QUES + ANSWER

(English Medium)

 **ForumIAS**

Q.1) Which of the following provisions of the Indian Constitution shows that India is a Secular State?

1. The State shall endeavour to secure for all the citizens a Uniform Civil Code.
2. Religious instructions shall be provided in educational institution maintained by the State.
3. Religious denomination shall have the right to manage its own religious affairs.
4. Citizens shall not be discriminated on ground of religion in respect of employment under the State.

Select the correct answer using the code given below:

- a) 1, 2 and 3 only
- b) 3 and 4 only
- c) 1, 3 and 4 only
- d) 1 and 4 only

Ans) c

Exp) Option c is the correct answer.

The Constitution of India stands for a Secular State. Hence, it does not uphold any particular religion as the official religion of the Indian State. The following provisions of the Constitution reveal the secular character of the Indian State:

Statement 1 is correct: The Article 44, provides for the State to secure for all the citizens a Uniform Civil Code. It indicates that India is a Secular state.

Statement 2 is incorrect: Article 28 provides that **no religious instruction shall be provided in any educational institution maintained by the State.** Also, Article 27 provides that no person shall be compelled to pay any taxes for the promotion of a particular religion.

Statement 3 is correct: According to Indian Constitution, every person has the right to freely profess, practice and propagate any religion. They are also equally entitled to freedom of conscience. **The Article 26 of Indian Constitution talks about the religious denomination and ensures their rights to manage its own religious affairs. Article 26 reflects secular character of Indian Constitution.**

Statement 4 is correct: Article 16 of the Indian Constitution provides that there shall be **equality of opportunity for all citizens** in matters relating to **employment or appointment** to any office under the State. Article 16 (2) says that No citizen shall, on grounds only of religion, race, caste, sex, descent, place of birth, residence or any of them, be ineligible for, or discriminated against in respect or, any employment or office under the State". It indicates secular character of Indian Constitution.

Q.2) Consider the following pairs with reference to the First Cabinet of Independent India (1947):

Member	Portfolio
1. Jawaharlal Nehru	Home Affairs
2. Sardar Vallabhbhai Patel	Information and Broadcasting
3. Rajkumari Amrit Kaur	Health
4. Dr. Rajendra Prasad	Education

Which of the pairs given above are correct?

- a) 1, 2 and 3 only
- b) 2 and 3 only
- c) 1 and 4 only
- d) 1, 2, 3 and 4

Ans) b

Exp) Option b is the correct answer.

At the stroke of midnight of 14-15 August, 1947, the British rule came to an end and power was transferred to the two new independent Dominions of India and Pakistan. Jawaharlal Nehru became the first Prime Minister of independent India and the new Cabinet started functioning from August 15, 1947.

Pair 1 is incorrect. Home Affairs was under the charge of **Sardar Vallabhbhai Patel (not Jawaharlal Nehru)**. Jawaharlal Nehru was the first Prime Minister and in charge of External Affairs and Commonwealth Relations; Scientific Research.

Pair 2 is correct. Sardar Vallabhbhai Patel was in charge of Home; Information and Broadcasting; States.

Pair 3 is correct. Rajkumari Amrit Kaur was given the 'Health' portfolio.

Pair 4 is incorrect. **Maulana Abul Kalam Azad was given the charge of Education** while Dr Rajendra Prasad had Food and agriculture portfolio.

Knowledge Base:

Other Members and their portfolios:

- 1) Dr John Matthai: Railways and Transport.
- 2) Sardar Baldev Singh: Defence.
- 3) Shri Jagjivan Ram: Labour.
- 4) Mr C.H. Bhabha: Commerce.
- 5) Mr Rafi Ahmad Kidwai: Communications.
- 6) Dr B.R Ambedkar: Law.
- 7) Shri R.K. Shanmukham Chetty: Finance.
- 8) Dr. Syama Prasad Mukherji: Industries and Supplies.
- 9) Shri N. V. Gadgil: Works, Mines and Power.

Source: Indian Polity, M. Laxmikanth, Chapter-1

Q.3) Consider the following statements:

1. The Act dropped the title of Emperor of India from the royal titles of the King of England.
2. The Act ended the British rule in India and declared India as an independent and sovereign state.
3. The Act provided for the appointment of some civil servants by the Secretary of State for India.

Which of the above statements is/are correct about the Indian Independence Act of 1947?

- a) 1 only
- b) 1 and 2 only
- c) 2 and 3 only
- d) 1 and 3 only

Ans) b

Exp) Option b is the correct answer.

On February 20, 1947, the British Prime Minister Clement Atlee declared that the British rule in India would end by June 30, 1948; after which the power would be transferred to responsible Indian hands. On June 3, 1947, Lord Mountbatten, the viceroy of India, put forth the partition plan, known as the Mountbatten Plan. The plan was accepted by the Congress and the Muslim League. **Immediate effect was given to the plan by enacting the Indian Independence Act.**

Statement 1 is correct: The act dropped the title of 'Emperor of India' from the royal titles of the king of England. It proclaimed the lapse of British paramountcy over the Indian princely states and treaty relations with tribal areas from August 15, 1947.

Statement 2 is correct: The act ended the British rule in India and declared India as an independent and sovereign state.

Statement 3 is incorrect: The act **abolished the office of the secretary of state for India**. It discontinued the appointment to civil services and reservation of posts by the secretary of state for India. The members of the civil services appointed before August 15, 1947 would continue to enjoy all benefits that they were entitled to till that time.

Knowledge Base:

Other provisions of Indian Independence Act of 1947:

- 1) It provided for the partition of India and creation of two independent dominions of India and Pakistan with the right to secede from the British Commonwealth.
- 2) It abolished the office of viceroy and provided, for each dominion, a governor-general, who was to be appointed by the British King on the advice of the dominion cabinet. His Majesty's Government in Britain was to have no responsibility with respect to the Government of India or Pakistan.
- 3) It empowered the Constituent Assemblies of the two dominions to frame and adopt any constitution for their respective nations and to repeal any act of the British Parliament, including the Independence act itself.
- 4) It empowered the Constituent Assemblies of both the dominions to legislate for their respective territories till the new constitutions were drafted and enforced. No Act of the British Parliament passed after August 15, 1947 was to extend to either of the new dominions unless it was extended thereto by a law of the legislature of the dominion.

Source: Laxmikanth

Q.4) With reference to the Citizenship Act of 1955, consider the following statements regarding the loss of citizenship:

1. Termination of citizenship takes place when a person renounces it by making a declaration to the Central Government.
2. The Central Government can deprive a person of his/her citizenship if he/she has shown disloyalty to the Constitution of India.
3. Termination of citizenship takes place automatically even if a person acquires citizenship of another country under undue influence.

Which of the statements given above is/ are correct?

- a) 1 and 2 only
- b) 2 only
- c) 1 and 3 only
- d) 2 and 3 only

Ans) b

Exp) Option b is the correct answer.

Citizenship Amendment Act, 1955 classifies loss of citizenship under three categories i.e., loss of citizenship by renunciation, termination and deprivation.

Statement 1 is incorrect: When a citizen of full age and capacity makes a declaration for renunciation of his citizenship to the Central Government, it is called as loss of citizenship by **renunciation** and **not by termination**. The person ceases to be a citizen when such a declaration is registered by the government.

Statement 2 is correct: Central Government, by an order, can deprive a citizen of India from the Indian citizenship if the person has shown disloyalty to the Constitution of India.

Statement 3 is incorrect: The Citizenship Act, 1955 provides for **automatic termination** of citizenship if a person **voluntarily** acquires citizenship of some other country. It should be noted that the person while doing so **must act voluntarily**. It should **not be under duress, undue influence or compulsion**. Further, this provision of automatic termination of citizenship does not apply during any war in which India is engaged. Source: M Laxmikanth (Chapter 6); <https://indiankanon.org/doc/305990/>

Q.5) Which of the following economic conditions is least likely to result in Subnational Bankruptcy?

- Provision of political election freebies.
- Large reduction in government revenues
- Increase in tax to GDP ratio.
- Economic slowdowns as observed during Covid 19 pandemics.

Ans) c

Exp) Option c is the correct answer.

Sub-national Bankruptcy, also known as sub-national insolvency, refers to **fiscal crisis where the state/local government loses market access or faces rising financing costs that undermine its capacity to deliver essential services.**

There are various reasons which alone or in combination may lead to rising risk of national/subnational bankruptcy.

- Provisioning of political election freebies or revdi culture.**
- Wilful unwillingness from the state to make tough budgetary choices.**
- Erosion of autonomous fiscal space due to GST,**
- Loss of revenue or economic shutdowns as observed during COVID 19 pandemic.**

On the other hand, **increase in tax to GDP ratio may result in rise of state revenue**, which may help state avoid the risk of bankruptcy/insolvency.

Q.6) Consider the following statements regarding the Second Schedule and the Third Schedule of Indian Constitution:

- Both the second and third schedules contains provision related to Vice President.
- The President and the Governor of states are included only in Second Schedule and not in the Third Schedule.
- The Comptroller and Auditor General of India is included in both the Schedules.
- Both the Schedules can be amended by a simple majority of the Parliament.

Which of the statements given above are correct?

- 1, 2 and 3 only
- 3 and 4 only
- 1 and 4 only
- 2, 3 and 4 only

Ans) d

Exp) Option d is the correct answer.

When the Indian Constitution was adopted in 1949, it consisted of 8 Schedules. Now, the Indian Constitution is divided into 12 schedules.

Statement 1 is incorrect: The Vice President is not included in third schedule. The **Third Schedule** contains the forms of oath and affirmation to be taken by various persons.

The Chairman (Vice President) and the Deputy Chairman of the Rajya Sabha are mentioned in schedule. The **Second Schedule** deals with the provisions relating to the emoluments, allowances, privileges, etc.

Statements 2 is correct: The President and the Governor of states are **included only in second Schedule** and not in third schedule. Article 60 and Article 159 of the Indian Constitution provides for the provision of oath or affirmation by the President and Governor respectively.

Statements 3 is correct: The **Comptroller and Auditor General of India** is the head of the Indian audit & account department. He is also the chief Guardian of public purse. **The CAG is included in both the 2nd and 3rd schedule of the Indian Constitution.**

Statement 4 is correct: **The amendment to the second and third schedule is done by Simple Majority** of the two houses of Parliament outside the scope of Article 368.

Knowledge Base:

- 1) The **Second Schedule** deals with the provisions relating to the emoluments, allowances, privileges and so on of the President of India, Governors of Indian States, Speaker of Lok Sabha & Deputy Speaker of Lok Sabha, Chairman of Rajya Sabha & Deputy Chairman of Rajya Sabha, Speaker and Deputy Speaker of Legislative Assemblies of Indian States, Chairman and Deputy Chairman of Legislative Councils of the Indian States, Supreme Court and High Court Judges and Comptroller & Auditor General of India (CAG)
- 2) The **Third Schedule** contains the forms of oath and affirmation for Union Ministers of India, Parliament Election Candidates, Members of Parliament (MPs), Supreme Court Judges, Comptroller and Auditor General, State Ministers, State Legislature Elections Candidates, State Legislature Members and High Court Judges.

Source: Chapter 3 and 10 of M. Laxmikant

Q.7) Consider the following statements:

1. The Constitution explicitly empowers only the President of India to notify rules for all the matters relating to citizenship.
2. The Freedoms under Article 19 of the Constitution are available only to citizens and not to non-citizens.
3. Only an Indian citizen can become a Judge of the Supreme Court.
4. A person is not eligible to be appointed as the President of India if he has acquired citizenship by naturalization.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 4 only
- d) 2, 3 and 4 only

Ans) b

Exp) Option b is the correct answer.

Statement 1 is incorrect: **Articles 5 to 11 under Part II of the Indian Constitution** deals with the provisions relating to the citizenship matters. These provisions only provide for the persons who can become citizen at the time of the commencement of the Constitution. **It does not deal with acquisition (other than at the time of commencement of the Constitution) or loss of citizenship.** Accordingly, it **empowers Parliament** to enact law for the matters relating to citizenship. Parliament has enacted laws **like Citizenship Act, 1955** in this regard. Hence, the constitution does not explicitly empower the President to make rules pertaining to citizenship in India.

Statement 2 is correct: **Article 19 deals with six freedoms**- freedom of speech and expression, association, assembly, residence, movement and profession. These fundamental rights are **available only to the citizens of India and not to the aliens.** Hence, the given statement is correct.

Other fundamental rights which are available only to the citizens include:

Article 15: Right against discrimination on grounds of religion, race, caste, sex or place of birth.

Article 16: Right to equality of opportunity in the matters of public employment.

Article 29: Protection of language, script and culture of minorities

Article 30: Right of minorities to establish and administer educational institutions.

Statement 3 is correct: Article 124(3) expressly provides that **only a citizen of India can be appointed as the Judge of Supreme Court**. Besides these provisions, there are various offices to which only an Indian citizen can be appointed. These include office of **President and Vice-President of India, Judges of High Courts, Governor of states, Attorney General of India and Advocate General of States**.

Statement 4 is incorrect: As far as citizenship is concerned for the office of the President of India, **the only condition is that he should be a citizen of India**. Hence, **citizens by birth or by naturalization- both are eligible for the office of President**. Naturalization means granting citizenship by Central Government to a person (not being an illegal migrant) on meeting certain conditions. **Hence, the given statement is incorrect.**

Source: Laxmikanth

Q.8) With reference to 'Fundamental Rights', which of the following statements is/are correct?

1. They are sacrosanct and cannot be amended by the parliament.
2. They acts as a restriction to the ideal of political democracy.
3. They are guaranteed and protected by the Constitution of India.

Select the correct answer using the code given below.

- a) 1 and 2 only
- b) 2 only
- c) 1 and 3 only
- d) 3 only

Ans) d

Exp) Option d is the correct answer.

The Fundamental Rights are enshrined in Part III of the Constitution from Articles 12 to 35. They are not absolute but qualified. The state can impose reasonable restrictions on them.

Statement 1 is incorrect: Fundamental rights **can be amended by the Parliament by a constitutional amendment** but only if the amendment does not alter the basic structure of the Constitution. The Fundamental Rights **prevent** the establishment of an **authoritarian and despotic rule** in the country, and protect the liberties and freedoms of the people against the invasion by the State. They operate as **limitations on the tyranny of the executive** and arbitrary laws of the legislature.

Statements 2 is incorrect: The Fundamental Rights are guaranteed by the Constitution to all persons without any discrimination. They uphold the equality of all individuals, the dignity of the individual, the larger public interest and unity of the nation.

The Fundamental Rights are meant for promoting the ideal of political democracy and not limiting it.

Statements 3 is correct: **The Fundamental Rights are guaranteed and protected by the Constitution of India**, which is the fundamental law of the land. They are 'fundamental' also in the sense that they are most essential for the all-round development of the individuals.

Source: Chapter 7 of M. Laxmikant

Q.9) With reference to the Indian and British Parliamentary System, which of the following statements is/are correct?

1. Both the Indian and British Parliamentary systems are based on Doctrine of the Sovereignty of Parliament.
2. In both the systems, the Prime Minister must be from the lower house of Parliament.
3. Britain has the system of legal responsibility of the ministers, while India has no such system.
4. Both the systems have an elected Head of the State.

Select the correct answer using the code given below.

- a) 3 only
- b) 3 and 4 only
- c) 1, 2 and 4 only
- d) 1 and 3 only

Ans) a

Exp) Option a is the correct answer.

Even though the Indian parliamentary system is largely based on the British pattern, there are some fundamental differences between the two.

Statement 1 is incorrect: The British system is based on the doctrine of the sovereignty of Parliament, while the Parliament is not supreme in India and enjoys limited and restricted powers due to a written Constitution, federal system, judicial review and fundamental rights.

Statement 2 is incorrect: In Britain, the Prime Minister should be a member of the Lower House (House of Commons) of the Parliament. In India, the Prime Minister may be a member of any of the two Houses of Parliament. Usually, the members of Parliament alone are appointed as ministers in Britain. In India, a person who is not a member of Parliament can also be appointed as minister, but for a maximum period of six months.

Statement 3 is correct: In India, there is no legal responsibility of the minister. While Britain has the system of legal responsibility of the minister. Unlike in Britain, the ministers in India are not required to countersign the official acts of the Head of the State.

Statement 4 is incorrect: India has a republican system in place of British monarchical system. In other words, the **Head of the State in India (that is, President) is elected**, while the **Head of the State in Britain (that is, King or Queen) enjoys a hereditary position.**

Source: chapter 3 and 12th of M. Laxmikanth

Q.10) Consider the following statements about the Directorate of Enforcement (ED):

1. It is a statutory body.
2. It is under the administrative control of the Ministry of Finance.
3. It cannot take a Suo motu action on any financial irregularity.
4. It is responsible for the enforcement of Prevention of Money Laundering Act, 2002.

Which of the statements given above are correct?

- a) 1 and 4 only
- b) 2 and 3 only
- c) 1, 2 and 4 only
- d) 2, 3 and 4 only

Ans) d

Exp) Option d is the correct answer.

The Directorate of Enforcement or the ED is a multi-disciplinary organization mandated with investigation of economic crimes and violations of foreign exchange laws.

Statement 1 is incorrect: ED is not a statutory body, rather a premier financial investigative agency of the Government of India. It was earlier established as an 'Enforcement Unit' to handle Exchange Control Laws violations under **Foreign Exchange Regulation Act (FERA), 1947.** Later in the year 1957, this Unit was renamed as 'Enforcement Directorate'.

Statement 2 is correct: ED is under the administrative control of Department of Revenue, Ministry of Finance, Government of India. It was established on 1st May, 1956, when an 'Enforcement Unit' was formed

in the Department of Economic Affairs for handling Exchange Control Laws violations under Foreign Exchange Regulation Act, 1947 (FERA '47). **In 1960, the administrative control of the Directorate was transferred from the Department of Economic Affairs to the Department of Revenue.**

Statement 3 is correct: ED cannot take an action Suo motu. One has to complain to any other agency or Police first and then ED will investigate the matter and will identify the accused.

Statement 4 is correct: The statutory functions of the Directorate include enforcement of following Acts:

- 1) **The Prevention of Money Laundering Act, 2002 (PMLA):** It is a criminal law enacted to prevent money laundering and to provide for confiscation of property derived from, or involved in, money-laundering.
- 2) **The Foreign Exchange Management Act, 1999 (FEMA):** It is a civil law enacted to consolidate and amend the laws relating to foreign exchange market in India.
- 3) **The Fugitive Economic Offenders Act, 2018 (FEOA):** This law was enacted to deter economic offenders from evading the process of Indian law by remaining outside the jurisdiction of Indian courts.
- 4) **The Foreign Exchange Regulation Act, 1973 (FERA)**
- 5) **Sponsoring agency under COFEPOSA:** Under this Directorate is empowered to sponsor cases of preventive detention with regard to contraventions of FEMA.

Source: <https://enforcementdirectorate.gov.in/>

Q.11) With reference to the Preamble of Indian constitution, consider the following statements:

1. It is a source of power for the legislature and the executive.
2. It can be used by the Judiciary for a legal interpretation of the constitution.
3. It has no legal effect independently of other parts of the Constitution.
4. It shall be enforceable by the courts in India.

Which of the statements given above are correct?

- a) 1, 2 and 3 only
- b) 2 and 3 only
- c) 2, 3 and 4 only
- d) 1, 3 and 4 only

Ans) b

Exp) Option b is the correct answer.

Preamble reflects the dreams and aspirations of the founding fathers of the Constitution. Preamble is regarded as the proper yardstick with which one can measure the worth of the Constitution.

Statement 1 is incorrect: The Preamble is neither a source of power to legislature nor a prohibition upon the powers of legislature. The Preamble indicates only the aspirations and goals of the Constitution. Thus, the preamble cannot be regarded as the source of any power to the legislative action.

Statement 2 is correct: It is true that **preamble can be used for the legal interpretation of the constitution.** The Supreme court in **Kesavananda Bharati** case held that the preamble is of extreme importance and the constitution should be interpreted in the light of noble vision enshrined in the preamble.

Statement 3 is correct: It is true that **preamble has no legal effect independently of other parts** as Preamble simply serves as the identity card of the whole constitution. It means unless the word mentioned in the preamble finds expression in any other enforceable parts such as Fundamental rights, it will not have any legal effect.

Statement 4 is incorrect: Preamble is neither enforceable nor justifiable in a court of law. This implies that courts cannot pass orders against the government to implement the ideas enshrined in the Preamble.

Source: Laxmikanth - Preamble of the constitution

Q.12) Why India is sometimes referred to as a 'quasi-federal' polity?

- In India, executive is responsible to the legislature for all its acts and policies.
- Indian constitution provides a Bicameral legislature for the Centre and the states.
- India is a federal country with balance of power tilted towards Centre.
- Indian constitution provides for division of power between the Centre and the states.

Ans) c

Exp) Option c is the correct answer.

India is regarded as a semi-federal state or a **quasi-federal state as described by Prof. K.C. Wheare**. The Supreme Court of India also describes it as a federal structure with a strong bias towards the Centre.

Federal features of Indian Constitution	Unitary features of Indian Constitution
1) Supremacy of the Constitution	1) Single Constitution
2) Bicameral Legislature	2) Rajya Sabha does not represent the States equality
3) Dual Government	3) Division of power is not equal i.e., strong centre.
4) Rigid Constitution	4) Constitution is not strictly rigid ex. Amendment through Simple majority
5) Independent Judiciary	5) Integrated Judiciary
6) In the case of a federal country there is a system of revenue sharing between the Center and the State.	6) The Constitution of India has given emergency powers to the President

Statement a is incorrect: The main principle on which the parliamentary system operates is responsibility of executive to the legislature.

Statement b is incorrect: Bicameralism is a federal feature of Indian constitution. Bicameralism means there are two houses of Parliament lower house or Lok Sabha having representatives elected directly by the people and the upper house namely the council of states or Rajya Sabha which represents the federating units.

Statement c is correct: Quasi federal refers to a system of government where the distribution of powers between the Center and the state are not equal. India is a federation with a unitary bias and is referred as a quasi-federal state because of strong central machinery. According to K Santhanam, factor like dominance of the centre in the financial sphere and the dependence of states upon the central grants responsible for unitary bias.

Statement d is incorrect: India follows dual polity at the centre and state level constitutes as a federal feature of Indian state. Dual polity means centre and state are endowed with sovereign powers to be exercised in the field assigned to them respectively by the constitution.

Source: Laxmikant

Q.13) Consider the following statements regarding 'Basic Structure Doctrine':

- India is the only legal system in the world which defines the 'Basic Structure Doctrine' within the Constitution.
- Singapore is the only country other than India to acknowledge Basic Structure Doctrine.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) d

Exp) Option d is the correct answer.

The **basic structure doctrine** is a common law legal doctrine that the constitution of a sovereign state has certain characteristics that cannot be erased by its legislature. It was developed by the Supreme Court of India in a series of constitutional law cases in the 1960s and 1970s that culminated in *Kesavananda Bharati v. State of Kerala*, where the doctrine was formally adopted.

Statement 1 is incorrect.

The basic features of the Constitution have **not been explicitly defined by the Judiciary nor by legislature**. The doctrine is not expressed and written in constitutional manner in India. The claim of any particular feature of the Constitution to be a "basic" feature is determined by the Court in each case that comes before it.

Bangladesh is perhaps the only legal system in the world which recognizes this doctrine with an expressed, written and rigid constitutional manner through article 7B of its Constitution.

Statement 2 is incorrect.

The Basic Structure doctrine is recognized in **India, Bangladesh, Malaysia, Pakistan, Kenya, and Uganda**. **The High Court of Singapore denied the application of the basic features doctrine in Singapore**. It held that the doctrine was not applicable to the Singapore Constitution: "Considering the differences in the making of the Indian and our Constitution, it cannot be said that our Parliament's power to amend our Constitution is limited in the same way as the Indian Parliament's power to amend the Indian Constitution
Source: Laxmikanth Chapter 11 Basic Structure of the Constitution

Q.14) The Government of India Act of 1935 had provision of establishing an All-India Federation. In this context, how this act differentiated Indian Princely States from the Governor's Provinces?

1. Indian Princely states were mandatorily needed to join Indian federation whereas it was voluntary in case of Governor's Provinces.
2. Unlike Princely States, in case of Governor's Provinces the federal authority was extended to only legislative matters and not to executive matters.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) d

Exp) Option d is the correct answer.

At the time of colonial rule, India was divided into two parts, British Indian Provinces, and the Indian Princely States. The Government of India act, 1935 was a milestone in the development of a responsible constitutional government in India. One of its provisions included Provision for the establishment of a "Federation of India", to be made up of both British India and some or all of the "princely states".

Statement 1 is incorrect: As per the act, accession to the Federation was voluntary in the case of an Indian State and it was depended upon the option of the Ruler of the State. Whereas accession to the Federation was compulsory or automatic in case of Provinces.

Statement 2 is incorrect: According to the act, in the case of the provinces, the authority of the Federation over the Provinces (**executive as well as legislative**) extended over the whole of the federal sphere outlined by the Act. Whereas in the case of the Indian States, the authority of the Federation could be limited by the Instrument of Accession.

Knowledge Base:

Federal features under Government of India Act 1935:

- 1) **All India Federation:** It provided for the establishment of an All-India Federation consisting of the British India Provinces and other Indian states. The States were absolutely free to join or not to join the proposed Federation. The rulers of Indian states never gave their consent and thus, the Federation envisaged by the Act never came into being.
- 2) **Provincial Autonomy:** The Act divided legislative powers between the provincial and central legislatures and within their defined sphere the provinces they were autonomous units of administration. The Ministers were not absolutely free in matter of running their departments. The Governors continued to possess a set of overriding powers.
- 3) **Setting up of a federal legislature:** Bicameralism was introduced. It envisaged setting up a council of states and federal assembly, with reservations in the Council of states for minorities, women and depressed classes.
- 4) **Distribution of Legislative Power:** The act made a three-fold division of powers between the Centre and the Provinces- federal list, provincial list and concurrent list. The subjects which were of all-India interest and demanded uniform treatment were put in the federal list.
- 5) **Setting up of a federal court:** A Federal court was also envisaged to be set up under this act.

Q.15) Consider the following statements about Weapons of Mass Destruction (WMDs):

1. Biological weapons are generally not considered as WMDs.
 2. India is yet to formulate a specific legislation prohibiting the unlawful activities related to WMDs.
 3. UNSC has binding obligations on all the members to take and enforce effective measures against WMDs.
- Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 3 only
- d) 1 and 3 only

Ans) c

Exp) Option c is the correct answer.

WMDs are weapons that can cause death and destruction on such a massive scale and so indiscriminately that their sheer possession by an adversary can be viewed as a grave threat.

Statement 1 is incorrect: In 1977, UN defined WMDs as “**atomic explosive weapons, radioactive material weapons, lethal chemical and biological weapons**, and any weapons developed in the future which might have characteristics comparable in destructive effect to those of the atomic bomb or other weapons mentioned above”.

Statement 2 is incorrect: India has a legislation over WMDs as ‘**Weapons of Mass Destruction and their Delivery Systems (Prohibition of Unlawful Activities) Act, 2005**’. Recently an amendment bill was introduced in Lok Sabha to ban funding of weapons of mass destruction.

Statement 3 is correct: UNSCR 1540 (2004) established binding obligations on all UN member states to take and enforce effective measures against proliferation of WMD, their means of delivery and related materials to non-state actors. The above act was passed to enforce above resolution.

Knowledge Base:

The 2005 Act prohibits unlawful activities (such as manufacturing, transport, or transfer) related to weapons of mass destruction, and their means of delivery. **The recent amendment extends the scope of banned activities to include financing of already prohibited activities.**

The amendment bill **bars persons from financing** any prohibited activity related to WMD and their delivery systems directly or indirectly.

It empowers **the central government to freeze, seize or attach financial assets and economic resources** of people engaged in such activities.

Q.16) With reference to the Citizenship (Amendment) Act, 2019, consider the following statements:

1. Under the Act, migrants from all neighboring countries are eligible for citizenship of India.
2. It decreases the requirement of citizenship by naturalization to 5 years of residence for the eligible migrants.
3. The Act does not apply to areas included in the Fifth Schedule of the Constitution.
4. It empowers the central government for the cancellation of Overseas Citizen of India (OCI) registration.

Which of the statements given above are correct?

- a) 2 and 4 only
- b) 1, 2 and 3 only
- c) 1 and 4 only
- d) 1, 2, 3 and 4

Ans) a

Exp) Option a is the correct answer.

Statement 1 is incorrect: The Citizenship Amendment Act 2019 (CAA), amended the Citizenship Act, 1955 to make Hindu, Sikh, Buddhist, Jain, Parsi, and Christian illegal migrants from **Afghanistan, Bangladesh, and Pakistan only**, eligible for citizenship of India.

Statement 2 is correct: The Citizenship Amendment Act 2019 relaxes the requirement of naturalization from 11 years to 5 years as a specific condition for applicants belonging to these six religions.

Statement 3 is incorrect: The Citizenship Amendment Act 2019 adds that the provisions on citizenship for illegal migrants will not apply to the tribal areas of Assam, Meghalaya, Mizoram, and Tripura, as included in the **Sixth Schedule of the Constitution**. These tribal areas include Karbi Anglong (in Assam), Garo Hills (in Meghalaya), Chakma District (in Mizoram), and Tripura Tribal Areas District. It will also not apply to the areas under the Inner Line Permit under the Bengal Eastern Frontier Regulation, 1873.

Statement 4 is correct: If Overseas Citizen of India Cardholder has violated any of the provisions of this Act or provisions of any other law for time being in force as may be specified by the Central Government in the notification published in the Official Gazette, then his/her registration as OCI card holder can be cancelled by the central government.

Q.17) The Constituent Assembly appointed a number of committees to deal with different tasks of constitution-making. Which of the following committees were headed by Dr. Rajendra Prasad?

1. Union Powers Committee
2. Provincial Constitution Committee
3. Rules of Procedure Committee
4. Steering Committee
5. Finance and Staff Committee
6. Ad-hoc Committee on the National Flag

Select the correct answer using the codes given below:

- a) 1, 3 and 5 only
- b) 1, 2, 4, and 6 only
- c) 3, 4, 5 and 6 only
- d) 1, 2, 3, 4 and 6 only

Ans) c

Exp) Option c is the correct answer.

The Constituent Assembly appointed a number of committees to deal with different tasks of constitution-making. Out of these, eight were major committees and the others were minor committees.

The committees headed by Dr. Rajendra Prasad were:

- 1) Rules of Procedure Committee – Dr. Rajendra Prasad (Major Committee)
- 2) Steering Committee – Dr. Rajendra Prasad (Major Committee)
- 3) Finance and Staff Committee – Dr. Rajendra Prasad
- 4) Ad-hoc Committee on the National Flag – Dr. Rajendra Prasad

Option 1 and 2 are incorrect: Union Powers Committee was headed by Jawaharlal Nehru; Provincial Constitution Committee was headed by Sardar Patel.

Knowledge Base:

Major Committees of Constituent Assembly:

- 1) Union Powers Committee – Jawaharlal Nehru
- 2) Union Constitution Committee – Jawaharlal Nehru
- 3) Provincial Constitution Committee – Sardar Patel
- 4) Drafting Committee – Dr. B.R. Ambedkar
- 5) Advisory Committee on Fundamental Rights, Minorities and Tribal and Excluded Areas – Sardar Patel. This committee had the following five sub-committees:

- (a) Fundamental Rights Sub-Committee – J.B. Kripalani
- (b) Minorities Sub-Committee – H.C. Mukherjee
- (c) North-East Frontier Tribal Areas and Assam Excluded & Partially Excluded Areas Sub-Committee – Gopinath Bardoloi
- (d) Excluded and Partially Excluded Areas (Other than those in Assam) Sub-Committee – A.V. Thakkar
- (e) North-West Frontier Tribal Areas Sub-Committee
- 6) Rules of Procedure Committee – Dr. Rajendra Prasad
- 7) States Committee (Committee for Negotiating with States) – Jawaharlal Nehru
- 8) Steering Committee – Dr. Rajendra Prasad

Q.18) With reference to Judiciary in India and United States of America, consider the following statements:

1. Unlike Indian Supreme Court, the Original Jurisdiction of American Supreme Court is confined to Centre-state disputes only.
2. Unlike the Supreme Court of India, the American Supreme Court does not have advisory jurisdiction.
3. Unlike American Supreme Court, the appellate jurisdiction of Indian Supreme Court is confined to constitutional cases only.
4. Unlike Indian Supreme Court, American Supreme Court has a wide discretion to grant special leave to appeal in any matter.

Which of the above given statements are **not correct**?

- a) 1 and 2 only
- b) 3 and 4 only
- c) 1, 2 and 4 only
- d) 1, 3 and 4 only

Ans) d

Exp) Option d is the correct answer.

Statement 1 is incorrect: The original jurisdiction of the Indian Supreme court covers only federal cases but the original jurisdiction of the American Supreme court covers not only federal cases but also cases related to the naval forces, maritime activities, ambassadors, etc.

Statement 2 is correct: Indian Judicial System has a provision for Advisory Jurisdiction. Whereas, no such provision is provided in the American Judicial System.

Statement 3 is incorrect: Appellate jurisdiction of the Indian supreme court covers not just constitutional but also criminal and civil cases. Whereas appellate jurisdiction of the American Supreme court covers only constitutional cases.

Statement 4 is incorrect: Indian Judicial System has a wide discretion to grant Special Leave to Appeal. However, American Judicial System has no plenary powers to grant such an appeal.

Q.19) Consider the following pairs regarding the various types of instruments in Direct Democracy and their description:

Instrument	Description
1. Referendum	A procedure whereby a proposed legislation is referred to the electorate for settlement by their direct votes.
2. Initiative	A method by means of which the people can propose a bill to the legislature for enactment.
3. Recall	A method by means of which the voters can remove an officer before the expiry of his term.

4. Plebiscite A method of obtaining the opinion of people on any issue of public importance.

How many of the above given pairs are correctly matched?

- Only one pair
- Only two pairs
- Only three pairs
- All the four pairs

Ans) d

Exp) Option d is the correct answer.

Democracy is of two types-direct and indirect. In direct democracy, the people exercise their supreme power directly as is the case in Switzerland. There are **four devices of direct democracy, namely, Referendum, Initiative, Recall and Plebiscite**. In indirect democracy, on the other hand, the representatives elected by the people exercise the supreme power and thus carry on the government and make the laws. This type of democracy, also known as representative democracy, is of two kinds-parliamentary and presidential.

Pair 1 is correctly matched: Referendum is a procedure whereby a proposed legislation is referred to the electorate for settlement by their direct votes.

Pair 2 is correctly matched: Initiative is a method by means of which the people can propose a bill to the legislature for enactment.

Pair 3 is correctly matched: Recall is a method by means of which the voters can remove a representative or an officer before the expiry of his term, when he fails to discharge his duties properly.

Pair 4 is correctly matched: Plebiscite is a method of obtaining the opinion of people on any issue of public importance. It is **generally used to solve the territorial disputes**.

Source: M Lakshmikanth ch-4

Q.20) Consider the following statements in the context of management of space:

- Space Situational Awareness (SSA) is a practice of identifying objects in space and tracking their orbits.
- India's first commercial Space Situational Awareness (SSA) observatory will be set up at Bangalore.
- 'Project NETRA' will be an early warning system for Indian satellites in space to protect them from hazards of space debris.
- ISRO has set up a Directorate of Space Situational Awareness and Management (SSAM) as a measure to protect space assets.

Which of the statement given above are correct?

- 1 and 3 only
- 1, 2 and 3 only
- 2, 3 and 4 only
- 1, 3 and 4 only

Ans) d

Exp) Option d is the correct answer.

Space Situational Awareness (SSA) refers to keeping track of objects in orbit and predicting where they will be at any given time. India-US signed an MOU on SSA agreement to share data regarding space debris and other objects posing threat to space assets.

Statement 1 is correct: SSA is the practice of tracking objects in space, identifying them, establishing their orbits, understanding the environment they're operating in, and predicting their future positions and threats to their operations.

Statement 2 is incorrect: India's first commercial Space Situational Awareness (SSA) observatory will be set up by **Digantara**, a space industry startup in **Garhwal region of Uttarakhand**. The observatory will monitor activities that take place in space and look out for military satellites and space debris. It is believed to be a one-of-a-kind observatory which has been placed strategically to monitor global space traffic.

Statement 3 is correct: Project NETRA (Network for space object Tracking and Analysis) is an early warning system in space to detect debris and other hazards to Indian satellites. It will be a network of connected radars, telescopes, data processing units and a control centre.

Statement 4 is correct: ISRO has set up a Directorate of Space Situational Awareness and Management (SSAM) aiming at protecting high valued space assets from space debris close approaches and collisions. A control centre is being established at Bengaluru to systematically carryout all activities related to SSAM. Source: <https://www.outlookindia.com/travel/uttarakhand-gets-india-s-first-ever-commercial-space-situational-awareness-observatory-news-220065>

Q.21) Which of the following statements is/ are correct regarding obtaining citizenship when there is an incorporation of foreign territory into the Indian Union?

1. The Constitution provides for granting citizenship in case a foreign territory is incorporated into the Indian Union.
2. The residents of any incorporated territory automatically become the Indian citizens.

Select the correct answer from the codes given below:

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) d

Exp) Option d is the correct answer.

Statement 1 is incorrect: The Constitution does not make elaborate provisions pertaining to the citizenship matters. It only prescribes who can become citizens at the time of the commencement of the Constitution. Instead, The **Citizenship Act, 1955 deals with the citizenship rights of the persons whose territory have been incorporated into the Indian Union.**

Statement 2 is incorrect: If any foreign territory becomes a part of India, the **Government of India specifies the persons who among the people of the territory shall be the citizens of India**. Such persons become the citizens of India from the notified date.

Source:

<https://indiankanoon.org/doc/305990/#:~:text=%E2%80%94any%20territory%20becomes%20a%20specified%20in%20the%20order.>

Q.22) “This act made the Governor-General of Bengal as the Governor-General of India. It deprived the Governors of Bombay and Madras of their legislative powers. It attempted to introduce a system of open competition for selection of civil servants.”

Which one of the following acts is being described in the above given paragraph?

- a) Charter Act of 1833

- b) Indian Councils Act of 1861
- c) Government of India Act of 1858
- d) Government of India Act of 1919

Ans) a

Exp) Option a is the correct answer.

The **Charter Act of 1833** was a significant milestone in the history of British India as it established the framework for the modern administrative structure of India and initiated the process of constitutional reforms. It also paved the way for the eventual transfer of power from the East India Company to the British Crown.

Features of the Charter Act of 1833:

- 1) It made the Governor-General of Bengal as the Governor-General of India and vested in him all civil and military powers. Thus, **the act created, for the first time, a Government of India having authority over the entire territorial area possessed by the British in India.** Lord William Bentick was the first governor-general of India.
 - 2) It **deprived the governor of Bombay and Madras of their legislative powers.** The Governor-General of India was given exclusive legislative powers for the entire British India. The laws made under the previous acts were called as Regulations while laws made under this act were called as Acts.
 - 3) It **ended the activities of the East India Company as a commercial body**, which became a purely administrative body. It provided that the company's territories in India were held by it 'in trust for His Majesty, His heirs and successors'.
 - 4) The **Charter Act of 1833 attempted to introduce a system of open competition** for selection of civil servants, and stated that the Indians should not be debarred from holding any place, office and employment under the Company. However, this provision was negated after opposition from the Court of Directors
- Knowledge Base:

Q.23) With reference to 'Composition of Constituent Assembly of India', consider the following statements:

1. Each British Indian province and princely state were allotted fixed one seat in the constituent assembly.
2. The representatives of princely states in the assembly were to be nominated by the heads of the princely states.
3. The seats allocated to each British province were to be divided among the Muslims, Sikhs and General.
4. The members from chief commissioners' provinces were represented in the constituent assembly.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 only
- c) 2, 3 and 4 only
- d) 1 and 4 only

Ans) c

Exp) Option c is the correct answer.

The Constituent Assembly was constituted in November 1946 under the scheme formulated by the Cabinet Mission Plan.

Statement 1 is incorrect: Each province and princely state (or group of states in case of small states) were to be **allotted seats in proportion to their respective population.** Roughly, one seat was to be allotted for every million population.

Statement 2 is correct: The representatives of princely states of the constituent assembly were to be **nominated by the heads of the princely states.** 93 out of 389 seats were allocated to the Princely States.

Statement 3 is correct: Seats allocated to each **British province were to be divided among the three principal communities—Muslims, Sikhs and general** (all except Muslims and Sikhs), in proportion to their population. The representatives of each community were to be elected by members of that community in the provincial legislative assembly and voting was to be by the method of proportional representation by means of single transferable vote.

Statement 4 is correct: The total strength of the Constituent Assembly was to be 389. Of these, 296 seats were to be allotted to British India and 93 seats to the Princely States. Out of 296 seats allotted to the British India, 292 members were to be drawn from the eleven governors' provinces and **four from the four chief commissioners' provinces, one from each**. These include Delhi, Ajmer–Merwara, Coorg and British Baluchistan. **Chief Commissioner's Province** refers to middle-level and minor type of provinces of India and in the post-colonial successor states, not headed by a (lieutenant-)governor but by a Chief commissioner.

Source: Laxmikanth

Q.24) Which of the following provisions of the Constitution of India came into force on 26th November, 1949?

1. Provisional Parliament
2. Citizenship
3. Directive Principles of State Policy
4. Elections
5. Planning Commission
6. Fundamental Rights

Select the correct answer using the codes given below:

- a) 1, 2, 3 and 5 only
- b) 1, 2 and 4 only
- c) 2, 3, 4 and 6 only
- d) 1, 2, 3, 4, 5 and 6

Ans) b

Exp) Option b is the correct.

The Constitution as adopted on November 26, 1949, contained a Preamble, 395 Articles and 8 Schedules. The Preamble was enacted after the entire Constitution was already enacted.

Options 1, 2 and 4 are correct: Some provisions of the Constitution pertaining to **citizenship, elections, provisional parliament, temporary and transitional provisions**, and short title contained in Articles 5, 6, 7, 8, 9, 60, 324, 366, 367, 379, 380, 388, 391, 392 and 393 (these provisions are related to citizenship, elections, provisional parliament, temporary and transitional provision) came into force on November 26, 1949 itself.

The **remaining provisions (the major part) of the Constitution came into force on January 26, 1950**. This day is referred to in the Constitution as the 'date of its commencement', and celebrated as the Republic Day.

Options 3, 5 and 6 are incorrect: The provisions of Directive Principles of State Policy and Fundamental Rights came into force on January 26, 1950. **Planning Commission was an extra constitutional body.**

https://www.constitutionofindia.net/constitution_of_india/short_title__commencement__authoritative_text_in_hindi_and_repeals_/articles/Article%20394

Q.25) With reference to Participatory notes (P-notes), consider the following statements:

1. They can be issued only by the Securities and Exchange Board of India.
2. Investments flowing through P-notes are considered as offshore derivative investments (ODIs).
3. Holder of P-notes enjoy voting rights in relation to his/her investment in a share/company.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 and 3 only
- c) 2 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

Statement 1 is incorrect. P-notes are **issued by registered foreign portfolio investors (FPIs)** and not by SEBI, to overseas investors who wish to be part of the Indian stock market without registering themselves directly.

Statement 2 is correct. Investments flowing through P-notes are considered as **offshore derivative investments** (ODIs). Indian securities market regulator, SEBI issued the new Regulations for Foreign Portfolio Investors, participatory notes where it got formally defined under the tag "Offshore Derivative Instrument" (ODIs) in Section 2(1)(j) of the said regulation.

Statement 3 is incorrect. The P-notes holder **does not enjoy any voting rights** in relation to security/shares referenced. Also, the investor in P-notes **does not own the underlying Indian security**, which is held by the FII who issues the Participatory Notes. Thus, the investors in Participatory Notes derive the economic benefits of investing in the security without actually holding it.

Source: <https://economictimes.indiatimes.com/markets/stocks/news/investment-in-capital-mkts-through-p-notes-drops-to-rs-96292-cr-in-dec-2022-on-profit-booking/articleshow/97253669.cms>

Q.26) Consider the following statements:

1. Communist Party of India did not win any seats in the elections to the Constituent Assembly of India.
2. Unionist Party won the second highest number of seats, after Indian National Congress, in the elections to the Constituent Assembly of India.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) d

Exp) Option d is the correct answer.

The Constitution of India was drafted by the Constituent Assembly, and it was implemented under the Cabinet Mission Plan on 16 May 1946. The members of the Constituent Assembly were elected by the provincial assemblies by a **single, transferable-vote system of proportional representation**. The total membership of the Constituent Assembly was 389 of which 292 were representatives of the provinces, 93 represented the princely states and four were from the chief commissioner provinces of Delhi, Ajmer-Merwara, Coorg and British Baluchistan.

Statement 1 is incorrect.

The Congress Party held a large majority in the Assembly (69 percent of the seats), and the Muslim League held nearly all the seats reserved in the Assembly for Muslims. There were also members of smaller parties,

such as the Scheduled Caste Federation, the **Communist Party of India** and the Unionist Party. **Communist Party of India got 1 seat in the Constituent Assembly.**

Statement 2 is incorrect.

Muslim League with 73 seats was the second largest party after Indian National Congress (208 seats) in the Constituent Assembly of India. Unionist Party got only 1 seat in the Constituent Assembly of India

Sl.No.	Name of the Party	Seats won
1.	Congress	208
2.	Muslim League	73
3.	Unionist Party	1
4.	Unionist Muslims	1
5.	Unionist Scheduled Castes	1
6.	Krishak - Praja Party	1
7.	Scheduled Castes Federation	1
8.	Sikhs (Non-Congress)	1
9.	Communist Party	1
10.	Independents	8
Total		296

Results of the Elections to the Constituent Assembly (July–August 1946)

Source: Laxmikanth Chapter 2 Making of the Constitution

Q.27) Which of the following is/are correct regarding the doctrine of basic structure of the constitution?

1. Basic structure of the constitution ensures Judicial Supremacy in India.
2. The bill amending the basic structure of the constitution cannot be initiated by the state legislative assemblies.
3. Basic structure prohibits parliament from amending any of the fundamental rights given in part III of the constitution.
4. High courts in India are empowered to strike down only those laws/executive actions that violate basic structure of the constitution.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 only
- c) 2 and 3 only
- d) 1, 3 and 4 only

Ans) b

Exp) Option b is the correct answer.

The **Kesavananda Bharati case (1973)** introduced the doctrine of basic Structure to **limit the amendment power of parliament** to prevent any changes in the constitution that may affect the **basic values enshrined in the Constitution.**

Statement 1 is incorrect: Basic structure of the constitution ensures the supremacy of constitution in India, not judicial supremacy. Basic structure doctrine was introduced by the Supreme court to **prevent the excessive use of power by any organs of the state - legislature, executive or judiciary** to uphold the core provisions of the constitution of India.

Statement 2 is correct: It is true that bill amending the constitution cannot be introduced in the state legislative assemblies. In fact, **no constitutional amendment bill can be introduced in the state legislative assemblies.**

Statement 3 is incorrect: Parliament can amend fundamental rights if such changes does not affect the basic structure of the constitution. Thus, it is incorrect to say that basic structure prohibits parliament from amending any of the fundamental rights. The Supreme court in **Kesavanandha Bharati case upheld** the validity of the 24th Constitutional Amendment Act (CAA) and held that parliament is empowered to take away or abridge any of the Fundamental Rights, if such changes does not alter the basic structure of the constitution.

Statement 4 is incorrect: High court can strike down laws/executive actions even if it violates non-basic structure of the constitution. **Article 226** of the Indian constitution gives the high court the power to review legislative/executive actions which contravenes any of the constitutional provisions which includes both basic and non-basic features of the constitution.

Source: Laxmikanth - Amendment of the constitution

Basic structure of the constitution

Q.28) With reference to 'Source of Indian Constitution', consider the following pairs:

Source	Features Borrowed
1. Irish Constitution	Fundamental duties and the ideal of justice
2. Canadian Constitution	Suspension of Fundamental Rights during Emergency
3. Australian Constitution	Joint sitting of the two Houses of Parliament
4. Soviet Constitution	Directive Principles of State Policy

Which of the pairs given above is/are correctly matched?

- a) 1 and 4 only
- b) 2 and 3 only
- c) 3 only
- d) 1, 3 and 4 only

Ans) c

Exp) Option c is the correct answer.

Indian Constitution came into **existence on 26th November 1949**. The Constituent Assembly of India drafted the constitution **considering features of constitutions of the other countries as well as from the Government of India Act 1935**. There are various sources of Indian constitution for some features of it are borrowed. There was no hesitation to learn from the experiences of other nations, hence, the Indian Constitution has various features that are borrowed from other nations.

Pair 1 is incorrectly matched: The features borrowed from Irish Constitution were Directive Principles of State Policy, nomination of members to Rajya Sabha and method of election of president.

The provisions of Fundamental duties and the ideal of justice were borrowed from Soviet Constitution.

Pair 2 is incorrectly matched: The features borrowed from Canadian Constitution were Federation with a strong Centre, vesting of residuary powers in the Centre, appointment of state governors by the Centre, and advisory jurisdiction of the Supreme Court.

The provisions of Suspension of Fundamental Rights during Emergency were borrowed from Weimar Constitution of Germany

Pair 3 is correctly matched: The features borrowed from Australian Constitution were Concurrent List, freedom of trade, commerce and inter-course, and **joint sitting of the two Houses of Parliament.**

Pair 4 is incorrectly matched: The features borrowed from Soviet Constitution were Fundamental duties and the ideal of justice (social, economic and political).

The provisions of Directive Principles of State Policy **were borrowed from Irish Constitution.**

Source: Laxmikanth

Q.29) With reference to the ‘Objectives Resolution’, introduced in the first session of the Constituent Assembly, consider the following statements:

1. It declared India as an Independent Sovereign Republic.
2. It provides for adequate safeguards for minorities and depressed classes.
3. It guaranteed to people of India, the equality of status of opportunity.

Which of the statements given above is/are correct?

- a) 1 only
- b) 1 and 2 only
- c) 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

The ‘Objectives Resolution’ was moved by **Jawaharlal Nehru** in the Constituent Assembly in December, 1946. It laid down the fundamentals and **philosophy of the constitutional structure.**

This Resolution was unanimously adopted by the Assembly on January 22, 1947. Its modified version forms the Preamble of the present Constitution.

Statement 1 is correct. Under the Objectives resolution, the Constituent Assembly declared its firm and solemn resolve to proclaim India as an **Independent Sovereign Republic** and to draw up for her future governance a constitution.

Statement 2 is correct. It provides that adequate safeguards shall be provided for minorities, backward and tribal areas, and depressed and other backward classes.

Statement 3 is correct. It guaranteed and secured to all the people of India **justice, social, economic and political; equality of status of opportunity, and before the law;** freedom of thought, expression, belief, faith, worship, vocation, association and action, subject to law and public morality.

Source: Indian Polity, M. Laxmikanth, Chapter- 2

Q.30) Consider the following statements about Digital Banking Units (DBUs):

1. Regional Rural banks and Payment banks are permitted to establish DBUs.
2. DBUs are not licensed under Banking Regulation Act, 1949.
3. There is at least one operational DBU in each of the Indian States.
4. DBUs can facilitate digital onboarding of customers for schemes like Atal Pension Yojna among others.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 and 4 only
- c) 2, 3 and 4 only
- d) 1, 3 and 4 only

Ans) c

Exp) Option c is the correct answer.

As part of the Union budget speech for 2022–23, **the finance minister announced setting up the 75 DBUs in 75 districts to commemorate our country's 75 years of independence.** DBU is a specialised fixed point business unit / hub housing certain minimum digital infrastructure for delivering digital banking products & services as well as servicing existing financial products & services digitally.

Statement 1 is incorrect: Scheduled Commercial Banks (other than RRBs, PBs and LABs) with past digital banking experience are permitted to open DBUs in Tier 1 to Tier 6 centres.

Statement 2 is correct: DBUs are treated as banking outlets, equivalent to a branch. These units do not have a legal personality and are **not licensed under the Banking Regulation Act, 1949.**

Statement 3 is correct: On October 17, 2022, 75 digital banking units became operational across 75 districts in India. As of now, there is at least one digital banking unit set up in each of the states and union territories (UTs).

Statement 4 is correct: DBUs also provide services **like digital onboarding of customers for schemes** such as **Atal Pension Yojana (APY);** Insurance onboarding for **Pradhan Mantri Jeevan Jyoti Bima Yojana (PMJJBY) and Pradhan Mantri Suraksha Bima Yojana (PMSBY).**

Q.31) With reference to the distinct forms of Justice, consider the following statements:

1. Social Justice implies that all citizens are treated equally irrespective of their status in society.
2. Economic justice is considered as part of liberty without which equality of status and dignity of person is not possible.
3. Political justice proposes that the citizens of a country should have equal access to political offices.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

The Preamble contains the ideals, objectives and basic principles of the Constitution which include commitment to democracy, guarantee to all the people of India; Justice, equality and freedom The Preamble covers all these dimensions of justice – social, economic and political.

Statement 1 is correct. Social Justice is the recognition or greater good to a larger number without deprivation or accrual of legal rights and is the comprehensive form to **remove social imbalance** by law harmonizing the rival claims or the interest of different groups and/or section in the social structure or individuals by means of which alone it would be possible to build up a **welfare State.** Social Justice implies that all citizens are treated equally irrespective of their status in society as a result of the accident birth, race, caste, religion, sex, title etc

Statement 2 is correct. Economic Justice means the banishment of poverty, not by expropriation of those who have but by the **multiplication of the national wealth** and resources and an equitable distribution thereof amongst all who contribute towards its production, is the aim of the state envisaged by the directive principles. Economic justice is a **facet of liberty** without which **equality of status** and **dignity of person** is teasing illusions. The ideal of economic justice is to make equality of status meaningful and life worth living at its best removing inequality of opportunity and of status-social, economic and political.

Statement 3 is correct. Political justice implies that all citizens should have equal political rights, equal access to all political offices and equal voice in the government.

Q.32) With reference to the Preamble of the Indian Constitution, consider the following statements:

1. In the Kesavananda Bharati case, the Supreme court held that preamble is a part of the Indian constitution.
2. Certain provisions of the preamble may not be altered by a constitutional amendment act.
3. Since the enactment of the Indian Constitution, Preamble was amended only once.

Which of the statement/s given above is/are correct?

- a) 1 and 3 only
- b) 2 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

Preamble refers to the introduction of the constitution and it contains the aspirations and goals of the Indian Constitution. Article 368 in part XX of the Constitution deals with the power of parliament to amend the constitution and its procedure.

Statement 1 is correct: It is true that in the **Kesavananda Bharati case**, the Supreme court held that **preamble as part of the Indian constitution**. In Kesavananda Bharati case, the supreme court reversed the ruling given in the **Berubari Union case (1960)** in which the court held that preamble is not the part of the constitution.

Statement 2 is correct: In the **Kesavananda Bharati case**, the Supreme court held that provisions of the preamble which are related to the **basic structure** of the constitution **cannot be amended** by the parliament.

Statement 3 is correct: It is true that since the enactment of the constitution, **Preamble was amended only once so far**. Preamble was amended in 1976, the **42nd constitutional amendment act, 1976** inserted the word **Socialist, Secular and Integrity** in the preamble.

Source: Laxmikanth - Preamble of the constitution

Q.33) Which of the following persons were eligible to be the citizens of India at the time of commencement of the Constitution?

1. A person domiciled in India and either of his parents were born in India.
2. A person of Indian origin domiciled outside India.
3. A person not of Indian origin and domiciled outside India.
4. A person migrated to Pakistan but returned to India for resettlement.
5. A person migrated from Pakistan and he or his parents or grandparents were not born in undivided India.

Choose the correct answer from the codes given below:

- a) 1, 3, 4 and 5 only
- b) 1, 3 and 5 only
- c) 1, 2 and 4 only
- d) 1 and 2 only

Ans) c

Exp) Option c is the correct answer.

Article 5 to Article 8 of Indian Constitutions deals with the four categories of person who became the citizens of India at the time of commencement of the Constitution.

Statement 1 is correct: As per Article 5 of the Indian Constitution, a person who had his **domicile in India at the time of commencement of the Constitution** was eligible to become a citizen. This is subject to the fulfillment of any of these 3 given additional conditions:

Basic Condition	Additional Conditions
A person domiciled in India	He was born in India. OR Either of his parents were born in India OR He had been an ordinary resident for more than 5 years.

Hence, a person domiciled in India is eligible to obtain Indian citizenship, subject to fulfilling other conditions.

Statement 2 is correct: Article 8 allows for a **person of Indian origin residing outside India** to obtain citizenship **through registration**. During the commencement of the constitution, such person could have applied to the diplomatic or consular representative of India in the country of his residence.

Statement 3 is incorrect: At the time of commencement, the **Constitution did not contain any specific provision pertaining to the citizenship of a person who was neither of an Indian origin nor domiciled in India**. Hence, he was not eligible for obtaining citizenship as per the prevailing provisions. Later, Parliament enacted **Citizenship Amendment Act, 1955** which enabled such persons to obtain citizenship by naturalization, subject to other conditions.

Statement 4 is correct: **Article 7** allows a person migrated from India to Pakistan and returned to India for resettlement to obtain citizenship. For this, he had to be resident in India for six months preceding the date of his application for registration.

Statement 5 is incorrect: **Article 6** deals with the cases where a person has migrated to India from Pakistan, which can be summarized as:

Case: A person migrated to India from Pakistan	
Requirement to obtain citizenship: Fulfilling the basic condition AND any of the additional conditions:	
Basic Condition: He or either of his parents or grandparents were born in undivided India (i.e., he should be a person of Indian origin).	Additional Conditions: If he migrated to India before July 19, 1948, he had been ordinarily resident in India since the date of his migration. OR If he migrated to India on or after July, 1948, he had been registered as a citizen of India. But such a person could only be registered if he was resident in India for six months, preceding the date of application for registration.

In the given case, the basic condition given above is not fulfilled; hence, he was not eligible for Indian citizenship.

Source: M. Laxmikanth (Chapter 6)

Q.34) The Article 13 of the Indian constitution states that any law which contravenes fundamental rights can be declared void by the Judiciary. In this context, consider the following statements:

1. Laws enacted by both the Parliament and State legislative assembly can be struck down by the High court, if it violates fundamental rights.
2. Both the Supreme court and High court can strike down the constitutional amendment act that contravenes fundamental rights.
3. No Social practice, violating fundamental rights, can be struck down by the Supreme Court.
4. Executive actions by civil servants are beyond the scope of article 13 and cannot be struck down by the Supreme court.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 1, 2 and 4 only
- c) 2 and 3 only
- d) 3 and 4 only

Ans) a

Exp) Option a is the correct answer.

Article 13 of the Indian Constitution states that **all laws that are inconsistent with or in derogation of any of the fundamental rights** shall be declared void by the judiciary. Article 13 provides for the doctrine of judicial review.

Statement 1 is correct: It is true that **laws enacted by both the Parliament and State legislative assembly** can be struck down by the **High court** if it violates fundamental rights. **Article 226** of the Indian constitution provides the **high court** and **Article 32** provides the **supreme court** - the power of judicial review.

Statement 2 is correct: **Article 13** uses wider definition of laws, **as per article 13 constitutional amendment act too is a law**. Thus, any **constitutional amendment act which contravenes** the provisions of fundamental rights can be **struck down by the Supreme court and High court**.

Statement 3 is incorrect: **As per Article 13, a law includes a custom or social practises** having the force of law. **The Supreme Court can ban those social practices which contravenes fundamental rights**. For instance, the **Supreme Court intervened in the Sabarimala** issue and removed the restrictions posed on the entry of women into a temple because such religious practice violated the fundamental **right of women**.

Statement 4 is incorrect: **Executive actions by civil servants** which violate fundamental rights **can be struck down by the Supreme Court**. As per Article 13, a law includes delegated legislation such as order, bye law, rules and regulations.

Source: Laxmikanth - Fundamental rights

Q.35) Consider the following statements about Ways and Means Advances (WMAs):

1. WMAs are loans provided by centre to states to meet temporary mismatches in the receipts and payments.
2. WMAs are part of the Fiscal Responsibility and Budget Management act, 2003 to ensure fiscal prudence in a state's economy.
3. Normal WMAs are provided against the collateral of the government securities held by the state.

Which of the statements given above are **incorrect**?

- a) 1 and 2 only
- b) 2 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

The Ways and Means Advances scheme was introduced in 1997, replacing the traditional practice of issuing ad-hoc Treasury bills to replenish Central Government's cash balance.

Statement 1 is incorrect: Under Section 17(5) of RBI Act, 1934, the RBI provides Ways and Means Advances (WMA) to the States to help them tide over temporary mismatches in the cash flow of their receipts and payments. Hence, they are not provided by centre but RBI to states. Such advances are repayable within three months from the date of making that advance.

Statement 2 is incorrect: Ways and Means advances are **not a part** of the Fiscal Responsibility and Budget Management (FRBM) act, 2003 because they get paid within the year itself.

Statement 3 is incorrect: There are two types of Ways and Means Advances - normal and special. Special WMA or **Special Drawing Facility is provided against the collateral of the government securities** held by the state. After the state has exhausted the limit of SDF, it gets normal WMA. Hence, normal WMAs do not require provision of security collaterals from state. **Normal WMAs are clean advances.**

https://www.rbi.org.in/scripts/BS_PressReleaseDisplay.aspx?prid=54458

Q.36) With reference to 'Constituent Assembly', consider the following statements:

1. The assembly was empowered to alter any law made by the British Parliament in relation to India.
2. The members of the Muslim League from the Indian Dominion never entered the Assembly.
3. Both H.C. Mukherjee and V.T. Krishnamachari were elected as the Vice-Presidents of the Assembly.
4. Dr Sachchidanand Sinha was the chairperson of the assembly whenever it met as the legislative body.

Which of the statements given above are correct?

- a) 1 and 3 only
- b) 2 and 4 only
- c) 1, 2 and 3 only
- d) 1, 3 and 4 only

Ans) a

Exp) Option a is the correct answer.

It was in 1934 that the idea of a Constituent Assembly for India was **put forward for the first time by M. N. Roy, a pioneer of communist movement in India.** In 1935, the Indian National Congress (INC), for the first time, officially demanded a Constituent Assembly to frame the Constitution of India. The Constituent Assembly was constituted in November 1946 under the scheme formulated by the Cabinet Mission Plan.

Statement 1 is correct: The Indian Independence Act of 1947 made the changes in the position of the Assembly. It was made a fully sovereign body, which could frame any Constitution it pleased. The act empowered the **Assembly to abrogate or alter any law made by the British Parliament in relation to India.**

Statement 2 is incorrect: After the acceptance of the Mountbatten Plan of June 3, 1947 for a partition of the country, the representatives of most of the other princely states took their seats in the Assembly. The **members of the Muslim League from the Indian Dominion also entered the Assembly.** The Muslim League members (hailing from the areas included in the Pakistan) withdrew from the Constituent Assembly for India.

Statement 3 is correct: Dr. Rajendra Prasad was elected as the President of the Assembly. Similarly, **both H.C. Mukherjee and V.T. Krishnamachari were elected as the Vice-Presidents of the Assembly.** In other words, the Assembly had two Vice-Presidents.

Statement 4 is incorrect: The Assembly also became a legislative body. In other words, two separate functions were assigned to the Assembly, that is, making of a constitution for free India and enacting of

ordinary laws for the country. These two tasks were to be performed on separate days. Thus, the Assembly became the first Parliament of free India (Dominion Legislature). Whenever the Assembly met as the Constituent body it was chaired by Dr. Rajendra Prasad and **when it met as the legislative body, it was chaired by G V Mavlankar**. These two functions continued till November 26, 1949, when the task of making the Constitution was over.

Dr Sachchidanand Sinha, the oldest member, was elected as the temporary President of the Assembly, following the French practice.

Source: Laxmikanth

Q.37) With reference to Indian Judiciary, consider the following statements:

1. While Judicial activism is the power of Judiciary to review its own judgements, Judicial review is the power of judiciary to examine the constitutionality of laws.
2. While Judicial activism is a proactive role played by the judiciary, judicial overreach is the judicial encroachment into the domains of legislature or/and executive.
3. While Judicial activism denotes the role of judiciary in policy making, Judicial restraint means non-interference by judiciary in policy making.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 1 and 3 only
- c) 2 and 3 only
- d) 3 only

Ans) c

Exp) Option c is the correct answer.

Statement 1 is incorrect: Judicial activism is a judicial decision making whereby **judges render their personal views regarding a public policy. Judicial review is the power of the judiciary to examine the constitutionality of legislative/executive actions** of both the Central and State governments. **Article 137** of the constitution grants Supreme court the **power to review its own judgements and it is not a judicial activism.**

Statement 2 is correct: Judicial activism denotes the **proactive role played by the judiciary** in the protection of the rights of citizens and the promotion of justice in society for example the judicial innovation **public interest litigation (PIL)**. Judicial overreach means overstepping of authority by judiciary and encroachment into domains of other organs of the state - legislature or/and executive for example recent Andhra Pradesh High Court order on the inquiry into a 'constitutional breakdown' in the State.

Statement 3 is correct: Judicial activism denotes the role of judiciary in policy making to protect the rights of individual for example **Vishaka guidelines** issues by the Judiciary to ensure sexual harassment free work environment for women. In contrast, **Judicial restraint means non-interference by judiciary in policy making** ie restricting its role to interpreting the constitutionality of laws/executive actions.

Source: [https://blog.ipleaders.in/judicial-](https://blog.ipleaders.in/judicial-activism/#Difference_between_judicial_activism_restraint_and_overreach:~:text=restraint%20and%20overreach-,Judicial%20activism,-Judicial%20activism%20is)

[activism/#Difference_between_judicial_activism_restraint_and_overreach:~:text=restraint%20and%20overreach-,Judicial%20activism,-Judicial%20activism%20is](https://blog.ipleaders.in/judicial-activism/#Difference_between_judicial_activism_restraint_and_overreach:~:text=restraint%20and%20overreach-,Judicial%20activism,-Judicial%20activism%20is)

Q.38) The Supreme court of India can declare certain laws/executive actions as unconstitutional under which of the following conditions?

1. If the law enacted by parliament violates a provision of the constitution.
2. Any laws that are against the federal provisions of the constitution.
3. Any legislative/executive actions that contravenes the Directive Principles of State Policy (DPSP).

Select the correct answer using the code given below:

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 only
- d) 1 and 3 only

Ans) a

Exp) Option a is the correct answer.

Judicial review is the power of the court to examine the constitutionality of any laws/executive actions. Judicial review is vital to ensure constitutional supremacy in India. It is important to note that the term **Judicial review has nowhere been used in the constitution.**

Statement 1 is correct: Judicial review is the power of the Supreme court to examine constitutionality of any laws/executive actions. On such examination, if the **court finds any laws/executive action which violates any provisions of the constitution, the court can declare it as unconstitutional.**

Statement 2 is correct: The Supreme court of India can declare any actions/laws as unconstitutional if it violates the **basic structure of the constitution.** As **Federal character of the constitution** is one of the basic features of the constitution, any laws/actions contravening federal structure can be declared void by the Supreme court.

Statement 3 is incorrect: The Directive Principles of State Policy (DPSP) are **non-justiciable** in nature i.e., it cannot be enforced by the judiciary. Thus, any **actions/laws which contravenes DPSP cannot be declared void by the Supreme court.**

Source: Laxmikanth - Supreme court (power of judicial review)

<https://www.legalserviceindia.com/legal/article-916-directive-principles-of-state-policy-dpsps-.html#:~:text=A%20law%20against%20the%20DPSPs,the%20case%20with%20Fundamental%20Rights.>

Q.39) Which of the following rights and privileges are available exclusively to citizens of India?

- 1. Only Citizens have right to property in India.
- 2. Only Citizens have the Right to vote in India.
- 3. Only Citizens can become the President of India.
- 4. Only Citizens can become the Attorney General of India.
- 5. Only Citizens can become the Member of Parliament in India.

Select the correct answer using the code given below:

- a) 2, 3, 4 and 5 only
- b) 3, 4 and 5 only
- c) 3 and 4 only
- d) 1, 2, 3, 4 and 5

Ans) a

Exp) Option a is the correct answer.

The population of India is divided into two categories and they are **citizens and non-citizens.** A citizen of a state enjoys all civil and political rights whereas a non-citizen has limited rights as compared to citizens of India.

Option 1 is incorrect: Right to property is not an exclusive right offered to citizens, it is available to both citizens and non-citizens of India. The property right was deleted from the list of Fundamental Rights by the **44th Amendment Act, 1978.** It is made a **legal right under Article 300-A** of the Constitution. Article 300A states that “No person shall be deprived of his property save by the authority of law”.

Q.41) Consider the following statements regarding the similarities and differences between an ‘Overseas Citizen of India (OCI)’ and a Non-Resident Indian (NRI):

1. An NRI, but not OCI, is eligible to vote in the Parliamentary elections.
2. Neither NRI nor OCI is allowed to acquire/purchase any type of property in India.
3. An OCI, but not NRI, needs to apply for visa every time he/ she visit India.

Which of the statements given above is/ are correct?

- a) 1 only
- b) 3 only
- c) 1 and 2 only
- d) 1, 2 and 3

Ans) a

Exp) Option a is the correct answer.

A non-resident Indian (NRI) is a person who ordinarily resides outside India and holds Indian passport. He has all benefits as available to Indian citizens (subject to notifications issued by the government). An Overseas Citizen of India (OCI) is a person who has been registered as such under the Citizenship Act, 1955.

Statement 1 is correct: Like citizens of India, **NRIs can also vote in the elections** held in India- local, state or the national. However, **an OCI is not entitled to vote** in the Indian elections. Hence, the given statement is correct.

Statement 2 is incorrect: Both NRI and OCI can purchase/ invest in immovable properties like residential and commercial properties. However, they are not allowed to buy agricultural land.

Statement 3 is incorrect: An NRI enjoys almost all the benefits like an ordinary citizen. So, he does not need visa for a visit to India. Similarly, **OCI holder also enjoys the benefit of multiple entry lifelong visa for any purpose.** In other words, an OCI holder need not apply for visa every time he/ she wants to visit India.

Knowledge Base: NRI can buy various kinds of commercial and residential properties, except for those involved with agricultural activities like farmhouses, agricultural land, and plantations.

M Laxmikath.

Q.42) With reference to ‘Indian Council Act of 1861’, consider the following statements:

1. It restored the legislative powers to the Bombay and Madras Presidencies.
2. It established a 15-member Council of India to assist the secretary of state for India.
3. It ended the system of double government by abolishing the Board of Control and Court of Directors.
4. It empowered the Viceroy to issue ordinances without the concurrence of the legislative council.

Which of the statements given above is/are correct?

- a) 1, 2 and 4 only
- b) 1 and 4 only
- c) 2, 3 and 4 only
- d) 3 and 4 only

Ans) b

Exp) Option b is the correct answer.

After the great revolt of 1857, the British Government felt the necessity of seeking the cooperation of the Indians in the administration of their country. In pursuance of this policy of association, three acts were enacted by the British Parliament in 1861, 1892 and 1909. The Indian Councils Act of 1861 is an important landmark in the constitutional and political history of India.

Statement 1 is correct: Indian Councils Act of 1861 restored the legislative powers to the Bombay and Madras Presidencies. The act **restored the legislative powers to the Bombay and Madras Presidencies**, which had been taken away by the Charter Act of 1833. The Governor-General's Legislative Council, which was created by the Charter Act, had monopolized the legislative power in India.

Statement 2 is incorrect: Government of India Act of 1858 (not Indian Councils Act of 1861) **established a 15-member Council of India to assist the secretary of state for India**. The council was an advisory body. The secretary of state was made the chairman of the council.

Statement 3 is incorrect: The Indian Council Act of 1858, also known as the Government of India Act 1858, ended the system of **double government by abolishing the Board of Control and Court of Directors**. The Indian Council Act of 1861 did not make any changes in this regard.

Statement 4 is correct: The Indian Council Act of 1861 empowered the Viceroy to make rules and orders for the more convenient transaction of business in the council. It also gave a recognition to the **'portfolio' system, introduced by Lord Canning in 1859**. Under this, a member of the Viceroy's council was made in-charge of one or more departments of the government and was authorised to issue final orders on behalf of the council on matters of his department(s). It **empowered the Viceroy to issue ordinances, without the concurrence of the legislative council**, during an emergency. The life of such an ordinance was six months
Source: Laxmikanth

Q.43) Consider the following statements regarding the term 'Asymmetric Federalism':

1. In Asymmetric Federalism, a particular state can have greater executive powers than other states.
2. It overlooks the diverse cultural, linguistic, and historical differences among constituent units.
3. Indian Constitution provides for the Asymmetric federalism.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 1 and 3 only
- c) 2 and 3 only
- d) 1, 2, and 3

Ans) b

Exp) Option b is the correct answer.

Statement 1 is correct: The term asymmetrical federalism refers to a flexible type of union of states which **allows the government to cut different deals with different states in special matters pertaining to them**. This method allows the government to grant special status to some units providing them with special powers not enjoyed by other states. It permits particular states to have **greater executive, legislative, and at times, judicial powers than other states**.

Statement 2 is incorrect: Asymmetric federalism recognizes (not overlook) the diverse cultural, linguistic, and historical differences among constituent units. An asymmetrical setup can be effective when the needs of state are diverse religiously, culturally and/or ethnically. In such a case, asymmetrical federalism caters to the needs of particular communities by giving them special status.

Statement 3 is correct: Asymmetry is established through legal institutional arrangements. For instance, in India these arrangements have a constitutional basis whereas in countries like Indonesia, China, etc. it is based on legislative arrangements. **Indian constitution allows some border states in the North-West and North-East region (i.e., Jammu and Kashmir, Nagaland and Mizoram) to exercise constitutional asymmetries under article 371**. There are asymmetries present in the Indian constitution at the sub state level in the form of **Union Territories**.

Source: <https://www.legalserviceindia.com/legal/article-1353-whether-india-a-union-of-states-is-an-example-of-asymmetric-federalism-.html>

<https://blog.forumias.com/answered-what-do-you-understand-by-asymmetric-federalism-discuss-the-importance-of-asymmetric-federalism-in-india/>

Q.44) With reference to Indian Constitution, consider the following statements:

1. India being a Sovereign country can cede its territory in favour of a foreign state.
2. Constitution is the result of rights of individuals which are enforced by the judiciary.
3. Before addition of "socialist" to preamble, constitution already had elements of socialism.

Which of the statements given above is/are correct?

- a) 2 only
- b) 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

The Preamble to the Indian Constitution of India is a brief introductory statement that reflects the hopes and aspirations of the people. The preamble can be referred to as the preface which highlights the entire Constitution. It embodies the basic philosophy and the fundamental values on which our constitution is based.

Statement 1 is correct: Preamble states that India is a Sovereign country. This means India can acquire foreign territory and if necessary, can cede its territory in favour of foreign state. It is done through constitutional amendment under article 368.

Statement 2 is incorrect: In Indian system, constitution is the source of Individual rights. It is not the result of individual rights which are defined by the courts of law. Preamble states constitution draws its authority from the people of India. Judiciary helps in protecting the rights enumerated in Constitution. It is the ultimate guardian of the rights of the people.

Statement 3 is correct: The 42nd Amendment 1976 changed the description of India from a "sovereign democratic republic" to a "sovereign, socialist secular democratic republic". However, before the amendment constitution already had socialist content in form of Directive Principle of State Policy (DPSP). Hence what was implied, made explicit after the amendment. The words "unity of the nation" changed to "unity and integrity of the nation" after the amendment.

Q.45) Which of the following institutions publish State Energy and Climate index?

- a) Council on Energy, Environment and Water.
- b) NITI Aayog
- c) Indian Renewable Energy Development Agency (IREDA)
- d) The Energy and Resource Institute (TERI)

Ans) b

Exp) Option b is the correct answer.

State Energy and Climate index (SECI) is published by NITI Aayog, to track the efforts made by states and UTs in the climate and energy sector. It ranks states and UTs on six parameters: discoms' performance, access affordability and reliability of energy, clean energy initiatives, energy efficiency, environmental sustainability and new initiatives.

Based on the outcome of SECI scores, states and union territories have been categorised into three groups -- front runners, achievers, and aspirants. **Gujarat, Kerala and Punjab** have been adjudged as top three performer states in the NITI Aayog's SECI in the year 2022. The top three performers among smaller states are **Goa, Tripura and Manipur**.

Hence, SECI index helps in helping drive the agenda of the affordable, accessible, efficient and clean energy transition at the State level. It also encourages healthy competition among the states on different dimensions of energy and climate.

Q.46) Arrange the following events in the chronological order of their occurrence:

1. Adoption of National Song
2. Ratification of Commonwealth membership
3. Adoption of National Flag
4. Adoption of National Emblem

Select the correct answer using the codes given below:

- a) 1-2-4-3
- b) 3-2-1-4
- c) 1-3-2-4
- d) 3-4-1-2

Ans) b

Exp) Option b is the correct answer.

The events in chronological order of their occurrence are:

- 1) The **National Flag** is a horizontal tricolor of India saffron (kesaria) at the top, white in the middle and India green at the bottom in equal proportion. The ratio of width of the flag to its length is two to three. In the centre of the white band is a navy-blue wheel with 24 equally spaced spokes which represents the Ashoka Chakra. **The design of the National Flag was adopted by the Constituent Assembly of India on 22 July 1947.**
- 2) The Constituent Assembly **ratified India's membership of the Commonwealth in May 1949**. Choosing to remain in the Organization was India's first major foreign policy decision after Independence. Commonwealth is a free association of sovereign states.
- 3) 'Jana Gana Mana' was adopted as the **national anthem of India on January 24, 1950**, by the Constituent Assembly. Written and composed by Nobel laureate Rabindranath Tagore, the anthem spreads the message of pluralism and its official duration is 52 seconds.
- 4) **National Emblem of India** is a representative seal of the Republic of India that is adapted from the Lion Capital of Ashoka Pillar (based in Sarnath, Uttar Pradesh.) **India adopted it as the State Emblem on 26th January 1950**. The motto of the Indian National Emblem is 'Satyamev Jayate' or 'Truth Alone Triumphs.'

Laxmikanth

Q.47) In the context of Indian polity, which one of the following is the most appropriate idea behind Indian Socialism?

- a) Nationalisation of all the means of production.
- b) Ownership of all the means of production by workers.
- c) Coexistence of both public and private sectors.
- d) Economic planning exclusively by the State to ensure inclusive growth of a country.

Ans) c

Exp) Option c is the correct answer.

A Preamble serves as an introduction to the constitution and contains basic principles and goals of the Constitution. The word **Socialist** was inserted into the preamble of the Indian constitution by the 42nd Constitutional Amendment Act in 1976 during the period of emergency.

Option a is incorrect: Unlike Indian socialism, **State Socialism** also known as Communistic socialism involves the **nationalisation of all means of production** and abolition of private property.

Option b is incorrect: **Marxism Socialism** believes that **factors of production should be owned and run by workers** through a well-developed and centralised structure. Marxist theories were influential in the development of socialism, which requires shared ownership by workers of the means of production.

Option c is correct: Indian brand of socialism is a 'democratic socialism' and not a 'communistic socialism' (also known as 'state socialism'). Communistic Socialism involves the nationalisation of all means of production and distribution and the abolition of private property. **Democratic socialism, on the other hand, holds faith in a 'mixed economy' where both public and private sectors co-exist side by side.** As the Supreme Court says, 'Democratic socialism aims to end poverty, ignorance, disease and inequality of opportunity.

Option d is incorrect: Ensuring equitable economic growth through **exclusive state's planning is not an idea behind Indian socialism.** Indian socialism promotes the concept of **Mixed economy** in which **private players also have autonomy to devise their own plan** and contribute to the economic development of a country, thus this statement is incorrect.

Source: Laxmikanth - Preamble of the constitution

Q.48) The Supreme court in various cases included/reiterated various provisions as the basic features of the constitution. In this context, consider the following pairs:

Cases	Provisions included/reiterated as the Basic features
1. Kesavananda Bharati case	Federal character of the constitution.
2. Minerva Mills case	Harmony between Fundamental rights and Directive principles.
3. S.R. Bommai case	Principle of secularism
4. M. Nagaraj case	Free and fair elections

How many of the above given pairs are correctly matched?

- Only one pair
- Only two pairs
- Only three pairs
- All the four pairs

Ans) c

Exp) Option c is the correct answer.

Basic features of the constitution are certain features of the constitution which are essential for the functioning of the state. **Any change in basic features would alter the basic structure of the constitution.** Hence basic features are beyond the limits of the amending powers of the Parliament.

Pair 1 is correct: In the Kesavananda Bharati case (1973) the supreme court innovated the doctrine of basic structure to limit the power of parliament and to upheld constitutional supremacy in India. **The basic features added in this case are Federal character of the Constitution, Supremacy of the Constitution, Republican and democratic form of government, Secular character of the Constitution etc.,**

Pair 2 is correct: In the **Minerva Mills case (1980)**, the Supreme court included **Harmony and Balance between Fundamental Rights and Directive Principles** as the basic features of the constitution. Other basic features included in by this case are Limited power of govt. to amend Constitution. Judicial Review.

Pair 3 is correct: In the **SR Bommai case**, the Supreme court reiterated the **principle of secularism as one of the basic features of the constitution.** In this case the court held that the centre can impose president rule on the state which functions in contravention to the idea of secularism, which is basic feature of the constitution.

Pair 4 is incorrect: In the **M.Nagaraj case (2006)**, the Supreme court reiterated the **principle of equality** as one of the basic features of the constitution. **Free and Fair elections** were included as basic feature of the constitution by the Supreme court in the **Indira Gandhi case (1975).**

Source: <https://blog.forumias.com/basic-structure-doctrine/>

Q.49) Which of the following elements were introduced for the first time in British India by the Government of India Act, 1919?

1. Dyarchy at provinces
2. Bicameralism
3. Communal representation in legislature
4. Association of Indians with the Viceroy's executive council
5. Allowing Provincial Councils to determine on women's voting rights

Select the correct answer using the code given below:

- a) 1 and 2 only
- b) 1, 3 and 4 only
- c) 1, 2 and 5 only
- d) 2, 3, 4 and 5 only

Ans) c

Exp) Option c is the correct answer.

Government of India Act of 1919 was enacted on the basis of declaration of 1917 by the British Government. This declaration stated, for the first time, that the objective of British government was the gradual introduction of responsible Government in India.

Statement 1 is correct. Government of India Act, 1919 relaxed the central control over the provinces by demarcating and separating the central and provincial subjects. It **introduced the dual system of governance known as dyarchy** for the provinces of British India. It further **divided the provincial subjects** into two parts- **transferred and reserved.** The transferred subjects were to be administered by the Governor with the aid of Ministers responsible to the legislative council. The reserved subjects, on the other hand, were to be administered by the Governor and his executive council without being responsible to the legislative council.

Statement 2 is correct. The Government of India Act of 1919 introduced, **for the first time, bicameralism and direct elections** in the country. Thus, the Indian legislative council was replaced by a bicameral

legislature consisting of an Upper House (Council of State) and a Lower House (Legislative Assembly). The **majority of members** of both the Houses were **chosen by direct election**.

Statement 3 is incorrect. Indian Councils Act of 1909 (and not Government of India Act, 1919) introduced a system of communal representation for Muslims by accepting the concept of 'separate electorate'. Under this, the Muslim members were to be elected only by Muslim voters. Thus, the Act 'legalised communalism' and Lord Minto came to be known as the Father of Communal Electorate. The Government of India Act of 1919 **extended** this principle of communal representation by providing **separate electorates for Sikhs, Indian Christians, Anglo-Indians and Europeans**.

Statement 4 is incorrect. Indian Councils Act of 1909 (and not Government of India Act, 1919) provided (for the first time) for the association of Indians with the executive councils of the Viceroy and Governors. Satyendra Prasad Sinha became the first Indian to join the Viceroy's executive council. He was appointed as the Law Member. The Government of India Act, 1919 required that the three of the six members of the Viceroy's executive Council (other than the Commander-in-Chief) were to be Indian.

Statement 5 is correct. The Government of India Act, 1919 granted franchise to a limited number of people on the basis of property, tax or education. Though they were not granted voting rights, nor the right to stand in elections, the Government of India Act 1919 **allowed Provincial Councils to determine if women could vote**, provided they met stringent property, income, or educational levels. Between 1919 and 1929, **all of the British Provinces, as well as most of the Princely states granted women the right to vote** and, in some cases, allowed them to stand in local elections. Thus, it **provided for limited voting rights to women**.
Knowledge Base:

Other features of Government of India Act, 1919:

- 1) It created a new office of the High Commissioner for India in London.
- 2) It provided for the establishment of a public service commission. Hence, a **Central Public Service Commission was set up** in 1926 for recruiting civil servants.
- 3) It **separated, for the first time, provincial budgets from the Central budget** and authorised the provincial legislatures to enact their budgets.
- 4) It provided for the **appointment of a statutory commission** to inquire into and report on its working after ten years of its coming into force.

Q.50) Consider the following countries:

1. Kazakhstan
2. Uzbekistan
3. Tajikistan
4. Afghanistan
5. Kyrgyzstan
6. Iran

Which of the above share land borders with Turkmenistan?

- a) 1, 2, 3 and 4 only
- b) 2, 3, 4 and 5 only
- c) 1, 2, 4 and 6 only
- d) 1, 3, 5 and 6 only

Ans) c

Exp) Option c is the correct answer.

Turkmenistan is a country in Central Asia bordered by the Caspian Sea and largely covered by the Karakum Desert. It is the **second largest state in Central Asia**, after Kazakhstan, and is the southernmost of the region's five republics.

Bordering Nations:

- 1) **Kazakhstan in the northwest**
- 2) **Uzbekistan in the north and east**
- 3) **Afghanistan in the southeast**
- 4) **Iran in the south**
- 5) **the Caspian Sea to the west.**

Q.1) Consider the following statements regarding the ‘procedure established by law’ and the ‘due process of law’:

1. The term ‘procedure established by law’ has been explicitly mentioned in the Indian Constitution.
2. The term ‘due process of law’ refers to the laws made by the judiciary instead of legislature.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) a

Exp) Option a is the correct answer.

Procedure established by law- Under this, **judiciary will only assess whether or not proper procedure has been followed in enacting and implementing the laws.** It upholds the law only if confirms to the procedure established. It does not go into the legislative wisdom or rationale behind the formation of a specific law even if the law goes against the principles of the natural justice.

Due process of law- Under this, judiciary **will not only check the procedural validity, but also assess whether or not a law is fair, just and reasonable.** For example, court can reject a law if it violates the principles of natural justice.

Statement 1 is correct: The term ‘procedure established by law’ **has been explicitly mentioned** in the India Constitution. **Article 21** states that no person shall be deprived of his life or personal liberty except according to the procedure established by law.

Statement 2 is incorrect: The term ‘due process of law’ **does not imply that laws are made/ are to be made by the judiciary.** In other words, the judiciary does not overtake the legislative function of the Parliament. It simply **tests the laws on the grounds of reasonableness and fairness.** It aims to protect the individuals **against the arbitrary actions of both the executive and the legislature.**

Source: <https://blog.forumias.com/difference-between-procedure-established-by-law-and-due-process-of-law/>

Q.2) Consider the following principle:

“If a legislature lacks the jurisdiction to enact laws on a specific subject directly, it cannot make laws on it indirectly”. This doctrine is applied when legislature tries to accomplish something in a backhanded way when it can't do it straightforwardly.

Which of the following judicial doctrines best describes the principle mentioned above?

- a) Doctrine of Ancillary Powers
- b) Doctrine of Severability
- c) Doctrine of Eclipse
- d) Doctrine of Colorable Legislation

Ans) d

Exp) Option d is the correct answer.

Option a is incorrect: **The Doctrine of Ancillary Powers** implies that the power to legislate on a topic of legislation carries with it the **power to legislate on an ancillary matter** which can be said to be reasonably included in the power given. (State of Rajasthan vs. G. Chawla). In other words, it **deals with the power to legislate on the supplemental or incidental matters.**

Option b is incorrect: The **Doctrine of Severability** aims to protect fundamental rights of the citizens. It states that the whole law or act would not be held invalid, but **only those provisions will be held invalid**

which are inconsistent with the fundamental rights. In other words, it aims to separate valid and invalid parts of a law.

Option c is incorrect: This **Doctrine of Eclipse** is applied when any Act/ law violates the fundamental rights. Using this doctrine, the court **makes the entire law unenforceable**. The law is held as **void ab initio**, that is, no legal effect from the inception. Since, the **Fundamental Rights overshadows the law**, it is called as the doctrine of eclipse.

Option d is correct: The Doctrine of Colourable Legislation is used **when the legislature does not possess powers to make law on a particular subject but indirectly makes one**. It is also called as ‘**Fraud on the Constitution**’. The doctrine traces its origin to the Latin maxim that, “**whatever legislature cannot do directly, it cannot do indirectly**”. The doctrine was used by the Supreme Court of India in the case of **Gajapati Narayan Deo v. The State of Orissa** to decide legality of the statute enacted.

Source: <https://www.legalserviceindia.com/legal/article-9554-doctrine-of-colourable-legislation.html>

Q.3) With reference to the meaning of State as defined under Article 12 of the Constitution, consider the following statements:

1. A private body working as an instrument of the State falls within the meaning of the ‘State’.
2. Urban Improvement Trusts are included in the definition of state.
3. All Private Universities are included as elements of state under Article 12.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) a

Exp) Option a is the correct answer.

Article 12 defines the term ‘State’ for the purpose of different provisions concerning the fundamental rights. **Statement 1 is correct:** The Supreme Court has held that the term ‘state’ is wide enough to include all authorities created by the Constitution or statute on whom powers are conferred by law. Thus, even a **private body** or an agency working **as an instrument of the State falls** within the meaning of the ‘State’ **under Article 12**. It is **not necessary** that the statutory authority should be engaged in performing governmental or sovereign function.

Statement 2 is correct: All local authorities, that is, municipalities, panchayats, district boards, improvement trusts, etc. are included under the definition of state under Article 12. According to List II of VII Schedule ‘**local government**’ includes a municipal corporation, **urban improvement trust, district boards, mining settlement authorities** and other local authorities for the purpose of local self-government or village administration.

Statement 3 is incorrect: In Article 12, the **expression ‘other authorities’ is used** after mentioning the Government, Parliament of India, the Government and Legislature of each of the State and all local authorities. The Madras High Court has held that ‘other authorities’ could **only mean authorities exercising governmental or sovereign functions**. It **cannot include** persons, natural or juristic, such as, **a university unless it is ‘maintained by the State’**.

Q.4) Consider the following statements regarding the 86th Constitutional Amendment Act, 2002:

1. It made the 'Right to Education' a Fundamental Right under Part III of the Constitution.
2. It made 'education for all children between the age of six to fourteen years' a Directive Principle under Part IV of the Constitution.
3. It added a new fundamental duty under Article 51A of the Constitution.

Which of the statements given above is/ are correct?

- a) 1 only
- b) 1 and 3 only
- c) 3 only
- d) 2 and 3 only

Ans) b

Exp) Option b is the correct answer.

The 86th Constitutional Amendment Act is described as a 'dawn of the second revolution in the chapter of the citizens' rights. This is because, it makes 'education for all' a fundamental right. The constitution already contained the provision for free and compulsory education under the Directive Principle of State Policy (DPSP). But as a DPSP, it remained unenforceable till date.

Statement 1 is correct: The 86th Amendment Act of 2002 made '**Right to Education**' a **fundamental right**. This made '**elementary education**' a fundamental right. It inserted a new **Article 21-A** under Part III of the Constitution which provides that the "State shall provide **free and compulsory education to all children of the age of six to fourteen years**". Hence, it granted right to education as a fundamental right for the children between 6-14 years of age.

Statement 2 is incorrect: The 86th Amendment Act also changed the subject matter of Directive Principle of State Policy (DPSP) under Article 45, to provide that "the State shall endeavor to provide early childhood care and education for all children until they complete the age of six years". Hence, the DPSP pertains to **only children up to 6 years of age**.

Statement 3 is correct: The 86th Amendment Act also added a new Fundamental Duty under Article 51A. It states that "it shall be the duty of every citizen of India who is a parent or a guardian to provide opportunities for education to his child or ward between the age of 6-14 years". Hence, the given statement is correct.

Source: M. Laxmikanth (Page 7.12, Chapter 7)

Q.5) With reference to 'Nidhi Companies', consider the following statements:

1. Nidhi companies are a type of non-bank lenders that raise funds exclusively from their members.
2. They are regulated by the Department of Company Affairs (DCA) for operational matters and deployment of funds.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) c

Exp) Option c is the correct answer.

This question is based on the article "**Central Government amends Nidhi Rules, 2014 to safeguard the interest of general public**" published in **PIB** on **20th April 2022**. The government of India has released the Nidhi (amendment) Rules, 2022. This amendment brings changes to the Nidhi Rules, 2014 to safeguard the interest of the general public.

Statement 1 is correct: Nidhi companies are a type of **non-bank lenders** that **raise funds exclusively from their members** and give loans to them to improve their governance and protect the public interest. To become a Nidhi company, the entity has to first register as a public limited company which has more disclosure requirements than a private limited company. Nidhi companies allow only individual members and it **cannot give loans to companies**.

Statement 2 is correct: Nidhi Companies are regulated by the **Reserve Bank of India (RBI)** for deposit-taking and by the **Department of Company Affairs (DCA)** for **operational matters and deployment of funds**.

Q.6) Consider the following statements regarding the 'preventive detention' law in India:

1. The Constitution of India prescribes that the preventive detention cannot exceed beyond the maximum period of three months under any circumstance.
 2. Both the Centre and the States can enact laws on the matters regarding preventive detention.
 3. Article 22 provides protection against preventive detention only to Indian citizens and not to foreigners.
- Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) 1 and 3 only
- d) 2 and 3 only

Ans) b

Exp) Option b is the correct answer.

Preventive detention means detention of a person without trial. It is meant to prevent a person from committing any crime. In other words, the person not committed any crime yet, but the authorities anticipate him to be a threat on the law and order.

Article 22 of Part III (Fundamental Rights) contains certain provisions regarding protections to the persons arrested or detained under the preventive detention law.

Statement 1 is incorrect: The Constitution provides that detention of a person cannot exceed three months. However, in certain circumstances it can be extended **if an Advisory Board reports sufficient cause** for its extension. The Board consists of the Judges of a High Court. Article 22 also empowers Parliament to prescribe maximum detention period for more than three months without obtaining the approval of the Advisory Board. Through the 44th Constitutional Amendment Act, period of detention without obtaining the opinion of the Advisory Board has been reduced from three to two months. But this provision is yet to come into force.

Statement 2 is correct: Both the Centre and the States can make laws on the preventive detention. The Centre has exclusive rights to make a law of preventive detention on the matters connected with **defense, foreign affairs and the security of India**. On the matters pertaining to **security of the State, maintenance of public order and maintenance of supplies and services essential to the community, both the Centre and the States can concurrently enact laws**.

Statement 3 is incorrect: Protection under Article 22 regarding preventive detention is applicable to both- Indian citizens and the foreigners. The protection includes:

- 1) The detention of a person cannot exceed three months unless an advisory board reports sufficient cause for extended detention.
- 2) The grounds of detention should be communicated to the detenu. However, the facts considered to be against the public interest need not be disclosed.
- 3) The detenu should be afforded an opportunity to make a representation against the detention order.

Source: M. Laxmikanth (Page 7.13, Chapter 7)

Q.7) Article 24 of the Indian Constitution provides for the prohibition of employment of children in hazardous activities. In this context, consider the following statements regarding measures taken to curb child labor in India:

1. The Child Labor (Prohibition and Regulation) Amendment Act, 2016 prohibits the employment of children below 14 years in all occupations.
2. PENCIL portal has been launched by Ministry of Social Justice and Empowerment to register complaints against the child and adolescent labor.
3. INDUS project was launched jointly by Government of India and World Bank to fight against the child labor.

Which of the statements given above is/ are correct?

- a) 1 only
- b) 1 and 2 only
- c) 2 and 3 only
- d) 1 and 3 only

Ans) a

Exp) Option a is the correct answer.

Article 24 prohibits the employment of children **below the age of 14 years in any factory, mines or other hazardous activities**. It should be noted that **this Article does not prohibit employment of children in any harmless and innocent work**.

Statement 1 is correct: The Child Labor (Prohibition and Regulation) Amendment Act, 2016 **prohibits employment of children below 14 years of age in all occupations**. Hence, the given statement is correct. In addition to this, the Act also prohibits employment of adolescents (14-18 years of age) in certain hazardous occupations and process.

Statement 2 is incorrect: PENCIL portal has been launched with the objective to register the complaints against the child labor. It stands for Platform for Effective Enforcement for No Child Labor (PENCIL). This platform also has a framework for child tracking system at the level of District Nodal Officer. **The platform has been launched by the Ministry of Labor and Employment** (and not by the Ministry of Social Justice and Empowerment).

Statement 3 is incorrect: INDUS stands for India-US Child Labor Project. This project has been **jointly funded by the India and US governments**. The project has been completed and is **considered successful as an estimated 103,152 child and adolescent workers withdrawn and rehabilitated against set target of 80,000 children**. Hence, it was not collaboration with the World Bank.

Q.8) The Article 26 of the Indian Constitution deals with the 'Freedom to Manage Religious Affairs'. Under this Article, **the Constitution:**

1. Guarantees right to every religious denomination to establish and maintain institutions for religious purposes.
2. Defines 'religious denomination' as a collection of individuals having common spiritual beliefs organized under a distinctive name.
3. Provides that the rights under Article 26 are subjected to the fulfillment of other Fundamental Rights.
4. Prescribes 'morality' and 'health' as reasonable grounds to impose restrictions on these rights.

Which of the statements given above is/ are correct?

- a) 1 only
- b) 1 and 4 only
- c) 1, 3 and 4 only
- d) 2 and 3 only

Ans) b

Exp) Option b is the correct answer.

Article 26 of the Indian Constitution deals with **Freedom to Manage Religious Affairs**. This Fundamental Right deals with the rights of religious denomination or any of its sections. Individual's rights to the Freedom of Religion are dealt with in Article 25.

Statement 1 is correct: Article 26 grants following rights to the religious denominations (or its sections):

- 1) Right to **establish and maintain** institutions for **religious and charitable purposes**.
- 2) Right to **manage its own affairs** in the matters of religion.
- 3) Right to **own or acquire immovable property**.
- 4) Right to **administer such property** in accordance with the law.

Statement 2 is incorrect: The **Constitution does NOT define the term religious denomination**. It has been defined by the **Supreme Court of India in the Shirur Mutt case**. A religious denomination should satisfy the following conditions.

- 1) It should be a **collection of individuals** sharing beliefs for their spiritual well-being.
- 2) It should have a **common organization**.
- 3) It should be designated by a **distinctive name**.

Statement 3 is incorrect: The **rights granted under Article 26 are not subjected to any other Fundamental Rights**. In other words, they are not subordinate to other Fundamental Rights. Hence, the given statement is incorrect. It should be noted that **rights under Article 25** (Freedom of Conscience, Free Profession, Practice and Propagation) are subject to other provisions relating to the Fundamental Rights.

Statement 4 is correct: The Constitution explicitly provides that the rights granted under Article 26 are subject to **public order, health and morality**. Hence, the given statement is correct.

M. Laxmikanth (Page 7.15, Chapter 7)

Q.9) With reference to the Article 28 of the Indian Constitution, in which of the following institutions providing religious instruction is absolutely prohibited?

1. Institutions recognized by the state
2. Institutions receiving aid from the state
3. Institutions administered by state and established under any endowment.
4. Institutions wholly funded by the state.

Choose the correct answer from the options given below:

- a) 4 only
- b) 2 and 4 only
- c) 1 and 4 only
- d) 2 and 3 only

Ans) a

Exp) Option a is the correct answer.

Article 28 deals with the Freedom of Attending Religious Instruction.

Statement 1 is incorrect: Religious instruction can be allowed in an institute recognized by the State. However, it shall be **allowed on a voluntary basis and nobody can be forced to participate** in the religious activities or instructions in that institute. If a person is minor, religious instruction cannot be allowed without the **permission of his/ her guardian**.

Statement 2 is incorrect: Religious instruction can be allowed in an institute receiving aid from the State. However, it shall be **allowed on a voluntary basis and nobody can be forced to participate** in the religious activities or instructions in that institute. If a person is minor, religious instruction cannot be allowed without the permission of his/ her guardian.

Statement 3 is incorrect: Religious instruction is **not prohibited in the institute which is administered by the State but has been established under any endowment or trust** which requires that religious instruction shall be imparted in such institution.

Statement 4 is correct: There is **absolute prohibition in imparting religious instruction** in the institutes wholly maintained out of the State Funds. Hence, the given statement is correct.

Source: M Laxmikanth (Page 7.16, Chapter 7); <https://indiankanoon.org/doc/1734560/>

Q.10) Under the Indian constitution, concentration of wealth violates

- The Right to equality
- The Directive principles of state policy
- The right to freedom
- The concept of welfare

Ans) b

Exp) Option b is the correct answer.

The concentration of wealth violates the Directive principles of state policy. Under Article 39 of the Constitution of India, the State shall direct its policy towards securing that the **operation of the economic system does not result in the concentration of wealth** and means of production to the common detriment.

Other principles of policy to be followed by the State under the Article 39 are:

- The citizens, men and women equally, have the right to an adequate means to livelihood;
- The ownership and control of the material resources of the community are so distributed as best to subserve the common good;
- There is equal pay for equal work for both men and women;
- The health and strength of workers, men and women, and the tender age of children are not abused and that citizens are not forced by economic necessity to enter avocations unsuited to their age or strength;
- Children are given opportunities and facilities to develop in a healthy manner and in conditions of freedom and dignity and that childhood and youth are protected against exploitation and against moral and material abandonment.

Source) UPSC CSE 2021

Q.11) Consider the following statements regarding Article 32 of the Indian Constitution, which has been referred to as 'heart' and 'soul' of the Indian Constitution by Dr. BR Ambedkar:

- It declares the 'Right to Constitutional Remedies' as a part of the 'basic structure'.
- It gives exclusive powers to the Supreme Court to issue writs for the enforcement of Fundamental Rights.
- The concept of writs under this Article is borrowed from the English Common Law.
- The rights granted under this Article are absolute and cannot be suspended under any circumstances.

Which of the statements given above is/ are **incorrect**?

- a) 1, 2 and 4 only
- b) 2, 3 and 4 only
- c) 1 and 4 only
- d) 2 and 3 only

Ans) a

Exp) Option a is the correct answer.

Article 32 provides for the 'Right to the Constitutional Remedies' for the enforcement of fundamental rights. Thus, an aggrieved citizen for violation of his Fundamental Rights can approach Supreme Court of India. Dr. Ambedkar has called this Article as the 'heart and soul' of the Indian Constitution.

Statement 1 is incorrect: The **Constitution of India neither defines nor mentions the term 'basic structure'**. It is a judicial innovation and first time used in India in the Keshavananda Bharti Case (1973). **In Delhi Judicial Services Association Case (1991)** and various other judgments, Supreme Court has held judicial review under Article 32 as a basic structure of the Indian constitution. **Hence, Article 32 forms the basic structure, but it is not declared in the Constitution itself.**

Statement 2 incorrect: The Article does not empower Supreme Court with the exclusive jurisdiction over issuing writs. As per this Article, **Parliament can empower any other Courts to issue directions, orders and writs of all kinds.** However, the Parliament cannot take away the writ jurisdiction from the Supreme Court.

Statement 3 correct: Writ jurisdiction in India has been **borrowed from the English Common Law.** They are called as **'prerogative writs' in England.** The Courts use these writs under extraordinary circumstances to uphold the rights and liberties of the people.

Statement 4 is incorrect: As per Article 32, the right to move Supreme Court cannot be suspended unless otherwise stated in the Constitution. **Article 359 states that President can suspend the right to move any courts (including the Supreme Court) for the enforcement of Fundamental Rights during National Emergency.** Hence, rights under Article 32 are not absolute and can be suspended.

Source: M. Laxmikanth (Page 7.18, Chapter 7)

Q.12) Which one of the following legislations in India directly implements the directive mentioned in Article 47 under Part IV of Indian Constitution?

- a) Mahatma Gandhi National Rural Employment Guarantee Act (MGNREGA), 2005
- b) National Food Security Act, 2013
- c) Right to Education Act (RTE), 2006
- d) Child Labour (Prohibition and Regulation) Act, 1986

Ans) b

Exp) Option b is the correct answer.

Article 47 of The Constitution of India is one of the Directive Principles which directs the State to **raise the level of nutrition and the standard of living and to improve public health** as among its primary duties and, in particular, the State shall endeavor to bring about prohibition of intoxicating drinks and drugs which are injurious to health.

National Food Security Act, 2013: As passed by the Parliament, Government has notified the National Food Security Act, 2013 on 10th September, 2013 with the objective to **provide for food and nutritional security in human life cycle approach**, by ensuring access to adequate quantity of quality food at affordable prices to people to live a life with dignity. Thus, this act implements the directive mentioned in Article 47 under Part IV of Indian Constitution.

Option a is incorrect: Mahatma Gandhi National Rural Employment Guarantee Act (MGNREGA), 2005 fulfils the **Article 41 of the DPSP (Directive Principle of State Policy)** of the Indian Constitution. Article 41 aims to secure work, education and public assistance rights for persons in cases of unemployment, old age, sickness, disablement, and undeserved want.

Option c is incorrect: Part IV of Indian Constitution, Article 45 and Article 39 (f) of DPSP, had a provision for state funded as well as equitable and accessible education.

Option d is incorrect: Article 24 of Fundamental Right provides for Prohibition of employment of children in factories, etc. Child Labour (Prohibition and Regulation) Act, 1986 reaffirms this right under Indian Constitution.

Source: Laxmikanth

Q.13) Consider the following pairs pertaining to the different types of writs and their corresponding features:

Writ	Features/ Scope
1. Habeas Corpus	It can be issued even against private individuals.
2. Mandamus	It can be issued to transfer a pending case to the writ issuing Court.
3. Certiorari	It can be issued against public official for performing an official duty.
4. Quo Warranto	It can only be requested by an aggrieved person.

How many pair(s) mentioned above is/ are correctly matched?

- Only 1 pair
- Only 2 pairs
- Only 3 pairs
- All 4 pairs

Ans) a

Exp) Option a is the correct answer.

Article 32 and Article 226 empowers Supreme Court and High Courts respectively to issue writs. The Supreme Court can issue writs only on the matters pertaining to the Fundamental Rights, whereas, High Courts can also issue writs for enforcement of other statutory rights (in addition to the Fundamental Rights).

Pair 1 is correct: The writ of Habeas Corpus **can be issued even against the private individuals**. The literal meaning of habeas corpus is 'to have the body of'. This is issued against any public and private individual who has detained another person, except when the:

- Detention is lawful i.e., a person has been detained as per the procedure established by the law
- Proceeding is for contempt of any court or legislature
- Detention by a competent court
- Detention is outside the court's jurisdiction.

Only this writ can be issued against the private individuals.

Pair 2 is incorrect: Certiorari, and not Mandamus, is issued to transfer a pending case from the lower court to a higher court. Mandamus means 'we command'. Through this writ, the Court asks an official to perform his **official duty**. It can be issued against a public official, public body, corporation, inferior court, tribunal and government. It cannot be issued against private individuals, department with no statutory

backing, discretionary duty, enforcing contractual duty, President, Governors and Chief Justice of High Court acting in judicial capacity.

Pair 3 is incorrect: As stated above, mandamus is issued to public official directing him to perform his official duty. Certiorari is issued to transfer a pending case from a lower court to the higher writ issuing court. It is issued on the grounds of excess or lack of jurisdiction or error of law. It can be issued against courts, tribunals, quasi-judicial authorities and other administrative authorities.

Pair 4 is incorrect: Writ of **Quo warranto can be sought or requested by any interested person and not necessarily by an aggrieved person.** The writ can be issued only in case of a substantive public office of a permanent character created by the statute or the constitution. **It prevents illegal usurpation of the public office.** It is to be noted that this writ cannot be issued against a ministerial or a private office.

Source: M. Laxmikanth (Page 7.19, Chapter 7)

Q.14) With reference to the 'Lok Adalats', consider the following statements:

1. They are statutory bodies formed under The Arbitration and Conciliation Act of 1996.
2. The award given by Lok Adalat is final and binding on all parties with no appeal before any court of law.
3. The role of Lok Adalat is of statutory conciliation only and do not have any judicial role.
4. Small and nominal amount of court fee is payable when a matter is filed in a Lok Adalat.

Which of the statements given above is/are correctly matched?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 2, 3 and 4 only
- d) 1, 3 and 4 only

Ans) b

Exp) Option b is the correct answer.

Lok Adalat was created as an **alternative dispute resolution mechanism** used in India to resolve disputes/grievances outside courts. It is a forum where cases pending on panchayat, or at a pre-litigation stage in a court of law, are settled.

Statement 1 is incorrect: Lok Adalats have been given **statutory status under the Legal Services Authorities Act, 1987.** Section 22 B of The Legal Services Authorities Act 1987 provides for the establishment of Permanent Lok Adalats (PLA) for exercising jurisdiction in respect of one or more public utility services (PUS).

Statement 2 is correct: Under the NALSA Act, the award (decision) made by the Lok Adalats is deemed to be a **decree of a civil court and is final and binding on all parties and no appeal against such an award lies before any court of law.** If the parties are not satisfied with the award of the Lok Adalat though there is no provision for an appeal against such an award, but they are free to initiate litigation by approaching the court of appropriate jurisdiction by filing a case by following the required procedure, in exercise of their right to litigate.

Statement 3 is correct: The persons deciding the cases in the Lok Adalats are called the Members of the Lok Adalats, they have the **role of statutory conciliators only and do not have any judicial role;** therefore, they can only persuade the parties to come to a conclusion for settling the dispute outside the court in the Lok Adalat and shall not pressurize or coerce any of the parties to compromise or settle cases or matters either directly or indirectly.

Statement 4 is incorrect: There is **no court fee payable when a matter is filed in a Lok Adalat.** If a matter pending in the court of law is referred to the Lok Adalat and is settled subsequently, the court fee originally paid in the court on the complaints/petition is also refunded back to the parties.

Laxmikanth.

Q.15) With reference to 'Climate Change', which one of the following statements correctly describe the term 'Social Cost of Carbon' (SCC)?

- It is the total impact of excess carbon emission on the vulnerable sections including tribals, women and children.
- It sets a price on carbon by defining a tax rate on greenhouse gas emissions.
- It is the marginal cost of the impacts on environment caused by emitting one extra tonne of greenhouse gas.
- It is the process of buying and selling permits and credits that allow the permit holder to emit carbon dioxide.

Ans) c

Exp) Option c is the correct answer.

This question is based on the article **“Explained: Can climate change be solved by pricing carbon?” published in Indian Express** on 24th April 2022.

The **social cost of carbon (SCC)** is the **marginal cost of the impacts caused by emitting one extra tone of greenhouse gas** (carbon dioxide equivalent) at any point in time, **inclusive of 'non-market' impacts on the environment and human health.**

The social cost of carbon is a calculation focused on taking corrective measures on climate change which can be deemed a form of market failure

When we emit a ton of carbon dioxide in the atmosphere, it sticks around for a while and causes warming, affecting human outcomes. The social cost of carbon is the total damage that an additional ton of CO₂ has on outcomes, converted into monetary term.

Option b is incorrect.

A carbon tax directly sets a price on carbon by defining a tax rate on greenhouse gas emissions or – more commonly – on the carbon content of fossil fuel.

Option d is incorrect.

Carbon trading is the process of buying and selling permits and credits that allow the permit holder to emit carbon dioxide.

Social Cost of Carbon: What Is It, and Why Do We Need to Calculate It? (columbia.edu)

Q.16) Which of the following Directives is/are outside the Part IV of the Indian Constitution?

- Provision of adequate facilities for instruction in the mother-tongue at the primary stage of education.
- Protection and improvement of the environment
- Promotion and development of Hindi language
- Distribution of material resources of the community in an equitable manner.
- Consideration of the claims of the members of the Scheduled Tribes in the making of appointments to public services.

Select the correct answer using the codes given below:

- 1 and 5 only
- 2, 3 and 4 only
- 1, 3 and 5 only
- 1, 3, 4 and 5 only

Ans) c

Exp) Option c is the correct answer.

There are certain directives that are **outside of Part IV of the Indian Constitution**. They are also important principles that guide the governance of the country. There are some other Directives contained in other Parts of the Constitution. They are:

Option 1 is correct: Instruction in mother tongue is outside Part IV of the Constitution. It states that- It shall be the endeavour of every state and every local authority within the state to **provide adequate facilities for instruction in the mother-tongue at the primary stage of education to children** belonging to linguistic minority groups (Article 350-A in Part XVII).

Option 2 is incorrect: Protection and improvement of the environment and to safeguard forests and wild life in the country is a **part of DPSP under Article 48A**.

Option 3 is correct: Development of the Hindi Language is outside Part IV of the Constitution. It shall be the duty of the Union to **promote the spread of the Hindi language and to develop it so that it may serve as a medium of expression** for all the elements of the composite culture of India (Article 351 in Part XVII).

Option 4 is incorrect: Similarly, distribution of material resources of the community for the common good in an equitable manner is also a **part of DPSP under Article 39**.

Option 5 is correct: Claims of SCs and STs to Services is outside Part IV of the Constitution. The claims of the **members of the Scheduled Castes and the Scheduled Tribes shall be taken into consideration**, consistently with the maintenance of efficiency of administration, in the **making of appointments to services** and posts in connection with the affairs of the Union or a State (Article 335 in Part XVI).

Source: Laxmikanth

Q.17) Which among the following constitutional rights are **not** contained in the Part III (Fundamental Rights) of the Indian Constitution?

1. Universal Adult Suffrage
2. Levying of tax only by the authority of law
3. Right to Free Legal Aid
4. Right against Untouchability

Choose the correct answer from the codes given below:

- a) 1 only
- b) 1, 2 and 3 only
- c) 1 and 2 only
- d) 2, 3 and 4 only

Ans) c

Exp) Option c is the correct answer.

All Fundamental Rights are the Constitutional Rights, but vice versa need not be true. Despite, Fundamental Rights being part of the Constitutional Rights, there are differences between them. Amendment of Fundamental Rights requires special majority, but amendment to constitutional rights may not require a special majority. Besides, Supreme Court can issue writ only for the enforcement of the Fundamental rights.

Option 1 is correct: Article 326 in part XV deals with adult suffrage. It states that elections to the House of the People and to the Legislative Assemblies of States to be on the basis of adult suffrage.

Option 2 is correct: Article 265 in Part XII states that no tax can be levied except by the authority of law. In other words, levying of any tax must be based on a statute and it can only be imposed by an authority authorized under as such under a statute.

Option 3 is incorrect: Right to free legal aid falls under Article 21 of the Part III of the Constitution which provides Right to Life and Personal Liberty. In **Menaka Gandhi vs. Union of India case (1978)**, the scope of Article 21 has been expanded by the Supreme Court to include various rights such as right to free legal aid,

right to fair trial, right to privacy, etc. In **M.H. Hoskot vs. State of Maharashtra**, Supreme Court reaffirmed that the right to free legal aid is the duty of the government and is implicit aspect of Article 21.

Option 4 is incorrect: Right against Untouchability has been provided under **Article 17 of Part III of the Indian Constitution**. Article 17 aims to abolish untouchability and forbid its practice in any form. The word 'untouchability' has not been defined under the Constitution.

Knowledge Base: Other important rights outside Part III of the Constitution are:

- 1) **Article 300-A (Part XII):** No person shall be deprived of his property except by the authority of the law.
- 2) **Article 301 (Part XIII):** Trade, commerce and intercourse throughout the territory of India shall be free.

M. Laxmikanth

Q.18) The understanding of 'reasonableness' of a restriction on Fundamental Rights helps Courts in deciding the constitutionality of a statute. In this context, consider the following statements:

1. The Supreme Court has laid down a general framework for the 'reasonableness test', which is applicable to all cases.
2. Prevailing social values can be considered while deciding 'reasonableness' of a law.

Which of the statements given above is/ are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) b

Exp) Option b is the correct answer.

Statement 1 is incorrect: In the **State of Madras vs. VG Row**, it has been held that the test of reasonableness **should be applied in the context of each statute concerned and no abstract standard or general pattern of reasonableness can be laid down as applicable to all the cases**. In other words, the 'reasonableness' has to be decided on a case-to-case basis. There are precedents, but the **Court has not laid down a general framework** for the reasonableness test applicable to all the cases. It will vary with **changing conditions, values of human life, social philosophy of the Constitution and so on**.

Statement 2 is correct: In the **State of UP vs. Kaushailiya**, Supreme Court has held that prevailing social values and social needs which are intended to be satisfied by the restrictions also help in deciding 'reasonableness' of a law. These social needs and values should be, therefore, kept in mind while deciding the constitutionality. Hence the given statement is correct.

Knowledge Base: **Other considerations in deciding reasonableness can be:**

- 1) The Directive Principles of State Policy (DPSP)
- 2) Arbitrariness and excessiveness of the restrictions
- 3) Balance between restrictions imposed and the social control envisaged.
- 4) Proximity between restrictions and the objects to be achieved.

Q.19) In 1999, the Verma Committee was appointed. What was the purpose of the committee?

- To examine the political and administrative structure in the district for the purpose of district planning.
- To look into the issue of Centre-State relations.
- To look into the issues of linguistic and religious minorities in India.
- To identify the existence of legal provisions for implementation of the fundamental duties.

Ans) d

Exp) Option d is the correct answer.

The **Verma Committee** on Fundamental Duties of the Citizens (1999) **identified the existence of legal provisions for the implementation of some of the fundamental duties.**

Option a is incorrect. Thungon Committee: In 1988, a sub-committee of the Consultative Committee of Parliament was constituted under the chairmanship of P.K. Thungon to examine the political and administrative structure in the district for the purpose of district planning.

Option b is incorrect. Sarkaria Commission: was set up in 1983 by the central government to examine the central-state relationship.

Option c is incorrect. Ranganath Misra Commission: National Commission for Religious and Linguistic Minorities, also called as Ranganath Misra Commission was constituted by Government of India in 2004 to look into various issues related to Linguistic and Religious minorities in India.

Source: M Laxmikanth, chapter-Fundamental duties

Q.20) Consider the following pairs:

Initiatives	Objectives
1. Hydrogen Valley Platform	Optimization of hydrogen demand and supply by onsite generation and utilization
2. Three Material Acceleration Platforms	To develop Methanol-based energy resources with viable technological solutions
3. Integrated Biorefineries Mission	Replacing fossil-based fuels with bio-based alternatives.

Which of the pairs given above is/are correctly matched?

- 1 only
- 2 only
- 2 and 3 only
- 1 and 3 only

Ans) d

Exp) Option d is the correct answer.

This question is based on the article “**Union Minister launches a major futuristic PPP mode initiative for ‘Clean Energy’ with the full launch of “Mission Integrated Biorefineries” to accelerate Clean Energy solutions through Public-Private Alliance**” published in **PIB** on **4th April 2022**.

Pair 1 is correctly matched: Hydrogen Valley Platform is a global initiative to optimize the **hydrogen demand and supply by onsite generation and utilization**. The platform utilizes renewable resources

effectively, and water in excess areas with geographical identity. The Hydrogen Valleys Platform has been prepared for the Fuel Cells and Hydrogen 2 Joint Undertaking. This Joint Undertaking receives support from the European Union's Horizon 2020 research and innovation programme, Hydrogen Europe and Hydrogen Europe Research.

Pair 2 is incorrectly matched: Three Material Acceleration Platforms were launched at the MI Annual Gathering session on 4th April 2022, where new Energy Innovation Collaborations were announced. It has been **set up by the Department of Science and Technology (DST)**. These platforms would **leverage emerging capabilities in next-generation computing, artificial intelligence (AI) and machine learning and robotics** to accelerate the pace of **materials discovery** up to 10 times faster.

Pair 3 is correctly matched: Integrated Biorefineries Mission is **co-Led by India and Netherlands** It aims to **develop and demonstrate innovative solutions to accelerate the commercialization of integrated biorefineries**, with a target of **replacing 10% of fossil-based fuels, chemicals and materials with bio-based alternatives by 2030**.

The mission is a **PPP (Public Private Participation) mode initiative** that unites countries, international organizations, the corporate sector, academic institutions and civil society to accelerate innovation for renewable fuels, chemicals, and materials for a low-carbon future.

Source: <https://blog.forumias.com/union-minister-launches-a-major-futuristic-ppp-mode-initiative-for-clean-energy-with-the-full-launch-of-mission-integrated-biorefineries-to-accelerate-clean-energy-solutions-thro/>

Integrated Clean Energy Material Acceleration Platform launched & funding opportunity announced for Hydrogen Valley Platform at MI meeting | Department Of Science & Technology (dst.gov.in)

Q.21) According to the Article 20 of Part III of the Indian Constitution, which of the following statements is/ are correct regarding the right of 'protection against self-incrimination'?

1. It provides that a person accused of any offence shall not be compelled to be a witness against himself.
2. It extends only to the civil proceedings and not to the criminal proceedings.
3. It provides that an accused cannot be compelled to submit his thumb impression or blood specimen.

Which of the statements given above is/ are correct?

- a) 1 only
- b) 1 and 2 only
- c) 1 and 3 only
- d) 2 and 3 only

Ans) a

Exp) Option a is the correct answer.

Article 20 of the Part III of the Indian Constitution deals with 'Protection in Respect of Conviction for Offences'. This right is available to **citizens, foreigner and the legal persons** like company etc. The Article covers three rights-

- 1) **No ex-post-facto law:** According to this, a person shall be convicted of any offence, except for the violation of a law in force during the commission of an offence. It also provides that no penalty can be levied which is greater than the one prescribed under the law in force at the time of commission of the offence
- 2) **No double jeopardy:** A person cannot be punished/ penalized more than once for the same offence
- 3) **No self-incrimination:** A person cannot be compelled to be a witness against himself.

Statement 1 is correct: According to Article 20, No person accused of any offence shall be compelled to be a witness against himself. According to the 180th Report of the Law Commission, the right to silence has

various facets. One of them is the right of the accused against self-incrimination. In other words, an individual cannot be compelled to be a witness in his own case by giving oral or the written evidence. The Code of Criminal Procedure also gives defendant the right to remain silent.

Statement 2 is incorrect: The right against self-incrimination is available **only during criminal proceedings and not during civil proceedings or the proceedings which are not criminal in nature.** In America, the constitutional provision applies alike to both the civil and the criminal proceedings.

Statement 3 is incorrect: The protection under Article 20 does not extend to:

- 1) Compulsory production of material objects
- 2) Compulsion to give blood specimen, thumb impression, specimen signature.
- 3) Compulsory exhibition of body

Source: M Laxmikanth (Pg. 7.11, Chapter 7)

<https://indiankanoon.org/doc/10337889/#:~:text=In%20India%2C%20the%20right%20against,be%20follwowed%20in%20criminal%20cases.>

Q.22) Consider the following statements regarding the writ jurisdiction of the Supreme Court and the High Court:

1. High Courts have more discretion in the exercise of writ jurisdiction as compared to the Supreme Court.
2. Supreme Court has wider territorial jurisdiction than the High Courts for the purpose of issuing writs.
3. Parliament cannot curtail the writ jurisdiction of Supreme Court, but it can curtail the writ jurisdiction of the High Courts.

Which of the statements given above is/ are correct?

- a) 1 and 2 only
- b) 2 only
- c) 1 and 3 only
- d) 3 only

Ans) a

Exp) Option a is the correct answer.

There are major differences in the writ jurisdiction of the Supreme Court and the High Court. **Supreme Court (under Article 32) can issue writs only on the matters regarding the violation of the Fundamental rights. On the other hand, High Courts have wider jurisdiction (under Article 226) as they can issue writs also on the matters other than the Fundamental Rights.**

Statement 1 is correct: Article 32 in itself is a Fundamental right. Hence, the remedies (i.e., writs) contained in the Article 32 may not be refused by the Supreme Court. However, remedy under Article 226 is discretionary. So High Court can refuse to exercise its writ jurisdiction. Hence, a High Court has more discretion regarding issuance of writs.

Statement 2 is correct: The Supreme Court is empowered to issue writs against a person/ government **throughout the territory of India.** On the other hand, High Court can issue writs against a person/ government within its territorial jurisdiction. It can issue writ outside its territorial jurisdiction only if the cause of action arises in its territorial jurisdiction. Hence, Supreme Court has wider territorial jurisdiction.

Statement 3 is incorrect: In the **Chandra Kumar Case (1997)**, the Supreme Court held that the writ jurisdiction of both the High Courts and the Supreme Court is a **part of basic structure** of the constitution. Hence, it cannot be taken away even by the way of the Constitutional Amendment. In other words, **Parliament cannot curtail the writ jurisdiction either of the High Court or the Supreme Court.**

Source: M. Laxmikanth (Page 7.19, Chapter 7)

Q.23) With reference to ‘Part IV of Indian Constitution’, consider the following statements:

1. Constitution has classified Directive Principles into three broad categories, viz, socialistic, Gandhian and liberal–intellectual.
2. All the public authorities in India should keep in mind the ideals of directives while formulating policies and enacting laws.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) b

Exp) Option b is the correct answer.

The Directive Principles of State Policy are enumerated in Part IV of the Constitution from Articles 36 to 51. They impose a moral obligation on the state authorities for their application, but the real force behind them is political, that is, public opinion.

Statement 1 is incorrect: The Constitution **does not contain any classification of Directive Principles**. However, on the basis of their content and direction, they can be classified into three broad categories, viz, socialistic, Gandhian and liberal–intellectual.

Statement 2 is correct: The phrase ‘Directive Principles of State Policy’ denotes the **ideals that the State should keep in mind while formulating policies and enacting laws**. These are the constitutional instructions or recommendations to the State in legislative, executive and administrative matters. According to Article 36, the term ‘State’ in Part IV has the same meaning as in Part III dealing with Fundamental Rights. Therefore, it **includes the legislative and executive organs of the central and state governments, all local authorities and all other public authorities in the country**.

Source: Laxmikanth

Q.24) With reference to ‘Fundamental Rights and Directive Principles of State Policy (DPSP)’, consider the following statements:

1. DPSPs promote the welfare of the community, whereas Fundamental Rights promote the welfare of the individuals, in general.
2. Unlike in case of violation of Fundamental rights, the courts cannot declare a law violative of any of the DPSPs as unconstitutional.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) c

Exp) Option c is the correct answer.

Fundamental Rights (FRs) and Directive Principles of State Policy (DPSPs) are two important provisions in the Constitution of India. The Directive Principles along with the Fundamental Rights contain the philosophy of the Constitution and is the soul of the Constitution.

Statement 1 is correct: DPSPs are guidelines and principles that are aimed at promoting the **social, economic, and political welfare of the community as a whole**. They include provisions for ensuring adequate means of livelihood, equal pay for equal work, protection of the environment, provision of education and health services, and promotion of social justice.

On the other hand, **FRs are guaranteed to every individual by the Constitution of India**. They include the right to equality, right to freedom, right against exploitation, right to freedom of religion, cultural and educational rights, and right to constitutional remedies. The aim of FRs is to protect the individual liberties and freedoms of the citizens and to ensure social, economic, and political justice.

Statement 2 is correct: If a law violates any of the FRs, a citizen can approach the courts and seek redressal for the violation. The courts **have the power of judicial review and can declare any law or executive action that violates FRs as unconstitutional and void**.

However, if a law violates any of the DPSPs, a citizen cannot approach the courts and seek redressal for the violation. DPSPs are non-justiciable in nature, which means that they are not enforceable by the courts. **The courts cannot declare a law violative of any of the DPSPs as unconstitutional and void.**

Source: Laxmikanth

Q.25) Consider the following statements:

Statement 1: Polar Sea ice is important for maintaining global temperatures on our planet.

Statement 2: Polar Sea ice reflects majority of the sunlight that strikes its surface.

Which one of the following is correct in respect of the above statements?

- Both Statement 1 and Statement 2 are correct and Statement 2 is the correct explanation of Statement 1.
- Both Statement 1 and Statement 2 are correct but Statement 2 is not the correct explanation of Statement 1.
- Statement 1 is correct but Statement 2 is not correct.
- Statement 1 is not correct but Statement 2 is correct.

Ans) a

Exp) Option a is the correct answer.

This question is based on the article **“Explained | Arctic Sea ice peaked on February 25 this year. Why Is that important?”** published in **The Hindu** on **1st April 2022**. Arctic sea ice has appeared to have hit its annual maximum extent on February 25, 2022, after growing through the fall and winter. According to National Snow and Ice Data Centre (NSIDC), this year’s Arctic Sea ice wintertime extent is the 10th-lowest in the satellite record.

Statements 1 and 2 are correct: Polar Sea ice is important to **maintain global temperatures**. This is because **sea ice reflects 80% of the sunlight that strikes its surface**, thus keeping the polar regions cool.

Once the ice melts in the summer, the dark surface of the ocean is exposed, and it absorbs 90% of the sunlight that falls on it. This causes a rise in the temperature of the polar region.

Moreover, small temperature changes at the poles can lead to greater warming over time, making polar regions extremely sensitive to climate change. The loss of sea ice can accelerate global warming.

Source: <https://blog.forumias.com/explained-arctic-sea-ice-peaked-on-february-25-this-year-why-is-that-important/>

How does the temperature of ocean water vary? : Ocean Exploration Facts: NOAA Office of Ocean Exploration and Research

Q.26) Consider the following statements regarding the Fundamental Duties enshrined in the Constitution of India:

- The Fundamental Duties in the Indian Constitution are inspired from the Irish Constitution.
- In 1976, the Balwant Rai Mehta committee recommended for the inclusion of Fundamental Duties.
- The Fundamental Duties were added by 42nd and 86th Constitutional Amendment Acts.
- Fundamental Duties are applicable to both Indian Citizens and Non-Citizens.

Which of the statements given above is/are correct?

- a) 3 only
- b) 1 and 4 only
- c) 3 and 4 only
- d) 1, 2 and 3 only

Ans) a

Exp) Option a is the correct answer.

Statement 1 is incorrect: The Indian Constitution is inspired from the Constitution of Countries like UK, USSR, USA, Ireland, Japan, Canada, etc. The Part IV A of Indian Constitution that is the **Fundamental Duties** are **inspired** from the Constitution of **Soviet Union (USSR)**.

Statement 2 is incorrect and Statement 3 is correct: Originally, the Indian Constitution did not contain **Fundamental Duties**. In 1976, the Congress Party setup the **Sardar Swaran Singh committee to make recommendation about Fundamental Duties**. The recommendation of the committee was accepted by the Government and **42nd Constitutional Amendment Act added a new part, namely Part IV A (Fundamental Duties) to the Constitution of India**. It added 10 Fundamental Duties. The 86th Constitutional Amendment Act of 2002 added one more fundamental duty.

Statement 4 is incorrect: Unlike some of the **Fundamental Rights** that are **applicable** to all persons whether **Citizens or Foreigners**, **The Fundamental Duties** are confined **only to Citizens of India**.

Source: Chapter 9: Fundamental Duties of Indian Polity by M. Laxmikant

Q.27) With reference to 'Co-operative Societies in India', consider the following statements:

1. The subject of Co-operative Societies falls under concurrent list in Seventh Schedule of Indian Constitution.
2. The Constitution directs the state to promote voluntary formation and autonomous functioning of co-operative societies.
3. Right to form co-operative societies a fundamental right under Constitution of India.
4. Recently, Supreme Court of India has declared the entire Part IXB of Indian constitution as unconstitutional.

Which of the statements given above is/are correct?

- a) 1 only
- b) 1 and 4 only
- c) 2 and 3 only
- d) 1, 2 and 4 only

Ans) c

Exp) Option c is the correct answer.

Recently, Supreme Court in a 2:1 majority verdict upheld the validity of the 97th constitutional amendment but struck down a part inserted by it which relates to the Constitution and working of cooperative societies.

Statement 1 is incorrect: The subject of cooperative societies **fell in the state list under the Seventh Schedule of Indian Constitution** and "belongs wholly and exclusively to the State legislatures to legislate upon".

Statement 2 is correct: The 97th Amendment Act of 2011 added a new Directive Principle relating to co-operative societies. It requires the state to **promote voluntary formation, autonomous functioning, democratic control and professional management of co-operative societies (Article 43B)**.

Statement 3 is correct: The 97th Constitutional Amendment Act of 2011 gave a constitutional status and protection to co-operative societies. In this context, it made the following three changes in the constitution:

- 1) It made the right to **form co-operative societies a fundamental right** (Article 19).
- 2) It included a new Directive Principle of State Policy on promotion of co-operative societies (Article 43-B2).
- 3) It added a new Part IX-B in the Constitution which is entitled “The Co-operative Societies” (Articles 243-ZH to 243-ZT)

Statement 4 is incorrect: Supreme Court struck down **only a part inserted by 97th Constitutional Amendment** which relates to the Constitution and working of cooperative societies. Now, **Part IXB of the Constitution of India is operative only in so far as it concerns multi-State co-operative societies** both within the various States and in the Union territories of India. SC had said if the Centre wanted to achieve **uniformity (the reason for Amendment, as quoted by Centre)** then the only way available was to take the **recourse under Article 252 of the Constitution** which deals with the power of Parliament to legislate for two or more states by consent.

Q.28) Even though ‘Directive Principles of State Policy’ (DPSP) are fundamental in the governance of the country, they are non-justiciable in nature. Which one of the following is the most appropriate reason for this?

- a) To avoid conflict between the Fundamental Rights and DPSP
- b) No sufficient financial resources at the time of enactment of the constitution
- c) To ensure that the judiciary does not encroach upon the domain of the legislative branch.
- d) Inadequate development of democratic culture in the country

Ans) b

Exp) Option b is the correct answer.

Article 37 of Indian Constitution defines the nature of DPSP. It states that **DPSPs are not enforceable in the courts but at the same time, it defines DPSPs as a duty of the state**. Moreover, the same Article defines DPSPs as principles that are **fundamental to the governance of any country**. It shows the relevance and significance of DPSPs in the constitution and in the governance of a country.

DPSPs were not made justiciable because **India did not have sufficient financial resources**. Moreover, its backwardness and diversity were also a hindrance in implementing these principles at that time. At the time of the drafting of the Constitution, India was a newly born independent state and was struggling with other issues and making DPSPs justiciable would have put India in great difficulty.

Q.29) Consider the following statements with reference to the Fundamental rights of Indian Constitution and the Bill of Rights of the USA:

1. While taking away the rights of an individual, Indian constitution follows the due process of law while America follows the process established by law.
2. Unlike the Indian Constitution, the Right to freedom of press is explicitly mentioned in the Bill of Rights.
3. Unlike Indian Constitution, the Right to Property is a fundamental right in the Bill of Rights.

Which of the above given statement is/are correct?

- a) 2 only
- b) 2 and 3 only
- c) 1 and 2 only
- d) 1 and 3 only

Ans) b

Exp) Option b is the correct answer.

The Americans adopted the Bill of Rights into their Constitution in the form of 10 amendments in 1791. While, Part III of the Indian Constitution contains the Fundamental Rights (Articles 12–35).

Statement 1 is incorrect: In the United States, no person's life and liberty can be deprived without following the due process of law, **in India on the other hand the life and personal liberty can be taken away only according to the procedure established by law. Only in case of depriving someone of Right to Life, the Supreme Court introduced the concept of due process of law in Maneka Gandhi Case.**

Statement 2 is correct: In the United States, the **First Amendment** guarantees **press freedom**, whereas in India, it is implicit in **Article 19(1)(a)**, which guarantees **freedom of speech and expression**.

Statement 3 is correct: The **right to property** was **abolished** as a fundamental right in India in 1978, but it is **still a fundamental right in the United States** and as per the bill of rights, no property can be taken away without just compensation.

Q.30) Regarding the Kodavas, an ethnolinguistic group, consider the following statements:

1. They are only found in the hilly regions of Nagaland and Arunachal Pradesh.
2. In India, the group is permitted to carry firearms without a license.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) b

Exp) Option b is the correct answer.

Researchers have published a book titled “A Place Apart: Poems from Kodagu”. It is a bilingual edition of 21 poems by Appanna. This book will help spread awareness about the endangered Kodava takke language.

Statement 1 is incorrect: Kodavas are an **ethnolinguistic group** from the region of **Kodagu (Coorg) in Karnataka**. They speak the Kodava language. Kodavas are **traditionally land-owning agriculturists** and patrilineal, with martial customs.

Statement 2 is correct: Kodavas worship **ancestors and weapons**. They are among the **ones in India permitted to carry firearms without a license**. As per the exemption, continuing from the British-era rule, the people from the hill district of Kodagu can possess pistols, revolvers and double-barrelled shotguns without a licence.

Knowledge Base: Kodava takke belongs to the Dravidian group of languages. This language doesn't have a script. But over the years, it has found its way into a written form through Kannada.

The language has been classified as an Endangered Language by UNESCO as it is spoken by just 166,187 people according to the 2001 census.

Several factors have contributed to the Kodava language becoming endangered. For instance, with the coming of the Haleri dynasty, Kannada became the language of communication, the language of the court

and state. The language took a further back seat when the British introduced Kannada as the medium of education.

Karnataka HC upholds Arms Act exemption for Kodavas: History behind community's right to own guns without a licence (firstpost.com)

Q.31) Consider the following actions:

1. The policy of non-alignment and Panchsheel followed by India in international relations.
2. Enactment of old age pension schemes by state governments.
3. Supreme Court restraining governmental actions in order to protect privacy of an individual.
4. Central legislation to protect the monuments, places and objects of national importance.

Which among the actions given above can be regarded as the implementation of 'Directive Principles of State Policy' in India?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1, 2 and 4 only
- d) 1 and 4 only

Ans) c

Exp) Option c is the correct answer.

The Directive Principles of State Policy are enumerated in Part IV of the Constitution from Articles 36 to 51. They require legislation for their implementation. They are not automatically enforced.

Statement 1 is correct: The policy of non-alignment and Panchsheel followed by India in international relations is a policy decision and reflects the principle of promoting international peace and cooperation, which is one of the **DPSP under Article 51**.

Statement 2 is correct: Enactment of old age pension schemes by state governments **reflects the DPSP in Article 41**, which states that the State shall provide public assistance in certain cases (secure the right to work, to education and to public assistance in cases of unemployment, **old age, sickness and disablement**).

Statement 3 is incorrect: The Supreme Court restraining governmental actions in order to protect privacy of an individual **does not directly reflect any specific DPSP**. It reflects the Fundamental Right under Article 21 of Indian Constitution.

Statement 4 is correct: The Central legislation to protect the monuments, places and objects of national importance reflects the DPSP in Article 49, which states that the State shall protect monuments and places and objects of national importance.

Source: Laxmikanth

Q.32) Which of the following are the Liberal–Intellectual Principles under the Directive Principles of State Policy?

1. Securing for all citizens a uniform civil code throughout the country.
2. Promoting cottage industries on an individual or co-operation basis in rural areas.
3. Maintaining just and honorable relations between nations and promoting international peace.
4. Taking steps to secure the participation of workers in the management of industries.

Select the correct answer using the codes given below:

- a) 1 and 3 only
- b) 1, 2 and 4 only
- c) 2 and 4 only
- d) 2, 3 and 4 only

Ans) a

Exp) Option a is the correct answer.

The Constitution **does not contain any classification of Directive Principles**. However, on the basis of their content and direction, they can be **classified into three broad categories, viz, socialistic, Gandhian and liberal-intellectual**.

Statement 1 and 3 are correct: Liberal-Intellectual Principles included in this category represent the **ideology of liberalism**. They direct the state:

- 1) To **secure for all citizens a uniform civil code throughout the country (Article 44)**.
- 2) To provide early childhood care and education for all children until they complete the age of six years⁹ (Article 45).
- 3) To organise agriculture and animal husbandry on modern and scientific lines (Article 48). 4. To protect and improve the environment and to safeguard forests and wild life¹⁰ (Article 48 A).
- 4) To protect monuments, places and objects of artistic or historic interest which are declared to be of national importance (Article 49).
- 5) To separate the judiciary from the executive in the public services of the State (Article 50).
- 6) To **promote international peace and security and maintain just and honourable relations between nations**; to foster respect for international law and treaty obligations, and to encourage settlement of international disputes by arbitration (Article 51)

Statement 2 is incorrect: Promotion of cottage industries on an individual or co-operation basis in rural areas are **based on Gandhian ideology**. They represent the programme of reconstruction enunciated by Gandhi during the national movement.

Statement 4 is incorrect: Taking steps to secure the participation of workers in the management of industries reflect the **ideology of socialism**. It lay down the framework of a democratic socialist state, aim at providing social and economic justice, and set the path towards welfare state.

Source: Laxmikanth

Q.33) Consider the following statements with reference to the amendability of Fundamental Rights in India:

1. Presently, the Parliament has unlimited power to amend the Fundamental Rights in India.
2. In the Golaknath Case (1971), the Supreme Court had held that the parliament does not have power to amend Fundamental Rights.
3. In the Minerva Mills Case, the Supreme Court held that fundamental rights can be amended to give effect to directive principles.

Which of the above given statements is/are correct?

- a) 2 only
- b) 1 and 2 only
- c) 2 and 3 only
- d) 1 and 3 only

Ans) c

Exp) Option c is the correct answer.

Article 368 in Part XX of the Constitution deals with the **power of parliament to amend the constitution** and its procedures. It states that the Parliament may amend the Constitution by way of **addition, variation or repeal of any provision** in accordance with the procedure laid down for the purpose.

Statement 1 is incorrect: The Supreme Court ruled first in **1951 in Shankari Prasad Case** that the power of the Parliament to amend the Constitution under Article 368 also includes the power to amend Fundamental Rights. The word 'law' in Article 13 includes only ordinary laws and not the constitutional amendment acts.

However later on it was ruled by the Supreme Court in the Kesavananda Bharati case (1973) that the Parliament cannot amend those provisions which form the 'basic structure' of the Constitution. Thus, the parliament does not have unlimited power to amend the constitution.

Statement 2 is correct: In the Golaknath v. State of Punjab, the Supreme Court held that parliamentary powers under Article 368 were not absolute and that the Parliament cannot abridge fundamental rights as they are included under Part III, giving them a transcendental position beyond the scope of the Parliament's functioning. It further stated that any amendment taking away, abridging upon or in contravention to a fundamental right conferred by Part III is unconstitutional, thus subjecting the Parliament's powers to limitations and judicial review.

Statement 3 is correct: As per the Minerva Mills Case, if amendments to fundamental rights are consistent with the basic structural theory, the Parliament may modify the Constitution without impairing that principle. And ideally both Directive Principles and Fundamental Rights should have a harmonious construction. It also held a law made under Article 31C would be protected only if it is made to implement directives in article 39b and 39 c and not any other DPSPs. The extension to all DPSPs was declared as unconstitutional and void by the SC. Thus, in cases of a conflict between Fundamental Rights and any Directive Principles, the former would take precedence.

Source: <https://www.legalserviceindia.com/legal/article-8385-analysing-amendability-of-fundamental-rights-under-article-368-of-the-constitution.html>
https://blog.ipleaders.in/the-amendment-of-the-constitution-article-368/#Amendment_of_Fundamental_Rights

Q.34) Consider the following statements with reference to the Article 19 of the Indian Constitution:

1. Right to Privacy is a fundamental right under the Article 19.
2. Rights of a foreigner provided under Article 19 can be invoked even if he is not present in India.

Which of the above given statements is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) d

Exp) Option d is the correct answer.

Article 19 of the Indian Constitution deals with the Right to Freedom of Speech and expression.

Statement 1 is incorrect: The Supreme Court described privacy and its importance in the landmark decision of **K.S. Puttaswamy v. Union of India in 2017** that - Right to Privacy is a fundamental and inalienable right and attaches to the person covering all information about that person and the choices that he/ she makes. **The right to privacy is protected as an intrinsic part of the right to life and personal liberty under Article 21** and as a part of the freedoms guaranteed by Part III of the Constitution.

Statement 2 is incorrect: As per the Gujrat High Court, **life and liberty under Article 19 and 21 of a foreigner cannot be invoked on his behalf when the individual himself is not in India.** Also, the rights under Article 19 are available only to the citizens of India and not to foreigners.

Source: <https://www.scobserver.in/cases/puttaswamy-v-union-of-india-fundamental-right-to-privacy-case-background/>

<https://thewire.in/law/article-19-21-fundamental-rights-supreme-court>

<https://www.livelaw.in/news-updates/life-and-liberty-of-a-foreigner-cannot-be-invoked-on-his-behalf-when-the-individual-himself-is-not-in-india-gujarat-high-court-218659>

Q.35) Consider the following statements:

1. Pollen grains are male biological entities involved in sexual reproduction process in flowers.
2. Pollen enters the thoracic regions of the respiratory tract leading to poor quality of life for patients.
3. Rise in global temperature is responsible for increase in the pollen-induced respiratory allergies.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

This question is based on the article “**Indian scientists propose multi-sectoral strategies for the prevention and control of pollen allergy**” published in PIB on 31st March 2022. Indian scientists have recommended several measures for the prevention and control of pollen allergy.

Statement 1 is correct: Pollen grains are **microscopic structures, which bear androecium – a male reproductive organ of a flower**. The interior section of pollen grain contains cytoplasm along with the tube cell, which converts into a pollen tube and the generative cell releases the sperm nuclei. They are male biological entities produced by higher plant cells that are essential for sexual reproduction.

Pollen themselves are immobile and dispersion is aided by agents such as water, insects, birds and wind. Hence, they are considered as aero planktons (floating in the air) surrounding human beings.

Statement 2 is incorrect: Pollen Allergy is considered a major public health problem that causes morbidity and subsequently affects a patient’s quality of life. Pollen **due to their large size cannot enter the thoracic regions of the respiratory tract** but can affect the nasopharyngeal mucous membrane. In India, about 20-30% of the population suffers from allergic rhinitis/hay fever and approximately 15% develop asthma.

Statement 3 is correct: There are many factors responsible for the increase of pollen allergens in the atmosphere such as:

- 1) **Climate change and increase in global temperature** in the atmosphere have a significant impact on plant life-cycle events (photosynthesis and plant growth) and their physiological parameters (such as pollen production, morphology and pollen season).
- 2) Magnitude and concentration of pollen is the **change in meteorological conditions** and geographic distribution
- 3) **Rapid unplanned urbanization with high vehicular emissions** was reported to be linked with rising incidences of pollen-induced respiratory allergies.

Q.36) Consider the following statements:

1. Article 31A provides for the compensation in case of acquisition of property by the State.
2. Article 31B does not provide protection from Judicial review while Article 31A provides the same.
3. Article 31C seeks to facilitate the implementation of Article 39(b) and Article 39(c).

