/view/journals/001/2014/110/article-A001-en.xml?language=en>

Q.38) With reference to the tax authorities in India, Consider the following statements:

1. Directorate of revenue intelligence works under the Central Board of Indirect taxes and Customs (CBIC).
2. Central Board of Direct taxes is a non-statutory body.
3. Proceedings against Benami transactions cannot be started by an officer of rank less than an Assistant Commissioner of Income tax.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

The taxation in India is dealt by two agencies:

- 1) Central Board of Indirect taxes and Customs (CBIC) authority responsible for governing indirect taxes such as GST, central excise, customs, among others in India
- 2) Central Board of Direct Taxes (CBDT) authority dealing with laws related to direct taxes through the Department of Income tax.

They both come under the Department of Revenue of Ministry of Finance.

Statement 1 is correct: Department of Revenue Intelligence (DRI) works under the Central Board of Indirect Taxes & Customs, Ministry of Finance, Government of India. It is an anti-smuggling agency of India. It is assigned with task of detecting and checking the smuggling of prohibited items. Such items include drug trafficking and illicit international trade in wildlife and environmentally sensitive items. It is also tasked with combating commercial frauds related to international trade and evasion of Customs duty.

Statement 2 is incorrect: The Central Board of Direct Taxes is a statutory authority under the Central Board of Revenue Act, 1963. Earlier The Central Board of Revenue under central board of revenue act, 1924 was charged with the administration of taxes. Initially the Board was in charge of both direct and indirect taxes. In 1964, the Board was split up into two bodies, namely the Central Board of Direct Taxes and Central Board of Excise and Customs.

Statement 3 is correct: Benami transaction is defined under Benami transaction (prohibition) act, 1988. In simpler terms benami transaction is if a person has paid for a certain property but it is transferred to another person's name. **Investigation for such transaction is initiated by the assistant commissioner of Income Tax.** The power is conferred to him under Income tax Act, 1961.

Q.39) With reference to Goods and Services Tax (GST), consider the following statements:

1. GST collection by the government has increased steadily during the last five years.
2. GST can be levied on a pre-packed and labelled food item even if it is non-branded.

Which of the statements given above is/are correct?

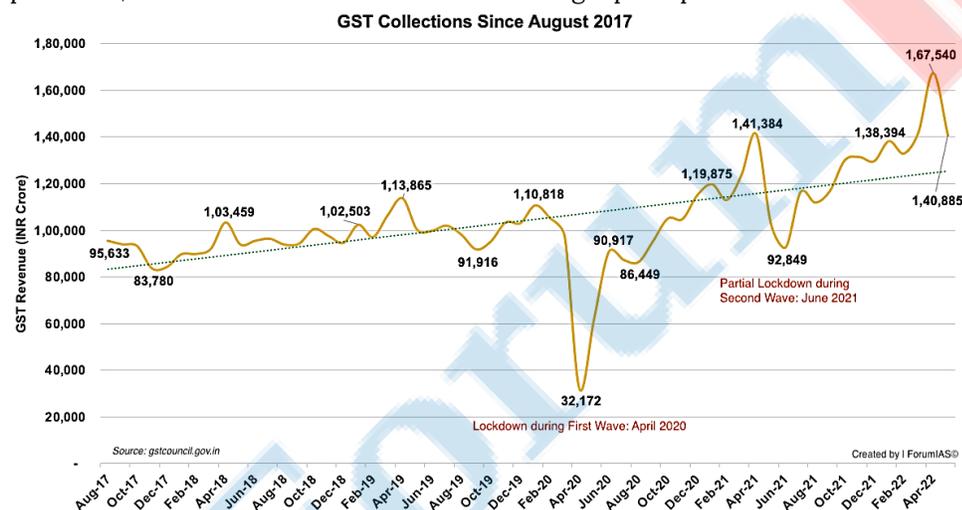

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) b

Exp) Option b is the correct answer.

GST is an indirect tax was passed under Goods and Service Tax Act which came into effect on 1st July 2017. It has replaced many indirect taxes in India such as the excise duty, VAT, services tax. It is a destination-based consumption tax that is levied on every value addition. GST is applicable on supply of goods or services.

Statement 1 is incorrect: GST collection has not steadily increased during the period between 2017-2022. In the initial 2 years, low revenue from GST was collected because of implementation issues like compliance problems, lower awareness. Then there was a big dip in April 2020.

Statement 2 is correct: The GST Council has approved the 5% tax from July 2022 on unbranded packed food items that are sold in pre-packed and labelled form. It has been levied on several unbranded food items and grains that are sold in a pre-packed and labelled form. It includes curd, lassi, buttermilk, puffed rice, wheat, pulses, oats, maize, and flour. However, it will be exempted if sold loose. It was done to check tax leakages.

Source: statement 1: <https://www.business-standard.com/about/what-is-revenue-budget>

Statement 2: <https://blog.forumias.com/five-years-of-gst-achievements-challenges-and-way-ahead/>

Q.40) Which of the following action can most likely lead to further 'dollarization' of the Indian economy?

- a) Paying import bill exclusively in the dollars.
- b) Allowing full capital account convertibility.
- c) Increasing the India's IMF shareholding in dollars.
- d) Adoption of cryptocurrency.

Ans) d

Exp) Option d is the correct answer.

Dollarization is a form of currency substitution, where dollars are used in addition to or instead of the local currency of a country.

Option a is incorrect: According to some research papers, **Indian EXIM (import export) transactions are already dominated by dollars**. 86% of both Indian imports and exports are invoiced in dollars, though only 5% of India's imports and 15% of exports are from and to the US. Since it is **already dominated by dollars paying import bill exclusively in the dollars would not lead to further dollarization**. Furthermore, it would **also not affect the domestic or local usage of the currency**.

Option b is incorrect: Capital account convertibility (CAC) means the **freedom to conduct investment transactions without any constraints**. In other words, CAC means there is no restrictions on the amount of rupees an Indian resident can convert into foreign currency to enable to acquire any foreign asset. Inflows and outflows of the foreign and domestic capital, which are prone to volatility, can lead to excessive appreciation/depreciation of their currency and impact the monetary and financial stability. Thus, **full Capital account convertibility would not lead to dollarization but rather make domestic currency more volatile**.

Option c is incorrect: **Increasing the shareholding denominated** in dollars in **International Monetary Fund** would have **no impact whatsoever** in dollarization of economy.

Option d is correct: Almost **all cryptocurrencies are dollar-denominated** and issued by foreign private entities, it **may eventually lead to dollarization of a part of our economy which will be against the country's sovereign interest**. RBI officials have also said these currencies 'can replace a part of monetary system it will also undermine the RBI's capacity to regulate the flow of money in the system'.

Source: <https://economictimes.indiatimes.com/news/economy/policy/cryptos-can-lead-to-dollarisation-of-economy-rbi-officials-to-par-panel/articleshow/91577208.cms>

Q.41) Under which of the following circumstances may 'capital gains' arise?

1. when there is an increase in the sales of a product
2. when there is a natural increase in the value of the property owned.
3. when you purchase a painting and there is a growth in its value due to increase in its popularity.

Select the correct answer using the codes given below:

- a) 1 only
- b) 2 and 3 only
- c) 2 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

Capital gain is an increase in a capital asset's value and is considered to be realized when the asset is sold. Realized capital gains and losses occur when an asset is sold, which triggers a taxable event. Unrealized gains and losses, sometimes referred to as paper gains and losses, reflect an increase or decrease in an investment's value but are not considered a capital gain that should be treated as a taxable event.

Increase sale of a product doesn't imply the increase of value of that product. So, no capital gain.

Q.42) Which of the following measures are likely to be adopted by the Government/RBI to tackle inflation?

1. Increase in indirect taxes
2. Surplus budget
3. Increasing Cash Reserve Ratio

4. Decreasing the Repo Rate

Select the correct answer using the code given below:

- a) 1 and 2 only
- b) 1, 2 and 3 only
- c) 2 and 3 only
- d) 1, 2, 3 and 4

Ans) c

Exp) Option c is the correct answer.

Option 1 is incorrect. Increase in Indirect tax rate like Goods and service tax (GST), excise duty will **push the price further up**. So, reducing the indirect tax rate is a measure used by the government to curb inflation. For example, government reduced the GST rate of COVID-19 medicines and instruments to five per cent.

Option 2 is correct. Surplus budget means less expenditure than receipts. It reduces the money supply and government demand for goods and services. The price level will be brought down due to this.

Option 3 is correct. Scheduled banks are required to keep a certain percentage of their Net Time and Demand Deposits with RBI. Thus, the **increased CRR means less money with banks to lend** which will reduce the money supply in the economy.

Option 4 is incorrect. Repo rate is the rate at which the commercial banks borrow money from RBI by mortgaging their dated government securities and treasury bills. **The decreased repo rate means the cheaper credit access to banks** from RBI which will ultimately **increase the money supply** in the economy. Source: Indian economy Key concepts (Indian financial market, Inflation and deflation)

Q.43) The retail selling price of the non-subsidised LPG cylinder for the Indian customer is determined mainly by which of the following?

- 1. Exchange rate of Indian rupee against dollar
- 2. Transportation cost
- 3. Direct Benefit Transfer provided to consumers
- 4. Marketing Costs
- 5. Price of crude oil in the international market

Select the correct answer using the code given below:

- a) 1, 2, 3 and 4 only
- b) 2 and 5 only
- c) 1, 3 and 5 only
- d) 1, 2, 4 and 5 only

Ans) d

Exp) Option d is the correct answer.

LPG pricing in India is done on the basis of a formula – import parity price (IPP). The IPP is determined based on LPG prices in the international market, assuming that the fuel is imported into the country.

Option 1 is correct: An increase in international LPG prices or **weakness in the rupee**, or both, translate into higher LPG prices in India. Thus, the exchange rate of the Indian rupee is detrimental in the price of LPG cylinder. International LPG prices tend to move in tandem with the **price of crude oil**, the key raw material.

Option 3 is incorrect: As the question is about the determination of **prices of non-subsidised LPG** in India, thus the subsidy provided is not detrimental in selling price of the non-subsidised LPG cylinder. The price of LPG cylinders in India is reset on a **monthly basis**, effective from the first of every month.

Option 2, 4 and 5 are correct: LPG pricing in India is done on the basis of a formula – **import parity price (IPP)**. The IPP is determined based on LPG prices in the international market. The IPP includes **ocean freight (transportation cost), insurance, custom duties, port dues, etc.** This price, quoted in dollars, is then converted to rupees. To this is added the cost of **inland freight, marketing costs and margins charged by the oil companies, bottling charges, dealer commission and the GST**. This gives the retail selling price of the non-subsidised LPG cylinder for the Indian customer.

Source: <https://www.thehindubusinessline.com/opinion/columns/slate/all-you-wanted-to-know-about-lpg-pricing-formula/article30496150.ece>

Q.44) Which of the following factors is/are responsible for influencing the prices of gold in India?

1. Inflationary conditions in the economy
2. Rise in Global Crude Oil Prices
3. Increase in Government Reserves
4. Good Harvesting Season for rural economy
5. International value of the US dollar

Select the correct answer using the code given below.

- a) 1 and 2 only
- b) 1, 2 and 3 only
- c) 1, 3 and 5 only
- d) 1, 2, 3, 4 and 5

Ans) d

Exp) Option d is the correct answer.

Gold is always considered as a very important monetary asset across the world. It is a safe investment in the long run.

Statement 1 is correct. Gold prices react to inflation, Indians prefer to invest in gold. When **inflation rises the currency values go down**. Thus, people tend to hold money in the form of gold. When inflation lasts high for a long period of time, gold acts as a hedging tool (tools that limit risk exposures in financial assets) against inflationary conditions. As the value of **currency keeps fluctuating, gold value is considered stable** in the long run.

Statement 2 is correct. **Crude oil price** that is one of the major contributors in the inflation of the economy can **dictate the gold prices in the market**. The **volatility of the crude oil prices** and any sharp moves by the economies regarding it would have implications for the inflation expectations as well as gold prices.

Statement 3 is correct. The government holds reserves of gold. When RBI starts to **buy greater quantity than it sells, the price increases** as it will result in insufficient supply of gold and vice versa. Hence, the central bank's decision to buy or sell gold can affect the price due to the sheer volume of transactions.

Statement 4 is correct. The **Demand and Supply** plays a vital role in influencing the prices of gold. Rural demand plays an important role in the demand for gold; as per the NITI Aayog report the **maximum purchase and selling of gold in India is done from rural market**. **Good monsoon results in good harvest** and the **amount earned is used to invest in gold** which is used in rainy season as in poor monsoon gold acts as a safe haven. When there is a rise in demand for gold, the price increases, and vice versa.

Statement 5 is correct. The **US Dollar Index** is a leading benchmark for the international value of the US dollar and the world's most widely recognized, publicly traded currency index. The price of gold is generally **inversely related to the value of the United States dollar** because the metal is dollar-denominated. All else being equal, **a stronger U.S. dollar tends to keep the price of gold lower and more controlled**, while a **weaker U.S. dollar is likely to drive the price of gold higher** through increasing demand because more gold can be purchased when the dollar is weaker.

Q.45) With reference to the Nirmal Jal Prayas initiative, consider the following statements:

1. It aims to remove the financial barriers in accessing the safe water and sanitation at home.
2. It is an initiative of the National Real Estate Development Council-Women's Wing.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) c

Exp) Option c is the correct answer.

The Minister for Housing and Urban Affairs launched the BHARAT TAP initiative at the 'Plumbex India' exhibition. This exhibition is aimed at products and services related to the plumbing, water and sanitation industry.

Statement 1 is correct: NAREDCO's (National Real Estate Development Council) Nirmal Jal Prayas seeks to help solve the global water crisis by removing the financial barriers that stand between people in need and access to safe water and sanitation at home.

Statement 2 is correct: Nirmal Jal Prayas is an initiative of National Real Estate Development Council-Women's Wing (NAREDCO-MAHI). Nirmal Jal Prayas aims to map groundwater as it is very important to save underground water. The initiative will work to save around 500 crore litres of water per year.

Knowledge Base:

- 1) National Real Estate Development Council (NAREDCO) was established as an autonomous self-regulatory body in 1998 under the aegis of the Ministry of Housing and Urban Affairs.
- 2) It is an apex body at the national level representing all spheres of stakeholders engaged in various aspects of real estate development.
- 3) NAREDCO has established NAREDCO-MAHI Women's Wing in 2021 for empowering women entrepreneurs and encouraging participation of women in the real estate sector and allied fields.

Source: <https://blog.forumias.com/union-minister-launches-bharat-tap-initiative-at-plumbex-india-exhibition/>

Q.46) Which of the following are the measures taken by the government in recent years in order to improve taxation system in India?

1. Imposition of Dividend Distribution Tax at uniform slab rate on dividends received by the shareholders of a company.
2. Corporate tax rate has been decreased for the domestic companies.
3. Government has put a limit on transactions in cash to trace the amount transacted for taxation.
4. Tax officials for the assessment of tax returns are selected through internal select committee of Income Tax Department to increase the transparency.

Which of the statements given above are correct?

- a) 1 and 4 only
- b) 2 and 3 only
- c) 1, 2 and 4 only
- d) 2, 3 and 4 only

Ans) b

Exp) Option b is the correct answer.

Tax reforms is the policy undertaken by the government to improve the effectiveness of tax administration in country. There are three types of tax reforms:

- 1) Corporate tax reforms
- 2) Income tax reforms
- 3) Other types of reforms to introduce new types taxes in tax system.

Statement 1 is incorrect: The Dividend Distribution Tax is taxable at source i.e.; companies will deduct a portion from the dividend of shareholder and deposit to government as DDT hence deducting at the time of the distribution. It was **abolished in 2020 under finance act 2020**. It was done to:

- 1) Increase the attractiveness in equity market by foreign investors.
- 2) Provide relief to large class of investors constituting lower middle-class shareholders.

But the income tax on shareholder's dividend is still applicable.

Statement 2 is correct: In 2019, government amended the **income tax act to reduce the corporate tax from for companies 30% to 22% not availing any incentive**. After surcharge the effective tax rate for these companies is 25.17% inclusive of all surcharges and cess. Also, for Newly added manufacturing companies, corporate tax rate of 15% was decided. It was done for companies to invest more for giving boost to the economic growth in country.

Statement 3 is correct: Under Section 269ST of Income tax Act cash transactions over Rs.2 lakh are strictly prohibited among individuals. Any above amount must be paid via cheque, card payments or bank transfer. Incompliance with cash limit invites penalty under income tax act. **As the above limit can be traced by the authorities, it helps in taxing the higher amounts above the cash limit.** It was done to check the menace of black money. Act prohibits any person from accepting cash over Rs.2 lakh from a single person and in a single day, or in respect of multiple transactions received from a single person that relates to a single event or occasion

Statement 4 is incorrect: Under the faceless assessment scheme, the selection of a taxpayer is done through a system **using analytics and artificial intelligence**. There is **no provision of internal select committee to assign the tax official**. A taxpayer in one city, will be assigned an assessor of income tax return in different city through random selection by computer. The assessment would also be done without the taxpayer being aware of who the assessing officer is, hence increasing the transparency in the filing of tax return and saving the tax payer from the harassment of tax official.

Q.47) Consider the following statements with reference to NITI Aayog (National Institution for Transforming India):

1. Governing Council of the NITI Aayog comprises of the Governor of all the States and Lt. Governors of the Union Territories.
2. Regional Council comprises of the Chief Ministers of States and Lt. Governors of Union Territories in the region.
3. One of its objectives is to develop mechanisms to formulate credible plans at the village level.
4. Chief Executive Officer is appointed by the President.

Which of the statements given above are correct?

- a) 2 and 3 only
- b) 1, 2 and 4 only
- c) 2, 3 and 4 only
- d) 1, 2, 3, and 4

Ans) a

Exp) Option a is the correct answer.

The Government has replaced Planning Commission with a new institution named NITI Aayog (National Institution for Transforming India). Its aim is to foster cooperative federalism.

Statement 1 is incorrect and 2 is correct: The NITI Aayog comprises of the following:

- (a) Prime Minister of India as the Chairperson.
- (b) Vice-Chairperson: To be appointed by the Prime Minister.
- (c) Governing Council comprising the **Chief Ministers of all the States and Lt. Governors of Union Territories.**
- (d) Regional Council will comprise of the **Chief Ministers of States and Lt. Governors of Union Territories** in the region. These will be chaired by the Chairperson of the NITI Aayog or his nominee.
- (e) Experts, specialists and practitioners with relevant domain knowledge as special invitees nominated by the Prime Minister.
- (f) Part-time members: Maximum of 2 from leading universities research, organizations and other relevant institutions in an ex-officio capacity. Part time members will be on a rotational basis.
- (g) Ex Officio members: Maximum of 4 members of the Union Council of Ministers to be nominated by the Prime Minister.
- (h) Chief Executive Officer: To be **appointed by the Prime Minister** for a fixed tenure, in the rank of Secretary to the Government of India. **Hence statement 4 is Incorrect.**

Statement 3 is correct. One of NITI Aayogs objective is to develop mechanisms to formulate credible plans at the village level and aggregate these progressively at higher levels of government.

| NITI Aayog

Q.48) With reference to the International Monetary Fund, consider the following statements:

1. Upon specific request of the member countries, the IMF can lend for specific social assistance projects.
2. All IMF members are eligible to access the General Resources Account of IMF on non-concessional terms.
3. IMF provides rapid concessional financial assistance to low-income countries (LICs) under its Rapid Credit Facility.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) 1 and 3 only
- d) 2 and 3 only

Ans) d

Exp) Option d is the correct answer.

International Monetary Fund is an international financial institution, headquartered in Washington, D.C., consisting of 190 countries working to foster global monetary cooperation. The IMF provides loans including emergency loans to member countries experiencing actual or potential balance of payments problems.

Statement 1 is incorrect: Unlike development banks, **the IMF does not lend for specific projects.** The IMF provides financial support for balance of payments needs upon request by its member countries. Following such a request, an IMF staff team holds discussions with the government to assess the economic and financial situation, and the size of the country's overall financing needs, and agree on the appropriate policy response.

Statement 2 is correct: All **IMF members** are eligible to access the Fund's resources in the **General Resources Account (GRA) on non-concessional terms.** The IMF also provides concessional financial support (currently at zero interest rates through June 2021) through the Poverty Reduction and Growth Trust which is better tailored to the diversity and needs of low-income countries.

Statement 3 is correct: **The Rapid Credit Facility (RCF) provides rapid concessional financial assistance to low-income countries (LICs)** facing an urgent balance of payments need with no ex-post conditionality where a full-fledged economic program is neither necessary nor feasible. The RCF was created under the Poverty Reduction and Growth Trust (PRGT) as part of a broader reform to make the Fund's financial support more flexible and better tailored to the diverse needs of LICs, including in times of crisis.

Knowledge Base:

The IMF's resources mainly come from the money that countries pay as their capital subscription (quotas) when they become members. Each member of the IMF is assigned a quota, based broadly on its relative position in the world economy. Countries can then borrow from this pool when they fall into financial difficulty.

Source: <https://www.imf.org/en/About/Factsheets/IMF-Lending>

Q.49) With reference to tax treaties signed by India, consider the following statements:

1. Under Social Service Agreement (SSA), cross border workers are exempted from paying the social security contributions in their home country.
2. Under Double-taxation avoidance agreement (DTAA), member countries deduct the tax at the rate fixed under the agreement.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) b

Exp) Option b is the correct answer.

A tax treaty is an agreement for the taxpayers of the participating countries. It is aimed at resolving issues regarding double taxation of passive and active income to the citizens of respective countries. A DTAA is a tax treaty signed between two or more countries aiming that **tax-payers to avoid being taxed twice for the same income**

Statement 1 is incorrect: SSA is a **bilateral agreement between India and a foreign country aimed at protecting the interests of cross border workers.** e.g., **a worker employed to any SSA country are exempt from making social security contributions in the host country for a specified period, provided they**

continue to make social security contributions in their home countries. The agreement ensures equality of treatment to workers of both countries from a social security perspective.

India has signed 18 SSAs with other countries. Benefits like detachment, exportability of pension, totalisation of benefits and withdrawal of social security benefits are provided under these SSAs.

Statement 2 is correct: A DTAA applies in cases where a tax-payer resides in one country and earns income in another. Under DTAA, with different countries, **a specific rate is fixed at which tax has to be deducted on income paid to residents of that country** e.g. an NRIs earning income in India, the TDS applicable would be according to the rates set in the Double Tax Avoidance Agreement with that country. DTAA's are intended to make a country an attractive investment destination by providing relief on dual taxation.

Q.50) Consider the following statements:

1. AIM-PRIME aims to support technology-based innovations that solve challenges of national importance.
2. Atal New India Challenge aims to promote early-stage deep technology ideas through training and guidance.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) d

Exp) Option d is the correct answer.

Statement 1 is incorrect: Atal New India Challenge (ANIC), and not AIM-PRIME, is a flagship program of Atal Innovation Mission, NITI Aayog. ANIC aims to seek, select, support and **nurture technology-based innovations that solve sectoral challenges of national importance** and societal relevance – Education, Health, Water and Sanitation, Agriculture, Food Processing, Housing, Energy, Mobility, Space Application etc.

Statement 2 is incorrect: The **AIM PRIME (Program for Researchers in Innovation, Market Readiness and Entrepreneurship) program, and not Atal New India Challenge,** was aimed at **promoting early-stage science-based, deep technology ideas** to market through training and guidance over a period of 12 months using a blended learning curriculum. In this regard, AIM has joined hands with Bill & Melinda Gates Foundation (BMGF) to launch this nationwide program which will be implemented by Venture Center – a non-profit technology business incubator.

Q.1) What was/were the object/objects of Queen Victoria's Proclamation (1858)?

1. To disclaim any intention to annex Indian States.
2. To place the Indian administration under the British Crown.
3. To regulate East India Company's trade with India.

Select the correct answer using the code given below.

- a) 1 and 2 only
- b) 2 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) a

Exp) Option a is the correct answer.

Following the 1857 Rebellion, the East India Company's rule in India came to an end.

Statement 1 is correct. Queen Victoria's Proclamation of 1 November 1858 declared that thereafter India would be governed by and in the name of the British crown through a Secretary of State.

As per the Queen's proclamation, **the era of annexations and expansion had ended and the British promised to respect the dignity and rights of the native princes.** The Indian states were henceforth to recognize the paramountcy of the British Crown and were to be treated as parts of a single charge.

It was by this proclamation that the governor-general acquired the additional title of 'Viceroy'.

Statement 2 is correct. Queen Victoria's Proclamation of 1 November 1858 declared that thereafter **India would be governed by and in the name of the British crown through a Secretary of State.**

It declared Queen Victoria as the sovereign of British India and provided for the appointment of a Secretary of State for India (a member of the British cabinet). The direct responsibility for the administration of the country was assumed by the British Crown and Company rule was abolished.

Statement 3 is incorrect. It did not provide for the regulation of East India Company's trade with India.

The proclamation also promised equal and impartial protection under law to all Indians, besides equal opportunities in government services irrespective of race or creed. It was also promised that old Indian rights, customs and practices would be given due regard while framing and administering the law. The people of India were promised freedom of religion without interference from British officials.

Q.2) With reference to the Modern Indian history, consider the following statements:

1. Jotedars were the sharecroppers who used to lease the land of large peasants for cultivation.
2. Gomasthas were the large landowners who cultivated their agricultural lands by hiring labours.
3. Bargadars were the rural officials responsible for the collection of revenue from peasants.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 only
- c) 1 and 3 only
- d) None of the above

Ans) d

Exp) Option d is the correct answer.

Statements 1 and 3 are incorrect: Jotedars were a group of rich peasants. At the beginning of the nineteenth century, they had acquired vast areas of land. A large part of **their land was cultivated by sharecroppers (adhiyars or bargadars)** who brought their own ploughs, worked in the field, and handed over half the produce to the jotedars after the harvest.

In the villages, the power of the jotedars was more effective than that of the zamindars. Unlike zamindars, who often lived in urban areas, jotedars were located in villages and had direct control over a large section of poor villagers.

Statement 2 is incorrect: In Persian, the term Gomastha signifies agent. The Gomasthas were the British East India Company's Indian agents, who signed **agreements with the artisans and local weavers to supply goods to the company** They set the cost of the products. The government appointed the Gomasthas. The weavers were controlled by them. They gathered the supplies and the standard of the fabric was evaluated. Q.3) “This Mughal ruler issued Farmans to the East India company, giving a large number of trade concessions to the Company. The Farmans thus obtained were also known as the Magna Carta of the Company. This ruler is also the first Mughal ruler to be killed by his nobles.”

Who among the following rulers is referred to in the above paragraph?

- Alamgir II
- Jahandar Shah
- Farrukhsiyar
- Muhammad Shah

Ans) c

Exp) Option c is the correct answer.

In 1715, an English mission led by **John Surman to the court of the Mughal emperor Farrukhsiyar** secured three famous Farmans, giving the Company many valuable privileges in Bengal, Gujarat and Hyderabad. **The Farmans thus obtained were regarded as the Magna Carta of the Company.**

Farrukhsiyar (1713-1719) after killing Jahandar Shah with the help of Sayyid brothers—Abdulla Khan and Hussain Ali became the new emperor. In 1719, the Sayyid brothers, with the help of Peshwa Balaji Vishwanath, dethroned Farrukhsiyar. Later they blinded and killed him. **It was the first time in Mughal history that an emperor was killed by his nobles.**

Knowledge Base: While John Surman got appointed to his court in 1715, Farman was given in 1717.

Source: A Brief History of Modern India 2019 edition (pg no 40,41 and 62,63)

Q.4) With reference to Afonso de Albuquerque, consider the following statements:

- He introduced the Blue Water policy to establish Portugal as a leader in the Indian Ocean.
- He abolished the practice of sati in his area of influence.
- He captured the territory of Goa from the Sultan of Bijapur.

Which of the statements given above is/are correct?

- 1 and 2 only
- 2 and 3 only
- 3 only
- 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

Afonso de Albuquerque succeeded Almeida as the Portuguese governor in India and was the real founder of the Portuguese power in the East.

Statement 1 is incorrect. It was Francisco De Almeida who came up with the **blue water Policy** to make the Portuguese the master of the Indian Ocean.

Statement 2 is correct. Afonso de Albuquerque **banned the practice of sati** in his area of influence. Also, in order to secure a permanent Portuguese population in India he encouraged his men to take Indian wives.

Statement 3 is correct: Afonso de Albuquerque captured Goa from Sultan of Bijapur Adil Shah in 1510. The principal port of the Sultan of Bijapur became the first bit of Indian territory to be under the Europeans since the time of Alexander the Great.

Source: A Brief History of Modern India 2019 edition (Pg no 26,27)

Q.5) Which among the following is the most appropriate reason for India's opposition to E-Transmission Moratorium at World Trade Organization (WTO)?

- To control the policy space for digital advancement and to generate revenue through customs duties.
- To impose tariff restrictions on import of electrical transmission equipment.
- To impose non-tariff restrictions on export of electrical transmission equipment.
- To prevent revenue loss by imposition of equalization levy on e-commerce companies.

Ans) a

Exp) Option a is the correct answer.

India has decided to oppose the continuation of a moratorium on **Customs Duties on electronic transmission (E-Transmission) at the World Trade Organization's (WTO) 12th Ministerial Conference (MC12)** starting in **June 2022**. The **E-transmission Moratorium under WTO**, had their members **agreed not to impose customs duties on electronic transmissions since 1998** and the moratorium has been periodically extended at successive Ministerial Conferences.

India is witnessing an exponential rise in imports of electronic transmissions, mainly of items like movies, music, video games and printed matter, some of which could fall within the scope of the moratorium.

Allowing the moratorium to lapse is important for developing nations to **preserve policy space for their digital advancement**, to regulate **imports and generate revenue through customs duties**.

Source: <https://www.livemint.com/news/world/india-opposes-e-transmission-moratorium-11655317683207.html>

<https://www.thehindu.com/business/Industry/india-to-oppose-continuation-of-moratorium-on-customs-duties-on-e-com-trade-at-wto-meet/article65481154.ece>

Q.6) With reference to Robert Clive and Joseph Francis Dupleix, consider the following statements:

- Dupleix was the originator of the practice of Subsidiary Alliance in India.
- Unlike Robert Clive, Dupleix never led an army on the battlefield.
- Robert Clive abolished the Dual System of government in Bengal.

Which of the statements given above is/are correct?

- 1 and 2 only
- 1 only
- 2 only
- 1, 2 and 3

Ans) a

Exp) Option a is the correct answer

Statement 1 is correct: Dupleix was, the **originator of the system of subsidiary alliance in India**. He placed a French army at Hyderabad at the expense of the subahdar. However, this policy was later used by Lord Wellesley.

Statement 2 is correct: Dupleix was not a man of action: he planned a campaign, directed his lieutenants, but **never led an army in the battlefield like Lawrence or Clive**. The French failed to capture Trichinopoly

(Trichy) (1752–53) because the schemes thought out by Dupleix could not be turned into action by his commanders.

Statement 3 is incorrect: After the battle of Buxar, 1764, Robert Clive introduced the dual system of government, i.e., the rule of the two—the Company and the Nawab—in Bengal. In this system, both the **diwani**, i.e., collecting revenues, and **nizamat**, i.e., police and judicial functions came under the control of the Company. The nawab was responsible for maintaining peace and order, but he depended both for funds and forces upon the Company because the latter controlled the army and revenues.

Source: A Brief History of Modern India 2019 edition (pg no 47,48)

Q.7) Consider the following statements with respect to the arrival of Europeans in India:

1. The first Portuguese factory was set up at Calicut by Vasco da Gama.
2. The French were the first to set up factories in Pondicherry.
3. The Dutch established their first factory in Masulipatnam.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 1 and 3 only
- c) 3 only
- d) 2 and 3 only

Ans) c

Exp) Option c is the correct answer

Statement 1 is incorrect. The first Portuguese factory was set up at Calicut by **Pedro Alvarez Cabral (not Vasco Da Gama)**. Vasco Da Gama arrived at Calicut in 1498 and the king Zamorin accorded a friendly reception to Vasco Da Gama. A voyage was undertaken by Pedro Alvarez Cabral to trade for spices; he negotiated and established a factory at Calicut, where he arrived in 1500.

Statement 2 is incorrect. Portuguese were the first one to set up a factory in Pondicherry in 1523 and then **Danes in 1624**. Dutch established its rule over Pondicherry only in 1693 after capturing it from France. Later Dutch returned Pondicherry to France in 1699 under the Treaty of Ryswick.

Statement 3 is correct: The **Dutch founded their first factory in Masulipatnam (in Andhra) in 1605**. They went on to establish trading centres in different parts of India and thus became a **threat to the Portuguese**. They **captured Nagapattinam** near Madras (Chennai) from the Portuguese and made it their main stronghold in South India.

Q.8) Which of the following statements is/are correct regarding the social and cultural life during 18th century India?

1. No strict regulations prevailed to follow the norms of castes.
2. Caste system existed among the Hindus only and not among the Muslims.
3. Purdah system was found only among the Hindus and not Muslims.
4. Dowry was widely prevalent in Bengal and Rajputana regions.

Select the correct answer using the code given below:

- a) 1, 2 and 3 only
- b) 1 and 4 only
- c) 4 only
- d) 2, 3 and 4 only

Ans) c

Exp) Option c is the correct answer.

Statement 1 is incorrect. Castes and sub-castes used to exist in India during 18th century. At the same time there were Caste **Panchayats and councils** who strictly enforced caste regulations through **finances, penances and expulsions from states.**

Statement 2 is incorrect. Caste system existed among both the Hindus and also among the Muslims. **When Hindus converted to Islams, they carried their castes in to the new religion** and observed its distinctions not rigidly as before. Moreover the **sharif muslims** looked down upon the **ajlaf muslims (lower class)** in the same manner as higher caste Hindus looked down the lower castes Hindus.

Statement 3 is incorrect. We can't say that **Purdah system was mostly among Hindus and not among Muslims.** It was prevalent among the **higher classes in the North** whether of Hindu religion or Muslim religion. Such a practice wasn't seen much in South India.

Statement 4 is correct. Yes Dowry was widely prevalent in Bengal and Rajputana regions but it was curbed to some extent in Maharashtra by Peshwas.