Which of the above given statements is/are correct?

- a) 1 only
- b) 1 and 2 only
- c) 2 and 3 only
- d) 1 and 3 only

Ans) d

Exp) Option d is the correct answer.

After the deletion of the Right to property from article 31, later on Article 31 A, B and C were added to the Indian Constitution. The **First Amendment Act, 1951 inserted Articles 31A and 31B** to the Constitution. **Article 31C was inserted in the Constitution by 25th Amendment Act, 1971.**

Statement 1 is correct: Article 31A saves five categories of laws from being challenged and invalidated on the ground of contravention of the fundamental rights conferred by Article 14 and Article 19. It includes Acquisition of estates and related rights by the State, Taking over the management of properties by the State, Amalgamation of corporations, Extinguishment or modification of rights of directors or shareholders of corporations and Extinguishment or modification of mining leases. It **also provides the guaranteed right to compensation in case of acquisition or requisition of the private property by the state.**

Statement 2 is incorrect: Article 31B protects the acts and regulations included in the Ninth Schedule from being challenged and invalidated on the ground of contravention of any of the fundamental rights. **The scope of Article 31B is wider than Article 31A as it immunizes any law included in the Ninth Schedule from the Fundamental Rights (unlike article 31A that protects only five categories).** However, the Supreme Court in its judgement in the I.R. Coelho case (2007) ruled that even laws under the Ninth Schedule would be open to scrutiny if they violated Fundamental Rights or the basic structure of the Constitution.

Statement 3 is correct: Article 31C says that no law that seeks to implement socialistic directive principles specified in Articles 39 (b) and (c), shall be declared void on the grounds of contravention of the fundamental rights conferred by Article 14 or Article 19.

Source: Indian Polity by Laxmikanth – 6th Edition, Chapter- Fundamental Rights

Q.37) Consider the following statements with reference to the Martial Law and provisions of Emergency as found in Indian Constitution:

1. Martial law affects fundamental rights as well as the distribution of legislative powers between the Centre and the states.
2. Unlike National Emergency, Martial law can be imposed only on three grounds i.e., war, external aggression or armed rebellion.
3. The definition of 'martial law' has not been mentioned explicitly in the Constitution of India.

Which of the above given statements are correct?

- a) 1 and 2 only
- b) 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) b

Exp) option b is the correct answer.

Article 34 provides for the restrictions on fundamental rights while martial law is in force in any area within the territory of India.

Statement 1 is incorrect: Martial law affects only Fundamental Rights (FRs) while National Emergency affects not only Fundamental Rights but also Centre-state relations, distribution of revenues and legislative powers between Centre and states. It may extend the tenure of the Parliament.

Statement 2 is incorrect: Martial law is imposed to restore the breakdown of law and order due to any reason. While **National Emergency can be imposed only on three grounds**—war, external aggression and armed rebellion.

Statement 3 is correct: The concept of martial law has been borrowed from English Common Law. **The definition of 'martial law' has not been mentioned explicitly in the Constitution of India. However, the provision of martial law is implicit in Article 34.** Martial law literally means 'military rule'. It refers to a situation where military authorities run the civil administration as per their own rules and regulations. Ordinary law is not adhered when martial law is under operation.

Source: Indian Polity by Laxmikanth – 6th Edition, Chapter- Fundamental Rights

Q.38) Who among the following enjoy immunities as the exceptions to the Article 14 under the Indian Constitution?

1. The Governor
2. Sovereigns of foreign country
3. Members of Parliament
4. Members of Agencies of United Nations

Select the correct answer using the code given below:

- a) 1 and 3 only
- b) 1, 2 and 4 only
- c) 2 and 3 only
- d) 1, 2, 3 and 4

Ans) d

Exp) Option d is the correct answer.

Article 14 of the Indian Constitution deals with Equality before law.

Option 1 is correct: Article 361 of the Indian constitution affords an immunity to the President of India and the state Governors. Article 361 is an exception to Article 14 (Right to Equality) of the Indian Constitution. Among its key feature is that the President or the Governor is not answerable to any court for the exercise of the powers and duties of his office.

Option 2 is correct: As an exception to the Article 14, Foreign sovereigns (rulers), ambassadors, and diplomats are exempt from prosecution in both civil and criminal courts.

Option 3 is correct: Both Member of Parliaments and State legislatures enjoy immunity as an exception to Article 14. No member of Parliament shall be liable to any proceedings in any court in respect of anything said or any vote given by him in Parliament or any committee thereof. And. Similarly, no member of the Legislature of a state shall be liable to any proceedings in any court in respect of anything said or any vote given by him in the Legislature or any committee thereof.

Option 4 is correct: The member of the United Nations Organization and its agencies are protected under diplomatic immunity.

Source: Indian Polity by Laxmikanth – 6th Edition, Chapter- Fundamental Rights

Q.39) Article 15 provides that the State shall not discriminate against any citizen on certain grounds. In this context, which among the following cannot be considered as a violation to this general rule of non-discrimination?

1. Provisions made for the advancement of Socially and Educationally backward classes of citizens.
2. Special provision providing reservation of seats for women in local bodies.

Select the correct answer using the code given below:

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) c

Exp) Option c is the correct answer.

Article 15 of the Indian Constitution prohibits discrimination on grounds only of religion, race, caste, sex, or place of birth. However, there are four exceptions to this general rule of non-discrimination.

Option 1 is correct: As per the Article 15 (4), the state is permitted to make any special provision for the advancement of any socially and educationally backward classes of citizens or for the scheduled castes

and scheduled tribes. For instance, public educational institutions may offer fee discounts or seat reservations. This provision was added by the first Amendment Act, of 1951.

Option 2 is correct: The state is permitted to make any special provision for women and children. For example, reservation of seats for women in local bodies or provision of free education for children.

Source: Indian Polity by Laxmikanth – 6th Edition, Chapter- Fundamental Rights

Q.40) With reference to India, consider the following statements:

1. When a prisoner makes out a sufficient case, parole cannot be denied to such prisoner because it becomes a matter of his/her right.

2. State Governments have their own 'Prisoner Release on Parole Rules'.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) b

Exp) Option b is the correct answer.

Statement 1 is incorrect. Parole is a system of releasing a prisoner with suspension of the sentence. **Parole cannot be claimed as a matter of right.** Parole may be denied to a prisoner even when he makes out sufficient cause for release on parole.

Parole is to be granted only on a sufficient cause such as cases of severe illness or death of any member of the prisoner's family. The granting authority for parole is the deputy home secretary of the state government.

On the other hand, **Furlough is seen as a matter of right for a prisoner**, to be granted periodically irrespective of any reason. It is granted merely to enable the prisoner to retain family and social ties, and to counter the ill-effects of prolonged time spent in prison.

Both Parole and Furlough can be denied if the competent authority is of the opinion that releasing the inmate would not be in the interest of society.

Statement 2 is correct. State governments have their own Prisoner Release on Parole Rules. 'Prisons' is a State subject under the State List of the Seventh Schedule of the Constitution.

The management and administration of prisons fall exclusively in the domain of state governments and are governed by the Prisons Act, 1894, and the Prison Manuals of the respective state governments.

The Prisons Act further says that only states can make rules regarding the release of prisoners on furlough, parole and remission, as part of the correctional process in jail reforms.

Source) UPSC Pre 2021

Q.41) Consider the following statements with reference to the recent judgment of Supreme Court regarding 103rd constitutional amendment:

1. The 50% limit set for the reservations by the Indra Sawhney Judgment cannot be breached under any circumstance.
2. Reservations of Economically Weaker Sections (EWS) does not breach the basic structure of the constitution.
3. The Supreme Court has upheld the amendments made to Article 15 and 16, relating to Economically Weaker Sections, as constitutional.
4. The Supreme Court has allowed both vertical and horizontal reservation under the EWS quota.

Which of the above given statements are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1, 2 and 4 only
- d) 1, 3 and 4 only

Ans) b

Exp) Option b is the correct answer.

Recently, the Supreme Court has upheld the validity of the 103rd Constitutional Amendment which provides 10% reservation for the Economically Weaker Sections (EWS) among forward castes in government jobs and colleges across India.

Statement 1 is incorrect: The Supreme Court has recently held that Reservations for EWS does not violate basic structure on account of 50% ceiling limit fixed by Mandal Commission because ceiling limit is not inflexible. **50% rule formed by the Supreme Court in the Indira Sawhney judgment in 1992 was “not inflexible”.** Further, it had applied only to SC/ST/SEBC/OBC communities and not the unreserved category.

Statement 2 is correct: As per the Supreme Court, the EWS quota **does not violate equality and the basic structure** of the constitution. Reservation in addition to existing reservation does not violate provisions of the Constitution. The reservation is an **instrument of affirmative action by the state for the inclusion of backward classes**. Basic structure can't be breached by enabling the state to **make provisions for education**. Reservation is instrumental not just for inclusion of socially and economically backward classes into the society **but also to class so disadvantaged**.

Statement 3 is correct: The 10% EWS quota was introduced under the 103rd Constitution (Amendment) Act, 2019 by amending Articles 15 and 16. It inserted Article 15 (6) and Article 16 (6). It is for economic reservation in jobs and admissions in educational institutes for Economically Weaker Sections (EWS). It was enacted to promote the welfare of the poor not covered by the 50% reservation policy for Scheduled Castes (SCs), Scheduled Tribes (STs) and Socially and Educationally Backward Classes (SEBC). It enables both the Centre and the States to provide reservations to the EWS of society.

Statement 4 is incorrect: EWS or Economically Weaker Section reservation is a type of vertical reservation. Vertical reservation is for the people belonging to the so-called backward classes. Horizontal reservation is for other disadvantaged groups like women, children, transgender people, people with disabilities, etc. within such groups.

Q.42) Which of the following may be considered as a correct utility of Directive Principle of State Policy under Part IV of Constitution of India?

1. They enable the opposition to exercise influence over the operations of the government.
2. They act as a shield against any arbitrary action by the state.
3. They facilitate stability in domestic policies in spite of the changes of the party in power.
4. They can serve as a crucial test for the welfare policies of the government.

Select the correct answer using the codes given below:

- a) 1 and 3 only
- b) 2 and 4 only

- c) 1, 3 and 4 only
 d) 2, 3 and 4 only

Ans) c

Exp) Option c is the correct answer.

DPSP stands for **Directive Principles of State Policy**, which are a set of guidelines and principles laid down in the Indian Constitution to direct the state in matters of social, economic, and political importance. Although DPSP confer no legal rights and create no legal remedies, are significant and useful in the many ways.

Statement 1 is correct: Directive Principles of State Policy enable the **opposition to exercise influence and control over the operations of the government**. The Opposition can blame the ruling party on the ground that its activities are opposed to the Directives.

Statement 2 is incorrect: Fundamental Rights (and not Directive Principles of State Policy) act as a shield against any arbitrary action by the state or any other entity. In contrast, the **Directive Principles of State Policy are guidelines for the government to frame policies and laws for the welfare of the people**. These principles are not enforceable by the courts. While they provide a roadmap for the government to follow, they are not legally binding and cannot be enforced in a court of law.

Statement 3 is correct: Directive Principles of State Policy facilitate **stability and continuity in domestic and foreign policies in political, economic and social spheres** in spite of the changes of the party in power.

Statement 4 is correct: The DPSPs are a **set of guidelines and principles that the government is expected to keep in mind while making policies and laws**. Since the DPSPs are not legally enforceable, it is up to the government to voluntarily implement them. The implementation of these principles can provide an indication of the government's commitment towards ensuring the welfare of the people. Therefore, the implementation of **DPSPs can serve as a crucial test for the performance of the government in terms of its commitment towards the welfare of the people**.

Source: Laxmikanth

Q.43) Consider the following statements with reference to the Article 18 of the Indian Constitution:

1. It prohibits the hereditary titles of the nobility.
2. A foreigner residing in India cannot accept any title from any other foreign state without the consent of the President.
3. No restriction is placed by Article 18 on any citizen for accepting a present or emolument from any foreign state.

Which of the above given statements is/are correct?

- a) 1 and 2 only
 b) 2 and 3 only
 c) 1 only
 d) 1 and 3 only

Ans) c

Exp) Option c is the correct answer.

Statement 1 is correct: Article 18 abolishes titles and makes provisions in that regard. The hereditary titles of nobility like Maharaja, Raj Bahadur, Rai Bahadur, Rai Saheb, Dewan Bahadur, etc., which were conferred by colonial States are banned by Article 18 as these are against the principle of equal status of all.

Statement 2 is incorrect: According to article 18(c), a foreigner holding any office of profit or trust under State cannot accept any title from any foreign state without the consent of the President. No such bars for foreigners just residing in the country.

Statement 3 is incorrect: It provides that no citizen or foreigner holding any office of profit or trust under the State is to accept any present, emolument or office from or under any foreign State without the consent of the president.

Source: Indian Polity by Laxmikanth – 6th Edition, Chapter- Fundamental Rights

Q.44) Which among the following is not a fundamental right under the Right to Freedom of Speech and Expression under the Indian Constitution?

- a) Right to propagate others' views
- b) Right to telecast
- c) Right to remain silent
- d) Right to Strike

Ans) d

Exp) Option d is the correct answer.

Article 19 guarantees to all citizens the six rights under right to freedom and expression. These are:

- 1) Right to freedom of speech and expression.
- 2) Right to assemble peaceably and without arms.
- 3) Right to form associations or unions or co-operative societies.10a
- 4) Right to move freely throughout the territory of India.
- 5) Right to reside and settle in any part of the territory of India.
- 6) Right to practice any profession or to carry on any occupation, trade or business.

Originally, Article 19 contained seven rights. But, the right to acquire, hold and dispose of property was deleted by the 44th Amendment Act of 1978. These six rights are protected against only state action and not private individuals. Moreover, these rights are available only to the citizens and to shareholders of a company but not to foreigners or legal persons like companies or corporations, etc. **The State can impose 'reasonable' restrictions on the enjoyment of these six rights** only on the grounds mentioned in the Article 19 itself and not on any other grounds. **The Supreme Court has held that though there is Right to demonstration or picketing but not right to strike.**

Source: Indian Polity by Laxmikanth – 6th Edition, Chapter- Fundamental Rights

Q.45) What is the position of the right to property in India?

- a) Legal right available to citizens only
- b) Legal right available to any person
- c) Fundamental Right available to citizens only
- d) Neither Fundamental Right nor legal right

Ans) b

Exp) Option b is the correct answer.

The Right to Property is a **legal right available to any person**. **Article 300-A** provides that **no person shall be deprived of his property save by authority of law**.

Right to Property was a Fundamental Right in the original constitution under Article 31, which provided that the Constitution not only guarantees the right of private ownership but also the right to enjoy and dispose of property free from restrictions other than reasonable restriction. It is also mentioned that compensation would be paid to a person whose property has been taken for public purposes.

The **Constitution (Forty-fourth Amendment) Act, 1978 deleted the right to property from the Fundamental Rights**. The Amendment omitted Article 31 and Article 19 (1) (f) and inserted in their place Article 300-A.

Source) UPSC CSE 2021

Q.46) Which of the following Fundamental Duties are mentioned in Part IVA of the Indian Constitution?

1. To abide by the Constitution and respect its ideals and institutions.
2. To provide for early childhood care and education to children below the age of six years.
3. To protect and improve the natural environment including forests, lakes, rivers and wild life.
4. To promote international peace and security.
5. To uphold and protect the sovereignty, unity and integrity of India.
6. To develop scientific temper, humanism and the spirit of inquiry and reform.

Select the correct answer using the code given below.

- a) 1, 4, 5 and 6 only
- b) 2, 4 and 5 only
- c) 1, 3, 5 and 6 only
- d) 1, 2, 3, 5, and 6 only

Ans) c

Exp) Option c is the correct answer.

The Fundamental Duties are intended to serve as a constant reminder to every citizen that while the Constitution conferred on them certain Fundamental Rights specifically, it also requires citizens to observe certain basic norms of democratic conduct and democratic behaviour because rights and duties are correlative.

Statements 1, 3, 5 and 6 are correct.

The **Article 51(a)** of the Indian Constitution mentions the following **Fundamental Duties**:

- 1) **to abide by the Constitution and respect its ideals and institutions, the National Flag and the National Anthem.** The Fundamental Duty does not contain any duty regarding National Song. **Hence, statement 1 is correct.**
- 2) to cherish and follow the noble ideals which inspired our national struggle for freedom;
- 3) **to uphold and protect the sovereignty, unity and integrity of India; Hence, statement 5 is correct.**
- 4) to defend the country and render national service when called upon to do so;
- 5) to promote harmony and the spirit of common brotherhood amongst all the people of India transcending religious, linguistic and regional or sectional diversities; to renounce practices derogatory to the dignity of women;
- 6) to value and preserve the rich heritage of our composite culture;
- 7) **to protect and improve the natural environment including forests, lakes, rivers and wild life, and to have compassion for living creatures; Hence, statement 3 is correct.**
- 8) **to develop the scientific temper, humanism and the spirit of inquiry and reform; Hence, statement 6 is correct.**
- 9) to safeguard public property and to abjure violence;
- 10) to strive towards excellence in all spheres of individual and collective activity so that the nation constantly rises to higher levels of endeavour and achievement;
- 11) to provide opportunities for education to his child or ward between the age of six and fourteen years.

Statements 2 and 4 are incorrect: Part IV of the Indian Constitution (Article 36–51) contains the **Directive Principles of State Policy (DPSP)**. DPSP consists of all the ideals which the State should follow and keep in mind while formulating policies and enacting laws for the country. **Following are some of DPSP mentioned in Indian Constitution.**

- 1) **Article 45** provides for **early childhood care and education to children below the age of six years.**
- 2) **Article 51** provides for the **establishment of international peace and security.**

Source: chapter 8 and 9 of Indian Polity by M. Laxmikant

Q.47) Consider the following statements regarding the significance of the Fundamental Duties:

1. They serve as warning against antinational and antisocial activities.
2. They promote a sense of discipline and commitment among the citizens.
3. They can be enforced by the Parliament through suitable legislation.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 1 and 3 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

Statements 1, 2, and 3 are correct: In spite of criticisms and opposition, the fundamental duties are considered significant from the following viewpoints:

- 1) **They serve as a warning against the antinational and antisocial activities** like burning the national flag, destroying public property and so on. **Hence, statement 1 is correct.**
- 2) They serve as a source of inspiration for the citizens and **promote a sense of discipline and commitment among them. Hence, statement 2 is correct.**
- 3) They create a feeling that the citizens are not mere spectators but active participants in the realization of national goals.
- 4) They help the courts in examining and determining the constitutional validity of a law
- 5) **The Parliament can provide for suitable legislation** to impose appropriate penalty or punishment for failure to fulfil any of them. **Hence, statement 3 is correct.**
- 6) They serve as a reminder to the citizens that while enjoying their rights, they should also be conscious of duties they owe to their country, their society and to their fellow citizens.

Source: Chapter 9: Fundamental Duties of Indian Polity by M. Laxmikant

Q.48) Article 29 of the Constitution provides for the 'Protection of Interest of Minorities'. In this context, consider the following statements:

1. This Article is applicable only to minorities.
2. Right to conserve the language under Article 29 includes the right to agitate for its protection.
3. It provides the right to establish and administer educational institutions to the minorities.

Which of the statements given above is/are correct?

- a) 2 only
- b) 1 and 2 only
- c) 2 and 3 only
- d) 1 and 3 only

Ans) a

Exp) Option a is the correct answer.

Statement 1 is incorrect: Article 29 provides for the 'Protection of Interest of Minorities'

- 1) **Article 29** provides that **any section of the citizens** residing in any part of India **having a distinct language, script or culture** of its own, **shall have the right to conserve the same.**
- 2) Further, **no citizen shall be denied admission into any educational institution maintained by the State or receiving aid out of State funds** on grounds only of religion, race, caste, or language

Article 29 grants protection to both religious minorities as well as linguistic minorities. However, **the Supreme Court held that the scope of this article is not necessarily restricted to minorities only**, as it is

commonly assumed to be. This is because of the use of words ‘section of citizens’ in the Article that include minorities as well as majority.

Statement 2 is correct: The Supreme Court also held that the right to conserve the Language under Article 29 includes the right to agitate for the protection of the language. Hence, the political speeches or promises made for the conservation of the language of a section of the citizens does not amount to corrupt practice under the Representation of the People Act, 1951.

Statement 3 is incorrect: Article 30 provides for the Right of Minorities to Establish and Administer Educational Institutions. It grants the following rights to minorities, whether religious or linguistic:

- 1) All minorities shall have the right to establish and administer educational institutions of their choice.
- 2) The compensation amount fixed by the State for the compulsory acquisition of any property of a minority educational institution shall not restrict or abrogate the right guaranteed to them.
- 3) In granting aid, the State shall not discriminate against any educational institution managed by a minority.

Thus, the protection under Article 30 is confined only to minorities (religious or linguistic) and does not extend to any section of citizens (as under Article 29).

Source: Chapter7: Fundamental Rights of Indian Polity by M.Laxmikant

Q.49) Which of the following rights are included in both Fundamental Rights of Indian constitution and Universal Declaration of Human Rights?

1. Right against arbitrary arrests
2. Prohibition of forced labour
3. Right to freely practice religion

Select the correct answer using the code given below:

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

India was a signatory to the Universal Declaration of Human Rights (1948). Thus, great precaution was taken so that Fundamental Rights as mentioned in Part 3 of Indian Constitution is concurrent with the provisions of the Universal Declaration of Human Rights.

Option 1 is correct: Article 21 of the Indian Constitution provides that **no person shall be deprived of his life or personal liberty** excepted according to procedure established by law. Similarly, as per Universal Declaration of Human Rights (UDHR), everyone has the right to life, liberty and security of person and **no one shall be subjected to arbitrary arrest**, detention or exile.

Option 2 is correct: Article 23 (1) of the Indian Constitution **prohibits traffic in human being and ‘Begar’ and other similar forms of forced labour** are prohibited and any contravention of this provision shall be an offence punishable in accordance with law. Similarly, UDHR provides that no one shall be held in slavery or servitude and the slave trade shall be prohibited in all forms.

Option 3 is correct: Article 25 (1) of the Indian Constitution provides that all persons are equally entitled to **freedom of conscience and right freely to profess, practice and propagate religion**, subject to public order, morality and health and to the provisions of this part. Similarly, according to provisions of UDHR, everyone has the right to freedom of thought, conscience and religion.

Q.50) Which of the following statements **is/are incorrect** regarding minority educational institutions (MEIs)?

1. MEIs recognised but unaided by the State are not subjected to regulatory power of state.
2. All MEIs should provide 25% reserved seats to children belonging to economically backward section of society.
3. National Eligibility-cum-Entrance Test (NEET) does not apply to unaided minority educational institutions.

Select the correct answer using the code given below:

- a) 1 and 2 only
- b) 2 only
- c) 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

Article 30 of the Indian Constitution states the right of minorities to establish and administer educational institutions. It says: “All minorities, whether based on religion or language, shall have the right to establish and administer educational institutions of their choice.”

Statement 1 is incorrect. Any minority educational institutions (MEIs) which **seek recognition from the state but not aid from the state are subjected** to regulatory power of state with regard to syllabus prescription, academic standards, discipline, sanitation etc. MEIs which **neither seek recognition from the state nor aid from the state can manage their own affairs**, but general laws, labour law, taxation law, industrial law etc still apply to these institutions.

Statement 2 is incorrect. The RTE 2009 mandates all private schools to reserve 25 per cent seats to students from economically weaker sections at the entry level.

The Supreme Court in *Society for Un-Aided Private Schools of Rajasthan v. Union of India* held that the **Right of Children to Free and Compulsory Education Act, 2009 is not applicable** to unaided minority schools. Thus, **MEIs are not** required to provide admission to children in the age group of 6-14 years up to 25% of enrolment reserved for economically backward section of society.

Statement 3 is incorrect. The Supreme Court has ruled that the National Eligibility-cum-Entrance Test (**NEET**) for admissions to these courses **would also apply to minority (both aided and unaided)** and private educational institutions. The Constitution provides a limitation on the power of the State to interfere with life, liberty and rights however, the concept of limited government cannot be extended to a level when **it defeats national interest**. So, providing central examination in the form of NEET cannot be said to be violation of the rights under Articles 19(1)(g) and 30 of the Constitution.

Q.1) Consider the following statements regarding the Central and State Information Commission:

1. The tenure of central and state information commissioners has now been reduced to 3 years.
2. The Salary of the Chief Information Commissioner at Centre will be equivalent to the salary paid to the Chief Election Commissioner.
3. The Chief Information Commissioner at Centre is eligible for reappointment.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 and 3 only
- c) 2 only
- d) 1, 2, and 3

Ans) a

Exp) Option a is the correct answer.

The Right to Information (Amendment) Act, 2019 amended the Right to Information Act, 2005. The RTI (Amendment) Act, 2019 made changes to the provision of Chief Information Commissioner (CIC) and Information Commissioners (ICs) at the central and state level.

Statement 1 is correct: The tenure of central and state information commissioners has now been **reduced from five to three years by the Central Government.**

Statement 2 is incorrect: According to Right to Information (Amendment) Act, 2019, the salary, allowances and other service conditions of the Chief Information Commissioner and an Information Commissioner shall be **such as prescribed by the Central Government.** But they cannot be varied to his disadvantage during service.

Earlier according to 2005 RTI Act states that the salary of the **CIC and ICs** (at the central level) will be equivalent to the **salary** paid to the **Chief Election Commissioner and Election Commissioners, respectively.**

Statement 3 is incorrect: The Commission consists of a Chief Information Commissioner and not more than ten Information Commissioners. **They are not eligible for reappointment.** Right to Information (Amendment) Act, 2019 has not made any changes with this regard.

Source: Chapter 57 and 58 of Indian Polity by M. Laxmikant.

<https://economictimes.indiatimes.com/news/politics-and-nation/centre-notifies-rti-rules-for-cic-ics-tenure-cut-to-3-years/articleshow/71769584.cms>

Q.2) Which of the following are not eligible for further employment under Central or State Government after their tenure is completed in their respective offices?

1. Election commissioners.
2. Chairman of Union Public Service Commission (UPSC).
3. Chairman of State Public Service Commission (SPSC).
4. Comptroller and Auditor General of India (CAG)
5. Attorney General of India.

Select the correct answer using the code given below:

- a) 2 and 4 only
- b) 1, 2, 3, and 4 only
- c) 3 and 5 only
- d) 1, 2, 3, 4, and 5

Ans) a

Exp) Option a is the correct answer.

Option 1 is incorrect: The Constitution has not debarred the retiring election commissioners from any further appointment by the government. Thus, they can take employment after their retirement.

Option 2 is correct: The chairman of UPSC (on ceasing to hold office) is not eligible.

for further employment in the Government of India or a state. A member of UPSC (on ceasing to hold office) is eligible for appointment as the chairman of UPSC or a State Public Service Commission (SPSC), but not for any other employment in the Government of India or a state.

Option 3 is incorrect: The chairman of a SPSC (on ceasing to hold office) is eligible.

for appointment as the chairman or a member of the UPSC or as the chairman of any other SPSC, but not for any other employment under the Government of India or a state. A member of a SPSC (on ceasing to hold office) is eligible for appointment as the chairman or a member of the UPSC, or as the chairman of that SPSC or any other SPSC, but not for any other employment under the Government of India or a state.

Option 4 is correct: CAG is the head of the Indian Audit and Accounts Department. S/ he is the guardian of the public purse and controls the entire financial system of the country at both the levels—the Centre and the state. S/he is not eligible for further office, either under the Government of India or of any state, after he ceases to hold his office.

Option 5 is incorrect: The Attorney General is not a fulltime counsel for the Government. He does not fall into the category of government servants. Further, he is not debarred from private legal practice. Also, not debarred from further employment.

Source: chapter 42, 43, 44, Ch 51, Ch 52 of Indian Polity by M. Laxmikant.

Q.3) Lokpal is a statutory body that performs the role of an “Ombudsman”. Consider the following statements with reference to Lokpal and Lokayuktas Act 2013:

1. Lokpal’s jurisdiction covers all categories of public servants of the Union including those belonging to Groups C and D.
2. Lokpal can Suo motu proceed against any public servant.
3. Under the act, any person can file an anonymous complaint against a public servant.
4. The Lokpal has the power of superintendence and direction over any central investigating agency.

Which of the statements given above are correct?

- a) 1, 2 and 4 only
- b) 1 and 4 only
- c) 1, 3 and 4 only
- d) 1, 2, 3 and 4

Ans) b

Exp) Option b is the correct answer.

Statement 1 is correct. The Lokpal has jurisdiction to inquire into allegations of corruption against anyone who is or has been Prime Minister, or a Minister in the Union government, or a Member of Parliament, as well as officials of the Union government under Groups A, B, C and D.

Statement 2 and 3 are incorrect. The following are the drawbacks (shortcomings) of the Lokpal and Lokayuktas Act, 2013:

- 1) **Lokpal cannot Suo motu proceed against any public servant.**
- 2) Emphasis on form of complaint rather than substance.
- 3) Heavy punishment for false and frivolous complaints against public servants may deter complaints being filed to Lokpal.
- 4) **Anonymous complaints not allowed** -Can’t just make a complaint on plain paper and drop it in a box with supporting documents.
- 5) Legal assistance to public servant against whom complaint is filed.

- 6) Limitation period of 7 years to file complaints.
 7) Very non-transparent procedure for dealing with complaints against the PM

Statement 4 is correct. The Lokpal has the power of **superintendence and direction over any central investigating agency**, including the CBI, for cases referred to them by the Lokpal.

Source: Chapter 61: Lokpal of Indian Polity by M. Laxmikant.

Q.4) The Central Bureau of Investigation (CBI) is the main investigating agency of the Central Government. Consider the following statements with reference to CBI:

1. It is a statutory body established under Delhi Special Police Establishment Act, 1946.
2. The Director of CBI is provided with four-year tenure in office.
3. It acts as the “National Central Bureau” of Interpol in India.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 3 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

The establishment of the CBI was recommended by the Santhanam Committee on Prevention of Corruption (1962–1964).

Statement 1 is incorrect. The Central Bureau of Investigation (CBI) was set up in 1963 by a resolution of the Ministry of Home Affairs. Later, it was transferred to the Ministry of Personnel and now it enjoys the status of an attached office. The CBI is **not a statutory body**. It derives its powers from the Delhi Special Police Establishment Act, 1946.

Statement 2 is incorrect. The Director of CBI has **been provided security of a two-year tenure in office by the CVC Act, 2003.**

Statement 3 is correct. The CBI **acts as the “National Central Bureau” of Interpol in India.** The Interpol Wing of the CBI coordinates requests for investigation-related activities originating from Indian law enforcement agencies and the member countries of the Interpol.

Knowledge Base: **Along with state police forces, the Special Police Establishment (SPE) (SPE is a division of CBI) enjoys concurrent powers of investigation and prosecution for offences** under the Delhi Police Establishment Act, 1946. However, to avoid duplication and overlapping of cases between these two agencies, the following administrative arrangements have been made:

- 1) The SPE shall take up such cases which are essentially and substantially concerned with the Central Government's affairs or employees, even if they also involve certain state government employees.
- 2) The state police force shall take up such cases which are substantially concerned with the state government's affairs or employees, even if they also involve certain Central Government employees.
- 3) The SPE shall also take up cases against employees of public undertakings or statutory bodies established and financed by the Central Government.

Source: Chapter 60: Central Bureau of Investigation (CBI) of Indian Polity by M. Laxmikant.

Q.5) The term ‘Event Horizon’ is sometimes seen in the news. It is a-

- a) point of no return around the black hole
- b) study of the solar and the lunar eclipses
- c) point in space where there is a mass with infinite density
- d) program to understand the origin and evolution of living organisms on the Earth

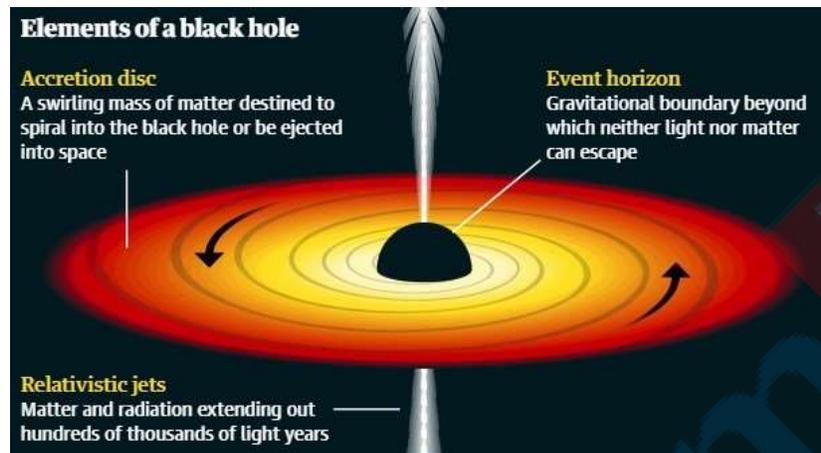

Ans) a

Exp) Option a is the correct answer.

The event horizon: It is the "point of no return" around the black hole. It is not a physical surface, but a sphere surrounding the black hole that marks where the escape velocity is equal to the speed of light. Not even light can escape the pull of the singularity once it crosses the event horizon.

That is why we cannot see the singularity at the heart of a black hole but only see points outside the event horizon.

Hence, all the physics happening within the black hole's event horizon is indeed blocked from the view of the observer.

Knowledge Base: A singularity is a point in space where there is a mass with infinite density. This would lead to a spacetime with an infinite curvature. Singularities are predicted to exist in black holes by Einstein's theory of general relativity, which is a theory that has done remarkably well at matching experimental results.

Source: <https://astronomy.swin.edu.au/cosmos/e/Event+Horizon>

Q.6) A State law made upon the subjects mentioned in the Concurrent list shall prevail over Union laws under which of the following circumstances?

1. If law made by the State legislature reserved for the consideration of the President and received his/her assent.
2. If the law made by the State legislature aims to give effect to the provisions of fundamental rights.
3. If the Supreme court of India directed states to make laws on the subject enumerated in the concurrent list.

Select the correct answer using the code given below:

- a) 1 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) a

Exp) Option a is the correct answer.

The Constitution of India provides for a threefold distribution of legislative subjects between the Union and States - **Union list (100 subjects), State list (61 subjects) and Concurrent list (52 subjects)** enshrined in the **Seventh schedule** of the constitution.

Statement 1 is correct: The laws made by the State legislative assembly may prevail over laws made by the Parliament if such laws were **reserved for the consideration of the President and received the president's**

assent. However, it would **still be competent for Parliament to override such State law** by subsequent legislation.

Statement 2 is incorrect: There is **no such exemption** given to the state legislative assembly in matters related to concurrent list. If there is conflict over centre and state laws regarding matters enumerated in the concurrent list, then centre law shall prevail.

Statement 3 is incorrect: There is **no such exceptional condition for the state laws to prevail over union law** in case of inconsistency between them with respect to concurrent list. If there is inconsistency between union and state laws, then the **union law will prevail even if those state laws were made on the directions of the Supreme court.**

Source: DD Basu – State legislature (ordinance making power of Governor)

Laxmikanth – Centre State relations

Q.7) Executive power relating to the concurrent list normally remains with the state government instead of Union government, except in a few cases. With reference to this which of the following are those conditions/cases?

1. When a law on a concurrent subject is enacted by the Parliament, then it will be executed by the Centre only.
2. If the State Legislative Assembly authorises the Union government to exercise executive power over a law made on a concurrent subject.

Which of the statement/s given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) d

Exp) Option d is the correct answer.

Article 256 to 263 in part XI of the constitution deals with the **administrative (executive) relations** between centre and states. The **executive power** has been divided between centre and state on the lines of distribution of legislative power, while in **concurrent list some novelty** has been exercised by the constitution.

Statement 1 is incorrect: The executive power over matters related to concurrent list usually remains with the state government. **A law on concurrent subjects though enacted by the Parliament is to be generally executed by the states.**

Statement 2 is incorrect: **State legislative Assembly does not have the power to authorise the Parliament** to exercise executive functions. On the contrary **Parliament can enact laws which specifically mandates the Union government to exercise executive functions** over a law on a concurrent subject.

Source: DD Basu (DISTRIBUTION OF LEGISLATIVE AND EXECUTIVE POWERS)

Q.8) To protect the interest of States in the financial matters, which of the following provisions were laid down by the Constitution of India?

1. A bill which varies any tax in which states are interested can be introduced in the Parliament only after consulting the State governments.
2. The Parliament can alter the definition of agricultural income only on the recommendation of the President.
3. A bill introduced in Parliament affecting the vertical distribution of taxes between centre and states can be introduced only on the recommendation of the Finance commission.

4. A bill that imposes any surcharge on tax for the purpose of the centre can be introduced in the Parliament only on the recommendation of the President.

Select the correct answer using the code given below:

- a) 1 and 4 only
- b) 2, 3 and 4 only
- c) 2 and 4 only
- d) 1, 2, 3 and 4

Ans) c

Exp) Option c is the correct answer.

To protect the interest of states in the financial matters, the Constitution lays down that the following **bills** can be introduced in the Parliament only on the **recommendation of the President**:

- 1) A bill which **imposes or varies any tax** or duty in which states are interested;
- 2) A bill which varies the meaning of the expression **'agricultural income'** as defined for the purposes of the enactments relating to Indian income tax.
- 3) A bill which affects the **principles** on which money is **distributable to states**.
- 4) A bill which imposes any **surcharge** on any specified tax or duty for the **purpose of the Centre**

Statement 1 is incorrect: A bill which varies any tax in which states are interested shall be introduced in the Parliament only on the **recommendation of the President (not after consultation with state governments)**.

Statement 2 is correct: A bill which proposes to alter the meaning of agriculture income must be introduced in the Parliament on the **recommendation of the President**.

Statement 3 is incorrect: The bill affecting the principles on which money is distributed between centre and states **need not to be recommended by the Finance Commission**, rather such bill can be introduced in the Parliament only after the **recommendation of the President**.

Statement 4 is correct: It is true that the **bill which imposes any surcharge** on tax for the purpose of the centre can be introduced in the **Parliament only on the recommendation of the President**. **As the proceeds of surcharge are not shared with the states, so the divisible pool of finance from centre to states would be affected. Thus, states would be getting lesser share negatively impacting their finances.**

Source: Laxmikanth - Centre State Relations (Protection of States' interests)

Q.9) With reference to financial relations between the Centre and States, consider the followings statements:

- 1. While the central government can borrow anywhere within India, the state governments can borrow only within the boundaries of the concerned state.
- 2. Normally a state cannot raise any loan without the consent of the centre.
- 3. The loans given to states by centre are charged on the consolidated fund of India.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 3 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

The **constitution of India** lays down certain **provisions** with respect to the borrowing powers of the centre and the states.

Statement 1 is incorrect: While it is true that the **centre government can raise money anywhere within the country** or outside India, it is incorrect to say that states can raise money only within their respective boundaries. **States can raise money anywhere within India.**

Statement 2 is incorrect: **Normally a state can raise a loan without the consent of the centre government.** It is **mandatory** for states to take central government's consent for raising any loan if the **state owes any outstanding liabilities to the central government.**

Statement 3 is correct: The **loans** granted by the Centre government to states is **charged on the consolidated fund of India.**

Q.10) With reference to Liquid Nano Urea, consider the following statements:

1. It can easily penetrate through leaf stomatal pores.
2. It has shorter shelf life of 3 months
3. Its efficiency is as high as 90% compared to conventional Urea
4. It carries no subsidy to the farmers
5. The Ministry of Chemicals and fertilizers have launched it.

Which of the statements given above is/are correct?

- a) 1, 3 and 4 only
- b) 1, 2, 3 and 5 only
- c) 2, 4, and 5 only
- d) 1, 2, 3, 4 and 5

Ans) a

Exp) Option a is the correct answer.

Liquid nano Urea is a patented chemical nitrogen fertilizer developed by IFFCO's Nano Biotechnology Research Centre at Kalol with nano nitrogen particles (from 20-50 nm).

Statement 1 is correct: It is sprayed directly on the leaves of plants and easily gets absorbed by the stomata-pores found on the epidermis of leaves.

Statement 2 is incorrect: Liquid nano urea has a **shelf life of a year** and farmers need not be worried about "caking" (dry or harden into a solid mass) when it encounters moisture.

Statement 3 is correct: The efficiency of liquid nano urea is as high as 85-90% in comparison to 25% of conventional urea.

Statement 4 is correct: At present there is no subsidy on liquid nano Urea and farmer pays around Rs 240 for a half-liter bottle. By contrast, a farmer pays around Rs 300 for a 50-kg bag of heavily subsidized urea.

Statement 5 is incorrect: Indian Farmers Fertilizer Cooperative Limited (IFFCO) has launched the world's first Nano Urea Liquid. IFFCO is one of the India's biggest cooperative societies wholly owned by Indian Cooperatives.

Source: <https://nanourea.in/en/nano-urea#Benefits>

<https://blog.forumias.com/explained-what-is-liquid-nano-urea-produced-by-iffco-which-can-potentially-revolutionize-the-use-of-nitrogen-fertilizers-in-india/>

Q.11) With reference to consequences of emergency provisions on the legislative relations between centre and states, consider the following statements:

1. Upon proclamation of National emergency, the state legislatures are prohibited to make laws on matters related to state lists.
2. Laws made by the Parliament will continue to be operative even after revocation of the President's rule.
3. Upon proclamation of President's rule, generally the legislative power of states will be exercised by the President of India.

4. Upon proclamation of financial emergency, legislative power of states related to financial matters will be exercised by the Parliament.

Which of the statement/s given above is/are correct?

- a) 1 and 2 only
- b) 1,3 and 4 only
- c) 2 and 3 only
- d) 2 only

Ans) d

Exp) Option d is the correct answer.

The Emergency provisions are contained in Part XVIII of the Constitution, from Articles 352 to 360. These provisions enable the Central government to meet any abnormal situation effectively. Emergency provision fundamentally alters the relations between centre and state.

Statement 1 is incorrect: On the proclamation of **National emergency, power of state legislatures to make laws on state lists is not restricted**. It continues to have **simultaneous legislative power** along with Parliament, however in case of **inconsistency** between Parliament and state assembly laws, the **Parliament law will prevail**.

Statement 2 is correct: It is true that **on revocation of the President's rule, the law made by the Parliament will continue to prevail** unless it would be repealed by the state legislative assembly. In contrast, laws made by Parliament during **national emergency** will **cease to have any effect on the expiration of 6 months** after revocation of national emergency.

Statement 3 is incorrect: On proclamation of the President's rule, **power of the state legislature cannot be exercised by the President but by the Parliament**. The President can assume the functions of State governments and powers vested in the Governor or any executive authority of the state. Further, the President can declare that powers of state legislatures are to be exercised by the Parliament.

Statement 4 is incorrect: On proclamation of **financial emergency, Parliament cannot assume the power of state legislature**, however financial emergency empowers **Union government to executive directions to any state** to observe financial propriety and to reduce the salaries and pensions of government employees of the state.

Emergency Provisions

Q.12) With reference to executive relations between centre and states as given in constitution of India, consider the following statements:

1. The Governor of a state, with the consent of the central government, can delegate executive functions of state to centre.
2. The parliament can delegate executive functions of central government to states, without the consent of states.
3. State legislature can delegate executive functions of state to centre.

Which of the statement/s given above is/are correct?

- a) 1 only
- b) 1 and 2 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

The distribution of **executive functions between centre and state is rigid**, the same as distribution of legislative functions. However, the constitution provides for **inter-governmental delegation of executive functions to mitigate rigidity** and avoid a situation of deadlock.

Statement 1 is correct: The **Governor of a state**, with the **consent** of the central government, can delegate **executive functions of state to centre**. Similarly, the **President** of India can delegate executive functions of **centre to state** with the consent of the state government.

Statement 2 is correct: It is true that the Constitution empowers the **parliament to delegate executive functions** of central government **to states without the consent of states**. Thus, centre can use means of both agreement (consent) and legislation (without consent), state can use only agreement mode.

Statement 3 is incorrect: While the constitution **allows the parliament** to delegate executive functions of centre to state, it does **not allow state legislature to delegate executive functions of state to centre**. In the case of delegation by states, **only governors are allowed** to delegate executive functions.

Source: Laxmikanth: Centre- State relations

Q.13) Under the constitution of India which of the following taxes are levied, collected and retained by the state governments?

1. Surcharge on tax
2. Land revenue
3. Entertainment tax
4. Professional taxes.
5. Any cess levied for the specific purpose.
6. Taxes on goods carried by inland waterways.

Select the correct answer using the code given below:

- a) 1, 3 and 6 only
- b) 2 and 3 only
- c) 2, 3, 4 and 6 only
- d) 1, 4 and 6 only

Ans) c

Exp) Option c is the correct answer.

Articles 268 to 293 in Part XII of the Constitution deal with Centre State financial relations. The taxes enumerated in the **Union List (15 in numbers) are leviable by the Centre exclusively** while those mentioned in the **State List (20 in numbers) are leviable by the States exclusively**. The taxes enumerated in the **concurrent list (5 in numbers)** are leviable by both centre and states.

Option 1 and 5 is incorrect: Both **Surcharge and cess are levied, collected and retained by the central government**. Surcharge is a tax on tax and cess is levied for any specific purpose for example education cess to improve the funding support for education.

Option 2 is correct: **Land revenue** is a tax levied on land holdings and it is **levied, collected and retained by the state governments**. Land revenues are taxes belonging to the state exclusively thus need not to be shared with the central government.

Option 3 is correct: Entertainment tax is any tax levied on any form of commercial entertainment, such as movie tickets, exhibitions, sport events etc., **Entertainment taxes are levied, collected and retained by states**.

Option 4 is correct: **Professional tax not exceeding 2,500Rs can be levied, collected and retained by the state government**. Professional tax is a tax levied on individuals who earn income from any profession, trade or employment.

Option 6 is correct: It is true that the **taxes on goods or passengers carried by inland waterways** (or road) will be **levied, collected and retained by the state government**.

Source: Laxmikanth: Centre - State relations

Q.14) With reference to “Discretionary grants”, consider the following statements:

1. It is called discretionary grants because there is no constitutional obligation for the centre to give these grants to states.
2. States can make these grants only for those public purposes which are within their legislative jurisdictions.
3. Centre allots these grants to states based only on the recommendation of the Finance commission.

Which of the statement/s given above is/are correct?

- a) 1 only
- b) 1 and 3 only
- c) 2 only
- d) 1 and 2 only

Ans) a

Exp) Option a is the correct answer.

Besides sharing of taxes between the Centre and the states, the Constitution provides for grants-in-aid to the states from the Central resources. There are two types of grants-in-aid- **statutory grants and discretionary grants**.

Statement 1 is correct: Discretionary grants are called so because there is **no constitutional obligation for the centre to give these grants to states** and matters lie within the **centre’s discretion**. These grants are given to states to help states to fulfil their developmental plans and influence states to implement the national plan.

Statement 2 is incorrect: **Article 282** empowers both the **Centre and the states to make any grants** for any public purpose, even if it is **not within their respective legislative jurisdictions**.

Statement 3 is incorrect: **Centre does not allot these grants to states based on the recommendation of the Finance commission**. In contrast **statutory grants (Article 275)** are allotted to states by the centre based on the recommendation of the Finance commission.

Source: Laxmikanth: Centre - State relations

Q.15) With reference to section 124A of Indian Penal Code (IPC), consider the following statements:

1. Criticizing Judicial setup amounts to sedition under section 124A.
2. It penalizes only that speech which has the tendency to create public disorder.
3. Under this law anyone can be arrested without any warrant.
4. Life imprisonment as a maximum punishment is prescribed under this law.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2, 3 and 4 only
- c) 1, 3 and 4 only
- d) 1, 2, 3 and 4

Ans) b

Exp) Option b is the correct answer.

Section 124A of the IPC defines sedition as any action that brings or attempts to bring contempt or hatred or disaffection towards the Government established by law in India. It categorizes 4 sources of seditious acts:

- 1) Spoken or Written Words;
- 2) Signs;
- 3) Visible representations;
- 4) Other Sources;

Statement 1 is incorrect: In *P. Alavi vs State of Kerala, 1982* SC held that sloganeering,

Criticizing Parliament or Judicial setup did not amount to sedition.

Statement 2 is correct: Supreme Court in *Kedarnath Singh* case clarified that Section 124A penalizes **only that speech that is either intended or tends to create public disorder or incitement to violence.**

Statement 3 is correct: **Sedition law** is classified as ‘cognizable’ meaning there is no need for Court warrant to arrest the person and it is also a ‘non-bailable’ and ‘non-compoundable’ offence.

Statement 4 is correct: Punishment under Section 124A ranges from imprisonment up to three years to **life imprisonment as maximum punishment, with or without a fine.**

Source: <https://indianexpress.com/article/explained/vinod-dua-sedition-case-supreme-court-kedarnath-ruling-explained-7343405/>

<https://www.thequint.com/news/law/getting-to-know-the-kedarnath-case#read-more>

Q.16) With reference to Goods and Services Tax (GST) Council, consider the following statements:

1. The GST council is periodically constituted by the President of India as and when the issue arises related to GST.
2. The Union Finance Minister is the chairperson of the Council.
3. The decisions of the council are always based on consensus.
4. The recommendations given by the council are binding upon the state and centre.

Which of the statements given above is/are correct?

- a) 1, 2 and 3 only
- b) 2 only
- c) 3 and 4 only
- d) 1, 2, 3 and 4

Ans) b

Exp) Option b is the correct answer.

Goods & Services Tax (GST) Council is a constitutional body for making recommendations to the Union and State Government on issues related to Goods and Service Tax.

Statement 1 is incorrect: The Goods & Services Tax (GST) Council was **established by the President as per Article 279A (1) of the Constitution.** The GST council was notified under Article 279(1) of the constitution after passing **The Constitution (One Hundred and First Amendment) Act, 2016** by the parliament and 15 states of India. They are not constituted periodically on the lines of Finance commission.

Statement 2 is correct: **Chief Ministers of states are not members of this council.** The **Union Finance Minister is the chairperson of this council.** Members of this council are **the Union Minister of State, in-charge of Revenue of finance and the Minister of finance for state governments or any other Minister nominated by each State Governments.**

Statement 3 is incorrect: **GST council decides the GST rate on various goods and services.** Every decision of the GST Council is taken at a meeting, **by a majority of not less than three fourths** of the weighted votes of the members present and voting.

Statement 4 is incorrect: **The recommendations given by this council are not binding,** recently the **Supreme court** held that **Article 246A** of the Constitution gives both **Parliament and state legislatures a power to legislate on GST.** The supreme court observed that recommendations of the Council as the product of a collaborative dialogue between the Union and States and it is not binding in nature.

Q.17) In which of the following circumstances, Parliament can make laws on the subjects enumerated in the state lists?

1. If the legislative assembly of two or more states by simple majority passes a resolution recommending Parliament to make laws on the state subjects.
 2. To implement the provisions of the Fundamental Duties.
 3. If Rajya Sabha passes a resolution for the same supported by two-thirds of members present and voting.
- Select the correct answer using the code given below:
- a) 1 and 3 only
 - b) 2 and 3 only
 - c) 2 only
 - d) 1, 2 and 3

Ans) a

Exp) Option a is the correct answer.

Seventh schedule of the constitution distributes the legislative power between centre and states and in ordinary circumstances parliament cannot legislate on matters related to state list. However, the constitution empowers the **Parliament to make laws on any matter enumerated in the State List under the certain extraordinary circumstances.**

Statement 1 is correct: Parliament can make laws on the state subject if the **legislatures of two or more states pass resolutions**, by simple majority, recommending the Parliament to enact laws on a matter in the State List. A law so enacted **applies only to those states which have passed the resolutions.**

Statement 2 is incorrect: There is **no such ground (to implement provisions of Fundamental duties) for the Parliament to make laws on subjects enumerated in the state list.** However, Parliament can make laws on state list to give effect to the international agreements or treaties.

Statement 3 is correct: Parliament can make laws on the state subjects if the **Rajya Sabha passes a resolution supported by two thirds of members present and voting.** Rajya Sabha declares that it is necessary in the national interest that parliament should make laws with respect to matters related to state subjects.

Source: Laxmikanth: Centre - State relations

Q.18) With reference to Comptroller and Auditor General of India (CAG), consider the following statements:

1. S/he is responsible only to the Parliament.
2. The legal audit, regulatory audit, and propriety audits are obligatory on the part of the CAG.
3. S/he has the responsibility of auditing the secret service expenditure.

Which of the statements given above is/are **incorrect**?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1, 2 and 3
- d) 3 only

Ans) b

Exp) Option b is the correct answer.

Comptroller and Auditor General of India (CAG) is **the head of the Indian Audit and Accounts** Department. He is the **guardian of the public purse** and controls the entire financial system of the country at both the levels—the Centre and the state. His duty is to **uphold the Constitution of India and laws of Parliament** in the field of financial administration.

Statement 1 is correct: The role of CAG is to uphold the Constitution of India and the laws of Parliament in the field of financial administration. The **accountability of the executive** (i.e., council of ministers) to Parliament in the sphere of financial administration is **secured through audit reports of the CAG**. The CAG is an agent of the Parliament and **conducts audit of expenditure on behalf of the Parliament**. Therefore, **he/she is responsible only to Parliament**.

Statement 2 is incorrect: In addition to legal and regulatory audit, **the CAG can also conduct the propriety audit**, that is, he can investigate the ‘wisdom, faithfulness and economy’ of government expenditure and comment on the wastefulness and extravagance of such expenditure. However, **unlike the legal and regulatory audit, which is obligatory** on the part of the CAG, the **propriety audit is discretionary**.

Statement 3 is incorrect: The **secret service expenditure is a limitation on the auditing role of the CAG**. In this regard, the CAG cannot call for particulars of expenditure incurred by the executive agencies but **has to accept a certificate** from the **competent administrative authority** that the **expenditure** has been so **incurred under his authority**.

Knowledge Base:

Comptroller and Auditor General of India

- 1) He is **appointed by the president** of India by a warrant under his hand and seal.
- 2) He makes and subscribes **before the president an oath** or affirmation.
- 3) He holds office for a period of **six years or up to the age of 65 years**, whichever is earlier.
- 4) He can **resign** any time from his office by addressing the resignation letter to the president. He can **also be removed** by the president on same grounds and in the same manner as a **judge of the Supreme Court**.
- 5) He is **not eligible for further office**, either under the Government of India or of any state, after he ceases to hold his office.

Source: Chapter 51: Comptroller and Auditor General of India of Indian Polity by M. Laxmikant.

Q.19) The Attorney General of India is the highest law officer in the country. In this context, consider the following statements:

1. S/he has the right of audience in Supreme court only.
2. S/he is debarred from attending any joint sitting of Parliament but can attend the proceedings of either house of Parliament.
3. S/he gives advice to the Government of India upon such legal matters, which are referred to him/her by the President.
4. The remuneration of the Attorney General is determined by the President.

Which of the statements given above are correct?

- a) 1, 2, and 4 only
- b) 2, 3 and 4 only
- c) 3 and 4 only
- d) 1, 2, 3 and 4

Ans) c

Exp) Option c is the correct answer.

Article 76 of the Indian Constitution provides for the Attorney General of India. He is the highest law officer in the country.

Statements 1 and 2 are incorrect: In the performance of his official duties, **the Attorney General has the right of audience in all courts in the territory of India** and not just Supreme court. Further, **he has the right to speak and to take part in the proceedings of both the Houses of Parliament or their joint sitting** and any committee of the Parliament of which he may be named a member, but **without a right to vote**. He enjoys all the privileges and immunities that are available to a member of Parliament.

Statement 3 is correct: As the chief law officer of the Government of India, the duties of the AG include the following:

- 1) **To give advice to the Government of India upon such legal matters, which are referred to him by the president.**
- 2) To perform such other duties of a legal character that are assigned to him by the president.
- 3) To discharge the functions conferred on him by the Constitution or any other law.

Statement 4 is correct: The remuneration of the Attorney General is determined by the **President**. He may also quit his office by submitting his resignation to the President.

Knowledge Base:

Attorney General of India:

- 1) He is **appointed by the President**.
- 2) He must be a person who **is qualified** to be appointed a **judge of the Supreme Court**.
- 3) The **term of office** of the AG is **not fixed by the Constitution**. Further, the Constitution does not contain the procedure and grounds for his removal. He holds office during the **pleasure of the president**.
- 4) The Attorney General is **not a full-time counsel for the Government**.
- 5) He is **not debarred from private legal practice**.
- 6) The president has assigned the **following duties** to the Attorney General of India:
 - a. To **appear on behalf of the Government** of India in all cases in the Supreme Court **in which the Government of India is concerned**.
 - b. To **represent the Government** of India in any **reference made by the president** to the Supreme Court under **Article 143** of the Constitution.
 - c. To **appear** (when required by the Government of India) in **any high court** in any case in which the Government of India is concerned.

Source: Chapter 52: Attorney General of India of India of Indian Polity by M. Laxmikant.

Q.20) With reference to the Delimitation Exercise in Jammu and Kashmir, consider the following statements:

1. This Delimitation Exercise was based on the 2011 census instead of the 2001 census.
2. This Delimitation Commission was constituted under The Jammu and Kashmir Reorganization Act, 2019.
3. Apart from making changes in the structure of the existing Assembly seats, the commission has also redrawn the boundaries of Lok Sabha Constituencies of Union Territory of J&K.
4. The commission has recommended for reservation of seats in Legislative assembly for Kashmiri migrants.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2, 3 and 4 only
- c) 1, 3 and 4 only
- d) 1, 2, 3 and 4

Ans) c

Exp) Option c is the correct answer.

The **Delimitation Commission (DC) was set up on March 6, 2020**, to redraw the boundaries of assembly and parliamentary constituencies in Jammu and Kashmir.

- 1) The panel, formed by the Centre in March 2020, is headed by former Supreme Court judge **Ranjana Prakash Desai**.
- 2) The commission has proposed increasing the number of seats in UT **from 83 to 90**. Besides, there are **24 seats in Pakistan-occupied Kashmir (PoK)** that continue to remain vacant.

Statement 1 is correct: The Delimitation Commission was entrusted with the work of delimiting the Assembly and Parliamentary Constituencies in the UT of Jammu and Kashmir **based on 2011 Census** and in accordance with the provisions of the Jammu and Kashmir Reorganization Act, 2019 and the provisions of Delimitation Act, 2002.

Statement 2 is incorrect: The Delimitation Commission was constituted by the Govt. of India, in exercise of powers conferred by **Section 3 of Delimitation Act, 2002**, for the purpose of delimitation of Assembly and Parliamentary Constituencies in the Union Territory of Jammu & Kashmir.

Statement 3 is correct: The commission is vested with the task of making changes in the structure of the existing Assembly seats and the commission has also redrawn the boundaries of Lok Sabha Constituencies of UT of J&K.

Statement 4 is correct: The commission has also recommended for the provision of at least two members (one of them must be a female) from the community of Kashmiri Migrants in the Legislative Assembly and such members may be given power at par with the power of nominated members, of the Legislative Assembly of Union Territory of Puducherry.

Q.21) NITI Aayog is the premier policy ‘Think Tank’ of the Government of India. In this context, consider the following statements:

1. One of the objectives of NITI Aayog is to formulate credible plans at the village level and aggregate these progressively at higher levels of government.
2. The regional council of NITI Aayog is headed by the union home minister.
3. The erstwhile Planning Commission was established by an executive resolution whereas NITI Aayog is established under a Legislative Act.

Which of the statements given above are correct?

- a) 1 only
- b) 1 and 2 only
- c) 2 and 3 only
- d) 1, 2, and 3

Ans) a

Exp) Option a is the correct answer.

On January 1, 2015, the NITI Aayog (National Institution for Transforming India) was established as the successor to the planning commission. NITI Aayog is the premier policy ‘Think Tank’ of the Government of India, providing both directional and policy inputs.

Statement 1 is correct: The NITI Aayog will develop mechanisms to formulate **credible plans to the village level and aggregate these progressively at higher levels** of government. It will ensure special attention to the sections of society that may be at risk of not benefitting adequately from economic progress.

Statement 2 is incorrect: Regional Council of NITI Aayog: These are formed to address specific issues and contingencies impacting more than one state or a region. These are formed for a specified tenure. These are **convened by the Prime Minister**. It comprises of the following.

- 1) **Chief Ministers of States**
- 2) **Lt. Governors of Union Territories in the region.**
- 3) These are **chaired by the Chairperson of the NITI Aayog or his nominee.**

Statement 3 is incorrect: The NITI Aayog, **like that of the Planning Commission**, was also created by an **executive resolution** of the Government of India (i.e., Union Cabinet). Hence, it is a **non-constitutional or**

extra-constitutional body (i.e., not created by the Constitution) and a **non-statutory** body (not created by an Act of the Parliament).

Knowledge Base:

NITI Aayog: The Composition of NITI Aayog is as follows.

- 1) **The Prime Minister of India is the Chairperson of the NITI Aayog.**
- 2) **Governing Council:** It comprises the **Chief Ministers of all the States, Chief Ministers of Union Territories with Legislatures** (i.e., Delhi, Puducherry and Jammu and Kashmir) **and Lt. Governors of other Union Territories.**
- 3) **Full-time Organizational Framework:** It comprises, in addition to the Prime Minister as the Chairperson:
 - a. **Vice-Chairperson:** He is appointed by the Prime Minister. He enjoys the rank of cabinet minister.
 - b. **Members: Full-time.** They enjoy the rank of Minister of State.
 - c. **Part-time Members: Maximum of 2,** from leading universities, research organizations and other relevant institutions in an ex-officio capacity. Part-time members would be on rotation.
 - d. **Ex-Officio Members:** Maximum of **4 members of the Union Council of Ministers** to be **nominated by the Prime Minister.**
 - e. **Chief Executive Officer:** He is **appointed by the Prime Minister** for a fixed tenure, in the **rank of Secretary** to the Government India.
 - f. **Secretariat:** As deemed necessary.

Source: Chapter 54: NITI Aayog of Indian Polity by M. Laxmikant.

Q.22) The National Human Rights Commission (NHRC) is the watchdog of human rights in the country. In this context, consider the following statements:

1. A person currently serving as the Chief justice of a High Court can become a member of NHRC.
2. The NHRC act mandates the commission to meet at least 3 times a year.
3. They can visit jails and detention places to study the living conditions of inmates.
4. They have all the powers of a civil court, and its proceedings have a judicial character.

Which of the statements given above are correct?

- a) 1, 2 and 4 only
- b) 3, and 4 only
- c) 1, 3 and 4 only
- d) 1, 2, 3, and 4

Ans) c

Exp) Option c is the correct answer.

Statement 1 is correct: The NHRC is a multi-member body consisting of a chairperson and five members.

- 1) **The chairperson should be a retired chief justice of India, or a judge of the Supreme Court and members should be a serving or retired judge of the Supreme court, a serving or retired chief justice of a high court and three persons** (out of which at least one should be a woman) **having knowledge or practical experience with respect to human rights.**
- 2) In addition to these full-time members, the commission also has **seven ex-officio members**—the chairpersons of the NC for **Minorities**, the NC for **SCs**, the NC for **STs**, the NC for **Women**, the NC for **BCs** and the NC for **Protection of Child Rights** and the **Chief Commissioner for Persons with Disabilities.**

Statement 2 is incorrect: The Commission shall meet at such time and place as the Chairperson may think fit. There is **no mandate that the commission should meet at least 3 times a year.**

Statement 3 is correct: **The functions of the Commission are as follows:**

- 1) NHRC investigates grievances regarding the violation of human rights **either Suo moto** or after receiving a **petition**.
- 2) **To visit jails and detention places to study the living conditions of inmates and make recommendations thereon.**
- 3) To study treaties and other international instruments on human rights and make recommendations for their effective implementation.
- 4) To encourage the efforts of NGOs working in the field of human rights, etc.

Statement 4 is correct: The NHRC is vested with the power to regulate its own procedure. **It has all the powers of a civil court, and its proceedings have a judicial character.** It may call for information or reports from the Central and state governments or any other authority subordinate thereto.

Source: Chapter 55: National Human Rights Commission of Indian Polity by M. Laxmikant.

Q.23) Which of the following officers are appointed by the Governor of the state but removed by the President of India?

1. Chairman of State Public Service commission
2. Members of State Human Rights Commission
3. Chairman of Joint Public Service Commission
4. State Chief Information Commissioner

Select the correct answer using the code given below.

- a) 1 and 2 only
- b) 1, 2, and 3 only
- c) 2 and 4 only
- d) 1, 2, 3 and 4

Ans) a

Exp) Option a is the correct answer.

Statement 1 is correct: A State Public Service Commission consists of a chairman and other members **appointed by the governor of the state**. The chairman and members of the Commission hold office for a term of six years or until they attain the age of 62 years. Although the chairman and members of a SPSC are appointed by the Governor, they can be **removed only by the President (and not by the governor)**. The President can remove them on the same grounds and in the **same manner as** he can remove a **chairman or a member of the UPSC**.

Statement 2 is correct: The **chairperson and members of State Human Rights Commission are appointed by the Governor** on the recommendations of a committee consisting of:

- 1) chief minister as its head,
- 2) the speaker of the Legislative Assembly,
- 3) the state home minister and the leader of the opposition in the Legislative Assembly.
- 4) In the case of a state having Legislative Council, the chairman of the Council and the leader of the opposition in the Council would also be the members of the committee.

Although the chairperson and members of a SHRC is appointed by the governor, they **can be removed only by the President** (and not by the governor).

Statement 3 is incorrect: The Constitution makes a provision for the establishment of a Joint State Public Service Commission (JSPSC) for two or more states. A JSPSC is a statutory and not a constitutional body. **The chairman and members of a JSPSC are appointed by the President**. They hold office for a term of six years or until they attain the age of 62 years, whichever is earlier. **They can be suspended or removed by the President**. They can also resign from their offices at any time by submitting their resignation letters to the president.

Statement 4 is incorrect: The State Information Commission consists of a State Chief Information Commissioner and not more than ten State Information Commissioners. **They are appointed by the Governor** on the recommendation of a committee consisting of the Chief Minister as Chairperson, the Leader of Opposition in the Legislative Assembly and a State Cabinet Minister nominated by the Chief Minister. **The Governor of State can remove the State Chief Information Commissioner or any State Information Commissioner** from the office.

Q.24) Which among the following can be considered as ‘Federal Features’ of Indian Constitution?

1. The Supremacy of the Constitution of India
2. The division of powers between Centre and states
3. The presence of Integrated Judiciary

Select the correct answer using the codes given below:

- a) 1 and 2 only
- b) 1 and 3 only
- c) 2 only
- d) 1, 2 and 3

Ans) a

Exp) Option a is the correct answer.

Federalism is a system of government in which the power is divided between a central authority and various constituent units of the country. Usually, a federation has two levels of government. One is the government for the entire country and others are governments at the state or province level.

Option 1 and 2 are correct: In a federal state the legal supremacy of the Constitution is essential for the existence of the federal system. It is essential to maintain the separation of power between the coordinate branches of the government, and the division of powers between the federal government and the states themselves.

Statement 3 is incorrect: Integrated judiciary is a unitary feature (not a Federal Feature) of the Indian constitution. The Indian Constitution has established an integrated judicial system with the Supreme Court at the top and the state high courts below it. This single system of courts enforces both the Central laws as well as the state laws. In the US, on the other hand, there is a double system of courts whereby the federal laws are enforced by the federal judiciary and the state laws by the state judiciary. **Independence of Judiciary is rather considered a federal feature of the Indian Constitution.**

The Supreme Court has observed that Indian Constitution is basically federal in form and is marked by the traditional characteristics of a federal system, namely, **supremacy of the Constitution, division of power between the Union and the States** and existence of an **Independent Judiciary**.

Q.25) Consider the following statements with respect to the “Declaration for the Future of the Internet”:

1. The declaration was launched by the Global Network Initiative.
2. India is not a party to this declaration.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) b

Exp) Option b is the correct answer.

Statement 1 is incorrect: The **United States (and not the Global Network Initiative)** launched the **Declaration for the Future of the Internet** jointly with more than 60 partners from around the world. The Declaration is a political commitment among partners to advance an affirmative vision for the Internet and digital technologies. The Declaration's principles include commitments to protecting human rights and fundamental freedoms of all people, **promote a global Internet that advances the free flow of information, advancing “inclusive and affordable” connectivity** and strengthening the multi-stakeholder approach to governance that keeps the Internet running for the benefit of all.

Statement 2 is correct: India, China and Russia are among the nations that have not signed this declaration. These Declaration's **principles are not legally binding** but should rather be used as a reference for public policymakers as well as citizens, businesses and civil society organizations.

Source: <https://blog.forumias.com/india-stays-out-of-global-declaration-on-future-of-internet/#:~:text=signed%20this%20declaration,-,What%20is%20the%20Declaration%20for%20the%20Future%20of%20the%20Internet,the%20Internet%20and%20digital%20technologies.>

<https://www.thehindubusinessline.com/info-tech/white-house-60-global-partners-launch-the-declaration-of-the-future-of-the-internet-india-not-on-the-list/article65366407.ece>

Q.26) Consider the following statements about merits of Parliamentary System of government:

1. It establishes a responsible government, wherein executive is responsible to the legislature.
2. It assures the separation of power in letter and spirit, between different organs of the State.
3. It helps in preventing the dictatorial tendencies of the executive.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

The Constitution of India provides for a parliamentary form of government, both at the centre and in the states. Articles 74 and 75 deal with the parliamentary system at the centre and Articles 163 and 164 in the states.

Statement 1 is correct: Dr. B.R Ambedkar pointed out in the Constituent Assembly that, “a democratic executive must satisfy two conditions i.e., Stability and Responsibility. Unfortunately, it has not been possible so far to devise a system which can provide both in equal degree. The American Constitution gives more stability but less responsibility. The British System gives more responsibility but less stability”. **So, the Draft Constitution had preferred more responsibility over stability**. Responsible government is ensured by making ministers accountable to Parliament for their actions. It can be attained by tools like question hour, parliamentary debates, various motions like adjournment and no confidence motion.

Statement 2 is incorrect: In a parliamentary form of government, **the executive is not separated from the legislature as the members of the council of ministers are members of the legislature**. Hence, the whole system of the government goes against the letter and spirit of the theory of separation of power. **In fact, there is a fusion of power.**

Statement 3 is correct: Parliamentary system **prevents despotism**. Under this system, the executive authority is vested in a group of individuals (council of ministers) and not in a single person. **This dispersal of authority checks the dictatorial tendencies of the executive**. Moreover, the executive is responsible to the Parliament and can be removed by a no-confidence motion.

Source: Chapter 12 Parliamentary System, Indian Polity by Laxmikant.

Q.27) Which of the following is **not** a correct reason behind the adoption of the federal system of government in India?

- a) To take into consideration the large size of the country.
- b) To accommodate the large socio-cultural diversity of India.
- c) To provide equal representation for all the states in Parliament.
- d) To reconcile national unity with regional autonomy of the states.

Ans) c

Exp) Option c is the correct answer.

Option a and b are correct: The Constitution of India provides for a federal system of government in the country. The framers of the Constitution adopted the federal system due to two main reasons- **the large size of the country and its socio-cultural diversity.**

Option c is incorrect: The Indian Constitution does not provide equal representation to the states in Parliament especially in the Rajya Sabha, unlike in the US. **Hence, this unequal state representation is a unitary feature of the Parliament and not the federal feature.**

Option d is correct: The framers propounded that the federal system not only ensures efficient governance but also reconciles **national unity with regional autonomy for the states.**

Source: Chapter 13 Federal system, Indian Polity by M Laxmikant

Q.28) According to the Constitution of India, the expression 'Territory of India' includes which among the following?

1. The territories of the states
2. The Union territories
3. The territories that may be acquired by the government of India at any time.

Select the correct answer using the codes given below:

- a) 1 and 2 only
- b) 1 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

Option 1, 2 & 3 are correct. According to Article 1 of the Constitution of India, the expression 'Territory of India' includes not only the territories of the states but also union territories and territories that may be acquired by the Government of India at any future time.

Source: chapter 5- Union and its Territory, Indian Polity by M Laxmikanth.

Q.29) Consider the following statements about the procedure for reorganisation of states in India:

1. States in India can be reorganised by the Parliament only by amending the Constitution under article 368.
2. A bill for the reorganisation of states can be introduced in the Parliament only on the recommendation of the President.
3. The President before giving his recommendation shall refer the state reorganisation bill to the respective state legislature for expressing its view.
4. The President is bound by the views of state legislature regarding the state reorganisation bill.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 3 and 4 only
- d) 2, 3 and 4 only

Ans) b

Exp) Option b is the correct answer.

According to constitution of India (Article 2), Parliament may by law admit into the Union, or establish, new States on such terms and conditions as it thinks fit. **Also, Article 3 of the Constitution empowers the Parliament to** (a) form a new State by separation of territory from any State or by uniting two or more States or parts of States or by uniting any territory to a part of any State; (b) increase the area of any State; (c) diminish the area of any State; (d) alter the boundaries of any State; (e) alter the name of any State.

Statement 1 is incorrect: Article 4 of the Constitution provides that **laws of the Parliament to give effect to the provisions of Article 2 and 3 of the Constitution shall not be deemed to be an amendment of this Constitution for the purposes of Article 368. Hence, statement 1 is incorrect.**

Statement 2 is correct: No bill for the purpose of reorganisation of states can be introduced in the Parliament except on the recommendation of the President.

Statement 3 is correct: The President shall before giving his recommendation, refer the bill to the Legislature of the State which is going to be affected by the changes proposed in the bill, for expressing its views on the changes within the period specified by the President.

Statement 4 is incorrect: The President is not, however, bound by the views of the state legislature, so ascertained. Hence the statement is incorrect.

Source: Introduction To the Constitution of India, D D Basu, Pg. 71

Q.30) Consider the following statements regarding the Goods and Services Tax (GST) Council:

1. The GST Council has a quorum requirement of one half of the total members for meetings.
2. In a recently held GST council meeting, tax on liquid form of jaggery has been removed if it is sold in loose form.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) c

Exp) Option c is the correct answer.

As per Article 279A of the amended Constitution, the GST Council is a joint forum of the Centre and the States, and consists of the following members: -

- 1) **Union Finance Minister- Chairperson.**
- 2) The Union Minister of State, in-charge of Revenue or finance- Member.
- 3) The Minister In-charge of finance or taxation or any other Minister nominated by each State Government - Members.
- 4) The Vice-Chairperson is selected by members of the Council from one amongst themselves [Article 279A (3)]

Statement 1 is correct: The Constitution (One Hundred and First Amendment) Act, 2016 provides that one half of the total number of members of the GST Council shall constitute the quorum at its meeting.

Statement 2 is correct: In 49th GST Council meeting held in February 2023 tax rate on liquid form of jaggery or 'Rab' has been lowered from **18 per cent to 5 per cent**, if packaged and labelled and to **zero if sold loose**.

Knowledge Base: Every decision of the GST Council shall be taken at its meeting by a majority of not less than 3/4th of the weighted votes of the Members present and voting. The vote of the Central Government shall have a weightage of 1/3rd of the votes cast and the votes of all the State Governments taken together shall have a weightage of 2/3rd of the total votes cast in that meeting.

Q.31) If, in any case, India needs to cede some parts of its territory to any country, then it can be done through:

- The executive action of Government of India.
- The Amendment of Constitution under Article 368.
- The Legislative action of the Parliament
- The Judicial Action under the purview of Supreme Court.

Ans) b

Exp) Option b is the correct answer.

The decision of the **central government to cede part of territory of the Berubari Union** (West Bengal) to Pakistan led to political agitation and controversy and thereby necessitated the Presidential reference to the Supreme Court.

The Supreme Court held that, the power of parliament to diminish the area of a state (under Article 3) does not cover the cession of Indian territory to a foreign country. **Hence, Indian territory can be ceded to a foreign state only** by an amendment under the provisions of article 368. Consequently, the 9th Constitutional amendment Act was enacted to transfer the said territory to Pakistan.

The Supreme Court, on the other hand, ruled in 1969 that resolving boundary disputes between India and another country does not necessitate a constitutional amendment. **It can be done by executive action as it does not involve the cession of Indian territory to a foreign country.**

Source: Introduction To the Constitution of India, D D Basu

Q.32) Consider the following commissions and acts regarding the reorganisation of states in India:

- Fazl Ali Commission
- Dhar Commission
- State Reorganisation Act
- JVP Committee

Arrange the above in the correct chronological order of their establishment/passage:

- 2-4-1-3
- 1-3-4-2
- 2-1-4-3
- 3-2-4-1

Ans) a

Exp) Option a is the correct answer.

The correct chronological order is 2-4-1-3.

Dhar Commission: There had been demands from different regions, particularly South India, to reorganise the state on a linguistic basis. **Accordingly, the government of India appointed the Dhar Commission in June 1948.** It submitted its report in December 1948.

JVP Committee: The Dhar Commission recommended reorganisation of state based on administrative convenience rather than on linguistic basis which led to wide resentment and led to appointment of another committee i.e., **the JVP Committee in December 1948. It submitted its report in April 1949 and rejected language as the basis for reorganisation of state.**

Fazl Commission: The creation of Andhra state in October 1953 intensified the demand from other regions for the creation of states on Linguistic basis. **This forced the government to appoint the Fazl Ali commission In December 1953**

State Reorganisation Act 1956: The State Reorganisation Act was **passed by the government through the 7th Constitutional Amendment Act, 1956** on the recommendation of Fazl Ali Commission.

Source: Chapter 5 Union and Its Territory, Indian Polity by M Laxmikant

Q.33) Consider the following statements:

1. The President can make regulations with respect to the Union territory of Andaman and Nicobar Islands.
2. The Governor of a state can provide that an act of parliament does not apply to a Scheduled Area in that state.
3. The President can modify a parliamentary law in relation to tribal areas in Assam.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) a

Exp) Option a is the correct answer.

Parliament has the power to legislate for the whole or any part of the territory of India, which includes not only the states but also the Union territories or any other area, for the time being included in the territory of India.

The plenary territorial jurisdiction of Parliament is, however, subject to some special provisions of the Constitution.

Statement 1 is correct: As regards some of the Union Territories, such as the Andaman and Lakshadweep group of Islands, President may make regulations. These **regulations have the same force as Acts of Parliament and such regulations may repeal or amend a law made by Parliament in relation to such Territory. Thus, parliamentary acts can be overridden by the regulations made by President in the UT of Andaman and Nicobar.**

Statement 2 is correct: The application of Acts of Parliament to any Scheduled Area may be rejected or modified by notifications made by the Governor [Para 5 of the 5th Schedule].

Statement 3 is incorrect: The Governor of Assam may, by public notification, direct that any other Act of Parliament shall not apply to an autonomous district or an autonomous region in the State of Assam. Hence, it is the Governor of Assam and not the President who has overriding power over the acts of parliament in the state of Assam.

Source: Introduction To the Constitution of India, D D Basu, Pg. 324

Q.34) With reference to the River Boards Act, 1956 and 'River Boards' in India, consider the following statements:

1. The River Boards Act, 1956 was enacted under the provisions of Article 262 of the Constitution.
2. A River Board can be established by the state government after obtaining the permission from the President.
3. One of the objectives of the boards is to prepare schemes for the purpose of regulating an inter-state river.

Which of the statements given above is/are correct?

- a) 1 only
- b) 1 and 2 only
- c) 2 and 3 only
- d) 1 and 3 only

Ans) d

Exp) Option d is the correct answer.

In India, River Boards are statutory bodies established to manage and develop the water resources of inter-state rivers and river basins. These bodies are established under the River Boards Act, 1956.

Statement 1 is correct: Article 262 of the Constitution provides for the adjudication of inter-state water disputes. It makes two provisions: (1) Parliament may by law provide for the adjudication of any dispute or complaint with respect to the use, distribution and control of waters of any inter-state river and river valley. (2) Parliament may also provide that neither the Supreme Court nor any other court is to exercise jurisdiction in respect of any such dispute or complaint. **Under this provision, the Parliament has enacted two laws-The River Boards Act (1956) and the Inter-State Water Disputes Act (1956)].**

Statement 2 is incorrect: A river board is **established by the Central government** on the request of the state governments concerned to advise them.

Statement 3 is correct: The main objective of River Boards is to **promote integrated and coordinated development of inter-state river systems** and to regulate and develop water resources in an equitable and sustainable manner. They facilitate cooperation and coordination among the various states sharing a river basin and help to resolve disputes over the use of river water resources. They are also **entrusted with the task of preparing schemes**, including multi-purpose schemes, for the **purpose of regulating or developing the inter-State River** or river valley and advising the Governments interested to undertake measures for executing the scheme prepared by the Board.

Q.35) With reference to e-Shram Portal, consider the following statements:

1. The portal was launched by the Union Ministry of Labour and Employment (MoLE).
2. Aadhar is not mandatory to get registered under this portal.
3. Workers registering with the e-Shram portal will get an Accidental Insurance cover of 2 Lacs under Pradhan Mantri Suraksha Bima Yojana (PMSBY).

Which of the statements given above is/are correct?

- a) 1 Only
- b) 1 and 2 Only
- c) 1 and 3 Only
- d) 2 and 3 Only

Ans) c

Exp) Option c is the correct answer.

e-Shram portal, the National Database of Unorganized Workers (UWs) which was launched on 26th August 2021 will be used for enrollment, registration, collection, and identification of the required data of all the unorganized workers. Portal will provide the facility to register workers by Self registration as per their convenience.

Statement 1 is correct: Ministry of Labour and Employment (MoLE) has launched the E-Shram portal.

Statement 2 is incorrect: Documents like the Aadhaar Number, mobile number, Aadhaar linked bank account will be required by the worker to register on the portal. If a worker does not have an Aadhaar linked mobile number, he can visit the nearest Common Service Centre (CSC) and register through Biometric authentication.

Statement 3 is correct: Workers registering with the e-Shram portal will get an Accidental Insurance cover of 2 Lacs under **Pradhan Mantri Suraksha Bima Yojana (PMSBY)** and premium for the first year will be borne by MoLE. The person should be between 18 – 59 years to be eligible for PMSBY through e SHRAM registration. **Objectives of e-SHRAM Portal**

- 1) **Creation of a centralized database of all unorganized workers (UWs)** including Construction Workers, Migrant Workers, Gig and Platform workers, Street Vendors, Domestic Workers, Agriculture Workers, etc., to be seeded with Aadhaar. ✓ Documents like the Aadhaar Number, mobile number, Aadhaar linked bank account are required by the worker to register on the portal.
- 2) To improve the implementation efficiency of the social security services for the unorganized workers.
- 3) **Sharing of information in respect of registered unorganised workers with various stakeholders** such as Ministries/ Departments/ Boards/ Agencies/ Organisations of the Central & State Governments through APIs for delivery of various social security and welfare schemes being administered by them.
- 4) **Portability of the social security and welfare benefits** to the migrant and construction workers.

Q.36) With reference to the 'Northeastern Council', consider the following statements:

1. It is constituted by the President under the article 263 of the Constitution.
2. It falls under the administrative jurisdiction of the Ministry of Development of the Northeastern Region.
3. The Governors of all the eight north eastern states are the members of the council.
4. Presently, Union Home Minister acts as ex-officio Chairman of the Northeastern Council.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 2, 3 and 4 only
- c) 3 and 4 only
- d) 1, 2 and 4 only

Ans) b

Exp) Option b is the correct answer.

Recently, Prime Minister of India attended the **Golden Jubilee celebrations (50 years) of the North-Eastern Council (NEC) in Shillong**. The Northeastern Council is the nodal agency for the economic and social development of the Northeastern Region.

Statement 1 is incorrect: Northeastern Council was **constituted in 1971 by an Act of Parliament**. It is a **statutory body established by the Government of India in 1971 under the Northeastern Council Act, 1971**. The council is headquartered in Shillong, Meghalaya, and covers the eight states of the Northeast region of India, namely Arunachal Pradesh, Assam, Manipur, Meghalaya, Mizoram, Nagaland, Sikkim, and Tripura.

Statement 2 is correct: Northeastern Council (NEC) is under the **administrative purview of Ministry of Development of the North-Eastern Region (MDoNER)**. NEC has made significant contributions to the socio-economic development of the Northeastern region, as an Advisory body and as a Planning body.

Statement 3 is correct: The NEC consists of the **Governors and Chief Ministers of the eight states** of the Northeast region, along with nominated members from the government of India.

Statement 4 is correct: The NEC Act was amended by Parliament in 2002 to **add Sikkim and restructure** it as the **regional planning body** for the Northeastern Region. In 2018, The Union Cabinet has approved proposal of Ministry of Development of Northeastern Region (DoNER) for **nomination of Union Home Minister as ex-officio Chairman of Northeastern Council (NEC)**.

<https://necouncil.gov.in/sites/default/files/about-us/Amendment%20Act%202002.pdf>

<https://necouncil.gov.in/about-us/nec-amendment-act-2002-0>

Q.37) With reference to 'Inter-State Council', consider the following statements:

1. As per the Constitution, only the Parliament of India is empowered to define the duties of an inter-state council.
2. Janata Dal Government established the Inter-State Council in 1990 on the recommendations of the Sarkaria Commission.
3. The council is a recommendatory body that is empowered to investigate and discuss subjects of common interest between Centre and states.
4. All the questions in the council are decided by consensus.

Which of the statements given above are correct?

- a) 1 and 4 only
- b) 2 and 3 only
- c) 2, 3 and 4 only
- d) 1, 2, 3 and 4

Ans) c

Exp) Option c is the correct answer.

Article 263 contemplates the establishment of an Inter-State Council to effect coordination between the states and between Centre and states. Thus, the President can establish such a council if at any time it appears to him that the public interest would be served by its establishment.

Statement 1 is incorrect: The **president is empowered to define the duties** of an inter-state council. He can define the nature of duties to be performed by such a council and its organisation and procedure.

Statement 2 is correct: The **Sarkaria Commission on Centre-State Relations (1983-87) made a strong case for the establishment of a permanent Inter-State Council under Article 263** of the Constitution. It recommended that to differentiate the Inter-State Council from other bodies established under the same Article 263, it must be called as the Inter-Governmental Council. In **pursuance of the above recommendations of the Sarkaria Commission, the Janata Dal Government headed by V. P. Singh established** the Inter-State Council in 1990.

Statement 3 is correct: The **council is a recommendatory body on issues relating to inter-state, Centre-state and Centre-union territories relations**. It aims at promoting coordination between them by examining, discussing and deliberating on such issues. Its duties, in detail, are as follows:

- 1) investigating and discussing such subjects in which the states or the centre have a common interest;
- 2) making recommendations upon any such subject for the better coordination of policy and action on it; and
- 3) deliberating upon such other matters of general interest to the states as may be referred to it by the chairman.

Statement 4 is correct: The Council is assisted by a secretariat called the Inter-State Council Secretariat. This secretariat was set-up in 1991 and is headed by a secretary to the Government of India. Since 2011, it is also functioning as the secretariat of the Zonal Councils. The Council may meet at least thrice in a year. Its meetings are held in **camera and all questions are decided by consensus.**

Source: Laxmikanth

Q.38) With reference to 'Interstate and Intrastate trade & commerce', consider the following statements:

1. The subject of 'Inter-state trade and commerce' is mentioned in the concurrent list under Seventh Schedule of the Constitution.
2. Parliament can impose restrictions on the freedom of trade within a state in the public interest.
3. A bill to impose restrictions on the freedom of trade within a state can be introduced in the state legislature only with the previous sanction of the President.
4. Parliament can appoint an appropriate authority for carrying out the constitutional provisions relating to the freedom of trade in the country.

Which of the statements given above are correct?

- a) 2 and 3 only
- b) 2, 3 and 4 only
- c) 1, 3 and 4 only
- d) 2 and 4 only

Ans) b

Exp) Option b is the correct answer.

Articles 301 to 307 in Part XIII of the Constitution deal with the trade, commerce and intercourse within the territory of India. The object of these provision is to break down the border barriers between the states and to create one unit with a view to encourage the free flow of trade, commerce and intercourse in the country.

Statement 1 is incorrect: The subject of 'Inter-state trade and commerce' is provided in **the Union list under Seventh Schedule of the Constitution.** This means that the power to legislate on matters related to inter-state trade and commerce is given to the central government, and not to the state governments.

Statement 2 is correct: Parliament can impose **restrictions on the freedom of trade, commerce and intercourse between the states or within a state in public interest.** But the Parliament cannot give preference to one state over another or discriminate between the states except in the case of scarcity of goods in any part of India.

Statement 3 is correct: The legislature of a state can imposes reasonable restrictions on the freedom of trade, commerce and intercourse with that state or within that state in public interest. But a **bill for this purpose can be introduced in the legislature only with the previous sanction of the president.** Further, the state legislature cannot give preference to one state over another or discriminate between the states.

Statement 4 is correct: The **Parliament can appoint an appropriate authority for carrying out the purposes of the provisions relating to the freedom of trade,** commerce and intercourse and restrictions on it. The Parliament can also confer on that authority the necessary powers and duties. But no such authority has been appointed so far.

Source: Laxmikanth

Q.39) According to the Constitution, in which of the following matters is the Centre empowered to give directions to the states with regard to the exercise of their executive power?

1. Construction and maintenance of means of communication declared to be of national or military importance.
2. Drawing up and execution of the specified schemes for the welfare of Scheduled Tribes in the state.
3. Measures to be taken for the protection of the railways within the state.
4. Devolution of financial powers to local governments to enable them to function as units of self-government.

Select the correct answer using the codes given below:

- a) 1 and 3 only
- b) 2 and 4 only
- c) 1, 2 and 3 only
- d) 2, 3 and 4 only

Ans) c

Exp) Option c is the correct answer.

Statement 1, 2 and 3 are correct:

The Constitution has placed **two restrictions on the executive power of the states** in order to give ample scope to the Centre for exercising its executive power in an unrestricted manner. Thus, the executive power of every state is to be exercised in such a way (a) as to ensure compliance with the laws made by the Parliament and any existing law which apply in the state; and (b) as not to impede or prejudice the exercise of executive power of the Centre in the state. In addition to the above two cases, the Centre is empowered to give directions to the states regarding the exercise of their executive power in the following matters:

- 1) the construction and maintenance of means of communication (declared to be of national or military importance) by the state;
- 2) the measures to be taken for the protection of the railways within the state;
- 3) the provision of adequate facilities for instruction in the mother-tongue at the primary stage of education to children belonging to linguistic minority groups in the state; and
- 4) the drawing up and execution of the specified schemes for the welfare of the Scheduled Tribes in the state.

The coercive sanction behind the Central directions under Article 365 is also applicable in these cases.

Statement 4 is incorrect: The **devolution of financial powers to local governments is a voluntary provision under the 73rd and 74th Amendment Acts**. Thus, executive cannot direct state to implement these provisions as it is under the discretion of state governments in India.

Source: Laxmikanth.

Q.40) With reference to UN-Energy Plan of Action towards 2025, consider the following statements:

1. It was launched to support the countries to transition towards net zero emissions.
2. It sets a milestone for no new coal power plants in the pipeline after 2021.
3. It is aimed at accelerating the achievement of Sustainable Development Goals (SDGs).
4. Under this, UN-Energy will provide analytical inputs for intergovernmental dialogues.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2, 3 and 4 only
- c) 1, 3 and 4 only
- d) 1, 2, 3 and 4

Ans) d

Exp) Option d is the correct answer.

Plan of Action Towards 2025 was launched by **the UN Energy** against the backdrop of a global energy crisis and worsening climate emergency. It is a major step to catalyze the large-scale action and support needed for the transition to clean, affordable energy for all and net-zero emissions.

Statement 1 is correct: It is a major step to catalyze the large-scale action and support needed for the transition to clean, affordable energy for all and **net-zero emissions**.

Statement 2 is correct: Under plan of action 2025 UN Energy sets various milestones like **no new coal power plants in the pipeline after 2021**, 100% increase in modern renewables capacity globally, 30 million jobs in renewable energy and energy efficiency etc.

Statement 3 is correct: It aims to promote coherence in the UN system's multidisciplinary response to achieve **Sustainable Development Goal (SDG) 7** (Affordable and clean energy) in support of the 2030 Agenda for Sustainable Development, and the Paris Agreement on climate change

Statement 4 is correct: By harnessing the UN system's collective strengths, UN-Energy can provide analytical inputs for intergovernmental dialogues, share knowledge, and document best practices on institutional arrangements, technologies etc.

Knowledge Base:

UN Energy

- 1) UN-Energy is the United Nations' mechanism for inter-agency collaboration in the field of energy established by the **UN System Chief Executives Board for Coordination (CEB)**.
- 2) UN-Energy reports to the CEB through the High-Level Committee on Programmes (HLCP).
- 3) It brings together 30 organizations that are global leaders in their respective fields, covering together all aspects of energy and sustainable development.
- 4) It aims to promote **coherence in the UN system's multidisciplinary response to achieve Sustainable Development Goal (SDG) 7** in support of the 2030 Agenda for Sustainable Development, and the Paris Agreement on climate change.
- 5) It enhances coordination and collaborative actions within the UN with regards to policy development and implementation as well as knowledge sharing in area of energy.

Source: <https://energy.economictimes.indiatimes.com/news/power/un-energy-plan-of-action-towards-2025-launched/91334914> <https://un-energy.org/wp-content/uploads/2022/05/UN-Energy-Plan-of-Action-towards-2025-2May2022.pdf>

Q.41) With reference to 'Union Public Service Commission', consider the statements:

1. It acts as a central personnel agency in India responsible for cadre management of all-India services and Central services.
2. An individual ministry or department has no power to reject the advice of the UPSC.
3. The jurisdiction of UPSC can be extended by an act made by Parliament.
4. If the government fails to consult UPSC on matters relating to methods of recruitment to civil services, the aggrieved public servant has no remedy in court.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1, 2 and 4 only
- d) 2, 3 and 4 only

Ans) d

Exp) Option d is the correct answer.

Union Public Service Commission (UPSC) is the central recruiting agency in India. It is an independent constitutional body in the sense that it has been directly created by the Constitution. **Articles 315 to 323 in Part XIV of the Constitution** contain elaborate provisions regarding the composition, appointment and removal of members along with the independence, powers and functions of the UPSC.

Statement 1 is incorrect: UPSC is **not concerned with the classification of services, pay and service conditions, cadre management, training, and so on.** These matters are handled by the Department of Personnel and Training—one of the three departments of the Ministry of Personnel, Public Grievances and Pensions. Therefore, UPSC is **only a central recruiting agency while the Department of Personnel and Training is the central personnel agency in India.**

Statement 2 is correct: The UPSC presents, annually, to the president a report on its performance. The President places this report before both the Houses of Parliament, along with a memorandum explaining the cases where the advice of the Commission was not accepted and the reasons for such non-acceptance.

All such cases of non-acceptance must be approved by the Appointments Committee of the Union cabinet. An individual ministry or department has no power to reject the advice of the UPSC.

Statement 3 is correct: The additional functions relating to the services of the Union can be conferred on UPSC by the Parliament. It can also place the personnel system of any authority, corporate body or public institution within the jurisdiction of the UPSC. Hence the **jurisdiction of UPSC can be extended by an act made by the Parliament.**

Statement 4 is correct: UPSC is consulted on the matters related to personnel management and all matters relating to methods of recruitment to civil services and for civil posts.

The Supreme Court has held that if the **government fails to consult UPSC in the matters (mentioned above), the aggrieved public servant has no remedy in a court.** In other words, the court held that any irregularity in consultation with the UPSC or acting without consultation does not invalidate the decision of the government. Thus, the provision is directory and not mandatory. Similarly, the court held that a selection by the UPSC does not confer any right to the post upon the candidate.

Source: Laxmikanth

Q.42) Which of the following statements support the argument that the Finance Commission is a quasi-judicial body?

1. The commission submits its report to the President to be laid before both the Houses of Parliament.
2. The recommendations of the commission shall be implemented within a specified time frame.
3. The Commission has the powers of a civil court, and it can summon witnesses and take evidence.

Select the correct answer using the codes given below:

- a) 1 only
- b) 1 and 3 only
- c) 2 and 3 only
- d) 3 only

Ans) d

Exp) Option d is the correct answer.

Article 280 of the Constitution of India provides for a **Finance Commission as a quasi-judicial body.** It is constituted by the president of India every fifth year or at such earlier time as he considers necessary. A quasi-judicial body is a type of administrative agency that has powers and procedures like those of a court of law but is not a court itself.

Statement 1 is incorrect: The Finance commission submits its report to the president. He lays it before both the Houses of Parliament along with an explanatory memorandum as to the action taken on its recommendations. **However, this does not make it a quasi-judicial body.**

Statement 2 is incorrect: The recommendations made by the Finance Commission are only of advisory nature and hence, **not binding on the government**. The recommendations of the commission have no time for its implementation.

Statement 3 is correct: In carrying out its functions, the Finance Commission has the **powers of a civil court, and it can summon witnesses**, take evidence, and require the production of documents. This provision makes it a Quasi-Judicial body.

Source: Laxmikanth

<https://www.legalserviceindia.com/legal/article-10088-finance-commission-of-india.html>

Q.43) Which of the following are the functions of ‘National Commission for Scheduled Castes’?

1. To enquire into specific complaints with respect to the deprivation of rights of the Schedule Castes.
2. To investigate and monitor all matters relating to the constitutional safeguards for the Schedule Castes.
3. Specifying the castes to be deemed as Scheduled Castes in relation to any Union Territory.
4. Annually present report to the President upon the working of safeguards for Schedule Castes in India.

Select the correct answer using the codes given below:

- a) 1 and 2 only
- b) 2, 3 and 4 only
- c) 1, 2 and 4 only
- d) 1, 2, 3 and 4

Ans) c

Exp) Option c is the correct answer.

National Commission for Scheduled Castes (SCs) is a constitutional body in the sense that it is directly established by Article 338 of the Constitution. It consists of a chairperson, a vice-chairperson and three other members. They are appointed by the President by warrant under his hand and seal. Their conditions of service and tenure of office are also determined by the President.

Statements 1, 2 and 4 are correct: The functions of the National Commission for Scheduled Castes are:

- (a) To **investigate and monitor all matters relating to the constitutional and other legal safeguards** for the SCs and to evaluate their working;
- (b) To **inquire into specific complaints with respect to the deprivation of rights and safeguards** of the SCs;
- (c) To participate and advise on the planning process of socio-economic development of the SCs and to evaluate the progress of their development under the Union or a state;
- (d) To **present to the President, annually and at such other times as it may deem fit, reports upon the working of those safeguards;**
- (e) To make recommendations as to the measures that should be taken by the Union or a state for the effective implementation of those safeguards and other measures for the protection, welfare and socio-economic development of the SCs; and
- (f) To discharge such other functions in relation to the protection, welfare and development and advancement of the SCs as the president may specify.

Statement 3 is incorrect: **President by public notification specify the castes, races or tribes or parts of or groups within castes, races or tribes which shall for the purposes of the Constitution** be deemed to be Scheduled Castes in relation to that State or Union Territory, as the case may be.

Source: Laxmikanth

<https://dopt.gov.in/sites/default/files/ch-11.pdf>

Q.44) With reference to ‘Special Officer for Linguistic Minorities’, consider the following statements:

1. Originally, the Constitution of India did not make any provision with respect to the Special Officer for Linguistic Minorities.
2. Special Officer for Linguistic Minorities is appointed by Central government after consultation with the states.
3. The Office of the Special Officer for Linguistic Minorities falls under the ambit of Union Ministry of Home Affairs.

Which of the statements given above is/are correct?

- a) 1 only
- b) 1 and 2 only
- c) 2 and 3 only
- d) 1 and 3 only

Ans) a

Exp) Option a is the correct answer.

The **Special Officer for Linguistic Minorities** is a constitutional post created under Article 350 B of the Indian Constitution. The primary responsibility of the Special Officer is to investigate and monitor the implementation of constitutional safeguards provided to linguistic minorities in India.

Statement 1 is correct: The Constitution of India, **originally, did not make any provision with respect to the Special Officer for Linguistic Minorities**. Later, the States Reorganisation Commission (1953–55) made a recommendation in this regard. Accordingly, the Seventh Constitutional Amendment Act of 1956 inserted a new Article 350–B in Part XVII of the Constitution.

Statement 2 is incorrect: Special Officer for Linguistic Minorities is **appointed by the President of India**. Constitution does not specify the qualifications, tenure, salaries and allowances, service conditions and procedure for removal of the Special Officer for Linguistic Minorities.

Statement 3 is incorrect: This constitutional body of Special Officer for Linguistic Minorities falls under the Ministry of Minority Affairs (Not Home Ministry). The Special Officer submits the annual reports along with other reports to the President of India through the Union Minister of Minority Affairs.

Source: Laxmikanth.

Q.45) With reference to Technical Barriers to Trade Agreement (TBT), consider the following statements:

1. It is an Agreement of World Trade Organization.
2. Recently, an Indian representative has been made the chair of TBT committee.
3. It also covers sanitary and phytosanitary (SPS) measures.

Which of the statements given above is/are correct?

- a) 2 and 3 only
- b) 1 and 2 only
- c) 1 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

The Technical Barriers to Trade (TBT) Agreement is a **World Trade Organization** agreement focusing on removing/regulating non-tariff barriers to trade in the form of technical barriers to international trade.

Statement 1 is correct: The Agreement on Technical Barriers to Trade is an **international treaty of the World Trade Organization**

Statement 2 is correct: After a gap of ten years, an **Indian government officer Anwar Hussain Shaik has been made the chair of the WTO's committee on Technical Barriers on Trade**. He will take this role from Elisa Maria Olmeda de Alejandro from Mexico.

Statement 3 is incorrect: Although TBT applies to a broad range of agricultural and industrial products, **sanitary and phytosanitary (SPS) measures and specifications for government procurement are covered under separate agreements**.

Source: https://www.wto.org/english/tratop_e/tbt_e/tbt_e.htm

https://www.wto.org/english/tratop_e/tbt_e/tbt_info_e.htm

Q.46) Consider the following statements with reference to the territorial integrity of the states in India:

1. The Parliament can redraw the political map of India according to its will.
2. The State Legislature can enlarge its territorial jurisdiction and possess the power of 'extra-territorial legislation' in some circumstances.

Which of the above statements is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) a

Exp) Option a is the correct answer.

It is important to note that the **integrity of the territory** of the States is not guaranteed by the Constitution of India and **Parliament is made Supreme** even with respect to the questions relating to the territory.

Statement 1 is correct: The Constitution **authorizes the Parliament to form new states or alter the areas, boundaries or names of the existing states without their consent**. In other words, **the Parliament can redraw the political map of India according to its will**. Hence, the territorial integrity or continued existence of any state is not guaranteed by the Constitution. Therefore, India is rightly described as '**an indestructible union of destructible states**'.

Statement 2 is incorrect: It is not possible for a State Legislature to enlarge its territorial jurisdiction under any circumstances except when the boundaries of the state itself are widened by an act of Parliament.

As regards territory, Article 245 (1) provides that subject to the provisions of this constitution, a State Legislature may make laws for the whole or any part of the state to which it belongs. Parliament has, on the other hand, the power to legislate for 'the whole or any part of the territory of India, which includes not only the states but also the union territory of India. It also possesses the **power of 'extra-territorial legislation' under Art. 245 (2) of the Constitution, which no state legislature possesses**.

Knowledge Base:

Article 1 deals with the name of the country and the type of polity.

Article 2 empowers the Parliament to 'admit into the Union of India, or establish, new states on such terms and conditions as it thinks fit'.

Article 3 details the power of parliament to reorganize states and/or union territories.

Source: Indian Polity; Laxmikanth 6th Edition Chapter 5

Q.47) The Indian Constitution contains the “Full Faith and Credit” clause, which is related to:

1. Any official record made by a public servant in the discharge of his official duties
2. Public records of each state
3. Executive acts of the government of a state

Which of the above options is/are correct?

- a) 3 only
- b) 2 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

Under the Constitution, the jurisdiction of each state is confined to its own territory. Hence, it is possible that the acts and records of one state **may not be recognized in another state.**

Every state must recognize and respect the judgments, judicial proceedings, laws & records of other states.

To remove any such difficulty, Constitution lays down the following:

Full faith and credit are to be given throughout the territory of India to **public acts, records and judicial proceedings** of the Centre and **every state**. Hence, **Option 2 is correct.**

This clause is primarily invoked to enforce the functioning of a union, a state refusing to recognize acts and records of another state may give rise to confusion and inconvenience. This avoids inter-governmental conflicts.

Option 1 is correct. The expression ‘**public record**’ includes **any official** book, register or **record made** by a public servant in the **discharge of his official duties.**

Option 3 is correct. The expression ‘**public acts**’ includes both legislative and executive acts of the government.

Knowledge Base: The way and the conditions under which such acts, records and proceedings are to be proved and their effect determined would be as provided by the laws of Parliament. This means that the general rule mentioned above is subject to the power of Parliament to lay down the mode of proof as well as the effect of such acts, records and proceedings of one state in another state.

<https://indiankanoon.org/doc/358206/>

Q.48) The Constitution of India provides which of the following provisions to ensure the independence of Chief Election Commissioner (CEC)?

1. The Chief Election Commissioner is to be appointed by a collegium headed by the Prime Minister.
2. Retiring Chief Election Commissioner is not eligible for any further appointment under the government.
3. He can be removed only on the same grounds as a judge of the Supreme Court.
4. The service conditions of the Chief Election Commissioner cannot be varied to his disadvantage after his appointment.

Select the correct answer using the codes given below:

- a) 1 and 2 only
- b) 3 and 4 only
- c) 1 and 4 only
- d) 2, 3 and 4 only

Ans) b

Exp) Option b is the correct answer.

Article 324 of the Constitution has made the provisions to safeguard and ensure the independent and impartial functioning of the Election Commission.

Statement 1 is incorrect: The Constitution has not prescribed the qualifications (legal, educational, administrative or judicial) of the members of the Election Commission. The **appointment of the chief election commissioner and other election commissioners are made by the president.**

Statement 2 is incorrect: The Constitution **has not debarred the retiring election commissioners** from any further appointment by the government.

Statement 3 is correct: The chief election commissioner is provided with the security of tenure. He **cannot be removed from his office except in same manner and on the same grounds as a judge of the Supreme Court.** In other words, he can be removed by the president based on a resolution passed to that effect by both the Houses of Parliament with special majority, either on the ground of proved misbehaviour or incapacity. Thus, he does not hold his office till the pleasure of the president, though he is appointed by him.

Statement 4 is correct: According to the Constitution of India, the service conditions of the Chief **Election Commissioner (CEC) cannot be varied to his disadvantage** after his appointment. This provision is enshrined in Article 324(5) of the Constitution.

Source: Laxmikanth

Q.49) Which of the following statements is/are correct regarding the National Investigation Agency (NIA)?

1. It can investigate a terror case in a state only after getting permission from the concerned state government.
2. It has the authority to investigate offences that are committed outside Indian territory.
3. The agency can investigate offences related to Cyber terrorism.

Select the correct answer using the code given below:

- a) 3 only
- b) 2 and 3 only
- c) 1 and 2 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

Statement 1 is incorrect: The National Investigation Agency (NIA) is the central counter-terrorism law enforcement agency in the country. It was created in 2008 after the Mumbai terror attack. It can investigate terror cases across the country **without** having to get **permission from the states.**

Statement 2 is correct: The NIA (Amendment) Act 2019 expands the jurisdiction of the NIA. Now, it has the authority to **investigate scheduled offences that are committed outside** Indian territory subject to international treaties and domestic laws of other nations.

Statement 3 is correct: The NIA (Amendment) Act 2019 allows the agency to investigate the following new offences, these are - Human trafficking; Counterfeit currency or bank notes related offences; Sale or manufacture of prohibited arms; Offences under the Explosive Substances Act, 1908; and **Cyber terrorism.**

Knowledge Base:

- 1) The National Investigation Agency (NIA) was constituted in 2009 under the provisions of the National Investigation Agency Act, 2008 (NIA Act). It is the central counter-terrorism law enforcement agency in the country.
- 2) The headquarters of the NIA is at New Delhi.
- 3) The NIA is headed by a Director-General. He is appointed by the central government. His powers are like the powers exercisable by a Director-General of Police in respect of the police force in a state.

- 4) The NIA works under the administrative control of the Ministry of Home Affairs, Government of India.
- 5) The state government extends all assistance and co-operation to the NIA for investigation of the offences specified under the NIA Act.

Q.50) Which of the following best describes the AKRUTI initiative?

- a) It is a scheme of the Ministry of Tribal Affairs to promote entrepreneurial art.
- b) It is an initiative of the Ministry of Housing and Urban Affairs to promote sustainable rural housing.
- c) It is a program launched by Bhabha Atomic Research Centre (BARC) for encouraging village-level technopreneurship.
- d) It is an initiative of Indian space research organization (ISRO) for encouraging innovations in small satellite design.

Ans) c

Exp) Option c is the correct answer.

- 1) **The AKRUTI programme is offered by Bhabha Atomic Research Centre (BARC). Aimed at encouraging village-level technopreneurship based on BARC technologies.**
- 2) BARC, under AKRUTI program, presently offers Technologies/ Consultancy in fields of Biodegradable Waste Processing, Water, Food, and Agriculture.
- 3) To create awareness regarding the use of AKRUTI, several Knowledge and Rural Technology Implementation Kendras (KRUTIK) were opened in villages to impart regional-level training.

Source: <https://www.thehindu.com/news/cities/Madurai/akruti-promotes-youth-entrepreneurship-in-and-around-kudankulam/article65463744.ece>

Q.1) Consider the following statements regarding 'judicial review' and the 'judicial activism':

1. The concept of 'judicial review' originated in United States, whereas 'judicial activism' is an Indian innovation.
2. The term 'judicial review' is mentioned in the Constitution, whereas 'judicial activism' is not mentioned in the Constitution.
3. Both 'judicial review' as well as 'judicial activism' are the parts of basic structure of the Constitution.

Which of the statements given above are **incorrect**?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

Judicial review means power of the judiciary to **review the actions of the executive, legislature and the administration. Judicial activism denotes the proactive role played by the judiciary in the protection of the rights** of citizens and promotion of justice in the society. Through activism, the judiciary forces the executive and the legislature to discharge their duties.

Statement 1 is incorrect: Both the concepts of judicial review and judicial activism were originated in the USA. Judicial activism was introduced for the first time by **John Marshall** in the case of **Marbury vs. Madison (1803)**. The term 'judicial activism' was coined by **Arthur Schlesinger Jr. in 1947** in an article in Fortune.

Statement 2 is incorrect: Both the terms- 'judicial review' and 'judicial activism' are not explicitly mentioned in the Constitution. However, the Constitution itself confers the power of judicial review on the judiciary. For example, Article 13 where Supreme Court can declare a law null and void if it violates the Fundamental Rights.

Statement 3 is incorrect: Only judicial review has been held as a part of the basic structure. In India Nehru Gandhi Case (1975), Minerva Mills case (1980), S.P. Sampath Kumar Case (1987), S.R. Bommai case (1994), I.R. Coelho case (2007) and in many other cases, judicial review has been considered as a basic feature of the Indian Constitution. **On the other hand, Supreme Court has time and again advocated to balance judicial activism with the judicial restraint to ensure separation of powers and maintain the autonomy of the judiciary.**

Source: M. Laxmikanth (Chapter 27 and 28)

Q.2) The Indian Constitution has certain borrowed features. In this context, from which of the following sources has the 'integrated system of courts' been adopted?

- a) The Constitution of Ireland
- b) The Constitution of France
- c) The English Common Law
- d) The Government of India Act, 1935

Ans) d

Exp) Option d is the correct answer.

Integrated system of Courts means a judicial system where a single system of **courts enforces both Centre as well as state laws**. India has integrated judicial system with Supreme Court at the top and High Courts below it. There is a hierarchy of subordinate courts below the High Court. All these courts are empowered to hear cases pertaining to both Centre as well as the state laws.

Option a is incorrect: Some of the borrowed features from Constitution of Ireland are Directive Principles of State Policy, nomination of members to the Rajya Sabha and method of election of the President and not integrated system of courts.

Option b is incorrect: The judicial system including the single system of courts in India has not been adopted from the French Constitution. There are considerable differences between the judicial setup of India and France. For example, unlike India, in France any court can hear civil and criminal system. Moreover, **France is a unitary state**. So, there is no question of single system of courts enforcing center and the state laws.

Option c is incorrect: The United Kingdom (UK) has **three separate legal systems, one each for England and Wales, Scotland and Northern Ireland**. Also, **UK is not a federal country**. So, there is no question of single system of courts in UK.

Option d is correct: The single system of courts in India has been adopted from the Government of India Act, 1935. The Supreme Court of India has succeeded the Federal Court of India, which was established under the Government of India Act, 1935. The Federal Court also has original, advisory and appellate jurisdiction. **It was empowered to hear appeals from the Provincial High Courts**. Also, the **High Courts could decide cases on the matters pertaining to the Government of India Act, 1935**. Hence, there was a single system of courts which was later adopted in the Constitution of India. A significant chunk of administrative provisions was adopted from the Government of India Act, 1935.

Source: M. Laxmikanth (Page 26.1, Chapter 26)

Q.3) Consider the following statements regarding the Supreme Court of India:

1. The Constitution provides for a maximum tenure of 6 years for the Supreme Court Judges.
2. The Constitution explicitly provides the grounds for the removal of a Supreme Court Judge.

Which of the statements given above is/ are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) b

Exp) Option b is the correct answer.

Articles 124-147 of the Constitution deals with various provisions regarding the Supreme Court of India, its powers, administration and so on.

Statement 1 is incorrect: The Constitution does not prescribe tenure of a Supreme Court Judge. It only specifies that a Judge **holds office until he attains the age of 65 years**. So, there is no fixed tenure of the Judges of the Supreme Court. The Judge retires on attaining the age of 65 years or he/ she can resign or can be removed by the President on the recommendation of the Parliament.

Statement 2 is correct: Article 124(4) provides for the removal of the Supreme Court Judge. The **Article explicitly mentions the grounds for removal of Judge- proven misbehavior or incapacity**. Hence, the given statement is correct.

Source:

<https://main.sci.gov.in/constitution#:~:text=A%20Judge%20of%20the%20Supreme%20Court%20cannot%20be%20removed%20from,presented%20to%20the%20President%20in>

M. Laxmikanth (Page 26.3, Chapter 26)

Q.4) With reference to removal of the High Court judges in India, consider the following statements:

1. No judge of any high court has been impeached so far since independence.
2. Speaker has discretionary power in admitting the motion of removal.
3. Removal procedure of a high court judge is similar to Supreme Court judge.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 and 3 only
- c) 2 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is correct answer.

A judge of a high court can be removed from his office by an order of the President. The President can issue the removal order only after an address by the Parliament has been presented to him in the same session for such removal. The address must be supported by a special majority of each House of Parliament.

Statement 1 is correct: No judge of any high court (or Supreme Court) of India has been impeached so far. Impeachment proceedings against SC or HC judges initiated a total of 4 times in Indian history.

Statement 2 is correct: The Speaker/Chairman may admit the motion of removal of High court or refuse to admit it. They have discretionary power in admitting the motion of removal.

Statement 3 is correct: A judge of a high court can be removed in the same manner and on the same grounds as a judge of the Supreme Court. The procedure for the impeachment of a judge of a high court is the same as that for a judge of the Supreme Court. The grounds of removal are two- **proved misbehaviour or incapacity.**

Source: Laxmikanth (Ch 34)

Q.5) Consider the following statements with reference to the Central Advisory Board on Archaeology:

1. Recently, it has been reconstituted to include the culture minister as the chairperson of the board.
2. It will promote a closer association of learned societies in India with the activities of the Archaeological Survey of India.

Which of the above given statements is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) c

Exp) Option c is the correct answer.

Recently, the Government has re-constituted the Central Advisory Board on Archaeology (CABA). It has been constituted to strengthen contacts between the Archaeological Survey of India (ASI) and those in the field of archaeological research.

Statement 1 is correct: The Central Advisory Board on Archaeology has been reconstituted by the ASI to **include the culture minister as the chairperson** and also includes ASI and Culture Ministry officials, state government nominees, MPs, scientists, university representatives, and experts on the Indus Valley script among the members. This board will also consist of 5 persons that will be nominated by the Indian Government along with the former Director-General of ASI.

Statement 2 is correct: The board will meet once a year and its functions would include advising the Centre on "matters relating to archaeology" referred to by its members. It will **promote** the studies related to

application of archaeological principles, training future Archaeologists, and closer association of **learned societies in India and of the State Governments with the activities of the ASI**. It will promote closer contacts of the Archaeological Survey of India with Indian Universities conducting Archaeological Research.

Q.6) With respect to the Indian judicial system, which of the following statements is/ are correct regarding 'charge sheet'?

1. It is the final report prepared by a police officer or investigative agency after completing their investigation.
2. Non-filing of charge sheet within the prescribed time gives accused the 'right to default bail'.
3. It is a public document and must be made publicly available.

Choose the correct answer from the codes given below:

- a) 1 only
- b) 1 and 2 only
- c) 1 and 3 only
- d) 2 and 3 only

Ans) b

Exp) Option b is the correct answer.

Section 173 of Code of Criminal Procedure (CrPC) contains provisions regarding the charge sheet. According to this section, charge sheet should contain the names, the nature of information, offences etc. All important questions are answered in the charge sheet.

Statement 1 is correct: A charge sheet is the **final report prepared by the police office or the investigative agency after completing their investigation**. It was also upheld by the Supreme Court in **K Veeraswami vs. Union of India and Others (1991)**, that a charge sheet is a final report of the police officer under section 173(2) of the CrPC.

Statement 2 is correct: A charge sheet **needs to be filed within the prescribed period of 60/90 days. Non-filing of charge sheet within the prescribed time will entitle the accused for the right to default bail**. In **Rakesh Kumar Paul case**, Justice M.B. Lokur of Supreme Court had held that since no charge sheet has been filed within the prescribed time, the petitioner was eligible for obtaining default bail. Therefore, the **prosecuting agency needs to show a sense of urgency** in the investigation of the case and omits or defaults to file a charge-sheet within the time prescribed, the accused would be entitled to be released on bail. **Also, the right of default bail is lost, once charge sheet is filed.**

Statement 3 is incorrect: Recently Supreme Court has held that **charge sheet is NOT a public document and it cannot be made publicly available**. **Section 74 of the Evidence Act** contains the details about the public documents and as per the Court's ruling, charge sheets cannot be called as public document under this section. The Court held that if it is made public, **it will compromise the rights of the accused, victim and investigative agencies**. It should be noted that **First Information Report (FIR) is a public document** and the Supreme Court has directed to publish copies of FIRs online (except in the sensitive cases).

Source: <https://www.legalserviceindia.com/legal/article-1338-what-is-fir-and-chargesheet-.html>

Q.7) Consider the following statements regarding the doctrine of judicial review, as followed in India:

1. Judicial review of executive decisions over the administrative matters is permitted.
2. The Supreme Court's power of judicial review can be curtailed by amending the constitution.
3. Judicial review of laws included under the IX Schedule of the Constitution is not permitted.

Which of the statements given above is/ are correct?

- a) 1 only
- b) 1 and 2 only
- c) 2 only
- d) 1 and 3 only

Ans) a

Exp) Option a is the correct answer.

Judicial review means power of the judiciary to examine the constitutionality of the legislative and the executive actions. Its objective is to uphold the supremacy of the constitution.

Statement 1 is correct: Courts are empowered to review the executive actions on administrative matters if they violate fundamental rights or any other legal rights. For example, under Article 32, Supreme Court can issue the writ of mandamus to direct a public official to perform his official duty.

Statement 2 is incorrect: As per the Constitution of India, **the powers of Supreme Court can only be enhanced and cannot be curtailed.** Also, judicial review has been declared as a basic feature of the Indian Constitution under various cases like India Nehru Gandhi Case (1975), Minerva Mills case (1980), S.P. Sampath Kumar Case (1987), S.R. Bommai case (1994), I.R. Coelho case (2007). Hence, it cannot be curtailed.

Statement 3 is incorrect: In I.R. Coelho case, the Supreme Court has held that there is no blanket immunity from judicial review of the laws included in the IX Schedule. These laws can be challenged in the Supreme Court if they violate the Fundamental Rights. Hence, judicial review of laws included in the IX schedule is permissible.

Source: M. Laxmikanth (Page 27.1, Chapter 27)

Q.8) Consider the following statements regarding the 'Public Interest Litigation (PIL)':

1. This concept was originated in the United States of America.
2. It requires a stricter application of the rule of 'locus standi'.
3. It is based on the non-adversarial system of litigation.

Which of the statements given above is/ are **incorrect**?

- a) 2 only
- b) 3 only
- c) 1 and 2 only
- d) 2 and 3 only

Ans) a

Exp) Option a is the correct answer.

As per the Supreme Court, "Public Interest Litigation (PIL) is a legal action initiated in a court of law for the enforcement of public interest or general interest. In simple words, **it is a litigation filed in the court of law, for the protection of public interests like pollution, terrorism, construction hazards etc.**

Statement 1 is correct: In order to provide representation to the previously unrepresented sections, the concept of PIL was originated and developed in the **United States of America (USA) during 1960s.** In 1960s the PIL movement began to receive financial support from the Office of Economic Opportunity. This encouraged lawyers and public spirited persons to take up cases of the under-privileged and fight against dangers to environment, public health, consumer interests and the weak sections.

Statement 2 is incorrect: The locus standi rule has been diluted for the PIL. Locus Standi means, a person whose rights have suffered, only he/ she can move to the courts to seek justice. **In PIL, any member of the public, like a public-spirited citizen or organization, can approach the courts for enforcing the rights of general public.** Judges themselves have in some cases initiated **suo moto action** based on newspaper articles or the letters received. **Bandhua Mukti Morcha vs. Union of India, Unni Krishnan vs. the State of Andhra Pradesh** are the examples where the rule has been relaxed.

Statement 3 is correct: Non-adversarial or inquisitorial system of litigation implies an active involvement of the court in the case investigation. In adversarial system, on the other hand, the Court acts as an impartial referee between the two litigating parties. **Supreme Court in People's Union for Democratic Reforms vs. Union of India has held that PIL is a non-adversarial system of litigation.** As a non-adversarial litigation, PIL has following aspects:

- 1) Collaborative litigation: In collaborative litigation the effort is from all the sides i.e. the claimant, the court and the government or public official all are in collaboration to see that basic human rights become meaningful.
- 2) Investigative litigation: This is because it works on the reports of registrar, district magistrate, comments of experts, newspapers etc.

Hence, the statement is correct as PIL is a non-adversarial system of litigation.

M Laxmikanth (Page 29.1, Chapter 29)

Q.9) In India, Legal Services Authorities provide free legal services to which of the following?

1. All transgender persons
2. The victims of an ethnic violence or caste atrocity
3. A mentally ill or otherwise disabled person
4. All workers in services and industrial sectors
5. A woman or a child below the age of 18 years.
6. A victim of Human trafficking

Select the correct answer using the code given below:

- a) 1, 4 and 6 only
- b) 2, 3 and 4 only
- c) 2, 3, 5 and 6 only
- d) 2, 3, 4, 5 and 6 only

Ans) c

Exp) Option c is the correct answer.

Under the mandate of Article 39A of the constitution, Legal Services Authorities Act, 1987 was enacted to provide free legal aid to the poor and weaker sections of society.

Statement 1 is incorrect: NALSA, 1987 does not provide free legal aid to all transgender persons separately. They will have to fulfil the conditions related to different income criterion to get the free legal aid as per the Act. On the other hand, all women and children are eligible for free legal aid.

Statement 2 and 3 are correct: A mentally ill or otherwise disabled person and victim of a mass disaster, ethnic violence, caste atrocity, flood, drought, earthquake or industrial disaster are covered under NALSA for free legal aid.

Statement 4 is incorrect: It does not cover all workman from services and only covers industrial workman as mentioned in section 12(f) of the NALSA ACT 1987.

Statement 5 is correct: A woman is entitled for free legal aid irrespective of her income or financial status. A woman is eligible to apply for free legal aid by virtue of Section 12(c) of the Legal Services Authorities Act, 1987. Similarly, A child is eligible for free legal aid till the age of majority i.e., 18 years. This is effectuated by Section 12 (c) of the Legal Services Authorities Act, 1987.

Statement 6 is correct: A victim of trafficking in human beings or begar as referred to in Article 23 of the Constitution are covered under free legal aid. Also, person in custody, including custody in a protective home within the meaning of clause (g) of Section 2 of the Immoral Traffic (Prevention) Act, 1956

Q.10) Consider the following statements with reference to the Thomas Cup:

1. It is associated with badminton.
2. Recently, India's has won the men's Thomas Cup 2022 for the first time.
3. It is biennial international championship.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

Recently, India won the Thomas Cup for the first time ever.

Statement 1 is correct: Thomas Cup trophy **signifies the world supremacy** in the sport of **badminton**. It can be considered equivalent to football or cricket world cup.

Statement 2 is correct: Recently, India's men's badminton team **won the Thomas Cup title for the first time ever by defeating Indonesia in the finals**. In the **tournament's seven-decade-long history**, the championship title has changed hands only among five nations - China, Malaysia, Indonesia, Japan and Denmark. With its win, **India became only the sixth country** ever to break into this elite club.

Statement 3 is correct: Thomas Cup is a **biennial international badminton championship** contested by the men and women's national teams. It is a **16-nation team event**.

Q.11) Consider the following statements regarding powers and functioning of Lok Adalats:

1. It has the jurisdiction to settle those matters pending before any court but not the matters which are at pre-litigation stage.
2. It can deal only with matters which are civil in nature, and not criminal matters.
3. An appeal against the judgement of Lok Adalat shall lie to Supreme court directly.

Which of the statements given above are **incorrect**?

- a) 1 and 2 only
- b) 1 and 3 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

Statement 1 is incorrect: Lok Adalat has jurisdiction to determine and to arrive at a compromise or settlement between the parties to a dispute in respect of any case pending before any court and for any matter which falls within the jurisdiction of any court and not brought before such a court (pre-litigation stage).

Statement 2 is incorrect: Lok Adalat deals with civil cases and criminal matters (compoundable offences). The offences which are non-compoundable in nature fall outside the purview of Lok Adalat.

Statement 3 is incorrect: An award of Lok Adalat is like a decree of civil court. So, the decision of Lok Adalat is final and binding on the parties to the dispute. Hence no appeal shall lie to any court. It reduces the delay in settlement of disputes.

Source: Laxmikanth Chapter 36 Subordinate courts

<https://blog.forumias.com/answered-what-are-lok-adalats-why-were-they-established-discuss-the-role-of-lok-adalats-and-their-limitations/>

Q.12) Which of the following statements is/are correct regarding the Family Courts?

1. They are established under the Legal Services Authorities Act,1987.
2. An appeal against the decision of family court shall lie to the high court.
3. Parties are provided with help of a legal practitioner as a matter of right in family courts.
4. They are established only by central government in consultation with the high courts of respective states.

Select the correct answer using the code given below:

- a) 1, 2 and 3 only
- b) 2 and 4 only
- c) 2 only
- d) 1, 3 and 4 only

Ans) c

Exp) Option c is the correct answer.

Statement 1 is incorrect: The Family Courts are established under the Family Courts Act, 1984 (not the Legal Services Authorities Act 1987). It was enacted to provide for the establishment of Family Courts to promote speedy settlement of disputes relating to marriage and family affairs.

Statement 2 is correct: It provides for only one right of appeal which shall lie to the High Court.

Statement 3 is incorrect: Parties are not provided with help of legal practitioner as a matter of right in family courts.

Statement 4 is incorrect: Family Court Act,1984 provides for the establishment of Family Courts by the state governments (and not the Central Government) in consultation with the High Courts.

Source: Laxmikanth Chapter 36 Subordinate courts

Q.13) With reference to High Courts in India, consider the following statements:

1. The Constitution makes no provision for the appointment of a distinguished jurist as a judge of a high court.
2. Only a citizen of India can be appointed as a judge of High Court.

3. A person who holds a judicial office for minimum five years can be appointed as a judge of a high court.
 4. The Constitution has not prescribed a minimum age for appointment of a High Court judge.

Which of the statements given above are correct?

- a) 1, 2 and 4 only
 b) 3 and 4 only
 c) 1 and 2 only
 d) 1, 2 and 3 only

Ans) a

Exp) Option a is correct answer.

The high courts of India are the highest courts of appellate jurisdiction in each state and union territory of India.

Statement 1 is correct: Unlike in the case of the Supreme Court, the Constitution makes no provision for appointment of a distinguished jurist as a judge of a High Court.

Statement 2 is correct and Statement 3 is incorrect: Qualification to become the Judge of the High Court are-

1) He should be a citizen of India. Therefore, **only Indian citizens** can be High court judge.

2) (a) He should have held a judicial office in the territory of India for ten years (not five years); or (b) He should have been an advocate of a High court (or High courts in succession) for ten years.

Statement 4 is correct: The Constitution **has not prescribed a minimum age** for appointment as a judge of a high court. However, it has prescribed the retirement age (62 years).

Source: Laxmikanth (Ch 34)

Q.14) Consider the following statements regarding Gram Nyayalaya:

1. It is a non-statutory body.
2. The presiding officer of Gram Nyayalaya shall be appointed by the state government in consultation with high court concerned.
3. It is mandatory to establish a Gram Nyayalaya at every gram panchayat.
4. It has the power to adjudicate civil as well as criminal cases.

Which of the statements given above are correct?

- a) 1 and 2 only
 b) 1 and 3 only
 c) 2 and 3 only
 d) 2 and 4 only

Ans) d

Exp) Option d is the correct answer.

Statement 1 is incorrect: Gram Nyayalaya is a statutory body established under Gram Nyayalaya Act, 2008 for grass root delivery of justice.

Statement 2 is correct: Presiding officer of Gram Nyayalaya who is Nyayadhikari are appointed by state government in consultation with high courts.

Statement 3 is incorrect: As per provisions of the Act, it is mandatory to establish a Gram Nyayalaya at every intermediate panchayat or for a group of contiguous panchayat **and not in every gram panchayat.**

Statement 4 is correct: They can adjudicate both civil and criminal cases on the matters scheduled in the Act.

Source: Laxmikanth Chapter 36 Subordinate courts

Q.15) 'Endosulfan', generally seen in news, is-

- a) Water Purification Agent
- b) Pesticide
- c) Fertilizer
- d) new medicines for endocrine diseases

Ans) b

Exp) Option b is the correct answer.

The Supreme Court has recently slammed the Kerala government for doing “virtually nothing” for Endosulfan pesticide exposure victims. The court said the State’s inaction was “appalling” and amounted to a breach of the apex court’s 2017 judgment, which had ordered the State to pay ₹5 lakh each to the victims in three months.

Endosulfan is an **organochlorine insecticide (pesticide)** which was first **introduced in the 1950s** and is commonly known by its trade name Thiodan. It became a **highly controversial agrichemical** due to its **acute toxicity, potential for bioaccumulation**, and role as an **endocrine disruptor**. Because of its threats to human health and the environment, a **global ban on the manufacture and use of Endosulfan** was negotiated under the **Stockholm Convention** in April 2011. **Endosulfan is listed under both the Rotterdam Convention on the Prior Informed Consent and the Stockholm Convention on Persistent Organic Pollutants.** The **Supreme Court of India has banned** the manufacture, sale, use, and export of Endosulfan throughout the country, citing its harmful health effects in 2015.

Source: <https://www.downtoearth.org.in/coverage/health/tracking-decades-long-endosulfan-tragedy-in-kerala-56788>

<https://www.thehindu.com/news/national/kerala-did-virtually-nothing-for-endosulfan-victims-for-5-years-sc/article65420193.ece>

Q.16) Which of the following statements best describes the term “amicus curiae”, often seen in the news?

- a) It refers to a third party who mediates in the settlement of a dispute through the method of arbitration.
- b) It means one who assists the court by furnishing information or advice regarding questions of law or fact.
- c) It refers to the legal party in a case who defends his/her own case in a court of law.
- d) It denotes to the legal practitioner who provides free legal aid to poor on voluntary basis.

Ans) b

Exp) Option b is the correct answer.

An **amicus curia** is a legal practitioner appointed by the court of law to assist the court for the complete delivery of justice. The phrase “amicus curiae” means “friend of court”. In civil matters, criminal cases and PIL cases, the Court can appoint an Advocate as amicus curiae if it thinks it necessary in the case of an unrepresented party. The concept of amicus curiae originated in Roman Law. Then English Law adapted it and others also followed especially for human rights cases. Amicus curiae volunteers to help the court in deciding some matters, however it is the discretion of the court whether to accept it or not. The information provided by the amicus curiae could be in the form of brief, testimony etc.

Source:

https://www.law.cornell.edu/wex/amicus_curiae#:~:text=Amicus%20Curiae%20literally%20translated%20from,strong%20interest%20in%20the%20matter.

<https://www.legalserviceindia.com/legal/article-796-amicus-curiae.html>

Q.17) In legal context, which of the following statements is correct with reference to “Plea bargaining”?

- a) The Code of Criminal Procedure does not have any provisions related to it.
- b) Under plea bargain, defendant pleads guilty to a lesser offence, and it involves pre-trial negotiations with the prosecution.
- c) It is available for all types of crime, including those which are punishable with death sentence.
- d) Under plea bargain, the defendant pleads guilty to all the charges levied against him by the prosecution to skip the long process of trial.

Ans) b

Exp) Option b is the correct answer.

Statement a is incorrect: Earlier plea bargaining was not part of Indian legal system. It was added to the Code of Criminal Procedure in 2006 for pre-trial negotiation in criminal cases.

Statement b is correct: Plea bargaining is the system of negotiating an agreement between the prosecution and defense wherein the defendant pleads guilty to a lesser offence and involves pre-trial negotiations with the prosecution. It may involve bargaining on the charge or in the quantum of sentence.

Statement c is incorrect: Plea bargaining is available only in those criminal cases where the punishment is up to seven years. It is not available for all types of crime e.g.; a person cannot claim plea bargaining after committing heinous crimes or for the crimes which are punishable with death or life imprisonment.

Statement d is incorrect: Plea bargaining is not same as **pleading guilty by the defendant to all charges** levied against him by the prosecution. The aim of the plea bargain for the defendant is also not just to avoid the long process of trial. Rather it is a pretrial negotiation between the accused and the prosecution where the accused agrees to **plead guilty in exchange for certain concessions by the prosecution.**

Source: <https://www.thehindu.com/news/national/the-hindu-explains-what-is-plea-bargaining-and-how-does-it-work/article32126364.ece>

<https://www.liveweb.in/columns/concept-of-plea-bargaining-supreme-court-offence-criminal-justice-system-218842>

Q.18) A Gram Nyayalaya can try which of the following types of offences?

1. Offences related to property Disputes at village level
2. Offences under the Protection of Civil Rights Act, 1955
3. Election disputes related to gram panchayat
4. Offences punishable with imprisonment of more than 7 years
5. Disputes as to the use of forest produce by inhabitants of Gram Panchayats.

Select the correct answer using the code given below:

- a) 1, 2 and 5 only
- b) 2, 3 and 4 only
- c) 2, 3 and 5 only
- d) 1, 2, 4 and 5 only

Ans) a

Exp) Option a is the correct answer.

Statement 1, 2 and 5 are correct: Under first and second schedule of Gram Nyayalaya Act offences like property disputes, Protection of rights under Civil Rights Act of 1955, disputes related to the use of forest produce by inhabitants of Gram Panchayats, right to purchase of property, use of common pasture, regulation and timing of taking water from irrigation channel, the Equal Remuneration Act, 1976 (25 of 1976), the Protection of Women from Domestic Violence Act etc. are covered.

Statements 3 and 5 are incorrect: Only petty criminal cases (punishable for a term of 2 years) are tried under the Gram Nyayalaya Act. Also, election disputes related to gram panchayats, according to 73rd

Constitutional Amendment Act are adjudicated by relevant authority formed under the purview of respective state laws.

Source: <https://indiankanoon.org/doc/69849624/>

Q.19) The Criminal Contempt of Court can be invoked for which of the following?

1. Publication of any matter which lowers the authority of the court.
2. Obstructing the administration of justice and interfering with due course of judicial proceedings by any means.
3. Commenting on the day-to-day administrative process of judiciary.
4. Willful disobedience of an order of any court.

Select the correct answer using the code given below:

- a) 1 and 2 only
- b) 1 and 4 only
- c) 2 and 3 only
- d) 3 and 4 only

Ans) a

Exp) Option a is the correct answer.

As a Court of Record, the Supreme Court ruled that it has power to punish for contempt not only of itself but also of high courts, subordinate courts and tribunals functioning in the entire country. Contempt of court may be civil or criminal.

Statement 1 and 2 are correct: Criminal contempt means the publication of any matter or doing an act which—(i) scandalizes or lowers the authority of a court; or (ii) prejudices or interferes with the due course of a judicial proceeding; or (iii) interferes or obstructs the administration of justice in any other manner.

Statements 3 is incorrect: As innocent publication, fair and accurate reporting and reasonable criticism of the day-to-day administrative process of judiciary does not account to criminal contempt.

Statement 4 is incorrect: Also, willful disobedience of court is a civil contempt. Section 2(b) of the Contempt of Courts Act, 1971 defines “civil contempt” as willful disobedience to any judgment, decree, direction, order, writ or other process of a court or willful breach of an undertaking given to a Court.

Laxmikanth Chapter 26 Supreme court

Q.20) Consider the following statements with reference to the recent amendments in National Policy on Biofuels, 2018:

1. The amended policy targets 20% blending of ethanol in petrol by 2030.
2. It will now allow for export of biofuels in specific cases.
3. The policy aims to promote the production of biofuels in the country, under the Make in India program.

Select the correct answer using the code given below:

- a) 1, 2 and 3
- b) 1 and 3 only
- c) 2 and 3 only
- d) 1 and 2 only

Ans) c

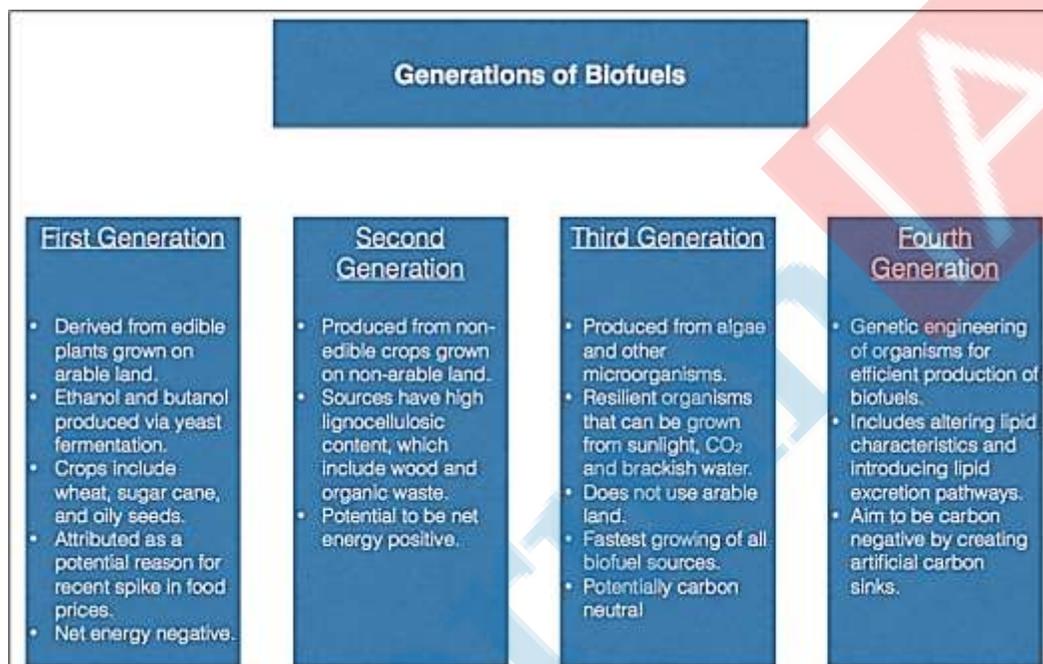

Exp) Option c is the correct answer.

Recently, the Union Cabinet approved **amendments to the National Policy on Biofuels, 2018.**

Statement 1 is incorrect: Instead of 2030, the Centre plans to move ahead with its ethanol blending target of 20% of petrol containing ethanol by 2025-26. It will promote the production of biofuels in the country, under the Make in India program, by units located in Special Economic Zones (SEZ)/ Export Oriented Units (EoUs).

Statement 2 is correct: The new amendments will grant permission for export of biofuels in specific cases. And it would also allow to delete/amend certain phrases in the Policy in line with decisions taken during the meetings of National Biofuel Coordination Committee.

Statement 3 is correct: The amended policy aims to promote the production of biofuels in the country, under the Make in India program, by units located in Special Economic Zones (SEZ)/ Export Oriented Units (EoUs).

Source: https://www.business-standard.com/article/economy-policy/cabinet-approves-national-biofuel-policy-after-slew-of-amendments-122051801171_1.html#:~:text=Also%2C%20more%20feedstocks%20have%20been,be%20doped%20with%20auto%20fuels&text=The%20Union%20Cabinet%20on%20Wednesday,2025%2D26%20from%202030%20earlier.

Q.21) Consider the following statements regarding Supreme Courts's Advisory Jurisdiction:

- The Constitution of India authorizes President to seek the opinion of the judiciary on any question of law or fact of public importance.
- The Supreme Court can refuse to tender its opinion to President on any question of law or fact of public importance.
- The Supreme Court can also refuse to tender its opinion on any dispute arising out of any pre-constitution treaty or agreement.
- The advice tendered by supreme court is binding on the President of India.

Which of the statements given above are correct?

- 1 and 2 only
- 1 and 3 only
- 1, 2 and 4 only
- 2, 3 and 4 only

Ans) a

Exp) Option a is the correct answer.

Statement 1 is correct: Under Article 143 of the constitution President can seek opinion of judiciary on A) any question of law or fact of public importance which has arisen, or which is likely to arise and on B) any dispute arising out of any pre-constitution treaty, agreement, covenant, engagement, Sanad or other similar instruments.

Statement 2 is correct: As per constitution, Supreme Court can refuse to tender its opinion to President which involves any question of law or fact of public importance.

Statement 3 is incorrect: As per constitution, Supreme Court must provide its opinion on matters involving any dispute arising out of any pre-constitution treaty, agreement or similar instrument.

Statement 4 is incorrect: Under advisory jurisdiction, the opinion expressed by the Supreme Court is only advisory and not a judicial pronouncement. Hence, it is not binding on the president; he may follow or may not follow the opinion.

Knowledge Base: Knowledge Base: So far (2019), the President has made fifteen references to the Supreme Court under its advisory jurisdiction (also known as consultative jurisdiction). Ex. Berubari Union case in 1960, 2G spectrum case etc.

Source: Laxmikanth Chapter 26 Supreme court

Q.22) The Constitution empowers the President of India to appoint “acting Chief Justice of India” in which of the following circumstance(s)?

1. If the Chief Justice of India is unable to perform the duties of his/her office due to absence.
2. When both the houses of the Parliament passed a resolution demanding initiation of impeachment motion against the Chief Justice of India.
3. If the deadlock between Government and Collegium over the appointment of Chief Justice of India persists for more than six months.

Select the correct answer using the code given below:

- a) 1 only
- b) 1 and 2 only
- c) 2 only
- d) 1, 2 and 3

Ans) a

Exp) Option a is the correct answer.

Article 126 of the Constitution of India deals with matters related to appointment of acting Chief Justice of India and grounds related to it. The President can appoint a judge of the Supreme Court as an acting Chief Justice of India in certain circumstances.

Statement 1 is correct: Article 126 empowers the President of India to appoint acting Chief Justice of India, if the Chief Justice of India is **unable to perform the duties of his/her office because of absence or otherwise**. Further the President can appoint acting chief justice if the office of Chief Justice of India is **vacant**.

Statement 2 is incorrect: The constitution provides **no such provision** for appointment of acting Chief Justice of India (CJI) when Parliament passes a resolution demanding removal motion against CJI.

Statement 3 is incorrect: The constitution provides **no such ground** to appoint acting CJI i.e., if the deadlock between Government and Collegium over the appointment of Chief Justice of India persists for more than six months,

Source: Laxmikanth - Supreme Court

Q.23) With reference to the procedure for removal of judges of Supreme Courts and High Courts in India, consider the following statements:

1. The word “impeachment” is mentioned nowhere in the Constitution of India.
2. The Judges of Supreme court can be removed by the President, based on a motion passed by each house of Parliament with special majority.
3. Prior written consent of the Chief Justice of India is mandatory for the initiation of impeachment motion against judges of High courts.

Which of the statements given above are correct?

- a) 1,2 and 3
- b) 1 and 3 only
- c) 1 and 2 only
- d) 2 and 3 only

Ans) c

Exp) Option c is the correct answer.

The procedure for removal of the Supreme Court judge is guided by **Article 124(4) of the Constitution of India and the Judges (Inquiry) Act, 1968**. **Article 218** of the Constitution of India provides for the impeachment of High Court judges.

Statement 1 is correct: The Constitution does not use the word ‘impeachment’. The term impeachment is used to refer to the **proceedings under Article 124** (for the removal of a Supreme Court judges) and **Article 218** (for the removal of a High Court judges).

Statement 2 is correct: It is true that judges of the Supreme court cannot be removed by the President except based on a motion passed by each house of the parliament with special majority. The Constitution of India (**Article 124(4)**) provides that a **judge of the Supreme court shall not be removed** from his/her office except by an order of the President. The same order should be passed after an address by each house of parliament supported by a **majority of total membership of that House and by not less than two-thirds of total members of that House present and voting.**

Statement 3 is incorrect: As per the Judges (Inquiry) Act 1968, prior written consent of the Chief Justice of India is not mandatory for the initiation of impeachment motion in the Parliament against judges of High courts.

Source: <https://prsindia.org/theprsblog/explainer-removal-of-judges-from-office>

Q.24) In the context of Indian Judiciary, which of the following best describes the term “Original Jurisdiction”?

- a) Admission of judgements given by the Supreme court as legal precedents in the lower courts.
- b) It consists of all the jurisdictional powers conferred upon the Supreme court on the date of enforcement of Indian constitution.
- c) A territorial limit on the jurisdiction of high courts before large scale reorganization of states in 1956.
- d) Power of the Supreme Court or High Courts to hear and adjudicate certain cases in the first instance.

Ans) d

Exp) Option d is the correct answer.

Option a is incorrect: Admission of judgements given by the Supreme court as legal precedents by lower judiciaries is related to the concept of **Court of records**, not original jurisdiction.