Source: Class- 12 MODERN India NCERT by Bipin Chandra Chapter-2 Indian states and society in the 18th century page-39, 40, 41

Q.9) With reference to the Ramosi Peasant Force, consider the following statements:

1. Its activities are confined to the Eastern part of India.
2. It saw Indian moneylenders as the real enemy and not the British government.
3. It only used legal methods to achieve its objectives, and did not resort to violence.
4. It aimed to raise funds for its activities through dacoities.

Which of the statements given above is/are correct?

- a) 1 and 3 only
- b) 2 and 4 only
- c) 4 only
- d) 1 and 4 only

Ans) c

Exp) Option c is the correct answer

Statement 1 is incorrect: Ramosi Uprising was a peasant led revolt against the British failure to solve up anti-famine measures. **The first of the revolutionary activities in Maharashtra (Western India)** was the organisation of the Ramosi Peasant Force by Vasudev Balwant Phadke in 1879.

Statements 2 and 3 are incorrect: It aimed to rid the country of the **British by instigating an armed revolt** by disrupting communication lines. Thus, it recognised the **British as their real enemy and it never appealed to the British to address their problem.**

Statement 4 is correct: It **hoped** to raise funds for its activities through **dacoities.** It was suppressed prematurely by the British government.

Source: Spectrum: A Brief History of Modern India 2019 edition (pg no 286)

Q.10) Consider the following initiatives and the institutions they are associated with:

Initiative	Institution
1. Stockholm+50	Nuclear Supply Group
2. LeadIT	World Economic Forum
3. World Competitiveness Index	Institute for Management Development

Which of the above given pairs is/are matched correctly?

- a) 1 only
- b) 3 only
- c) 2 and 3 only
- d) 1 and 3 only

Ans) c

Exp) Option c is the correct answer

Pair 1 is incorrectly matched: Stockholm+50 is being held in Stockholm, Sweden. It will **commemorate the 50 years since the 1972 United Nations Conference on the Human Environment**. This is being held at a time **when the world is facing a triple planetary crisis of climate change, pollution and waste, nature and biodiversity loss**, as well as other planetary issues even after 50 years of the Stockholm Declaration.

Pair 2 is correctly matched: The **Leadership Group for Industry Transition (Lead IT)** gathers **countries and companies that are committed to action to achieve the Paris Agreement**. It was launched by the **governments of Sweden and India** at the **UN Climate Action Summit in September 2019** and is supported by the **World Economic Forum**.

Pair 3 is correctly matched: Recently, the annual **World Competitiveness Index** is released by the **Institute for Management Development (IMD)**. IMD is a Swiss foundation, based in Switzerland, dedicated to the development of international business executives at each stage of their careers.

Source:

<https://www.unep.org/events/unep-event/stockholm50>

Q.11) The staple commodities of export by the English East India Company from Bengal in the middle of the 18th century were:

- a) Raw cotton, oil-seeds and opium
- b) Sugar, salt, zinc and lead.
- c) Copper, silver, gold, spices and tea
- d) Cotton, silk, saltpetre and opium

Ans) d

Exp) Option d is the correct answer.

In 1600, the East India Company acquired a charter from the ruler of England, Queen Elizabeth I, granting it the sole right to trade with the East.

The fine qualities of cotton and silk produced in India had a big market in Europe. **So, cotton and silk from Bengal were the major items of export from India. Indigo and saltpetre were the other major exports from India**, and the fact that both products were produced in the eastern Gangetic plain, especially in Bihar and Bengal, stimulated British efforts to establish factories on the east coast as well as the west coast of the Indian subcontinent. Pepper, cloves, cardamom and cinnamon from India too were in great demand in Europe.

Early in the 18th century the Portuguese found that they could import opium from India and sell it in China at a considerable profit. **By 1773 the British had discovered the trade, and became the leading suppliers of the Chinese market**. The opium exports from British India to China increased from 4,000 chests per year at the beginning of the 19th Century to more than 60,000 chests by the 1880s.

Source: UPSC CSE Pre 2018

Q.12) Which of the following is/are the correct reason/s for quest of Europeans to find a direct sea route to India?

1. Demand for Indian luxury goods increased in Europe.
2. Land routes to India were controlled by the Arabs.
3. Religious hostility between Christianity and Islam.

Select the correct answer using the code given below:

- a) 1 and 2 only
- b) 1 and 3 only
- c) 2 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer

Statement 1 is correct: The **increased economic prosperity of Europeans increased the demand for Indian goods in European region**. This pushed the traders in European country to find a direct sea route to India. This **economic development** was facilitated by an expansion of land under cultivation.

Statement 2 correct: In 1453, Constantinople was captured by Ottoman empire. With this, **Arabs** controlled the **land routes to India**. **Europeans' inability to control land routes to India pushed them to find a direct sea route to India**.

Statement 3 is correct: **Pope Nicholas V desired to fight Islamic influence** and spread the **Christian faith across the world**. This motivated Portuguese to find a direct sea route to India. Portugal's desire to **circumvent the Muslim domination** of the eastern Mediterranean and all the routes that connected India to Europe also motivated them.

Source: A Brief History of Modern India 2019 edition (pg no 22,23)

Q.13) With regards to the “misl” among the Sikhs, which of the following statements is correct?

- a) Misls were groups of armed officers formed by Maharaja Ranjit Singh.
- b) Misls were democratic in nature and based on the principle of equality.
- c) Misls were formed to protect Punjab from the invasions of Nadir Shah.
- d) None of the statements (a), (b) or (c) is correct.

Ans) b

Exp) Option b is the correct answer.

Misl refers to major Sikh confederacies that sought to expand Sikh rule across the Panjab in the eighteenth century, leading to significant weakening of the Mughal rule across the region.

Statement a is incorrect. These are not formed by Maharaja Ranjit Singh. These are **powerful confederacies of Sikhs which were organized in 12 misls** and operated in different parts of the province.

Statement b is correct. These misls are **democratic in nature** and are based on **principles of equality**, with all members having an **equal voice in deciding the affairs** of misls.

Statement c is incorrect. These were formed with the withdrawal of Abdali from the Punjab. And by that time Nadir Shah already invaded. **These were formed to fill the political vacuum created by the withdrawal of Ahmad Shah Abdali.**

Knowledge Base: Maharaja Ranjit Singh belonged to **Sukarchakiya misl**.

Source: Class- 12 MODERN India NCERT by Bipin Chandra Chapter-2 Indian states and society in the 18th century page-27, 28

Q.14) With reference to the reasons behind the success of the Britishers over French in colonising India, consider the following statements:

1. Unlike the French East India Company, the British East India Company was under strict government control and regulation.
2. In comparison to the Britishers, there was a lack of able leaders and commanders on the French side.
3. France were more interested in commercial interests whereas the British were focused on political interests.
4. Britishers had a superior navy as compared to the French.

Which of the statements given above is/are correct?

- a) 1, 2, 3 and 4
- b) 3 only
- c) 2 and 4 only
- d) 1, 2 and 4 only

Ans) c

Exp) Option c is the correct answer

Statement 1 is incorrect The **English company was a private enterprise**—this created a sense of enthusiasm and self-confidence among the people. With **less governmental control** over it, this company could take **instant decisions** when needed without waiting for the approval of the government. The **French company**, on the other hand, was a **state concern**. It was controlled and regulated by the French government and was **prevented from freedom in decision making** by government policies and delays in decision-making.

Statement 2 is correct. A **major** factor in the success of the English in India was the **superiority of the commanders in the British camp**. In comparison to the long list of leaders on the English side—**Sir Eyre Coote, Major Stringer Lawrence, Robert Clive and many others**, there was **only Dupleix** on the French side.

Statement 3 is incorrect: The French subordinated their commercial interest to territorial (Political) ambition, which made the French company short of funds. In spite of their imperialistic motives, the **British never neglected their commercial interests**. So, they always had the **funds** and the consequent sound financial condition to help them significantly in the **wars against their rivals**.

Statement 4 is correct The **English navy was superior** to the French navy. It helped to cut off the vital sea link between the French possessions in India and France.

Source: A Brief History of Modern India 2019 edition (pg no 51)

Q.15) Consider the following statements with reference to the Liquid Nano Urea (LNU):

1. It has been indigenously developed in India.
2. Its efficiency is much higher in comparison to conventional urea.
3. One of its drawbacks is that it is much costlier in comparison to conventional urea.

Which of the above given statements is/are correct?

- a) 2 only
- b) 3 only
- c) 1 and 3 only
- d) 1 and 2 only

Ans) d

Exp) Option d is the correct answer.

Liquid Nano Urea is urea in the **form of a nanoparticle**. It is a nutrient (liquid) to provide nitrogen to plants as an alternative to the conventional urea.

Statement 1 is correct: Liquid Nano Urea has been **indigenously developed at Nano Biotechnology Research Centre, Kalol, Gujrat** in line with Atmanirbhar Bharat and Atmanirbhar Krishi. It is indigenous Urea, introduced firstly by the Indian Farmers Fertilizer Cooperative Limited (IFFCO) for farmers across the world.

Statement 2 is correct: While conventional urea has an efficiency of about 25 %, **the efficiency of liquid nano urea can be as high as 85-90%**. Conventional urea fails to have the desired impact on crops as it is often applied incorrectly, and the nitrogen in it is vaporized or lost as gas. A lot of nitrogen is also washed away during irrigation.

Statement 3 is incorrect: LNU is **comparatively cheaper**. A **bottle of the nano urea can effectively replace at least one bag of urea**. The liquid nano urea comes in a half-litre bottle priced at Rs 240, and carries no burden of subsidy currently. By contrast, a farmer pays around Rs 300 for a 50-kg bag of heavily subsidized urea.

Q.16) With reference to the prevalence of slavery during the Colonial Period in India, consider the following statements:

1. Indian slaves were purchased only for domestic works and were not traded like African slaves.
2. Slaves in India were usually treated as hereditary servants.
3. Only Men were kept as slaves, and never the Women.
4. The Colonial Government made no efforts for the abolishment of slavery in India.

Which of the statements given above is/are correct?

- a) 1 and 3 only
- b) 2 and 4 only
- c) 2 only
- d) 1, 2 and 3 only

Ans) c

Exp) Option c is the correct answer.

The early history of slavery in the Indian subcontinent is contested because it depends on the translations of terms such as *dasa* and *dasyu*. Slavery in India escalated during the Muslim domination of northern India after the 11th-century, after Muslim rulers re-introduced slavery to the Indian subcontinent. Slavery in India continued through the 18th and 19th centuries.

Statement 1 is incorrect: European travellers and administrators, who came in the 17th century, reported the widespread prevalence of slaves in India. During the colonial era, **Indians were taken into different parts of the world as slaves** by various European merchant companies as part of the **Indian Ocean slave trade**. Over a million indentured labourers (referred to as *girmityas*) from the Indian subcontinent were transported to various European colonies in Africa, Asia and the Americas to labour on plantations and mines.

Statement 2 is correct: Unlike slaves in Europe, who were often treated as menials, the condition of slaves in India was better. **They were treated more as hereditary servants** (bound to the generations of the family they serve, with their children expected-not forced, to serve the next generation of the owner family, just as their parents did).

Statement 3 is incorrect: People belonging to higher castes such as Khatri, Rajputs and Kayasthas, generally kept a **woman slave for domestic help**. In India, generally slave labour was not used for productive economic tasks like agriculture. This is in contrast to Afro-American slaves, who apart from domestic works, were used in vast plantations, free of wages, to generate profits for the owners.

Statement 4 is incorrect: The Charter Act of 1833, asked the Company to ensure improvement in conditions of slaves and ultimately try to abolish it. In 1843, Company passed a law banning slavery in its Indian territories. However, as a significant portion of Indian territories was under Native Princes, slavery continued there until Independence in 1947. Also even in British Indian territories, despite the law abolishing slavery, it continued in different forms (like begari, etc).

Q.17) With reference to the Sanyasi Rebellion, consider the following statements:

1. It was characterised by the complete absence of Muslim saints/monks.
2. The novel 'Devi Chaudhurani', written by Bankim Chandra Chattopadhyay, is based on this rebellion.
3. The Bengal famine of 18th century was one of the causes of this rebellion.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 3 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer

Statement 1 is incorrect: The Sannyasi rebellion or monk rebellion (1770-77) was a revolt led by the **sannyasis** in Bengal. These sannyasis were joined by a large number of **dispossessed small zamindars, disbanded soldiers and rural poor**. They raided Company factories and the treasuries, and fought the Company's forces. It was only after a prolonged action that Warren Hastings could subdue the sannyasis. **Equal participation of Hindus and Muslims** characterised the uprisings, sometimes referred to as the **Fakir rebellion**.

Statement 2 is correct: Devi Chaudhurani's participation in Sannyasi rebellion recognises the women's role in early resistances against the British. Apart from **Ananda Math, Debi Chaudhurani is also written by Bankim Chandra Chattopadhyay** and is based on the sannyasi rebellion. He saw the **importance of women taking** up the struggle against an alien rule that posed a threat to traditional Indian values.

Statement 3 is correct: The disastrous **famine of 1770 and the harsh economic order** of the British compelled a group of sannyasis in Eastern India to fight the British yoke in 1770. So, the Bengal famine of 18th century was one of the causes of this rebellion. **The Bengal Famine of 1770** was a famine that struck Bengal and Bihar between **1769 and 1770** and affected some **30 million people**.

Source: Spectrum: A Brief History of Modern India 2019 edition (pg no 139,140)

Q.18) Many popular resistances occurred against the British domination in the first half of the 18th Century. Which of the following were the reasons for the occurrence of these popular resistances against the Britishers?

1. High land revenue charged by the British
2. The growth of new social classes such as money lenders
3. Discriminatory trade policy practised by the British
4. Administrative innovation by British such as new legal system
5. Hostility of priestly class against British

Select the correct answer using the code given below:

- a) 1, 2 and 3 only
- b) 3 and 5 only
- c) 1, 2 and 5 only
- d) 1, 2, 3, 4 and 5

Ans) d

Exp) Option d is the correct answer.

There were many incidents before the 1857 revolt that indicated all was not well and that there was a building resentment against the alien rule. This resentment manifested itself in several bouts of resistance by different groups of people in different regions of India. The major factors responsible for the people's resentment and uprisings against the Company rule are as follows:

Option 1 is correct: The colonial policy of **intensifying demands for land revenue** and extracting as large an amount as possible produced **discontent** among rural inhabitants. In **Bengal** for example land revenue collection was raised to nearly **double the amount collected under the Mughals**.

Option 2 is correct: The ego of **traditional zamindars and poligars** was hurt due to being side-lined in rank by government officials and a **new class of merchants and money-lenders**.

Option 3 is correct: The **ruining of Indian handicraft industries** due to **colonial policies** of free trade in India and levy of discriminatory tariffs against Indian goods in Britain impoverished millions of artisans. Their misery was further compounded by the disappearance of their traditional patrons and buyers—princes, chieftains, and zamindars.

Option 4 is correct: The **new courts and legal system** gave further fillip to the dispossession of land and encouraged the rich to oppress the poor as the **high legal costs and complexity of paperwork** discouraged poor to approach court. Common people were also hard hit by the prevalence of corruption at lower levels of police, judiciary and general administration.

Option 5 is correct: The **priestly classes instigated hatred and rebellion against alien rule**, because the religious preachers, priests, pundits, maulvis, etc., had been dependent on the traditional landed and bureaucratic elite. The **fall of zamindars and feudal lords directly affected the priestly class**.

Source: India's struggle for Independence: Bipin Chandra (Chapter Civil rebellion and Tribal uprisings)

Q.19) In the context of establishment of early European powers in India, the "Cartaz System" refers to:

- a) A Sea trade pass introduced by Portuguese East India Company in Indian Ocean region.
- b) A commercial passport introduced by British to facilitate the passage of consignments.
- c) A trade license for Indian merchants introduced by French to establish monopoly over trade.
- d) A system under which Dutch companies were given exclusive rights to trade in certain goods.

Ans) a

Exp) Option a is the correct answer.

Cartaz System was a **naval trade license pass** introduced by the **Portuguese East India Company** in the **Indian Ocean region** including Bay of Bengal in the early sixteenth century. Traditionally, the Arab and Persian mariners were predominant in the Indian Ocean traffic and by virtue of their supremacy they maintained order and security in the maritime trade of the region. From the early sixteenth century, the Portuguese superseded the Muslim dominance in the maritime regime of the Indian Ocean. By declaring sovereignty over the Indian Ocean, the Portuguese introduced cartaz system as a mark of their authority. They compelled all other Asian partners in the Indian Ocean to recognise their supremacy by paying a toll called cartaz. The cartaz **entitled its holder freedom of movement in the Indian Ocean**.

Knowledge Base:

Navicert system was introduced by the British in 1916. It refers to a commercial passport introduced by British to facilitate the passage of consignments through the British blockade.

Source: Modern History, Spectrum, Chapter-3, Pg. 26

https://en.banglapedia.org/index.php/Cartaz_System

Q.20) Which among the following is the correct description of the term 'J&K Annual Darbar Move'?

- Traditional practice of moving the Civil Secretariat and other government offices between Srinagar and Jammu.
- An annual event of holding an open house for hearing public grievances in the Hari Singh Palace.
- The mandatory requirement for public officials to visit rural areas in Jammu & Kashmir.
- Traditional practice of shifting President of India's summer retreat to Srinagar.

Ans) a

Exp) Option a is the correct answer

The J&K Annual Darbar Move is the **traditional practice of moving the Civil Secretariat and other government offices of the erstwhile state of Jammu and Kashmir twice a year between Srinagar and Jammu**. In 1872, powerful Dogra ruler **Maharaja Ranbir Singh** began a tradition, which appears to have come to an end in 2021. However, now it has been reinstated.

Source: <https://www.thehindu.com/news/national/other-states/watch-the-149-year-old-tradition-of-darbar-move/article35141895.ece>

Q.21) Which of the following statements correctly explain the impact of Industrial Revolution on India during the first half of the nineteenth century?

- Indian handicrafts were ruined.
- Machines were introduced in the Indian textile industry in large numbers.
- Railway lines were laid in many parts of the country.
- Heavy duties were imposed on the imports of British manufactures

Ans) a

Exp) Option a is the correct answer.

During Mughal Period, Indian handicrafts produced excellent quality of textile products and as per estimates nearly two hundred varieties of cotton and silk fabrics were exported from India.

When Industrial Revolution took place in England, Britain needed raw materials from India and a wide market for its machine-made goods. **Thus, owing to industrial revolution cheap machine-made goods from Britain flooded the Indian markets and India supplied the raw material (Cotton) to Britain.**

Indian textiles now had to face stiff competition from machine-made English textiles in the European and American markets. Heavy duties were imposed on imported Indian textiles in Britain. The machine-made cheap textiles of Britain successfully captured the African markets.

The free trade imposed on India was however one-sided. Indian goods were subjected to heavy import duties on entry into Britain.

Source: UPSC CSE Pre 2020

Q.22) Which of the following items were introduced by the Portuguese in India?

- Coffee
- Tobacco
- Tea

4. Sugarcane

5. Chilli

Select the correct answer using the code given below:

- a) 1, 2 and 3 only
- b) 2 and 5 only
- c) 1, 2 and 5 only
- d) 2, 3, 4 and 5 only

Ans) b

Exp) Option b is the correct answer

Option 1 is incorrect: Coffee came to India through an **India Sufi saint named "Baba Budan"**. He brought coffee beans from Yemen to India around 1670. He brought the beans when he went on a pilgrimage to Mecca.

Option 2 and 5 is correct: Portuguese introduced new crops like **tobacco**, cashew nut, **chilli**. Tobacco is said to have been introduced into India in the beginning of 17th century. The spread of Chilli peppers to Asia was most likely a natural consequence of its introduction to Portuguese traders.

Option 3 is incorrect: **Tea** was introduced to India by **the British** in the nineteenth century, to overcome the monopoly of Chinese production. The first area to be planted was the mountain region surrounding the city of Darjeeling, perched on the Himalayan foothills, in the 1850s.

Option 4 is incorrect: **Cultivation of sugarcane in India dates back to the Vedic period.** The earliest mention of sugarcane cultivation is found in Indian writings of the period 1400 to 1000 B.C.

Source: A Brief History of Modern India 2019 edition (pg no 27,34)

Q.23) With reference to the system of Indigo cultivation in India during the Colonial Period, consider the following statements:

1. Under the Ryot/Ryoti system, the Planter cultivated Indigo by employing hired labourers on land controlled by him.
2. Under the Nij system, the Planter signs a contract with the peasants and provides loans for cultivation.
3. At the end of the 19th century, the entire indigo cultivated land was under the Nij system.

Which of the statements given above is/are **incorrect**?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

There were **two main systems of indigo cultivation – Nij and Ryot/Ryoti.**

Statement 1 is incorrect: Within the system of **nij cultivation**, the planter produced indigo in **lands that he directly controlled**. He either bought the land or rented it from other zamindars and produced indigo by directly employing hired labourers.

Statement 2 is incorrect: Under the **Ryot/Ryoti system**, the **European planters forced the ryots to sign a contract**, an agreement (satta). Those who signed the contract **got cash advances** from the planters at low rates of interest to produce indigo. But the loan committed the ryot to cultivating indigo on **at least 25 percent of the area** under his holding. The planter provided the seed and the drill, while the cultivators prepared the soil, sowed the seed and looked after the crop. The price they got for the indigo they produced was very low and the cycle of loans never ended.

Statement 3 is incorrect: **Till the late nineteenth century**, planters were reluctant to **expand** the area under **nij** cultivation. **Less than 25 per cent of the land producing indigo was under the nij system**. The rest was under the Ryot/Ryoti system.

Source: Class VIII- Our past III (pg no 32-35)

Q.24) With reference to the Ahom Revolt, consider the following statements:

1. It occurred along the North West frontier province.
2. The main reason for this revolt was annexation of their land by the local landlords.
3. The revolt succeeded the first Anglo Burmese war.
4. The rebellion was led by Gomdhar Konwar and Dhanjoy Borgohain.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 3 and 4 only
- c) 1, 2 and 3 only
- d) 2, 3 and 4 only

Ans) b

Exp) Option b is the correct answer

Statement 1 is incorrect: The Ahom revolt occurred in the area of North eastern province i.e., Assam. The uprising was suppressed by the Company by dividing the kingdom.

Statement 2 is incorrect: **Ahoms' Revolt (1828-33)** is a result of **non-fulfilment of the pledges** of the Company **after the Burmese War**. It occurred as response to the **British annexation of their lands**.

Statement 3 is correct: The revolt **succeeded the first Anglo Burmese war**. The British had pledged to withdraw from Assam after the First Burma War (1824-26). But, after the war, instead of withdrawing, the British attempted to **incorporate** the Ahoms' territories in the Company's dominion.

Statement 4 is correct: This sparked off a rebellion in 1828 under the **leadership of Gomdhar Konwar**, an Ahom prince, alongwith compatriots, such as **Dhanjoy Borgohain, and Jairam Khargharia Phukan**. Assembling near Jorhat, the rebels formally made Gomdhar Konwar the king.

Source: A Brief History of Modern India 2019 edition (pg no 149,150)

Q.25) Consider the following statements with reference to Performance Grading Index for Districts (PGI-D):

1. It assesses the performance of the school education system at the district level.
- 2 National Achievement Survey (NAS) is one of the sources for data collection for PGI-D.
3. Kerala has the highest number of districts in the index.

Which of the above given statements is/are correct?

- a) 1 only
- b) 3 only
- c) 1 and 3 only
- d) 1 and 2 only

Ans) d

Exp) Option d is the correct answer

Recently, the **Department of School Education and Literacy (DoSE&L), Ministry of Education (MoE)** released the **Centre's first-ever Performance Grading Index for Districts (PGI-D)** for 2018-19 and 2019-20.

Statement 1 is correct: PGI-D assesses the performance of the school education system at the district level by creating an index for comprehensive analysis. The PGI-D structure comprises a total weightage of **600 points across 83 indicators**, which are grouped under **six categories: Outcomes, Effective Classroom Transaction, Infrastructure Facilities & Student's Entitlements, School Safety & Child Protection, Digital Learning and Governance Process.**

Statement 2 is correct: The PGI-D assessed district-level performance in school education based on the data collected from various sources, including **Unified District Information System for Education Plus (UDISE +), National Achievement Survey (NAS), 2017** and data provided by respective districts.

Statement 3 is incorrect: Rajasthan (not Kerala) has the highest 24 districts in this grade, followed by Punjab (14), Gujarat (13), and Kerala (13). Three districts from Rajasthan performed the best in the assessment.

Q.26) With reference to Haider Ali, consider the following statements:

1. He established arms factory at Dindigul, with the help from French.
2. He maintained friendly relations with the Nawab of Arcot.
3. He forced the English forces to accept a very humiliating treaty of Madras.
4. His attack on Travancore for restoration of his sovereign rights led to the second Anglo-Mysore war.

Which of the statements given above is/are correct?

- a) 1 and 3 only
- b) 2, 3 and 4 only
- c) 2 and 4 only
- d) 1, 3 and 4 only

Ans) a

Exp) Option a is the correct answer.

Statement 1 is correct. Haidar Ali took the **help of the French to set up an arms factory at Dindigul (now in Tamil Nadu)**, and also introduced Western methods of training for his army. He realised that the exceedingly mobile Marathas could be contained only by a swift cavalry, that the cannons of the French-trained Nizami army could be silenced only by an effective artillery, and that the superior arms from the West could only be matched by arms brought from the same place or manufactured with the same know-how.

Statement 2 is incorrect. Haidar had **territorial disputes with the Nawab of Arcot** and differences with the Marathas. However, during the first Anglo-Mysore war, Haidar paid the Marathas to turn them neutral.

Statement 3 is correct. Haider Ali joined forces with Nizam in the first Anglo-Mysore war to attack the Nawab of Arcot. By suddenly attacking Madras, he forced the English to conclude a very humiliating treaty in 1769—**Treaty of Madras**. The treaty **provided for the exchange of prisoners and mutual restitution of conquests**. Haidar Ali was promised the help of the English in case he was attacked by any other power.

Statement 4 is incorrect. **Tipu Sultan and not Haider Ali attacked Travancore for restoration of his sovereign rights. This led to the third Anglo-Mysore war.** Travancore had purchased Jalkottal and

Cannanore from the Dutch in the Cochin state. As Cochin was a feudatory of Tipu, he considered the act of Travancore as a violation of his sovereign rights.

Q.27) Why did the East India Company did not annex Bengal after the Battle of Plassey?

1. The Company was not willing to take over the responsibility of administration.
2. East India Company's prime objective at that time was the expansion of trade.
3. The local rulers in India were ready to grant privileges to the East India Company.

Select the correct answer using the code given below

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

Statement 1 is correct. Victory for the British East India Company in the Battle of Plassey was the start of nearly two centuries of British rule in India. For an event with such momentous consequences, it was a surprisingly unimpressive military encounter, the defeat of the Nawab of Bengal owing much to betrayal.

The battle of Plassey was never really fought because; Mir Jafar was bribed by Robert Clive. The Company was still unwilling to take over the responsibility of administration.

Statement 2 is correct. The company established trading posts in **Surat (1619), Madras (1639), Bombay (1668), and Calcutta (1690)**. By 1647, the company had 23 factories, each under the command of a factor or master merchant and governor, and 90 employees in India. The main objective of any business is **to earn a profit so the prime objective of East India Company was the expansion of trade.**

Statement 3 is correct. East India company's prime objective was the expansion of trade. This could be done without conquest, because the **local rulers were willing to grant privileges to the east India company**. So, company decided not to take over territories directly.

Source: class 8th NCERT. Our pasts.

Q.28) With reference to the history of India, the terms “Chatuspathis” or “Tols” refers to:

- a) Traditional water harvesting technique in Rajasthan.
- b) Agricultural loans given to poor farmers during the Sultanate Period.
- c) Housing tax imposed on people living in the coastal regions.
- d) Centres of higher education in Bihar and Bengal.

Ans) d

Exp) Option d is the correct answer.

“Chatuspathis or Tols” were centres of higher education in Bihar and Bengal in 18th century. Some of the famous centre for Sanskrit education in 18th century were Kasi, (Varanasi), Tirhut(Mithila), Nadia and Utkala. The education in 18th century was confined to literature, religion, philosophy mad excluded the study of physical sciences, technology and geography.

Q.29) The following items consist of two statements one labelled as 'Assertion(A)' and the other labelled as 'Reason(R)'.

Assertion(A): Portugal was not able to maintain its long-term trade monopoly with India.

Reason(R): Portugal followed dishonest trade practices and also followed a policy of religious intolerance.

Which of the options given below is correct?

- a) Both A and R are correct and R is the correct explanation of A.
- b) Both A and R are correct and R is not the correct explanation of A
- c) A is correct but R is incorrect
- d) A is incorrect but R is correct

Ans) a

Exp) Option a is the correct answer.

In 1497, under the Treaty of Tordesillas (1494), the rulers of Portugal and Spain divided the non-Christian world between them by an imaginary line in the Atlantic. Under the treaty, Portugal could claim and occupy everything to the east of the line while Spain could claim everything to the west. The arrival of Vasco Da Gama at Calicut in May 1498 profoundly affected the course of Indian history.

Assertion(A) is correct: The Portuguese were the first Europeans to establish themselves in India. The other European nations came to India nearly a century later. **By the 18th century**, the Portuguese in India **lost their commercial influence**. Portugal was **incapable of maintaining its long-term trade monopoly with India**

Reason(R) is the correct explanation of Assertion(A): The decline of the Portuguese was brought about by several factors. Portuguese were **intolerant and fanatical in religious affairs**. Their **dishonest trade practices** also evoked a strong reaction. The Portuguese earned notoriety as sea pirates. Their arrogance and violence brought them the animosity of the rulers of small states and the imperial Mughals as well.

Knowledge Base: The Portuguese conquered Goa on the west coast in 1510. Goa then became the political headquarters for the Portuguese in India. The Portuguese perfected a pattern of controlling the Indian Ocean trade through a combination of political aggressiveness and naval superiority.

Q.30) Which among the following is/are the train services between India and Bangladesh?

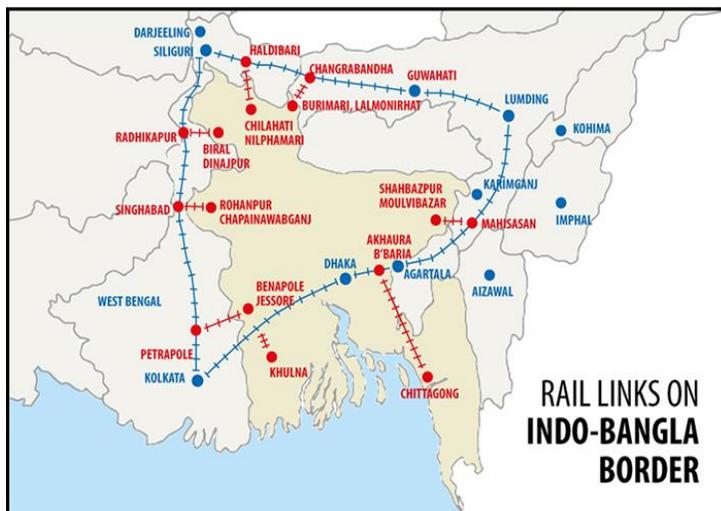

1. Mitali Express
2. Maitree Express
3. Bandhan Express

Select the correct answer using the code given below:

- a) 2 only
- b) 3 only
- c) 1 and 2 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer

Two years after train services were stopped due to the onset of the Covid-19 pandemic, passenger train services between India and Bangladesh resumed recently. The following trains have been flagged off after the resumption of train services:

- **Bandhan Express from Kolkata to Khulna**
- **Maitree Express from Dhaka to Kolkata**
- **Mitali Express from New Jalpaiguri to Dhaka**

Source: <https://www.thehindu.com/news/national/india-bangladesh-flag-off-new-passenger-train-service-mitali-express/article65484809.ece>

Q.31) Consider the following statements about ‘the Charter Act of 1813’:

1. It ended the trade monopoly of the East India Company in India except for trade in tea and trade with China.
2. It asserted the sovereignty of the British Crown over the Indian territories held by the Company.
3. The revenues of India were now controlled by the British Parliament.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) a

Exp) Option a is the correct answer.

Statement 1 is correct. The Charter Act of 1813 ended the monopoly of the East India Company over trade with India, except for trade in tea and trade with China. The Company retained the trade with China and the trade in tea.

The Charter Act of 1833 abolished the Company’s monopoly of the China trade.

Statement 2 is correct. The Charter Act, 1813 asserted the sovereignty of the British Crown over the Indian territories held by the Company. **The Company was to retain the possession of territories and the revenue for 20 years more, without prejudice to the sovereignty of the Crown.**

Statement 3 is incorrect. The Act provides that the Company was to retain the possession of the revenue for 20 years more.

The Act also deprived the presidencies of the power to make laws, concentrating legislative power with the Governor-General and his council.

It also provides for a sum of one lakh rupees to be set aside for the revival, promotion and encouragement of literature, learning and science among the natives of India, every year.

Source: UPSC 2019

Q.32) Which of the following statements is/are correct regarding the British Policy of Paramountcy?

1. The Policy was first initiated under the Governor General Warren Hastings.
2. Under this policy, the Company's authority was considered greater than that of Indian states.
3. The policy justified the annexation of Indian states by the British.

Select the correct answer using the code given below:

- a) 1 and 2 only
- b) 2 and 3 only
- c) 2 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

Statement 1 is incorrect. The policy of "paramountcy" was initiated under **Lord Hastings (Governor General from 1813 to 1823)**. **Warren Hastings was the** first Governor-General of Bengal between 1773 and 1785.

Statement 2 is correct. Under the Policy of paramountcy, **the Company claimed that its authority was paramount or supreme**. Hence its power was greater than that of Indian states. With paramountcy, the British Government exercised the right to interfere in the internal affairs of states through their residents or by appointing and dismissing ministers and officials.

Statement 3 is correct. Under this policy, in order to protect its interests, it was justified in annexing or threatening to annex any Indian kingdom. This view continued to guide later British policies as well

Q.33) Consider the following events in the Indian history:

1. Nadir Shah defeated the Mughals in the Battle of Karnal.
2. Akbar II gave the title of Raja to Rammohan Roy.
3. Occurrence of the Battle of Buxar.
4. Jahandar Shah became the Mughal Emperor.

What is the correct chronological order of the above events, starting from the earliest time?

- a) 1 - 4 - 3 - 2
- b) 4 - 1 - 2 - 3
- c) 1 - 3 - 4 - 2
- d) 4 - 1 - 3 - 2

Ans) d

Exp) Option d is the correct answer.

The correct chronological order is as follows: **4-1-3-2**

Option 4: Jahandar Shah (March 1712-February 1713): With the help of Zulfikar Khan, Jahandar Shah became the emperor. Zulfikar Khan was appointed as Prime Minister. He introduced the Izara system to improve the financial condition of the empire and also abolished Jaziya.

Option 1: In 1739, **Nadir Shah defeated the Mughals in the Battle of Karnal** and later imprisoned Muhammad Shah.

Option 3: The **combined armies** of Mir Kasim (Nawab of Bengal), Shuja-ud-daulah (Nawab of Awadh) and Shah Alam II (Mughal Emperor) were **defeated by the English forces under Major Hector Munro** at Buxar on October 22, **1764**. The importance of this battle lay in the fact that not only the Nawab of Bengal but also the Mughal Emperor of India was defeated by the English

Option 2: Akbar II gave the title of Raja to Rammohan Roy in the year 1831.

Source: Pg 62, 63, 64 in the Spectrum and Pg 2 to 8 of 12th standard NCERT (old)

Q.34) Consider the following statements with respect to Zamindari and Jagirdari system in Modern Indian history:

1. Jagirdari is a land tenure system first introduced during the Mughal era.
2. The Jagirdar had the right to remove a Zamindar.
3. The Zamindars did not have the hereditary rights of collecting land revenue.
4. The zamindars maintained troops and cavalry.

Which of the above statements are correct?

- a) 1 and 3 only
- b) 2 and 4 only
- c) 1, 2 and 4 only
- d) 1, 2 and 3 only

Ans) b

Exp) Option b is the correct answer.

Statement 1 is incorrect: Jagirdari is a land tenure system developed during the **Delhi Sultanate period**. Revenue from jagir was assigned to jagirdars in lieu of their salary in cash according to their rank. Under the Jagirdari system, collection of the revenue of an estate and the power of governing it were bestowed upon an official of the state.

Statement 2 is correct: The Jagirdar had right to remove a Zamindar, detain the peasants and brought them back in case they ran away.

Statement 3 is incorrect: The zamindars had **hereditary rights of collecting land revenue from several villages** which were called his zamindari. For the collection of land revenue, they used to get a share of revenues which could go up to 25 percent of the revenue.

Statement 4 is correct: **The zamindars maintained troops.** The zamindars employed their footmen and cavalry. These troops helped them in the realization of land revenue and the subjugation of the peasantry. Almost all zamindars had their own small or big forts.

Knowledge Base:

Jagirdari Sytem: The jagirdar was allowed to collect only authorised revenue in accordance with the Imperial regulations. One of the important features of the jagir system was shifting of jagir-holders from one jagir to another for administrative reasons. This system of transfers checked the jagirdars from developing local roots.

Zamindari System: The zamindar was not the owner of the land but had hereditary rights in the produce of soil. When the zamindar collected revenue for the state, he was entitled to nankar. When the state directly collected the revenue, the zamindar was paid a share called malikana. The zamindars were entitled to a number of other petty perquisites.

There was a serious clash of interests between the jaghirdar and zamindar. In case of conflicts between the two, the peasants were generally on the side of the zamindar and suffered most in these clashes

eGyanKosh: Unit-15 Mughal Administration: Mansab and Jagir

Unit-17.pdf (egyankosh.ac.in)

Q.35) Regarding the Indian economy, which of the following correctly constitutes the “twin deficit” problem?

- Fiscal deficit and current account deficit
- Current account deficit and capital account deficit
- Fiscal deficit and capital account deficit
- Current account deficit and increasing non-performing assets

Ans) a

Exp) Option a is the correct answer.

The twin deficit problem is an **increase in both the fiscal and current account deficits simultaneously**. Fiscal deficit is a scenario where the government spends more money than its revenue. The government fills this void by borrowing -- mainly from the markets. A current account deficit is a shortfall between the money received by selling products to other countries and the money spent to buy goods and services from other nations. The current account essentially refers to two specific sub-parts:

- Import and Export of goods – this is the “trade account”.
- Import and export of services – this is called the “invisibles account”.

The increase in the fiscal deficit may cause the current account deficit to widen. The twin deficit problem, especially the worsening current account deficit, may compound the effect of costlier imports and weaken the value of the rupee, thereby further aggravating external imbalances. This creates the risk of a cycle of wider deficits and a weaker currency.

Knowledge Base:

- Higher levels of fiscal deficit typically imply the government **eats into the pool of investible funds in the market** which could have been used by the private sector for its own investment needs.
- A widening CAD tends to **weaken the domestic currency** because a CAD implies more dollars (or foreign currencies) are being demanded than rupees.

Source: https://www.business-standard.com/podcast/finance/what-is-a-twin-deficit-problem-122062300077_1.html#:~:text=In%20its%20recent%20Monthly%20Economic,and%20current%20account%20deficits%20simultaneously.

<https://indianexpress.com/article/explained/everyday-explainers/indias-emerging-twin-deficit-problem-explained-7982895/>

Q.36) With reference to the impact of the ‘Battle of Buxar’, consider the following statements:

- The real power of administration shifted from the Nawab to the Naib-Subedar.
- Awadh was immediately annexed into the Company’s territory.
- Treaty of Allahabad was signed between Robert Clive and Shah Alam II.
- The East India Company was given the diwani of the province of Bengal.

Which of the above statements is/are **incorrect**?

- 2 only
- 3 only
- 1 and 2 only
- 2 and 4 only

Ans) a

Exp) Option a is the correct answer.

Battle of Buxar; The combined armies of Mir Kasim (Nawab of Bengal), Shuja-ud-daulah (Nawab of Awadh) and Shah Alam II (Mughal Emperor) were defeated by the English forces under Major Hector Munro at Buxar on October 22, 1764.

Statement 1 is correct: After the war, the **real power of administration lay in the hands of the naib-subahdar**, who could be appointed or dismissed by the English. The Nawab was made a titular head.

Statement 2 is incorrect: Awadh was not annexed, but was made a Buffer State. Because, annexation would have placed the Company under an obligation to protect an extensive land frontier from the Afghan and the Maratha invasions.

Statement 3 is correct: The victory of the British led to the signing of the **Treaty of Allahabad (1765) by Robert Clive with Shah Alam II**. By this treaty the Company got the Diwani right to collect land revenue from the princely states of Bengal, Bihar and Orissa. Besides, the Company obtained three districts, Burdwan, Chittagong and Midnapur, in Bengal and sovereignty over Calcutta.

Statement 4 is correct. In 1765 the Mughal emperor appointed the Company as the Diwan of the provinces of Bengal. The Diwani allowed the Company to use the vast revenue resources of Bengal. This solved a major problem that the Company had earlier faced. After the battle of Buxar, the East India Company became the real masters of Bengal.

Source: class 8th NCERT, our pasts. A brief history of modern India.

Q.37) With reference to the events that led to the Battle of Plassey, consider the following statements:

1. Seizure of the English fort at Calcutta by Siraj ud-Daulah.
2. Rampant misuse of trade privileges by East India Company officials.
3. Occurrence of the Black Hole tragedy.
4. Abolition of duty-free trade for the East India Company.

Which of the statements given above are correct?

- a) 1 and 3 only
- b) 2 and 4 only
- c) 1, 2 and 4 only
- d) 1, 2 and 3 only

Ans) d

Exp) Option d is the correct answer.

The following were the factors responsible for the Battle of Plassey, 1757:

- The English fortified Calcutta without the nawab's permission.
- The Company further tried to mislead him, and compounded their sin by giving asylum to a political fugitive, Krishna Das, son of Raj Ballabh who had fled with immense treasures against the nawab's will.
- **Siraj ud-Daulah's attack and seizure of the English fort** at Calcutta brought their hostility into the open. **So, Statement 1 is correct.**
- The officials of the Company made **rampant misuse of its trade privileges** that adversely affected the nawab's finances. **So, Statement 2 is correct.**
- **'Black Hole Tragedy'** where Siraj-ud-daula is believed to have imprisoned 146 English persons who were lodged in a very tiny room due to which 123 of them died of suffocation. **So, Statement 3 is correct.**

Mir Kasim decided to **abolish duty free trade for the English East India Company which led to Battle of Buxar in 1764. So, Statement 4 is incorrect.**

Q.38) Consider the following statements with reference to 'Residents' appointed in the Princely States by the Britishers:

1. The 'Residents' were appointed in the Indian states as political or commercial agents of the Company.
2. They acted as the heads of Contingent army units placed in the states by the British.
3. The Residents never interfered in the internal affairs of Indian states, under any circumstance.

Which of the above statements is/are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 only
- d) 1, 2 and 3

Ans) a

Exp) Option a is the correct answer.

The Battle of Buxar enhanced the power of the East India Company. It managed to extend its jurisdiction beyond the boundary of Bengal. It got an opportunity to enter successfully into the politics of India. It helped the British to carve out their empire in India.

Statement 1 is correct: The subsidiary alliance system was used by Lord Wellesley, who was governor-general from 1798-1805. Under the system, the allying Indian state's ruler was compelled to accept the permanent stationing of a British force within his territory and to pay a subsidy for its maintenance. **The Indian ruler had to agree to the posting of a British resident in his court.** They were political or commercial agents and their job was to serve and further the interests of the Company.

Statement 2 is correct: They were the heads of Contingent army units placed under Subsidiary alliance in the states.

Statement 3 is incorrect: The residents or the agent's motive was to serve and to promote the interests of the company. They were also political or commercial agents and their job was to serve and further the interests of the Company. **Through the Residents, the Company officials began interfering in the internal affairs of Indian states.** They tried to decide who was to be the successor to the throne, and who was to be appointed in administrative posts. Sometimes the Company forced the states into a "subsidiary alliance".

Source: <https://ncert.nic.in/textbook/pdf/hess202.pdf>

<https://ncert.nic.in/ncerts/l/lehs303.pdf>

Q.39) Which of the following statements correctly describes the primary cause of the Vellore Mutiny of 1806?

- a) A 50% hike in land revenue by the British Indian Government.
- b) Interference in the social and religious practices of the sepoys.
- c) Large-scale transfer of land ownership from locals to outsiders.
- d) Introduction of money lenders in the region.

Ans) b

Exp) Option b is the correct answer.

The Vellore mutiny of 1806 occurred when the sepoys protested against interference in their social and religious practices and raised a banner of revolt unfurling the flag of the ruler of Mysore.

In 1805, General Sir John Craddock, who was the Commander-in-Chief of the Madras Army, ordered a change in the army's uniform that hurt the sentiments of both Hindu as well as Muslim soldiers. In 1806, the replacement of the turban by a leather cockade caused a mutiny at **Vellore**. Soldiers were **prohibited**

from wearing **religious marks** and were forced to **shave off** their **moustaches** and **beards**. This naturally angered the soldiers. Those who protested were punished with whipping and sent out of the army. Source: A Brief History of Modern India by Rajiv Ahir - People's Resistance Against British Before 1857. <https://www.thehindu.com/children/the-vellore-mutiny-is-now-an-indelible-part-of-history/article31999384.ece>

Q.40) Consider the following statements with respect to the grant of special remission to prisoners:

1. All prisoners of 50 years of age and above who have completed 50% of their total sentence period are to be released under special remission.
2. The remission system has been defined under the Prison Act, 1894.
3. Only state government can make rules regarding the release of prisoners on furlough, parole and remission.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 only
- c) 1 and 3 only
- d) 2 and 3 only

Ans) d

Exp) Option d is the correct answer.

The Union Home Ministry issued a set of guidelines to the States and the Union Territories on the grant of special remission to prisoners to commemorate the 75th year of Independence.

Statement 1 is incorrect: The prisoners who would qualify for premature release under the scheme are **women and transgender convicts (not all) of 50 years of age and male convicts of 60 years and above** who have **completed 50% of their total sentence** period without counting the period of general remission earned.

Statement 2 is correct: The remission system has been defined under the **Prison Act, 1894** to be a set of rules regulating the award of marks to, and the consequent shortening of sentence of, prisoners in jail. It was observed in the **Kehar Singh vs. Union of India** (1989) case that **courts cannot deny** to a prisoner the benefit to be considered for remission of sentence, as by doing so the prisoner would have to live in the prison till his/her last breath without there being a ray of hope to be free again.

Statement 3 is correct: The **management and administration** of prisons fall **exclusively in the domain of state governments** and are governed by the Prisons Act, 1894. The Act further says that **only states can make rules regarding the release of prisoners on furlough, parole and remission**, as part of the correctional process in jail reforms. However, the Centre too can put out non-binding guidelines.

Knowledge Base:

Other facts:

- 'Prisons' is a **State subject** under the State List of the Seventh Schedule of the Constitution.
- Both **furlough and parole are a form of conditional release**, which means the inmate must follow the conditions set out in the order allowing furlough or parole; for instance, marking their presence at a nearby police station at regular intervals.
- There is no uniform legislation to deal with furlough or parole.
- **Furlough is granted as a matter of right to prisoners.** Its main objective is to break the monotony of imprisonment and allow the inmate to maintain contact with the outside world.
- **Parole, by contrast, is not seen as a matter of right.** It is given to a prisoner for a specific reason like the death of a relative or to attend the marriage of a family member, and is subject to the prisoner's behaviour.

SFG 2023 | LEVEL 1 | Test #17 – Solutions | 

- Parole is usually, but not necessarily, granted when the conviction has been for minor offences and the term of imprisonment is short, as defined by the state's prison manual.
- Remission is distinct from both furlough and parole in that it is a reduction in sentence as opposed to a break from prison life.
- **Section 432 of the Code of Criminal Procedure** allows state governments to grant remission to convicts.

Q.41) Wellesley established the Fort William College at Calcutta because:

- a) he was asked by the Board of Directors at London to do so
- b) he wanted to revive interest in oriental learning in India
- c) he wanted to provide William Carey and his associates with employment
- d) he wanted to train British civilians for administrative purpose in India

Ans) d

Exp) Option d is the correct answer.

Fort William College was established on 18 August 1800 by Lord Richard Wellesley **to train the British officials with the local language, cultures, law and traditions so that their administrative work would become easier as it involved interaction with the Indian natives.**

The Court of Directors of the British East India Company were not in support of a training college in Kolkata. Then a separate College was established in 1807 in England.

Q.42) With reference to terms of Subsidiary Alliance between British Indian Government (Paramount power) and Indian State (the Protected state), consider the following statements:

1. The Protected state was forbidden from having any political contact with other Indian powers without the permission of the Paramount.
2. Indian rulers were not allowed to have their independent armed forces.
3. The ruler of the protected state should not employ Europeans in their service without the sanction of the paramount power.

Which of the statements given above is/are correct?

- a) 1, 2 and 3
- b) 1 and 3 only
- c) 2 only
- d) 1 and 2 only

Ans) a

Exp) Option a is the correct Answer.

Subsidiary Alliance System was first introduced by Joseph Francois Dupleix. It was later widely used by Lord Wellesley.

Statement 1 is correct: The protected state should cut off its connection with European powers other than the English and with the French in particular. The state was also forbidden to have any political contact even with other Indian powers without the permission of the British.

Statements 2 and 3 are correct: The ruler of the protected state should keep a British Resident at his court and disband his own army. He should not employ Europeans in his service without the sanction of the paramount power. According to the terms of this alliance, Indian rulers were not allowed to have their independent armed forces.

Q.43) Consider the following statements with reference to various land revenue systems in British India:

1. Under the Ryotwari system, the land revenue was paid by the farmers directly to the state.
2. Under the Mahalwari system, the revenue was to be revised periodically and was not fixed permanently.
3. Under the Permanent settlement, hereditary succession rights to the Zamindars were not allowed.

Which of the above statements is/are correct?

- a) 1 and 3 only
- b) 1 and 2 only
- c) 2 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct Answer.

Statement 1 is correct: Ryotwari System was introduced by Thomas Munro in 1820. In this system, the peasants or cultivators were regarded as the owners of the land. **The land revenue was paid by the farmers directly to the state.**

Statement 2 is correct: The revenue under the Mahalwari system **was to be revised periodically and not fixed permanently.**

In 1822, Englishman Holt Mackenzie devised a new system known as the Mahalwari System in the North Western Provinces of the Bengal Presidency. Under the Mahalwari system, the land revenue was collected from the farmers by the village headmen on behalf of the whole village (and not the zamindar). The entire village was converted into one bigger unit called 'Mahal' and was treated as one unit for the payment of land revenue.

Statement 3 is incorrect: The zamindari system was introduced by Lord Cornwallis in 1793 through Permanent Settlement that fixed the land rights of the members in perpetuity without any provision for fixed rent or occupancy rights for actual cultivators. According to the Permanent Land revenue settlement, the Zamindars were recognized as the permanent owners of the land. **They were given hereditary succession rights to the lands under their control.**

Q.44) With reference to the 'Doctrine of Lapse', consider the following statements:

1. It declared that if an Indian ruler died without a male heir, his kingdom would become part of Company's territory.
2. Lord Dalhousie was the inventor of this doctrine.
3. The princely states of Nagpur and Satara were annexed under the Doctrine of Lapse.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 3 only

Ans) c

Exp) Option c is the correct answer.

The **doctrine of lapse** was a policy of annexation initiated by the East India Company in the Indian subcontinent about the princely states, and applied until the year 1858, the year after Company rule was succeeded by the British Raj under the British Crown.

Statement 1 is correct: The doctrine declared that if an Indian ruler died without a male heir his kingdom would “lapse”, that is, become part of Company territory.

Statement 2 is incorrect: Lord Dalhousie applied the lapse doctrine for annexing Indian princely states, but the **policy was not solely his invention**. The Court of Directors of the East India Company had articulated this early in 1834. As per this policy, the Company annexed Mandvi in 1839, Kolaba and Jalaun in 1840 and Surat in 1842.

Statement 3 is correct: It was a matter of chance that during Lord Dalhousie’s term many rulers of states died without a male issue and **seven states were annexed under the Doctrine of Lapse**. The most important of these were **Satara (1848)**, Jhansi, and **Nagpur (1854)**. The other small states included Jaitpur (Bundelkhand), Sambhalpur (Orissa), and Baghat (Himachal Pradesh).

Awadh (1856) is widely believed to have been annexed under the Doctrine of Lapse. However, it was annexed by Lord Dalhousie under the pretext of mis-governance.

Q.45) Consider the following statements with reference to the Neo-Banks:

1. They are banks without any kind of physical branches.
2. They don't have a bank license of their own but rely on bank partners to offer licensed services.

Which of the above given statements is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) c

Exp) Option c is the correct answer

The RBI (Reserve Bank of India) is taking a hard look at the neobank business model where fintechs plug into a conventional bank’s network and become customer-facing banking service providers.

Statement 1 is correct: A **neobank is a kind of online bank without any branches**. Rather than being physically present at a specific location, **neobanking is entirely online**. Neobanks are financial institutions that give customers a cheaper alternative to traditional banks. They leverage technology and artificial intelligence to offer personalized services to customers while minimising operating costs.

Statement 2 is correct: In India, **Neobanks don't have a bank licence of their own but rely on bank partners to offer licensed services**. That’s **because the RBI doesn’t allow banks to be 100% digital yet**. The RBI remains resolute in prioritising banks’ physical presence, and has spoken about the need for digital banking service providers to have some physical presence as well.

Q.46) Which of the following is the main reason for the British to secure control of North-west India during 19th century?

- They saw the rulers of Punjab as ambitious that can endanger their control over India.
- Kingdoms in Northwest India violated the Doctrine of Lapse policy.
- They feared the invasion of India by Russia.
- They wanted to acquire the rich fertile tracts of North west India to raise land revenue.

Ans) c

Exp) Option c is the correct answer.

The British wanted to secure their control over the north-west as they feared the invasion by the Russia.

British fought a prolonged war with Afghanistan between 1838 and 1842 and established indirect Company rule there. Sind was taken over in 1843. After the death of Maharaja Ranjit Singh in 1839, two prolonged wars were fought with the Sikh kingdom. Ultimately, in 1849, Punjab was annexed. Thus, the British succeeded to secure control of North-west India.

In the late 1830s the East India Company became worried about Russia. It imagined that Russia might expand across Asia and enter India from the north-west.

Knowledge Base: Under Lord Hastings (Governor General from 1813 to 1823) a new policy of “paramountcy” was initiated. Now the Company claimed that its authority was paramount or supreme, hence its power was greater than that of Indian states.

Lord Dalhousie, who was the Governor-General from 1848 to 1856, devised a policy that came to be known as the Doctrine of Lapse. The doctrine declared that if an Indian ruler died without a male heir his kingdom would “lapse”, that is, become part of Company territory.

Q.47) With reference to ‘British conquest in India’, consider the following pairs:

Wars	Resultant Treaties
1. First Anglo-Maratha war	Treaty of Salbai
2. First Anglo-Mysore war	Treaty of Purandhar
3. Second Anglo-Maratha war	Treaty of Gwalior
4. Second Anglo-Mysore war	Treaty of Srirangpatnam

Which of the pairs given above is/are correctly matched?

- 1 only
- 2 and 4 only
- 1, 2 and 3 only
- 3 and 4 only

Ans) a

Exp) Option a is the correct answer.

Pair 1 is correctly matched: The Treaty of Salbai was signed between Warren Hastings and Mahadaji Scindia and it was **resultant of First Anglo-Maratha war** (1775–82). Accordingly, Salsette and Bassein were given to the British.

Pair 2 is incorrectly matched: The First Anglo-Mysore War (1766–1769) was a conflict in India between the Haider Ali and the East India Company. It was ended by the **Treaty of Madras**.

The **Treaty of Purandhar** was a doctrine signed on 1 March 1776 by the **peshwa of the Maratha Empire and the British East India Company**.

Pair 3 is incorrectly matched: The Treaty of Gwalior was signed between the British and Sindhia in November 1817. This **treaty was signed during Third Anglo-Maratha War**.

Pair 4 is incorrectly matched: The Treaty of Mangalore (March, 1784) led to an end of the Second Mysore War. Whereas, **Treaty of Srirangapatam was conclusive treaty of third Anglo-Mysore war** and under this treaty nearly half of the Mysorean territory was taken over by the victors.

Q.48) Why Panipat was/were one of the favorite battlefields in the political history of India?

1. The surrounding region of Panipat has a difficult mountainous terrain that made it a strategic location in Northern India.
2. The duration of monsoon rainfall in the region is short, making it easier to fight.
3. The artisans/smiths of these region were experts in making warfare-related materials.

Select the correct answer using the codes given below:

- a) 1 and 2 only
- b) 3 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

Panipat is **situated in the north of Delhi** and is the location of **three historic battles** that shaped Mughal history. In total three Battles of Panipat took place namely **First Battle of Panipat in 1526, Second Battle of Panipat in 1556 and Third Battle of Panipat in 1761**.

Panipat Area

Panipat was a favorite battlefield in the political history of India due to the following reasons:

Statement 1 is incorrect: The surrounding region of Panipat has a **flat ground (not difficult mountainous terrain)** which was **suitable for cavalry movement**—the main mode of warfare at the time.

Statement 2 is correct: The **duration of monsoon rainfall in the region is short** in comparison to other areas, making it easier to fight.

Statement 3 is correct: The **artisans/smiths of these regions were experts** in making warfare-related materials, and, hence, it became easier for forces of both parties to replenish their war materials

Knowledge Base:

Other reasons for Panipat being a favorite battlefield:

- 1) The rulers at Delhi considered Panipat as a confrontable strategic ground and hence they preferred to take the fight there.
- 2) After the construction of the Grand Trunk Road by Sher Shah Suri (1540–45), Panipat was on this route. It became easier for conquerors to find their way there.

3) The near proximity of Panipat to Delhi made it easier for the Indian rulers to transport weapons, military, and food supplies, etc., to the battleground, and still keep the capital insulated from the conflict at hand.

Q.49) Consider the following statements:

1. Portuguese Jesuit Antonio Monserrate was the contemporary of Mughal ruler Akbar.
2. French Physician Francois Bernier served as a physician to Prince Dara Shukoh.
3. French jeweller Jean Baptiste Tavernier visited India several times during the reign of Mughal emperor Humayun.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 1 and 3 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) a

Exp) Option a is the correct answer

Statement 1 is correct: In 1579, Akbar forwarded a letter to the **Portugal authorities at Goa** requesting them to send two learned priests. In response, the Church authorities in Goa sent Jesuit **fathers, Rodolfo Acquaviva and Antonio Monserrate** to Akbar court (Fatehpur Sikri) in 1580.

Statement 2 is correct: **Francois Bernier (1620 – 1688)** was a French physician and traveller. He was a **physician to Prince Dara Shukoh** the elder son of Shah Jahan. He stayed in India for around **12 years from 1656-1668**.

Statement 3 is incorrect **Jean-Baptiste Tavernier (1605-1689)** was a 17th-century French gem merchant and traveller. **He travelled to India at least six times and he was fascinated with the trading conditions in India. Mughal ruler Humayun died in 1556.**

12th Themes in Indian History part 2 (pg no 122)

Q.50) Consider the following statements with respect to the I2U2 initiative:

1. It is a grouping of four nations namely India, Israel, United States and United Kingdom.
2. It is an economic partnership that deals exclusively with freedom of trade among the members.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) d

Exp) Option d is the correct answer.

Statement 1 is incorrect: I2U2 is the grouping formed by four nations-**India, Israel, UAE (not UK) and the US**. The countries share various common global issues including food security crisis and defence.

Statement 2 is incorrect: The India-Israel-US-UAE grouping will deal with issues concerning **maritime security, infrastructure, digital infrastructure and transport**. The first summit of I2U2 nations was held in a virtual mode in July 2022 where the four nations discussed the **food security crisis and other areas of cooperation**.

Source: <https://indianexpress.com/article/india/india-israel-us-uae-i2u2-summit-next-month-7970067/>

Q.1) With reference to Swadeshi Movement consider the following statements:

1. It contributed to the revival of the indigenous artisan crafts and industries.
2. The National Council of Education was established as a part of Swadeshi Movement.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) c

Exp) Option c is the correct answer.

Statement 1 is correct: The most important aspect of the movement was a focus on self-reliance or Atma-shakti which led to the development of indigenous artisan crafts and industries.

Statement 2 is correct: The movement also led to the development of national education. In this context, the National Council of Education was established in August 1906.

Source: UPSC CSE 2019

Q.2) Consider the following statements:

Statement 1: Moderate nationalists wanted greater participation in legislative councils in India.

Statement 2: Moderate nationalists wanted more powers in legislative councils to further their agenda of getting complete independence from the British.

Which one of the following is correct in respect of the above statements?

- a) Both Statement 1 and Statement 2 are correct and Statement 2 is the correct explanation of Statement 1.
- b) Both Statement 1 and Statement 2 are correct but Statement 2 is not the correct explanation of Statement 1.
- c) Statement 1 is correct but Statement 2 is not correct.
- d) Statement 1 is not correct but Statement 2 is correct.

Ans) c

Exp) Option c is the correct answer.

Legislative councils in India had **no real official power** till 1920. Yet, work done in them by the nationalists **helped the growth of the national movement**. The Imperial Legislative Council constituted by the Indian Councils Act (1861) was an impotent body designed to disguise official measures as having been passed by a representative body.

Statement 1 is correct: Moderates nationalists wanted greater participation in legislative councils in India because they wanted the membership of the Councils **for elected representatives of the people**. They demanded **Indian control over the public purse, the reduction of military expenditure** and raised the slogan that had earlier been raised by the Americans during their War of Independence, **'No taxation without representation'**.

Statement 2 is incorrect: Getting **complete independence was not the specified aim of the moderates (The main objective of the Moderates was to achieve self-government within the British Empire)**. Moderate nationalists demanded for the reform of the legislative councils and increases in the powers of the council **because Legislative councils had no real official power. Hence, Statement 1 is correct and Statement 2 is incorrect.**

Knowledge Base:

Features of Indian Council Act 1892:

- 1) The act increased the number of additional or non-official members in the legislative councils as Central Legislative Council from 10 to 16 members.
- 2) The members were given the right to ask questions on the budget or matters of public interest but had to give notice of 6 days for it.
- 3) They could not ask supplementary questions.
- 4) The principle of representation was initiated through this act. The district boards, universities, municipalities, chambers of commerce and zamindars were authorized to recommend members to the provincial councils.
- 5) The legislative councils were empowered to make new laws and repeal old laws with the permission of the Governor-General.

A brief History of Modern History- Spectrum

Q.3) With reference to the modern history of India, which of the following statements is correct regarding the Orientalist-Anglicist Controversy?

- a) It was related to abolishment of judicial disqualification based on racial distinctions.
- b) It was related to the transfer of power from the British East India Company to the British Crown.
- c) It was a disagreement between British and Indians over the economic drain of wealth from India.
- d) It was the disagreements within the British East India Company about the nature of education that should be provided to Indians.

Ans) d

Exp) Option d is the correct answer.

The **Orientalist-Anglicist controversy** was the **disagreements within the British East India Company** about the **nature of education that should be provided to local Indians**. The Anglicists, headed by Lord Macaulay, wanted English as the medium of instruction while the Orientalists, headed by H.H. Wilson and H.T. Prinsep, supported the Indian languages. The **Anglicists were of the opinion** that the **government spending on education should be made exclusively for modern studies** while the **Orientalists argued that Western sciences and literature should be taught to prepare students to take up jobs and emphasis should be placed on expansion of traditional Indian learning**. The Anglicists were divided over the question of medium of instruction—one faction was for English language as the medium, while the other faction was for Indian languages (vernaculars) for the purpose.

Source: A brief history of modern India. Chapter name- Development of Education. Page no-564.

Q.4) With reference to Reformers in modern India and the organizations they were associated with, consider the following pairs:

Reformers	Associated with
1. Veeresalingam Pantulu	Rajahmundry Social Reform Association
2. Gopal Hari Deshmukh	Servants of India Society
3. Debendranath Tagore	TattvaBodhini Sabha

How many of the above given pairs is/are correctly matched?

- a) Only one pair
- b) Only two pairs

- c) All the three pairs
d) None

Ans) b

Exp) Option b is the correct answer.

Pair 1 is correct: Veeresalingam Pantulu founded the Rajahmundry Social Reform Association in 1878. The reform association emphasized on widow remarriage. People opposing widow remarriage failed to prove their point and resorted to physical violence against Veeresalingam. But he did not relent. In fact, he asked his followers to visit different parts of the Andhra Pradesh and find young men who were willing to tie the knot with widows. After tremendous efforts Veeresalingam was successful in arranging the first widow remarriage in 1881.

Pair 2 is incorrect: Gopal Krishna Gokhale was a liberal leader of the Indian National Congress. He founded the **Servants of India Society in 1905** with the help of M.G. Ranade. On the other hand, **Gopal Hari Deshmukh was a social reformer** and rationalist from Maharashtra. He held the post of a judge under British raj. He wrote for a **weekly Prabhakar** under the pen name of Lokahitawadi on social reform issues. He started a **weekly, Hitechhu**, and also played a leading role in founding the periodicals, **Gyan Prakash, Indu Prakash and Lokahitawadi.**

Pair 3 is correct: Debendranath Tagore headed the Tattvabodhini Sabha which was founded in 1839. Its organ was Tattvabodhini Patrika in Bengali. Tattvabodhini Patrika was devoted to the systematic study of India's past with a rational outlook and to the propagation of Rammohan's ideas. Maharishi Debendranath Tagore was the father of Rabindranath Tagore and a product of the best in traditional Indian learning. He gave a new life to Brahma Samaj and a definite form and shape to the theist movement, when he joined the Brahma Samaj in 1842.

Q.5) Which of the following statements correctly defines the “biomass co-firing”?

- a) An in situ solid waste treatment method that can reduce the occurrence of stubble burning.
b) Practice of substituting a part of fuel with biomass at coal thermal plants.
c) Practice of using biomass by the households for cooking and heating needs despite of having LPG.
d) A negative impact of forest fires where microorganisms in the land get affected along with the trees due to the fires.

Ans) b

Exp) Option b is the correct answer.

Biomass co-firing is the **practice of substituting a part of the fuel with biomass** at coal thermal plants. Coal and biomass are combusted together in boilers that have been designed to burn coal. For this purpose, the existing coal power plant has to be partly reconstructed and retrofitted. Biomass co-firing is an effective way to **curb emissions from open burning of crop residue**; it also decarbonises the process of electricity generation using coal. Substituting 5-7% of coal with biomass in coal-based power plants can save 38 million tonnes of carbon dioxide emissions. National Mission on use of Biomass in coal-based thermal power plants, also called **SAMARTH (Sustainable Agrarian Mission on use of Agro-residue in Thermal Power Plants)**, work to enhance the adaptation of biomass co-firing.

Source: <https://www.downtoearth.org.in/news/energy/biomass-co-firing-why-india-s-target-for-coal-power-plants-is-challenging-83261>

<https://blog.forumias.com/biomass-co-firing-why-indias-target-for-coal-power-plants-is-challenging/>

Q.6) He joined the Bombay judicial service and became a judge of the Bombay High Court. He was instrumental in giving a progressive shape to public life in Maharashtra by participating in the working of the Pune Sarvajanik Sabha, Prarthana Samaj, the Indian Social Conference and the Indian National Congress.

Identify the Social reformer from the paragraph given above:

- a) Gopal Krishna Gokhale
- b) Mahadeo Govind Ranade
- c) Vishnu Shastri
- d) Dhondo Keshav Karve

Ans) b

Exp) Option b is the correct answer.

Option a is incorrect: Gopal Krishna Gokhale was an Indian liberal political leader and a social reformer during the Indian Independence Movement. Gopal Krishna Gokhale founded the Servants of India Society in 1905 with the help of M.G. Ranade. Gokhale graduated from Elphinstone College in 1884. In addition to learning English, he was exposed to Western political thought and became a great admirer of theorists such as John Stuart Mill and Edmund Burke.