Option b is incorrect: On 26th November 1949, the Constituent Assembly of India adopted the Constitution of India, which came into effect from 26th January 1950. The powers conferred to the Supreme court of India by original constitution does not means original jurisdiction of Indian Judiciary. The Jurisdictional

powers conferred upon the Supreme court on the date of enforcement of Indian Constitution also include its appellate jurisdiction, advisory jurisdiction etc other than the original jurisdiction. **Hence the statement is not correct.**

Option c is incorrect: The States Reorganization Act, 1956 made a major change in the boundaries of India's states and territories by organizing them along linguistic lines. However, the **original jurisdiction is not related to territorial jurisdiction exercised by high courts before implementation of this act.**

Option d is correct: **Original jurisdiction of a court is the power to hear a case for the first time**, as opposed to appellate jurisdiction. The constitution gives citizens the **right to approach** either the Supreme court (Article 32) or high courts (Article 226) **directly to enforce their fundamental rights** and so this is the original jurisdiction of both the supreme court as well as high courts.

Source: Laxmikanth - Supreme Court

Q.25) Consider the following statements with reference to IN-SPACE:

1. It is a central public sector enterprise (CPSE) under Department of Space.
2. It authorizes and provides licenses to private players to carry out Space Activities.

Select the correct answer using the code given below:

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) b

Exp) Option b is the correct answer.

Recently, the Minister of State for the Department of Space (DOS) informed the Lok Sabha that the government was looking at opening the space sector to Foreign Direct Investment.

Statement 1 is incorrect: IN-SPACE (Indian National Space Promotion and Authorization Center) is an independent nodal agency under Department of Space (not a Central Sector Public Enterprise). On the other hand, New Space India Ltd (NSIL), is the CPSE under Department Of Space which will transfer the matured technologies developed by ISRO to Indian industries.

Statement 2 is correct: A national level autonomous Nodal Agency namely Indian National Space Promotion and Authorization Centre (IN-SPACE) under DOS has been created for promoting, handholding, authorizing and licensing private players to carry out Space Activities.

Q.26) Although Indian judiciary is majorly influenced by the judicial system of the United States of America (USA), there are some differences between them. Which of the following statements are correct regarding these differences?

1. While India has an integrated Judiciary, the USA has a dual system of courts- one to enforce Union laws and other to enforce State laws.
2. The Scope of judicial review is broader in the USA as compared to India.
3. While the Indian Judicial System has a provision for Advisory Jurisdiction, it is absent in the with respect to United States of American Judicial system.

Select the correct answer using the code given below:

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

Statement 1 is correct: The Indian Constitution has established an **integrated judicial system** with the Supreme Court at the top, Indian judiciary enforces both Union and State laws. In contrast, **the United States of America (USA) has a dual system of courts**—one for the Centre and the other for the states. Thus, state laws and union laws are enforced by separate judiciary in the USA.

Statement 2 is correct: The scope of **judicial review is broader in the USA** as compared to India because India follows **Procedure established by law** whereas the USA follows **due process of law**. While Indian Judiciary sits on the judgement of whether the laws/executive actions followed proper procedures, American Judiciary sits on the judgement of wisdom of law i.e., reasonableness of law which provides better scope for judicial review.

Statement 3 is correct: It is true that the Indian **Judicial System has a provision for Advisory Jurisdiction**, but **no such provision** is provided in the **American Judicial System. Article 143** of the Indian Constitution authorises the **President to seek the opinion of the Supreme Court**.

Source: <https://www.whitehouse.gov/about-the-white-house/our-government/the-judicial-branch/#:~:text=The%20Supreme%20Court%20of%20the%20United%20States&text=All%20Justices%20are%20nominated%20by,political%20pressure%20when%20deciding%20cases.>

<https://www.lawinsider.in/columns/analyzing-the-judicial-systems-of-u-s-a-u-k-and-india#:~:text=provision%20for%20Advisory-,Jurisdiction,-.%20Whereas%2C%20no%20such>

Q.27) In the context of Indian Judiciary, which of the following can be considered as criticisms against the “Collegium system”?

1. It has no power with respect to the transfer of High court judges.
2. The system does not recognize the reservation for underprivileged sections of society while appointing the judges.
3. The system is not part of the original constitution, but it has just evolved through the judgements of the Supreme court.

Select the correct answer using the code given below:

- a) 1 and 2 only
- b) 1 and 3 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

The Supreme court collegium system is chaired by **the Chief Justice of India** along with four senior-most Supreme Court judges. The High court collegium is chaired by the **Chief Justice** and the two senior-most judges of the concerned high court, and it sends its judicial appointments recommendation only to the Supreme Court Collegium.

Statement 1 is incorrect: The **collegium system decides on both the appointment and transfer of judges**, thus plays a major role in reducing the interference of the executive. The collegium system makes

recommendations for the candidates to be appointed as Supreme Court and High Court judges to the President.

Statement 2 is correct: It is true that the appointment made by the Collegium system does not recognize any affirmative action or reservation policy. The lack of representation of disadvantaged groups such as OBCs/SCs and STs and Women are one of the major criticisms levelled against the Indian Judiciary. For instance, so far, there has been just one **judge from the ST community and no women CJI so far.**

Statement 3 is correct: Collegium system is not part of the original constitution, and this is one of the major criticisms levelled against collegium. The Collegium system is a judicial innovation through a **series of three cases** (happened in 1981,1993 and 1998) popularly known as **three judge cases.**

Source: <https://indianexpress.com/article/explained/explained-law/judiciary-appointment-of-judges-collegium-system-njac-debate-explained-8329397/>

<https://www.indiatoday.in/law/story/centre-vs-collegium-how-judges-are-appointed-in-india-us-uk-and-other-countries-2326456-2023-01-25>

Q.28) "The exclusive original jurisdiction of the Supreme Court extends to the disputes which involve a question, whether of law or fact, on which the existence or extent of a legal right depends." In this context, in which of the following matters the supreme court has the exclusive original jurisdiction?

1. A dispute arising out of any pre-Constitution treaty or agreement.
2. Any dispute between two or more states.
3. Matters related to inter-state water disputes.
4. A dispute between the Centre and any of the states.
5. Matters referred to the finance commission.

Select the correct answer using the code given below:

- a) 2 and 4 only
- b) 2, 3 and 4 only
- c) 1, 2, 4 and 5 only
- d) 1, 3, and 5 only

Ans) a

Exp) Option a is the correct answer.

Article 131 of the constitution of India deals with the original jurisdiction of the Supreme court. Original jurisdiction of the Supreme court means that the court **hears the case first as opposed to the appellate jurisdiction** and **exclusive jurisdiction means the power of the Supreme court alone** to hear that in the first instance.

Option 1 is incorrect: Exclusive Original jurisdiction (or even Original Jurisdiction) of the Supreme Court does **not extend to a dispute arising out of any pre-Constitution treaty**, agreement, covenant, engagement or other similar instruments. In fact, disputes arising out of pre-constitution treaties belong to an **advisory jurisdiction (Article 143)** of the Supreme court.

Option 2 is correct: It is true that a **dispute between two or more states is the exclusive original jurisdiction of the Supreme court**, which means that such cases cannot be heard by the High court.

Option 3 is incorrect: Matters related to Inter-state water disputes are neither exclusive original nor the original jurisdiction of the supreme court as the Interstate water disputes act of 1956 has excluded the original jurisdiction of Supreme court in disputes between states with respect to the use, distribution or control of the water of interstate river or river valley.

Option 4 is correct: A dispute between centre and any state on any matter comes under the exclusive original jurisdiction of the Supreme Court.

Option 5 is incorrect: Original jurisdiction of the Supreme court **does not extend to cover matters referred to the Finance Commission.** The Finance Commissions are constituted by the President of India under **Article 280** of the Indian Constitution to define the financial relations between the Centre and state governments.

Source: Laxmikanth - Supreme court

Q.29) In the context of Indian Judiciary, Judicial review can be used to ensure which of the following?

1. To ensure Judicial supremacy.
2. To ensure Federal character of Indian constitution.
3. To ensure the constitutionality of executive powers such as ordinance issued by the President and Governors.

Select the correct answer using the code given below:

- a) 1 and 3 only
- b) 1, 2 and 3
- c) 2 and 3 only
- d) 1 and 2 only

Ans) c

Exp) Option c is the correct answer.

The Constitution of India confers the power of judicial review on both the Supreme Court and High Courts in India. Further, the Supreme Court has declared the power of **judicial review as a basic structure of the Constitution.**

Statement 1 is incorrect: Judicial review **ensures Constitutional supremacy, not Judicial supremacy.** Judicial review empowers the Judiciary (both Supreme court and High courts) **to strike down any laws/executive actions, if it violates constitutional provisions** thereby ensuring supremacy of the constitution.

Statement 2 is correct: It is true that Judicial review **ensures the federal character** of the Indian constitution. Judiciary can strike down any central laws if it violates federal nature of the Indian constitution for instance if the **central government enacts law in state list**, except according to the grounds mentioned in the constitution then Judiciary can strike down such laws to ensure Federalism in India.

Statement 3 is correct: The Supreme court (SC) in DC Wadhwa v. State of Bihar case, 1986 held that re-promulgation of ordinances without submitting it to the legislature is a violation of the Constitution. Further in the Krishna Kumar Singh & Anr vs State of Bihar & Ors case, 2017 the SC ruled that power of the President and the Governor to make ordinances **is not exempt from judicial review** under the Constitution. Source: Laxmikanth - Judicial Review (chapter 27)

<https://indianexpress.com/article/explained/jharkhand-new-quota-bill-what-is-ninth-schedule-of-constitution-8265015/>

Q.30) Consider the following pairs:

Species	Likely to find in the regions of
1. Hump nosed Pit Viper	Western Ghats of Maharashtra
2. Sloth bear	Madhya Pradesh
3. White-rumped Vulture	Cold Deserts of Ladakh

Which of the above given pairs have been matched correctly?

- a) 3 only
- b) 1 and 2 only
- c) 1 and 3 only
- d) 2 and 3 only

Ans) b

Exp) Option b is the correct answer.

Pair 1 is correctly matched: Hump-nosed Pit Viper are found in the Western Ghats regions of state of Maharashtra, Goa and southern India. They are often seen in dense forests and coffee plantations where they seek refuge under leaf litter or thick bushes. They are terrestrial reptiles and ambush predators.

Pair 2 is correctly matched: The sloth bear is the most widespread bear species in India, where it mostly occurs in areas with forest cover. It is **found in dry and moist forests** and sometimes in grasslands as well. In India, they are **widely found in Madhya Pradesh** and nearby areas.

Pair 3 is incorrectly matched: White-rumped vultures are listed as Critically Endangered species after the drastic population decline in India. Small populations of White-rumped vultures are residing in the natural habitats in various regions of **North-Central India that includes the districts of Uttar Pradesh and Madhya Pradesh.**

Source: <https://www.natureinfocus.in/animals/india-s-striking-variety-of-pit-vipers>

<https://www.nathab.com/know-before-you-go/asia-the-pacific/india/wildlife-guide/sloth-bear/>

https://www.discoveryjournals.org/Species/current_issue/2020/v21/n68/A8.pdf

Q.31) How tribunals under Article 323A are different from tribunals under Article 323B of Indian Constitution?

1. Article 323A contemplates establishment of tribunals for public service matters only, while Article 323B contemplates establishment of tribunals for certain other matters also.
2. Tribunals under Article 323A can be established only by Parliament, whereas tribunals under Article 323B can be established both by Parliament and state legislatures.
3. There is hierarchy of tribunal under Article 323A, whereas no hierarchy of tribunals can be created under Article 323B.

Select the correct answer using the code given below:

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) a

Exp) Option a is correct answer.

The 42nd Amendment Act of 1976 added a new Part XIV-A to the Constitution. This part is entitled as 'Tribunals' and consists of only two Articles—Article 323 A dealing with administrative tribunals and Article 323 B dealing with tribunals for other matters.

Statement 1 is correct: Article 323A contemplates establishment of tribunals for **public service matters only**, Article 323 B contemplates establishment of tribunals **for certain other matters** such as (a) Taxation (b) Foreign exchange, import and export (c) Industrial and labour (d) Land reforms, etc.

Statement 2 is correct: Tribunals under Article 323 A can be established **only by the Parliament**; tribunals under Article 323 B can be established **both by Parliament and state legislatures** with respect to matters falling within their legislative competence.

Statement 3 is incorrect: Under Article 323A, only one tribunal for the Centre and one for each state or two or more states may be established. **There is no question of hierarchy of tribunals under Article 323A**, whereas **under Article 323B, a hierarchy of tribunals may be created**. For example, **there is hierarchy in form of appellate tribunal of respective tribunals such as** Income Tax Appellate Tribunal (ITAT), Customs, Excise and Service Tax Appellate Tribunal (CESTAT), Competition Appellate Tribunal (COMPAT) and Securities Appellate Tribunal (SAT) etc.

Source: Laxmikanth (Ch 35)

Q.32) With reference to Indian Judiciary, consider the following statements:

1. District judges are appointed by the Governor only after consultation with the State Public Service Commission and the high court of the state.
2. District judge is the highest judicial authority in the district.
3. Sessions' judge has the power to impose life imprisonment but cannot award death sentence.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 only
- c) 2 and 3 only
- d) 3 only

Ans) b

Exp) Option b is the correct answer.

The state judiciary consists of a **high court and a hierarchy of subordinate courts**, also known as lower courts. The subordinate courts function below and under the high court at **district and lower levels**. **Articles 233 to 237 in Part VI** of the Constitution deal with matters related to subordinate courts.

Statement 1 is incorrect: District judge are appointed by the governor of the state in consultation with the concerned high court (consultation with State Public Service commission is not required). However, appointment of persons (other than district judges) to the judicial service of a state are made by the governor of the state after consultation with the State Public Service Commission and the high court.

Statement 2 is correct: The district judge is the highest judicial authority in the district. He/she possesses original and appellate jurisdiction in both civil as well as criminal matters. He/she also has supervisory powers over all the subordinate courts in the district. Appeals against his/her orders and judgements lie to the High Court.

Statement 3 is incorrect: District judges are called Session's judges when they deal with criminal matters. Session's judge has the power to impose life imprisonment as well as death sentence (capital punishment). However, a capital punishment passed by them is subject to confirmation by the High Court, whether there is an appeal or not.

Source: Laxmikanth - Subordinate courts

Q.33) With reference to Indian Judiciary, consider the following statements:

1. The power to increase the number of judges in High court is vested only with the Governor of the state concerned.
2. Pensions of high court judges are charged on the Consolidated Fund of India.
3. Salaries and allowance of the high court judges cannot be changed under any circumstances.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

India follows the model of integrated judiciary arranged in a hierarchical order with the Supreme court as apex organization and high courts which work below the Supreme Court. Currently, India has 25 High Courts established in different states of the country.

Statement 1 is incorrect: The power to increase the **number of judges in High courts is vested in the President of India (Article 216)** whereas the power to increase the number of judges in the **Supreme courts is vested in the Parliament (Article 124)**.

Statement 2 is correct: It is true that **Pensions** of high court judges are charged on the **Consolidated fund of India**. It is to be noted here that while pensions are charged on the consolidated fund of India, **salaries and other allowance** of high court judges are charged upon the **consolidated fund of respective states**.

Statement 3 is incorrect: The salaries, allowances, privileges, leave and pension of the judges of a high court are determined from time to time by Parliament and it can be **changed during a financial emergency**. **Thus, salaries and allowance cannot be changed under any circumstances is incorrect.**

Source: Laxmikanth - High Court

Q.34) The Constitution of India allows declaring other cities/places as seats of the Supreme court. In this context which of the following statements is correct?

- a) The President of India can declare such seats after seeking recommendation from the Chief Justice of India.
- b) The Parliament can declare such seats, but those decisions must be approved by the constitutional bench of the Supreme court.
- c) The Chief Justice of India can declare such seats with approval from the President of India.
- d) The President of India can declare such seats based on the report of the Law Commission.

Ans) c

Exp) Option c is the correct answer.

The Constitution declares Delhi as the seat of the Supreme Court. The Supreme Court of India is the highest judicial authority of India, and it is in New Delhi, India.

Option a is incorrect: **The President of India cannot change the seat of the Supreme court;** however, he/she has an active role to play in this context because **president's approval is essential** to change the seat of the Supreme court.

Option b is incorrect: **Parliament has no direct role in making decisions about declaring other cities as seats of the Supreme court** as this matter is restricted to the Judiciary (the chief justice of India).

Option c is correct: It is true that the Constitution **authorizes the Chief Justice of India to appoint other places as a seat** of the Supreme Court with the approval of the President. This provision is **only optional**

which means that no court can give any direction either to the President or to the Chief Justice to appoint any other place as a seat of the Supreme Court.

Option d is incorrect: The President of India cannot declare other cities as seats of the Supreme court and the Law commission too has no direct role in making such decisions.

Source: Laxmikanth - Supreme Court

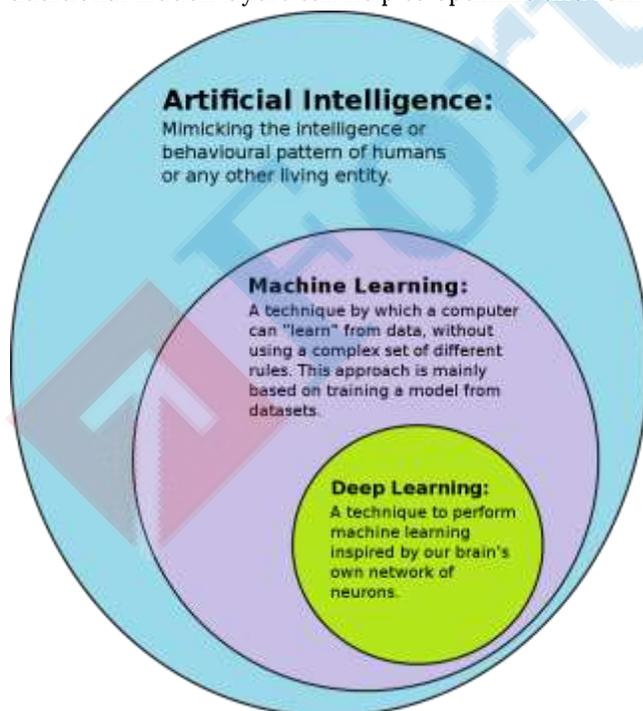

Q.35) Which among the following best describes the term, “Deep Learning”, seen frequently in the news?

- It is a type of artificial intelligence that assists humans in fast learning.
- It is a type of machine learning that tries to imitate the way humans gain certain types of knowledge.
- It is a type of artificial intelligence that can analyze big data of millions of books and references in a short span of time.
- It is an artificial intelligence chip that can significantly improve memorization and recall ability of humans.

Ans) b

Exp) Option b is the correct answer.

Deep learning is a type of machine learning and artificial intelligence (AI) that imitates the way humans gain certain types of knowledge. Deep learning is a machine learning technique that **teaches computers to do what comes naturally to humans:** learn by example. Deep learning is a key technology behind driverless cars, enabling them to recognize a stop sign, or to distinguish a pedestrian from a lamppost. It is the key to voice control in consumer devices like phones, tablets, TVs, and hands-free speakers. Deep learning is getting lots of attention lately and for good reasons. It’s achieving results that were not possible before. It is **essentially a neural network with three or more layers. These neural networks attempt to simulate the behavior of the human brain—albeit far from matching its ability—allowing it to “learn” from large amounts of data.** While a neural network with a single layer can still make approximate predictions, additional hidden layers can help to optimize and refine for accuracy.

Source: <https://www.ibm.com/cloud/learn/deep-learning>
<https://cedar.buffalo.edu/~srihari/CSE676/>

Q.36) With reference to jurisdiction and powers of High Courts in India, consider the following statements:

1. A high court can interpret the Constitutional provisions not only related to the State government but also Union government.
2. The Constitution empowers the Parliament and the state legislature to change, but not curtail, the jurisdiction and powers of a high court.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) c

Exp) Option c is correct answer.

Like the Supreme Court, the High court has been vested with quite extensive and effective powers. It is the Highest court of appeal in the state. It is the protector of the Fundamental Rights of the citizens.

Statement 1 is correct: A high court is vested with the power to interpret the Constitution. **It can interpret provisions not only related to State government but also Union government as well.**

Statement 2 is correct: **The Constitution empowers the Parliament and the state legislature to change the jurisdiction and powers of a high court.** However, the jurisdiction and powers of a high court as they are specified in the Constitution **cannot be curtailed both by the Parliament and the state legislature.**

Source: Laxmikanth (Ch 34)

<https://indiankanoon.org/doc/1953097/#::~:~:text=Article%20137%20of%20the%20Constitution,power%20on%20the%20High%20Courts.>

Q.37) Which of the following statements are correct regarding the Central Administrative Tribunal (CAT)?

1. It is a Constitutional body established by the original constitution.
2. The procedure for removal of members of CAT is same as high court judges.
3. It is not bound by the procedure laid down by the Civil Procedure Code, 1908.
4. The Selection committee for CAT members is chaired by a sitting Judge of Supreme Court.

Select the correct answer using the code given below.

- a) 2 and 3 only
- b) 3 and 4 only
- c) 1 and 3 only
- d) 1, 3 and 4 only

Ans) b

Exp) Option b is correct answer.

Statement 1 is incorrect: **The Central Administrative Tribunal (CAT) is a statutory body (not a Constitutional body).** The Parliament has passed the **Administrative Tribunals Act in 1985.** The act authorises the Central government to establish one Central administrative tribunal and the state administrative tribunals. The **CAT was set up in 1985** with the principal bench at Delhi and additional benches in different states.

Statement 2 is incorrect: The procedure of removal of Members in the CAT is **NOT same** as high court judge. The Chairman, or any other Member shall not be removed from his office except **by an order made by the President on the ground of proved misbehavior or incapacity after an inquiry made by a Judge of the Supreme Court.** The **Parliament is not involved** in the removal process like in case of removal of high court judge.

Statement 3 is correct: The CAT is not bound by the procedure laid down in the Civil Procedure Code of 1908. It is guided by the principles of natural justice. These principles keep the CAT flexible in approach.

Statement 4 is correct: The appointment of Members in CAT is made on the basis of **recommendations of a high-powered selection committee chaired by a sitting Judge of the Supreme Court** who is nominated by the Chief Justice of India. After obtaining the concurrence of the Chief Justice of India, appointments are made with the approval of the Appointments Committee of the Cabinet (ACC).

Q.38) With reference to the National Legal Services Authority (NALSA), consider the following statements:

1. It is a realization of a provision given in the Fundamental Duties.
 2. Only the Chief Justice of a High Court can be appointed as the Executive Chairman of the NALSA.
- Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) d

Exp) Option d is correct answer.

The National Legal Services Authority (NALSA) has been constituted under the Legal Services Authorities Act, 1987 to monitor and evaluate implementation of legal aid programmes.

Statement 1 is incorrect: NALSA is a realization of a provision given in the Directive Principles of State Policy (not Fundamental Duties). **Article 39A** of the Constitution of India provides for free legal aid to the poor and weaker sections of the society and ensures justice for all.

Statement 2 is incorrect: The **Chief Justice of India is the Patron-in-Chief** and the **Senior most Hon'ble Judge, Supreme Court of India is the Executive Chairman** of the NALSA.

Source: Laxmikanth (Ch 36)

<https://nalsa.gov.in/about-us/introduction>

Q.39) Consider the following statements regarding the rules of functioning of the Supreme Court of India:

1. The Constitution provides that Supreme Court can give judgment only with the concurrence of majority of Judges hearing the case.
2. The Constitution provides for a hearing by at least 7 judges in any case involving substantial question of law as to the interpretation of the Constitution.

Which of the statements given above is/ are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) a

Exp) Option a is the correct answer.

Article 145 deals with the various provisions regarding the rules of functioning of the Supreme Court.

Statement 1 is correct: **Article 145(5) expressly provides that No judgment and no such opinion shall be delivered by the Supreme Court save with the concurrence of a majority of the Judges present at the**

hearing of the case. However, this provision does not prevent a Judge from giving a dissenting judgment or opinion. Hence, the judicial decisions are taken on the basis of majority.

Statement 2 is incorrect: In the matters involving the substantial question of law as to the interpretation of the Constitution, **minimum 5 number of judges are required to sit for the purpose of deciding the case.** Also, when the President seeks opinion of Supreme Court under Article 143, minimum number of judges required for the sitting is 5.

Q.40) Which of the following COVID vaccines have been developed indigenously in India?

1. Covaxin
2. Covishield
3. ZyCoV-D
4. Pfizer-BioNTech

Select the correct answer using the code given below:

- a) 1 and 2 only
- b) 1, 2 and 3 only
- c) 1 and 3 only
- d) 2, 3 and 4 only

Ans) c

Exp) Option c is the correct answer.

Option 1 is correct: COVAXIN is India's indigenous COVID-19 vaccine by **Bharat Biotech** and is developed in collaboration with the **Indian Council of Medical Research (ICMR) - National Institute of Virology (NIV)**. The vaccine is developed using Whole-Virion Inactivated Vero Cell derived platform technology. Inactivated vaccines do not replicate and are therefore unlikely to revert and cause pathological effects. They contain dead viruses, incapable of infecting people but still able to instruct the immune system to mount a defensive reaction against an infection.

Option 2 is incorrect: The **Oxford-AstraZeneca COVID-19** vaccine also known as **Covishield** is a **viral vector vaccine** for prevention of COVID-19. It is developed in **the United Kingdom by the Oxford University** and British-Swedish company **AstraZeneca**.

Option 3 is correct: ZyCoV-D is a **plasmid DNA vaccine**. It is **indigenously developed** under the Vaccine Discovery Programme supported by the **Department of Biotechnology** under the **National Biopharma Mission**. It is designed and developed by **Zydus (a pharmaceutical company)** with support from the Department of Biotechnology (DBT).

Option 4 is incorrect: The **Pfizer-BioNTech** COVID-19 vaccine sold under the brand name Comirnaty, is an mRNA-based COVID-19 vaccine developed by the **German biotechnology company BioNTech**.

Q.41) With reference to supervisory jurisdiction of High Courts in India, consider the following statements:

1. A high court has the power of superintendence over all courts and tribunals functioning in its territorial jurisdiction.
2. Supervisory jurisdiction of a high Court covers both administrative and judicial superintendence.
3. Under supervisory jurisdiction, a high court can act Suo-motu in a case.

Which of the statements given above is/are correct?

- a) 1 and 3 only
- b) 1 only
- c) 3 only
- d) 2 and 3 only

Ans) d

Exp) Option d is correct answer.

Statement 1 is incorrect: A High court has the power of superintendence over all courts and tribunals functioning in its territorial jurisdiction (**except military courts or tribunals**). This provision is given in Article 227.

Statement 2 and 3 are correct: Power of superintendence of a high court is very broad because, (i) it extends to all courts and tribunals whether they are subject to the appellate jurisdiction of the high court or not; (ii) **it covers administrative superintendence along with judicial superintendence**; (iii) it is a revisional jurisdiction; and (iv) **it can be Suo-motu (on its own) and not necessarily on the application of a party.**

Q.42) Consider the following statements regarding the principle of 'judicial restraint':

1. It helps in maintaining the doctrine of the Separation of Powers.
2. It helps in maintaining the independence of the judiciary.

Which of the statements given above is/ are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) c

Exp) Option c is the correct answer.

Judicial restraint is a concept that encourages the judiciary to limit the exercise of their judicial powers. Judicial restraint is considered the opposite of judicial activism, in which judges are restricted from interfering with democratic politics.

Statement 1 is correct: Judicial restraint helps in maintaining the separation of powers. It restrains courts from making laws and helps them focus on their duty of interpretation of statutes. Judicial restraint aims to accomplish balance of power in two ways. Firstly, it not only recognizes the equality of the other two branches, but it also fosters that equality by minimizing inter-branch interference.

Statement 2 is correct: Judicial restraint protects the independence of the judiciary. When court encroaches upon the jurisdiction of the other two organs, the voters and the elected officials might conclude that the activities of the judges should be monitored. Judicial restraint helps the courts to not to overstep their mandate and protect their independence.

M. Laxmikanth (Page 28.4, Chapter 28)

Q.43) Which of the following safeguards are provided in the Constitution of India to protect the independence of the Supreme Court and its judges?

1. Prohibition on practice after retirement.
2. Appointment of the senior-most Judge as the Chief Justice.
3. Parliament is not authorized to curtail the jurisdiction of Supreme Court.

4. The salaries of the Judges as well as administrative expenses of the Court are charged on the Consolidated Fund of India.

Choose the correct answer from the codes given below:

- a) 1, 2 and 3 only
- b) 2 and 3 only
- c) 1, 3 and 4 only
- d) 1, 2, 3 and 4

Ans) c

Exp) Option c is the correct answer.

The Supreme Court of India is the highest court of the land. It is the guardian of the Fundamental Rights of the citizens. Its independence from legislature and executive is essential for the effective discharge of its duties.

Option 1 is correct: The Supreme Court Judges are not allowed to practice (plead or act) in any court or before any authority within the territory of India. This ensures that judges do not extend any favor in lieu of some future benefit. It should be noted that in future judges can assume the Office of the President or Governor or Member of Parliament etc.

Option 2 is incorrect: Constitution does not explicitly provide for the appointment of the senior-most Judge as the Chief Justice. The process of appointing senior-most judge as the Chief Justice has been established by conventions. This convention was broken in the years in 1973 and 1977. In the **Second Judges Case (1993)**, Supreme Court curtailed the discretion of government and ruled that only senior-most judge of the Supreme Court can alone be appointed as the Chief Justice.

Option 3 is correct: Parliament is not authorized to curtail the jurisdiction of the Supreme Court. As per Article 138, Parliament can, however, increase the jurisdiction of the Supreme Court. This protects the autonomy of the Supreme Court with respect to the matters falling within their jurisdiction.

Option 4 is correct: The salaries, pensions and allowances of the Judges of the Supreme Court are charged on the Consolidated Fund of India. This implies that they are not votable by the Parliament while approving the annual budgets. Also, the **administrative expenses of Supreme Court are charged on the Consolidated Fund of India.** This is to ensure autonomy of the Court in the financial matters. Besides this, the appointment and terms of service of the staff of Supreme Court is also decided by the Chief Justice of India.

Q.44) With reference to the Writ jurisdiction of High Courts, consider the following statements:

- 1. Writs can be issued for enforcement of an ordinary legal right.
- 2. Writ jurisdiction is a part of Basic structure of the Constitution.
- 3. High Court can never issue writs outside its territorial jurisdiction.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) a

Exp) Option a is correct answer.

Article 226 of the Constitution empowers a high court to issue writs including habeas corpus, mandamus, certiorari, prohibition and quo warranto.

Statement 1 is correct: The Constitution empowers a high court to issue writs not only for the enforcement of the fundamental rights of the citizens but also for the **enforcement of an ordinary legal right**. Whereas the Supreme Court issues writs only for the enforcement of the fundamental rights of the citizens under Art. 32. **This is the reason that the writ jurisdiction of the high court is wider than that of the Supreme Court.**

Statement 2 is correct: In the **Chandra Kumar case (1997)**, the Supreme Court ruled that the **writ jurisdiction of both the high court and the Supreme Court constitute a part of the basic structure of the Constitution**. It cannot be ousted or excluded even by way of an amendment to the Constitution.

Statement 3 is incorrect: The high court can issue writs to any person, authority and government **not only within its territorial jurisdiction but also outside its territorial jurisdiction if the cause of action arises within its territorial jurisdiction.**

Source: Laxmikanth (Ch 34)

Q.45) Which among the following countries have recognised cryptocurrency as a legal tender?

1. El Salvador
2. Ecuador
3. Uruguay
4. Central African Republic

Select the correct answer using the code given below:

- a) 1 and 2 only
- b) 2 and 4 only
- c) 1 and 3 only
- d) 1 and 4 only

Ans) d

Exp) option d is the correct answer.

The **Central African Republic declared Bitcoin**, the world's largest and most popular cryptocurrency, **an official currency**. It is **only the second nation in the world to accept cryptocurrency** as legal tender. The country is also now the **first African country to adopt Bitcoin** as legal currency. In September last year, **El Salvador became the first country** in the world to introduce Bitcoin as legal tender.

A transition towards cryptocurrencies by the Central African Republic and El Salvador is spurred by the urge to circumvent inflationary pressures and move away from colonial currency mechanisms. However, prerequisites such as internet and financial digital literacy make a case for inclusivity cumbersome.

Source: <https://www.thehindu.com/news/international/explained-why-countries-like-the-central-african-republic-are-adopting-cryptocurrencies-as-legal-tender/article65403858.ece>

Q.46) Consider the following statements regarding the Supreme Court's jurisdiction in the matters pertaining to 'special leave to appeal' under Article 136 of the Constitution:

1. The special leave to appeal can be granted only against the order passed by a High Court.
2. It is a discretionary power of the Supreme Court.
3. It can be granted in the cases of violation of the principle of natural justice.

Which of the statements given above is/ are correct?

- a) 1 only
- b) 3 only
- c) 1 and 2 only
- d) 2 and 3 only

Ans) d

Exp) Option d is the correct answer.

Article 136 of the Indian Constitution provides for the special leave to appeal. Anybody can go for an appeal in the Supreme Court but that person is required to take special permission from the Supreme Court for such appeal.

Statement 1 is incorrect: According to Article 136, Supreme Court can “grant special leave to appeal from any judgment, decree, determination, sentence or order in any cause or matter passed or made **by any court or tribunal in the territory of India.**” In simpler words, special leave can be granted in any case where the order is passed by any court or tribunal within India. However, special leave to **appeal cannot be granted against the orders made by any court or tribunal constituted under any law relating to the armed forces.**

Statement 2 is correct: Article 136 itself mentions **that it is at the discretion of the Supreme Court** as to whether or not special leave be granted. The parties cannot claim that they will get permission from the Supreme Court. In the case of **DC Mills v. Commissioner of Income Tax (1955)**, it was held by the court that as the supreme court uses discretionary powers while granting special leave appeal under Article 136 of the constitution **so much power should be utilized moderately with due care that too only under certain exceptional cases.**

Statement 3 is correct: Special leave to appeal can be granted on the following grounds:

- 1) If there is a violation of **the principle of natural justice** (Hence, the given statement is correct).
- 2) If **substantial injustice** has been done by any court or tribunal (except military courts or tribunals)
- 3) If there is a **disregard to the legal procedures** by any court or tribunal (except military courts or tribunals)

Source: <https://indiankanoon.org/doc/427855/>

<https://blog.ipleaders.in/supreme-court-and-the-power-to-grant-special-leave-to-appeal-with-condonation-of-delay/>

Q.47) Consider the following statements:

1. The National Judicial Appointments Commission (NJAC) Act was declared unconstitutional by the Supreme Court as it violated the basic structure of the Constitution.
2. The Supreme Court upheld the primacy of the collegium system following the NJAC judgement.
3. The collegium was expanded to a five-member body of the Supreme Court in the Third Judges case.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 and 3 only
- c) 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

The Fourth Judges Case (2015) related to 99th Constitutional Amendment Act of 2014 and the National Judicial Appointments Commission Act of 2014. NJAC replaced the collegium system of appointing judges to the Supreme Court and High Courts.

Statement 1 is correct: In the Fourth Judges Case (2015), the Supreme Court declared the National Judicial Appointments Commission (NJAC) Act as **unconstitutional and void.** The Court held the Act encroached upon the judiciary’s independence and **undermined the basic structure.**

Statement 2 is correct: The Supreme Court upheld the **primacy of the collegium system** of appointment of judges. The court held that NJAC gave the government significant powers to appoint judges which would affect the independence of the judiciary.

Statement 3 is correct: In **Third Judges Case (1998)**, the Supreme Court **expanded the collegium to a five-member body** to include the CJI and the four senior-most judges of the court after the CJI.

Source: Indian Polity, M. Laxmikanth, 6th Edition, Chapter-26, Supreme Court

Q.48) With reference to the appointment of subordinate employees in High Courts, consider the following statements:

1. The Chief Justice of the High Court holds the power to appoint a person as an officer or servant in the High Court.
2. The conditions of service of officers and servants of a High Court are prescribed by rules made by the Chief Justice of the High Court.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) c

Exp) Option c is the correct answer.

Article 229 of the Indian Constitution is associated with Officers and servants and the expenses of High Courts.

Statement 1 is correct. Article 229 (1) is associated with appointments of officers and servants of a High Court. According to it, the appointments of officers and servants of a High Court shall be made by the **Chief Justice of the High Court** or such other **Judge or officer of the Court** as he may direct. But the **Governor** of the State may require that a **person not already attached to the Court** shall not be appointed to any office connected with the Court.

Statement 2 is correct. According to Article 229 (2), the conditions of service of officers and servants of a High Court are prescribed by rules made by the Chief Justice of the High Court. purpose. But the rules made related to salaries, allowances, leave or pensions, **require the approval of the Governor** of the State.

<https://indiankanoon.org/doc/875627/>

Q.49) Consider the following:

1. Secretarial staff of the Parliament
2. Central civil services
3. Members of the defence forces
4. Officers and servants of the Supreme Court
5. Civilian employees of defence services

Which of the above service matters of services/personnels are **not** included under the original jurisdiction of the Central Administrative Tribunal (CAT)?

- a) 3 and 5 only
- b) 1, 3, 4 and 5 only
- c) 1, 3 and 4 only
- d) 2 and 4 only

Ans) c

Exp) Option c is correct answer.

The Central Administrative Tribunal had been established **under Article 323 -A** of the Constitution for adjudication of disputes and complaints with respect to recruitment and conditions of service.

The CAT exercises original jurisdiction in relation to recruitment and all service matters of public servants covered by it.

Its jurisdiction extends to the following:

- 1) All-India services,
- 2) **Central civil services, (Hence, option 2 is correct.)**
- 3) Civil posts under the Centre,
- 4) **Civilian employees of defence services. (Hence, option 5 is correct.)**

However, the CAT **does not cover** recruitment and all service matters of the

- 1) **Secretarial staffs of the Parliament, (Hence, option 1 is incorrect.)**
- 2) **Members of the defence forces, (Hence, option 3 is incorrect.)**
- 3) **Officers and servants of the Supreme Court. (Hence, option 4 is incorrect.)**

Source: Laxmikanth (Ch 35)

Q.50) With reference to the Insolvency and Bankruptcy Code 2016 (IBC), consider the following statements:

1. Insolvency is a situation where individuals or companies are unable to repay their outstanding debt.
2. Only the creditors can apply for the initiation of a Corporate Insolvency Resolution Process (CIRP) under the IBC while debtors have no such right.

Which of the statements given above is/are correct?

- a) 1 Only
- b) 2 Only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) a

Exp) Option a is the correct answer.

Insolvency and Bankruptcy Code, 2016 was introduced in 2016 through an act of Parliament to tackle the bad loan problems and act as one stop solution for resolving insolvencies. It consolidates and amends the laws relating to reorganization and insolvency resolution of all entities- both corporate and individuals.

Statement 1 is correct: The Insolvency and Bankruptcy Code, 2016 provides a time-bound process for resolving insolvency in companies and among individuals. **Insolvency** is a situation where individuals or companies are unable to repay their outstanding debt.

Statement 2 is incorrect: When a corporate debtor, or a company which has taken loans, defaults on its loan repayment, **either the creditor or the debtor can apply for the initiation of a Corporate Insolvency Resolution Process (CIRP) under Section 6 of the IBC. Hence the statement is incorrect.**

Directions for the following 40 (Forty) items:

Read the following three passages and answer the item that follows the passages. Your answers to these items should be based on the passages only.

PASSAGE 1 (Q.1)

To see the extraordinary depth and beauty of life, the immensity of all living things, one must have peace, and that peace is denied wherever there is poverty. Even in affluent countries, there is a great deal of poverty. No nationalistic government can ever solve poverty because it is a global problem, one for the whole world, not a particular government, whether totalitarian, communist, or so-called democratic. The effects of poverty are degradation, the utter slavery of it, the brutality. And there is also the poverty of the mind, which is not resolved by books, institutions, organisations, or forums – that poverty ends when one understands the whole existence of oneself and one's relationship to the world at large.

The poverty trap is the self-reinforcing mechanism of poverty that can keep countries cycling in and out of poverty. Poor countries are not only poor; they are also stuck in a bad equilibrium. Everything seems to be pushing them downward, while they themselves seem unable to generate the momentum needed to break out of the trap. Poverty leads to more poverty, and it is difficult to escape from that vicious cycle. The trap can be broken, but only with outside help. In the poverty trap, the poorest people are stuck without hope, and the vicious cycle of poverty is perpetuated.

Q.1) What is the most logical assumption regarding breaking the poverty trap in poor countries?

- a) Poor countries are solely responsible for generating the momentum needed to break out of the poverty trap.
- b) The poverty trap can be broken with the help of external support.
- c) The poorest people in poor countries are capable of breaking out of the poverty trap on their own.
- d) The poverty trap perpetuates economic growth in poor countries.

Ans) b

Exp) Option b is the correct answer.

The passage states that the poverty trap is a self-reinforcing mechanism that keeps countries cycling in and out of poverty. Poor countries are stuck in a bad equilibrium and seem unable to generate the momentum needed to break out of the trap. The passage suggests that the poverty trap can be broken, but only with outside help. Therefore, the most logical assumption is that the poverty trap can be broken with the help of external support. The passage suggests that poor countries are unable to generate the momentum needed to break out of the poverty trap on their own. The passage also suggests that the poorest people are stuck without hope, and the vicious cycle of poverty is perpetuated. Furthermore, it does not suggest that the poverty trap perpetuates economic growth in poor countries.

PASSAGE 2 (Q.2)

Water scarcity is the defining crisis of the twenty-first century. It is a bigger long-term problem than COVID-19, terrorism, or any war we are now fighting. It has already unleashed resource wars and is now threatening to drive mass migration and undermine the economies of rich and poor countries alike. It is also, of course, the source of famine and starvation for many of the world's poorest people. Water scarcity is what will happen when demand outstrips dwindling supply. It is different from drought, which is a temporary fall in water availability. Water scarcity is the new reality, and the balance between the water we need and the water that is available is becoming ever more precarious.

Q.2) Which statement best reflects the crux of the passage regarding water scarcity?

- Water scarcity is a temporary fall in water availability due to drought.
- Water scarcity can wreak havoc on all of us.
- Water scarcity does not pose a significant threat to the economies of rich and poor countries alike.
- Water scarcity only affects the poorest people in the world.

Ans) b

Exp) Option b is the correct answer.

The passage discusses the severity of water scarcity, calling it the defining crisis of the twenty-first century. The passage further states that water scarcity is a bigger long-term problem than COVID-19, terrorism, or any war we are fighting. The passage highlights that water scarcity has already unleashed resource wars and is now threatening to drive mass migration and undermine the economies of rich and poor countries alike. The passage suggests that water scarcity is a significant issue and the balance between the water we need and the water that is available is becoming more precarious. Therefore, the statement that best reflects the crux of the passage is that Water scarcity can wreak havoc on all of us.

PASSAGE 3 (Q.3)

Man is born free, and everywhere he is in chains. One thinks himself the master of others, and still remains a greater slave than they. How did this change come about? I do not know. What can make it legitimate? That question I think I can answer.

If I took into account only force, and the effects derived from it, I should say: "As long as a people is compelled to obey, and obeys, it does well; as soon as it can shake off the yoke, and shakes it off, it does still better; for, regaining its liberty by the same right as took it away, either it is justified in resuming it, or there was no justification for those who took it away." But the social order is a sacred right which is the basis of all other rights. Nevertheless, this right does not come from nature, and must therefore be founded on conventions.

Q.3) Based on the above passage, the following assumptions have been made:

- Social order is a necessary component for a stable society.
- Social order is not a natural right, but a man-made construct.

Which of the above assumptions is/are valid?

- 1 only
- 2 only
- Both 1 and 2
- Neither 1 nor 2

Ans) c

Exp) Option c is the correct answer.

Statement 1 is correct: The passage implies that social order is a necessary component for a stable society, as it allows people to live in an organized and predictable manner. This assumption is correct because social order is a fundamental aspect of human society, as it provides a framework for individuals to interact and cooperate with one another. At the same time, the fact that social order is a man-made construct means that it is subject to change and can be modified or restructured to better suit the needs of society.

Statement 2 is correct: That passage argues that social order is a sacred right, but it does not come from nature and must be founded on conventions. The passage also suggests that social order is not a natural right, but rather a man-made construct. This means that the rules and conventions that make up the social order are not inherent in human nature, but rather created by people to govern their interactions.

PASSAGE 4 (Q.4)

In the Indian tradition, the argumentative pattern of discourse is of considerable importance. The acceptance of a particular thesis is not taken to be a sign of loyalty to a team or to an ideology, but rather as an outcome of a process of critical evaluation. In many other cultures and traditions, the praise of a particular position is taken as an affirmation of loyalty to a group or to a leader, and to question the viewpoint of the leader or the group is seen as a sign of disloyalty. In the Indian tradition, criticism and critical questioning of a leader, a party, or a position are seen as natural requirements of intellectual inquiry, and the pursuit of knowledge is not compromised by an undue concern for loyalty and party unity.

Q.4) Consider the following statements with reference to the above passage:

1. Adherence to the process of critical evaluation is an Indian tradition.
2. Pursuit of knowledge can be compromised if one is concerned with showing loyalty.

Which of the above given statements is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) c

Exp) Option c is the correct answer.

Statement 1 is correct: It is outlined in the beginning of the passage itself that Indian tradition aims to adhere to the critical inquiry. It is highlighted by these lines as well, **“In the Indian tradition, the argumentative pattern of discourse is of considerable importance.”**

Statement 2 is correct: It is logical that the pursuit of truth and inquiry should only be made in critical manner and it can be corrupted if it is more concerned with ensuring one’s loyalty to an individual or a group. It is highlighted here, **“In the Indian tradition, criticism and critical questioning of a leader, a party, or a position are seen as natural requirements of intellectual inquiry, and the pursuit of knowledge is not compromised by an undue concern for loyalty and party unity.”**

PASSAGE 5 (Q.5)

The shift of economic power from one major region to another is never a smooth process. It is a harsh and brutal process which, like natural selection itself, weeds out the unfit and those who are slow to adapt to changing circumstances. At a certain point, the disadvantaged party may decide to resist, leading to international conflict or even war. It is the moment of transition, rather than the age of equilibrium, which is the most dangerous phase in the history of a Great Power. The Black Death caused massive social and economic upheaval, leading to the end of the feudal system in Europe. It also had significant cultural impacts, with depictions of death and mortality becoming more prevalent in art and literature. Despite its devastating effects, the Black Death ultimately paved the way for new social, economic, and cultural developments in Europe.

Q.5) What is the primary message conveyed in the passage?

- a) The shift of economic power is a man-made process that leads to progress and development.
- b) The Black Death resulted in the start of feudalism and cultural change in Europe.
- c) Cultural change in Europe would not have been possible with peace.
- d) The resistance to change during a transition period can cause conflict and chaos.

Ans) d

Exp) Option d is the correct answer.

The passage discusses the harsh and brutal process of a shift of economic power and the danger during the transition period. It mentions that **at a certain point, the disadvantaged party may decide to resist, leading to international conflict, chaos or even war.** The **example of the Black Death is used to illustrate** how such a devastating event led to significant changes, but only after significant social and economic upheaval. The passage explicitly mentions that the shift of economic power is **harsh** and brutal, not natural and peaceful. The passage also acknowledges the negative effects of the Black Death but highlights the eventual positive developments.

PASSAGE 6 (Q.6 – Q.7)

As technology continues to advance at an exponential rate, it is not hard to imagine a future in which humans and machines merge into a new type of being. This is the concept of the singularity, a point in time when artificial intelligence surpasses human intelligence, leading to unprecedented advances in science, medicine, and other fields. Some experts predict that this could happen as soon as 2045. However, there are also concerns about the potential dangers of such a development. If machines become more intelligent than humans, they may become uncontrollable and pose a threat to our very existence. It is therefore important to ensure that we develop AI in a responsible and ethical way, with appropriate safeguards and regulations in place. Moreover, the singularity raises important questions about what it means to be human. If we merge with machines, will we still be human? What will be the implications for our identity, our values, and our relationships with each other? These are complex ethical and philosophical questions that will require careful consideration as we move towards the singularity.

Q.6) Based on the above passage, the following assumptions have been made:

1. Artificial intelligence may surpass human intelligence in the future.
2. The benefits of merging humans and machines will outweigh the potential risks and concerns.

Which of the above given assumptions is/are valid?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) a

Exp) Option a is the correct answer.

Statement 1 is correct: The passage states, "**This is the concept of the singularity, a point in time when artificial intelligence surpasses human intelligence, leading to unprecedented advances in science, medicine, and other fields.**" The passage also notes that some experts predict this could happen as soon as 2045. Therefore, the idea that AI may surpass human intelligence in the future is a reasonable assumption based on the passage.

Statement 2 is incorrect: The benefits of merging humans and machines will outweigh the potential risks and concerns - is **not supported by the passage.** The passage notes that there are concerns about the potential dangers of AI surpassing human intelligence, such as machines becoming uncontrollable and posing a threat to our existence. The passage also suggests that it is important to develop AI in a responsible and ethical way with appropriate safeguards and regulations in place. Additionally, the passage raises complex ethical and philosophical questions about what it means to be human if we merge with machines, including implications for our identity, values, and relationships with each other. **The passage does not suggest that the benefits of merging humans and machines will outweigh the potential risks and concerns.**

SFG 2023 | LEVEL 2 | Test #5 – Solutions (CSAT) | 

Q.7) What is the *most logical, rational, and crucial inference* that can be made from the passage?

- The singularity will occur in the next decade, leading to the merging of humans and machines.
- Artificial intelligence surpassing human intelligence raises important ethical and philosophical questions.
- Machines becoming uncontrollable and posing a threat to our existence is not a significant concern.
- None of the above

Ans) b

Exp) Option b is the correct answer.

The passage discusses the concept of the singularity, where artificial intelligence surpasses human intelligence, leading to unprecedented advances in science, medicine, and other fields. The passage notes that while some experts predict this could happen as soon as 2045, there are also concerns about the potential dangers of such a development, such as machines becoming uncontrollable and posing a threat to our very existence. However, the most logical, rational, and crucial inference that can be made from the passage is that the singularity raises important ethical and philosophical questions about what it means to be human. The passage specifically notes, "**The singularity raises important questions about what it means to be human. If we merge with machines, will we still be human? What will be the implications for our identity, our values, and our relationships with each other? These are complex ethical and philosophical questions that will require careful consideration as we move towards the singularity.**"

PASSAGE 7 (Q.8 -Q.9)

For most of human history, geography was seen as fate, as something that dictated the future. This is changing, and a new vision of geography as possibility is emerging. The transformation of geography from fate to possibility has been driven by the evolution of technology and the forces of globalization. The combination of technological change and globalization has enabled people to communicate with each other across the globe more easily and cheaply than ever before. This has led to a convergence of cultures and economies, as people are able to interact and exchange ideas and goods more freely. The result has been the emergence of a more interconnected and interdependent world, where the possibilities for economic growth and development are greater than ever before. One of the key drivers of this transformation has been the rise of the Internet and other forms of digital communication. These technologies have enabled people to connect with each other across vast distances, and to access information and resources that were previously unavailable. As a result, people are now able to collaborate and work together in ways that were once unimaginable.

Q.8) Based on the above passage, the following assumptions have been made:

- The transformation of geography from fate to possibility is a positive development.
- The increased interconnectedness has benefits for all individuals and communities involved.

Which of the above given assumptions is/are valid?

- 1 only
- 2 only
- Both 1 and 2
- Neither 1 nor 2

Ans) d

Exp) Option d is the correct answer.

Statement 1 is incorrect: The passage does not explicitly state whether the transformation of geography from fate to possibility is positive or negative. While the passage highlights the benefits of increased

interconnectedness and economic potential resulting from globalization and technology, **it does not provide a value judgment on whether these changes are good or bad.** The passage merely describes how geography has been viewed historically and how it is changing with the forces of technology and globalization.

Statement 2 is incorrect: The passage describes how the convergence of cultures and economies resulting from globalization and technology has led to a more interconnected and interdependent world, which has created greater possibilities for economic growth and development. However, the **passage does not address whether these changes have benefits for all individuals and communities involved.** It is possible that some individuals or communities may be negatively affected by globalization and technology, such as those who are displaced by economic changes or whose cultural traditions are threatened by increased homogenization.

Q.9) What is the *most logical corollary* of the passage?

- The rise of the Internet and other forms of digital communication has led to alienation.
- Geography is still a determining factor in shaping the future.
- The possibilities for economic growth and development are greater than ever before due to technological advancements and globalization.
- The forces of globalization have led to increased homogenization of cultures and economies.

Ans) c

Exp) Option c is the correct answer.

The passage describes how the combination of technological change and globalization has enabled people to communicate with each other across the globe more easily and cheaply than ever before, leading to a convergence of cultures and economies and the emergence of a more interconnected and interdependent world where the possibilities for economic growth and development are greater than ever before. It does not mention that it has led to alienation. Geography is increasingly becoming more irrelevant as per the passage and thus this corollary that is not correct that Geography is still a determining factor in shaping the future. Passage does not mention the increased homogenization of cultures and economies as a result of globalization. Also, it talks about key drivers of transformation (possibility of economic growth) is also due to rise of internet and other forms of digital communication.

PASSAGE 8 (Q.10 – Q.12)

Postcolonialism is a way of thinking about the world that emerged in the wake of decolonization. It is concerned with the legacies of colonialism and imperialism, and the ways in which they continue to shape the world today. At its core is the recognition that colonialism was not just a historical event, but an ongoing process that continues to shape power relations between nations and peoples. Postcolonialism is concerned with the ways in which power operates within culture, language, and knowledge production. It recognizes that colonialism involved not just the exploitation of land and resources, but also the imposition of European values and ways of thinking on colonized peoples. This legacy continues to shape the way in which knowledge is produced and disseminated, and the ways in which cultures are valued or devalued.

One of the key insights of postcolonialism is the recognition that knowledge is always situated within specific social, cultural, and historical contexts. This means that knowledge is not objective or neutral, but is always shaped by power relations and the interests of those who produce it. Postcolonialism seeks to challenge dominant ways of knowing and to explore alternative perspectives that have been excluded or marginalized. Postcolonialism also emphasizes the agency of colonized peoples in shaping their own histories and identities. It recognizes the importance of local knowledge and cultural practices, and seeks to challenge the idea that Western values and ways of thinking are universally applicable. Through its focus on power, knowledge, and agency, postcolonialism offers a critical perspective on the world that challenges dominant ways of thinking and opens up new possibilities for understanding and engagement.

Q.10) Based on the above passage, the following assumptions have been made:

1. The transmission of knowledge has been a way of exerting the colonial thinking.
2. Postcolonialism believes that people should shape their own histories.

Which of the above assumptions is/are valid?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) c

Exp) Option c is the correct answer.

Statement 1 is correct: The above passage clearly outlines that knowledge is one of the dominant ways colonialism is spread through as it leads to **imposition of European values and ways of thinking on colonized peoples**. Furthermore, these lines from the passage also emphasize on the same, **“This legacy continues to shape the way in which knowledge is produced and disseminated, and the ways in which cultures are valued or devalued.”**

Statement 2 is correct: The postcolonialism believes that it is not the western ideas about the history of others that should be followed but rather people should have agency on writing their own history. These lines corroborate the same, **“Postcolonialism seeks to challenge dominant ways of knowing and to explore alternative perspectives that have been excluded or marginalized. Postcolonialism also emphasizes the agency of colonized peoples in shaping their own histories and identities.”**

Q.11) Based on the above passage, the following assumptions have been made:

1. Postcolonialism is dominant method of approaching the history now.
2. Knowledge should be made neutral.

Which of the above assumptions is/are valid?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) d

Exp) Option d is the correct answer.

Statement 1 is incorrect: Nowhere in the passage it has been mentioned that now the method of approaching history has changed to postcolonialism and that the dominant form of approaching history is now postcolonialism. It only mentions that **“postcolonialism offers a critical perspective on the world that challenges dominant ways of thinking and opens up new possibilities for understanding and engagement.”**

Statement 2 is incorrect: The passage does not make any such imperative that knowledge should be made neutral but rather it argues that knowledge is never neutral. It mentions that **“...knowledge is always situated within specific social, cultural, and historical contexts. This means that knowledge is not objective or neutral, but is always shaped by power relations and the interests of those who produce it.”**

Q.12) Consider the following statements:

1. Colonialism is an ongoing process that continues to shape global relations
2. Postcolonialism seeks to reinforce the ideas of Western values and ways of thinking.

Which of the above given can be considered as the ‘critical inference’ of the passage?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) a

Exp) Option a is the correct answer.

Statement 1 is correct: The passage emphasizes that colonialism was not just a historical event, but an ongoing process that continues to shape power relations between nations and peoples. It says that **“It is concerned with the legacies of colonialism and imperialism, and the ways in which they continue to shape the world today. At its core is the recognition that colonialism was not just a historical event, but an ongoing process that continues to shape power relations between nations and peoples.”**

Statement 2 is incorrect: The passage seeks to challenge the idea that Western values and ways of thinking are universally applicable, rather than reinforce it. Postcolonialism is a dominant method in fact that challenges the ethnocentricity of knowledge and history.

PASSAGE 9 (Q.13 – Q.15)

Diplomacy is an art of letting someone else have your way. It is the art of persuading others to do what you want, while giving them the impression that they are doing what they want. Diplomacy involves both bargaining and communication. It requires a willingness to compromise, to make concessions, and to find common ground. Successful diplomacy depends on understanding the motivations and interests of the other side. It involves a careful balancing of power and persuasion. It requires the ability to read signals and to respond in kind. It requires patience, persistence, and creativity. Diplomacy is not just a tool of foreign policy. It is also a means of resolving conflicts within societies. It is a way of negotiating compromises and finding common ground between different groups. It requires a willingness to listen to other points of view, to recognize the legitimacy of other perspectives, and to seek win-win solutions. At its best, diplomacy is a way of avoiding war. It is a way of resolving conflicts peacefully and preserving the dignity of all parties involved. But diplomacy is not always successful. It can be undermined by misunderstandings, mistrust, and hardline positions. It requires constant effort and attention.

Q.13) What are the key qualities required for successful diplomacy, according to the above passage?

- a) Stubbornness, assertiveness, and a hardline position.
- b) Willingness to compromise but not settle
- c) Strong military power, persuasive language, and a willingness to use force.
- d) Patience, persistence, and creativity.

Ans) d

Exp) Option d is the correct answer.

This passage indicates that successful diplomacy requires a nuanced approach that takes into account the motivations and interests of the other side, as well as the ability to adapt to changing circumstances. Patience, persistence, and creativity are key qualities that allow a diplomat to navigate complex negotiations and achieve successful outcomes. Following lines confirm the same, **“Successful diplomacy depends on understanding the motivations and interests of the other side. It involves a careful balancing of power and persuasion. It requires the ability to read signals and to respond in kind. It requires patience, persistence, and creativity.”**

Q.14) Based on the above passage, the following assumptions have been made:

1. Diplomacy is essentially about generating consent without other being aware of it
2. Diplomacy is the singular tool of the foreign policy.

Which of the above assumptions is/are valid?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) a

Exp) Option a is the correct answer.

Statement 1 is correct: In the very beginning of the passage, it has been outlined that diplomacy is essentially generating consent in one's own favour. These lines highlight the same as well, **"Diplomacy is an art of letting someone else have your way. It is the art of persuading others to do what you want, while giving them the impression that they are doing what they want."**

Statement 2 is not correct: Nowhere in the passage it has been mentioned that the only i.e. singular tool of foreign policy is diplomacy. Nonetheless, it is an essential part of it. Furthermore, the passage explains that diplomacy is useful much beyond foreign policy as well.

Q.15) What according to the passage can lead to the failure of diplomacy?

- a) Acknowledging the validity of alternate viewpoints
- b) The lack of trust, and inflexible stances
- c) Discovering shared interests among diverse factions
- d) Maintaining the stance of every individual or group

Ans) b

Exp) Option b is the correct answer.

The passage towards the highlight the situations which can lead to the weakening or the failure of the foreign policy. This is highlighted by the lines, **"But diplomacy is not always successful. It can be undermined by misunderstandings, mistrust, and hardline positions. It requires constant effort and attention."**

PASSAGE 10 (Q.16)

Globalization is not just a phenomenon and not just a passing trend. It is the international system that replaced the Cold War system. Globalization is the integration of capital, technology, and information across national borders, in a way that is creating a single global market and, to some degree, a global village. It is a system that has unleashed astonishing levels of economic growth and lifted hundreds of millions of people out of poverty. But it has also destabilized the world's political systems, given rise to a new wave of cultural conflicts, and complicated the tasks of governments everywhere.

Q.16) Which of the following best summarizes the author's message in the passage?

- a) Globalization has led to economic growth, but has also caused cultural conflicts.
- b) The Cold War system has been replaced by globalization, which has created a global village and lifted people out of poverty.
- c) Globalization is a phenomenon that has destabilized political systems and created a single global market.
- d) Capital, technology, and information have not disintegrated national borders.

Ans) a

Exp) Option a is the correct answer.

The passage highlights the effects of globalization, such as economic growth and poverty reduction, but also discusses the negative impacts on political systems and the rise of cultural conflicts. The key message of the author is that globalization has led to economic growth while also creating complications for governments and causing cultural conflicts. Capital, technology, and information have actually disintegrated or rather diluted national borders. Globalization clearly has both positive and negative effects which is best encapsulated in the first statement.

PASSAGE 11 (Q.17)

Humanity is not an abstraction. It is a physical, palpable presence on earth, and it is subject to the same harsh realities as any other life form. Our presence is not necessarily benign, either. The question of how we will make ourselves present on earth is the question of how we will make the earth present to us. That in turn involves a pretty good idea of what we value, and what we don't value. We don't value places that have no heart or meaning, places that make us feel like lemmings or lab rats. We don't value places where things that matter to us are in danger. We don't value places where we feel helpless. We don't value places where we feel unwelcome. We don't value places where we feel dead inside.

Q.17) What is the *most critical inference* drawn from the passage?

- a) Humanity is a nonthreatening presence on Earth.
- b) The value of a place is determined by what matters to us.
- c) Our presence on Earth is subject to harsh realities.
- d) Our physical presence on Earth is an abstraction.

Ans) c

Exp) Option c is the correct answer.

The passage emphasizes that humanity's presence on Earth is not necessarily benign, and that we are subject to the same harsh realities as any other life form. It goes on to discuss the importance of valuing places that matter to us and avoiding places where we feel helpless, unwelcome, or dead inside. However, the most critical inference that can be drawn from the passage is that our presence on Earth is subject to harsh realities, and we must take this into account when considering how we will make ourselves present on the planet.

PASSAGE 12 (Q.18)

Climate change is one of the most profound challenges facing humanity. It involves the interplay of complex natural systems with equally complex social systems. The science of climate change is characterized by large uncertainties and complexities, while the economics of climate change is characterized by difficult ethical and distributional problems. Climate change is also marked by the conflict between the present and the future. The benefits of abatement come in the future, while the costs are borne today. Climate change is a classic example of a problem of intergenerational equity. The benefits of abatement will accrue primarily to future generations, while the costs of abatement will be borne largely by the present generation.

Q.18) Based on the above passage, the following assumptions have been made:

1. All countries are affected by climate change.
2. The costs of abatement are always greater than the benefits.

Which of the above assumptions is/are valid?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) d

Exp) Option d is the correct answer.

Statement 1 is incorrect: This assumption is incorrect because **the passage doesn't make any mention of how different countries may be affected differently** by climate change. It is possible that some countries are more vulnerable to the effects of climate change than others due to factors such as geographic location, economic development, and infrastructure:

Statement 2 is incorrect: This assumption is incorrect because the passage acknowledges that the benefits of abatement will accrue primarily to future generations, but it **doesn't suggest that the costs of abatement will always outweigh these benefits**. The passage only states that the costs are borne today, while the benefits come in the future. It is possible that in some cases, the benefits of abatement may outweigh the costs.

PASSAGE 13 (Q.19)

The study of animal behavior has a rich history and is a critical field in the understanding of the natural world. The behavior of animals can be shaped by genetics, environment, and experience, and can vary from individual to individual, even within the same species. Ethologists, or those who study animal behavior, use a variety of methods to observe and interpret animal behavior, including field observations, laboratory experiments, and controlled studies. They seek to answer questions about animal behavior such as why and how animals behave, how they learn, communicate, and interact with each other, and how they adapt to changing environments. Through the study of animal behavior, we can gain a deeper understanding of the complex relationships that exist within the natural world and the impact that humans have on these relationships.

Q.19) What is the key message of the author in the above given passage?

- a) Animal behavior is solely shaped by genetics.
- b) Ethologists use only laboratory experiments to observe animal behavior.
- c) The study of animal behavior is critical for understanding the natural world and the impact of humans on it.
- d) Animal behavior is always the same within a species.

Ans) c

Exp) Option c is the correct answer.

The passage emphasizes the importance of the study of animal behavior in understanding the natural world and the impact that humans have on it. This is conveyed in the following line: **"Through the study of animal behavior, we can gain a deeper understanding of the complex relationships that exist within the natural world and the impact that humans have on these relationships."**

PASSAGE 14 (Q.20 – Q.21)

Myth is the secret opening through which the inexhaustible energies of the cosmos pour into human cultural manifestation. Religions, philosophies, arts, the social forms of primitive and historic man, prime discoveries in science and technology, the very dreams that blister sleep, boil up from the basic, magic

ring of myth. The function of myth, then, is to point beyond itself to a realm that cannot be mapped and measured, to suggest a universe of potentialities that stretches beyond our horizons and that will forever remain unknowable and yet, one hopes, significant. Without the help of the mythic dimension, the mind is exposed naked to the abysses of despair, not knowing why human life, why any life, should exist. With such assistance, however, it can find the courage to face the fact that the world is shaped by chaos and that there are ultimate limits to knowledge.

But more important than courage is the capacity to rejoice in the sheer fact of existence. What we call “the rapture of being alive” comes not from some religious or philosophical doctrine, but from an experience of living in harmony with the universe. It comes from participating in the dance of life that myth celebrates.

Q.20) Based on the above passage, the following assumptions have been made:

1. Without the help of myth, the mind is exposed to despair and chaos.
2. Myth is a fundamental source of human cultural expression.

Which of the above given assumptions is/are valid?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) c

Exp) Option c is the correct answer.

Statement 1 is correct: As per the passage myths help us face the fact that the world is shaped by chaos and that there are limits to knowledge. This outlined in the passage here, “**Without the help of the mythic dimension, the mind is exposed naked to the abysses of despair, not knowing why human life, why any life, should exist.**”

Statement 2 is correct: One of the assumptions made in the passage is that myth is a vital aspect of human cultural expression. The author suggests that myths are the source of religions, philosophies, arts, social forms, and even scientific discoveries. Following line highlights the same, “**Myth is the secret opening through which the inexhaustible energies of the cosmos pour into human cultural manifestation.**”

Q.21) Based on the passage, which of the following is the *most rational inference*?

- a) Mythology is a product of chaos and despair.
- b) Mythology is a source of courage and a celebration of life.
- c) Mythological beliefs are based solely on historical facts.
- d) All cultures and societies share a common set of myths.

Ans) b

Exp) Option b is the correct answer.

The passage highlights the importance of mythology and its function in human cultural expression. It suggests that mythology is a fundamental source of religions, philosophies, arts, and social forms. The passage further argues that the function of mythology is to point beyond itself to a realm that cannot be mapped and measured, and to suggest a universe of potentialities that stretches beyond our horizons. The passage also states that without the help of mythology, the mind is exposed naked to the abysses of despair, but with such assistance, it can find the courage to face the fact that the world is shaped by chaos and that there are ultimate limits to knowledge. The passage then goes on to suggest that the rapture of being alive comes from participating in the dance of life that myth celebrates. Based on this,

the most rational inference is that mythology is a source of courage and a celebration of life, as it helps humans face the chaos and limits of the world, and participate in the dance of life.

PASSAGE 15 (Q.22 – Q.23)

The notion of mathematical truth has an extraordinary power. The axioms, definitions, and rules of inference are all set down by humans; but once the rules are set down, the theorems and proofs that can be built from them seem to acquire a life of their own, completely independent of their human creators. Indeed, even when humans understand a theorem completely, they often have the eerie feeling that it somehow existed "out there" in the universe of mathematical concepts, just waiting to be discovered, rather than having been invented by human thought. This "out there-ness" of mathematical concepts is the starting point of all the Platonic beliefs about mathematics. But there are some mathematicians who do not accept the idea of an independent mathematical universe. They are called formalists, and they believe that mathematics is nothing but the study of symbols and rules for manipulating those symbols. In other words, mathematical statements are merely strings of symbols which have no intrinsic meaning, and the task of mathematics is simply to deduce, from the axioms and definitions, the consequences of these meaningless symbols. The formalists believe that the only truth to be found in mathematics is logical truth - that is, the truth that arises from purely symbolic manipulation, with no reference to any real-world meaning. This is a very austere view of mathematics, which some find hard to swallow.

Q.22) Based on the above passage, the following assumptions have been made:

1. The key axioms have been devised by the humans.
2. All mathematicians believe in the existence of an independent mathematical universe.

Which of the above given assumptions is/are valid?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) a

Exp) **Option a is the correct answer.**

Statement 1 is correct: It is stated clearly in the passage that "**The axioms, definitions, and rules of inference are all set down by humans.**" The author acknowledges that these fundamental principles of mathematics are created by humans and not discovered in the natural world.

Statement 2 is incorrect: The passage mentions the existence of formalists, who reject the idea of an independent mathematical universe. The passage states, "**there are some mathematicians who do not accept the idea of an independent mathematical universe. They are called formalists, and they believe that mathematics is nothing but the study of symbols and rules for manipulating those symbols.**" This suggests that there are differing views among mathematicians regarding the nature of mathematical concepts and their relationship to the physical world.

Q.23) Which of the following is the *most logical and rational assumption* based on the information given in the passage?

- a) Mathematical concepts and principles have an inherent truth that exists independently of human understanding or interpretation.
- b) The formalist view of mathematics is the only valid perspective.
- c) All mathematicians believe in the existence of an independent mathematical universe.
- d) The axioms, definitions, and rules of inference are discovered in the natural world.

Ans) a

Exp) Option a is the correct answer.

The passage suggests that mathematical theorems and proofs seem to acquire a life of their own, independent of their human creators, and that even when humans understand a theorem completely, they often have the eerie feeling that it somehow existed "out there" in the universe of mathematical concepts, just waiting to be discovered, rather than having been invented by human thought. Therefore, it can be inferred that mathematical concepts and principles have an inherent truth that exists independently of human understanding or interpretation

PASSAGE 16 (Q.24 – Q.26)

The sociological imagination enables us to grasp history and biography and the relations between the two within society. That is its task and its promise. To recognize this task and this promise is the mark of the classic social analyst. It is characteristic of Herbert Spencer, of Karl Marx, of Emile Durkheim, of Max Weber, and of the many other founders of our science. To understand the social world, we must understand both the history that has shaped it and the biography of the individuals who inhabit it. We must be able to see the intersection between the two and understand how each one affects the other. This requires us to move beyond our own limited experiences and see the world through the eyes of others.

We must be able to step outside of our own social location and see how different groups experience the world. We must also be able to understand how society is structured and how power operates within it. This means that we must be critical of the social structures and institutions that shape our lives, and we must be willing to challenge them when they perpetuate inequality and injustice. The sociological imagination is not a fixed body of knowledge that can be learned once and for all. It is a way of thinking that must be constantly cultivated and refined. It requires us to be curious, creative, and critical. It challenges us to see the world in new ways and to question the assumptions that underlie our beliefs and actions. In doing so, it helps us to understand ourselves and the world around us, and to work towards creating a more just and equitable society.

Q.24) Based on the above passage, the following assumptions have been made:

1. One should have empathy to develop sociological imagination.
2. One should not question the norms that influence our existence.

Which of the above assumptions is/are valid?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) a

Exp) Option a is the correct answer.

Statement 1 is correct: The following lines outline the fact that one should empathy as it helps us understand others better and develop a sociological imagination. **“We must be able to see the intersection between the two and understand how each one affects the other. This requires us to move beyond our own limited experiences and see the world through the eyes of others.”**

Statement 2 is incorrect: The passage argues contrary to the given statement as our lives are affected by social patterns and institutions that we need to examine critically. Following lines emphasize the same, **“We must also be able to understand how society is structured and how power operates within it. This means that we must be critical of the social structures and institutions that shape our lives, and we must be willing to challenge them when they perpetuate inequality and injustice.”**

Q.25) Based on the above passage, the following assumptions have been made:

1. The social world is influenced by the personal stories of the people who live in it.
2. Sociological imagination demands us to be inquisitive.

Which of the above given assumptions is/are valid?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) c

Exp) Option c is the correct answer.

Statement 1 is correct: The passage argues at the start that we must understand the intersection of biography which is personal history of individual as well as the history they inhabit. Following lines highlight this, **“To understand the social world, we must understand both the history that has shaped it and the biography of the individuals who inhabit it. We must be able to see the intersection between the two and understand how each one affects the other.”**

Statement 2 is correct: The following lines highlight that to have a sociological imagination, one should have inquisitiveness, **“It is a way of thinking that must be constantly cultivated and refined. It requires us to be curious, creative, and critical. It challenges us to see the world in new ways and to question the assumptions that underlie our beliefs and actions.”**

Q.26) How does the passage argue that the sociological imagination can address injustices?

- a) By understanding and criticizing existing social structures
- b) By building new social structures and social orders
- c) By changing how an individual see his/her history
- d) By building a new body of knowledge

Ans) a

Exp) Option a is the correct answer.

The passage clearly outlines that that by being curious, creative, and **critical, we can question the assumptions that underlie our beliefs and actions and see the world in new lights. Questioning the existing social structures** would help us to understand the prevailing injustices. Only by understanding this we can work towards creating a more just and equitable society.

PASSAGE 17 (Q.27 – Q.29)

The dream is a sort of involuntary thinking that occurs during sleep, in which the unconscious mind communicates with the conscious mind through the creation of symbols and imagery. These symbols and imagery are often derived from repressed desires, fears, or memories, which are transformed and disguised by the mind in order to protect the dreamer from experiencing anxiety or guilt. In this way, the dream serves as a kind of safety valve for the psyche, allowing the individual to process and integrate their unconscious material in a way that is less threatening than direct confrontation with the repressed content.

However, the interpretation of dreams is not a straightforward process, as the symbols and imagery used in the dream are often highly personal and idiosyncratic, and may have different meanings for different individuals. Moreover, the dream is not a static entity, but is rather a dynamic process that evolves over time and is influenced by both internal and external factors. Despite these challenges, the interpretation of dreams can provide valuable insights into the workings of the human mind and the nature of the

unconscious. Through careful analysis of the symbols and imagery used in the dream, it is possible to uncover repressed desires, fears, and memories, and to gain a deeper understanding of the individual's personality and psychological makeup.

Q.27) What is the main purpose of the dream according to the passage?

- a) To provide entertainment during sleep.
- b) To prevent communication with the unconscious mind.
- c) To completely eliminate the anxieties or guilts of the dreamer.
- d) To act as a system to release the pressure for the psyche

Ans) d

Exp) Option d is the correct answer.

The main purpose of the dream, according to the passage, is to act as a safety valve for the psyche, allowing the individual to process and integrate their unconscious material in a way that is less threatening than direct confrontation with the repressed content. While the dream may involve the communication between the unconscious mind and conscious mind through the creation of symbols and imagery, it is ultimately a means of protecting the dreamer from experiencing anxiety or guilt. However, they do not eliminate the anxieties and guilts completely.

Q.28) Why according to the author of the passage, interpreting dreams a challenging process?

- a) The symbols and imagery used in dreams are not relevant to the individual
- b) The dream remains transfixed entity.
- c) The dream is barely influenced by internal and external factors
- d) The symbols and imagery used in dreams are highly individualistic.

Ans) d

Exp) Option d is the correct answer.

The passage explains that the interpretation of dreams is not a straightforward process because the **symbols and imagery used in dreams are often highly personal and idiosyncratic, and may have different meanings for different individuals.** This means that the interpretation of a dream may be influenced by an individual's personal experiences and associations. Furthermore, the passage notes that **the dream is a dynamic process that evolves over time and is influenced by both internal and external factors.** These factors may include the individual's current emotional state, recent experiences, and external events, all of which can make interpreting dreams more challenging.

Q.29) Based on the above passage, the following assumptions have been made:

1. Interpreting dreams can provide insights into the individual's psyche.
2. Everyone has repressed desires, fears, or memories.

Which of the above given assumptions is/are valid?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) a

Exp) Option a is the correct answer.

Statement 1 is correct: The passage assumes that despite the challenges involved in interpreting dreams, it can provide valuable insights into the workings of the human mind and the nature of the unconscious. Through careful analysis of the symbols and imagery used in the dream, it is possible to uncover repressed desires, fears, and memories, and to gain a deeper understanding of the individual's personality and psychological makeup.

Statement 2 is incorrect: This assumption is not made in the passage on dreams. While the passage notes that dreams often communicate repressed desires, fears, or memories, it does not assume that everyone has such repressions. There may be individuals who do not have repressed material that is communicated through their dreams.

PASSAGE 18 (Q.30)

The great enemy of clear language is insincerity. When there is a gap between one's real and one's declared aims, one turns as it were instinctively to long words and exhausted idioms, like a cuttlefish spurting out ink. In our age, there is no such thing as 'keeping out of politics.' All issues are political issues, and politics itself is a mass of lies, evasions, folly, hatred, and schizophrenia. When the general atmosphere is bad, language must suffer. I should expect to find -- this is a guess which I have not sufficient knowledge to verify -- that the German, Russian and Italian languages have all deteriorated in the last ten or fifteen years, as a result of dictatorship.

Q.30) What is the most logical and essential message conveyed in the passage?

- Long words and exhausted idioms are necessary for clear language.
- Politics is a necessary evil that corrupts language.
- Dictatorship leads to the deterioration of language.
- Sincerity is required for the development of clear and better language.

Ans) d

Exp) Option d is the correct answer.

The passage argues that **insincerity is the great enemy of clear language**, and that when there is a gap between one's real and declared aims, long words and exhausted idioms are used as a means of evading the truth. This is demonstrated by the metaphor of the cuttlefish spurting out ink. The author argues that in our age, politics is inescapable and that when the general atmosphere is bad, language suffers. Thus, it is evident Sincerity is required for the development of clear and better language. The final sentence of the passage is a guess that **the German, Russian, and Italian languages have deteriorated due to dictatorship**. It is another **illustration that sincerity is a key requirement** for betterment of a language.

PASSAGE 19 (Q.31)

The modern world tends to be individualistic. We believe in the importance of individual happiness, and seek to provide every individual with the means to pursue happiness as they see fit. Yet at the same time we believe that individual freedom can be reconciled with economic growth, technological progress, and modernization. In practice, this is often an illusion. To ensure economic growth, the modern state has to engage in a complex balancing act between competing demands of different groups, such as employers and employees, merchants and consumers, environmentalists and industrialists. Meanwhile, technological progress threatens to disrupt the job market, as artificial intelligence and automation make many human jobs redundant.

Q.31) Based on the passage, what is the most logical corollary of the belief in individual freedom and economic growth?

- The state should prioritize economic growth over individual freedom in order to ensure progress.
- Balancing the competing demands of different groups is crucial to reconcile individual freedom with economic growth.
- The advancement of technology will eventually lead to the disappearance of human jobs.
- The pursuit of individual happiness should be sacrificed for the benefit of the greater good.

Ans) b

Exp) Option b is the correct answer.

The passage **highlights the contradiction between the belief in individual freedom and the need for economic growth**, as the latter often requires the state to balance the competing demands of different groups. The passage also mentions the threat of technological progress to the job market. The **most logical corollary of these ideas is that balancing the competing demands** of different groups is crucial to reconcile individual freedom with economic growth. Furthermore, the passage does not suggest sacrificing individual happiness for the greater good.

PASSAGE 20 (Q.32)

But no one can reach the edifice of the English language who is not constantly adding from newer sources. New combinations of words are continually being formed for special purposes. Those who seek in language a medium for the expression of thought and feeling, for the transmission of knowledge, or for the elaboration of ideas, will find themselves in constant need of new materials to give their purpose full effect. Each of the words and phrases in our language has a history and a genealogy. In this department the accumulation of the past is always increasing, and the latest results of scholarship and research must be added to the mass. As the tide flows on, the pool must grow deeper, for it is the pool of thought which gives depth and significance to the stream.

Q.32) Based on the above passage, the following assumptions have been made:

- The English language is constantly evolving.
- Knowing a greater number of words and phrases is necessary to express one's thoughts and ideas in a better way.

Which of the above assumptions is/are valid?

- 1 only
- 2 only
- Both 1 and 2
- Neither 1 nor 2

Ans) a

Exp) Option a is the correct answer.

Statement 1 is correct: It is cleared at the outset itself that English language is constantly developing and evolving and new words, phrases are being added to it continually. It is highlighted by these lines, **“But no one can reach the edifice of the English language who is not constantly adding from sources such as these. New combinations of words are continually being formed for special purposes.”**

Statement 2 is incorrect: The passage does not imply that **Knowing a greater number of words and phrases is necessary to express one's thoughts and ideas in a better way**. The author only talks about the importance of having a variety of words and phrases available for those who seek to express their thoughts and ideas. And did not consider it as necessity.

PASSAGE 21 (Q.33 – Q.34)

The truth is the whole. We must comprehend the whole to know the truth. Knowledge of a single object can be said to be true only insofar as it agrees with the truth of the whole system of reality. Truth, therefore, is not simply the agreement of thought with reality, but the agreement of a thought with the whole system of reality. Truth is a function of the whole, and the whole is the system of reality. The truth of any particular thought, then, depends not only on the thought itself but on the other thoughts in the whole system of reality. A thought that is true in one context may be false in another, depending on the other thoughts that it is related to in that context. Truth, then, is not simply a matter of correspondence between a thought and an object in the world. Rather, truth is a function of the whole system of reality, and any particular thought is true only insofar as it fits into the whole. The whole system of reality, then, is not something that we simply observe from the outside, but something that we participate in, and something that we help to create through our thinking.

Q.33) Based on the above passage, the following assumptions have been made:

1. Human beings have the ability to completely comprehend the entire system of reality.
2. The truth can often be contextual.

Which of the above given assumptions is/are valid?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) b

Exp) Option b is the correct answer.

Statement 1 is incorrect: The passage does not explicitly state that human beings have the ability to completely comprehend the entire system of reality. In fact, the passage suggests that the whole system of reality is not something that we simply observe from the outside but something that we participate in and help to create through our thinking.

Statement 2 is correct: The passage clearly outline that truth is often contextual. It has been highlighted in this line, **“A thought that is true in one context may be false in another, depending on the other thoughts that it is related to in that context.”**

Q.34) What does the author mean by "the truth is the whole"?

- a) The truth is determined by individual perceptions of reality.
- b) The truth can be known through the study of individual objects.
- c) The truth depends on the interconnectedness of all objects in reality.
- d) The truth is determined by scientific facts.

Ans) c

Exp) Option c is the correct answer.

The author means that "the truth is the whole" in the sense that the truth cannot be understood or known by looking at individual objects or perceptions in isolation. The truth depends on the interconnectedness of all objects and perceptions in the whole system of reality. As the passage states: "Knowledge of a single object can be said to be true only insofar as it agrees with the truth of the whole system of reality." The author is arguing that the truth is not simply a matter of correspondence between a thought and an object in the world, but it's a function of the whole system of reality. In other words, the truth is not determined by isolated facts or perceptions, but by the relationships and interconnections between all of them.

PASSAGE 22 (Q.35 – Q.37)

Cancer, we have long known, is the most tenacious of adversaries. It evolves with Darwinian cunning and has outwitted our best efforts to subdue it for centuries. We have blasted it with radiation, cut it out with scalpels, scorched it with chemicals, and yet it has survived, elusive and mysterious. The human body, it seems, was not designed to battle cancer—our immune systems are geared to detect and destroy invaders that come from the outside, not the inside. The signals that cancer cells send out when they are first born and then thrive are, at best, weak distress signals that are often missed or ignored. When the immune system does respond, the cancer cells have already evolved new means of evasion. But over the last few years, a remarkable scientific story has emerged, one that has confounded all the long-held beliefs about how the immune system works. The discovery that the immune system can be mobilized against cancer has emerged as one of the most promising and innovative approaches of the twenty-first century. Immune cells, it seems, can learn to recognize the hitherto unknown landscape of the inside of the cell, and destroy it with astonishing efficiency. Cancer, in this view, is simply a disease of the failure of the immune system to recognize and eliminate malignant cells. But if the immune system can be trained to do so, then it can emerge as an unanticipated and powerful ally in the war against cancer.

Q.35) According to the passage, why has the immune system been unable to effectively combat cancer?

- The immune system is mainly designed to target and eliminate external threats.
- The immune system often fails to notice or respond to the faint distress signals.
- Cancer cells have the ability to evolve rapidly and outwit all our efforts to destroy them.
- Both a and b.

Ans) d

Exp) Option d is the right answer.

The passage states that the human immune system is geared to detect and **destroy invaders that come from the outside, not the inside**, and that cancer cells send **out weak distress signals that are often missed or ignored by the immune system**. The passage does not mention that Cancer cells have the ability to evolve and outwit all our efforts to destroy them. Also, the second half of the statement, i.e. and outwit all our efforts to destroy them, can be considered as an extreme statement.

Q.36) According to the passage, what is the most promising and innovative approach to combating cancer?

- Using radiation to destroy cancer cells.
- Using scalpels to cut out cancerous tissue.
- Using chemicals to scorch cancer cells.
- Training the immune system to recognize and eliminate malignant cells.

Ans) d

Exp) Option d is the correct answer.

The passage notes that over the last few years, a remarkable scientific story has emerged, one that has confounded all the long-held beliefs about how the immune system works. It goes on to state that the discovery that the immune system can be mobilized against cancer has emerged as one of the most promising and innovative approaches of the twenty-first century. It concludes that cancer is simply a disease of the failure of the immune system to recognize and eliminate malignant cells and that if the immune system can be trained to do so, it can emerge as an unanticipated and powerful ally in the war against cancer.

Q.37) What is the critical inference that can be derived from the above given passage?

- Cancer is a disease that can be easily cured with modern medicine.
- The immune system is ill-equipped to fight cancer due to its inability to recognize malignant cells.
- Traditional cancer treatments such as radiation and chemotherapy are more effective than using the immune system to combat cancer.
- Cancer cells cannot adapt and evolve to counteract the human immune system.

Ans) b

Exp) Option b is the correct answer.

The passage describes how cancer has been a difficult adversary for modern medicine because it can evolve and outwit our efforts to eliminate it. The immune system's design is to target external invaders, making it poorly suited to recognize and destroy cancer cells within the body. Therefore, the key critical inference from the passage is that the immune system is ill-equipped to fight cancer due to its inability to recognize malignant cells. Option B correctly reflects this critical inference. Option A is incorrect because the passage does not suggest that cancer is easy to cure. Option C is incorrect because the passage describes how training the immune system to recognize and eliminate malignant cells is a promising approach. Option D is incorrect because the passage explicitly states that cancer cells can adapt and evolve to evade the human immune system.

PASSAGE 23 (Q.38 – Q.39)

As we spend more and more time online, we are rewiring our brains to think and process information in new ways. The internet encourages rapid, superficial browsing and skimming, rather than deep, reflective thinking. This has important implications for our ability to concentrate, remember, and learn. Studies have shown that frequent internet use can lead to a decrease in attention span and a reduction in the ability to engage in complex cognitive tasks. The constant distraction and interruption of digital devices can also contribute to anxiety, stress, and a sense of overload. However, the effects of the internet on the brain are not entirely negative. Neuroplasticity, or the brain's ability to change and adapt, means that the internet can also be a valuable tool for learning and cognitive growth. The key is to use it in a mindful and intentional way, balancing the benefits of easy access to information with the need for deep, focused thinking.

Q.38) Based on the above passage, the following assumptions have been made:

- The internet has an impact on the way our brains process information.
- Rapid browsing and skimming on the internet may hinder deep, reflective thinking.

Which of the above given assumptions is/are valid?

- 1 only
- 2 only
- Both 1 and 2
- Neither 1 nor 2

Ans) c

Exp) Option c is the correct answer.

Statement 1 is correct: This assumption is correct based on the following line from the passage: "**As we spend more and more time online, we are rewiring our brains to think and process information in new ways.**" This suggests that the internet is having a direct impact on our brains and the way we process information.

Statement 2 is correct: This is clearly outlined in this line in the passage, "**The internet encourages rapid, superficial browsing and skimming, rather than deep, reflective thinking.**" This implies that the way the

internet is designed can encourage a certain type of thinking that is more focused on speed and surface-level understanding, rather than deep, reflective thinking.

Q.39) What is the most critical message conveyed in the passage?

- The internet has a purely negative impact on cognitive abilities.
- Mindful and intentional use of the internet is required to make it a valuable tool for cognitive development.
- Rapid browsing and skimming on the internet is the only way to process information.
- The internet should be avoided in order to maintain concentration and memory.

Ans) b

Exp) Option b is the correct answer.

The passage discusses how the internet can impact our cognitive abilities, but ultimately argues that the key is to use it in a mindful and intentional way. This is conveyed in the following line: "**The key is to use it in a mindful and intentional way, balancing the benefits of easy access to information with the need for deep, focused thinking.**" The passage states that the internet encourages rapid browsing and skimming, but it doesn't suggest that this is the only way to process information. The passage mentions that the effects of the internet on the brain are not entirely negative, and that neuroplasticity means the internet can also be a valuable tool for learning and cognitive growth. The passage doesn't suggest that the internet should be avoided altogether.

PASSAGE 24 (Q.40)

It is widely recognised that political secularism, virtually everywhere in the world, is in crisis. It is also acknowledged that to overcome this crisis, secularism needs to be reimagined and reconceptualized. We need to move away from the standard church-state models of secularism and begin to focus instead on secularism as a response to deep religious diversity. Furthermore, diversity must be understood as enmeshed in power relations, and therefore the hidden potential of religion-related domination must be explicitly acknowledged. Also, these two moves enable us to view secularism as a response to two forms of institutionalized religious domination, inter- and intra-religious. This way of conceiving secularism rebukes the charge that secularism is intrinsically anti-religious. Secularism is not against religion; it opposes institutionalized religious domination. A secular state should show critical respect to all religious and philosophical world views, possible only when it adopts a policy of principled distance towards all of them.

Q.40) Which one of the following is the most logical and rational inference that can be made from the above passage?

- Standard model of State–Church separation is no more applicable to the modern world.
- Secularism seems to be in crisis across the globe and needs to be protected.
- A new model of secularism based on principled distance would make it more accommodative and acceptable.
- A modern state cannot function without the value of secularism.

Ans) c

Exp) Option c is the correct answer.

The following lines highlight the logical message of the passage, "We need to move away from the standard church-state models of secularism and begin to focus instead on secularism as a response to deep religious diversity. A secular state should show critical respect to all religious and philosophical world views, possible only when it adopts a policy of principled distance towards all of them."

Q.1) In the context of India, which of the following best describes the theory of “Collective Ministerial Responsibility”?

- The Ministers are directly responsible to the People of India.
- The Council of Ministers is responsible to the House of the People.
- The Council of Ministers is responsible only to the Head of the State.
- The Ministers are responsible only for their own actions, and not for the actions of entire Cabinet.

Ans) b

Exp) Option b is the correct answer.

According to theory of collective ministerial responsibility, **the Ministers are responsible to the House of the People**. It is a business of the House of the People to see that the Cabinet remains in power so long as it retains the confidence of the majority in that House. It is explicitly expressed in **Art. 75 (3)** of our Constitution. **Art. 75 (3) reads “The Council of Ministers shall be collectively responsible to the House of the People”**.

The principle of collective responsibility also means that the Cabinet decisions bind all cabinet ministers even if they differed in the cabinet meeting. It is the duty of every minister to stand by cabinet decisions and support them both within and outside the Parliament.

Q.2) With reference to representation of Union Territories in Rajya Sabha, which of the following statements is/are correct?

- The representatives of a union territory in the Rajya Sabha are indirectly elected by members of an electoral college specially constituted for this purpose.
- The system of proportional representation by means of the single transferable vote is used for election of members to Rajya Sabha from Union Territories.
- Only Delhi and Puducherry have representation in Rajya Sabha.

Select the correct answer using the code given below.

- 1 and 3 only
- 2 only
- 3 only
- 1 and 2 only

Ans) d

Exp) Option d is the correct answer.

At present, the Rajya Sabha has 245 members. Of these, 229 members represent the states, 4 members represent the union territories, and 12 members are nominated by the president. The **Fourth Schedule** of the Constitution deals with the allocation of seats in the Rajya Sabha to the states and union territories

Statement 1 is correct: The **representatives of a union territory in the Rajya Sabha** are indirectly elected by **members of an electoral college specially constituted for this purpose**. Whereas the **representatives of states** in the Rajya Sabha are elected by **the elected members of state legislative assemblies**.

Statement 2 is correct: This election is **held in accordance with the system of proportional representation by means of the single transferable vote**. Method of election is same in State and Union Territories.

Statement 3 is incorrect: Out of the eight union territories, **three union territories (Delhi, Puducherry and Jammu & Kashmir)** have representation in Rajya Sabha. The populations of other six union territories are too small to have any representative in the Rajya Sabha.

Q.3) A person elected as a member of Parliament can be disqualified under which of the following circumstances?

1. If he is of unsound mind and stands so declared by a court.
2. If he is convicted for promoting enmity between different groups.
3. If he is an undischarged insolvent.
4. If he has voluntarily acquired the citizenship of a foreign State.

Select the correct answer using the code given below.

- a) 2 and 3 only
- b) 1, 2 and 3 only
- c) 1, 3 and 4 only
- d) 1, 2, 3 and 4

Ans) d

Exp) Option d is the correct answer.

A person elected to be a member of Parliament can be disqualified either under the provisions of the constitution or the Representation of People's Act (1951).

Statements 1, 3 and 4 are correct: Under the Constitution, a person shall be disqualified from being elected as a member of Parliament in the following cases.

- 1) if he holds any office of profit under the Union or state government (except that of a minister or any other office exempted by Parliament).
- 2) **if he is of unsound mind and stands so declared by a court.**
- 3) **if he is an undischarged insolvent.**
- 4) if he is not a citizen of India or has voluntarily acquired the citizenship of a foreign state or **is under any acknowledgement of allegiance to a foreign state**; and
- 5) if he is so disqualified under any law made by Parliament.

Statement 2 is correct: Other than the Constitution, many conditions of disqualification have been given in the **Representation of People Act (1951)**. Such as-

- 1) He must not have been found guilty of certain election offences or corrupt practices in the elections.
- 2) He must not have been convicted for any offence resulting in imprisonment for two or more years. But, the detention of a person under a preventive detention law is not a disqualification.
- 3) He must not have failed to lodge an account of his election expenses within the time.
- 4) He must not have any interest in government contracts, works or services.
- 5) He must not be a director or managing agent nor hold an office of profit in a corporation in which the government has at least 25 per cent share.
- 6) He must not have been dismissed from government service for corruption or disloyalty to the State.
- 7) **He must not have been convicted for promoting enmity between different groups** or for the offence of bribery.
- 8) He must not have been punished for preaching and practicing social crimes such as untouchability, dowry and sati.

Q.4) With reference to Panel of Chairpersons of Lok Sabha, which of the following statements are correct?

1. The Speaker nominates a Panel of Chairpersons from amongst the members of the Lok Sabha.
2. A Minister cannot be a member of panel of Chairpersons.
3. The Key task of panel of Chairpersons is to preside over the House when the office of the Speaker or the Deputy Speaker is vacant.

Select the correct answer using the code given below.

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) a

Exp) Option a is the correct answer.

Each House of Parliament has its own presiding officer. There is a Speaker and a Deputy Speaker for the Lok Sabha and a Chairman and a Deputy Chairman for the Rajya Sabha. A **panel of chairpersons for the Lok Sabha** and a panel of vice-chairpersons for the Rajya Sabha is also appointed.

Statement 1 is correct: The Rules of Procedure and Conduct of Business in Lok Sabha provide that at the commencement of the House or from time to time, as the case may be, the **Speaker shall nominate from amongst the Members a Panel of not more than ten Chairpersons.**

Statement 2 is correct: Any one member of panel of chairpersons may preside over the House in the absence of the Speaker and the Deputy Speaker. A Chairperson so nominated, holds office until a new Panel of Chairpersons is nominated, unless he/she resigns earlier from the Panel or is appointed a Minister or elected as Deputy Speaker. **Minister cannot be a member of panel of chairpersons. Overall, a minister cannot preside house in any capacity.**

Statement 3 is incorrect: A member of the panel of chairpersons **cannot preside over the House, when the office of the Speaker or the Deputy Speaker is vacant.** During such time, the Speaker's duties are to be performed by such member of the House as the **President** may appoint for the purpose.

Source: <https://loksabha.nic.in/FAQ.aspx>

Q.5) With reference to the provisions regarding “hate speech and freedom of expression” in India, consider the following statements:

1. Hate speech has not been defined in any existing law in India.
2. Representation of the People Act, 1951 disqualifies a person from contesting election if he is convicted for illegitimate use of freedom of speech and expression.
3. Constitution allows the State to make laws regarding freedom of speech to prevent defamation or incitement to an offence.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

According to the National Criminal Records Bureau (NCRB) data, between 2014 and 2020, cases **filed under Section 153A of the Indian Penal Code (IPC)** (incitement to hostility among different groups based on religion, race, place of birth, place of residence, language) increased sixfold or nearly 500%. **Statement 1 is correct: Hate speech has not been defined under any existing law in India.** Even the Election Commission told the Supreme Court that **there is no law on “hate speech” in India.** Therefore, **it has been relying on provisions of the Indian Penal Code (Various Sections like 153A, 153B, 298 etc) and the Representation of the People Act, 1951.**

Statement 2 is correct: Section 8 in the Representation of the People Act, 1951 disqualifies a person from contesting an election if he is convicted for illegitimate use of freedom of speech and expression. Such offence includes- offence of promoting enmity between different groups on ground of religion, race or offence of making statement creating or promoting enmity, hatred or ill-will between classes.

Statement 3 is correct: Constitution allows the State to make law to prevent defamation or incitement to an offence. As per Article 19(2) of the Constitution, **nothing prevents the State from making any law**, as long as such law imposes reasonable restrictions on the exercise of the right conferred by the said sub-clause in the interests of the sovereignty and integrity of India, the security of the State, friendly relations with foreign States, public order, decency or morality or in relation to contempt of court, **defamation or incitement to an offence.**

Q.6) With reference to the Parliament of India, consider the following statements:

1. Each House of the Parliament has separate secretarial staff of its own, though there can be some posts common to both the Houses.
2. The Secretary-General of each House of the Parliament is appointed by the President of India.
3. The tenure of Secretary-General of Lok Sabha is co-terminus with the life of the Lok Sabha.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) a

Exp) Option a is the correct answer.

Each House of Parliament has separate secretarial staff of its own, though there can be some posts common to both the Houses. Their recruitment and service conditions are regulated by Parliament.

Statement 1 is correct: As per article 98, each House of Parliament has separate secretarial staff of its own, though **there can be some posts common to both the Houses.**

Statement 2 is incorrect: The secretariat of each House is headed by a **Secretary-General**. He is appointed by the **presiding officer of the House (Not President of India).**

Statement 3 is incorrect: He is a **permanent officer. His tenure is not directly related to the duration of Lok Sabha.** The Speaker, Lok Sabha is assisted by the Secretary-General, Lok Sabha, whose pay scale, position and status etc. is equivalent to that of the highest ranking official in the Government of India i.e., Cabinet Secretary.

Source: <https://loksabha.nic.in/Secretariat/Functioning.aspx>

Q.7) The words “Adjournment” and “Prorogation” are used frequently during Parliamentary sessions. With reference to them, which of the following statements is/are correct?

1. Adjournment is done by President of India, whereas Prorogation is done by the presiding officer of the House.
2. Adjournment not only terminates a sitting but also a session of the House, whereas Prorogation only terminates a sitting and not a session of the House.
3. Both Adjournment and Prorogation do not affect the bills pending before the House.

Select the correct answer using the code given below.

- a) 1 and 2 only
- b) 2 only
- c) 3 only
- d) 1 and 3 only

Ans) c

Exp) Option c is the correct answer.

The president from time to time summons each House of Parliament to meet. But, the maximum gap between two sessions of Parliament cannot be more than six months. A sitting of Parliament can be terminated by adjournment or adjournment sine die or prorogation or dissolution.

Statement 1 is incorrect: Prorogation is done by President of India, whereas Adjournment is done by the presiding officer of the House. A sitting of Parliament can be terminated by adjournment or adjournment sine die or prorogation or dissolution.

Statement 2 is incorrect: Prorogation not only terminates a sitting but also a session of the House, whereas Adjournment only terminates a sitting and not a session of the House.

Statement 3 is correct: Adjournment does not affect the bills or any other business pending before the House and the same can be resumed when the House meets again. **Prorogation also does not affect the bills or any other business** pending before the House. However, all pending notices (other than those for introducing bills) lapse on prorogation and fresh notices have to be given for the next session. In Britain, prorogation brings to an end all bills or any other business pending before the House.

Source: M Laxmikant Ch Parliament

Q.8) In the context of Indian Polity, consider the following statements with respect to “Parliamentary Forums”:

1. They provide a platform for legislative members and political executives of the government to have discussion on critical issues faced by the nation.
2. Ministers of the concerned departments act as the ex-officio chairman of these forums.
3. Each of these forums submit an annual report to the President of India.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 only
- d) 3 only

Ans) c

Exp) Option c is the correct answer.

The first Parliamentary Forum on Water Conservation and Management was constituted by the Speaker of the Lok Sabha in 2005. Subsequently seven more forums were added and presently there are eight parliamentary forums.

Statement 1 is correct: Parliamentary forums provide a platform for **legislative members and political executives (Ministers)** of the government to have discussion on critical issues faced by a nation. The forum facilitates meaningful interaction between Member of Parliaments (MPs) and the concerned Ministers which helps them in making informed decisions.

Statement 2 is incorrect: **The Speaker of Lok Sabha is the ex-officio Chairperson**/president of all the Forums except the **Parliamentary Forum on Population and Public Health** wherein the **Chairman of Rajya Sabha** is the ex-officio President and the Speaker is the ex-officio, Co-President.

Statement 3 is incorrect: The forum's main objective is to bring Member of Parliament (MPs), Ministers, Experts etc. to enable a **meaningful discussion** on critical issues faced by a nation. Parliamentary Forums offer Members an informal forum to familiarise themselves with current issues of interest.

Q.9) Which of the following statements are correct with respect to the role of state legislatures in deciding the location of capital city of the State concerned?

1. Article 3 of the constitution empowers state legislatures to decide their location of capital.
2. Matters related to establishing the capital of new states are covered under the State List in the Seventh schedule of the constitution.

Select the correct answer using the code given below:

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) d

Exp) Option d is the correct answer.

Matters related to location of States' capital gained currency after Andhra Pradesh proposal of making Visakhapatnam as its executive capital, Amaravati as legislative capital and Kurnool the judicial capital. This attracted the debate of who has the power of deciding the location of states' capital.

Statement 1 is incorrect: **Article 3 does not empower State Legislatures to decide their location of state's capital.** In fact, **Article 3 does not explicitly mention anything about "States' capital"**. Article empowers **Parliament** to form a new state by separating a territory from any state (e.g.: Telangana formed out of Andhra Pradesh), to increase or decrease the area of any states etc.

Statement 2 is incorrect: Matters related to establishing a **capital of a new state are not covered by State list** in the Seventh Schedule of the Indian constitution. Seventh schedule of the constitution provides for **three-fold distribution of legislative powers (Union list, State list and Concurrent list)** between the centre and state governments.

Source: <https://timesofindia.indiatimes.com/city/vijayawada/only-parliament-can-take-final-call-on-location-of-states-capital-legal-experts/articleshow/73061958.cms#:~:text=law%20is%20not-covered,-by%20any%20Entry>

<https://www.thehindu.com/news/national/andhra-pradesh/andhra-hc-cannot-be-town-planner-says-supreme-court-on-high-court-order-for-building-state-capital-in-6-months/article66195253.ece>

Q.10) With reference to North Atlantic Treaty Organisation (NATO), consider the following statements:

1. As per its mandate, NATO can operate only to defend the territories of its members.
2. NATO membership is open to all emerging democracies of Europe that are ready to meet the obligations of membership.

3. All seven member states of G7 were founding members of NATO.
 4. Any decision to invite a country to join the Alliance is taken based on the consensus of all allies.
 Which of the statements given above are correct?

- a) 1 and 2 only
- b) 2 and 4 only
- c) 2 and 3 only
- d) 1, 2 and 4 only

Ans) b

Exp) Option b is the correct answer.

NATO Summit was held in Madrid (Spain) amid Russia-Ukraine War in June 2022. NATO is a security alliance of 30 countries from North America and Europe. NATO's fundamental goal is to safeguard the Allies' freedom and security by political and military means.

Statement 1 is incorrect: NATO not only helps to defend the territory of its members, but also engages where possible and when necessary to project its values further afield, prevent and manage crises, stabilize post-conflict situations and support reconstruction. For example, NATO leads operations in Kosovo and the Mediterranean. In 2018, NATO initiated a **training mission in Iraq**, which aims at developing the capacity of Iraq's security forces, its defence and security institutions, and its national defence academies.

Statement 2 is correct: NATO membership is potentially open to all of Europe's emerging democracies that share the alliance's values and are ready to meet the obligations of membership. Candidates for membership must meet the following five requirements:

- 1) New members must uphold democracy, including tolerating diversity.
- 2) New members must be making progress toward a market economy.
- 3) Their military forces must be under firm civilian control.
- 4) They must be good neighbors and respect sovereignty outside their borders.
- 5) They must be working toward compatibility with NATO forces.

Statement 3 is incorrect: At present, NATO has 30 members. **In 1949, there were 12 founding members of the Alliance: Belgium, Canada, Denmark, France, Iceland, Italy, Luxembourg, the Netherlands, Norway, Portugal, the United Kingdom and the United States.** Whereas the G7 is an informal grouping of seven of the world's advanced economies, including Canada, France, **Germany**, Italy, **Japan**, the United Kingdom, and the United States. So, **Germany and Japan** were not the founding members of NATO but are members of G7.

Statement 4 is correct: NATO's "open door policy" is based on **Article 10** of its founding treaty. Any decision to invite a country to join the Alliance is taken by the North Atlantic Council **based on consensus** among all Allies.

Q.11) Which of the following statements rightly describes the power of the State Legislative Council (SLC) over matters other than money bills?

- No ordinary bill can be introduced in the State Legislative Council.
- The SLC can delay an ordinary bill, introduced in Legislative Assembly, for a maximum period of 4 months.
- While SLC can approve the ordinary bills passed by the legislative assembly, they have no power to approve ordinances passed by the Governor.
- They have no power over enlarging the jurisdiction of the State Public Service Commission (SPSC).

Ans) b

Exp) Option b is the correct answer.

Option a is incorrect: The powers and status of the legislative council are broadly equal to that of the assembly in matters concerning the introduction of ordinary bills. Thus, the ordinary bills can be introduced in the **legislative councils** but not the money bills.

Option b is correct: The final power of passing an ordinary bill also lies with the assembly. At the most, the council can detain or delay the bill for the period of four months—three months in the first instance and one month in the second instance. In other words, the council is not even a revising body like the Rajya Sabha; it is only a dilatory chamber or an advisory body.

Option c is incorrect: The State Legislative Council (SLC) **has power to approve** both ordinary bills passed by assembly as well as **ordinances passed by the Governor of state.**

Option d is incorrect: The State Legislative Council (SLC) **has power to enlarge the jurisdiction of the State Public Service Commission (SPSC).** The powers and status of the legislative council are broadly equal to legislative assembly in this context.

Source: M Laxmikant Ch State legislature

Q.12) With reference to Speaker of Lok Sabha, which of the following statements are correct?

- S/he can resign by writing to the President of India.
- When a resolution for the removal of the Speaker is under consideration of the House, s/he can preside at the sitting of the House but cannot vote.
- S/he is the final interpreter of the provisions of the Constitution of India within the House.
- S/he is placed along with the Chief Justice of India in the Order of Precedence.

Select the correct answer using the code given below.

- 3 and 4 only
- 2 and 3 only
- 1 and 4 only
- 1, 2, 3 and 4

Ans) a

Exp) Option a is the correct answer.

The Speaker is the head of the Lok Sabha and its representative. He is the guardian of the powers and privileges of the members. He is the principal spokesman of the House, and his decision in all Parliamentary matters is final.

Statement 1 is incorrect: Usually, the Speaker remains in office during the life of the Lok Sabha. However, he has to vacate his office earlier in any of the following three cases:

- if he ceases to be a member of the Lok Sabha;
- if he resigns by writing to the Deputy Speaker; (and not to the President)**
- Such a resolution can be moved only after giving 14 days' advance notice.

Statement 2 is incorrect: When a resolution for the removal of the Speaker is under consideration of the House, **he cannot preside at the sitting of the House**, though he may be present. However, he can speak and take part in the proceedings of the House at such a time and **vote in the first instance, though not in the case of an equality of votes.**

Statement 3 is correct: **The Supreme Court is the final authority for the interpretation of the Constitution. The Speaker is also the final interpreter** of the provisions of the Constitution of India **but only within the house.**

Statement 4 is correct: He is given a very high position in the order of precedence. **He is placed at seventh rank, along with the Chief Justice of India.** He has a higher rank than all cabinet ministers, **except** the Prime Minister or Deputy Prime Minister.

Source: Laxmikanth parliament

Q.13) Consider the following statements with reference to readjustment of seats in Parliament:

1. The orders issued by delimitation commission regarding readjustments of seats cannot be challenged in a court once they are published in the Gazette of India.
2. Present distribution of seats in Parliament, to states, is based on the 2011 census.
3. The Election Commission is empowered to identify seats which are to be reserved for Scheduled Castes and Scheduled Tribes in Parliament.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1 and 2 only

Ans) a

Exp) Option a is the correct answer.

Delimitation is the act of redrawing boundaries of Lok Sabha and State Assembly seats to represent changes in population. The main objective of delimitation is to provide equal representation to equal segments of a population. The Delimitation Commission is **appointed by the President** of India. It is composed of the following: a retired Supreme Court judge, the Chief Election Commissioner of India and respective State Election Commissioners.

Statement 1 is correct: The orders issued by the delimitation commission cannot be challenged in any court. Central Government and ECI have told the Supreme Court with reference to a plea that challenges the move of the delimitation commission of redrawing poll constituencies in Jammu and Kashmir, that provisions under the **Delimitation Act, 2002 bars challenge** to the orders of the Commission **once they are published in the Gazette of India.**

Statement 2 is incorrect: Present distribution of seats in Parliament is **based on the 1971 census.** The **representation from each State is not changed by** Delimitation Act, 2002. However, the present **delimitation of constituencies (area wise) has been done on the basis of 2001 census** under the provisions of Delimitation Act, 2002. The 42nd Amendment Act of 1976 had frozen total number of seats till the year 2000 **at the 1971 level.** This ban on readjustment has been extended for another years (**up to year 2026**) by the 84th Amendment Act of 2001 based on **1971 census** with the same objective of encouraging population limiting measures.

Statement 3 is incorrect: **The Delimitation Commission (Not the Election Commission) is tasked with identifying seats reserved for Scheduled Castes and Scheduled Tribes.** The **Delimitation** Commission is supposed to **determine the number and boundaries of constituencies** in a way that the population of all seats, so far as practicable, is the same.

Source: M. Laxmikant ch. 22

<https://indianexpress.com/article/explained/what-is-delimitation-8348977/>

<https://indianexpress.com/article/india/how-are-members-elected-to-rajya-sabha-5108187/>

Q.14) With reference to qualifications for being a Member of the Parliament, consider the following statements:

1. He must be registered as a voter from a parliamentary constituency.
2. He must be not less than 30 years of age in case of the Rajya Sabha and not less than 25 years of age in case of the Lok Sabha.
3. He must be a member of a scheduled caste or scheduled tribe in any state or union territory, if he wants to contest a seat reserved for them.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

A person elected to be a member of Parliament shall have some qualifications under the provisions of the constitution and the Representation of People Act (1951).

Statement 2 is correct: The Constitution lays down the following qualifications for a person to be chosen a member of the Parliament:

- 1) He must be a citizen of India.
- 2) He must make and subscribe to an oath or affirmation before the person authorized by the election commission for this purpose. In his oath or affirmation, he swears.
 - a. To bear true faith and allegiance to the Constitution of India
 - b. To uphold the sovereignty and integrity of India
- 3) **He must be not less than 30 years of age in the case of the Rajya Sabha and not less than 25 years of age in the case of the Lok Sabha.**
- 4) He must possess other qualifications prescribed by Parliament.

Statement 1 and 3 are correct: Some provisions for qualification are **not given in the Constitution**. These provisions are **given in the Representation of People Act (1951)**.

- 1) **He must be registered as an elector for a parliamentary constituency.** This is same in the case of both, the Rajya Sabha and the Lok Sabha. The requirement that a candidate contesting an election to the Rajya Sabha from a particular state should be an elector in that particular state was dispensed with in 2003. In 2006, the Supreme Court upheld the constitutional validity of this change.
- 2) **He must be a member of a scheduled caste or scheduled tribe in any state or union territory, if he wants to contest a seat reserved for them.** However, a member of scheduled castes or scheduled tribes can also contest a seat not reserved for them.

Q.15) With reference to Indus Water Treaty (IWT), consider the following statements:

1. All the waters of the Jhelum, Chenab and Sutlej Rivers were allocated to India for her unrestricted use under the treaty.
2. India also has the right to generate hydroelectricity through run of the river (RoR) projects on the rivers assigned to Pakistan under the treaty.

3. The treaty required the creation of an ad hoc Indus Commission to resolve questions about implementation of the treaty.

Which of the statements given above is/are correct?

- a) 1 and 3 only
- b) 2 only
- c) 1 and 2 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

The 118th meeting of the Pakistan-India Permanent Indus Commission (PIC) was held in New Delhi from 30-31 May 2022. The meeting takes place alternatively in Pakistan and India annually. Indus Waters Treaty (IWT) treaty, signed on September 19, 1960, between India and Pakistan and brokered by the World Bank. The treaty fixed and delimited the rights and obligations of both countries concerning the use of the waters of the Indus River system.

Statement 1 is incorrect: The Treaty extends to main rivers of Indus basin i.e., **Sutlej, Beas, Ravi (Eastern rivers)** and **Jhelum, Chenab and Indus (Western rivers)** including their tributaries and sub tributaries and other water bodies. **All the waters of the Eastern Rivers were allocated to India** for her unrestricted use while India is under obligation to let flow all the waters of the Western Rivers, except for the domestic, non-consumptive and other uses permitted in the Treaty.

Statement 2 is correct: **India has also been given the right to generate hydroelectricity through run of the river (RoR) projects on the Western Rivers (Jhelum, Chenab and Indus) i.e., the rivers which have been assigned to Pakistan for unrestricted use under the treaty.** These runs of the river plants are subject to specific criteria for design and operation.

Statement 3 is incorrect: The treaty required the creation of a **Permanent Indus Commission** (not ad hoc), with a commissioner from each country, to maintain a channel for communication and to try to resolve questions about implementation of the treaty.

Q.16) In context of the President's powers over different kinds of bills passed by State legislatures, consider the following statements:

1. The President cannot return the money bill for reconsideration of State legislatures.
2. It is mandatory for the President to give his/her assent to the ordinary bill presented for his/her assent for a second time by State legislatures.
3. The President's prior consent is mandatory to introduce a bill which seeks to curtail the jurisdiction and powers of the high court as specified in Constitution.

Which of the statements given above is/are correct?

- a) 1 only
- b) 1 and 2 only
- c) 3 only
- d) 1 and 3 only

Ans) a

Exp) Option a is the correct answer.

Every bill passed by State legislatures need to receive the Governors' assent to become an act. In such circumstances, **the Governor of the State** can either give his **assent** to the bill or **withhold** his assent to the bill or he may **return** the bill for reconsideration or he may **reserve the bill for the consideration of the President**.

Statement 1 is correct: When the Governor of State reserved the money bill for the consideration of the President, then **the President cannot return the money bill for reconsideration of State legislatures**. The President can either give his/her **assent to the bill or withhold his assent** but cannot send it for reconsideration.

Statement 2 is incorrect: When the Governor of State reserved the **Ordinary bill** for the consideration of the President then the President can either give his **assent** to the bill or **withhold** his assent to the bill or **return** the bill for reconsideration of the House. When he/she return the bill for consideration of the state legislatures and **if the state passes the bill for a second time (either with or without changes) to the President, it is not mandatory for the President to give his/her assent to the bill**.

Statement 3 is incorrect: The jurisdiction and powers of a high court as specified in the Constitution **cannot be curtailed** both by the Parliament and the state legislature. But, in other respects, the jurisdiction and powers of a high court can be changed both by the parliament and the state legislature
Source: Laxmikanth - State Legislature

Q.17) Which of the following statements is correct with respect to the procedure to create or abolish a State Legislative Council (SLC)?

- SLCs are created by the Parliament of India based on the resolution passed by state legislatures.
- SLCs are created by State Legislatures with the consent of the President of India.
- SLCs are created by the President of India on the advice of the Union council of Ministers.
- SLCs are created by the Governor of the concerned State on the advice of the State's Council of Ministers.

Ans) a

Exp) Option a is the correct answer.

Beside the State Legislative Assembly, the State Legislative Council acts as a legislative body of the State legislature and states having legislative councils are called bicameral legislature. At present, only six states in India have a legislative council and they are Andhra Pradesh, Telangana, Karnataka, Maharashtra, Bihar, and Uttar Pradesh.

Option a is correct: The Constitution (Article 169) empowers the **Parliament to create or abolish a legislative council**, if the legislative assembly of the **concerned state passes a resolution** to that effect. Such a resolution must be passed by the **state assembly by a special majority**, that is, a majority of the total membership of the assembly and a majority of not less than two-thirds of the members of the assembly present and voting.

The Act by **Parliament** to abolish or create legislative councils is **not to be deemed** as the **Constitutional Amendment under Article 368** and it can be passed like an ordinary bill i.e., by simple majority.

Option b is incorrect: The constitution vests parliament with the power to create or abolish legislative councils in a state. Although a **resolution by the State legislature is required for Parliament** to create or abolish legislative councils, **Parliament is the authority to create or abolish legislative councils in states**.

Option c and d are incorrect: The power to **create or abolish legislative councils in a state is the domain of legislature** (Parliament will make final call and State legislatures would pass resolutions for that effect), thus executives such as the President and Governors have no direct role in this matter.

Source: Laxmikanth - State Legislature

Q.18) With reference to the Speaker of State Legislative Assembly, consider the following statements:

1. He/she decides whether the bill is a money bill or not.
2. The Governor can prorogue the session of the house only with the approval of the Speaker.
3. He/she is the final authority to decide on matters related to defection and his/her decision cannot be reviewed by the Judiciary.

Which of the statements given above is/are correct?

- a) 1 only
- b) 1 and 2 only
- c) 1 and 3 only
- d) 2 and 3 only

Ans) a

Exp) Option a is the correct answer.

The Speaker of the State Legislative Assembly is the presiding officer of the house and he/she is elected by the assembly itself from amongst its members. Usually, the Speaker remains in office during the life of the assembly.

Statement 1 is correct: It is true that the **Speaker of the legislative assembly decides whether the bill is a money bill or not**. If he/she certifies the bill as money bill then **the Legislative Council** (in case of bicameral legislature in a state) shall have **no power** over money bills except the council can **delay the passage of money bills for a period of 14 days** and after 14 days the money bill will be deemed to be passed by the legislature.

Statement 2 is incorrect: Usually the Governor prorogue (termination of the session) the house after the Speaker declares adjourned sine die (terminating a sitting of the state legislature for an indefinite period). However, **the Governor can also prorogue the house even when it is in session** which means the **Speaker's declaration of termination of sitting (adjourned sine die) is not necessary** for prorogation of sitting by the Governor. Thus, the **Speaker approval is not mandatory for Prorogation of session by the Governor**.

Statement 3 is incorrect: While it is true that the **Speaker is the final deciding** authority on matters related to defection, his/her decision is **not exempted from judicial review**. The Supreme court held that while the judicial review cannot be available prior to speaker decision, **judicial review can be applied to defection matter after the speaker's decision**.

Source: Laxmikant - State legislature

<https://www.thehindu.com/news/national/judicial-review-cant-be-available-prior-to-speakers-decision/article32106036.ece>

Q.19) Which of the following statements is/are correct with respect to the fate of bills on dissolution of the state legislative assembly?

1. A bill passed by the council but pending in the assembly lapses.
2. A bill pending assent of the Governor lapses, but a bill pending assent of the President does not lapse.
3. A bill passed by the assembly but pending in the council does not lapse.
4. A bill passed by both assembly and council, but returned by the President for reconsideration of the house does not lapse.

Select the correct answer using the code given below:

- a) 1,2 and 4 only
- b) 2 and 3 only
- c) 1 and 4 only
- d) 1, 3 and 4 only

Ans) c

Exp) Option c is the correct answer.

The **legislative council**, being a permanent house, is **not subject to dissolution**. Only the legislative assembly is subject to dissolution. Dissolution ends the very life of the existing House and a new House will be constituted after conducting general elections. Thus, dissolution of the house will have varying impacts on multiple bills considered/passed by the assembly.

Statement 1 is correct: A Bill pending in the assembly, even if such a bill was originated and transmitted to the assembly by the council **lapses on the dissolution of legislative assembly**.

Statement 2 is incorrect: A bill **pending assent of the Governor as well as the President does not lapse** on the dissolution of legislative assembly.

Statement 3 is incorrect: A Bill passed by the assembly but pending in the council lapses on the dissolution of assembly. In contrast a Bill pending in the council but not passed by the assembly does not lapse

Statement 4 is correct: It is true that a bill passed by both assembly and council, but **returned by the President for reconsideration of the house does not lapse**.

Source: Laxmikanth - State Legislature

Q.20) With reference to the difference between Gross Domestic Product (GDP) and Gross Value Added (GVA), consider the following statements:

1. The GDP reflects the demand side perspective whereas GVA reflects supply side perspective of calculation of the size of economy.
2. GDP on market price is always higher than GVA on market price.

Which of the statements given above are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) a

Exp) Option a is the correct answer.

GDP is the total monetary or market value of all the finished goods and services produced within a country's borders in a specific period, **GVA** is the total value of goods and services produced within a country after deducting the cost of inputs and raw materials.

Statement 1 is correct: The **GDP gives the picture from the consumers' angle or demand perspective**, whereas the **GVA gives a picture of the state of economic activity from the producers' perspective or supply side**. Notably, both measures might not match because of the difference in the treatment of net taxes.

Statement 2 is incorrect: Any indicator (**GDP or GVA**) can be higher based on the economic condition. Both are related to each other as shown below.

GDP at market price = GVA at basic price + Taxes earned by the government - subsidies provided by the government

For instance, if the government earned more from taxes than it spent on subsidies, **GDP will be higher than GVA**.

But if the government provided subsidies in excess of its tax revenues, the absolute level of **GVA would be higher than that of GDP**. It happened during COVID19 lockdown time.

Q.21) In context of the Individual Privileges vested in the members of State legislatures by the Constitution, consider the following statements:

1. No members of the State legislature can be arrested during the session of legislature, even on account of criminal charges.
2. Unlike freedom of Speech granted by Article 19 of the constitution, freedom of speech granted to them is absolute.
3. Members of legislatures can refuse to appear as witnesses in a case pending in court when the state legislature is in session.

Which of the statement/s given above is/are correct?

- a) 1 and 3 only
- b) 2 only
- c) 3 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

Privileges of a state legislature are a sum of special rights, immunities and exemptions enjoyed by the State legislatures and its members. Privileges are considered necessary to secure the independence and effectiveness of the legislature and actions of legislative members.

Statement 1 is incorrect: No member of state legislature can be arrested during the session of the state legislature and 40 days before the beginning and 40 days after the end of such a session. However, this **privilege is available only in civil cases and not in criminal cases or preventive detention cases.**

Statement 2 is incorrect: Freedom of Speech granted to members of the State legislature are not absolute as such freedom is subject to **restrictions**. Freedom of speech granted to members is subject to the provisions of the **Constitution** and to the rules and standing orders regulating the procedure of the state legislature.

Statement 3 is correct: It is true that **members of the state legislature can refuse to appear as a witness in a case** pending in a court when the state legislature is in session. Members of state legislatures are given such privileges to carry out their constitutional duty without any interference.

Source: Laxmikanth - State legislature

Q.22) With reference to Indian Polity, which of the following statements are correct with respect to “Quorum”?

1. The word ‘quorum’ is not mentioned in the Constitution of India.
2. The Quorum of the State legislature requires a minimum strength of 50 members.
3. It is the duty of the Speaker to adjourn the house or suspend the meeting until there is a quorum.
4. The provision regarding Quorum in Parliament can be amended by simple majority of Parliament.

Select the correct answer using the code given below:

- a) 1, 3 and 4 only
- b) 3 and 4 only
- c) 1 and 3 only
- d) 2 and 4 only

Ans) b

Exp) Option b is the correct answer.

Quorum means the minimum number of people to be present to hold meetings.

Statement 1 is incorrect: The word quorum is mentioned in Article 100 and 189 of the constitution of India.

Article 100 deals with voting in Houses, power of Houses to act notwithstanding vacancies and **quorum in relation to Parliament** and **Article 189** deals with voting in Houses, power of Houses to act notwithstanding vacancies and **quorum in relation to State legislatures**.

Statement 2 is incorrect: The Quorum of the State legislature requires a minimum strength of ten members or one tenth of the total number (and not specifically 50) of members of the house including the Speaker, whichever is greater.

Statement 3 is correct: It is the **duty of the Speaker/Chairman of the house to adjourn the House** or suspend the meeting in **absence of a quorum**.

Statement 4 is correct: A number of provisions in the Constitution can be **amended by a simple majority** of the two Houses of Parliament **outside the scope of Article 368** and **Quorum** in Parliament is one such provisions which can be **amended by the parliament by simple majority**.

Q.23) Consider the following statements:

1. Advocate General of a state has the right to speak and take part in the proceedings of any legislative committees of which he/she is named a member.
2. State Ministers have a right to vote in the proceedings of a house of which he/she is not a member.
3. Only Minister can introduce money bills in the State Legislative Assembly.

Which of the statements given above is/are correct?

- a) 1 only
- b) 1 and 2 only
- c) 1 and 3 only
- d) 3 only

Ans) c

Exp) Option c is the correct answer.

In addition to the members of a House, every Minister and the Advocate general of the state have certain rights in relation to proceedings of the house. These rights are conferred on them to enable them to carry out their duties efficiently and effectively.

Statement 1 is correct: Advocate general of the state has the **right to speak and take part in the proceedings of any legislative committees** of which he/she is named a member.

Statement 2 is incorrect: Although Ministers have the right to speak and take part in proceedings of a house, of which he/she is not a member. However, the Minister has the **right to vote only in the house in which he/she is a member**.

Statement 3 is correct: It is true that **only ministers can introduce money bills in the State Legislative Assembly**. Bills introduced by Ministers are called Government bills. While members of legislative assembly who are not ministers are allowed to introduce ordinary bills (other than money bills) and they cannot introduce money bills.

Source: Laxmikanth - State legislature

Q.24) With respect to the composition of the State Legislative Assembly (SLA), consider the following statements:

1. The constitution of India fixes both the maximum as well as the minimum strength of the State Legislative Assemblies.
2. Governor of the state can nominate two members who have legal expertise, to the state legislative assembly.
3. The total number of assembly seats in each state is decided by the Parliament.
4. The 97th Constitutional Amendment Act provided for the delimitation of constituencies based on the 2011 census.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 1 and 3 only
- c) 2 and 4 only
- d) 1, 3 and 4 only

Ans) b

Exp) Option b is the correct answer.

The legislative assembly consists of representatives directly elected by the people on the basis of universal adult franchise.

Statement 1 is correct: The constitution of India fixes both the maximum as well as the minimum strength of the SLA. Article 170 fixes maximum strength of the State Legislative Assembly at **500** and **minimum strength at 60**. However, in case of Arunachal Pradesh, Sikkim and Goa, the minimum number is fixed at 30 and in case of Mizoram and Nagaland, it is 40 and 46 respectively.

Statement 2 is incorrect: There is no such provision. As per the **Original constitution**, the Governor can nominate one member (President can nominate two members) from the Anglo-Indian community. But the recent **Constitution (One Hundred and Twenty-Sixth Amendment) Bill, 2019** passed by both Lok Sabha and Rajya Sabha, **ended the provision for nomination of Anglo Indians (both by Governor as well as the President).**

Governor of the state can **nominate 1/6th of the members to State legislative council (not assembly)** from amongst persons who have a special knowledge or practical experience of literature, science, art, cooperative movement and social **service**.

Statement 3 is correct: After each census, a readjustment is to be made in the total number of assembly seats in each state and the division of each state into territorial constituencies. The **Parliament is empowered to determine the total number of assembly seats in each state.**

Statement 4 is incorrect: The 97th Constitutional Amendment Act (CAA) is not related to demarcation of constituencies. The 87th CAA 2003 provided for the delimitation of constituencies on the basis of 2001 census. For the purpose of holding direct elections to the assembly, each state is divided into territorial constituencies. The demarcation of these constituencies is done in such a manner that the ratio between the population of each constituency and the number of seats allotted to it is the same throughout the state.

Q.25) Consider the following statements with reference to Non-Performing Assets (NPAs) in recent years according to the financial stability reports of Reserve Bank of India:

1. The gross NPAs have been continuously declining since last 10 years.
2. Reduction in NPAs of public sector banks (PSBs) in recent years is mainly contributed by the written-off loans.

Which of the statements given above are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) b

Exp) Option b is the correct answer.

A non-performing asset (NPA) is a loan or advance for which the principal or interest payment remained overdue for a period of **90 days**. For Agricultural loans, the overdue for NPA is **two crop seasons** for short duration crops and **one crop season** for long-duration crops.

Statement 1 is incorrect: Banks' asset quality has shown significant improvement in the first half ending September 30, 2022, period for FY23. As per RBI's data, **banks gross NPA continued to decline and stood at a seven-year low of 5% in September 2022**. Meanwhile, the net NPA stood at a ten-year low of 1.3% under which private bankers' net NPA was below 1%. But this trend of decline in the gross NPAs started in 2018 only, before which the gross NPAs of banks were continuously rising for several years. Hence the gross NPAs of banks in India are not declining since last 10 years.

Statement 2 is correct: The central bank said in its recent Financial Stability reports and its report on Trend and Progress of Banking in India for 2021-2022 that the reduction in NPAs was **mainly contributed by written-off loans in the case of PSBs (public sector banks)**, while upgradation of loans was the primary driver for asset quality improvement for Private Banks.

Knowledge Base:

Gross NPA shows the total of all loan assets that haven't been repaid by the borrowers within the 90-day period. While **Net NPA** shows the amount remaining after deducting the doubtful and unpaid debts from the Gross NPA.

Source: <https://www.livemint.com/news/india/banks-gross-npa-drops-to-7-year-low-at-5-net-npa-at-a-decade-low-rbi-s-fsr-11672318983978.html>

<https://www.thehindubusinessline.com/money-and-banking/banks-gross-npas-decline-to-5-in-h1-on-lower-slippages-recoveries-rbi-report/article66311281.ece>

<https://economictimes.indiatimes.com/definition/non-performing-assets>

Q.26) With reference to various motions in the Parliamentary proceedings in India, consider the following statements:

1. The Privilege Motion is concerned with the breach of parliamentary privileges by a Minister.
2. No-Confidence Motion can only be moved against the entire council of ministers, and not against an individual minister.
3. Passing of Calling Attention Motion in the Lok Sabha will always lead to the resignation of the Council of Ministers.
4. Adjournment motion can only be introduced in the Lok Sabha.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2, 3 and 4 only
- c) 1, 2 and 4 only
- d) 3 and 4 only

Ans) c

Exp) Option c is the correct answer.

The House (Lok Sabha and Rajya Sabha) expresses its decisions or opinions on various issues through the adoption or rejection of motions moved by either ministers or private members.

Statement 1 is correct: Privilege Motion is concerned with the **breach of parliamentary**

privileges by a minister. It is moved by a member when he feels that a minister has committed a breach of privilege of the House or one or more of its members by withholding facts of a case or by giving wrong or distorted facts. Its **purpose is to censure the minister concerned.**

Rule No 222 in Chapter 20 of the Lok Sabha Rule Book and correspondingly Rule 187 in Chapter 16 of the Rajya Sabha rulebook governs privilege. Rules say that a member may, with the consent of the Speaker or the Chairperson, **raise a question involving a breach of privilege either of a member or of the House or a committee thereof.**

Statement 2 is correct: Article 75 of the Constitution says that the council of ministers shall be collectively responsible to the Lok Sabha. It means that the ministry stays in office so long as it enjoys confidence of the majority of the members of the Lok Sabha. In other words, the Lok Sabha can remove the ministry from office by passing a no-confidence motion. The motion needs the support of 50 members to be admitted. It **can be moved against the entire council of ministers only.**

Statement 3 is incorrect: Calling Attention Motion is introduced in the Parliament by a member to call the attention of a minister to a matter of urgent public importance, and **to seek an authoritative statement from him on that matter.** Calling Attention Motion has no censure element in it, so Council of Ministers need not to resign on the event of passage of this motion.

Censure Motion is moved for censuring the council of ministers for specific policies and actions.

Statement 4 is correct: Adjournment Motion is introduced in the Parliament to draw attention of the House to a definite matter of urgent public importance, and needs the support of 50 members to be admitted. As it interrupts the normal business of the House, it is regarded as an extraordinary device. It involves an element of censure against the government and **hence Rajya Sabha is not permitted to make use of this device.**

Source: Laxmikanth

Q.27) With reference to Money Bill and Ordinary Bill, consider the following statements:

1. Ordinary bill can be introduced either by a minister or by a private member of the house, whereas Money bill can be introduced only by a minister.
2. Unlike Ordinary bill, Money bill requires the certification of the Speaker when transmitted to the Rajya Sabha.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) c

Exp) Option c is the correct answer.

In a parliamentary system of government, bills are proposed laws or legislative proposals that are introduced in parliament.

Statement 1 is correct: Ordinary Bills can be introduced either in the Lok Sabha or the Rajya Sabha. It **can be introduced either by a minister or by a private member**. Money Bills can be introduced only in the Lok Sabha and not in the Rajya Sabha. It **can be introduced only by a minister**.

Statement 2 is correct: Money Bill requires the **certification of the Speaker when transmitted to the Rajya Sabha**. Ordinary bill does not require the certification of the Speaker when transmitted to the Rajya Sabha (if it has originated in the Lok Sabha).

Source: Laxmikanth

Q.28) Which of the following expenses comes under the category of 'charged' expenditure on the 'Consolidated Fund of India'?

1. Emoluments and allowances of the President
2. Pensions of Judges of High Courts
3. Salary of the Comptroller and Auditor General of India
4. Administrative expenses of Union Public Service Commission
5. Expenses incurred by the office of Attorney General of India

Select the correct answer using the codes given below:

- a) 1, 3 and 4 only
- b) 1, 2, 3 and 4 only
- c) 3 and 5 only
- d) 2 and 4 only

Ans) b

Exp) Option b is the correct answer.

The budget consists of two types of expenditure—the expenditure 'charged' upon the **Consolidated Fund of India** and the expenditure 'made' from the Consolidated Fund of India.

Option 1, 2, 3 and 4 are correct: The charged expenditure is non-votable by the Parliament, that is, it can only be discussed by the Parliament, while the other type has to be voted by the Parliament. The list of the charged expenditure is as follows:

- 1) **Emoluments and allowances of the President** and other expenditure relating to his office.
- 2) Salaries and allowances of the Chairman and the Deputy Chairman of the Rajya Sabha and the Speaker and the Deputy Speaker of the Lok Sabha.
- 3) Salaries, allowances and pensions of the judges of the Supreme Court.
- 4) **Pensions of the judges of high courts.**
- 5) **Salary, allowances and pension of the Comptroller and Auditor General of India**
- 6) Salaries, allowances and pension of the chairman and members of the Union Public Service Commission.
- 7) **Administrative expenses** of the Supreme Court, the office of the Comptroller and Auditor General of India and the **Union Public Service Commission** including the salaries, allowances and pensions of the persons serving in these offices.

- 8) The debt charges for which the Government of India is liable, including interest, sinking fund charges and redemption charges and other expenditure relating to the raising of loans and the service and redemption of debt.
- 9) Any sum required to satisfy any judgement, decree or award of any court or arbitral tribunal.
- 10) Any other expenditure declared by the Parliament to be so charged

Option 5 is incorrect: Expenses incurred by the office of Attorney General of India are not charged upon the Consolidated Fund of India. The remuneration of the AG is not fixed by the Constitution. He receives such remuneration as the president may determine.

Source: Laxmikanth

Q.29) With reference to 'Indian Polity', consider the following pairs:

Parliamentary Grants	Circumstances for approval of the grant
Excess Grant	Meeting an unexpected demand upon the resources of India
Additional Grant	Additional expenditure upon some new service
Vote of Credit	To satisfy the debt obligations of the Indian government

How many of the above given pairs are correctly matched?

- Only one pair
- Only two pairs
- All the three pairs
- None of the pairs

Ans) a

Exp) Option a is the correct answer.

In addition to the budget that contains the ordinary estimates of income and expenditure for one financial year, various other grants are made by the Parliament under extraordinary or special circumstances.

Pair 1 is incorrectly matched: Excess Grant is granted when money has been spent on any service during a financial year in excess of the amount granted for that service in the budget for that year. It is voted by the Lok Sabha after the financial year. Before the demands for excess grants are submitted to the Lok Sabha for voting, they must be approved by the Public Accounts Committee of Parliament.

Pair 2 is correctly matched: Additional Grant is granted when a need has arisen during the current financial year for additional expenditure upon some new service not contemplated in the budget for that year.

Pair 3 is incorrectly matched: Vote of Credit is granted for meeting an unexpected demand upon the resources of India, when on account of the magnitude or the indefinite character of the service, the demand cannot be stated with the details ordinarily given in a budget. Hence, it is like a blank cheque given to the Executive by the Lok Sabha.

Source: Laxmikanth

Q.30) What is the twin deficit problem often seen in the news?

- It is a combination of increasing imports and decreasing exports.
- It is a combination of current as well as capital account deficit.
- It is a combination of fiscal deficit as well as the current account deficit.
- It is a scenario where banks are under severe stress and the corporates are not able to repay their debt.

Ans) c

Exp) Option c is the correct answer.

Option a is incorrect: Combination of increasing imports and decreasing exports is related to **Trade deficit**. Trade deficit refers to a situation where the country's import dues exceed the receipts from the exports. A trade deficit is also referred to as a negative balance of trade.

Option b is incorrect: Combination of current and capital account deficit raise **Balance of Payment (BOP) deficit**. It also includes trade deficit.

Option c is correct: **The twin deficit problem is a combination of fiscal and current account deficit.** The **fiscal deficit** is essentially the amount of money that the government has to borrow in any year to fill the gap between its expenditures and revenues. Higher levels of fiscal deficit typically imply the government eats into the pool of investible funds in the market which could have been used by the private sector for its own investment needs. Whereas **Current account deficit** depicts that the money going out of a country for imports, investments, and services is greater than the money coming into the country through the exports, investments and services provided by us.

Option d is incorrect: It is a **twin balance sheet** problem. It is a scenario where **banks are under severe stress and the corporates are overleveraged to the extent that they cannot repay their loans.**

Source: <https://www.indiatimes.com/explainers/news/explained-what-is-twin-deficit-how-is-it-affecting-the-indian-economy-573371.html>

https://www.business-standard.com/podcast/finance/what-is-the-twin-balance-sheet-problem-122080300067_1.html

Q.31) Which of the following are the judicial powers and functions performed by Parliament of India?

- Removing of the Vice-President from his office
- Amending the Constitution by repealing any provision
- Punishing outsiders for contempt of the house
- Recommending removal of Chief Election Commissioner
- Scrutinising government spending and financial performance

Select the correct answer using the codes given below:

- 1 and 5 only
- 2, 4 and 5 only
- 1, 3 and 4 only
- 1, 2, 3, and 4 only

Ans) c

Exp) Option c is the correct answer.

In India, the Parliament is primarily responsible for making laws and legislation, while the judiciary is responsible for interpreting and enforcing those laws. However, the Parliament does have certain judicial powers and functions that it can perform under certain circumstances.

Statement 1, 3 and 4 are correct: The judicial powers and functions of the Parliament include the following:

- It can impeach the President for the violation of the Constitution.
- It **can remove the Vice-President from his office.**

(c) It can **recommend the removal** of judges (including chief justice) of the Supreme Court and the high courts, **chief election commissioner**, comptroller and auditor general to the president.

(d) It can **punish its members or outsiders for the breach of its privileges or its contempt**.

Statement 2 is incorrect: The Parliament is vested with the powers to amend the Constitution by way of addition, variation or repeal of any provision. It is the **constituent power of the Parliament**.

Statement 5 is incorrect: The Parliament scrutinises government spending and financial performance with the help of its financial committees. It is one of the **financial power and functions of the Parliament**.

Source: Laxmikanth

Q.32) With reference to ‘Parliamentary Privileges’, consider the following statements:

1. The privilege of Freedom of speech in Parliament is mentioned under Article 105 of the Indian constitution.
2. The Parliamentary privileges are extended to both the President and the Attorney General of India.
3. At present, there is no special law in India to exhaustively codify all the Parliamentary privileges.

Which of the statements given above is/are correct?

- a) 1 only
- b) 1 and 2 only
- c) 2 and 3 only
- d) 1 and 3 only

Ans) d

Exp) Option d is the correct answer.

Parliamentary privileges are special rights, immunities and exemptions enjoyed by the two Houses of Parliament, their committees and their members. They are necessary in order to secure the independence and effectiveness of their actions.

Statement 1 is correct: Originally, the Constitution (Article 105) mentioned **two privileges, that is, freedom of speech in Parliament and right of publication of its proceedings**. With regard to other privileges, it provided that they were to be the same as those of the British House of Commons, its committees and its members on the date of its commencement of Constitution (i.e., 26 January, 1950), until defined by Parliament. The 44th Amendment Act of 1978 provided that the other privileges of each House of Parliament, its committees and its members are to be those which they had on the date of its commencement (i.e., 20 June, 1979), until defined by Parliament.

Statement 2 is incorrect: The Constitution has extended the parliamentary privileges to those persons who are entitled to speak and take part in the proceedings of a House of Parliament or any of its committees. These **include the attorney general of India** and Union ministers. It must be clarified here that the **parliamentary privileges do not extend to the president** who is also an integral part of the Parliament.

Statement 3 is correct: The **Indian Parliament has not yet made any special law to exhaustively codify all the privileges enjoyed by its members**. The privileges of the Parliament are derived from various sources, including the Constitution, the rules of procedure, and the customs and traditions of the House.

Source: Laxmikanth

Q.33) With reference to ‘Powers of Lok Sabha and Rajya Sabha’, consider the following statements:

1. The Lok Sabha alone can recommend to the President for the removal of the judges of the Supreme Court.
2. Both Rajya Sabha and Lok Sabha can pass a resolution for the discontinuance of the national emergency.
3. Rajya Sabha can authorize the Parliament to create a new All-India Service.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 3 only

Ans) d

Exp) Option d is the correct answer.

In India, the Rajya Sabha and the Lok Sabha are the two houses of the Parliament, with the Lok Sabha being the lower house and the Rajya Sabha being the upper house. While both houses have important roles in the legislative process, there are some key differences in their constitutional positions and powers.

Statement 1 is incorrect: The power to recommend to the President for the removal of Chief Justice and judges of Supreme Court and high courts, chief election commissioner and comptroller and auditor general are **equal to both Lok Sabha and Rajya Sabha**. The President can issue the removal order only after an address by Parliament has been presented to him in the same session for such removal. The address must be supported by a special majority of each House of Parliament (i.e., a majority of the total membership of that House and a majority of not less than two-thirds of the members of that House present and voting).

Statement 2 is incorrect: A **resolution for the discontinuance of the national emergency can be passed only by the Lok Sabha and not by the Rajya Sabha**. The emergency must be revoked if the Lok Sabha passes a resolution by a simple majority disapproving its continuation. There is no provision for resolution for the discontinuance of the national emergency by Rajya Sabha.

Statement 3 is correct: According to Article 312 of the Indian Constitution, the Rajya Sabha (the upper house of Parliament) has the **power to authorize the Parliament to create new All-India Services that are common to both the Centre** (i.e., the federal government) and the states.

Source: Laxmikanth

Q.34) Consider the following statements:

1. The first No Confidence Motion in India's Parliament was moved in 1968 against the Indira Gandhi led government.
2. For the first time, Departmentally-Related Standing Committees were created in 2004 to assist Parliament in its legislative and financial business.
3. The time spent by Lok Sabha on discussing the Union Budget has been continuously decreasing since the 1990s.

Which of the statements given above is/are **incorrect**?

- a) 1 and 3 only
- b) 1, 2 and 3
- c) 2 and 3 only
- d) 3 only

Ans) b

Exp) Option b is the correct answer.

On May 13, 2022, Parliament completes 70 years since its first sitting. The first session of the first Lok Sabha (LS) and Rajya Sabha (RS) commenced on May 13, 1952. Currently, the 17th Lok Sabha (2019-2024) is running.

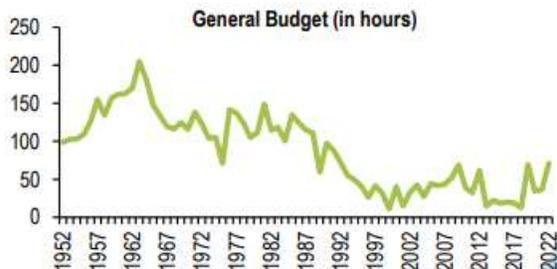

Statement 1 is incorrect: The first no-confidence motion in the history of Lok Sabha was moved against **Jawaharlal Nehru by J B Kripalani, also known as Acharya Kripalani, in August 1963.**

Prime Minister Indira Gandhi faced the most no-confidence motions (15), followed by Lal Bahadur Shastri and P. V. Narasimha Rao (three each), Morarji Desai (two) and Jawaharlal Nehru, Rajiv Gandhi, Atal Bihari Vajpayee, Narendra Modi (one each).

Statement 2 is incorrect: In 1989, in fact, three Standing Committees were constituted which dealt with Agriculture, Science and Technology and Environment and Forests. In 1993, it was finally decided to set up seventeen Department-related Parliamentary Standing Committees to cover various Ministries/ Departments of the Union Government in order to further strengthen the accountability of the Government to Parliament. With the addition of seven more Committees in July 2004, the number of Department-related Parliamentary Standing Committees was raised to 24 out of which 8 were placed within the jurisdiction of the Chairman, Rajya Sabha and 16 within the jurisdiction of the Speaker, Lok Sabha.