Option b is correct: Mahadeo Govind Ranade was born on 18th January, 1842 at Nasik in an orthodox Brahmin family. His early education was at Kolhapur and higher education at Bombay. He was a brilliant student and acquired B.A. and LL.B. degrees. **Mahadeo Govind Ranade joined the Bombay judicial service and became a judge of the Bombay High Court.** He was instrumental in giving a progressive shape to public life in Maharashtra by participating in the working of the **Pune Sarvajanik Sabha, Prarthana Samaj, the Indian Social Conference and the Indian National Congress.** Ranade advocated social reforms because he knew that all-round reforms were necessary to bring about basic change in Hindu society. There were different methods of social reform and Ranade held that barring revolution all other methods should be pursued.

Option c is incorrect: Vishnu Shastri Chiplunkar was born in Pune on May 20, 1850 to social reformer and scholar Krishna Shastri Chiplunkar. He was graduated with a bachelor's degree in arts from Deccan College in 1872. **Chiplunkar used his writing to fight political battles** and address social injustice while exerting a decisive **influence on Marathi literature.** He co-founded two influential newspapers with Bal Gangadhar Tilak and Gopal Ganesh Agarkar called **Kesari and Mahratta.**

Option d is incorrect: Dr Dhondo Keshav Karve was pioneered in women empowerment in India. He was born on April 18, in the year 1858. Dhondo Keshav Karve was instrumental in empowering women in pre-independence India and **promoting widows' education.** Maharishi Karve founded an educational institution called **Hindu Widows Home in the year 1896,** Pune. It was to help widows to support themselves, in case they were unable to remarry. Karve himself married a widow in 1893. He dedicated his life to the upliftment of Hindu widows and became the secretary of the Widow Remarriage Association.

Q.7) Who among the following has authored the book named “Stripurushtulna”?

- Savitribai Phule
- Fatima Sheikh
- Tarabai Shinde
- Pandita Ramabai

Ans) c

Exp) Option c is the correct answer.

Tarabai Shinde (1850–1910) was a 19th-century Indian feminist revolutionary who criticized sexism and caste.

Option c is correct: *Stripurushtulna* (which means "a contrast of man and woman") is considered India's first modern feminist book. **It was written by Tarabai Shinde in 1882**, and it was one of the first texts to challenge the caste system and hegemony since the Bhakti movement's poetry. In 1882, the text was first published in Marathi as a response to an article in Pune Vaibhav, an orthodox publication.

Source: <https://ncert.nic.in/textbook/pdf/hess208.pdf> , Page no – 99

Q.8) With reference to Socio-Religious Reform Movements in British India, consider the following statements:

- Keshab Chandra Sen organized a society ‘Naba Bidhan’ to preach a combined knowledge of Hindu philosophy and Christian theology.
- In advocating widow remarriage and opposing child marriage, Akshay Kumar Dutt extensively sought the ancient religious scriptures.
- Dev Samaj defended orthodox Hinduism against the teachings of Arya Samaj and Ramakrishna Mission.

Which of the statements given above is/are correct?

- 1 only
- 2 and 3 only
- 1 and 2 only
- 1 and 3 only

Ans) a

Exp) Option a is the correct answer.

Statement 1 is correct: Keshab Chandra Sen, (1838-1884, Calcutta) was a Hindu philosopher and social reformer who attempted to incorporate Christian theology within the framework of Hindu thought. He condemned child marriage; however, he allowed his 14-year-old daughter to marry the son of the maharaja of Cooch Behar, thus publicly repudiating his avowed opposition to child marriage. **As a result, some of his followers broke away.** Keshab Chandra Sen **then organized a new society–Naba Bidhan, or Nava Vidhana (“New Dispensation”)**—continuing to preach a mixture of Hindu philosophy and Christian theology. **Hence, statement 1 is correct.**

Statement 2 is incorrect: In advocating widow remarriage and opposing polygamy and child marriage, **Akshay Kumar Dutt was least concerned with searching for any religious sanction or finding out whether they existed in the past.** His arguments were mainly based on their noticeable effects on society. Instead of depending on the scriptures, he cited medical opinion against child marriage.

Statement 3 is incorrect: **Bharat Dharma Mahamandala (not Dev Samaj)** of the orthodox educated Hindus stood for a defence of orthodox Hinduism against the teachings of the Arya Samajists, the Theosophists, and the Ramakrishna Mission. Whereas Dev Samaj was founded in 1887 at Lahore by Shiv Narayan Agnihotri. This samaj emphasized on the eternity of the soul, the supremacy of the guru, and the need for good action.

Q.9) Which of the following statements is/are correct about Raja Rammohan Roy?

1. His efforts led to the passage of government regulation prohibiting the practice of Sati.
2. He demanded the right of inheritance and property for women.
3. His campaigns led to the abolition of opium cultivation in British India.

Select the correct answer using the code given below:

- a) 1 only
- b) 1 and 2 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

Raja Rammohan Roy established the Brahma Samaj at Calcutta in 1828 in order to purify Hinduism and to preach monotheism. He established the Atmiya Sabha in 1815 which developed into the Brahma Sabha.

Statement 1 is correct: Raj Rammohan Roy is most remembered for helping Lord William Bentinck to declare the practice of Sati a punishable offence in 1829. Rammohan was a determined crusader against the inhuman practice of sati. **He started his anti-sati struggle in 1818 and he cited sacred texts to prove his contention that no religion sanctioned the burning alive of widows, besides appealing to humanity, reason and compassion. His efforts were rewarded by the Government by a Regulation in 1829 which declared the practice illegal and punishable by the courts.**

Statement 2 is correct: As a campaigner for women's rights, Roy condemned the general subjugation of women and opposed prevailing misconceptions which formed the basis of according an inferior social status to women. **Roy attacked polygamy and the degraded state of widows and demanded the right of inheritance and property for women.**

Statement 3 is incorrect: He did much to disseminate the benefits of modern education to his countrymen. In 1825, he established a Vedanta college where courses in both Indian learning and Western social and physical sciences were offered. **However, he never led any campaigns demanding ban on opium cultivation.**

Knowledge Base: Rammohan Roy started the first Bengali weekly Samvad Kaumudi and edited a Persian weekly Mirat-ul-akhbar. In 1817, he founded the Hindu College (now Presidency College, Calcutta) along with David Hare.

Q.10) Which of the following are the features of the Bharat Gaurav Scheme?

1. Any operator can lease trains from Indian railways to run on a theme-based circuit.
2. Indian railways will get fixed 30% of the generated revenue in any financial year.
3. Mandatory insurance of the tourists shall be the liability of the service provider and not the Indian railways.

Select the correct answer using the code given below:

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

The Bharat Gaurav policy, launched in 2021, allows private players to operate trains on theme-based circuits.

Option 1 is correct: According to the Bharat Gaurav policy, **any operator or service provider, or virtually anyone, can lease trains from Indian Railways** to run on a theme-based circuit as a special tourism package. The operator has the **freedom to decide the route, the halts, the services provided**, and, most importantly, the tariff.

Option 2 is incorrect: Under the Bharat Gaurav scheme, the **Railways will get revenue in the form of right to use charges for the rakes; haulage charges; empty haulage charges and stabling charges**. So Indian railways will not get fixed 30% of the generated revenue in any financial year.

Option 3 is correct: Mandatory insurance of the tourists shall be the **liability of the service provider and the Railways shall bear no liability** in this regard. All liability arising out of accident/untoward incident will be borne by the Indian Railways based on Accident Inquiry Report.

Knowledge Base:

Other features of the Bharat Gaurav Scheme:

- 1) The tenure of the arrangement is a **minimum of two years** and maximum of the codal life of the coach.
- 2) The Bharat Gaurav operator will also have to propose a similar business model wherein it takes care of **local transport, sightseeing, food, local stays**, etc. along with operating the trains.
- 3) The operator has to, however, take care of end-to-end, comprehensive service like hotel stay, local arrangements, etc. These trains **cannot be used as ordinary transport trains** between an origin and destination.
- 4) Indian **railways will provide staff** to drive the trains, guards and also maintenance staff on board for the coaches. Other staff, like housekeeping and catering, etc, will be deployed by the operator.

Q.11) In the context of Indian history, the Rakhmabai case of 1884 revolved around

1. women's right to gain education
2. age of consent
3. restitution of conjugal rights

Select the correct answer using the code given below:

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

Option 2 and 3 are correct: The Rakhmabai case of 1884 was instrumental in raising the **age of consent for woman**. The case also dealt with the issues of non-consensual marriage and **restitution of conjugal rights**.

Option 1 is incorrect: The issue of contention did not include in the case.

Source: UPSC CSE Pre 2020

Q.12) In context of socio religious reform movements in India, consider the following statements:

1. Vidhava Vivaha Uttejaka Mandal was started by Vishnu Parashram Shastri Pandit for encouragement of widow remarriage.
2. Kandukari Veeresalingam led a reform movement against the practice of dowry in Kerela.
3. The Rahnumai Mazdayasnan Sabha worked towards the restoration of the Zoroastrian religion to its pristine purity.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 1 and 3 only
- c) 3 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

The reform movement gained strength during the second half of the century. A host of towering personalities emerged on the intellectual scene. The social reform movements were linked to the religious reforms primarily because nearly all social ills like untouchability and gender-based inequity derived legitimacy from religion in one way or the other.

Statement 1 is correct: Vishnu Parashram Shastri Pandit (1827-1876) began his public career with the advocacy of widow-marriage. He was a leading figure in the sphere of the agitation for female emancipation. He started the **Vidhava Vivaha Uttejaka Mandal (Society for Encouragement of Widow Marriage) in 1865 and worked as its secretary.** He set an example by marrying a widow in 1875.

Statement 2 is incorrect: In Southern India, the social reform movement in the early stages was led by Kandukari Veeresalingam (1848-1919). By profession he was a school teacher for the major part of his life. In his prolific writing, he produced a large number of tracts and pamphlets on social reform in the Telugu language. He is said to be the father of modern Telugu prose literature. **His missionary zeal on issues like re-marriage of widows, female education and generally on the upliftment of women and removal of social vices,** made him a **prominent figure in Andhra region (not in Kerela).**

Statement 3 is correct: The Rahnumai Mazdayasnan Sabha (Religious Reform Association) was founded in 1851 by a group of English- educated Parsis for the regeneration of the social conditions of the Parsis. It worked towards the **restoration of the Zoroastrian religion** to its pristine purity. The movement had Naoroji Furdonji, Dadabhai Naoroji, K.R. Cama and S.S. Bengalee as its leaders. The message of reform was spread by the newspaper Rast Goftar (Truth-Teller). Gradually, the Parsis emerged as the most westernised section of the Indian society.

Q.13) Consider the following statements with reference to the Ahmadiya movement:

1. It believed in one universal religion of all humanity.
2. It supported the sacred war against people who promoted non-Muslim religions.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) a

Exp) Option a is the correct answer.

The Ahmadiya movement was founded by Mirza Ghulam Ahamad of Qadiyan in 1889, who began his work as a defender of Islam against the polemics of the Arya Samaj and the Christian missionaries. In 1889, he claimed to be Masih and Mahdi and later also to be an incarnation of the Hindu god Krishna and Jesus, returned to earth.

Statement 1 is correct: The Ahmadiya movement based itself, like the Brahma Samaj, on the principles of at universal religion of all humanity. Ghulam Ahmad was greatly influenced by western liberalism theosophy, and the religious reform movements of the Hindus.

Statement 2 is incorrect: The Ahmadiyas opposed Jihad or sacred war against non-Muslims and stressed fraternal relations among all people. The movement spread western liberal education among Indian Muslims and started a network of schools and colleges for that purpose.

Source: Spectrum Modern India 2019-20 Edition

Q.14) Why it is said that the revolt of 1857 was not a unified revolt against the British rule in India?

1. Complete lack of participation of women.
2. No common goal for the future of the country.
3. Few princely states supported the British.
4. Lack of Hindu-Muslim unity.

Select the correct answer using the code given below:

- a) 1 and 4 only
- b) 2 and 3 only
- c) 1, 2 and 3 only
- d) 2, 3 and 4 only

Ans) b

Exp) Option b is the correct answer.

Revolt of 1857 was suppressed by the British due to **lack of unified revolt** and region specificity of the revolt. The British captured Delhi on September 20, 1857 after prolonged and bitter fighting. By the end of 1859, British authority over India was fully re-established.

Statement 1 is incorrect: Women contributed in the revolt of 1857 as equals as the men. **Asghari Begum**, who was caught and **burnt alive** by the British in 1858, or **Bhagwati Devi Tyagi**, who was **hanged for raising arms** against the East India Company, not only participated in the struggle but at times even led the fight. Some of the names of the women rebels are **Asha Devi, Bakhtavari, Habiba, Indra Kaur, Jamila Khan, Man Kaur, Rahimi, Raj Kaur, Shobha Devi and Umda**, all of whom sacrificed their lives in active fighting.

Statement 2 is correct: The revolt of 1857 saw **no common idea or goal behind** it. After taking control of many regions leaders and rebels had **no forward-looking plan** for India. Every rebellion **joined it because of their own interest**, rulers joined because they were losing power in the region, Sepoy had their reason of inferiority and wanted to revive to the glory of Mughals, civilians because of religious interference, peasants wanted to remove zamindars and moneylenders, etc. This made it an **easy task for the Britishers to suppress** the revolt.

Statement 3 is correct: Some of the ruling princes did not support the sepoys. On the other hand, **they actively assisted the British in suppressing the revolt.** Sir Dinkar Rae, the minister of Gwalior, Sir Salar Jang, the minister of Hyderabad and Sang Bahadur of Nepal were indifferent to the Revolt and actively helped the British against the sepoys.

Statement 4 is incorrect: During the entire revolt, there was **complete cooperation between Hindus and Muslims** at all levels—people, soldiers, leaders. All rebels acknowledged Bahadur Shah Zafar, a Muslim, as the emperor. Both Hindu and Muslim, **respected each other's sentiments.** Immediate banning of cow slaughter was ordered once the revolt was successful in a particular area. Both **Hindus and Muslims were**

well represented in leadership, like Nana Saheb had Azimullah, a Muslim and an expert in political propaganda.

A brief history of modern India- Spectrum

Q.15) Consider the following statements with respect to the Sovereign Gold Bond Scheme:

1. The gold bonds can be sold through Small Finance Banks and Payment Banks.
2. The Non-Resident Indians (NRIs) can buy the gold bonds under the scheme.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) d

Exp) Option d is the correct answer.

Sovereign Gold Bonds (SGBs) are government securities denominated in grams of gold. They are substitutes for holding physical gold. Investors have to pay the issue price in cash and the bonds will be redeemed in cash on maturity.

Statement 1 is incorrect: The Sovereign Gold Bonds (SGBs) will be sold through **Scheduled Commercial banks (except Small Finance Banks and Payment Banks)**, Stock Holding Corporation of India Limited (SHCIL), Clearing Corporation of India Limited (CCIL), **designated post offices, and recognised stock exchanges** viz., National Stock Exchange of India Limited and Bombay Stock Exchange Limited.

Statement 2 is incorrect: As per the Foreign Exchange Management Act, 1999, an **individual must be an Indian resident to meet the eligibility criteria under the Gold Bond Scheme**. Any individual/ association/ trusts/ HUFs having a residency in India is eligible to invest in the Sovereign Gold Bond scheme. They can also jointly invest in gold bonds and this scheme.

Knowledge Base:

Sovereign Gold Bond Scheme 2022-23

- 1) To be **issued by Reserve Bank** of India on behalf of the Government of India.
- 2) The SGBs will be denominated in multiples of gram(s) of gold with a **basic unit of one gram**.
- 3) The tenor of the SGB will be for a **period of eight years** with an option of **premature redemption after 5th year** to be exercised on the date on which interest is payable.
- 4) Minimum permissible investment will be **One gram** of gold.
- 5) The **maximum limit** of subscription shall be **4 KG for individual**, 4 Kg for HUF and **20 Kg for trusts** and similar entities per fiscal year (April-March) notified by the Government from time to time.

Q.16) Which of the following was/were the response of Britishers after the revolt of 1857?

1. British started adhering to the Indian customs and practices while administering the law.
2. Policy of religious discrimination against Muslims was followed to prevent the reoccurrence of a revolt like 1857 mutiny.
3. Indians were promoted to the higher ranks in army for better communication with lower ranks.

Select the correct answer using the codes given below:

- a) 1 only
- b) 2 and 3 only
- c) 1 and 2 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

The revolt of 1857 led to far-reaching **changes in the system of administration** and the policies of the British government. The British Parliament, on August 2, **1858, passed an Act** for the Better Government of India. The Act declared Queen Victoria as the sovereign of British India and the administration of the country was assumed by the British Crown and **Company rule was abolished**.

Statement 1 is correct: The **queen's proclamation** announced by Lord Canning promised equal and **impartial protection under law to all Indians**, besides equal opportunities in government services irrespective of race or creed. It was also promised that **old Indian rights, customs and practices** would be given due regard while framing and **administering the law**. Aristocratic classes of England espoused the **complete non-interference** in the traditional structure of Indian society.

Statement 2 is correct: The British government consciously discriminated **against the Muslims**, holding them **responsible for the uprising of 1857**. They also took part in Wahabi Movement. These events made the British **look at Muslims with suspicion** which resulted in indiscriminate treatment towards the Muslims. They started **promoting the Hindus** to inculcate the **divide between Hindus and Muslims** to prevent any such large revolt. Whereas, British started promoting Muslims over Hindus after 1905 (Partition of Bengal).

Statement 3 is incorrect: Post 1857, the policy **did not allow Indians** into the officer corps and was strictly adhered to **No Indian** could rise **above the rank of subedar until 1914**. European troops were **stationed in strategic geographic** and military locations. The army's most important branches, such as artillery and, later in the twentieth century, tanks and armoured corps, were **placed entirely in European hands**.

Source: A Brief history of Modern India–Spectrum

Q.17) What was the aim of a limitation law passed by British in 1859?

- a) Reservation of certain offices for covenanted civil servants.
- b) To check exploitation of ryots by moneylenders.
- c) Limiting Powers of English East India Company in India.
- d) Delegating legislative powers to the provinces.

Ans) b

Exp) Option b is the correct answer

Statement a is incorrect: The **Indian Civil Service Act, 1861** mentioned that the examination was to be conducted in England in English language, based on classical learning of Greek and Latin and **it reserved certain offices for covenanted civil Servants**.

Statement b is correct: - **The Limitation Act** was passed by the British in 1859. **It aimed to check the exploitation of ryots by moneylenders and the accumulation of interest over time**. It mandated that the loan agreement signed between moneylenders and ryots would be valid only for a period of three years.

Statement c is incorrect: The **Government of India Act 1858** was enacted to **subsume and transfer of all the powers of the EEIC under British Crown**.

Statement d is incorrect: The **Indian Council Act 1861** devolved the **legislative powers to the to the Governments of Bombay and Madras**.

Source: <https://ncert.nic.in/textbook.php?lehs3=1-6>

Q.18) Which among the following could be the probable reason for the failure of moderates to widen their democratic base and the scope of their demands?

1. They did not have much political faith in the masses.
2. They worked for limited objectives and concentrated more on building up their organization.
3. They failed to communicate their political ideologies to uneducated and underprivileged sections of society.

Select the correct answer from the code given below:

- a) 1 and 3 only
- b) 2 and 3 only
- c) 1, 2 and 3
- d) 3 only

Ans) c

Exp) Option c is the correct Answer.

The early nationalists did a great deal to awaken the national sentiment, even though they could not draw the masses to them and failed to widen their democratic base and the scope of their demands.

Option 1 is correct: The moderate phase of the national movement had a narrow social base, and the masses played a passive role. **This was because the early nationalists lacked political faith in the masses; Moderates felt that there were numerous divisions and subdivisions in Indian society, and the masses were ignorant and had conservative ideas and thoughts.** The Moderates felt that these heterogeneous elements had first to be welded into a nation before they entered the political sphere.

Option 2 is correct: Moderates fought on objectives like expansion of legislative councils, reduction of direct taxes, entry of Indians into civil services. **Due to th type of demands they got patronage from the educated elites, but ordinary masses were unable to relate how these reforms could directly benefit them, since their sufferings emanated from famines and landlords.** On both these issues the moderates seemed to be less vocal and disconnected- since many of them were landed aristocrats and could not consequently take a logical stand on peasant questions.

Option 3 is correct: Moderate group consisted mostly of Western-educated elite and privileged indigenous elite such as the Bhadrak in Bengal, the Chitpavan Brahmans & Parsis in Bombay, the Tamil Brahmans & Aiyangars of Madras. The backward regions and underprivileged groups remained outside their zone of contact and influence, until the entry of Gandhi.

Knowledge Base: The first phase of Congress's existence is known as the moderate phase (1885-1905). During this Congress worked for limited objectives and concentrated more upon building up its organization. The national leaders like Dadabhai Nauroji, P.N. Mehta, D.E. Wacha, W.C. Banerji, S.N. Banerji, Gopal Krishna Gokhale who dominated Congress policies during this time were staunch believers in liberalism and moderate politics and came to be labeled as moderates. The main objective of the Moderates was to achieve self-government within the British Empire. They believed in patience and reconciliation rather than violence and confrontation, thus relying on constitutional and peaceful methods to achieve their aims.

Q.19) Consider the following statements in the context of Indian National Conference.

1. Surendranath Banerjee and Ananda Mohan Bose were the main organizers of Indian National Conference.
2. The First conference was associated with the introduction of the Ilbert bill.
3. The National Conference merged with the Indian National Congress in 1886.

Which of the above statement is/are correct?

- a) 1 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct Answer.

Indian National Conference refers to a series of conference sessions considered to be the predecessor of the Indian National Congress. Two sessions of the conference were held in 1883 and 1885, and these sessions drew representatives from all major towns.

Statement 1 is correct: Indian National Conference is called the predecessor of the Indian National Congress. Its main organizers were Surendranath Banerjee and Ananda Mohan Bose. The first session of the National Conference was held in Calcutta on December 28 - 30, 1883, and was attended by more than a hundred delegates from other parts of India.

Statement 2 is correct: Introduction of the Criminal Procedure Amendment Bill (1883-84) or Ilbert bill led to the first meeting of the first National Conference at Kolkata on 29 December 1883.

Statement 3 is correct: The second Indian National Union was also held in Kolkata from 25 to 27 December 1885. Along with the Indian Association, the National Mohamman Association and the British Indian Association were also conveners of this meeting. On its last day, the second National Conference sent a message of goodwill to the Indian National Congress. National Conference merged with the Indian National Congress in December 1886.

Knowledge Base: The founding of the Indian National Congress in 1885 hastened the evolution of responsible Government. At its very first session, Congress passed a resolution asking for constitutional reforms and for the admission of a considerable proportion of elected members to the Legislative Councils and the right to discuss the budget. Delivering his Presidential Address at the first session in Kolkata, W.C. Banerjee described Congress as the National Assembly of India.

The demand for reform and expansion of the Legislative Councils continued to be made by every annual Congress and became more vociferous from year to year. The Congress considered the reform of the Councils at the root of all other reforms. At the same time, Viceroy Lord Dufferin publicly dismissed Congressmen as “a microscopic minority” and said democratic methods of government or the adoption of parliamentary system to India would be a very big jump into the unknown.

Q.20) Consider the following pairs:

Species	Dominant Regions
1. Bamboo-dwelling bats	Meghalaya
2. Brow-Antlered Deer	Madhya Pradesh
3. Azooxanthellate corals	Lakshadweep

Which of the pairs given above is/are correct?

- a) 1 only
- b) 2 and 3 only
- c) 3 only
- d) 1 and 3 only

Ans) a

Exp) Option a is the correct answer.

Pair 1 is correct: Recently, Scientists have discovered a new species of bamboo-dwelling bat named **Glischropus meghalayanus** in Ri Bhoi district of Meghalaya. **Bamboo-dwelling bats** are a particular kind of bat living in the internodes of bamboo with specialized morphological characteristics that help them to adapt to the life inside a bamboo. **Meghalaya has the highest bat diversity in the country with 67 species**, which is about 51% of the total bat species in the country.

Pair 2 is incorrect: **Brow-antlered deer** or **Sangai** is a medium-sized deer, with uniquely distinctive antlers, with extremely long brow tine, which form the main beam. The brow-antlered deer is found in **Keibul Lamjao National Park in Manipur**. It is largely seen over the floating biomass, locally called “**phumdi**” in the South Eastern part of Loktak Lake inside the park. **Phumdi is the most important and unique part of Sangai's habitat**. It is the floating mass of entangled vegetation formed by the accumulation of organic debris and biomass with soil.

Pair 3 is incorrect: Scientists have recorded four species of **azooxanthellate corals** for the first time from Indian waters. The four new species of azooxanthellate corals found are: Truncatoflabellum crassum, T. incrustatum, T. Irregular and T. Krasum. These corals were found in the waters of the **Andaman and Nicobar Islands**. They are from the same family Flabellidae. They are non-reef building, solitary corals and have a highly compressed skeletal structure.

Knowledge Base:

- 1) Azooxanthellate corals are a **group of hard corals**. They do **not contain zooxanthellae** and **derive nourishment not from the sun** but from capturing different forms of planktons.
- 2) They are deep-sea representatives with the majority of species being reported from depths between 200 meters and 1,000 meters.
- 3) They are also reported from shallow waters, unlike zooxanthellate corals that are restricted to shallow waters.
- 4) There are about 570 species of hard corals found in India and almost 90% of them are found in the waters surrounding Andaman and Nicobar Islands.

Source: <https://blog.forumias.com/new-species-of-bamboo-dwelling-bat-found-in-meghalaya/>

Q.21) Which one of the following movements has contributed to a split in the Indian National Congress resulting in the emergence of 'moderates' and 'extremists'?

- a) Swadeshi Movement
- b) Quit India Movement
- c) Non-Cooperation Movement
- d) Civil Disobedience Movement

Ans) a

Exp) Option a is the correct answer.

The Swadeshi movement was launched in protest of the Government's decision to partition Bengal had been made public in July 1905. **The extremists wanted to extend the Swadeshi and Boycott movements from Bengal to the rest of the country whereas the moderates wanted to confine the movement in Bengal**. Later, there was a tussle between the two groups for the presidentship of the National Congress

for that year (1906). These events inflamed the differences between the approaches of the two groups. **The split between the two came at the Surat Session of the National Congress in December 1907.**

Source: UPSC CSE 2015

Q.22) Consider the following statements in the context of the Indian National Congress (INC):

1. The First session of INC was organized in Bengal in 1886.
2. Lord Dufferin was the viceroy of India when INC was formed.
3. At the first session of INC, the creation of legislative councils for Sindh and Awadh was demanded.

Which of the above statements is/are correct?

- a) 1 and 2 only
- b) 2 only
- c) 2 and 3 only
- d) 1 and 3 only

Ans) c

Exp) Option c is the correct Answer.

In the late 1870s and early 1880s, the solid ground was laid for the establishment of an all-India organization. The final form of this idea was given by the former English civil servant A.O. Hume, who mobilized the leading intellectuals of the time and with their cooperation organized the first session of the Indian National Congress in Bombay in December 1885.

Statement 1 is incorrect: 1st Session of the Indian National Congress took place in Bombay in 1885 under the chairmanship of W.C. Banerjee.

Statement 2 is correct: Lord Dufferin was the Viceroy of India when INC was formed in 1885.

Statement 3 is correct: In the first session that was held in Mumbai (Bombay), there were a few important segments of the demands from Indians that were presented before the British such as the **creation of legislative councils for the North-West Frontier Province (NWFP), Sindh, and Awadh.** The main demands were constitutional and legislative demands.

Spectrum by Rajiv ahir

Q.23) Consider the following statements about the press during colonial period:

1. The second half of the 19th century saw a decline of press due to restrictive policies imposed on the press by the colonial rulers.
2. The impact of press was limited to cities and towns only.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) d

Exp) Option d is the correct answer.

Statement 1 is incorrect: The second half of the 19th century saw an **unprecedented growth of Indian-owned English and vernacular newspapers**, despite numerous restrictions imposed on the press by the colonial rulers from time to time. In 1877, there were about 169 newspapers published in vernacular languages and their circulation reached the neighbourhood of 1,00,000.

Statement 2 is incorrect: The newspapers had a wide reach and they stimulated a library movement. Their impact was not limited to cities and towns; these newspapers reached the remote villages, where each news item and editorial would be read and discussed thoroughly in the 'local libraries' which would gather around a single newspaper. In this way, these libraries served the purpose of not only political education but also of political participation.

Source: A Brief History of Modern India by Rajiv Ahir (Spectrum) 2019

Q.24) Consider the following associations:

1. Poona Sarvajanik Sabha
2. Indian Liberal Party
3. East India Association
4. Bangabhasha Prakasika Sabha

How many of the above associations were established before the formation of Indian National Congress?

- a) Only one association
- b) Only two associations
- c) Only three associations
- d) All four associations

Ans) c

Exp) Option c is the correct answer.

The Indian National Congress (1885) was not the first political organisation in India. However, most of the political associations in the early half of the nineteenth century were dominated by **wealthy and aristocratic elements**. They were local or regional in character. For instance, Landholders Society (1836), British India Society (1839), British India Association (1852) etc.

Statement 1 is correct: The Poona Sarvajanik Sabha was founded in 1870 by Mahadeo Govind Ranade and others, with the object of serving as a bridge between the government and the people

Statement 2 is incorrect: Indian Liberal Party was formed in **1910**, and British intellectuals and British officials were often participating members of its committees. They preferred gradual constitutional reform to revolutionary methods as the means of achieving independence and because they attempted to secure constitutional reform by cooperating with British authority rather than defying it. Their goals and methods were inspired by British Liberalism.

Statement 3 is correct: The East India Association was founded by Dadabhai Naoroji in **1866 (association before the emergence of Indian National Congress)**, in collaboration with Indians and retired British officials in London. It **superseded the London Indian Society** and was a platform for discussing matters and ideas about India, and to provide representation for Indians to the Government.

Statement 4 is correct: Raja Ram Mohan Roy was one of the first Indian leaders to start an **agitation for political reforms**. He fought for the freedom of press, trial by jury, separation of executive and judiciary, appointment of Indian to higher offices. **The Bangabhasha Prakasika Sabha** was **formed in 1836** (formed before emergence of Indian National Congress) by Raja Rammohan Roy.

Knowledge Base:

Some Political Associations before Indian National congress:

- The Zamindari Association, also known as the 'Landholders' Society', was founded to safeguard the interests of the landlords. It used the methods of Constitutional agitation for the redressal of grievances.
- The Bengal British India Society was founded in 1843. It collected and disseminated information relating to the actual condition of the people and to employ such other means of peaceful.
- The Indian League was started in 1875 by Sisir Kumar Ghosh. It stimulated the sense of nationalism amongst the people and of encouraging political education.

• The Indian Association of Calcutta: It also known as the Indian National Association superseded the Indian League. It was founded in 1876 by Surendranath Banerjea and Ananda Mohan Bose. It aimed to promote the political, intellectual and material advancement of the people.

List of Political organizations before the establishment of Congress

Q.25) World Trade Organization's Agreement on Fisheries Subsidies (AFS) exclusively prohibits subsidies to which of the following types of fishing?

1. Unregulated fishing
2. Fishing in all eco-sensitive zones
3. Fishing on unregulated high seas
4. Fishing of already over-exploited stocks

Select the correct answer from the code given below:

- a) 1, 2 and 4 only
- b) 1, 2, 3 and 4
- c) 1, 3 and 4 only
- d) 2 and 4 only

Ans) c

Exp) Option c is the correct answer.

Agreement on Fisheries Subsidies (AFS) was adopted at the 12th ministerial conference of the World Trade Organisation (WTO). It is a new, first-of-its-kind, sustainability-driven trade agreement. The aim of AFS as echoed by Sustainable Development Goal (SDG) 14.6 is **to address harmful fisheries subsidies provided by countries** towards marine fishing and to save the world's fish stocks from further depletion. Fundamentally, AFS prohibits three kinds of subsidies:

- 1) Illegal, unreported, or unregulated (IUU) fishing. **Hence option 1 is correct.**
- 2) Fishing of already over-exploited stocks. **Hence option 3 is correct.**
- 3) Fishing on unregulated high seas **Hence option 4 is correct.**

Option 2 is incorrect: The agreement does not exclusively prohibit the subsidies provided to the fishing in All the eco-sensitive areas.

As part of special and differential treatment (S&DT), developing countries like **India have been given a two-year transition period** for phasing out the first two kinds of subsidies within their Exclusive Economic Zone (EEZ).

Source: <https://indianexpress.com/article/opinion/columns/the-wto-agreement-on-fisheries-is-flawed-but-significant-7985390/>

Q.26) With reference to political developments before formation of Indian National Congress, consider the following statements:

1. The Landholders Society and the Bengal British India Society merged into the British Indian Association in 1851.
 2. One of the demands of British Indian Association was separation of executive from the judicial functions.
- Which of the statement given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) c

Exp) Option c is the correct answer.

The **Indian National Congress** was **not the first political organisation** in India. **British Indian association** was one of the political organisations in early 19th century formed before the formation of Indian National Congress formed in the 1885.

Statement 1 is correct: British Indian Association (1851) was established in Kolkata, India with Radhakanta Deb as its first President. In 1851, both the **Landholders' Society and the Bengal British India Society merged** into the British Indian Association. The Zamindari Association or **Landholders Society** was founded to safeguard the **interests of the landlords**. Whereas, the **East India Association** was organised by Dadabhai Naoroji in 1866 in London to discuss the Indian question and **influence public men in England** to promote Indian welfare.

Statement 2 is correct: The British Indian Association placed a number of demands before the British parliament that included education of Indians, removing monopoly of the East India Trading Company. They sent the petition to British Parliament in demanding, (i) **establishment of a separate legislature of a popular character;** (ii) **separation of executive from judicial functions;** (iii) **reduction in salaries of higher officers;** and (iv) **abolition of salt duty, abkari and stamp duties.** They didn't send any petition for increasing the salaries of high rank Indian officers.

Source: A Brief History of Modern India by Rajiv Ahir (Spectrum)

Q.27) Which of the following event(s) influenced the growth of modern nationalism in India?

1. French and Irish Revolutions
2. National Liberation movements of Greece
3. Rise of Nation states in South America

Select the correct answer using the codes given below:

- a) 1 only
- b) 2 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

The rise and growth of Indian nationalism has been traditionally explained in terms of Indian response to the stimulus generated by the British Raj through creation of new institutions, new opportunities, resources, etc. But Indian nationalism was also influenced by contemporary Liberation movements of World.