Statement 3 is incorrect: From the below graph, we can assume that average time spent by the Lok Sabha on discussing the budget is not continuously increasing or decreasing and there has been a roller coaster pattern.

Discussion on Budget in Lok Sabha declining

Source:

https://prsindia.org/files/parliament/vital_stats/Vital%20Stats_70%20years%20of%20Parliament.pdf

Q.35) The USTR “Special 301” Report is an annual report published by the United States Trade Representative (USTR). The USTR “Special 301” Report is related to which of the following?

- Trade Deficit
- Intellectual Property Rights
- Generalized System of Preferences (GSP)
- Amber box subsidies

Ans) b

Exp) Option b is the correct answer.

Option a is incorrect: **Trade deficit** refers to a situation where the country's import dues exceed the receipts from the exports. A trade deficit is also referred to as a negative balance of trade. The USTR “Special 301” report is not concerned with the trade deficit.

Option b is correct: The USTR Special 301 Report is an annual report published by the United States Trade Representative (USTR) that evaluates the **intellectual property (IP) protection and enforcement** practices of U.S. trading partners around the world. The report identifies countries that the USTR deems to be engaging in unfair or inadequate IP practices that harm American businesses and workers.

The report consists of two parts: **the Priority Watch List and the Watch List. The Report retained India on its Priority Watch List** along with six other countries - Argentina, Chile, China, Indonesia, Russia and Venezuela. The report is meant to encourage trading partners to improve their IP protection and

enforcement practices. It seeks to address IP-related trade barriers in its trade relationships with other countries.

Option c is incorrect: U.S. trade preference programs such as the **Generalized System of Preferences (GSP)** provide opportunities for many of the world's poorest countries to use trade to grow their economies and climb out of poverty. It promotes economic development by **eliminating duties on thousands of products**. US **terminated India's designation** as a beneficiary developing nation under the key GSP trade programme.

Option d is incorrect: Amber Box Subsidies are the subsidies that are trade-distorting in nature and need to be curbed at any cost. The Amber Box contains the category of domestic subsidy that is scheduled to reduce based on the formula called "Aggregate Measure of Support" (AMS). The AMS is the amount of money spent by governments on agricultural production, except the money spent in the Blue Box, Green Box and 'de minimis' level. The de minimis' level is the minimum level prescribed in Agreement on Agriculture (AoA) towards product specific and non-product specific (Amber box) subsidies. For Developed countries the de minimis level is 5% and for developing countries it is 10%.

<https://blog.forumias.com/wto-terminologies-aoa-blue-green-amber-box-peace-clause/>

Q.36) Consider the following statements:

1. Prime Minister always acts as ex-officio Leader of the House for both Lok Sabha and Rajya Sabha.
2. The Leader of Opposition in the Lok Sabha and the Rajya Sabha were accorded statutory recognition in 1977.
3. The functions of the office of whip are mentioned in the Rules of Procedure and Conduct of Business of Lok Sabha.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 only
- c) 2 and 3 only
- d) 1 and 3 only

Ans) b

Exp) Option b is the correct answer.

In India, the office of the Leader of the House, the Leader of the Opposition, and the Whip plays an important part in the functioning of the Parliamentary system of India.

Statement 1 is incorrect: The Leader of the House in the Rajya Sabha is the majority party's leader and parliamentary chairperson and is usually a cabinet minister or another nominated minister.

The Leader of the House is in charge of scheduling government meetings and conducting business in the House. Leader of the House in Lok Sabha is the Prime Minister by default if she/he is a member of the Lok Sabha. If the Prime Minister is not a member of Parliament's Lower House, she or he might appoint another minister to serve as Leader of the House.

Statement 2 is correct: The **Salary and Allowances of Leaders of Opposition in Parliament Act, 1977**, was enacted to provide for the salaries and allowances of the Leader of the Opposition in both the Lok Sabha and the Rajya Sabha. The statutory recognition for the position of Leader of the Opposition in the Lok Sabha and the Rajya Sabha was accorded through this act.

Statement 3 is incorrect: Though the offices of the leader of the House and the leader of the Opposition are not mentioned in the Constitution of India, they are mentioned in the Rules of the House and

Parliamentary Statute respectively. The **office of ‘whip’, on the other hand, is mentioned neither in the Constitution of India nor in the Rules of the House nor in a Parliamentary Statute.** It is based on the conventions of the parliamentary government.

Source: Laxmikanth

Q.37) Under which of the following circumstances, does a Member of Parliament vacates his/her seat in either house of the Parliament?

1. If a sitting member of one House is also elected to the other House.
2. If a member is disqualified on the grounds of defection under the provisions of the Anti-defection law.
3. If a censure motion is passed against the member of the parliament by both the houses.

Select the correct answer using the codes given below:

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 only
- d) 1 and 3 only

Ans) a

Exp) Option a is the correct answer.

A member of Parliament vacates his seat under following circumstances:

Statement 1 is correct: A person cannot be a member of both Houses of Parliament at the same time. If a **sitting member of one House is also elected to the other House, his seat in the first House becomes vacant.** The Representation of People Act (1951) provides for the following: If a person is elected to both the Houses of Parliament, he must intimate within 10 days in which House he desires to serve. In default of such intimation, **his seat in the Rajya Sabha becomes vacant.**

Statement 2 is correct: If a member of Parliament becomes subject to any of the **disqualifications specified in the Constitution, his seat becomes vacant.** Here, the list of disqualifications also includes the disqualification on the **grounds of defection under the provisions of the Tenth Schedule** of the Constitution.

Statement 3 is incorrect: If a censure motion is passed against a member of Parliament by both Houses, it **does not result in the vacation of their seat.** A censure motion is a formal statement of disapproval passed by the House against an individual minister or a group of ministers or the entire council of ministers.

Q.38) “The origin of this committee can be traced to the standing financial committee set up in 1921. It suggests alternative policies to bring about efficiency and economy in administration. The Rajya Sabha has no representation in this committee.”

Identify the parliamentary committee mentioned in the above passage.

- a) Committee on Public Undertakings
- b) Public Accounts Committee
- c) Estimates Committee
- d) Committee on Government Assurances

Ans) c

Exp) Option c is the correct answer.

The origin of **Estimates Committee can be traced to the standing financial committee** set up in 1921. The first Estimates Committee in the post-independence era was constituted in 1950 on the recommendation of John Mathai, the then finance minister. The Rajya Sabha has no representation in this committee.

The function of the committee is to examine the **estimates included in the budget and suggest 'economies' in public expenditure**. Hence, it has been described as a '**continuous economy committee**'.

The functions of the Estimate committee are:

- 1) To report what economies, improvements in organisation, efficiency and administrative reform consistent with the policy underlying the estimates, can be affected
 - 2) To **suggest alternative policies in order to bring about efficiency and economy in administration**
 - 3) To examine whether the money is well laid out within the limits of the policy implied in the estimates
- The other options listed are also parliamentary committees in India, but they have different roles and responsibilities.

Option a is incorrect: The **Committee on Public Undertakings** examines the reports of the Comptroller and Auditor General of India on the functioning of public sector undertakings.

Option b is incorrect: The **Public Accounts Committee** examines the accounts showing the appropriation of sums granted by Parliament for the expenditure of the government and makes recommendations to the government to ensure financial propriety and accountability.

Option d is incorrect: The **Committee on Government Assurances** examines the assurances, promises, undertakings, etc. given by the government from time to time and reports on the extent to which such assurances have been implemented.

Source: Laxmikanth

Q.39) Which one of the following statements is correct regarding 'Committee on Subordinate Legislation' within Indian Parliamentary setup?

- a) It can only examine the bills related to the matters of law and order and security.
- b) These committees consist of fifteen members in both the Houses of the Parliament.
- c) The recommendations of the committee are binding on the ministers and the house.
- d) Leader of the opposition in the house is the de-facto chairperson of this committee.

Ans) b

Exp) Option b is the correct answer.

Option a is incorrect and option b is correct: Committee on Subordinate Legislation **examines and reports to the House whether the powers to make regulations, rules, sub-rules and bye-laws delegated by the Parliament** or conferred by the Constitution to the Executive are being properly exercised by it. In **both the Houses, the committee consists of 15 members**. It was constituted in 1953. The Committee on Subordinate Legislation **examines the rules, regulations, and bye-laws made by the executive**, and not all papers laid on the table of the House.

Option c is incorrect: The recommendations of the committee are **not binding on the ministers or the house**. However, the committee's reports are considered influential and are often given due consideration by the House.

Option d is incorrect: The chairperson of the Committee on Subordinate Legislation is **appointed by the Speaker in the Lok Sabha and by the Chairman in the Rajya Sabha**. The leader of the opposition may be appointed as a member of the committee, but they are not the de-facto chairperson.

Source: Laxmikanth

Q.40) With reference to the Forest Conservation Rules 2022, consider the following statements:

1. These rules have been notified under the Forest Act, 1927.
2. The Central government has final authority for diverting forest land for non-forest purposes beyond five hectares.

3. Project Screening Committee to screen project proposals for use of forest land is to be constituted by State Governments or Union territories under these rules.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

The Forest Conservation Rules, 2022 prescribe the procedure to be followed for diversion of forest land for non-forestry uses such as road construction, highway development, railway lines, and mining.

Statement 1 is incorrect: These rules are notified under the **Forest (Conservation) Act, 1980** (Not Forest Act, 1927) and will replace the Forest (Conservation) Rules, 2003.

Statement 2 is correct: For forest land **beyond five hectares**, approval for diverting land must be **given by the Central government**. This is via a special committee, called the **Forest Advisory Committee (FAC)** constituted by the Central Government.

Statement 3 is correct: Project Screening Committee is to be constituted by State Government or Union territory. Project Screening Committee is to be constituted to screen project proposals for use of forest land for the non-forest purpose for making recommendations to the State Government or Union territory Administration,

Source: <https://www.newindianexpress.com/nation/2022/jul/14/new-forest-conservation-rules-spark-a-fight-2476359.html>

<https://blog.forumias.com/the-debate-around-the-forest-conservation-rules/>

Q.41) With reference to ‘Departmentally-Related Standing Committees (DRSCs)’, consider the following statements:

1. A minister is not eligible to be nominated as a member of any of these standing committees.
2. The term of the office of each standing committee is restricted to single session of the house of the Parliament.
3. These committees cannot examine any of the Demands for Grants of the concerned ministries.

Which of the statements given above is/are correct?

- a) 1 only
- b) 1 and 3 only
- c) 2 and 3 only
- d) 1 and 2 only

Ans) a

Exp) Option a is the correct answer.

Departmentally-Related Standing Committees (DRSCs) are a set of parliamentary committees in India that are dedicated to examining the functioning of various departments and ministries of the government.

Statement 1 is correct: According to the rules of Parliament, a **minister is not eligible to be nominated as a member** of any of the standing committees. In case a member, after his nomination to any of the standing committees, is appointed a minister, he then ceases to be a member of the committee.

Statement 2 is incorrect: The term of the office of each standing committee is not restricted to a single session of the house of Parliament. The term of office of **each standing committee is one year from the date of its constitution.**

Statement 3 is incorrect: The functions of each of the standing committees are:

1) To consider the demands for grants of the concerned ministries / departments before they are discussed and voted in the Lok Sabha. Its report should not suggest anything of the nature of cut motions.

2) To examine bills pertaining to the concerned ministries / departments

3) To consider annual reports of ministries / departments

4) To consider national basic long-term policy documents presented to the Houses

Source: Laxmikanth

Q.42) The landmark 'Lilly Thomas judgement' given by the Supreme Court of India is related to which one of the following?

a) Recognition of political parties and allotment of Election symbols

b) Government's right to suspend the fundamental right to life during an emergency

c) Disqualification of Members of Parliament or the state Legislature

d) making the Right to livelihood a fundamental right under the Constitution of India.

Ans) c

Exp) Option c is the correct answer.

Lily Thomas v Union of India (2013) case pertains to the **disqualification of Members of Parliament or the Legislature** as the case may be and was pronounced by a two-judge bench comprised of Justices A.K. Patnaik and S.J. Mukhopadhaya in the year 2013.

It **declared Section 8(4) of the Representation of the People Act, 1951, as unconstitutional**. Section 8(4) of the Act provided a **loophole for convicted legislators to remain in office by allowing them to file an appeal against their conviction and obtain a stay on their disqualification**.

The judgement also held that political parties have a responsibility to ensure that candidates with criminal antecedents are not given tickets to contest elections. The judgement was seen as a significant step towards cleaning up the Indian political system and ensuring that individuals with criminal records or convictions are not able to hold public office.

Q.43) Which among the following are Parliamentary Forums working currently in India?

1. Parliamentary forum on Water Conservation and Management.

2. Parliamentary Forum on Global Warming and Climate Change.

3. Parliamentary Forum on Population and Public Health.

4. Parliamentary forum on Socially and Economically Backward Classes (SEBC).

5. Parliamentary forum on Women Empowerment.

Select the correct answer using the code given below:

a) 1, 4 and 5 only

b) 2, 3 and 4 only

c) 1, 2 and 3 only

d) 4 and 5 only

Ans) c

Exp) Option c is the correct answer.

The Parliamentary forums are created to provide a **platform to the Members of Parliament to have interactions with the Ministers concerned, experts and key officials** from the nodal ministries with a view to have a focused and meaningful discussion on critical issues faced by a nation.

Option 1 is correct: The Parliamentary Forum on **Water Conservation and Management** was the **first parliamentary forum** created in India. It was constituted by the Speaker of the Lok Sabha in 2005. One of

the functions of this forum is to identify problems relating to water and make recommendations for consideration and appropriate action by the department concerned.

Option 2 is correct: The Parliamentary Forum on Global Warming and Climate Change was constituted in 2008 and one of the functions of this forum is to identify problems relating to global warming and climate change and make recommendations for consideration and appropriate action by the Government.

Option 3 is correct: The Parliamentary Forum on Population and Public Health was constituted in 2006 and one of the functions of this forum is to have focused discussions on strategies relating to population stabilisation and matters related to it.

Option 4 and 5 is incorrect: There is no Parliamentary forum on Women Empowerment nor on Socially and Economically Backward Classes (SEBC). Currently there are **eight Parliamentary forums in India** which includes, apart from the forums mentioned in the above options, Parliamentary Forum on **Youth**, **Parliamentary Forum on Children**, **Parliamentary Forum on Disaster Management**, **Parliamentary Forum on Artisans and Crafts-people** and **Parliamentary Forum on Millennium Development Goals**.

Source: Laxmikanth - Parliamentary Forums

Q.44) Who among the following is the ex-officio chairperson of the Indian Parliamentary Group (IPG)?

- The President of India.
- Speaker of Lok Sabha.
- Chairperson of Rajya Sabha
- The Secretary-general of the Lok Sabha

Ans) b

Exp) Option b is the correct answer.

The **Indian parliamentary group (IPG)** was formed in 1949 in pursuance of a motion adopted by the Constituent Assembly of India and IPG is an autonomous body. IPG aims to promote personal contacts between Members of the Parliament (MPs) and to study questions of public importance that are likely to come up before the Parliament.

Option a is incorrect: The President of India is not an ex-officio chairman of the Indian Parliamentary Group (IPG). The President is an integral part of the parliament, along with Lok Sabha and Rajya Sabha. Any bill passed by each house requires assent of the president to become an act.

Option b is correct: It is true that the **Speaker of Lok Sabha is an ex-officio chairperson** of the Indian parliamentary group (IPG). Membership of the Indian Parliamentary Group is open to all Members of Parliament and ex-Members of Parliament. The management and control of the affairs of the Group are vested in the **Executive Committee**.

Option c is incorrect: Chairperson of Rajya Sabha is not an ex-officio chairperson of IPG. The Vice President of India acts as an ex-officio chairperson of the Rajya Sabha and chairman of Rajya Sabha is not a member of Rajya Sabha.

Option d is incorrect: The Secretary General of the Lok Sabha is not an ex-officio chairperson of the Indian parliamentary group (IPG). The Secretary General of the Lok Sabha is an **ex-officio Secretary-General of the IPG**.

Knowledge Base: The Inter Parliamentary Group (IPG) aims to promote personal contacts between Members of Parliament and disseminate information to the Members of Parliament by conducting seminars etc. on the issues that are likely to come up before Parliament.

The Group acts as a link between the Parliament of India and the various Parliaments of the world by exchange of delegations, goodwill missions, documents etc. with foreign Parliaments. It also functions as the (a) National Group of the Inter-Parliamentary Union and (b) Main Branch of the Commonwealth Parliamentary Association in India.

Source: Laxmikanth - Parliamentary Group (Chapter 25)

Q.45) With reference to the 'Water Convention', consider the following statements:

1. It was adopted by UN Economic and Social Commission for Asia and the Pacific (ESCAP).
2. It is a regional instrument, membership limited to Asia and Pacific region.
3. It exclusively stresses upon the issues related to ground water conservation and water pollution.

Which of the statements given above is/are correct?

- a) 1 only
- b) 1 and 2 only
- c) 1, 2 and 3
- d) None of the above

Ans) d

Exp) Option d is correct answer.

The 30th anniversary of the Water Convention was marked in 2022. The Convention on the Protection and Use of Transboundary Water and International Lakes (**Water Convention**) was adopted in Helsinki in 1992 and entered into force in 1996.

Statement 1 is incorrect: It was started by **United Nations Economic Commission for Europe (UNECE)** (not ESCAP). It was adopted in Helsinki in 1992 and entered into force in 1996.

Statement 2 is incorrect: Water convention was **initially negotiated as a regional instrument. However,** it has been **opened up for all UN Member States in 2016.**

Statement 3 is incorrect: Water convention **aims to ensure the sustainable use of transboundary water resources by facilitating cooperation. It is not specific to ground water.** It focuses to protect and promote sustainable use of Transboundary Water and International Lakes.

Source: <https://unece.org/environment-policy/water>

Q.46) Which of the following are the functions of the Indian Parliamentary Group (IPG)?

1. It helps Members of Parliament (MPs) to gather required information from Ministers of the concerned departments.
2. The group functions as the National Group of Inter Parliamentary Union (IPU).
3. The group organises conferences of speakers of State legislative assemblies to promote cooperation between states in India.
4. The group aims to study questions of public importance by arranging seminars and discussions among members of this group at national and international level.

Select the correct answer using the code given below:

- a) 1 and 2 only
- b) 2, 3 and 4 only
- c) 2 and 4 only
- d) 1, 2 and 4 only

Ans) c

Exp) Option c is the correct answer.

The **membership of Parliament Group is open to all members of Parliament.** The former members of Parliament can also become **associate members** of the Group but the associate members are entitled to limited rights only.

Statement 1 is incorrect: Parliament group does not engage in helping MPs to get information from Ministers. The Parliamentary group aims to promote personal contacts between Members of the Parliament of India and also this group act as a bridge between Parliament of India and legislatures of foreign countries.

Statement 2 is correct: It is true that IPG functions as the National Group of the IPU. IPU is the global organization of national parliaments traces its origin to 1889 when it was started as small Parliamentary groups. IPU aims to facilitate parliaments and parliamentarians across the world to promote peace, democracy and sustainable development around the world.

Statement 3 is incorrect: Parliamentary groups do not organise conferences among speakers of State legislative assemblies. However, the group organised the National **Conference of Women Legislators** in New Delhi in **2016** with a theme "Women Legislators: Building Resurgent India".

Statement 4 is correct: It is true that Parliamentary groups aim to study questions of public importance by arranging seminars and discussions among members of this group. The group organises seminars and symposia on parliamentary subjects of topical interest at national as well as international level.

<https://ipg.nic.in/AboutUs.aspx>

Q.47) Consider the following statements:

1. The Council of ministers may not cease to hold office even after the dissolution of the Lok Sabha.
2. The dissolution of Lok Sabha by the President can be challenged in the Supreme Court of India.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) a

Exp) Option a is the correct answer.

The Lok Sabha is the lower house of India's bicameral Parliament, with the upper house being the Rajya Sabha. Members of the Lok Sabha are elected by an adult universal suffrage and a first-past-the-post system to represent their respective constituencies, and they hold their seats for five years or until the body **is dissolved by the President** on the advice of the council of ministers.

Statement 1 is correct: Article 74 provides for a council of ministers with the Prime Minister at the head to aid and advise the President in the exercise of his functions. In 1971, the **Supreme Court held that 'even after the dissolution of the Lok Sabha, the council of ministers does not cease to hold office.** Article 74 is mandatory and, therefore, the president cannot exercise the executive power without the aid and advice of the council of ministers.

Statement 2 is incorrect: The dissolution of the House through Presidential proclamation **cannot be challenged in courts** is held by Supreme Court in 2004. Supreme Court said that it has been in consistent constitutional practice that Prime Minister had the sole prerogative to recommend dissolution of Lok Sabha to the President.

Source: Laxmikant Chapter 32 State Council of Ministers

SC upholds dissolution of LS | India News - Times of India (indiatimes.com)

Q.48) With reference to State Legislatures in India, consider the following statements:

1. There is no upper limit on the reservation for SCs and STs in the State Legislatures.
2. The reservation for Anglo Indians in State Legislatures has been discontinued.
3. The maximum size of a Legislative Council is linked to the strength of the Legislative Assembly.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

Statement 1 is correct: The Constitution has made provisions for **reservation** of seats in **State Legislative Assemblies** for people belonging to **SC/ ST communities** in order to provide them due representation. There is **no upper or lower limit** on the number of seats reserved for them. Rather the **number of seats reserved** for members of **SC/ ST communities** is **dependent and proportional** to their **population** compared to the total population of the state.

Statement 2 is correct: The Constitution had provided for **reservation of 1 member** from the **Anglo-Indian** community in the State Legislative Assembly. It is **not a compulsory provision**, but rather it is at the **discretion of the Governor**, if he feels the community is **inadequately represented**. This provision was **originally** supposed to last only **until 1960**. However, it has been **extended subsequently every 10 years**. However, in **2019**, the **104th Constitution Amendment Act scrapped this reservation** as it was deemed to have **run out of its utility**. So, there is **no reservation** for the **Anglo-Indian community** in State Legislatures as of today.

Statement 3 is correct: The Constitution states that the minimum strength of the Legislative Council is to be 40, while the **maximum** has been fixed at **1/3 of the total strength** of the legislative assembly. Thus, the **size of the Legislative Council is linked to the strength** of the **Legislative Assembly**.

Q.49) Consider the following statements:

1. A Member of Parliament can address the House in his or her mother-tongue after taking permission from the presiding officer of the House.
2. Both Hindi and English can be the languages for transacting business in the Parliament.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) c

Exp) Option c is the correct answer.

Statement 1 is correct: The **presiding officer can permit a member** to address the House in his **mother-tongue**. In both the Houses, arrangements are made for simultaneous translation.

Statement 2 is correct: The Constitution (**Article 120**) has declared **Hindi and English** to be the languages for transacting business in the Parliament. Though English was to be discontinued as a floor language after the expiration of fifteen years from the commencement of the Constitution (that is, in 1965), the Official Languages Act (1963) allowed English to be continued along with Hindi.

Laxmikanth Chapter 22 Parliament

Q.50) Consider the following statements with reference to West Nile Virus:

1. The West Nile Virus outbreak sites are found on all major bird migratory routes.
2. It is a mosquito-borne RNA virus.
3. In India, the virus has been detected for the very first time in 2022.

Which of the above given statements is/are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) a

Exp) Option a is the correct answer.

In June 2022 Kerala health department issued an alert after the death of a 47-year-old from Thrissur due to the West Nile Virus. According to the WHO, West Nile Virus is “**a member of the flavivirus genus and belongs to the Japanese Encephalitis antigenic complex of the family Flaviviridae**”.

Statement 1 is correct: The **West Nile Virus (WNV) outbreak sites are found on all major bird migratory routes**. Africa, Europe, the Middle East, North America, and West Asia are the regions where the virus is commonly found.

Statement 2 is correct: It is a **mosquito-borne, single-stranded RNA virus**. The West Nile Virus is a **flavivirus** related to the viruses that are also responsible for causing **St. Louis encephalitis, Japanese encephalitis, and yellow fever**.

Statement 3 is incorrect: In Mumbai in the year 1952, the antibodies against WNV were first detected in humans. Since then, the virus activity has been reported in southern, central, and western India. In **1977, 1978 and 1981, serologically confirmed cases of WNV infections** were reported in Vellore and Kolar districts, and in West Bengal in 2017. So, the recent detection of WNV in Kerala is not its first detection with reference to India. Hence the statement is incorrect.

Source: <https://indianexpress.com/article/explained/explained-what-is-the-west-nile-virus-how-does-it-spread-7942629/>

Q.1) Consider the following statements regarding the ‘veto powers’ of the President and the Governor:

1. Only the President and not the Governor is empowered to exercise Suspensive Veto over the Ordinary Bills.
2. Neither the President nor the Governor has any Veto Power in case of Money Bills.
3. The Governor has no veto power once a state bill is reserved for the President’s consideration.

Which of the statements given above is/ are correct?

- a) 1 only
- b) 1 and 2 only
- c) 2 and 3 only
- d) 3 only

Ans) d

Exp) Option d is the correct answer.

Article 200 provides that the **assent of the Governor is required to the bills passed by a state legislature**. Similar to the powers of the President, Governor can also give his assent or withhold his assent or can send the bill for the reconsideration of the House. Despite this, **there are certain differences in their powers to exercise veto**.

Statement 1 is incorrect: Suspensive veto means power to send back a bill to the legislature for reconsideration. **Both the President and as well as the Governor can exercise a suspensive veto**. If such a bill is passed again by the legislatures with or without amendment, they are bound to give their assent.

Statement 2 is incorrect: The money bill after it is passed by the Parliament or State Legislature is presented to the President or the Governor respectively for their approval. It becomes an ‘Act’ only after obtaining the approval. **Both the President or the Governor can either give assent or withhold assent. They cannot send it for reconsideration. This implies that both have veto powers against a money bill, except they cannot send it for reconsideration.** Additionally, the Governor can also reserve a money bill for the President’s consideration.

Statement 3 is correct: **The Governor has no further role once he/she reserves a bill for the consideration of the President.** President can give assent or withhold such a bill. The President can also send back the bill to the state legislature for reconsideration. When the House passes the bill again with or without amendment, **it must be presented again for the Presidential assent only**. This means that neither Governor’s assent is required nor can he exercise veto over such bills. Hence, the given statement is correct.

Source: M. Laxmikanth (Page 30.7, Chapter 30)

Q.2) Consider the statement given below as quoted from the Constituent Assembly debates and answer the question that follows:

“These provisions are meant to ensure that all our efforts all these years spent in Constitution-making may not go in vain and those people who will be in power in the future would be adequately empowered to save the Constitution.”

Which of the following provisions of the Constitution is being referred to in the above statement?

- a) Appointment of Governor
- b) Powers of the Election Commission of India
- c) Emergency provisions
- d) Constitution of Finance Commission

Ans) c

Exp) Option c is the correct answer.

The Constituent Assembly had differing opinions over the inclusion of emergency provisions in the Constitution of India. **It attracted fierce criticism.** H.V. Kamath observed that “I fear that by this single chapter we are seeking a totalitarian state, a police state, a state completely opposed to all the ideals and principles that we have held aloft.” Kamath **even accused the Drafting Committee of plagiarizing UK’s Emergency Powers Act, 1920 in a ‘dishonest manner’.** T.T. Krishnamachari was a member of the Drafting Committee, and he **defended the inclusion of emergency provisions** in the Constitution. He said, “**that all our efforts all these years spent in Constitution-making may not go in vain and those people who will be in power in the future would be adequately empowered to save the Constitution.**” The phrase ‘adequately empowered to save the Constitution’ signifies **extraordinary powers to the executive to protect the constitutional machinery.** Hence, option (c) is the correct answer.

Source:

https://www.constitutionofindia.net/blogs/desk_brief__h_v__kamath_s_attack_on_emergency_powers__

Q.3) The Governor has been vested with the power to grant pardon by the Constitution. In this context, consider the following statements:

1. S/he cannot suspend or remit a death sentence.
2. S/he cannot suspend or remit a sentence given by court martial.
3. S/he cannot pardon a sentence without the aid and advice of the Council of Ministers.

Which of the statements given above is/are correct?

- a) 1 and 3 only
- b) 2 and 3 only
- c) 2 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

Article 161 deals with the powers of the Governor to grant pardons, etc., and to suspend, remit or commute sentences in certain cases. The pardoning powers of the Governor form part of his judicial powers.

Statement 1 is incorrect: The Governor can suspend, remit, reprieve or commute a death sentence. Hence, the given statement is incorrect.

Statement 2 is correct: Article 161 does not grant any power to the Governor to pardon, suspend, remit, commute or reprieve a sentence by the court martial or military court. However, as per Article 72, President can grant pardon in cases of punishment or sentence by a court martial.

Statement 3 is correct: The power to grant pardon is not a discretionary power of the Governor. He is bound by the aid and advice of the council of Ministers. In a recent judgment in **The State of Haryana vs. Raj Kumar**, the Supreme Court has held that Governor is but a shorthand expression for the State Government and hence, he can exercise his pardoning powers only pursuant to the government’s decision.

Knowledge Base: Definition of important terminologies:

- 1) **Commutation** means substitution of one form of punishment with the lighter form.
- 2) **Remission** means reducing the period of sentence without changing its character.
- 3) **Respite** means awarding lesser sentence due to some special fact like physical disability, pregnancy etc.
- 4) **Reprieve** means stay of the execution of a sentence.

Source: M. Laxmikanth (Page 30.9, Chapter 30)

Q.4) Consider the following statements regarding impeachment of the President of India:

1. Impeachment of President of India is a quasi-judicial procedure in Parliament.
2. The ground for the President's impeachment is "violation of the constitution", which is well defined in the Constitution.
3. Both the houses of the Parliament enjoy the same power with respect to impeachment of President.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 1 and 3 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

Statement 1 is correct: Impeachment of the President is considered a quasi-judicial procedure as he stands removed from post if both houses pass resolution after due process.

Statement 2 is incorrect: The President can be removed from his post by the process of impeachment. The only ground mentioned for impeachment of the President is violation of the constitution. However, the Constitution does not define the phrase "violation of Constitution".

Statement 3 is correct: Impeachment charges can be initiated by either house of the Parliament. These need to be signed by one-fourth of the members of the house and a 14 days' notice should be given to the President. After the impeachment resolution is passed by a majority of two-thirds of the total membership of that House, it is sent to the other House, which should investigate the charges. If the other House also sustains the charges and passes the impeachment resolution by a majority of two-thirds of the total membership, then the President stands removed from his office from the date on which the resolution is so passed. Hence, Both the houses of the Parliament enjoy the same power with respect to Impeachment of President.

Knowledge Base: President has the right to appear and to be represented at impeachment investigation in another house. No president has been impeached so far.

Source: <https://indianexpress.com/article/explained/how-impeachment-works-and-why-trump-is-unlikely-to-be-removed-6196598/>

Laxmikanth Chapter 17 President

Q.5) Which of the following statements is/are correct regarding the use of single-use plastics?

1. It accounts for a third of all plastic produced globally.
2. It accounts for half of all the plastic consumed in India.
3. India features in top 10 countries regarding per capita single-use plastic waste generation.

Select the correct answer using the code given below:

- a) 1 and 2 only
- b) 1 only
- c) 2 and 3 only
- d) 1 and 3 only

Ans) b

Exp) Option b is the correct answer.

The Plastic Waste Management Rules, amended in 2021, define single-use plastic as plastic item intended to be used once for the same purpose before being disposed of or recycled.

Option 1 is correct: A 2021 report by the Mindereroo Foundation (Australian philanthropic organization) said **single-use plastics account for a third of all plastic produced globally**. Single-use plastic also accounts

for the majority of plastic discarded – 130 million metric tonnes globally in 2019. All of this is burned, buried in landfills or discarded directly into the environment.

Option 2 is incorrect: Currently, single-use plastics (SUPs) account for about **one-third of the plastic consumed** in India. In other words, 6-7 million tonnes of SUPs are consumed annually, placing it among the top industrial materials consumed in terms of volume.

Option 3 is incorrect: The 2021 report by the Minderoo Foundation found that **India features in the top 100 countries of per capita single-use plastic waste generation – at rank 94**. The top three being Singapore, Australia and Oman. With domestic production of 11.8 million metric tonnes annually, and import of 2.9 MMT, India's net generation of single-use plastic waste is 5.6 MMT, and per capita generation is 4 kg.

Source: <https://blog.forumias.com/ban-on-single-use-plastic/>

Q.6) Article 164 of the Indian Constitution provides for the appointment of a Minister in charge of Tribal Welfare. In which of the following states, does the appointment of such a Minister has been provided by the Constitution?

1. Bihar
2. Jharkhand
3. Chhattisgarh
4. Odisha
5. Rajasthan

Choose the correct answer from the codes given below:

- a) 2, 3, 4 and 5 only
- b) 1, 3 and 4 only
- c) 2, 3 and 4 only
- d) 1, 2 and 5 only

Ans) c

Exp) Option c is the correct answer.

Article 164 deals with the appointment of a Minister in charge of tribal welfare in certain states. The Minister may also be in charge of the welfare of Scheduled Castes and backward classes or any other work. Presently, the Governor needs to appoint such Minister in the **four states**. These are **Jharkhand, Chhattisgarh, Madhya Pradesh and Odisha**. Originally, this provision was applicable to Bihar, Madhya Pradesh and Odisha. **The 94th Amendment Act freed Bihar from this obligation** because there are no Scheduled areas in Bihar now. This Amendment Act, however, to the newly formed states of Chhattisgarh and Jharkhand. **This provision has never been applicable to Rajasthan.**

Source: M. Laxmikanth (Page 32.3, Chapter 32)

Q.7) With reference to Cabinet Committees, which of the following statements are correct?

1. They are the neither statutory nor constitutional bodies.
2. They are set up by the President on the advice of the Prime Minister.
3. They are an organisational device to manage the workload of the Cabinet.

Select the correct answer using the code given below.

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

A Cabinet committee is a collection of ministers that has the authority to make decisions that are binding on all other ministries and departments.

Statement 1 is correct: They are extra-constitutional in emergence. In other words, **they are not mentioned in the Constitution.** Neither they are established under **any act of Parliament (not statutory).** They are set up under the **Government of India Transaction of Business Rules (TBR), 1961** which states **that** there shall be “Standing Committees of the Cabinet”. The Prime Minister may, from time to time, amend the Schedule by adding to or reducing the numbers of such Committees or by modifying the functions assigned to them.

Statement 2 is incorrect: They are **set up by the Prime Minister** according to the exigencies of the time and requirements of the situation. Hence, their number, nomenclature, and composition varies from time to time.

Statement 3 is correct: They are an organisational device to reduce and manage the enormous workload of the Cabinet. They also facilitate in-depth examination of policy issues and effective coordination. They are based on the principles of division of labour and effective delegation.

Source: Lakshmikant Chap 21

Q.8) With reference to the Prime Minister of India, consider the following statements:

1. S/he is advised by the President with regard to summoning and proroguing of the sessions of the Parliament.
2. S/he advises the President with regard to the appointment of members of the UPSC.
3. S/he is the Chairman of the Inter State Council.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 1 and 3 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

The Prime Minister is the leader of the Lower House. In this capacity, he enjoys certain powers.

Statement 1 is incorrect: The **Prime Minister advises the President** with regard to **summoning and proroguing of the sessions** of the **Parliament**. The Prime Minister can recommend dissolution of the Lok Sabha to President at any time. The Prime Minister announces government policies on the floor of the House.

Statement 2 is correct: The **Prime Minister advises the President** with regard to the appointment of important officials like

- 1) Attorney general of India,
- 2) Comptroller and Auditor General of India,
- 3) **Chairman and members of the UPSC,**
- 4) Election commissioners and
- 5) Chairman and members of the finance commission.

Statement 3 is correct: The Prime Minister is the **chairman** of the NITI Aayog (which succeeded the planning commission), National Integration Council, **Inter State Council**, National Water Resources Council and some other bodies.

Knowledge Base:

Article 263 contemplates the establishment of an Inter-State Council to effect coordination between the states and between Centre and states. Thus, the President can establish such a council if at any time it appears to him that the public interest would be served by its establishment. He can define the nature of duties to be performed by such a council and its organization and procedure.

Source: Indian Polity by Laxmikant 6th Edition – Chapter 15 Inter-State Relations, Chapter 19 Prime Minister.

Q.9) Consider the following statements regarding the Council of Ministers in states:

1. The Constitution itself prescribes the maximum and minimum strength of the Council of Ministers in states.
2. The advice given by the Council of Ministers to the Governor cannot be questioned in any court.
3. In the Order of Precedence, Cabinet Ministers in a state rank lower than the Attorney General of India.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

The Constitution envisages a Parliamentary system of governance in the states. Accordingly, Article 163 provides for the Council of Ministers headed by the Chief Minister to aid and advise the Governor in the exercise of his functions.

Statement 1 is correct: The 91st Constitutional Amendment Act of 2003 added provisions to Article 164 regarding maximum and minimum strength of the Council of Ministers. It states that the total number of Ministers (including the Chief Minister) in the Council of Ministers **shall not exceed 15 percent of the total strength** of the Assembly. It also states that the total number of Ministers (including the Chief Minister) **should not be less than 12**. Hence, it provides for both maximum as well as minimum strength of the Council of Ministers in the States.

Statement 2 is correct: Article 163 expressly provides that the advice tendered by the Ministers to the Governor shall not be questioned in any court. Hence, the given statement is correct.

Statement 3 is correct: The Attorney General of India ranks higher than the State Cabinet Ministers in the order of precedence. The Attorney General is ranked 11th position along with the **Cabinet Secretary**. On the other hand, Cabinet Ministers of State within their respective states are ranked at 15th position, while Cabinet Ministers of State outside their respective state are ranked at the 18th position. Other than the Attorney General, **all the Judges of Supreme Court, Chairperson of Union Public Service Commission, Chief Election Commissioner, Comptroller and Auditor of India, Chief of Staff holding the rank of full General or equivalent** are ranked above the State Cabinet Ministers.

M. Laxmikanth (Page 32.1, Chapter 32)

Q.10) Consider the following statements with respect to the Registered Unrecognized Political Parties (RUPPs):

1. If a political party has never contested in elections since it got registered with the Election Commission, then it can be called as RUPP.
2. No separate election symbol is reserved for such parties.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) c

Exp) Option c is the correct answer.

Statement 1 is correct: If a party satisfies any one of the below-mentioned criteria, then they are called Registered Unrecognized Political Parties. The conditions are

- 1) If the political party is newly registered.
- 2) If the political parties have not secured enough percentage of votes in Assembly or General Elections to become a state party.
- 3) Political Parties that **never contested in elections since they got registered** with the Election Commission.

Statement 2 is correct: These parties don't enjoy all the benefits extended to the recognized parties such as **reserving a separate symbol for the party**, subsidized land for party office etc.

Source: <https://blog.forumias.com/registered-unrecognised-political-parties-are-not-transparent-adr-report/>

<https://economictimes.indiatimes.com/news/politics-and-nation/registered-unrecognised-political-parties-increased-two-fold-from-2010-to-2019-adr/articleshow/80707642.cms>

Q.11) With reference to the effects of the proclamation of National Emergency on the life of Lok Sabha, consider the following statements:

- 1. The life of Lok Sabha could be extended by only six months at a time.
- 2. The term of 5th Lok Sabha was extended than its normal period, as National emergency was in force at that time.
- 3. Parliament can extend the life of Lok Sabha by passing a law to that effect with simple majority.

Which of the statements given above are correct?

- a) 1 and 3 only
- b) 2 and 3 only
- c) 1, 2 and 3
- d) 1 and 2 only

Ans) b

Exp) Option b is the correct answer.

Statement 1 is incorrect: The term of the Lok Sabha can be extended during the period of national emergency **by a law of Parliament for one year at a time for any length of time**. However, this extension cannot continue beyond a period of six months after the emergency has ceased to operate.

Statement 2 is correct: The term of the Fifth Lok Sabha which was to expire on 18 March, 1976 was extended by one-year up to 18 March, 1977 by the House of the People (Extension of Duration) Act, 1976. It was extend for a further period of one year up to 18 March, 1978 by the House of the People (Extension of Duration) Amendment Act, 1976. However, the House was dissolved on 18 January, 1977, after having been in existence for a period of five years, ten months and six days.

Statement 3 is correct: During National Emergency, the duration of Lok Sabha can be extended to a maximum of 1 year at a time by passing a law in the Parliament. The term of 5th Lok Sabha was extended twice **by-passing House of the People (extension of duration) Act, 1976. And such a law can be passed by a simple majority.**

Source: <https://indiankanoon.org/doc/1463849/>

Q.12) Consider the following statements regarding the constitutional position of the President and the Governor:

1. The Constitution provides much wider discretionary powers to the President than the Governor.
2. The President is the final and only authority to decide on doubts/disputes regarding the discretionary powers of the Governor.

Which of the statements given above is/ are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) d

Exp) Option d is the correct answer.

The Office of the President and the Governor the constitutional offices. Article 52 provides for the Office of the President of India and Article 153 provides for the office of Governor for every state. Governor is appointed by the President for a period of 5 years on the advice of the Union Cabinet.

Statement 1 is incorrect: The Constitution empowers Governor to act as per his discretion in certain cases. However, **no such possibility has been envisaged in the Constitution for the President.** Hence, the Constitution provides for wider discretionary powers to the Governor than the President. The Constitution provides that Governor can exercise his discretion in the following matters:

- 1) In **reserving a bill for the President's consideration**
 - 2) For recommending imposition of the **President's rule** in the State,
 - 3) While exercising his functions **as an administrator of an adjoining union territory.**
 - 4) In determining the **amount payable as royalty on license for mineral exploration** to the Autonomous District Councils of Assam, Meghalaya, Tripura and Mizoram.
 - 5) **Seeking information from Chief Minister** regarding both administrative as well as legislative matters.
- Discretion in above matters implies that the Governor is not required to act as per the advice of the Council of Ministers.

Statement 2 is incorrect: Article 163 states that If any question arises whether Governor is by or under this Constitution required to act in his discretion, **the decision of the Governor (and not President) in his discretion shall be final.** It further states that **the validity of anything done by the Governor shall not be called in question** on the ground that he ought or ought not to have acted in his discretion.

<https://indiankanoon.org/doc/674146/>

Q.13) According to the Supreme court of India, the imposition of President's rule in a state would be proper in which of the following situations?

1. In the case of hung assembly where no party secures a majority.
2. When governor presents report to the President about maladministration in the state.
3. When the government of a state is deliberately acting against the Constitution of India.
4. When a constitutional direction of the central government to the state is disregarded by the state.

Select the correct answer using the code below:

- a) 1, 2 and 3 only
- b) 1, 3 and 4 only
- c) 1 and 3 only
- d) 2, 3 and 4 only

Ans) b

Exp) Option d is the correct answer.

The Supreme Court in Bommai case (1994) enlisted the situations where the exercise of power under Article 356 could be proper or improper. Proper here signifies those conditions which signifies breakdown of constitutional machinery, prevail in the state. Improper denotes that due procedure is not followed or conditions are not relevant for President's rule.

Statement 1, 3 and 4 are correct: As per Supreme Court directives in case of hung assembly, when no party or coalition has majority or despite having majority are not able to form the government, then it will be **proper to recommend for imposition of President's rule in that state**. Wilful disobedience of constitution or law and when state government disregards constitutional direction from centre, also signifies conditions that can lead to imposition of President's rule.

Statement 2 is incorrect: The maladministration in a state **cannot be stated as a proper** ground of imposition of President's rule in a state. Rather article 356 of the Constitution suggests the condition of failure of the constitutional machinery in the states as the ground for imposition of President's rule.

Knowledge Base: Based on the report of the Sarkaria Commission on Centre-state Relations (1988), the Supreme Court in Bommai case (1994) enlisted the situations where the exercise of power under Article 356 could be proper or improper. Also, the governor should probe for the possibility of alternative government formation and give a suitable chance for proving majority.

Source: <https://www.thehindu.com/news/national/presidents-rule-should-be-based-only-on-objective-material-said-supreme-court-in-bommai-case/article29955153.ece>

Laxmikanth Chapter 16 Emergency Provisions

Q.14) Consider the following statements related to financial emergency in India:

1. In the constitution, no maximum period is prescribed for its operation.
2. Parliamentary approval is required after every six months for continuation of financial emergency.
3. A proclamation of Financial Emergency may be revoked by the President at any time by a subsequent proclamation.

Which of the statements above is/are correct?

- a) 1 and 2 only
- b) 1 and 3 only
- c) 3 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

Statement 1 is correct: Article 360 empowers the president to proclaim a Financial Emergency if he is satisfied that a situation has arisen due to which the financial stability or credit of India or any part of its territory is threatened. A proclamation declaring financial emergency must be approved by both the Houses of Parliament by a simple majority within two months from the date of its issue. **As per Article 360, no maximum period is prescribed for financial emergency to continue.**

Statement 2 is incorrect: As per Article 360, repeated parliamentary approval is not required for continuation (remaining in force for extended period) of financial emergency which means once approved, financial emergency continues indefinitely till it is revoked.

Statement 3 is correct: A proclamation of Financial Emergency may be revoked by the president at any time by a subsequent proclamation. Such a proclamation does not require parliamentary approval.

Knowledge Base: There has been no proclamation of financial emergency so far.

Source:

<https://blog.forumias.com/answered-under-what-circumstances-can-the-financial-emergency-be-proclaimed-by-the-president-of-india-what-consequences-follow-when-such-a-declaration-remains-in-force/>

Laxmikanth Chapter 16 Emergency Provisions

Q.15) A term, 'nixtamalization' recently seen in the news, is in the context of which of the following?

- Usage of bagasse as fodder in bee-keeping
- fortification of maize by ancient Mayans
- To convert fly ash into a substance that can be used as Polycarbonate material
- The process of converting randomized trial data into coherent series

Ans) b

Exp) Option b is the correct answer.

Nixtamalization is a method by which the **ancient peoples of Mesoamerica like the Maya used to soak and cook their maize in an alkaline solution** and make it more **palatable, nutritious and non-toxic**. Nixtamal is derived from the Nahuatl word nextamalli, meaning 'nixtamalised maize dough'. A study has thrown light on how Maya **people fortified their maize with the chemical process known as 'nixtamalization'** and also built indoor toilets in pits they dug into the limestone bedrock of the Yucatan peninsula in Mesoamerica.

Source: <https://www.sciencedirect.com/topics/food-science/nixtamalization>

<https://www.downtoearth.org.in/news/food/new-evidence-emerges-on-how-mayas-fortified-maize-built-indoor-toilets-83260>

Q.16) Which of the following statement is correct regarding the election of the President of India?

- All doubts and disputes related to the election of the President are decided by a special body constituted by the Central Government.
- The Value of vote of every MLA is same irrespective of the state, so as to maintain uniformity among states.
- When a state legislative assembly stands dissolved, Rajya Sabha members from that state can vote as proxy for the respective state.
- The total value of votes of all elected MLAs of all the states and Union Territories taken together is equal to total value of votes of all elected Members of Parliament.

Ans) d

Exp) Option d is the correct answer.

Option a is incorrect: All doubts and disputes in connection with election of the President are **inquired into and decided by the Supreme Court whose decision is final**. The election of a person as President cannot be challenged on the ground that the electoral college was incomplete (ie, existence of any vacancy among the members of electoral college).

Option b is incorrect: Value of vote of each MLA differs from state to state. It maintains uniformity of state representation. Every elected member of the legislative assembly of the state shall have as many votes as there are multiples of one thousand in the quotient obtained by dividing the population of the state by the total number of the elected members of the assembly.

Option c is incorrect: Where an assembly is dissolved, the members cease to be qualified to vote in the presidential election, even if fresh elections to the dissolved assembly are not held before the presidential election. There is no such provision of proxy voting for any member of electoral college in the election of the President of India.

Option d is correct: There has been maintained a parity between the states as a whole and union on the other side. Every elected member of either House of Parliament shall have such number of votes as may be obtained by dividing the total number of votes assigned to members of the legislative assemblies of the states by the total number of the elected members of both the houses of Parliament. This also means that total value of votes of all elected MLAs (including elected members of assembly of UTs) is equal to total value of votes of elected MPs.

Knowledge Base: The electoral college consists of elected members of both the houses of parliament, elected members of legislative assemblies of the states and elected members of legislative assembly of the union territories of Delhi and Puducherry.

Laxmikanth Chapter 17 President

<https://www.deccanherald.com/content/621283/anti-defection-law-does-not.html>

Q.17) Which of the following can be the advantages of system of 'proportional representation' over the 'first past the post' electoral system?

1. Compared to first past the post system, Proportional representation can provide fairer and better representation to minority sections of the population.
2. There is a much higher chance of electing a stable government under Proportional representation compared to first past the post system.

Select the correct answer using the code given below:

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) a

Exp) Option a is the correct answer.

Statement 1 is correct: First past the post system or simple majority system does not secure due representation to small groups or minority sections of the population as one can easily get elected with support of majority votes. On the other hand, under proportional representation almost all sections of people get due representation according to their population share.

Statement 2 is incorrect: Under the proportional representation electoral system there are high chances of the election of several parties with no one party having a majority in the legislature. This may result in unstable government and uncertainty as parties trade with each other to form coalitions and alliances. On the other hand, there is less likelihood of a proliferation of minor parties under first past the post system. This leads to the higher chances of formation a stable government under first past the post system. Hence the statement is incorrect.

Knowledge Base: The Constitution provides the system of proportional representation in the case of Rajya Sabha and system of territorial representation (First-past-the-post system) for the election of members to the Lok Sabha.

Source: <https://www.thehindu.com/opinion/op-ed/what-is-first-past-the-post-system/article26502467.ece>

Laxmikanth Chapter 17 President

Q.18) With reference to removal of Governor of a state, consider the following statements:

1. The President can remove a Governor even without granting him an opportunity to be heard.
2. As per the Constitution, the Governor of a state can only be removed on the ground of violation of the Constitution.
3. President must remove the Governor if the state legislature passes a resolution to that effect with special majority.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) 2 and 3 only
- d) 1 and 3 only

Ans) a

Exp) Option a is the correct answer.

As per Art. 156, A Governor shall hold office for a term of five years from the date on which he enters upon his office. However, this term of five years is subject to the pleasure of the President. **Further, he can resign at any time by addressing a resignation letter to the President.**

Statement 1 is correct: The President, in effect the central government, has the power to remove a Governor at any time without giving him or her any reason, and **without granting an opportunity to be heard.** However, this power cannot be exercised in an arbitrary, capricious or unreasonable manner. The power of removing Governors should only be exercised in rare and exceptional circumstances for valid and compelling reasons.

Statement 2 is incorrect: The Constitution does not lay down any grounds upon which a governor may be removed by the President.

Statement 3 is incorrect: There is no such provision in the Constitution. The state government is not involved in the removal process as per the provisions of the Constitution. **However, this has been recommended by the Punchhi Commission (2010) that** he or she should be removed only by a resolution of the state legislature.

Source: Lakshikant Chap 30

<https://prsindia.org/theprsblog/removal-of-governors-what-does-the-law-say>

<https://indianexpress.com/article/explained/everyday-explainers/dmk-wants-tamil-nadu-guv-gone-how-a-governor-can-be-sacked-8249686/>

<https://prsindia.org/theprsblog/removal-of-governors-what-does-the-law-say?page=125&per-page=1>

Q.19) The Sarkaria Commission (1983) has made certain recommendations regarding the role of Governor. Which among the following are those recommendations?

1. The Governor should be a person who has been very active in politics in recent past.
2. The Vice-President of India and the Speaker of the Lok Sabha should be consulted by the Prime Minister while selecting a Governor.
3. A comprehensive set of guidelines should be framed for the exercise of the discretionary powers of the Governor.

Which of the statements given above is/ are correct?

- a) 2 only
- b) 2 and 3 only
- c) 3 only
- d) 1 and 2 only

Ans) a

Exp) Option a is the correct answer.

The Sarkaria Commission was set up in 1983 to examine the centre-state relationship on various matters and to suggest changes within the framework of the Constitution. The final report consisted of 247 recommendations across 19 chapters.

Statement 1 is incorrect: The Sarkaria Commission has **recommended a set of criteria for appointment of a person to the Office of Governor**. According to the report:

- 1) He should be eminent in some walk of life
- 2) He should be a person from outside the State
- 3) He should be a detached figure and not too intimately connected with the local politics of the State
- 4) **He should be a person who has not taken too great a part in politics generally and particularly in the recent past** (Hence, the given statement is incorrect).

The commission also recommended that person belonging to the minority groups should continue to be given a chance while keeping the above criteria in mind.

Statement 2 is correct: The Sarkaria Commission recommended that **the Vice-President of India and the Speaker of the Lok Sabha should be consulted by the Prime Minister in selecting a Governor**. According to the Commission, such consultation will greatly enhance the credibility of the selection process. Further it recommended that **the consultation should be confidential** so as not to deter the eminent persons from making themselves available for appointment of Governors. **Statement 3 is incorrect: The Commission recommended that the discretionary powers of the Governor as contained in Article 163 should be left untouched.** The commission noted that **it would be neither feasible nor desirable to formulate a comprehensive set of guidelines for the exercise of the discretionary powers of the Governor** (Hence, the given statement is incorrect). A Governor should be free to deal with a situation according to his best judgement, keeping in view the Constitution and the law and the conventions of the Parliamentary system. Source: <http://interstatecouncil.nic.in/wp-content/uploads/2015/06/CHAPTERIV.pdf>

Q.20) Which among the following can be used as feed in the biomass-based boiler technology?

1. Paddy Straw
2. Paddy Husk
3. Crop Stubble
4. Mustard

Select the correct answer using the code given below:

- a) 1 and 3 only
- b) 2 and 4 only
- c) 3 and 4 only
- d) 1, 2, 3 and 4

Ans) d

Exp) Option d is the correct answer.

Recently, a **new biomass-based boiler technology** was launched in **India (Kuruksheetra, Haryana)** that claims to **accommodate all kinds of agricultural residue as fuel** and can be greener and may also help **reduce the burden of stubble burning**. This new **Denmark-based technology** allows the plant to fire a **wide range of fuels with less fuel preparation** and handling. This combustion technology is advantageous because of the **vibrating grate**. The **grate of a steam boiler** supports the solid fuel in the furnace. Vibrating grate **accommodates biomass of every density**.

The **existing conventional boilers are designed only for specific types of agro residue** and thus restrict the biomass contribution in energy generation. **However vibrating grate boiler technology can be a**

solution for firing any kind of biomass thus all biomass can be the feed including the options given above i.e., **Paddy Straw, Paddy Husk, Crop Stubble and Mustard.**

Source: <https://www.downtoearth.org.in/news/energy/biomass-electricity-new-boiler-technology-enables-use-of-all-agricultural-residue-83113>

Q.21) In which of the following conditions, the Vice-President of India can act as the President or discharge the functions of the President?

1. When the President resigns from his/her post.
2. When there is a delay in conducting the election of new President.
3. When the post becomes vacant due to death of the President.
4. When the President is unable to discharge his functions due to absence or illness.

Select the correct answer using the code given below:

- a) 2 only
- b) 1 and 3 only
- c) 1, 3 and 4 only
- d) 1, 2, 3 and 4

Ans) c

Exp) Option c is the correct answer.

Statements 1 and 3 are correct: Article 65 of Constitution of India provides for the Vice-President to act as President of India or to discharge his functions during casual vacancies in the office, or during the absence, of President.

- 1) In the event of the occurrence of any vacancy in the office of the President by reason of **his death, resignation or removal**, or otherwise, the Vice-President shall act as President until the date on which a new President elected in accordance with the provisions of this Chapter to fill such vacancy enters upon his office.

Statement 4 is correct: When the President is unable to discharge his functions owing to absence, illness or any other cause, the Vice-President shall discharge his functions until the date on which the President resumes his duties.

Statement 2 is incorrect: In case of any delay in conducting the election of a new President by any reason, the outgoing President continues to hold office (beyond his term of five years) until his successor assumes charge.

Knowledge Base: In case the office of Vice-President is vacant, the Chief Justice of India acts as the President. When President Dr. Zakir Hussain died in May 1969, the then Vice-President, V.V. Giri was acting as the President. Soon after V.V. Giri resigned to contest the election of the President. Then the Chief Justice of India, M. Hidayatullah worked as the officiating President.

Laxmikanth Chapter 17 President

Q.22) The President cannot use the Suspensive Veto in case of which of the following types of bills?

1. When the bill is sent back to the Parliament by the President and the same is passed again by Parliament, with or without changes, and presented again to the President.
2. When the bill presented to President is a Money Bill.
3. When a Constitutional Amendment Bill comes to the President for his consideration.
4. When state bills are reserved for the President's consideration.

Select the correct answer using the code given below:

- a) 1, 2 and 3 only
- b) 1, 2 and 4 only
- c) 1, 3 and 4 only
- d) 1 and 2 only

Ans) a

Exp) Option a is the correct answer.

Suspensive Veto means the power of the President to return a bill for reconsideration of the Parliament. However, if the bill is passed again by Parliament, with or without changes, and presented to the President, the President is required to grant his assent to the bill.

Statement 1 is correct: When the bill is sent back to the parliament by the President and if the same is passed again by Parliament, with or without changes, and presented again to the President, the President is required to grant his assent to the bill. Hence in such case the President cannot use the suspensive veto.

Statement 2 is correct: In the case of money bills, the President does not have a suspensive veto. The President may either grant or withhold his approval to a money measure, but he may not return it to Parliament for reconsideration. Normally, the President gives his assent to the money bill as it is introduced in the Parliament with his previous permission.

Statement 3 is correct: The president does not have any power to use suspensive veto in case of “**the constitutional amendment bills**”. The amendment bills related to the constitution can be amended with the sole intervention of members of parliament by voting procedure. Therefore, it can be noticed that in case of “**the constitutional amendment bills**”, suspensive veto cannot be applied.

Statement 4 is incorrect: The President is not bound to ratify the state bill. The President can withhold his assent to such bills not only in the first instance but also in the second instance. When the President returns a state bill and if the bill is passed again by the state legislature with or without amendments and presented again to the President for his assent, the President is not bound to give his assent to the bill. This means that the state legislature cannot override the suspensive veto power of the President.

Knowledge Base: The President also enjoys Absolute veto (withholding of assent) and Pocket veto (taking no action on bills passed by legislature). There is no qualified veto in case of Indian President (which can be overridden by the legislature with a higher majority).

Q.23) The Governor submits reports of which of the following bodies to the State Legislature?

1. The State Finance Commission
 2. The State Information Commission
 3. The State Public Service Commission
 4. The State Human Rights Commission
- Select the correct answer using the code given below.

- a) 1 and 2 only
- b) 1 and 3 only
- c) 2, 3 and 4 only
- d) 1, 3 and 4 only

Ans) b

Exp) Option b is the correct answer.

Usually, Reports of Constitutional Bodies are submitted to the Governor who lays those reports before the state legislature.

Options 1 and 3 are correct: Governor lays the reports of the **State Finance Commission, the State Public Service Commission** and the Comptroller and Auditor General relating to the accounts of the state, before the state legislature.

Option 4 is incorrect: In general, reports of Statutory Bodies are submitted to State Government. For example, the State Human Rights Commission submits its annual or special reports to the state government. These reports are laid before the state legislature, along with a memorandum of action taken on the recommendations of the Commission and the reasons for non-acceptance of any of such recommendations.

Option 2 is incorrect: Similarly, the reports of the **State Information Commission** are submitted an annual report to the State Government on the implementation of the provisions of this Act.

Source: Lakshmikant Chap 30, 56, 58.

Q.24) Consider the following statements regarding pardoning power of the President of India:

1. When the punishment or sentence is for an offence against Union Law.
2. When the punishment or sentence is by a court martial (military court).
3. In case of a death sentence.

The Constitution empowers the President to exercise the pardoning powers in which of the above given circumstances?

- a) 1 and 2 only
- b) 1 and 3 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

Under **Article 72 of the Constitution**, the President shall have the power to grant pardons, reprieves, respites or remissions of punishment or to suspend, remit or commute the sentence of any person convicted of any offence where the sentence is a sentence of death.

The pardoning power of the President is independent of the Judiciary. But the President while exercising this power, does not sit as a court of appeal. The object of conferring this power on the President to keep the door open for correcting any judicial errors in the operation of law and to afford relief from a sentence, which the President regards as unduly harsh.

Options 1,2 and 3 are correct: The President grants pardons to persons who have been tried and convicted of any offense in all cases where the:

- 1) Punishment or sentence is for an offense against a Union Law or the offense made under Concurrent Lists (A regards laws made under Concurrent Lists; the jurisdiction of the President shall be concurrent with that of Governor) **(Option 1 is correct)**
- 2) Punishment or sentence is by a court martial (military court); and **(Option 2 is correct)**
- 3) The sentence is a sentence of death **(Option 3 is correct)**

Knowledge Base: The President can grant pardons, reprieves, respites and remissions of punishment or suspend, remit and commute the sentence of any person convicted of any offence. Only the President can pardon sentence inflicted by court martial.

Laxmikant Chapter 17 President

Q.25) Consider the following pairs:

Initiatives/ Reports	Released/ published by
1. Digital News Report	Reuters Institute for the Study of Journalism
2. Dekho Apna Desh Initiative	Ministry of Culture
3. Post-2020 Global Biodiversity Framework	Global Environment Facility

Which of the pairs given above is/are correct?

- 1 only
- 1 and 3 only
- 2 only
- 2 and 3 only

Ans) a

Exp) Option a is the correct answer.

Pair 1 is correct: Reuters Institute for the Study of Journalism has released the **Digital News Report, 2022**. The report gives insights about digital news consumption based on a YouGov survey of over 93,000 online news consumers in 46 markets covering half of the world's population. Some of the **highlights of the report** are:

- 1) People are **trusting news content less** and less.
- 2) Consumption of **traditional news media declined** in nearly all the countries surveyed.
- 3) Proportion of news consumers who say that they “**avoid news**” has **risen sharply** across countries with the report describing the phenomenon as “selective avoidance”.
- 4) **India** registered a **small increase in the level of trust** with 41% trusting news overall.

Pair 2 is incorrect: Dekho Apna Desh is an initiative of the **Ministry of Tourism (and not the Ministry of Culture)** launched in 2020. The primary objective is to promote domestic tourism in India which is intended to enhance tourist footfalls in places of tourist interest so as to help develop the local economy.

Pair 3 is incorrect: The post-2020 framework is **set to be finalised** at the Conference of the Parties to the **Convention on Biological Diversity (CoP15)**. The aim of the framework is to implement broad-based action to bring about a transformation in society's relationship with biodiversity. The framework has 21 action-oriented targets for urgent action over the decade to 2030.

Knowledge Base:

post-2020 framework include:

- 1) To bring at **least 30% of land and sea** under the world's **protected areas**.
- 2) A **50% greater reduction** in the rate of **introduction of invasive alien species**, and controls or eradication of such species to eliminate or reduce their impacts.
- 3) **Reducing nutrients lost** to the environment by at least half, and pesticides by at least two-thirds, and eliminating the discharge of plastic waste.
- 4) **Nature-based contributions** to global climate change mitigation efforts of at least 10 GtCO₂e (gigatonnes of equivalent carbon dioxide) per year.
- 5) A **\$200 billion increase** in international financial flows from all sources to developing countries.

Q.26) With reference to powers and functions of Governor of a state, consider the following statements:

1. S/he appoints the Advocate General of respective state and determines his/her remuneration.
2. S/he decides on the question of disqualification of members of the state legislature in consultation with the State Election Commission.
3. S/he is consulted by the Chief Justice of India while appointing the judges of High Court of the concerned state.
4. S/he is the ex officio Chancellor of the state universities.

Which of the statements given above are correct?

- a) 2 and 4 only
- b) 1 and 3 only
- c) 1 and 4 only
- d) 1, 2 and 4 only

Ans) c

Exp) Option c is the correct answer.

Statement 1 is correct: He appoints the advocate general of a state and determines his remuneration.

The advocate general holds office **during the pleasure of the governor.**

Statement 2 is incorrect: He decides on the question of disqualification of members of the state legislature in consultation with the Election Commission of India (not State Election Commission).

Statement 3 is incorrect: He is consulted by the President (Not Chief Justice of India) while appointing the judges of the concerned state's High Court.

Statement 4 is correct: The Governor of the state is the ex-officio chancellor of the State universities.

The Governor's powers and functions as the Chancellor are laid out in the statutes that govern the universities under a particular state government. While under the Central Universities Act, 2009, and other statutes, the **President of India shall be the Visitor of a central university.** Chancellors in central universities are titular heads, who are appointed by the President in his capacity as Visitor. The Vice-Chancellors too are appointed by the Visitor from panels of names picked by search and selection committees formed by the Union government.

Source: Laxmikanth chap 30

<https://indianexpress.com/article/explained/explained-kerala-row-governors-role-in-universities-7669572/>

Q.27) With reference to Proclamation of emergency under Article 352, consider the following statements:

1. Proclamation of Emergency must be revoked when either house of Parliament passes a resolution.
2. A resolution approving the proclamation of emergency must be passed by the simple majority of the Parliament.
3. Both the houses of the Parliament must approve the proclamation within a specified time period.

Which of the statements given above are **incorrect**?

- a) 1, 2 and 3
- b) 2 and 3 Only
- c) 1 and 3 Only
- d) 1 and 2 Only

Ans) d

Exp) Option d is the correct answer.

Statement 1 is incorrect: President must revoke a proclamation **if the Lok Sabha (Only) passes a resolution disapproving its continuation.** This safeguard was introduced by the 44th Amendment Act of 1978.

Statement 2 is incorrect: Every resolution approving the proclamation of emergency, or its **continuance must be passed by either House of Parliament by a special majority**, that is, majority of the total membership of that house, and a majority of not less than two-thirds of the members of that house present and voting

Statement 3 is correct: The proclamation of Emergency must be approved by both the Houses of Parliament **within one month from the date of its issue.** Originally, the period allowed for approval by the Parliament was two months but was reduced by the 44th Amendment Act of 1978.

Q.28) With reference to the effects of a National Emergency on Centre –State relations, consider the following statements:

1. The state government is automatically suspended.
2. President can issue ordinances on state subjects if Parliament is not in session.
3. The laws made by Parliament on the state subjects during a National Emergency continue to be operative till they are repealed by the respective state legislatures.

Which of the above given statements is/are correct?

- a) 1 and 2 only
- b) 2 only
- c) 1 and 3 only
- d) 2 and 3 only

Ans) b

Exp) Option b is the correct answer.

While a proclamation of Emergency is in force, the normal fabric of the Centre–state relations undergoes a basic change. This can be studied under three heads, namely, **executive, legislative and financial.**

Statement 1 is incorrect: During a national emergency, the **executive power** of the Centre extends to directing any state regarding the manner in which its executive power is to be exercised. The Centre becomes entitled to give executive directions to a state on ‘any’ matter. Thus, the state governments are brought under the complete control of the Centre, **though they are not suspended.**

Statement 2 is correct: While a proclamation of national emergency is in operation, the President can issue ordinances on the state subjects also, if the Parliament is not in session.

Statement 3 is incorrect: The laws made by Parliament on the state subjects during a National Emergency **become inoperative six months after the emergency has ceased to operate.**

Q.29) Consider the following statements about various legal provisions regarding the state executive:

1. A Chief Minister convicted of any offence is disqualified from holding his office with immediate effect.
2. The Governor cannot retain a Minister in the Council of Ministers against the wishes of the Chief Minister.

3. The Governor can sanction the prosecution of Ministers under the Prevention of Corruption Act, 1988.

Which of the statements given above is/ are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 2 only

Ans) b

Exp) Option b is the correct answer.

Statement 1 is incorrect: Section 8 of the Representation of the People Act, 1951 provides for disqualification of Member of Parliament (MPs) and Member of Legislative Assembly (MLA) on conviction of certain offences. It classifies offences under different categories. Offences like promoting enmity among different groups on the grounds of religion, race, language etc. would lead to immediate disqualification if conviction results in imprisonment (irrespective of sentence period). On the other hand, there are grounds where disqualification provisions are attracted only if the sentence for imprisonment is for more than 6 months or 2 years. Hence, it is incorrect to say that conviction for any offence will lead to disqualification.

Statement 2 is correct: Though, a Minister in State Government holds office till the pleasure of the Governor. However, **practically it is not the discretion of the Governor and he is bound by the aid and advice of the Chief Minister in this regard.** The Chief Minister decides whom to retain and whom to oust. Thus, Governor cannot retain a minister against the wishes of the Chief Minister.

Statement 3 is correct: The Governor can sanction for the prosecution of the Minister but the proof for the same needs to be satisfactory. There are both kinds of cases when Governor has sanctioned prosecution, that is, **on the advice of the council of ministers as well as without such advice.** For example, in **M.P. Special Police Establishment vs. State of M.P., 2005**, Governor sanctioned for the prosecution of Chief Minister under the Prevention of Corruption Act **without the aid and advice of the Council of Ministers. Supreme Court upheld the validity of such decision of the Governor.**

Knowledge Base: The disqualification provisions under section 8 of Representation of People Act, 1951 can be classified under the following categories:

- 1) **Offences under section 8(1)** which deals with promoting enmity between different groups on the grounds of religion, race, place of birth, residence, language etc., offence of undue personation at an election, offences relating to rape, offences under Foreign Exchange Management Act (FEMA) etc. **and if convicted for imprisonment shall be disqualified with immediate effect**
- 2) **Offences under section 8(2)** like hoarding, profiteering, adulteration of food or drugs, under the provisions of Dowry Prohibition Act (1961) **shall be disqualified only if the imprisonment is for 6 months or more.**
- 3) **Offences under section 8(3) require imprisonment of at least 2 years for attracting disqualification provisions.** These include any sentence other than for offences related to section 8(1) and 8(2) above.

Q.30) Consider the following options with regards to the features of the Agni path Scheme:

1. The scheme is being implemented for the recruitment to commissioned as well as non-commissioned ranks in the armed forces of India.
2. The personnels recruited under this scheme can serve only for a maximum period of 2 years.
3. The recruits under this scheme are entitlement to gratuity and pensionary benefits.

Which of the above given statements is/are correct?

- a) 2 only
- b) 1 and 3 only
- c) 2 and 3 only
- d) None of the above

Ans) d

Exp) Option d is the correct answer.

Recently, the government has unveiled **Agnipath scheme for recruiting soldiers across the Three services (Army, Navy and Airforce).**

Statement 1 is incorrect: The scheme is only for the recruitment of personnel below officer ranks (those who do not join the forces as commissioned officers).

Statement 2 is incorrect: The Agnipath Scheme allows patriotic and motivated youth to serve in the Armed Forces for a period of four years. Under this scheme, the youth joining the army will be called Agniveer. Youth will be able to be recruited into the army for a short duration. Under the new scheme, around 45,000 to 50,000 soldiers will be recruited annually, **and most will leave the service in just four years.** During this period of service to the nation, the Agniveers will be imparted with various military skills and experience, discipline, physical fitness, leadership qualities, courage and patriotism. Post this stint of four years, the Agniveers will be infused into the civil society where they can contribute immensely towards the nation building process.

Statement 3 is incorrect: There shall be no entitlement to gratuity and pensionary benefits to the Agniveers. Agniveers will be provided non-contributory Life Insurance Cover of Rs 48 lakh for the duration of their engagement period in the Indian Armed Forces. In **case of death, the payout will be over Rs 1 crore,** including pay for the unserved tenure. Upon the completion of the 4-years of service, **a one-time 'Seva Nidhi' package of Rs 11.71 lakhs will be paid to the Agniveers** that will include their accrued interest thereon.

<https://pib.gov.in/PressReleasePage.aspx?PRID=1833747>

<https://pib.gov.in/PressReleasePage.aspx?PRID=1834269>

Q.31) With reference to Groups of Ministers, which of the following statements is/are correct?

1. They are ad-hoc bodies constituted to look into different issues.
2. They are set up under the Government of India (Allocation of Business) Rules, 1961.
3. No Group of Ministers has been set up after 2014.

Select the correct answer using the code given below.

- a) 1 only
- b) 1 and 2 only
- c) 3 only
- d) 1, 2 and 3

Ans) a

Exp) Option a is the correct answer.

These are ad hoc bodies formed to give recommendations to the cabinet on certain emergent issues and critical problem areas.

Statement 1 is correct: Groups of Ministers are ad hoc bodies formed to give recommendations to the cabinet on certain emergent issues and critical problem areas. Ministers heading the concerned ministries are inducted into the relevant Group of Ministers and when the advice is crystallised, they are disbanded.

Statement 2 is incorrect: A Group of Ministers gets appointed under the Government of India's **Transaction of Business Rules, 1961 (not Government of India (Allocation of Business) Rules, 1961)**, which provides that 'Ad hoc Committees of Ministers including Group of Ministers may be appointed by the Cabinet, or by the Prime Minister for investigating & reporting to the Cabinet on such matters as may be specified.'

Statement 3 is incorrect: The present government abolished all ministerial groups in 2014 after coming into power. **However, the government again set up Group of Ministers in new form.** Now, in their new avatar, they are "informal" and issue-specific, constituted and dissolved on the basis of immediate requirements, without much paperwork. This has resulted in quicker decision making, and there are no elaborate mechanisms. **It means, Group of Ministers are formed even after 2014, which makes statement 3 incorrect.** For example, a **Group of Ministers chaired by the Home Minister** was convened to create greater synergy between ministries on the Juvenile Justice (Care and Protection of Children) Amendment Bill, 2018.

Source: https://www.business-standard.com/article/politics/goms-come-back-in-informal-avatar-116071800003_1.html

[https://arthapedia.in/index.php/Empowered_Group_of_Ministers_\(EGoM\)](https://arthapedia.in/index.php/Empowered_Group_of_Ministers_(EGoM))

Q.32) With reference to Articles 358 and 359 of the Constitution of India, consider the following statements:

1. Article 358 operates only when the Emergency is declared on the ground of armed rebellion.
2. Article 359 authorizes President to suspend Fundamental rights including those provided under Articles 20 and 21.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) d

Exp) Option d is the correct answer.

Articles 358 and 359 describe the effect of a National Emergency on the Fundamental Rights. Article 358 deals with the suspension of the Fundamental Rights guaranteed by Article 19, while Article 359 deals with the suspension of other Fundamental Rights (except those guaranteed by Articles 20 and 21).

Statement 1 is incorrect: Article 358 operates only in case of External Emergency (that is, when the emergency is declared on the grounds of war or external aggression) and not in the case of Internal Emergency (i.e., when the Emergency is declared on the ground of armed rebellion). Article 359, on the other hand, operates in case of both External Emergency as well as Internal Emergency.

Statement 2 is incorrect: Article 359 authorizes the president to suspend the right to move any court for the enforcement of Fundamental Rights during a National Emergency. This means that under Article 359, the Fundamental Rights as such are not suspended, but only their enforcement. The said rights are theoretically alive but the right to seek remedy is suspended. **Further, the 44 Amendment Act mandates that the President cannot suspend the right to move the court for the enforcement of Fundamental Rights guaranteed by Article 20 and 21.**

Q.33) "In India, there is no provision in the Constitution for the system of legal responsibility of a minister". What does the above given statement mean?

- a) Order of the President for a public act are not countersigned by a minister.
- b) Ministers are not responsible to the head of the state.

- c) No criminal cases can be initiated against the minister during the session of the house.
 d) Ministers are not collectively responsible to the Lok Sabha.

Ans) a

Exp) Option a is the correct answer.

Option a is correct: In Britain, every order of the King for any public act is countersigned by a minister. If the order is in violation of any law, the minister would be held responsible and would be liable in the court. The legally accepted phrase in Britain is, "The king can do no wrong." Hence, he cannot be sued in any court. **Whereas in India, there is no provision in the Constitution for the system of legal responsibility of a minister. It means, it is not required that an order of the President for a public act should be countersigned by a minister.** Moreover, the courts are barred from enquiring into the nature of advice rendered by the ministers to the president.

Source: Lakshmikant Chap 20

Q.34) With reference to the effects of President's rule in India, consider the following statements:

1. The President can take powers vested in the Governor or any other executive authority in the state.
2. After the end of the President's rule, laws made by the President during the President's rule cannot be repealed or altered by the state legislature.

Select the correct answer using the code given below:

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) a

Exp) Option a is the correct answer.

Statement 1 is correct: The President can take up the functions of the state government and powers vested in the governor or any other executive authority in the state.

Statement 2 is incorrect: A law made by the Parliament or President, or any other specified authority **continues to be operative even after the President's Rule.** This means that the period for which such a law remains in force is not coterminous with the duration of the proclamation. **But it can be repealed or altered or re-enacted by the state legislature.**

Source) Laxmikant Chapter 16

Q.35) Which among the following can be considered as Air Sports as per National Air Sport Policy 2022?

1. Aerobatics
2. Para Motoring
3. Skydiving
4. Ballooning
5. Amateur-built and experimental aircraft

Select the correct answer using the code given below:

- a) 1, 2 and 5 only
- b) 1, 2 and 3 only
- c) 3, 4 and 5 only
- d) 1, 2, 3, 4 and 5

Ans) d

Exp) Option d is the correct answer.

Option 1, 2, 3, 4 and 5 are correct: Recently, the Ministry of Civil Aviation has launched National Air Sport Policy 2022 (NASP 2022). NASP 2022 lays out the vision of making India as one of the top sports nations by 2030, by providing a safe, affordable, accessible, enjoyable and sustainable air sports ecosystem in India.

The policy will cover the following air sports in India: -

- 1) **Aerobatics**
- 2) Aero modeling and model rocketry
- 3) **Amateur-built and experimental aircraft**
- 4) **Ballooning**
- 5) Drones
- 6) Gliding and powered gliding
- 7) Hang gliding and powered hang gliding
- 8) **Parachuting (including skydiving, BASE jumping and wing suits etc.)**
- 9) Paragliding and para motoring (including powered parachute trikes etc.)
- 10) Powered aircraft (including ultra-light, micro light and light sports aircraft etc.)
- 11) Rotorcraft (including autogyro)

India has the potential to be among the leading nations in the world of air sports. It has a large geographical expanse, diverse topography and fair-weather conditions.

Source: <https://indianexpress.com/article/explained/explained-india-new-policy-air-sports-civil-aviation-ministry-7964609/>

<https://pib.gov.in/PressReleasePage.aspx?PRID=1831844>

Q.36) Which one of the following Articles of the Constitution of India was referred to as 'dead letter' by Dr. B R Ambedkar?

- a) Article 356
- b) Article 352
- c) Article 34
- d) Article 360

Ans) a

Exp) Option a is the correct answer.

Since 1950, the President's Rule has been imposed on more than 100 occasions, that is, on an average twice a year. Further, on a number of occasions, the President's Rule has been imposed in an arbitrary manner for political or personal reasons. Hence, Article 356 has become one of the most controversial and most criticised provision of the Constitution.

Dr BR Ambedkar, while replying to the critics of **Article 356 (President's rule)** provision in the Constituent Assembly, hoped that the drastic power conferred by Article 356 would remain a **dead-letter'** and would be used only as a measure of last resort. He also said, if the Centre is to interfere in the administration of provincial affairs, it must be under some obligation which the Constitution imposes upon the Centre. The proper thing we ought to expect is that **such Articles will never be called into operation and that they would remain a dead-letter.**

Q.37) With reference to the Vice-President of India, consider the following statements:

1. The office of the Indian Vice-President is modelled on the lines of the office of Canadian Vice-President.
2. A motion for the removal of Vice president can only be introduced in the Rajya Sabha.
3. The Open ballot system is followed for the election of the Vice-president.

Which of the statements given above is/are **incorrect**?

- a) 1 only
- b) 1 and 3 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

The Vice-President occupies the second highest office in the country. He is accorded a rank next to the President in the official warrant of precedence.

Statement 1 is incorrect: The office of the Indian Vice-President is modelled on the lines of the American Vice-President (not Canadian Vice-President). He acts as the **ex-officio Chairman of Rajya Sabha**. In this respect, he resembles the American vice-president who also acts as the **Chairman of the Senate** - the Upper House of the American legislature. **However, there is a difference.** The American Vice-President succeeds to the presidency when it falls vacant, and remains President for the unexpired term of his predecessor. The Indian Vice-President, on the other hand, does not assume the office of the President when it falls vacant for the unexpired term. He merely serves as an acting President until the new President assumes charge.

Statement 2 is correct: The Vice-President can be removed from the office before completion of his term. A formal impeachment is not required for his removal. **He can be removed by a resolution passed by a majority of all the then members of the Rajya Sabha and agreed to by the Lok Sabha.** This means that this resolution should be passed in the Rajya Sabha by an effective majority and in the Lok Sabha by a simple majority. Further, **this resolution can be introduced only in the Rajya Sabha and not in the Lok Sabha.** But, no such resolution can be moved unless at least 14 days' advance notice has been given. Notably, no ground has been mentioned in the Constitution for his removal.

Statement 3 is incorrect: The Vice-President's election is like that of the President's election. It is held in accordance with the system of proportional representation by means of the single transferable vote and the **voting is by secret ballot (not by open ballot system).**

Source: Lakshmikant chap 18

Q.38) With reference to the Union Council of Ministers in India, which of the following statements is/are correct?

1. A minister cannot become a member of any of the Parliamentary Committee.
2. Every minister shall have the right to speak and take part in the proceedings of either House of Parliament irrespective of their membership in that house.
3. Prime Minister has disciplinary control over the members of the Council of Ministers.

Select the correct answer using the code given below.

- a) 2 and 3 only
- b) 1 only
- c) 2 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

As per Art. 74, there shall be a Council of Ministers with the Prime Minister at the head to aid and advise the President who shall, in the exercise of his functions, act in accordance with such advice.

Statement 1 is incorrect: A minister can become a member of some of the Parliamentary Committees.

Statement 2 is correct: A minister who is a member of one House of Parliament has the right to speak and to take part in the proceedings of the other House also.

Statement 3 is incorrect: Prime minister or a chief minister **does not have** disciplinary control over the members of the council of ministers and it is not possible at all times for them to take the whip whenever a disparaging statement is made by a minister.

Source: Lakshmikant Chap 20

<https://timesofindia.indiatimes.com/india/pm-cm-do-not-have-disciplinary-control-over-members-of-council-of-ministers-sc/articleshow/96719110.cms>

Q.39) In order to extend President's rule in a state beyond the period of one year, which of the following conditions must be satisfied?

1. A Proclamation of National Emergency is in operation in the whole or any part of the state.
2. The Election Commission certifies that elections cannot be conducted in the state on account of difficulties.
3. The state has been declared as a disturbed area by the Central Government.

Select the correct answer from the code given below:

- a) 1 only
- b) 2 and 3 only
- c) 1 and 2 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

The 44th Amendment Act of 1978 introduced a new provision to put restraint on the power of Parliament to extend a proclamation of President's Rule beyond one year. Thus, it provided that, beyond one year, the President's Rule can be extended by six months at a time only when the following two conditions are fulfilled:

Statement 1 is correct: a proclamation of National Emergency should be in operation in the whole of India, or in the whole or any part of the state; and

Statement 2 is correct: The Election Commission must certify that the general elections to the legislative assembly of the concerned state cannot be held on account of difficulties.

Statement 3 is incorrect: 44th amendment act of 1978 provides only two conditions for extension of president's rule beyond one year of which **declaring state as a disturbed area (Done under Armed Force Special Power Act 1958) by the central Government is not a valid condition.**

Q.40) Consider the following statements:

1. In the Environment Performance Index-2022, India was ranked last among 180 countries.
2. In the QS World University Ranking 2023, there is no Indian institute among the top 100 institutions.

Which of the above given statements is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) c

Exp) Option c is the correct answer.

Statement 1 is correct: In the recently released **Environment Performance Index-2022, India was at the bottom among 180 countries.** The Environment Performance Index (EPI) is an **international ranking**

system that measures environmental health and sustainability of countries. The EPI, a biennial index, was started in 2002 as Environmental Sustainability Index by the **World Economic Forum in collaboration with the Yale Center for Environmental Law and Policy and the Columbia University** Center for International Earth Science Information Network.

Statement 2 is correct: In the **QS World University Ranking 2023**, there is **no Indian institute among the top 100 institutions**. The 'QS World University Rankings' is an annual publication of university rankings which comprises the global overall and subject rankings. The highest ranking was achieved by IISc Bangalore at rank 155.

INDIA'S BEST		
Top Indian institutes in QS World University Rankings 2023		
2023	Institute	2022
155	IISc Bangalore	186
172	IIT Bombay	177
174	IIT Delhi	185
250	IIT Madras	255
264	IIT Kanpur	277
270	IIT Kharagpur	280
369	IIT Roorkee	400
384	IIT Guwahati	395

Q.41) Which of the following statements is/ are correct regarding the judicial powers of the Governor of a state?

1. He appoints the judges of the State High Court and the District Courts.
2. A death sentence given by a District Court must be confirmed by the Governor.

Select the correct answer from the codes given below:

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) d

Exp) Option d is the correct answer.

Statement 1 is incorrect: The appointment powers of Governor regarding various judicial positions are:

- 1) He makes appointments, postings and promotions of the **district judge** in consultation with the State High Court.
- 2) He appoints **persons to the judicial services of the state** (other than District Judge) in consultation with the State Public Service Commission (SPSC) and the state high court.

He does not make appointment of the High Court Judges. They are appointed by the President of India. However, while making such appointment, the Governor of the state is consulted by the President.

Statement 2 is incorrect: There is no provision pertaining to Governor's approval/ confirmation on the death sentence passed by a District Court. Instead, death sentence passed by the district court needs to be confirmed by the state High Court.

Source: M. Laxmikanth (Page 30.6, Chapter 30)

Q.42) With regard to the office of Governor, which of the following statements is/are correct?

1. No civil proceedings can be conducted against him during his term of office.
2. The oath of office of the Governor is administered by the President.

Select the correct answer using the code given below:

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) d

Exp) Option d is the correct answer.

The Governor is the nominal head of a state, while the Chief Minister is the executive head. All executive actions of the state are taken in the name of the Governor.

Statement 1 is incorrect: The Governor is **immune from any criminal proceedings**, even in respect of his personal acts, during his term of office. He cannot be arrested or imprisoned. However, **civil proceedings can be instituted against the Governor** during his term of office in respect of his personal acts, **after giving two months' notice**. So, he is not **immune from any civil proceedings**.

Statement 2 is incorrect: The oath of office of the governor is administered by the **chief justice of the concerned state high court** and not by the president. In the absence of him, **the senior most judge of that court** is available.

Source: Laxmikanth 6th edition chapter-30 page- 30.4, 30.5

<https://www.elections.in/government/state-governor.html>

Q.43) With reference to effects of national emergency on Fundamental rights, consider the following statements:

During the period of national emergency:

1. Restrictions can be imposed on the freedom of press
2. A person can be arrested without fair trial
3. State can discriminate among the citizens
4. The writ of habeas corpus cannot be issued by the courts

How many of the statements given above are correct?

- a) Only one statement
- b) Only two statements
- c) Only three statements
- d) All the four statements

Ans) c

Exp) Option c is the correct answer.

Statement 1 is correct: According to Article 358, when a proclamation of national emergency is made, the **six Fundamental Rights under Article 19 are automatically suspended. So, restrictions can be imposed on the freedom of press.**

Statement 2 is correct: Rights other than the right to protection in respect of conviction for offences (Article 20) and the right to life and personal liberty (Article 21) can be suspended. **Since fair trial is dealt with in article 22, its enforcement can be suspended by the state. Therefore, A person can be arrested without fair trial.**

Statement 3 is correct: Since equality is dealt with in Article 14, its enforcement can also be suspended by the state. Hence State can discriminate among the citizens.

Statement 4 is incorrect: The 44th Amendment, 1978, has provided that Article 21, relating to personal liberty cannot be suspended even during an emergency. In this way personal liberty has been strengthened and the writ of habeas corpus retains its potency even during an emergency.

Source: <https://www.legalserviceindia.com/legal/article-1328-habeas-corpus.html#:~:text=The%2044th%20Amendment%2C%201978%2C%20has,potency%20even%20during%20an%20emergency.>

Q.44) Consider the following statements regarding the election of the President of India:

1. To be elected as the President, the candidate needs to be qualified of becoming a member of the Lok Sabha.
2. A Member of Parliament can contest the election to become the President without resigning from his/her seat.
3. No President of India has been elected unopposed till now.

Which of the above given statements are **incorrect**?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 3 only
- d) 1 and 3 only

Ans) c

Exp) Option c is the correct answer.

Statement 1 is correct: Article 58 of Constitution of India suggests that No person shall be eligible for election as President unless he–

- 1) is a citizen of India,
- 2) has completed the age of thirty-five years, and
- 3) **is qualified for election as a member of the House of the People.**

Hence, to be elected as the President, the candidates need to be qualified to become a member of the Lok Sabha/House of People.

Statement 2 is correct: The President shall not be a member of either House of Parliament or of a House of the Legislature of any state and if any such member is elected President, **he shall be claimed to have vacated his seat in that House on the date on which he enters upon office as President. So, a Member of Parliament may contest for the election of president but he/she have to vacant his seat before he/she enters upon the office of President.**

Statement 3 is incorrect: Neelam Sanjeev Reddy is the only president to be elected unopposed till now. He was elected in 1977 for the post of President of India.

Laxmikanth Chapter 17 President

Q.45) Consider the following statements with reference to the Electric Vertical Take-off and Landing (eVTOL) Aircraft:

1. An eVTOL aircraft can use electric power to take off, and land but not hover.
2. India currently have no manufacturer producing eVTOL aircraft.
3. Most eVTOL use distributed electric propulsion technology.

Which of the above given statements is/are correct?

- a) 1 only
- b) 3 only
- c) 2 and 3 only
- d) 1 and 2 only

Ans) c

Exp) Option c is the correct answer.

The Government of India is exploring the possibility of inviting manufacturers of Electric Vertical Take-off and Landing (eVTOL) aircraft to set up base in India.

Statement 1 is incorrect: An eVTOL aircraft is **one that uses electric power take off, and land vertically. And it can also hover using the electrical power.** In order **to maximize efficiency**, and to also ensure safety, **there are multiple motors.** The eVTOL is one of the newer technologies and developments in the aerospace industry.

Statement 2 is correct: India **currently has no manufacturer producing eVTOL** aircraft and India is exploring the possibility of inviting manufacturers of eVTOL.

Statement 3 is correct: Most eVTOLs also use what is called as **distributed electric propulsion technology** which means integrating a complex propulsion system with the airframe. This is technology that has grown **on account of successes in electric propulsion based on progress in motor, battery, fuel cell and electronic controller technologies** and also fuelled by the need for new vehicle technology that ensures Urban Air Mobility.

Source: <https://www.thehindu.com/business/Industry/the-status-of-evtol-a-soon-to-be-reality/article65497139.ece#:~:text=The%20global%20market%20for%20eVTOLs,for%20new%20modes%20of%20transport.>

Q.46) With reference to National Emergency proclaimed under Article 352, consider the following statements:

1. President can proclaim a national emergency only after receiving a written recommendation from the Union Cabinet.
2. Emergency can be extended for an indefinite period with the approval of Parliament every six months.
3. No proclamation can be made when the Lok Sabha is dissolved.

Select the correct answer using the code given below.

- a) 1 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1 and 2 only

Ans) d

Exp) Option d is the correct answer.

Under **Article 352**, the President can declare a national emergency when the security of India or a part of it is threatened by **war or external aggression or armed rebellion**. When a national emergency is declared on the ground of **'war' or 'external aggression'**, it is known as an **'External Emergency'**. On the other hand, when it is declared on the ground of **'armed rebellion'**, it is known as an **'Internal Emergency'**.

Statement 1 is correct: The President, can proclaim a national emergency only after receiving a written recommendation from the cabinet. This means that the emergency can be declared only on the concurrence of the cabinet and not merely on the advice of the prime minister.

Statement 2 is correct: If approved by both the Houses of Parliament, the emergency continues **for six months** and can be **extended to an indefinite period** with the approval of the Parliament every six months. This provision for periodical parliamentary approval was also added by **the 44th Amendment Act of 1978**.

Statement 3 is incorrect: Proclamation can be made even when the Lok Sabha is dissolved provided the Rajya Sabha meantime approves it.

Q.47) Consider the following statements regarding ordinance making power of the President of India:

1. The ordinance issued by President cannot have a retrospective effect.
2. The President can issue an ordinance even when only one house of Parliament is not in session.

Which of the above statements is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) b

Exp) Option b is the correct answer.

Statement 1 is incorrect: An ordinance issued by President can be retrospective like any other legislation. It means it may come into force from a backdate. Hence the statement is incorrect.

Statement 2 is correct: The Presidents can promulgate an ordinance when both the houses of parliament are not in session and even when there is only one house is not in session as the laws in parliament can be passed by both houses of parliament and not by just one house.

Knowledge Base: Article 123 of the Constitution empowers the President to promulgate ordinances during the recess of Parliament. These ordinances have the same force and effect as an act of Parliament but are temporary laws. He can promulgate an ordinance only when both the Houses of Parliament are not in session and when either of the two Houses of Parliament is not in session.

Source: Laxmikanth Chapter 17 President

Q.48) With reference to the Constitution of India, consider the following statements:

1. Only the Prime Minister has to take the Oath of Secrecy and not the other ministers.
2. The Prime Minister holds office during the pleasure of the President.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) b

Exp) Option b is the correct answer.

Article 75 of the Indian Constitution mentions that a Prime Minister is one who is appointed by the President. Article 74(1) states that there shall be a Council of Ministers with a Prime Minister at the head to aid and advise the President.

Statement 1 is incorrect: Before the Prime Minister enters upon his office, the President administers to him the oaths of office and secrecy. **Oath of Office and Oath of Secrecy is also subscribed by other Union Ministers and the state ministers.**

Statement 2 is correct: The term of the **Prime Minister** is not fixed and he **holds office during the pleasure of the President**. However, this does not mean that the President can dismiss the Prime Minister at any

time. So long as the Prime Minister enjoys the majority support in the Lok Sabha, he cannot be dismissed by the President. However, if he loses the confidence of the Lok Sabha, he must resign or the President can dismiss him.

Source: Indian Polity by Laxmikant 6th Edition – Chapter 19 Prime Minister.

Q.49) With reference to the Electoral College constituted for the election of Vice-President, consider the following statements:

1. It consists of both elected and nominated members of both the Houses of Parliament.
2. It includes only the elected members of the state legislative assemblies.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) a

Exp) Option a is the correct answer.

The Vice-President of India is the second highest constitutional office in the country. He serves for a five-year term, but can continue to be in office, irrespective of the expiry of the term, until the successor assumes office.

The Vice-President is elected not directly by the people but by the method of indirect election.

Statement 1 is correct: The Vice-President is elected by the members of an electoral college consisting of the members of both Houses of Parliament. Thus, **both elected and nominated members of the Parliament participate** in the election of Vice-President.

Statement 2 is incorrect: The Electoral College constituted for the purpose of election of Vice - President **does not include the members of the state legislative assemblies.**

Source: Indian Polity, M. Laxmikanth, 6th Edition, Chapter-18, Vice-President

Q.50) Which of the following statements correctly explains the “Theri desert”?

- a) It refers to productive cropland that has turned into desert due to large scale deforestation.
- b) These are semi-arid areas that border deserts and are unproductive.
- c) These are cold deserts that are increasing in the Ladakh area due to long winters.
- d) It is small desert consisting of red sand dunes in Tamil Nadu.

Ans) d

Exp) Option d is the correct answer.

Option d is correct: Theri desert is a small desert situated in the state of **Tamil Nadu**. It consists of **red sand dunes and is confined to Thoothukudi district**. The red dunes are called Theri in Tamil. They consist of sediments dating back to the **Quaternary Period** and are made of **marine deposits**. They have very low water and nutrient retention capacity. The dunes are susceptible to aerodynamic lifts. This is the push that lets something move up. It is the force that is the opposite of weight.

Source: <https://www.downtoearth.org.in/blog/environment/there-is-a-desert-in-tamil-nadu-and-the-dunes-are-red-83320>

Q.1) Consider the following statements:

1. District Magistrate is authorized to provide certificate of identity for transgender person.
2. Kerala is the first state in the country to provide one per cent reservation for the 'transgender' community in all the government services.
3. The Supreme Court in NALSA vs Union of India ruled that transgender people should be recognized as a third gender.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 1 only
- c) 3 only
- d) 1 and 3 only

Ans) d

Exp) Option d is the correct answer.

Statement 1 is correct. The District Magistrate shall issue to the applicant a certificate of identity, indicating the gender of such person as transgender.

Statement 2 is incorrect. Karnataka has become the first state in the country to provide one per cent reservation for the 'transgender' community in all the government services.

Statement 3 is correct. In 2014, the Indian Supreme Court in NALSA vs Union of India ruled that transgender people should be recognized as a third gender and enjoy all fundamental rights, while also being entitled to specific benefits in education and employment.

Source: <https://www.news18.com/news/india/karnataka-becomes-first-state-to-provide-1-reservation-for-transgenders-3988571.html>

<https://socialjustice.nic.in/writereaddata/UploadFile/drafrule1604.pdf>

Q.2) Consider the following statements regarding Gram Panchayat Development Plan (GPDP):

1. The Article 243G of the Indian Constitution provides for local level planning.
2. It brings together both the citizens and their elected representatives in the decentralized planning process.
3. It is conducted by Panchayats every year across the country under the People's Plan Campaign (PPC).

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

Statement 1 is correct: Article 243G of the Constitution provides that the Legislature of a State may provide for the devolution of powers and responsibilities upon Panchayats with respect to the preparation of local plans for economic development and social justice. The local bodies (GPs) play a significant role in the effective implementation of flagship schemes on subjects of national importance, for transformation of rural India. In terms of above constitutional mandate, Gram Panchayats have been preparing Gram Panchayat Development Plan (GPDP).

Statement 2 is correct: Gram Panchayat Development Plan (GPDP) brings together both the citizens and their elected representatives in the decentralized planning processes. GPDP intends to reflect the development issues, perceived needs and priorities of the community, including that of the marginalized

sections. Apart from the demand related to basic infrastructure and services, resource development and convergence of departmental schemes, GPDP has potential to address the social issues.

Statement 3 is correct: GPDP is conducted from 2nd October to 31st January (earlier was conducted from 2nd October to 31st December), every year across the country, under the People's Plan Campaign (PPC) organised by Ministry of Panchayati Raj.

Source: <https://pib.gov.in/PressReleasePage.aspx?PRID=1652653>

<https://pib.gov.in/PressReleasePage.aspx?PRID=1783869>

Q.3) With reference to local government in India, consider the following statements:

1. The Subject of 'Local Government' is mentioned in the Concurrent List of the Seventh Schedule of Indian Constitution.
2. The issue of any financial irregularities at the Panchayat level is the responsibility of the concerned state government.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) b

Exp) Option b is the correct answer.

Statement 1 is incorrect: "Local Government" is a state subject mentioned in the State list of Seventh Schedule of Constitution of India. The entry 5 of the State List reads: "5. Local government, that is to say, the constitution and powers of municipal corporations, improvement trusts, districts boards, mining settlement authorities and other local authorities for the purpose of local self-government or village administration."

Statement 2 is correct: The Panchayats are setup and operated through the respective State Panchayati Raj Acts. Accordingly, **Panchayats are primarily the responsibility of concerned State Governments and appropriate actions on complaints relating to all issues of Panchayats including financial irregularities is the responsibility of State Governments.** Any references of complaints against Panchayats including financial irregularities received in the Ministry of Panchayati Raj are duly forwarded to the concern State Government for necessary action. Ministry does not maintain records of follow up action taken by the States on such complaints.

Q.4) With reference to different types of municipal personnel systems in India, consider the following pairs:

Types of Municipal Personnel System	Feature/ description
1. Separate Personnel System	State government appoints, administers, and controls municipal personnel for every local body.
2. United Personnel System	Personnel are transferable between the local bodies in the state.
3. Integrated Personnel System	Each local body appoints, administers, and controls its own personnel

Which of the pairs given above is/are correctly matched?

- a) 1 and 3 only
- b) 2 only
- c) 2 and 3 only
- d) None of the Above

Ans) b

Exp) Option b is the correct answer.

There are three types of municipal personnel systems in India. The personnel working in the urban governments may belong to any one or all the three types. These are Separate Personnel System, United Personnel System, Integrated Personnel System.

Pair 1 is incorrectly matched: Under Separate Personnel System, **each local body appoints, administers, and controls its own personnel.** They are not transferable to other local bodies. It is the most widely prevalent system. This system upholds the principle of local autonomy and promotes undivided loyalty.

Pair 2 is correctly matched: Under United Personnel System, the **state government appoints, administers, and controls the municipal personnel.** In other words, state-wise services (cadres) are created for all the urban bodies in the state. They are transferable between the local bodies in the state. This system is prevalent in Andhra Pradesh, Tamil Nadu, Uttar Pradesh, Rajasthan, and Madhya Pradesh and so on.

Pair 3 is incorrectly matched: Under Integrated Personnel System, the **personnel of the state government and those of the local bodies form part of the same service.** In other words, the municipal personnel are the members of the state services.

They are transferable not only between the local bodies in the state but also between local bodies and departments of state government. Thus, there is no distinction between local civil service and state civil service. This system is prevalent in Orissa, Bihar, Karnataka, Punjab, Haryana and others.

Q.5) With reference to “Right to be Forgotten” in the context of data privacy, consider the following statements:

1. It means the right of individuals to restrict the usage of their data but not the right to remove his/her data from the internet.
2. The right was recognised as an intrinsic part of “Right to Privacy” by the Supreme court in the Puttaswamy case.
3. Currently, India has no law which recognises the “Right to be Forgotten”.

Which of the statements given above is/are correct?

- a) 1 and 3 only
- b) 2 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

Right to be forgotten is guided by the principle of making individuals the owner of their data. It gives individuals the power to direct data fiduciaries with respect to usage of their data. Right to be forgotten was first recognised by the European Union in 2014 itself, as the result of a ruling by the European Court of Justice.

Statement 1 is incorrect: The right to be forgotten allows a person to **seek deletion of private information from the internet**. So, it is not restricted to individual’s right to seek restricted use of their data but also full control over their data.

Statement 2 is correct: Right to be forgotten was recognised as an **intrinsic part of “Right to Privacy”** by the Supreme court in the **Puttaswamy case**. The Supreme court in 2017, struck down the provision in Aadhar act 2016 which allowed Unique Identification Authority of India (**UIDAI**) **retain Adhar metadata for five years** and ruled that metadata cannot be stored for more than 6 months.

Statement 3 is correct: It is true that in India, currently **there is no law that recognises the Right to be Forgotten**. The **Personal Data Protection Bill** which is yet to become an act, does not explicitly mention the "right to be forgotten" however the bill **subsumed the right to be forgotten under the right to erasure** wherein a data principal can ask for **erasure or correction of their personal data**.

Source: <https://www.firstpost.com/india/explained-right-to-be-forgotten-what-is-it-how-has-the-sc-expanded-it-10955091.html>

<https://www.livelaw.in/columns/digital-data-protection-bill-personal-data-protection-bill-pdp-bill-ministry-of-electronics-and-information-technology-rti-act-216722#:~:text=%22right%20to%20be%20forgotten%22>

Q.6) Consider the following statements with reference to the special provisions for Nagaland under Article 371-A of the Constitution:

1. The Governor of Nagaland has the responsibility for maintaining law and order in the state.
2. The parliamentary laws dealing with the ownership and transfer of land do not apply to Nagaland unless consent is given by the state’s Governor.

Which of the above given statements is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) a

Exp) Option a is the correct answer.

The **Article 371-A** for special provisions about Nagaland was **added** by the **13th Constitutional Amendment Act of 1962**.

Statement 1 is correct: The **Governor of Nagaland has special responsibility for law and order** in the state so long as internal disturbances caused by the hostile Nagas continue. In the discharge of this responsibility, the Governor, after consulting the Council of Ministers, exercises his individual judgement and his decision is final. This special responsibility of the Governor ceases as and when the President so directs.

Statement 2 is incorrect: The **Acts of Parliament relating to the following matters do not apply to Nagaland unless the State Legislative Assembly decides: (Not the Governor)**

- 1) religious or social practices of the Nagas;
- 2) Naga customary law and procedure;
- 3) **administration of civil and criminal justice involving decision according to Naga customary law; and**
- 4) ownership and transfer of land and its resources.

Source: Indian Polity by Laxmikanth, 6th Edition, Chapter-37

Q.7) Panchayats in India receives funds from which of the following sources?

1. Allocations for specific programs under Centrally Sponsored Schemes
2. Revenue collections from taxes on land, water and certain other services
3. Funds from Central Bank in form of Gram Development Grant
4. Grants from the Union Government based on the recommendation of Finance Commission
5. Devolution from the State Government in accordance with Article 243

Select the correct answer using the codes given below:

- a) 1 and 2 only
- b) 2, 3 and 4 only
- c) 1, 2 and 4 only
- d) 1, 2, 4 and 5 only

Ans) d

Exp) Option d is the correct answer.

In India, the Panchayati Raj is now a governance system in which Gram Panchayats are the basic units of local administration. Gram Panchayat (village level), Mandal Parishad or Block Samiti or Panchayat Samiti (block level), and Zila Parishad (district level) are the three levels of the system. The true strength of these institutions in terms of autonomy and efficiency is dependent on their financial position (including their capacity to generate their own resources).

Option 1 is correct: Under the Centrally Sponsored Schemes (CSS), the **central government provides funds to Panchayats for specific programs in areas such as health, education, rural development, sanitation, and others**. The central government usually funds 60% to 90% of the cost of these programs, while the remaining cost is borne by the state government or the Panchayats themselves.

Option 2 is correct: Panchayats also **generate revenue by collecting taxes on land, water, and other services such as sanitation, street lighting, and others**. The revenue collected is used for the maintenance and development of the local infrastructure and services.

For example, Panchayats in rural areas collect property tax from landowners based on the size of the landholding.

Option 3 is incorrect: There is **no provision for the Central Bank to provide funds to the panchayats** in the form of a Gram Development Grant.

Option 4 is correct: The Finance Commission recommends the **grants to be given by the central government to Panchayats**. The grants are given to Panchayats for the development of infrastructure, service delivery, and capacity building.

For example, the 14th Finance Commission recommended that Panchayats should receive 2.87 lakh crore rupees in grants for the period from 2015-16 to 2019-20

Option 5 is correct: According to **Article 243 of the Constitution of India, the State Government is required to devolve funds to Panchayats for the implementation** of various programs and functions.

For example, Panchayats in Andhra Pradesh receive devolution funds from the State Government for the implementation of programs such as the MGNREGA, National Rural Livelihood Mission, and Swachh Bharat Mission.

Source: Laxmikanth

Q.8) Which of the following are the correct objectives of SVAMITVA Yojana launched by Ministry of Panchayati Raj?

1. To enable citizens in rural areas to use their property as a financial asset for taking loans.
2. To largely reduce the dependency of Panchayati system on state government funding
3. To create accurate land records for rural planning
4. To educate elected representatives of Panchayati Raj institution on governance matters

Select the correct answer using the codes given below:

- a) 1 and 3 only
- b) 2 and 4 only
- c) 1, 3 and 4 only
- d) 2, 3 and 4 only

Ans) a

Exp) Option a is the correct answer.

SVAMITVA (Survey of Villages and Mapping with Improved Technology in Village Areas) scheme is a collaborative effort of the Ministry of Panchayati Raj, State Panchayati Raj Departments, State Revenue Departments and Survey of India.

Statement 1 and 3 are correct: The scheme seeks to achieve the following objectives: -

- 1) To bring financial stability to the citizens in rural India by **enabling them to use their property as a financial asset for taking loans and other financial benefits**.
- 2) **Creation of accurate land records for rural planning**.
- 3) Determination of property tax, which would accrue to the GPs directly in States where it is devolved or else, add to the State exchequer.
- 4) Creation of survey infrastructure and GIS maps that can be leveraged by any department for their use.
- 5) To support in preparation of better-quality Gram Panchayat Development Plan (GPDP) by making use of GIS maps.
- 6) To reduce property related disputes and legal cases.

Statement 2 and 4 are incorrect: Reducing the dependency of Panchayati system on government funding and educating elected representatives of Panchayati Raj institution on governance matters **are not mentioned as an objective of the SVAMITVA Yojana**.

Source: FRAMEWORK FOR IMPLEMENTATION OF SCHEME (panchayat.gov.in)

Q.9) Which of the following statements regarding the dissolution of urban local bodies is/are correct?

1. If a municipality is dissolved before completion of its full term, then the new municipality reconstituted does not enjoy a full term of five years.

2. After dissolution, it is not necessary to hold an election for a new municipality if the remainder of the period, for which dissolved municipality would have reconstituted, is less than 6 months.

Select the correct answer using the code given below:

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) c

Exp) Option c is the correct answer.

Statement 1 is correct: If a **municipality is dissolved earlier than the completion of its full term**, then it is mandatory according to 74th Constitutional Amendment Act to have a new municipality reconstituted. And a municipality thus made, **does not enjoy full term**, rather it exists only the remainder of the original term of the prematurely dissolved municipality. This is unlike state legislatures and Lok Sabha, where reconstituted House after the premature dissolution of the previous one, enjoys full term.

Statement 2 is correct: All municipalities are to have a fixed term of 5 years, subject to premature dissolution if required. But, where the remainder of the period (for which the dissolved municipality would have continued) is **less than six months**, it shall **not be necessary to hold any election** for constituting the new municipality for such period.

Q.10) With reference to Intergovernmental Science-Policy Platform on Biodiversity and Ecosystem Services (IPBES), consider the following statements:

- 1. It is a United Nations body.
- 2. India is one of the founding members of IPBES.
- 3. The Economics of Ecosystems and Biodiversity (TEEB) is an initiative recently launched by IPBES.

Which of the statement/s given above is/are correct?

- a) 1 and 3 only
- b) 2 only
- c) 2 and 3 only
- d) 3 only

Ans) b

Exp) Option b is the correct answer.

The Intergovernmental Science-Policy Platform on Biodiversity and Ecosystem Services (IPBES) is an independent intergovernmental body established by States to strengthen the science-policy interface for biodiversity and ecosystem services for the conservation and sustainable use of biodiversity.

Statement 1 is incorrect: Intergovernmental Science-Policy Platform on Biodiversity and Ecosystem Services (IPBES) is **not a United Nations body** and it was established in **Panama City in 2012 by 94 Governments**. At the request of the IPBES and with the authorization of the UNEP Governing Council, the United Nations Environment Programme (UNEP) provides secretariat services to IPBES.

Statement 2 is correct: It is true that **India is one of the founding members of** Intergovernmental Science-Policy Platform on Biodiversity and Ecosystem Services (IPBES) i.e, India has been a **member of IPBES since its inception in 2012**. All Members of the United Nations are eligible for IPBES membership.

Statement 3 is incorrect: **The Economics of Ecosystems and Biodiversity (TEEB) was launched by the United Nations Environment Programme (UNEP) (not IPEBS)** to make nature's values visible. The objective of TEEB is to mainstream the values of biodiversity and ecosystem services into decision-making at all levels and to demonstrate the economic benefits of biodiversity among decision makers of the nation.

Source: <https://ipbes.net/about>

Q.11) The 11th Schedule of Indian constitution specifies the powers, authority and responsibilities of Panchayats. It has listed 29 matters which falls under purview of the Panchayats. Which of the following are the matters mentioned under the 11th Schedule?

1. Fisheries
2. Adult and non-formal education
3. Non-conventional energy sources
4. Family welfare
5. Fire Services

Select the correct answer using the codes given below:

- a) 1, 2 and 5 only
- b) 3, 4 and 5 only
- c) 1, 2, 3 and 4 only
- d) 1, 2, 3, 4 and 5

Ans) c

Exp) Option c is the correct answer.

The 73rd Amendment Act, 1992 has added a new Part-IX to the Constitution of India. This part is entitled as 'The Panchayats' and consists of provisions from Articles 243 to 243 O. In addition, the act has also added a new Eleventh Schedule to the Constitution. This schedule contains 29 functional items of the panchayats. It contains 29 functional items placed within the purview of panchayats. Some of which are-

- 1) Agriculture, including agricultural extension
- 2) Land improvement, implementation of land reforms, land consolidation and soil conservation
- 3) Minor irrigation, water management and watershed development
- 4) Animal husbandry, dairying and poultry
- 5) **Fisheries- Option 1 is correct**
- 6) **Non-conventional energy sources- Option 3 is correct**
- 7) **Adult and non-formal education- Option 2 is correct.**
- 8) **Family welfare- Option 4 is correct.**
- 9) Maintenance of community assets.

Statement 5 is incorrect: Fire Services is not included in the 11th schedule. This subject matter is instead mentioned in the 12th schedule of the Indian Constitution.

Source: Indian Polity by M Laxmikant chapter 38 and 39

Q.12) With reference to panchayats in India, consider the following statements:

1. A state having a population below 20 lakhs may not constitute panchayats at the intermediate level.
2. The provision relating to the reservation of seats in panchayats for the Scheduled Castes is not applicable to Arunachal Pradesh.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) c

Exp) Option c is the correct answer.

Statement 1 is correct. A state having a population **below 20 lakhs** may not constitute panchayats at the intermediate level. The Panchayati Raj act provides for a **three-tier system** of Panchayati raj in every state, that is, panchayats at the village, intermediate, and district levels. However, a state having a population not exceeding 20 lakhs may not constitute panchayats at the intermediate level.

Statement 2 is correct. The provision relating to the **reservation** of seats in panchayats (both members and chairpersons) for the **scheduled castes** is **not applicable** to the state of Arunachal Pradesh. This is because the state is inhabited fully by indigenous tribal people and there are no scheduled castes. This provision was added later by the **83rd Constitutional Amendment** Act of 2000.

Source: Indian polity by M. Laxmikanth chapter 38 Panchayati Raj

Q.13) With reference to the practice of begging in India, consider the following statements.

1. It is a subject matter which comes under the concurrent list of the Constitution.
2. It is banned under various state laws which are modified version of a central law enacted by the parliament.
3. A child being forced to beg is an offence under the Juvenile Justice Act.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 3 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

Despite of India's rapid economic growth, begging as a social problem has existed in our society since inception of human civilization and still persists even after our government intended to abolish it by taking lot of measures and bringing in legislations.

Statement 1 is incorrect. Begging is a state subject, and there isn't a central law governing this. As per the 7th Schedule of the Constitution of India and under serial no. 9 of State List, the subject matter of "**Relief of the disabled and unemployable**" comes under the purview of State List. The States are responsible for taking necessary preventive and rehabilitative steps.

Statement 2 is incorrect. India has no central law on begging and destitution. As many as 20 States and 2 Union Territories have either enacted their own Anti-Beggary Legislation or adopted legislations enacted by other States/UTs. i.e., the Bombay Prevention of Begging Act, 1959, which carries a penalty of detention of three to 10 years in beggar homes.

Statement 3 is correct. The Juvenile Justice (Care and Protection of Children) Act, 2015 is the primary law for children in the country. As per the law, **whoever employs** or uses any child for the **purpose of begging** or causes any child to beg shall be **punishable** with imprisonment for a term which may extend to **five years** and shall also be liable to fine of **one lakh rupees**.

Q.14) Consider the following pairs with reference to Urban Local Bodies:

Types of Urban Local Bodies	Description
1. Notified Area Committee	Created for administration of fast developing town due to industrialization
2. Town Area Committee	Established by large public sector enterprises
3. Township	Created by State Government for administration of a small town
4. Port Trust	It is created by an Act of Parliament

How many pairs given above are correctly matched?

- a) Only one pair
- b) Only two pairs
- c) Only three pairs
- d) All the four pairs

Ans) b

Exp) Option b is the correct answer.

In total, 8 types of urban local bodies are created in India for administration of urban areas, few of which are discussed below:

Pair 1 is correctly matched: A notified area committee is created for the administration of two types of areas—a fast developing town due to industrialisation, and a town which does not yet fulfil all the conditions necessary for the constitution of a municipality, but which otherwise is considered important by the state government. Since it is established by a notification in the government gazette, it is called as notified area committee. Its powers are almost equivalent to those of a municipality. But unlike the municipality, it is an entirely nominated body, that is, all the members of a notified area committee including the chairman are nominated by the state government. Thus, it is neither an elected body nor a statutory body.

Pair 2 is incorrectly matched: A town area committee is set up for the administration of a small town. It is a semi municipal authority and is entrusted with a limited number of civic functions like drainage, roads, street lighting, and conservancy. It is created by a separate act of a state legislature. It may be wholly elected or wholly nominated by the state government or partly elected and partly nominated.

Pair 3 is incorrectly matched: Township is established by the large public enterprises to provide civic amenities to its staff and workers who live in the housing colonies built near the plant. It is an extension of the bureaucratic structure of the enterprises.

Pair 4 is correctly matched: The port trusts are established in the port areas like Mumbai, Kolkata, Chennai and so on for two purposes: (a) to manage and protect the ports; and (b) to provide civic amenities. A port trust is created by an **Act of Parliament**. It consists of both elected and nominated members. Its chairman is an official. Its civic functions are more or less similar to those of a municipality.

Source: Indian Polity by M Laxmikant chapter 39

Q.15) With reference to Capacity Building Commission (CBC), consider the following statements:

1. It is a statutory body established under the All India Civil Services Act, 1951.
2. It exercises functional supervision over all Central Training Institutions.
3. It provides financial support for central government departments based on their capacity building plans.

Which of the statement/s given above is/are correct?

- a) 1 only
- b) 1 and 2 only
- c) 2 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

Capacity building commission was set up by the Government of India under Mission Karmayogi. Mission Karmayogi aims to prepare the Indian Civil Servant for the future by making him more creative, constructive, imaginative, innovative, proactive, progressive, energetic, enabling, transparent and technology-enabled.

Statement 1 is incorrect: The Capacity Building Commission is **not a statutory body, rather it was created through executive resolution in 2021**. Capacity Building Commission acts as the custodian of the civil services capacity building ecosystem and plays a major role in enhancing capacity among the civil servants.

Statement 2 is correct: It is true that the **capacity building commission exercises functional supervision over all Central Training Institutions**. Further it undertakes an audit of Human Resources in Government and outcomes of the Capacity Building efforts of the Government of India.

Statement 3 is incorrect: **Capacity building commission has no such financial power, it only provides technical support** and helps departments or ministries to develop their annual **Capacity Building Plans**. Further the commission organises a global human resource summit to bring best practices of human resource management to the governance in India.

Source: <https://cbc.gov.in/cbc-functions.html>

Q.16) Consider the following statements regarding 74th Constitutional Amendment Act, 1992:

1. Member of Lok Sabha from the respective area can be given representation in the municipality.
2. It provides for the reservation of not less than one-third of the total number of seats in municipality for women.
3. It has a mandatory provision of direct election for the position of the chairperson of a municipality.

Which of the statements given above is/are correct?

- a) 1 only
- b) 1 and 2 only
- c) 2 and 3 only
- d) 2 only

Ans) b

Exp) Option b is the correct answer.

74th Constitutional Amendment Act, 1992 has added new part- IX-A to the Indian Constitution with its title as 'The Municipalities'. It has given constitutional status to the municipalities. It consists of provisions from Articles 243-P to 243-ZG in the Indian Constitution. In addition, the act has also added a new Twelfth Schedule to the Constitution.

Statement 1 is correct: The constitution has delegated some powers regarding the composition of the municipalities to the state legislatures as voluntary powers. One of these is regarding **representation to people elected as members to Lok Sabha from constituencies falling wholly or partially in a municipal**

area. They may be provided representation depending on the provisions of the State Municipal Act, and so it differs from state to state.

Statement 2 is correct: The act provides for the reservation of seats for the scheduled castes and the scheduled tribes in every municipality in proportion of their population to the total population in the municipal area. Further, **it provides for the reservation of not less than one-third of the total number of seats for women (including the number of seats reserved for woman belonging to the SCs and the STs).**

Statement 3 is incorrect: The 74th Amendment Act, 1992 states that the state legislature may provide the manner of election of the chairperson of a municipality.

Source: Indian Polity by M Laxmikant Chapter 39

Q.17) Consider the following statements regarding the Cantonment Board in India:

1. It works under the administrative control of the Ministry of Home Affairs.
2. It consists of partly elected and partly nominated members.
3. The executive officer of the cantonment board is appointed by the President of India.
4. The president of the board is elected by the elected members from amongst themselves for a term of five years.

Which of the statements given above are correct?

- a) 2 and 3 only
- b) 3 and 4 only
- c) 1, 2 and 3 only
- d) 1, 2, 3 and 4

Ans) a

Exp) Option a is the correct answer.

A cantonment board is established for municipal administration for civilian population in the cantonment area. It is set up under the Cantonments Act of 2006—a legislation enacted by the Central government.

Statement 1 is incorrect:

Cantonment Board works under the administrative control of the Defense Ministry of the Central government. Unlike the other types of urban local bodies (Ex. Town area Committee, Notified Area Committee), created and administered by the state government, a cantonment board is created and administered by the Central government.

Statement 2 is correct: A cantonment board consists of partly elected and partly nominated members. The elected members hold office for a term of five years while the nominated members (i.e., ex-officio members) continue so long as they hold the office in that station.

Statement 3 is correct: The executive officer of the cantonment board is appointed by the President of India. He implements all the resolutions and decisions of the board and its committees. He belongs to the central cadre established for the purpose.

Statement 4 is incorrect: The military officer commanding the station is the ex-officio president of the board and presides over its meetings. The nominated members (i.e., ex-officio members) continue so long as they hold the office in that station. The vice-president of the board is elected by the elected members from amongst themselves for a term of five years..

Knowledge Base: The Category I cantonment board consists of the following members:

- 1) A military officer commanding the station
- 2) An executive engineer in the cantonment
- 3) A health officer in the cantonment
- 4) A first class magistrate nominated by the district magistrate
- 5) Three military officers nominated by the officer commanding the station
- 6) Eight members elected by the people of the cantonment area
- 7) Chief Executive Officer of the cantonment board

Source: Indian Polity by M Laxmikant, Chapter 39

Q.18) With reference to Fifth Schedule of the Constitution of India, consider the following statements:

1. Only the Governor can declare an area as Schedule Area in a State under the Fifth Schedule of the Constitution.
2. As per the Constitution, provisions related to the Panchayats as well as Municipalities do not apply to the Fifth Scheduled Areas until Parliament makes a law regarding the same.
3. Any amendment to the Fifth Schedule requires a Constitutional amendment under Article 368 of the Constitution.

Which of the statements given above is/are correct?

- a) 2 only
- b) 1 and 2 only
- c) 3 only
- d) 1, 2 and 3

Ans) a

Exp) Option a is the correct answer.

Article 244 in Part X of the Constitution envisages a special system of administration for certain areas designated as scheduled areas and tribal areas. **Fifth Schedule** of the Constitution of India deals with provisions relating to the **administration and control of scheduled areas and scheduled tribes**.

Statement 1 is incorrect: The President of India (not Governor of the State) **declares an area as scheduled area in a state** under the fifth schedule for **any states except in four states of Assam, Meghalaya, Tripura and Mizoram** which are covered under **the Sixth schedule**.

Statement 2 is correct: Article 243M and Article 243 ZC of the constitution of India **exempted Scheduled Areas** declared under fifth schedule from the scope of applicability of provisions related to the **Panchayats (Part IX) and Municipalities (Part IXA) respectively**. However, this Article (243M & 243 ZC) allows Parliament by law to extend Part IX and IXA to scheduled areas with certain exceptions and modifications. Accordingly, the Parliament enacted the **Panchayats Extension to Scheduled Areas (PESA) Act, 1996** to provide for the **extension of the provisions of Part IX** of the Constitution relating to the Panchayats to the Scheduled Areas.

Statement 3 is incorrect: Any change in provisions mentioned in the fifth schedule can be amended by Parliament by simple majority and falls outside scope of Article 368.

Source: Lamikanath - Scheduled and Tribal Areas

Q.19) With reference to Tribes Advisory Council (TAC) under the provisions of Fifth Schedule of Constitution of India, consider the following statements:

1. It is a constitutional body established to advise the state government on the advancement of the Scheduled Tribes in Scheduled areas.
2. It must be established in all states having Scheduled Areas, declared under the Fifth Schedule.
3. Only the Members of the State Legislative Assembly belonging to Scheduled Tribes can become a member of such Council.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 and 3 only
- c) 1 and 2 only
- d) 1 and 3 only

Ans) c

Exp) Option c is the correct answer.

So far, Tribes Advisory Council (TAC) have been constituted in **all ten states having Scheduled Areas declared under fifth schedule** of the constitution namely Andhra Pradesh, Telangana, Chhattisgarh, Gujarat, Himachal Pradesh, Jharkhand, Madhya Pradesh, Maharashtra, Odisha and Rajasthan. Hence there is **no State (mandated to establish TAC), which has not constituted TAC.**

Statement 1 is correct: Tribes advisory council (TAC) is a Constitutional body as it was established under the Article 244 of the Constitution of India. The fifth schedule of the constitution provides for the establishment of **Tribes Advisory Council (TAC) to advise the state government on welfare and advancement of the scheduled tribes in Scheduled Areas.**

Statement 2 is correct: The fifth schedule of the constitution mandates establishment of the Tribes Advisory Councils (TAC) **in all States having Scheduled Areas** declared under the fifth schedule of the constitution. **Further the states which have no notified scheduled area can also be directed by the President to establish TAC.** For instance, **West Bengal, Tamil Nadu and Uttarakhand** not having any notified Scheduled Area have TAC.

Statement 3 is incorrect: Tribes Advisory Council will be made of maximum 20 members out of which **3/4th of the members will have to be a Member of the State Legislative Assembly** belonging to the Scheduled Tribes community. The Constitution (fifth schedule) states that if the number of representatives of STs in State Assembly is less than number of seats in TAC to be filled by such representatives, **remaining seats shall be filled by other members of those tribes** which means **TAC can include those members who is not a ST MLA in state.**

Source: Laxmikanth - Scheduled and Tribal Areas

<https://pib.gov.in/PressReleasePage.aspx?PRID=1778540#:~:text=According%20to%20the%20provisions%20of,Tribes%20but%20not%20Scheduled%20Areas>

Q.20) With reference to “Family Courts” in India, consider the following statements:

1. They can be established by states in consultation with respective high courts.
2. They can be established in cities having a million plus population.
3. Only the Supreme court and High courts have the power to reduce the jurisdiction of family courts.
4. Domestic Violence Act of 2005 prohibits family courts to entertain cases related to domestic violence against women.

Which of the statements given above is/are correct?

- a) 1,2 and 3 only
- b) 1 and 2 only
- c) 2,3 and 4 only
- d) 4 only

Ans) b

Exp) Option b is the correct answer.

Family courts have been created in India mainly for rapid and safe settlement in the disputes arising in family, marriage and other family matters. Recently the **Family Courts (Amendment) Bill, 2022** was passed by the Parliament to establish family courts in **Himachal Pradesh and Nagaland.**

Statement 1 is correct: The Family Courts Act, 1984 states that the **State government can establish family courts after consultation with the High Court.** Also, the State government appoints the judges of the family court after consultation with the High court.

Statement 2 is correct: The Family Courts Act, 1984 empowers the state government to establish the Family Court in every area of the **state where the population is exceeding 1 million or in the area where the State government deems necessary.**

Statement 3 is incorrect: State governments after consultation with respective high courts can limit the jurisdiction of family court. The State government can **reduce, increase, or alter** the limits of the jurisdiction of the Family Court.

Statement 4 is incorrect: The Protection of Women from **Domestic Violence Act, 2005** states that the aggrieved person can **approach family court to seek reliefs**. It is to be noted here that the **Family courts act, 1984** has **not specifically mentioned** the jurisdiction of the family court in matters of domestic violence. Source: <https://indianexpress.com/article/india/lok-sabha-passes-family-courts-bill-8053601/>
https://blog.ipleaders.in/types-cases-addressed-family-courts/#Establishment_of_family_courts_in_India
<https://clpr.org.in/blog/jurisdiction-of-civil-courts-and-family-courts-under-the-domestic-violence-act/#:~:text=aggrieved%20person%20may%20approach%20not%20only%20the%20Magistrate%20but%20also%20the%20Civil%20court%2C%20Family%20court%20or%20any%20other%20courts%20and%20seek%20reliefs%20including%20protection%20orders>

Q.21) With reference to “Scheduled Castes” in India, consider the following statements:

1. The President can declare specific groups as Scheduled Castes in States after consultation with the Governor of the concerned State.
2. A Person declared as Scheduled Caste (SC) in one state must be considered the same in other states also.
3. Removal of any group from the list of Scheduled Castes can be done by the Parliament.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 1 and 3 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

Article 341 of the Constitution of India mentions that who would be considered Scheduled.

Castes with respect to any State or Union Territory of India. Scheduled castes are officially designated groups of people who are regarded as the **most disadvantaged socio-economic groups in India**.

Statement 1 is correct: Article 341(2) of the constitution of India **empowers the President of India to declare a specific group in the State as Scheduled Caste after consultation with the Governor of the concerned State**. States cannot unilaterally add or pull-out castes from the List as the consent of the Parliament is required to exclude or include castes in the List.

Statement 2 is incorrect: A Person declared as Scheduled Caste (**SC**) **in one state may not be considered SC in another state too**. The idea behind this logic is that the **people belonging to the same caste**, but living in different States may not necessarily suffer from the same disabilities/barriers. Hence it is possible that a person belonging to the same caste cannot be considered SCs in both states as **socio economic barriers imposed on them might vary between states**.

Statement 3 is correct: While the President can declare/include a certain group as Scheduled Castes, **Article 341(2)** of the constitution of India empowers the **Parliament to exclude (and include) any groups from the list of Scheduled Castes**.

Source: <https://documents.doptcirculars.nic.in/D2/D02adm/Introductory.pdf>

Q.22) With reference to the financial powers of Urban Local Bodies (ULBs) in India, consider the following statements:

1. The Constitution empowers the ULBs to levy, collect and retain certain taxes without any interference by the State legislatures.
2. The Department of Finance of a state recommends the process for the distribution of net proceeds of taxes and duties leviable by state between the states and ULBs.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) d

Exp) Option d is the correct answer.

The 74th Constitutional Amendment Act of 1992 provides Constitutional status to Urban Local Bodies (ULBs) and this act has added a new Part IX-A to the Constitution of India. Urban Local Government in India means the governance of an urban area by the people through their elected representatives.

Statement 1 is incorrect: Article 243X of the Constitution of India deals with power to impose taxes by Municipalities. Article 243X states that the **legislature of a State by law may authorise ULBs to levy, collect and retain certain taxes. Thus**, the constitution does not restrict state interference in Urban local bodies' power over tax matters.

Statement 2 is incorrect: It is not the Department of Finance of the State, but the State Finance Commission (SFC) determines the principle for the distribution of the net proceeds of the taxes, duties, tolls and fees leviable by the state, between the states and the municipalities.

Source: Laxmikanth - Urban Local Bodies

Q.23) In the context of Urban Local Bodies (ULBs) in India, which of the following statements is/are correct with respect to "Ward Committees"?

1. The 74th Constitutional Amendment Act (CAA) mandates State governments to establish Ward committees for all urban local bodies to ensure grassroot democracy.
2. As per the 74th Constitutional Amendment Act (CAA), only elected members of urban local bodies can become a member of ward committees.
3. The Chairperson of the Ward committee have to vacate his/her office, if he/she ceases to be a member of Ward committee.

Select the correct answer using the code given below:

- a) 1 and 2 only
- b) 1 only
- c) 2 and 3 only
- d) 3 only

Ans) d

Exp) Option d is the correct answer.

All the members of Urban Local bodies shall be elected directly by the people of the municipal area. For this purpose, each **municipal area shall be divided into territorial constituencies to be known as wards.**

Statement 1 is incorrect: Article 243S added by the 74th Constitutional Amendment Act (CAA) mandates State governments to **establish Ward committees within the territorial area of municipalities having a population of three lakhs or more** (not in all urban areas) to ensure grassroot democracy.

Statement 2 is incorrect: The 74th CAA provides that **State legislatures may by law provide for the manner in which the seats in ward committees shall be filled**. Thus, it varies from state to state as the Constitution gives discretion to states related to this matter. For instance, in Madhya Pradesh besides the elected Councillors, two persons residing within the territorial area of such Wards Committees are nominated to the ward committees.

Statement 3 is correct: The Chairperson of the **Wards Committee** shall be elected by the elected members of ward committees. **The Chairperson will have to vacate his/her office, if he/she ceases to be a member of the Wards Committee.**

[data?actid=AC_CEN_17_19_00016_199443_1517807323737&orderno=16](https://www.indiacode.nic.in/show-data?actid=AC_CEN_17_19_00016_199443_1517807323737&orderno=16)

Q.24) Which of the following changes were made by the 104th Constitutional Amendment Act, 2019?

- It removed the constitutional provision of nominating Anglo-Indians to Parliament as well as State legislatures in India.
- It declared Anglo Indian community as a separate Ethnic and Linguistic minority in India.
- It established the “Anglo-Indian Commission” as a constitutional body to safeguard and protect their rights.
- It added the definition of Anglo-Indians to the Indian Constitution for the first time.

Ans) a

Exp) Option a is the correct answer.

The 104 Amendment of Indian Constitution extended the deadline for the abolition of the reservation of seats by 10 years in the Lok Sabha and State Legislative Assemblies for members of Scheduled Castes and Scheduled Tribes and ended the nomination provision for Anglo Indian communities.

Option a is correct: **The 104th Constitutional Amendment Act (CAA) removed the constitutional provision of nominating Anglo-Indian communities to Parliament as well as State legislatures in India.** Prior to this CAA, the President could nominate two members to Lok Sabha and the Governor of the State can nominate one member to the State Legislative Assembly.

Option b is incorrect: **The 104th CAA is not related to declaring the Anglo-Indian communities as a Separate Ethnic and Linguistic minority** in India. Recently the Anglo-Indian communities have been demanding the Parliament to declare them as a Separate Ethnic and Linguistic minority to enable them to protect their rights.

Option c is incorrect: **The 104th CAA is not related to establishing the Anglo-Indian Commission to safeguard the rights of Anglo Indian.** The Anglo-Indian community has been demanding the government to consider constituting an Anglo-Indian Commission as **mentioned in Article 338 (1) of the constitution of India.**

Option d is incorrect: **Article 366 (2) of the Constitution of India already provides that** “an Anglo Indian means a person whose father or any of whose other male progenitors in the male line is or was of European descent but who is domiciled within the territory of India and is or was born within such territory of parents habitually resident therein and not established there for temporary purposes only.” **Hence the 104th Constitutional does not provide the definition of Anglo-Indians for the first time in the Constitution. In-fact the Act is not related to defining the Anglo-Indians as the definition has already been provided in the Constitution.**

<https://www.timesnownews.com/india/article/who-are-the-anglo-indians-and-why-do-they-have-a-quota-in-lok-sabha-and-some-state-legislatures/527529>

Q.25) The term “I2U2”, sometimes seen in news, is related to which of the following?

- An agreement signed by Iran and the USA to ensure peaceful use of nuclear energy.
- A military alliance forged by East European countries to resist Russian invasion.
- It is a forum to discuss common areas of mutual interest, strengthen economic partnership in trade and investment in respective regions and beyond.
- An initiative of the United Nations High Commissioner for Refugees to protect forcibly displaced communities around the world.

Ans) c

Exp) Option c is the correct answer.

The I2U2 Group is a grouping of India, Israel, the United Arab Emirates, and the United States. I2U2 held their first joint meeting virtually in October 2021. I2U2 is hailed as a platform for the 21st century, driven by economic pragmatism, multilateral cooperation, and strategic autonomy.

Option a is incorrect: I2U2 is not related to the Nuclear deal between Iran and USA. The Joint Comprehensive Plan of Action (JCPOA), is a landmark accord reached between Iran and several world powers including the USA. JCPOA placed significant restrictions on Iran’s nuclear program in exchange for sanctions relief.

Option b is incorrect: I2U2 is not related to a military alliance forged between Eastern European Nations. The **Warsaw Pact** was a collective defence treaty established by the Soviet Union and seven other Soviet states in Central and Eastern Europe to balance **NATO** (military alliance forged by the USA with European countries to counter Russia’s dominance in the region).

Option c is correct: I2U2 stands for India, Israel, the UAE, and the US. It is a forum to discuss common areas of mutual interest, strengthen economic partnership in trade and investment in respective regions and beyond. It aims to encourage joint investments in six areas including **Space**, water, energy, transportation, health, and food security.

Option d is incorrect: I2U2 is not an initiative of the United Nations High Commissioner for Refugees (UNHCR). UNHCR is a United Nations agency mandated to aid and protect refugees, forcibly displaced communities and to assist in their voluntary repatriation or rehabilitation.

Source: <https://indianexpress.com/article/explained/everyday-explainers/what-is-i2u2-holding-first-ever-leaders-summit-8027574/>

Q.26) Consider the following Committees and their key recommendations regarding Panchayati Raj system in India:

Committee	Key Recommendations
1. Ashok Mehta Committee	Setting up of Three tier Panchayati Raj system
2. Balwant Rai Mehta Committee	Establishment of Two tier Panchayati Raj system
3. L M Singhvi Committee	Constitutional recognition to Panchayati Raj system

How many of the above given pairs are correctly matched?

- Only one pair
- Only two pairs
- All the three pairs
- None of the pairs

Ans) a

Exp) Option a is the correct answer.

Pair 1 is incorrect: Ashok Mehta committee was established in December 1977. This committee advocated a two-tier structure for Panchayat Raj, involving Zilla Parishads at the district level and Mandal Panchayats, as an alternative to the three-tier system proposed by the Balwant Rai committee.

Pair 2 is incorrect: Balwant Rai Mehta Committee was established by the Government of India in 1957. The committee submitted its report in November 1957 and recommended the establishment of the scheme of 'democratic decentralisation'. It recommended establishment of a three-tier Panchayati raj system: village-level grama panchayats, block-level panchayat samitis, and district-level Zila Parishads. Through a system of indirect elections, these tiers should be organically linked.

Pair 3 is correct: Under the chairmanship of L.M.Singhvi, the government of India created a committee to develop a concept paper on "Revitalization of Panchayati Raj Institutions for Democracy and Development" in 1986. It recommended constitutional status for the Panchayat System. It also recommended establishment of the Nyaya Panchayats to mediate and resolve disputes and to give more emphasis to Gram Sabhas. It provided for a plan to gain financial autonomy for the local bodies.

Source: Indian Polity by Laxmikanth, 6th Edition, Chapter-38

Q.27) Which of the following are the Voluntary Provision for States under 73rd Constitutional Amendment Act?

- Fixing tenure of five years for panchayats at all levels
- Indirect elections to the post of chairperson at intermediate and district levels
- Providing reservation of seats for backward classes in panchayats
- Granting financial powers to the panchayats

Select the correct answer using the code given below:

- 3 and 4 only
- 1, 2 and 3 only
- 1, 3 and 4 only
- 2 and 4 only

Ans) a

Exp) Option a is the correct answer.

There are compulsory (obligatory or mandatory) and voluntary (discretionary or optional) provisions (features) found in the 73rd Constitutional Amendment Act (1992) or the Part IX of the Constitution.

Statement 1 and 2 are incorrect: Fixing tenure of five years for panchayats at all levels and holding fresh elections within six months in the event of supersession of any panchayat are **compulsory provisions of 73rd Amendment**. Furthermore, **direct elections to all seats in panchayats at the village, intermediate and district levels** and **indirect elections to the post of chairperson of panchayats at the intermediate and district levels**, are also the **compulsory** provisions of the 73rd Amendment.

Statement 3 and 4 are correct: Providing reservation of seats (both members and chairpersons) for backward classes in panchayats at any level fall under the **voluntary** provisions. **Granting financial powers to the panchayats**, that is, authorizing them to levy, collect and appropriate taxes, duties, tolls and fees is **a voluntary provision under the 73rd Amendment**.

Source: Indian Polity by Laxmikanth, 6th Edition, Chapter-38

Q.28) What was the key reason for Dr. B R Ambedkar, for opposing the idea of democratic decentralization via Panchayat?

- It would have been financial unviable for the new republic.
- The diversity of Indian society was a hinderance to a uniform Panchayati raj system.
- Villages were suffering from problems of illiteracy, caste discrimination and social inequality.
- There is no caste census available till village level, prohibiting implementation of reservation.

Ans) c

Exp) Option c is the correct answer.

According to Ambedkar, **villages were unfit for the democratic decentralization as there was a lot of illiteracy, caste discrimination and social inequality** in the villages. On November 4, 1948 Dr B.R. Ambedkar, while moving a motion in the Constituent Assembly for consideration of the Draft Constitution of India, made certain observations about the village. He said, **“What is the village but a sink of localism, a den of ignorance, narrow mindedness, and communalism [putting your own ethnic group ahead of society]”** This was in contrast to what Gandhiji and many other members of constituent Assembly believe, which was democratic decentralization should be adopted.

Q.29) With reference to Particularly Vulnerable Tribal Groups (PVTGs) in India, consider the following statements:

- One of the criteria for identification of PVTGs is low level of literacy.
- ‘Development of Particularly Vulnerable Tribal Groups’ scheme is being implemented in all states for development of PVTGs in India.

Which of the statements given above is/are correct?

- 1 only
- 2 only
- Both 1 and 2
- Neither 1 nor 2

Ans) a

Exp) Option a is the correct answer.

Statement 1 is correct. Some tribal groups have some specific features such as dependency on hunting, gathering for food, having pre-agriculture level of technology, zero or negative growth of population and **extremely low level of literacy**. These groups are called Particularly Vulnerable Tribal Groups.

Government of India follows the following criteria for identification of PVTGs.

- 1) Pre-agricultural level of technology
- 2) **Low level of literacy**
- 3) Economic backwardness
- 4) A declining or stagnant population.

Statement 2 is incorrect. A scheme named '**Development of Particularly Vulnerable Tribal Groups** (PVTGs)' is implemented by Ministry of Tribal Affairs. This is a Centrally Sponsored Scheme implemented in **18 states (not all) and Union territory** of Andaman & Nicobar Islands where 75 communities identified as PVTGs reside. The scheme of Development of PVTGs aims at **socio-economic development** of PVTGs in a comprehensive manner, while retaining their culture and heritage.

Q.30) With reference to “Supply Chain Ministerial Forum”, consider the following statements:

1. The forum was hosted by the United Nations Conference on Trade and Development (UNCTAD).
2. India is one of the members of this forum.
3. The forum aims to build collective long-term resilient supply chains based on international partnerships.
4. The forum mandates its members to change their domestic laws to realise barrier free global supply chains.

Which of the statements given above are correct?

- a) 1, 2 and 3 only
- b) 2, 3 and 4 only
- c) 2 and 3 only
- d) 3 and 4 only

Ans) c

Exp) Option c is the correct answer.

In October 2021, USA's President Biden hosted a supply chain summit with **14 countries and the European Union** to discuss how to collectively tackle the immediate supply chain challenges. **Statement 1 is incorrect:** Supply Chain Ministerial Forum is **hosted by the United States of America (USA)**, not by the United Nations Conference on Trade and Development (UNCTAD). In 2022, Secretary of State for USA hosted the Supply Chain Ministerial forum to build supply chain resiliency to avoid future disruptions.

Statement 2 is correct: **India is one of the members of the Supply Chain Ministerial Forum.** Apart from India and USA, members of this forum include Australia, Brazil, Canada, the Democratic Republic of the Congo, the European Union, France, Germany, India, Indonesia, Italy, Japan, Mexico, the Netherlands, the Republic of Korea, Singapore, Spain, and the United Kingdom.

Statement 3 is correct: It is true that the Supply Chain Ministerial Forum aims to build **collective long-term resilient supply chains based on international partnerships**. Supply chain diplomacy also continues through **bilateral and regional mechanisms** including through the U.S.- E.U. Trade and Technology Council, the Indo-Pacific Economic Framework, and Americas Partnership for Economic Prosperity.

Statement 4 is incorrect: The Supply Chain Ministerial Forum **aims to strengthen global supply chains in pursuance of nations' domestic law** (the forum does not mandate nations to change their domestic laws).

The forum aims to promote transparency in consultation with the private sector, civil society and other stakeholders to build resilient supply chains.

Source: <https://infra.economictimes.indiatimes.com/news/logistics/india-adopts-joint-statement-on-cooperation-on-global-supply-chains/93029583>

Q.31) Which of the following initiatives are launched by the Government of India primarily for welfare of tribal people?

1. Pradhan Mantri Jan Vikas Karyakram
2. Eklavya Model Residential Schools
3. Sankalp Se Siddhi initiative
4. Vanbandhu Kalyan Yojana
5. TRIFOOD Scheme

Select the correct answer using the code given below:

- a) 1, 2, 3 and 5 only
- b) 2, 3, 4 and 5 only
- c) 1, 2, 3 and 4 only
- d) 1, 2, 3, 4 and 5

Ans) b

Exp) Option b is the correct answer.

Various initiatives have been launched by government for welfare of tribal people.

Statement 1 is incorrect. Pradhan Mantri Jan Vikas Karyakram (PMJKV) seeks to provide better socio-economic infrastructure facilities to the **minority communities** particularly in the field of education, health & skill development. This would further lead to lessening of the gap between the national average and the minority communities with regard to backwardness parameters. The erstwhile Multi-sectoral Development Programme (MsDP) has been restructured and renamed as Pradhan Mantri Jan Vikas Karyakram for effective implementation since 2018.

Statement 2 is correct. Eklavya Model Residential Schools started in the year 1997-98 to impart quality education to **ST children in remote areas** in order to enable them to avail of opportunities in high and professional educational courses and get employment in various sectors. The schools focus not only on academic education but on the all-round development of the students. Each school has a capacity of 480 students, catering to students from Class VI to XII. Hitherto, grants were given for construction of schools and recurring expenses to the State Governments under Grants under Article 275 (1) of the Constitution.

Statement 3 is correct. The 'Sankalp Se Siddhi' initiative, also known as 'Mission Van Dhan', was introduced by the central government. Through this mission, TRIFED aims to expand its operation through convergence of various schemes of different ministries and departments and launch various tribal development programmes in mission mode. Through this mission, establishment of several -

- 1) Van Dhan Vikas Kendras (VDVKs),
- 2) haat bazaars,
- 3) mini TRIFOOD units,
- 4) common facility centres,
- 5) TRIFOOD parks,
- 6) SFRUTI (Scheme of Fund for regeneration of traditional industries) clusters,
- 7) tribes India retail store, e-commerce platform for trifoed and tribes, India brands are being targeted.