Statement 1 is correct: By the late 19th century, an **incipient Irish nationalism** began and a home rule movement demanded greater Irish say in the country's affairs. Irish nationalism guided Indian nationalism in providing the ways to present their dissent towards British by constitutional means. The **ideals of the French Revolution such as the idea of "liberty, equality, fraternity"** fuelled the French Revolution and other revolutions across Europe, Latin America and Indian independence movement in **India also**.

Statement 2 is correct: National liberation **movements of Greece and Italy** in general and of Ireland in particular deeply influenced the nationalist ranks in India.

Statement 3 is correct: **Rise of a number of nations on the ruins** of the Spanish and Portuguese empires in South America inspired nationalist leaders towards the idea of freedom from colonial rule, and it guided the early Indian Nationalist to demand self-rule.

Revisiting India's Bond With Ireland, 100 Years After the Easter Rising (<https://thewire.in>)

Q.28) Consider the following statements with reference to legislative measures taken during the colonial period:

1. Ilbert bill proposed to prohibit Indian judges from trying the British offenders in criminal cases.
2. Inland Emigration act disallowed the workers to leave tea garden without permission.
3. Arms Act was enacted to prevent another revolt like Sepoy Mutiny of 1857.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 3 only
- d) 2 only

Ans) b

Exp) Option b is the correct answer.

The **Pre-Congress associations** organised various campaigns before the Indian National Congress appeared on the scene. Some of these campaigns were against Arms Act (1878), against Vernacular Press Act (1878), for right to join volunteer corps, **against plantation labour and against Inland Emigration Act and in the support of Ilbert Bill.**

Statement 1 is incorrect: Pre-congress campaign **supported the Ilbert bill** because the **objective** of the bill was to **give power to Indian judges and magistrates to try British offenders in criminal cases at the district level.** Lord Ripon realised that this provision needed to be changed. Whereas, the most **vocal opponents of the bill** were British tea and indigo **plantations owners** in Bengal, led by Griffith Evans. The British press in India spread wild rumours about how Indian judges would abuse their powers.

Statement 2 is correct: As per **Inland Emigration Act of 1859** plantation labourers were **not allowed to leave tea gardens without the permission of owner.** But in reality, such permission was rarely granted to them. The early nationalist association organised various campaigns before the Indian National Congress appeared on the scene. These campaigns include protest against plantation labour and against Inland Emigration Act of 1859.

Statement 3 is correct: In 1878 CE, the British passed the Arms Act, which disallowed Indians from possessing any arms. The British did not want a revolt like the one in 1857 to recur and hence wanted to stop Indians from having rifles and pistols.

Source: A Brief History of Modern India by Rajiv Ahir (Spectrum)

Q.29) Which of the following statements correctly explain the causes of the revolt of 1857?

1. Disintegration of older land revenue systems led to misery of peasantry in India.
2. Enactment of General Service Enlistment Act.
3. The East India Company's policy of aggrandizement caused suspicion among ruling princes in India.

Select the correct answer using the code given below:

- a) 1 only
- b) 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

In 1857, **Indian soldiers** rose up **against their British commanders.** They were joined by native rulers and thousands of ordinary people in a struggle that threatened to destroy British colonial power on the Indian

subcontinent. The **reasons behind** the rebellion stretch back to the **origins of British involvement in Indian affairs.**

Statement 1 is correct: The colonial policies of the East India Company destroyed the traditional economic fabric of the Indian society. **The moneylenders and traders emerged as the new landlords, while the scourge of landless peasantry and rural indebtedness has continued to plague Indian society to this day. The older system of zamindari was forced to disintegrate.**

Statement 2 is correct: **The General Service Enlistment Act passed in the year 1856** contained the provision that mandated soldiers or recruits of the Bengal Army to serve within or outside India when ordered. It meant that they were to send overseas and sea voyages to serve. The Bengal Army mainly consisted of High Castes Hindus like Brahmins who according to their faith believed that they could lose their caste, religion, and faith if they cross the seas. **This leads the sepoys to think that the Company was trying to defame their religion.**

Statement 3 is correct: The policy of aggrandizement of the British East India Company in the British Indian region was included in the Political causes of revolt of 1857. The vows, as well as fake promises of the British East India Company, led the common people to join in a revolt against British rule in India. It contributed towards the revolt of 1857 against British rule in India.

Why did the Indian Mutiny happen? | National Army Museum (nam.ac.uk)

Q.30) The UNSC 1267 committee deals with which of the following issues?

- Safe passage of people wanting to leave Afghanistan.
- Peace and security in the African continent.
- Overseeing the implementation of sanctions against global terrorists.
- Non-proliferation of weapons of mass destruction.

Ans) c

Exp) Option c is the correct answer.

The United Nations Security Council (UNSC) 1267 Committee was first set up in 1999, and strengthened by a series of resolutions in the months and years after the September 11, 2001 attacks. It is now known as the **Da'esh and Al Qaeda Sanctions Committee**. The **1267 list of terrorists is a global list, with a UNSC stamp**. The committee comprises **all permanent and non-permanent members of the UNSC**.

The Committee is mandated to:

- oversee the implementation of the sanction measures against the individuals or entities mentioned under 1267 list.**
- designate individuals and entities who meet the listing criteria set out in the relevant resolutions
- consider and decide upon notifications and requests for exemptions from the sanctions measures
- consider and decide upon requests to remove a name from the ISIL (Da'esh) & Al-Qaida Sanctions List
- conduct periodic and specialized reviews of the entries on the ISIL (Da'esh) & Al-Qaida Sanctions List
- examine the reports presented by the Monitoring Team
- report annually to the Security Council on the implementation of the sanctions measures

Source: https://www.un.org/securitycouncil/sanctions/1267#work_and_mandate

<https://indianexpress.com/article/explained/pakistan-terror-india-uns-6582170/>

Q.31) During Indian freedom struggle, the National Social Conference was formed. What was the reason for its formation?

- Different social reform groups or organizations of Bengal region united to form a single body to discuss the issues of larger interest and to prepare appropriate petitions/representations to the government

- b) Indian National Congress did not want to include social reforms in its deliberations and decided to form a separate body for such a purpose
 c) Behramji Malabari and M. G. Ranade decided to bring together all the social reform groups of the country under one organization
 d) None of the statements (a), (b) and (c) given above is correct in this context

Ans) b

Exp) Option b is the correct answer.

National Social Conference was formed in 1887 by Mahadev Govind Ranade.

Indian National Congress did not want to include social reforms in its deliberations and decided to form a separate body for such a purpose. The Conference advocated inter-caste marriages and opposed kulinism and polygamy.

Source: UPCS CSE 2012

Q.32) Which of the following factors contributed to the development of modern nationalism in India?

1. Development of theories propounding Indo-Aryans were descended from the same ancestors as of British.
2. Introduction of English system of education in India.
3. Codification of Civil and Criminal laws across the country

Select the correct answer from the code given below:

- a) 1 only
- b) 1 and 2 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

Indian nationalism grew partly as a **result of colonial policies** and partly as a **reaction to colonial policies**. For example, worldwide upsurge of the concepts of nationalism and right of self-determination initiated by the **French Revolution and Indian Renaissance**.

Statement 1 is correct: The **historical researches** by European and Indian scholars created an entirely **new picture of India's past**. The theory put forward by European scholars, that the **Indo-Aryans belonged to the same ethnic group from which other nations of Europe had evolved**, gave a psychological boost to the educated Indians. The **self-respect and confidence** so gained helped the nationalists to demolish colonial myths that India had a long history of servility to foreign rulers and thus led to development of modern nationalism in the 19th century India .

Statement 2 is correct: The **English system of education** had been conceived by the rulers in the self-interest of efficient administration, but it gave a new direction to Indian political thinking. **The English language helped nationalist leaders from different linguistic regions to communicate with each other**. The educated Indians (lawyers, doctors, etc.) often visited England for higher education. There they saw the **working of modern political institutions** in a free country and compared that system with the Indian situation where even basic **rights were denied to the citizens**. It was this section which provided **leadership to the Indian political associations**.

Statement 3 is correct: A professional civil service, a unified judiciary, and codified civil and criminal laws across the country added a **new dimension of political unity** to the previously unbroken cultural unity that had existed in India for centuries. According to nationalists, the process of unification had two effects: the economic fate of people from different regions became intertwined and this was significant for the

exchange of political ideas, as well as for mobilizing and organizing public opinion on political and economic issues. Thus, it led to development of modern nationalism in the 19th century India.

Knowledge Base:

Some factors led in growth of Modern Nationalism:

- Understanding of Contradictions in Indian and Colonial Interests
- Political, Administrative and Economic Unification of the Country
- Progressive Character of Socio-religious Reform Movements
- Impact of Contemporary Movements in the World
- Reactionary Policies and Racial Arrogance of Rulers

Source: A Brief History of Modern India by Rajiv Ahir (Spectrum)

Q.33) Which of the following correctly explains the character of socio-religious reforms in the 19th century?

1. Rejecting religious superstitions
2. Promotion of women education
3. Abolition of caste system
4. Promotion of polytheism

Select the correct answer using the code given below:

- a) 1 and 2 only
- b) 2 and 4 only
- c) 1, 2 and 3 only
- d) 1, 2, 3 and 4 only

Ans) c

Exp) Option c is the correct answer.

The **19th Century Socio-Religious Reform Movement** eradicated some of the worst evils of Indian society. The factors such as growth of nationalist sentiments, emergence of new economic forces, spread of education, impact of modern Western ideas and culture and increased awareness of the world strengthened the resolve to reform the socio-economic landscape in India.

Statement 1 is correct: Indian society in the nineteenth century was caught in a vicious web created by **religious superstitions and social obscurantism**. Hinduism had become steeped in magic and superstition. The priests exercised an overwhelming and, indeed, unhealthy influence on the minds of the people. For instance,

Statement 2 is correct: **Women** were generally accorded a **low status** and were considered to be **inferior adjuncts to men**, with no identity of their own. They enjoyed no scope of giving expression to their talents as they were suppressed by practices such as purdah, early marriage, ban on widow-marriage, sati, etc. Hence, **Socio-religious movement started focusing the women education**. For instance, **Ishwar Chandra Vidyasagar**, the principal of Sanskrit College, advocated for the widow remarriage and mainly with his efforts the Hindu Widows' Remarriage Act, 1856, was passed.

Statement 3 is correct: **Caste system** hierarchically ordained on the **basis of ritual status**. At the bottom of the ladder came the untouchables or scheduled castes, as they came to be called later. The untouchables suffered from numerous and **severe disabilities and restrictions**. Above all, the **humiliation of untouchability** so much a part of the caste system militated against human dignity. **Hence, the Arya Samaj** while crusading **against the disintegration of Hindu society** into myriad sub-castes, aimed at reconstructing it on the original four-fold division.

Statement 4 is incorrect: Socio-religious reformers worked against the polytheism and promoted monotheism because **idolatri and polytheism** helped to **reinforce Priests position**, and their monopoly of scriptural knowledge imparted a deceptive character to all religious systems. There was nothing that

religious ideology could not persuade people to do. For example. **Raja Ram Mohan Roy** (1772 – 1833), the movement fought **against idol worship, polytheism.**

Q.34) Who among the following established the Bharat Stree Mahamandal in 1910?

- Sarala Devi Chaudhurani
- Kamaladevi Chattopadhyay
- Savitribai Phule
- Annie Besant

Ans) a

Exp) Option a is the correct answer.

Bharat Stree Mahamandal was a women's organization in India founded by Sarala Devi Chaudhurani in Allahabad in 1910. One of the primary goals of the organization was to promote female education, which at that time was not well developed. The organization opened several offices in Lahore (then part of undivided India), Allahabad, Delhi, Karachi, Amritsar, Hyderabad, Kanpur, Bankura, Hazaribagh, Midnapur and Kolkata (formerly Calcutta) to improve the situation of women all over India.

Source: A Brief History of Modern India by Rajiv Ahir (Spectrum)

Q.35) Which of the following political parties can be considered as the Registered Unrecognized Political Parties (RUPPs):

- The newly registered political parties.
- The political parties which have not secured enough percentage of votes in assembly or general elections to become a national party.
- The political parties which have never contested an election since being registered with the election commission.

Which of the statements given above is/are correct?

- 1 and 2 only
- 2 only
- 1 and 3 only
- 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

If a party satisfies any one of the below-mentioned criteria, then they are called Registered Unrecognized Political Parties. The conditions are:

- If the political party is newly registered. **(Statement 1 is correct)**
- If the political parties have not secured enough percentage of votes in Assembly or General Elections to become a state party **(and not a national party).** **(Statement 2 is incorrect)**
- Political Parties that **never contested in elections since they got registered** with the Election Commission. **(Statement 3 is correct)**

Knowledge base: These parties don't enjoy all the benefits extended to the recognized parties such as **reserving a separate symbol for the party**, subsidized land for party office etc.

Source: <https://blog.forumias.com/registered-unrecognised-political-parties-are-not-transparent-adr-report/>

<https://economictimes.indiatimes.com/news/politics-and-nation/registered-unrecognised-political-parties-increased-two-fold-from-2010-to-2019-adr/articleshow/80707642.cms>

Q.36) Who among the following were the Moderate leaders of the Indian National Congress?

1. Gopal Krishna Gokhale
2. Pherozshah Mehta
3. Ashwini Kumar Dutt
4. Aurobindo Ghosh
5. V.O Chidambaram Pillai

Select the correct answer using the code given below:

- a) 1 and 2 only
- b) 2 and 3 only
- c) 3, 4 and 5 only
- d) 1, 2 and 5 only

Ans) a

Exp) Option a is the correct answer.

The **Moderate leaders of the Indian National Congress** believed that the British basically wanted to be just to the Indians but were not aware of the real conditions. They believed in persuading the British Government and British public opinion to introduce reforms in India on the lines laid out by the nationalists. They used the method of 'prayer and petition' and if that failed, they resorted to constitutional agitation.

Statement 1 is correct: Gopal Krishna Gokhale was associated with the Moderate Group of Indian National Congress (joined in 1889). He became president of INC in 1905 in Banaras session. Gokhale worked towards social empowerment, expansion of education, struggle for freedom in India for three decades and rejected the use of reactionary or revolutionary ways.

Statement 2 is correct: Pherozshah Mehta was dubbed "Lion of Bombay." Mehta is widely regarded as one of the founders of the Indian National Congress and a leader of the moderate faction in Indian nationalism. He was elected president of the Indian National Congress in 1890. He founded the Bombay Chronicle, an English weekly newspaper, in 1910. For his legal services, he was knighted by the British.

Statement 3 is incorrect: Ashwini Kumar Dutta was **extremist leader**. The Partition of Bengal drew him to the Swadeshi movement. He established the Swadesh Bandhab Samiti in order to encourage the consumption of native products and boycott European goods and powerful means of mass mobilisation.

Statement 4 is incorrect: Aurobindo gosh was an **extremist nationalists'** leader. He urged the moderate nationalists to rely on the character and capacities of the Indian people. He advocated a more militant approach to political work. Aurobindo Ghosh wanted the Swadeshi movement to be taken outside Bengal to other parts of the country. Aurobindo meant complete independence from foreign rule. He was imprisoned in 1908 (Alipore Bomb case).

Statement 5 is incorrect: V.O. Chidambaram Pillai was an **extremist's leader** who formed the Swadeshi Sangam in Tamil Nadu, which inspired the local masses. It generated political consciousness among the masses through magic lantern lectures, swadeshi songs, providing physical and moral training to their members, social work during famines and epidemics, organisation of schools, training in swadeshi crafts and arbitration courts.

Source: A Brief History of Modern India by Rajiv Ahir (Spectrum)

Chap 11a.pmd (ncert.nic.in)

Q.37) Consider the following statements regarding the various Presidents of the Indian National Congress (INC):

1. In 1890, Kadambini Ganguly became the first woman Congress President.
2. A. O. Hume became the first non-Indian origin President of the Indian National Congress (INC).
3. It was a rule to make the leader from the host province as the President of the session of Indian National Congress.

Which of the statements given above is/are **incorrect**?

- a) 1 only
- b) 1 and 3 only
- c) 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

The first session of the Indian National Congress was attended by 72 delegates and presided over by Womesh Chandra Bonnerjee. Hereafter, the Congress met every year in December, in a different part of the country each time.

Statement 1 is incorrect: In 1890, Kadambini Ganguly, the first woman graduate of Calcutta University, addressed the Congress session, which symbolized the commitment of the freedom struggle to give the women of India their due status in national life. **She was not the President of INC. (The first woman president of the Indian National Congress was Annie Besant in 1917.)**

Statement 2 is incorrect: The first non-Indian President of INC was George Yule in 1888. William Wedderburn was the second non-Indian origin president in the year 1889. He was also the President for the year 1910.

Statement 3 is incorrect: The congress made the rule that **when a session is organized in a province, the person from the same province could not become the president of Indian National Congress.**

Knowledge Base: some of the other important Presidents of INC were as follows: Syed Badruddin Tyabji, P. Ananda Charlu, N.G. Chandavarkar, Dinshaw E. Wacha, Rahimtulla Sayani, C. Sankaran Nair, etc. Some of the Non-Indian presidents of INC are George Yule, William Wedderburn, Alfred Webb, Henry Cotton and Annie Beasant.

Source: Pg 247, ch 1 and Pg 274, ch 1 and appendices of Spectrum

Q.38) Consider the following statements regarding the reforms in legislature, as demanded by the moderates:

1. Separation of the judiciary from the executive.
2. Reduction of land revenue and protection of peasants from unjust landlords.
3. Freedom of speech and expression and freedom to form associations.
4. Greater opportunities for Indians in higher posts by holding the ICS examination in India only.

Which of the statements given above are correct?

- a) 1, 2 and 3 only
- b) 1 and 2 only
- c) 2 and 3 only
- d) 1, 3 and 4 only

Ans) a

Exp) Option a is the correct answer.

The Moderates had faith in the British justice and goodwill. They were called moderates because they adopted peaceful and constitutional means to achieve their demands. Their aim was to attain political rights and self-government stage by stage.

Statement 1, 2 and 3 are Correct: The major demands by the moderates were as follows:

- Expansion and reform of legislative councils.
- Separation of the judiciary from the executive.
- More powers for the local bodies.
- Reduction of land revenue and protection of peasants from unjust landlords.

- Abolition of salt tax and sugar duty.
- Reduction of spending on army.
- Freedom of speech and expression and freedom to form associations.

Statement 4 is Incorrect: Earlier the ICS examination was held in England only. Therefore, the moderates demanded:

- Greater opportunities for Indians in higher posts by holding the ICS examination simultaneously in England and in India.

Source: ch 14, 12th History TN.

Q.39) Which of the following are the provisions of Indian Councils Act, 1892?

1. The Budget could be discussed and be voted upon.
2. The Supplementary question could be asked, and the answers to any question be discussed.
3. The non-officials were to have the majority in the Imperial legislative council.

Select the correct answer using the code given below:

- a) 1 and 2 only
- b) 1 only
- c) 1, 2 and 3
- d) None of the above

Ans) d

Exp) Option d is the correct answer.

The Indian Councils Act of 1892 was the first achievement of the Indian National Congress. It had increased the number of “additional members” in the Central Legislative Council.

Statement 1 is Incorrect: Budget could be discussed but the budget could not be voted upon, nor could any amendments be made to it.

Statement 2 is Incorrect: Questions could be asked. But the supplementary questions could not be asked, nor could answers to any question be discussed.

Statement 3 is Incorrect: The officials retained their majority in the council, thus making the non-official voice ineffective. The ‘reformed’ Imperial Legislative Council met, during its tenure till 1909, on an average for only thirteen days in a year, and the number of unofficial Indian members present was only five out of twenty-four.

Knowledge Base: Other features of India Councils Act 1892:

- The number of additional members in Imperial Legislative Councils and the Provincial Legislative Councils was raised.
- In Imperial Legislative Council, now the governor-general could have ten to sixteen non-officials.
- The non-official members of the Indian legislative council were to be nominated by the Bengal Chamber of Commerce and provincial legislative councils.
- The members could be recommended by universities, municipalities, zamindars and chambers of commerce. So, the principle of representation was introduced.

Source: Pg. 136, ch 1, 12th History TN, and Pg. 508, ch 26, Spectrum

Q.40) With reference to the Periodic Labour Force Survey (PLFS) 2020-21, consider the following statements:

1. Labour Force Participation Rate of both male and female is steadily increasing since 2017.
2. The rate of unemployment is much higher in Rural areas than in Urban areas for 2020-21.
3. The PLFS survey is released by Chief Economic Advisor annually.

Which of the statements given above is/are correct?

- a) 2 only
- b) 1 only
- c) 1 and 3 only
- d) 2 and 3 only

Ans) b

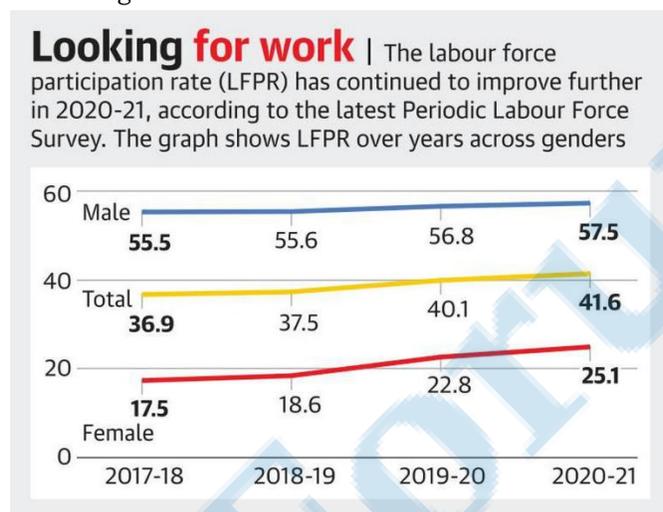

Exp) Option b is the correct answer.

Considering the importance of the availability of labour force data at more frequent time intervals, the **National statistical Office (NSO)** launched the Periodic Labour Force Survey (PLFS) in April 2017.

The objective of PLFS is primarily twofold:

1. To estimate the key employment and unemployment indicators (viz. **Worker Population Ratio, Labour Force Participation Rate, Unemployment Rate**) in the short time interval of three months for the urban areas only in the CWS.
2. To **estimate employment and unemployment indicators** in both usual Status and CWS in both rural and urban areas annually.

Statement 1 is correct: From the below image it can be concluded that the LFPR has been continuously increasing since 2017-18.

Statement 2 is incorrect: According to the survey the rural areas recorded an unemployment rate of 3.3% and urban areas recorded an unemployment rate of 6.7% for the given period of time.

Statement 3 is incorrect: **National statistical Office (NSO)** ((and not Chief Economic Advisor) launched the Periodic Labour Force Survey (PLFS) in April 2017.

Q.41) Which among the following events happened earliest?

- a) Swami Dayanand established Arya Samaj.
- b) Dinabandhu Mitra wrote Neel Darpan.
- c) Bankim Chandra Chattopadhyay wrote Anandmath.
- d) Satyendranath Tagore became the first Indian to succeed in the Indian Civil Services Examination.

Ans) b**Exp) Option b is the correct answer**

- 1) Dinabandhu Mitra wrote Neeldarpan - 1858-59 (During the Indigo Revolt)
- 2) Satyendranath Tagore became the first Indian to succeed in the Indian Civil Services Examination - 1863 (Surendranath Banerjee, Subash Chandra Bose also cleared ICS in later years)
- 3) Swami Dayanand established Arya Samaj - 1875
- 4) Bankim Chandra Chattopadhyay wrote Anandmath - 1882.

Source: UPSC CSE 2018

Q.42) The following items consist of two statements one labeled as 'Assertion(A)' and the other labeled as 'Reason(R):

Assertion(A): Moderates supported the aggressive foreign policy adopted by the Britishers in India's neighborhood.

Reason(R): The Britisher, took many measures to make the neighboring states as the buffer state and avoided their annexation.

Which of the options given below is correct?

- a) Both A and R are true, and R is the correct explanation of A.
- b) Both A and R are true, and R is not the correct explanation of A
- c) A is false but R is true
- d) Both A and R are false.

Ans) d**Exp) Option d is the correct answer.**

The Moderate leaders believed that political connections with Britain were in India's interest at that stage of history and that the time was not ripe for a direct challenge to the British rule. Therefore, it was considered to be appropriate to try and transform the colonial rule to be as close to a national rule as possible.

Both Assertion (A) and the Reason(R) are Incorrect: The moderates undertook many initiatives to reform the government policies. The Moderates, criticized the aggressive foreign policy which resulted in annexation of Burma, attack on Afghanistan and suppression of tribals in the North-West—all costing heavily for the Indian treasury. They also demanded for the better treatment for Indian labour in other British colonies, where they faced oppression and racial discrimination.

Source: Pg 253, ch 11 of Spectrum

Q.43) The early nationalists represented the most progressive forces of the time. Still, they were criticized for their weaknesses. In this context, consider the following statements.

1. The early nationalists had total faith in the British sense of justice and fair play.
2. They confined their political activities to the educated classes only.
3. The early nationalists failed to make conscious efforts to remove minority fears.

Which of the statements given above is/are correct?

- a) 1 and 3 only
- b) 2 only
- c) 1 and 2 only
- d) 2 and 3 only

Ans) c**Exp) Option c is the correct answer.**

Statement 1 is correct: The early nationalists political activity involved constitutional agitation within the confines of law and showed slow but orderly political progress. **The early nationalists had total faith in the British sense of justice and fair play.** They were loyal to the British. They looked to England for inspiration and guidance. The leaders believed that political connections with Britain were in India's interest

Statement 2 is Correct: The Moderates used petitions, resolutions, meetings, leaflets and pamphlets, memorandum and delegations to present their demands. **They confined their political activities to the educated classes only.** Their aim was to attain political rights and self-government stage by stage

Statement 3 is Incorrect: The early nationalists made conscious efforts to remove minority fears. Dadabhai Naoroji, presiding over the second Congress session (1886), declared the intentions of the **Congress not to raise socio-religious questions in its forums.** In 1889 the Congress decided **not to take up any issue opposed by the Muslims.**

Knowledge Base: The national leaders like Dadabhai Naoroji, Pherozshah Mehta, D.E. Wacha, W.C. Banerjee, S.N. Banerjee who dominated the Congress policies during the early period (1885-1905) were staunch believers in 'liberalism' and 'moderate' politics They popularized the ideas of democracy, civil liberties and representative institutions. The early nationalists demanded reduction in land revenue, abolition of salt tax, improvement in working conditions of plantation labour, **reduction in military expenditure**, and encouragement to modern industry through tariff protection and direct government aid.
Source: ch 14, 12th History TN, ch 11 spectrum.

Q.44) With reference to the British Committee of Indian National Congress, consider the following statements:

1. It was established to acquaint the British government in London with Indian issues.
2. Its headquarters was located in London.
3. It published magazine named "Voice of India" to propagate its views.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) a

Exp) Option a is the correct answer.

A British committee of the Indian National Congress was established in 1889 which published a magazine named "INDIA".

Statement 1 is correct: Its main objective was to **acquaint the British government in London** with the **reality of Indian issues** and **misgovernance** in India. A section of Indians believed in the moral uprightness of the British, and they believed that if they revealed the true state of affairs to the British government to which the Government of India was responsible, then the situation in India would improve.

Statement 2 is correct: It was founded as a **branch** of the **Indian National Congress in Britain**, closer to the main British Government, which was its target. So, its **headquarters** was located in **London** itself.

Statement 3 is incorrect: It had a magazine called "**INDIA**" as its organ (**not Voice of India** which was published by **Dadabhai Naoroji**) in order to spread its message.

Knowledge Base: It was founded in 1889.

Source: History of Modern India by Spectrum, Ch-10

Q.45) With reference to the Green Hydrogen and India's Green Hydrogen Policy, consider the following statements:

1. Green hydrogen is produced by electrolysis of water using renewable energy.
2. Development of Green Hydrogen will have a profound impact on Oil refining, fertilizers and steel sectors.
3. The Policy has set a target to produce 500 million tonnes of Green Hydrogen every year by 2030.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 1 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) a

Exp) Option a is the correct answer.

The National Hydrogen Mission was launched on India's 75th Independence Day (i.e., 15th August, 2021) to aid the government in meeting its climate targets and making India a green hydrogen hub.

Statement 1 is correct: The green hydrogen is hydrogen gas produced through electrolysis of water – an energy intensive process for splitting water into hydrogen and oxygen– using renewable power to achieve this. It is the clean hydrogen generated by **using renewable energy such as solar and wind energy** instead of fossil fuels. The electricity produced through solar/wind energy is used to **undertake electrolysis of water (in electrolysers) to produce hydrogen**. The carbon footprint of green hydrogen is negligible compared to other methods of production.

Statement 2 is correct: The Policy is likely going to make it more economical for key users of hydrogen and ammonia such as the oil refining, fertiliser and steel sectors to produce green hydrogen for their own use. These sectors currently use grey hydrogen or grey ammonia produced using natural gas or naphtha.

Statement 3 is incorrect: The policy has set a target of 5 million tonnes (**not 500 million tonnes**) per annum (MTPA) of Green Hydrogen production by 2030.

Source:

<https://pib.gov.in/PressReleasePage.aspx?PRID=1799067#:~:text=Hydrogen%20and%20Ammonia%20are%20envisaged,energy%20security%20of%20the%20nation.>

Q.46) With reference to 'London India society', which of the following statements is/are correct?

1. This organization was established by Madam Bhikhaji Cama.
2. It worked towards presenting the correct information about India to the British public.
3. London Indian Society was later superseded by East India Association

Select the correct answer using the code given below:

- a) 1 only
- b) 1 and 3 only
- c) 2 only
- d) 2 and 3 only

Ans) d

Exp) Option d is the correct answer.

The London Indian Society was organised in 1866 in London to discuss the Indian question and influence public in England to promote Indian welfare. Later, branches of the association were started in prominent Indian cities.

Statement 1 is incorrect: In 19th century, many Indian students needed to go to England to qualify for the bar or the Covenanted Civil Service. Four such students viz. Pherozeshah Mehta, Badruddin Tyabji, W. C. Banerjee and Manmohan Ghose had established the **London Indian Society** in 1865 after taking inspirations from **Dadabhai Naoroji (Not by madam Bhikhaji Cama)**. The London Indian Society was thus the first Indian organization to cross the border and to be formed abroad.

Statement 2 is correct: The key activities and objective of the London Indian Society were to ventilate the Indian political, social and literary subjects. It also worked towards presenting the **correct information about India** to the British public and voice Indian grievances **in British press**.

Statement 3 is correct: On October 1, 1866, the **London Indian Society** was superseded by **East India Association**. Its stated objective was to advocate for and **promote public interests and welfare** of Indians.

Whereas, Indian National Association superseded the **Indian League** and was founded in 1876 by younger nationalists of Bengal led by Surendra Nath Banerjee and Ananda Mohan Bose.

Q.47) Consider the following pairs with reference to leaders of the revolt of 1857 and their location:

Leaders	- Location
1. Khan Bahadur	- Faizabad
2. Nana Saheb	- Kanpur
3. Maulvi Ahmadullah	- Bareilly
4. Kunwar Singh	- Meerut

How many of the above pairs are correctly matched?

- Only one pair
- Only two pairs
- Only three pairs
- All the four pairs

Ans) a

Exp) Option a is correct.

Pair 1 is incorrectly matched: Khan Bahadur, a descendant of the former ruler of Rohilkhand, was placed **in command in Bareilly (not Faizabad)**. He organized an **army of 40,000 soldiers** and offered stiff resistance to the British.

Pair 2 is correctly matched: Nana Saheb, the adopted son of the last peshwa, Baji Rao II was in **commander in charge of Kanpur**. He was **banished from Poona**, and was living near Kanpur. Nana Saheb **expelled the English from Kanpur, proclaimed himself the peshwa, acknowledged Bahadur Shah as the Emperor of India**, and declared himself to be his governor.

Pair 3 is incorrectly matched: Maulvi Ahmadullah led charge **in Faizabad (not Bareilly)**. He was a **native of Madras** and had moved to Faizabad in the north where he fought a stiff battle against the British troops. He emerged as **one of the revolt's acknowledged leaders** once it broke out in Awadh in May 1857.

Pair 4 is incorrectly matched: Kunwar Singh, the zamindar of Jagdishpur, led the revolt in **Bihar (and not Meerut)**. He was an old man in his 70s, he nursed a grudge against the **British who had deprived him of his estates**. He unhesitatingly **joined the sepoys** when they reached Arrah from Dinapore (Danapur).

Q.48) In context of modern history of India, which of the following principles/ teachings are associated with the Arya Samaj Movement?

1. It envisaged a classless and casteless society.
2. It believed in the infallibility of the Vedas.
3. It promoted the belief on one universal God.
4. It believed that salvation can be achieved through worship of God.

Select the correct answer using the code given below:

- a) 1 and 2 only
- b) 1, 2 and 3 only
- c) 2, 3 and 4 only
- d) 1, 2, 3 and 4

Ans) d

Exp) Option d is the correct answer.

Dayanand Saraswati was an Indian philosopher, a self-taught man and a social leader. He founded the Arya Samaj - a reform movement of Vedic dharma. He was the first to give the call for Swaraj as "India for Indian" in 1876. The first Arya Samaj unit was formally set up by him at Mumbai (then Bombay) in 1875 and later the headquarters of the Samaj were established at Lahore.

Option 1 is correct: Arya Samaj worked to further **female education and inter-caste marriage**.

Dayanand Saraswati vision of India included a **classless and casteless society**, a united India (religiously, socially and nationally), an India free from foreign rule and the Aryan religion being the common religion of all.

Option 2 is correct: The primary mission of the Arya Samaj is to eradicate Ignorance (Agyan), Indigence or Poverty (Abhav) and Injustice (Anayay) from this earth. **It believed in the infallibility of the Vedas.** The four Vedas, Rig-Veda, Yajur Veda, Sam Veda and Atharva Veda, are the Source of Guidance.

Option 3 is correct: Arya Samaj believes in One God, known by the name of "Om", who is source of all Intelligence and Bliss, Merciful and Just. **It believed that all the different names are but different aspects of the one universal God, thereby promoting Monotheism.** The objective of Arya Samaj is to promote physical, and social well-being for everyone.

Option 4 is correct: According to Arya Samaj, One can attain **salvation through the worship of God.**

Knowledge Base:

Swami Dayanand's contribution to the Education System:

(a) Introduced a complete overhaul of the education system and is often considered as one of the visionaries of modern India.

(b) The DAV (Dayanand Anglo Vedic) schools came into existence in 1886 to realize the vision of Swami Dayanand Saraswati.

Q.49) What were points of contestation between 'Moderates' and 'Extremists' during Indian freedom struggle?

1. Unlike Moderates, Extremists wanted greater autonomy under the nominal rule of the British crown.
2. Moderates mainly had educated middle class as their support base, whereas zamindars were the major support base of extremists.

Select the correct answer using the code given below:

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) d

Exp) Option d is the correct answer.

The Surat session (1907) of the Indian National Congress saw the **splitting of the party** into two different factions; Moderates and Extremists. Although Extremists and Moderates **shared the common goal** the idea of an independent India, but they approached the same matter **with entirely different way**.

Statement 1 is incorrect: The **moderates** aimed at administrative and constitutional reforms and wanted more Indians in the administration, **wanted greater autonomy under the nominal rule** of the British crown, not to an end of British rule. **Whereas, the extremists** aim of **getting Swaraj** or self-rule. They **demand to completely expel British rule from India**. They were active from 1905 to 1920.

Statement 2 is incorrect: The **moderates found their support base in the Zamindars and the upper-middle-class**. Whereas, **extremists found their support bases among the educated middle-class and lower classes**.

Knowledge Base:

Some differences between Moderates and Extremists:

- Moderates had their support base in Zamindars and Upper middle classes in the town. Whereas, the Extremists found their support base in the educated middle and lower middle classes in the town.
- Moderates were economic Critique of British Imperialism and Campaign for General administrative Reforms and defence of Civil Rights. Whereas, Extremists demanded Swaraj and contributed to mass movement, spread of national education, upliftment of downtrodden, Nationalism, support to revolutionary movements, rise of communalism, encouraged co-operative organisation.
- A.O. Hume. W.C. Banerjee. Surendra Nath Banerjee, Dadabhai Naoroji, Feroze Shah Mehta. Gopalakrishna Gokhale were some of the leaders of the moderates. Whereas, Lala Lajpat Rai, Lokmanya Bal Gangadhar Tilak. Bipin Chandra Pal, Aurobindo Ghose, Rajnarayan Bose were leaders of the extremists.

A brief history of modern india-spectrum

Q.50) Which of the following is the main aim of the Amrit Sarovar Mission?

- Development and rejuvenation of about 50,000 water bodies across the country.
- Development of solid waste management infrastructure in tier-1 cities.
- Improve ground water quality and availability in over-exploited areas.
- Harnessing the hydroelectricity potential of the Himalayan Rivers.

Ans) a

Exp) Option a is the correct answer.

'Mission Amrit Sarovar' was launched in 2022 as a part of the Azadi Ka Amrit Mahotsav.

Option a is correct: The Amrit Sarovar Mission (water conservation mission) aims at developing and **rejuvenating 75 water bodies in each district in all States**. At least 50,000 water bodies are expected to be rejuvenated across the country during the nationwide programme that would culminate on August 15, 2023.

Bhaskaracharya National Institute for Space Application and Geo-informatics (BISAG-N) has been engaged as technical partner for the Mission.

The Mission works through the States and Districts, through refocusing of various schemes such as **Mahatma Gandhi NREGS, XV Finance Commission Grants, PMKSY sub schemes such as Watershed Development Component**, Har Khet Ko Pani besides States' own schemes.

Q.1) In 1920, which of the following changed its name to "Swarajya Sabha"?

- All India Home Rule League
- Hindu Mahasabha
- South Indian Liberal Federation
- The Servants of India Society

Ans) a

Exp) Option a is the correct answer.

When Gandhiji and his followers gained control of the All-India Home Rule League. **They changed its name to 'Swaraj Sabha' (Hindi for Home Rule League).** At the same time, they also changed its constitution to allow it to serve as vehicle for Non-cooperation movement. This enabled Gandhi to combine cadre of the Home Rule League and Muslim league for the Non-cooperation movement.

Source: UPSC 2018

Q.2) Which of the following statements are correct regarding the 'Swadeshi Movement'?

- It built up an independent system of national education that used vernacular languages as the medium of communication.
- The movement became highly successful due to strong relationship set up between the elite leaders and the masses.
- The Secret societies were established as a part of the Swadeshi Movement.
- It is also known as Vandemataram movement in the deltaic regions of Andhra Pradesh.

Select the correct answer using the code given below:

- 1, 2 and 3 only
- 1, 3 and 4 only
- 2 and 3 only
- 1, 2, 3 and 4

Ans) b

Exp) Option b is the correct answer.

The Swadeshi Movement which formally started from Town Hall Calcutta on 7 August 1905 to curb foreign goods by relying on domestic production was developed along two lines – of reviving traditional crafts that had been destroyed by competition from British goods and of building indigenous industrial enterprise on modern western lines.

Statement 1 is correct. The **Swadeshi movement** was more strongly associated with an Extremist criticism of the modern education system because it neglected vernacular languages and 'indigenous values' in education. Hence movement build up a **parallel and independent system of 'national education', which used vernacular languages**, instead of English, as the medium of communication. Also, in the year 1906 Indian nationalists in Bengal set up the **National Council for Education** to promote science and technology as part of a swadeshi movement.

Statement 2 is incorrect. One of the major limitations of the Swadeshi movement was the **failure of the mass agitation to turn into a full-fledged mass movement.** It left the masses without the right direction and leadership. Hence **due to the superficial relationship between the elite leadership and the masses**, the Swadeshi movement could not transcend its elite character.

Statement 3 is correct. The Swadeshi Movement which never proved to be successful movement diverted the young nationalists to revolutionary terrorism. It was individual acts of heroism that undertook the Swadeshi dacoits to raise funds for their agitation. The physical and moral training of these young elites was done by the '**secret societies' or 'Swadeshi samitis'** that were formed in 1902 and ran in forms of

akharas and gymnasia. The Militant nationalists often dominated the working of these secret societies or Swadeshi samitis, like those of Dacca and Midnapur. Important leaders who translated this militant theory into action (include **Barindra Kumar Ghosh, Upendranath Banerji, and Hemchandra Kanungo**). Hence these **secret societies that acted as a major part of the Swadeshi movement** survived beyond its humble roots in the Swadeshi movement and continued as a distinct form of nationalist agitation till the 1930s.

Statement 4 is correct. The Swadeshi movement which started from Bengal with its strongest influence there and other parts of the country. It was known as the **Vandemataram Movement in deltaic regions of Andhra.**

<https://ncert.nic.in/ncerts/1/hess205.pdf>

Q.3) What is the correct chronological order for the following events in the history of Modern India?

1. Passage of Rowlatt act
2. August declaration
3. Jallianwala Bagh massacre
4. Launching of the Non-cooperation movement

Select the correct answer using the code given below:

- a) 1-2-3-4
- b) 2-1-3-4
- c) 3-1-4-2
- d) 2-3-1-4

Ans) b

Exp) Option b is the correct answer.

Correct chronological order for above events is 2-1-3-4.

Statement 2. August Declaration of 20th August 1917- Montagu presented the historic **Montagu Declaration (August Declaration)** in the British Parliament. This declaration proposed the increased participation of Indians in the administration and the development of self-governing institutions in India. He, along with the Governor-General of India **Lord Chelmsford**, brought out a detailed report titled **Constitutional Reforms in India**, also called the **Montagu-Chelmsford Report**. This report was published on 8th July 1918. This report became the **basis for the Government of India Act 1919**

Statement 1. Rowlatt Act was passed in March 1919 allowed political activists to be tried without juries or even imprisoned without trial. It allowed arrest of Indians without a warrant on the mere suspicion of 'treason'. Such suspects could be tried in secrecy without recourse to legal help. The law of habeas corpus, the basis of civil liberty, was sought to be suspended

Statement 3. The Jallianwala Bagh massacre, also known as the **Amritsar massacre**, took place on **13 April 1919**. A large peaceful crowd had gathered at the Jallianwala Bagh in Amritsar, Punjab, **to protest against the Rowlatt Act and arrest of pro-independence activists Saifuddin Kitchlew and Satyapal**. In response to the public gathering, the temporary **Brigadier general, R. E. H. Dyer**, surrounded the protesters with his regiment. He ordered them to shoot at the crowd.

Statement 4. Launching of the Non-Cooperation movement: On, August 31, 1920, the Khilafat Committee started a campaign of non-cooperation and the movement was formally launched. In 1920 at a special session in Calcutta, the Congress approved a non-cooperation programme till the Punjab and Khilafat wrongs were removed and swaraj was established.

Source: Spectrum: The Brief History of Modern India

Q.4) With reference to Shimla Deputation, consider the following statements:

1. The deputation was led by Mohammad Ali Jinnah.
2. The deputation demanded separate electorates for Muslims.
3. The delegation failed to get any support from the British.

Which of the statements given above is/are correct?

- a) 1 and 3 only
- b) 2 only
- c) 2 and 3 only
- d) 1 and 2 only

Ans) b

Exp) Option b is the correct answer.

Statement 1 is incorrect. On **1 October 1906** a deputation of **35 Muslim leaders** led by **Aga Khan** met Lord Minto in Simla. The deputation included **five members** from **West Bengal** and only Nawab (nawab Ali Chowdhury) from **East Bengal** and **Assam**. The aim of the deputation was to win the **sympathies of the Raj** on their side concerning matters relating to their interests as a community.

Statement 2 is correct. The **demands** the deputation put forward to lord Minto were:

- 1) **employment of Muslims to Civil administration**, the military and the Judiciary in sufficient numbers; no competitive examinations should bar employment to the higher posts;
- 2) reservation of a certain number of seats for Muslims in the municipal and district boards and in the university senate and syndicate;
- 3) **separate electorates for the Muslims** and representation in excess of their numerical strength
- 4) election of a sufficient number of Muslims to the Imperial Legislative council in order to avoid reducing the Muslims to an insignificant minority;
- 5) establishment of a Muslim University which would stand as a glory to the religious and cultural life of the Muslims.

Statement 3 is incorrect In response to the demands of delegation, Lord Minto expressed his **indirect support** to the principal demand of the Muslim leaders as enunciated in the memorandum i.e. **a separate electorate for the Muslims**. This showed the success of the deputation. Eventually in 1909 the Morley Minto Reforms made provisions for a separate electorate for the Muslims of India.

Q.5) Which one of the following statements correctly describes the objective of the recently launched 'POEM' Platform?

- a) It is a platform launched by ISRO to detect space debris and hazards to the Indian satellites in space.
- b) It aims to establish communication with the Satellites in space.
- c) It is a platform designed to quickly pull the astronauts to a safe distance from the launch vehicle.
- d) It will help in performing in-orbit experiments using the final stage of Polar Satellite Launch Vehicle rocket.

Ans) d

Exp) Option d is the correct answer.

This question is based on the article “**Explained: What is ISRO’s ‘POEM’ platform?**” published in **Indian Express on 1st July 2022**. Recently, Indian Space Research Organization (ISRO) PSLV-C53 rocket has successfully placed three Singaporean satellites into orbit and also achieved the feat of successfully launching the PSLV Orbital Experimental Module or ‘POEM’.

Option d is correct.

The **PSLV Orbital Experimental Module (POEM)** is a platform that will help **perform in-orbit experiments** using the final and otherwise discarded stage of the Polar Satellite Launch Vehicle (PSLV).

POEM has a dedicated Navigation Guidance and Control (NGC) system for attitude stabilization, which stands for controlling the orientation of any aerospace vehicle within permitted limits. The NGC will act as the platform's brain to stabilize it with specified accuracy.

Knowledge Base:

Polar Satellite Launch Vehicle (PSLV):

- 1) It is the **third generation launch vehicle** of India. It is the **first Indian launch vehicle** to be equipped with **liquid stages**.
- 2) After its **first successful launch in October 1994**, PSLV emerged as the reliable and versatile workhorse launch vehicle of India with 39 consecutively successful missions by June 2017.
- 3) The vehicle successfully launched two spacecraft – **Chandrayaan-1 in 2008** and **Mars Orbiter Spacecraft in 2013** – that later traveled to Moon and Mars respectively

Q.6) With reference to the Extremist school and Moderate school during the Indian freedom struggle, consider the following statements:

1. The moderates aimed at constitutional and administrative reforms while the extremists aimed at getting swaraj through passive resistance.
2. Neither of the Moderates or the extremists were inspired by the western ideas of liberalism, democracy, and equity.
3. The Moderates have great faith in the British sense of justice and fair play whereas the Extremists believed in weapon of self-reliance against British.
4. Unlike the Extremists, the moderates did not have much faith in the capacity of the masses.

Which of the statements given above are correct?

- a) 1, 2 and 3 only
- b) 3 and 4 only
- c) 1, 3 and 4 only
- d) 1, 2, 3 and 4

Ans) c

Exp) Option c is the correct answer.

The Moderates (1885-1905) included leaders like Dadabhai Naoroji, M.G. Ranade, Sir P.M. Mehta, G.K. Gokhale, W.C. Banerjee & S.N. Banerjee. The Extremists (1905-1920) included leaders like Bal Gangadhar Tilak, Lala Lajpat Rai and Bipin Chandra Pal.

Statement 1 is correct. The main objective of the Moderates was to achieve self-government within the British Empire. The Moderates aimed at **constitutional and administrative reforms** to achieve self-government. On the other hand, the Extremists aimed 'Swaraj' from British rule without sticking to the constitutional methods to protest and rather **resorted to passive resistance like boycotts, strikes, etc**

Statement 2 is incorrect. The moderate leaders were **influenced by Western political ideas, political philosophy of liberalism and practices, democracy, equity and freedom** that was inspired by the ideas of western philosophers like Mill, Burke, Spencer and Bentham. On the other hand, the Extremists looked more to the past history of India than to the west. They were inspired by **Indian History, its glorious cultural heritage and national education**.

Statement 3 is correct. The **Moderate leaders** had a lasting attachment to the British way of life, they believed in the **British sense of justice and fair play and a deep sense of gratitude towards British rulers and believed that their association with British rule and English education had exposed them to modern ideas such as liberty, equality, democracy, and dignity of the individual.** Whereas the **Extremist leaders** were aware that the British were driven by selfishness and had come to India to exploit her resources. The extremists did not expect them to take a **sympathetic view of the popular demands of the Indian people.** Hence the Extremists tried to make the **masses - nationalistic and public-spirited in character and knowledgeable, self-reliant and independent in spirit.** E.g- The Swadeshi and boycott movements placed great emphasis on Atmasakti or self-reliance as a means of asserting national dignity in several fields.

Statement 4 is correct. The Extremists had immense faith in the capacity of masses to participate and to make sacrifices. **While the Moderates believed that the movement should be limited to middle class intelligentsia; masses not yet ready for participation in political work.**

SPECTRUM (CH-INC-2018 EDITION)

Q.7) With reference to Home Rule Leagues of Tilak and Besant, consider the following statements:

1. Tilak's league was restricted to Maharashtra whereas Besant's League covered the rest of India.
2. Muslim League has extended support to Besant's Home Rule League but not to Tilak's League.
3. Besant's League was loosely organised as compared to Tilak's league.

Which of the statements given above is/are correct?

- a) 1 and 3 only
- b) 2 and 3 only
- c) 3 only
- d) 1 and 2 only

Ans) c

Exp) Option c is the correct answer.

Tilak and Besant had set up their separate leagues. Tilak set up his Indian Home Rule League in April 1916. Annie Besant set up her All-India Home Rule League in September 1916.

Statement 1 is incorrect: **Tilak's league** was restricted to **Maharashtra (excluding Bombay city), Karnataka, Central Provinces, and Berar.** It had six branches. Annie Besant's league was set up as All-India Home Rule League and it covered the rest of India (including Bombay city). It's headquarter was in Madras and had 200 branches.

Statement 2 is incorrect: **Muslim League did not support in setting up both Besant's as well as Tilak's Home Rule League.** Also, Anglo-Indians, **most of the Muslims** and non- brahmins from the south India did not join the home rule. They believed that by home rule it aims to spread Hindu, high caste majority.

Statement 3 is correct: **Annie Besant's League was loosely organised as compared to Tilak's league.** In her league- three members could form a branch whereas in case of **Tilak's League each of the six branches had a clearly defined area and activities.** Also, there was no organized method for passing the instructions in Besant's league.

Source: India's struggle for independence, Bipin Chandra; chapter: Home rule league and its fall out.

Q.8) With reference to the Hunter Committee of 1919, consider the following statements:

1. Its sole purpose was to investigate about the Jallianwala Bagh massacre.
2. The committee did not include any Indian as a member.
3. The final report of this committee unanimously condemned General Dyer's action.
4. It recommended the removal of Dyer from his post.

Which of the statement/s given above is/are correct?

- a) 1 and 2 and 4 only
- b) 2 and 3 only
- c) 3 only
- d) 1, 3 and 4

Ans) c

Exp) Option c is the correct answer.

The Secretary of State for India, **Edwin Montagu**, ordered that a committee of inquiry be formed to investigate the **Jallianwala Bagh massacre**. So, **on October 14, 1919**, the Government of India announced the formation of the **Disorders Inquiry Committee under the chairmanship of Lord William Hunter**. It was widely known as the **Hunter Committee/Commission** after the name of its chairman,

Statement 1 is incorrect: Its purpose is not only to investigate about Jallianwala Bagh massacre but also to investigate the recent disturbances in Bombay, Delhi and Punjab, about their causes, and the measures taken to cope with them.

Statement 2 is incorrect: There were **three Indian members** in the Hunter committee, namely, **Sir Chamanlal Harilal Setalvad**, Vice-Chancellor of Bombay University and advocate of the Bombay High Court; **Pandit Jagat Narayan**, lawyer and Member of the Legislative Council of the United Provinces; and **Sardar Sahibzada Sultan Ahmad Khan**, lawyer from Gwalior State.

Statement 3 is correct: The final report, released in March 1920, unanimously condemned Dyer's actions. The report stated that the **lack of notice** to disperse from the Bagh in the beginning was an error; the **length of firing** showed a grave error; Dyer's motive of producing a sufficient moral effect was to be condemned; Dyer had overstepped the bounds of his authority; **there had been no conspiracy to overthrow British rule in the Punjab.**

Statement 4 is incorrect: The committee did not recommend removing Dyer from his post. He was removed because the British cabinet decided so. Churchill observed that Dyer was a dangerous man and could not be allowed to continue in his post. The decision that Dyer should be dismissed was conveyed to the Army Council. In the end, Dyer was found guilty of a mistaken notion of duty and **relieved of his command in March 1920. He was recalled to England. No legal action was taken against him;** he drew half pay and received his army pension.

Q.9) With reference to the Indian National Liberal Federation (INLF), consider the following statements:

1. It was founded by the nationalist leader Surendranath Banerjee.
2. It strictly functioned within the Indian National Congress.
3. INLF representatives participated in the First Round Table Conference.

Which of the statements given above is/are correct?

- a) 1 only
- b) 1 and 3 only
- c) 2 and 3 only
- d) 3 only

Ans) b

Exp) Option b is the correct answer.

Statement 1 is correct: The **Indian National Liberal Federation (INLF) was founded by Surendra Nath Banerjee** in 1919. Some of its prominent leaders were Tej Bahadur Sapru, V. S. Srinivasa Sastri and M. R. Jayakar.

Statement 2 is incorrect: The Indian National Liberal Federation was not a part of Indian National Congress because Surendranath Banerjee left the INC over his difference with the congress and founded INLF in 1919.

Statement 3 is correct: One of the achievements of the INLF was that it persuaded the new Labour government in Britain to offer India a **Round Table Conference**. A number of Liberal leaders of the federation including Tej Bahadur Sapru and S. Srinivasa Sastri **attended the first Round Table conference (1930-1931). On the other hand, Congress did not participate in First Round Table Conference.**

Q.10) Consider the following statements regarding 'Financial Services Institutions Bureau' (FSIB):

1. It has been established to replace the National Bank for Financing Infrastructure and Development.
 2. It will make recommendations regarding appointment of whole-time directors and non-executive chairpersons in Public Sector Banks.
 3. It functions as an attached office of the Department of Economic Affairs, under the Ministry of Finance.
- Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 only
- c) 1 and 3 only
- d) 2 and 3 only

Ans) b

Exp) Option b is the correct answer.

Statement 1 is incorrect: The government has established the **Financial Services Institutions Bureau (FSIB)** in place of the **Banks Board Bureau (not NBFID)**. It has happened after the Delhi High Court in 2021 had ruled that the Banks Board Bureau couldn't select the general managers and directors of state-run general insurers as it was **not a competent body**.

Statement 2 is correct: The main **aim of Financial Services Institutions Bureau (FSIB)** is to make **recommendations for the appointments of whole-time directors, non-executive chairman in Public Sector Banks (PSBs)**, state-run non-life insurance companies and other financial institutions. Financial Services Institutions Bureau (FSIB) will **do the same job as BBB (Banks board bureau) do, but with a much larger, legally tenable mandate.**

Statement 3 is incorrect: **The Financial Services Institutions Bureau is an autonomous body under government of India.** It does **not work under** the Department of Economic Affairs of Finance Ministry.

Source: Delhi HC recently struck down powers of Banks Board Bureau; new body to select chiefs of PSU banks, insurance firms (forumias.com)

Government recasts Banks Board Bureau into FSIB (thehindu.com)

Financial Services Institutions Bureau | An Autonomous Body of Government of India (fsib.org.in)

Q.11) Which one of the following is a very significant aspect of the Champaran Satyagraha?

- a) Active all-India participation of lawyers, students and women in the National Movement
- b) Active involvement of Dalit and Tribal communities of India in the National Movement
- c) Joining of peasant unrest to India's National Movement
- d) Drastic decrease in the cultivation of plantation crops and commercial crops

Ans) c

Exp) Option c is the correct answer.

Champaran Satyagraha (1917) was the first peasant movement to have garnered nationwide attention. It was first Satyagraha movement led by Gandhi in India.

Gandhi played a critical role by opening a new phase in the national movement by joining it to the great struggle of the Indian peasantry by creating awareness among the peasants against the European Planters. In the subsequent years, Gandhi's Satyagraha movements in Ahmedabad (for mill workers) and Kheda (where he supported distressed peasants) thus, creating grounds for the massive nationwide protests.

Q.12) Which of the following is correct regarding the Swadeshi Movement in India?

- Mass participation by Indian peasantry was a notable feature of the movement.
- Gaffar Khan organised 'khudai khidmatgar' in support of the movement.
- The zamindari and lower middle class of cities participated in the movement.
- The Tilak Swaraj Fund was established to raise funds for the Swadeshi Movement.

Ans) c

Exp) Option c is the correct answer.

Swadeshi movement of 1905 was a turning point in the modern Indian history. The campaign broke down the superiority of colonial ideas and institutions. People became aware to participate in new forms of political work. The future struggle drew inspiration from the experience of swadeshi movement.

Option a is incorrect: One of the drawbacks of swadeshi movement was that it failed to reach Indian peasantry. Although there was participation by untouched sections like students and women. The movement largely remained confined to the upper and middle classes and zamindars. The social base was restricted to cities only.

Option b is incorrect: Gaffar Khan had organised a volunteer brigade 'khudai khidmatgar' or Red-Shirts among the pashtuns **somewhere around 1929**. It was in Civil disobedience movement that this force showed a significant response. They pledged to participate in national movement through non-violent way.

Option c is correct: The social base of the movement included sections of the zamindari, the students, the women, and the lower middle classes in cities and towns. An attempt was also made to politicise the issues of working class by organising strikes. But the movement was not able to get support of the Muslims, especially the Muslim peasantry. Upper and middle class Muslims stayed away.

Option d is incorrect: The Tilak Swaraj Fund was established during the Non-Cooperation Movement to **raise funds for the Non-Cooperation Movement**. In the Nagpur session of Congress which was held on December 1921, a decision was taken to create the All-India Tilak Swaraj Fund (in the memory of Bal Gangadhar Tilak) to raise funds for the Non-Cooperation Movement. This Tilak Swaraj Fund was oversubscribed and one crore rupees collected.

Q.13) With reference to Surat split in Modern Indian history, consider the following statements:

- Extremists were against the boycott of legislative councils.
- Moderates wanted the Indian National Congress session of 1907 to be held in Nagpur.
- Extremists wanted to extend the Swadeshi movement outside Bengal.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 3 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

The Congress split at Surat between extremists and moderates in December 1907. neither side realised that in a vast country like India is ruled by a strong imperialist power. To achieve its goal, only a broad-based nationalist movement could help.

Statement 1 is incorrect: Moderates **totally opposed to boycott of councils and associations** like lawcourts, government services etc. Extremists in fact were in favour of boycott of councils. Moderates advocated constitutional methods to protest the partition of Bengal. Moderates were encouraged by the news of council reforms and wanted to dissociate themselves with extremists.

Statement 2 is incorrect: The Moderates **wanted the session at Surat**. They wanted to exclude Tilak from the presidency as leader from the host province could not be session president. Surat was home province of Tilak. They wanted **Rashbehari Ghosh** as the president of 1907 congress session. On the other hand, Extremists wanted the 1907 session to be held in Nagpur (Central Provinces) with Tilak or Lajpat Rai as the president.

Statement 3 is correct: The Extremists wanted to extend the Boycott and Swadeshi Movement to regions outside Bengal. They also wanted to include all forms of associations like government service, law courts, legislative councils, etc. and thus start a nationwide mass movement. As a result, the Extremists wanted a strong resolution to support their programme at the Benaras session. The Extremists considered the Moderates to be a drag on the movement.

Source: Spectrum National Movement 1905–1918–page no. 243

Q.14) “While working as a professor in princely state of Baroda, he joined a revolutionary society. He was one of the earliest to put forward the idea of complete independence in ‘Bande Mataram’. He was also associated with extremist ideology of Indian National Congress. His significant work includes The Life Divine and The Synthesis of Yoga.”

Which of the following personalities is described in the above passage?

- a) Bal Gangadhar Tilak
- b) Lala Lajpat Rai
- c) Aurobindo Ghosh
- d) Bipin Chandra pal

Ans) c

Exp) Option c is the correct answer.

Sri Aurobindo was born in Calcutta on 15 August 1872. He was an Indian philosopher, yogi, maharishi, poet, and Indian nationalist. He belonged to extremists’ ideology of Indian National Congress.

Option a is incorrect: ‘Lokmanya’ Tilak worked as teacher of mathematics at a private school in Pune. Tilak was one of the first advocator of Swaraj i.e. Self-rule. Tilak wrote Shrimadh Bhagvad Gita Rahasya in prison at Mandalay.

Option b is incorrect: Lala Lajpat Rai was popularly known as Punjab Kesari. He was one of the three members of the Lal Bal Pal trimurti. He was also associated with activities of Punjab National Bank and Lakshmi Insurance Company. He also practised journalism, and was contributor to newspaper The Tribune.

Option c is correct: Aurobindo worked in the **Princely State of Baroda as a professor in Baroda College**. During this time, he joined a revolutionary society. He became one of the leaders of the Swadeshi movement. He was associated with extremists' group of Indian National Congress. He was among the earliest **political leaders in India to openly put forward the idea of complete independence for the country**. In 1910 he withdrew from the active politics. Among his many writings includes **The Life Divine, The Synthesis of Yoga and Savitri**.

Option d is incorrect: Bipin Chandra pal was one of the “Lal Bal Pal” trio. Along with Sri Aurobindo he was one of the main architects of the Swadeshi movement. He also opposed the partition of Bengal. Sri Aurobindo referred to him as one of mightiest prophets of nationalism. As a journalist, Pal worked for Bengal Public Opinion, The Tribune, and New India.

Q.15) Consider the following pairs regarding festivals of India:

Regional Festivals - Associated States

1. Ashadhi Bij - Gujarat
2. Kharchi Puja - Manipur
3. Navreh - Kashmir

Which of the pairs given above are correctly matched?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

Pair 1 is correctly matched: **Ashadhi Bij** falls on the **second day of Shukla paksha of Ashadha** month of **Hindu calendar**. The festival is associated with the **beginning of rains in the Kutch region of Gujarat**. During Ashadhi Bij, the moisture in the atmosphere is checked to predict which crop would do best in the coming monsoon.

Pair 2 is incorrectly matched: **Kharchi Puja** is one of the most popular festivals in **Tripura**. It is celebrated at Agartala in the **temple premises of fourteen gods**. It's a week-long royal Puja which falls in the **month of July on the eighth day of the new moon**. The word 'Kharchi' is derived from the word 'Khya' which means earth. Kharchi Puja is basically done **to clean the post menstrual phase of mother earth's menstruation**.

Pair 3 is correctly matched: **Navreh** is the **lunar new year** that is celebrated in **Kashmir**. It falls on the **first day of the Chaitra Navratri**. On this day, Kashmiri pandits look at **a bowl of rice which is considered as a symbol of riches and fertility**. It is the Sanskrit word '**Nav-Varsha**' from where the word 'Navreh' has been derived.

Navreh 2022: Date, Goddess Sharika, Quotes, Wishes & Celebrations - Edudwar

Q.16) With reference to the factors that led to the Home Rule League Movement in India, consider the following statements:

1. Morley-Minto reforms failed to provide constitutional reforms as demanded by Congress.
2. High taxation and price rise due to first world war had inflicted difficulty on the masses.
3. The myth of white superiority was exposed by the World War.
4. It was felt that popular pressure was required to attain concessions from the government.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1, 3 and 4 only
- d) 1, 2, 3 and 4

Ans) d

Exp) Option d is the correct answer.

The Home Rule Movement was started in 1916. It was based along the lines of the Irish Home Rule League. The movement was an Indian response to the First World War. It was less aggressive but more effective than the Ghadr adventure. This movement shifted the emphasis from educated elites to masses. Annie Beasant and Tilak were pioneers of this new age of aggressive politics.

Statement 1 is correct: Lord Morley was against the introduction of responsible government as demanded by congress in India. The constitutional reforms introduced in Government of India act 1909 (Morley- Minto reforms) disappointed the congress especially moderates. Therefore, demand for self-rule was made the aim for Home Rule League Movement. Under it, administration reforms were demanded along the lines of Irish home rule league.

Statement 2 is correct: The Home rule started during the first world war time (1914-1919). As Britain was part of the first world war, people in India were facing wartime difficulties. **There was high price rise and high taxation was imposed on them.** They were ready to participate in any aggressive movement of protest.

Statement 3 is correct: One of the factors which contributed to the formation of Home Rule movement was the World war, which exposed the myth of white superiority.

Statement 4 is correct: One of the reasons which contributed to the formation of Home rule league was that a section of the nationalists felt that popular pressure was required to attain concessions from the government.

Source: spectrum, chapter: national movement 1905-1918

Q.17) With reference to the National Council of Education, consider the following statements:

1. The National Council of Education was an outcome of the Swadeshi movement.
2. It recommended that the medium of education in schools and colleges should be English.
3. It had set up Bengal Technical Institute for imparting technical education.

Which of the above statements is/are correct?

- a) 1 only
- b) 1 and 2 only
- c) 1 and 3 only
- d) 2 and 3 only

Ans) a

Exp) Option a is the correct answer.

The National Council of Education was set up in June, 1906 by Satish Chandra Mukherjee and other Indian nationalists. Its main pur-*pose* was to provide education on national lines and under national control.

Statement 1 is correct - The birth of the national schools during swadeshi movement culminated in the formation of the National Council of Education (NCE) in 1906.

Statement 2 is incorrect: The medium of education was recommended to be vernacular. The Council was started in the backdrop of Swadeshi and Boycott Movement when British goods were being boycotted.

Statement 3 is incorrect: Bengal Technical Institute was not started by National Council of Education but its sister organization—the Society for the Promotion of Technical Education (SPTE) on 25th July, 1906.

Knowledge Base: **National Council of Education** formed in 1906 was the result of contemporary controversies about education. In 1904, the universities act was passed. It reconstituted the Calcutta University's Senate and Syndicate by nominating more white members into them to enable the government to control its policies. The government decided to disaffiliate many private Indian Colleges, which had sprung up lately since they were regarded as hot beds of nationalist agitation. Both measures were studied attempts to denationalise education. The measures stirred the nationalist bhadraloks to move for alternative systems of education.

Source: https://en.banglapedia.org/index.php/National_Council_of_Education

Q.18) With reference to the 1916 Lucknow Session of Congress, consider the following statements:

1. During the session, Congress accepted the provision of separate electorates for the Muslims.
2. Congress accepted the Tilak's demand for setting up a Congress Working Committee for day-to-day affairs.
3. Muslim League and Congress decided to launch a joint front for achieving complete independence from British rule.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 and 3 only
- c) 1 and 2 only
- d) 1 and 3 only

Ans) a

Exp) Option a is the correct answer.

The Lucknow session of the Indian National Congress in 1916, presided over by a Moderate Ambika Charan Majumdar. In this, Extremists were finally readmitted to Indian National Congress.

Statement 1 is correct: - Lucknow pact was signed between Congress and Muslim League. Under the pact Congress accepted the controversial provision of separate electorates. It was done to pave the way for Hindu Muslim Unity. It was motivated by a sincere desire to remove the minority fears about majority domination. Also, there was large enthusiasm generated among the masses through this union.

Statement 2 is incorrect: Tilak's demand of appointing a Working Committee to carry on day-to-day affairs of the Congress was not accepted due to Moderate's opposition. According to Tilak it would transform the Congress from a deliberative body into capable of leading a sustained movement. Later in 1920, Nagpur session of Congress, Congress working committee was launched.

Statement 3 is incorrect: Lucknow Session led to Lucknow Pact between Congress and Muslim League. There was no provision of complete independence in the joint constitutional demands put forward by league and congress to government. The joint demands made under Lucknow pact included:

- 1) Government should declare that it would provide **self-government** to Indians as soon as possible.
- 2) The representative assemblies at the central and provincial level should be expanded further with an elected majority and more powers.
- 3) The term of the legislative council should be five years.
- 4) The salaries of the Secretary of State for India should be paid by the British treasury and not drawn from Indian funds.
- 5) Half the members of the viceroy's and provincial governors' executive councils should be Indians

Source: spectrum, chapter: national movement 1905-1918

Q.19) Which of the following was the reason for Indian objections to Montagu's Statement of 1917?