Statement 4 is correct. Vanbandhu Kalyan Yojana is launched for Tribal welfare. It **aims at converging several central and state schemes related to tribal welfare**. Following are the components of this scheme

- 1) Providing quality Infrastructure

- 2) Improving quality of life in tribal areas
- 3) Improving Tribal Human Development Indices
- 4) Providing quality education to tribals
- 5) Providing employment opportunities for tribal families
- 6) Protection of Tribal culture and heritage

Statement 5 is correct. The **TRIFOOD Scheme** has been launched jointly under the Ministry of Food Processing Industries, Ministry of Tribal Affairs, and TRIFED for tertiary value addition to the food products taken out from Forest areas by Tribals. It would ultimately increase their income, and will bring more revenue to India through exports of these items.

Knowledge Base:

National Commission for Scheduled Tribes

National Commission for Scheduled Tribes looks after the constitutional provisions provided for Scheduled tribes and overlooks their implementation issues.

Q.32) With reference to District Councils for the administration of Autonomous Districts, under the Sixth schedule of the constitution, consider the following statements:

1. The constitution mandates that a District Councils must be represented by the elected members only.
2. They are prohibited by Constitution from being involved in any judicial matters.
3. They are empowered to assess and collect land revenue as well as to impose certain taxes.

Which of the statements given above is/are **incorrect**?

- a) 1 and 2 only
- b) 2 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) a

Exp) Option a is the correct answer.

The sixth schedule of the Constitution of India contains provisions related to the Administration of Tribal Areas in the States of Assam, Meghalaya, Tripura and Mizoram. Further the Sixth Schedule provides for the creation of autonomous District Councils by the Governor to work for the advancement of tribal communities in such areas. The sixth schedule of the constitution states that **if there are different tribes in an autonomous district**, then the governor can **divide the district into several autonomous regions. Autonomous regions are carved out of Autonomous districts** by the Governor to ensure representation of homogeneous sections of tribal communities.

Statement 1 is incorrect: The Constitution (sixth schedule) creates a **District council represented both by the elected members as well as nominated members** to administer autonomous districts in the State. Each autonomous district has a district council consisting of 30 members, of whom four are nominated by the governor and the remaining 26 are elected on the basis of adult franchise.

Statement 2 is incorrect: The Sixth schedule of the constitution empowers district councils (and regional councils) within their territorial jurisdictions to constitute village councils or courts for trial of suits and cases between the tribes. They also hear appeals from them; thus, sixth schedule does not prohibit District councils (and regional councils) to involve in judicial functions.

Statement 3 is correct: It is true that district councils are empowered to assess and collect land revenue as well as to impose certain taxes. The district council can establish, construct or manage matter related to primary schools, dispensaries, markets, ferries, fisheries, roads etc., within their territorial jurisdictions.

Source: Laxmikanth - Scheduled and Tribal Areas

Sixth Schedule of the Constitution

Q.33) In the context of powers of the Governor with respect to the sixth schedule of the constitution, consider the following statements:

1. The Governor's assent is mandatory for enforcing the laws created by district councils on matters related to social customs.
2. While the Governor can create a new autonomous district, he/she cannot alter boundaries of the existing autonomous district.
3. The Governor shall make rules to provide for the delimitation of territorial constituencies for the purpose of elections to district councils.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

The **Sixth Schedule** of the Constitution of India deals with special provisions related to the administration of tribal areas in the four north-eastern states of Assam, Meghalaya, Tripura and Mizoram. The tribal areas in these four states have been constituted as autonomous districts and executive power of state extends over these regions too.

Statement 1 is correct: The district councils administer the areas under its jurisdiction. They can make laws on the subject of social customs but it requires assent of the governor to become an act. Also, the District council can make laws on matters related to land, forests, canal water, shifting cultivation, village administration, inheritance of property, marriage and divorce, etc. **But all such laws require the assent of the governor.**

Statement 2 is incorrect: According to the sixth schedule of the constitution, the Governor can create a new autonomous district as well as alter boundaries of the autonomous district. The governor is empowered to organise and re-organise the autonomous districts and to increase or decrease their areas or change their names or define their boundaries.

Statement 3 is correct: The sixth schedule of the constitution empowers the Governor to make rules to provide for the delimitation of territorial constituencies for the purpose of elections to district councils. Also, the governor can make rules to provide for the qualifications for being elected as members of district/regional councils constituted in tribal areas.

Source: Laxmikanth - Scheduled and Tribal Areas

Sixth schedule

Q.34) With reference to Special provisions for some states given in part XXI of the Constitution, separate development boards are provided for which of the following regions?

1. Vidarbha, Marathwada and the rest of Maharashtra
2. Saurashtra, Kutch and the rest of Gujarat
3. Hyderabad-Karnataka region
4. Naga Hills-Tuensang Area

Select the correct answer using the code given below:

- a) 1, 2 and 3 only
- b) 2, 3 and 4 only
- c) 1, 2, 3 and 4
- d) 1, 3 and 4 only

Ans) a

Exp) Option a is the correct answer.

Articles 371 to 371-J in Part XXI of the constitution contain special provisions for twelve states viz., Maharashtra, Gujarat, Nagaland, Assam, Manipur, Andhra Pradesh, Telangana, Sikkim, Mizoram, Arunachal Pradesh, Goa and Karnataka. The intention behind them is to meet the aspirations of the people of backward regions of the states or to protect the cultural and economic interests of the tribal people of the states or to deal with the disturbed law and order condition in some parts of the states or to protect the interests of the local people of the states.

Statements 1 and 2 are correct. Under Article 371, the President is authorized to provide that the Governor of Maharashtra and that of Gujarat would have special responsibility for: the establishment of **separate development boards for (1) Vidarbha, Marathwada and the rest of Maharashtra, (2) Saurashtra, Kutch and the rest of Gujarat;**

Statements 3 is correct. Under Article 371-J, the President is empowered to provide that the Governor of Karnataka would have special responsibility for the establishment of a separate **development board for Hyderabad-Karnataka region.**

Statement 4 is incorrect. Article 371-A makes special provisions for Nagaland. But it does not include the provision for a development board. However, the Governor may specify on the recommendation of the **regional council, that the administration of the Tuensang district shall be carried on by the Governor.**

Source: M Laxmikanth, 6th edition, Chapter 37 page 690, 800

Q.35) With reference to “District Mineral Foundations (DMF)”, consider the following statements:

1. The Mine and Minerals Development Regulation (Amendment) Act, 2015 mandates state governments to set up DMFs in every district affected by mining.
2. The local Member of Parliament will act as the ex-officio chairman of the governing council of DMFs.
3. Royalty charges which act as a source of finance for this foundation, are fixed by the central government.
4. Recently, the central government prohibited States to transfer DMF funds to any other State level fund.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 1, 3 and 4 only
- c) 2, 3 and 4 only
- d) 1, 2, 3 and 4

Ans) b

Exp) Option b is the correct answer.

Statement 1 is correct: The Mines and Minerals Development Regulation (Amendment) Act, 2015 mandates the state governments to establish District Mineral Foundations in every district affected by

mining-related operations, The state government shall, by notification under this act, establish a trust as a non-profit body to be called the District Mineral Foundation.

Statement 2 is incorrect: It is **not true** that the **local Member of Parliament** will act as the **ex-officio chairman** of governing council of District Mineral Foundation (DMF). The standing committee of the Parliament observed that DMF appointed by states are dominated by bureaucrats and it recommended making local MPs as the chairman of governing council of respective DMFs.

Statement 3 is correct: **The central government fixes the royalty rate**, part of royalty rates will act as **source of finance for DMFs**. Every mining lease holder will have to pay a fraction of royalty to the DMFs as per rates prescribed by the Central Government. This fund will be used for **welfare of the people affected** in the mining affected areas.

Statement 4 is correct: In 2021, the **central government issued an order under which States have been prohibited to transfer DMF funds to any other State level fund (by whatever name called) or Chief Minister's Relief Fund or any other funds or scheme**. This move was adopted by the central government over the **allegation of diversion of funds form DMFs by the state governments**. The DMFs are required to use these funds for the welfare of persons and areas affected by mining-related operations, the tribal population being the principal intended beneficiaries.

Knowledge Base: **Pradhan Mantri Khanij Kshetra Kalyan Yojana (PMKKKY)** is being **implemented by the DMFs** using the funds accruing to the DMFs. Under PMKKKY, 60% of the DMF funds are required to be utilised for projects in High Priority Sectors, such as health, education, drinking water, sanitation and environment. Remaining 40% funds to be utilised for Other Priority Areas such as Physical infrastructure, Irrigation, Energy & watershed development and Measures for enhancing environmental quality.

Q.36) Consider the following statements with reference to elections of members and chairpersons in the Panchayati Raj System in India:

1. All the members of panchayats at the village level are elected directly by the people.
2. All the members of panchayats at district levels are elected indirectly by the people.

Which of the above given statements is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) a

Exp) Option a is the correct answer.

As per the constitution, the legislature of a state makes provisions with respect to the composition of Panchayats. However, method of election is mentioned under Article 243 of the Indian Constitution.

Statement 1 is correct: **Article 243C of the Indian Constitution provides that all the seats in the Panchayats at village level should be filled by persons chosen by direct election from territorial constituencies in the Panchayat area**. It also says that each Panchayat area shall be divided into territorial constituencies in such manner that the ratio between the population of each constituency and the number of seats allotted to it shall, so far as practicable, be the same throughout the Panchayat area.

Statement 2 is incorrect: Article 243C of the Indian Constitution provides for that **all the seats in a Panchayat** should be filled by persons chosen by **direct election (not indirect) from territorial constituencies in the Panchayat area whether at the village, intermediate or the district levels.**

Source: Indian Polity by Laxmikanth, 6th Edition, Chapter-38

Q.37) Consider the following statements about the differences between Central Finance Commission (CFC) and State Finance Commission (SFC) in India:

1. Central Financial Commission is a constitutional body, whereas SFC is a statutory body.
2. The state legislature provides for the composition of the SFC, while Constitution of India provides for the composition of Central Finance Commission.
3. The recommendations of the CFC are binding on the Government of India, while the recommendations of the SFC are advisory in nature.

How many of the above given statements are correct?

- a) Only one statement
- b) Only two statements
- c) All the three statements
- d) None of the statements

Ans) a

Exp) Option a is the correct answer.

Statement 1 is incorrect: The Central Finance Commission (CFC) is a **constitutional body** under **Article 280 of the Constitution**. State Finance Commission (SFC) is also a **constitutional body** that is established in every State of India under **Article 243-I of the Constitution**.

Statement 2 is correct: The **state legislature provides for the composition of the State Finance Commission**, the required qualifications of its members and the manner of their selection. **Constitution of India under Article 280 has provided for composition of Central Finance Commission**. The Finance Commission consists of a chairman and four other members to be appointed by the President. They hold office for such period as specified by the President in his order.

Statement 3 is incorrect: The recommendation of **both the Commissions are advisory in nature**. The President and governor places the recommendations of the commission along with the action taken report before the Parliament and state legislature respectively.

Q.38) With reference to '73rd Constitutional Amendment Act', consider the following statements:

1. Power to extend the provisions of this act to any Union Territory lies with the President.
2. The act does not apply to the hill area of Manipur state for which a district council exists.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) c

Exp) Option c is the correct answer.

The 73rd Constitutional Amendment Act, 1992 provides for the establishment of Panchayats in rural areas of India. However, the application of this Act has certain exception.

Statement 1 is correct: The President of India can direct that the provisions of 73rd Constitutional Amendment Act' shall apply to any union territory subject to such exceptions and modifications as he may specify.

Statement 2 is correct: 73rd Constitutional Amendment Act **does not apply to the states of Jammu and Kashmir, Nagaland, Meghalaya and Mizoram and certain other areas.** These areas include **the hill area of Manipur for which a district council exists;** and Darjeeling district of West Bengal for which Darjeeling Gorkha Hill Council exists.

Source: Laxmikanth

Q.39) With reference to 'Election related provisions of Panchayati Raj Institution', consider the following statements:

1. The validity of any law relating to the delimitation of Panchayat constituencies cannot be questioned in any court.
2. In case of any dispute, it is the Governor of state that decides to whom an election petition needs to be submitted.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) a

Exp) Option a is the correct answer.

In India, the Constitution provides for a system of local self-government through the Panchayati Raj system, which includes elected bodies at the village, block, and district levels. Elections to these bodies are conducted by the State Election Commission.

Statement 1 is correct: 73rd Constitutional Amendment Act **bars the interference by courts in the electoral matters of panchayats.** It declares that the validity of any law relating to the **delimitation of constituencies or the allotment of seats to such constituencies cannot be questioned in any court.**

Statement 2 is incorrect: Constitution of India lays down that no **election to any panchayat is to be questioned** except by an election petition presented to such **authority and in such manner as provided by the state legislature (Governor is not empowered).**

Source: Laxmikanth

Q.40) The term "Cryptojacking", sometimes seen in news, is related to which of the following?

- a) A Cryptocurrency ATMs where individuals can exchange crypto currency for dollars and vice versa.
- b) A cryptocurrency mining practice used specifically by Supercomputers to release large numbers of cryptocurrency into the market.
- c) An illegal practice involving hacking another person's computer resources to mine cryptocurrency.
- d) A practice of encrypting cryptocurrency using quantum technology to make it resilient to hacking.

Ans) c

Exp) Option c is the correct answer.

Cryptocurrency is a digital currency that uses cryptography to secure transactions. According to a report, **Cryptojacking attacks** on computer systems have gone up by 30% to **66.7 million** in the first half of 2022 as compared to the first half of 2021.

Option c is correct: Cryptojacking is a cybercrime in which another party's computing resources are hijacked to mine cryptocurrency. Cryptojacking allows hackers to mine cryptocurrency without paying for electricity, hardware and other mining resources. Cryptojacking is **hard to detect** and the victims of these attacks mostly remain unaware that their systems have been compromised.

Q.41) With reference to “Other Backward Classes (OBC)” in India, consider the following statements:

1. The Constitution of India does not define the term “Other Backward Classes”.
2. The Constitution of India provides reservation benefits for OBCs in the Lok Sabha in proportion to their total population.
3. The 105th Constitutional Amendment Act (CAA) denied State Governments the authority to identify Backward Classes (BCs) for the purpose of reserving State government jobs.

Which of the statements given above is/are correct?

- a) 1 and 3 only
- b) 1 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

Other Backward classes (OBCs) means such backward classes of citizens, other than the Scheduled Castes and Scheduled Tribes, as may be specified by the **Central Government** in the lists. **Backward Class (BC) category** contains communities that are classified as economically and educationally backward by a **particular state**.

Statement 1 is correct: It is true that the Constitution of India does not define Other Backward classes (OBCs). Article 366 of the constitution of India which defines various terms mentioned in the constitution, does not define what constitutes Backward classes in India.

Statement 2 is incorrect: While the **Constitution of India** provides reservation benefits for **Scheduled castes and Scheduled Tribes in the Lok Sabha and State Legislative Assemblies** in proportion to their total population in the country, it **does not provide the same benefits to backward classes** in Parliament (Rajya Sabha & Lok Sabha) nor State legislatures.

Statement 3 is incorrect: The 102nd Constitutional Amendment Act (CAA) added **Article 342A** to the constitution of India, empowers **the President to declare specific group as Backward Classes** in States/Union Territories, after in consultation with the Governor. The Supreme court with respect to Article 342A held that State government has no power to identify Backward classes. **This was amended by the 105th CAA which restored the State Government's power to include Backward classes in state list for the purpose of providing reservation benefits in the State Government jobs.**

Q.42) With reference to Panchayats (Extension to the Scheduled Areas) Act, 1996, consider the following statements:

1. It was formulated based on the recommendation of Bhuria Committee report.
2. One of the objectives of the act is to safeguard and preserve the traditions and customs of tribal communities.
3. It extends the provisions of 73rd Constitutional Amendment Act to the sixth schedule areas.

Which of the statements given above is/are correct?

- a) 1 only
- b) 1 and 2 only
- c) 2 and 3 only
- d) 2 only

Ans) b

Exp) Option b is the correct answer.

The **provisions of Part IX of the constitution** relating to the Panchayats **are not applicable to the Fifth Schedule areas**. However, the Parliament may extend these provisions to such areas, subject to such exceptions and modifications as it may specify. Under this provision, the Parliament has enacted the **“Provisions of the Panchayats (Extension to the Scheduled Areas) Act”, 1996, popularly known as the PESA Act or the Extension Act.**

Statement 1 is correct: On the recommendation of **Bhuria Committee recommendations in 1995**, Panchayat Extension to Scheduled Areas (PESA) Act 1996 came into existence for ensuring tribal self-rule for people living in scheduled areas of India.

Statement 2 is correct: The objectives of the PESA Act are as follows

- 1) To extend the provisions of Part IX of the Constitution relating to the panchayats to the scheduled areas with certain modifications
- 2) To provide **self-rule for the bulk of the tribal population**
- 3) To have village governance with participatory democracy and to make the gram sabha a nucleus of all activities
- 4) To evolve a suitable administrative framework consistent with traditional practices
- 5) To **safeguard and to preserve the traditions and customs of tribal communities**

Statement 3 is incorrect: Since the laws do not automatically cover the scheduled areas, the PESA Act was in acted on 24 December 1996 to enable Tribal Self Rule in these areas. **The Act extended the provisions of Panchayats to the tribal areas of ten states that have Fifth Schedule Areas. Most of the North eastern states under Sixth Schedule Areas (where autonomous councils exist) are not covered by PESA, as these states have their own Autonomous councils for governance.** The nine states with Fifth Schedule areas are: Andhra Pradesh, Chhattisgarh, Gujarat, Himachal Pradesh, Jharkhand, Madhya Pradesh, Maharashtra, Odisha, Rajasthan and Telangana have Fifth Schedule Areas.

Q.43) Which of the following powers are given to Gram Sabha under PESA Act, 1996?

1. Right to plan and manage minor water bodies in the Scheduled Areas.
2. Collection of taxes from services of primary education, healthcare and water supply in tribal areas
3. Right to be consulted before making acquisition of land in the Scheduled Areas for development projects.
4. Power to restrict the sale and consumption of any intoxicant.

Select the correct answer using the codes given below:

- a) 1 and 2 only
- b) 2 and 4 only
- c) 1, 3 and 4 only
- d) 1, 2, 3 and 4

Ans) c

Exp) Option c is the correct answer.

The **Panchayat Extension to Scheduled Areas (PESA) Act, 1996** provides certain powers to the Gram Sabha, which is the traditional decision-making body of the village community in scheduled areas.

Statement 1, 3 and 4 are correct: The powers given to the Gram Sabha under PESA Act, 1996 are:

- 1) **Right to plan and manage minor water bodies** in the Scheduled Areas.
- 2) **Right to be consulted before making acquisition of land** in the Scheduled Areas for development projects and before re-settling or rehabilitating persons affected by such projects in the Scheduled Areas.
- 3) Power to **enforce prohibition or to regulate or restrict the sale and consumption** of any intoxicant.

Statement 2 is incorrect: Collection taxes from services of primary education, healthcare and water supply in tribal areas **is not the power given to Gram Sabha** under PESA Act, 1996.

Knowledge Base:

Other powers of Gram Sabha under PESA Act:

- 1) Identification or selection of persons as beneficiaries under the poverty alleviation and other programmes.
- 2) Safeguard and preserve the traditions and customs of the people, their cultural identity, community resources and the customary mode of dispute resolution.
- 3) Approve plans, programmes and projects for social and economic development before such plans, programmes and projects are taken up for implementation by the Panchayat at the village level.
- 4) Power to manage village markets.
- 5) Power to exercise control over institutions and functionaries in all social sectors.
- 6) Power to control over local plans and resources for such plans including tribal subplans.

Q.44) Consider the following statements regarding disqualification of a person as a member of a municipality under 74th Amendment Act, 1992:

- 1. If a person is disqualified under any law made by the state legislature, then he/she will be disqualified as a member of a municipality.
- 2. Any person below 25 years of age is disqualified from being a member of panchayat.
- 3. All disputes regarding disqualification of a member are referred to and decided by the State Election Commission.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 only
- d) 1 and 3 only

Ans) c

Exp) Option c is the correct answer.

74th Constitutional Amendment Act, 1992 has added new part- IX-A to the Indian Constitution with its title as 'The Municipalities'. It has given constitutional status to the municipalities. The act contains various provisions regarding composition of municipality, reservation of seats for some section of members, grounds of disqualification of members and so on.

Provisions under the act regarding disqualification of members are as follows-

Statement 1 is correct:

A person shall be disqualified for being chosen as or for being a member of a municipality if he is so disqualified.

- 1) under any law for the time being in force for the purposes of elections to the legislature of the state concerned; or
- 2) **under any law made by the state legislature.**

Statement 2 is incorrect: The 74th Amendment Act, 1992 states that no person shall be disqualified on the ground that he is less than 25 years of age if he has attained the age of 21 years.

Statement 3 is incorrect: According to 74th Amendment Act, 1992, **all questions of disqualifications are referred to such authority as the state legislature determines.**

Here, State Election Commission is responsible for the superintendence, direction and control of the preparation of electoral rolls and the conduct of all elections to the municipalities.

Q.45) Consider the following pairs regarding festivals of India:

Regional Festivals - Associated States

1. Ashadhi Bij - Gujarat
2. Kharchi Puja - Manipur
3. Navreh - Kashmir

Which of the pairs given above are correctly matched?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

Pair 1 is correctly matched: Ashadhi Bij falls on the **second day of Shukla paksha** of Ashadha month of **Hindu calendar**. The festival is associated with the **beginning of rains** in the **Kutch region of Gujarat**. During Ashadhi Bij, the moisture in the atmosphere is checked to predict which crop would do best in the coming monsoon.

Pair 2 is incorrectly matched: Kharchi Puja is one of the most popular festivals in **Tripura**. It is celebrated at Agartala in the **temple premises of fourteen gods**. It's a week-long royal Puja which falls in the **month of July on the eighth day of the new moon**. The word 'Kharchi' is derived from the word 'Khya' which means earth. Kharchi Puja is basically done **to clean the post menstrual phase of mother earth's menstruation**.

Pair 3 is correctly matched: Navreh is the **lunar new year** that is celebrated in **Kashmir**. It falls on the **first day of the Chaitra Navratri**. On this day, Kashmiri pandits look at **a bowl of rice which** is considered as a **symbol of riches and fertility**. It is the Sanskrit word 'Nav-Varsha' from where the word 'Navreh' has been derived.

Navreh 2022: Date, Goddess Sharika, Quotes, Wishes & Celebrations - Edudwar

Q.46) Consider the following statements with reference to the Metropolitan Planning Committee (MPC):

1. Two-thirds of the members are elected by the elected members of the municipalities and chairpersons of panchayats in the metropolitan area from amongst themselves.
2. The Constitution lays down detailed provisions regarding the manner of election of members of MPC.
3. The state legislature is empowered to lay down the functions of the committee regarding planning and coordination for the metropolitan area.

Which of the statements given above is/are correct?

- a) 1 only
- b) 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

One of the compulsory provisions of the 74th Amendment Act of 1992 states that every metropolitan area shall have a metropolitan planning committee to prepare a draft development plan.

Statement 1 is correct: The 74th Amendment Act, 1992 lays down that **two-thirds of the members of a metropolitan planning committee should be elected by the elected members of the municipalities and chairpersons of the panchayats in the metropolitan area from amongst themselves.** The representation of members in the committee should be in proportion to the ratio between the population of the municipalities and the panchayats in that metropolitan area.

Statement 2 is incorrect and statement 3 is correct:

The 74th Amendment Act 1992 provides that the **state legislature** may make provisions with respect to the following aspects of Metropolitan Planning Committee:

- 1) The composition of such committees;
- 2) **The manner of election of members of such committees;**
- 3) The representation in such committees of the Central government, state government and other organisations;
- 4) **The functions of such committees in relation to planning and coordination for the metropolitan area;**
- 5) The manner of election of chairpersons of such committees.

Source: Indian Polity by M Laxmikant Chapter 39

Q.47) With reference to Scheduled Areas mentioned under the Fifth schedule of the Constitution of India, consider the following statements:

1. Normally, the executive power of state governments does not extend to these areas unless permitted by the central government.
2. The Governor of a state having Scheduled area is empowered to direct that any particular act of Parliament does not apply to a scheduled area.
3. The Governor of a state having Scheduled area can prohibit the transfer of land by Scheduled Tribes in these areas.

Which of the statements given above is/are correct?

- a) 1 and 3 only
- b) 2 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

The scheduled areas are treated differently from the other areas in the country because they are inhabited by people who are socially and economically backward. This requires special administrative machinery for those areas to equip them with better social and economic opportunities.

Statement 1 is incorrect: Normally the **executive power of the state government does extend** to scheduled areas mentioned in the Fifth schedule of the constitution, thus **central government approval is not necessary to exercise executive power by State Governments** over scheduled areas. Special powers given to the central government by this schedule is that the **executive power of the Union shall extend to the giving of directions to the State** as to the administration of the said areas.

Statement 2 is correct: It is true that **Governors** of the state **can amend laws made by Parliament** as well as State legislatures which are applicable to these areas **with the assent of the President**. The governor is empowered to direct that any particular act of Parliament or the state legislature does not apply to a scheduled area or apply with specified modifications and exceptions.

Statement 3 is correct: **Governors of the state can issue regulations prohibiting the transfer of land by Scheduled Tribes or among themselves** in the Scheduled areas mentioned under the fifth schedule. The Governor of the State can also issue regulations to regulate the allotment of land to members of the Scheduled Tribes and to regulate the business of money lenders who lend money to Schedule tribes in scheduled areas.

Source: Laxmikanth - Scheduled and Tribal Areas

Q.48) Arrange the following committees related to Panchayati Raj in the correct chronological order of their constitution.

1. Balwant Rai Mehta Committee
2. L M Singhvi Committee
3. Ashok Mehta Committee
4. G V K Rao Committee

Select the correct answer using the code given below:

- a) 1-3-4-2
- b) 2-3-4-1
- c) 2-1-4-3
- d) 3-2-1-4

Ans) a

Exp) Option a is the correct answer.

The correct chronological order is: 1-3-4-2

Option 1: Balwant Rai Mehta Committee was established by the Government of India in 1957 to investigate the operation of the **Community Development Programme (1952) and the National Extension Service (1953)** and to **suggest measures for their better working**.

Option 3: Ashok Mehta committee was established in December **1977**.

Option 4: G V K Rao Committee was appointed by the planning commission in **1985**.

Option 2: The **L M Singhvi Committee** was formed in **1986** under Rajiv Gandhi's administration to investigate the challenges that Panchayati Raj institutions administrations were facing.

Indian Polity by Laxmikanth, 6th Edition, Chapter-38

Q.49) With reference to the Central Council of Local Government, which of the following statements is/are correct?

1. The council was constituted under Article 263 of the Constitution.

2. It deals with matters related to Urban and rural local governments.

3. The President of India is the ex-officio chairman of the council.

Choose the correct answer using the codes given below:

- a) 1 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1 and 2 only

Ans) a

Exp) Option a is the correct answer.

The Central Council of Local Government performs important functions like proposing legislations, considering and recommending the policy matters, drawing up a common program of action, recommending central financial assistance etc. Features of the council are as follows:

Statement 1 is correct - The Central Council of Local Government was set up in 1954. **It was constituted under Article 263 of the Constitution of India by an order of the President of India.** Originally, it was known as the Central Council of Local Self-Government. However, the term 'self-government' was found to be superfluous and hence was replaced by the term 'government' in the 1980s.

Statement 2 is incorrect - Till 1958, it dealt with both urban as well as rural local governments, but after 1958 it has been dealing with matters of urban local government only. **It is currently only for the urban and not rural local government.** The Council is an advisory body.

Statement 3 is incorrect - President is not the chairman of the council. **The Union Minister of Urban Development acts as the Chairman of the Council.** It consists of the Minister for Urban Development in the Government of India and the ministers for local self-government in states.

Source: M Laxmikant – Chapter – 39 – Municipalities

Q.50) Consider the following statements regarding 'Windfall Tax':

1. It is a reduction of taxes imposed on companies that have incurred losses due to global economic disruption.

2. It is aimed at encouraging the taxed entities to lower their prices for the benefit of consumers.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) b

Exp) Option b is the correct answer.

This question is based on the article **"Explained: Why India has cut windfall tax on diesel, aviation fuel exports"** published in **Indian Express** on **20th July 2022**.

Statement 1 is incorrect: A windfall tax is a higher tax rate on sudden big profits levied on a particular company or industry. When a company benefits from something that they are not responsible for, the financial gain that ensues is called windfall profits.

Governments, typically, **levy a one-time tax over and above the normal rates of tax** on such profits and that is called windfall tax. Since, energy companies are gaining profit not because of any improvement in their processes but because of the geopolitical situation, many governments are considering to impose such tax. This will boost the government's finances, and help fund efforts to protect vulnerable sections from rampant inflation.

Statement 2 is correct: Windfall profits are taxed to **encourage the taxed entities to lower their prices** for the benefit of consumers. For instance, in May 2018, the Indian government was considering imposing a windfall tax on oil producers to **moderate the retail prices of fuel and diesel**. Under the scheme, oil producers, who get paid international rates for the oil they produce from domestic fields, would have to part with any revenue they earn from prices crossing a certain threshold.

Knowledge Base:

On July 1, the **Government-imposed windfall gain taxes** on the export of petrol, diesel and aviation turbine fuel (ATF), and on the domestic production of crude oil. **However, on 22nd July**, the government of India has **slashed windfall tax on domestically produced crude, diesel and aviation turbine fuel**, withdrew the levy on petrol and exempted exports of fuels **due to fears of a recession in the US and overall global recession on 12% fall in benchmark contract of crude oil** on the Intercontinental exchange. The move will offer relief for top fuel exporters like Reliance Industries and state-run Oil & Natural Gas Corp.

Source: Explained: Why India has cut windfall tax on diesel, aviation fuel exports (forumias.com)

SFG 2023 | LEVEL 2 | Test #9 – Solutions (CSAT) | ForumIAS

Q.1) A ball is dropped from a height of 2 meters. Every time the ball hits the ground, it bounces back to attain a height of $\frac{3}{4}$ of the previous height. The ball stops bouncing when its height is less than or equal to 50 cm. What is the number of times the ball hits the ground before it stops bouncing?

- a) 4
- b) 5
- c) 6
- d) 7

Ans) b

Exp) Option b is the correct answer.

Given height = 2 meters = 200 cm

When the ball hits the ground for the 1st time, its height = $(\frac{3}{4}) \times 200 = 150$ cm

When the ball hits the ground for the 2nd time, its height = $(\frac{3}{4}) \times 150 = 112.5$ cm

When the ball hits the ground for the 3rd time, its height = $(\frac{3}{4}) \times 112.5 = 84.375$ cm

When the ball hits the ground for the 4th time, its height = $(\frac{3}{4}) \times 84.375 = 63.28125$ cm

When the ball hits the ground for the 5th time, its height = $(\frac{3}{4}) \times 63.28125 = 47.46094$ cm

Since the ball stops bouncing when its height is less than or equal to 50 cm, the ball stops bouncing after the 5th time it hits the ground.

Q.2) The ratio of the salary of Ram in August to that in December was $3\frac{1}{3} : 3\frac{1}{6}$. By what % was the salary of August more than the salary of December?

- a) 5%
- b) 10%
- c) 7.5%
- d) 2.5%

Ans) a

Exp) Option a is the correct answer.

Let's salary of August = $\frac{10}{3}x$

And the salary of December = $\frac{19}{6}x$

Salary of August more than that of December

Per cent = $\frac{\text{difference}}{\text{salary of august}} \times 100$

$$= \frac{(\frac{10}{3} - \frac{19}{6})x}{\frac{10}{3}x} = 5\%$$

Q.3) The marked price of a laptop is 10,500. Aman bought it for two successive discounts of 20% and 5%. He spent Rs. 20 on transportation and sold it for 11,000. His profit was;

- a) $37\frac{1}{2}\%$
- b) 40%
- c) $33\frac{1}{2}\%$
- d) 35%

Ans) a

Exp) Option a is the correct answer.

Marked price = Rs. 10,500

$$\text{Price after two successive discounts} = 10,500 \times \frac{100-20}{100} \times \frac{100-5}{100}$$

$$= \text{Rs. } 7,980$$

$$\text{Total cost price} = \text{Rs. } (7,980+20) = \text{Rs. } 8,000$$

$$\text{Profit percentage} = \frac{11,000-8,000}{8,000} \times 100 = \frac{3,000}{8,000} \times 100 = 37\frac{1}{2} \%$$

Q.4) In an objective type test of 90 questions, 5 marks are allotted for every correct answer and 2 marks are deducted for every wrong answer. If a student attempts 70 questions and gets a score of 245, find the number of correct and incorrect answers.

- a) Correct: 60, Incorrect: 10
- b) Correct: 55, Incorrect: 15
- c) Correct: 50, Incorrect: 20
- d) Correct: 45, Incorrect: 25

Ans) b

Exp) Option b is the correct answer.

Let the number of correct answers be x and the number of incorrect answers be y .

Total number of attempted questions = 70

Total marks obtained = $5x - 2y$

Given, the total score is 245. Therefore, we have:

$$5x - 2y = 245$$

Also, we know that the total number of attempted questions is equal to the sum of correct and incorrect answers, i.e.:

$$x + y = 70$$

Solving the above two equations simultaneously, we get:

$$5x - 2(70 - x) = 245$$

$$5x - 140 + 2x = 245$$

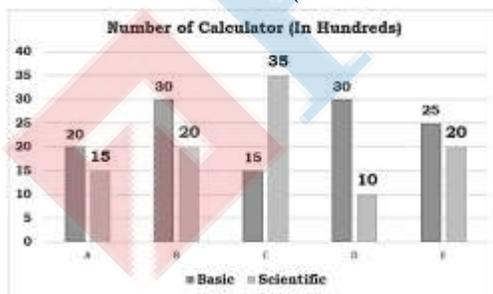

$$7x = 385$$

$$x = 55$$

Therefore, the number of correct answers is 55 and the number of incorrect answers is 15.

Directions (Q.5 – Q.8): Study the following information carefully and answer the given questions:

The following bar graph shows the basic and scientific calculators (In hundreds) stock in different stores and the table shows the (Basic + Scientific) calculators sold by the different stores.

Calculator (Basic + scientific)	Sold%

Store B	40%
Store C	30%
Store D	40%
Store E	30%

Q.5) Find the average number of basic calculators in store B, C, and D together?

- a) 2200
- b) 2000
- c) 2500
- d) 1800

Ans) c

Exp) Option c is the correct answer.

The average number of basic calculators in store B, C and D together

$$= > (3000 + 1500 + 3000)/3$$

$$= > 7500/3 = 2500$$

Q.6) Find the difference between the (Basic + Scientific) calculators sold by store A to that of store C?

- a) 550
- b) 900
- c) 1050
- d) 800

Ans) d

Exp) Option d is the correct answer.

The (Basic + Scientific) calculators sold by store A

$$= > 3500 \times (20/100) = 700$$

The (Basic + Scientific) calculators sold by store C

$$= > 5000 \times (30/100) = 1500$$

$$\text{Required difference} = 1500 - 700 = 800$$

Q.7) Find the ratio of the number of (Basic + Scientific) calculators sold by store B to that of store D?

- a) 4: 7
- b) 5: 4
- c) 3: 2
- d) 9: 8

Ans) b

Exp) Option b is the correct answer.

The number of (Basic + Scientific) calculators sold by store B = > $5000 \times (40/100) = 2000$

The number of (Basic + Scientific) calculators sold by store D = > $4000 \times (40/100) = 1600$

$$\text{Required ratio} = 2000: 1600 = 5: 4$$

Q.8) The total number of scientific calculators in store B is what percentage of the total number of Basic calculators in store E?

- a) 55 %
- b) 100 %
- c) 80 %
- d) 90 %

Ans) c

Exp) Option c is the correct answer.

The total number of Scientific calculators in store B = 2000

The total number of Basic calculators in store E = 2500

Required % = $(2000/2500)*100 = 80\%$.

Q.9) The monthly average salary paid to all the employees of a company was Rs. 12000. The monthly average salary paid to male and female employees was Rs. 14000 and Rs. 10000 respectively. Then the percentage of males employed in the company is:

- a) 40%
- b) 60%
- c) 50%
- d) 80%

Ans) c

Exp) Option c is the correct answer.

Let total no of the male employee be x

Total no of the female be y

Then total salary of all male = $14000 \times x$

The total salary of all female = $10000 \times y$

But as per question total salary of all the employee = $12000(x + y)$

So $[(14000 \times x) + (10000 \times y)] = 12000(x + y)$

By equating we will find $\frac{x}{y} = \frac{1}{1}$

So, the percentage of male employee = $\frac{1}{2} \times 100 = 50\%$

Q.10) If the price of an article is increased by 30% and then the new price is decreased by 40%, then what is the net change in the price?

- a) 10% increase
- b) 12% decrease
- c) 22% decrease
- d) No change

Ans) c

Exp) Option c is the correct answer.

Let's say the original price of the article is 100.

If it's increased by 30%, the new price would be $100 + (30/100) \times 100 = 130$.

Now if this new price is decreased by 40%,

then the final price would be $130 - (40/100) \times 130 = 78$.

So, there is a net change of $(78-100)/100 \times 100 = 22\%$ decrease in the price.

Q.11) A piece of tin is in the form of a rectangle having length 64 cm and width 54 cm. This is used to construct a closed cube. The side of the cube is:

- a) 36 cm
- b) 72 cm
- c) 12 cm
- d) 24 cm

Ans) d

Exp) Option d is the correct answer.

Since, the same tin is used to make the cube, therefore,

The area of the rectangle = The area of the cube

[(length of rectangle) × (breadth of rectangle) = (6 × side²)

$$(64 \times 54) = 6 \times \text{side}^2$$

$$\text{side}^2 = 64 \times 9$$

$$\text{side} = 8 \times 3 = 24 \text{ cm}$$

Q.12) A can do a piece of work in 12 days and B can do the same work in 20 days. With the help of C, they did the work in 6 days only. Then, C alone can do the work in;

- a) 15 days
- b) 45 days
- c) 30 days
- d) 60 days

Ans) c

Exp) Option c is the correct answer.

$$(A+B+C)\text{'s one day work} = \frac{1}{6}$$

$$A\text{'s one day work} = \frac{1}{12}$$

$$B\text{'s one day work} = \frac{1}{20}$$

$$C\text{'s one day work} = (A + B + C)\text{'s one day work} - [A\text{'s one day work} + B\text{'s one day work}]$$

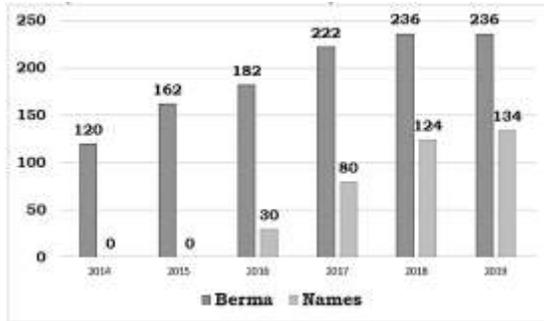

$$= \frac{1}{6} - \left(\frac{1}{12} + \frac{1}{20} \right) \Rightarrow \frac{1}{6} - \frac{2}{15} \Rightarrow \frac{1}{30}$$

$$C\text{'s one day work} = \frac{1}{30}$$

So, C completes the work in 30 days.

Direction for (Q.13 – Q.16): Answer the questions based on the information given below.

Berma and Names are two brands of kitchen knives available in the local market. Berma is an old brand that was introduced in 2010, while Names was introduced in 2016. For both these brands, 20% of the knives bought in a particular year are disposed of as junk exactly two years later. It is known that 10 Berma knives were disposed of in 2014. The following figures show the number of Berma and Names knives in operation from 2014 to 2019, as at the end of the year.

Q.13) How many new Names knives were purchased in 2018?

- a) 44
- b) 50
- c) 55
- d) 64

Ans) b

Exp) option b is the correct answer.

There were 30 Names knives in 16' which will also work in 17' thus we have 50 new knives in 17'. Now in 18' 20% of 30 i.e. 6 are thrown in the junk.

Therefore, in 18' we have $24 + 50 = 74$ Names knives of previous years.

Therefore, Names knives purchased in 18' is $124 - 74 = 50$.

Q.14) How many Names knives were disposed of by the end of 2019?

- a) 10
- b) 16
- c) 22
- d) Cannot be determined from the data

Ans) b

Exp) Option b is the correct answer.

The number of Names knives that were disposed of by the end of 2018 is 6 and at the end of 2019 are 10. So, in total 16 Names knives are disposed of.

Q.15) How many Berma knives were disposed of in 2019?

- a) 0
- b) 5
- c) 6
- d) Cannot be determined from the data

Ans) d

Exp) Option d is the correct answer.

Since 10 Berma were disposed of in 2014, it means 50 new have been bought in 2014, which implies that 70 were already in use. The breakup of 70 knives Berma cannot be determined. So the number of Berma disposed of in 2019 cannot be calculated.

Q.16) How many Berma knives were purchased in 2018?

- a) 20
- b) 23
- c) 50
- d) Cannot be determined from the data

Ans) a

Exp) Option a is the correct answer.

Berma knives were purchased in 2018 = 236 – 222 + Disposed of in 2018
 = 236 - 222 + 20% (Berma knives were purchased in 2016)
 = 236 - 222 + 20% (182 - 162 + 10) = 236 - 222 + 6 = 20

Q.17) A train travelling at 80 km/h overtakes a small object travelling at 26 km/h in 30 seconds. What is the length of the train in meters?

- a) 900 m
- b) 450 m
- c) 1020 m
- d) 560 m

Ans) b

Exp) Option b is the correct answer.

When a train overtakes another object such as a motorbike, whose length is negligible compared to the length of the train, then the distance travelled by train while overtaking the motorbike is the same as the length of the train.

The length of the train:

= distance travelled by train while overtaking the motorbike
 = relative speed between the train and the motorbike × time taken

In this case, as both the objects i.e., the train and the motorbike are moving in the same direction, the relative speed between them = difference between their respective speeds = 80 – 26 = 54 km/h

Distance travelled by train while overtaking the motorbike
 = 54 km/h × 30 seconds.

The final answer is given in meters and the speed is given in km/h and the time in seconds.

So, let us convert the given speed from km/h to m/sec.

$$1 \text{ km/h} = \frac{5}{18} \text{ m/sec}$$

$$\text{Therefore, } 54 \text{ km/h} = 54 \times \frac{5}{18} = 15 \text{ m/sec}$$

Relative speed = 15 m/sec.

Time taken = 30 seconds.

Therefore, distance travelled = 15 × 30 = 450 meters

Q.18) The ratio of the sum of m and n terms of an AP is $m^2 : n^2$ find the ratio of m^{th} and n^{th} term.

- a) $\frac{t_m}{t_n} = \left[\frac{2m-1}{2n-1} \right]^2$
- b) $\frac{t_m}{t_n} = \left[\frac{2n-1}{2m-1} \right]^{\frac{1}{2}}$
- c) $\frac{t_m}{t_n} = \left[\frac{2m-1}{2n-1} \right]$
- d) $\frac{t_m}{t_n} = \left[\frac{2n-1}{2m-1} \right]$

Ans) c**Exp) Option c is the correct answer.**

Let "a" be the first term and "d" be the difference of this AP. Then, the sum of m and n term is given by

$$s_m = \frac{m}{2} [2a + (m-1)d] \text{ and } s_n = \frac{n}{2} [2a + (n-1)d] \text{ respectively}$$

$$= \frac{s_m}{s_n} = \frac{m^2}{n^2}$$

$$\Rightarrow \frac{\frac{m}{2}[2a+(m-1)d]}{\frac{n}{2}[2a+(n-1)d]} = \frac{m^2}{n^2}$$

$$\Rightarrow \frac{[2a+(m-1)d]}{[2a+(n-1)d]} = \frac{m}{n}$$

$$\Rightarrow \{2a + (m-1)d\} n = \{2a + (n-1)d\} m$$

$$\Rightarrow 2a(n-m) = d\{(n-1)m - (m-1)n\}$$

$$\Rightarrow 2a(n-m) = d(n-m)$$

$$\Rightarrow d = 2a$$

$$= \frac{t_m}{t_n} = \frac{[a+(m-1)d]}{[a+(n-1)d]}$$

$$\Rightarrow \frac{t_m}{t_n} = \frac{[a+2am-2a]}{[a+2an-2a]}$$

$$\Rightarrow \frac{t_m}{t_n} = \frac{2m-1}{2n-1}$$

Q.19) In a class of 60 students, a boy is ranked 15th. When five boys joined, his rank was dropped by two. What is his new rank from the end?

- a) 42nd
- b) 45th
- c) 48th
- d) 49th

Ans) d**Exp) Option d is the correct answer.**

After 5 boys joined, total strength of class = 60 + 5 = 65

As rank was dropped by two from 15th rank, new rank is 17th.

Rank of the boy from the beginning = 17

Number of students below his rank = 65 - 17 = 48

Rank from the end = (65 - 17) + 1 = 49

Q.20) A train travels at a certain average speed for a distance of 72 km and then travels a distance of 84 km at an average speed of 6 km/hr more than its initial speed. If it takes 4 hours to complete the total journey, what is the original speed of the train in km/hr?

- a) 24
- b) 36
- c) 42
- d) 66

Ans) b**Exp) Option b is the correct answer.**

Let the initial speed of the train be x km/h.

Then, time taken to travel 72 km = 72/x hours

New speed = (x + 6) km/hr

Time taken to travel 84 km = 84 / (x + 6) hours

According to the question,

$$= \left[\frac{72}{x} + \frac{84}{x+6} \right] = 4$$

$$= (72x + 432 + 84x = 4x^2 + 24x)$$

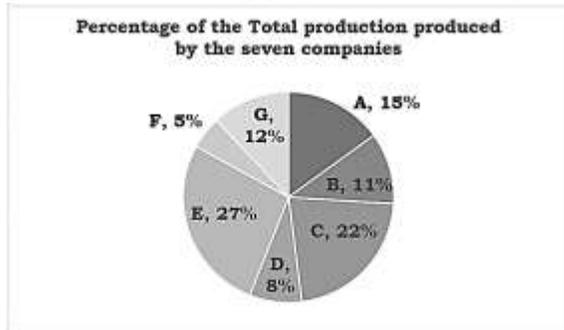

$$= x^2 - 33x - 108 = 0$$

$$= x = 36 \text{ or } x = -3$$

As the speed cannot be negative, $x = 36$

Thus, the average speed of the train is 36 km/hr.

Direction for (Q.21 – Q.24): Seven companies A, B, C, D, E, F, and G are engaged in the production of mobile phones and laptops. Comparative data about the production of these items by the companies are given in the following graph and table. Study them carefully and answer the questions given below.

Cost of the total production (both items together) by seven companies = Rs 25 crores.

The ratio of production between mobile phones and laptop and the percent profit earned for the two items.

Company	Ratio of Production		Percent Profit earned	
	Mobile Phone	Laptops	Mobile Phone	Laptops
A	2	3	25	20
B	3	2	32	35
C	4	1	20	22
D	3	5	15	25
E	5	3	28	30
F	1	4	35	25
G	1	2	30	24

Q.21) What is the total cost of the production of mobile phones by companies A and C together in Rs crore?

- 9.25
- 5.9
- 4.1625
- 4.9

Ans) b

Exp) Option b is the correct answer.

The total cost of production by Company A = $\frac{15}{100} \times 25 = 3.75$ crore

The total cost of production by Company C = $\frac{22}{100} \times 25 = 5.5$ crore

Cost of production of mobile phones by company A = $\frac{2}{5} \times 3.75 = 1.5$ crore

Cost of production of mobile phones by company C = $\frac{4}{5} \times 5.5 = 4.4$ crore

∴ Required Total cost = 1.5 + 4.4 = 5.9 crores

Q.22) What is the amount of profit earned by company D on the laptop?

- a) Rs 3.125cr
- b) Rs 31.25 cr
- c) Rs 3.125 lakhs
- d) Rs 31.25 lakhs

Ans) d

Exp) Option d is the correct answer.

Required profit earned - $\frac{25}{100} \times \frac{5}{8} \times \frac{8}{100} \times 25 = 0.3125$ crore = 31.25 lakhs

Q.23) Cost of production of mobile phone by company F is what percent of the cost of production of laptop by company D?

- a) 16%
- b) 33.33%
- c) 66.67%
- d) 20%

Ans) d

Exp) Option d is the correct answer.

Required % = $\frac{\frac{5}{100} \times \frac{1}{5} \times 25}{\frac{8}{100} \times \frac{5}{8} \times 25} \times 100 = \frac{0.25}{1.25} \times 100 = 20\%$

Q.24) What is the total profit earned by company B on the production of mobile phone and the profit earned by company A on the production of the laptop?

- a) Rs 9.78 cr
- b) Rs 97.8 lakhs
- c) Rs 52.8 lakhs
- d) Rs 5.28 cr

Ans) b

Exp) Option b is the correct answer.

Required total profit = $\left(\frac{32}{100} \times \frac{3}{5} \times \frac{11}{100} \times 25\right) + \left(\frac{20}{100} \times \frac{3}{5} \times \frac{15}{100} \times 25\right) = 0.528 + 0.45 = 0.978$ crores
= 97.8 lakhs

Q.25) A man invests 1/3 of his capital at 7% return, 1/4 at 8% return and the remainder at 10% return. If his annual income from investment is 561, what is the capital he started with?

- a) Rs. 2928
- b) Rs. 3000
- c) Rs. 3834
- d) Rs. 4000

Ans) a

Exp) Option a is the correct answer.

Let's assume that the man's capital is C.

According to the problem, he invests 1/3 of his capital at 7% return, which means he earns (1/3)C multiplied by 0.07 from this investment.

He also invests 1/4 of his capital at 8% return,

which means he earns $(1/4)C$ multiplied by 0.08 from this investment.

The remainder of his capital is invested at a 10% return, which means he earns $[C - (1/3)C - (1/4)C]$ multiplied by 0.01 from this investment.

Adding all three returns together and equating it to his annual income of Rs.561

we get: $(1/3)C \times 0.07 + (1/4)C \times 0.08 + [C - (1/3)C - (1/4)C] \times 0.10 = \text{Rs.}561$

Solving for C, we get:

$$C = \text{Rs.}(561 \times 12) / (7 + 6 + 10) =$$

$$\text{Rs.}(6732) / 23 = \text{Rs.}2928$$

Q.26) A man has Rs. 480 in the denominations of one-rupee notes, five-rupee notes and ten-rupee notes. The number of notes of each denomination is equal. What is the total number of notes that he has?

- a) 45
- b) 60
- c) 75
- d) 90

Ans) d

Exp) d is the correct answer.

Let's assume that the number of notes of each denomination is x.

Then the total amount he has is $x + 5x + 10x = \text{Rs.}480$

which means $x=30$.

Since the number of notes of each denomination is equal

So, he has a total of $30+30+30=90$ notes.

Q.27) Sachin can cover a distance in 1hr 24 min by covering $2/3$ of the distance at 4 km/h and the rest at 5 km/h. The total distance is?

- a) 7 km
- b) 5 km
- c) 6 km
- d) 8 km

Ans) c

Exp) Option c is the correct answer.

Let total distance = D

Distance travelled at 4 km/h speed = $(2/3) D$

Distance travelled at 5 km/h speed = $(1-2/3) D = (1/3) D$

Total time = 1 hr 24 min = $(60+24) \text{ min} = \frac{84}{60} \text{ hr} = \frac{21}{15} \text{ hr}$

We know,

$$= \text{Time} = \frac{\text{Distance}}{\text{Speed}}$$

$$= \frac{21}{15} = \frac{2/3}{4} D + \frac{1/3}{5} D$$

$$= > 42 = 7D$$

$$D = 6 \text{ km}$$

Q.28) A coffee shop sells two types of coffee beans - A and B. Coffee made from A costs Rs. 6 per cup, while coffee made from B costs Rs. 8 per cup. The shop owner mixes the two types of beans in the ratio of 3:2 to make a blend. If the shop owner sells a cup of this blend for Rs. 7.20, what is the percentage profit or loss made by the owner on each cup sold?

- a) 10% loss
- b) 10% profit
- c) 12.5% loss
- d) 12.5% profit

Ans) d

Exp) Option d is the correct answer.

Let the quantities of coffee beans A and B used to make one cup of the blend be $3x$ and $2x$, respectively.

The cost of one cup of the blend can then be calculated as:

$$\text{Cost} = (3x * \text{Rs. } 6 + 2x * \text{Rs. } 8) / 5 = \text{Rs. } 6.40$$

Since the shop owner sells one cup of the blend for Rs. 7.20, the profit made on each cup sold is:

$$\text{Profit} = \text{Selling price} - \text{Cost price} = \text{Rs. } 7.20 - \text{Rs. } 6.40 = \text{Rs. } 0.80$$

The percentage profit or loss can be calculated as:

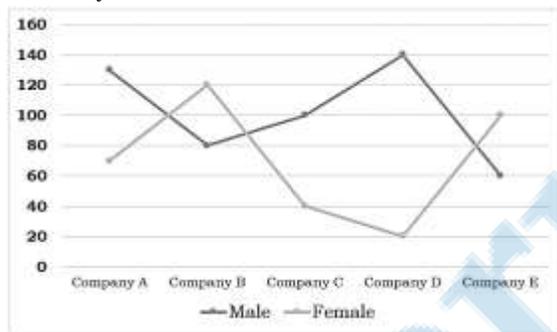

$$\text{Percentage profit or loss} = (\text{Profit} / \text{Cost price}) \times 100\%$$

$$= (\text{Rs. } 0.80 / \text{Rs. } 6.40) \times 100\%$$

$$= 12.5\% \text{ profit}$$

Directions (Q.29 – Q.30): Study the following information carefully and answer the given questions:

The following line graph shows the total number of males and females working in different companies in a certain year.

Q.29) Find the ratio of the total number of males in company B to that of the total number of females in company E?

- a) 4: 5
- b) 5: 6
- c) 2: 3
- d) 3: 4

Ans) a

Exp) Option a is the correct answer.

Total number of male in company B = 80

Total number of female in company E = 100

Required ratio = 80: 100 = 4 : 5

Q.30) Find the difference between the number of males in company D to that of the number of females in company A?

- a) 90
- b) 70
- c) 100
- d) 115

Ans) b

Exp) The number of male in company D = 140

The number of female in company A = 70

Required difference = 140 – 70 = 70

Directions (Q.31 – Q.32): Study the following information carefully and answer the given questions:

The table below shows the percentage distribution of the types of vehicles sold by five automobile companies in the year 2022:

Automobile Company	Sedans	SUVs	Hatchbacks	Luxury Cars
A	35	20	25	20
B	40	25	20	15
C	20	40	30	10
D	30	15	50	5
E	25	30	35	10

Q.31) Which automobile company had the highest percentage of SUVs sold in 2022?

- a) A
- b) B
- c) C
- d) D

Ans) c

Exp) Option c is the correct answer.

To find out which automobile company had the highest percentage of SUVs sold in 2022, we need to look at the SUV column and compare the percentages across all the companies. The highest percentage is 40%, which is sold by Company C.

Q.32) Which type of vehicle had the highest percentage sold by all the companies combined in 2022?

- a) Sedans
- b) SUVs
- c) Hatchbacks
- d) Luxury Cars

Ans) c

Exp) Option c is the correct answer.

To find out which type of vehicle had the highest percentage sold by all the companies combined in 2022, we need to add up the percentages for each vehicle type across all the companies and compare them.

The total percentages are:

- 1) Sedans: 150%
- 2) SUVs: 130%
- 3) Hatchbacks: 160%
- 4) Luxury Cars: 60%

The type of vehicle with the highest percentage sold by all the companies combined in 2022 is Hatchbacks, with a total of 160%.

Q.33) What is the remainder left after dividing $(1! + 2! + \dots + 50!)$ by 5?

- a) 3
- b) 5
- c) 2
- d) 0

Ans) a

Exp) Option a is the correct answer.

$5! + 6! + 7! + \dots + 50!$ is completely divisible by 5.

Now, $1! + 2! + 3! + 4! = 33$

When 33 is divided by 5 it leaves a remainder = 3.

Q.34) When a particular positive number is divided by 4, the remainder is 2. If the same number is divided by 7, the remainder is 1. If the difference between the quotients of the division is 2, then find the number.

- a) 78
- b) 22
- c) 106
- d) 25

Ans) b

Exp) Option b is the correct answer.

Let the quotients when this number is divided by 4 and 7 be x and y respectively.

(Note that x will be greater than y as 4 is smaller than 7).

Number = $4x + 2 = 7y + 1$

Given that, $x - y = 2$

On solving both equation we get, $x=5, y=3$

Thus, the number is $4 \times 5 + 2 = 22$.

Q.35) A student appeared in an examination consisting of six papers, each of which had a maximum weightage of 100 marks. The marks he scored in each of the subjects form an arithmetic progression with common difference of 5. He calculated the average for the best five subjects and found the average marks to be equal to the marks obtained in Mathematics. What is the difference between the average marks for all the six subjects and the marks obtained in Mathematics?

- a) 2.5
- b) 5
- c) 10
- d) Cannot be determined

Ans) a

Exp) Option a is the correct answer.

Let the subjects be A_1, A_2, A_3, A_4, A_5 and A_6 , in the increasing order of marks obtained.

common difference between each terms (i.e. Marks obtained) = 5

So, average of best five subjects (A2, A3, A4, A5 and A6) will be equal to the marks obtained in A4 (middle term), i.e. Mathematics.

Now, when calculating the average of all the six subjects, (A1, A2, A3, A4, A5 and A6), the average will be the mean of A3 and A4.

It is known that the common difference between marks of A3 and A4 = 5

Mean of A3 and A4 = $(A3 + A4)/2 = (A4 - 5 + A4)/2 = A4 - 2.5$

Therefore, the average will be 2.5 marks less than the marks obtained in Mathematics.

Q.36) A and B run a 4 km race along a circular course of length 400 m. Their speeds are in the ratio 5:3. If they start together in the same direction, how many times would A pass B (the start-off is not counted as passing)?

- a) 4 times
- b) 5 times
- c) 6 times
- d) 7 times

Ans) c

Exp) Option c is the correct answer.

The length of the circular course is 400 m, so the number of complete rounds they will run to complete a 4 km race is:

$$4000 \text{ m} / 400 \text{ m} = 10 \text{ rounds}$$

Let's assume that A is faster than B. Since A's speed is in the ratio 5:3 with B's speed, A will complete one round in $5/3$ times the time taken by B to complete one round.

Therefore, in the time taken by B to complete one round, A will complete $(5/3)$ rounds.

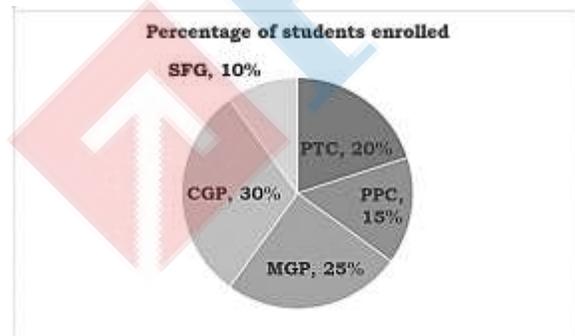

In other words, A will pass B once every $(5/3 - 1) = 2/3$ rounds.

So, the number of times A will pass B in a complete race is:

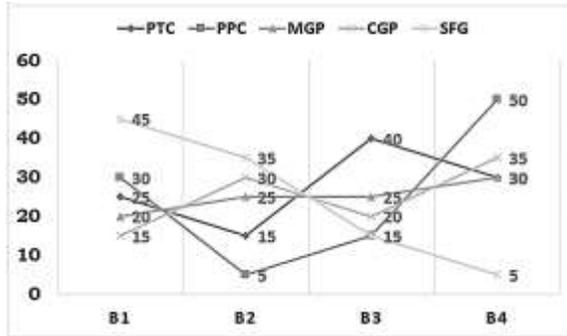

$$10 \text{ rounds} \times 2/3 = 6.67 \text{ times}$$

Since A cannot pass B a fractional number of times, we need to round down to the nearest integer. Therefore, A will pass B 6 times (excluding the start-off) in a complete 4 km race.

Direction for (Q.37 - Q.40): The pie chart shown below gives the percentage distribution of students enrolled (in numbers) in five programs of an institute- PTC, PPC, MGP, CGP, and SFG during the year 2022- 2023. The total number of students enrolled in the institute in 2022 - 2023 is four thousand.

The line graph shown below gives the percentage distribution of students enrolled in each of the five programs in the four different batches.

Q.37) In which program maximum number of students enrolled in the second batch?

- PTC
- PPC
- MGP
- CGP

Ans) d

Exp) Option d is the correct answer.

The data given in the pie chart and the line chart can be tabulated into the following table

Program	Students				Total
	Batch 1	Batch 2	Batch 3	Batch 4	
PTC	200	120	320	160	800
PPC	180	30	90	300	600
MGP	200	250	250	300	1000
CGP	180	360	240	420	1200
SFG	180	140	60	20	400

From the table, we can see the highest number of students enrolled in the second batch.

Q.38) What is the ratio of the number of students in CGP in the third batch and the number of students in PPC in the first batch?

- 1: 2
- 4: 3
- 4: 5
- 1: 3

Ans) b

Exp) Option b is the correct answer.

The data given in the pie chart and the line chart can be tabulated into the following table

Program	Students				Total
	Batch 1	Batch 2	Batch 3	Batch 4	
PTC	200	120	320	160	800
PPC	180	30	90	300	600
MGP	200	250	250	300	1000
CGP	180	360	240	420	1200
SFG	180	140	60	20	400

From the table, the number of students in CGP in the third batch and the number of student in PPC in the first batch = 240: 180 = 4:3

SFG 2023 | LEVEL 2 | Test #9 – Solutions (CSAT) | ForumIAS

Q.39) In how many batches were the number of students in any two programs in that batch is the same?

- a) 0
- b) 1
- c) 2
- d) 3

Ans) c

Exp) Option c is the correct answer

The data given in the pie chart and the line chart can be tabulated into the following table

Program	Students				Total
	Batch 1	Batch 2	Batch 3	Batch 4	
PTC	200	120	320	160	800
PPC	180	30	90	300	600
MGP	200	250	250	300	1000
CGP	180	360	240	420	1200

We can see that in B1 and B4 there are programs in which the number of students enrolled is the same. Thus, (c) is the right choice.

Q.40) In how many instances there was a decrease in the number of students enrolled in a particular batch in any program as compared to the previous batch?

Note: If in PPC number of students in B2 is less than B1, then it is counted as 1 instance

- a) 5
- b) 6
- c) 7
- d) 8

Ans) c

Exp) Option c is the correct answer.

The data given in the pie chart and the line chart can be tabulated into the following table.

Program	Students				Total
	Batch 1	Batch 2	Batch 3	Batch 4	
PTC	200	120	320	160	800
PPC	180	30	90	300	600
MGP	200	250	250	300	1000
CGP	180	360	240	420	1200
SFG	180	140	60	20	400

From the table, we can see that there are seven instances where the number of students in a program in a batch is less compared to the previous batch.

Q.1) A Constitutional Amendment Bill seeking to amend Article 368, which deals with the procedure to amend the Constitution, needs to be passed in which of the following manner?

- By the simple majority of the Parliament
- By the special majority of the Parliament
- By the special majority of the Parliament and consent of half of the State Legislatures
- It cannot be amended at all.

Ans) c

Exp) Option c is the correct answer.

The Constitution of India is a blend of rigidity and flexibility. The Constitution can be amended to keep it relevant with the changing times. At the same time, the procedure to amend the Constitution is difficult and does not allow the ruling party to change it according to their whims. **Article 368 in Part XX deals with the process to amend the Constitution.** It provides two types of amendments- a) amendment by special majority and b) amendment by special majority subject to the ratification of half of the states.

Article 368 itself can be amended by the Parliament by passing a Constitutional Amendment Bill with special majority (by more than 50 percent of the membership of the House and 2/3rd of the members of each House present and Voting). This is, however, subject to the ratification by at least half of the State Legislatures by a simple majority. Hence, option c is correct.

Knowledge Base: As held in the **Keshavananda Bharti vs. State of Kerala (1973)**, the power of the Parliament to amend the Constitution is not unlimited and it does not confer the power to amend the basic structure of the Constitution.

Source: M. Laxmikant Ch: Amendment in the Constitution

Q.2) Consider the following pairs regarding officers on election duty and their roles:

Officers on election duty	Descriptions of roles
1. Chief electoral officer	Supervise the election work in the state/Union Territory
2. Returning officer	In-charge of a polling station, who conducts the poll
3. Electoral registration officer	Responsible for the preparation of electoral rolls for constituency.
4. Presiding officer	Responsible for the conduct of elections in the constituency

Which of the pairs given above is/are correctly matched?

- 1 and 2 only
- 1 and 3 only
- 2 and 3 only
- 3 and 4 only

Ans) b

Exp) Option b is the correct answer.

Under Article 324 of the Constitution of India, the Election Commission of India is vested with the power of superintendence, direction and control of conducting the elections to the Lok Sabha and State Legislative Assemblies.

Statement 1 is correct: The Chief Electoral Officer of a state/ Union Territory is authorised to supervise the election work in the state/Union Territory subject to the overall superintendence, direction and control of the Election Commission.

Statement 2 is incorrect: The Returning Officer of a Parliamentary or assembly constituency is responsible for the conduct of elections in the Parliamentary or assembly constituency concerned. The Election Commission of India nominates or designates an officer of the Government or a local authority as the Returning Officer for each of the assembly and parliamentary constituencies.

Statement 3 is correct: The Electoral Registration Officer is responsible for the preparation of electoral rolls for a Parliamentary / assembly constituency. The Election Commission of India, in consultation with the state / UT government, appoints an officer of the government or the local authorities as the Electoral Registration Officer.

Statement 4 is incorrect: The Presiding Officer with the assistance of polling officers conducts the poll at a polling station. The District Election Officer appoints the Presiding Officers and the Polling Officers. In the case of Union Territories, such appointments are made by the Returning Officers.

Source: M. Laxmikant chapter 71 Elections

Q.3) With reference to the jurisdiction of the Union Public Service Commission (UPSC), which of the following statements are correct?

1. It serves the needs of a state on the request of the State Governor and the approval of the President of India.
2. It must be consulted for the selection of chairman or members of commissions or tribunals and posts of the highest diplomatic nature.
3. It shall be consulted for matters related to temporary appointments for a period exceeding one year.
4. The President cannot exclude posts, services and matters from the purview of the UPSC.

Select the correct answer using the code given below.

- a) 2 and 4 only
- b) 1 and 3 only
- c) 2, 3 and 4 only
- d) 1, 2, and 3 only

Ans) b

Exp) Option b is the correct answer.

The Constitution visualizes the UPSC to be the ‘**watchdog of merit system**’ in India. It is concerned with the recruitment to the all-India services and Central services–group A and group B and advises the government, when consulted, on promotion and disciplinary matters.

Statement 1 is correct: The UPSC performs the following functions:

- 1) It conducts examinations for appointments to the all-India services, Central services and public services of the centrally administered territories.
- 2) It assists the states (if requested by two or more states to do so) in framing and operating schemes of joint recruitment for any services.
- 3) **It serves all or any of the needs of a state on the request of the state governor and with the approval of the president of India.**

Statement 2 is incorrect: The following matters are kept outside the functional jurisdiction of the UPSC.

In other words, the **UPSC is not consulted** on the following matters:

- 1) While making reservations of appointments or posts in favour of any backward class of citizens.

- 2) While taking into consideration the claims of scheduled castes and scheduled tribes in making appointments to services and posts.
- 3) **With regard to the selections for chairmanship or membership of commissions or tribunals, posts of the highest diplomatic nature and a bulk of group C and group D services. (Hence, Statement 2 is incorrect)**
- 4) With regard to the selection for temporary or officiating appointment to a post less **than one year.**

Statement 3 is correct: It shall be consulted on the following matters related to personnel management:

- 1) The suitability of candidates for appointments to civil service; for promotions and transfers from one service another; and appointments by transfer or deputation. The concerned departments make recommendations for promotion and request the UPSC to ratify them.
- 2) **Matters of temporary appointments for period exceeding one year.**
- 3) Matters related to grant of extension of service and re-employment of certain retired civil servants.
- 4) Any claim for the award of a pension in respect of injury sustained by a person while serving under the Government India and any question as to the amount of any such award, etc.

Statement 4 is incorrect: The President can exclude posts, services and matters from the purview of the UPSC. But all such regulations made by the president shall be laid before each House of Parliament for at least 14 days. The Parliament can amend or repeal them.

Source: laxmikant ch 43

Q.4) Consider the following statements regarding exit polls and opinion polls:

1. Opinion poll is an opinion survey regarding how electors have voted at an election.
2. There is provision of regulation of exit polls in Representation of People Act, 1951.
3. Currently, exit polls can be telecast only after the conclusion of the last phase of the election.

Which of the statements given above are **correct**?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

Statement 1 is incorrect: Opinion polls is a pre-election survey to know voters' views on a range of election-related issues. Voters are asked various questions to analyse issues affecting them and the outcome of election.

Exit poll is an opinion survey regarding how electors have voted at an election. These are conducted outside polling booths to predict and gauge voting behaviour and simultaneous outcome of election results.

Statement 2 is correct: Section 126A of the Representation of the People's Act, 1951, puts a ban on exit polls from the period between the commencements of the poll until the closing of the final phase of the poll.

Statement 3 is correct: Currently, exit polls can be telecast only after the conclusion of the last phase of the election.

Knowledge Base: As per law no person shall conduct any exit poll and publish or publicise by means of the print or electronic media or disseminate in any other manner, the result of any exit poll during the period notified by the Election Commission in this regard. Further, any person who contravenes this provision shall be punishable with imprisonment of upto two years or with fine or with both.

M. Laxmikant chapter 71 Elections

Q.5) Consider the following pairs regarding festivals of India:

Regional Festivals - Associated States

1. Ashadhi Bij - Gujarat
2. Kharchi Puja - Manipur
3. Navreh - Kashmir

Which of the pairs given above are correctly matched?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

Pair 1 is correctly matched: Ashadhi Bij falls on the **second day of Shukla paksha** of **Ashadha** month of **Hindu calendar**. The festival is associated with the **beginning of rains in the Kutch region of Gujarat**. During Ashadhi Bij, the moisture in the atmosphere is checked to predict which crop would do best in the coming monsoon.

Pair 2 is incorrectly matched: Kharchi Puja is one of the most popular festivals in **Tripura**. It is celebrated at Agartala in the **temple premises of fourteen gods**. It's a week-long royal Puja which falls in the **month of July on the eighth day of the new moon**. The word 'Kharchi' is derived from the word 'Khya' which means earth. Kharchi Puja is basically done **to clean the post menstrual phase of mother earth's menstruation**.

Pair 3 is correctly matched: Navreh is the **lunar new year** that is celebrated in **Kashmir**. It falls on the **first day of the Chaitra Navratri**. On this day, Kashmiri pandits look at **a bowl of rice which is considered as a symbol of riches and fertility**. It is the Sanskrit word '**Nav-Varsha**' from where the word 'Navreh' has been derived.

Source: 7-centuries-old Kharchi Puja begins in Tripura - Sentinelassam

Navreh 2022: Date, Goddess Sharika, Quotes, Wishes & Celebrations - Edudwar

Q.6) With reference to the roles and responsibilities of the Election Commission of India, which of the following statements is/are correct?

1. It conducts elections for Lok Sabha, State Legislative Assemblies and Municipalities.
2. It is empowered to de-register parties on the ground of violating the Constitution.

Select the correct answer using the code given below:

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) d

Exp) Option d is the correct answer.

Statement 1 is incorrect. ECI conducts elections only for Lok Sabha, Rajya Sabha and Vidhan Sabha and not for Gram Sabha and municipalities. State Election commission is responsible for conducting elections of Gram Sabha and Municipalities.

Statement 2 is incorrect. The ECI is not empowered to de-register parties on the grounds of violating the Constitution or breaching the undertaking given to it at the time of registration. A party can only be de-registered if its registration was obtained by fraud; if it is declared illegal by the Central Government; or if a party amends its internal Constitution and notifies the ECI that it can no longer abide by the Indian Constitution.

Source: <http://egyankosh.ac.in/bitstream/123456789/21056/1/Unit-21.pdf>

Q.7) Consider the following statements regarding the procedure to amend the Constitution as laid down in Article 368:

1. A Constitutional Amendment Bill can only be introduced by a Minister and not by a private member.
2. A Constitutional Amendment Bill cannot be passed at a joint sitting of both the Houses.
3. Article 368 explicitly mentions that amendment to the VII Schedule of the Constitution requires ratification by at least half of the states.
4. Article 368 provides for amending the Constitution by the way of simple as well special majority of the Parliament.

Which of the statements given above are **incorrect**?

- a) 1 and 3 only
- b) 2 and 4 only
- c) 1, 3 and 4 only
- d) 1 and 4 only

Ans) d

Exp) Option d is the correct answer.

The procedure and powers to amend the Constitution are laid down under Article 368 of the Constitution. It states that Parliament may amend by way of addition, variation or repeal any provision of the Constitution.

Statement 1 is incorrect: A Bill to amend the Constitution **can be introduced either by a Minister or private member**. In other words, a private member is eligible to introduce a Constitutional Amendment Bill. Further, prior permission of the President is not required for the introduction of such Bill.

Statement 2 is correct: The provision of passing a bill in a joint sitting of both the Houses is applicable only to the ordinary bills and not to the Constitutional Amendment Bills. **There is no provision for holding a joint sitting for the purpose of deliberation over a Constitutional Amendment Bill.**

Statement 3 is correct: Article 368 explicitly mentions certain provisions of the Constitution which require ratification of at least half of the states (in addition to the special majority of the Parliament). **Amendment to any of the Lists of the VII Schedule has been explicitly mentioned under this Article.**

Statement 4 is incorrect: Though there are provisions of the constitution which can be amended by a simple majority of the Parliament, but Article 368 mentions/ provides for only two types of amendments- a) Special majority of the Parliament, b) Special majority of the Parliament subject to ratification by at least half of the states. **It does not deal with passing an amendment bill by the way of simple majority of the Parliament.**

Source: <https://indiankanoon.org/doc/594125/>

Q.8) Which of the following statements are correct regarding role of various types of election observers?

1. General Observers are deployed for close watch on every stage of the electoral process and ensure smooth conduct of elections.
2. Micro Observers are deployed only to oversee the process of voter awareness and voter education.
3. Expenditure Observers are appointed to keep a close watch on election expenditure of candidates.
4. Central Awareness Observers are appointed only in critical polling stations to observe the entire electoral proceedings at the Polling Stations on the poll day.

Select the correct answer using the code given below:

- a) 1 and 2 only
- b) 1 and 3 only
- c) 1, 2 and 3 only
- d) 1, 2, 3 and 4

Ans) b

Exp) Option b is the correct answer.

The Election Commission of India nominates officers of Government as Observers for Parliamentary and Assembly Constituencies. These observers are of various kinds.

Statement 1 is correct: The Commission deploys General Observers in adequate number to ensure smooth conduct of elections. These Observers are asked to keep a close watch on every stage of the electoral process to ensure free and fair elections.

Statement 2 is incorrect: In addition to General Observers, the Commission also deploys Micro Observers to observe the poll proceedings on the poll day in selected critical polling stations. They observe the proceedings at the Polling Stations on the poll day right from the mock poll to the completion of poll and the process of sealing of EVMs and other documents to ensure that all instructions of the Commission are complied with by the Polling Parties and the Polling Agents.

Statement 3 is correct: Expenditure Observers from Central Government Services are appointed to keep a close watch on election expenditure of the candidates and to ensure that no inducement is offered to the electors during the entire election process for exercise of their franchise.

Statement 4 is incorrect: For the first time in the 16th Lok Sabha Elections (2014), the Commission deployed Central Awareness Observers to oversee the efficient and effective management of the electoral process at the field level, mainly in respect of voter awareness and facilitation.

Knowledge Base: The Commission deployed Central Awareness Observers to oversee the efficient and effective management of the electoral process at the field level, mainly in respect of voter awareness and facilitation. In addition to Expenditure Observers, Assistant Expenditure Observers are appointed for each Assembly segment to ensure that all major election campaign events are video graphed and complaints of electoral malpractices are promptly attended.

Source: M. Laxmikant chapter 71 Elections

Q.9) Consider the following statements regarding the provisions of the Representation of People Act (RPA) 1951:

1. RPA, 1951 covers provisions related to qualifications of membership of Parliament and State Legislature, conduct of elections, corrupt practices and electoral offences.
2. Political parties must reveal donations received through electoral bonds as per RPA, 1951.
3. The Election Commission can reduce the period of disqualification of a person under RPA, 1951.
4. As per RPA, one candidate can contest from maximum two constituencies in a general election.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 1, 2 and 3 only
- c) 1, 3 and 4 only
- d) 3 and 4 only

Ans) c

Exp) Option c is the correct answer.

The provisions for the actual conduct of elections to the Houses of Parliament and to the House or Houses of the Legislature of each State. To provide for these provisions, the Representation of the People Act, 1951 was enacted.

Statement 1 is correct: Representation of People Act, 1951 contains provisions relating to qualifications and disqualifications for membership of Parliament and State Legislature, notification of general election, administrative machinery for the conduct of election, registration of political parties, conduct of elections, free supply of certain material to candidates of recognised political parties, disputes regarding election, corrupt practices and electoral offences, bye-elections and time limit for filling vacancies.

Statement 2 is incorrect: By virtue of the 2017 amendment made to Section 29C of the Representation of Peoples Act 1951(RPA), a donor may buy an electoral bond at specified banks and branches using electronic modes of payment and after having completed the KYC requirements. However, political parties are not required to disclose the source of these bonds to the Election Commission of India.

Statement 3 is correct: As per section 8 of Representation of the People Act, 1951 anyone sentenced to imprisonment of two years or more faces disqualification, from the date of such conviction and a bar of six years is imposed for contesting elections after serving a term in prison. The RPA itself provides a remedy through the Election Commission. Under Sec. 11 of the Act, the EC may record reasons and either remove, or reduce the period of, a person's disqualification. The EC exercised this power for Sikkim Chief Minister P.S. Tamang, who served a one-year sentence for corruption, and reduced his disqualification so as to contest a byelection and remain in office.

Statement 4 is correct: As per Section 33(7) of the RPA (Representation of the People Act), 1951, one candidate can contest from a maximum of two constituencies. More than two constituencies were allowed until 1996 when the RPA was amended to set the cap at two constituencies.

Knowledge Base: Section 62(5) of the Representation of the People Act, 1951, which prevents persons with criminal background (in confinement) from participating in election.

Sections 123(3A) and 125 of the RPA bars the promotion of animosity on the grounds of race, religion, community, caste, or language in reference to elections and include it under corrupt electoral practices.

M. Laxmikant chapter 72 Elections Laws

Q.10) Consider the following statements regarding Stratospheric Ozone and Tropospheric Ozone:

1. Stratospheric ozone forms naturally in the upper atmosphere, whereas Tropospheric ozone is mainly created by man-made emissions.
2. The chemical composition of ozone in both stratosphere and troposphere is the same.
3. Tropospheric ozone concentration is very high as compared to the concentration of stratospheric ozone.

4. Stratospheric ozone shields us from the detrimental impact of solar radiation, whereas tropospheric ozone is characterized as air pollutant.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1, 2 and 4 only
- d) 1, 2, 3 and 4

Ans) c

Exp) Option c is the correct answer.

Ozone (O₃) is a reactive gas that exists in **two layers of the atmosphere: the stratosphere (upper layer) and the troposphere (at ground level and up to 15km)**. It is both a natural and a man-made product that occurs in the Earth's upper atmosphere (the stratosphere) and lower atmosphere (the troposphere). Depending on where it is in the atmosphere, ozone affects life on Earth in either good or bad ways.

Statement 1 is correct: Stratospheric ozone is formed naturally through the **interaction of solar ultraviolet (UV)** radiation with molecular oxygen (O₂). **Tropospheric or ground-level ozone** – what we breathe – is formed primarily from photochemical reactions between two major classes of air pollutants, volatile organic compounds (VOC) and nitrogen oxides (NO_x).

Statement 2 is correct: Ozone (O₃) is a highly reactive gas composed of three oxygen atoms. **Chemically Ozone in both stratosphere and troposphere are same (O₃)**. However, the formation processes are completely different. In both the cases, the atmosphere has to produce nascent Oxygen, a highly reactive species, which can react with molecular oxygen (O=O). In stratosphere, the high energy UV rays can photolyze (O=O) to form [O], which can combine with another (O=O) to form O₃, whereas in troposphere, the source of [O] is from the photolytic dissociation of NO₂. The NO₂ needs much less energy that can be available in troposphere.

Statement 3 is incorrect: The easiest way to **distinguish between stratospheric ozone and tropospheric ozone** is by looking at the difference in the ozone concentrations in each atmospheric layer. **Stratospheric ozone concentration is very high**, whereas tropospheric ozone concentration is low. **Ozone layer is a region of Earth's stratosphere containing a high concentration of ozone** compared to ozone content in other parts of the atmosphere. Typically, the ozone layer consists of an average of 0.3 ppm ozone gas. About 90% of the total ozone concentration in the atmosphere of Earth occurs in the stratospheric layer.

Statement 4 is correct: Stratospheric ozone is found in the altitude range between approximately 10-50 km above the sea level (depending on geomagnetic latitude: equatorial, mid-latitude, and high latitude region). This atmospheric region **shields us from the detrimental impact of solar UV radiation**. On the other hand, tropospheric ozone **is nothing but air pollutant**. They are found from ground level to about 10 km above the sea level. This type of ozone is concentrated in metropolitan areas as smog.

Source: The Ozone Problem | Ground-level Ozone | New England | US EPA

Tropospheric ozone | Climate & Clean Air Coalition (ccacoalition.org)

What is Ozone? | US EPA

Q.11) A Constitutional Amendment Bill duly passed by both the Houses of the Parliament is presented to the President for assent. What are the options available with President in this regard?

- a) He must give his assent to that Bill.
- b) He can either give his assent or withhold his assent
- c) He can give his assent, withhold his assent or return the bill for reconsideration.
- d) He can give his assent, withhold his assent or refer the bill to the Supreme Court to decide its constitutionality.

Ans) a

Exp) Option a is the correct answer.

Article 368 provides that when a Constitutional Amendment Bill is presented to the President then 'he shall give his assent'. This implies that **it is mandatory for the President to give his assent to the Constitutional Amendment Bill** passed by both the Houses of the Parliament. **He can neither withhold his assent nor can return the bill to Parliament for reconsideration. The 24th Constitutional Amendment Act of 1971 made it mandatory for the President to give assent** to the Constitutional Amendment Bill.

Knowledge Base: M. Laxmikanth (Page 10, Chapter 10.1)

Source: M. Laxmikant chapter 10 Amendment of the Constitution

Q.12) Consider the following statements regarding the regulation of elections and the related campaigns:

1. The Model Code of Conduct (MCC) comes into effect as soon as the Election Commission announces the election schedule.
2. Election Commission has mandated pre-certification of political advertisements on social media.
3. The Election Commission has launched an ENCORE Nodal App to report electoral malpractices by the candidates.

Which of the statements given above is/ are correct?

- a) 1 only
- b) 1 and 2 only
- c) 3 only
- d) 2 and 3 only

Ans) b

Exp) Option b is the correct answer.

Statement 1 is correct: The Model Code of Conduct (MCC) lays down the minimum standard of behavior for political parties and their candidates contesting elections. It was adopted by the Election Commission (EC) during the mid-term elections in 1968 and 1969. It comes into effect immediately on the notification of the election schedule by the Commission and is operational till the process of elections is completed.

Statement 2 is correct: Election Commission has issued directions for pre-certification of advertisements over electronic media, including social media, by the political parties and the candidates. This also includes advertisements on TV channels or on cable networks. Media Certification and Monitoring Committees at district and State levels have been given the responsibilities of pre-certification of such advertisement along with other functions like acting against Paid News etc.

Statement 3 is incorrect: ENCORE Nodal App is an app where nodal officers of various departments issue no-objection regarding a contesting candidate to the Returning Officer. Thus, this is an integrated app for election permissions where the no-objections are received electronically, the Returning officer needs not to approach individual departments like police etc. **c-VIGIL app** has been launched to enable citizens to register complaint against a candidate for electoral malpractices. Both the apps have been launched by the Election Commission.

Source: <https://eci.gov.in/files/file/6629-instructions-of-the-commission-with-respect-to-use-of-social-media-in-election-campaigning/>

<https://eci.gov.in/it-applications/mobile-applications/nodal-app-election-permission-r53/>

Q.13) In the context of efforts of Election Commission of India (ECI) to improve voters' awareness and voters' turnout in election, consider the following statements:

1. Systematic Voters Education and Electoral Participation (SVEEP) is a joint initiative of ECI and Association of Democratic Reforms (ADR).
2. "Accessible elections" initiative mainly aims to promote the electoral participation of tribal people.

SFG 2023 | LEVEL 2 | Test #10 – Solutions | ForumIAS

3. The ECI launched Model Polling Stations (MPS) to provide basic minimum facilities to voters in the polling booth.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 1 and 3 only
- c) 2 and 3 only
- d) 3 only

Ans) d

Exp) Option d is the correct answer.

Statement 1 is incorrect: Systematic Voters Education and Electoral Participation (SVEEP) is the flagship program of the Election Commission of India (not a joint initiative with Association of Democratic Reforms (ADR) for voter education, spreading voter awareness and promoting voter literacy in India. SVEEP aims to enlighten, enable and empower every citizen to register as a voter and cast his/her vote at every election in an informed and ethical manner.

Statement 2 is incorrect: While it is true that Accessible elections is an initiative launched by Election Commission of India, it does not aim to increase the tribal participation in the election process. Accessible Elections aims to improve the participation of Disabled/Differently abled people in election by Construction of ramps, entering polling stations without waiting in the queue and facility granted to take wheelchairs inside polling stations.

Statement 3 is correct: The Election Commission of India (ECI) introduced the concept of Model Polling Stations (MPS) to provide basic minimum facilities to voters in the polling booth. MPS aims to provide Assured Minimum Facilities (AMFs) like drinking water, shed, toilets, ramps at all the polling stations, Model Polling Stations attempted to give a sense of festivity to the exercise of voting and provided additional comforts like waiting halls, first aid kits etc. Thus, MPS is believed to improve the voter turnout in election process.

<https://ceobihar.nic.in/SveepPublication/1.pdf> (pg no 20)

Q.14) Which of the following statements is correct with respect to disqualification of nominated members of the Parliament under the provisions of Anti defection law?

- a) They cannot be disqualified under the provisions of Anti-defection law if they have been nominated for Rajya Sabha.
- b) They can be disqualified if they refuse to join any political party within six months of their nomination.
- c) They can be disqualified if they join any political party at any time during their tenure.
- d) They can be disqualified if they join any political party after six months of their nomination.

Ans) d

Exp) Option d is the correct answer.

The 52nd Constitutional Amendment Act, 1985 provided for the disqualification of the members of Parliament and the state legislatures on the ground of **defection from one political party to another**. The purpose of Anti defection law is to bring stability to governments by deterring MPs and MLAs from changing their political parties on whose ticket they were elected.

Option a is incorrect: Anti defection law applies equally to both the houses of Parliament (and State legislatures). Thus, nominated members irrespective of their membership of house are subject to provisions

of Anti defection law. Hence **nominated members of Rajya Sabha can be disqualified under defection charges if he/she joins political parties after six months of their nomination.**

Option b is incorrect: Nominated member of the Parliament **cannot be disqualified on the ground of his/her refusal to join any political party within six months** of their nomination to the house. The tenth schedule (Anti defection law) provides **nominated members a choice to join any political parties within six months of their nomination** and by doing so they cannot attract defection charges.

Option c is incorrect: The tenth schedule (and Anti defection law) provides **nominated members a choice to join any political parties within six months of their nomination** and by doing so they cannot attract defection charges. So, the statement is incorrect.

Option d is correct: It is true that nominated members can be disqualified on the ground of defection, if he/she **joins any political party after six months of their nomination.**

Source: Laxmikanth _ Anti Defection

<https://prsindia.org/articles-by-prs-team/anti-defection-law-when-a-nominated-mp-loses-rajya-sabha-membership>

Q.15) Consider the following statements regarding ‘Off Budget Borrowings’:

1. It refers to loans taken by Public Sector Units (PSUs) on the directions of the government.
2. The interest on off budget borrowings is to be repaid from the revenues generated by the borrowing entity.
3. State government entities in India are barred from raising capital through off-budget borrowings mechanism.
4. Off Budget Borrowings of PSUs are not considered as a part of the fiscal deficit calculation of the public balance sheet.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 1 and 4 only
- c) 1, 3 and 4 only
- d) 2 and 4 only

Ans) b

Exp) Option b is the correct answer.

Recently, the Union Government has relaxed norms for **adjusting states off-budget loans** and said such liabilities of last fiscal year can be adjusted against their borrowing ceilings of **next four years till March 2026.**

Statement 1 is correct: Off-budget borrowings are **loans that are taken not by a government directly**, but by another public institution which borrows on the directions of the government. The government can ask any implementing agency to raise the required funds from the market through loans or by issuing bonds. In the Budget 2020-21, the government paid only half the amount budgeted for the food subsidy bill to the Food Corporation of India. The shortfall was met through **a loan from the National Small Savings Fund (NSSF).** This led to halving of the food subsidy of Union Government.

Statement 2 is incorrect: Off-budget borrowings refer to loans taken by centre/state government entities, special purpose vehicles, etc, where **principal and interest would be repaid from centre/state government's own budget**, instead of the cash flows or revenues generated by the borrowing entity.

Statement 3 is incorrect: State government entities in India **can raise capital through off-budget borrowings** mechanism. To bring in transparency in state finances, the Centre in March informed states that **off-budget borrowings are to be equated with the states' own debt** and any such fund raised by the governments in 2020-21 and 2021-22 would need to be adjusted out of the borrowing ceiling this year. Over

the last two years, many states have resorted to off-budget borrowing to fund their capital expenditures and minimise the impact of an economic downturn induced by COVID-19.

Statement 4 is correct: According to the last Budget documents, in the current financial year the Centre was set to borrow Rs 5.36 lakh crore. However, this figure did not include the loans that public sector undertakings were supposed to take on their behalf or the deferred payments of bills and loans by the Centre. These items constitute the “off-budget borrowings” because these loans and deferred payments are not part of the fiscal deficit calculation.

Source: What are off-budget borrowings? (indianexpress.com)

Off-Budget Borrowings: Centre eases norms for adjusting states' off-budget borrowings - The Economic Times (indiatimes.com)

Equating states' off-budget borrowings with their debt will clarify extent of indebtedness - ForumIAS Blog

Q.16) The amendment to which of the following provisions of the Constitution requires consent of at least half of the state legislatures, in addition to the special majority of the Parliament?

1. Altering the existing boundaries of the States.
2. Representation of States in Parliament.
3. Election process of both the President and the Vice-President
4. Fundamental Rights
5. Delimitation of constituencies

Choose the correct answer from the codes given below:

- a) 2 only
- b) 1, 2 and 5 only
- c) 3 and 4 only
- d) 1, 2, 3 and 4 only

Ans) a

Exp) Option a is the correct answer.

Article 368 deals with the cases where consent of half of the states is needed along with a special majority of the Parliament for amending certain constitutional provisions.

Option 1 is incorrect: Article 4 of the Constitution itself declares that laws made for altering the boundaries of states are not to be considered as amendment to the Constitution under Article 368. This implies that such laws can be passed by a simple majority and by the ordinary legislative process of Parliament.

Option 2 is correct: Article 368 specifically mentions that Constitutional amendments regarding representation of States in the Parliament needs consent of at least half of the state legislatures.

Option 3 is incorrect: Any Constitutional amendments in provisions of election of President and its manner require consent of half of the states. However, this requirement is not applicable for making amendments to the election process of the Vice-President.

Option 4 is incorrect: Amendments to the Fundamental Rights contained in Part III of the Constitution can be made with special majority of the Parliament. It does not require the consent of the states.

Option 5 is incorrect: Amendments regarding delimitation of constituencies can be made with simple majority. Neither special majority nor ratification by states is needed for such matters.

Knowledge Base: Other amendments for which ratification by state legislatures is needed:

- 1) Extent of executive powers of the Union and the States
- 2) Distribution of legislative powers between the Union and the States
- 3) Any of the lists in the VII Schedule
- 4) Supreme Court and High Courts
- 5) Power of Parliament to amend Article 368 itself.

M. Laxmikant chapter 10 Amendment of the Constitution

Q.17) With reference to the provisions related to the Chairman and Member of the Union Public Service Commission (UPSC) and the State Public Service Commission (SPSC), consider the following statements:

1. A member of UPSC, on ceasing to hold office, is eligible only for appointment as the chairman of UPSC.
2. The chairman of UPSC, on ceasing to hold office, is not eligible for further employment in the Government of India or a state.
3. The chairman of a SPSC, on ceasing to hold office, is only eligible for appointment as the chairman of the UPSC.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) 2 and 3 only
- d) 1 and 3 only

Ans) b

Exp) Option b is the correct answer.

The UPSC consists of a chairman and other members appointed by the president of India. The Constitution, without specifying the strength of the Commission has left the matter to the discretion of the president, who determines its composition.

Statement 1 is incorrect: A member of UPSC (on ceasing to hold office) is eligible for appointment as the **chairman of UPSC or a State Public Service Commission (SPSC)**, but not for any other employment in the Government of India or a state.

Statement 2 is correct: The chairman of UPSC (on ceasing to hold office) is not eligible for further employment in the Government of India or a state. In 1979, the Supreme Court upheld the validity of appointment of A.R. Kidwai, **a former Chairman of UPSC, as the governor of Bihar**. It ruled that the office of the governor is a 'constitutional office' and not an employment under the government.

Statement 3 is incorrect: The chairman of a SPSC (on ceasing to hold office) is eligible for appointment as the **chairman or a member of the UPSC or as the chairman of any other SPSC**, but not for any other employment under the Government of India or a state.

Knowledge Base:

The chairman or a member of UPSC is (after having completed his first term) not eligible for reappointment to that office (i.e., not eligible for second term).

Source: laxmikant ch 43

Q.18) With reference to various Constitutional Amendments and their subject matter, consider the following pairs:

Constitutional Amendments	Subject matter
1. 42nd Amendment Act,1976	Deleted Fundamental right to property
2. 52nd Amendment Act, 1985	Anti defection law
3. 61st Amendment Act,1989	Reduced voting age from 21 to 18
4. 100th Amendment Act,2015	Replaced collegium system with National Judicial Appointments Commission

How many pairs given above are correct?

- a) Only one pair
- b) Only two pairs
- c) Only three pairs
- d) All four pairs

Ans) b

Exp) Option b is the correct answer.

Here only two pairs are correctly matched.

Statement 1 is incorrect: It was the 44th Constitutional Amendment Act,1978 that deleted the right to property from the list of Fundamental Rights and made it only a legal right. 42nd Constitutional Amendment Act,1976 also called mini constitution led to addition of new words (socialist, secular and integrity) in preamble, provided for tribunals, added fundamental duties to the constitution.

Statement 2 is correct: 52nd Constitutional Amendment Act, 1985 provided for disqualification of members of Parliament and state legislatures on the ground of defection and added a new Tenth Schedule containing the details in this regard.

Statement 3 is correct: 61st Constitutional Amendment Act,1989 Reduced the voting age from 21 years to 18 years for the Lok Sabha and state legislative assembly elections and gave youth rightful participation in electoral politics.

Statement 4 is incorrect: 99th Constitutional Amendment Act,2015 Replaced the collegium system of appointing judges to the Supreme Court and High Courts with a new body called the National Judicial Appointments Commission (NJAC). However, in 2015, the Supreme Court declared this amendment act as unconstitutional and void. The 100th Constitutional Amendment Act,2015 gave effect to the acquiring of certain territories by India and transfer of certain other territories to Bangladesh to settle land boundary disputes.

Knowledge Base: 101st Constitutional Amendment Act, 2016 paved the way for the introduction of the goods and services tax (GST) regime in the country.

102nd Constitutional Amendment Act, 2018 conferred a constitutional status on the National Commission for Backward Classes.

103rd Constitutional Amendment Act, 2019 provided reservation of 10% in addition to the existing reservation for economically weaker section of citizens.

104th Constitutional Amendment Act, 2019 ended the reservation of seats for the Anglo-Indians in the Lok Sabha and State Legislative Assemblies. It also extended the reservations for SCs and STs for up to ten years.

105th Constitutional Amendment Act, 2021 gave state governments power to prepare the Socially and Educationally Backward Classes list.

M. Laxmikant chapter 10 Amendment of the Constitution

Q.19) With reference to the Union Public Service Commission (UPSC), which of the following statements is/are **incorrect**?

1. The conditions of service of the chairman or a member can only be determined by the Parliament.
2. The salaries and pensions of the chairman and members are 'made' from the Consolidated Fund of India, and thus are subjected to the vote of Parliament.
3. UPSC shall be consulted for all disciplinary matters affecting a person serving under the Government of India in a civil capacity.

Select the correct answer using the code given below.

- a) 1 only
- b) 3 only
- c) 1 and 2 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

The Constitution has made the many provisions to safeguard and ensure the independent and impartial functioning of the UPSC. Some are discussed here.

Statement 1 is incorrect: The conditions of service of the chairman or a member is **determined by the President**. It cannot be varied to his disadvantage after his appointment.

Statement 2 is incorrect: The entire expenses including the salaries, allowances and pensions of the chairman and members of the UPSC are '**charged**' on the **Consolidated Fund of India**. Thus, they are not subject to vote of Parliament. Actually, the budget consists of **two types of expenditure—the expenditure 'charged' upon the Consolidated Fund of India and the expenditure 'made' from the Consolidated Fund of India**. The charged expenditure is non-votable by the Parliament, that is, it can only be discussed by the Parliament, while the other type has to be voted by the Parliament.

Statement 3 is correct: **UPSC shall be consulted for all disciplinary matters affecting a person serving under the Government of India in a civil capacity.** Such matters include:

- 1) Censure (Severe disapproval)
- 2) Withholding of increments
- 3) Withholding of promotions
- 4) Recovery of pecuniary loss
- 5) Reduction to lower service or rank (Demotion)
- 6) Compulsory retirement
- 7) Removal from service
- 8) Dismissal from service

However, the Supreme Court has held that any irregularity in consultation with the UPSC or acting without consultation does not invalidate the decision of the government.

Source: m laxmikant ch 43

Q.20) With reference to the election of Vice President of India, consider the following statements:

1. Only elected members of state Legislative Assemblies are part of the electoral college.
2. Both nominated as well as elected members of Parliament are a part of the electoral college
3. The Supreme Court is the final authority for deciding all disputes regarding this election.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 3 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

The Vice President is the Ex-Officio chairman of the Rajya Sabha, who is next in precedence to the President. He too, like the President, is elected indirectly based on proportional representation with single transferable vote. So, for the purpose of electing the Vice President in this indirect fashion, an electoral college is constituted, which has the following features.

Statement 1 is incorrect: Neither elected nor nominated members of State Legislative Assemblies are a part of the electoral college that elects the Vice President.

This is unlike the President's election, wherein the elected members of state Legislative Assemblies are a part of their electoral college.

Statement 2 is correct: In the election of the Vice President, both elected as well as nominated members in both the Houses of the Parliament (Rajya Sabha + Lok Sabha) take part in the electoral college.

By contrast, in the election of the President, only elected members of both the Houses (as well as state legislative assemblies) are a part of the electoral college.

Statement 3 is correct: In case of any disputes regarding the election of Vice President (as well as that of the President), the Supreme Court is the only and final authority to be deciding this matter.

Source: Indian Polity by Laxmikanth, 6th edition, Ch-18;

<http://164.100.47.5/Chairman-Rajyasabha/VPElection.htm>

Q.21) Who has the final ownership rights over the sea-wealth within the territorial waters of India?

- a) The Union of India
- b) The concerned coastal states
- c) Shared by the concerned coastal states and the Union
- d) Decided by the Supreme Court of India under its original and exclusive jurisdiction

Ans) a

Exp) Option a is the correct answer.

All lands, minerals and other things of value under the waters of the ocean within the territorial waters of India, the continental shelf of India and the exclusive economic zone of India vests in the **Union**. Hence, a bordering state near the ocean cannot claim jurisdiction over these things. India's territorial waters extend to a distance of 12 nautical miles from the appropriate base line. Similarly, India's exclusive economic zone extends upto 200 nautical miles.

Source: m laxmikant ch 67

Q.22) If the government wants to compulsorily acquire the private property, then in which of the following cases it is a constitutional obligation to provide the compensation to the property owner?

1. When the government acquires the property of a minority educational institution.
2. When the government acquires the property of the persons belonging to the Schedule Tribes.
3. When the government acquires the land held by a person under his personal cultivation and the land is within the statutory ceiling limits.

Select the correct answer using the code given below.

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

Only Statements 1 and 3 are correct.

The **Parliament as well as the state legislatures** are empowered to make laws for the compulsory acquisition and requisitioning of private property by the governments. The 44th Amendment Act (1978) has also abolished the constitutional obligation to pay compensation. However, **there are only two cases** where the government has the **constitutional obligation to pay compensation**.

- 1) when the government acquires the property of a minority educational institution;
- 2) when the government acquires the land held by a person under his personal cultivation and the land is within the statutory ceiling limits.

Source: m laxmikant ch 67

Q.23) With respect to the Indian Constitution, which of the following statements regarding the 'Doctrine of Pleasure' is/are correct?

1. Every person who is a member of the civil service of a state holds office during the pleasure of the Governor of the state.
2. Members of the defense services in India are excluded from the purview of the doctrine of pleasure.

Select the correct answer using the codes given below:

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) a

Exp) Option a is correct answer.

The doctrine of Pleasure is a concept derived from English common law, under which the crown can dispense with the services of anyone in its employ at any time. In India, Article 310 of the Constitution says every person in the defence or civil service of the Union holds office during the pleasure of the President, and every member of the civil service in the States holds office during the pleasure of the Governor.

Statement 1 is correct: In Indian context, Article 310 of the Constitution says every member of the civil service in the States holds office during the pleasure of the Governor. Hence the statement is correct.

Statement 2 is incorrect: Article 310 (1) of Constitution of India states that "Except as expressly provided by this Constitution, **every person who is a member of a defence service** or of a civil service of the Union or of an all-India service or **holds any post connected with defence** or any civil post under the Union, **holds office during the pleasure of the President**. Hence the members of defense services are not out of purview of the Doctrine of Pleasure.

Knowledge Base: The following are expressly excluded by the Constitution from the Doctrine of Pleasure. They are:

- 1) Supreme Court Judges Article 124,
- 2) Auditor General (Article 148)
- 3) High Court Judges (Article 217, 218)
- 4) A member of Public Service Commission (Article 317)
- 5) The Chief Election Commissioner.

Q.24) With reference to immunity provided to the Civil Servant, which of the following is/are correct?

1. Criminal proceedings cannot be initiated against them for acts done in their official capacity.
2. Civil proceedings can be instituted against them for anything done in their official capacity after giving a two months' advance notice.
3. It is always compulsory to hold an inquiry before dismissing or removing a civil servant.

Select the correct answer using the code given below.

- a) 2 only
- b) 1 and 2 only
- c) 3 only
- d) 1, 2 and 3

Ans) a

Exp) Option a is the correct answer.

Under the Constitution, the civil servants are conferred personal immunity from legal liability for official contracts. This means that the civil servant who made a contract in his official capacity is not personally liable in respect of that contract but it is the government (Central or state) that is liable for the contract.

Statement 1 is incorrect: Criminal proceedings can be instituted against them for acts done in their official capacity, **with the prior permission of the president or the governor**, where necessary.

Statement 2 is correct: Civil proceedings can be instituted against them for anything done in their official capacity after giving a two months' advance notice. However, **no such notice is required** when the action is to be brought against them for the acts done **outside the scope of their official duties**.

Statement 3 is incorrect: **Article 311** places two restrictions on the 'doctrine of pleasure'. In other words, it provides two safeguards to civil servants against any arbitrary dismissal from their posts:

- 1) A civil servant cannot be dismissed or removed by an authority subordinate to that by which he was appointed.
- 2) A civil servant cannot be dismissed or removed or reduced in rank except after an inquiry in which he has been informed of the charges against him and given a reasonable opportunity of being heard in respect of those charges.

However, the second safeguard (holding inquiry) is not available in the following three cases. In these three cases, a civil servant can be dismissed or removed without an inquiry.

- 1) Where a civil servant is dismissed or removed or reduced in rank on the ground of conduct which has led to his conviction on a criminal charge; or
- 2) Where the authority empowered to dismiss or remove a civil servant or to reduce him in rank is satisfied that for some reason (to be recorded in writing), it is not reasonably practicable to hold such inquiry; or

- 3) Where the president or the governor is satisfied that in the interest of the security of the state, it is not expedient to hold such inquiry.

Source: Laxmikant - ch 66 and 67

Q.25) With reference to Zero Coupon Zero Principal instruments, consider the following statements:

1. It is a financial instrument that can be issued only by the Government of India.
2. It is a type of 'security' that can be listed on Social Stock Exchange segment of a recognised Stock Exchange.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) b

Exp) Option b is the correct answer.

The government on July 16, 2022, declared the so-called zero-coupon, zero-principal instruments as securities that can be listed on particular exchanges. These are financial instruments to facilitate donations to non-profits in a more transparent and organised manner.

Statement 1 is incorrect: Zero Coupon Zero Principal (ZCZP) is a financial instrument resembling a debt raising bond that is **issued** by a **not-for-profit organization, not the Government of India**. Hence this statement is **incorrect**.

Statement 2 is correct: Like other marketable securities, the **SEBI** has rolled out **rules** relating to these financial instruments. One of them is that **these instruments will be listed like securities** are listed on stock exchanges. They will be listed on a **special subcategory of recognised stock exchanges**, called the **Social Stock Exchanges**, which was announced by the SEBI in 2021.

The **concept of Social Stock Exchanges** was announced in the **Budget Speech of 2019-20**. They were **first cleared by Sebi in September 2021**. They are meant to be **exchanges-like the NSE and BSE**—except they **will list only securities that raise money for non-profit or for-profit social enterprises**. These exchanges are still in the works.

Q.26) With reference to provisions related to Joint State Public Service Commission (JSPSC), consider the following statements:

1. The Government of India Act of 1935 provided for the establishment of Joint Public Service Commission.
2. Only the Parliament decides the number of members in a JSPSC and their conditions of service through an act.
3. The Chairman and Members can be suspended by the Governor but can be removed by the President only.
4. A JSPSC presents its annual performance report to the Governors of concerned states.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 4 only
- d) 1, 3 and 4 only

Ans) c

Exp) Option c is the correct answer.

The Constitution makes a provision for the establishment of a Joint State Public Service Commission (JSPSC) for two or more states. While the UPSC and the SPSC are created directly by the Constitution, a JSPSC can be created by an act of Parliament on the request of the state legislatures concerned. Thus, a JSPSC is a **statutory and not a constitutional body**.

Statement 1 is correct: The Government of India Act of 1919 provides a **Central Public Service Commission** which was set up in 1926 and entrusted with the task of recruiting civil servants. **The Government of India Act of 1935** provided for the establishment of not only a Federal Public Service Commission but also a Provincial Public Service Commission and **Joint Public Service Commission for two or more provinces**.

Statement 2 is incorrect: The **President (not Parliament)** decides the number of members of a JSPSC and their conditions of service.

Statement 3 is incorrect: The chairman and members of a JSPSC are appointed by the President. They hold office for a term of six years or until they attain the age of 62 years, whichever is earlier. They can be **suspended or removed by the President**. They can also resign from their offices at any time by submitting their resignation letters to the president. The Governor has no role in appointment and removal.

Statement 4 is correct: A JSPSC presents its annual performance report to **each of the concerned state Governors**. Each Governor places the report before the state legislature.

Source: laxmikant ch 44

Q.27) With reference to Electoral reforms in India, consider the following pairs:

Committees	Recommendations/ Reforms
1. Indrajit Gupta Committee	Candidate should not contest in more than two constituencies.
2. J.S. Verma Committee	Disqualification of candidates for committing sexual offences.
3. Y B Chavan Committee	Banning defecting legislators from holding ministerial positions for a year

How many pairs is/are correctly matched?

- a) Only one pair
- b) Only two pairs
- c) All three pairs
- d) None of the pairs.

Ans) b

Exp) Option b is the correct answer.

In India, various committees and commissions have been formed to reform the electoral system. Those committees have examined the Indian electoral system and its election machinery and suggested reforms to ensure free and fair elections in India.

Pair 1 is incorrect: The Indrajit Gupta Committee formed in 1998 did not recommend the candidate to contest in not more than two constituencies (Parliamentary as well as Legislative assembly). It was the **recommendation of Dinesh Goswami committee formed in 1990.**

Pair 2 is correct: It is true that the **J.S. Verma committee formed in 2012** recommended that candidates should be **disqualified for committing sexual offences**. The committee further recommended that filing of charge sheet and cognizance by the Court should be sufficient for disqualification of a candidate.

Pair 3 is correct: It is true that **Y B Chavan Committee (1967) recommended barring defecting legislators from holding ministerial positions for a year**. The committee defined defection as the voluntary giving up of allegiance of a political party on whose symbol a legislator was elected, except when such action was the result of the decision of the party.

<https://prsindia.org/theprsblog/state-funding-of-elections?page=29&per-page=1>

Q.28) With reference to elections in India, consider the following statements:

1. The 17th Constitutional Amendment Act (CAA) made the procedure for removal of other Election Commissioners as the same as that of Chief Election Commissioner.
2. The candidate contesting elections for State and Central legislature must declare his/her - own assets, spouses' assets and dependants' assets.
3. It is mandatory for political parties to publish criminal records of their candidates on their websites and to publish them in at least two newspapers.
4. Legislatures can be removed from his/her post immediately after his/her conviction of offences which amounts to at least 2-year imprisonment.

Which of the statements given above are correct?

- a) 1, 2 and 3 only
- b) 2 and 3 only
- c) 2, 3 and 4 only
- d) 1 and 4 only

Ans) c

Exp) Option c is the correct answer.

Statement 1 is incorrect: To ensure the independence of the Election Commission Article 324 (5) of the Constitution provides that the **Chief Election Commissioner shall not be removed from his office except in like manner** as a Judge of the Supreme Court. However, Article 324 (5) does not provide similar protection to the **Election Commissioners**, and it merely says that **they cannot be removed from office except on the recommendation of the Chief Election Commissioner** and **this provision has not changed so far by the Government of India**. The **Seventeenth Constitutional Amendment Act (CAA), 1964** prohibited the **acquisition of land** under personal cultivation unless the market value of the land is paid as compensation and included **44 more acts in the Ninth Schedule** of the constitution.

Statement 2 is correct: In 2003, the **Election Commission** issued an order directing every candidate seeking election to the Parliament or a State legislature **to declare his/her - own assets, spouses' assets and dependants' assets.**

Statement 3 is correct: In 2020 the Supreme court in relation to the Bihar Assembly election, ruled that **parties must publish criminal records of its candidates in their website and to publish such details in at least two newspapers.** The court held that such details must be published by political parties within 48 hours of their selection or at least two weeks before the first date for filing of nomination papers.

Statement 4 is correct: Section 8 of the Representation of the People Act (RPA), 1951, states that a candidate can be disqualified, if he/she was convicted of any offences which amounts to at least 2-year imprisonment, but it provided exemption stating that **disqualification will not take effect for three months** after his/her conviction. However, the **Supreme court has struck down this exception in the Lily Thomas case and enabled immediate disqualification after conviction of offences** which amounts to at least 2-year imprisonment.

Q.29) In the context of Indian Polity, which of the following are the National Parties?

1. Nationalist Congress Party (NCP).
2. Communist Party of India (Marxist).
3. Bahujan Samaj Party (BSP).
4. Dravida Munnetra Kuzhagan (DMK)
5. National People's Party (NPP).

Select the correct answer using the code given below:

- a) 1, 2 and 3 only
- b) 1, 2, 3 and 5 only
- c) 2, 3 and 4 only
- d) 1, 2, 3, 4 and 5

Ans) b

Exp) Option b is the correct answer.

The Election Commission registers political parties for the purpose of elections and grants them recognition as **national or state parties based on their poll performance.** The other parties are simply declared as registered-unrecognised parties.

Option 1, 2, 3 and 5 are correct: There are nine political parties which have secured a status of National Parties in India (Recently Aam Aadmi Party secured the status of a National Party). The eight other National Political Parties are National Congress Party, Communist Party of India (Marxist), Bahujan Samaj Party (BSP), Communist party of India, Indian National Congress, Bhartiya Janata Party, All India Trinamool Congress, National People's Party. The **National People's Party (NPP)** which is dominant in **Meghalaya** has been recognised as the **eighth national party by the Election Commission of India in 2019**, making it the first regional party of the north-east to be accorded the status.

Option 4 is incorrect: Dravida Munnetra Kazhagam (DMK) is not a national party, it is a recognised state party and is dominant political party in the state of Tamil Nadu.

Q.30) Consider the following pairs:

Region in news - **Location**

1. Luhansk - Russia
2. Parcel Islands - South China sea
3. Donetsk - Ukraine
4. Snake Islands - Mediterranean Sea

Which of pairs given above are correctly matched?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 2, 3 and 4 only
- d) 1, 2, 3 and 4

Ans) b

Exp) Option b is the correct answer.

Source: Natural Earth; United Nations Office for the Coordination of Humanitarian Affairs (OCHA)

Donetsk and Luhansk in Ukraine

Pair 1 is incorrectly matched, and Pair 3 is correctly matched: Donetsk and Luhansk are two states located in **eastern Ukraine**, which share a border with Russia. This entire region, which includes Donetsk, Luhansk and their respective separatist territories, is generally referred to as the **'Donbas' region**.

Pair 2 is correctly matched: The **Parcel Islands** commonly referred as **Hoang Sa Archipelago** are a disputed archipelago in the **South China Sea**. The archipelago includes about **130 small coral islands and**

reefs. China, Vietnam, the Philippines, Taiwan, Malaysia, and Brunei all have competing claims. Recently, US sent destroyer near Paracel Islands angering China.

Paracel Islands

Pair 4 is incorrectly matched: Zmiinyi Island, also known as Snake Island, is a small piece of rock less than 700 meters from end to end in Black Sea, that has been described as being “X-shaped”. The island, which has been known since ancient times and is marked on the map by the tiny village of Bile that is located on it, belongs to Ukraine. Recently, Russia had control over this island.

US sends destroyer near Paracel Islands angering China | South China Sea News | Al Jazeera

After losing Luhansk, Ukraine forces regather for defence of Donetsk | World News, The Indian Express

Q.31) With reference to Anti defection law in India, consider the following statements:

1. Presiding officer of the house can disqualify a member on the grounds of defection, only after consultation with the Election Commission of India
2. Presiding officers' decision over cases related to anti-defection cannot be questioned in any court.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) d

Exp) Option d is the correct answer.

The Tenth Schedule was inserted in the Constitution in 1985 through 52nd Constitutional Amendment Act and it lays down the process by which legislators may be disqualified on grounds of defection by the Presiding Officer of a legislature. A legislator is deemed to have defected if he either **voluntarily gives up**

the membership of his/her party or disobeys the directives of the party leadership on a vote. **Statement 1 is incorrect:** It is true that the **Presiding officer of the house disqualifies a member of the house on the ground of defection, but** consultation with the Election commission is not necessary. Any question regarding disqualification arising out of defection is to be decided by the presiding officer of the House.

Statement 2 is incorrect: Although originally the act provided that the **decision of the presiding officer is final and cannot be questioned in any court.** However, in the **Kihoto Hollohan case (1993)**, the Supreme Court declared this provision as unconstitutional and **ruled that the Presiding officer's decision is subject to judicial review.**

Source: Laxmikanth - Anti Defection

Q.32) With reference to the State Public Service Commission (SPSC), which of the following statements are correct?

1. The Constitution does not specify the strength of the Commission but has left the matter to the discretion of the Governor.
2. The Constitution does not prescribe any qualification for the commission's membership.
3. The present tenure of the chairman and members of the Commission is same as it was prescribed in the original constitution.
4. The State legislature can confer on SPSC the additional functions relating to the services of the state.

Select the correct answer using the code given below.

- a) 1 and 4 only
- b) 2 and 3 only
- c) 1, 3 and 4 only
- d) 1, 2, 3 and 4

Ans) a

Exp) Option a is the correct answer.

Parallel to the Union Public Service Commission (UPSC) at the Centre, there is a State Public Service Commission (SPSC) in a state.

Statement 1 is correct: A State Public Service Commission consists of a chairman and other members appointed by the governor of the state. **The Constitution does not specify the strength of the Commission but has left the matter to the discretion of the Governor.** The Constitution also authorises the Governor to determine the conditions of service of the chairman and members of the Commission.

Statement 2 is incorrect: The Constitution prescribes only one qualification for the commission's membership. That **one-half of the members of the commission** should be such persons who have held office for at least ten years either under the government of India or under the Government of a state.

Statement 3 is incorrect: The chairman and members of the Commission hold office for a term of six years or until they attain the age of 62 years. **In original Constitution, it was 60 years. The 41st Amendment Act of 1976 raised it to 62 years.**

Statement 4 is correct: The State legislature can confer on SPSC the additional functions relating to the services of the state. It can also place the personnel system of any local authority, corporate body or public institution within the jurisdiction of the SPSC. **Hence the jurisdiction of SPSC can be extended by an Act made by the state legislature.**

Q.33) With reference to Voting rights of citizens in India, consider the following statements:

1. While the convicted person on bail can vote, the person in prison is not entitled to vote.
2. Undertrial prisoners are allowed to vote if their names are on the electoral rolls.
3. The person under preventive detention can cast his/her vote through postal ballots.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 1 and 3 only
- c) 3 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

The right to vote is a constitutional right under **Article 326** of the Constitution. Recently, the Supreme Court has decided to examine a petition challenging a provision in the election law that imposes a **blanket ban on under trials** and convicts serving their sentence in jails from casting their votes.

Statement 1 is correct: It is true that a **convicted person can vote if he/she is out on bail, while a person in prison** irrespective of his/her conviction or nature of crime, **cannot vote**. Section 62(5) of the Representation of the People Act, 1951, mandates that **No person shall vote at any election if he/she is confined in a prison** which means those who are **outside prison can vote in elections**.

Statement 2 is incorrect: **Undertrial prisoners cannot vote even if their names are on the electoral rolls**. This amounts to denying a large group of the population the right to vote. According to the National Crime Reports Bureau (NCRB) **report of 2021, there are over 4,27,165 undertrial prisoners** in jails across India. Section 62(5) of the Representation of People Act, 1951 states that No person shall vote at any election if he/she is confined in a prison, which includes under trial prisoners.

Statement 3 is correct: It is true that the **persons detained preventive detention can cast their vote through postal ballots**. Section 62(5) of the Representation of People Act, 1951 states that those who are under preventive detention can cast their vote through postal ballot.

Source: <https://www.thehindu.com/news/national/supreme-court-examines-poll-law-which-deprives-under-trials-civil-prison-detainees-their-right-to-vote/article66076670.ece>

Q.34) With reference to the removal process related to the Chairman and members of the Union Public Service Commission (UPSC), which of the following statements are correct?

1. The President has to refer the matter to the Supreme Court for an enquiry only when the ground of removal is misbehavior.
2. There is no difference in the grounds of removal for CAG and the members of UPSC.
3. The advice tendered by the Supreme Court with regard to enquiry is binding on the President.

Select the correct answer using the code given below.

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

The Union Public Service Commission (UPSC) is the central recruiting agency in India. It is an independent constitutional body in the sense that it has been directly created by the Constitution.

Statement 1 is correct: The President can remove the chairman or any other member of UPSC from the office under the following circumstances:

- (a) If he is adjudged an insolvent (that is, has gone bankrupt);
- (b) If he engages, during his term of office, in any paid employment outside the duties of his office;
- (c) If he is, in the opinion of the president, unfit to continue in office by reason of infirmity of mind or body.

In all the above three cases, It is not necessary to refer the case by the President to the Supreme Court for an enquiry. However, when the president removes the chairman.

or any other member of UPSC for misbehaviour. In this case, the president has to refer the matter to the Supreme Court for an enquiry.

Statement 2 is incorrect: There is considerable difference between the removal process and grounds of removal. **CAG can be removed by the president on same grounds and in the same manner as a judge of the Supreme Court (not same as members of UPSC).** He can be removed by the president on the basis of a **resolution passed to that effect by both the Houses of Parliament with special majority**, either on the ground of proved misbehaviour or incapacity. **Whereas, in case of UPSC, there is no involvement of Parliament.**

Statement 3 is correct: If the Supreme Court, after the enquiry, upholds the cause of removal and advises so, the president can remove the chairman or a member. **Under the provisions of the Constitution, the advice tendered by the Supreme Court in this regard is binding on the president.** During the course of enquiry by the Supreme Court, the president can suspend the chairman or the member of UPSC.

Source: laxmikant ch 43

Q.35) With reference to the cultivation of Opium in India, consider the following statements:

1. Cultivation of opium is legally allowed under regulated circumstances in India.
2. It is only cultivated in the states of Rajasthan, Madhya Pradesh & Uttar Pradesh
3. Private sector is not allowed to cultivate or sell opium in India.

Which of the statements given above is/ are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) a

Exp) Option a is the correct answer.

Opium is a natural substance obtained from poppy seeds and its derivatives are mainly used for pain management. “The extracts from opium poppy such as morphine are potent painkillers and are mainly prescribed to cancer patients,”. The opium product codeine is helpful in cough suppression. It is used illicitly for smoking, drinking, or even eating as pills. The addictive properties of opium are the reason that the cultivation of poppy is highly regulated around the world. Recently the government opened the highly regulated sector of opium cultivation to the private sector.

Statement 1 is correct: India is one of the few (12) countries in the world where Opium is legally cultivated.

India is **signatory** to the **United Nations Single Convention on Narcotic Drugs, 1961** and as a licit producer of opium, India is required to adhere to the regulations under the said convention. In India opium poppy cultivation is **prohibited** under **Section 8 of NDPS Act, 1985, except** under a **licence** issued by the **Central Bureau of Narcotics under Rule 8 of NDPS Rules, 1985.** So, growing of opium is legal but heavily regulated.

Statement 2 is correct: At present, the licit opium poppy cultivation is **permitted by the Govt.** of India in **selected tracts in three traditionally opium growing States** namely **Madhya Pradesh, Uttar Pradesh and Rajasthan.**

Statement 3 is incorrect: Up until recently, the cultivation and sale of opium was very heavily regulated, and the private sector was not allowed to participate on a large scale. However, the NDPS Act empowers the Central Government to permit and regulate cultivation of opium poppy for **medical and scientific purposes**. Using this very power, the government in **July 2022 opened the cultivation and sale to the private sector for medicinal purposes**. Bajaj Healthcare has become the first company to win tenders for producing concentrated poppy straw that is used to derive alkaloids that are the active pharmaceutical ingredient in pain medication and cough syrups.

Knowledge Base:

History of Opium trade in India:

India has been growing poppy at least since the 15th century, as per Ain-i-Akbari

The British East India Company assumed monopoly on the cultivation of poppy when the Mughal Empire was on the decline, and the entire trade was brought under government control by 1873.

After India gained independence, the cultivation and trade of opium passed on to the Indian government, with the activity being controlled by The Opium Act, 1857, The Opium Act, 1878, and The Dangerous Drugs Act, 1930. At present, the cultivation and processing of poppy and opium is controlled by the provisions of The Narcotic Drugs and Psychotropic Substances (NDPS) Act and Rules.

India's Opium Policies:

The government announces the licensing policy for opium cultivation every year, providing details on minimum qualifying yield, the maximum area that can be cultivated by a single cultivator, and the maximum benefit that is allowed to cultivators for damage to the crop due to natural causes.

The cultivation of opium poppy is strictly monitored and the government uses satellite images to check for illicit cultivation. Once the crop is ready, they have a formula on how much the yield should be.

This entire quantity is then bought by the government and processed in its own factories. The opium produced in the country is currently processed entirely at the Government Opium and Alkaloid Factories in Uttar Pradesh's Ghazipur and Madhya Pradesh's Neemuch. Products such as morphine, codeine, thebaine, and oxycodone are produced.

<http://cbn.nic.in/html/operations.html>

Q.36) With reference to Anti defection law of India, consider the following statements:

1. Casting of vote by members of parliament against the direction of their parties is considered one of the grounds of defection.
2. An independent member joining any other party within six months of his/her election cannot be disqualified on the ground of defection.
3. In India, Speaker/Deputy Speaker of the Lok Sabha who voluntarily gives up his/her membership of the party are exempted from defection charges.
4. Currently, defection by more than one third of the members of a political party is not considered defection under Anti defection law.

Which of the statements given above are correct?

- a) 1, 3 and 4 only
- b) 2 and 4 only
- c) 1 and 3 only
- d) 1, 2 and 3 only

Ans) c

Exp) Option c is the correct answer.

In 1985 the tenth Schedule, popularly known as the anti-defection law, was added to the Constitution. It was added on the backdrop of toppling of multiple state governments after MLAs changed their political loyalties. The law specifies the circumstances under which changing of political parties by MPs/MLAs invites action under the law.

Statement 1 is correct: Casting of vote by members against the direction of his/her parties is considered one of the grounds of **defection**. The **Tenth Schedule** states that a member can be disqualified on the ground of defection **if he/she votes or abstains from voting** in contrary to any direction of his/her parties. He/she cannot be disqualified if members committed such actions with **prior permission** of such party and such act has **been condoned by the party within 15 days**.

Statement 2 is incorrect: An independent member joining any other party after his/her election can be disqualified on the ground of defection, regardless of the time period in which he/she joins another party.

Statement 3 is correct: It is true that Anti defection law provides exemption to the Speaker as well as Deputy Speaker of Lok Sabha. If a member, after being elected as the **Speaker/Deputy Speaker of the House, voluntarily gives up the membership of his party** or re-joins it after he ceases to hold that office cannot be disqualified on the grounds of defection. This exemption has been provided in view of the dignity and impartiality of the Speakers' office.

Statement 4 is incorrect: As per the **original Anti defection law**, defection by more than one third of the members of political parties are not considered defection by Anti defection law. But this exemption was **deleted by the 91st Constitutional Amendment Act of 2003** which means that the defectors have no more protection on grounds of splits.

Source: Laxmikanth - Anti Defection

Tenth Schedule of the Constitution of India

Q.37) With reference to Contracts exercised by the Union government, consider the following statements:

1. They must be executed by such person or in such manner as the President may direct or authorize.
2. President is not personally liable in respect of any contracts executed in his name.

Which of the above given statements is/are correct?

- a) 1 Only
- b) 2 Only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) c

Exp) Option c is the correct answer.

Under the exercise of its executive power, the Union or a state can enter contracts for the acquisition, holding and disposal of property, or to carry on any trade or business, or for any other purpose. But the Constitution lays down three conditions which must be fulfilled by such contracts: (a) They must be expressed to be made by the president or governor, as the case may be;

(b) They must be executed on behalf of the president or governor, as the case may be; and

(c) They must be executed by such person or in such manner as the **president or governor** may direct or authorize. **Hence, Statement 1 is correct.**

Statement 2 is correct: The president or the governor is not personally liable in respect of any contract executed in his name. Similarly, the officer executing the contract is also not personally liable. This immunity is purely personal and does not immunize the government from contractual liability, making the government suable in contracts.

Source) Laxmikant

Q.38) With reference to Coalition governments in India, consider the following statements:

1. India's first-ever coalition government at the Centre was under the Prime Ministership of Morarji Desai.
2. At the Centre, National Democratic Alliance (NDA) was the first non-Congress coalition government to govern for a full term of five years.

Which of the above given statements is/are correct?

- a) 1 Only
- b) 2 Only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) c

Exp) option c is the correct answer.

Statement 1 is correct: India's **first-ever coalition government formed at the Centre was under the Prime Ministership of Morarji Desai.** This was also the first non-Congress government at Centre, headed by the Janata Party.

Statement 2 is correct: The NDA won an absolute majority in the Parliament and became **the first non-Congress coalition government** in post-independence India to govern for a full term of five years from 1999 to 2004.

Source: <https://www.ilkogretim-online.org/fulltext/218-1639053033.pdf>

Q.39) With reference to the Representation of the People Act of 1951, consider the following statements:

1. It prohibits displaying any election matter by means of cinematograph or television during the polling in an election.
2. It mandates that election pamphlets must bear the name and address of the publisher.

Which of the above given statements is/are correct?

- a) 1 Only
- b) 2 Only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) c

Exp) Option c is the correct answer.

Statement 1 is correct: Section 126 of the Representation of the People Act, 1951 prohibits **displaying any election matter by mean** of cinematograph, **television** or other similar apparatus, **during the period of 48 hours ending with the hour fixed for conclusion of poll.**

Statement 2 is correct: Section 127A of the Representation of the People Act, 1951: **The printing and publication of election pamphlets, posters, etc. is governed by its provisions, which make it mandatory to bear on its face the names and addresses of the printer and the publisher.**

Source: <https://eci.gov.in/mcc/>

Q.40) Which of the following statements regarding the Flag Code of India, seen in news recently is correct?

- a) The national flag is made exclusively from handmade/ spun fabric.
- b) The national flag can be displayed by the public only on Republic Day & Independence Day.
- c) The national flag can never be burned or buried.
- d) The national flag cannot be worn as a part of any costume below the waist.

Ans) d

Exp) Option d is the correct answer.

The Flag Code of India, 2022, which was amended vide Order dated 30 December 2021, laid down rules on how to use, display and hoist the national flag. It took effect on 26 January 2022. It has been in news because of the campaign of hoisting the tricolour on every home to celebrate 75 years of independence. The flag code was tweaked for three days (between August 13-15) earlier in July by the government of India keeping in mind the Azadi Ka Amrit Mahotsav. The instructions regarding the National Flag are contained in the Flag Code of India 2002 and upheld by the Prevention of Insults to National Honour Act, 1971.

Statement a is incorrect: Earlier the tricolour used to be made **exclusively out of hand spun material** using hand making techniques. However, in **recent amendments (December 2021)**, the **machine production** of the tricolour was **allowed**. It allowed the national flag to be made of **polyester or stitched using machines**. Now, the Tricolour can be made of **hand-spun, hand-woven or machine-made cotton, polyester, wool, silk and khadi bunting**.

Statement b is incorrect: The tricolour **may be displayed by any organisation or any member of the public on any special occasion**, such as the Republic or Independence Day, **or any ordinary day as well**. The only caveat is that they must ensure that **all rules for ensuring the respect and dignity of the flag are maintained**.

Statement c is incorrect: The Code **permits the burning or burial** of the tricolour, in order to **dispose of it**, if it has been **badly damaged**. Although it is encouraged to store the flags properly, in case they have been damaged **beyond repair** due to some reason, they may be disposed of by **burning, but only in private in a dignified manner**. They may also be **disposed of by burial**, but only **after being folded properly and being placed in a wooden box**.

Statement d is correct: The code **prohibits the use of the national flag “as a portion of costume or uniform”**. It **cannot be used as an accessory to be worn below the waist** of any person “nor shall it be embroidered or printed on cushions, handkerchiefs, napkins, undergarments or any dress material.

Knowledge Base:

The flag can be as big or small as one wants “but the ratio of the length to the height (width) of the National Flag shall be 3:2. The flag must always be a rectangle rather than square or any other shape.

It is against rules to display a damaged or dishevelled National Flag

No other flag or bunting shall be placed higher than or above or side by side with the National Flag; nor shall any object including flowers or garlands, or emblem be placed on or above the flag mast from which the National Flag is flown”. The Tricolour should never be used as a festoon, rosette, bunting or for a decorative purpose. No advertisements should be festooned to the pole from which it flies.

The National Flag cannot be flown on any vehicle except those of the President, Vice President, Prime Minister, Governor and other dignitaries. The flag should also not be used to cover the sides, back, and top of any vehicle.

People, who are waving flags made of paper, should not throw these on the ground after the ceremony.

The flag “shall not be allowed to touch the ground or the floor or trail in the water.

Q.41) With reference to the Right to Information Act of 2005, consider the following statements:

1. The act provides that, in case of matters involving a petitioner's life and liberty, the information has to be provided within two days.
2. Records of deliberations of the Council of Ministers cannot be accessed through the Act.
3. According to the act, appeals against the decision of Public Information Officer lies only to the High court of the respective state.

Which of the above given statements is/are correct?

- a) 1 and 2 Only
- b) 1 and 3 Only
- c) 2 and 3 Only
- d) 1 only

Ans) a

Exp) Option a is the correct answer.

Statement 1 is correct: Generally, a Public Information Officer needs to provide the information requested by the application either immediately (if possible) or within 30 days. **But, in the case of matters involving a petitioner's life and liberty, the information has to be provided within two days.**

Statement 2 is correct: One of the exemptions from disclosure of information under this act is cabinet papers including **records of deliberations of the Council of Ministers**, Secretaries and other officers.

Statement 3 is incorrect: An appeal over the decision of Public Information Officer can be **made to a departmental Appellate Authority**, who is an officer senior in rank to the PIO but in the same public authority.

Source: <https://www.newindianexpress.com/nation/2021/feb/22/sc-pulls-up-centre-for-not-filing-reply-on-jairam-rameshs-plea-against-amended-rti-act-2267440.html> <https://blog.forumias.com/rti-act-benefits-and-concerns/> [https://rti.gov.in/RTI%20Act,%202005%20\(Amended\)-English%20Version.pdf](https://rti.gov.in/RTI%20Act,%202005%20(Amended)-English%20Version.pdf)

Q.42) With reference to Citizens' Charter in India, consider the following statements:

1. Citizen's charters are not legally enforceable documents.
2. In India, for the first time, the Citizens' Charter was proposed in the report of 2nd Administrative Reforms Commission.
3. At the central level, the task of coordinating and operationalizing of Citizen's Charters are vested with the Ministry of Home Affairs.

Which of the above given statements is/are correct?

- a) 1 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1 and 2 only

Ans) a

Exp) Option a is the correct answer.

Citizens' Charters initiative is a response to the quest for solving the problems which a citizen encounters, day in and day out, while dealing with the organizations providing public services. The concept of Citizens' Charter enshrines the trust between the service provider and its users.

Statement 1 is correct: Citizen's charters are not legally enforceable documents. They are just guidelines to enhance service delivery to citizens.

Statement 2 is incorrect: In a **Conference of Chief Ministers of various States and Union Territories held on 24 May 1997 in New Delhi**, presided over by the Prime Minister of India, an **'Action Plan for Effective**

and Responsive Government' at the Centre and State levels was adopted. One of the major decisions at that Conference was that the Central and State Governments would formulate Citizens' Charters, starting with those sectors that have a large public interface. 2nd ARC was constituted in the year of 2005; hence the concept of Citizens' Charter was prominent in India even before the appointment of the 2nd ARC.

Statement 3 is incorrect: Department of Administrative Reforms and Public Grievances in Government of India (DARPG) initiated the task of coordinating, formulating and operationalizing Citizens' Charters. The DARPG website lists more than 700 charters adopted by various government agencies across India.

Source: <https://darpg.gov.in/en/citizens-charters-historical-background>

Q.43) Consider the following initiatives by the government to promote e-governance in the country:

e-governance Initiative	Purpose
1. DigiLocker	Facilitating paperless availability of public documents.
2. MeriPehchaan	National Single Sign-on platform to facilitate citizens ease of access to government portals.
3. Diksha	A national platform to help school students and teachers achieve learning goals.

How many pairs given above are correctly matched?

- Only one pair
- Only two pairs
- All the three pairs
- None of the pairs

Ans) c

Exp) Option c is the correct answer.

Pair 1 is correctly matched: DigiLocker: It is facilitating paperless availability of public documents. Digital Locker has more than 11.7 crore users and more than 532 crore documents are made available through DigiLocker from 2,167 issuer organizations.

Pair 2 is correctly matched: MeriPehchaan – National Single Sign-on platform called MeriPehchaan has been launched in July 2022 to facilitate citizens ease of access to government portals.

Pair 3 is correctly matched: Diksha – Diksha is a national level educational platform that helps students and teachers to participate, contribute and leverage a common platform to achieve learning goals at scale for the country. As on 27th July 2022, 7,633 courses are available, and more than 15 crore enrolments have been done.

Source: <https://pib.gov.in/Pressreleaseshare.aspx?PRID=1847837>

Q.44) With reference to All India Judicial Services, Consider the following statements:

- The 44th Constitutional Amendment Act provided for the creation of All India Judicial Services.
- The all-India judicial service should not include any post inferior to that of a district judge.

Which of the above given statements is/are correct?

- a) 1 Only
- b) 2 Only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) b

Exp) Option b is the correct answer.

Statement 1 is incorrect: The 42nd Constitutional amendment (not 44th Constitutional amendment) in 1976 amended Article 312 (1) empowering Parliament to make laws for the creation of one or more All-India Services, including an AIJS, common to the Union and the States. Under Article 312, Rajya Sabha is required to pass a resolution supported by not less than two-thirds of its members present and voting. Thereafter, Parliament has to enact a law creating the AIJS.

Statement 2 is correct: The all-India judicial service should not include any post inferior to that of a district judge. A law providing for the creation of this service is not to be deemed as an amendment of the Constitution for the purposes of Article 368.

Q.45) With reference to the Foreign Contributions Regulation Act, consider the following statements:

1. It prohibits journalists, members of parliament, and political parties from accepting foreign donations.
2. The licence granted under it needs to be renewed annually.
3. All foreign contributions must be received in a separate escrow account.
4. The foreign donations received may be transferred between entities after submitting an application.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 1 and 3 only
- c) 2 and 3 only
- d) 2 and 4 only

Ans) b

Exp) Option b is the correct answer.

The Foreign Contributions Regulation Act (FCRA) seeks to regulate foreign donations to individuals and associations so that they functioned in a manner consistent with the values of a sovereign democratic republic. An amended FCRA was enacted in 2010 to “consolidate the law” on utilisation of foreign funds, and “to prohibit” their use for “any activities detrimental to national interest. The law was amended again by the current government in 2020, giving the government tighter control and scrutiny over the receipt and utilisation of foreign funds by NGOs.

Broadly, the FCRA requires every person or NGO seeking to receive foreign donations to be (1) registered under the Act, (2) to open a bank account for the receipt of the foreign funds in State Bank of India, Delhi, and (3) to utilise those funds only for the purpose for which they have been received and as stipulated in the Act.

Statement 1 is correct: Among the **entities** that are **prohibited from receiving foreign donations** are - **candidates for elections, journalists or newspaper and media broadcast companies, judges and government servants, members of legislature and political parties or their office-bearers, and organisations of a political nature.**

This has been done with the objective of preventing any undue influence of outside forces (from other countries) on the democratic processes of our countries, as the actors mentioned in the list are important influences on the democratic process.

Statement 2 is incorrect: Earlier, licence once granted never ever need be renewed, but by the **2020 amendments**, a licence once granted is **only valid for 5 years (not 1 year)**, after which it needs to be renewed. Hence this statement is **incorrect**.

Statement 3 is correct: One of the **2020 amendments mandated** that **all foreign contributions** that are received by the entities must be **deposited in a separate escrow account in Delhi branch of the SBI, and registered with the government**, so that all its **activities may be monitored**. These **donations may not be transferred** to any other accounts. This has been done so that foreign donations may not be misused to subvert democratic processes or arouse chaos and sedition in the country.

Statement 4 is incorrect: The **foreign donations** received under this Act **cannot be transferred from one entity to another under any circumstances**. Hence this statement is **incorrect**. The amended **Section 7 of the FCRA 2010** prevents a recipient of foreign contribution from transferring the same to any other entity.

Q.46) The Dinesh Goswami Committee was formed to make recommendations on

- Civil services reforms
- Electoral reforms
- Police reforms
- Centre state relations

Ans) b

Exp) Option b is the correct answer.

Dinesh Goswami was a politician in India. In 1989, he served as the Law and Justice Minister in the V.P. Singh government. In 1990, the Dinesh Goswami Committee was formed to make recommendations **on electoral reforms. Its recommendations were:**

- It proposed giving political parties in-kind governmental money (state funding)
- It also suggested that a candidate should not be permitted to contest in more than two constituencies.
- Need for amendment of Anti-defection law to restrict disqualification where elected member voluntarily gives up his membership.
- Fresh delimitation based on 1981 census
- Reduce age of candidates from 25 to 21 for assembly seats
- Discourage non-serious candidates - increasing the security deposit to Rs 5000 for Lok Sabha and Rs 2500 for Assembly elections.
- The issue of disqualification should be decided by the President/ Governor on the advice of the Election Commission.

Source) Laxmikant

Q.47) With reference to 91st Constitutional Amendment Act of 2003, consider the following statements:

- As per the Act, a member of parliament disqualified on the grounds of defection is also disqualified to be appointed as a minister.
- It limits the total number of ministers in the Central council of ministers to 15 percent of the total strength of the Parliament.

Which of the above given statements is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) a

Exp) Option a is the correct answer.

The 91st Amendment Act of 2003 has made the following provisions to limit the size of Council of Ministers, to debar defectors from holding public offices, and to strengthen the anti-defection law:

Statement 1 is correct: A member of either House of Parliament belonging to any political party who is disqualified on the grounds of defection shall also be disqualified to be appointed as a minister (Article 75).

Statement 2 is incorrect: The total number of ministers, including the Prime Minister, in the Central Council of Ministers shall not exceed 15 per cent of the total strength of the **Lok Sabha (not parliament)** (Article 75).

Source) Laxmikant

Q.48) Consider the following statements with reference to the Delimitation Commission of India:

1. More than three Delimitation Commissions have been constituted so far since Independence.
2. The Commission is always headed by the Chief Election Commissioner of India.
3. The order of the commission cannot be challenged in the court of law.

Which of the statements given above is/are correct?

- a) 1, 2 and 3
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1 only

Ans) c

Exp) Option c is the correct answer.

Delimitation means the act or process of **fixing limits** or **boundaries** of territorial constituencies in a country or a province having a legislative body. The job of delimitation has been assigned to a high-power body in India. Such a body is known as Delimitation Commission.

Statement 1 is correct. Delimitation Commissions have been constituted **4 times in India** (a) In 1952 under the Delimitation Commission Act, 1952, (b) In 1963 under Delimitation Commission Act, 1962, (c) In 1973 under Delimitation Act, 1972 and (d) In 2002 under Delimitation Act, 2002.

Statement 2 is incorrect. The Delimitation Commission is a **three-member commission**. It is headed by a **retired judge** of the Supreme Court. It draws other members from the Election Commission of India and the state election commissions.

Statement 3 is correct. The order of the Delimitation Commission **cannot be challenged in question before any court**. They come into force on a date to be specified by the President of India. Such orders have the force of law.

Source: <https://eci.gov.in/delimitation-website/delimitation/>

<https://www.thehindu.com/news/national/delimitation-commission-accepts-some-suggestions-of-jk-mps/article65081272.ece>

Q.49) With respect to the provisions regarding public servants in India, consider the following statements:

1. The recruitment rules of all types of public servants in India are made by the Parliament.
2. The Constitution empowers only the Parliament to impose reasonable restrictions on the fundamental rights of public servants.

Which of the above statements is/ are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) d

Exp) Option d is the correct answer.

Statement 1 is incorrect: This statement is **incorrect** as the **Parliament frames the rules only** with regards to **recruitment** of public servants belonging to the **All-India services** and the **Central Services**. The recruitment of public servants belonging to the **third category** - i.e., **State Services** is **regulated** by the laws and rules framed by the **Legislative Assembly** of the **state concerned**.

Statement 2 is incorrect: Although the **Part III** of the Constitution **guarantees certain basic rights** to all citizens of India as they have been recognized as **essential to well-being** of citizen individuals, it also makes the **provision to curtail some** of these rights for the people who have been chosen as **public servants**. The Constitution empowers the **Parliament** or the **State Legislature** to impose “**reasonable restrictions**” on the **Fundamental Rights** of **public servants** in the interest of the **integrity, efficiency, and impartiality** of the public servants. For example, the **Central Services (Conduct) Rules** put restrictions on the **Right to Freedom of Speech and Expression** of public servants as they are barred from revealing classified matters to the public or writing or speaking against the policies of the government, etc.

Q.50) With respect to Model Tenancy Act of 2021, consider the following statements:

1. The act is not applicable to premises rented for industrial uses.
2. Written lawful rent agreement between the owner and tenant is mandatory under this act.
3. Implementation of this act is a prerequisite for states to get any financial support from the centre, under Prime Minister Awas Yojana (Urban).
4. The act has been adopted by all states, except Tamil Nadu and Andhra Pradesh.

Which of the statements given above are correct?

- a) 1, 2 and 3 only
- b) 2 and 3 only
- c) 1 and 2 only
- d) 3 and 4 only

Ans) c

Exp) Option c is the correct answer.

The Model Tenancy act, 2021 was proposed by the Union government under the **aegis of the Ministry of Housing and Urban Affairs**. The act aims to bridge the trust deficit between tenants and landlords by clearly delineating their obligations. It aims to create a vibrant, sustainable, and inclusive rental housing market in the country.

Statement 1 is correct: It is true that the **Model Tenancy act, 2021 does not apply to premises rented for industrial uses** and also it won't apply to hotels, lodging, etc. At present the law is **applicable to premises rented for residential, commercial, or educational use**.

Statement 2 is correct: The Model Tenancy act, 2021 made it **mandatory to create a written lawful rent agreement** between the owner and tenant. Further the act requires establishing **rent authorities in every district** to regulate renting of premises.

Statement 3 is incorrect: Adoption of model tenancy act is not a prerequisite for states to get financial support under Prime Minister Awas Yojana. Pradhan Mantri Awas Yojana – Urban (PMAY-U) being implemented by the Ministry of Housing and Urban Affairs (MoHUA) to ensure pucca housing to all eligible urban households by the year 2022. Under PMAY the centre provides financial assistance to States/Union Territories (UTs).

Statement 4 is incorrect: So far, the Model Tenancy act has been **adopted by four states only** and they are **Tamil Nādu, Andhra Pradesh, Uttar Pradesh and Assam.**

Source: <https://blog.forumias.com/model-tenancy-act-need-and-challenges/>
<https://www.thehindu.com/news/national/a-year-on-only-four-states-adopt-model-tenancy-law/article65681473.ece>

Q.1) Consider the following statements regarding the Union Territory of Delhi:

1. The Lieutenant Governor can promulgate an ordinance when the assembly is dissolved.
2. Any ordinance can be promulgated by the Lieutenant Governor without the prior permission of the President.
3. Every ordinance must be approved by the assembly within six weeks from its reassembly.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

The 69th Constitutional Amendment Act of 1991 provided a special status to the Union Territory of Delhi, and redesignated it the National Capital Territory of Delhi and designated the administrator of Delhi as the lieutenant (Lt.) governor. It created a legislative assembly and a council of ministers for Delhi.

Ordinance making Power in the UT of Delhi:

Statement 1 is incorrect: The Lieutenant Governor is empowered to promulgate ordinances only during recess of the assembly. But, **he/she cannot promulgate an ordinance when the assembly is dissolved or suspended.**

Statement 2 is incorrect and 3 is correct: Every ordinance must be approved by the assembly within six weeks from its reassembly. Lieutenant Governor can also withdraw an ordinance at any time. But, he cannot promulgate an ordinance when the assembly is dissolved or suspended. Further, **no such ordinance can be promulgated or withdrawn without the prior permission of the President.**

Source: Indian Polity by M Laxmikant, chapter 40

<https://www.thehindu.com/news/cities/Delhi/the-debate-over-the-delhi-assembly/article65651965.ece>

Q.2) Consider the following statements regarding various initiatives related to the North Eastern region of India:

1. An agreement to end Bru-Reang refugee crisis has been signed between the state governments of Manipur and Tripura and the insurgent groups of Tripura.
2. Armed Forces Special Powers Act (AFSPA) has been completely withdrawn from the States of Tripura and Meghalaya.
3. Karbi-Anglong Peace Agreement has been signed between the Central Government, the Government of Nagaland and the insurgent groups of Nagaland.

Which of the statements given above is/ are correct?

- a) 1 only
- b) 2 only
- c) 1 and 2 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

One of the core objectives of the government has been to end all disputes in the North East and to make it a peaceful region. The North Eastern region comprises of eight states- Arunachal Pradesh, Nagaland, Manipur, Mizoram, Meghalaya, Assam, Tripura and Sikkim. Government has signed various border dispute

settlement agreements and peace accords to curb insurgency, extremism and ethnic cleansing of the region.

Statement 1 is incorrect: Bru or Reang is a community living mostly in Tripura, Mizoram and Assam. Violent conflict between Bru and Mizo tribes of Mizoram had erupted in 1997. More than 30,000 Bru-Reang tribals were forced to flee Mizoram and sought shelter in Tripura. **In 2020, an agreement has been signed between the Central Government, Governments of Tripura and Mizoram and representatives of Bru Tribe to resolve the refugee crisis.** The agreements provides for settlement of the Bru-Reangs in Tripura along with a financial package. Government of Manipur is not a party to the agreement.

Statement 2 is correct: Armed Forces Special Powers Act (AFSPA) has been a major reason for the dispute between the locals and the governments, giving more fuel to the insurgency movements. Over the years, there has been significant improvement in the security situation in the North East. Accordingly, **AFSPA has been completely withdrawn from the states of Tripura and Meghalaya.**

Statement 3 is incorrect: Karbi Anglong Peace Agreement is a tripartite agreement signed in 2021 between the Central Government, Government of Assam and the insurgent groups of Assam. Karbi Anglong is the largest district of Assam. The core demand of the insurgents has been creation of a separate state. More than 1000 armed cadres renounced violence and joined the mainstream society after this agreement.

Knowledge Base: AFSPA has been reduced from a large part of North East. It is still present in the areas of Assam, Nagaland, Manipur and Arunachal Pradesh.

Source: https://www.mha.gov.in/sites/default/files/PR_BruAccord_17012020.pdf

<https://pib.gov.in/FeaturesDeatils.aspx?NoteId=151186&ModuleId%20=%202>

Q.3) In the context of India's Nuclear Policy, consider the following statements:

1. India is the world's only country to have adopted 'no-first use' policy.
 2. Only the Political Council of the Nuclear Command Authority can authorize the use of nuclear weapons.
- Which of the above given statements is/ are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) b

Exp) Option b is the correct answer.

A nuclear doctrine is meant to provide a framework **regarding the use of nuclear weapons by a nuclear-weapon state both during peace and war.** India had officially adopted the nuclear doctrine in 2003.

Statement 1 is incorrect: In 1964, China had already declared its no-first use policy. India had adopted this policy in 1998 after the successful completion of nuclear tests in Pokhran. Presently, **only India and China have declared policy of 'no first use'.** The policy asserts that the arsenal would be used only as a nuclear deterrent. However, the government reserves the right to use nuclear weapons for retaliation **against nuclear attack on Indian territory or on Indian Forces anywhere.** In case of **biological or chemical weapons attack** also, the government reserves right for retaliatory nuclear strike.

Statement 2 is correct: The Nuclear Command Authority comprises a Political Council and an Executive Council. **The Political Council is chaired by the Prime Minister. It is the sole body which can authorize the use of nuclear weapons.** The Executive Council is chaired by the National Security Advisor. It provides inputs for decision making by the Nuclear Command Authority and executes the directives given to it by the Political Council.

Q.4) Which among the following is/are the Constitutional provisions related to the Multi-state Cooperative Societies in India?

1. The accounts of every co-operative society shall be audited within six months of the close of the financial year.
2. The conduct of elections to a co-operative society shall be vested in such body, as may be provided by the Election Commission of India.

Select the correct answer using the codes given below:

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) a

Exp) Option a is the correct answer.

Part IX-B of the constitution contains provisions with respect to the cooperative societies. Few of them are:

Statement 1 is correct: Audit of Accounts of Multi-state Co-operative Societies- The parliament may make provisions for the maintenance of accounts by the multi-state co-operative societies and the auditing of such accounts at least once in each financial year. **The accounts of every multi-state co-operative society shall be audited within six months of the close of the financial year.** The audit report of the accounts of an apex multi-state co-operative society shall be laid before the parliament.

Statement 2 is incorrect: Election of Members of Board- The election of a board shall be conducted before the expiry of the term of the board so as to ensure that the newly elected members assume office immediately on the expiry of the term of the office of members of the outgoing board. **The superintendence, direction and control of the preparation of electoral rolls and the conduct of elections to a multi-state co-operative society shall vest in such body, as may be provided by the Parliament.**

Source: Indian Polity by M Laxmikant, Chapter 64

Q.5) Consider the following statements with reference to Data protection in India:

1. CERT-In is the national nodal agency for responding to cybersecurity threats.
2. As per RBI, the payment data shall be stored in systems located only in India.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) c

Exp) Option c is the correct answer.

Data protection is the **process of safeguarding important information from corruption, compromise, or loss.**

Statement 1 is correct: Computer Emergency Response Team - India (CERT-In) is an organization of the Ministry of Electronics and Information Technology with the objective of securing Indian cyberspace. CERT-In is empowered under **Section 70B of the Information Technology Act** to collect, analyze and disseminate information on cyber security incidents. **It is the national nodal agency which deals with cybersecurity threats like hacking and phishing.**

Statement 2 is correct: With data localization, RBI **aims to protect personal data of the country's citizens by restricting data on servers outside the country's geographical boundaries.** As per the RBI data localization rules, **the entire payment data shall be stored in systems located only in India.**

Q.6) The 'Panchsheel (Five Principles of Peaceful Coexistence) presented an alternative path to the path of contentions and conflicts. In this context, consider the following statements regarding the 'Panchsheel' doctrine:

1. These principles were enunciated for the first time during the Bandung Conference in 1955.
2. Both India as well as China has accepted the Panchsheel principles in the matters of foreign policy.
3. 'Peaceful co-existence' is one of the stated principles under Panchsheel.

Which of the statements given above is/ are correct?

- a) 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

Panchsheel gave voice to the newly independent countries who were trying to secure their hard won independence. It provided an alternative ideology dedicated to **peace and development of all as the basis of international interaction.**

Statement 1 is incorrect: The Panchsheel principles had been formally enunciated for the first time in the **Agreement on Trade and Intercourse between the Tibet region of China and India**, signed in 1954. **The Agreement specifically stated the 5 principles of Panchsheel.** The vision caught the attention of the peoples of Asia and Africa. These were also incorporated into the 10 principles of International Peace and Cooperation issued in 1955 by the Bandung Conference of 29 Afro-Asian countries.

Statement 2 is correct: Since India and China have signed the Agreement on Trade and Intercourse between the Tibet region of China and India, **both have formally accepted these principles.** Also, **Prime Minister Jawaharlal Nehru and Premier Zhou Enlai issued a joint statement that elaborated the vision for Panchsheel. They stated that the framework was applicable not only between India-China relations, but also for their relations with other countries.**

Statement 3 is correct: 'Peaceful co-existence' is one of the stated principles under the Panchsheel. Other four principles include:

- 1) Mutual respect for each other's territorial integrity and sovereignty.
- 2) Mutual non-aggression
- 3) Mutual non-interference

4) Equality and mutual benefit

<https://ncert.nic.in/ncerts/1/leps204.pdf>

Q.7) Which of the following statements correctly describes the differences between pressure groups and political parties?

1. Pressure groups do not contest elections while political parties contest elections.
 2. Pressure groups use only legal and legitimate methods, while political parties also use extra-constitutional methods.
 3. Government employee can be a member of Pressure group but cannot be a member of a political party.
- Select the correct answer using the code given below.

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

A **pressure group** is a group of people who are organised actively for promoting and defending their common interest, while **political party** is a group of persons organized to acquire and exercise political power.

Statement 1 is correct: The pressure groups are also called interest groups or vested groups. **The pressure groups are different from the political parties as they neither contest elections nor try to capture political power.**

Statement 2 is incorrect: **The pressure groups** influence the policymaking and policy implementation in the government **through legal and legitimate methods** like lobbying, correspondence, publicity, propagandising, petitioning, public debating, maintaining contacts with their legislators and so forth. **However, sometimes they resort to illegitimate and illegal methods** like strikes, violent activities and corruption which damages public interest and administrative integrity. The **Naxalite movement** started in 1967 in West Bengal is one such example. **Whereas Political parties** try to gain political **power through constitutional means (by contesting the election)** and desire to work for promoting the national interest.

Statement 3 is correct: There are many professional pressure groups for the improvement of service conditions. Even government employees can be the members of pressure group. For example, **Indian Medical Association (IMA) and All India Federation of University and College Teachers (AIFUCT)**. While the **All-India Services (Conduct) Rules, 1968 states that no member of the Service shall be a member of, or be otherwise associated with, any political party or any organization which takes part in politics.**

Q.8) Consider the following statements regarding the integration of Princely States into the Indian Union:

1. Travancore was the first princely state to formally join the Indian Union.
2. K.M. Panikkar supported the idea of integration of Princely States into the Indian Union.
3. V.P. Menon was made the Minister-in-charge of the States Department, formed to supervise the integration process.

Which of the statements given above is/ are correct?

- a) 1 and 2 only
- b) 2 only
- c) 3 only
- d) 2 and 3 only

Ans) b

Exp) Option b is the correct answer.

The constitutional status of Princely States during the deliberations of 1940s had remained largely ambiguous. The Cabinet Mission (1946) focused on United India vs Pakistan question. Similarly, on 3rd June, 1947, British announced both the date of their final withdrawal and creation of two dominions, but did not make clear the position of states. This complicated the integration process as some Princes had started dreaming of their independent nations.

Statement 1 is incorrect: Around 560 states had already joined the Union before the State of Travancore. Travancore was the first state to question the right of the Congress to succeed the British as paramount power. Geographically, it was strategically placed at the Southernmost tip of the sub-continent. Its dewan was **Sir C.P. Ramaswamy Aiyar, who had made clear his vision to make Travancore an independent state once the British left India.**

Statement 2 is correct: The State of Bikaner was amongst the first ones to join the Indian Union. **K.M. Panikkar was its dewan.** He **strongly urged other states to join Indian union and opined that integration is beneficial for the security of the states and unity of India.** After Bikaner, dozens of other rulers joined Indian Union on the appeal of Panikkar.

Statement 3 is incorrect: A new States Department was set up by the Government of India to supervise the integration process. **Vallabhai Patel was made the Minister in charge of this department. V.P. Menon was chosen as Secretary by Patel.** He travelled different parts of India, persuaded Princes and acted as a mediator between Lord Mountbatten and Sardar Patel. He was instrumental in doing the groundwork for the integration of different Princely States.

Q.9) Which of the following initiatives have been launched by the Indian Army or the Government to tackle the issue of militancy/insurgency in Kashmir?

- 1. Operation Sarp Vinash
- 2. Operation All Out
- 3. Operation Sunrise

Which of the options given above is/are correct?

- a) 2 and 3 only
- b) 1 only
- c) 1 and 2 only
- d) 1 and 3 only

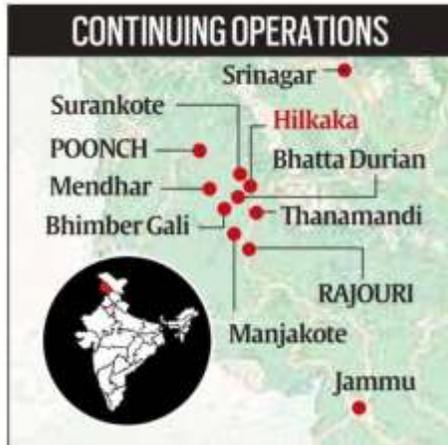

Ans) c

Exp) Option c is the correct answer.

The militancy in Kashmir region is primarily due to the reasons like demand for an independent country, demand for accession to Pakistan and greater regional autonomy. The militancy including hybrid militancy and over-the-ground workers have remained persistent challenge to the peace and security in the state.

Option 1 is correct: The Indian Army has carried out Operation Sarp Vinash (snake destroyer) in the **Hilkaka Poonch-Surankot area of the Pir Panjal Range in Kashmir.** The operation aimed to eliminate terrorists

who have made bases in the region. More than 60 militants were killed by the Army. It was one of the biggest counter-insurgency operations in Jammu and Kashmir.

(Source: Indian Express)

Option 2 is correct: The Operation All Out (OAO) was a joint offensive launched by Indian Security Forces in 2017 to flush out militants and terrorists in the Kashmir region. **It included the personnel from Indian Army, CRPF, Jammu and Kashmir Police, Border Security Force (BSF) and the Intelligence Bureau (IB).**

Option 3 is incorrect: Operation Sunrise was the joint effort of India and Myanmar to destroy militant camps in the Northeast region. The armies carried a coordinated operation targeting militant groups operating in Assam, Manipur and Nagaland. It aimed to bust the camps of Kamtapur Liberation Organisation, the National Socialist Council of Nagaland (Khaplang), the United Liberation Front of Assam, etc.

Q.10) Consider the following statements about the conservation of Tiger (*Panthera Tigris*):

1. Tiger (*Panthera Tigris*) has been classified as “Endangered” under the IUCN Red List.
2. Government of India has launched Project Tiger in 1973, to comply with St. Petersburg Declaration on Tiger Conservation.
3. India achieved the goal of doubling the tiger numbers in 2018, four years in advance from the targeted year 2022.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

Recently, India has hosted the Pre-Summit meeting of Tiger Range Countries (TRCs). The Tiger Range Countries Summit is scheduled to be held at Vladivostok, Russia on 5th September 2022.

Statement 1 is correct. Panthera Tigris is categorized as Endangered as per the IUCN red data book.

Statement 2 is incorrect. St. Petersburg Declaration on Tiger Conservation was an outcome of St. Petersburg Tiger Summit, 2010. As per this declaration the 13 tiger range countries pledged to achieve a target of doubling the number of Tigers. As, Project Tiger was launched in 1973, it was not a consequence of St. Petersburg Tiger Summit.

Statement 3 is correct.

A per the data released by the MoEF&CC,

- 1) India is home to 53 Tiger Reserves covering approximately 75,000 Sq. Km area in 18 States with approximately 75% population of the wild tiger at global level.
- 2) **India achieved the goal of doubling the tiger numbers in 2018 itself, four years in advance from the targeted year 2022.**
- 3) Also, so far 17 Tiger Reserves in the country have got CA|TS international accreditation and two Tiger Reserves have got International Tx2 Award.

Source: <https://www.worldwildlife.org/species/tiger>

<https://pib.gov.in/PressReleasePage.aspx?PRID=1850581#:~:text=Pre%2Dsummit%20meeting%20of%20the%20Tiger%20Range%20Countries%20as%20a,in%20progress%20in%20New%20Delhi.>

Q.11) Consider the following statements regarding safeguards for languages in the Constitution of India:

1. The Constitution provides for a Special Officer for Linguistic Minorities, to be appointed by the President.
2. As per the Constitution, the Governor of a state can direct a language to be recognised officially in the state.

Which of the above given statements is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) a

Exp) Option a is the correct answer.

Statement 1 is correct:

Article 350B of Constitution of India provides for a Special Officer for linguistic minorities. According to the article:

- 1) **There shall be a Special Officer for linguistic minorities to be appointed by the President.**
- 2) It shall be the duty of the Special officer to investigate all matters relating to the safeguards provided for linguistic minorities under this Constitution and report to the President upon those matters at such intervals as the President may direct, and the president shall cause all such reports to be laid before each House of Parliament and sent to the Government of the States concerned.

Statement 2 is incorrect: According to the Constitution, when **the President (not the Governor of State)** is satisfied that a substantial proportion of the population of a state desire the use of any language spoken by them to be recognised by that state, then he may direct that such language shall also be officially recognised in that state. This provision aims at protecting the linguistic interests of minorities in the states. So, it is the President and not the Governor who can give direction about the official language in a state.

Source: M. Laxmikanth Chapter 65 Official Language

Q.12) Consider the following statements regarding the post-independence partition of Punjab into the states of Punjab and Haryana:

1. The Punjab Suba Movement demanded a separate state of Punjab for the Punjabi speaking people.
2. The Das Commission (1961) advocated for the partition of Punjab on the basis of language.
3. The division of Punjab came into effect during the Prime Ministership of Pandit Jawaharlal Nehru.

Which of the statements given above is/ are correct?

- a) 1 only
- b) 1 and 2 only
- c) 1 and 3 only
- d) 2 and 3 only

Ans) a

Exp) Option a is the correct answer.

Statement 1 is correct: The Punjab Suba Movement was a political agitation demanding a **separate state of Punjab for the Punjabi speaking people**. It was primarily led by the Shiromani Akali Dal under the leadership of Master Tara Singh and Sant Fateh Singh.

Statement 2 is incorrect: Due to the ongoing agitation for a separate state, **the Central Government had appointed a three-member commission chaired by S.R. Das in 1961 to address Sikh grievances**. Akali Dal objected to the composition as well as scope of the Commission. It did not present its case to the Commission. **Das Commission had rejected the idea of a separate state for the Punjabi speaking population**. The Commission observed that Sikhs in Punjab had been adequately represented in the Government and various other public services. The Commission also held that no case of discrimination against Sikhs in Punjab has been made out.

Statement 3 is incorrect: The division of Punjab came into effect **in November 1966 during the Prime Ministership of Indira Gandhi with the passage of Punjab Reorganization Act, 1966**. The Act created two new states – Punjab and Haryana. The hill areas were merged with the then Union Territory of Himachal Pradesh. The city of Chandigarh became a temporary Union Territory to serve as the provisional capital of both Punjab and Haryana.

Source: <https://indianculture.gov.in/reports-proceedings/report-punjab-commission>

Q.13) Which of the following Union Ministries acts as a nodal ministry for all matters of Union Territories relating to legislation, finance and budget?

- a) Ministry of Home Affairs
- b) Ministry of Defense
- c) Ministry of Finance
- d) None of the above.

Ans) a

Exp) Option a is the correct answer.

Under the Government of India (Allocation of Business) Rules 1961, Ministry of Home Affairs is the nodal ministry for all matters of Union Territories relating to legislation, finance and budget, services and appointment of Lt. Governors and Administrators. All the UTs without legislature (Andaman and Nicobar Islands, Chandigarh, Dadra and Nagar Haveli and Daman and Diu, Lakshadweep and Ladakh) have the forum of Home Minister's Advisory Committee (HMAC)/Administrator's Advisory Committee (AAC).

Source: Indian Polity by M Laxmikant, chapter 40

Q.14) Consider the following statements regarding the Union Territories in India:

1. A Union Territory is administered by the President through an administrator appointed by him/her.
2. The President can appoint the Governor of a state as the administrator of an adjoining union territory.
3. The President can specify the designation of the administrator of the Union Territory.

Which of the statements given above is/are correct?

- a) 1, 2 and 3
- b) 2 only
- c) 1 and 2 only
- d) 1 and 3 only

Ans) a

Exp) Option a is the correct answer.

Articles 239 to 241 in Part VIII of the Constitution deal with the union territories. Even though all the union territories belong to one category, there is no uniformity in their administrative system.

Statement 1 is correct.: Every union territory is administered by the President acting through an administrator appointed by him. **An administrator of a union territory is an agent of the President and not head of state like a governor.**

Statement 2 is correct: The President can appoint the governor of a state as the administrator of an adjoining union territory. In that capacity, the governor is to act independently of his council of ministers.

Statement 3 is correct.

The President can specify the designation of an administrator; it may be Lieutenant Governor or Chief Commissioner or Administrator. At present, it is Lieutenant Governor in the case of Delhi, Puducherry, Andaman and Nicobar Islands, Jammu and Kashmir and Ladakh and Administrator in the case of Chandigarh, Dadra and Nagar Haveli, Daman and Diu and Lakshadweep.

Source: Indian Polity by M Laxmikant, chapter 40

Q.15) With reference to SMILE-75 initiative, recently seen in news, consider the following statements

1. It primarily aims to identify and rehabilitate the victims of child trafficking in 75 most vulnerable cities
2. It is being implemented by the Union Ministry of Social Justice and Empowerment.

Which of the above statements is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) b

Exp) Option b is the correct answer.

Statement 1 is incorrect. The Government of India has formulated a comprehensive scheme of SMILE (Support for Marginalised Individuals for Livelihood and Enterprise) **to address the persisting problem of destitution and beggary.** Under the “SMILE-75” Initiative, 75 Municipal Corporations will undertake comprehensive rehabilitation of persons engaged in the act of begging in the spirit of Azadi ka Amrit Mahotsav.

Objectives:

- 1) To make cities/town and municipal areas begging-free.
- 2) To make a strategy for comprehensive rehabilitation of the persons engaged in the act of begging through the coordinated action of various stakeholders.

Statement 2 is correct. Implementing Ministry: The Ministry of Social Justice and Empowerment.

Source: <https://www.thehindu.com/news/national/social-justice-ministry-launches-smile-75-initiative/article65762276.ece>.

Q.16) Consider the following statements with reference to the special constitutional provisions relating to the languages in India:

1. An aggrieved person can use any of the languages used in the Union or in the state for representing his/her grievances to any officer or authorities.
2. The right to conservation of language of the minorities is one of their Fundamental Rights.
3. States should facilitate instruction in the mother-tongue at the primary stage of education for children belonging to linguistic minority groups.

Which of the above statements are correct?

- a) 1 and 2 only
- b) 1 and 3 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

Statement 1 is correct: As per the Constitution (Article 350) every aggrieved person has the right to submit a representation for the redress of any grievance to any officer or authority of the Union or a state in any of the languages used in the Union or in the state, as the case may be. This means that a representation cannot be rejected on the ground that it is not in the official language.

Statement 2 is correct: Article 29 of the Constitution provides that any section of the citizens residing in any part of India having a distinct language, script or culture of its own, shall have the right to conserve the same. Article 29 grants protection to both religious minorities as well as linguistic minorities. However, the Supreme Court held that the scope of this article is not necessarily restricted to minorities only, as it is commonly assumed to be.

Statement 3 is correct: As per the Constitution (Article 350A) every state and a local authority in the state should provide adequate facilities for instruction in the mother-tongue at the primary stage of education to children belonging to linguistic minority groups. The president can issue necessary directions for this purpose.

Knowledge Base: The new National Curriculum Framework (NCF) for the foundational stages of education, has recommended that mother tongue should be the primary medium of instruction in schools, both public and private, for children up to eight years of age. This is in accordance with the provisions of the New Education Policy, 2020.

Source: <https://indianexpress.com/article/explained/teaching-in-mother-tongue-what-curriculum-guidelines-said-in-the-past-8230462/#:~:text=The%20new%20National%20Curriculum%20Framework,to%20eight%20years%20of%20age.>

M. Laxmikanth Chapter 7 Fundamental Rights

M. Laxmikanth Chapter 65 Official Language

Q.17) Consider the following statements regarding the Home Minister's Advisory Committee (HMAC):

1. All the Union Territories (UTs) except Ladakh have the forum of HMAC.
2. The HMAC discusses the general issues relating to social and economic development of the UTs.
3. Elected members of local bodies of respective UTs can become members of the corresponding HMAC.

Which of the statements given above is/are correct?

- a) 2 only
- b) 2 and 3 only
- c) 1 and 2 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

Under the Government of India (Allocation of Business) Rules 1961, Ministry of Home Affairs is the nodal ministry for all matters of Union Territories relating to legislation, finance and budget, services and appointment of Lt. Governors and Administrators.

Statement 1 is incorrect: All the UTs without legislature (Andaman and Nicobar Islands, Chandigarh, Dadra and Nagar Haveli and Daman and Diu, Lakshadweep and Ladakh) have the forum of Home Minister's Advisory Committee (HMAC).

Statement 2 is correct: The Committee discusses the general issues relating to social and economic development of the UTs.

Statement 3 is correct: HMAC is chaired by the union Home minister. **The Member of Parliament and elected members from the local bodies e.g., District Panchayats and Municipal Council of the respective UTs are members of these committees among others.**

Source: Indian Polity by M Laxmikant, chapter 40

Q.18) Which of the following languages are included in the Eighth Schedule of the Constitution of India?

1. Sanskrit
2. Bhil
3. Urdu
4. Maithili
5. English
6. Nepali

Choose the correct answer from the code given below:

- a) 1, 2, 3 and 4 only
- b) 1, 3, 4 and 6 only
- c) 2, 4, 5 and 6 only
- d) 1, 2, 3, 5 and 6 only

Ans) b

Exp) Option b is the correct answer.

Statements 1, 3, 4 and 6 are correct: At present (2023), the Eighth Schedule of the Constitution specifies 22 languages (originally 14 languages). These are Assamese, Bengali, Bodo, Dogri (Dongri), Gujarati, Hindi, Kannada, Kashmiri, Konkani, **Mathili (Maithili)**, Malayalam, Manipuri, Marathi, **Nepali**, Odia, Punjabi, **Sanskrit**, Santhali, Sindhi, Tamil, Telugu and **Urdu**.

Statements 2 and 5 are incorrect: English which is the official language of India is not recognised in the 8th schedule of the constitution of India. Also, some languages like Bhil (10 million speakers), Tulu etc. are also not recognised under the 8th schedule of the Constitution.

Source: <https://indianexpress.com/article/explained/tulu-language-protest-history-7358953/>
M. Laxmikant Chapter 65 Official Language

Q.19) Consider the following statements regarding Multi-state Cooperative Societies in India:

1. The board of a cooperative society consists of such number of directors as may be provided by Parliament.
2. The functional directors of a co-operative society cannot become the members of the board.
3. The term of office of elected members of the board shall be five years.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

Part IX-B of the constitution contains the provisions with respect to the cooperative societies.

Incorporation of Multi-state Co-operative Societies:

The Parliament may make provisions for the incorporation, regulation and winding-up of co-operative societies based on the principles of voluntary formation, democratic member control, member economic participation and autonomous functioning.

Number and Term of Members of Board and its Office Bearers:

- 1) **The board shall consist of such number of directors as may be provided by the Parliament. But, the maximum number of directors of a co-operative society shall not exceed twenty-one. Hence statements 1 is correct.**
- 2) **The term of office of elected members of the board and its office bearers shall be five years from the date of election. Hence statements 3 is correct.**
- 3) Further, the coopted members shall not have the right to vote in any election of the co-operative society or be eligible to be elected as office bearers of the board.
- 4) **The functional directors of a co-operative society shall also be the members of the board and such members shall be excluded for the purpose of counting the total number of directors (that is, twenty-one). Hence statement 2 is incorrect.**

Source: Indian Polity by M Laxmikant, Chapter 64

Q.20) The PEN-Plus Strategy, recently seen in news, is related to which of the following?

- a) Encouraging adult education in rural areas
- b) Containing non-communicable diseases
- c) Reducing infant mortality rate
- d) Addressing the problem of Left-Wing Extremism in central India

Ans) b

Exp) Option b is the correct answer.

- 1) “PEN-Plus” refers to the approach to address severe NCDs through an integrated outpatient service at first level hospitals.
- 2) Africa has adopted the PEN Plus strategy to tackle severe non-communicable diseases (NCD) such as type 1 diabetes (T1D), rheumatic heart disease (RHD) and sickle cell disease. o Package of Essential NCD Interventions (PEN) was adopted by the WHO in 2010 to support the decentralization of services to the primary care level.

Source: <https://www.downtoearth.org.in/news/africa/african-health-ministers-adopt-pen-plus-strategy-against-non-communicable-diseases-84500>.

Q.21) Consider the following statements regarding the creation of a Union territory (UT) from an existing state:

1. The President has the power to create a UT by issuing a public notification.
2. Before the creation of a new UT from an existing State, the President has to refer the matter to the concerned State Legislature for expressing its views.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) b

Exp) Option b is the correct answer.

Statement 1 is incorrect: Article 3 authorizes the **Parliament** to form a new state by separation of territory from any state or by uniting two or more states or parts of states or by uniting any territory to a part of any state. The power of Parliament to form new states includes the power to form a new state or union territory by uniting a part of any state or union territory to any other state or union territory.

Statement 2 is correct: Article 3 lays down two conditions with regard to creation of state/UT: one, a bill contemplating the above changes can be introduced in the Parliament only with the prior recommendation of the President; and two, before recommending the bill, **the President has to refer the same to the state legislature concerned for expressing its views within a specified period.**

In case of a union territory, no reference need be made to the concerned legislature to ascertain its views and the Parliament can itself take any action as it deems fit. Since in this question the UT is formed from an existing state, so the views of the state legislature is taken.

Source: Indian Polity by M Laxmikant, chapter 5

Q.22) Consider the following developments with respect to the cooperative movement in India:

1. Establishment of National Bank for Agricultural and Rural Development (NABARD)
2. Establishment of the National Dairy Development Board (NDDB)
3. Enunciation of National Cooperative Policy
4. Creation of Union Ministry of Cooperation

Which of the sequences given in the options below correctly represents the chronology of the above developments?

- a) 2-1-3-4
- b) 1-2-4-3
- c) 2-3-1-4
- d) 2-3-4-1

Ans) a

Exp) option a is the correct answer.

After independence, the nation adopted the approach of planned economic development for establishment of a mixed economy consisting of three sector namely Public, Private and Cooperative Sectors. Cooperatives were visualized to play the role of a balancing factor between public and private sectors. Pandit Nehru considered Cooperatives as one of the three pillars of Democracy, the other two being the Panchayat and the School. Some of the prominent development in the Indian Cooperative Movement in the post-independence era are discussed below:

Option 2. The National Dairy Development Board (NDDB): It was founded in **1965** to replace exploitation with empowerment, tradition with modernity, stagnation with growth, transforming dairying into an instrument for the development of India's rural people. NDDB began its operations with the mission of making dairying a vehicle to a better future for millions of grassroots milk producers. The mission achieved thrust and direction with the launching of "Operation Flood", a programme extending over 26 years and which used World Bank loan to finance India's emergence as the world's largest milk producing nation.

Operation Flood's third phase was completed in 1996 and has to its credit a number of significant achievements.

Option 1. NABARD Act, 1981: The National Bank for Agriculture and Rural Development (NABARD) Act was passed in 1981 and NABARD was set up in 1982 to provide re-finance support to Cooperative Banks and to supplement the resources of Commercial Banks and Regional Rural Banks to enhance credit flow to the agriculture and rural sector.

Option 3. National Cooperative Policy (2002): In 2002, the Government of India enunciated a National Cooperative Policy. The objective of the Policy is to facilitate an all-round development of cooperatives in the country. The policy promises to provide cooperatives with the necessary support, encouragement and assistance, to ensure their functioning as autonomous, self-reliant and democratically managed institutions, accountable to their members, and making a significant contribution to the national economy.

Option 4. Ministry of Cooperation was created by transferring the existing entries related to cooperation and cooperative in the business of the erstwhile Ministry of Agriculture, Cooperation and Farmers Welfare vide Cabinet Secretariat's Gazette Notification dated 6th July, 2021.

Q.23) Consider the following statements regarding provisions related to the development of the Hindi language in India:

1. The Constitution imposes a duty upon the Union to promote the spread and development of Hindi language.
2. The Union is directed by the Constitution to secure the enrichment of Hindi by assimilating the forms, style and expressions used in the languages specified in the Eighth Schedule.
3. The Constitution provides for the setting up of a Committee of Parliament to review the progress made in the use of Hindi for official purposes of the Union.

Which of the above given statements are correct?

- a) 1 and 2 only
- b) 1 and 3 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) a

Exp) Option a is the correct answer.

Statement 1 is correct: The Constitution under Article 351 imposes a duty upon the Union to promote the spread and development of the Hindi language so that it may become the language of the composite culture of India.

Statement 2 is correct: As per the provisions of the Constitution (Article 351) the Union is directed to secure the enrichment of Hindi by assimilating the forms, style and expressions used in hindustani and in other languages specified in the Eighth Schedule and by drawing its vocabulary, primarily on Sanskrit and secondarily on other languages.

Statement 3 is incorrect: The Official Language Act, 1963 (and not the Constitution) provided for the setting up of a Committee of Parliament on Official Language to review the progress made in the use of Hindi for the official purpose of the Union.

Source: M. Laxmikanth Chapter 65 Official Language

Q.24) Consider the following events regarding the integration of Princely States into the Indian Union:

1. Signing of Instrument of Accession by the Maharaja of Jodhpur.
2. Police action for the accession of Hyderabad.
3. Referendum in Junagarh.
4. Signing of Instrument of Accession by the Maharaja of Kashmir.

Choose the correct chronological order of the events given above.

- a) 1-3-2-4
- b) 1-4-2-3
- c) 3-1-2-4
- d) 1-4-3-2

Ans) d

Exp) Option d is the correct answer.

The integration of Princely States was one of the biggest challenges faced by the nationalist leaders. With the combined efforts of Sardar Patel and V.P. Menon, most of the States had given their consent for accession to India. However, states of Travencore, Bhopal, Jodhpur, Kashmir, Junagarh and Hyderabad had troublesome history regarding the integration into the Indian Union.

Accession of Jodhpur:

At the time of independence, Jodhpur had a Hindu king as well as largely Hindu population. Jinnah offered very lucrative terms to Jodhpur and it was **suspected the state to join Pakistan**. From the Indian side, Patel intervened and additionally **offered free import of arms and adequate grains**. Maharaja Hanwant Singh, thereafter, signed Instrument of Accession on **11th August, 1947**.

Accession of Kashmir

In October, 1947, the **Maharaja Hari Singh of Kashmir signed the Instrument of Accession**. It was on the backdrop of **invasion by Pashtun tribesmen** from Pakistan's North West Frontier Province (NWFP). After the signing of the Instrument, the Indian Army airlifted its troops to Kashmir and stopped the invaders within two weeks.

Accession of Junagarh

Junagarh had announced that it would accede to Pakistan. Junagarh had a Muslim Nawab ruling over chiefly Hindu population (approximately 82%). However, geographically, its accession to Pakistan made little sense. To resolve the matter, **it was decided to conduct a plebiscite. A referendum was held on 20th February 1948** resulted in 91% of the electorates voting for accession to India.

Accession of Hyderabad

Hyderabad was also a state ruled by Muslim Nawab having majority Hindu population. The Nawab was not keen on the issue of accession to India. **Operation Polo** was conducted in September, 1948 and a **contingent of Indian troops was sent to Hyderabad**. On **17th September, 1948** the troops had full control over the State and Nizam announced on radio to 'live in peace and harmony with rest of the people of India.'

Q.25) With reference to regulation of higher educational institutions in India, consider the following statements

1. Under the current framework, degrees can be awarded only by a university set up by an Act of Parliament or state legislatures.
2. If any higher educational institution fails to comply with specified norms, the University Grants Commission can order the closure of such an institution.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) d

Exp) Option d is the correct answer.

Statement 1 is incorrect: *Permission to grant degrees:* Under the current framework, degrees can be awarded only by a university set up by an Act of Parliament or state legislatures, **deemed to be a university and an institution specially empowered by Parliament.** They do not need further approval from the UGC.

Statement 2 is incorrect: *Shutting down of institutions:* Currently, if any higher educational institution fails to comply with specified norms, **the UGC may stop providing grants to it. However, the UGC cannot order closure of institutions.**

Knowledge base:

Currently, in India Higher education is regulated by multiple authorities. The University Grants Commission (UGC) regulates universities and colleges teaching general subjects. The All-India Council for Technical Education (AICTE) regulates technical education. Further, institutions offering courses related to medical, legal, nursing or teacher education are regulated by 14 professional councils such as the Medical Council, the Bar Council, and the Nursing Council.

In the recent past, the government has undertaken various measures to promote autonomy in the sector, one of the important among them being introduction of the Draft Higher Education Commission of India (Repeal of University Grants Commission Act, 1956) Bill in 2018.

Source: The Draft Higher Education Commission of India (Repeal of University Grants Commission Act, 1956) Bill, 2018 (prsindia.org)

Draft bill almost ready, single higher education regulator could become a reality this year (theprint.in)

Q.26) What were the possible reasons for the introduction of 97th Constitutional Amendment Act of 2011, about cooperative societies in India?

1. To make cooperative societies more democratic and member-oriented.
2. To make it easier for multinational corporations to enter the cooperative sector.
3. To ensure the accountability of management to the members of the society.
4. To keep the co-operatives free from unnecessary outside interferences.

Select the correct answer using the code given below.

- a) 1 and 3 only
- b) 1, 2 and 3 only
- c) 1, 3 and 4 only
- d) 1, 2, 3 and 4

Ans) c

Exp) Option c is the correct answer.

According to the International Labour Organization (ILO), a Co-operative is an organisation that is autonomously run by people who have voluntarily come together to address a shared economic, social, or cultural need through a joint and democratically controlled enterprise.

Statement 1 is correct: Co-operatives need to run on well-established democratic principles and elections held on time and in a free and fair manner. Therefore, there was a need to initiate fundamental reforms to revitalise these institutions in order to ensure their contribution in the economic development of the

country and to **serve the interests of members and public at large** and also **to ensure their autonomy, democratic functioning** and professional management.

Statement 2 is incorrect: There is no such provision related to multinational corporations.

Statement 3 is correct: It was expected that these provisions will not only ensure the autonomous and democratic functioning of co-operatives, but also ensure the accountability of management to the members and other stakeholders and **shall provide for deterrence for violation of the provisions of the law.**

Statement 4 is correct: A strong need has been felt for amending the Constitution so as **to keep the co-operatives free from unnecessary outside interferences** and also to ensure their autonomous organizational set up and their democratic functioning.

Source: Lakshmikant chap 64

Q.27) With reference to Pressure Groups in India, which of the following statements is/are correct?

1. Pressure groups use only non-political methods to influence policy-making.
2. All Pressure Groups are formally organized groups, formed to promote their interests.
3. All pressure groups are registered under the Societies Registration Act, 1860.

Select the correct answer using the code given below.

- a) 2 only
- b) 3 only
- c) 1 and 3 only
- d) None of the above

Ans) d

Exp) Option d is the correct answer.

A pressure group is a group of people who are organised actively for promoting and defending their common interest. A large number of pressure groups exist in India.

Statement 1 is incorrect: Pressure groups generally use non-electoral methods to influence policy-making and promote their interests. But this not true in all cases. Some pressure groups may also **use political methods such as supporting a particular political party.** These indirectly play a crucial role in elections. When the political parties are selecting their candidates, these groups try to influence the choice. They try for the inclusion of favourable provisions in the election manifestoes of political parties.

Statement 2 is incorrect: Pressure Groups **can be political, non-political groups, formally or informally organized groups.** Examples of formally organised groups are **FICCI, AITUC** and examples of informally organised groups are **Naxalite movement, Jammu and Kashmir Liberation Front (JKLF) etc.**

Statement 3 is incorrect: In India, all **pressure groups are not registered under any specific act.** However, depending on their nature and activities, they may need to register under various laws and regulations. For example, if a pressure group is formed as a non-profit organization or a non-governmental organization (NGO), they may need to register under the **Indian Societies Registration Act, 1860 or the Indian Trusts Act, 1882.** While Trade Union are registered under **the Trade Unions Act, 1926.**

Source: Lakshmikant Chap 77

<https://blog.forumias.com/answered-discuss-the-role-and-function-of-pressure-groups-in-india-do-you-think-pressure-groups-in-india-has-been-able-to-successfully-deliver-on-their-mandate/>

Q.28) With reference to recent Supreme Court judgement related to the Co-operative Societies in India, consider the following statements:

1. The 97th Constitutional (Amendment) Act, 2011 has been partly struck down because the amendment act was passed without the requisite ratification by the States.

2. The 97th Constitutional (Amendment) Act, 2011 would still be applicable to local co-operative societies, but not to multi-State co-operative societies.

Which of the statements given above is/are correct?

- 1 only
- 2 only
- Both 1 and 2
- Neither 1 nor 2

Ans) a

Exp) Option a is the correct answer.

Recently the Supreme Court struck down Part IXB inserted by the Constitution (97th Amendment) Act, 2011 on the ground that the amendment was passed without the requisite ratification by the States.

Statement 1 is correct: The act was struck down stating that **the subject matter (co-operative societies) fell in the state list** and belongs wholly and exclusively to the State legislatures to legislate upon and **any change would require the ratification by at least one-half of the state legislatures as per Article 368(2) of the Constitution. But this amendment act was passed without any ratification by States.**

Statement 2 is incorrect: The Supreme Court held that Part IX B inserted by the Constitution (97th Amendment) Act, 2011 would **not be applicable to the local co-operative societies** and the same would be applicable to the multi-State co-operative societies and the societies within the Union territories.

Source: <https://www.livelaw.in/top-stories/constitution-97th-amendment-not-applicable-to-local-co-operative-societies-applies-only-to-multi-state-societies-societies-in-uts-supreme-court-212008>

Q.29) Consider the following statements regarding Union Territories in India:

- President has power to establish a separate high court for any union territory.
- Delhi is the only union territory that has a separate high court of its own, which is not shared with any other state or union territory.
- Union Territory of Lakshadweep comes under the jurisdiction of Madras High Court.

Which of the statements given above is/are correct?

- 1 only
- 2 only
- 2 and 3 only
- 1 and 2 only

Ans) b

Exp) Option b is the correct answer.

Articles 239 to 241 in Part VIII of the Constitution deal with the union territories. Even though all the union territories belong to one category, there is no uniformity in their administrative system.

Statement 1 is incorrect: **The Parliament (not President) can establish a high court for a union territory or put it under the jurisdiction of the high court of adjacent state.**

Statement 2 is correct: **Delhi is the only union territory that has a high court of its own (since 1966),** which is not shared with any other state or union territory. Jammu and Kashmir also has a high court of its own, but it is shared with Ladakh.

Statement 3 is incorrect: **Lakshadweep comes under Kerala High Court whereas Puducherry is placed under Madras High Courts.** The Jammu and Kashmir High Court is the common high court for the two union territories of Jammu and Kashmir, and Ladakh.

Source: Indian Polity by M Laxmikant, chapter 40

Q.30) With reference to 'Aridity Anomaly Outlook (AAO) Index', consider the following statements:

1. The index is released bi-annually by the global organisation AccuWeather Inc.
 2. It monitors the situation of agricultural drought that causes crop stress across a specific region.
 3. As per the recent outlook, Bihar has the highest number of districts experiencing arid conditions in India.
- Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 only
- c) 2 and 3 only
- d) 1 and 3 only

Ans) b

Exp) Option b is the correct answer.

Statement 1 is incorrect: Indian Meteorological Department (not AccuWeather Inc) releases the Aridity Anomaly Outlook (AAO) Index. **The index is computed** for weekly or two-week periods. For each period, the actual aridity for the period is compared to the normal aridity for that period.

Statement 2 is correct: Aridity Anomaly Outlook (AAO) Index monitors agricultural drought, a situation when rainfall and soil moisture are inadequate to support healthy crop growth till maturity, causing crop stress. An anomaly from the normal value signifies a water shortage in these districts that could directly impact agricultural activity.

Statement 3 is incorrect: The key findings of the index are: At least 85% of districts face arid conditions across India. Some 196 districts are in the grip of a 'severe' degree of dryness and 65 of these are in Uttar Pradesh (highest).

Bihar had the second-highest number of districts (33) experiencing arid conditions. The state also has a high rainfall deficit of 45%.

Source: Aridity Anomaly Outlook(AAO) Index: Some 85% districts in India now face arid conditions - ForumIAS Blog

Some 85% districts in India now face arid conditions (downtoearth.org.in)

Q.31) Consider the following statements regarding the 'Dravidian Movement':

1. It largely used non-violent means to achieve its objectives.
2. It received widespread public support in the States of Tamil Nadu, Karnataka and Andhra Pradesh.
3. It led to the formation of Dravidar Kazhagam (DK) party by E.V. Ramaswamy Naicker.

Which of the statements given above is/ are correct?

- a) 1 only
- b) 1 and 2 only
- c) 1 and 3 only
- d) 2 and 3 only

Ans) c

Exp) Option c is the correct answer.

Dravidian Movement was one of the first regional movements in Indian politics. It was aimed to **protect the regional identity of the South and was against the alleged domination of North India.**

Statement 1 is correct: There had been separatist tendencies in some of the sections of the movement as they made demand for a separate **Dravida Nadu**. However, **the movement was largely non-violent and did not take to arms.** It used democratic means like public debates and electoral platform to achieve its objectives. The strategy was successful as the movement acquired political power and influence at the State and the National levels.

Statement 2 is incorrect: Initially, the movement was perceived as a representative of the whole of the South India. But **due to lack of support from other states, it remained confined only to the State of Tamil Nadu**. Hence, there was no widespread support for the movement in the States like Karnataka and Andhra Pradesh.

Statement 3 is correct: The Dravidian Movement led to the formation of a new party called as Dravidar Kazhagam (DK). **It had been founded by E.V. Ramaswamy Naicker**. The organization opposed the Brahmins' dominance and affirmed regional pride against political, economic and cultural domination of the North

Knowledge Base: **About E.V. Ramaswamy Naicker:**

- 1) He is also known as 'Periyar' which means 'the respected'.
- 2) He was a strong supporter of atheism and was also known for his anti-caste struggle.
- 3) He was a worker of the Congress Party, worked for the Justice Party and also started the Self-Respect Movement in 1925.

Source: <https://ncert.nic.in/ncerts/l/leps208.pdf>

Q.32) Consider the following statements regarding Non-Governmental Organisations (NGOs) in India:

1. To become eligible to get tax exemption from the government, an NGO must register itself as a legal entity.
2. Raising funds from outside India is a Fundamental Right of an NGO.
3. It is mandatory for an NGO registered under Foreign Contribution Regulation Act to spend minimum 25% of its foreign contributions for administrative purposes.

Which of the above statements are **incorrect**?

- a) 1 and 2 only
- b) 1 and 3 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

NGOs or Non-Governmental Organisations are entities that operate independent of the government. Ex. NGO Pratham in field of education. They operate on large scale to help people with their programmes and activities.

Statement 1 is correct: A registered NGO can qualify for financial assistance from government agencies and local, national and international donor. Also, registration of an NGO is necessary to seek tax exemption from the Income Tax department of the government. NGOs are registered legally as a society, trust or under Companies Act, 2013.

Statement 2 is incorrect: NGOs are funded by volunteering individuals and companies. Some NGOs also receive funds from foreign countries. These funds are regulated under the Foreign Exchange Management Act, 1999. As per Supreme Court judgement no one has fundamental right to receive foreign donations. Also, the Court upheld FCRA Amendment Act, 2020.

Statement 3 is incorrect: The FCRA Amendment Act, 2020 prescribes to revise the ceiling limit of administrative expenses to 20% from 50% of the total foreign funds received in a particular year. In other words, a Foreign Contribution (FC) registered organization cannot spend more than 20% of the FC utilised in that particular year on administrative expenses. However, the option to spend more than 20% on administrative expenses with prior approval of the central government remains.

Source: <https://www.thehindu.com/news/national/no-one-has-fundamental-or-absolute-right-to-receive-foreign-donations-supreme-court/article65303313.ece>

M. Laxmikanth

Q.33) With reference to the Grand Alliance of 1971, which of the following statements is/are correct?

1. It was an electoral alliance of non-communist, non-Congress parties.
2. The Grand Alliance was successful in removing Indian National Congress from power in 1971 at the Centre.

Select the correct answer using the codes given below:

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) a

Exp) Option a is the correct answer.

For the fifth general election to Lok Sabha (1971), the electoral contest was against Congress rule at the Centre. The Grand Alliance of 1971 was a pre-poll alliance formed against the Indian National Congress.

Statement 1 is correct. All the major non-communist, non-Congress opposition parties formed an electoral alliance known as the **Grand Alliance**. The SSP, PSP, Bharatiya Jana Sangh, Swatantra Party and the Bharatiya Kranti Dal came together under this umbrella.

Statement 2 is incorrect. The Grand Alliance did not have a coherent political programme and any clear agenda. Grand alliance failed against Indira Gandhi in 1971. Defying the Grand Alliance, Indian National Congress won the 1971 elections.

Source: NCERT Class XII: Politics in India since Independence Chapters 5, Page no. 96

Q.34) Consider the following statements regarding Union Territories (UTs) of Delhi and Puducherry:

1. Legislative Assemblies of both the UTs can make laws on any subject of the State List and the Concurrent List.
2. Lieutenant Governor of Delhi and Puducherry both are guided only by the Government of Union Territories Act, 1963.

Which of the statements given above is/are **incorrect**?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) c

Exp) Option c is the correct answer.

Articles 239 to 241 in Part VIII of the Constitution deal with the union territories. Even though all the union territories belong to one category, there is no uniformity in their administrative system.

Statement 1 is incorrect: The Parliament can make laws on any subject of the three lists (including the State List) for the union territories. The legislative power of Parliament for the union territories on subjects of the State List remain unaffected even after establishing a local legislature for them. But, **the legislative assembly of Puducherry can also make laws on any subject of the State List and the Concurrent List. Similarly, the legislative assembly of Delhi can make laws on any subject of the State List (except public order, police and land) and the Concurrent List.**

Statement 2 is incorrect: While the LG of Delhi is guided by the Government of National Capital Territory of Delhi Act, 1991, and the Transaction of Business of the Government of National Capital Territory of Delhi Rules, 1993; the LG of Puducherry is guided mostly by the Government of Union Territories Act, 1963.

Source: Indian Polity by M Laxmikant, chapter 40

<https://www.thehindu.com/news/cities/Delhi/the-debate-over-the-delhi-assembly/article65651965.ece>

Q.35) Consider the following pairs:

Military Exercises - Countries

1. AL Najah - India and Qatar
2. Sampriti - Bangladesh and India
3. Khanjar - Kazakhstan and India

Which of the pairs given above is/are correctly matched?

- a) 1 and 2 only
- b) 2 only
- c) 1 and 3 only
- d) 2 and 3 only

Ans) b

Exp) Option b is the correct answer.

Pair 1 is incorrectly matched: Joint Military Exercise 'AL NAJAH-IV' is conducted between contingents of **Indian Army and the Royal Army of Oman**. The joint exercise would focus on Counter Terrorism Operations, Regional Security Operations and Peace Keeping Operations under United Nations charter apart from organizing joint physical training schedules, tactical drills. Other military exercises with Oman are 'NASEEM-AL-BAHR' and 'EASTERN BRIDGE'. The 4th Edition of India Oman Joint Military Exercise 'AL NAJAH-IV' is scheduled to take place at the Foreign Training Node of Mahajan Field Firing Ranges (Rajasthan).

Pair 2 is correctly matched: Sampriti Exercise is a bilateral defence cooperation exercise between the armies of India and Bangladesh.

Exercise Sampriti is an important bilateral defence cooperation endeavour conducted alternately by both countries which aims to strengthen and widen the aspects of interoperability and cooperation between both the armies.

Pair 3 is incorrectly matched: 'Khanjar' exercise is **9th Edition of the India-Kyrgyzstan Joint Special Forces Exercise** was held in March-April, 2022 at Special Forces Training School, Bakloh (HP). It holds annually between India and Kyrgyzstan since 2011. Special Forces contingents from India and Kyrgyzstan have shared their experience and best practices in terms of tactics, techniques, and procedures for countering present and emerging threats throughout the conflict spectrum.

Q.36) With reference to Minorities in India, consider the following statements:

1. The Indian Constitution defines minority as 'a community notified as such by the Central Government.'
2. The States can declare communities as minorities within their territorial jurisdiction.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) b

Exp) Option b is the correct answer.

Statement 1 is incorrect: The constitution mentioned the term 'minority' only on two occasions in Article 29 and in Article 30, **but it nowhere defines the term. It was left at the discretion of central government.**

Using this discretionary power the central government enacted **the National Commission for Minorities Act, 1992 which defines minorities as** those belonging to the communities notified under Section 2(c) of the Minorities Act.

Statement 2 is correct: State governments can **declare any religious or linguistic community, including Hindus, as a minority within the said state.** For instance, the Maharashtra government has notified 'Jews' as a minority community within the state. Moreover, the Karnataka government has notified Urdu, Telugu, Tamil, Malayalam, Marathi, Tulu, Lamani, Hindi, Konkani and Gujarati languages as minority languages within the state of Karnataka.

Source:<https://www.indiatoday.in/india/story/states-too-can-declare-religious-or-linguistic-community-including-hindus-as-minority-centre-to-sc-1930189-2022-03-27>

Q.37) Consider the following statements regarding the use of languages in the High Courts:

1. The Constitution of India provides that the Governor of a state, with the previous consent of the President, can authorise the use of Hindi in the proceedings of the high court.
 2. Currently, only English is used for the judgments, decrees and orders in the High Courts of all the states.
- Which of the above given statements is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) a

Exp) Option a is the correct answer.

Statement 1 is correct: According to the article 348 of Constitution, the governor of a state, with the previous consent of the President, can authorise the use of Hindi or any other official language of the state, in the **proceedings in the High court of the state.**

Statement 2 is incorrect: The Official Language Act, 1963 enables the governor of a state, with the previous consent of the President, to authorise the use of Hindi or any other official language of the state for judgements, decrees and orders passed by the high court of the state but they should be accompanied by an English translation. The use of Hindi has been authorized long back in the proceedings as well in the judgments, decrees or orders in the High Courts of the States of Rajasthan, Madhya Pradesh, Uttar Pradesh and Bihar. Hence the statement is incorrect.

Source: M. Laxmikanth Chapter 65 Official Language

Q.38) Consider the following statements regarding the recommendations made by the Fazl Ali Commission (1953) on the reorganization of States:

1. It accepted 'Linguistic homogeneity' as the basis of reorganization of the States.
2. It provided for the partition of Bombay between Gujarati and Marathi speaking people.
3. It recommended for the creation of a Sikh state for the Punjabi speaking population.
4. It rejected the demand to carve out tribal states from Assam and Bihar.

Which of the options given above are correct?

- a) 1 and 2 only
- b) 1 and 4 only
- c) 1, 2 and 4 only
- d) 2 and 3 only

Ans) b

Exp) Option b is the correct answer.

In India, the most vigorous movement for linguistic autonomy was started by the Telugu speakers. They demanded separate state for Telugu speaking population as Andhra Pradesh. In 1952, Potti Sriramulu started fast-unto-death to support his demand for a separate state and died after 56-day hunger strike for the cause. **Government of India acceded to the demand and also appointed a 3-member commission in 1953, called as Fazl Ali Commission to recommend reorganization of the States.**

Statement 1 is correct: The Commission accepted 'linguistic homogeneity' as the basis for reorganization. It accepted language as an important factor conducive to administrative convenience and efficiency. However, **it rejected the theory of 'one language one state'**. According to the Commission, **unity and integrity of India should be the primary consideration** in re-drawing of the borders. It accepted language not as an exclusive or binding principle, overriding all other considerations.

Statement 2 is incorrect: The Commission was **not in favor of creating a separate state of Maharashtra for Marathi speaking people and Gujarat for the Gujarati speaking people.** It recommended Bombay to remain as it was, that is, a bilingual province of Gujarati and Marathi speakers. However, due to ongoing unrest, the State of Bombay was finally divided into two separate states (Maharashtra and Gujarat) in 1960.

Statement 3 is incorrect: The demand for separate Sikh state was made by Akali Dal under the leadership of Master Tara Singh. **The Fazl Ali Commission rejected the demand for creation of a Sikh state.** However, in 1966, on the recommendation of **Shah Commission**, the Punjabi speaking areas were constituted into the unilingual state of Punjab and Hindi-speaking areas were constituted into the state of Haryana and the hill areas were merged with the Himachal Pradesh.

Statement 4 is correct: The Commission had rejected creation of separate tribal states from the states of Bihar and Assam. The Commission observed that the separation of Bihar **will affect the economy of the entire state.** The tribal region of Chottanagpur Plateau provided an important industrial base. For Assam, the Commission had held that demand by tribals for a separate Hill State reflects the separatist pull of the extremist elements.

India After Gandhi by Ramachandra Guha (Page 191, 10th Edition)

Q.39) Consider the following statements with respect to languages in India:

1. India has the largest number of endangered languages in the world as per UNESCO's 'Atlas of The World's Languages in Danger of Disappearing.
2. The Scheme for Protection and Preservation of Endangered Languages is monitored by the Ministry of Culture.

Which of the above given statements is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) a

Exp) Option a is the correct answer.

UNESCO has recognized India as one of the most linguistically diverse countries. As per census 2011, more than 19,500 languages or dialects are spoken in India as mother tongues while only 121 languages are spoken by 10,000 or more people. This shows the quantum of endangered languages in India.

Statement 1 is correct: There are 197 languages in India whose survival is in peril. This is the largest number for any country in the world, going by UNESCO's Atlas of The World's Languages in Danger of Disappearing.

Statement 2 is incorrect: Scheme for Protection and Preservation of Endangered Languages (SPPEL): It started with a short-term goal of providing a grammar, dictionary and ethnolinguistic sketch for 117 languages that have 10,000 or fewer speakers. In the long term, it aspires to cover around 500 languages in the future. **The scheme is monitored by the Central Institute of Indian Languages (CIIL) (under the Ministry of Education), located in Mysuru, Karnataka.**

Q.40) With reference to 'Mineral Security Partnership', consider the following statements:

1. It is US-led partnership to secure supply chains of critical minerals by reducing dependency on China.
2. The partnership exclusively focuses on transport and usage of radioactive nuclear minerals like Uranium and Thorium.
3. India has vehemently opposed the Partnership on the grounds of creating the distinction of the 'haves and have-nots' in the global order.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) a

Exp) Option a is the correct answer.

This question is based on the article "**Explained: What are rare earth elements, and why is India keen to join a global alliance to ensure their supply?**" published in Indian Express.

Statement 1 is correct: Mineral Security Partnership (MSP) is a US-led partnership to secure supply chains of critical minerals, aimed at **reducing dependency on China**. It aims to **catalyse investment from governments and the private sector** to develop strategic opportunities.

Statement 2 is incorrect: The **Mineral Security Partnership** will focus on the supply chains of minerals such as Cobalt, Nickel, Lithium, and also the **17 'rare earth' minerals (not exclusive to radioactive minerals)**. The alliance is also seen as primarily focused on evolving as an alternative to China, which has created processing infrastructure in rare earth minerals and has acquired mines in Africa for elements such as Cobalt.

Statement 3 is incorrect: India is **exploring the possibilities of joining** the Minerals Security Partnership. It is working through its diplomatic channels to fetch an entry into the Mineral Security Partnership. According to experts, the **reason India would not have found a place in the MSP** grouping is because India does not bring any expertise to the table. In the group, countries like Australia and Canada have reserves and also the technology to extract them, and countries like Japan have the technology to process REEs.

Concern in Delhi over not being part of US-led Minerals Security Partnership -ForumIAS Blog

Q.41) Consider the following statements regarding the authoritative text of the Constitution of India:

1. The Original Constitution of India had provisions with respect to an authoritative text of the Constitution in the Hindi language.

2. The Constitution of India originally adopted by the Constituent Assembly on 26th November 1949 was both in Hindi and English languages.

Which of the above given statements is/are correct?

a) 1 only

b) 2 only

c) Both 1 and 2

d) Neither 1 nor 2

Ans) d

Exp) Option d is the correct answer.

Statement 1 is incorrect: Originally, the Constitution of India did not make any provision with respect to an authoritative text of the Constitution in the Hindi language. Later, a provision in this regard was made by the 58th Constitutional Amendment Act of 1987 (Article 394-A).

Statement 2 is incorrect: The Constitution of India adopted by the Constituent Assembly on 26 November, 1949, was in English language. A Hindi translation of the Constitution signed by the members of the Constituent Assembly was published in 1950.

Source: Laxmikant-Official Language

Q.42) Consider the following statements:

1. The provision of universal adult franchise of Indian Constitution came into force on November 26, 1949.

2. Since independence, India has followed the system of single member parliamentary and assembly constituencies.

Which of the above given statements is/are correct?

a) 1 only

b) 2 only

c) Both 1 and 2

d) Neither 1 nor 2

Ans) d

Exp) Option d is the correct answer.

Franchise refers to right to vote of the people to vote and choose their representative. The Indian Constitution adopts universal adult franchise as a basis of elections to the Lok Sabha and the state legislative assemblies. Every citizen who is not less than 18 years of age has a right to vote without any discrimination of caste, race, religion, sex, literacy, wealth and so on. The voting age was reduced to 18 years from 21 years in 1989 by the 61st Constitutional Amendment Act of 1988.

Statement 1 is incorrect: Provisions related to universal adult franchise are incorporated under Article 326 of the Constitution. The first draft electoral roll based on universal franchise was ready just before the enactment of the constitution. The provision of universal adult franchise was finally enacted in the Constitution in 1949 and **came into force on January 26, 1950.**

Statement 2 is incorrect: The Two- Member Constituencies (Abolition) Act, 1961 provided for the **abolition of two- member parliamentary and assembly constituencies and for the creation of single- member constituencies in their place.**

Source: <https://legislativebodiesinindia.nic.in/States/manipur/manipur-w.htm>

Q.43) With reference to the Commission for Scientific and Technical Terminology (CSTT), consider the following statements:

1. It is functioning under the Ministry of Science and Technology.
2. The main function of the Commission is to evolve and define scientific and technical terms in Hindi and all Indian languages.
3. It was constituted on the recommendations of the Official Language Commission.

Which of the above given statements are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

Commission for Scientific and Technical Terminology was established on October 01, 1961 in pursuance of a Presidential Order dated April 27, 1960 with the objective to evolve technical terminology in all Indian Languages. The Commission was established under clause (4) of Article 344 of the Constitution of India as a follow up of recommendations of a committee in this regard.

Statement 1 is incorrect: CSTT is functioning under Department of Higher Education, **Ministry of Education (not the ministry of Science and Technology)** with its headquarters at New Delhi.

Statement 2 is correct: One of the duties and functions of the Commission, at present, is **to evolve and define scientific and technical terms in Hindi and all Indian Languages** and publish technical glossaries, definitional dictionaries, encyclopedia etc.

Statement 3 is correct: In pursuance of the article 344 of Constitution of India, the President has constituted the Official Language Commission which has recommended to constitute a Standing Commission for the evolution of scientific and technical terminology.

Q.44) Consider the following statements regarding the integration of the State of Manipur into the Indian Union:

1. Accession to the Indian Union was completed only after it was duly approved by the Manipur's Legislative Assembly.
2. Manipur became part of the State of Assam immediately after its accession to the Indian Union.

Which of the statements given above is/ are **incorrect**?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) c

Exp) Option c is the correct answer.

The integration of the Princely State of Manipur was completed on September 21, 1949. It was one of the most adamant opponents of integration into the Indian Union. The State had already drafted its own Constitution in the year 1947. The Assembly elections in Manipur were held in 1948 under the Manipur Constitution Act of 1947. Manipur was the first part of India to hold an election based on universal adult franchise. A coalition government was created after the elections. It was a monarchical government Maharaja of Manipur, Bodhachandra as its Head.

Statement 1 is incorrect: There were sharp differences in the state legislative assembly regarding the merger of Manipur with the Indian Union. The state Congress wanted merger, but other political parties were opposed to it. **The Government of India succeeded in pressurizing Maharaja Bodhchandra into signing a Merger Agreement in September 1949, without consulting the elected Legislative Assembly of Manipur.** Neither the Council of Ministers, nor the Assembly was consulted before signing this Merger Agreement.

Statement 2 is incorrect: After the accession, **Manipur did not become part of the state of Assam.** It was **integrated as a Part-C state** which was equivalent to a Chief Commissioner's Province during the colonial government. It **got the status of Union Territory and was governed by the Chief Commissioner appointed by the Indian Government.** The Legislative Assembly of Manipur was abolished. **In 1972, Manipur got statehood and became the 19th State of the Indian Union.**

Source: <https://ncert.nic.in/textbook/pdf/leps201.pdf>

<https://www.news9live.com/knowledge/manipur-merger-all-about-north-eastern-states-incorporation-into-india-121420>

Q.45) With reference to the Pradhan Mantri Adi Adarsh Gram Yojana, consider the following statements:

1. It aims to develop Adarsh Gram villages by improving the living conditions of these villages.
2. It has a component of preparing the Village Development Plan to promote integrated socio-economic development.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) c

Exp) Option c is the correct answer.

The Central Government has modified the earlier scheme of 'Special Central Assistance to Tribal Sub-Scheme (SCA to TSS) with nomenclature 'Pradhan Mantri Adi Adarsh Gram Yojana (PMAAGY)', for implementation during 2021-22 to 2025-26.

Statement 1 is correct: Pradhan Mantri Adi Adarsh Gram Yojana seeks to develop Adarsh Gram villages by improving the living conditions of these villages, providing them with better education healthcare facilities and **facilitating their products to be linked directly with the market.**

Statement 2 is correct: The main objective of this scheme is to achieve **integrated socio-economic development** of selected villages through convergence approach. It includes the following components.

- 1) **Preparing Village Development Plan** based on the needs, potential, and aspirations;
- 2) Maximizing the coverage of individual / family benefit schemes of the Central / State Governments;
- 3) **Improving the infrastructure in vital sectors like health, education, connectivity and livelihood.**

Source: <https://pib.gov.in/PressReleaseIframePage.aspx?PRID=1849956>

Q.46) With reference to various provisions under the Constitution of India, consider the following statements:

1. All proceedings in the Supreme Court of India are to be in the Hindi language only.
2. The states can choose only the Eighth Scheduled languages as their official language.

Which of the above given statements is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) d

Exp) Option d is the correct answer.

Part XVII of the Constitution deals with the official language in Articles 343 to 351. Its provisions are divided into four heads-Language of the Union, Regional languages, Language of the judiciary and texts of laws and Special directives.

Statement 1 is incorrect: Until Parliament provides otherwise, **the following are to be in the English language only:**

- (a) **All proceedings in the Supreme Court and in every high court.**
- (b) The authoritative texts of all bills, ordinances, orders, rules, regulations byelaws at the Central and state levels.

Statement 2 is incorrect: The legislature of a state may adopt any one or more of the languages in use in the state or Hindi as the official language of that state. Notably, the **choice of the state is not limited to the languages enumerated in the Eighth Schedule of the Constitution.**

Q.47) In India, if a religious sect/community is given the status of a national minority, then what special advantages it is entitled to?

1. It can establish and administer educational institutions.
2. The President of India has to nominate a representative of the community to Lok Sabha.
3. It can derive benefits from the Prime Minister's 15-Point Program.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

At present Muslims, Sikhs, Buddhists, Jains, Christians, and Parsis (Zoroastrians) are notified as minority religious communities by Government of India. There are certain special advantages that these communities are entitled by the Constitution of India as well as various other legislative and administrative measures.

Statement 1 is correct: Article 30 of the Indian Constitution upholds the right of religious and linguistic minorities to establish and administer educational institutions of their choice.

Statement 2 is incorrect: There is no provision for the President of India to automatically nominate a member of a minority religious community to the Lok Sabha. This provision was earlier available for members of Anglo-Indian community under Article 331 of the Constitution.

Statement 3 is correct: Religious minorities can derive benefits from the Prime Minister's 15-Point Programme. The programme was launched in 2005 to ensure the welfare of minorities in the fields of education, skill development, employment and prevention of communal conflicts.

Source : <https://www.thehindu.com/news/national/karnataka/minority-status-to-benefit-jain-students/article5643369.ece> <https://www.legalserviceindia.com/article/l93-minorities-rights.html>

Q.48) In context of post-Independence political scenario, consider the following statements:

1. In 1955, Congress declared its goal for the socialist pattern of society.
2. Ram Manohar Lohia left the Congress after independence and became a member of the Praja Socialist Party.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) c

Exp) Option c is the correct answer.

The socialists believed in the ideology of democratic socialism which distinguished them both from the Congress as well as from the Communists. They criticised the Congress for favouring capitalists and landlords and for ignoring the workers and the peasants.

Statements 1 is correct. The Avadi Session, 1955 represented the Congress's distinct shift towards socialism. The Congress declared the socialist pattern of society to be its goal. The party resolution also stated that planning must take place with a view towards the establishment of such a society.

Statements 2 is correct. Ram Manohar Lohia left the Congress in 1948. He became a member of the Praja Socialist Party upon its formation in 1952 and served as general secretary for a brief period, but internal conflicts led to his resignation in 1955.

Source: NCERT Class XII: Politics in India since Independence Chapters 2, Page no.34

Q.49) Consider the following statements with reference to the National Foundation for Communal Harmony:

1. It is an autonomous organization under the Ministry of Social Justice and Empowerment.
2. It aims to provide assistance to the children of families affected by communal, caste, ethnic or terrorist violence.
3. The Foundation seeks support from Central Public Sector Enterprises under Corporate Social Responsibility.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

Statement 1 is incorrect: The National Foundation for Communal Harmony (NFCH) is an autonomous organization with the **Ministry of the Home Affairs**. It was registered on the 19 February 1992 under the Societies Registration Act, 1860.

Statement 2 is correct: National Foundation for Communal Harmony aims to provide assistance to the children of families affected by **communal, caste, ethnic or terrorists' violence** which fracture social harmony. This as may be decided by the Governing Council from time to time, in particular for their care, education and training. It aims to promote communal harmony and national integration, through scholarships, fellowships and studies which will highlight and strengthen the bonds of unity and affinity amongst different religious and social groups in the country.

Statement 3 is correct: The Foundation seeks support from **Central Public Sector Enterprises** under the **Corporate Social Responsibility (CSR)** for providing financial support to child victims of communal, caste, ethnic, terrorist violence for their education. The Foundation has signed MoU with some of the Central Public Sector Enterprises for providing assistance to children covered under Project 'Assist' in Assam, Chhattisgarh, Manipur, Gujarat and Jammu & Kashmir.

Q.50) With reference to the Small Satellite Launch Vehicle, consider the following statements:

1. It is a two-stage launch vehicle powered by liquid fuels only.
2. It cannot launch a satellite weighing more than 50 Kg into Low Earth Orbit.
3. It would help in increasing the frequency of satellite launch by reducing the Turn-around time.

Which of the statements given above is/are correct?

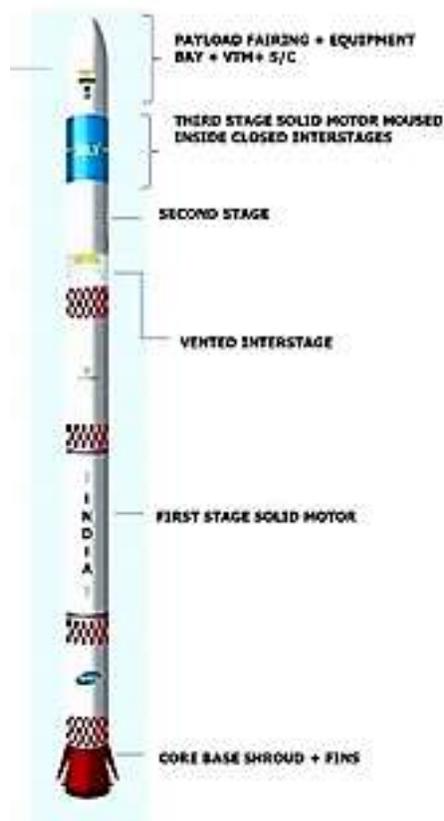

- a) 1 only
- b) 3 only
- c) 1 and 2 only
- d) 2 and 3 only

Ans) b

Exp) Option b is the correct answer.

Small Satellite Launch Vehicle is a small-lift launch vehicle being developed by the Indian Space Research Organisation (ISRO). SSLV is ideal for the on-demand, quick turn-around launch of small satellites.

Statement 1 is incorrect: A Small Satellite Launch Vehicle (SSLV) is an **all-solid three-stage vehicle**.

Statement 2 is incorrect: Small Satellite Launch Vehicle has a payload capability of 500 kg satellite mass into 500 km Low Earth Orbit (LEO) or 300 kg to Sun-Synchronous Polar Orbit.

Statement 3 is correct: The SSLV has been developed to cater to a market for the launch of small satellites into low earth orbits. The SSLV would help in a) Reduced Turn-around Time b) Launch on Demand c) Cost Optimization for Realization and Operation d) Flexibility in accommodating Multiple Satellites and e) Minimum launch infrastructure requirements.

Turnaround time is the amount of time it takes to complete a process. **The SSLV has a low turnaround time and can be assembled within a fortnight**, allowing the space agency to provide launch on demand service in the fast-growing low earth orbit launch sector.

Q.1) Consider the following statements regarding findings of Economic Survey 2022-23:

1. Capital expenditure by the central government has more than doubled in the last five years.
2. Revenue expenditure by the central government has seen a consistent growth in the last five years.
3. GST collection has increased by more than 5 times in the past five years.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 only
- c) 2 and 3 only
- d) 1 and 3 only

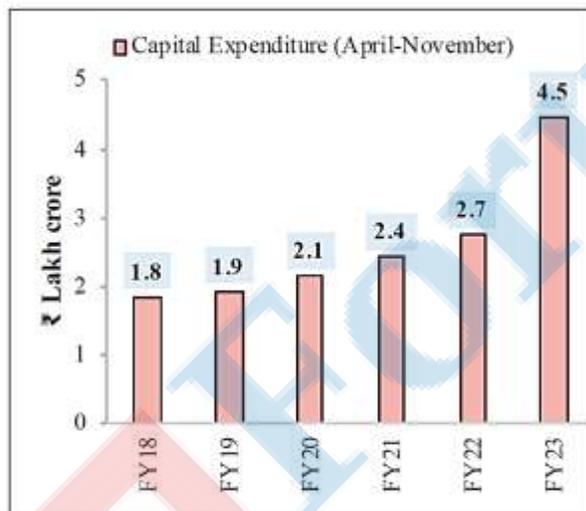

Ans) a

Exp) Option a is the correct answer.

Economic Survey 2022-23 has pointed out that India's economic growth in FY23 has been principally led by private consumption and Capital formation. It has identified consistent rise in Capital expenditure (Capex), balanced revenue expenditure and buoyant tax collection as few growth drivers for India's resilient economy.

Statement 1 is correct: Capital expenditure by the government has seen rise in the past five years as it has nearly doubled from Rs 1.9 lakh crores in FY19 to Rs. 4.5 lakh crores in FY23. This rising trend was seen not only at the centre but also by the state governments as well. The capex was increased not only to address the infrastructure gap but also to crowd-in private investment into an economic landscape.

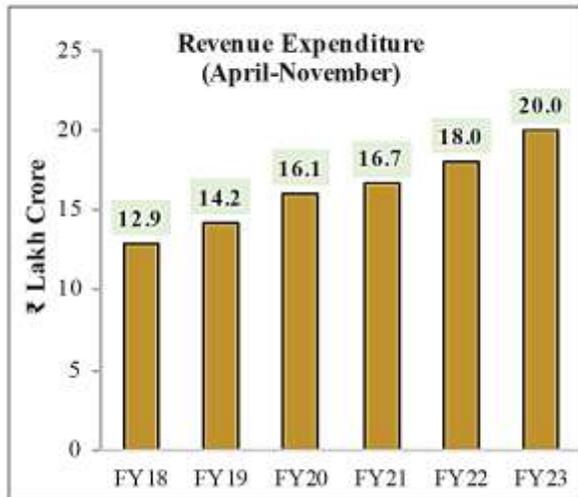

Figure I.22: Capex doubled in the past five years

Source: CGA

Statement 2 is correct: The higher growth in the capex by the governments was possible majorly due to limited growth in revenue expenditure over the past five years. **The revenue expenditure of government has witnessed consistent growth in last 5 years, but the growth of revenue expenditure was limited as can be seen in the graph given below.**

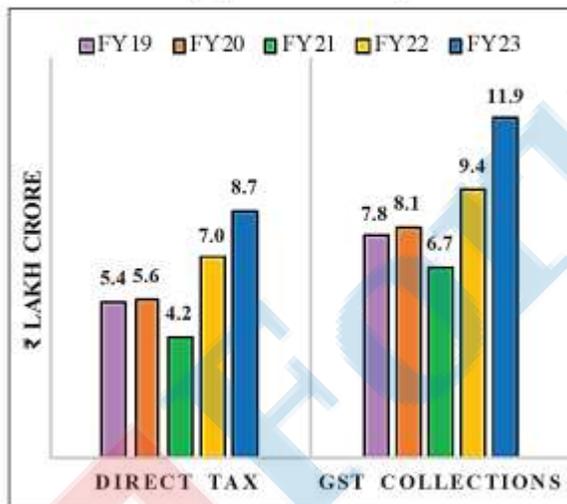

Figure I.25: Limited growth in revenue expenditure

Source: CGA

Statement 3 is incorrect: As can be seen from the graph given below, the GST collections in India have not increased 5 time in last 5 years.

Figure I.24: Buoyant tax collections (April-November)

Source: CGA

Source : <https://www.indiabudget.gov.in/economicsurvey/doc/eschapter/echap01.pdf>

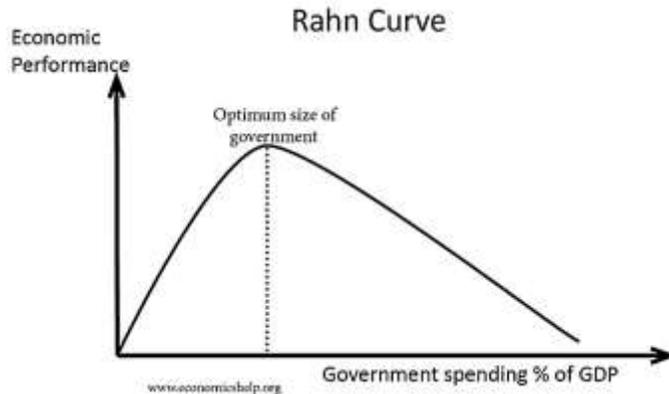

Q.2) In the context of microeconomics, Rahn curve establishes relationship between which of the followings?

- Economic growth and government's spending as a per cent of GDP.
- Environmental degradation and stage of economic development.
- Cumulative portion of income to cumulative per cent of population.
- Relationship between income inequality and per capita income.

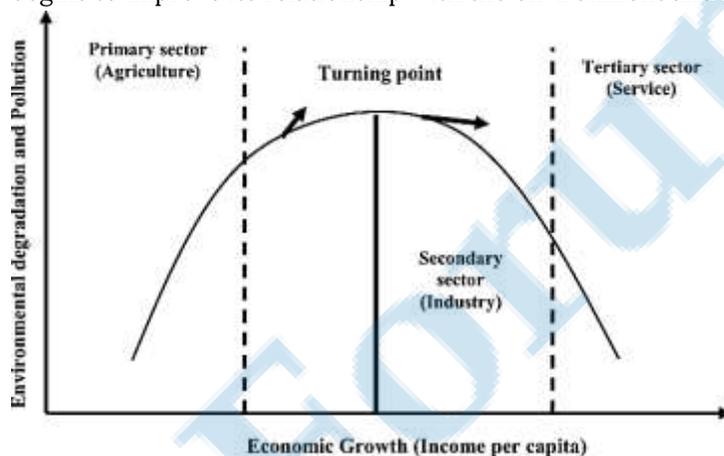

Ans) a

Exp) Option a is the correct answer.

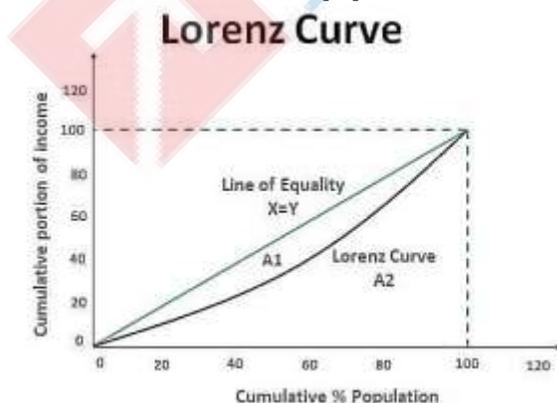

Option a is correct. Rahn curve establishes the relationship between economic growth and government's spending as a per cent of GDP (size of the government). It suggests that there is an optimal level of government spending which maximises the rate of economic growth.

Option b is incorrect. Environmental Kuznets Curve establishes the relationship between environmental degradation and stage of economic development. It suggests that economic development initially leads to a deterioration in the environment, but after a certain level of economic growth, a society begins to improve its relationship with the environment and levels of environmental degradation reduces.

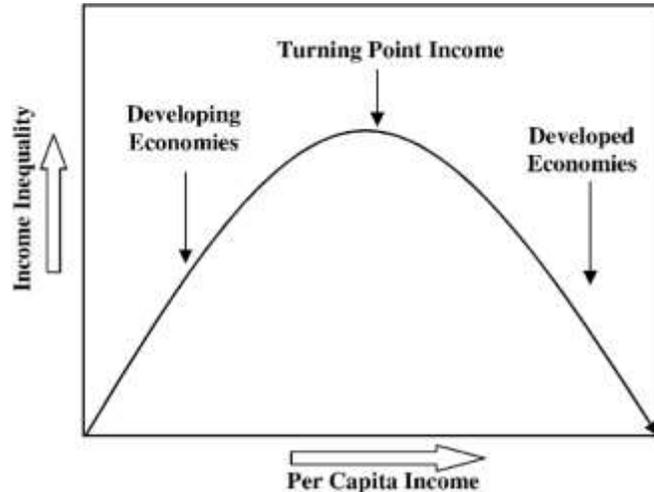

Option c is incorrect. Lorenz curve establishes the relationship between Cumulative share/portion of income to the section or per cent of population. It is a graphical representation of the distribution of income or wealth within a population.

Option d is incorrect: Kuznets curve is used to demonstrate the hypothesis that economic growth initially leads to a greater inequality, followed later by the reduction of inequality. It was first proposed by an American economist Simon Kuznets.

His work on economic growth and income distribution led him to hypothesize that industrializing nations experience a rise and subsequent decline in economic inequality, characterized as an inverted “U”–the “Kuznets curve.” **It establishes a relationship between income inequality and per capita income.** It shows that as per capita income rises, the income inequality rises in developing countries, then it reaches a tipping point and drops as income rises in the case of developed economies.

<https://link.springer.com/article/10.1007/s11356-020-07648-0>

Q.3) Consider the following pairs about various microeconomic terminologies:

Terminologies	Meaning
1. Private cost	It is a cost incurred by firm to purchase all the inputs required for the production.
2. Social cost	It is sum of private cost and cost to society arising from the production or consumption of goods and services.
3. Money cost	It is the total expense incurred by a firm to produce a commodity.

Which of the pairs given above are correctly matched?

- 1 and 2 only
- 2 and 3 only
- 1 and 3 only
- 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

The concept of cost of production is very significant in economics because it influences the production, supply, sales and the determination of price in the market. There are various types of costs in economics which help a firm or business houses to take apt economic decisions.

Pair 1 is correct: The private cost is any cost incurred by a **firm to purchase** capital equipment, hire labours, and buy material or other inputs to produce **goods and services**.

Pair 2 is correct: In neoclassical economics, social costs consist of:

- A) Private costs
- B) External costs

The total social cost is equal to the sum of the two. If we write it down mathematically, the social cost formula is as follows:

Social cost = Private cost + External cost

Social cost includes **both the private cost and any other external cost (cost of externalities)** to society arising from the production or consumption of goods and services. External costs are not reflected in the company's production costs. It is not seen on the company's income statement. Likewise, it is also not reflected in the price borne by consumers. Nonetheless, external costs remain costs to society, regardless of who pays them. For example, a textile company might try to save money. They then did not install water pollution control equipment or factory waste. Due to the company's actions, cities located downstream of the river must pay for the adverse effects of waste or pollution. River water becomes unfit for drinking. To fulfill their drinking needs, they have to buy clean water.

Pair 3 is correct: Cost of production measured in terms of money is called **Money cost**. It is the **expense incurred by a firm to produce a commodity**. In other words, it is the sum of all the payments to the factors of production engaged in the production of the commodity.

Source : http://www.lscollge.ac.in/sites/default/files/e-content/CONCEPTS%20OF%20COST_0.pdf

<https://www.frbsf.org/education/publications/doctor-econ/2002/november/private-social-costs-pollution-production/>

Q.4) Consider the following pairs regarding types of market and their examples:

Types of market	Examples in real life
1. Monopoly	The Indian Railways
2. Oligopoly	Hotel industry in tourist places
3. Monopolistic Competition	Supermarkets
4. Perfect Competition	The agricultural market

How many of the pairs given above are correctly matched?

- a) Only one pair
- b) Only two pairs
- c) Only three pairs
- d) All four pairs

Ans) b

Exp) Option b is the correct answer.

Markets can be differentiated based on market structure, which is represented by the nature and the level of competition that exists for the goods and services in the market.

Pair 1 is correct: In a **monopoly** market a single firm or business provides the required goods or services in the market without any significant competition by another firm. Hence, the said firm constitutes the entire industry. E.g., **the Indian Railways, Microsoft in cloud computing**, etc.

Pair 2 is incorrect: **Oligopoly** is a market form in which there are few firms or providers which provide or sell homogenous or differentiated products. It majorly occurs when a small number of firms come together to restrict output or fix prices. E.g., **the mobile phone operators' market in India** consists of a very few operators like JIO, Airtel, BSNL, which determine the demand and supply of the market.

Pair 3 is incorrect: As the name suggests **Monopolistic Competition** has the features of both Monopoly and Perfect competition. Unlike monopoly, it has numerous providers but is characterised by product differentiation (unique changes in the product design or quality). Prima facie, this market looks like a perfect competition but little adjustments in the product/service quality give it the structure of monopolistic competition. E.g., **The hotel industries in tourist places, though provide overall same facilities but add little product differentiation in terms of swimming pool, cuisine, spa, freebies, etc.**

Supermarkets are example of perfect competition where they stock their aisles from the same set of companies. There is little to distinguish products from one another between two supermarkets and their pricing remains almost the same.

Pair 4 is correct: **Perfect competition** exists when there are large number of buyers and sellers exist in the market, such that no one can influence the demand or supply in the market on its own. The commodity/services traded in these markets is also homogenous. E.g., **Agricultural market wherein, homogenous goods are sold at a uniform price.**

Source: investopedia.com

Q.5) Reserve Bank of India recently released guidelines on 'Digital Lending'. Consider the following statements regarding the provisions mentioned in the guidelines:

1. Non-Banking Financial Companies (NBFCs) are excluded from the scope of the guidelines.
2. Regulated Entities under these guidelines must ensure that any lending done through their Digital Lending App is reported to Credit Information Companies.
3. Regulated entities under these guidelines must ensure that all data is stored only in servers located within India.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

Reserve bank of India has recently released its guidelines on Digital Lending. Some important provisions from the guidelines are discussed below:

Statement 1 is incorrect: Scope of Application: These guidelines are applicable to digital lending extended by (these entities are called the Regulated entities):

- 1) All Commercial Banks,
- 2) Primary (Urban) Co-operative Banks, State Co-operative Banks, District Central Co-operative Banks;
- 3) Non-Banking Financial Companies (including Housing Finance Companies) [Hence Statement 1 is incorrect.]**

Statement 2 is correct: As per the provisions of the Credit Information Companies (CIC) (Regulation) Act, 2005; CIC Rules, 2006; CIC Regulations, 2006 and related guidelines issued by RBI from time to time, **Regulated Entities (Res) shall ensure that any lending done through their Digital Lending Apps (DLA) and/or DLAs of Lending Service Provider (LSP) is reported to CICs irrespective of its nature/ tenor.**

Statement 3 is correct: REs shall ensure that all data is stored only in servers located within India, while ensuring compliance with statutory obligations/ regulatory instructions. REs shall also ensure that no biometric data is stored/ collected in the systems associated with the DLA of REs/ their LSPs, unless allowed under extant statutory guidelines.

Q.6) Which of the following situations best represent the concept of Liquidity Trap?

- a) It is a situation in which the Forex reserves of a country are depleted to the level of managing only 15 days of imports.
- b) It is a situation in which a central bank does not have enough liquid cash to meet its financial obligation on time.
- c) It is a financial situation in which rising interest rates lead to depletion of disposable cash in the hands of consumers.
- d) It is a situation in which the consumers and investors hoard cash rather than spending or investing despite the interest rates being low.

Ans) d

Exp) Option d is the correct answer.

A liquidity trap is an adverse economic situation in which the consumers and investors hoard cash rather than spending or investing even when interest rates are low, thus making it difficult for the monetary policy makers to stimulate economic growth in the nation.

The term 'Liquidity Trap' was first used by economist John Maynard Keynes, who defined a liquidity trap as a condition that can occur when interest rates fall so low that most people prefer to let cash sit in their bank accounts rather than put money into bonds and other debt instruments. The consumers and investors in the apprehension of rising interest rates keep their cash with themselves or in saving accounts. Henceforth, it leads to fall in bond price in the market. Whereas the situation in which a bank doesn't have enough cash to meet its financial obligations on time is called as liquidity crisis/ cash crisis.

Source: Investopedia.com

Q.7) Consider the following statements regarding common goods and public goods:

1. If one individual consumes public goods, their availability to other individuals is reduced.
2. Common goods can be consumed without reducing their availability to other individuals.
3. Both Public Goods and Common Goods are non-excludable in nature.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 3 only
- c) 2 only
- d) 1 and 3 only

Ans) b

Exp) Option b is the correct answer.

Statement 1 is incorrect: Public goods describe products that are non-excludable and non-rival. That means no one can be prevented from consuming them, and individuals can use them without reducing their availability to other individuals. Examples of public goods include fresh air, knowledge, national defense, street lighting, etc.

Statements 2 is incorrect: Common goods/resources are defined as products or resources that are non-excludable but rival. That means virtually anyone can use them. However, if one individual consumes common resources, their availability to other individuals is reduced. The combination of those two characteristics often results in an overuse of common resources. Examples of common resources include freshwater, fish, timber, pasture, etc.

Statement 3 is correct: Both public goods and common goods are **non-excludable in nature**. It means that no one consumer can be stopped from benefiting from the goods.

Source: <https://www.law.wvu.edu/files/d/27b7e09b-1dae-4ec5-9dca-0a334b004bac/2021-8-11-water-as-property-richardson.pdf>

Q.8) Which one of the following is **not correct** regarding the assumptions made in the law of demand?

- There are no changes in the taste and preferences of consumers.
- Income of consumers remains constant.
- The consumer expects a change in the price of the product in future and considers it in the present.
- There are no changes in the price of substitute goods.

Ans) c

Exp) Option c is the correct answer.

The **law of demand** states that, other things remaining the same, **the quantity demanded of a commodity is inversely related to its price**. Other things being equal, if a price of a commodity falls, the quantity demanded of it will rise, and if the price of the commodity rises, its quantity demanded will decline. This law will be applicable only if the below mentioned points are fulfilled:

- Prices of substitute goods do not change.**
- Prices of complementary goods do not change.**
- Income of the buyer remains the same.**
- There is no change in the tastes and preferences of the buyer.**
- No expectation regarding future change in price.**

Option c is correct. If there is expectation of change in future price of product, then the consumers may change their present demand though the prices being constant in present. This may affect the present demand for the product. So, the law of demand has an assumption that there is no expectation regarding the change in the price of the product in future and the consumer should consider only the present price of the product.

Q.9) Consider the following pair of type of economic goods and their description:

Goods	Description
1. Veblen good	goods whose consumption increases as the price increases
2. Inferior good	goods whose demand drops when people's incomes rise.
3. Giffen good	goods whose demand drops when people's incomes decrease

Which of the pairs given above is/are correctly matched?

- 1 only
- 1 and 2 only
- 2 and 3 only
- 1 and 3 only

Ans) b

Exp) Option b is the correct answer.

Pair 1 is correct: Veblen good is a type of luxury good named after American economist Thorstein Veblen. It shows a positive relationship between price and demand, and thus an upward-sloping demand curve. The demand for a Veblen good rise when its price increases. Veblen goods generally are considered a high-quality exclusive product and a status symbol. When the price goes higher, its status symbol makes the Veblen good more desirable to consumers with high social and economic standing. Some common examples of Veblen goods include **luxury cars, wines, handbags, fine jewelry and watches etc.**

Pair 2 is correct: An inferior good is an economic term that describes a good whose demand drops when people's incomes rise. These goods fall out of favor as incomes and the economy improve as consumers begin buying more costly substitutes instead. Inferior goods are the opposite of normal goods, whose demand increases even when incomes increase.

Pair 3 is incorrect: The goods that increase consumption as the price increases are known as the Giffen goods. Thus, it violates the law of demand by showing an upwards sloping curve of the demand. Moreover, all the Giffen goods are always inferior. However, not all the inferior goods shall be considered as the Giffen. Some examples of it are wheat, potatoes and Rice. **Veblen goods are sometimes confused with Giffen goods. Both these types of goods violate the law of demand by selling more as prices rise.** However, a critical distinction sets these goods apart: **Veblen goods are luxury items, while Giffen goods are inferior goods for which no close substitutes exist.**

Source : <https://www.investopedia.com/terms/g/giffen-good.asp>

<https://corporatefinanceinstitute.com/resources/economics/veblen-goods/>

Q.10) Recently United Nations Conference to Support the Implementation of Sustainable Development Goal 14 (SDG-14) was held in Portugal. In this context, consider the following statements regarding the 'Lisbon Declaration':

- It is a commitment to follow science-based and innovative actions for the conservation of lands from further degradation.
- All the United Nations members have unanimously adopted this declaration.

Which of the statements given above is/ are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) b

Exp) Option b is the correct answer.

United Nations Ocean Conference, 2022 was held to ensure global cooperation towards protection and sustenance of the Ocean ecosystem of the world. It was held to support the implementation of Sustainable Development Goal 14 (SDG 14), and has been recently held in Lisbon, Portugal.

Statement 1 is incorrect: The Lisbon conservation **deals with ocean conservation and not land conservation**. It aims to **follow science-based and innovative actions on an urgent basis** for the conservation of oceans. It also calls to urgently improving health, sustainable use and resilience of the oceans. Participants also agreed to work on preventing, reducing and **controlling marine pollution like-nutrient pollution, untreated wastewater, solid waste discharges, Hazardous substances, emissions from maritime sectors (including shipping) and anthropogenic underwater noise**.

Statement 2 is correct: The Lisbon Declaration has been **unanimously adopted** by all the 198 members of the United Nations. The move is significant for building sustainable ocean-based economies. It is an example of collective efforts in the direction of sustainable ocean management.

Knowledge Base: **SDG 14 deals with 'life below water' whereas SDG 15 deals with 'life on land'**.

Source: <https://www.unep.org/news-and-stories/story/new-declaration-help-save-our-oceans>
<https://www.downtoearth.org.in/news/governance/un-ocean-conference-198-countries-adopt-lisbon-declaration-83521>

Q.11) It is a concept of microeconomics in which no individual or group can be made better off without making someone else worse off. Which of the following options best describes the above microeconomic concept?

- a) Pareto Optimality
- b) Concept of Diminishing Marginal Utility
- c) Taylor Rule
- d) Paradox of Thrift

Ans) a

Exp) Option a is the correct answer.

Option a is correct: **Pareto optimality or Pareto efficiency**, is an economic state where **resources cannot be reallocated to make one individual better off without making at least one individual worse off**. Hypothetically, if there were perfect competition and resources were used to maximum efficient capacity, then everyone would be at their highest standard of living, or at Pareto efficiency.

Option b is incorrect: The **law of diminishing marginal utility** states that all else equal, as consumption increases, the marginal utility derived from each additional unit declines. In simple terms, it means that the more of an item that you use or consume, the less satisfaction you get from each additional unit consumed or used.

Option c is incorrect: The Taylor Rule (sometimes referred to as Taylor's rule or Taylor principle) is an equation linking the United States of America's Federal Reserve Bank's benchmark interest rate to levels of inflation and economic growth. The Taylor Rule's formula ties the Fed's key interest rate policy instrument, the federal funds rate, to two factors: the difference between the actual and targeted inflation rates and that between the desired and apparent growth in the real Gross Domestic Product (GDP).

Option d is incorrect: The paradox of thrift is a microeconomic theory that argues that **personal savings can be detrimental to overall economic growth**. It is based on a circular flow of the economy in which current spending drives future spending. It calls for a lowering of interest rates to boost spending levels during an economic recession.

Source: <https://www.investopedia.com/terms/p/pareto-efficiency.asp>

<https://www.investopedia.com/terms/l/lawofdiminishingutility.asp>

<https://www.investopedia.com/terms/p/paretoprinciple.asp>

<https://www.investopedia.com/terms/p/paradox-of-thrift.asp>

Q.12) Which one of the following statements correctly describes ‘Shadow pricing’?

- It is a practice of assigning a monetary value to an item, commodity, or service that is ordinarily not bought and sold in the marketplace.
- It is a method used to set prices for goods and services before their release in the open market.
- It is a process used by companies to estimate the cost of producing a product or service.
- It is a pricing strategy used by companies to inflate the price of their products or services above the market rate.

Ans) a

Exp) Option a is the correct answer.

Option a is correct: Shadow pricing is the practice of assigning a monetary value to an item, commodity, or service that is not ordinarily bought and sold in any marketplace. Shadow pricing is used in many different areas and comes with a specific definition based on the context it is used in.

- A common context where shadow pricing is applied is that of what economists refer to as societal value. In such a context, shadow prices are **utilized to estimate the benefits to society that may be gained from things** such as public parks or libraries.
- Shadow pricing may also be used to estimate costs, as well as benefits, to society. An area where it is frequently seen now is that of climate change. Shadow pricing is used to approximate the unseen costs to society of using carbon-based energy sources.
- In a business context, shadow pricing is often utilized as part of the decision-making process when a company is considering making a major capital investment.

Source : <https://corporatefinanceinstitute.com/resources/economics/shadow-pricing/>

<https://www.investopedia.com/terms/s/shadowpricing.asp>

Q.13) Which among the following is the best description of ‘Production Possibility Frontier’?

- It represents the maximum amount of goods and services that a country can produce.
- It represents the minimum amount of goods and services that a country can produce.
- It represents the possible quantities of production of two commodities when the production of these commodities depends on the same finite resources.
- It represents the total amount of resources available to a country that can be used for producing goods.

Ans) c

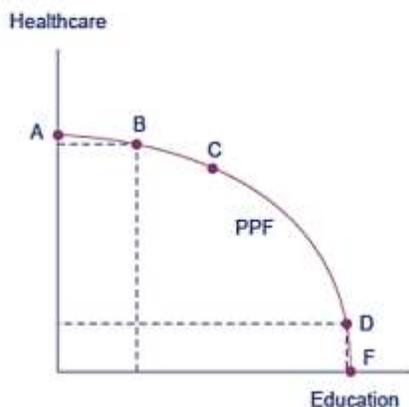

Exp) Option c is the correct answer.

The production possibility frontier (PPF) is a curve that illustrates the possible quantities that can be produced of two products if both depend upon the same finite resource for their manufacture. The PPF is also referred to as the production possibility curve.

The production of one commodity can only be increased by sacrificing the production of the other commodity. **It is also called the production possibility curve or product transformation curve.** The state of technology is taken to be constant. Since the production of one commodity can be increased only by

decreasing the production of the other commodity, production possibility curve also measures the production efficiency of the commodities. The production possibility frontier helps in deciding the commodities most beneficial to society, but this response is limited as there is a choice between two commodities only.

A Healthcare vs. Education Production Possibilities Frontier

This production possibilities frontier shows a tradeoff between devoting social resources to healthcare and devoting them to education. At A all resources go to healthcare and at B, most go to healthcare. At D most resources go to education, and at F, all go to education.

Source : <https://economictimes.indiatimes.com/definition/production-possibility-frontier>
<https://www.khanacademy.org/economics-finance-domain/microeconomics/basic-economic-concepts-gen-micro/production-possibilities/a/the-production-possibilities-frontier-and-social-choices-cnx-2>

Q.14) Which among the following is correct method to arrive at the Disposable Personal income?

- It is the income available for household consumption, savings, and spending after accounting for income tax.
- It is the income available for household consumption, savings, and spending before accounting for income tax.
- It is the income available for only consumption after savings and investments.
- It is the income available for household consumption before accounting for any other expense.

Ans) a

Exp) Option a is the correct answer.

Disposable income, also known as disposable personal income (DPI), is the amount of money that an individual or household has to spend or **save after income taxes have been deducted**.

It is an important indicator that is used by economists in determining the demand in an economy. Also, it is used to estimate the overall state of the country's economy.

Disposable income = Personal income – Personal income taxes

Source : <https://ncert.nic.in/ncerts/l/leec102.pdf>

https://ec.europa.eu/eurostat/statistics-explained/index.php?title=Glossary:National_disposable_income

Q.15) Consider the following statements regarding recently launched Initiative 'Nari Adalat':

1. It is a programme under the umbrella scheme of Mission Shakti.
2. The initiative is being implemented under Ministry of Social Justice and Empowerment.
3. Remuneration of the members of Nari Adalat is equivalent to that of a district judge.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) a

Exp) Option a is the correct answer.

Nari Adalat is a new initiative for providing women with an alternate Grievance Redressal Mechanism for resolving cases of petty nature (harassment, subversion, curtailment of rights or entitlements) faced by women at Gram Panchayat level and it will be implemented in a phased manner. Nari Adalats or women collectives will be formed of committed and socially respected women chosen for that purpose. This platform will also be utilized for engaging with the public for awareness generation and getting feedback for improvement in the schemes and for effective public delivery of services.

Statement 1 is correct: 'Nari Adalat' is one of the components included in Mission Shakti. Initially, Nari Adalats will be launched in identified States/UTs, preferably where Elected Women Representatives (EWRs) are heading the Gram Panchayats (GPs) in Aspirational Districts.

Statement 2 is incorrect: Nari Adalats will be provided logistic support through Gram Panchayats in convergence with the Ministry of Panchayati Raj, Ministry of Rural Development, and Common Service Centres (CSCs) run by the Ministry of Electronics and Information Technology.

Statement 3 is incorrect: In the first year of the initiative, an awareness drive regarding legal, constitutional rights and entitlements under 16 various schemes/ programs will be undertaken. In the second year, committed and socially respected women will be identified and extensively trained in all women-related laws and schemes and a formal setup of women collectives having 7 to 11 members will be made who will address the socio, economic, and cultural issues faced by the women of that area. **No remuneration to the selected members shall be provided. However, out-of-pocket expenses will be provided by the Ministry for organising the meetings and for providing the badge/ uniform to the members.**

Q.16) Which of the following can be considered as the limitations of GDP (Gross Domestic Product) as an indicator of economic scenario?

1. GDP fails to capture the income distribution pattern within a country.
2. GDP does not consider the level of prices in a country.
3. It does not consider non-market activities.
4. It does not include what is spent on environmental protection.

Which of the above given statements are correct?

- a) 1 and 2 only
- b) 3 and 4 only
- c) 1, 2 and 3 only
- d) 1, 2, 3 and 4

Ans) c

Exp) Option c is the correct answer.

GDP only measures economic activity that takes place in the market, such as the production of goods and services that are sold for a price. GDP should not be taken as an all-encompassing indicator of a society's well-being.

Statement 1 is correct: GDP disregards the income distribution pattern. The increase in aggregate national income may be a result of the increase in income of a few individuals. Thus, this may lead to a false interpretation of social welfare.

Statement 2 is correct: GDP does not consider the level of prices in a country. Because of inflation, the cost-of-living increases leading to a decrease in the standard of living. The loss of welfare due to this decrease is not taken into consideration by GDP as an index of welfare.

Statement 3 is correct: GDP includes production that is exchanged in the market, but it does not cover production that is not exchanged in the market. For example, hiring someone to mow your lawn or clean your house is part of GDP, but doing these tasks yourself is not part of GDP.

Statement 4 is incorrect: GDP includes what is spent on environmental protection, healthcare, and education, but it does not include actual levels of environmental cleanliness, health, and learning. For example, GDP includes the cost of buying pollution-control equipment, but it does not address whether the air and water are actually cleaner or dirtier. GDP includes spending on medical care, but it does not address whether life expectancy or infant mortality have risen or fallen.

Source : <https://corporatefinanceinstitute.com/resources/economics/gross-domestic-product-limitations/>

Q.17) The term “Wealth effect” represents an economic theory in which-

- a) Overall demand rises due to an increase in GDP.
- b) Individual spends more due to perception of increased disposable income.
- c) Per capita income increases due to the increase in the price of assets.
- d) Value of stocks decline in bear market.

Ans) b

Exp) Option b is the correct answer.

Option b is correct: Wealth Effect-It is a behavioral economic theory in which people spend more as they **feel more financially secure** and confident about their wealth when **their homes or investment portfolios increase in value**. They are made to feel richer, even if their income and fixed costs are the same as before. So due to **perception of increased disposable income**, individuals or households see an increase in wealth and spend more.

Source:

<https://www.investopedia.com/terms/w/wealtheffect.asp#:~:text=%20Key%20Takeaways%20%201%20The%20wealth%20effect,around%2C%20and%20that%20only%20higher%20home...%20More%20>
<https://www.intelligenteconomist.com/wealth-effect/>

Q.18) During the Covid 19 pandemic crisis, people started saving more and spending less. Even after the pandemic has ended, still people continue to spend less, this phenomenon is known as?

- a) Monetarism theory
- b) Keynesian Economics
- c) Capital flight
- d) Hysteresis in Economics

Ans) d

Exp) Option d is the correct answer.

Option a is incorrect: **Monetarism** is a macroeconomic theory which argues that governments can maintain economic stability by **targeting the growth rate of money supply**. It states that the total amount of money in an economy is the primary determinant of economic growth. **As the availability of money increases, so too does demand for goods and services.**

Option b is incorrect: ‘**Keynesian Economics**’ is based on the idea that **government intervention can stabilize an economy**. It argued that an economy’s output of goods and services is the sum of four factors: consumption, investment, government purchases and net exports - and any increase in demand has to come from one of these. But during a recession, external forces often dampen demand, risking a reduction in spending and as such, investment in businesses making these goods.

Option c is incorrect: **Capital flight** is a large-scale **exodus of financial assets and capital from a nation due to events** such as political or economic instability, currency devaluation or the imposition of capital controls.

Option d is correct: **Hysteresis** in the field of economics **refers to an event in the economy that persists even after the factors that led to that event have been removed or otherwise run their course**. Hysteresis often occurs following extreme or prolonged economic events such as an economic crash or recession. After a recession, for example, the unemployment rate may continue to increase despite growth in the economy and the technical end of the recession. Another example is that of CORONA crisis, people started saving more and spending less. Even though the pandemic has ended, still people continue to spend less.

Source:

<https://www.investopedia.com/terms/h/hysteresis.asp#:~:text=Hysteresis%20in%20economics%20refers%20to,after%20the%20economy%20has%20recovered.>

Q.19) Consider the following statement regarding the different indexes used to measure inflation:

1. Both Wholesale Price Index (WPI) and Consumer Price Index (CPI) capture the changes in the prices of goods and services.
2. The Reserve Bank of India (RBI) has adopted the CPI as its key measure of inflation.
3. The basket of goods and services used to compute the GDP deflator changes automatically over time.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 2 only
- c) 2 and 3 only
- d) 1 and 3 only

Ans) c

Exp) Option c is the correct answer.

A **wholesale price index (WPI)** measures overall **change in producer prices over time**. It is a measure of inflation based on the prices of goods before they reach consumers.

The **Consumer Price Index** measures the overall **change in consumer prices** based on a representative basket of goods and services over time.

Statement 1 is incorrect: WPI does not capture changes in the prices of services, while CPI captures the changes in both goods and services. WPI tracks the inflation at the producer level and CPI captures the inflation at the consumer level. WPI is released by Office of Economic Advisor and CPI is released by Central Statistics Office

Statement 2 is correct: In 2014, the Reserve Bank of India has adopted the new Consumer Price Index (CPI) (combined) as the key measure of inflation.

Statement 3 is correct: The GDP price deflator measures the changes in prices for all the goods and services produced in an economy. Using the GDP price deflator helps economists compare the levels of real economic activity from one year to another. The GDP price deflator is a more comprehensive inflation measure as it **is not based on a fixed basket of goods**. The Basket of goods and services used to compute the GDP deflator changes automatically over time.

Source : https://www.business-standard.com/budget/article/measures-of-inflation-understanding-cpi-and-wpi-and-how-they-differ-123020100153_1.html#:~:text=CPI%20captures%20price%20change%20at,CPI%20uses%20the%20calendar%20year.

<https://www.investopedia.com/terms/g/gdppricedeflator.asp>

Q.20) The Markets in Crypto Assets (MiCA) Regulations, recently seen in news, is passed by which of the following organizations?

- The Organization for Economic Co-operation and Development (OECD)
- The Association of Southeast Asian Nations (ASEAN)
- The European Union (EU)
- The Shanghai Cooperation Organisation (SCO)

Ans) c

Exp) Option c is the correct answer.

European Union legislators recently approved a new bill on regulating crypto assets, named the Markets in Crypto Assets (MiCA) Regulation. This major law aims to impose regulations on the use of digital assets within the European Union.

According to the MiCA Bill, people who are creating cryptocurrency, are required to make their project details available via a “crypto-asset white paper”. Additionally, it mandates that Stablecoin businesses meet capital criteria. If their tokens are not pegged to the Euro or another currency accepted by EU member states, there will be a limit to the number of tokens they can issue.

Source: <https://www.outlookindia.com/business/crypto-news-update-coinbase-enters-singapore-eu-lawmakers-pass-landmark-bill-regulating-crypto-assets-news-229065>

Q.21) With reference to 'Economic Growth of a Country', consider the following pairs:

Economic Recovery Type	Significance
1. Z-shaped recovery	Economy, after falling, struggles around a low growth rate for some time, before rising gradually to usual levels.
2. L-shaped recovery	Economic growth recovers sharply after a fall
3. W-shaped recovery	Rise and fall of economic growth are witnessed

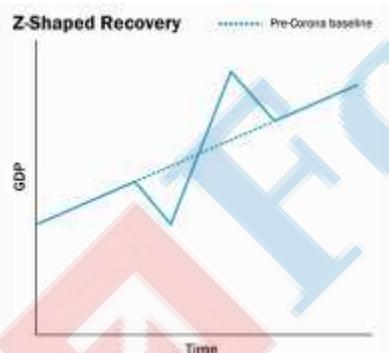

Which of the pairs given above is/are correctly matched?

- 1 and 3 only
- 2 only
- 2 and 3 only
- 3 only

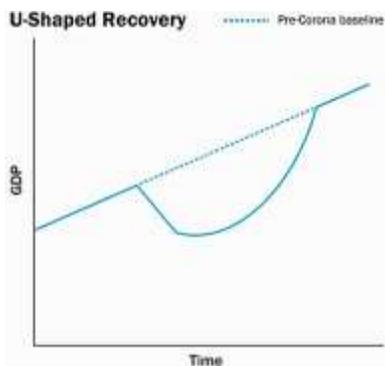

Ans) d

Exp) Option d is the correct answer.

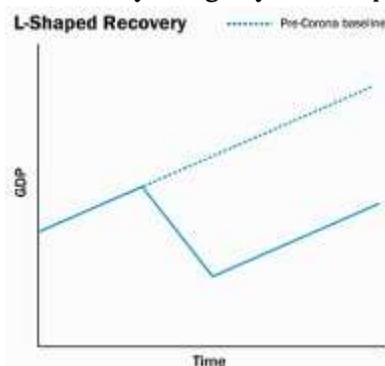

Pair 1 is incorrectly matched. Z-shaped recovery: It is the most-optimistic scenario in which the **economy quickly rises after an economic crash**. It makes up more than for lost ground before settling back to the normal trend-line, thus forming a Z-shaped chart. In this **economic disruption lasts for a small period** wherein more than people's incomes, it is their ability to spend is restricted.

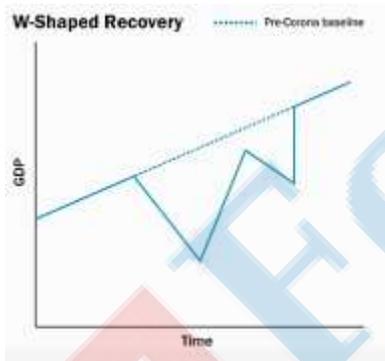

On the other hand, U-shaped recovery is a scenario in which the economy, after falling, struggles around a low growth rate for some time, before rising gradually to usual levels.

Pair 2 is **incorrectly** matched. **L-shaped recovery**: In this, the economy **fails to regain the level of GDP even after years go by**. The shape shows that there is permanent loss to the economy's ability to produce.

Pair 3 is **correctly** matched. **W-shaped recovery**: In W-shaped recovery **growth falls and rises, but falls again before recovering, thus forming a W-like chart**. The double-dip depicted by a W-shaped recovery can be due to the second wave of the pandemic.

Source: Explain Speaking: When and how will Indian economy recover, what the shape of its recovery will be? | Explained News, The Indian Express

Q.22) Consider the following statements regarding the National Infrastructure Pipeline (NIP):

1. It clearly defines the term 'Infrastructure' for the first time in India.
2. It includes investment in both greenfield and brownfield infrastructure projects.
3. It will be wholly funded by the public sector Banks.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 2 only
- c) 3 only
- d) 1 and 3 only

Ans) b

Exp) Option b is the correct answer.

Statement 1 is incorrect: India's National Infrastructure Pipeline (NIP) envisages an **infrastructure investment of Rs 111 lakh crore over the period from FY 2019 till FY 2025**. Financing of infrastructure investments at such a scale necessitates a re-imagined approach and tapping alternative financing through innovative ways. **But the NIP does not define the term 'Infrastructure' as such.**

Statement 2 is correct: NIP envisages improving project preparation and attracting domestic and foreign investment in infrastructure. The NIP includes infrastructure projects of more than Rs.100 crore **covering greenfield and brownfield investments.**

Statement 3 is incorrect: As estimated by the Report of Task Force for NIP (2019), **traditional sources of capital** like Banks, Financial Institutions, etc. **are expected to finance 83–85% of the capital expenditure** envisaged under NIP. **About 15- 17%** of the aggregate outlay is expected to be met through innovative mechanisms such as **Asset Recycling & Monetization** and new long-term initiatives such as **Development Finance Institution (DFI)**. **Hence the NIP is not wholly funded by the public sector banks only.**

Source: chapter 12: Physical and Digital Infrastructure: Lifting Potential Growth of Economic Survey 2022-23

<https://indiainvestmentgrid.gov.in/national-infrastructure-pipeline#:~:text=The%20national%20infrastructure%20pipeline%20aims,and%20make%20growth%20more%20inclusive.>

https://dea.gov.in/sites/default/files/Report%20of%20the%20Task%20Force%20National%20Infrastructure%20Pipeline%20%28NIP%29%20-%20volume-i_0.pdf

Q.23) Which of the following Items are **not** included in the calculation of GDP?

1. Milk used for producing sweets
2. Purchase of license of a computer software.
3. Sell of country-gun to mafia on darknet
4. Purchase of second-hand vehicle
5. Purchase of a new house

Select the correct option form the codes given below:

- a) 1, 2 and 3 only
- b) 1, 3 and 4 only
- c) 2, 3 and 5 only
- d) 1, 4 and 5 only

Ans) b

Exp) Option b is the correct answer.

Gross Domestic Product (GDP) is the market value of all the final goods and services produced within the domestic territory of a country during a specified period.

Statement 1 is correct: An intermediate good is a product used to produce a final good or finished product. It is not accounted while calculating GDP to prevent the calculation of same good twice. Hence, **milk used for producing sweets is an intermediate good and cannot be used.**

Statement 2 is incorrect: Purchase of license of a computer software is considered as an investment hence is considered for national income accounting by expenditure method.

Statement 3 is correct: **Sell of illegal goods or sells in the black market like darknet are often left out from the calculation of GDP.** These items are not included in the calculation of GDP because they involve issues related to ethics and quantification etc.

Statement 4 is correct: Sell/ purchase of second-hand goods is also not included, because income accounting is done for the new products and services of the current period.

Statement 5 is incorrect: Purchase of a new house is also considered as an investment under expenditure method for the calculation of national income.

Source: NCERT Class 12, Introductory Macroeconomics (Chapter 2).

Q.24) Which of the following statements best explains the Net Factor Income from Abroad?

- It is the net income earned by the Indians from various factors of production in abroad subtracted by the net taxes paid on the earned income in abroad.
- It is the net income earned by the Indians from various factors of production in abroad in addition to the net retained earnings from abroad.
- It is the net income earned by the Indians from various factors of production in abroad in addition to the transfer payments, gifts and donations from abroad.
- It is the net income earned by the Indians from various factors of production in abroad and deducting the net factor income earned by the foreigners in India.

Ans) d

Exp) Option d is the correct answer.

Net factor income from abroad is calculated by subtracting Factor income earned by the factors of production of the rest of the world (foreigners) employed in the domestic economy from the Factor income earned by the domestic factors of production (Indians) employed in the rest of the world.

Net Factor Income from Abroad (NFIA) = Factor income earned from abroad – Factor income paid abroad
NFIA is used in macroeconomics to calculate the Gross National Product (GNP).

GNP = GDP + NFIA

GNP refers to the total value of all the goods and services produced by the residents and businesses of a country, irrespective of the location of production. Whereas Gross domestic product (GDP) is the total monetary or market value of all the finished goods and services produced within a country's borders in a specific period.

Source: NCERT Class 12, Introductory Macroeconomics (Chapter 2)

Q.25) Which of the following options correctly describes the term 'BioSentinel', recently seen in news?

- A mission to develop a biosensor instrument to measure the impact of space radiation on living organisms.
- A wearable device that measures size changes in cancerous tumors under the skin.
- A mobile app to test nutrients like nitrogen and phosphorus in the soil.
- A semiconductor device that processes images from an individual's physical characteristics using complex algorithms.

Ans) a

Exp) Option a is the correct answer.

Option a is correct: The BioSentinel mission was selected as one of the secondary payloads, and the sole biological experiment, to fly on the first launch of the Space Launch System rocket for the Artemis I mission.

The primary objective of BioSentinel is to develop a biosensor instrument to detect and measure the impact of space radiation on living organisms over long durations beyond low-Earth Orbit (LEO).

Option b is incorrect: A research team from Stanford University has recently developed a wearable device that measures size changes in tumors under the skin in mice. **Known as FAST – “Flexible Autonomous Sensor measuring Tumors” – the wearable device consists of a stretchy skin-like polymer membrane**

embedded with a layer of gold circuitry. The sensor adheres to the skin above where a cancerous tumor is currently located. The sensor also has a small electronic “backpack” holding its battery.

Option c is incorrect: Recently, IIT Kanpur professor has developed a mobile app named Bhu Parikshak to test nutrients like nitrogen, phosphorus and more in the soil, alongside a low-cost and portable device that can do the job in just 90 seconds.

Option d is incorrect: A Biometric Sensor is a device (or a transducer, to be specific) that converts the biometric trait of an individual into electrical signals. Biometric Sensors are usually semiconductor devices that process images from an individual’s physical characteristics using complex algorithms. Many physical characteristics of a person like face, iris, fingerprints, etc. are scanned by a Biometric Sensor and are converted to a digital image using an Analog – to – Digital Converter.

https://www.electronicshub.org/types-of-biometric-sensors/#Biometric_Sensors

Q.26) Consider the following statements about the Income method of National Income Accounting:

1. Income method includes goods meant for self-consumption by the producer.
2. Wages and salaries paid in kind are not included in the national income accounting by this method.
3. It includes income from a rented house but doesn’t count in the theoretical rent (imputed rent) to be paid by owner to himself.

Which of the statements given above is/are correct?

- a) 1 only
- b) 1 and 2 only
- c) 2 and 3 only
- d) 1 and 3 only

Ans) a

Exp) Option a is the correct answer.

One of the methods of calculating National Income is Income method among others. It is based on the idea that the sum of final expenditures in the economy must be equal to the incomes received by all the factors of production taken together. It implies that the revenues earned by all the firms put together must be distributed among the factors of production as salaries, wages, profits, interest earnings and rents.

According to this,

$$\mathbf{GDP = W + P + In + R}$$

(Where, W is total wages, P is total profit, In is total income and R is total rent received by all the factors).

Statement 1 is correct: Goods meant for self-consumption are included by the income method in the National income accounting as these goods contribute to the current output and their imputed value will be included in the national income.

Statement 2 is incorrect: Wages and payment in kind are included by the income method in the national income accounting. It is done as the payment in kind is given in the place of equivalent payment in the form of cash/money.

Statement 3 is incorrect: Income method includes income from a rented house as well as the imputed rent from owner-occupied houses. It is done so, because people living in such houses enjoy similar housing facilities as those by the rented houses. It is as if the owner of the house is selling to himself housing service as a tenant.

SFG 2023 | LEVEL 2 | Test #12 – Solutions |

Q.27) Consider the following statements about the economic concept ‘Green GDP’:

1. It adjusts nation’s Gross Domestic Product (GDP) for environmental deterioration and depleting natural resources.

2. Green GDP accounting in India is done by National Statistics Office (NSO).

Which of the statements given above is/are correct?

- 1 only
- 2 only
- Both 1 and 2
- Neither 1 nor 2

Ans) a

Exp) Option a is the correct answer.

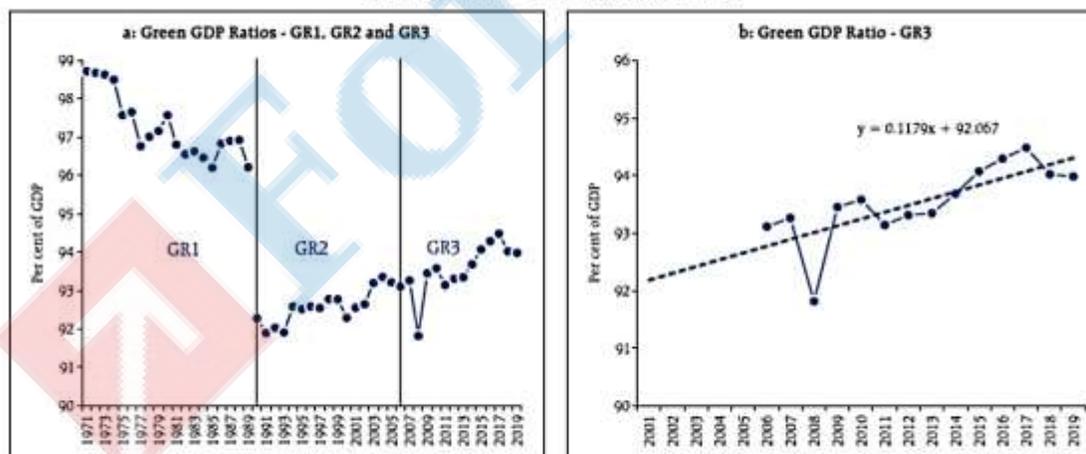

The traditional GDP based growth accounting fails to capture the impact of climate change and deteriorating environment on the economy. Hence, the concept of Green GDP began to develop in the late 1980s.

Statement 1 is correct: Green GDP is an environment-based growth accounting which adjusts nation’s Gross Domestic Product (GDP) for environmental deterioration and depleting natural resources. There are various methodologies used in the estimation of Green GDP. One of the used methodologies for its calculation is,

Green GDP = GDP – (Carbon dioxide damage + particulate emission damage) – (Opportunity cost of energy depletion + mineral depletion + net forest depletion) + Expenditure on environmental protection

Statement 2 is incorrect: Green GDP in India is not estimated by the National Statistics Office (NSO). However, the Green Indian States Trust (GIST), a not-for-profit trust started a project in 2003 - Green Accounting for Indian States & Union Territories Project (GAISP) to build a framework for environmentally adjusted national income accounts. It has recently presented an article in RBI bulletin about the India’s Green GDP growth trajectory. The trajectory of Green GDP for India displays an upward movement with overall Green GDP (as a per cent of GDP) lying above the range of 90% in the past decade.

Chart 5: Green GDP Ratios for India

Source: RBI staff estimates on the basis of World Bank database.

Where, GR1, GR2, GR3 are as follows:

- GR1 = GDP – (Carbon dioxide damage) – (Opportunity cost of energy depletion + mineral depletion + net forest depletion); Data availability: 1971–2019.
- GR2 = GR1 – particulate emission damage; Data availability: 1990–2019.
- GR3 = GR2 + Expenditure on environmental protection; Data availability: 2006–2019.

Q.28) Consider the following statements about Nominal and Real Exchange rates:

1. Nominal exchange rate (NER) is used to compare the actual prices of goods in the two countries, while Real exchange rate (RER) is used to compare the values of their currencies.
2. Real exchange rate is calculated by multiplying the ratio of prices of a basket of goods between the two countries to the Nominal Exchange rate.
3. An increase in Real exchange rate indicates a loss in trade competitiveness of an economy.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

An exchange rate is a relative price of one currency expressed in terms of another currency (or group of currencies). There are two comparative exchange rates often observed by economies: Nominal and Real exchange rates.

Statement 1 is incorrect: The nominal exchange rate is defined as the number of units of the domestic currency that can purchase a unit of a specific foreign currency. It is used to compare the value of the domestic currency with respect to any other currency. Whereas The Real Exchange rate measures and compares the value of a country's goods against goods of another country.

Statement 2 is correct: Real exchange rate is calculated by multiplying the ratio of prices (of the same goods) between the two countries to the Nominal Exchange rate. It tells how many times a good and service can be purchased abroad (after conversion into a foreign currency) than in the domestic market for a given amount. It is a unitless entity.

Statement 3 is correct: An increase in RER implies that exports become more expensive, and imports become cheaper, therefore an increase in RER indicates a loss in trade competitiveness.

Source: <https://www.imf.org/en/Publications/fandd/issues/Series/Back-to-Basics/Real-Exchange-Rates#:~:text=What%20is%20the%20real%20exchange,prices%20between%20the%20two%20countries>
<https://www.investopedia.com/terms/n/neer.asp>

Q.29) The Human Development Index (HDI) is a statistic developed and compiled by the United Nations to measure various countries' levels of social and economic development. Which of the following are the indicators of HDI?

1. Life expectancy at birth
 2. GDP per capita
 3. Income inequality
 4. Political representation
 5. Expected years of schooling
- Select the correct answer using the code given below.

- a) 1 and 5 only
- b) 2, 3, and 4 only
- c) 1, 2 and 5 only
- d) 1, 2, 4 and 5 only

Ans) a

Exp) Option a is the correct answer.

SFG 2023 | LEVEL 2 | Test #12 – Solutions |

As per UNDP, HDI is a summary measure of average achievement in key dimensions of human development. But Human Development Report (HDR) for 2022 is quite different because for the **first time in its history** (the HDR has been compiled since 1990), the global HDI value has declined **two years in a row**, erasing the gains of the preceding five years.

Options 1 and 5 are correct: HDI is a composite index of the following three parameters:

- 1) Standard of Living, measured by **Gross National Income (GNI) per capita**
- 2) Health, measured by **life expectancy at birth**.
- 3) Education is measured by
 - a. **expected years of schooling for a child**
 - b. mean of years of schooling for adults aged 25 years.

All the three parameters are separately calculated on a scale of **0 to 1** and then the HDI is derived from the **geometric mean of normalized indices** for each of the three dimensions.

Option 2 is incorrect: One of indicator of HDI is **GNI per capita rather than GDP per capita**. GDP and GNI are related in the following way.

GNI = GDP + (inward remittances by businesses and individuals – outward remittance by the foreigners residing in the country.)

Option 3 and 4 are incorrect: Income inequality and Political representation are not the indicators of HDI.

<https://blog.forumias.com/india-ranks-132-in-undps-human-development-index-amid-a-global-fall/>

<https://www.wallstreetmojo.com/gross-national-income/#:~:text=Or%20GDP%20%3D%20C%20%2B%20I%20%2B%20G%20%2B%20NX&text=Moreover%2C%20GNI%20Formula%20%3D%20GDP%20%2B,foreigners%20residing%20in%20the%20country>

Q.30) Consider the following pairs:

Places in news	Country
1. Bohai Sea	Thailand
2. Katchal Island	India
3. Malvinas Island	Greece

How many of the pairs given above are correctly matched?

- a) Only one pair
- b) Only two pairs
- c) Only three pairs
- d) None of the pairs

Ans) a

Exp) Option a is the correct answer.

Pair 1 is incorrectly matched: The Bohai Sea is a semi-enclosed continental shelf sea in northern China (not Thailand), off the NW Pacific Ocean. China's one of the major oil companies CNOOC has recently discovered oil in the Bohai Sea with the deposit estimated to contain more than 100 million tons of oil equivalent. Also, Military operations took place recently in Bohai Strait and northern Yellow Sea.

Pair 2 is correctly matched: Katchal Island is a part of the Nicobar group of Islands in India. It is located around 305 kilometers from the capital city of Port Blair. The Katchal Island is spread across an area of about 174.4 square kilometers. The United States National Aeronautics and Space Administration (NASA) recently highlighted the loss of mangrove cover on Katchal island.

Pair 3 is incorrectly matched: Falkland Islands, also called Malvinas Islands or Spanish Islas Malvina is an internally self-governing overseas territory of the United Kingdom in the South Atlantic Ocean. It

lies about 300 miles (480 km) northeast of the southern tip of South America and a similar distance east of the Strait of Magellan. These islands remain the subject of a sovereignty dispute between Britain and Argentina, who waged a brief but bitter war over the territory in 1982.

Q.31) With reference to Multi-Dimensional Poverty Index (MPI), consider the following statements:

1. The global MPI was jointly developed by Oxford Poverty & Human Development Initiative (OPHI) and UN Development Programme (UNDP).
 2. MPI is divided in three dimensions having equal weightage.
 3. One of its flaws is that it does not assess data at the individual level.
- Which of the statements given above are correct?

- a) 1 and 3 only
- b) 1 and 2 only
- c) 2 and 3 only
- d) 1, 2 and 3

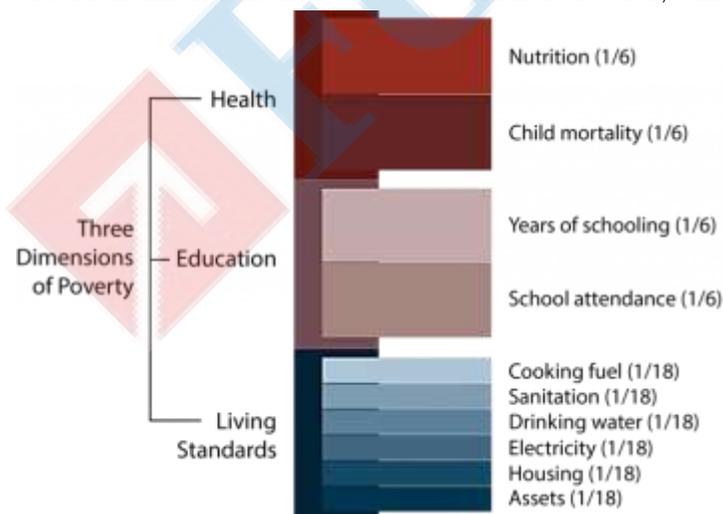

Ans) b

Exp) Option b is the correct answer.

The Multidimensional Poverty Index captures the multiple deprivations that people in developing countries face in their health, education and standard of living. It is jointly produced by **UNDP and the Oxford Poverty and Human Development Initiative (OPHI)**.

Statement 1 is correct: The global MPI was developed by Oxford Poverty & Human Development Initiative (OPHI) with the UN Development Programme (UNDP) for inclusion in UNDP's flagship Human Development Report in 2010. It has been published annually by OPHI and in the HDRs ever since.

Statement 2 is correct: Deprivations of Multi-Dimensional Poverty index has been divided across 10 indicators in **three equally weighted dimensions: health, education and standard of living**. The health and education dimensions are based on two indicators each, while standard of living is based on six indicators.

Statement 3 is incorrect: The MPI assesses poverty at the individual level. If a person is deprived in a third or more of ten (weighted) indicators, the global MPI identifies them as ‘MPI poor’. The extent – or intensity – of their poverty is also measured through the percentage of deprivations they are experiencing.

<https://ophi.org.uk/multidimensional-poverty-index/>

Q.32) With reference to Genuine Progress Indicator (GPI), which of the following statements is/are **incorrect**?

1. It takes into account the negative impacts of the economic activities on environment and society.
2. GPI per capita is always less than GDP per capita.

Select the correct answer using the code given below:

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) b

Exp) Option b is the correct answer.

The Genuine Progress Indicator (GPI) is a metric that has been suggested to replace, or supplement, gross domestic product as a measure of economic welfare.

Statement 1 is correct: A Genuine Progress Indicator (GPI) is a metric used to measure the economic growth of a country. Whereas the **World Happiness Report** presents the people’s qualitative assessment of their lives through quantitative indicators.

GPI is often considered an alternative metric to the more well-known gross domestic product (GDP) economic indicator. **The GPI indicator takes everything the GDP uses into account but adds other figures that represent the cost of the negative effects related to economic activity, such as the cost of crime, cost of ozone depletion, and cost of resource depletion, among others.**

Statement 2 is incorrect: The GPI per capita can be greater than the GDP per capita. The GPI measures economic welfare, environmental sustainability, and social equity, while the GDP only measures the economic output of a country. Therefore, **the GPI could be greater than the GDP if a country is making progress in areas such as environmental protection and social equity while its economic output is not necessarily increasing. However, usually (not always) GPI is lesser than GDP due to negative externalities. Hence the statement 2 is incorrect.**

Source: <https://www.investopedia.com/terms/g/gpi.asp>

https://www.greengrowthknowledge.org/sites/default/files/downloads/best-practices/GGBP%20Case%20Study%20Series_United%20States_Genuine%20Progress%20Indicator.pdf

Q.33) With reference to concept of ‘base year’ used in National Income Accounting in India, consider the following statements:

1. The base year is revised in every 10 years.
2. Present base year for national income accounting is 2011-12.

3. The Ministry of Statistics and Programme Implementation (MOSPI) is the ministry responsible for deciding the new base year.

4. Periodical revision of base year is needed to better capture the structural changes in the economy.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 2 and 4 only
- c) 2, 3 and 4 only
- d) 1, 3 and 4 only

Ans) c

Exp) Option c is the correct answer.

National Income Accounting refers to a set of rules and techniques that are used to **measure the output of a country**. Various macroeconomic identities like GDP, GVA, NNP are used for calculation of national income.

Statement 1 is incorrect: The base year plays an essential role in National Accounting Standards, as it provides a way to compare the current and past economic conditions. It is therefore crucial to ensure regular updating of the base year to gain a better understanding of the changes occurring in the economic system. **However, there is no such provision to revise the Base Year in every 10 years.**

Statement 2 is correct: The base year for the most recent National Accounts series was altered from 2004-05 to **2011-12**. The base year prices are also known as **constant prices** since they reduce all the data to a similar baseline, the base year price.

Statement 3 is correct: The change in the base year captures the actual change in structures of the economy. **The Ministry of Statistics and Programme Implementation (MOSPI) decides on a new base year for the GDP series.** The ministry is striving to bring in a new set of national accounts which would result in a revising of the existing base year of 2011-12. Though the MOSPI is considering 2020-21 as the new base year. However, no decision has been taken, and the expert committees are awaiting some more data before finalizing their opinion.

Statement 4 is correct: According to the United Nations System of National Accounts (UNSNA), the member countries are required to revise the **base year of their macro-economic indicators** like Gross Domestic Product (GDP), Gross Value Added (GVA), etc. periodically, **to better capture the structural changes in the economy.**

Source: <https://www.businesstoday.in/latest/economy/story/no-plans-to-change-base-year-for-gdp-calculations-amid-covid-outbreak-govt-328518-2022-04-04>

Q.34) With reference to Gender Inequality Index (GII), which of the following statements is/are correct?

- 1. Low GII value indicates low level of inequality between women and men in a country.
- 2. It reflects inequality in three dimensions- reproductive health, empowerment and the labour market.
- 3. It is released by the World Economic Forum.

Select the correct answer using the code given below.

- a) 3 only
- b) 1 and 2 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

The **Gender Inequality Index (GII)** is an index for measurement of gender disparity that was introduced in the 2010 Human Development Report 20th anniversary edition by the United Nations Development Programme (UNDP).

Statement 1 is correct: The GII varies between 0 (when women and men fare equally) and 1 (when men or women fare poorly compared to the other in all dimensions). It indicates that **low GII value indicates low level of inequality between women and men, and vice-versa.**

Statement 2 is correct: The GII looks at the issue of gender inequality by preparing a composite measure using **three dimensions: reproductive health, empowerment and the labour market.** The **reproductive health indicators** are maternal mortality ratio and adolescent birth rate. The **empowerment indicators** are the percentage of parliamentary seats held by women and the percentage of the population with at least some secondary education by gender. The **labour market indicator** is participation in the labour force by gender.

Statement 3 is incorrect: It is released by the **United Nations Development Programme (UNDP).** The other similar kind of report “Global Gender Gap Report” is released by World Economic Forum.

[https://www.who.int/data/nutrition/nlis/info/gender-inequality-index-](https://www.who.int/data/nutrition/nlis/info/gender-inequality-index-(gii)#:~:text=The%20Gender%20Inequality%20Index%20is,empowerment%20and%20the%20labour%20market.)

[\(gii\)#:~:text=The%20Gender%20Inequality%20Index%20is,empowerment%20and%20the%20labour%20market.](https://www.who.int/data/nutrition/nlis/info/gender-inequality-index-(gii)#:~:text=The%20Gender%20Inequality%20Index%20is,empowerment%20and%20the%20labour%20market.)

Q.35) The Recife Political Declaration, recently seen in news, is related to which of the following?

- Universal Health Coverage
- Global Road Safety
- Ending the AIDS epidemic
- Disaster risk reduction

Ans) a

Exp) Option a is correct answer.

Option a is correct: The **Recife Political Declaration on Human Resources for Health: It reiterated commitment in attaining universal health coverage and recognized that global community needs an improved health workforce to achieve it. Its vision is that “all people, everywhere have access to a skilled, motivated health worker, within a robust health system.”**

Option b is incorrect: The World Health Organization (WHO) recently lauded the political declaration to be adopted by Member States during the High-level Meeting of the UN General Assembly on Global Road Safety. It commits to cut road traffic deaths and injuries by 50% by 2030, a milestone for road safety and sustainable mobility.

Option c is incorrect: UNAIDS adopted the new goals, targets and commitments in the 2016 United Nations General Assembly Political Declaration on Ending AIDS. Countries have agreed to a historic and urgent agenda to accelerate efforts towards ending the AIDS epidemic by 2030.

Option d is incorrect: In January 2005, 168 Governments adopted a 10-year plan to make the world safer from natural hazards at the World Conference on Disaster Reduction, held in Kobe, Hyogo, Japan. The Hyogo Framework is a global blueprint for disaster risk reduction efforts during the next decade.

Source: [https://www.eird.org/regional/hyogo-](https://www.eird.org/regional/hyogo-framework.html#:~:text=What%20is%20the%20Hyogo%20Framework,efforts%20during%20the%20next%20decade.)

Q.36) Consider the following statements with reference to the concept of Market price and Factor cost used in relation to the estimation of Gross Domestic Product (GDP):

1. GDP at Market price is always greater than GDP at Factor cost.
2. At present, GDP of India is calculated at factor cost only.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) d

Exp) Option d is the correct answer.

Factor cost is the cost of factors of production or the total value of inputs, whereas the market price is the final value of the product being sold, which includes indirect taxes and subsidies.

Statement 1 is incorrect: 'GDP at Market price is always greater than GDP at Factor cost' **is not true always. Theoretically, GDP at market price can be more, equal or lesser than GDP at Factor cost.** Actually, to find out Market Prices (MP), indirect taxes are added, and subsidies are subtracted from Factor Cost (FC). In short, **MP includes net indirect tax whereas FC does not.** Thus, FC becomes MP when net indirect taxes are added to FC. **In the absence of indirect taxes and subsidies, MP and FC are the same.**

Market Cost = Factor Cost + Indirect Taxes – Subsidies

Statement 2 is incorrect: At present, GDP in India is calculated at market prices (not factor cost) while GVA is calculated at **basic prices (not market price)**. In its revision in January 2015, the Central Statistics Office (CSO) replaced GDP at factor cost with the **GVA at basic prices, and the GDP at market prices** (which is now called only GDP).

GVA at basic prices = GVA at factor cost + (Production taxes less Production subsidies)

GDP at market prices = GVA at basic prices + Product taxes - Product subsidies

Knowledge Base:

Production tax and subsidies: Production taxes or production subsidies are paid or received with relation to production and are independent of the volume of actual production. Some examples of production taxes are land revenues, stamps and registration fees and tax on profession. Some production subsidies include subsidies to Railways, input subsidies to farmers, subsidies to village and small industries, administrative subsidies to corporations or cooperatives, etc.

Product taxes or subsidies: Product taxes or subsidies are paid or received on per unit of product. Some examples of product taxes are excise tax, sales tax, service tax and import and export duties. Product subsidies include food, petroleum and fertilizer subsidies, interest subsidies given to farmers, households, etc. through banks.

Source:

[http://www.arthapedia.in/index.php/Gross_Value_Added_\(GVA\)_at_basic_prices_and_GVA_at_Factor_Costs](http://www.arthapedia.in/index.php/Gross_Value_Added_(GVA)_at_basic_prices_and_GVA_at_Factor_Costs)

Indian Economy Book by Vivek Singh

Q.37) What is Gross Investment in an economy?

- The total investment made to the fixed assets of economy for a given year.
- The total investment by the government in infrastructure for a given year.
- The total investment made to the capital stock of economy for a given year.
- The total investment made in the stock market of the economy for a given year.

Ans) c

Exp) Option c is the correct answer.

Option a is incorrect and Option c is correct: Gross Investment is the total addition made to the capital stock of economy in a given period. Capital stock consists of *fixed assets* and *unsold stock*. So, investment in fixed assets is a component of Gross Investment. So, gross investment is the expenditure on purchase of fixed assets and unsold stock during the accounting year. However, gross investment does not indicate the actual change in economy's stock of productive assets for a given year. During the production process, some amount of fixed capital is used up. This loss of fixed capital is known as depreciation. By subtracting depreciation from gross investment, we get Net Investment.

Net Investment = Gross Investment – Depreciation

Source: <https://www.yourarticlelibrary.com/macro-economics/gross-investment-net-investment-and-depreciation/30271>

Q.38) Who is responsible for calculating GDP in India?

- Reserve Bank of India
- Department of Economic Affairs
- National Statistical Office
- Chief Economic Advisor

Ans) c

Exp) Option c is the correct answer.

Option a is incorrect: RBI is not responsible for GDP calculation for a year. However, it used to predict GDP growth rate through its various reports and indices.

Option b is incorrect: Department of Economic Affairs works under Ministry of Finance. It is responsible for preparation of **Union Budget**.

Option c is correct: The **National Statistical Office** under the Ministry of Statistics and Program Implementation is responsible for macroeconomic data gathering and statistical record keeping. It releases India's GDP data.

Option d is incorrect: The Chief Economic Adviser to the Government of India (CEA) advises the government on economic matters and is responsible for **the preparation of the Economic survey of India** tabled in Parliament before the Union budget of India is presented.

Source: <https://www.investopedia.com/articles/investing/050515/how-gdp-india-calculated.asp>

Q.39) Which of the following statements are correct regarding the SWAYATT initiative?

- It is an initiative to promote Start-ups.
- It was launched by the Ministry of Micro, Small and Medium Enterprises.
- It seeks to increase the benefits of e-Transactions on Government e-Marketplaces (GeM).

Select the correct answer using the code given below:

- 1 and 2 only
- 2 and 3 only
- 1 and 3 only
- 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

The “Startups, Women and Youth Advantage Through e-Transactions” (SWAYATT) on GeM campaign was initially unveiled in February 2019.

Statement 1 is correct: SWAYATT Initiative sought to promote inclusivity of various categories of sellers and service providers on the portal, **foster women’s entrepreneurship**, and encourage participation of MSME sector and **start-ups in public procurement** by taking proactive measures to make their training and registration easier.

Statement 2 is incorrect: The initiative was launched under **the Ministry of Commerce and Industry (not the Ministry of MSMEs)**. It brings together the key stakeholders within the Indian entrepreneurial ecosystem to Government e-Marketplace, the national procurement portal.

Statement 3 is correct: SWAYATT aims to **boost the advantages of electronic transactions on government e-Marketplaces (GeM) for new businesses, women, and minorities.**

Q.40) Consider the following statements regarding Space Liability Convention 1972:

1. It provides that the launching State shall be absolutely liable to pay compensation for damage caused by its space objects on the surface of the Earth.
2. The term ‘damage’ is clearly defined in the convention.
3. India is not a signatory to this convention as it reflects the cold war era bias against non-western countries.

Which of the statements given above are correct?

- a) 1 and 3 only
- b) 2 and 3 only
- c) 1 and 2 only
- d) 1, 2 and 3

Ans) c

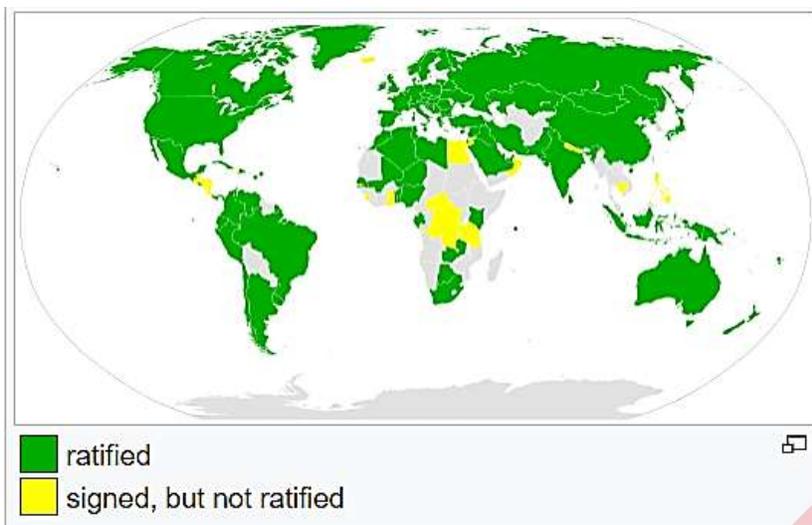

Exp) option c is the correct answer.