- a) The statement failed to provide any plan for transfer of power to Indians.
- b) It was aimed at rallying Muslims against Congress by providing separate electorate to Muslims.

- c) British government would solely decide on the nature and the timing of forming responsible government in India.
- d) Demand of Congress to vote upon the budget was not granted under Montagu's statement.

Ans) c

Exp) Option c is the correct answer.

On August, 1917, The Secretary of State for India, Edwin Samuel Montagu, made a statement in the British House of Commons. It later came to be known as the August Declaration of 1917. The statement said: "The government policy is of an increasing participation of Indians in every branch of administration and gradual development of self-governing institutions with a view to the progressive realisation of responsible government in India as an integral part of the British Empire."

Option a is incorrect: It was after Cripps Mission in 1942, when there was the objection made regarding absence of any plan for immediate transfer of power and absence of any real share in defence.

Option b is incorrect: The Morley-Minto reforms in 1909 provided separate electorates for Muslims. It was aimed at appeasing the Muslim section of population to check the popularity of Congress.

Option c is correct: The objections of the Indians to Montagu's statement were two-fold:

(1) No specific time frame was provided to form responsible government on the lines of self-rule.

(2) **The British government alone would decide the nature and the timing of progress towards a responsible government.** The Indians were displeased that the British would decide good and bad for Indians.

Option d is incorrect: After Indian Councils Act 1892, congress and nationalists were dissatisfied with the reforms. They demanded majority of elected Indians in council and control over the budget in form of voting upon and amending the budget.

Source: Spectrum, chapter: national movement 1905-1918

Q.20) Consider the following statements regarding the National Investigation Agency:

1. It is a non-statutory body that derives its powers from Delhi Special Police Establishment Act, 2008.
2. Unlike the Central Bureau of Investigation, it does not have extra territorial jurisdiction.
3. It needs permission of state government to investigate a case of terrorist activity in that state.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 only
- c) 2 and 3 only
- d) None of the above

Ans) d

Exp) Option d is the correct answer.

This Question is based on the article "The Functioning of the National Investigation Agency (NIA)" published in **The Hindu** on **4th July 2022**.

Statement 1 is incorrect: National Investigation agency is a statutory body and governs the functioning of India's premier **counterterror agency** by **National Investigation agency act, 2008**. This Act makes agency a **truly federal agency** in the country, along the lines of the FBI in the United States.

Statement 2 is incorrect: Earlier, only Central bureau of investigation serves as India's point of contact with INTERPOL or **have extra territorial jurisdiction**. But the **NIA Amendment Act of 2019** broadened the scope of crimes that the **agency can investigate and prosecute** persons who commit a listed offence against Indian citizens or impact **India's interests outside India**. Thus, both the agencies **have extra territorial jurisdiction**

Statement 3 is incorrect: The Central bureau of investigation (not NIA) has to seek permission of a state government before investigating a case against any person in that state. But National Investigation agency (NIA) have the power to take ‘Suo motu’ cognizance of terrorist activity in any part of India and enter any state without needing permission from its government, and to investigate and arrest people.

Knowledge Base:

Jurisdiction of National Investigation Agency: The law under which NIA operates extends to the whole of India. It also **applies to:** 1) **Indian citizens outside the country**, 2) Persons in the service of the government wherever they are posted, 3) **Persons on ships and aircraft registered in India** wherever they may be and 4) Persons who commit a scheduled offence beyond India against the Indian citizen or affecting the interest of India.

NIA has the **power to search, seize, arrest and prosecute** those involved in listed offences. In 2020, the Centre empowered the NIA to also probe offences under the Narcotic Drugs and Psychotropic Substances Act that are connected to terror cases.

How does the NIA take up the probe?

- 1) As provided under Section 6 of the NIA Act, 2008, **State governments can refer the cases** pertaining to the scheduled offences registered at any police station to the Central government (Union Home Ministry) for NIA investigation.
- 2) After assessing the details made available, the **Centre can then direct the NIA to take over** the case. State governments are required to extend all assistance to the NIA.
- 3) Even when the Central government is of the opinion that a scheduled offence has been committed which is required to be investigated under the Act, it may, **Suo motu, direct the agency to take up/over the probe.**

Source: What’s changing in NIA: Wider jurisdiction, more offences, faster trial | Explained News, The Indian Express

Indian Polity- M Lakshmi Kant 6th edition (Ch 62)

Q.21) The Government of India Act of 1919 clearly defined

- a) the separation of power between the judiciary and the legislature
- b) the jurisdiction of the central and provincial governments
- c) the powers of the Secretary of State for India and the Viceroy
- d) None of the above

Ans) b

Exp) Option b is the correct answer.

The Government of India Act of 1919 clearly defined the jurisdiction of the central and provincial governments. It provided for the demarcation and separation of subjects between centre and provinces. The central and provincial legislatures were authorised to make laws on their respective list of subjects. However, the structure of government continued to be centralised and unitary.

It further divided the provincial subjects into two parts—transferred and reserved. The transferred subjects were to be administered by the Governor with the aid of Ministers responsible to the legislative council. The reserved subjects, on the other hand, were to be administered by the Governor and his executive council without being responsible to the legislative council. This dual scheme of governance was known as ‘dyarchy’—a term derived from the Greek word di-arche which means double rule. However, this experiment was largely unsuccessful.

Source: UPSC 2015

Q.22) With reference to Rowlatt Satyagraha, consider the following statements:

1. The Rowlatt Satyagraha was the first all India mass Satyagraha called by Gandhi.
2. It was mostly restricted to cities and towns.
3. Members of Home rule league stayed away from the satyagraha.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) a

Exp) Option a is the correct answer.

Gandhi called for a nationwide Satyagraha against the Rowlatt Act. April 6, 1919 was fixed as the date to launch of satyagraha. He called the Rowlatt Act the “Black Act” and believed that not everyone should get punishment against the isolated political crimes.

This act enables the government to imprison any person without trial. Hence, suspending the right of Habeas Corpus.

Statement 1 is correct: Gandhi called for nationwide Satyagraha against the Rowlatt Act in March 1919. It was his first attempt at leading an all-India mass satyagraha. The forms of protest finally chosen to conduct a nationwide hartal or strike. It is to be followed by fasting and prayer, observing civil disobedience against specific laws, and pursuing arrest as well as imprisonment.

Statement 2 is correct: One of the limitations of Rowlatt satyagraha was, it confined mostly to cities and towns. Also, the movement did not raise same response from all parts of India. But different classes and communities responded to Gandhi’s call inspite of limited organisational support.

Statement 3 is incorrect: Home rule league members had supported the Rowlatt Satyagraha. Gandhi organised a Satyagraha Sabha and persuaded younger members of Home Rule Leagues and the Pan Islamists to join the movement. Initiatives taken by the members of the Home Rule League and the All-India Muslim League arouse awareness against the various actions of the British Government.

NCERT: our past: vol 3

Q.23) Consider the following statements regarding the Anushilan Samiti and its activities:

1. The Anushilan Samiti was formed on the lines of the secret societies of Russia and Italy.
2. Promotha Mitter founded the Calcutta Anushilan Samiti.
3. Yugantar was founded by the members of the Anushilan Samiti.

Which of the statement given above is/are correct?

- a) 1 and 2 only
- b) 1 and 3 only
- c) 2 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

Statement 1 and 2 correct: The Anushilan Samiti was founded by Promotha Mitter in 1902. The samiti was supported by Jatindranath Banerjee, Barindra Kumar Ghosh and others. The Anushilan Samiti was formed and organized on the lines of the secret societies of Russia and Italy. But, their activities were limited to giving physical and moral training to the members and remained insignificant till 1907-08. The

immediate events triggering the members of the samiti were the unpopular educational reforms of Lord Curzon and the Partition of Bengal (1905).

Statement 3 is correct: In April 1906, an inner circle within Anushilan (Barindra Kumar Ghosh, Bhupendranath Dutta) started the weekly *Yugantar* and conducted a few abortive 'actions'.

Source: Pg 284, chapter 11, Spectrum

https://en.banglapedia.org/index.php/Anushilan_Samiti

Q.24) Consider the following statements regarding the Alipore Conspiracy case:

1. The case is related to an attempt to kill Lord Hardinge, the Viceroy of India.
2. Aurobindo Ghosh and Barindra Ghosh were arrested in the case.
3. Chittaranjan Das was associated with this case.

Which of the statement given above is/are correct?

- a) 1 and 2 only
- b) 2 only
- c) 3 only
- d) 2 and 3 only

Ans) d

Exp) Option d is the correct answer.

The Muzaffarpur killing is one of the most famous events in the history of Bengal. Both Khudiram Bose and Prafulla Chaki became heroes among the masses of Bengal.

Statement 1 is incorrect: The case is related to an attempt to kill Presidency Magistrate Douglas Kingsford in Muzaffarpur. In 1908, Prafulla Chaki and Khudiram Bose threw a bomb at a carriage supposed to be carrying a particularly sadistic white judge, Kingsford, in Muzaffarpur. **Kingsford was not in the carriage.** Unfortunately, **two British ladies, instead, got killed.** Prafulla Chaki shot himself dead while Khudiram Bose was tried and hanged.

The Delhi Conspiracy case, refers to an attempt made in 1912 to assassinate the then Viceroy of India, Lord Hardinge by throwing a bomb.

Statement 2 is correct: The whole Anushilan group was arrested including the Ghosh brothers, Aurobindo and Barindra. The Ghosh brothers were charged with 'conspiracy' or 'waging war against the King' – the equivalent of high treason and punishable with death by hanging.

Statement 3 is correct: In the trials of the Alipore Case, Chittaranjan Das defended Aurobindo. Aurobindo was acquitted of all charges with the judge condemning the flimsy nature of the evidence against him.

Source: Pg 283, chapter 11, Spectrum

https://en.banglapedia.org/index.php/Anushilan_Samiti

Q.25) With reference to the Lisbon Declaration, consider the following statements:

1. It aims to ensure the humane treatment and protection of asylum seekers and refugees.
2. Recently, India has become the party of the Lisbon declaration.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) b

Exp) Option b is the correct answer.

This question is based on the article “UN Ocean Conference: 198 countries adopt Lisbon Declaration” published in **Down To Earth** on **4th July 2022**. At the **UN Ocean Conference 2022**, co-hosted by **Governments of Kenya and Portugal**, all 198 members of the United Nations unanimously adopted the Lisbon Declaration on ocean conservation.

Statement 1 is incorrect: The **Lisbon Declaration** aims to **mobilize action** and to propel much needed **science-based innovative solutions** aimed at starting a new chapter of **global ocean action**. It aims at protecting **at least 30%** of national maritime zones by 2030.

The 1951 Refugee Convention aims to promote the protection of refugees by the States.

Statement 2 is correct: All **198 members of the United Nations including India** unanimously **adopted the Lisbon declaration on ocean conservation**. Participants at the conference agreed to work on preventing, reducing and controlling marine pollution.

Source: Declaration on Environment and Development | international agreement | Britannica
UN Ocean Conference: 198 countries adopt Lisbon Declaration (forumias.com)

Q.26) Consider the following statements regarding the Zimmerman Plan in Indian history:

1. It aimed to organise an armed invasion of British India to liberate the country.
2. Taxicab dacoities and boat dacoities were organized to raise the funds.
3. Bagha Jatin was one of the leaders to implement the plan.

Which of the statements given above is/are correct?

- a) 1 and 3 only
- b) 1 and 2 only
- c) 2 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

During the First World War, the Jugantar party arranged to import German arms and ammunition through sympathisers and revolutionaries abroad. It was aiming to bring about an all-India insurrection in what has come to be called the ‘German Plot’ or the ‘Zimmerman Plan’.

Statement 1 is correct. The Zimmerman plan had full backing of German foreign office. Under the plan, the revolutionaries aimed to mobilise the Indian settlers abroad, to send volunteers and arms to India, to incite rebellion among Indian troops there and **to even organise an armed invasion of British India to liberate the country**.

Statement 2 is correct. The Jugantar party raised funds through a series of dacoities which came to be known as **taxicab dacoities and boat dacoities**, so as to work out the Indo-German conspiracy.

Statement 3 is correct: **Bagha Jatin was one of the leaders to implement the plan. Jatin asked Rash Behari Bose to take charge of Upper India**, aiming to bring about an all-India insurrection.

Source: Pg 286, Spectrum

Q.27) Consider the following pairs with reference to the Newspapers/ Journals and their Founders/ Editors:

Newspaper/ Journal	Founder/Editor
1. Sandhya	Brahmabandhab Upadhyay
2. Yugantar	Barindra Kumar Ghosh
3. Talvar	Pherozechah Mehta
4. Bombay Chronicle	Virendranath Chattopadhyay

How many pairs mentioned above are correct?

- a) Only one pair is correct
- b) Only two pair is correct
- c) Only three pair is correct
- d) All the pair are correct

Ans) b

Exp) Option b is the correct answer.

Newspapers and journals made their appearance in the later part of the 18th century, and they provide very valuable information on almost all aspects of the Indian society, especially in the 19th and 20th centuries. Newspapers and journals of the nineteenth and twentieth centuries, were published in English as well as in the different vernacular languages. Some of the Newspapers/ Journals and their founders are given below.

Statement 1 is correct. Sandhya (1906, Bengal) - Brahmabandhab Upadhyay is considered as the founder of Sandhya. Through, Sandhya he popularised swaraj and the Swadeshi Movement. Mokhodacharan Samadhyay was the editor of Sandhya after the death of Brahmabandhab.

Statement 2 is Correct. Yugantar (1906, Bengal) - The inner circle within Anushilan Samiti, namely, **Barindra Kumar Ghosh and Bhupendranath Dutta started the weekly Yugantar.**

Statement 3 is Incorrect. Talvar (Berlin) - Virendranath Chattopadhyay was the editor of the weekly 'Talvar'. The weekly aimed to incite nationalist unrest and sought to sway the loyalty of the British soldiers.

Statement 4 is Incorrect: Bombay Chronicle (1910, Bombay) - Bombay Chronicle was an **English-language newspaper, started in 1910 by Sir Pherozeshah Mehta (1845-1915).**

Source: Pg 846, Appendices, Spectrum

<https://www.granthsanjeevani.com/jspui/collectionView?id=7&filtername=publisher&filtertype>equals&filterquery=The+Bombay+Chronicle>

Q.28) 'Anjuman-i-Mohisban-i-Watan' was a secret society formed to support the agitations against the Punjab Land Colonisation Bill. Who among the following personalities is the founder of this secret society?

- a) Syed Haider Raza
- b) Ajit Singh
- c) Nawab Mohsin-Ul-Mulk
- d) Bhagat Singh

Ans) b

Exp) Option b is the correct answer.

The 1907 Punjab unrests were a period of unrest in the British Indian province of Punjab, centered on the province's Colonization bill, which was implemented in 1906. In response to Colonization bill, **Ajit Singh formed a secret society, known by the name Anjuman-i-Mohisban-i-Watan.**

The Colonization Bill provided the transfer of a person's property to the government after his death if he had no heirs. The government could sell the property to any public or private developer. This was utterly contrary to the social conditions in the region, and thus it was rejected by all parties. During this time, there were widespread protests, which culminated in Ajit Singh's deportation

Q.29) Consider the following Statements about Shyamji Krishna Verma:

1. He taught Sanskrit at Oxford University.
2. He was the first President of Bombay Arya Samaj.

3. His revolutionary activities were based in Germany.

Which of the statement given above is/are Correct?

- a) 1 and 2 only
- b) 3 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) a

Exp) Option a is the correct answer.

Statement 1 is Correct: Shyamji Krishna Varma was born in 1857 in modern-day Gujarat. He completed his education in India, before moving on to **teach Sanskrit at the Oxford University.**

Statement 2 is Correct: He became the **first President of Bombay Arya Samaj.** He was an admirer of Dayanand Saraswati, and he inspired Veer Savarkar who was a member of India House in London. He also served as the Diwan of a number of states in India.

Statement 3 is Incorrect: His revolutionary activities were based in Britain. In 1905 an Indian Home Rule Society 'India House' was established as a Centre for Indian students. A journal 'The Indian Sociologist' was also established by him in 1905.

Knowledge Base: A memorial called Kranti Teerth dedicated to him was built and inaugurated in 2010 near Mandvi. Spread over 52 acres, the memorial complex houses a replica of India House building at Highgate along with statues of Shyamji Krishna Varma and his wife.

Source: Pg 288, ch 13, Spectrum

<https://amritmahotsav.nic.in/unsung-heroes-detail.htm?292>

Q.30) Consider the following statements:

- 1. Bosons are elementary particles that combine together to form protons and neutrons.
- 2. Quarks are the fundamental particles made up of small bundles of light called photons.
- 3. Fermions are mass elementary particles that occupy a particular space at a given time.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 only
- c) 1 and 3 only
- d) 3 only

Ans) d

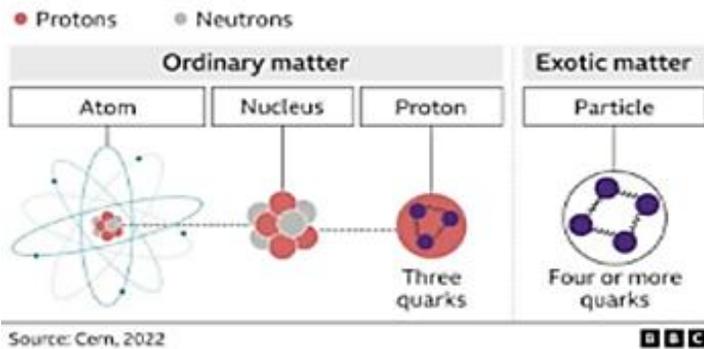

Exp) Option d is the correct answer.

The question is based on the article “**Explained: The three new ‘exotic’ sub-atomic particles discovered at CERN**” published in Indian Express on 5th July 2022. Elementary particles are the building blocks of the universe. All other matter is made up of these fundamental particles. The universe has **two classes of elementary particles, Fermions and Bosons.** Even particles such as protons and neutrons fall under these two elementary particles.

Statement 1 is incorrect: It is Quarks (not Bosons), a type of **elementary particles that combine together in groups** of twos and threes to form **composite particles such as the protons and neutrons** that make up atomic nuclei. If they combine into four-quark and five-quark particles called tetraquarks and pentaquarks. Bosons are **made up of photons (small bundles of light).**

Statement 2 is incorrect: Bosons are one of the **fundamental particles** of the universe. These subatomic particles were **named after Satyendra Nath Bose**, an Indian Physicist. They are **made up of photons (small bundles of light).** Bosons **have nuclei with even mass numbers.** It also **carries interaction forces.**

Ordinary and exotic matter

Statement 3 is correct: **Fermions** are one of the two building blocks of matter. These particles were **named after Enrico Fermi, a scientist**. Fermions are **mass particles, which means they carry some mass**. It follows **Pauli's Exclusion Principle**, which means that **fermions are solitary**. This means that **only one fermion will occupy a particular space at a given time**. Quarks are an example of Fermions.

Knowledge Base:

Fermions and Bosons: There are possibly **only two classes of 'particles'** in the universe **Fermions and Bosons**. All elementary particles (Quarks, Leptons, Gauge Bosons, Static Bosons etc.) will fall under either of these two.

Fermions: All fermions have **half-integer multiple spins**. Fermions are solitary. Fermions are **usually associated with matter** while Bosons are the force carriers. Examples of Fermions: Leptons (Electrons, Neutrinos etc.), Quarks (Up, down etc.), Baryons (Protons, Neutrons etc.).

Fermions		Bosons	
Leptons Quarks	Spin $\frac{1}{2}$	Carrier Bosons $\gamma W W Z g$	
Baryons (qqq)	$\frac{1}{2}, \frac{3}{2}, \frac{5}{2}, \dots$	Mesons (q \bar{q})	$0, 1, 2, \dots$

Bosons: All bosons have **either zero spin or an even integer spin**. Bosons may occupy the **exact same quantum state** as other bosons, as for example in the **case of laser light which is formed of coherent, overlapping photons**. Examples of bosons include fundamental particles such as photons, gluons, and W and Z bosons.

The standard model of particle physics gets a jolt -ForumIAS Blog

Q.31) Who of the following founded the Ahmedabad Textile Labour Association?

- Mahatma Gandhi
- Sardar Vallabhbhai Patel
- N.M. Joshi
- J.B. Kripalani

Ans) a

Exp) Option a is the correct answer.

Mahatma Gandhi along with Anasuya Sarabhai and Shankerlal Banker founded the Ahmadabad textile labour association. The establishment of the Ahmedabad Textile Labour Association had long term effects in improving working conditions and leading labor union organization in India.

Source: UPSC 2009

Q.32) Consider the following statements regarding the impact of First World War on India:

1. The war benefited the Indian industrialist as there was an increase in Foreign Investment.
2. The taxes on essential commodities were decreased to ease the hardship faced by the masses.
3. It helped in bringing about a wave of nationalism among various section of the population.

Which of the statement given above is/are correct?

- a) 1 only
- b) 1 and 3 only
- c) 3 only
- d) 1, 2 and 3.

Ans) b

Exp) Option b is the correct answer.

In the First World War (1914-1919), Britain allied with France, Russia, USA, Italy and Japan against Germany, Austria-Hungary and Turkey.

Statement 1 is correct: The war had a different impact on different section of the population. **The war brought fortunes for the industrialists. There was increase in foreign investment.** It created an economic crisis in Britain and for the war demand they had to depend on Indian industries. The Indian industrialist took the maximum advantage of the opportunities offered. They made fortunes and wanted to preserve it, even after the war came to an end. For this reason, they were prepared to organize themselves and support the organized nationalist movement.

Statement 2 is Incorrect: Among the poorer class of Indians, the war brought misery and impoverishment. **It also brought heavy taxation on the people.** War demands created a scarcity of agricultural products as well as other daily necessities of life. As a result, there was a phenomenal increase in their prices.

Statement 3 is Correct: After the end of the war, there was a resurgence of nationalist activity in India and in many other colonies in Asia and Africa. Thus, **the war helped in bringing about a wave of nationalism among various sections of the population,** although through different processes.

Knowledge Base: Some of the other impacts of first World War are as follows:

- Workers and Artisans faced unemployment and bore the brunt of high prices.
- Soldiers who returned from battlefields abroad gave an idea of their experience to the rural folk. They were also surprised to return to a country that was impoverished and had less liberty than before.
- Educated Urban Classes was facing unemployment as well as suffering from an acute awareness of racism in the attitude of the British.

Source: Pg 306, chapter 15, Spectrum

<https://egyankosh.ac.in/bitstream/123456789/19959/1/Unit-13.pdf>

Q.33) Consider the following Statements regarding the Ghadr Party and its programmes:

1. The first President of Ghadr party was Lala Hardayal.
2. The first issue of Ghadr Paper was in Urdu.
3. The revolutionaries of Ghadr included mainly ex-soldiers and peasants.
4. The Ghadr activities were largely based on religious lines.

Which of the statements given above is/are **Incorrect**?

- a) 1 and 2 only
- b) 1, 2 and 4 only
- c) 1 and 4 only
- d) 2 and 4 only

Ans) c

Exp) Option c is the correct answer.

The First World War broke out in 1914 and to many Indian nationalists, it appeared that it was an opportunity to take advantage of Britain's difficulty. The challenge was thrown by two very different groups of nationalists, the Ghadar revolutionaries based in North America, and the Home Rule Leagues of Tilak and Annie Besant in India.

Statement 1 is Incorrect: Baba Sohan Singh Bhakna was elected the President, Lala Har Dayal the General Secretary and Pandit Kanshi Ram Maroli the Treasurer at the first meeting of the Party, which was also attended by others including Bhai Parmanand and Harnam Singh 'Tundilat'. Ghadar ideology was also strongly egalitarian and democratic in content. Their aim was to set up an independent republic in India.

Statement 2 is Correct: The paper Ghadar was launched on the first of November, 1913. The first issue was in Urdu language followed by the Gurmukhi version, a month later.

Statement 3 is Correct: The revolutionaries included mainly ex-soldiers and peasants who had migrated from the Punjab to the USA and Canada in search of better employment opportunities.

Statement 4 is Incorrect: Ghadar ideology was strongly egalitarian and democratic in their content. Their aim was to set up an independent republic in India. The most important achievement of the Ghadarites was that despite the fact that the vast majority of their followers were recruited from amongst Punjabi Sikh immigrants, **they were strongly secular in their outlook.**

Knowledge Base: Pre-Ghadr revolutionary activity had been carried on by Ramdas Puri, G.D. Kumar, Taraknath Das, Sohan Singh Bhakna and Lala Hardayal who reached there in 1911. To carry out revolutionary activities, the earlier activists had set up a 'Swadesh Sevak Home' at Vancouver and 'United India House' at Seattle. Finally in 1913, the Ghadr was established.

Q.34) The following items consist of two statements one labeled as 'Assertion(A)' and the other labeled as 'Reason(R):

Assertion(A): There was a temporary break in the revolutionary activities after the First World War.

Reason(R): The coming together of the Muslim League and the Congress under the Lucknow Pact.

Which of the options given below is correct?

- a) Both A and R are true, and R is the correct explanation of A.
- b) Both A and R are true, and R is not the correct explanation of A
- c) A is true but R is false
- d) Bot A and R are False

Ans) b

Exp) Option b is the correct answer.

Assertion(A) is correct: There was a **temporary respite in revolutionary activity after the First World War** because the **release of prisoners held under the Defense of India Rules** cooled down passions a bit. There was an atmosphere of **conciliation after Montagu's August 1917 statement** and the talk of constitutional reforms and the **coming of Gandhi on the scene** with the programme of non-violent non-cooperation promised new hope.

Reason (R) is correct: In Lucknow session of INC (1916) Muslim League and the Congress came together and presented common demands to the government. **But this is not the correct reason for Assertion (A).**
Source: Pg 291, ch 13, Spectrum

Q.35) Which of the following statements regarding the *Namsai Declaration* is correct?

- It declares that benefits arising from the utilisation of genetic resources are to be shared in a fair and equitable way.
- It recognizes the complex and increasing impact of disasters and suggests participation of all stakeholders at all levels.
- It declares that international aid should be based on grassroots data & its impacts.
- It is an agreement to resolve the territorial disputes between Assam & Arunachal Pradesh.

Ans) d

Exp) Option d is the correct answer.

Statement a is incorrect: The **Nagoya Access & Benefit Sharing Protocol (not Namsai declaration)** is an international agreement which declares that **any benefits from use of knowledge regarding genetic and biodiversity resources shall be shared in a fair and equitable manner.**

Statement b is incorrect: The **Sendai Declaration & Disaster Risk Reduction Framework (not Namsai declaration)** recognizes the **increasing impact of disasters** on human lives and economy. It further calls on **all stakeholders to play their roles in mitigating and responding** in case of **disasters.**

Statement c is incorrect: The **Paris Declaration on Aid Effectiveness (not Namsai declaration)** is a declaration by the **OECD members in 2005** that recognised that **aid could - and should - be producing better impacts.**

Statement d is correct: The **Namsai Declaration** was a **landmark agreement** that was reached between the Chief Ministers of the **Indian states of Assam and Arunachal Pradesh** recently in **July, 2022**. It declared that the **number of disputed villages** under the **interstate border disputes** will be **reduced from 123 to 86**. **The 800-km-long inter-state border** has been the site of many conflicts (around 1200) for many years, since colonial times.

Knowledge Base:

As per the declaration, both the states will now constitute 12 regional committees, each for the 12 districts where there is a dispute. These committees will jointly verify the concerned villages and thereafter make recommendations to the respective state governments “keeping in view the historical perspective, administrative convenience, contiguity and people’s will”.

Out of the 37 villages, it has been agreed that while 34 villages fell within the border of Arunachal Pradesh, the rest three lay in Assam.

Q.36) Consider the following Statements regarding the Nationalist response to the British participation in first World War, which began in 1914.

- The Moderates supported the Britishers in the war as a matter of duty.
- The Extremists, including Tilak opposed the Britishers and did not support the war efforts.
- Mahatma Gandhi opposed the recruitment of Indian soldiers in the war efforts.
- There were mutinies by the Indian revolutionaries in Singapore.

Which of the statements given above is/are Correct?

- a) 1, 2 and 4 only
- b) 2 and 4 only
- c) 1 and 3 only
- d) 1 and 4 only

Ans) d

Exp) Option d is the correct answer.

In the First World War (1914-1919), Britain allied with France, Russia, USA, Italy and Japan against Germany, Austria-Hungary and Turkey. This period saw the maturing of Indian nationalism

The nationalist response to British participation in the First World War was as follows

Statement 1 is Correct: The Moderates supported the empire in the war as a matter of duty.

Statement 2 is Incorrect: The Extremists, including Tilak supported the war efforts in the mistaken belief that Britain would repay India's loyalty with gratitude in the form of self-government;

Statement 3 is Incorrect: Gandhi and most nationalists **extended cooperation to the war effort** and a huge number of Indian troops sacrificed their lives on the war front. When war was declared in August, Gandhi was in England, where he immediately began organizing a medical corps similar to the force he had led in the Boer War.

Statement 4 is Correct: The Indian revolutionaries decided to utilise the opportunity to wage a war on British rule and liberate the country. The revolutionary activity was carried out through the Ghadr Party in North America, Berlin Committee in Europe and **some scattered mutinies by Indian soldiers, such as the one in Singapore**

Q.37) The speech of Mahatma Gandhi at the opening of the Banaras Hindu University marked his first public appearance. In the above context, consider the following statements:

1. In his speech, Gandhiji accused India's elite of not caring about the working poor.
2. He claimed that our salvation comes only through farmers.
3. It presented Gandhi's desire to make Indian nationalism more representative of the Indian people as a whole.

Which of the above statement is/are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

As the historian Chandran Devanesan has remarked, South Africa was “the making of the Mahatma”. It was in South Africa that Mahatma Gandhi first forged the distinctive techniques of non-violent protest known as satyagraha, first promoted harmony between religions, and first alerted upper-caste Indians to their discriminatory treatment of low castes and women.

Statement 1 is correct: On Gokhale's advice, Gandhiji travelled through British India for a year to get to know the country and its people. His first public appearance was at the opening of his Hindu University (BHU) in Banaras in February 1916. When it was his turn, Gandhiji accused India's elite of not caring about

the working poor. The opening of the BHU, he said, was “certainly a most gorgeous show”. But he worried about the contrast between the “richly bedecked noblemen” present and “millions of the poor” Indians who were absent.

Statement 2 is correct: Gandhiji told the privileged invitees that “there is no salvation for India unless you strip yourself of this jewellery and hold it in trust for your countrymen in India”. “There can be no spirit of self-government about us,” he went on, “if we take away or allow others to take away from the peasants almost the whole of the results of their labor. **Our salvation can only come through the farmer.** Neither the lawyers, nor the doctors, nor the rich landlords are going to secure it.”

Statement 3 is correct: Gandhiji's speech in Banaras in February 1916 was, in a sense, a statement of fact. So Indian nationalism was an elite phenomenon, spawned by lawyers, doctors, and landlords. But on another level, it was also a declaration of intent – **the first official announcement of Gandhi's own desire to make Indian nationalism more representative of the Indian people as a whole.**

Knowledge Base: The India that Mahatma Gandhi came back to in 1915 was rather different from the one that he had left in 1893. Although still a colony of the British, it was far more active in a political sense. The Indian National Congress now had branches in almost all major cities and towns. The Swadeshi movement of 1905-07 it had greatly broadened its appeal among the middle classes. That movement had thrown up some towering leaders – among them Bal Gangadhar Tilak of Maharashtra, Bipin Chandra Pal of Bengal, and Lala Lajpat Rai of Punjab. The three were known as “Lal, Bal, and Pal”, the alliteration conveying the all-India character of their struggle since their native provinces were very distant from one another. Where these leaders advocated militant opposition to colonial rule, there was a group of “Moderates” who preferred a more gradual and persuasive approach.

Pg 347, 348

Q.38) Consider the following pairs:

Struggles	Reason
1. Champaran Satyagraha, 1917.	Peasants were forced to grow indigo under the tinkathia system
2. Kheda Satyagraha, 1918.	The government refused to remit land revenue during draught
3. Ahmadabad Mill Strike, 1918.	Hunger strike by mill owners against the discontinuation of import duties

How many of the pairs given above are correct?

- Only one pair
- Only two pairs
- All three pairs
- None of the pairs

Ans) b

Exp) Option b is the correct Answer.

The initiatives in Champaran, Ahmedabad, and Kheda marked Gandhiji out as a nationalist with a deep sympathy for the poor. At the same time, these were all localized struggles.

Pair 1 is correct: **Champan Satyagraha** of 1917 was against the forced practice of growing indigo on 3/20 part of the total land (**called tinkathia system**). Towards the end of the nineteenth century the European planters demanded high rents and illegal dues from the peasants in order to maximize their profits. Besides, the peasants were forced to sell the produce at prices fixed by the Europeans.

Pair 2 is correct: The farmers of the Kheda district in Gujarat were in distress because of the failure of crops. **The government refused to remit land revenue and insisted on its full collection.** As part of the experiment, Mahatma Gandhi advised the peasants to withhold payment of revenue till their demand for its remission was met. The struggle was withdrawn when it was learned that the government had issued instructions that revenue should be recovered only from those peasants who could afford to pay. Sardar Vallabhbhai Patel became a follower of Gandhiji during the Kheda movement.

Pair 3 is incorrect: Gandhiji's second struggle was at Ahmedabad in 1918 when he had to intervene in a dispute between the workers and the mill owners **over the issue of discontinuation of the plague bonus.** The mill owners wanted to withdraw the bonus. The workers were demanding a rise of 50 per cent in their wages so that they could manage in the times of wartime inflation. He advised the workers to go on strike and demand a 35 percent increase in wages. He undertook a fast unto death to strengthen the workers' resolve to continue the strike. This put pressure on the mill owners who relented on the fourth day and agreed to give the workers 35 percent in wages.