The Liability Convention (Convention on International Liability for Damage Caused by Space Objects) was considered and negotiated by the Legal subcommittee of United Nations Office for Outer Space Affairs from 1963 to 1972. Agreement was reached in the General Assembly in 1971 (resolution 2777 (XXVI)), and the Convention entered into force in September 1972.

Statement 1 is correct: Elaborating on Article 7 of the Outer Space Treaty, **the Liability Convention provides that a launching State shall be absolutely liable to pay compensation for damage caused by its space objects on the surface of the Earth or to aircraft, and liable for damage due to its faults in space.**

Statement 2 is correct: **The term damage is clearly defined in article 1 of the space liability convention, 1972.** It means loss of life, personal injury or other impairment of health, or loss of or damage to property of States or persons, natural or juridical, or property of international intergovernmental organization.

Statement 3 is incorrect: India has developed exponentially in its space capabilities, and it is one of the elite spacefaring nations of the world. India is a signatory to several treaties like the Outer Space Treaty (1967), **Liability Convention (1972)**, Registration Convention (1976), Rescue Agreement (1968), and the Moon Agreement (1984). Also, India is one of the 98 countries who have ratified the Liability Convention 1972 as of now.

Q.41) With reference to Net National Product (NNP) consider the following statements:

1. It takes into account the depreciation of capital goods.
2. It includes income earned by citizens from abroad.
3. It considers income generated in the informal sector of the economy.

Which of the statements given above is/are correct?

- a) 1 and 3 only
- b) 2 and 3 only
- c) 1 and 2 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

Statement 1 is correct: Net national product (NNP) is the total value of finished goods and services produced by a country's citizens overseas and domestically, minus depreciation the depreciation of capital goods.

Statement 2 is correct: NNP includes income earned by citizens abroad and excludes income earned by foreigners domestically.

Gross Domestic Product (GDP) + NFIA = Gross National Product (GNP)

Gross National Product (GNP) - Depreciation = Net National Product (NNP).

Statement 3 is incorrect: As such no special mechanism is followed for considering the income generated from the informal sector in case of NNP. NNP basically relies on the GDP data. GDP ignores the value of informal or unrecorded economic activity. It relies on recorded transactions and official data, so it does not take into account the extent of informal economic activity.

<https://www.investopedia.com/terms/g/gdp.asp#:~:text=It%20ignores%20the%20value%20of,extent%20of%20informal%20economic%20activity.>

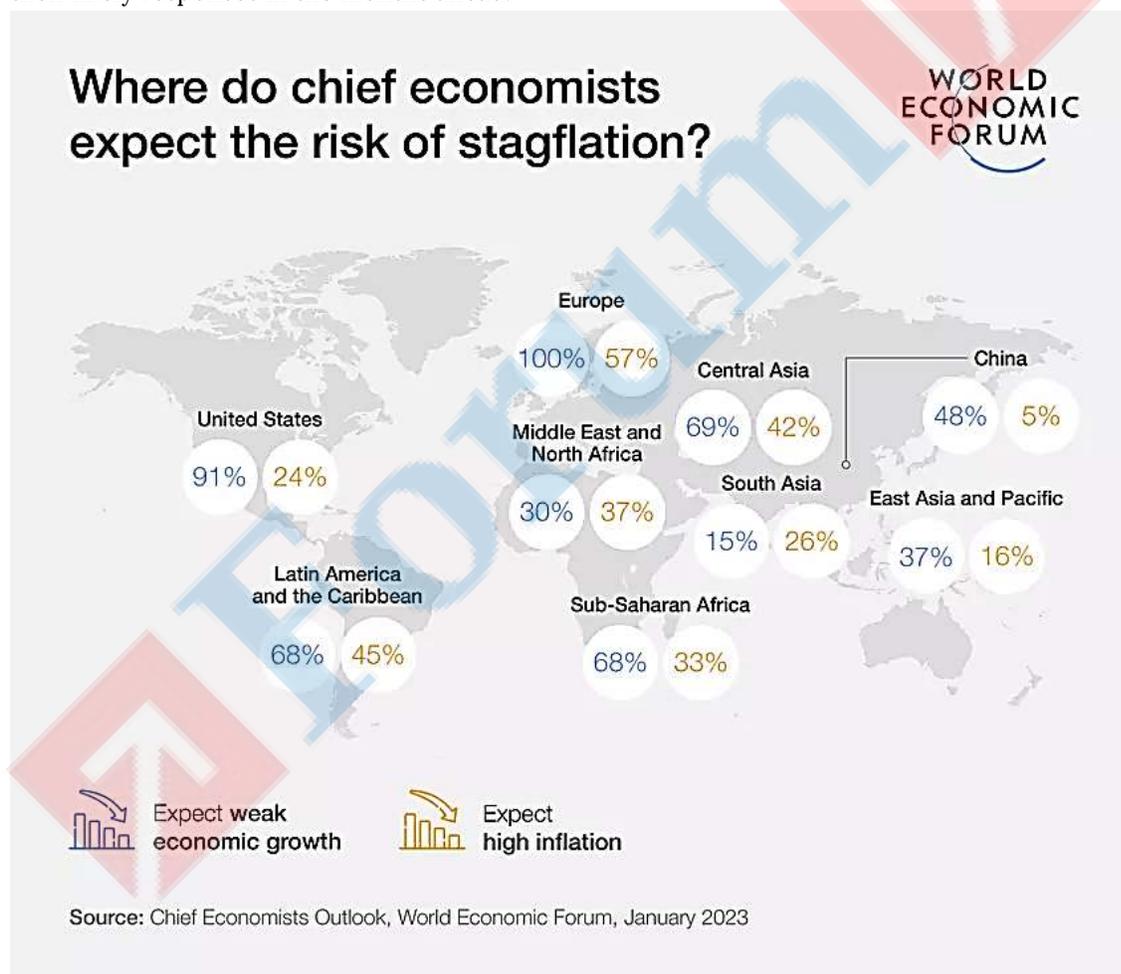

Q.42) The Economic survey 2022-23 mentions the report - Chief Economists Outlook 2023. In this context, which of the following Organization releases this report?

- United Nations Development Programme (UNDP)
- International Monetary Fund (IMF)
- World Bank (IMF)
- World Economic Forum (WEF)

Ans) d

Exp) Option d is the correct answer.

Option d is correct: The Economic survey 2022-23 mentions about the Chief Economists Outlook 2023, which highlights India's opportunity to gain from global trends of supply chain diversification. The report of **Chief Economists Outlook 2023** is **released by World Economic Forum (WEF)**. Whereas the report of **World Economic outlook** is released by **International Monetary Fund (IMF)**. The report of Chief Economist Outlook 2023 **explores the key trends** in the **economic environment**, including the prospects for **growth, inflation and monetary and fiscal policy**. It also looks at the particular **challenges** facing businesses and their likely responses in the months ahead.

Source : <https://www.weforum.org/reports/chief-economists-outlook-jan-2023/#:~:text=The%20January%202023%20Chief%20Economists,with%20persistent%20headwinds%20throughout%202023.>

Q.43) Consider the following pairs:

Portal	Launched by the Ministry
1. Udyam Portal	Ministry of Micro, Small & Medium Enterprises.
2. CHAMPIONS Portal	Ministry of Commerce & Industry
3. e-Shram Portal	Ministry of Labour and Employment
4. Yuktdhara Portal	Ministry of Rural Development & Panchayati Raj

Which of the pairs given above are correct?

- a) 1, and 3 only
- b) 2, 3, and 4 only
- c) 1, 3, and 4 only
- d) 1, 2, 3, and 4

Ans) c

Exp) Option c is the correct answer.

Pair 1 is correct: Ministry of **Micro, Small and Medium Enterprises (MSMEs)** has launched the **Udyam portal** on 1st July 2020. It is an **online system for registering MSMEs**. It is linked to the databases of the Central Board of Direct Taxes (CBDT) and Goods and Services Tax Network (GSTN). It is fully online, does not require any documentation, and is a step towards Ease of Doing Business for MSMEs.

Pair 2 is incorrect: The **Ministry of Micro, Small and Medium Enterprises (MSME)** has launched **CHAMPIONS** (Creation and Harmonious Application of Modern Processes for Increasing the Output and National Strength) **portal**. It was developed to assist Indian MSMEs march into the big league as National and Global CHAMPIONS by solving their grievances and encouraging, supporting, helping and hand holding them.

Pair 3 is correct: **Ministry of Labour & Employment** has developed **eShram portal** for creating a **National Database of Unorganized Workers (NDUW)**, which will be seeded with Aadhaar. It contains details of name, occupation, address, occupation type, educational qualification, skill types etc. for optimum realization of their employability and extend the benefits of the social security schemes to them. It is the first-ever national database of unorganized workers including migrant workers, construction workers, gig and platform workers, etc.

Pair 4 is correct: **Yuktdhara Portal** was launched by the **Ministry of Rural development**. It will help in facilitating the **Mahatma Gandhi National Rural Employment Guarantee Act assets with the use of remote sensing and Geographic Information System based information**. It will serve as a **repository of assets (Geotags)** created under various National Rural Development Programmes such as MGNREGA, Integrated Watershed Management Programme, Per Drop More Crop and Rashtriya Krishi Vikas Yojana etc., along with field photographs.

Q.44) Which of the following might not be a possible impact of tax rationalization?

- a) It may reduce the incidence of tax evasion and improve revenue collection.
- b) It will increase the administrative burden on businesses and individuals in the long term.
- c) It may lead to redistribution of the tax burden among different sections of people.
- d) It may cause short-term disruptions to economic activities.

Ans) b

Exp) Option b is the correct answer.

Tax rationalization refers to the process of **simplifying and streamlining the tax system** by reducing the number of tax rates, exemptions, and deductions. The **impacts** of tax rationalization can be **both positive and negative**, and they can vary depending on the specific context and goals of the tax reform. GST implementation is an example of tax Rationalization in India.

The **possible impact of tax rationalization** are as follows:

Statement a is correct: Simplifying the tax system can make it easier for taxpayers to understand their tax obligations and comply with them. So, tax rationalization can **reduce** the incidence of **tax evasion** and **improve revenue collection**, which can ultimately benefit the economy.

Option b is incorrect: A simpler tax system can **reduce the administrative burden** on businesses and individuals, which can lead to increased economic efficiency.

Option c is correct: It can lead to **redistribution of the tax burden** among different sections of peoples.

Option d is correct: Tax rationalization can cause **short-term disruptions** to the economy as taxpayers and businesses adjust to the new tax system. This can lead to uncertainty and volatility in the short term, but **the long-term benefits may outweigh the short-term costs**.

Source : <https://indianculture.gov.in/reports-proceedings/final-report-rationalisation-and-simplification-tax-structure>

<https://economictimes.indiatimes.com/markets/expert-view/there-is-merit-in-rationalizing-the-taxes-but-should-it-be-done-this-year-madhu-kela-answers/articleshow/97483438.cms>

Q.45) Consider the following statements regarding NIPAM, a recent initiative seen in news:

1. It aims to inculcate the spirit of creativity and innovation to students of higher education.
2. Atal Incubation Centres from all over India are the implementing agencies for the NIPAM.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) a

Exp) Option a is the correct answer.

Recently, the National Intellectual Property Awareness Mission (NIPAM) has achieved the target of imparting Intellectual Property (IP) awareness and basic training to 1 million students on 31st July 2022, ahead of the deadline which was 15 August 2022. NIPAM, a flagship program to impart IP awareness and basic training, was launched on 8 Dec 2021 as a part of “**Azadi Ka Amrit Mahotsav**’ celebrations. The program is being implemented by the Intellectual Property Office, the Office of the Controller General of Patents, Designs and Trademarks (CGPDTM), Ministry of Commerce and Industry.

Statement 1 is correct: The pan-India ambitious mission NIPAM aims to provide awareness on intellectual property and its rights to 1 million students. **It aims to inculcate the spirit of creativity and innovation to students of higher education (classes 8 to 12) and ignite and inspire the students at college/Universities to innovate and protect their creations.**

Statement 2 is incorrect: NIPAM is being implemented by Intellectual Property Office, the Office of Controller General of Patents, Designs and Trade Marks (CGPDTM), Ministry of Commerce and Industry. Atal Incubation Centres are not related to this Mission.

Q.46) The Economic Survey 2022-23 mentions the Baltic Dry Index. In this context, what does the Baltic Dry Index measure?

- It measures the change in cost of transporting raw materials by shipping vessels.
- It measures the variations in the rainfall patterns in a particular area.
- It measures the Demand and Supply for the Electronic goods.
- It measures the increasing surface temperatures of major Seas and Oceans around the globe.

Ans) a

Exp) Option a is the correct answer.

Option a is correct: The Baltic dry index created by the London-based Baltic Exchange was started in 1985. **The Baltic dry index (BDI) measures the cost of shipping raw materials by shipping vessels.** The index accounts for multiple vessel classifications traveling to and from various destinations. The index covers the transport of raw materials across 20 different routes. The index's value is generated by the demand for the raw materials and the supply of ships available to transport them. Investors can use the index to forecast and predict future industrial economic activity changes globally.

Dry bulk commodities in the Index are usually divided into two categories.

- Major dry bulk commodities include iron ore, coal, and grain. These major bulks account for nearly two-thirds of global dry bulk trade.
- Minor bulks include steel products, sugars, cement, and cover the remaining one-third of global dry bulk trade.

Q.47) Consider the following pairs with reference to components of expenditure method of national income calculation:

Component	Example
1. Consumption	Purchasing new car by an Indian resident
2. Investment	Purchase of land for business
3. Government Spending	Money spent on primary education by Government of India

Which of the pairs given above are correctly matched?

- a) 1 and 2 only
- b) 1 and 3 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

The expenditure method is a system for calculating gross domestic product (GDP) that combines consumption, investment, government spending, and net exports. It is the most common way to estimate GDP. It says everything that the private sector, including consumers and private firms, and government spending within the borders of a particular country, must add up to the total value of all finished goods and services produced over a certain period. This method produces nominal GDP, which must then be adjusted for inflation to result in the real GDP.

Pair 1 is correct: Purchasing new car, mobiles, computer etc. both India made & (Imported) foreign made are counted in expenditure method calculation of national income. We can ignore the purchase of second-hand goods, because we are only measuring 'new' things "Made in India" in present year.

Pair 2 is correct: Purchase of tangible capital assets like new House, **Land, Building**, Factory, Truck, Machinery and purchase of intangible capital assets like IPR / Patents, Computer Software etc. are part of investment under investor spending on business capital good. Further purchase of raw material & intermediate goods, wages to workers for production all are counted **under investor spending on business capital goods**.

Pair 3 is correct: The government spending component of national income calculation represents expenditures by state, local and central government authorities on defense and nondefense goods and services, such as weaponry, health care, and education.

<https://ncert.nic.in/ncerts/l/leec102.pdf>

<https://economictimes.indiatimes.com/definition/gross-domestic-product>

Q.48) Which among the following statements is/are correct regarding the Gross Value Added in the Economy?

1. It is a measure of the contribution to GDP made by an individual producer, industry or sector.
2. It gives the picture of the state of the economy from the consumers' side.

Select the correct answer using the code given below:

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) a

Exp) Option a is the correct answer.

In 2015, in the wake of a comprehensive review of its approach to GDP measurement, India opted to make major changes to its compilation of national accounts and bring the whole process into conformity with the United Nations System of National Accounts (SNA) of 2008.

Statement 1 is correct. Gross value added (GVA), is defined as the value of output minus the value of intermediate consumption and is a **measure of the contribution to GDP made by an individual producer, industry or sector**. The **GVA data is crucial to understand how the various sectors of the real economy are performing**.

Statement 2 is incorrect. GVA gives a picture of the state of economic activity **from the producers' side or supply side**, whereas the GDP gives the picture from the consumers' side or demand perspective. GVA is considered a better gauge of the economy. GDP fails to gauge the real economic scenario because a sharp increase in the output can be due to higher tax collections which could be on account of better compliance or coverage, rather than the real output situation.

Source: https://www.business-standard.com/article/economy-policy/union-budget-understanding-the-gdp-gva-and-the-difference-between-the-two-122120900529_1.html#:~:text=The%20difference%20between%20GDP%20and,order%20to%20enhance%20its%20worth.

<https://www.thehindu.com/business/Economy/the-hindu-explains-what-is-gross-value-added-and-how-is-it-relevant-when-growth-is-announced-in-gdp-terms/article31768578.ece>

Q.49) What are the possible impacts of monetary tightening of the US federal reserve in India?

1. It may make investing in India less attractive for foreign investors.
2. It may increase the cost of imports for India.
3. It may increase the current account deficit for India.

Select the correct answer using the code given below:

- a) 1 and 3 only
- b) 1 and 2 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

Global economies are in a recession due to high inflationary pressure. To combat this, the US federal reserve, central bank of the US, is taking aggressive steps such as an increase in interest rates to reduce the money supply flow in the economy.

Statement 1 is correct: The Indian economy is highly vulnerable to the US Federal Reserve interest rate action. When interest rates are increased by the US Federal Reserve, investors in the government securities in the USA will benefit due to higher interest rates. So, a greater number of global investors will prefer to invest in the government securities of the US because they are considered as safest investment opportunity. For example, when interest rates in the US rise, the propensity of FIIs to invest in India goes down due to higher opportunity costs for them. For example, FIIs could earlier borrowed at 2% and invested in India and get a return of 8%, but if the Fed increases rates from 2% to 4%, then some of the investors in the US may not find investing in India attractive and may start pulling out funds from India and invest back in the US.

Statements 2 and 3 are correct: One of the primary channels through which the Federal Reserve's monetary policy affects India is through exchange rate fluctuations. A monetary tightening by the Fed could lead to an **appreciation of the US dollar**, which in turn could lead to a **depreciation of the Indian rupee**. This could make **Indian exports cheaper** and more competitive, but it could **also increase the cost of imports** and lead to higher inflation in India. FII Outflows along with intervention by RBI will cause depletion of India's Forex reserves. **This may lead to increase in current account Deficit for India.**

Q.50) Government of India recently launched “Project Arth Ganga” with the aim of linking people and Ganga through the bridge of economics. In this context, which of the following verticals are covered under the Project Arth Ganga?

1. Zero Budget Natural Farming
2. Monetization and Reuse of Sludge and Wastewater
3. Creation of Haats for livelihood generation opportunities
4. Reduction in the logistics cost for domestic cargo.

Select the correct answer using the code given below:

- a) 1 and 3 only
- b) 2 and 4 only
- c) 1, 3 and 4 only
- d) 1, 2 and 3 only

Ans) d

Exp) Option d is the correct answer.

Arth Ganga is the recently launched model of the Indian Government for the river’s sustainable development. At its core, the Arth Ganga model seeks to use economics to bridge people with the river. The Arth Ganga project’s interventions are in accordance with India’s commitments towards the UN sustainable development goals.

Under Arth Ganga, the government is working on six verticals.

Statement 1 is correct: The first is Zero Budget Natural Farming, which involves chemical-free farming 10 km on either side of the river, and the promotion of cow dung as fertilizer through the GOBARDhan scheme.

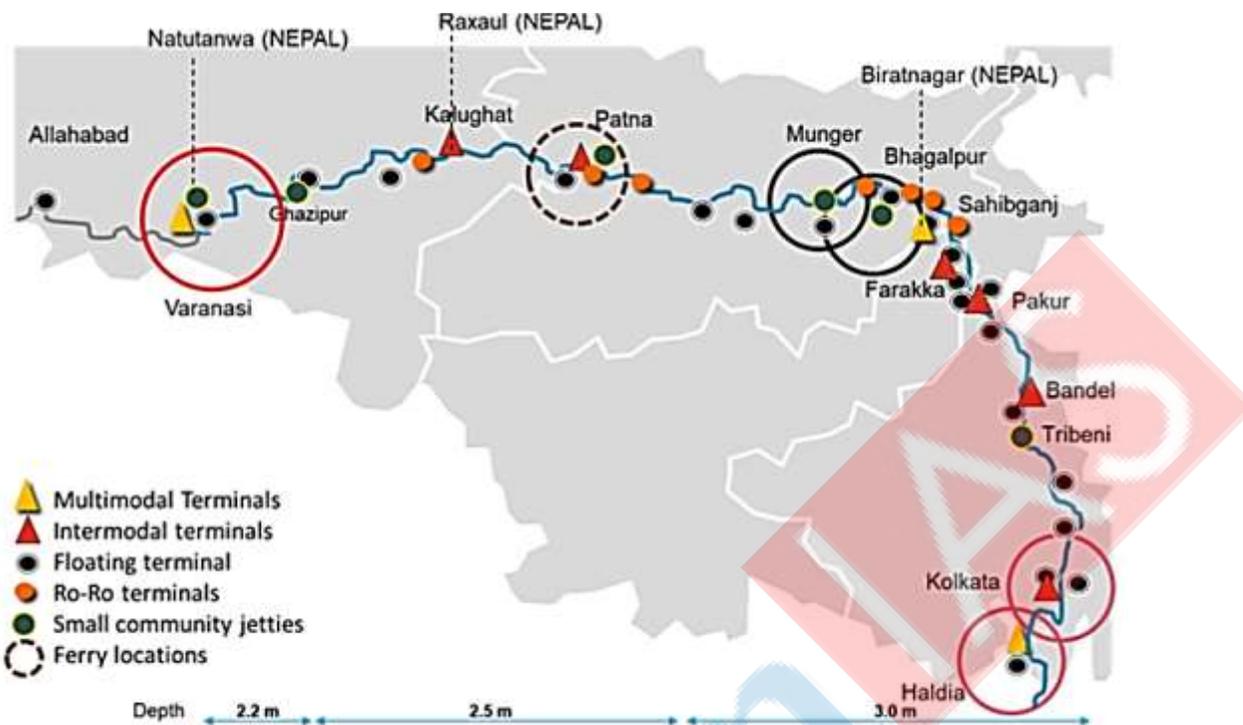

Statement 2 is correct: The second model is Monetization and Reuse of Sludge & Wastewater, which seeks to reuse treated water for irrigation, industries and revenue generation for Urban Local Bodies (ULBs).

Statement 3 is correct: Arth Ganga will also involve Livelihood Generation Opportunities, by creating haats where people can sell local products, medicinal plants and ayurveda.

Statement 4 is incorrect: Reduction in the logistics cost for domestic cargo with optimized infrastructure investment does not constitute any vertical of the Arth Ganga model but forms a vision of Sagarmala Program.

(Sagarmala is an ambitious national initiative aimed at bringing about a step change in India’s logistics sector performance, by unlocking the full potential of India’s coastline and waterways. The vision of Sagarmala is to reduce logistics cost for both domestic and EXIM cargo with optimized infrastructure investment.)

Master Plan of Arth Ganga Model:

Knowledge Base: The fourth vertical of Arth Ganga is to increase public participation by increasing synergies between the stakeholders involved with the river. The fifth vertical aims to promote the cultural heritage and tourism of Ganga and its surroundings, through boat tourism, adventure sports and by conducting yoga activities. Sixth vertical of the model seeks to promote institutional building by empowering local administration for improved water governance.

Source: <https://indianexpress.com/article/explained/arth-ganga-govts-new-model-rivers-sustainable-development-811967/>

<http://sagarmala.gov.in/about-sagarmala/vision>

Q.1) With regards to inflation targeting in India, which of the following statements is/are correct?

1. The RBI solely determines the inflation target, in terms of the Consumer Price Index, once in every five years.
2. RBI's flexible inflation targeting places price stability as the primary objective of the monetary policy.
3. If the RBI fails to meet the inflation target, then a new monetary policy committee will be formed to address the issue.
4. The monetary policy committee determines the policy interest rates required to achieve the inflation target.

Select the correct answer using the code given below:

- a) 1, 3 and 4 only
- b) 2 only
- c) 2 and 4 only
- d) 2, 3 and 4 only

Ans) c

Exp) Option c is the correct answer.

Statement 1 is incorrect. The RBI Act provides for the **inflation target to be set by the Government of India, in consultation with the Reserve Bank**, once in every five years. Accordingly, the Central Government has notified 4 per cent Consumer Price Index (CPI) inflation as the target until the fiscal year 2025-26 with the upper tolerance limit of 6 per cent and the lower tolerance limit of 2 per cent.

Statement 2 is correct. India formally adopted flexible inflation targeting (FIT) in June 2016 to place **price stability, defined in terms of a target CPI inflation, as the primary objective of the monetary policy**. In May 2016, the Reserve Bank of India (RBI) Act, 1934 was amended to provide a statutory basis for the implementation of the flexible inflation targeting framework.

Statement 3 is incorrect. If RBI fails to meet the inflation target, then it will have **to explain the reason** for its failure to meet the target as well as **give a timeframe** within which it will achieve the inflation target.

Statement 4 is correct. The amended RBI Act, 1934 provides for an empowered six-member monetary policy committee (MPC) to be constituted by the Central Government by notification in the Official Gazette. **The MPC determines the policy interest rate required to achieve the inflation target.**

Source: http://www.arthapedia.in/index.php?title=Inflation_Targeting_In_India

<https://www.thehindu.com/opinion/op-ed/re-evaluating-inflation-targeting/article34094821.ece>

Q.2) Which among the following will most likely lead to an increase in the money multiplier in the economy?

1. Increase in the Cash Reserve Ratio
2. Increase in the banking habit of the people
3. Decrease in bank rate
4. Increase in the repo rate

Select the correct answer using the codes given below:

- a) 1, 2 and 3 only
- b) 2, 3 and 4 only
- c) 1 and 4 only
- d) 2 and 3 only

Ans) d

Exp) Option d is the correct answer.

Money multiplier is a term in monetary economics that is a phenomenon of creating money in the economy in the form of credit creation, which is based on the fractional reserve banking system.

Statement 1 is incorrect: Cash Reserve Ratio (CRR) is the share of a bank's total deposit that is mandated by the Reserve Bank of India (RBI) to be maintained with the latter as reserves in the form of liquid cash. There are two main objectives of the Cash Reserve Ratio:

- 1) Cash Reserve Ratio ensures that a part of the bank's deposit is with the Central Bank and is hence, secure.
- 2) Another objective of CRR is to keep inflation under control. During high inflation in the economy, RBI raises the CRR to reduce the amount of money left with banks to sanction loans. **It squeezes the money flow in the economy, reducing investments and bringing down inflation. Thus, an increase in CRR will lead to a decrease in the multiplier effect.**

Statement 2 is correct: An increase in banking activity will lead to more money in the bank's hands in the form of Time Deposits, Demand Deposits etc, thus increase in banking habits of the people will increase the money multiplier.

Statement 3 is correct: Decreased repo rate and bank rate results in availability of cheaper loans to banks. This results in increased money multiplier.

Statement 4 is incorrect: The repo rate is the interest rate at which the Reserve Bank of India (RBI) loans money to commercial banks. An increased repo rate means that banks borrowing money from the central bank during this period will have to pay more interest. This inhibits banks from borrowing money, reducing the amount of money in the market and helping to negate inflation. **Increasing the Repo rate makes the cost of the funds high for commercial banks and leads to high interest rates on loans which leads to reduction in the money supply in market. Thus, a high repo rate reduces the money multiplier effect.**

Q.3) "It is a derivative instrument used by foreign companies to raise money in India. They are issued by domestic depository in India and are denominated in Indian Rupees. Just like equity share, they provide ownership in the company."

The above paragraph best describes which of the following financial instruments?

- a) Global Depository Receipts
- b) Participatory Notes
- c) Indian Depository Receipts
- d) Convertible Debentures

Ans) c

Exp) Option c is the correct answer.

An **Indian Depository Receipt (IDR)** is issued by a **domestic depository in India** and **denominated in Rupees**. It represents an **ownership interest** in a fixed number of underlying equity shares of the Issuing Company. Since foreign companies are not allowed to list on Indian equity markets, IDR is a way to own shares of those companies.

A foreign company issues and deposits new shares with an Indian depository (say, National Securities Depository Ltd (NSDL) or Central Depository Service Ltd or CDSL), Such a depository then, in turn, issues equivalent shares in rupees to investors in India. Much like an equity share, it is an ownership pie of a

company. IDRs involve currency risk for the underlying shares in another country. Fluctuations in the exchange rate could impact the value of the dividend payment.

Source : https://www.sebi.gov.in/sebi_data/commondocs/foreigncos1_p.pdf

Q.4) The term “Co-location”, recently seen in news, is most closely related to:

- a multi modal logistics infrastructure which aims to reduce logistics cost.
- a Hybrid system which generates electricity using solar and wind energy at the same location.
- a data centre which connects the customers to a variety of telecommunications and network service providers.
- a cluster of government offices in a location to better reap the benefits of balloon Wi-Fi.

Ans) c

Exp) Option c is the correct answer.

Multiple agencies are investigating the National Stock Exchange (NSE) **co-location scam** related to the manipulation of the market at the stock exchange. There are allegations that some brokers who had leased space at the NSE co-location facility were able to log on to the NSE’s systems faster and gained an unfair access and advantage during the period from 2012 to 2014.

Option c is correct: Co location is a type of **data centre** which provides **infrastructure, storage, space, power, cooling, and physical security for the customers** and connects them to a variety of telecommunications and network service providers with a **minimum of cost and complexity**.

Source: <https://indianexpress.com/article/explained/everyday-explainers/everyday-economics-what-co-location-heart-scam-nse-7799595/>

Q.5) With reference to the Humanitarian Assistance and Disaster Relief Agreement (HADR) signed recently by QUAD countries, consider the following statements:

- Agreement called for zero tolerance for inaction on tackling Sexual Exploitation, Abuse and Harassment (SEAH).
- It requires member countries to provide housing for all by 2030 to mitigate risks associated with climate disasters.
- Under the agreement, no member country can participate in humanitarian assistance of another country without permission of the affected country.

Which of the statement/s given above is/are correct?

- 1 only
- 1 and 2 only
- 1 and 3 only
- 2 only

Ans) c

Exp) Option c is the correct answer.

The Quad is an informal strategic forum comprising four nations, namely- India, the United States of America, Japan and Australia. The Humanitarian Assistance and Disaster Relief Agreement (**HADR**) was **signed by QUAD countries in Tokyo in 2022** as part of a shared vision for a free and open Indo-Pacific that is inclusive and resilient.

Statement 1 is correct: The Humanitarian Assistance and Disaster Relief Agreement (**HADR**) called for **zero tolerance for inaction on tackling Sexual Exploitation, Abuse and Harassment (SEAH)**. HADR aims to promote gender inclusion and it also aims to ensure that benefits of humanitarian action will extend to persons with disabilities, indigenous communities and minorities.

Statement 2 is incorrect: **The HADR agreement does not require member countries to ensure housing for all by 2030.** The HADR agreement will serve as a dedicated framework for Quad partners to coordinate their disaster response operations in the region. QUAD countries strive to augment their capacity and capability, interoperability and operational synergy to undertake HADR operations in their countries.

Statement 3 is correct: Under HADR agreement **one country can involve in humanitarian assistance of another country only after the request of assistance** by the affected country. Thus, any humanitarian action will be carried out with respect for the **sovereignty, territorial integrity and national unity** of the affected nation.

Source: <https://www.state.gov/guidelines-for-quad-partnership-on-humanitarian-assistance-and-disaster-relief-hadr-in-the-indo-pacific/>
<https://www.thehindu.com/news/international/quad-countries-sign-humanitarian-assistance-and-disaster-relief-agreement/article65928032.ece>

Q.6) Which among the following are the initiatives of the National Payments Corporation of India (NPCI)?

1. RuPay
2. Aadhaar enabled Payment System (AePS)
3. National Electronic Funds Transfer (NEFT)
4. National Automated Clearing House (NACH)
5. National Financial Switch (NFS)
6. National Electronic Toll Collection (NETC) program

Select the correct answer using the codes given below:

- a) 1, 3, 5 and 6 only
- b) 2, 3, 4 and 5 only
- c) 1, 2, 4, 5 and 6 only
- d) 1, 2, 3, 4, 5 and 6

Ans) c

Exp) Option c is the correct answer.

National Payments Corporation of India (NPCI) is an umbrella organisation for operating retail payments and settlement systems in India. NPCI is an initiative of Reserve Bank of India (RBI) and Indian Banks' Association (IBA) under the provisions of the Payment and Settlement Systems Act, 2007, for creating a robust Payment & Settlement Infrastructure in India. Some of the initiatives undertaken by NPCI are-

RuPay (Option 1 is correct): It is an Indigenously developed Payment System which is designed to meet the expectation and needs of the Indian consumer, banks and merchant eco-system. RuPay supports the issuance of debit, credit and prepaid cards by banks in India and thereby supporting the growth of retail electronic payments in India.

AePS (Option 2 is correct): To access these funds at door step & drive the financial inclusion in India, Aadhaar enabled Payment System (AePS) has been introduced. Since inception it has become instrumental to increase accessibility of basic banking services in underserved areas.

SFG 2023 | LEVEL 2 | Test #13 – Solutions |

NACH (Option 4 is correct): National Automated Clearing House (NACH) is an offline web based system for bulk push and pull transactions. NACH provides electronic mandate platform to register mandates facilitating paper less collection process for the corporates and banks. It provides for both account based and Aadhaar based transactions.

NFS (Option 5 is correct): National Financial Switch (NFS) is the largest network of shared Automated Teller Machines (ATMs) in India facilitating interoperable cash withdrawal, card to card funds transfer and interoperable cash deposit transactions among other value added services in the country.

NETC (Option 6 is correct): National Payments Corporation of India (NPCI) has developed the National Electronic Toll Collection (NETC) program to meet the electronic tolling requirements of the Indian market. Whereas, **Option 3 is incorrect:** National Electronic Funds Transfer (NEFT) is a nation-wide centralised payment system owned and operated by the Reserve Bank of India (RBI). It does not come under the ambit of NPCI.

Q.7) Consider the following statements regarding Priority Sector Lending (PSL):

1. The concept of PSL norms was first introduced in India in 2008 due to setbacks received as a result of global financial crisis.
2. Loans given to renewable energy projects can be included under PSL obligations.
3. PSL Norms are not applicable to Non-Banking Financial Companies.
4. Regional Rural Banks and Small Finance Banks are required to lend 75% of their Adjusted Net Bank Credit under Priority Sectors Lending.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 2, 3 and 4 only
- c) 1, 3 and 4 only
- d) 1, 2, 3 and 4

Ans) b

Exp) option b is the correct answer.

Statement 1 is incorrect: The description of the priority sectors was first formalised in 1972 on the basis of the report submitted by the Informal Study Group on Statistics relating to advances to the Priority Sectors constituted by the Reserve Bank in May 1971. First time in 1974, the banks were given a target of 33.3% as share of the priority sector in the total bank credit.

Statement 2 is correct: To provide adequate amount of investment, the Reserve Bank of India has included renewable energy in the PSL (priority sector lending) for scheduled commercial banks.

Statement 3 is correct: PSL norms are not applicable to Non-Banking Financial Companies. Institutions to which PSL obligations are applicable are given in the table below:

Commercial Banks including foreign banks	Regional Rural Banks	Small Finance Banks	Payment Banks	Urban (Primary) Cooperative Banks
40%	75%	75%	They do not give credit	40% <i>(will be increased to 75% by 2024 in a phased manner)</i>

Statement 4 is correct: According to the RBI guidelines, small finance banks and regional rural banks will be required to extend 75% of their Adjusted Net Bank Credit to the sectors eligible for classification as priority sector lending (PSL) by the RBI.

Indian Economy, Vivek Singh, chapter 2

Q.8) Neo Banks have recently been in the news. What are they?

- A type of differentiated bank providing only current and saving deposit accounts without any credit facility.
- Non-Banks which are offering a limited range of banking services on a smaller scale.
- An entity that purchases the bad loans of other banks and tries to auction these in the market.
- Entities providing banking services generally in a digital, online only mode.

Ans) d

Exp) Option d is the correct answer.

Option d is correct: Neo Banks are generally **fin-tech startups** that provide **banking services** in a **digital, online only** mode. It has **no physical branches**. All operations, like opening an account, transactions, withdrawal, deposits are done digitally using web platforms or mobile apps.

These financial institutions operate exclusively online, without any physical branches, and provide all banking services, and more, digitally.

Q.9) Funds availed under Kisan Credit Card (KCC) scheme can be used by farmers for which of the following purposes?

- Post-harvest expenses
- Consumption requirements of household
- Short-term credit requirements for cultivation of crops
- Working capital for maintenance of farm assets

Select the correct answer using the codes given below:

- 1 and 3 only
- 1, 2, 3 and 4
- 1, 3 and 4 only
- 2 and 4 only

Ans) b

Exp) Option b is the correct answer.

The Kisan Credit Card (KCC) scheme was introduced in 1998 for issue of Kisan Credit Cards to farmers on the basis of their holdings for uniform adoption by the banks so that farmers may use them to readily purchase agriculture inputs such as seeds, fertilizers, pesticides etc. and draw cash for their production needs. The scheme was further extended for the investment credit requirement of farmers viz. allied and non-farm activities in the year 2004. The funds under KCC can be used for the following purposes:

Option 1 is correct: The funds can be used for meeting **expenses related to post-harvest activities** such as storage, transportation, and marketing of agricultural produce.

Option 2 is correct: The funds can be used for meeting **consumption requirements of farmers** and their families such as food, education, healthcare, etc.

Option 3 is correct: Farmers require funds for various **crop-related expenses such as purchase of seeds, fertilizers, pesticides, labour costs**, etc. KCC funds **can be used to meet these short-term credit requirements for crop cultivation**.

Option 4 is correct: Farmers require **working capital to maintain their farm assets such as land, irrigation systems, farm machinery, etc.** KCC funds can be used to meet these working capital requirements for maintenance of farm assets.

Q.10) With reference to Corporate Social responsibility (CSR) Amendment rules, 2022, consider the following statements:

1. It mandates companies having net worth of at least 10 crores to spend at least 2% of their average net profit.
2. Expenditure by companies on Social Impact Assessment shall not exceed 10% of total CSR expenditure in a year.
3. It allows companies to carry forward their unutilised funds, in a designated account, for a maximum of three years.

Which of the statements given above is/are correct?

- a) 1 only
- b) 1 and 2 only
- c) 2 and 3 only
- d) 3 only

Ans) d

Exp) Option d is the correct answer.

Recently, the Ministry of Corporate Affairs, Government of India has revised the rules regarding utilisation of Corporate Social responsibility (CSR) funds by corporate companies by notifying Corporate Social responsibility (CSR) Amendment rules, 2022.

Statement 1 is incorrect: The Corporate Social responsibility (CSR) Amendment rules, 2022 did not make any change in the net worth of companies or their net profits to be brought under the ambit of CSR activity. Thus, as earlier, CSR rules apply to only those companies having a **net worth of at least 500 crores or a turnover of Rupees 1000 crore** or more or a **net profit of Rupees 5 crore** or more.

Statement 2 is incorrect: Social Impact Assessment (SIA) is carried to review the **social effects of companies'** activities on the society. The CSR rules 2022 stated that expenditure by **companies on SIA shall not exceed 2.5% of total CSR expenditure** in a year or **₹50 lakh whichever is higher**. The earlier rule had allowed up to 5% of the total CSR spending or **₹50 lakh whichever is less**.

Statement 3 is correct: **CSR rules 2022 allows companies to carry forward their unspent amount for maximum three years.** The new rules require companies to establish a **CSR committee** to monitor the utilisation of such unspent amounts by companies.

Source: <https://www.livemint.com/companies/news/centre-revises-csr-rules-11663842823272.html>

Q.11) With reference to 'Integrated Ombudsman Scheme', consider the following statements:

SFG 2023 | LEVEL 2 | Test #13 – Solutions | ForumIAS

1. The Scheme was launched under the provisions of the Payment and Settlement Systems Act, 2007.
2. It provides for redressal of customer complaints involving deficiency in services by RBI regulated entities.
3. The services rendered by scheduled Urban Cooperative Banks are not covered under the scheme.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 only
- c) 2 and 3 only
- d) 1 and 3 only

Ans) b

Exp) Option b is the correct answer.

Integrated Ombudsman Scheme was launched by RBI by integrating the existing three Ombudsman schemes of RBI namely, the Banking Ombudsman Scheme, 2006; the Ombudsman Scheme for Non-Banking Financial Companies, 2018; and the Ombudsman Scheme for Digital Transactions, 2019.

Statement 1 is incorrect: Integrated Ombudsman Scheme was launched by the Reserve Bank in exercising the powers conferred on it under Section 35A of the Banking Regulation Act, 1949.

Statement 2 is correct: The scheme will provide redress of customer complaints involving deficiency in services rendered by RBI regulated entities viz. banks, NBFCs (Non-banking Financial Companies) and pre-paid instrument players if the grievance is not resolved to the satisfaction of the customers or not replied within a period of 30 days by the regulated entity.

Statement 3 is incorrect: Integrated Ombudsman Scheme will not only cover the customers of all scheduled commercial banks, regional rural banks, scheduled urban cooperative banks (UCBs) and other UCBs with deposits of Rs50 crore and above, all deposit-taking NBFCs and NBFCs with assets of ₹100 crore and above, and non-bank system participants, it will also cover all complaints involving deficiency in service.

Q.12) With reference to 'Commercial Paper', consider the following statements:

1. It is a short-term debt instrument issued to raise funds.
2. It is considered as an unsecured instrument as it is not backed by a collateral.
3. It can only be issued by scheduled commercial banks in India.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 1 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) a

Exp) Option a is the correct answer.

Statement 1 is correct: Commercial paper, also called CP, is a short-term debt instrument issued by companies to raise funds generally for a time period up to one year. It is an unsecured money market instrument issued in the form of a promissory note.

Statement 2 is correct: Commercial paper is an unsecured, short-term debt instrument issued by corporations. **Commercial paper is not backed by any form of collateral, making it unsecured debt.** It's typically used to finance short-term liabilities such as payroll, accounts payable, and inventories. Commercial paper is usually issued at a discount from face value.

Statement 3 is incorrect: They are issued by companies at a discount to face value, and have a maturity period of up to one year. Corporates, primary dealers (PDs) and the all-India financial institutions (FIs) that have been permitted to raise short-term resources under the umbrella limit fixed by the Reserve Bank of India are eligible to issue CP.

Q.13) With reference to 'Standing Deposit Facility', consider the following statements:

1. It was first recommended by the Urjit Patel committee report in 2014.
2. The objective of the facility is to considerably increase the money supply in the banking sector.
3. Standing Deposit Facility is a collateral-free arrangement.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

Standing Deposit Facility is a new liquidity tool introduced by RBI in 2022. In 2018, the amended Section 17 of the RBI Act empowered the Reserve Bank to introduce the SDF – an additional tool for absorbing liquidity without any collateral.

Statement 1 is correct: The concept of Standing Deposit Facility was **first recommended by the Urjit Patel committee report in 2014.**

Statement 2 is incorrect: The main purpose of SDF is to reduce the excess liquidity in the system, and control inflation. It allows the **RBI to absorb liquidity (deposit) from commercial banks** without giving government securities in return to the banks.

Statement 3 is correct: One of the key features of the SDF is that it **allows banks to park their funds without the need for any collateral**, which makes it an attractive option for banks to manage their short-term liquidity needs.

Source: <https://indianexpress.com/article/explained/everyday-explainers/what-is-standing-deposit-facility-7859803/>

<https://www.angelone.in/blog/what-is-standing-deposit-facility>

Q.14) Which one of the following will be the most likely implication of the increase in repo rate by 1% by Reserve Bank of India?

- Increase in credit offtake in the market by corporates and investors.
- Yield of the government bonds will definitely decrease in the long run.
- Borrowing costs for individuals and businesses may increase.
- Inflation will increase due to excessive money circulation in the market.

Ans) c

Exp) Option c is the correct answer.

The decision to increase the Repo rate is taken by the **Monetary Policy Committee (MPC)**, which takes into account various factors, including inflation, economic growth, and global economic conditions, before making its decision. In India, if the Repo rate is increased by 1%, the main implication is that it **would become more expensive for commercial banks to borrow money from the Reserve Bank of India (RBI)**, which is the central bank of India. This, in turn, would make it **more expensive for commercial banks to lend money to their customers**, such as individuals and businesses. As a result, **borrowing costs for individuals and businesses would increase**, which could lead to a slowdown in economic growth.

Option a is incorrect: An increase in the repo rate **actually leads to a decrease in credit offtake in the market**. When the repo rate is increased, commercial banks have to pay a higher interest rate to borrow money from the RBI, and this cost is passed on to their customers in the form of higher lending rates. This makes it more expensive for individuals and businesses to borrow money, which in turn, leads to a decrease in credit offtake in the market.

Option b is incorrect: An increase in the repo rate is **likely to increase the yield of government bonds in the long run**. This is because an increase in the repo rate may lead to a decrease in the demand for credit in the market, which may lead to a decrease in the demand for government bonds as well. However, in the long run, the increase in the repo rate is likely to reduce inflationary pressures, which may increase investor confidence in the economy and lead to an increase in the demand for government bonds, thereby increasing their yield.

Option d is incorrect: An increase in the repo rate is often **used by the RBI to control inflation by reducing the amount of money available for lending and spending**. This reduces the demand for goods and services, which may lead to a decrease in the prices of goods and services, thus breaking the inflationary cycle.

Source: Ramesh Singh

<https://economictimes.indiatimes.com/definition/Repo-rate>

Q.15) With reference to “Tokenisation of cards”, consider the following statements:

- Tokenised transactions provide extra protection to the credit card’s data.
- Tokenised transactions are usually faster as compared to traditional card transactions.

Which of the statements given above is/are correct?

- 1 only
- 2 only
- Both 1 and 2

d) Neither 1 nor 2

Ans) c

Exp) Option c is the correct answer.

Tokenisation is the process of replacing a card's 16-digit number on the plastic card with a unique alternate card number or 'Token' which shall be unique for a combination of card, token requestor (an intermediary between customer and card company for tokenization of card) and a device used for the transaction.

Statement 1 is correct: In tokenized card transactions, the actual card data is not given to the merchant, but a unique code called token. Tokenization is the process of replacing original card details with an alternative code called a token which is unique and provides an **additional degree of protection for customer credit card details.**

Statement 2 is correct: Tokenised transactions are faster than traditional card transactions. Tokenisation will speed up the transaction process as under tokenised transaction, it will be no longer required to repeatedly enter one's card information since once a token has been issued, it may be used for multiple times on the online merchant app or website.

Source: <https://www.sbicard.com/en/tokenisation.page>

<https://www.livemint.com/industry/banking/how-rbi-s-card-tokenization-will-ensure-a-secure-digital-payment-ecosystem-11664556764413.html>

Q.16) With reference to 'Treasury Bills', consider the following statements:

1. In India, Treasury bills were first issued in 1991 by Reserve Bank of India.
2. They can be purchased by banking entities as well as by individuals.
3. They can be a part of Bank's Statutory Liquidity Ratio.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 only
- c) 2 and 3 only
- d) 1 and 3 only

Ans) c

Exp) Option c is the correct answer.

T-Bills are short-term debt instruments issued by the government to raise funds for a period of up to one year. They are zero-coupon bonds, which means they do not pay any interest to the holder, but are issued at a discount to their face value. The difference between the face value and the discounted price is the interest earned by the holder of the T-Bill.

Statement 1 is incorrect: Treasury Bills (T-Bills) were **first issued in India in 1917 during the British Raj.** The T-Bills were initially issued to meet the war expenditure needs of the government during the First World War.

Statement 2 is correct: T-Bills are issued by the government and have no risks attached to them. They have high liquidity due to their short maturities of 14 days, 91 days, 182 days, and 364 days.

T-Bills can be **purchased by individuals, trusts, organizations, and banks.**

Statement 3 is correct: T-Bills have a relation with the Statutory Liquidity Ratio (SLR) in India. Banks in India are **required to maintain a certain percentage of their net demand and time liabilities (NDTL) as liquid assets such as government securities, including T-Bills,** to ensure liquidity and solvency.

Source: <https://cleartax.in/s/slr>

<https://www.business-standard.com/about/what-is-treasury-bills>

<https://www.rbi.org.in/Scripts/FAQView.aspx?Id=79>

Q.17) Which one of the following statements best describe 'Black Swan Event', often seen in news?

- It refers to a situation which is considered normal as per the social norms, but is illegal under laws.
- It is a condition in which the global economy is led by a single economic block or country.
- It is a rare and unpredictable event that has significant impact on the global society.
- It is an event that symbolizes expected growth cycle in the capital markets across the world.

Ans) c

Exp) Option c is the correct answer.

A black swan is a **rare and unpredictable event** that is beyond what is normally expected of a situation and has potentially severe consequences. It has significant impact on the global society. Black swan events are characterized by their **extreme rarity, severe impact**, and the widespread insistence they were obvious in hindsight.

The term was popularized by **Nassim Nicholas Taleb in his book "The Black Swan: The Impact of the Highly Improbable,"** which argues that such events are unpredictable and have a profound impact on our lives.

Examples of black swan events include the 9/11 terrorist attacks, the 2008 financial crisis, the Fukushima nuclear disaster, and the ongoing COVID-19 pandemic. These events were unexpected, had a significant impact on the world, and were difficult to predict.

Source: <https://indianexpress.com/article/explained/everyday-explainers/explained-black-swan-event-rbi-capital-outflow-risk-7980529/#:~:text=A%20study%20by%20the%20Reserve,a%20%E2%80%9Cblack%20swan%E2%80%9D%20event.>

Q.18) Arrange the following events regarding the development of Indian banking system in the correct chronological order.

- Enactment of the Banking Regulation Act
- Nationalization of fourteen major commercial banks
- Introduction of Electronic Funds Transfer (EFT) system
- Establishment of Regional Rural Banks

Select the correct answer using the codes given below:

- 2-1-3-4
- 1-2-4-3
- 1-3-2-4
- 2-3-1-4

Ans) b

Exp) Option b is the correct answer.

The correct chronological order of the given economic events in the development of Indian banking system is:

1-Enactment of the Banking Regulation Act (1949): The Banking Regulation Act was enacted in 1949 to regulate the banking sector in India and ensure the safety of depositors' money. The Act defines the legal framework for banking in India, including provisions for the establishment of new banks, the licensing and operation of banks, and the regulation of banking operations. The RBI is responsible for enforcing the provisions of the Act and ensuring the soundness and stability of the banking system.

2- Nationalization of fourteen major commercial banks (1969): The Banking Companies (Acquisition and Transfer of Undertakings) Act, 1969, was passed by the Indian parliament, which nationalized 14 major Indian banks, followed by an additional 6 banks in 1980. This move was aimed at increasing the reach of banking services and making them more accessible to the masses. The nationalized banks were also required to focus on priority sectors, such as agriculture, small-scale industries, and exports, in line with the government's developmental goals.

4- Establishment of Regional Rural Banks (1975): The Regional Rural Banks (RRBs) were established in 1975 as a key initiative to provide banking services to rural areas in India. The RRBs were set up with the objective of providing credit and other banking facilities to small and marginal farmers, agricultural laborers, artisans, and small entrepreneurs in rural areas. The RRBs have been instrumental in increasing the level of financial inclusion in rural areas and providing credit to the underserved sections of society.

3- Introduction of Electronic Funds Transfer (EFT) system (1994): The Electronic Funds Transfer (EFT) system was introduced in 1994 as a means of enabling electronic transfer of funds between banks. The EFT system enables customers to transfer funds electronically from one bank account to another, without the need for physical movement of cash or checks. This has resulted in a significant reduction in the time and cost of transactions and has made banking services more efficient and accessible to customers. EFT has also played a significant role in promoting e-commerce and online banking in India.

<https://jupiter.money/blog/finance/evolution-of-banking-in-india/>

Q.19) Consider the following statements:

1. The SARFAESI Act protects only secured creditors while Insolvency and Bankruptcy Code protects both secured and unsecured creditors.
2. Insolvency and Bankruptcy Code shall prevail over provisions of the SARFAESI, if there is any inconsistency between the two.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) c

Exp) Option c is the correct answer.

Statement 1 is correct: The SARFAESI Act protects financial creditors (Secure creditors), who are mostly banks and other financial institutions, by allowing them to impose their security interests without the need for court interference. The Insolvency and Bankruptcy Code, on the other hand, guarantees the interests of all forms of creditors (including both secured and unsecured), which are further divided into Financial and Operational Creditors by the IBC.

Statement 2 is correct: According to National Company Law Appellate Tribunal (NCLT), Insolvency and Bankruptcy Code shall prevail over any provisions of the SARFAESI, if there was any inconsistency between IBC and SARFAESI.

Knowledge Base:

In large size cases where there is a high debt burden, SARFAESI Act is not much effective and taking physical possession in such instances kills the business and there is little scope of revival. On the other hand, resolution plans under IBC are focused towards securing the interest of all stakeholders and directed toward the revival of the business as well, hence in such large cases, IBC is highly effective.

Source: <https://www.thehindubusinessline.com/business-laws/ibc-prevails-over-sarfaesi/article34239316.ece>

https://www.business-standard.com/article/economy-policy/explained-why-lenders-prefer-ibc-over-sarfaesi-act-for-recovery-of-dues-120011900913_1.html

Q.20) With reference to Global Innovation Index, consider the following statements:

1. The index is released by the World Intellectual Property Organisation (WIPO).
2. India's rank in this index had steadily increased in the last five years.

Which of the statements given above is /are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) c

Exp) Option c is the correct answer.

According to the **Global Innovation Index, 2022, Switzerland ranks top**, for the 12th year in a row, followed by the United States, Sweden, the United Kingdom and the Netherlands. China is nearing the top 10 while Turkey and **India enter the top 40 for the first time**.

Statement 1 is correct: Global Innovation Index is published by the World Intellectual Property Organization (WIPO). WIPO is a specialised agency of the United Nations, headquartered in Geneva, Switzerland. WIPO was established in 1967 and it has 193 member states.

Statement 2 is correct: It is true that **India's rank improved steadily in the Global Innovation Index since 2015, including the last five years** and according to the latest index published in 2022 **India is ranked at 40**, which is a huge leap for India as compared to its rank of 81 in 2015.

Source: <https://pib.gov.in/Pressreleaseshare.aspx?PRID=1863536>

Q.21) With reference to Payment Banks and Small Finance Banks, consider the following statements:

1. Unlike Small Finance Banks, Payment Banks are allowed to lend money to their customers.
2. Unlike Small Finance Banks, Payment Banks can accept fixed deposits or recurring deposits.
3. Unlike Small Finance Banks, Payment Banks cannot invest their deposits in government securities.

Which of the statements given above is/are correct?

- a) 1 only
- b) 1 and 2 only
- c) 2 and 3 only
- d) None of the above

Ans) d

Exp) Option d is the correct answer.

Payment banks and Small finance banks are two different types of banks operating in India with distinct features and objectives.

Statement 1 is incorrect: Payment banks are not permitted to lend money to their customers, while SFBs can lend money to their customers. **Small finance banks are set up to offer financial inclusions by providing credit facilities and loans to small businesses** operating from underprivileged areas, marginal and small farmers, small and micro industries, and other businesses operating specifically in the unorganized sectors.

Statement 2 is incorrect: Small Finance Banks can accept recurring and Fixed Deposits, while Payment Banks cannot accept time deposits i.e., fixed or recurring deposits.

Statement 3 is incorrect: Payment Banks are only allowed to invest the money received from customers' deposits into government securities.

Source: <https://www.fisdom.com/small-finance-banks/>

<https://bank.caknowledge.com/small-finance-bank-vs-payment-banks/>

Q.22) With reference to 'National Bank for Agriculture and Rural Development (NABARD)', consider the following statements:

1. It is a wholly owned financial institution of the Reserve Bank of India.
2. It provides refinance facilities to various institutions which helps in development of rural economy.
3. The Rural Infrastructure Development Fund (RIDF) is maintained by the NABARD.

Which of the statements given above is/are correct?

- a) 1 only
- b) 1 and 2 only
- c) 2 and 3 only
- d) 1 and 3 only

Ans) c

Exp) Option c is the correct answer.

National Bank for Agriculture and Rural Development (NABARD) is an apex regulatory body for overall regulation of regional rural banks and apex cooperative banks in India. It is under the jurisdiction of Ministry of Finance, Government of India.

Statement 1 is incorrect: National Bank for Agriculture and Rural Development (NABARD) is a development financial institution in India that was established in 1982. It is **100% owned by the Government of India and is headquartered in Mumbai, Maharashtra**. In 2019, Reserve Bank of India sold its entire stakes to government for Rs 1,450 crore making it fully government-owned now.

Statement 2 is correct: NABARD provides direct and indirect refinance facilities to various financial institutions. The **indirect refinance facility provided by NABARD is given through the State Cooperative Agriculture and Rural Development Banks (SCARDBs) and Regional Rural Banks (RRBs)**. Under this facility, NABARD refinances loans extended by SCARDBs and RRBs to farmers, rural artisans, and small entrepreneurs.

Statement 3 is correct: NABARD operates and maintains the Rural Infrastructure Development Fund (RIDF), which was set up in 1995 to provide loans to state governments for financing rural infrastructure

projects such as irrigation, rural roads, bridges, health centers, and schools. The RIDF is a vital source of financing for rural infrastructure development in India and has played a significant role in improving rural infrastructure in the country.

Q.23) Which among the following form a part of High-Powered Money?

1. Currency held by the public
2. Vault cash of commercial banks
3. Deposits held by the Government of India with the RBI

Select the correct answer using the codes given below:

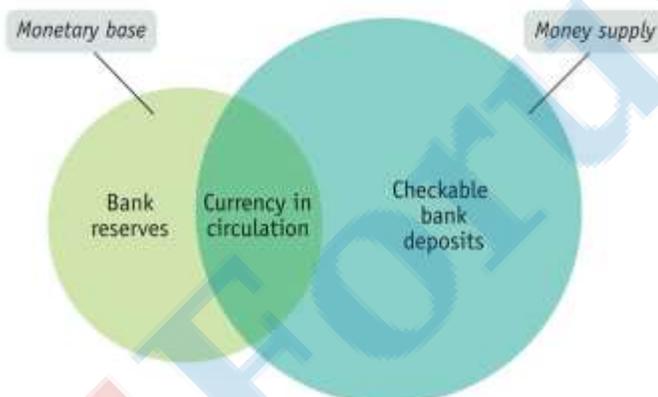

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

All the statements are correct.

The total liability of the monetary authority of the country, RBI, is called the monetary base or high powered money.

Note: Checkable bank deposits are NOT part of Monetary base
Note: Bank Reserves are NOT part of Money Supply

It consists of:

Option 1 is correct: currency (notes and coins in circulation with the public),

Option 2 is correct: reserves of the commercial banks (which include vault cash and banks' deposits) with RBI.

Option 3 is correct: deposits held by the Government of India with RBI.

Knowledge Base: NCERT-Class 12- Introductory Macroeconomics, Chapter 3.

Q.24) With reference to 'Non-Banking Financial Companies (NBFCs)', consider the following statements:

1. They do not form part of the payment and settlement system managed by Reserve Bank of India.
2. The deposit insurance facility of Deposit Insurance and Credit Guarantee Corporation is available to depositors of NBFCs.
3. Some NBFCs can accept deposits from the public.

4. They are not required to maintain a Cash Reserve Ratio (CRR).

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 2, 3 and 4 only
- c) 1 and 4 only
- d) 1, 3 and 4 only

Ans) d

Exp) Option d is the correct answer.

Statement 1 is correct: Non-Banking Financial Companies (NBFCs) **do not form part of the payment and settlement system managed by the Reserve Bank of India (RBI)**. The payment and settlement system is primarily managed by the RBI through various payment and settlement systems like Real Time Gross Settlement (RTGS), National Electronic Funds Transfer (NEFT), Immediate Payment Service (IMPS), etc.

Statement 2 is incorrect: The deposit insurance facility of Deposit Insurance and Credit Guarantee Corporation is **not available to depositors of NBFCs**. The deposit insurance facility provided by the DICGC is available only to depositors of banks. The DICGC provides insurance cover to each depositor in a bank up to a maximum of Rs. 5 lakh for both principal and interest amount held by the depositor in the same capacity and same right.

Statement 3 is correct: Some NBFCs to which the Reserve Bank had given a specific authorisation and have an investment grade rating are allowed to accept/ hold public deposits, but up to a limit.

Statement 4 is correct: Non-Banking Financial Companies (NBFCs) **are not required to maintain a Cash Reserve Ratio (CRR) unlike Scheduled Commercial Banks**. The Cash Reserve Ratio is a certain percentage of the total deposits that commercial banks are required to keep with the Reserve Bank of India (RBI) in the form of cash reserves. The objective of maintaining the CRR is to ensure that banks have enough cash reserves to meet any payment obligations and to maintain the stability of the banking system. However, NBFCs are not required to maintain a CRR as they do not accept demand deposits.

<https://blog.forumias.com/pca-framework-for-nbfc-explained-pointwise/>

<https://blog.forumias.com/question/consider-the-following-statements-regarding-nbfc-non-banking-financial-companies-1-nbfc-raise-funds-from-the-public-directly-or-indirectly-and-lend-them-to-ultimate/>

Q.25) Which of the following statements best describes the term ‘Climate Reparations’?

- a) It is a type of Cess levied by the UN Environment Programme, aimed at preventing climate change.
- b) It refers to payment of compensation by developed countries, for their historical emissions, to the developing countries.
- c) It is a type of fine imposed on developing countries for failing to adopt climate change mitigation measures.
- d) It is a type of technology that enables the capturing of carbon dioxide emissions from large sources.

Ans) b

Exp) Option b is the correct answer.

Recently, Pakistan witnessed the worst flooding disaster in its history, therefore it has begun demanding reparations, or compensation, from the rich countries that are mainly responsible for causing climate change.

Option b is correct: Climate reparations refer to compensation/call for money to be paid by the developed countries to the developing countries as a means of addressing the historical contributions that the Developed countries have made (and continue to make) toward climate change. The demand for

compensation for loss and damage from climate disasters is an extension of the universally acknowledged “Polluter Pays” principle that makes the polluter liable for paying not just for the cost of remedial action, but also for compensating the victims of environmental damage caused by their actions. In the climate change framework, the burden of responsibility falls on those rich countries that have contributed most of the greenhouse gas emissions.

Source: <https://indianexpress.com/article/explained/explained-climate/the-idea-of-climate-reparation-8135293/>

Q.26) With reference to the Employees' State Insurance Scheme (ESI), consider the following statements:

1. Casual workers such as those engaged in the construction activities can be covered by this scheme.
2. The scheme requires all employees to pay their contribution to avail benefits under this scheme.
3. The scheme provides cash benefits to male as well as female employee to promote acceptance of sterilisation method.

Which of the statements given above is/are correct?

- a) 1, 2 and 3
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1 only

Ans) c

Exp) Option c is the correct answer.

Employees' state Insurance Corporation of India (ESIC) provides socio-economic protection to the worker population and immediate dependent or family covered under the Employees' State Insurance (ESI) scheme.

Statement 1 is correct: The Supreme Court has held that the definition of employee provided by the ESI Act covers **casual employees employed for a few days** on a work of perennial nature and **they cannot be deprived of the beneficial provisions of the Act**. Further the ESIC has extended the benefits of the ESI Scheme to the workers deployed on the construction sites.

Statement 2 is incorrect: The ESI Scheme is **financed by contributions from employers and employees**. The rate of contribution under the ESI Act 4% (employers' contribution 3.25% and employees' contribution 0.75%). However, **employees, earning less than Rs. 137/- a day as daily wages, are exempted from payment of their share of contribution**. Thus, all employees must pay to avail benefits under ESI scheme is not true.

Statement 3 is correct: ESI scheme to promote acceptance of **sterilization method**, provides sickness **cash benefit equal to full wage for a period of 7 days for vasectomy** and 14 days for **tubectomy**. **Tubectomy and Vasectomy** is a permanent method of contraception for women and men respectively. Hence the scheme provides **cash benefit equal to 14 days for female employee and 7 days for male employee**.

Source: <https://www.esic.nic.in/CIRCULARS/standardnote010111230911.pdf>

<https://www.esic.gov.in/information-benefits#:~:text=to%2050%25%20of-,wage,-for%20a%20maximum>

Q.27) Consider the following statements regarding Cooperative Banks in India:

1. All cooperative banks are registered under Banking Regulation Act, 1949.

2. Non-banking aspects of the cooperative banks are regulated by the National Bank for Agriculture and Rural Development (NABARD).

3. Recently, RBI approval has been made mandatory for appointment of chairman of Cooperative Banks.

How many of the above given statements are correct?

- None of the statements
- Only one statement
- Only two statements
- All the three statements

Ans) a

Exp) Option a is the correct answer.

Statement 1 is incorrect: The Banking Regulation Act came in to force in 1949 and the banking laws were made applicable to cooperative societies in 1966 through an amendment to the Banking Regulation Act, 1949. However, it must be noted here that all cooperative banks do not come under Banking Regulation Act, 1949. **Primary Agricultural Credit Societies and long-term credit co-operatives are outside the purview of the Banking Regulation Act, 1949** and are hence **not regulated by the Reserve Bank**. The NABARD conducts voluntary inspection of State Cooperative Agricultural and Rural Development Bank, apex-level co-operative societies and federations.

Statement 2 is incorrect: In 1966, amendment was made to the Banking Regulation act, 1949. Since then, there is '**duality of control**' over cooperative banks (excluding urban cooperative banks) between the State Registrar of Cooperative Societies/Central Registrar of Cooperative Societies and the Reserve Bank of India. The Reserve Bank regulates and supervises the banking functions and amalgamation and liquidation through the Banking regulation Act, 1949 and the non-banking aspects like registration, management, administration and recruitment are regulated by the State/ Central Governments (not by NABARD).

In 2020, an amendment was introduced to bring Urban Cooperative Banks under the supervision of RBI.

Statement 3 is incorrect: RBI approval is not required for appointment of Chairman/Whole-time Director/Managing Director/CEO in case of Cooperative Banks (i.e. UCBs/StCB/DCCB). But in public interest and to protect the interest of the depositors, if required, RBI can supersede the Board of UCBs/StCB/DCCB.

https://www.rbi.org.in/scripts/FS_Overview.aspx?fn=2755

Q.28) With reference to 'Insolvency and Bankruptcy Board of India', consider the following statements:

- The board comes under the purview of Ministry of Personnel, Public Grievances and Pensions.
- The members of the board are appointed by Financial Services Institutions Bureau (FSIB).
- It enforces rules for processes of corporate insolvency resolution and individual bankruptcy under Insolvency and Bankruptcy Code.

Which of the statements given above is/are correct?

- 1 and 2 only
- 3 only
- 2 and 3 only
- 1 and 3 only

Ans) b

Exp) Option b is the correct answer.

The Insolvency and Bankruptcy Board of India ('Board'), also known as IBBI, was established under the Insolvency and Bankruptcy Code, 2016 ('IBC') on 1st October 2016.

Statement 1 is incorrect: Insolvency and Bankruptcy Board of India comes under the **purview of the Ministry of Corporate Affairs, Government of India.**

Statement 2 is incorrect: The Board consists of the following members who are **appointed by the Central Government:**

- 1) A **Chairperson.**
- 2) **Three members from among the officers of the Central Government** equivalent or not below the rank of a Joint Secretary. Out of the three members, each will represent the Ministry of Finance, Ministry of Corporate Affairs and Ministry of Law, ex -officio.
- 3) **One member nominated by the RBI** (Reserve Bank of India), ex-officio.
- 4) **Five other members nominated by the Central Government**, out of which at least three should be whole-time members.

Statement 3 is correct: Insolvency and Bankruptcy Board of India **regulates professionals as well as processes.** It has regulatory oversight over the insolvency professional agencies, insolvency professional entities, insolvency professionals and information utilities. It **enforces rules for processes of corporate insolvency resolution, individual insolvency resolution, corporate liquidation and individual bankruptcy** under the IBC.

Q.29) With reference to 'Prompt Corrective Action Framework (PCA)' for Scheduled Commercial Banks, consider the following statements:

1. The framework does not apply to Payment Banks and Small Finance Banks in India.
2. The profitability parameter of the banks is mainly considered by RBI for triggering the action framework.
3. A bank can be placed under PCA framework only on the recommendation of Department of Financial Services, Ministry of Finance.
4. Even when a Bank is placed under PCA, no restriction can be imposed on branch expansion.

Which of the statements given above is/are correct?

- a) 1 only
- b) 1 and 2 only
- c) 1, 2 and 3 only
- d) 3 and 4 only

Ans) a

Exp) Option a is the correct answer.

Statement 1 is correct: The PCA Framework applies to all Scheduled Commercial Banks **excluding Small Finance Banks, Payment Banks and Regional Rural Banks.**

Statement 2 is incorrect: Capital, Asset Quality and Leverage are the key areas for monitoring in the revised framework. As per the revised guidelines, **profitability parameter has been excluded from its list of triggers.**

Statement 3 is incorrect: A bank is to be placed under the PCA framework **based on the Audited Annual Financial Results and the ongoing Supervisory Assessment made by RBI.** The RBI, and not the Department of Financial Services, Ministry of Finance, has the authority to place a bank under the PCA framework.

Statement 4 is incorrect: Banks placed under PCA are subject to **restrictions on opening new branches, among other things.** These restrictions are imposed by the RBI.

SFG 2023 | LEVEL 2 | Test #13 – Solutions | ForumIAS

<https://www.rbi.org.in/Scripts/NotificationUser.aspx?Id=12208&Mode=0#:~:text=The%20objective%20of%20the%20PCA,tool%20for%20effective%20market%20discipline.>

Q.30) The “Dharamshala Declaration”, recently seen in news, is related to:

- to make India a world leader in the tourism sector by 2047.
- to double the contribution of India’s electronic sector to its Gross Domestic Product (GDP) by 2047.
- to strengthen regional cooperation to promote disaster resilient infrastructure in the South Asian region.
- to realise the goal of “Net zero emissions” in India by 2070.

Ans) a

Exp) Option a is the correct answer.

The ‘Dharamshala Declaration’ was adopted at the National Conference on Tourism which sets out long-term and short-term goals for the country in the tourism sector. The National Conference aims to be a platform for sharing of best practices, successful projects, and tourism product opportunities

Option a is correct: The Dharamshala declaration aims to make India a World leader in the tourism sector by 2047. The declaration aims to recognize India’s role in contributing towards global tourism as well as focusing on recovery of domestic tourism.

Source:<https://blog.forumias.com/pitching-india-as-a-signature-destination-dharamshala-declaration/>

Q.31) With reference to the Indian economy, which of the following are correct with respect to Additional Tier 1 (AT1) Bonds?

- They are a type of secured bonds compulsorily backed by a collateral.
- They do not have a maturity period.
- Banks issuing AT1 bonds have no obligation to pay back Principal amount to investors.
- They cannot be traded in secondary markets.

Select the correct answer using the code given below:

- 1 and 2 only
- 1 and 3 only
- 2 and 3 only
- 2 and 4 only

Ans) c

Exp) Option c is the correct answer.

Additional Tier 1 (AT1) bonds appeared in the news as the Bombay High Court recently invalidated the write-off of additional Tier-1 (AT1) bonds issued by private lender Yes Bank. These bonds are a type of perpetual securities which offer higher risk and reward.

Option 1 is incorrect: Additional tier-1 bonds are a type of Unsecured bonds which means the bonds will not be backed up by any capitals of banks. In contrast **Secured bonds** is a debt instrument that is backed by collateral and if the issuer defaults on bond payments, then the title to the underlying assets will be passed to the bond holders.

Option 2 is correct: It is true that AT1 bonds are perpetual and carry no maturity date. Instead, they carry **call options** that allow banks to redeem them after five or 10 years. However, banks are not obliged to use this call option and can opt to pay only interest on these bonds for eternity.

Option 3 is correct: It is true that banks issuing AT1 bonds have no obligation to pay back Principal amount to investors. However, investors will receive interest rates on these bonds until the bonds will be

written off by the banks. If the RBI feels that a bank is on the brink of **collapse** and needs a rescue, it can simply ask the **bank to cancel its outstanding AT-1 bonds without consulting its investors**.

Option 4 is incorrect: AT1 bonds **can be traded in secondary markets** which means AT1 bond holders can sell these bonds to others in the stock market to raise money.

Source: <https://indianexpress.com/article/explained/explained-economics/yes-bank-at1-bonds-bombay-high-court-8395311/>

<https://timesofindia.indiatimes.com/business/india-business/all-you-want-to-know-about-at1-bonds/articleshow/74562287.cms>

Q.32) With reference to Participatory notes (P-notes), consider the following statements:

1. They can only be issued by the Securities and Exchange Board of India.
2. Investments flowing through P-notes are considered as offshore derivative investments (ODIs).
3. Holder of P-notes enjoys voting rights in relation to his/her investment in securities/shares.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 and 3 only
- c) 2 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

Statement 1 is incorrect. P-notes are **issued by registered foreign portfolio investors (FPIs)** and not by SEBI, to overseas investors who wish to be part of the Indian stock market without registering themselves directly.

Statement 2 is correct. Investments flowing through P-notes are considered as **offshore derivative investments (ODIs)**. Indian securities market regulator, SEBI issued the new Regulations for Foreign Portfolio Investors, participatory notes where it got formally defined under the tag "Offshore Derivative Instrument" (ODIs) in Section 2(1)(j) of the said regulation.

Statement 3 is incorrect. The P-notes holder **does not enjoy any voting rights** in relation to security/shares referenced. Also, the investor in P-notes **does not own the underlying Indian security**, which is held by the FII who issues the Participatory Notes. Thus, the investors in Participatory Notes derive the economic benefits of investing in the security without actually holding it.

Source: <https://economictimes.indiatimes.com/markets/stocks/news/p-notes-investment-climbs-to-33-month-high-at-rs-91658-crore-in-feb/articleshow/81586273.cms?from=mdr>

[http://www.arthapedia.in/index.php?title=Participatory_Notes_\(PNs\)](http://www.arthapedia.in/index.php?title=Participatory_Notes_(PNs))

Q.33) With reference to Indian Insurance sector, consider the following statements:

1. At present, the Government of India permits 100% Foreign Direct Investment in insurance sector.
2. The Government mandates that all the members of the Board of Directors of all insurance companies must be resident Indians.

Which of the following statements is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) d

Exp) Option d is the correct answer.

Insurance Companies in India are recognised by the Insurance Regulatory and Development Authority of India, the statutory body under the jurisdiction of the Ministry of Finance. It is tasked with regulating and licensing the insurance and reinsurance industries in India.

Statement 1 is incorrect: Recently the Government of India increased the foreign direct investment (FDI) limit in the insurance sector to 74% from 49%, so 100% FDI so far is not allowed in India.

Statement 2 is incorrect: The increase in the foreign direct investment (FDI) limit in the insurance sector comes with safeguards such as **majority (at least 50%) directors on the Board in health and general insurance companies** would be **resident Indians**. Further at least 50% of directors will be independent directors.

Source: <https://blog.forumias.com/cabinet-clears-74-fdi-in-insurance-sector/>

Q.34) Which of the following statements is **incorrect** with respect to the differences between Old Pension Scheme (OPS) and New Pension Scheme (NPS)?

- Unlike OPS, employee's contribution is generally mandatory in NPS to avail pension benefits.
- Unlike NPS, a ten-year service requirement is necessary to avail benefits under OPS.
- Unlike OPS, Private employees can become beneficiaries of the NPS scheme.
- While the Provident fund facility is available under NPS, it is not available under OPS.

Ans) d

Exp) Option d is the correct answer.

The Central Government had introduced the **National Pension System (NPS)** replacing the Old Pension scheme with effect from January 1, 2004 (except for armed forces). Recently Punjab is considering moving back to Old Pension scheme and some States such as Rajasthan, Chhattisgarh and Jharkhand have already implemented the old pension scheme.

Option a is correct: Employees' contribution is not mandatory under Old Pension Scheme (OPS) (but mandatory under NPS) to avail pension benefits. Under the OPS, employees get a pension post-retirement which is equivalent to **50% of the last drawn salary**. In contrast **employee's contribution is mandatory under New Pension Scheme (NPS)**. In NPS employees contribute to their pension corpus from their salaries with matching contribution from the employer.

Old vs New

A look at the difference between the old and the new pension schemes

Old Pension Scheme	National Pension Scheme
<ul style="list-style-type: none"> The scheme guarantees a life-long income, post-retirement Government bears the expenditure incurred on the pension Under the scheme, a monthly payment is assured, where the amount is equivalent to 50% of the last drawn salary 	<ul style="list-style-type: none"> It is a participatory scheme, where employees contribute to their pension corpus from their salaries, with matching contribution from the government The funds are invested in earmarked investment schemes through Pension Fund Managers On retirement, 60% of the corpus, which is tax-free, is withdrawn while the remaining 40% is invested in annuities, which is taxed

Option b is correct: It is true that a **ten-year service requirement is necessary to avail benefits under OPS**, but it is **not necessary** to avail benefits under NPS. All citizens of India 18 – 60 years of age are eligible under NPS, and **10-year service requirement is not mandatory**.

Option c is correct: It is true that **Private employees cannot become beneficiaries** under the Old Pension Scheme (OPS). But **under NPS the employees of the private entity**, having Indian Citizenship between the age of **18-60 years** are eligible to be registered as subscribers.

Option d is incorrect: The provident fund facility is available both under NPS & OPS. Under the OPS, there was the provision of the **General Provident Fund (GPF)**. GPF is available for all the government employees in India, and it allows all the government employees to contribute a certain percentage of their salary to the GPF. The total amount that is accumulated throughout the employment term is paid to the employee at the time of retirement.

In NPS employees and employers contribute a certain percentage of employees' salary to the provident fund and beneficiaries after retirement can withdraw a part of the pension amount in a lump sum and use the rest to buy an annuity for a regular income.

Q.35) In the context of techniques for protecting plant varieties, consider the following pairs:

Techniques	Description
1. Field Gene bank	Genetic variation of plants is maintained at ex-situ location.
2. In vitro gene bank	Eliminates all form of viruses and bacteria.
3. Cryo gene bank	Metabolic process and cell divisions of plants will be prevented.

How many pairs are correctly matched?

- Only one pair
- Only two pairs
- All the three pairs
- None of the pairs

Ans) b

Exp) Option b is the correct answer.

The Ninth Session of the Governing Body (GB9) of the **International Treaty on Plant Genetic Resources for Food and Agriculture (ITPGRFA)** was concluded recently in New Delhi. The GB9 session of ITPGRFA was inaugurated by the **Union Minister of Agriculture & Farmers' Welfare**. Following are the conservation of genetic variation of plant resources.

Pair 1 is correct: Field gene bank is one of the techniques in the strategy for plant genetic conservation. It is an **ex-situ method where genetic variation is maintained away from its original location**. In this

SFG 2023 | LEVEL 2 | Test #13 – Solutions | ForumIAS

method samples of a species and genetic variations are transferred and conserved as living collections in gene banks. Field gene bank is the most common method of conserving genetic resources with recalcitrant seeds and vegetatively propagated plants.

Pair 2 is incorrect: In vitro (in glass) conservation involves conserving parts of plants in flasks or tubes in artificial medium, under controlled environments, normally in sterile conditions. One of the major advantages of in vitro conservation of genetic resources is that it can provide disease-free material. However, in vitro cultures are free of fungi and most bacteria while viruses can still be present.

Pair 3 is correct: Cryo gene bank involves saving genetic resources of plants under extremely low temperature (-196 degree celsius). In cryo gene banks all metabolic processes and cell divisions are arrested which made this method suitable for long-term storage of genetic resources of species.

Source:<https://ebi.gov.et/biodiversity/conservation/field-gene-banks/#:~:text=Field%20gene%20bank%20is%20one,and%20conserved%20as%20living%20collections.https://croptgenebank.sgrp.cgiar.org/index.php/procedures-mainmenu-242/conservation-mainmenu-198/cryo-bank-mainmenu-201#:~:text=metabolic%20processes%20and%20cell%20divisions%20are%20arrested.https://croptgenebank.sgrp.cgiar.org/index.php/procedures-mainmenu-242/conservation-mainmenu-198/in-vitro-bank-mainmenu-200>

Q.36) Consider the following statements regarding ‘Qualified Institutional Placement’:

1. It is a tool used by Listed Companies to raise capital domestically from institutional investors.
2. Foreign Institutional Investors are barred by SEBI to invest in public companies through Qualified Institutional Placement route.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) a

Exp) Option a is the correct answer.

A qualified institutional placement (QIP) is a way for listed companies to raise capital without having to submit legal paperwork to market regulators. It is common in India and other Southeast Asian countries. The Securities and Exchange Board of India (SEBI) created the rule to avoid the dependence of companies on foreign capital resources.

Statement 1 is correct. Qualified Institutional Placement enables the listed companies to raise finance through the issue of securities to qualified institutional buyers (QIBs). It is a tool used by **publicly listed companies to raise capital (funds) domestically from institutional investors.**

Statement 2 is incorrect. Foreign institutional investor registered with SEBI are allowed to place investment under Qualified Institutional Placement. Only the group of investors, who follow certain regulations and rules formulated by SEBI are allowed to invest through Qualified Institutional Placement process. This group of investors is collectively known as a Qualified Institutional Buyer (QIB). According to SEBI, QIBs are defined as follows: Scheduled commercial banks; Mutual funds; **Foreign institutional investor** registered with SEBI; Multilateral and bilateral development financial institutions; **Venture capital funds** registered with SEBI. **Foreign Venture capital investors** registered with SEBI, State Industrial Development Corporations, Insurance Companies registered with the Insurance Regulatory and Development Authority (IRDA), Provident Funds with minimum corpus of Rs.25 crores, Pension Funds with minimum corpus of Rs. 25 crores, Public financial institution as defined in Companies Act, 2013;”

Qualified Institutional Placement (QIP) Definition (investopedia.com)

Q.37) With reference to ‘Pradhan Mantri Suraksha Bima Yojana (PMSBY)’, consider the following statements:

1. The Scheme provides accidental life cover to people in the age group of 18 to 70 years.
2. It provides benefits to family of the victim in case of his suicidal death.
3. The scheme is administered through the Public Sector General Insurance Companies.

Which of the statements given above is/are correct?

- a) 1 only
- b) 1 and 2 only
- c) 2 and 3 only
- d) 1 and 3 only

Ans) d

Exp) Option d is the correct answer.

Pradhan Mantri Suraksha Bima Yojana (PMSBY) was launched in the year 2015. The nodal ministry is the Ministry of Finance.

Statement 1 is correct: The Pradhan Mantri Suraksha Bima Yojana offers a life cover of Rs. 2 lakhs all its account holders. This life cover is provided in case of accidental death or permanent disability. **Any individual aged between 18 years to 70 years** are eligible to apply for the scheme.

Statement 2 is incorrect: As per Pradhan Mantri Suraksha Bima Yojana, any accidental death, murder or disability due to natural calamities is covered under this scheme. **Whereas any suicidal death is not covered under Pradhan Mantri Suraksha Bima Yojana.** Also, the family members will not be provided with any benefits in case of suicidal deaths.

Statement 3 is correct: Pradhan Mantri Suraksha Bima Yojana is offered by **Public Sector General Insurance Companies or any other General Insurance Company** who are willing to offer the product on similar terms with necessary approvals and tie up with banks for this purpose.

Q.38) When there is a significant increase in the time deposits of the banks, which of the following standard measures of money supply in an economy would increase?

1. Reserve Money (M0)
2. Narrow Money (M1)
3. Broad Money (M3)

Select the correct answer using the codes given below:

- a) 1 only
- b) 2 and 3 only
- c) 3 only
- d) 1 and 3 only

Ans) c

Exp) Option c is the correct answer.

The money supply is the total amount of money used by the general public at a given point in time.

M0, M1, M2, M3, and M4 are **different measures of money supply** that are commonly used to track the amount of money in circulation in an economy.

- 1) **Reserve Money (M0):** Other names include High-Powered Money, Financial Base, Base Money, etc. M0 is calculated as follows: **Money in circulation + Bankers' deposits + Other deposits with RBI.** It is the economic foundation's currency.
- 2) **Narrow Money (M1):** M1 equals **money in circulation plus demand deposits in the banking system (current and savings accounts)** plus additional deposits with the Reserve Bank of India (RBI).
- 3) **Narrow Money (M2):** **Post Office Savings, Bank Savings Deposits** added to M1 equals M2.
- 4) **Broad Money (M3):** M3 equals **M1 plus time deposits made with banks.**
- 5) **Broad Money (M4):** M4 is equal to M3 plus any deposits made at post office savings banks.

Option 1 and 2 are incorrect: Reserve Money (M0) includes the currency in circulation and the reserves held by the central bank, while Narrow Money (M1) includes the most liquid forms of money such as currency in circulation and demand deposits. **Time deposits are not included in M0 or M1,** and hence an increase in time deposits will not have a significant effect on these measures of money supply.

Option 3 is correct: M3 includes **demand deposits and time deposits.** Hence, when there is an increase in time deposits, it will lead to an increase in M3.

Source: Ramesh Singh

Q.39) With reference to the liquidity management, Regional Rural banks (RRBs) are allowed to access which of the following instruments?

1. Liquidity Adjustment Facility
2. Marginal Standing Facility
3. Call Money Market
4. Notice Money market

Select the correct answer using the codes given below:

- a) 1 and 3 only
- b) 2 and 4 only
- c) 1, 2 and 3 only
- d) 1, 2, 3 and 4

Ans) d

Exp) Option d is the correct answer.

Statement 1 is correct: Liquidity Adjustment Facility (LAF) has been **extended** to RRB. It is a tool used in monetary policy by the Reserve Bank of India (RBI). It enables banks to borrow money through repurchase agreements (repo) or banks to lend to the RBI using reverse repo contracts.

Statement 2 is correct: Marginal Standing Facility (MSF) has been **extended** to RRBs. It is a facility allowed to be used by banks. In this, planned commercial banks can lend extra amount of immediate cash from the RBI by dipping into their Statutory Liquidity Ratio (SLR) collection up till a limit at a penal rate of interest.

Statement 3 is correct: Call Money Market has been extended to RRB. Call money is also referred to as the money at call. It is a short-term loan which is due to be paid immediately in full as and when demanded by the lender. Under call money market, funds are transacted on overnight basis.

Statement 4 is correct: Notice money market has been extended to RRB. It allows the money at notice. It is a short-term loan which is due to be paid after serving the notice. Under notice money market, funds are transacted for the period between 2 days and 14 days.

Q.40) With reference to “Blue Transformation Roadmap 2022-30”, consider the following statements:

1. The roadmap was released by the Food and Agricultural Organisation (FAO).
2. The roadmap envisages awarding ‘Blue flag’ status to coastal locations satisfying the environmental standards provided by this roadmap.
3. The roadmap aims to maximise the contribution of aquatic food systems to the Sustainable Development Goals (SDGs).

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 1 and 3 only
- c) 3 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

Blue transformation Roadmap 2022-30 outlines a roadmap for the transformation of aquatic food systems, The road map focuses on the elements that would maximise the contribution of aquatic food systems to the Sustainable Development Goals (SDGs).

Statement 1 is correct: The Food and Agriculture Organisation (FAO) released Blue transformation Roadmap 2022-30. The FAO is a United Nations organisation that leads international efforts to defeat hunger and improve nutrition and food security.

Statement 2 is incorrect: The roadmap does not give the “Blue flag” tag to coastal locations. Blue flag tag is given by Denmark based Non-governmental non-profit organisation called **Foundation for Environmental Education (FEE)** under its Blue Flag programme. In order to qualify for the Blue Flag, a series of stringent environmental, educational, safety, and accessibility criteria must be met and maintained.

Statement 3 is correct: It is true that **Blue transformation Roadmap 2022-30 aims to maximise the contribution of aquatic food systems** to the Sustainable Development Goals (SDGs). The roadmap recognises the importance of aquatic food systems as drivers of employment, economic growth, social development and environmental recovery, which all underpin the SDGs.

[8233731/#:~:text=According%20to%20the%20FEE%2C%20%E2%80%9Cthe,must%20be%20met%20and%20maintained.%E2%80%9D](https://indianexpress.com/article/explained/explained-climate/indian-beaches-blue-flag-coveted-eco-label-8233731/#:~:text=According%20to%20the%20FEE%2C%20%E2%80%9Cthe,must%20be%20met%20and%20maintained.%E2%80%9D)

Q.41) Consider the following statements:

1. The lowering of bank rate by the Reserve bank of India may lead to more liquidity in the market.
2. An increase in Statutory Liquidity Ratio means that commercial banks will have less money for lending.
3. Loan-to-value is a ratio used in mortgage lending to determine the amount necessary to put in a down-payment.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 1 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

Statement 1 is correct: Any reduction in the bank rate and the repo rate will lead to borrowers getting loans at lower interest rates. **The lowering of the Bank Rate makes** the domestic banks borrow money at a cheap rate which in **turn increases the liquidity in the market.**

Statement 2 is correct: The maintaining of liquid assets by the commercial banks at the rate fixed by RBI is called **Statutory Liquidity Ratio regulation**. SLR ensures the liquidity and solvency of banks, which is fundamental for the sound banking system. Every scheduled bank in India requires maintaining liquid assets in the form of cash, gold and unencumbered approved securities and value of which shall not be less than 25 percent of demand and time liabilities of the bank. The implication of change in SLR is same as the change in CRR in regulating the expansion of credit. SLR is a statutory provision under Section 24 of the Banking Regulation Act 1949 and it is in addition to the Cash Reserve Ratio to be maintained by the bank. The SLR regulation is binding on all the commercial banks in India. RBI is with the power to increase the SLR rate, as and when it desires to do so. **An increase in SLR rate means that commercial banks shall have to invest more money in Government and other approved securities** which deplete lendable sources of the banks.

Statement 3 is correct: Loan-to-value (LTV) is an often-used **ratio in mortgage lending** to determine the **amount necessary to put in a down-payment** and whether a lender will extend credit to a borrower.

Most lenders offer mortgage and home-equity applicants the lowest possible interest rate when the loan-to-value ratio is at or below 80%. Lenders assess the LTV ratio to determine the level of exposure to risk they take on when underwriting a mortgage. When borrowers request a loan for an amount that is at or near the appraised value (and therefore has a higher LTV ratio), lenders perceive that there is a greater chance of the loan going into default.

Q.42) Consider the following statements with reference to Government Securities (G-Secs):

1. Individuals cannot buy G-Secs in the primary market.
2. Non-scheduled Urban Cooperative Banks (UCBs) cannot buy G-Secs in the primary market.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) d

Exp) Option d is the correct answer.

Government Securities G-secs are debt instruments issued by the government to borrow money. The two key categories are treasury bills – short-term instruments which mature in 91 days, 182 days, or 364 days, and dated securities – long-term instruments, which mature anywhere between 5 years and 40 years.

Statement 1 is incorrect: Opening a **Retail Direct Gilt (RDG) account** will **allow individuals to buy Government securities directly in the primary market** (auctions) as well as buy/sell in the secondary market. For the retail investor, Government securities offer an option for long term investment.

Statement 2 is incorrect: All non-E-Kuber members including **non-scheduled UCBs can participate in the primary auction** through scheduled commercial banks or PDs (called as Primary Members-PMs) to buy Government Securities. For this purpose, the UCBs need to open a securities account with a bank / PD – such an account is called a **Gilt Account**. A Gilt Account is a dematerialized account maintained with a scheduled commercial bank or PD.

https://m.rbi.org.in/scripts/FS_FAQs.aspx?Id=79&fn=2757

Q.43) Which of the following are the possible effects of *Operation Twist*, sometimes seen in the news?

1. Long term bond yields will fall.
2. Long term loans will become costlier
3. Short term interest rates will increase
4. Saving will be less desirable

Select the correct option using the code given below:

- a) 1, 2 and 3 only
- b) 2, 3 and 4 only
- c) 1, 3 and 4 only
- d) 1, 2, 3 and 4

Ans) c

Exp) Option c is the correct answer.

Under Operation Twist, RBI will conduct simultaneous purchase and sale of government securities that is it will purchase the longer-term maturities from the market and simultaneously sell the shorter duration ones. Operation Twist involves using proceeds from selling short-term bonds to buy long-term bonds in the market simultaneously.

Option 1 is correct: Now as more long-term bonds are bought, their prices will go up, and subsequently their yield will fall. As Bond yield is inversely proportional to market price of bonds thus as prices go up the yield will fall.

Option 2 is incorrect: As long-term bond yields fall due to buying of long-term bonds by RBI, the long-term interest rates will fall as well. This will result in cheaper (not costlier) long-term loans like those for cars, houses, etc for retail consumers, as well as for the government.

Option 3 is correct: In Operation Twist, Short Term Bonds are sold, thus driving their prices down, and increasing the interest rate in the short term.

Option 4 is correct: Lower longer-term yields help boost the economy by making loans less expensive for those looking to buy homes, purchase cars, and finance projects, while saving becomes less desirable because it doesn't pay as much interest.

<https://indianexpress.com/article/explained/reserve-bank-of-india-operation-twist-omo-6178883/>

Q.44) Consider the following statements with reference to Exchange Traded Funds (ETFs):

1. It is a basket of securities that is traded on the stock exchange.
2. Like mutual funds, they are only traded once a day after the market closes.
3. There are no underlying assets involved in these operations.

Which of the statements given above is/are correct?

- a) 1 only
- b) 1 and 2 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) a

Exp) Option a is the correct answer.

Statement 1 is correct: An ETF is a basket of securities, shares of which are sold on a stock exchange. An exchange traded fund (ETF) is a type of security that tracks an index, sector, commodity, or other asset, but which can be purchased or sold on a stock exchange the same way a regular stock. ETFs are a mix of open-ended and close-ended mutual funds.

Statement 2 is incorrect: ETF share prices fluctuate all day as the ETF is bought and sold; this is different from mutual funds that only trade once a day after the market closes. ETFs can be traded at any point during the trading day.

Statement 3 is incorrect: Commodities, like gold, are widely traded in ETFs. There isn't any physical delivery of commodity. The investor is just provided with an ETF certificate, similar to a stock certificate.

Knowledge Base:

Bharat 22 is an ETF that will track the performance of 22 stocks of Central Public Sector Enterprises (CPSE), Public Sector Banks and strategic holding of SUUTI (Specified Undertaking of Unit Trust of India). The 22 stocks are diversified across six sectors such as (a) basic materials (b) energy (c) finance (d) FMCG (e) industrials and (f) utilities.

Bharat-22 ETF is managed by the ICICI Prudential AMC while Asia Index is the index provider.

<https://www.fool.com/knowledge-center/what-is-an-umbrella-fund.aspx>

Q.45) With reference to operation ‘Megh Chakra’, consider the following statements:

1. It was launched by the Indian Armed Forces in association with State Police forces.
2. It aims to provide free education to children of arrested/dead terrorists.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) d

Exp) Option d is the correct answer.

The operation code-named Megh Chakra was carried out by the Central Bureau of India (CBI) following the inputs received from Interpol’s Singapore special unit which in turn received information from the authorities in New Zealand.

Statement 1 is incorrect: Operation Megh Chakra was carried out **by the Central Bureau of Investigation (CBI)** (not by the Indian armed forces) in September 2022. Under this operation, CBI conducted searches at 59 locations across 20 States and one Union Territory, as part of a **pan-India drive against the circulation and sharing of Child Sexual Abuse Material (CSAM)**.

Statement 2 is incorrect: Operation Megh-Chakra was launched against **circulation and sharing of child sexual abuse material online**, not related to educating the children of arrested/dead terrorist. The operation sought to gather information from various law enforcement agencies in India and engaging with the global law enforcement agencies to arrest the circulation of child sexual abuse material online.

Source: <https://www.thehindu.com/news/national/sharing-of-child-sexual-abuse-material-cbi-raids-56-places-in-19-states-and-1-ut/article65930142.ece>

Q.46) Consider the following statements regarding Real-Time Gross Settlement (RTGS) and National Electronic Funds Transfer (NEFT):

1. RTGS is available round the clock throughout the year, whereas transactions under NEFT can be carried out only during the bank working hours.
2. Both the modes of payment are not bound by any upper or lower threshold of the transaction amount.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) d

Exp) Option d is the correct answer.

- 1) National Electronic Funds Transfer (NEFT) is a nation-wide centralised payment system owned and operated by the Reserve Bank of India (RBI).
- 2) The acronym 'RTGS' stands for Real Time Gross Settlement, which can be explained as a system where there is continuous and real-time settlement of fund-transfers, individually on a transaction-by-transaction basis.

Statement 1 is incorrect: NEFT ensures round the clock availability throughout the year and same is the case with RTGS transactions. Before December 2019, RBI had fixed timings during which NEFT transactions can be processed. However, from 2020, NEFT transactions can be performed round the clock throughout the year. RTGS is available round the clock throughout the year with effect from December 14, 2020.

Statement 2 is incorrect: The RTGS system is primarily meant for large value transactions. The minimum amount to be remitted through RTGS is ₹ 2,00,000/- with no upper or maximum ceiling.

Whereas, there is no limit imposed by the RBI for funds transfer through NEFT system. However, a member bank may place amount limits based on its own risk perception with the approval of its Board.

Q.47) In context of Indian stock market, consider the following statements:

1. Scrip Issue is the process of creating new shares which are given free of charge to existing shareholders.
2. Badla is carrying forward of transactions from one settlement period to another without effective delivery.
3. Kerb dealings are the transactions of stocks which take place outside the stock exchanges.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 1 and 3 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

A financial instrument is defined as a document that indicates an asset to one individual (this person is owed) and a liability (this person owes) to another individual. Not all financial instruments are traded on the stock market. The financial instruments that are specifically traded on the stock market are shares/stocks, derivatives, bonds and mutual funds.

Statement 1 is correct: In corporate finance, a **scrip issue**, is the process of **creating new shares** which are given free of charge to existing shareholders. Bonus shares issue is also known as: Bonus issue/Scrip issue/Capitalisation issue. These are additional shares given to shareholders without any charges.

Statement 2 is correct: Badla is carrying forward of transactions from one settlement period to another without effective delivery. This is permitted only in specified securities and is done at the making up price which is usually the closing price of the last day of settlement. Badla Charge is the consideration or interest paid to the seller by the buyer for carrying over a transaction from one settlement period to another.

Undha Badla and Ulta Badla are called backwardation and they are the reverse of Badla.

Badla led to some unintended and undesirable consequences and, was finally banned in 2001 by the capital markets regulator, Securities and Exchange Board of India.

Statement 3 is correct: Kerb Dealings are the transactions of stocks which take place outside the stock exchanges—unofficially and take place after the normal trading hours.

It is also associated with the trading of shares outside the system of official stock markets or at hours when those stock markets are closed:

The reluctance of banks to lend to private companies forced the city's entrepreneurs to turn to the kerb market.

SFG 2023 | LEVEL 2 | Test #13 – Solutions | 

Source: <https://www.indiaonline.com/knowledge-center/share-market/what-are-bonus-shares>
<https://www.livemint.com/Money/BvQaMQwN3jKefmJvuVVEPP/Dejargoned--Badla-trading.html>

Q.48) Consider the following statements:

1. Under Liquidity adjustment facility (LAF), only scheduled commercial banks are eligible to access funds from RBI.
2. Under Marginal standing facility (MSF), banks cannot borrow money by pledging Government Securities that are part of bank's SLR (Statutory Liquidity Ratio) quota.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) d

Exp) Option d is the correct answer.

Statement 1 is incorrect: Under, liquidity adjustment facility (LAF) all clients of RBI are eligible to access funds. This includes All Scheduled Commercial Banks (excluding Regional Rural Banks) and Primary Dealers (PDs). Whereas under marginal standing facility only scheduled commercial banks can bid.

Statement 2 is incorrect: Under marginal standing facility, bank can sell the Government security from its SLR quota to RBI while this cannot be done for the LAF.

Source: <https://economictimes.indiatimes.com/definition/marginal-standing-facility>

Q.49) With reference to Call money Market, consider the following statements:

1. Call money is non-interest-earning financial loan with a set maturity date.
2. Call money is a short-term loan from one to 14 days made by a financial institution to another financial institution.
3. Call money is used by brokerage firms for short-term funding needs.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

Statement 1 is incorrect. Call money, also known as "money at call," is a short-term financial loan that is payable **immediately, and in full, when the lender demands it**. Unlike a term loan, which has a set maturity and payment schedule, call money does not have to follow a fixed schedule, nor does the lender have to provide any advanced notice of repayment. It is an interest paying loan but due to its short-term nature, it does not feature regular principal and interest payments which longer term loans might.

Statement 2 is correct. Call money is a short-term, interest-paying loan from **one to 14 days** made by a **financial institution to another financial institution**. Due to the short-term nature of the loan, it does not feature regular principal and interest payments, which longer-term loans might. The interest charged on a call loan between financial institutions is referred to as the call loan rate.

Statement 3 is correct. Call money is typically **used by brokerage firms** for short-term funding needs. Dealing in call money allows banks the opportunity to earn interest on surplus funds.

Source: <https://www.investopedia.com/terms/c/call-money.asp>

Q.50) Consider the following statements about Rural Electrification Corporation Limited:

1. It is a Navratna Company functioning under the administrative control of the Ministry of Rural Development.
2. It provides loans to the Central and State Sector Power Utilities and Rural Electric Cooperatives for building power generation projects.
3. It is the nodal agency for Pradhan Mantri Sahaj Bijli Har Ghar Yojana and Deen Dayal Upadhaya Gram Jyoti Yojana.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 and 3 only
- c) 1 and 2 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

Union Cabinet has recently approved the sale of a majority stake in Rural Electrification Corporation (REC) to Power Finance Corporation (PFC). REC came into being in 1969 to articulate a response to the pressing exigencies of the nation.

Statement 1 is incorrect: Rural Electrification Corporation is a Navratna Company functioning under the purview of the Ministry of Power.

Statement 2 is correct: It takes the role of public Infrastructure Finance Company in India's power sector and promotes rural electrification projects across India. The company provides loans to Central/ State Sector Power Utilities, State Electricity Boards, Rural Electric Cooperatives, NGOs and Private Power Developers for power generation projects.

Statement 3 is correct:

REC is the Nodal Agency for Government of India's flagship schemes viz. Pradhan Mantri Sahaj Bijli Har Ghar Yojana (SAUBHAGAYA), Deen Dayal Upadhaya Gram Jyoti Yojana (DDUGJY) and National Electricity Fund (NEF). Further, alongwith PFC, REC has also been designated as Nodal Agency for Revamped Distribution Sector Scheme (RDSS). Besides, REC assists Ministry of Power in monitoring of the Ujjwal Discom Assurance Yojana (UDAY) which seeks to operationally reform and financially turnaround the power distribution companies of the country.

Knowledge Base:

PFC is essentially a state-run non-banking financial company that focuses on power infrastructure, while REC is an implementation and finance company with a focus on generation.

SAUBHAGYA- Pradhan Mantri Sahaj Bijli Har Ghar Yojana was launched to achieve universal household electrification covering every village and every district in the country. All DISCOMs including Private Sector DISCOMs, State Power Departments and RE Cooperative Societies are eligible for financial assistance under this scheme.

SFG 2023 | LEVEL 2 | Test #14 – Solutions | ForumIAS

Q.1) Consider the following statements regarding Value Added Tax (VAT):

1. It is a single point tax levied during the sale of a product.
2. After the introduction of the Goods and Services Tax, Vat is completely abolished in India.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) d

Exp) Option d is the correct answer.

Value Added Tax (VAT) is a form of sales tax. It is collected in stages on transactions involving sales of goods. Tax paid on purchases (input tax) is rebated against tax payable on sales (output tax). VAT is levied on sales of all taxable goods. VAT is not levied if sales of goods are not made in the course of or in furtherance of business.

Statement 1 is incorrect: The value added tax (VAT) is a method of tax collection as well as the name of a state level tax (at present) in India. It is collected in many stages on transactions involving sales of goods (not levied on any single stage only). Basically, it is a type of indirect tax levied on goods and services for value added at every point of production or distribution cycle, starting from raw materials and going all the way to the final retail purchase. To remove the cascading effect of single point tax collection VAT was introduced.

Statement 2 is incorrect: Currently the **majority of the state's indirect taxes has been subsumed under GST**. After the implementation of the GST, **VAT on petroleum (petroleum crude, petrol, high speed diesel, natural gas and aviation turbine fuel) and alcohol** is still under the purview of states.

Source: Indian Economy by Ramesh Singh

Q.2) Consider the following statements regarding taxation in India:

1. Direct tax has incidence and impact both on the same individual.
2. In indirect tax burden of tax can be shifted to someone else.
3. Indirect taxes are progressive in nature.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 1 and 3 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) a

Exp) Option a is the correct answer.

The point where tax looks as being imposed is known as the incidence of tax—the event of tax imposition. The point where tax makes its effect felt is known as the impact of tax—the after effect of tax imposition.

Statement 1 is correct: The tax which has incidence and impact both at the same point is known as the direct tax. In the case of direct tax, **the burden can't be shifted by the taxpayer to someone else**. These are largely taxes on income or wealth. Income tax, corporation tax, property tax, inheritance tax and gift tax are examples of direct tax.

Statement 2 is correct: The tax which has incidence and impact at the different points is known as the indirect tax. So, in the case of indirect tax, the **burden of tax can be shifted by the taxpayer to someone else**. Indirect tax has the effect of raising the price of the products on which they are imposed. Customs duty, central excise, service tax and value added tax are examples of indirect tax.

Statement 3 is incorrect: Indirect tax is **regressive tax** as it impacts those on lower incomes more than high-income earners. Although everyone pays the same price for the same product, every income is different and, therefore, you may end up paying more as a percentage of your income than a higher income earner.

Source: <https://economictimes.indiatimes.com/definition/direct-tax>

Indian Economy by Ramesh Singh

Q.3) Consider the following statements regarding taxation system:

1. Horizontal equity means individuals having the same income should pay the same amount in taxes.
 2. The proportional taxation method refers to higher rates of tax for individuals with higher income levels.
- Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) a

Exp) Option a is the correct answer.

Taxation debate in developing economies revolves around whether progressive or regressive taxation, direct tax or indirect tax collections should be higher, whether revenue deficit is better, etc.

Statement 1 is correct: Horizontal equity is an economic theory that states that individuals with similar income and assets should pay the same amount in taxes. Horizontal equity should apply to individuals considered equal regardless of the tax system in place. The more neutral a tax system is the more horizontally equitable it is.

Statement 2 is incorrect: In proportional taxation method, there is neither progression nor regression from the point of view rate of taxes point of view. Such taxes have **fixed rates for every level of income or production**, they are neutral from the poor or rich point view or from the point of view of the levels of production. On the other hand, in progressive taxation there is higher rates of tax for higher income levels.

Source: Indian Economy by Ramesh Singh + Investopedia

Q.4) Consider the following statements regarding Goods and Services Tax (GST) in India:

1. There has been a consistent rise in GST collections since its introduction in 2017.
2. It is a destination-based tax on consumption of goods and services.
3. Harmonized System Nomenclature (HSN) for goods used under GST is developed by the World Trade Organization.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

The Goods and Services Tax Act came into force from 1st July 2017. It has rationalised indirect taxation and improved compliance significantly.

Statement 1 is incorrect: **GST collection has not increased consistently since its inception.** In the financial year prior to the onset of the pandemic i.e., 2019-20, the Gross GST collection was Rs.12.11 lakh crores. However, the overall GST collections for 2020-21 were lower than the previous year with only Rs.

SFG 2023 | LEVEL 2 | Test #14 – Solutions | 

11.32 lakh crores. Since the launch of GST, revenues fell short of the Budget estimates, however, 2020-21 was the first instance when the revenue was lower than the previous year.

Year	GST Collection (Rs. In Crores)
FY 2017-18	7,19,078
FY 2018-19	11,77,370
FY 2019-20	12,22,117
FY 2020-21	11,36,803
FY 2021-22	14,76,000

Statement 2 is correct: Goods and Service Tax (GST) is levied on the supply of goods and services. Goods and Services Tax Law in India is a comprehensive, **destination-based consumption tax** that is levied on value addition in supply chain. GST is a single domestic indirect tax law for the entire country.

Statement 3 is incorrect: The World Customs Organization (and not the World Trade Organization) developed the HSN code, or Harmonized System Nomenclature code number, as an internationally accepted commodity description and coding system. More than 200 countries use the HSN code as the basis for their customs tariffs. Currently, over 98% of international trade merchandise is classified using the HSN code. **With the HSN code serving as a universal classification for goods, the Government has decided to use the HSN code for GST classification and levy.**

Knowledge Base: In the recent budget 2023-24 government has made the GST regime more liberal with decriminalisation of cases and easier compliance norms. GST has also been rationalised for some imported items, tobacco products etc.

Indian Economy by Ramesh singh

Q.5) Consider the following statements with reference to the Integrated Cryogenic Engine Manufacturing Facility:

1. India is the only country in Asia to conduct a successful test flight for Cryogenic Engine.
2. Cryogenics is the science that addresses the production and behavior of materials at very low temperatures.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) b

Exp) Option b is the correct answer.

Statement 1 is incorrect: In January 2014 India successfully flew GSLV-D5 with a cryogenic engine and became the sixth country in developing cryogenic engines. Cryogenic engines are the most widely used engines world over in launch vehicles. **India is not the only country in Asia to conduct successful test flight for Cryogenic Engine.** Due to the complex nature of the cryogenic engine, till date only a few countries like the **USA, France, Japan, China and Russia have mastered the cryogenic technology.**

Statement 2 is correct: Cryogenics is the science that addresses the production and behaviour of materials at very low temperatures. It could be used to include all temperatures below the freezing point of water (0 C). In particular, efficient heat exchangers are required to reach very low temperatures. Over

the years the term cryogenics has generally been used to refer to temperatures below approximately -150 C.

Source: https://www.business-standard.com/article/companies/hal-sets-up-rs-208-crore-rocket-engine-manufacturing-facility-for-isro-122092600480_1.html#:~:text=On%20January%20five%2C%202014%20India,developing%20cryogenic%20engines%2C%20it%20said.

Q.6) Consider the following statements regarding commodities transaction tax (CTT) and securities transaction tax (STT) in India:

1. In India CTT is levied on all agricultural and non-agricultural commodities derivative contracts.
2. CTT primarily levied to discourage excessive speculation in commodities market.
3. STT is used to control the evasion of tax on capital gains.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 1 and 3 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

Commodities transaction tax (CTT) and securities transaction tax (STT) are taxes which are charged on exchange-traded commodities and their derivatives in India. The purpose for levying CTT and STT is to increase tax revenue and reduce market volatility.

Statement 1 is incorrect: Commodities Transaction Tax (CTT) is a tax levied in India, on transactions done on the domestic commodity derivatives exchanges. The Union Budget 2013–14 has introduced the commodities transaction tax in India. It is **confined to Non-Agricultural Commodities such as Gold, Silver, commodity futures contracts.**

Statement 2 is correct: Like all financial transaction taxes, CTT also **aims at discouraging excessive speculation**, which is detrimental to the market and to bring parity between securities market and commodities market. Futures contracts are financial instruments and provide for price risk management and price discovery of the underlying asset commodity or currency.

Statement 3 is correct: The Securities Transaction Tax (STT) is a type of ‘financial transaction tax’ levied in India on transactions done on the domestic stock exchanges. Securities transaction tax is levied on gains from securities such as equities, options etc. in domestic stock exchange. **STT is used as a measure to control the evasion of tax on capital gains as it is a direct tax levied on source.**

Source: Indian Economy by Ramesh singh

Q.7) Consider the following statements regarding various types of taxes:

1. Minimum Alternate Tax is levied to bring into the tax net certain ‘zero tax companies.’
2. Alternate minimum tax is levied on both corporate as well as non-corporate entities.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) a

Exp) Option a is the correct answer.

Statement 1 is correct: MAT is a tax levied under Income Tax Act of India, 1961. There are several **zero tax companies** that book high profit but pay almost nil taxes by rolling out substantial dividends to their shareholders. MAT is used to limit tax exemptions availed by companies, so that they pay at least a minimum amount of corporate tax to the government. The key reason for the introduction of MAT is to **ensure minimum levels of taxation for all domestic and foreign companies** in India.

Statement 2 is incorrect: Under the Income Tax Act of India, 1961, certain tax benefits can significantly reduce a taxpayer's regular tax amount. The **alternative minimum tax (AMT)** applies to taxpayers with high economic income by setting a limit on those benefits. It helps to ensure that those taxpayers **pay at least a minimum amount of tax. It is the tax levied on non-corporate (not on corporates) entities similarly as MAT is applied on corporate entities.**

Knowledge Base: Currently Minimum alternate tax rate is 15% for corporate companies operating in India. In case of non-corporate taxpayer, AMT is levied at 18.5%* of adjusted total income.

Indian Economy by Ramesh Singh

Q.8) Which among the following will fall under capital assets for the purpose of capital gains tax in India?

1. Mutual funds
2. Zero coupon bonds
3. Preference Shares
4. Sale of Paintings in the market

Select the correct answer using the code given below:

- a) 1, 2 and 3 only
- b) 2, 3 and 4 only
- c) 1, 2, and 4 only
- d) 1, 2, 3 and 4

Ans) d

Exp) Option d is the correct answer.

Profits or gains arising from transfer of a capital asset are called “Capital Gains” and are charged to tax under the head “Capital Gains”.

Options 1, 2, 3, and 4 are correct: Assets like **mutual funds, shares (including preference share), bonds (including zero coupon bonds), debentures, paintings sold in the market etc.** are considered **capital assets** for the purpose of levying capital gain tax.

They can be further classified between **long term and short term** for taxation purpose. Any capital asset held by the taxpayer for a period of not more than **36 months** immediately preceding the date of its transfer will be treated as short-term capital asset.

Source : <https://incometaxindia.gov.in/tutorials/14-%20stcg.pdf>

Indian Economy by Ramesh Singh

Q.9) Which one of the following statements is correct regarding “tax expenditure”?

- a) It is expenditure incurred during exercise of tax collection.
- b) It is an incentive given by the government by means of various tax exemptions and deductions etc.
- c) It depicts the loss in revenue due to tax evasion.
- d) It is expenditure incurred on acquisition of assets like roads, machinery, etc.

Ans) b

Exp) Option b is the correct answer.

There has been a divergence between the official tax rate and effective tax rate in India—defined as the ratio of total tax collected to the aggregate tax base. The divergence occurs mainly on account of tax exemptions. Tax expenditure also called revenue forgone refers to the opportunity cost of taxing at concessional rates. It includes providing exemptions, deductions, rebates, etc. to the taxpayers.

Statement a is incorrect: Tax Expenditure as the meaning of the word seems, is **not related to the expenditures incurred by the Government** in the tax collection exercise. It denotes concessions provided by the government to the taxpayers.

Statement b is correct: Tax expenditures lower the tax burden of individuals or businesses, through an exemption, deduction etc. But such forgone taxes do not necessarily mean that they have been waived off by the government. Better, it should be interpreted as incentives given by the government to promote certain sectors, in the absence of which they may not have come up.

Statement c is incorrect: Tax evasion means reduced liability by illegal means for the purpose of tax payment by an individual. It is not related to tax expenditure as the latter is provided by the government under taxation laws.

Statement d is incorrect: Expenditure on acquisition of assets like machines, roads, buildings etc. is called capital expenditure (not the tax expenditure). It is part of the annual budget statement of the government mainly focusing on infrastructure creation.

Source: Indian Economy by Ramesh Singh

Q.10) Consider the following statements with reference to the Kushiara River:

1. Kushiara River Treaty has been signed between India and Bangladesh.
2. Kushiara is a distributary of the Barak River.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) c

Exp) Option c is the correct answer.

Statement 1 is correct: In September 2022, India and Bangladesh have signed a memorandum of understanding on sharing of waters of Kushiara river. A pact that will benefit people residing in southern Assam and the Sylhet division of Bangladesh. The text was finalized during the 38th meeting of the ministerial-level Joint Rivers Commission (JRC) of India and Bangladesh. The two sides were led by Jal Shakti Minister Gajendra Singh Shekhawat and his Bangladesh counterpart, Zaheed Farooque.

- 1) **Kushiara river treaty is not the first memorandum of understanding between India and Bangladesh.** The comprehensive bilateral **Ganga water treaty** was signed by the then Indian Prime Minister H. D. Deve Gowda and Bangladeshi Prime Minister Sheikh Hasina Wajed on 12 December 1996 in New Delhi. The treaty established a 30-year water-sharing arrangement and recognized Bangladesh's rights as a lower-level riparian.

Statement 2 is correct: Kushiara River is a distributary river in Bangladesh and Assam. It forms on the India-Bangladesh border as a branch of the Barak River when the Barak separates into the Kushiara and Surma. The waters of the Kushiara originate in the state of Nagaland and pick up tributaries from Manipur, Mizoram and Assam.

Q.11) Consider the following statements about Surplus Budget, in the context of public finances in India:

1. Surplus budget is a situation in which incomes/receipts of Government are higher than its expenditures.
2. Surplus budget will always lead to a rise of interest rates in the economy, thus increasing costs of borrowings.

Which of the statement given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) a

Exp) Option a is the correct answer.

Budget is an annual financial statement of a government's income (revenue) and expenditure. It can be of two primary types based on the relationship between revenue and expenditures.

Statement 1 is correct: When a budget proposes lesser expenditure than the receipts, then it is called a surplus budget. On the contrary, when it proposes higher expenditure than the receipts, it is known as a deficit budget.

Statement 2 is incorrect: Running a surplus budget means that, the government has additional money to spend at the end of the fiscal year. Hence, it reduces the need for borrowing through corporate or government bond issues. **This will reduce interest rates in the country, thus ultimately reducing borrowing cost in the country.**

Source: Indian Economy by Ramesh Singh, 13th edition, Chapter 18 (pg. 18.10)

<https://www.investopedia.com/terms/b/budget-surplus.asp#:~:text=A%20budget%20surplus%20is%20when,used%20to%20pay%20off%20deb>

Q.12) Fiscal consolidation is one of the objectives of India's economic policy. In this context consider the following actions:

1. Improving tax revenue realization.
2. Getting more foreign loans

3. Better targeting of government subsidies through Direct Benefit transfer.

Which of the above given actions of government may help in fiscal consolidation?

- a) 1 and 3 only
- b) 2 and 3 only
- c) 1 and 2 only
- d) 1, 2, and 3

Ans) a

Exp) Option a is the correct answer.

Fiscal consolidation is a reduction in the underlying fiscal deficit. So, by increasing revenues and decreasing expenditure, the Government can undertake fiscal consolidation.

Statement 1 is correct: Improved tax revenue realization by way of increasing efficiency of tax administration by reducing tax avoidance, eliminating tax evasion, enhancing tax compliance etc. will help in Fiscal consolidation.

Statement 2 is incorrect: While getting more loans may increase receipts, it will not help in fiscal consolidation as that loan has to be repaid back along with interest. It will increase the debt of the government. So, loans add more to the expenditure than they contribute to receipts.

Statement 3 is correct. Better targeting of government subsidies and extending Direct Benefit Transfer scheme for more subsidies may help in Fiscal consolidation.

Source: Ramesh Singh

Q.13) Consider the following statements with regards to Zero Based Budgeting:

1. It is a method of budgeting in which all expenses must be justified at the beginning of each financial year.
2. It allows the unspent money allocated to a particular ministry to be carried forward in the next financial year.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) a

Exp) Option a is the correct answer.

As the name suggests, zero-based Budget refers to planning and preparing the Budget from scratch or 'zero base'. It is different from a traditional Budget that is based on previous Budgets. The process of zero-based budgeting involves review and justification of each and every ministry's expenditure in order to receive funding at the beginning of each financial year.

Statement 1 is correct: As the name suggests, zero-based Budget refers to planning and preparing the Budget from scratch or 'zero base'. It is different from a traditional Budget that is based on previous Budgets. The process of zero-based budgeting involves review **and justification of each and every ministry's expenditure in order to receive funding at the beginning of each financial year.**

Statement 2 is incorrect: Under the traditional budget system unspent money allocated to any ministry or department is allowed to be carried forward. **In a zero-based Budget, no balances are carried forward, or there are no pre-committed expenses.** Simply put, it is a procedure for preparing a Budget with zero prior bases. Much bigger gains will mount up when hundreds of crores will have to be justified across departments.

Q.14) During the discussion on the Demands for Grants, cut motions can be moved to reduce the amount of demand. In this context, consider the following pairs:

Cut Motion	Description
1. Policy cut	It reduces the amount of the demand by Rs 100.
2. Economy cut	It states that the amount of the demand be reduced by a specified amount.
3. Token cut	It represents the disapproval of the policy underlying the demand.

How many of the above given pairs are correctly matched?

- Only one pair
- Only two pairs
- All three pairs
- None of the above pairs

Ans) a

Exp) Option a is the correct answer.

During voting on demand for grants, the members of Parliament can discuss the details of the budget. They can also move motions to reduce any demand for a grant. Such motions are called as 'cut motion', which are of **three kinds**:

Pair 1 incorrectly matched: Policy Cut Motion represents the disapproval of the policy underlying the demand. It states that the amount of demand be reduced to Re 1 (not 100 Rupees). The members can also advocate an alternative policy.

Pair 2 correctly matched: Economy Cut Motion represents the economy that can be affected in the proposed expenditure. It states that the amount of the demand be reduced by a specified amount (which may be either a lumpsum reduction in the demand or omission or reduction of an item in the demand).

Pair 3 incorrectly matched: Token Cut Motion is used to voice a specific grievance that is within the sphere of responsibility of the Government of India. It reduces the amount of the demand by Rs 100.

Source: Lakshmikanth ch22

Q.15) Consider the following pairs:

Protected Area	Location
1. Coringa Wildlife Sanctuary	Andhra Pradesh
2. Madhav National Park	Chhattisgarh
3. Singalila National Park	West Bengal

Which of the pairs is/are correctly matched?

- 1 and 2 only
- 3 only
- 1 and 3 only
- 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

Protected areas are regions or zones of land or sea which are given certain levels of protection for conservation of biodiversity and socio-environmental values. The four categories of protected areas are: Wildlife Sanctuaries; National Parks; Community Reserves and Conservation Reserves.

Pair 1 is correct. Coringa sanctuary is situated in **Andhra Pradesh** of which a part of **Godavari Mangroves was declared as a wildlife sanctuary** by the Government of Andhra Pradesh. Godavari Mangroves at the Coringa Wildlife Sanctuary (CWLS) are touted to be the **second largest mangroves in India**. About 40% of the sanctuary is only sea-backwaters and the rest of the area is intermingled with creeks and gets inundated with tidal waters. The sea coast of the Coringa Wildlife Sanctuary is a breeding ground for **Olive ridley turtles**.

Pair 2 is incorrect. **Madhav National Park** is situated in **Shivpuri district of Madhya Pradesh** on the northern fringe of the Central Highlands of India forming a part of the Upper Vindhyan Hills intermixed with plateaus, and valley sections. The Park represents the Northern Tropical dry deciduous mixed forest as well as dry thorn forest, typical of North-Western Madhya Pradesh. Kardhai is the dominant tree species. Recently the state forest department is planning to **expand the areas of national parks to relocate tigers** who often move out of the buffer zone of other national parks of state.

Pair 3 is correct. **Singalila National Park** is located on the Singalila Ridge at an altitude of more than 7000 feet above sea level, in the **Darjeeling district of West Bengal**. The **Padmaja Naidu Himalayan Zoological Park has started India's first re-wilding programme of red pandas** (*Ailurus fulgens*) to release 20 of these furry mammals in about five years to the forests of Singalila.

Q.16) Regarding the transfer payments, which of the following statements is **incorrect**?

- It is the one-way payment of money made by the government to the people.
- These payments are aimed at redistribution of income.
- Social security payment is a type of transfer payment.
- Subsidies paid to exporters are considered as transfer payments.

Ans) d

Exp) Option d is the correct answer.

Statement a is correct. Transfer payment is the payment by the government in grants, allowances, pensions etc to people such as pensioners, widows, sick etc.

Transfer payments are a one-way payment of money for which no good or service is received in exchange.

Statement b is correct. Transfer payment is aimed at redistribution of income. Government use such payments as means of income redistribution under social welfare programs. It includes payments such as social security, old age or disability pensions, student grants, unemployment compensation, and so on. There is a need to differentiate them from subsidies. Transfer payments are a part of personal income.

Statement c is correct. The most well-known form of transfer payment is likely Social Security payments, whether for retirement or disability. These are considered transfer payments even though most recipients have paid into the system during their working lives. Similarly, unemployment payments are also considered transfer payments.

Statement d is incorrect. **Subsidies paid to exporters, farmers, manufacturers are not** considered transfer payments because they are linked to a commodity transaction.

Source: <https://www.indianeconomy.net/glossary/transfer-payments/>

Q.17) Consider the following statements regarding Public Debt Management in India:

1. Public Debt in India includes both Internal and External Debt incurred by the Central Government.
2. In India, Public Debt Management Agency (PDMA) is solely responsible for managing internal public debt of Central Government currently.
3. Reserve Bank of India is solely responsible for managing External debt of Central Government.

Which of the statements given above is/are correct?

- a) 1 only
- b) 1 and 3 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) a

Exp) Option a is the correct answer.

Government/Public Debt is the money owed by the Union government. It comprises G-secs, Treasury bills, short term borrowings, external assistance. While non-government debt comprises of all the loans raised by private companies, corporate sector and individuals such as home loans, auto loans, personal loans.

Statement 1 is correct: Public Debt in India includes both Internal and External Debt incurred by the Central Government.

Statement 2 is incorrect: Public Debt Management Cell (PDMC) has been established as an interim arrangement before setting up an independent and statutory debt management agency, namely the Public Debt Management Agency (PDMA). PDMA is yet to be established. Currently RBI deals with Internal public debt management of Central Government. The Reserve Bank draws these necessary statutory powers for debt management from Section 21 of the Reserve Bank of India Act, 1934.

Statement 3 is incorrect: Department of Economic Affairs under Ministry of Finance is responsible for management of external debt for Central Government (not the Reserve Bank of India).

Source: Indian economy by Vivek Singh <https://dea.gov.in/divisionbranch/public-debt-management-cell>

[http://www.arthapedia.in/index.php/Public_Debt_Management_Agency_\(PDMA\)](http://www.arthapedia.in/index.php/Public_Debt_Management_Agency_(PDMA))

https://rbi.org.in/scripts/FS_Overview.aspx?fn=2757

Q.18) Consider the following statements regarding the trends in Capital expenditure of Union Government:

1. The capital expenditure to GDP ratio of the Union Government has increased steadily in the last five years.
2. The capital expenditure to GDP ratio of Union Government is more than 10% of the GDP for the year 2022.
3. The percentage share of Capital expenditure in the total Union Government expenditure has continuously decreased in the last five years.

Which of the statements given above are correct?

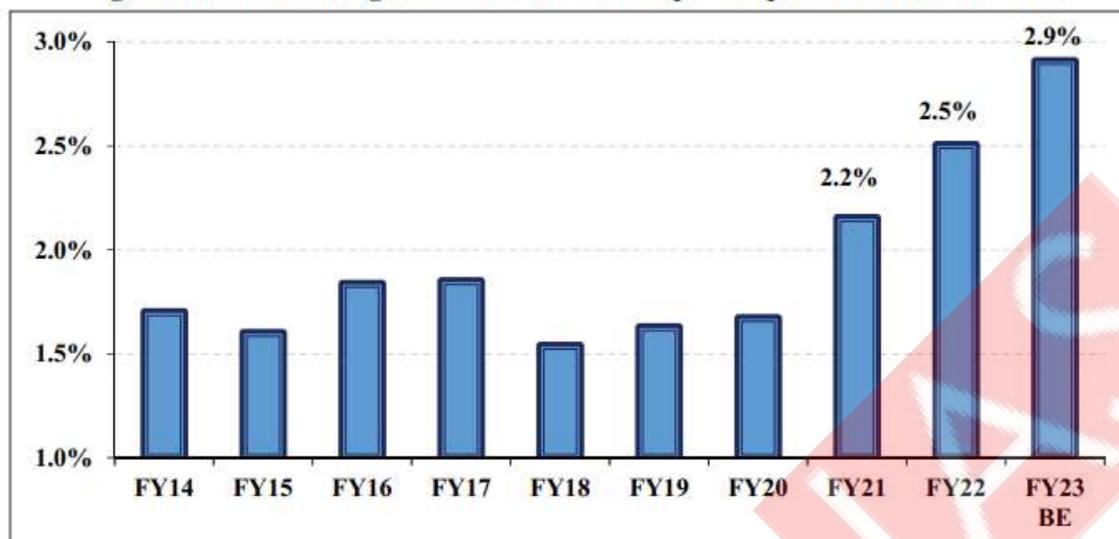

- a) 1 only
- b) 1 and 3 only
- c) 2 only
- d) 2 and 3 only

Ans) a

Exp) Option a is the correct answer.

Statement 1 is correct: Since 2018, the capital expenditure to GDP ratio of the Union Government has increased steadily. In 2018, the Capital expenditure to GDP ratio of Union government was nearly about 1.5% whereas it has increased steadily to reach 2.5% for 2022.

Figure III.7: Increasing Union Government capital expenditure to GDP ratio

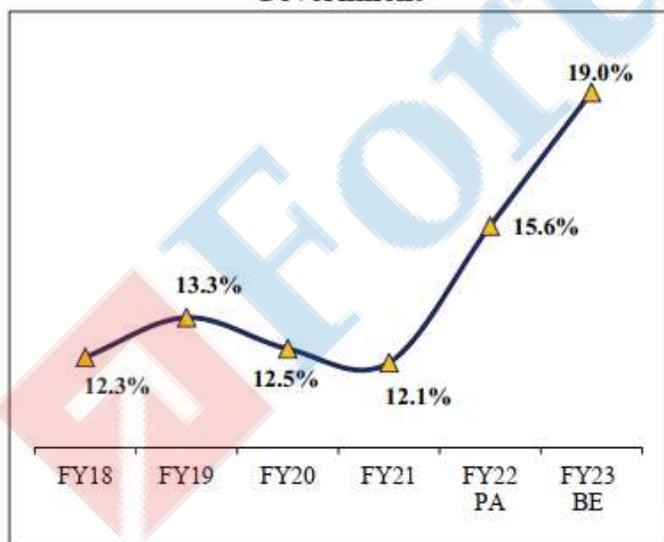

Source: Previous Economic Surveys, Union Budget documents, O/o CGA

Statement 2 is incorrect: The capital expenditure to GDP ratio of Union Government was 2.5 % of the GDP in the year 2022. It has increased from 2.2% in the year 2021.

Statement 3 is incorrect: The share of Capital expenditure of the total union government expenditure has not decreased in the last 5 years. It can be seen from the graph given below that there has been a pattern of increasing and decreasing capital expenditure in total expenditure of Union government.

Figure III.8: Rising share of Capital Expenditure in Total Expenditure of the Union Government

Source: Union Budget documents, O/o CGA

Source: Budget 2023-24

Q.19) Consider the following statements regarding the trends in Fiscal Deficit for India:

1. The fiscal deficit of the Union Government as a percentage of GDP has increased steadily in the last 5 years.
2. The fiscal deficit of the Union Government has never been more than 10 percent of GDP in the last five years.

Which of the statements given above are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

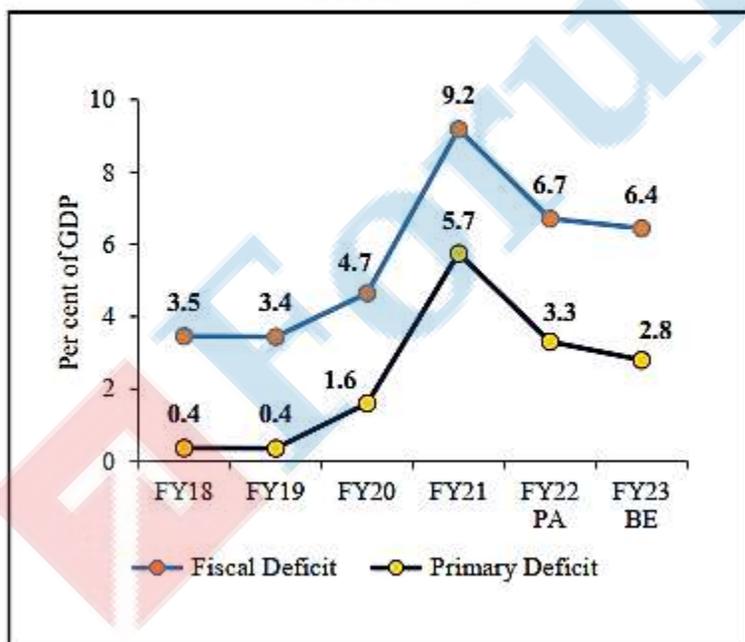

Ans) b

Exp) Option b is the correct answer.

Statement 1 is incorrect and statement 2 is correct: As is evident from the chart given below the fiscal deficit of Union government as percentage of GDP decreased in FY 2019 and increased in FY 2020 and FY 2021 and then again decreased since FY 2022. So, the fiscal deficit has not been steadily increasing in the last five years.

Also, it is evident from the graph that the fiscal deficit of Union government as percentage of GDP reached 9.2 percent in FY 2021 but did not cross 10 percentage mark in last 5 years.

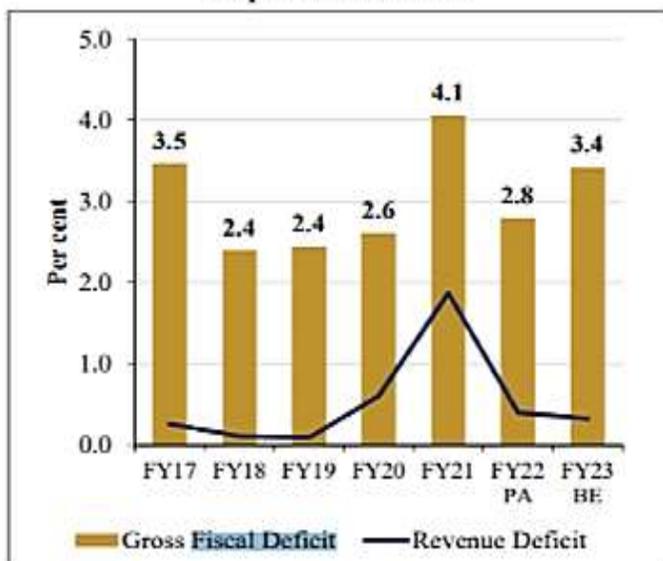

Figure III.1: Trends in Union government deficits over the years- On the way to fiscal consolidation

Source: Union Budget documents, O/o CGA

Statement 2 is incorrect: The combined Gross Fiscal Deficit (GFD) of the States, was 3.5 percent of GDP in FY17, which increased to 4.1 per cent of GDP in the pandemic-affected year FY21. It was brought down to 2.8 per cent in FY22 PA. Given the geopolitical uncertainties, the consolidated GFD-GDP ratio for States has been budgeted 3.4 per cent in FY23. Thus, it can be seen that combined GFD decreased from FY2017.

Figure III.11: Consolidation of States' Deficits as per cent of GDP

Source: Economic Survey

Q.20) Consider the following statements with reference to the National Council of Educational Research and Training (NCERT):

1. It is statutory organisation set up in 1961 to assist and advise the Central and State Governments on policies for qualitative improvement in school education.
2. NCERT is an implementation agency for bilateral cultural exchange programmes with other countries in the field of school education.
3. Its executive Committee meeting is chaired by the Union Education minister.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

Statement 1 is incorrect: The National Council of Educational Research and Training (NCERT) is an **autonomous organization (But not a Statutory organization as it is not set up by an Act of Parliament)** set up in 1961 by the Government of India to assist and advise the Central and State Governments on **policies and programmes for qualitative improvement in school education**. The major objectives of NCERT and its constituent units are to undertake, promote and coordinate research in areas related to school education; prepare and publish model textbooks, supplementary material, newsletters, and journals and develops educational kits, multimedia digital materials, etc.

Statement 2 is correct: National Council of Educational Research and Training (NCERT) is an **implementation agency for bilateral cultural exchange programmes with other countries in the field of school education**. The NCERT also interacts and works in collaboration with the international organizations, visiting foreign delegations and offers various training facilities to educational personnel from developing countries.

Statement 3 is correct: The Council's Executive Committee's meeting is chaired by the Union Education minister. Recently the executive committee of the council has granted approval to the National Council of Educational Research and Training (NCERT) to get the 'Deemed-to-be-University' status. Deemed University is an institution which can apply to the UGC for setting up a new institution as deemed to be University which will undertake study and research in unique and emerging areas of knowledge that are not offered by any existing institution.

Q.21) Consider the following statements regarding the non-Debt receipts of Government of India:

1. The Union government's non-debt receipts comprise taxes, non-tax revenue receipts and non-debt capital receipts.
2. The Non-tax revenue receipts have been the largest component of non-Debt receipts of Government of India for last 5 years.

Which of the statements given above are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) a

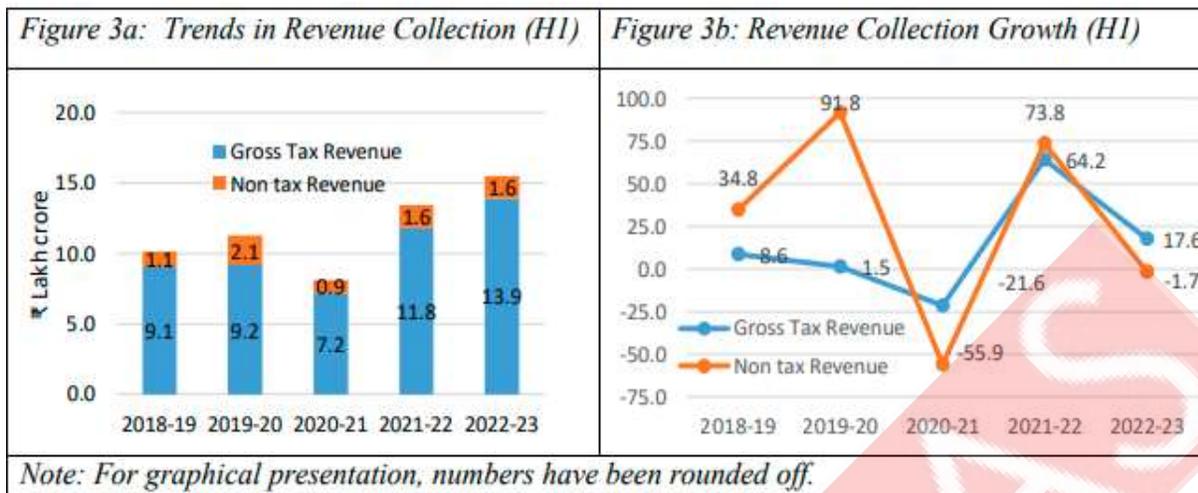

Exp) Option a is the correct answer.

Non-debt receipts refer to the revenue received by the government through sources other than borrowing, such as taxes, fees, fines, and other sources of income. In other words, non-debt receipts are the income earned by the government that does not add to the public debt burden. These receipts are also known as "revenue receipts" as they reflect the government's income from various sources.

Statement 1 is correct: non-debt receipts include:

- 1) Taxes: such as income tax, corporate tax, excise duty, customs duty, and service tax.
- 2) Non-Tax Revenue: such as dividends from public sector companies, profits from the sale of government assets, and revenue from public services.
- 3) Fees and Fines: such as fees charged for Government services, parking fees, and fines for traffic violations.
- 4) Grants: such as foreign aid and grants from international organizations like the World Bank and the International Monetary Fund.
- 5) non-debt capital receipts: such as Disinvestment proceeds, Recovery of loans, Sale of assets, Recovery of advances, etc.

Statement 2 is incorrect: It is evident from the charts given below that the Tax revenue is way larger component than the non-tax revenue receipts. Hence the Tax revenue receipts are the largest component of the non-Debt receipts of the Central Government rather than the non-tax revenue receipts. (Again, the non-debt capital receipts form a smaller part of total non-debt receipts even way smaller than the non-tax revenue receipts).

Source: <https://www.financialexpress.com/what-is/non-debt-capital-receipts-meaning/1762666/>
<https://www.thehindu.com/business/Economy/explained-the-status-and-proceeds-of-disinvestment/article66485958.ece>

Q.22) Which of the options given below correctly explains the term 'Fiscal marksmanship'?

- It is the difference between the Governments' budgetary expenditures and the revenue receipts.
- It refers to the accuracy of the government's forecast of fiscal parameters.
- It refers to the sharing of tax revenues by the Union government with the states as per the spirit of fiscal federalism.
- It is the deflationary effect of a progressive taxation system on a country's economy.

Ans) b

Exp) Option b is the correct answer.

Fiscal marksmanship essentially refers to the **accuracy of the government's forecast of fiscal parameters** such as revenues, expenditures and deficits etc. In other words, if the difference between what the government projected in the Budget and the actual figures a year later is large then it reflects poor fiscal marksmanship. It helps determine the credibility of the budget numbers of the government.

Source: <https://indianexpress.com/article/explained/explained-what-ails-with-the-credibility-of-indias-budget-numbers-6239577/>

Q.23) Consider the following statements regarding the Central Board of Indirect Taxes and Customs (CBIC):

- It comes under the Department of Economics Affairs, Ministry of Finance.
- It administers matters relating to Customs, Central Excise and Narcotics, etc.
- It is a statutory body established under the Central Boards of Revenue Act, 1963.

Which of the statements given above are correct?

- 1 only
- 2 and 3 only
- 1 and 2 only
- 1, 2, and 3

Ans) b

Exp) Option b is the correct answer.

Statements 1 is incorrect and 2 is correct: Central Board of Indirect Taxes and Customs (erstwhile Central Board of Excise & Customs) is a part of the **Department of Revenue under the Ministry of Finance**, Government of India. It deals with the tasks of formulation of policy concerning levy and collection of Customs, Central Excise duties, Central Goods & Services Tax and IGST, prevention of smuggling **and administration of matters relating to Customs, Central Excise, Central Goods & Services Tax, IGST and Narcotics** to the extent under CBIC's purview.

Statement 3 is correct: CBIC is a **statutory body** established **under the Central Boards of Revenue Act, 1963**. The Central Board of Excise and Customs (CBEC) was renamed as the Central Board of Indirect Taxes and Customs (CBIC) in 2018 after the roll out of Goods and Services Tax (GST).

Source: <https://old.cbic.gov.in/htdocs-cbec/howeare/howeare?pageID=1-1>

Q.24) Consider the following statements regarding the debt profile of the Union Government:

1. The total liabilities of the Union Government have consistently remained below 50 % of GDP in the last ten years.
2. More than 90 per cent of the Union Government's total net liabilities is denominated in domestic currency.

Which of the statements given above are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

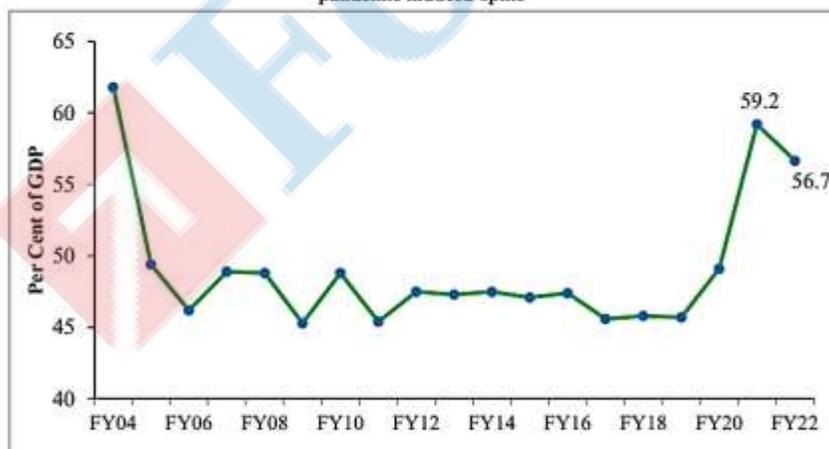

Ans) b

Exp) Option b is the correct answer.

Given the unprecedented fiscal expansion in 2020, rising government liabilities have emerged as a significant concern across the globe. IMF projects the global government debt at 91 per cent of GDP in 2022, about 7.5 percentage points above the pre-pandemic levels.

Statement 1 is incorrect: As seen in the figure in the past decade between 2011 to 2020, the total liabilities of the Union Government were relatively stable and below 50% of GDP but it has crossed the mark of 50% in FY21 and FY 2022. Hence the statement is incorrect.

Figure III.14: Moderating Union Government's Debt-GDP ratio after the pandemic induced-spike

Source: Various Issues of Status Paper on Government Debt
Note: The Figures for FY22 are Provisional

Statement 2 is correct: India's public debt profile is relatively stable and is characterized by low currency and interest rate risks. **Of the Union Government's total net liabilities, 95.1 per cent were denominated**

in domestic currency, while sovereign external debt constituted 4.9 per cent, implying low currency risk. Further, sovereign external debt is entirely from official sources, which insulates it from volatility in the international capital markets.

<https://pib.gov.in/PressReleasePage.aspx?PRID=1894921#:~:text=India's%20public%20debt%20profile%20is,%25%2C%20implying%20low%20currency%20risk.>

Q.25) With reference to Scheme for Economic Empowerment of DNTs (SEED) Scheme, consider the following statements:

1. It is an initiative for the economic development of De-notified Tribes.
2. It is implemented by the Ministry of Social Justice & Empowerment.
3. It will provide health insurance cover to eligible families.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

The Minister of Social Justice and Empowerment launched the Scheme for Economic Empowerment of DNTs (SEED) for the welfare of De-notified, Nomadic and Semi Nomadic Communities.

Statement 1 is correct. The **Scheme for Economic Empowerment of Denotified tribes (DNTs) (SEED)** aims to economically empower De-notified, Nomadic and Semi Nomadic Communities. There are four components of the SEED scheme:

- 1) Educational empowerment- Free coaching to students from these communities for Civil Services, entry to professional courses like medicine, engineering, MBA, etc.
- 2) Health Insurance through PMJAY of National Health Authority.
- 3) Livelihoods to support income generation, and
- 4) Housing through PMAY/IAY

Statement 2 is correct. The Scheme for Economic Empowerment of DNTs (SEED) is implemented by the **Ministry of Social Justice & Empowerment** for a period of 5 years starting Financial Year 2021-22 to 2025-26.

Statement 3 is correct. The Scheme for Economic Empowerment of DNTs (SEED) will provide financial assistance to **National Health Authority (NHA)** in association with **State Health Agencies (SHAs)** for providing a health insurance cover of Rs 5 lakhs per family per year to DNT, NT and SNT families as per norms of AB-PMJAY. The families having income from all sources of Rs.2.50 lakh or less per annum and not availing any such benefits from similar Scheme of Centre Government or the State Government are eligible for availing benefits of SEED Scheme.