Pg. 349

Q.39) By 1922, Gandhiji transformed Indian nationalism thereby redeeming the promise he made in his Banaras Hindu University speech of February 1916. In light of the above statement, consider the following statements:

1. Gandhi emphasized on becoming self-reliant as he stressed on the significance of wearing khadi.
2. Gandhi made common people believe that they are part of the national movement.

In which of the above ways Gandhi transform the national movement?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) c

Exp) Option c is the correct Answer.

Mahatma Gandhi was profoundly critical of the modern age in which machines enslaved humans and displaced labor. He saw the charkha as a symbol of human society that would not glorify machines and technology. The spinning wheel, moreover, could provide the poor with supplementary income and make them self-reliant.

Statement 1 is correct: The act of spinning allowed Gandhiji to break the boundaries that prevailed within the traditional caste system, between mental labor and manual labor. on the economic front, he emphasizes that Indians had to learn to become self-reliant – hence he stresses on the significance of wearing khadi rather than mill-made cloth imported from overseas.

Statement 2 is correct: It was no longer a movement of professionals and intellectuals; now, hundreds of thousands of peasants, workers, and artisans also participated in it. Many of them venerated Gandhiji, referring to him as their “Mahatma”. They appreciated the fact that he dressed like them, lived like them, and spoke their language. Unlike other leaders, he did not stand apart from the common folk but empathized and even identified with them. This identification was strikingly reflected in his dress: while other nationalist leaders dressed formally, wearing a Western suit or an Indian bandh gala, Gandhiji went among the people in a simple dhoti or loincloth.

Knowledge Base: In 1921, during a tour of South India, Gandhiji shaved his head and began wearing a loincloth in order to identify with the poor. His new appearance also came to symbolize asceticism and abstinence – qualities he celebrated in opposition to the consumerist culture of the modern world.

Pg 352, 253

Q.40) Which of the following is/are threats to the population of *Great Indian Bustard*?

1. Collision with electric wires/lines.
2. Habitat loss due to land use change.
3. Hunting for meat.

Select the correct answer using the code given below:

- a) 1, 2 and 3
- b) 1 and 3 only
- c) 1 only
- d) 2 and 3 only

Ans) a

Exp) Option a is the correct answer.

The great Indian bustard (GIB) is listed in Schedule I of the Wildlife (Protection) Act, 1972, and as Critically Endangered on the IUCN Red List.

Option 1 is correct: The GIB is a **large bird and usually takes low flights**. So, it is **often prone to colliding with manmade objects** such as **high-tension wires at ground level**, or **fast-moving cars** on roads cutting through protected areas. These issues also make their survival very difficult.

Option 2 is correct: **One huge threat to their survival is habitat loss and alteration as a result of widespread land use change**. Changes such as **agricultural expansion** and **mechanized farming, infrastructural development** such as irrigation, roads, electric poles, as well as mining and industrialization have caused this. **Historically**, the great Indian bustard was distributed **throughout Western India**, spanning **11 states**, as well as parts of **Pakistan**. Today, its **population is confined mostly to Rajasthan and Gujarat**.

Option 3 is correct: The **biggest threat** to this species is **hunting**. The **GIB continued to be hunted**, mainly for the **consumption of its meat**.

Source: <https://india.mongabay.com/2018/05/the-great-indian-bustard-stands-on-the-brink-of-extinction/#:~:text=GIB%20has%20consistently-,faced%20threats,-like%20industrialisation%20and>

Q.41) With reference to the book ‘Desh’ written by Sakharam Ganesh Deuskar during the freedom struggle, consider the following statements:

1. It warned against the Colonial State's hypnotic conquest of the mind.
2. It inspired the performance of swadeshi street plays and folk songs.
3. The use of ‘desh’ by Deuskar was in the specific context of the region of Bengal.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) a

Exp) Option a is the correct answer.

Statement 1 is correct and 3 is incorrect. Desher Katha was written by Sakharam Ganesh Deuskar **describing about the commercial and industrial exploitation of India by the Britishers.** His text, titled Desher Katha (Story of the Nation/ Country), warned against the colonial state's 'hypnotic conquest of the mind'. Though the book was written in 1904, it was during anti-partition agitation that it gained wide publicity. Deuskar used desh to mean nation in his book.

Statement 2 is correct. He became a household name during Swadeshi Movement because of the down to earth writing style and inspired many plays and folk songs during Swadesh Movement. **In this book he summarized and popularised the ideas of Dababhai Naoroji, M.G.Ranade, R.C.Dutt and William Digby, and warned in its final chapter against the hypnotic conquest of the mind. The book was proscribed in 1910.**

Source: UPSC 2020

Q.42) In the context of Gandhi's experience in South Africa, consider the following statements:

1. For achieving his political objectives in South Africa, Gandhi solely relied on sending petitions to the authorities.
2. Gandhi discovered that he was able to bring together Indians of various religions and classes.
3. Gandhi's faith in the capacity of the masses to fight was established through his experience in South Africa.

Which of the above statement is/are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 3 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct Answer.

Gandhi returned to India in January 1915 from South Africa. The Indian struggle against imperialism took a decisive turn towards a broad-based popular struggle with the emergence of Gandhi on the Indian political scene. In South Africa Gandhi witnessed the white racism and the humiliation and contempt to which Asians, who had gone to South Africa as laborers, were subjected. He decided to organize the Indian workers to enable them to fight for their rights.

Statement 1 is incorrect: In initial phase (1894-1906) of Gandhi's struggle in South Africa, he relied on sending petitions and memorials to the authorities in South Africa and in Britain. It was in hope that once the authorities were informed of the plight of Indians, they would take sincere steps to redress their grievances as the Indians were, after all, British subjects. The second phase, which began in 1906, was characterized by the use of the method of passive resistance or civil disobedience, which Gandhi named satyagraha.

Statement 2 is correct: Gandhi discovered that the masses have an enormous capacity to participate in and sacrifice for a cause that moves them. Under his leadership, he was able to bring together Indians of various religions and classes, as well as men and women.

He also realized that leaders must sometimes make decisions that are unpopular with their ardent supporters. He was able to develop his own leadership and political style, as well as new techniques of struggle on a small scale, unhindered by the opposition of competing political currents.

Statement 3 is correct: Gandhi through his experience of organizing protests in South Africa learned that the masses had an immense capacity to participate in and sacrifice for a cause that moved them. Thus,

Gandhi's faith in the capacity of the masses to fight was established through his experience in South Africa. He was able to evolve his own style of leadership and politics and techniques of the struggle for mass based from the moderate based struggle of petition and prayers to Gandhian methods of noncooperation, civil disobedience, and persuading by attacking the conscience of the oppressor.

Q.43) With reference to Jallianwala Bagh Incident, consider the following statements:

1. Mahatma Gandhi renounced his 'knighthood' to protest the Jallianwala Bagh Massacre.
2. Saifuddin Kitchlew and Satyapal were arrested immediately after the Jallianwala Bagh incident.
3. People gathered in Jallianwala Bagh to celebrate the Baisakhi festival.

Which of the above statements is/are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 3 only
- d) 1 and 3 only

Ans) c

Exp) Option c is the correct Answer.

The Jallianwala Bagh massacre or the Amritsar massacre of 13th April 1919 accounts for the gruesome execution of hundreds of innocent people on the orders of the Brigadier R.E.H. Dyer.

Statement 1 is incorrect: Jallianwala Bagh became a key point in the history of India's struggle for independence and it is now an important monument in the country. The Bengali poet and Nobel laureate **Rabindranath Tagore renounced the knighthood** that he had received in 1915. Gandhi gave up the title of Kaiser-i-Hind.

Statement 2 is incorrect: Mahatma Gandhi wanted non-violent civil disobedience against such unjust laws, which would start with a hartal on 6th April 1919. In Punjab, on 9th April 1919, two nationalist leaders, Saifuddin Kitchlew and Dr. Satyapal, were arrested by the British officials without any provocation. This caused resentment among the Indian protestors who came out in thousands on 10th April to show their solidarity with their leaders. **Thus, these 2 leaders were arrested before the Jallianwala bagh incident.**

Statement 3 is correct: On Baisakhi day, a large crowd of people mostly from neighbouring villages, gathered in the Jallianwala Bagh, to celebrate the Baisakhi festival. Local leaders had also called for a protest meeting at the venue.

<https://ncert.nic.in/textbook/pdf/lehs304.pdf>

Q.44) The objectives and goals of the Congress had evolved through different phases of the freedom movement in India. In this context, consider the following statements:

1. Congress, in 1906, declared that its goal was attainment of "self-government like the colonies of Australia or Canada."
2. During the Non-Cooperation Movement, the Congress defined Swaraj as 'attainment of dominion status under British crown'.
3. At the Lahore Session of 1929, Complete Independence was declared as the aim of the Congress.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

The word **swaraj** was mentioned frequently during the freedom movements in India but its meaning was not clearly spelt out, which left the field open for differing interpretations. For **Tilak** swaraj meant some sort of **self-government**, while for **Aurobindo** it meant **complete independence** from foreign rule.

Statement 1 is correct: During **Swadeshi movement** that started at 1905, the Indian National Congress (INC) at **Calcutta session**, 1906, declared that the goal of the Indian National Congress was “**self-government or swaraj like the United Kingdom or the colonies of Australia or Canada.**”

Statement 2 is incorrect: In 1920, at the **Nagpur session**, the Congress decided to have the **attainment of swaraj**, but it never defined what swaraj is. Thus, leaving the room for multiple interpretation by the people. Idea of dominion status was not an agenda of Non-Cooperation Movement.

Statement 3 is correct: The following major decisions were taken at the **Lahore Session of Congress of 1929:**

- 1) The Round Table Conference was to be boycotted.
 - 2) **Complete independence was declared as the aim of the Congress.**
 - 3) Congress Working Committee was authorised to launch a programme of civil disobedience including non-payment of taxes and all members of legislatures were asked to resign their seats.
 - 4) January 26, 1930 was fixed as the first Independence (Swarajya) Day, to be celebrated everywhere
- Source: Spectrum the brief history of modern India pg no: 264, 272, 366

Q.45) With reference to ‘Monkey Pox’, consider the following statements:

1. It is a viral zoonotic disease that is transmitted from infected animals to humans.
2. It occurs only in the higher latitude boreal forests of Temperate regions.
3. It can be treated as well as prevented by a vaccine developed by Bharat Biotech.
4. It was declared as a 'public health emergency of international concern' in the recent past.

Which of the statements given above are correct?

- a) 1 and 4 only
- b) 1 and 3 only
- c) 3 and 4 only
- d) 1, 2 and 4 only

Ans) a

Exp) Option a is the correct answer.

Recently, over 16,000 cases of Monkeypox were reported from 75 countries. Therefore, the WHO has declared Monkeypox a **public health emergency of international concern (PHEIC)**.

Statement 1 is correct: Monkeypox is a **viral zoonotic disease** (a disease that is transmitted from infected animals to humans). It was **first Discovered in 1958** following two outbreaks of a pox-like disease in colonies of monkeys kept for research – which led to the name ‘monkeypox’.

Statement 2 is incorrect: Monkeypox is a viral zoonotic disease that occurs primarily in **tropical rainforest areas of Central and West Africa** and is occasionally exported to other regions. Monkeypox belongs to the **orthopoxviral**, which is a genus of viruses that also includes the variola virus which causes smallpox.

Statement 3 is incorrect: There is **no safe, proven treatment for monkeypox yet**. The WHO recommends supportive treatment depending on the symptoms. Awareness is important for the prevention and control of the infection.

Statement 4 is correct: In July 2022, the World Health Organisation has declared the global monkeypox outbreak a 'public health emergency of international concern' (PHEIC).

A Public Health Emergency of International Concern (PHEIC) is the **WHO's highest alert level**. It is part of the international health regulations (IHR) which have been the governing framework for global health security since 2007. The WHO defines PHEIC as an **extraordinary event** which is determined to constitute a **public health risk to other states through the international spread of disease** and potentially requires a coordinated international response. The WHO reserves the designation for **only those diseases that need a coordinated international response** to prevent them from potentially escalating into a pandemic. The alert has previously been issued for Ebola, H1N1 Swine Flu, Poliovirus, Covid-19 and Zika Virus.

Knowledge Base:

- 1) **Source of Transmission of Monkey Pox:** Human-to-human transmission is very limited. However, transmission, when it occurs, can be through contact with bodily fluids, lesions on the skin or on internal mucosal surfaces, such as in the mouth or throat, respiratory droplets and contaminated objects.
- 2) **Symptoms:** It begins with a fever, headache, muscle aches, backache, and exhaustion. It also causes the lymph nodes to swell (lymphadenopathy), which smallpox does not.

Monkeypox & Human Folly -ForumIAS Blog

Q.46) Which of the following statements is/are true with reference to the region-specific activities during Non-Cooperation movement?

1. Defiance of forest laws became popular mode of struggle in Andhra Pradesh.
2. The Akalis in Punjab protested violently during Non-Cooperation movement.
3. J M Sengupta led a strike against the British in Assam-Bengal region.
4. The peasants and tribals in some part of Rajasthan actively participated in the movement.

Select the correct answer using the code given below:

- a) 1 and 2 only
- b) 1 and 4 only
- c) 1, 3 and 4 only
- d) 1, 2, 3 and 4

Ans) c

Exp) Optio c is the correct answer.

Statement 1 is correct: In Andhra Pradesh, the **defiance of forest laws** became popular way of protest against British during the Non-Cooperation Movement.

Statement 2 is incorrect: In Punjab, the **Akali Movement for taking** control of the gurudwaras from the corrupt mahants (priests) was a part of the general movement of Non-cooperation, and the Akalis **observed strict non-violence** in the face of tremendous repression.

Statement 3 is correct: **Jatindra Mohan Sengupta** (1885 – 1933) was an Indian revolutionary against British rule. a member of the Indian National Congress and participating in the Non-Cooperation Movement. Eventually, **he gave up his legal practice in favour of his political commitment** especially for the Non-cooperation movement. **He led a protest against the British in Assam Bengal area** when the fleeing tea plantation labourers were shot.

Statement 4 is correct: **Peasants and tribals in some parts of the Rajasthan began movements for securing better conditions of life.** In the Avadh area of U.P., where kisan sabhas and a kisan movement had been gathering strength since 1918 and with Non-cooperation propaganda it became difficult to distinguish between a Non-cooperation meeting and a kisan meeting.

Q.47) With reference to the Sedition Committee of 1917, consider the following statements:

1. It was presided over by Justice Rowlatt.
2. Mohammed Ali Jinnah supported the recommendations of this committee.
3. Following this committee's recommendation, the seditious provisions were used by the British against Indians for the first time.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 and 3 only
- c) 3 only
- d) 1, 2 and 3

Ans) a

Exp) Option a is the correct answer.

Statement 1 is correct: The **Sedition Committee Report** was prepared in **1919** by a committee presided over by **Justice Rowlatt** to inquire into the revolutionary activities in India. The committee recommended the stringent control of the press, the summary trial of political offenders by judges without trial, and the internment of persons suspected of subversive aims. The official majority passed the Bills into law in spite of the opposition of the people.

Statement 2 is incorrect: All the elected Indian members of the Imperial Legislative Council voted against the bill but they were in a minority and easily overruled by the official nominees. **All the elected Indian members**—who included **Mohammed Ali Jinnah, Madan Mohan Malaviya and Mazhar Ul Haq** – resigned in protest.

Statement 3 is incorrect: For the first-time sedition was widely used by the British to deal with **increasing Wahabi activities in India (and not after the recommendation of Sedition committee)** as they posed a challenge to the British Colonial Government.

The British also introduced the term “sedition” in the Indian Penal Code, 1870, to treat any speech that attempted to excite disaffection towards the government. **The Wahabi movement was led by Syed Ahmed Barelvi.** The movement was active **since 1830s**, but in the wake of **1857 revolt, it turned into an armed resistance, a Jihad against the British.** Subsequently, the British treated Wahabis as traitors and rebels, and carried out extensive military operations against them. The movement was **fully suppressed after 1870.**

https://en.banglapedia.org/index.php?title=Sedition_Committee_Report

Q.48) Which of the following were the original programmes adopted by the Non-Cooperation Movement in 1920?

1. Boycott of government schools.
2. Boycott of courts of law and dispensation of justice through panchayats instead
3. Boycott of legislative council
4. Resignation from government service
5. Temple entry to defy untouchability
6. Renunciation of Government honours and titles

Select the correct answer using the code given below:

- a) 1, 2, 4, 5 and 6 only
- b) 1, 2, 3 and 4 only
- c) 1,2, 3, 4 and 6 only
- d) 1, 2, 3, 4, 5 and 6

Ans) c

Exp) Option c is the correct answer

In 1920 at a **special session in Calcutta**, the Congress approved a **non-cooperation programme till the Punjab and Khilafat wrongs were removed and swaraj was established**. The programme was to include–
(Option 1,2,3,4 and 6 are correct)

- 1) boycott of government schools and colleges
- 2) boycott of law courts and dispensation of justice through panchayats instead;
- 3) boycott of legislative councils
- 4) boycott of foreign cloth and use of khadi instead and practice of hand-spinning to be done;
- 5) renunciation of government honours and titles
- 6) mass civil disobedience including resignation from government service, and non-payment of taxes.
- 7) People were asked to give up Untouchability and practise Hindu Muslim unity and observe strict nonviolence.

Gandhi promised that if the programme was **fully implemented, swaraj would be ushered in within a year**. The **Indian National Congress session at Nagpur** committed congress to a programme of **extra constitutional mass action**.

Option 5 is incorrect: Although the movement asked the people to give up the practise of Untouchability, the movement did not include the programme of **entering temple to fight untouchability**. **Temple entry movement started in 1924, the Vaikom Satyagraha led by K.P. Kesava**, was launched in Kerala demanding the throwing open of Hindu temples and roads to the untouchables. The satyagraha was reinforced by jathas from Punjab and Madurai. **Gandhi undertook a tour of Kerala in support of the movement**.

Source: Bipin Chandra India's Struggle for Independence (pg no 186,188)

Q.49) With reference to the characteristics of the Non-Cooperation movement in India, consider the following statements

1. The highly centralised approach was adopted by leaders throughout the movement to guide people.
2. The movement insisted the renunciation of violence by the protestors even against their oppressor.
3. For the first time, the INC was ready to forego constitutional means to achieve self-rule.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 1 and 3 only
- c) 2 and 3 only
- d) 1, 2 and 3 only

Ans) c

Exp) Option c is the correct answer.

Statement 1 is incorrect: The movement followed a **decentralised approach**. The congress had granted the **permission to the Provincial congress committees (PCC) to sanction mass civil disobedience movement** wherever they thought the people were ready and in some areas such as Midnapur in Bengal people started a movement against Union Board taxes.

Statement 2 is correct: The **Non-cooperation movement time and again stated that people participating in this movement should renounce all forms of violence**. In fact, in February 1922, following a **violent episode in Chauri Chaura**, in the United Provinces where police station was set on fire, **Gandhiji called off the movement altogether**.

Statement 3 is correct: The non-cooperation movement was a decisive step in the independence movement because, for the first time, the INC was ready to forego constitutional means to achieve self-rule.

<https://gacbe.ac.in/pdf/ematerial/18BHI33C-U5.pdf>

Q.50) With reference to 'Azores High', consider the following statements:

1. It is a subtropical high-pressure cell that moves westward during the summer.
2. It results into abnormally wet conditions across western coast of Australia.
3. It is associated with anti-cyclonic winds in the subtropical North Atlantic.

Which of the statements given above is/are correct?

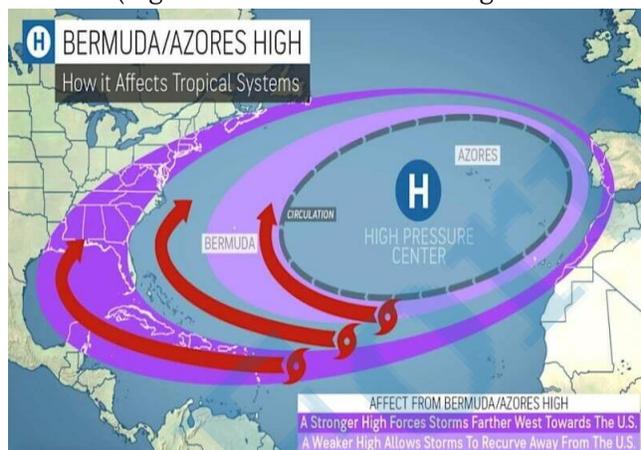

- a) 1 only
- b) 2 only
- c) 1 and 3 only
- d) 2 and 3 only

Ans) c

Exp) Option c is the correct answer.

The question is based on the article “**Extremely dry winter in Western Mediterranean due to expansion of ‘Azores High’**” published in **Down To Earth** on **11th July 2022**. A study has revealed that an **extremely large ‘Azores High’** has resulted in abnormally dry conditions across the western Mediterranean, including the Iberian Peninsula primarily occupied by Spain and Portugal.

Statement 1 is correct: The **Azores High** is also known as North Atlantic (Subtropical) High/Anticyclone or the Bermuda-Azores High. It is a **subtropical high-pressure cell** that moves **westward during the summer** and fall when it is known as the Bermuda high. It is a large subtropical semi-permanent centre of high atmospheric pressure system typically found south of the Azores in the Atlantic Ocean, at the Horse latitudes (regions located at about 30 degrees north and south of the equator).

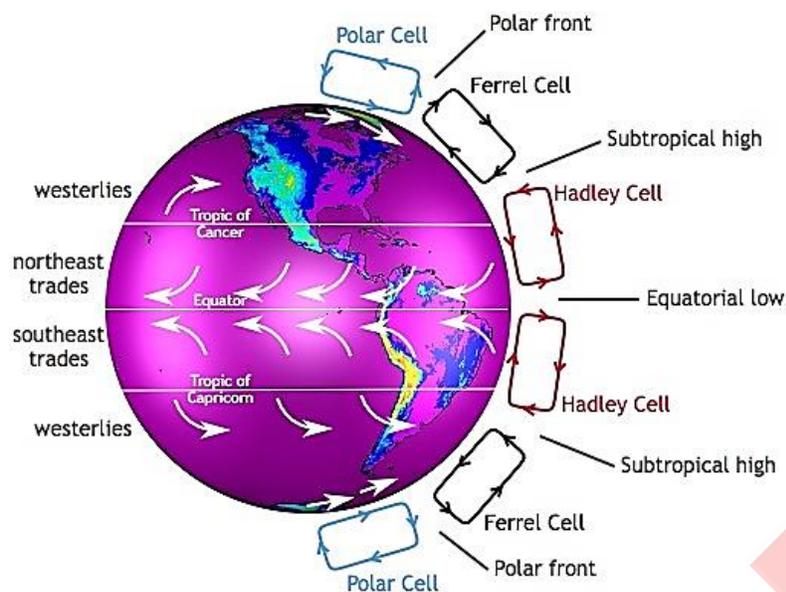

Statement 2 is incorrect: **Azores High** is often associated with **warm humid weather** in the **eastern United States** during the summer months. It extends over the **eastern subtropical North Atlantic and Western Europe** during winter. This system influences the weather and climatic patterns in the regions of **North Africa and Southern Europe**, and to some extent, eastern North America. Extremely large ‘**Azores High**’ **results in abnormally dry conditions across the western Mediterranean** including the Iberian Peninsula primarily occupied by Spain and Portugal.

Statement 3 is correct: **Azores High** is associated with **anti-cyclonic winds in the subtropical North Atlantic**. It is formed by dry air descending the subtropics and coincides with the downward branch of the Hadley Circulation.

Knowledge Base:

What is Hadley Cell?

Hadley Cells are the **low-latitude overturning circulations** that have air rising at the equator and air sinking at roughly 30° latitude. They are responsible for the trade winds in the Tropics and control low-latitude weather patterns.

Source: Extremely dry winter in Western Mediterranean due to expansion of 'Azores High' -ForumIAS Blog
weather | Britannica

Q.1) With reference to the British colonial rule in India, consider the following statements:

1. Mahatma Gandhi was instrumental in the abolition of the system of 'indentured labour'.
2. In Lord Chelmsford's 'War Conference', Mahatma Gandhi did not support the resolution on recruiting Indians for World War.
3. Consequent upon the breaking of Salt Law by Indian people, the Indian National Congress was declared illegal by the colonial rulers.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 1 and 3 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

Indian immigration to South Africa had begun in 1890 when the White settlers recruited indentured Indian labour, mainly from South India, to work on the sugar plantations. They faced racial discrimination in South Africa.

Statement 1 is correct. During the early 1900s, Gandhi was instrumental in getting the indentured labour system abolished in the British Empire through the use of the method of passive resistance or civil disobedience, named Satyagraha.

Statement 2 is incorrect. The Viceroy of India Lord Chelmsford, invited various Indian leaders to attend a War conference during World War I. Gandhi accepted the invitation and went to Delhi. Gandhi was not happy that leaders like Tilak or the Ali brothers had not been invited to the conference. After meeting the Viceroy, who was very keen that Gandhi should support the resolution on recruiting, Gandhi **supported the government's resolution on recruiting.**

He believed that whole-hearted co-operation with the government will bring India within sight of goal of Swaraj as nothing else will.

Statement 3 is correct. Gandhiji began his salt march from Ahmedabad to Dandi on 12th March 1930. Gandhi and his selected followers reached Dandi beach and broke the salt law by picking up salt left on the shore by the sea.

Gandhi then gave a signal to all Indians to manufacture salt illegally. He wanted the people to break the salt law openly and to prepare themselves for non-violent resistance to police action.

The Government waited for some time before taking any action, and then at last retaliation began. Gandhi was left at liberty, but many other leaders were taken into custody. In dealing with the breakers of the salt law, the police resorted to their usual brutal methods and **The Indian National Congress was declared illegal.**

Source) UPSC 2019

Q.2) With reference to the Indian Statutory Commission of 1927, consider the following statements:

1. It was headed by Lord Birkenhead.
2. It was constituted to enquire and study the working of the government of India act of 1919.
3. It recommended abolition of dyarchy in provinces and establishing representative government instead.
4. The Commission recommended Dominion status for India.

Which of the statements given above is/are correct?

- a) 1, 2 and 3 only
- b) 2 and 4 only
- c) 2 and 3 only
- d) 1, 3 and 4 only

Ans) c

Exp) Option c is the correct answer.

Statement 1 is incorrect. The Indian Statutory Commission is popularly known as the Simon Commission. The commission consisted of seven members—four Conservatives, two Labourites, and one Liberal under the **joint chairmanship of the Liberal lawyer, Sir John Simon, and Clement Attlee, the future prime minister.** It was appointed in November 1927 by the British Conservative government under the Prime Minister, Stanley Baldwin. The commission was **appointed by Lord Birkenhead** after stating the incapability of Indians to take or form any constitutional reforms scheme.

Statement 2 is correct. The Simon Commission was formed to report on the working of the Indian constitution established by the **Government of India Act of 1919.** It was formed to suggest, whether & what extent it was advisable to expend restrict or modify the degree of responsible government introduced in India by act 1919.

Statement 3 is correct. The Simon Commission recommended the **abolition of dyarchy in provinces and establishing a representative government** in provinces and providing them with enough autonomy. But the British governors of provinces were allowed to retain much of their emergency powers, hence this recommendation on the economy holds very little relevance.

Statement 4 is incorrect. The Simon Commission Report did not recommend providing dominion status to India.

Source: <https://egyankosh.ac.in/bitstream/123456789/44321/3/Unit-16.pdf>
SPECTRUM (CH-SIMON COMMISSION)

Q.3) Which of the following are the recommendations of Simon Commission?

1. Parliamentary Responsibility at the centre
2. Establishment of Consultative councils for greater India
3. Separation of Sindh province from Bombay
4. Unitary structure for Indian Government

Select the correct answer using the code given below.

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 4 only
- d) 3 and 4 only

Ans) b

Exp) Option b is the correct answer.

The Simon Commission which was dispatched to India in 1928 to review the Government of India Act 1919 came up with the two-volume report in May 1930 that made certain recommendations on constitutional framework of India.

Statement 1 is incorrect. The Simon Commission report **rejected parliamentary responsibility at the centre.** The Government of India had complete control over the high court whereas the Governor-General was to have complete power to appoint the members of the cabinet.

Statement 2 is correct. The Simon Commission had stated that in order to cope with the diversity of the country the ultimate character of the Indian government had to be federal. It suggested that a **Consultative Council for Greater India** should be established which should include the representatives of both the British provinces as well as princely states.

Statement 3 is correct. The Commission recommended that the **Sindh should be separated from Bombay** because it is not a natural part of the Indian subcontinent. This recommendation was later implemented

by **the Government of India Act 1935 that** made the Bombay Presidency into a regular province and made Sindh a separate province.

Statement 4 is incorrect. The Simon Commission stated that in order to cope with the diversity of the country the ultimate character of the **Indian government had to be federal**. It did not recommend a unitary form of government. It sought to retain direct contact between the British crown and the Indian states.

SPECTRUM (CH-SIMON COMMISSION)

Q.4) With reference to the All-Parties Conference of 1928, consider the following statements:

1. It constituted a committee under Motilal Nehru to draft the Indian Constitution.
2. It adopted a resolution on National Economic Programme.
3. The Muslim league boycotted and did not attend the conference.

Which of the statements given above is/are correct?

- a) 1 and 3 only
- b) 2 and 3 only
- c) 1 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

The all-parties Conference that met in February 1928 has representatives of Congress and of other organisations such as Muslim League, Hindu Mahasabha, etc. This Conference was presided over by Dr. M.A. Ansari.

Statement 1 is correct and 3 is incorrect. In response to Simon Commission, a Working Committee was set up under the **chairmanship of Motilal Nehru** to prepare a constitution for India in consultation with other organisations.

This Committee comprises the congress representatives as well as representatives of other organizations such as the **Muslim League, Hindu Mahasabha, etc.** met at a conference in February 1928 that came to be known as the **All-Parties Conference**.

Statement 2 is incorrect. The resolution on the **National Economic Programme** was **adopted in the Karachi session of the Indian National Congress in 1931**. The resolution included an about-substantial reduction in rent and revenue in the case of landholders and peasants; exemption from rent for uneconomic holdings; relief from agricultural indebtedness; better conditions of work including a living wage, limited hours of work and protection of women workers in the industrial sector; right to workers and peasants to form unions; state ownership and control of key industries, mines and means of transport etc.

Knowledge Base: The All-parties conference **demanding for full Dominion Status** and had **provisions for having responsible government at the Centre and in the provinces**. This was later incorporated in the suggestion of Nehru Report that the Indian Parliament at the Centre should consist of a 500-member House of Representatives elected based on adult suffrage with a tenure of 5 years, a 200-member Senate be elected by provincial councils with one of 7 years. The central government will be headed by a governor-general will be appointed by the British government but will be paid out of the Indian revenues, who would act on the advice of the central executive council responsible to the Parliament. Whereas, the Provincial councils will have a 5-year tenure, headed by a governor acting on the advice of the provincial executive council

SPECTRUM (CH-SIMON COMMISSION;CDM)

Q.5) Which of the following statements regarding the Flag Code of India, seen in news recently, is correct?

- The national flag must be made exclusively from handmade/ spun fabric.
- The national flag can be displayed by the general public only on Republic Day & Independence Day.
- The national flag must never be burned or buried.
- The national flag cannot be worn as a part of any costume below the waist.

Ans) d

Exp) Option d is the correct answer.

The Flag Code of India, 2022 laid down rules on how to use, display and hoist the national flag. It took effect on 26 January 2022. The instructions regarding the National Flag are contained in the Flag Code of India 2002 and upheld by the Prevention of Insults to National Honour Act, 1971.

Statement a is incorrect: Earlier the tricolour used to be made **exclusively out of hand spun material** using hand making techniques. However, in **recent amendments (December 2021)**, the **machine production** of the tricolour was **allowed**. It allowed the national flag to be made of **polyester or stitched using machines**. Now, the Tricolour can be made of **hand-spun, hand-woven or machine-made cotton, polyester, wool, silk and khadi bunting**.

Statement b is incorrect: The tricolour **may be displayed by any organisation or any member of the general public on any special occasion**, such as the Republic or Independence Day, **or any ordinary day as well**. The only caveat is that they must ensure that **all rules for ensuring the respect and dignity** of the flag are **maintained**.

Statement c is incorrect: The **Code permits the burning or burial** of the tricolour, in order to **dispose of it**, if it has been **badly damaged**. Although it is encouraged to store the flags properly, in case they have been damaged **beyond repair** due to some reason, they may be disposed of by **burning, but only in private in a dignified manner**. They may also be **disposed of by burial**, but only **after being folded properly and being placed in a wooden box**.

Statement d is correct: The code **prohibits the use of the national flag “as a portion of costume or uniform”**. It **cannot be used as an accessory to be worn below the waist** of any person “nor shall it be embroidered or printed on cushions, handkerchiefs, napkins, undergarments or any dress material.

Knowledge Base:

The flag can be as big or small as one wants “but the ratio of the length to the height (width) of the National Flag shall be 3:2. The flag must always be a rectangle rather than square or any other shape.

It is against rules to display a damaged or dishevelled National Flag

No other flag or bunting shall be placed higher than or above or side by side with the National Flag; nor shall any object including flowers or garlands, or emblem be placed on or above the flag mast from which the National Flag is flown”. The Tricolour should never be used as a festoon, rosette, bunting or for a decorative purpose. No advertisements should be festooned to the pole from which it flies.

The National Flag cannot be flown on any vehicle except those of the President, Vice President, Prime Minister, Governor and other dignitaries. The flag should also not be used to cover the sides, back, and top of any vehicle.

People, who are waving flags made of paper, should not throw these on the ground after the ceremony. The flag “shall not be allowed to touch the ground or the floor or trail in the water.

Q.6) Consider the following pairs:

List I	List II
National movements	Began during the Viceroyship of
1. Non-Cooperation movement	Lord Chelmsford
2. Civil disobedience movement	Lord Irwin
3. Quit India movement	Lord Wavell

How many pairs mentioned above are correct?

- Only one pair
- Only two pairs
- All the three pairs
- None of the pairs

Ans) b

Exp) Option b is the correct answer.

Pair 1 is correct: Lord Chelmsford served as Governor General and Viceroy of India from 1916 to 1921. **It was during the time of Lord Chelmsford, the Khilafat movement and Non-Cooperation Movement began. The withdrawal of Non-Cooperation Movement took place during the tenure of Lord Reading.**