Q.26) Consider the following statements regarding the scheme ‘Special Assistance to States for Capital Investment for 2022-23’:

1. It will provide interest-free loans to the States.
2. Funds under the scheme can be used by the states for the new infrastructure projects only.
3. The loan under the scheme would be over and above the normal borrowing ceiling allowed to State for the year 2022-23

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2, and 3

Ans) c

Exp) Option c is the correct answer.

Capital Expenditure has a high multiplier effect, enhances the future productive capacity of the economy, and results in a higher rate of economic growth.

Statement 1 is correct: The Government of India has launched a Scheme Special Assistance to States for Capital Investment for 2022-23. Under this Scheme, financial assistance is provided to the States Governments in the form of **50-year interest free loan for capital investment projects.**

Statement 2 is incorrect: Funds under the scheme will be used for the new and ongoing infrastructure projects of the state governments. Projects with capital outlay of less than 5 crore (2 crore for Northeast) and repair and maintenance projects irrespective of capital outlay are **not eligible for the scheme.** The funds will be utilized for capital works under Pradhan Mantri Gati Shakti Master Plan, PM Gram Sadak Yojana, Incentives for digitization, Optical Fiber Cable, Urban reforms, Disinvestment and monetization, etc.

Statement 3 is correct: For the 2022-23 Financial Year (FY) a total financial assistance of **Rs 1 lakh crore would be given to states.** The loan under the scheme would be over and above the normal borrowing ceiling allowed to States for the year 2022-23 and should be spent in the same year.

Source: https://finance.cg.gov.in/Special_Assistance.pdf

Q.27) With reference to the Extra-Budgetary borrowing, consider the following statements:

1. They are financial liabilities not raised directly by the Government but by another Public Institution with the direction of Government.
2. They are not included in the fiscal deficit of Government.
3. They are added to the total debt of the government.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 1 and 3 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

Statement 1 is correct: According to the budget document, Extra budgetary resources (EBRs) are those financial liabilities that are raised by Public Sector Undertakings for which repayment of entire principal and interest is done from Government budget. **They are financial liabilities not raised directly by the Government but by another Public Institution on the direction of Government.**

Statements 2 and 3 are correct: Extra budgetary resources (EBRs) are made by state-owned firms to fund government schemes but are not part of the official budget calculations. **Extra budget borrowing is excluded from the fiscal deficit calculations. Since, the liability of the loan is not formally on the Centre, the loan is not included in the national fiscal deficit.** This helps keep the country's fiscal deficit within acceptable limits. But at the same time, they are **added to the total debt of the government.**

Source: <https://indianexpress.com/article/explained/why-govt-borrows-off-budget-and-how-7162925/>

<https://www.indianeconomy.net/splclassroom/what-are-extra-budgetary-off-budget-borrowings/>

<https://www.indiabudget.gov.in/economicsurvey/doc/echapter.pdf>

Q.28) Consider the following statements regarding the various funds which are transferred to the state governments by Central Government:

1. Total transfers to the States have been steadily declining since 2019.
2. Between the financial years 2019 and 2023, there has been a steady increase in transfers of Finance Commission grants from the Centre to states.
3. The funds transferred under the centrally sponsored schemes have been on the rise since the financial year 2019.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 1 and 3 only
- c) 3 only
- d) 1, 2, and 3

Ans) c

Exp) Option c is the correct answer.

Statement 1 is incorrect: Transfer of funds to the States comprises the share of States in Union taxes devolved to the States, Finance Commission Grants, Centrally Sponsored Schemes (CSS), and other transfers. **Total transfers to the States have risen between FY 2019 and FY 2023 BE.** See fig III.6. As seen in the figure, the transfer under all the heads has been increasing in general.

Table III.6: Details of transfers from Centre to States (other than devolution to States)

	FY19	FY20	FY21	FY22 RE	FY23 BE
	(in ₹ lakh crore)				
Centrally Sponsored Schemes	3.0	3.1	3.8	4.2	4.4
Finance Commission Grants	0.9	1.2	1.8	2.1	1.9
Other Grants/Loans/Transfers	0.9	2.0	1.9	2.3	3.0

Source: Union budget documents

Statement 2 is incorrect: Between 2019 and 2022, there has been steady increase in transfer of Finance Commission grants to states. The Finance commission grants for the year 2019 was 0.9 lakh crore, which increased to 1.2 lakh crore in the year 2020. In 2021 the grants increased to 1.8 lakh crore and in 2022 to 2.1 lakh crore. But in financial year 23 the grants decreased to 1.9 lakh crore. So, it breaks the trend of steady increase. Hence the statement is incorrect.

Statement 3 is correct: The funds transferred under the centrally sponsored schemes are on the rise since 2019. The funds transferred under the centrally sponsored scheme were 3 lakh crores for FY2019, which further increased to 3.1 lakh crore in FY2020. In FY2021 it increased to 3.8 lakh crore and in FY2022 it increases to 4.2 lakh crore.

Source: Page 56, chapter 3- Fiscal Developments- Revenue Relish of Economic survey 2022-23.

SFG 2023 | LEVEL 2 | Test #14 – Solutions |

Q.29) Consider the following statements regarding the recent trends in the expenditure on Subsidies by Union Government:

1. The Union Budget 2023-24 has reduced the subsidy on food, fertilizer and fuel compared to 2022-23.
2. The Union Government spent nearly 10% of GDP on subsidies component in the year 2022.

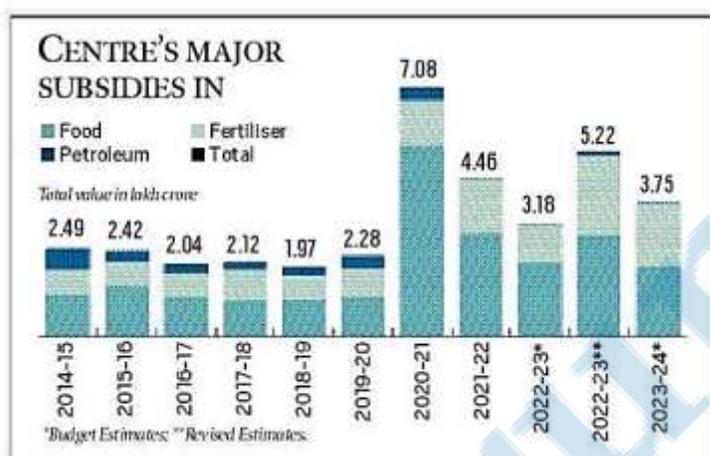

Which of the statements given above are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) a

Exp) Option a is the correct answer.

Statement 1 is correct: Food, fertilizer and petroleum subsidies in 2023-24 have been reduced by almost 28.2% to Rs 3.74 lakh crore from the revised Rs 5.21 lakh crore in 2022-23. The reduction is in line with lower fiscal deficit as the government focuses on macroeconomic stability amid global turbulence.

Statement 2 is incorrect. The Union Government's expenditure on subsidies is way below 10% of GDP. For FY22 it was 1.9% of GDP and for the current financial year it is estimated to be 1.2% of GDP.

Table III.5: Major Items of Revenue Expenditure by Union Government

Items	FY18	FY19	FY20	FY21	FY22 PA*	FY23 BE
(in ₹ Lakh crore)						
Revenue Expenditure of which	18.79	20.07	23.51	30.84	32.01	31.95
a. Salaries (pay & allowances)	1.94	2.11	2.28	3.34	3.67	4.10
b. Pensions	1.46	1.6	1.84	2.08	1.99	2.07
c. Interest payment	5.29	5.83	6.12	6.80	8.05	9.41
d. Major subsidies	1.91	1.97	2.28	7.08	4.46	3.18
e. Defence Services	1.86	1.96	2.08	2.06	2.29	2.33

Note: Salaries for FY22 are Revised estimates

Source: Union Budget documents, O/o CGA

Source: Page 52, chapter 3- Fiscal Developments- Revenue Relish of Economic survey 2022-23.

Q.30) Which of the following statements correctly describes ‘Reverse Currency War’?

- It is a situation where countries make the exchange rate of their currency fall in relation to other currencies.
- It is a situation in which countries are trying to make their currency stronger.
- It is a situation in which a country's currency price is set by foreign exchange market relative to supply and demand of other currencies.
- It is a situation where two countries exchange principal or interest payment with one another to gain exposure to a desired currency.

Ans) b

Exp) Option b is the correct answer.

Recently, The US Central Bank has been increasing the interest rates after the US inflation soar upto to 9.1% in June 2022. It has led to a reverse currency war in central banks around the world struggling to keep pace with an aggressive federal reserve and a soaring dollar.

Option a is incorrect. **Currency war** is a situation where countries **devalue their currency** to improve a nation's foreign **trade competitiveness** at the expense of other nations. It is a deliberate move to reduce the purchasing power of a nation's own currency. For instance, in the past, the US has often accused other countries of manipulating their currency (and keeping it weaker against the dollar) just to enjoy a trade surplus against the US. This used to be called the Currency War.

Option b is correct. **Reverse Currency War** is a situation in which countries are trying to make their **currency stronger**. Stronger currency means that imports are relatively cheaper. For instance, central banks are trying to figure out ways to counter the US Fed and raise interest rates themselves to ensure their currency doesn't lose too much value against the dollar.

Option c is incorrect. A **floating exchange rate** is an exchange rate system where a country's **currency price is determined by the foreign exchange market**, depending on the relative supply and demand of other currencies. A floating exchange rate is **not restrained by trade limits** or government controls, unlike a fixed exchange rate.

Statement d is incorrect. A **currency swap** is a situation where two parties exchange a notional principal or exchange of interest with one another to gain exposure to a desired currency. A **foreign currency swap** occurs between countries to swap interest payments on a loan made in one currency for interest payments on a loan made in another currency. A foreign currency swap can involve exchanging principal, as well. This would be exchanged back when the agreement ends.

Source: <https://www.investopedia.com/articles/investing/090215/3-reasons-why-countries-devalue-their-currency.asp>

<https://www.cfr.org/central-bank-currency-swapssince-financial-crisis/#!/>

<https://blog.forumias.com/yield-inversion-soft-landing-and-reverse-currency-wars-a-glossary-for-the-troubled-global-economy/>

Q.31) Consider the following statements about Monetised Deficit in the context of public finances in India:

- Monetised deficit is the process where the central bank helps government to cover its fiscal deficit.
- RBI is under legal compulsion to purchase the government issued securities to fulfil the fiscal deficit targets of the government.

Which of the statements given above is/are correct?

- 1 only
- 2 only
- Both 1 and 2
- Neither 1 nor 2

Ans) a

Exp) Option a is the correct answer.

Fiscal deficit is a financial situation when balance of the government's total receipts (i.e., revenue + capital receipts) and total expenditure (i.e., revenue + capital expenditures) turns out to be negative. This concept has been used in India since FY 1997-98.

Statement 1 is correct: A government deficit is said to be monetised when the central bank buys bonds or securities issued by the government to cover government's fiscal deficit. Generally, it is done by the purchase of the government issued bonds by the central bank i.e., the RBI. It was adopted in the FY 1997-98. It is shown in the quantitative as well as a per cent of GDP form in a financial year.

Statement 2 is incorrect: RBI finances the government expenditures by subscribing to G-secs (long term) and Treasury bills (short terms). Earlier RBI had to compulsorily subscribe to these government securities as an integral part of the ways and means advances. However, since 1997, RBI stopped being a primary subscriber for the Treasury bills (rather invests in them voluntarily). It was done through an agreement between the central government and the RBI. Similarly, the compulsion for RBI to subscribe the G-secs was dropped in 2007. Now RBI just manages the borrowing programmes of the government.

Source: Indian Economy by Ramesh Singh, 13th edition, Chapter 18 (pg. 18.10)

Q.32) With regard to the surplus income of RBI, which of the following statements is/are **incorrect**?

1. RBI is exempt from paying income tax on its surplus income but has to pay wealth tax.
2. The amount of transfer of surplus to the Centre is decided solely by the government.
3. Surplus income transfer by RBI to the Government forms part of capital receipts of the Government.
4. The Banking Regulations Act of 1949 provides for the transfer of surplus income by the RBI to the Centre.

Select the correct answer using the code given below:

- a) 1, 2 and 4 only
- b) 2 and 3 only
- c) 3 only
- d) 1, 2, 3 and 4

Ans) d

Exp) Option d is the correct answer.

The Reserve Bank of India (RBI) transfers its surplus profits to the Government every year. Surplus profit is the profit left after making various contingency provisions for bad and doubtful debts, depreciation in assets, contributions to staff, and superannuation funds, etc.

Statement 1 is incorrect. RBI is exempted from paying income tax or any other tax, including wealth tax. Section 48 (Exemption of Bank from income-tax and super-tax) of the RBI Act, 1934 provides that the Bank shall not be liable to pay income-tax or super-tax on any of its income, profits or gains.

Statement 2 is incorrect. The amount of transfer of surplus to the Centre is decided by the central bank after consultations with the government. The decision to transfer the surplus is taken at the meeting of the Central Board of Directors of RBI.

Statement 3 is incorrect. Surplus transfer is put under the head 'non-tax revenue' in the revenue budget as it is dividend. It helps the government narrow its deficit or borrowings.

Statement 4 is incorrect. It is not the Banking regulations act 1949, but the section 47 of RBI Act 1935 which provides for the surplus transfer income of RBI to the Centre.

Knowledge Base:

Source of RBI's income –

- 1) Returns it earns on its foreign currency assets which could be in the form of bonds and treasury bills of other central banks or top-rated securities, and deposits with other central banks.

- 2) interest on its holdings of local rupee-denominated government bonds or securities, and while lending to banks for very short tenures, such as overnight.
- 3) management commission on handling the borrowings of state governments and the central government.

Expenditure of RBI-

- 1) expenses on the printing of currency notes
- 2) expenses on staff
- 3) the commission it gives to banks for undertaking transactions on behalf of the government across the country, and to primary dealers, including banks, for underwriting some of these borrowings.

Source: <https://indianexpress.com/article/explained/explained-why-and-how-does-the-rbi-transfer-surplus-to-government-5942031/>

Q.33) Consider the following statements about deficit financing, in the context of Budgeting in India:

1. Deficit financing may increase income inequalities in the economy.
2. Sustained deficit financing by the central government may lead to situation of inflation in the country.
3. State governments can finance their deficits by issuing the treasury bills.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 only
- c) 1 and 3 only
- d) 2 and 3 only

Ans) a

Exp) Option a is the correct answer.

Fiscal deficit is a financial situation when balance of the government's total receipts (i.e., revenue + capital receipts) and total expenditure (i.e., revenue + capital expenditures) turns out to be negative. The act of financing/supporting a deficit budget by a government is known as deficit financing.

Statement 1 is correct: Deficit financing can widen income inequality. This is because of the fact that it creates excess purchasing power. But due to inelasticity in the supply of essential goods, excess purchasing power of the public acts as an incentive to price rise. During inflation, it is said that rich become richer, and the poor becomes poorer.

Statement 2 is correct: The need for deficit financing appears when the government needs to spend more money than it is expected to earn in a particular period, to go for a desired level of growth and development. This rise in aggregate expenditure may in turn increase aggregate demand and hence pose the risk of inflation in the country.

Statement 3 is incorrect: State governments finance their fiscal deficits mostly by the revenue generated from tax and non-tax revenue along with central government's devolution of funds. **Treasury Bills (T-Bills) can be issued in market only by the central government and not by the state governments.** However, state governments can issue Government securities (G-secs) to meet their fiscal deficit targets by borrowing from the market.

Source: Indian Economy by Ramesh Singh, 13th edition, Chapter 18 (pg. 18.11)

<https://www.economicdiscussion.net/public-finance/deficit-financing/deficit-financing-meaning-effects-and-advantages/17460>

Q.34) In context of economy, what do you understand by the phrase ‘Golden Rule of Public Finance’?

- It states that over the economic cycle, the government should borrow only to invest and not to fund regular expenses.
- It states that there would be neither profit nor loss and all companies would earn the same rate of interest in an evenly rotating economy.
- It states that the nation as a whole cannot increase its wealth by increasing its stock of money.
- It means that behind every welfare check and each research grant lies the tax money of real people.

Ans) a

Exp) Option a is the correct answer.

Golden Rule of Public Finance states that over the economic cycle, the government should **borrow only to invest and not to fund current spending** (current expenditure means day to day running expenses). In layman’s term this means that the government borrows to finance investment so that it can benefit future generations.

Under the Rule, existing obligations and expenditures are to be financed through taxation, and not issuing new sovereign debt.

Source: <https://www.investopedia.com/terms/g/golden-rule.asp#:~:text=The%20golden%20rule%20of%20government%20spending%20is%20a%20fiscal%20policy,be%20funded%20by%20tax%20revenues.>

Q.35) With respect to Sulphur Dioxide (SO₂) emissions, consider the following statements:

- Sulphur Dioxide is a constituent that can lead to the formation of acid rain.
- India is the largest emitter of Sulphur Dioxide in the world.
- Volcanoes can be a source of Sulphur Dioxide emissions.

Which of the statements given above is/are correct?

- 1 only
- 2 and 3 only
- 1 and 3 only
- 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

The primary reason for India’s high Sulphur Dioxide (SO₂) emissions is the expansion of coal-based electricity generation over the past decade. India accounted for 21% of global SO₂ emission, mostly from coal-fired power plants that lack pollution-curbing equipment.

Statement 1 is correct: SO₂ can affect both health and the environment. Short-term exposures to SO₂ can harm the human respiratory system and make breathing difficult. **SO₂ and other sulphur oxides can contribute to acid rain which can harm sensitive ecosystems.**

Statement 2 is correct: According to a report by Greenpeace (an environmental Non-Governmental Organization), **India is the largest emitter of Sulphur Dioxide (SO₂) in the world**, contributing more than 15% of global anthropogenic emissions. Sulphur dioxide is a poisonous air pollutant that increases the risk of stroke, heart disease, lung cancer, and premature death. India emitted 21 per cent of global anthropogenic (human-made) SO₂ emissions, nearly double that of second-ranked global emitter, Russia. China occupies the third position.

Statement 3 is correct: The largest source of SO₂ in the atmosphere is the burning of fossil fuels by power plants and other industrial facilities. Smaller sources of SO₂ emissions include: industrial processes such as extracting metal from ore; **natural sources such as volcanoes**; and locomotives, ships and other vehicles and heavy equipment that burn fuel with a high sulfur content.

Q.36) Which of the following can be considered as a part of the revenue expenditure by the government?

1. Interest payment by the government on the internal and external loans.
2. Loan repayment by the government.
3. Subsidies forwarded to all sectors by the government.
4. Grants given by the government to Sri Lanka to get out of its economic crisis.
5. Centre's loan to a state to increase the coverage of Digital India Mission initiative.

Select the correct option from the codes given below:

- a) 1, 2 and 5 only
- b) 3 and 4 only
- c) 2, 4 and 5 only
- d) 1, 3 and 4 only

Ans) d

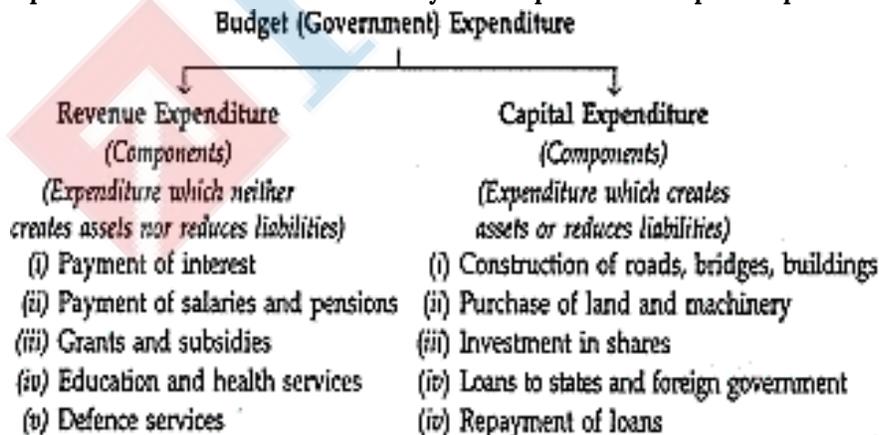

Exp) Option d is the correct answer.

The expenditures which are essential for the normal running of the government are called as the revenue expenditure. The basic identity of the revenue expenditure is that they are of consumptive kind and do not involve the creation of productive assets. Following expenditures generally fall under the category of revenue expenditures in India:

- 1) **Interest payment by the government on the internal and external loans.**
- 2) Salaries, pensions, and provident fund paid by the government to its employees.
- 3) **Subsidies forwarded to all sectors by the government.**
- 4) Defence expenditures by the government.
- 5) Postal deficits of the government.
- 6) Law and order expenditure.
- 7) Expenditure on social services.
- 8) **Grants given by the government to Indian states and foreign countries**

Hence, options 1, 3 and 4 are correct.

Option 2 and 5 are incorrect as they form a part of the capital expenditure of a state/government.

Source: Indian Economy by Ramesh Singh, 13th edition, Chapter 18 (pg. 18.5–18.6)

Q.37) A Company named ‘Y’ is registered in Australia and is providing digital services like advertisements, and e-commerce platform in India without any physical presence. Which of the taxes given below would apply to the revenues of this company in India?

1. Corporate Tax
2. Income Tax
3. Equalization Levy
4. Excise Duty

Select the correct answer using the code given below.

- a) 1 and 4 only
- b) 3 only
- c) 2 and 3 only
- d) 1, 2 and 4 only

Ans) b

Exp) Option b is the correct answer.

Equalization Levy was introduced in India in 2016, with the intention of taxing the digital transactions i.e., the income accruing to foreign e-commerce companies from India. It is aimed at taxing business to business transactions.

Statement 1 is incorrect. Corporate tax is charged on the companies registered in India under Companies Act 1956. As the aforementioned company has not registered itself in India, it will not have to pay corporate tax.

Statement 2 is incorrect. Income tax is imposed under the Income Tax Act of 1961. However, it would be applicable only on companies registered in India.

Statement 3 is correct. An Equalization Levy is levied on company involved in sales of digital services without any physical presence in India. In 2020, the Indian Income-tax Act expanded the scope of Equalization Levy (commonly referred to as ‘Equalization Levy 2.0 or EL 2.0’) as part of the Finance Act 2020. EL 2.0 was made effective on April 1, 2020. The new levy now includes a 2 per cent tax on gross revenues received by a non-resident “e-commerce operator” from the provision of ‘e-commerce supply or service’ to Indian residents or non-resident companies having a permanent establishment in India. The expression ‘e-commerce supply or service’, inter alia, includes the online sale of goods or the online provision of services or facilitation of the online sale of goods or provision of services.

Statement 4 incorrect. An excise or excise tax (sometimes called an excise duty) is a type of tax charged on goods produced within the country (as opposed to customs duties, charged on goods from outside the country). It is a tax on the production or sale of a good.

Source: <https://www.thehindubusinessline.com/business-laws/wider-ramifications-of-equalisation-levy-20/article36813363.ece>

Q.38) With reference to the Medium-Term Fiscal Policy Statement, consider the following statements:

1. It sets three-year rolling target for specific fiscal indicators in relation to GDP.
2. It is presented as part of General Budget by the Union government.
3. It is mandated by the Fiscal Responsibility and Budget Management Act, 2003.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

Statement 1 is correct. The Medium-term Fiscal Policy Statement sets out three-year rolling targets for specific fiscal indicators. These indicators include the following:

- (1) fiscal deficit as a percentage of GDP;
- (2) revenue deficit as a percentage of GDP;
- (3) primary deficit as a percentage of GDP;
- (4) tax revenue as a percentage of GDP;
- (5) non-tax revenue as a percentage of GDP; and
- (6) Central Government debt as a percentage of GDP.

Statement 2 is correct. The Medium-term Fiscal Policy Statement is presented as part of the General Budget. It is presented to Parliament under Section 3(2) of the **Fiscal Responsibility and Budget Management (FRBM) Act, 2003.**

Statement 3 is correct. The **Macro-Economic Framework Statement** is presented to Parliament as mandated by the Fiscal Responsibility and Budget Management Act, 2003. It **makes an assessment of the growth prospects of the economy** with specific underlying assumptions. On the contrary, Medium-term Fiscal Policy Statement examines whether revenue expenditure can be financed through revenue receipts on a sustainable basis and how productively capital receipts including market borrowings are being utilised.

Knowledge Base:

Apart from Medium-term Fiscal Policy Statement, two other statements are presented as part of FRBM Act, 2003:

- 1) The **Fiscal Policy Strategy Statement** sets the priorities of the government in the fiscal area, examining current policies and justifying any deviation in important fiscal measures.
- 2) The **Macroeconomic Framework Statement** assesses the prospects of the economy with respect to the GDP growth rate, fiscal balance of the central government and external balance.

Source: Macroeconomics, NCERT XII, Chapter-5, Pg. 64

Q.39) Which of the following statements are correct regarding of outcome-based budgeting?

1. It is very simple method of budgeting and does not require much technical skills.
2. It was first introduced in India in 1969.
3. Compared to traditional methods, it will reduce the cost of budgeting.

Select the correct answer using the code given below:

- a) 2 only
- b) 1 and 3 only
- c) 3 only
- d) None of the above

Ans) d

Exp) Option d is the correct answer.

The outcome budget is a progress card on what various departments have done with the amount assigned in the previous annual Budget. It measures the outcomes of all government programmes and whether the money has been spent for the purpose it was sanctioned. To enhance the cooperation of line ministries and implementing actors, a robust monitoring mechanism based on Output-Outcome framework has been developed recently in India.

Statement 1 is incorrect: Getting accurate and relevant outcome-based data involves complicated methods and involves a lot of technicalities so this budgeting method is generally complicated and requires much technical skills. Hence the statement is incorrect.

Statement 2 is incorrect: The Outcome budgeting in India was first introduced in 2005-06 budget (not 1969).

Statement 3 is incorrect: Outcome based budgeting will result in additional costs as it requires a higher amount of manpower, technical skills and real time data monitoring and analysis. So, when compared to traditional budgeting, outcome-based budgeting will result in increased costs.

Source: Indian Economy by Ramesh Singh, 13th edition, Chapter 18

Q.40) Consider the following statements about Small Savings Scheme being implemented by the Central Government of India:

1. The collections from all small savings instruments are credited to the National Small Savings Fund (NSSF).
2. Both National Small Savings Certificate (NSC) and Kisan Vikas Patra (KVP) are types of Small Savings Schemes.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) c

Exp) Option c is the correct answer.

Statement 1 is correct: Small Saving Schemes/Instruments are the major source of household savings in India and comprise 12 instruments. The depositors get an assured interest on their money. **Collections from all small savings instruments are credited to the National Small Savings Fund (NSSF).**

Statement 2 is correct: Small savings instruments can be classified under three heads:

- 1) Postal Deposits (comprising savings account, recurring deposits, time deposits of varying maturities and monthly income scheme).
- 2) **Savings Certificates: National Small Savings Certificate (NSC) and Kisan Vikas Patra (KVP).**
- 3) Social Security Schemes: Sukanya Samridhi Scheme, Public Provident Fund (PPF) and Senior Citizens' Savings Scheme (SCSS).

Source: [https://indianexpress.com/article/business/banking-and-finance/interest-rates-on-small-savings-schemes-unchanged-for-first-quarter-of-fy23-](https://indianexpress.com/article/business/banking-and-finance/interest-rates-on-small-savings-schemes-unchanged-for-first-quarter-of-fy23-7846434/#:~:text=The%20interest%20rate%20on%20savings,interest%20of%205.8%20per%20cent.)

https://www.nsiindia.gov.in/InternalPage.aspx?Id_Pk=157

Q.41) Consider the following statements about the Capital receipts in the context of public finances in India:

1. The Capital receipts do not increase the financial liabilities on the government.
2. External grants are considered as Capital receipts.

Which of the statements given above is/are **incorrect**?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) c

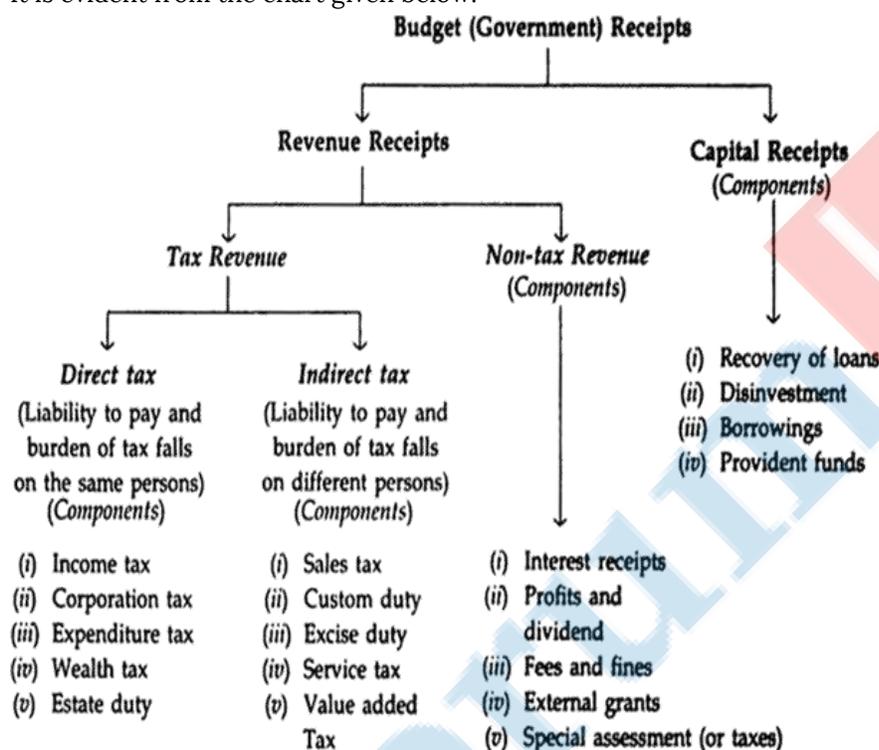

Exp) Option c is the correct answer.

Public Financing in India can be categorised into two heads Revenue and Capital based on the income generation:

Statement 1 is incorrect: Capital receipts are receipts that create liabilities or reduce financial assets. They also refer to incoming cash flows. Capital receipts can be both non-debt and debt receipts. Loans from the general public, foreign governments and the Reserve Bank of India (RBI) form a crucial part of capital receipts. Other examples of capital receipts are disinvestment, recovery of loans etc.

Statement 2 is incorrect: External grants are considered as a revenue receipt (non-tax revenue of the government) and not as capital receipt, as they do not create liabilities for the government.

It is evident from the chart given below:

Source: Indian Economy by Ramesh Singh, 13th edition, Chapter 18 (pg. 18.4)

Q.42) Consider the following statements about Effective Revenue deficit.

1. Effective revenue deficit is the difference between fiscal deficit and the interest liabilities for that year of the government.
2. The Effective Revenue Deficit was introduced in the Union budget on the recommendation of the Rangarajan committee on public expenditure.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) b

Exp) Option b is the correct answer.

Budget is an annual financial statement of a government's income (revenue) and expenditure. Revenue deficit and Effective Revenue deficit form major part of the Union Budget which reflect the pattern of government expenditure.

Statement 1 is incorrect: Effective Revenue Deficit is a deficit obtained by excluding those revenue expenditure of the Government which were done in the form of GoCA (grants for creation of capital assets) from the Revenue Deficit. Whereas the difference between fiscal deficit and the interest liabilities of the government is known as **Primary Deficit**.

Statement 2 is correct: Effective Revenue Deficit (ERD) was introduced in the Union Budget 2011-12, on the recommendation of the Rangarajan committee on the public expenditure. It came as an additional fiscal indicator prescribed by an amendment to the FRBM Act by the Finance Act, 2012 that grants statutory status on the concept of effective revenue deficit.

Source: Indian Economy by Ramesh Singh, 13th edition, Chapter 18 (pg. 18.6)

Q.43) With reference to the different types of taxes, which of the following statements are **correct**?

1. Ad valorem tax is a flexible tax levied on the assessed value of an asset, product or service.
2. Tobin tax is a duty proposed on spot currency trades to penalize short-term currency trading.
3. A Pigouvian tax is a tax imposed for engaging in activities that create adverse side effects for society.

Select the correct answer using the code given below:

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

Statement 1 is correct: The term “ad valorem” is Latin for “according to value,” which means that it is flexible and depends on the assessed value of an asset, product or service. An ad valorem tax is charged by state and municipal governments and is based on the assessed value of a product or property. The most common ad valorem tax is the property tax, which is charged on real estate and personal property.

Statement 2 is correct: The Tobin tax is a duty proposed on spot currency trades to penalize short-term currency trading to stabilize markets and disincentive speculation. The Tobin tax can be used to generate revenue streams for countries that see a great deal of short-term currency movement.

The Tobin tax is sometimes referred to as the Robin Hood tax, as many see it as a way for governments to take small amounts of money from the people making large, short-term currency exchanges.

Statement 3 is correct: A Pigovian (or Pigouvian) tax is a tax assessed against private individuals or businesses for engaging in activities that create adverse side effects for society. Adverse side effects are those costs that are not included as a part of the product’s market price. These include environmental pollution, strains on public healthcare from the sale of tobacco products, and any other side effects that have an external, negative impact.

Indian economy key concepts by M karupiah. Chapter name- public finance.

Q.44) In the context of budgetary deficits, which of the following statements is correct with reference to Primary Deficit?

- It is the total government borrowings available to utilize after interest payments.
- It is excess of total government expenditure over total its receipts excluding borrowings during a fiscal year.
- It is the difference between total expenditure and revenue receipts including non-debt creating capital receipts.
- It is the difference between Fiscal deficit and external grants received.

Ans) a

Exp) Option a is the correct answer.

When a government spends more than it collects by way of revenue, it incurs a budget deficit.

Primary deficit is simply the fiscal deficit minus the interest payments. The significance of Primary Deficit is it excludes the burden of the past debt and shows the net increase in the government's indebtedness due to the current year's fiscal operations. A reduction in primary deficit is reflective of government's efforts at bridging the fiscal gap during a financial year.

Option a is correct: Primary deficit is measured to know the amount of borrowing that the government can utilize, excluding the interest payments.

Option b is incorrect: Fiscal deficit is defined as excess of total expenditure over total receipts excluding borrowings during a fiscal year. Fiscal deficit reflects the borrowing requirements of the government for financing the expenditure including interest payments.

Option c is incorrect: Gross fiscal deficit = Total expenditure – (Revenue receipts + non-debt creating capital receipts)

Option d is incorrect: There is no such deficit which accounts for the difference between Fiscal deficit and External grants.

Source: [https://sgp1.digitaloceanspaces.com/forumias/noticeboard/wp-](https://sgp1.digitaloceanspaces.com/forumias/noticeboard/wp-content/uploads/2019/12/26121700/Indian-Economy-3-Indias-fiscal-policy-and-external-sector.pdf)

Q.45) Consider the following statements with reference to the Ranipur Tiger Reserve:

- It is tiger reserve situated in Madhya Pradesh
- It has the largest number of tigers in India, among all tiger reserves.
- It is characterized by the presence of tropical dry deciduous forests.

Which of the statements given above is/are correct?

- 1 and 3 only
- 2 only
- 3 only
- 2 and 3 only

Ans) c

Exp) Option c is the correct answer.

The National Tiger Conservation Authority (NTCA) has approved the Ranipur tiger reserve in Chitrakoot as the fourth tiger reserve of Uttar Pradesh - after Dudhwa, Pilibhit and Amangarh.

Statement 1 is incorrect: Ranipur Tiger Reserve is the fourth tiger reserve of Uttar Pradesh. It is in the Ranipur Wildlife Sanctuary (RWS) in Chitrakoot district. The Uttar Pradesh cabinet approved the notification of Ranipur Tiger Reserve under Section 38(v) of the Wild life (Protection) Act of 1972.

Statement 2 is incorrect: The Corbett Tiger Reserve in Uttarakhand has the highest number of tigers in the country. Ranipur Wildlife Sanctuary (Ranipur tiger reserve) has few or no tigers of its own.

Statement 3 is correct: Ranipur Tiger Reserve is the first tiger reserve in the state's portion of the Bundelkhand region, which it shares with neighboring Madhya Pradesh. **The Ranipur Tiger Reserve has tropical dry deciduous forests and is home to fauna such as tigers, leopards, sloth bears, spotted deer, sambhar, chinkara and a number of birds and reptiles.**

Source: <https://www.downtoearth.org.in/news/wildlife-biodiversity/uttar-pradesh-plans-its-4th-tiger-reserve-in-bundelkhand-85182>

Q.46) With reference to fiscal deficit in India, Consider the following statements:

1. There can be a Fiscal Deficit without Revenue deficit in the economy.
 2. Fiscal deficit reflects the borrowing requirements of the government for financing the expenditure.
- Which of the above given statements is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) c

Exp) Option c is the correct answer.

Statement 1 is correct: There can be a fiscal deficit without a Revenue deficit under following conditions:

- (a) when revenue budget is balanced but capital budget shows a deficit or
- (b) when revenue budget is in surplus but deficit in capital budget is greater than the surplus of revenue budget.

Statement 2 is correct: Fiscal deficit refers to the excess of government expenditures over its receipts exclusive of borrowing. Thus, fiscal deficit points to borrowing requirements of the government to cope with its expenditure of the year.

Source: ECONOMIC SURVEY 2022

Q.47) With reference to taxes and their impact on economy, consider the following statements:

1. Presence of parallel economy is one of the main reasons for the low levels of tax collection in India.
2. A progressive tax has the potential to reduce income inequality.
3. Laffer curve demonstrates that increasing tax rate beyond optimum tax rate results in decreasing of tax revenues.

Which of the following statements is/are correct?

- a) 1 only
- b) 1 and 2 only
- c) 2 and 3 Only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

Statement 1 is correct: Parallel economy, based on the black money or unaccounted money, is a big menace to the Indian economy. It is also a cause of big loss in the tax revenues for the government.

Statement 2 is correct: Progressive taxation system tends to reduce income inequality since the burden of such taxes falls heavily on the richer persons.

Statement 3 is correct: As per Laffer curve increasing tax rate beyond optimum tax rate **results in decreasing of tax revenues** to the government as many people start evading tax payments.

Source: [https://sgp1.digitaloceanspaces.com/forumias/noticeboard/wp-](https://sgp1.digitaloceanspaces.com/forumias/noticeboard/wp-content/uploads/2019/12/26121700/Indian-Economy-3-Indias-fiscal-policy-and-external-sector.pdf)

<http://ppup.ac.in/download/econtent/pdf/effects%20of%20tax.pdf>

Q.48) With reference to Fiscal Responsibility and Budget Management (FRBM) Act Review Committee, consider the following recommendations:

1. The FRBM act mandates to form a Review Committee every five years from the enactment of the act.
2. The committee recommended the combined debt-to-GDP ratio of the Centre and states should be brought down to around 60 per cent.
3. The committee recommended setting up an independent Fiscal Council.

Which of the statements given above is/are correct?

- a) 3 only
- b) 2 and 3 only
- c) 2 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

Statement 1 is incorrect: The FRBM Act was enacted in 2003 and in 2016, the government felt that a lot of time had elapsed since the act had come into force and there was a need to review it. **The FRBM Review Committee was formed in 2016 under the chairmanship of a former Revenue and Expenditure Secretary Nand Kishore Singh.** The committee submitted its report in 2017. But there is not any such provision in the FRBM Act to form such Review Committee every five years from the enactment of Act.

Statement 2 is correct: Public debt to GDP ratio should be considered as a medium-term anchor for fiscal policy in India. **The committee recommended that the combined debt-to-GDP ratio of the Centre and states should be brought down to around 60 per cent** (comprising 40 per cent for the Centre and 20% for states).

Statement 3 is correct: Formation of Fiscal Council to advise the government: The Committee advocated formation of institutions to ensure fiscal prudence in accordance with the FRBM spirit. It recommended setting up an **independent Fiscal Council**. The Council will provide several advisory functions, one of which would be to advise the Central Government on whether conditions exist to permit a deviation for invocation in the escape or buoyancy clause.

<https://dea.gov.in/sites/default/files/Volume%201%20FRBM%20Review%20Committee%20Report.pdf>

Q.49) Consider the following statements regarding fiscal policy of government of India:

1. One of the objectives of the fiscal policy is to control inflation.
2. During expansionary fiscal policy, government decreases spending and increases taxes.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) a

Exp) Option a is the correct answer.

Fiscal policy is defined as changes in government expenditures and taxes that are designed to achieve macroeconomic policy goals such as growth, employment, investment, etc. There are three components of the Fiscal Policy of India: **Government Receipts, Government Expenditure and Public Debt**. Thus, it **involves both income and expenditure by the government**.

Statement 1 is correct: The main objectives of government's fiscal policy are:

- 1) Economic Growth (Stabilisation of business cycles)
- 2) maintain high level of employment.
- 3) **Control inflation (thus statement 1 is correct)**

Statement 2 is incorrect: In case of expansionary fiscal policy, **government increases spending and reduces tax levels to increase the aggregate demand in the economy.** It is in I case of contractionary fiscal policy; government reduces the spending and increases tax levels to suck the money out of economy and hence reduces the aggregate demand.

Indian Economy by Ramesh singh

Q.50) With reference to the Financial Intermediary Fund for Pandemic Prevention, Preparedness and Response (PPR FIF), consider the following statements:

1. The fund is hosted by G20 with technical support from the World Health Organisation (WHO).
2. India is one of the financial contributors to this fund.
3. The fund provides long term financing to developing countries to strengthen their capacities to better manage pandemics.

Which of the statement/s given above is/are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 3 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

The Financial Intermediary Fund for Pandemic Prevention, Preparedness and Response (PPR FIF) finances critical investments to strengthen pandemic prevention, preparedness, and response capacities at **national, regional, and global levels, with a focus on low- and middle-income countries.**

Statement 1 is incorrect: The Financial Intermediary Fund for Pandemic Prevention, Preparedness and Response (PPR FIF) **is hosted by the World Bank** with **technical assistance** from the World Health Organisation (WHO). The G20 Presidency of Indonesia hosted the official launch of the Pandemic Fund (but the fund is not hosted by G20 but by the World bank).

Statement 2 is correct: It is true that **India is one of the financial contributors to this fund.** The financial volume of this fund depends upon contributions from donors and receives funding from non-governmental entities such as **philanthropies and foundations, subject to approval from the World Bank** as Trustee and the Governing Board.

Statement 3 is correct: The fund provides **long term financing to middle- and low-income countries** to strengthen their capacities to **prevent and to better manage pandemics** at national, regional, and global levels. The fund aims to address the critical gaps in low- and middle-income countries by providing investments and technical support to developing countries.

SFG 2023 | LEVEL 2 | Test #15 – Solutions (CSAT) | ForumIAS

Q.1) Consider the Question and two statements given below:

Question: What is the number of employees in the company?

Statement 1: The standard error mean (SEM) of the employee's salary in a company is Rs 500 per year.

Statement 2: The standard deviation of the salaries of the employees in the company is Rs 10,000.

Which one of the following is correct in respect of the Question and the Statements?

- Statement-1 alone is sufficient to answer the question.
- Statement-2 alone is sufficient to answer the question.
- Both Statement-1 and Statement-2 are sufficient to answer the question.
- Both Statement-1 and Statement-2 are not sufficient to answer the question.

Ans) c

Exp) Option c is the correct answer.

Statement-1 gives us the Standard Error Mean (SEM) of the employee's salary. The standard error Mean (SEM) is the measure of the extent to which the sample mean deviates from the true/actual mean.

Statement-2 gives us the standard deviation of the salaries of the employees in the company. This tells us about the variability or spread of the salaries but doesn't give us any information about the average salary or the number of employees.

By combining the information from both statements, we can use the formula for the SEM of a sample to estimate the number of employees in the company.

The relationship of SEM and standard deviation (SD) to sample size is:

$$\text{SEM} = \text{SD}/\sqrt{n}$$

Here n is the sample size (For the above question, it will be the number of employees)

SEM is given as 500, SD is 10,000

So by formula $\sqrt{n} = \text{SD}/\text{SEM} = 10,000/500 = 20$

Hence, $n = 400$

Therefore, both statements together are sufficient to answer the question, but neither statement alone is sufficient.

Q.2) Study the following series carefully and answer the question given below it:

1 5 8 4 3 1 5 6 8 9 7 3 5 7 5 9 6 2 6 7 6 8 4 3 2 3

Which of the following digit is ninth to the left of twenty-first from the left end of the above series?

- 3
- 5
- 7
- 8

Ans) a

Exp) Option a is the correct answer.

Given series:

1 5 8 4 3 1 5 6 8 9 7 3 5 7 5 9 6 2 6 7 6 8 4 3 2 3

21st from the left end = 6

9th to the left of 6 = 3

Q.3) In the series CHLOQRSUXBGLP_ _ , _ _ what are the next three letters?

- SUV
- TVW
- UVW
- WXY

Ans) a

Exp) Option a is the correct answer.

The difference between the adjacent letters follows the pattern 4,3,2,1,0, 0,1,2,3,4, Then again 4,3,2,1,0 i.e. There are 4 letters between C and H, 3 letters between H and L, 2 letters between L and O, 1 letter between O and Q, 0 letter between Q and R, 0 letter between R and S, 1 letter between S and U, 2 letter between U and X, 3 letter between X and B, 4 letters between B and G, 4 letters between G and L, 3 letters between L and P.

So, the sequence will continue with the difference of 2,1,0 letters.

Q.4) Which digit should come next in the series: 1, 8, 3, 64, 5, 216, 7, 512_?

- a) 1
- b) 0
- c) 9
- d) 7

Ans) c

Exp) Option c is the correct answer.

This series is $1, 2^3, 3, 4^3, 5, 6^3, 7, 8^3, 9$ and so on. After 512, it should be 9.

Q.5) Ram is the son of Urmila. Urmila has a granddaughter named Shwet. Ram is the only child of Urmila. Shwet is married to one of Anil's son. Urmila's father has two daughters only. Abhishek is the son of Shakuntala's daughter. Abhishek has one brother Abhilekh and one sister Arunima. Abhilekh's mother is Meena. Arun's mother-in-law is sibling of Ram's mother. Arun has a brother named Anil. Anil has two sons. Ranjit is the son of Anil. Arun is married to Meena.

Which one of the following is correct?

- a) Shakuntala and Urmila are sisters.
- b) Ranjit and Arnumia's are siblings.
- c) Ram is brother of Meena.
- d) Ranjit is grandson of Urmila.

Ans) a

Exp) Option a is the correct answer.

Let's draw a stepwise family tree based on the given information:

Code used in the figure given below:

-  : Sibling
-  : Children
-  : Marriage

Step 1: Draw a sub-tree based on the following statements:

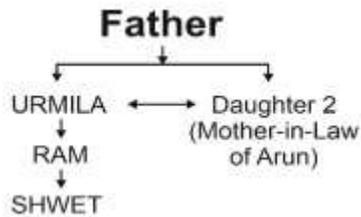

Ram is the son of Urmila.

Urmila has a granddaughter named Shwet.

Ram is the only child of Urmila.

Urmila's father has two daughters only.

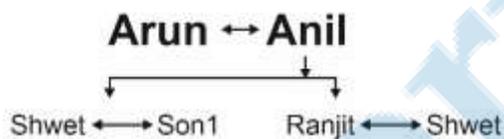

Arun's mother-in-law is the sibling of Ram's mother

Step 2: Draw a sub-tree based on the following statements:
 Abhishek is the son of Shakuntala's daughter.
 Abhishek has one brother Abhilekh and one sister Arunima.
 Abhilkeh's mother is Meena.
 Arun is married to Meena.

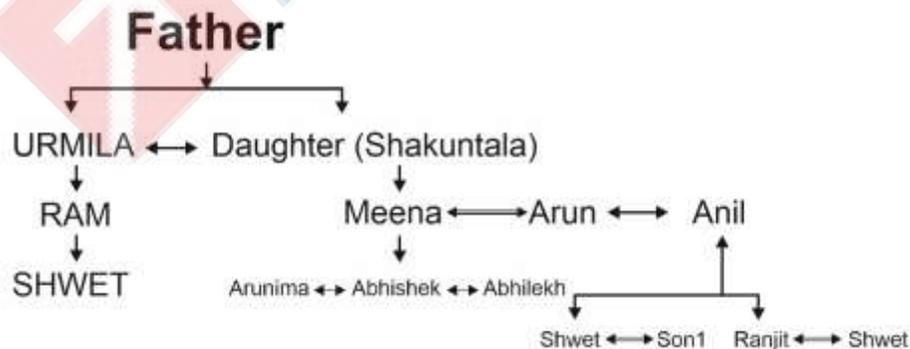

Step 3: Draw a sub-tree based on the following statements:
 Arun has a brother named Anil.
 Anil has two sons.
 Ranjit is the son of Anil.
 Shwet is married to one of Anil's son.

Shwet is married to which son is not known.
 Hence it can be either of Son1/Ranjit

Conclusion step: Combine all three steps. The common person in step 1 and step 2 is Arun. From step 2 it's clear that Arun's mother in law is Shakuntla.

From step 2 and 3, Arun is the common factor (Brother of Anil), So let's combine all three steps and draw a full family tree:

SFG 2023 | LEVEL 2 | Test #15 – Solutions (CSAT) | ForumIAS

From the above family tree it's clear that option a i.e. Shakuntla and Urmila are sisters. Rest all other options (listed below are incorrect)

Ranjit and Arnumia's are not siblings, they are cousins.

Ram is not brother of Meena. He is her cousin.

Ranjit is not grandson of Urmila.

Q.6) Three statements followed by three conclusions are given below. You have to take the statements to be true even if they seem to be at variance from the commonly known facts. Read all the Conclusions and then decide which of the given Conclusions logically follows/ follows from the statements, disregarding, the commonly known facts:

Statement 1: All crocodiles are octopus.

Statement 2: Some turtles are crocodiles.

Statement 3: Some octopus are swan.

Conclusion I: All turtles are octopus.

Conclusion II: Some octopus are turtle.

Conclusion III: All swans are crocodile.

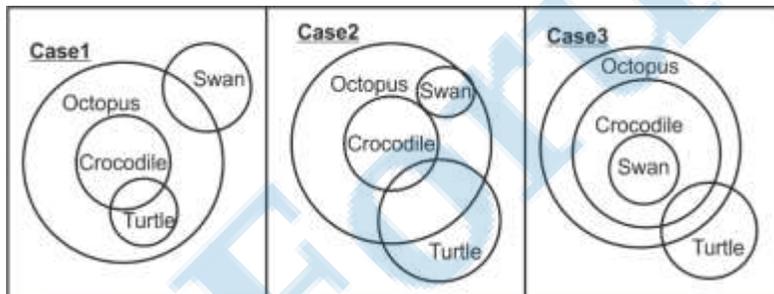

Which one of the following is correct?

- a) Only Conclusion-I
- b) Only Conclusion-II
- c) Both Conclusion-I and Conclusion III
- d) Both Conclusion-I and Conclusion II

Ans) b

Exp) Option b is the correct answer.

There can be three cases:

It's clear from the above image that all turtles can't be octopus (case 2 and case 3) and all swans can't be crocodile in case 1 and 2 (case 1 and 2). So only Conclusion II i.e. Some octopus are turtle is correct.

Q.7) Three Statements followed by four Conclusions are given below. You have to take the Statements to be true even if they seem to be at variance from the commonly known facts. Read all the Conclusions and then decide which of the given Conclusions logically follows/ follow from the Statements, disregarding the commonly known facts:

Statement-1: Some Trees are Mountains.

Statement-2: Some Mountains are Rivers.

Statement-3: Some Rivers are Clouds.

Conclusion-I: Some Clouds are Mountains.

Conclusion-II: No Tree is River.

Conclusion-III: All Trees are Clouds.

Conclusion-IV: Some Clouds are Trees.

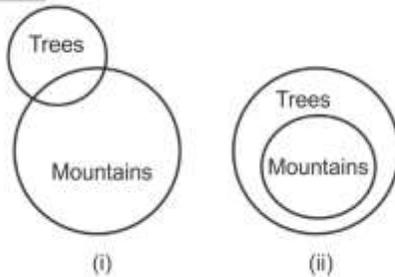

- a) Conclusion I and Conclusion IV only.
 b) Conclusion II and Conclusion III only.
 c) Conclusion II and Conclusion IV only.
 d) None of the Conclusions follows

Ans) d

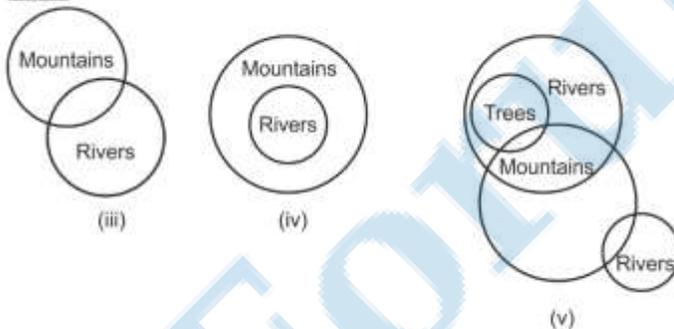

Exp) Option d is the correct answer.

For the given statements there will be nine different scenarios:

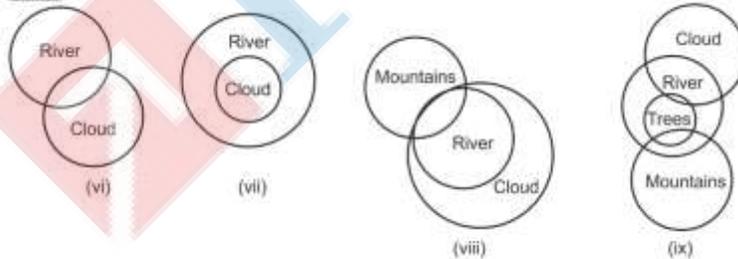

Case1

Case2

Case3

Q.8) What is the value of X in the sequence

60, 60, 35, 14, X?

- a) 21
- b) 5
- c) $8/3$
- d) $21/5$

Ans) d

Exp) Option d is the correct answer.

The sequence is based on factorial relations.

$n! = n \times (n-1) \times (n-2) \times (n-3) \times \dots \times 1$

The formula on which the sequence is based is $n! / (n-4)! \times (n-3)!$ And n starts with 5 and increases by 1.

i.e., $5! / (5-4)! \times (5-3)!$

$6! / (6-4)! \times (6-3)!$

$7! / (7-4)! \times (7-3)!$

$8! / (8-4)! \times (8-3)!$

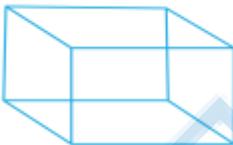

The next term will be $9! / (9-4)! \times (9-3)!$

Q.9) Each face of a cube can be painted in black or white colour. In how many different ways can the cube be painted?

- a) 9
- b) 10
- c) 11
- d) 12

Ans) b

Exp) Option b is the correct answer

Required possibilities are:

Case I: All faces of same colour

Two possibilities are there,

- 1 – All Black
- 2 – All white

Case II: Any two faces are of the same colour and the remaining 4 faces are of the other colour.

1 – 2 adjacent faces black or white, and the remaining 4 faces are white or black (2 cases).

2 – 2 opposite faces are black or white, and the remaining 4 faces are white or black correspondingly (2 cases).

Case III: 3 sides are black and the other 3 sides are white.

1 – The 3 white-coloured faces are adjacent to one another (2 cases).

2 – Two of the three white-coloured faces are opposite to each other (2 cases).

Case IV: Exactly one face is painted black or red (2 cases).

Total number of cases: - 10 cases

SFG 2023 | LEVEL 2 | Test #15 – Solutions (CSAT) | 

Directions for the following three items (Q.10- Q.12):

Read the information given below and answer the questions that follow:

A mini-Van has only 9 seats of three different kinds – a four-seater, a three-seater and a two-seater. There are nine people in the Van – P, Q, R, S, T, U, V, W and X. All seats should be occupied by these people with the following conditions:

- 1) R must have three more persons with him while S must have only two more persons with him.
- 2) R and X cannot be seated in the same kind of seats.
- 3) Q and W cannot be seated in the same kind of seats.
- 4) U and V must be seated in the same kind of seats.

Q.10) If R and W do not sit on the same kind of seats, and the two-seater is occupied by X and P, then R should sit with?

- a) Q, U and V
- b) Q but not V
- c) Q and T
- d) Q and V

Ans) a

Exp) Option a is the correct answer.

The arrangement is as follows

Four-Seater – R, U, V, Q

Three-Seater – S, W, T

Two-Seater – X, P

Therefore, four-seater is occupied by R, U, V and Q.

Q. 11) If S is seated with P in the three-seater, then who among the following should be seated with R? (It is known that X sits with the only person)

- a) Q and U
- b) U and V
- c) V and W
- d) T and W

Ans) b

Exp) Option b is the correct answer.

If S and P are in the three-seater, then to satisfy the given conditions, the following distribution of people should be followed.

Four-Seater – R, U, V, _

Three-Seater – S, P, _

Two-Seater – X, _

So, U and V should be in the four-seater with R.

Q.12) If S, T and W sit in a three-seater, then which of the following must be true?

- a) Q and U must be seated in the same kind of seats.
- b) X must be seated with either P or R
- c) X must be seated with either P or Q
- d) R must be seated with P, U and V.

Ans) c

Exp) Option c is the correct answer.

If S, T and W sit in the three-seater, then to satisfy the given conditions, the following should be the distribution of people in three different kinds of seats.

Four-Seater – R, U, V, P/Q

Three-Seater – S, T, W

Two-Seater – X, Q/P

So, X must be seated with either P or Q.

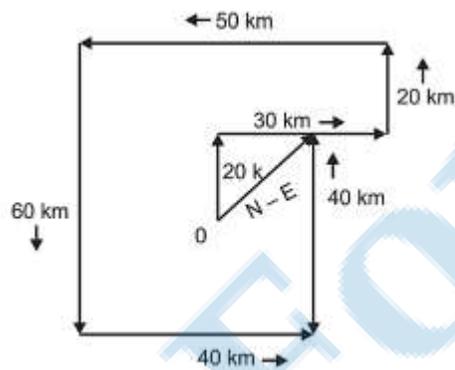

Q.13) A car travels 20 km towards North, then it takes a right turn and runs 30 km East wards. Then it travels 20 km in the North direction and then it travels more for 50 km towards his left. The car stops at the petrol pump for 20 minutes. Then it takes a left turn and moves with high speed for 60 km. After reaching at a junction, it takes left turn and runs slowly for another 40 km. There the car driver takes another break as the car tyre gets punctured. It again starts after 40 minutes and travels for 40 km towards his left.

In which direction is the car from its origin point?

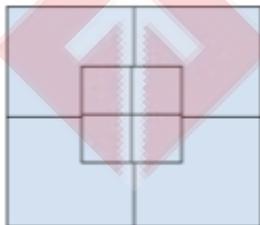

- North-East
- South-West
- East
- North

Ans) a

Exp) Option a is the correct answer.

Q.14) What is the number of squares in the given figure?

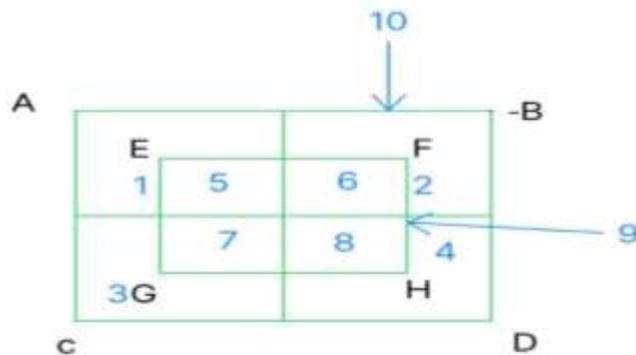

- 8
- 10
- 12
- 14

Ans) b

Exp) Option b is the correct answer.

Based on the question provided, we need to determine the total number of squares in the given figure:

Upon counting, we have identified 8 squares, and we have found 2 additional squares, namely ABCD and EFHG. So, the total number of squares in the given figures is 10.

Q.15) Images from numbers 0 to 99 are observed in a mirror. What is the number of images of these numbers which do not look like their original shapes?

- a) 94
- b) 95
- c) 97
- d) 98

Ans) c

Exp) Option c is the correct answer.

Let's consider the numbers that are symmetric around vertical axis. These numbers will look the same in the mirror as they do in real life, so we can exclude them from our count. These numbers are: 0, 8, and 88. They will have their mirror image similar to their original shapes. Rest all digits have sidewise face, implies if cut vertically they will look different. See the below mirror image of digits 1 to 9.

Numbers	Mirror Image	Numbers	Mirror Image	Numbers	Mirror Image
1	┆	4	4	7	7
2	5	5	2	8	8
3	ε	6	9	9	e

Q.16) If '<' means 'minus', '>' means 'plus', '=' means 'multiplied by' and '\$' means 'divided by', then what would be the value of $35 > 72 \$ 8 < 5$?

- a) 22
- b) 39
- c) 26
- d) 33

Ans) b

Exp) Option b is the correct answer.

The given expression is $35 > 72 \$ 8 < 5$.

Replacing the symbols with their respective operations,

we get $35 + 72 : 8 - 5$.

Following the order of operations,

we first solve the division,

which gives us $35 + 9 - 5$.

Solving this further, we get $44 - 5 = 39$.

So, the value of the given expression is 39.

Q.17) Seven persons namely X, Y, Z, A, B, C, D, are standing in a queue adjacent to each other in the same sequence. Z, B, and A have British passports. Y, C, X, and D have a French passports. C and Y are minors. Rest are septuagenarians. The person standing in the middle of the queue is an astronaut. The person standing at the beginning of the queue is a dancer. A person standing at the fifth position from the front end is a singer. There are two other singers in the group, and both of them are minors. There is one more astronaut in the group who is standing at one end of the queue. Which person is/are a septuagenarian Astronaut with a British passport?

- a) Z only
- b) A only
- c) Z and A only
- d) Z, A, and B

Ans) b

Exp) Option b is the correct answer.

Step 1: let's arrange the person and their passport issuing country. It's given that People are standing adjacent to each other.

P e r s o n	X	Y	Z	A	B	C	D
P a s s p o r t C o u n t r y	F r e n c h	F r e n c h	B r i t i s h	B r i t i s h	B r i t i s h	F r e n c h	F r e n c h

Step 2: Append age information in step 1 based on the given information: C and Y are minors.

Rest are septuagenarians:

SFG 2023 | LEVEL 2 | Test #15 – Solutions (CSAT) | ForumIAS

Person	X	Y	Z	A	B	C	D
Passport Country	French	French	British	British	British	French	French
Age group	Septuagenarian	minor	septuagenarian	septuagenarian	septuagenarian	minor	septuagenarian

Step 3: Append profession information in step 2 based on the given information:

The person standing in the middle of the queue is an astronaut (A is in middle).

The person standing at the beginning of the queue is a dancer. (X is that person)

A person standing at the fifth position from the front end is a singer. (B is that person)

There are two other singers in the group, and both of them are minors. (Y and C)

There is one more astronaut in the group who is standing at one end of the queue. (D will be that person as X is already filled)

Person	X	Y	Z	A	B	C	D
Passport Country	French	French	British	British	British	French	French
Age group	septuagenarian	minor	septuagenarian	septuagenarian	septuagenarian	minor	septuagenarian
Profession	Dancer	Singer		Astronaut	Singer	Singer	Astronaut

Conclusion: From the step 3, it's clear that "A" is the only person who is a septuagenarian Astronaut with a British passport. Z is a septuagenarian and has a British passport but his Profession is unknown. No other Astronaut has a British passport, hence correction option will be (b) i.e. A only.

Q.18) In a row of 50 students, when Rohit was shifted to his right by 5 places, his number from the right end of the row became 12. What was the number of Mohit from the left end of the row if Mohit was four places to the left of Rohit's original position?

- 19
- 20
- 21
- 30

Ans) d

Exp) option d is the correct answer.

After Rohit was shifted to his right by 5 places, his position from the right end of the row became 12.

This means that before being shifted, his position from the right end of the row was $12 + 5 = 17$. Mohit was four places to the left of Rohit's original position, so Mohit's position from the right end of the row was $17 + 4 = 21$. Since there are 50 students in the row, Mohit's position from the left end of the row is $50 - 21 + 1 = 30$. So, Mohit is 30th from the left end of the row.

Q.19) Following is a matrix of certain entries. The entries follow a certain trend row-wise. Choose the missing entry (?) accordingly.

2Y	60B	8E
3H	27K	6N
?	65T	9W

- a) 6Q
b) 8Q
c) 4Q
d) 2O

Ans) c

Exp) Option c is the correct answer.

The formula on which the three row of the matrix is based is : $b = c^2 - a^2$ Where a, b and c are values of 1st, 2nd and 3rd row

Alphabets are taking the jump of two places (Y, Y+2 = B, B+2= E and so on)

$$8^2 - 2^2 = 60$$

$$6^2 - 3^2 = 27$$

$$9^2 - 4^2 = 65$$

Hence missing value is 4Q

Q.20) If the order of the letters in the English alphabet is reversed and each letter represents the letter whose position it occupies for example: A becomes Z, B become Y and so on and thus DAD would be written as WZW then which one of the following represents the word PENCIL?

- a) KVXMRO
b) KVMXRO
c) KTMXRO
d) KLMXRO

Ans) b

Exp) Option b is the correct answer.

If we reverse the order of the English alphabet, then A becomes Z, B becomes Y, C becomes X, and so on.

A	B	C	D	E	F	G	H	I	J	K	L	M	N	O	P	Q	R	S	T	U	V	W	X	Y	Z
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	21	22	23	24	25	26
Z	Y	X	W	V	U	T	S	R	Q	P	O	N	M	L	K	J	I	H	G	F	E	D	C	B	A

So, if we apply this rule to the word PENCIL:

P becomes K (16th letter from start becomes 16th from end),

E becomes V (5th from start becomes 5th from end),

N becomes M (14th from start becomes 14th from end),

C becomes X (3rd from start becomes 3rd from end),

I becomes R (9th from start becomes 9th from end) and

L becomes O (12th from start becomes 12th from end). Therefore, PENCIL would become **KVMXRO**

Putting these letters together, we get **KVMXRO**.

SFG 2023 | LEVEL 2 | Test #15 – Solutions (CSAT) | 

Q.21) Consider the following arrangement that has some missing letters:

ab_c_aaac_baabbc_aab_cb_

The missing letters which complete the given arrangement are:

- a) b, a, a, b, b, a
- b) c, b, b, a, c, a
- c) b, c, a, b, b, c
- d) c, a, c, a, a, b

Ans) b

Exp) Option b is the correct answer.

The length of the sequence is of 24 letters. Lets Break the sequence into two halves:

First Part: ab_c_aaac_ba

2nd Part: abbc_aab_cb_

In the below table, the First row is the first part of the given sequence and the second row is the second part of the sequence in reverse order

Index of 1st half	1	2	3	4	5	6	7	8	9	10	11	12
value of 1st half	a	b	_	c	_	a	a	a	c	-	b	a
value of 2nd half	_	b	c	_	b	a	a	_	c	b	b	a
Index of 2nd half	24	23	22	21	20	19	18	17	16	15	14	13

Here you can see that the value of index 2,6,7,9,11 and 12th of first half is matching with the value of index 13,14,16,18, 19,23 in the above table, hence we can say that the sequence is in symmetry (In geometry, symmetry is defined as a balanced and proportionate similarity that is found in two halves of an object.) hence the missing values will be:

Index	Missing values
3	c
5	b
10	b
17	a
21	c
24	a

Hence answer is option b) c, b, b, a, c, a

Q.22) In a school, every student is assigned a unique identification number. A student is a swimmer if and only if the identification number is divisible by 6, whereas a student is a runner if and only if the identification number is divisible by 8. If every number from 1 to 200 is assigned to a student, then how many of them are swimmers but not runners?

- a) 25
- b) 30
- c) 35
- d) 40

Ans) a

Exp) option a is the correct answer.

A student is a swimmer but not a runner if and only if their identification number is divisible by 6 but not divisible by 8.

There are 33 numbers between 1 and 200 that are divisible by 6.

The least common multiple of 6 and 8 is 24, so a student is both a swimmer and a runner if and only if their identification number is divisible by 24.

There are 8 numbers between 1 and 200 that are divisible by 24.

So, the number of students who are swimmers but not runners is $33 - 8 = 25$.

Q.23) In a code language 'THIRUVANANTHAPURAM' is written as 'PMEWQAWSWSPMLZNF'. How is 'NAKHONLUANG' written in that code language?

- a) PDJKRUOXDQJ
- b) JFGMKSHZWSC
- c) KXIFLKISXKE
- d) JCDLRQPXDQK

Ans) b

Exp) Option b is the correct answer.

The 1st letter takes a jump of 4 places backward (T becomes P)

2nd letter moves ahead 5 places, (H becomes M)

then 3rd letter again goes 4 places backward (I becomes E),

4th letter moves ahead 5 places (R becomes W). This pattern repeats.

So, with the same logic (odd index's alphabet jumps 4 places backward and even indexes alphabet moves ahead 5 places)

N	A	K	H	O	N	L	U	A	N	G
J	F	G	M	K	S	H	Z	W	S	C
-4	+5	-4	+5	-4	+5	-4	+5	-4	+5	-4

Q.24) Consider two statements and a Question:

Statement-1: The last day of the month is a Friday.

Statement-2: The second Tuesday of the month was the twelfth day.

Question: What day of the week is the seventeenth day of the month?

Which one of the following is correct in respect of the Statements and the Question?

- Statement-1 alone is sufficient to answer the Question
- Statement-2 alone is sufficient to answer the Question
- Both Statement-1 and Statement-2 are required to answer the Question
- Neither Statement-1 nor Statement-2 is sufficient to answer the Question

Ans) b

Exp) Option b is the correct answer.

From Statement-1, if the last day is Friday we are not able to find a day on the 17th of that month because we don't know whether the month is of 28 days or 29 days or 30 days or 31 days. Therefore, we can see that Statement-1 alone is not sufficient to answer the Question.

From Statement-2, we know that the second Tuesday of the month was the twelfth day. This means that the first Tuesday of the month was on the 5th, and the third Tuesday of the month was on the 19th. Therefore, the seventeenth day of the month is a Sunday.

Therefore, Statement-2 alone is sufficient to answer the question, and the answer is Sunday.

Q.25) A delegation of 12 countries visit United Nations. Six countries are from African continent and six are from South America. At United Nations General Assembly a voting is scheduled on the agenda “Russian incursions in Ukraine”. All countries are not allowed to vote. All the twelve nations have to select only four among them, who will take part in voting. In how many ways the four countries can be selected to vote on the motion, if two particular countries refuse to be together and two other particular countries wish to be together only, in the voting compartments.

- 495
- 255
- 226
- 450

Ans) c

Exp) Option c is the correct answer

Let's assume that countries A and B wish to be selected together and countries C and D do not wish to be selected together.

There are 6 such cases: -

- A, B, C selected. D not selected. No. of ways of such selection = A, B, C is selected in 1 way, Since D is not to be selected, remaining 1 country has to be selected from rest 8 countries in 8C_1 way = 8
- A, B, D selected, C not selected. No. of ways of such selection = A, B, D is selected in 1 way, since C is not to be selected, remaining 1 country can be selected from rest 8 countries in 8C_1 way = 8
- A, B selected. C, D not selected. No. of ways of selection = A, B is selected in 1 way, C and D has not to be selected, so remaining 2 countries can be selected from rest 8 countries in 8C_2 ways = $\frac{8!}{(8-2)! \times 2!} = 28$
- C selected. A, B, D not selected. No. of ways of selection = C can be selected in 1 way. A, B and D are not to be selected, so remaining 3 countries can be selected from rest 8 countries in 8C_3 ways = $\frac{8!}{(8-3)! \times 3!} = 56$
- D selected. A, B, C not selected. No. of ways of selection = D can be selected in 1 way. A, B and C are not to be selected, so remaining 3 countries can be selected from rest 8 countries in 8C_3 ways = $\frac{8!}{(8-3)! \times 3!} = 56$
- A, B, C, D not selected. All the 4 countries has to be selected from the rest 8 countries in 8C_4 ways = $\frac{8!}{(8-4)! \times 4!} = 70$

Hence total number of ways of selecting four countries who will vote = $8+8+28+56+56+70= 226$

Q.26) In a certain village, one-third of the villagers have their own cows. One-fourth of the villagers grow vegetables. One-half of the villagers are skilled in weaving. Three-fourths of the villagers are under 30 years of age. Which one of the following statements is certainly correct?

- a) All the villagers who have their own cows grow vegetables.
- b) Some villagers under 30 years of age are skilled in weaving.
- c) Only half of the villagers who grow vegetables are skilled in weaving.
- d) No villager under 30 years of age has his own cow.

Ans) b

Exp) Option b is the correct answer.

Let the total number of villagers in the village be represented by 'x'. Then:

Number of villagers who have their own cows = $x/3$

Number of villagers who grow vegetables = $x/4$

Number of villagers who are skilled in weaving = $x/2$

Number of villagers who are under 30 years of age = $3x/4$

Option a is incorrect: All the villagers who have their own cows grow vegetables: This statement is not necessarily true because there is no information given about the relationship between owning cows and growing vegetables.

Option b is correct: Some villagers under 30 years of age are skilled in weaving: This statement is certainly correct since the number of villagers who are under 30 years of age is greater than the number of villagers who are skilled in weaving, so there must be some villagers under 30 years of age who are skilled in weaving.

Option c is incorrect: Only half of the villagers who grow vegetables are skilled in weaving. It is possible that more than half of the villagers who grow vegetables are skilled in weaving, or that less than half are skilled in weaving. The information given in the problem does not allow us to make any inference about the relationship between growing vegetables and being skilled in weaving.

Option d is incorrect: No villager under 30 years of age has his own cow. It is possible that some villagers under 30 years of age have their own cows, since one-third of the villagers have their own cows and three-fourths of the villagers are under 30 years of age. In fact, it is possible that all of the villagers who have cows are under 30.

Q.27) A lock has four-digit passcode. First digit is the sum of second and third digit. Second digit is twice the fourth digit, third digit is one less than second digit and fourth digit is one-fifth of the sum of first and second digit. How many possible set of passcodes can be there ?

- a) 2
- b) 3
- c) 1
- d) 4

Ans) c

Exp) Option c is the correct answer.

Let the four digits are A, B, C, D

$$A = B + C$$

$$B = 2D$$

$$C = B - 1$$

$$D = 1/5(A + B)$$

$$5D = A + B$$

$$5D = A + 2D$$

SFG 2023 | LEVEL 2 | Test #15 – Solutions (CSAT) | ForumIAS

$$3D = A, D = A/3$$

$$B = 2A/3, A/3 = C$$

Hence the four digits are A, 2A/3, A/3, A/3

The value of A has to be such that–

- 1) It is less than 10
- 2) It is divisible by 3

So, the value of A can be 3,6,9. Putting A =3, Value of B is 2, C is 1, D= 1, these value satisfies all the given conditions.

Putting A=6, Value of B is 4, C is 2, D is 2. These values do not satisfy the given conditions.

Putting A=9, Value of B is 6, C is 3, D =3. This again does not satisfy the given conditions.

So, the number of possible passcode is just one 3211.

Directions for the following three items (Q.28 - Q.30):

Read the given information and answer the questions that follow.

Seema, Cheenu, Lalita, Teena, and Somi help themselves to take some sweets. Four of them take a rasgulla. Cheenu and Teena do not take a burfy but all the others do take the burfy. Cheenu takes only one sweet, which is a kalakand. Kalakand is not taken by others apart from Cheenu. Everyone takes peda except Cheenu, Somi, and Seema.

Q.28) Who only had a peda and a rasgulla?

- a) Cheenu
- b) Somi
- c) Seema
- d) Teena

Ans) d

Exp) Option d is the correct answer.

Name	Rasgulla	Burfy	Kalakand	Peda
Seema	✓	✓	✗	✗
Cheenu	✗	✗	✓	✗
Lalita	✓	✓	✗	✓
Teena	✓	✗	✗	✓
Somi	✓	✓	✗	✗

Q.29) How many sweets were taken by all?

- a) 12
- b) 11
- c) 9
- d) 10

Ans) d

Exp) Option d is the correct answer.

Name	Rasgulla	Burfy	Kalakand	Peda
Seema	✓	✓	✗	✗
Cheenu	✗	✗	✓	✗
Lalita	✓	✓	✗	✓
Teena	✓	✗	✗	✓
Somi	✓	✓	✗	✗

Q.30) Who are the two people taking the same number and same type of sweets?

- Seema and Lalita
- Somi and Lalita
- Seema and Somi
- Teena and Somi

Ans) c

Exp) Option c is the correct answer.

Name	Rasgulla	Burfy	Kalakand	Peda
Seema	✓	✓	✗	✗
Cheenu	✗	✗	✓	✗
Lalita	✓	✓	✗	✓
Teena	✓	✗	✗	✓
Somi	✓	✓	✗	✗

Q.31) In a particular year, April 1st is on a Tuesday. If Christmas falls on a Thursday that year, what day of the week is September 10th of the same year?

- Monday
- Wednesday
- Tuesday
- Thursday

Ans) b

Exp) Option b is the correct answer.

To solve this problem, we need to use some basic principles of calendar arithmetic.

First, note that April has 30 days, May has 31 days, June has 30 days, July has 31 days, August has 31 days, and September has 30 days.

Next, we can count the number of days from April 1st to September 10th.

April: $30 - 1 = 29$ days

May: 31 days

June: 30 days

July: 31 days

August: 31 days

September 10th: 10 days

The total number of days is therefore $29 + 31 + 30 + 31 + 31 + 10 = 162$ days.

Since 162 is not divisible by 7 (the number of days in a week). The remainder is 1. So we know that September 10th is exactly 23 weeks ($161 : 7$) after April 1st +1 day.

Since April 1st is a Tuesday, September 10th will be on Wednesday.

SFG 2023 | LEVEL 2 | Test #15 – Solutions (CSAT) | ForumIAS

Q.32) The letters from A to Z are numbered from 1 to 26. If DCHB = 533, RMKF = 2814, then what is WYJH equal to?

- a) 3454
- b) 5744
- c) 4754
- d) 3274

Ans) b

Exp) Option b is the correct answer.

First, the letters in the words are raised to the power of their position in the word. Then sum of that is taken out which is on the R. H. S.

$$DCHB = 4^1 + 3^2 + 8^3 + 2^4 = 541$$

$$RMKF = 18^1 + 13^2 + 11^3 + 6^4 = 2814$$

$$WYJH = 23^1 + 25^2 + 10^3 + 8^4 = 5744$$

Q.33) Six friends Alice, Bob, Cirus, Dave, Ellen and Fig are standing in a line in the given sequence. Each drink a different beverage- black coffee, blue lagoon, green mojito, orange juice, red bull, and yellow daisy. Each of them owns different cars- Mercedes, BMW, Scorpio, Safari, Alto, Ciaz. Using the following clues, determine the car owned by each friend and the beverage they are drinking.

The person who owns Mercedes is drinking blue lagoon. The person sitting on Scorpio is drinking green mojito. Ellen is standing next to the person who owns Safari. Owner of Ciaz is standing at one end of the line. The person drinking black coffee is standing next to the person drinking orange juice. Alice does not own BMW or Alto. Fig is drinking Red bull. Cirus does not own Scorpio. The person in Alto is drinking Black Coffee.

- a) Alice- Mercedes- Blue Lagoon, Bob-BMW-Orange juice, Cirus- Alto- Black coffee, Dave-Safari- Yellow daisy, Ellen-Scorpio-Green mojito, Fig-Ciaz- Red Bull
- b) Alice- scorpio - Green mojito, Bob-BMW-Orange juice, Cirus- Mercedes- Blue Lagoon, Dave-Safari- Yellow daisy, Ellen-Alto- Black coffee, Fig-Ciaz- Red Bull
- c) Alice- Ciaz - Blue Lagoon, Bob-BMW- Yellow daisy, Cirus- Alto- Black coffee, Dave-Safari- Orange juice, Ellen-Scorpio-Green mojito, Fig- Mercedes- Red Bull
- d) Alice- Mercedes- Blue Lagoon, Bob- Scorpio-Green mojito, Cirus- Alto- Black coffee, Dave-Safari- Yellow daisy, Ellen- BMW-Orange juice, Fig-Ciaz- Red Bull

Ans) a

Exp) Option a is the correct answer.

From the above clues, Lets create a relationship table:

Step 1: The person who owns Mercedes is drinking blue lagoon. The person sitting on Scorpio is drinking green mojito. The person in Alto is drinking Black Coffee: Based on these two clues, we can draw this:

Car	Mercedes	Scorpio	Alto			
Beverage	Blue L	Green M	Black C			

Step 2: Ellen is standing next to the person who owns Safari. Fig is drinking Red bull. It is also given the sequence of friend's name. so, we can say:

Name	Alice	Bob	Cirus	Dave	Ellen	Fig
Car				Safari		
Beverage						Red B

Step 3: Alice does not own BMW or Alto. So, Alice can have Mercedes, Scorpio or Ciaz. **Owner of Ciaz is standing at one end of the line.** So Ciaz can be either owned by Alice or Fig. In step 1, it's mapped that

SFG 2023 | LEVEL 2 | Test #15 – Solutions (CSAT) |

both Scorpio and Mercedes have beverages as Blue Lagon and Green Mojito, Ciaz can only go at right corner. So now Alice is left with two vehicle option: Mercedes and Scorpio. It's also given **Cirus does not own Scorpio**. So Cirus can own Alto, BMW or Mercedes. Alto can be only given to Cirus, Bob or Ellen.

Name	Alice	Bob	Cirus	Dave	Ellen	Fig
Car	Merc/Scor	Alt	Alt/BMW/Mer c	Safari	Alt	Ciaz
Beverage	Blue/Green					Red B

Step 4: **The person drinking black coffee is standing next to the person drinking orange juice.** That means, Orange and Black will be in same sequence. And Black is paired with Alto, so Car and Beverage mapping will be

Car

Car	Mercedes	Scorpio		Alto		
Beverage	Blue L	Green M	Orange J	Black C		

If we combine step 3 and 4, Its clear that Bob can't own Alto, as Alice can't have orange. So now Only Cirus can have Alto. So, Bob will have Orange Juice. And BMW is the only car which is not mapped with any color so Bob will certainly own BMW. Yellow daisy is the only beverage, which is not mapped with any car so it will go with Safari.

Name	Alice	Bob	Cirus	Dave	Ellen	Fig
Car	Merc/Scor	BMW	Alto	Safari	Merc/Scor	Ciaz
Beverage	Blue/Green	Orange J	Black C	Yellow D	Blue/Green	Red B

Let's match the options with the table, the only correct combination is option a.

Q.34) The number of times the digit 5 will appear while writing the integers from 1 to 1000 is:

- 269
- 271
- 300
- 302

Ans) c

Exp) Option c is the correct answer.

From 1 to 100, 5 comes a total of 20 times on the unit place and the ten's place:

Number of 5 from 1 to 100 are 5, 15, 25, 35, 45, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 65, 75, 85, 95

Total number of 5 from 1 to 100 = 20 (55 has two 5's)

Same pattern will follow for every set of 100 numbers upto 1000 like 200 to 300, 300 to 400 ,..... 900 to 1000.

But we have to include number of 5 from 500 to 599 also which are 100 in number.

So,

Total number of 5 from 1 to 1000 = $20 \times 10 + 100$

$\Rightarrow 200 + 100$

$\Rightarrow 300$

So, from 1 to 1000, 5 comes on the unit and the ten places 200 times.

From 500 to 599, 5 comes in the hundredth place 100 times.

Total number of times 5 comes = $200 + 100 = 300$ times.

Q.35) There are 20 people standing in a queue at a bank. The first person takes 3 minutes to complete their transaction, and each subsequent person takes 30 seconds longer than the previous person to complete their transaction. The bank closes in three hours from now. How much time it will take for all the people standing in the queue to complete their transaction?

- a) 127 minutes
- b) 144 minutes
- c) 165 minutes
- d) 155 minutes

Ans) d

Exp) Option d is the correct answer.

The first person takes 3 minutes, and each subsequent person takes 30 seconds (or 0.5 minutes) longer than the previous person. So the time it takes for the all 20 person to complete their transaction can be calculated by simple formula of sum of an AP (Arithmetic Progression)

$S_n = n/2 [2a+(n-1)d]$, where S_n is the sum of n terms, 'a' is the first number and 'd' is the common difference.

Here $a= 3$, $d=0.5$, $n=20$

$S_n = 20/2[2 \times 3 + (20-1)0.5] = 155$, So the total time it will take all the people standing in the queue to complete their transaction is 155 minutes.

Q.36) A Statement followed by Conclusion-I and Conclusion-II is given below. You have to take the Statement to be true even if it seems to be at variance from the commonly known facts. Read all Conclusions and then decide which of the given Conclusion(s) logically follows/follow from the Statement, disregarding the commonly known facts:

Statements:

1. Some Mangoes are Fruits.
2. All Fruits are Papaya.
3. All Papayas are Lemons.

Conclusions:

- I. Some Mangoes are Papaya.
- II. All Lemons are Mangoes.

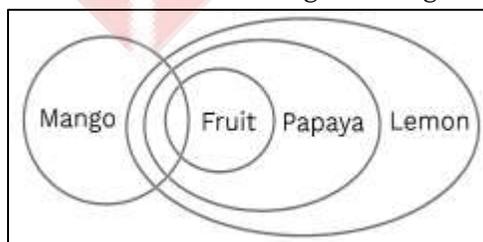

Which of the above conclusions is/are drawn from the statements?

- a) Only conclusion I follows.
- b) Only conclusion II follows.
- c) Both conclusions I and II follow.
- d) Neither conclusion I nor II follows.

Ans) a

Exp) Option a is the correct answer

We can draw the following venn diagram from the given information:

From the above diagram we can see:

That some Mangoes are Fruits, and all Fruits are Papaya. Therefore, some Mangoes are Papaya. So, conclusion I follows i.e. Some mangoes are Papayas

And

However, we cannot say that all Lemons are Mangoes, as there is no direct or indirect relationship between Lemons and Mangoes in the diagram. Therefore, conclusion II does not follow.

Q.37) In a seating arrangement for a dinner party, 8 people have to be seated at a circular table. However, there are certain restrictions and preferences among the guests that must be taken into account. The guests are Alice, Bob, Claire, Dave, Emily, Frank, George, and Holly. The restrictions are:

Alice and Bob cannot be seated next to each other.

Claire and Dave and George dislike each other, so they don't want to be in each others vicinity.

Emily and Frank are twin sisters wearing same colour dress, so the host asked them not to sit together as this would confuse everyone.

How many different seating arrangements are possible that satisfy all the restrictions?

- a) 1354
- b) 1396
- c) 1284
- d) 1440

Ans) d

Exp) Option d is the correct answer.

First, we can consider the seating arrangement without any restrictions, which would give us $7! = (5040)$ possible arrangements. However, we need to subtract the arrangements that violate the given restrictions.

To account for the first restriction, we can treat Alice and Bob as a pair and consider the number of ways to seat the pair and the remaining 6 people separately. We can seat the pair in $2!$ ways (AB or BA) among themselves. So, there are $2! \times (7-1)! = 1440$ arrangements that violate the first restriction.

For the second restriction, we can treat Claire, George and Dave as a pair and consider the number of ways to seat the pair and the remaining 5 people separately. We can seat the pair in $3!$ ways among themselves. Total no. of arrangements in which these three will be together = $(6-1)! \times 3! = 720$, So there are 720 arrangements that violate second restriction.

To account for the third restriction, we can treat Emily and Frank as a pair and use the same approach as for Alice and Bob. There are $2 \times 720 = 1440$ arrangements that violate the third restriction.

Therefore, the total no. of arrangements that violate one of the three restrictions are = $1440 + 720 + 1440 = 3600$

Therefore, the number of valid seating arrangements is $7! - 3600 = 1440$

Q.38) Six books A, B, C, D, E and F are placed side by side. A and B have green covers while the rest have yellow covers. Only C and D are new books while the rest are old. A and B are fiction books while the rest are non-fiction books.

Which book(s) is/are old non-fiction book(s) with a yellow cover?

- a) C only
- b) D only
- c) C and D
- d) E and F

Ans) d

Exp) Option d is the correct answer.

From the information given in the question, we know that A and B have green covers while the rest have yellow covers.

We also know that only C and D are new books while the rest are old.

Finally, we know that A and B are fiction books while the rest are non-fiction books.

This is because they both have yellow covers (as stated in the question), they are not fiction books (since they are not A or B), so they must be non-fiction books.

Additionally, since only C and D are new books (as stated in the question), all other books including E and F must be old.

From this information, we can deduce that E and F are old non-fiction books with yellow covers.

Q.39) Consider the Question and two Statements given below:

Question: If a right circular cone is cut by a plane parallel to its base, what is the ratio of the volumes of the smaller cone and the larger cone?

Statement 1: The ratio of the areas of the two bases of the cone is 9:16.

Statement 2: The distance of the plane from the apex of the cone is 15 cm.

Which one of the following is correct in respect of the Question and the Statements?

- Statement-1 alone is sufficient to answer the question.
- Statement-2 alone is sufficient to answer the question.
- Both Statement-1 and Statement-2 are sufficient to answer the question.
- Both Statement-1 and Statement-2 are not sufficient to answer the question.

Ans) a

Exp) Option a is the correct answer.

Statement 1 gives us the ratio of the areas of the two bases of the cone. Let r_1 , r_2 be the radius of the bases of the cone and h_1 and h_2 be the heights of the respective cones. **Rule of a similar cone says that if two cones are similar then the ratios of the dimensions of the cones are equal. Thus, the ratio of the heights of the cones is equal to the ratio of the radii of the cone.**

Since the cone is right circular cone, so for that the bigger cone and smaller cone is similar cone, hence the ratio of height and radii of the two similar cones is equal.

$$r_1/r_2 = h_1/h_2$$

Area of the base of a cone is $A = \pi r^2$ and the volume of the cone is $\pi r^2 h/3$

$$\text{Given, } \pi r_1^2 / \pi r_2^2 = 9/16$$

$$\text{so } r_1^2 / r_2^2 = 9/16$$

With the rule of similar cones, $h_1/h_2 = 3/4$

So the ratio of volume will be $(\pi r_1^2 h_1 / 3) / (\pi r_2^2 h_2 / 3) = (r_1^2 / r_2^2) \times (h_1 / h_2) = 9/16 \times 3/4$

Thus, statement 1 alone is sufficient to answer the question.

Statement 2 only gives us the distance of the plane from the apex of the cone, which is not sufficient to determine the ratio of the volumes of the two cones. Therefore, statement 2 alone is not sufficient.

Q.40) Consider two Statements and a Question:

Statement 1: X is taller than Y, but shorter than Z.

Statement 2: Z is shorter than W, who is the tallest among them.

Question: Who is the shortest among X, Y, Z, and W?

Which one of the following is correct in respect of the Statements and the Question?

- Statement-1 alone is sufficient to answer the Question.
- Statement-2 alone is sufficient to answer the Question.
- Both Statement-1 and Statement-2 are required to answer the Question.
- Neither Statement-1 alone nor Statement-2 is sufficient to answer the Question.

Ans) c

Exp) Option c is the correct answer.

From Statement-2, we know that W is the tallest among X, Y, Z, and W, and Y is the shortest among them. Therefore, we can conclude that the ordering of heights from shortest to tallest is: $Y < X < Z < W$.

From Statement-1, we know that X is taller than Y and shorter than Z.

However, it doesn't tell us where X, Y, and Z fit into the ordering we established from Statement-2.

Therefore, to answer the question of who is the shortest among X, Y, Z, and W,

we need both Statement-1 and Statement-2. We can conclude that Y is the shortest among them.

Q.1) Consider the following economic situation:

“Suppose a family with an annual household income of Rs. 5,00,000 spends 25% of their income on food. After some time, their income doubles to Rs. 10,00,000. Consequently, the percentage of income spend on food purchases decreases, while the percentage spent on other things (such as education and recreation) increases.”

Which of the following concepts most appropriately explain the above economic scenario?

- Laffer's Curve
- Varian Rule
- Engel's law
- Kuznets Curve

Ans) c

Exp) Option c is the correct answer.

Engel's Law is an economic theory put forth in 1857 by Ernst Engel, a German statistician. **It states that the percentage of income allocated for food purchases decreases as a household's income rises, while the percentage spent on other things (such as education and recreation) increases.**

Ernst Engel in his study, divided a test group of Belgian families into three groups: "on relief," "poor but independent," and "comfortable." He then broke down their expenditures for food, clothing, housing, education, recreation, and other spending categories.

Engel found that the poorer the group, the greater the percentage of their budget that went to food, while a lesser percentage went, for example, to clothing and education.

Option a is incorrect: Laffer's curve establishes a relationship between tax rates and total tax revenue. It states that tax revenue is not most likely to increase/maximise as tax rates increase.

Option b is incorrect: The Varian Rule holds that "A simple way to forecast the future is to look at what rich people have today; middle-income people will have something equivalent in 10 years, and poor people will have it in an additional decade."

Option d is incorrect: Kuznets curve is used to demonstrate the hypothesis that economic growth initially leads to a greater inequality, followed later by the reduction of inequality. It establishes relationship between income inequality and per capita income.

Source: <https://www.investopedia.com/terms/e/engels-law.asp>

Q.2) Consider the following statements regarding Balance of Payments (BoPs) Accounts in India:

- Export of goods and services forms the part of Current Account transactions.
- External assistance in the form of inter-governmental loans is a part of Capital Account transactions.
- Transactions which are made to cover deficits in BoPs are called as Autonomous transactions.

Which of the statements given above is/are correct?

- 1 and 2 only
- 2 only
- 1 and 3 only
- 1, 2 and 3

Ans) a

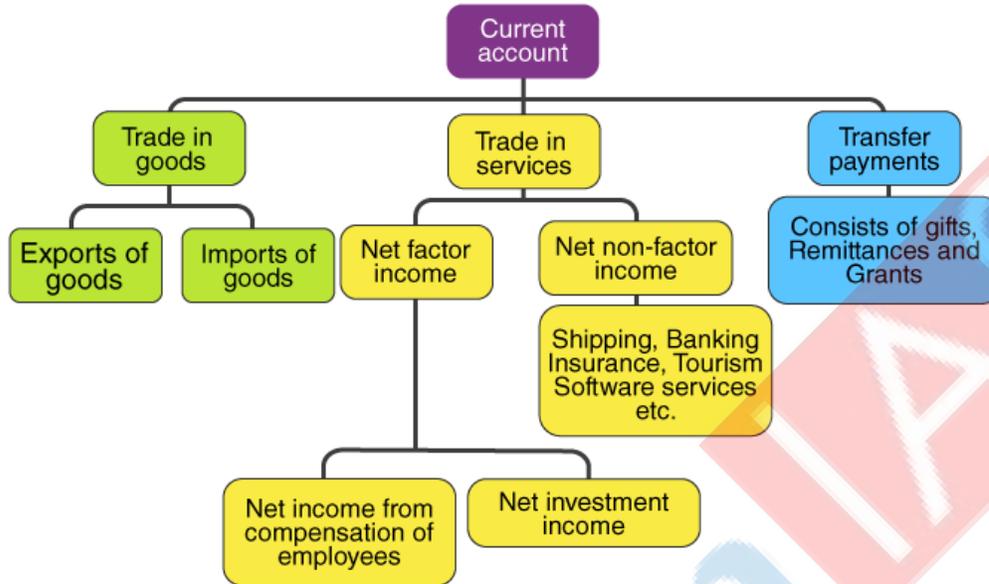

Exp) Option a is the correct answer.

The Balance of Payments (BoP) is a statement of transactions in goods, services and assets between residents of a country with rest of the world. There are three main accounts in the BoP- the current account, the financial account and the capital account.

Statement 1 is correct: Current account is the record of trade in goods and services and transfer payments.

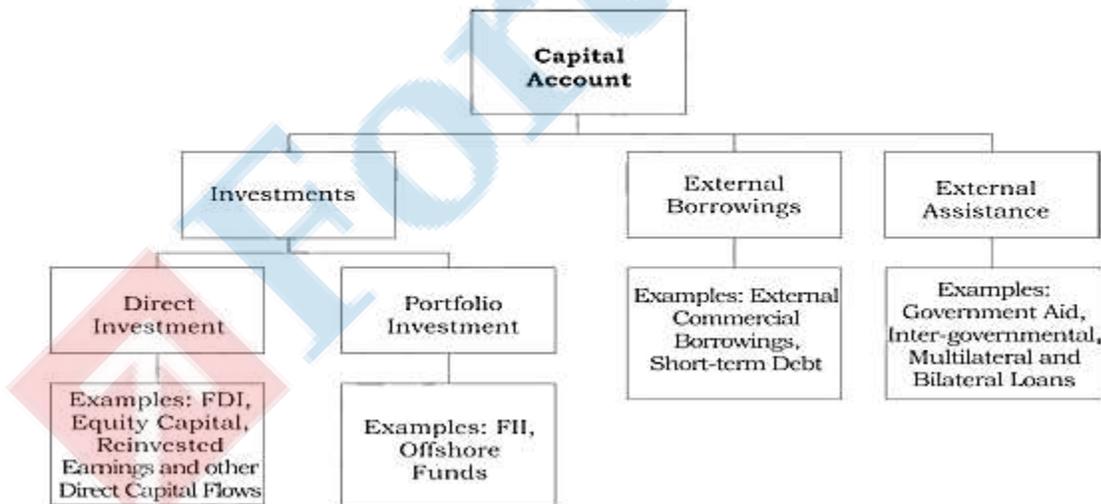

- Trade in goods includes exports and imports of goods.

- 2) Trade in services includes net factor income and net non-factor income transactions.
- 3) Transfer payments are the services which recipients of a country get for 'free'. These include gifts, remittances and grants.

Statement 2 is correct: External assistance in the form of Inter-governmental loans is classified under capital accounts of BoP. These also include multilateral and bilateral loans. Capital Account records all international transactions of assets and liabilities. For example, if an Indian borrows money from a foreign bank, it is a capital account transaction. Following are the components of capital account:

Fig. 6.2: Components of Capital Account

(Source: NCERT)

Statement 3 is incorrect: Autonomous transactions are independent of the BoP and they are not made intentionally to reduce the deficit in the BoP. Accommodating transactions are determined by the gap in balance of payments. In other words, they aim to bridge gap in balance of payments. The sale of foreign exchange by the RBI during deficit (official reserve sale) is an example of accommodating transaction.

Source: <https://ncert.nic.in/textbook/pdf/leec106.pdf>

Q.3) In the context of International Monetary Fund (IMF), which of the following statements is correct regarding the Reserve Tranche Position of a country?

It is a portion of a member country's quota which:

- can be withdrawn without service fees or economic reform conditions.
- cannot be withdrawn under any circumstances.
- can be withdrawn only on paying a penal rate of interest.
- can be withdrawn as a last resort on the conditionality of full-fledged economic reforms.

Ans) a

Exp) Option a is the correct answer.

A reserve tranche is a portion of the required quota of currency each member country must provide to the IMF. It can be utilized by a country for its own purpose- **without a service fee or economic reform conditions.** It represents a **member's unconditional drawing rights on IMF.** Initially, **member nations' reserve tranches are 25% of their quota, but this position can change** according to any lending that the IMF does with its holdings of the member's currency. These are considered as **facilities of first resort**, which means that member countries first utilize reserve tranches **before seeking a formal credit tranche that charges interest.**

Knowledge Base:

- Credit Tranche:** Theoretically, members can borrow 100% of their quota. However, if amount sought as credit exceeds reserve tranche, then it becomes credit tranche. Credit tranche must be repaid within three years with interest.
- Quota:** Quotas determine the maximum amount of financial resources a member is obliged to provide to IMF. It determines (a) Voting power in IMF, (b) Access to financing from IMF and (c) Member's share in general allocation of Special Drawing Rights (SDRs)

[Quotas#:~:text=What%20are%20IMF%20quotas%3F,the%20IMF's%20unit%20of%20account.](https://www.imf.org/en/About/Factsheets/Sheets/2022/IMF-Quotas#:~:text=What%20are%20IMF%20quotas%3F,the%20IMF's%20unit%20of%20account.)

Q.4) Consider the following statements about the recently released Human Development Report 2021-22:

- It is released by the United Nations Development Program.
- According to it, overall global life expectancy at birth has increased compared to 2019 level.
- Sri Lanka and Bangladesh have higher HDI score than India.
- The report, for the first-time takes into account the countries' per capita carbon dioxide emission to calculate Human development Index.

Which of the statements given above are correct?

- 1 and 2 only
- 1 and 3 only
- 3 and 4 only
- 1, 3 and 4 only

Ans) b

Exp) Option b is the correct answer.

Human Development Report (HDR) 2021-22 was recently compiled and released amidst the covid 19 pandemic and Russia-Ukraine crisis with the title, **“Uncertain Times, Unsettled Lives: Shaping our Future in a Transforming World”.**

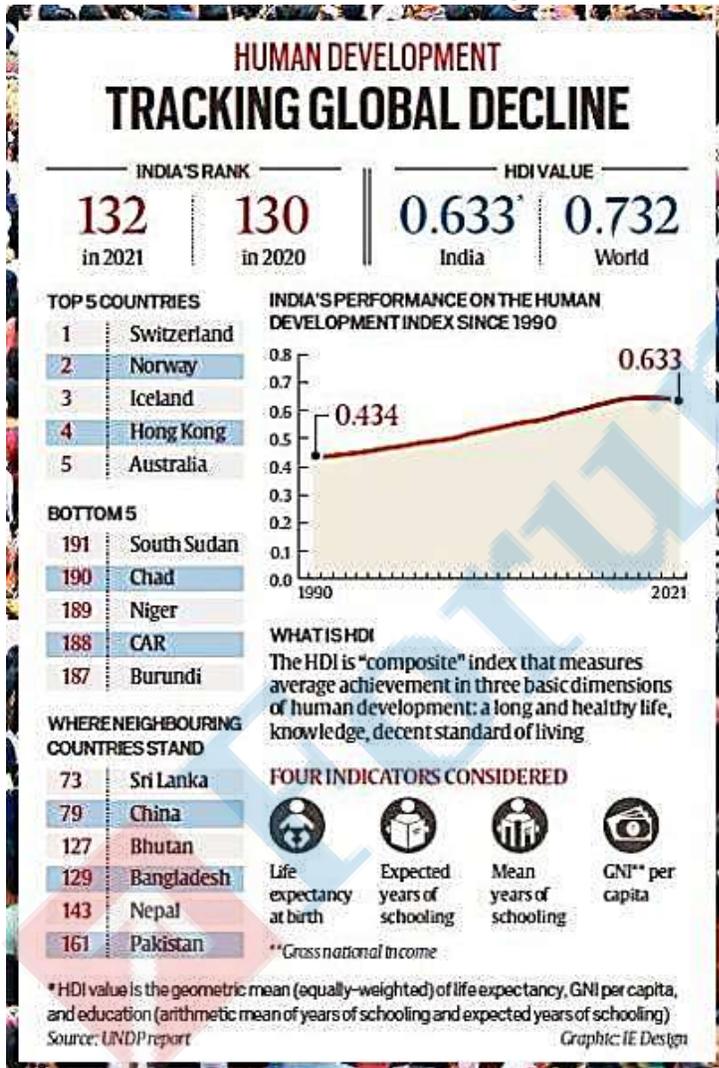

India's rank on the Human Development Index (HDI) has slipped from 130 in 2020 to 132 in 2022.

Statement 1 is correct: The report is published by the Human development Report Office of the United Nations Development Program.

Statement 2 is incorrect: The report releases Human Development Index (HDI) as a part of it. **In this, an overall global drop in the HDI scores had been observed.** The major reason behind this has been a fall in the Life expectancy at birth **from 72.8 years in 2019 to 71.4 years in 2021.**

Statement 3 is correct: Sri Lanka emerged as the best performer in the subcontinent region with HDI score of 0.782, placed at 73rd position globally. It was followed by China (79 and 0.768), Bhutan (127 and 0.666), Bangladesh (129 and 0.661), India (132 and 0.633), Nepal (143 and 0.602) and Pakistan (161 and 0.544).

Statement 4 is incorrect: The planetary pressure-adjusted HDI was introduced in the HDR 2020 and not in the latest report. It adjusts the standard Human Development Index (HDI) by a country's per capita carbon dioxide emissions and material footprint.

Source: <https://blog.forumias.com/india-ranks-132-in-undps-human-development-index-amid-a-global-fall/>

<https://hdr.undp.org/content/human-development-report-2021-22>

Q.5) Consider the following pairs:

Water Channel	Located between
1. Malacca Strait	Malaysia and the Indonesian island of Sumatra
2. Strait of Hormuz	Gulf of Aden and Red Sea
3. Bab-el-Mandeb Strait	Persian Gulf to Gulf of Oman
4. Mozambique Channel	Madagascar and Mozambique

Which of the pairs given above are correctly matched?

- a) 1 and 2 only
- b) 1 and 4 only
- c) 2 and 3 only
- d) 3 and 4 only

Ans) b

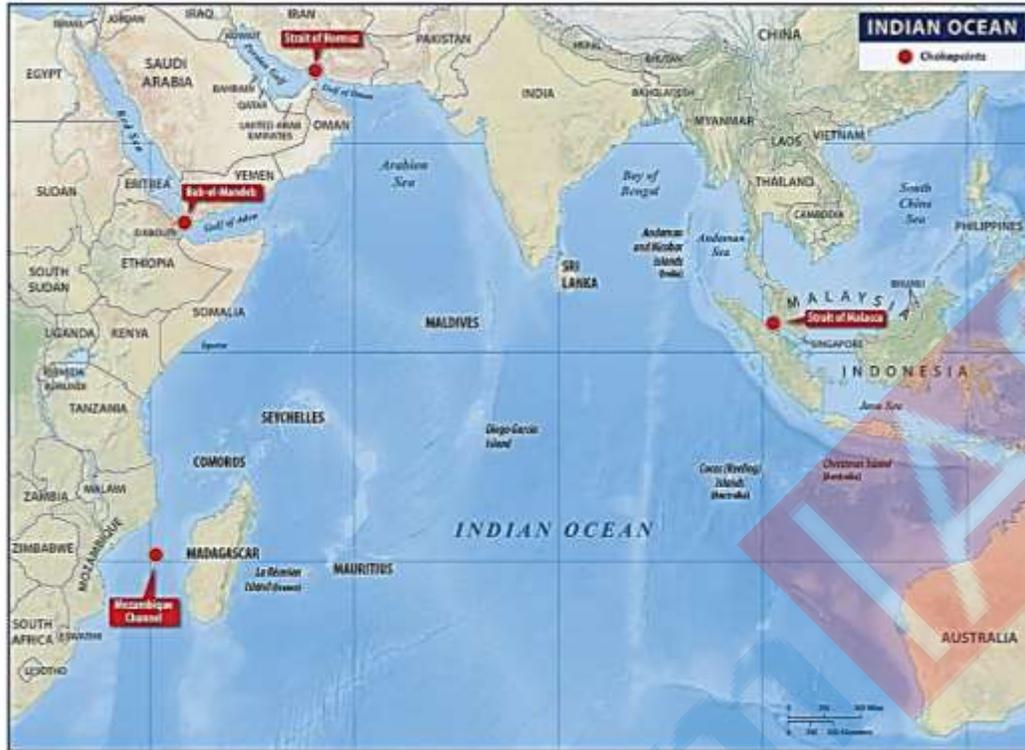

Exp) Option b is the correct answer.

Pair 1 is correctly matched: The **Straits of Malacca** is a narrow stretch of water in Southeast Asia that is 550 miles long and is located between the east coast of the Indonesian island of Sumatra and the west coast of the Malay Peninsula.

Pair 2 is incorrectly matched: The strait of Hormuz is located at the mouth of the Persian Gulf and is crucial to global energy supplies, with about a fifth of all oil traded at sea passing through it. The waterway separates Iran and Oman, **linking the Persian Gulf to the Gulf of Oman and the Arabian Sea**

Pair 3 is incorrectly matched: Bab-el-Mandeb is a strait located east of Africa and south of the Arabian Peninsula which **connects the Red Sea to the Gulf of Aden**. It is located in between Yemen on the Arabian Peninsula and Djibouti and Eritrea in the Horn of Africa.

Pair 4 is correctly matched: The Mozambique Channel is the part of the Indian Ocean **between Madagascar and Mozambique** (present in the African continent). Sometimes considered a choke point in the Indian Ocean, this channel is likely to regain its significance if the tensions in the Strait of Hormuz area soar.

Source: <https://carnegieendowment.org/2021/03/03/what-is-happening-in-indian-ocean-pub-83948>

Q.6) Which of the following statements best describes the phenomenon of ‘Churning Poor’?

- It is a situation when people are usually poor but they may sometimes have a little more money than usual.
- It is a situation in which people regularly move in and out of the poverty.
- It is a situation in which people are rich most of the times, but sometimes their income drops to poverty level.
- It is a situation in which a sudden calamity draws a group of people into poverty.

Ans) b

Exp) Option b is the correct answer.

Poverty is a state or situation in which a person or a group of people don't have enough money or the basic things they need to live. There are several ways of categorising poverty.

Churning poor is a category in which a group of people regularly move in and out of the poverty. For example, small farmers and seasonal workers.

Option a is incorrect. A situation when people are usually poor but they may sometimes have a little more money than usual is considered as of **Chronic poor**. For example, casual workers.

Option c is incorrect. **Transient poor** is a situation in which people are rich most of the times, but sometimes may have a patch of bad luck.

Option d is incorrect. A situation in which sudden calamity draws a group of people into poverty, can be considered as a disaster induced or **climate forced poverty**.

Q.7) With reference to government expenditure on social sector, consider the following statements:

1. The total expenditure of the General Government on social services has seen an increasing trend in the last five years.
2. The total health expenditure of the Central government has increased to 3 per cent of GDP in Fiscal year of 2021-22.
3. The total combined expenditure of Central and State governments on health sector is twice the expenditure allocated for education sector.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 3 only

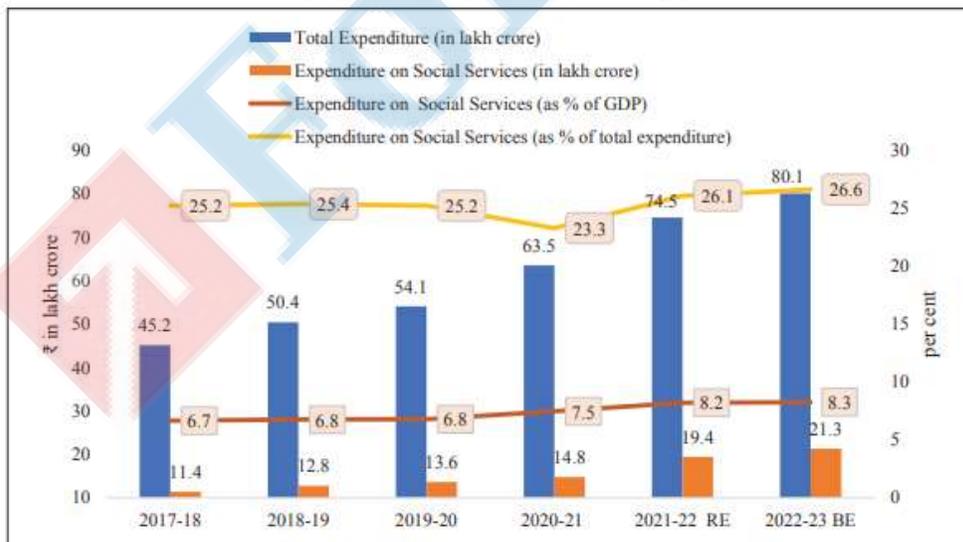

Ans) a

Exp) Option a is the correct answer.

Social expenditure refers to the public spending by the government on various social sectors such as health, education, social security, housing, and other welfare programs. In India, the government spends a significant amount of its budget on social expenditure to improve the well-being of its citizens and reduce poverty.

Statement 1 is correct: The Government's spending on social services has **shown a rising trend since FY18 with a focus on many aspects of the social well-being of citizens of the country.** The share of expenditure on social services in the total expenditure of the Government has been around 25 per cent from FY18 to FY20. It **increased to 26.6 per cent in FY23 (BE).** The social services expenditure witnessed an increase of 8.4 per cent in FY21 over FY20 and another 31.4 per cent increase in FY22 over FY21, being the pandemic years, which required enhanced outlay, especially in the health and education sectors. While the social sector expenditure outlay of the Centre and State governments was `12.8 lakh crore in FY19, it has increased steadily to stand at `21.3 lakh crore in FY23 (BE).

Figure VI.1: Trends in social service sector expenditure by General Government (Combined Centre and States)

Statement 2 is incorrect: The share of expenditure on health in the total expenditure on social services, has increased from 21 per cent in FY19 to 26 per cent in FY23 (BE). However, the total health expenditure

SFG 2023 | LEVEL 2 | Test #16 – Solutions |

of the Central government has **not increased to 3 per cent of GDP in** Fiscal year of 2021-22. Fifteenth Finance Commission, in its report, had recommended that public health expenditure of Union and States together should be increased in a progressive manner to reach 2.5 per cent of GDP by 2025.

Items	2015-16	2016-17	2017-18	2018-19	2019-20	2020-21	2021-22 RE	2022-23 BE
Health	1.3	1.4	1.4	1.4	1.4	1.6	2.2	2.1

Statement 3 is incorrect: The total combined expenditure of Central and State governments for **health sector is not twice the expenditure allocated** for education sector. The **allocation for the education sector far exceeds (almost twice) the allocated expenditure of health sector.**

Items	2015-16	2016-17	2017-18	2018-19	2019-20	2020-21	2021-22 RE	2022-23 BE

Q.8) Consider the following statements regarding situation of workforce in an economy:

- Casualisation of a workforce is a situation in which employment shifts from full time and permanent position to contractual position.
- Informalisation of workforce is a situation in which the proportion of workforce in the formal sector of economy declines over a period.

Which of the statements given above is/are correct?

- 1 only
- 2 only
- Both 1 and 2
- Neither 1 nor 2

Ans) c

Exp) Option c is the correct answer.

Workforce is the total number of people in a country or region who are physically able to do a job and are available for work. The workforce in Indian economy has seen a substantial shift from farm-based employment to non-form employment over past few decades. Various studies have shown that the Indian workforce is facing the challenges of Casualisation and Informalisation.

Statement 1 is correct: Casualisation of work force is a process in which employment shifts from a full-time and permanent positions to casual or contract positions. Casual workers are often employed by others on any farm/non-farm enterprise and are paid wages that are daily or periodic in nature.

Statement 2 is correct: Informalisation of a workforce is a phenomenon in which the proportion of workforce in the informal sector to total workforce increases. It means, the total workforce in the formal sector (Government regulated sector employing 10 or more workers) reduces while that in informal sector (Unregulated sector employing less than 10 workers) rises.

Source:

NCERT Class 12th, Indian Economic Development, Unit 7, EMPLOYMENT: GROWTH, INFORMALISATION AND OTHER ISSUES.

Q.9) Consider the following statements with reference to the Foreign Exchange Reserves of India:

1. Higher investments by foreign portfolio investors in India necessarily leads to reduction in forex reserves.
2. Forex reserves help in managing the volatility in currency exchange rates.
3. Sometimes RBI may sell dollars in the market if the rupee weakens.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

The foreign exchange reserve of India is consisting of Foreign Currency Assets, Gold Stock of RBI, SDR (Special Drawing Right) holdings of the government, Reserve Tranche position with international monetary fund. In India, Foreign Exchange Reserves are the foreign assets held or controlled by the country central bank. The reserves are made of gold or a specific currency. Currencies of various countries are held in foreign exchange reserve.

Statement 1 is incorrect: The major reason for the rise in forex reserves is the rise in investment in foreign portfolio investors in Indian stocks and foreign direct investments (FDIs).

Statement 2 is correct: Forex reserves are instruments to maintain or **manage the exchange rate**, while enabling orderly absorption of international money and capital flows. The foreign exchange reserves to GDP ratio is around 15 per cent. In brief, official reserves are held for precautionary and transaction motives keeping in view the aggregate of national interests, to achieve balance between demand for and supply of foreign currencies, for intervention, and to preserve confidence in the country's ability to carry out external transactions.

Statement 3 is correct: The Reserve Bank functions as the custodian and manager of forex reserves, and operates within the overall policy framework agreed upon with the government. The RBI allocates the dollars for specific purposes. The RBI uses its forex for the orderly movement of the rupee. **It sells the dollar when the rupee weakens and buys the dollar when the rupee strengthens.**

Q.10) With reference to UN Peacekeeping, consider the following statements:

1. Financing of UN Peacekeeping operations is the collective responsibility of all UN Member States.
2. UN can ban the peacekeepers from future participation if they are alleged in serious misconduct.
3. Peacekeepers are accountable to UN security council for their criminal conduct.

Which of the given above statements is/are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) a

Exp) Option a is the correct answer.

UN Peacekeeping helps countries navigate the difficult path from conflict to peace. They have unique strengths, including legitimacy, burden sharing, and an ability to deploy troops and police from around the world, integrating them with civilian peacekeepers to address a range of mandates set by the UN Security Council and General Assembly.

Statement 1 is correct: While decisions about establishing, maintaining or expanding a peacekeeping operation are taken by the Security Council, **the financing of UN Peacekeeping operations is the collective responsibility of all UN Member States.** Every Member State is legally obligated to pay their respective share towards peacekeeping. This is in accordance with the provisions of Article 17 of the Charter of the United Nations.

Statement 2 is correct: When allegations of serious misconduct involving military and police personnel are substantiated, the UN may repatriate the individuals concerned on disciplinary grounds and ban them from future participation in peacekeeping operations.

Statement 3 is incorrect: UN Peacekeepers are accountable to **their respective countries** for their criminal conduct.

Source: <https://peacekeeping.un.org/en/mandates-and-legal-basis-peacekeeping>
<https://conduct.unmissions.org/enforcement-accountability>

Q.11) Which of the following statements best describe the situation of Unemployment Trap?

- It is a situation in which a casual labour finds it difficult to get out of indebtedness due to insufficient income.
- It is a situation in which cost of going to work is lower than the income received.
- It is a situation when unemployment benefits discourage the unemployed to go to work.
- It is a situation in which an employee is forced to work without wages by debtor to repay the previous debts.

Ans) c

Exp) Option c is the correct answer.

While the purpose of social security and welfare systems is to provide relief to the unemployed, they end up providing them with an incentive not to return to work. **An unemployment trap arises when opportunity cost of going to work is higher than the income received, discouraging people from returning to work and being productive.**

Therefore, we can summarise, Unemployment trap as a situation when unemployment benefits discourage the unemployed to go to work. People find the opportunity cost of going to work too high when one can simply enjoy the benefits by doing nothing.

Source: <https://economictimes.indiatimes.com/definition/unemployment-trap>

Q.12) With reference to 'Annual Survey of Industries (ASI) 2019-20', consider the following statements:

- In India, food products industry was the largest employer in the organized manufacturing sector.
- In 2019-2020, the value of the output from the manufacturing sector was lowest since independence.
- The state of Tamil Nadu had the largest number of persons engaged in factories in India.

Which of the statements given above is/are correct?

- 1 and 2 only
- 2 and 3 only
- 3 only
- 1 and 3 only

Ans) d

Exp) Option d is the correct answer.

Annual Survey of Industries (ASI) 2019-20 is conducted by Ministry of Statistics and Programme Implementation. It is an important source of industrial statistics of the registered organized manufacturing sector of the economy.

Statement 1 is correct: As per the latest ASI FY20, **employment in the organised manufacturing sector** has maintained a steady upward trend over time, with the employment per factory increasing gradually. In terms of share of employment (total persons engaged), the **food products industry (11.1 per cent) remained the largest employer**, followed by wearing apparel (7.6 per cent), basic metals (7.3 per cent), and motor vehicles, trailers, and semi-trailers (6.5 per cent).

Statement 2 is incorrect: According to the report, the manufacturing sector in India saw a decline in both the number of factories and the number of workers employed during the year. However, the **value of output from the manufacturing sector increased by 0.5% compared to the previous year**, driven by the growth in the food products, tobacco products, and pharmaceuticals industries. Thus, the value was not the lowest as it increased compared to previous year.

Statement 3 is correct: State-wise, **Tamil Nadu had the largest number of persons engaged in factories (26.6 lakh)**, followed by Gujarat (20.7 lakh), Maharashtra (20.4 lakh), Uttar Pradesh (11.3 lakh), and Karnataka (10.8 lakh).

Q.13) Which of the following statements best describe the economic situation of 'Glass Cliff'?

- It refers to a situation in which women are promoted to higher positions in companies during the times of crisis.
- It refers to an unspoken limit on how higher a women can rise in an organisation.
- It refers to a situation in which mass layoffs of the employees are done to balance out the ill effects of aggressive hiring previously done.
- It refers to a situation where men employed in inferior positions are promoted faster compared to women.

Ans) a

Exp) Option a is the correct answer.

The term "**Glass Cliff**" refers to a situation in which women are promoted to higher positions during times of crisis or duress, or during a recession when the chance of failure is more likely. In simple terms, women are basically set up for failure. It gives a company someone to blame, if she fails to pull the company out of its downward spiral.

It allows companies to look good as they are promoting women to leadership roles. Hence, even if the company fails it still earns a reputation of being progressive. If women fail, companies are free to reappoint males to their positions without reproach.

Option b is incorrect. On the other hand, '**Glass Ceiling**' refers to an unseen and unspoken limit on how high women can rise in an organisation.

Option c is incorrect. Glass cliff do not refer to a situation in which mass layoffs of the employees are done to balance out the ill effects of aggressive hiring during pandemic years.

Option d is incorrect. Similarly, a situation where men employed in female or minority dominated professions are promoted faster is known as '**Glass Escalator**'.

Source: <https://www.investopedia.com/terms/g/glass-cliff.asp>

<https://www.forbes.com/sites/jennagoudreau/2012/05/21/a-new-obstacle-for-professional-women-the-glass-escalator/?sh=66e24a33159d>

Q.14) With reference to India, consider the following statements:

1. The Gini coefficient has rapidly reduced in the last decade.
2. Reduction in tax progressivity is one of the reasons for the rise in income inequality.
3. Per capita income has decreased after the economic liberalization of 1991.

Which of the statements given above is/are correct?

- a) 2 only
- b) 2 and 3 only
- c) 1 and 2 only
- d) 1, 2 and 3

Ans) a

Exp) Option a is the correct answer.

Statement 1 is incorrect: The Gini coefficient was 35.7 per cent in 2011 in India. The coefficient **increased to 47.9 per cent in 2018**. Due to the COVID-19 pandemic, the Gini coefficient increased further.

India is only second to Russia in the world in terms of inequality.

Gini index or coefficient measures distribution of income across population. Gini coefficient - **100 per cent indicates full inequality** and 0 per cent indicates full equality. Thus, higher Gini coefficient indicates greater inequality.

Statement 2 is correct: Reduction in tax progressivity is one of the reason for rise in income inequality. Top tax rates, which were very high in the 1970s (up to 98%), decreased to 30% in the 1980s and after.

A progressive tax is based on the taxpayer's ability to pay. It imposes a lower tax rate on low-income earners than on those with a higher income. This is usually achieved by creating tax brackets that group taxpayers by income ranges.

Statement 3 is incorrect: Between 1991 and 2016, **per capita income rose from Rs 6,270 to Rs 93,293. Thus, it witnessed a 1388 percent jump.**

Source: <https://www.thehindu.com/opinion/interview/income-inequality-in-india-at-its-highest-level-since-1922/article19645881.ece>

Q.15) With reference to Information Technology (Intermediary Guidelines and Digital Media Ethics Code) Rules, 2021 consider the following statements:

1. Intermediaries must provide information under its control to the government authorized agency within 72 hours.
2. It permits users to appeal the decisions of platforms to Grievance Appellate Committee.
3. It also mandates Intermediary to publish its rules and regulations, privacy policy and user agreement of the platform in any one of the chosen regional languages along with English.
4. Intermediary can terminate its user from access to its computer resource for non-compliance of its rules and regulations.

Which of the given above statements are correct?

- a) 1 and 4 only
- b) 2 and 3 only
- c) 1, 2 and 4 only
- d) 1, 2 and 3 only

Ans) c

Exp) Option c is the correct answer.

The Ministry of Electronics and IT (MeitY) has notified amendments to the Information Technology (Intermediary Guidelines and Digital Media Ethics Code) Rules, 2021 (IT Rules, 2021). They aim at placing obligations on Social Media Intermediaries (SMIs) to ensure an open, safe and trusted internet.

Statement 1 is correct: Intermediaries must provide information under its control to the government authorized agency within 72 hours for investigative or protective or cyber security activities, for the purposes of verification of identity, or for the prevention, detection, investigation, or prosecution, of offences under any law for the time being in force, or for cyber security incidents.

Statement 2 is correct: IT Amendment Rules, 2022, seeks to subject content on social media platforms to the direct scrutiny of the Government by permitting **users to appeal decisions of the platforms to the Grievance Appellate Committee (GAC).**

Statement 3 is incorrect: The intermediary shall prominently publish on its website, mobile based application or both, as the case may be, the rules and regulations, privacy policy and user agreement **in English or any language specified in the Eighth Schedule** to the Constitution.

Statement 4 is correct: In case of non-compliance with rules and regulations, privacy policy or user agreement for access or usage of the computer resource of such intermediary, **it has the right to terminate the access or usage rights of the users to the computer resource immediately.**

Source: <https://pib.gov.in/PressReleaseIframePage.aspx?PRID=1871840>

Q.16) The objective of the recently launched 'PM-SHRI' initiative is to-

- showcase the rich cultural heritage of the country
- reduce the financial burden of charitable religious institutions
- strengthen the existing government schools
- provide amenities of international standards around monuments

Ans) c

Exp) Option c is the correct answer.

The **Pradhan Mantri Schools for Rising India (PM-SHRI) Yojana** is a centrally sponsored scheme for upgradation and development of more than 14500 Schools across the country. It aims at **strengthening the selected existing schools from amongst schools** managed by Central Government/ State/ UT Government/ local bodies.

Features of the scheme:

- PM SHRI Schools will be developed as Green schools, incorporating environment friendly aspects.
- Pedagogy adopted in these schools will be more experiential, holistic, integrated, play/toy-based.
- PM SHRI Schools would be implemented through the existing administrative structure available for Samagra Shiksha, KVS & NVS.
- Selection of PM SHRI schools will be done through Challenge Mode wherein Schools compete for support to become exemplar schools.

Source: <https://pib.gov.in/PressReleaseIframePage.aspx?PRID=1857409>

Q.17) Which of the following were the possible reasons for the rise in economic inequality after the 1991 economic reforms in India?

- Reduction in public investment in agriculture
- Decline in the availability of casual labour
- Poor growth of public expenditure in social sectors
- Rapid decline in foreign direct investments in India

Select the correct answer using the code given below:

- 1 and 2 only
- 2, 3 and 4 only
- 1 and 3 only
- 1, 3 and 4 only

Ans) c

Exp) Option c is correct.

Statement 1 is correct. The share of agriculture investment in the total investment declined from 11.4% in 1980s to 7.4% in 2000s. Evidence show that inequality increased in post-reform period India. Even with a doubling of per capita consumption growth in the post-reform decade, the decline in poverty was less by a quarter compared to the pre-reform decade.

There has been a **relative neglect of the agriculture sector** by policymakers. While economic development entails a move from the off-farm to industry and services, deficiencies of public investments in agriculture, and in the rural economy more generally, has been problematic precisely because the productivity of agriculture determines the standards of living of the majority of the people in India.

Statement 2 is incorrect. Post-reform period saw an **increase in casual labour and not a decline.** The growth of the labour-intensive manufacturing sector has been slow and has been lagging behind the service sector, which is less labour intensive. Also, a high growth in the post-liberalisation period has been accompanied by **increased informalisation and de-unionisation of workforce.** Economically and socially deprived sections of society were mostly employed as casual labour. These are some of the worrisome features of the labour market, as these workers have low bargaining power and earn meagre wages.

Statement 3 is correct. Public expenditure on social sectors has suffered after 1991. As a percentage of GDP, social sector expenditure after 1991 was generally less than what it was in the late 1980s. This has impacted the improvement in health and quality of education in India, which affects economic growth and its distribution.

Statement 4 is incorrect. India's foreign exchange reserves has **increased significantly since 1991.** In June 1991, India had less than \$1 billion foreign reserves. At present, India's foreign exchange reserves stood at more than USD 600 billion.

Source: <https://www.egyankosh.ac.in/bitstream/123456789/37979/1/Unit-11.pdf>

<https://www.thehindu.com/news/national/tehrangana/Economic-growth-post-reform-period-not-inclusive/article17006542.ece>

Q.18) With reference to various curves representing a relation between macroeconomic indicators, consider the pairs:

Curves	Description
1. Lorenz Curve	Represents a relationship between Tax rate and Tax revenue collected.
2. Kuznets Curve	Represents a relationship between economic growth and economic inequality.
3. Phillips Curve	Represents a relationship between Inflation and Purchasing Power of money.

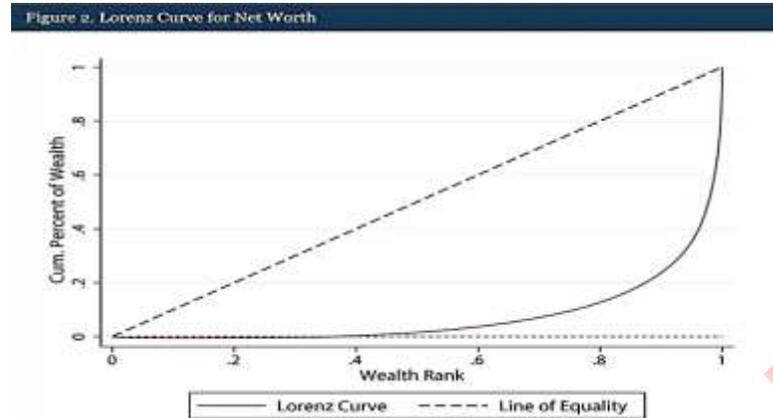

How many pairs above is/are correctly matched?

- Only one pair
- Only two pairs
- All the three pairs
- None of the pairs

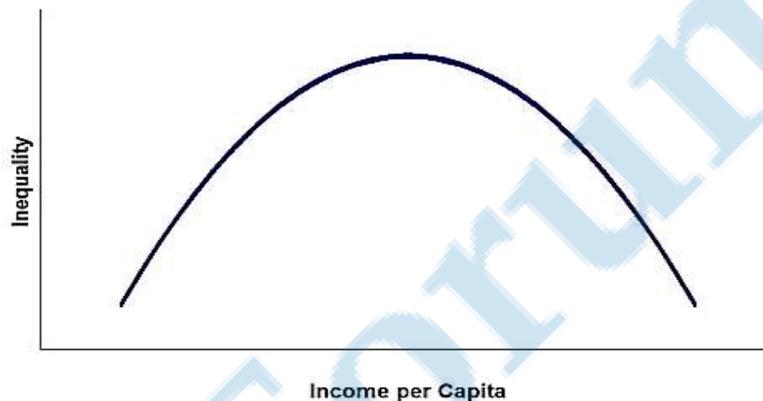

Ans) a

Exp) Option a is the correct answer.

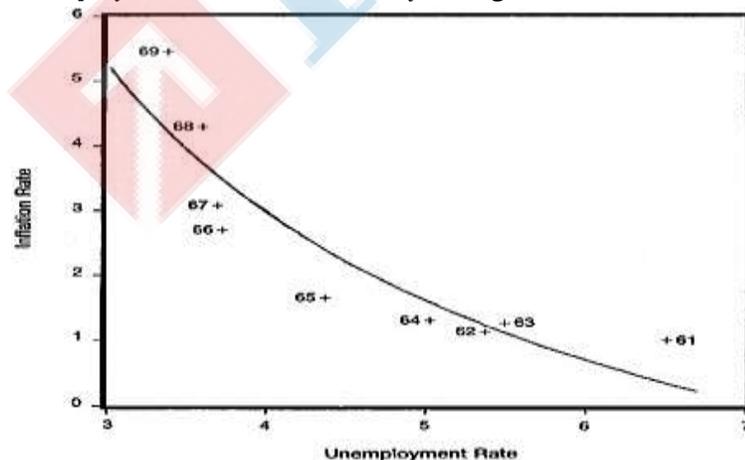

Pair 1 is incorrect: A Lorenz curve is a graphical representation of the **distribution of income or wealth within a population**. The farther the curve is from the baseline (represented by the straight diagonal line) the higher the level of inequality.

Pair 2 is correct: Kuznets curve represents a relation between economic growth and economic inequality. According to this curve, **inequality first rises with increase in economic growth, but inequality after a certain point starts to fall down** as economic growth rises.

Pair 3 is incorrect: The Phillips curve represents a relationship between **rate of inflation and Unemployment rate**. The Phillips curve demonstrates an inverse relation between inflation and unemployment rate in an economy i.e. **higher the inflation, lower the unemployment rate**.

Source: <https://www.investopedia.com/terms/l/lorenz-curve.asp>
<https://www.investopedia.com/terms/s/simon-kuznets.asp>
<https://economictimes.indiatimes.com/wealth/tax/here-is-everything-you-want-to-know-about-laffer-curve-and-tax/tomorrowmakersshow/51098997.cms#:~:text=What%20is%20Laffer%20Curve%3F,an%20economy%20tend%20to%20fall.>

Q.19) With reference to Account Aggregator (AA) Framework, consider the following statements:

1. Account Aggregator is a Reserve Bank of India-regulated Non-Banking Financial Company (NBFC).
2. Account Aggregator cannot retrieve or share the financial information of the customer without the explicit consent of the customer.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) c

Exp) Option c is the correct answer.

Statement 1 is correct: An Account Aggregator (AA) is a type of Reserve Bank of India (RBI) regulated Non-Banking Financial Company (NBFC) that helps an individual securely and digitally access and share information from one financial institution they have an account with to any other regulated financial institution in the AA network.

Statement 2 is correct: Account Aggregator (AA) is engaged in the business of providing the service of retrieving or collecting financial information pertaining to the customer. No financial information of the customer is retrieved, shared or transferred by AA without the explicit consent of the customer.

Knowledge Base: **Registering with an AA is fully voluntary for consumers.** If the bank the consumer is using has joined the network, **an individual can choose to register on an AA**, choose which accounts they want to link, and share their data from one of their accounts for some specific purpose to a new lender or financial institution at the stage of giving consent via one of the Account Aggregators. **A customer can reject a consent to share request at any time.**

Source: <https://pib.gov.in/PressReleaseIframePage.aspx?PRID=1753713>

Q.20) With reference to various measures taken by the government to boost the digitalization of land records in India, consider the following statements:

1. National Generic Document Registration System (NGDRS) is a software application for the registration system designed for the exclusive use of sub registrars.
2. Unique Land Parcel Identification Number (ULPIN) System provides a unique ID for every plot of land in the country.
3. SVAMITVA scheme aims to provide Record of Rights to village house owners.
4. Digital India Land Records Modernization Programme (DILRMP) involves Computerization of land record and Registration.

Which of the given above statements are correct?

- a) 1, 2 and 3 only
- b) 2, 3 and 4 only
- c) 1, 3 and 4 only
- d) 1, 2, 3 and 4

Ans) b

Exp) Option b is the correct answer.

In India land titles are presumptive rather than conclusive. This has led to many legal issues. It has been estimated that nearly two-thirds of all pending cases in Indian courts are related to property disputes. NITI Aayog has said that such property cases take an average of 20 years to settle. To eradicate this problem the Union government launched several measures like the National Land Records Modernization Programme in August 2008 later (renamed as Digital India Land Records Modernization Programme), NGDRS, ULPIN etc.

Statement 1 is incorrect: National Generic Document Registration System (NGDRS) is an in-house advanced software application for the registration system developed by NIC. The **application is specifically designed for the use of sub registrars, citizens and apex users from registration departments.** NGDRS facilitates states to create state specific instances and configure the software as per requirements.

Statement 2 is correct: Unique Land Parcel Identification Number (ULPIN) System provides a unique ID of 14 digits for every plot of land in the country based on the Georeferenced coordinate of vertices of the parcel.

Statement 3 is correct: Survey of Villages Abadi and Mapping with Improvised Technology in Village Areas (SVAMITVA) scheme aims to demarcate inhabited (Abadi) land and provide Record of Rights/Property Cards in rural areas through the latest surveying drone technology.

Statement 4 is correct: Digital India Land Records Modernization Programme (DILRMP) is a central sector scheme launched by the Union Ministry of Rural Development in 2016. It has 3 major components:

- 1) Computerization of land record
- 2) Survey/re-survey
- 3) Computerization of Registration

Source: <https://dolr.gov.in/en/programme-schemes/dilrmp/digital-india-land-record-modernization-programme> <https://pib.gov.in/PressReleasePage.aspx?PRID=1696503>

Q.21) Consider the following statements regarding Aspirational Districts Program (ADP):

1. Development of 'basic infrastructure' assumes maximum weightage under the ADP.
2. According to Economic Survey 2022-23, many of the Aspirational Districts (ADs) have performed better than non-aspirational districts in terms of Financial Inclusion.
3. Several Aspirational Districts have reported saturation in the basic infrastructure indicators, as per the Economic Survey 2022-23.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

The Government of India launched the 'Transformation of Aspirational Districts' (Aspirational Districts Programme (ADP)) initiative in January 2018 with a vision of a New India by 2022 wherein the focus is to raise living standards of its citizens and ensuring inclusive growth of all in the burgeoning economy.

117 Aspirational Districts (ADs) across 28 States/UTs have been identified by NITI Aayog based upon composite indicators ranging from health and nutrition, education, agriculture, and water resources, financial inclusion and skill development, and basic infrastructure which have an impact on HDI.

Statement 1 is incorrect: The baseline ranking for the Aspirational Districts Programme is based on 49 indicators across five sectors that include **health and nutrition (30% weightage) through 13 indicators, education (30%) through 8 indicators, agriculture and water resources (20%) through 10 indicators, financial inclusion and skill development (10%) through 10 indicators, and basic infrastructure (10%) through 7 indicators.**

Statement 2 is correct: Economic Survey 2022-23 says that while monitoring the outcome of financial inclusion, it was seen that **Aspirational Districts (ADs) have performed better than non-aspirational districts.** This means more people have access to bank accounts, more have been covered under the fold of government insurance schemes and more can secure MUDRA loans in ADs.

Statement 3 is correct: Several Aspirational Districts have reported saturation in the basic infrastructure indicators like -

- 1) the **percentage of households with electricity connection;**
- 2) percentage of habitations with access to all-weather roads under Pradhan Mantri Gram Sadak Yojana (PMGSY);
- 3) cumulative number of kilometres of all-weather road work completed as a percentage of total sanctioned kilometres in the district under PMGSY; and
- 4) percentage of households with individual household washrooms, etc.

Q.22) The Economic Survey 2022-23 talks about the Guidotti–Greenspan IMF rule. In this context, select the statement which best describes the rule?

- a) According to the rule, the adequacy of foreign exchange can be determined by Ratio of reserves to imports, to money aggregates and measure of external debt.
- b) It states that a country's foreign exchange reserves should be equal to short-term external debt.
- c) The rules state that the Gross Fixed capital formation increases with an increase in investment.
- d) The rule provides for the precautionary measures to be taken by the economy in economic crisis.

Ans) b

Exp) Option b is the correct answer.

Foreign exchange reserves are **required** for various purposes, such as to **maintain the exchange rate** within a certain range, or to maintain a certain level of exchange rate if the country follows a fixed exchange rate system; **maintain liquidity** and allow time to **absorb shocks**.

Option a is incorrect: The **optimal level** of reserves empowers the government to **maximise the welfare** of the representative consumer, given the constraint of sudden stops in terms of debt rollover crisis. Therefore, adequacy of reserves comes in picture. **Conventionally**, there are **three measures** of adequacy of reserves, viz. **ratios of reserves to imports, to monetary aggregates, and measures of external debt**

Option b is correct: **Guidotti–Greenspan IMF rule** states that a **country's reserves should be equal to short-term external debt** (one-year or less maturity), suggesting a ratio of reserves-to-short term debt of one. The **traditional approach** determines the adequacy of reserves by **three months of imports or full cover of short-term debt. This approach is based on Guidotti–Greenspan IMF rule.**

Option c and d are incorrect: Guidotti–Greenspan IMF rule does not talk about Gross Fixed capital formation nor it talks about the precautionary measures to be taken by the economy in economic crisis.

Source: Page 331, chapter 11: External Sector: Watchful and Hopeful of Economic survey 2022-23.

Q.23) Self Help Groups (SHGs) are expected to follow five cardinal principles called Panchsutras for better performance and greater access to bank credit. Which among the following are considered as part of the 'Panchsutras'?

1. Regular inter-lending
2. Up-to-date books of accounts
3. Regular savings
4. Faster digitisation of banking activities
5. Timely repayment

Select the correct answer using the codes given below:

- a) 2, 4 and 5 only
- b) 1, 3 and 4 only
- c) 1, 2, 3 and 5 only
- d) 1, 2, 3, 4 and 5

Ans) c

Exp) Option c is the correct answer.

The Self-Help Groups (SHGs) movement, based on the principles of group solidarity and microfinance, has existed in India for 50 years in one form or another. Roots of the SHG movement trace back to the formation of the Self-Employed Women's Association in 1972.

The SHG movement has emerged as a powerful intervention to cover the small and marginalised sections. Currently, bank-linked SHGs are promoted through Central Government, State Governments, NGOs, etc. The SHGs follow 'Panchsutras' viz.

- 1) regular inter-lending, (**Statement 1 is correct**)
- 2) up-to-date books of accounts (**Statement 2 is correct**)
- 3) regular savings, (**Statement 3 is correct**)
- 4) regular meetings,
- 5) timely repayment (**Statement 5 is correct**)

are considered as trustworthy SHGs by the banks and availing loans from banks for their activities becomes easier for such SHGs.

statement 4 is incorrect. Faster digitisation of banking activities does not form a part of Panchsutras for SHGs.

Source: <https://www.nabard.org/contentsearch.aspx?AID=225&Key=shg+bank+linkage+programme>
<https://www.indiabudget.gov.in/economicsurvey/doc/echapter.pdf>, chapter 6

Q.24) As per the existing classification of Balance of Payments (BoP) accounts, transactions in which of the following item(s) is/are categorized under the head 'capital account' of Balance of Payments (BoP)?

1. Sale of Trademarks
2. Sale of Mineral rights
3. Goods acquired under a financial lease
4. Sale of Non-customized packaged software

Choose the correct answer from the codes given below:

- a) 2 only
- b) 1, 3 and 4 only
- c) 1 and 2 only
- d) 1, 2 and 3 only

Ans) c

Exp) Option c is the correct answer.

As per Reserve Bank of India (RBI), the capital account comprises capital transfers receivable and payable between residents and non-residents. These also include **acquisition and disposal of non-produced non-financial assets**. Non-produced non-financial assets include- **natural resources, contracts and licenses, and marketing assets**.

Option 1 is correct: A trademark is a sign capable of distinguishing goods and services of one entity from the other. It can be traded independently (i.e. without selling the entire business). Other marketing assets include items such as existing brand names, mastheads, franchises, logos and domain names and goodwill. **When these items are acquired/ sold separately (i.e. as a standalone item) from the entity that owns them, they are recorded under capital account of BoP.**

Option 2 is correct: Acquisition and disposal of natural resources are considered under the capital account transactions. **The natural resources include mineral rights, forestry rights, water, wishing rights, air space and electromagnetic spectrum.** Transactions in all these items are classified under capital account of the BoP.

Option 3 is incorrect: In a financial lease, the **lessor** has only legal title and not the economic ownership. In other words, **lessee** has the right to use (economic ownership) and he obtains legal title on making all the lease payments. **Goods acquired by lessee under a financial lease are included in general merchandise. Hence, they are part of 'balance of trade'** component of the current account. Goods acquired on operational lease (where title does not transfer at all) are included under the 'service' component.

Option 4 is incorrect: **Non-customized packaged software, video and audio recordings with license for perpetual use are considered as general merchandise.** These items are included in balance of trade component of the current account. It should be noted that **customized software is included under 'services' component.**

Q.25) Consider the following statements about PM DevINE scheme:

1. It is a Centrally Sponsored Scheme.
2. It will be implemented through the North Eastern Council for development.
3. The NECTAR Livelihood Improvement Project will be funded under this scheme.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

The Prime Minister's Development Initiative for North-East (PM-DevINE) Scheme was announced by the Finance Minister during the Union Budget 2022-23 to enable livelihood activities for youth and women and fill the gap in various sectors in the North Eastern Region (NER).

Statement 1 is incorrect: It is a central sector scheme with 100 % central funding. The PM-DevINE Scheme will have an outlay of Rs.6,600 crore for the remaining four years of the 15th Finance Commission from 2022-23 to 2025-26. It will be implemented in addition to the quantum of resources available for the development of the NE region.

Statement 2 is correct: The scheme will be implemented by the Ministry of Development of North Eastern Region through North Eastern Council or Central Ministries/ agencies. To limit construction risks of time and cost overrun, the scheme would be implemented on Engineering-procurement-Construction (EPC) basis.

Statement 3 is correct: The scheme will fund infrastructure, in the spirit of PM GatiShakti, and social development projects based on felt needs of the North-East. The scheme will fund following list of projects initially.

- 1) Establishment of Dedicated Services for the Management of Paediatric and Adult Haemotolymphoid Cancers in North East India, Guwahati (Multi-State)
 - 2) **NECTAR Livelihood Improvement Project** (Multi-State)
 - 3) Promoting Scientific Organic Agriculture in North East Indian
 - 4) Construction of Aizawl By-pass on Western Side
 - 5) Gap funding for Passenger Ropeway system for Pelling to Sanga-Choeling in West Sikkim
- Pilot Project for Construction of Bamboo Link Road at Different Locations in Various Districts in the State of Mizoram

NECTAR (Northeast Center for Technology Application and Reach) Livelihood Improvement Project ensures applications of appropriate technologies for development in the areas of biodiversity concerns, watershed management, telemedicine, horticulture, infrastructure planning & development, planning and monitoring, and tele-schooling using cutting-edge MESHNET solutions, employment generation etc.

Q.26) With reference to ‘Global Economy’, which one of the following statements correctly describe the term “International Investment Position” often seen in news?

- a) It includes the net investments of a country’s private sector into the foreign markets of the world.
- b) It measures the gap between a nation’s stock of foreign assets and a foreigner’s stock of that nation’s assets.
- c) It is the position at a point in time the value of the financial assets held by the Central Bank of a country into foreign land.
- d) It is the net reserve of a country’s position held in the International Monetary Fund.

Ans) b

Exp) Option b is the correct answer.

Net International investment position (NIIP) measures the gap between a nation’s stock of foreign assets and a foreigner’s stock of that nation’s assets. Essentially, **it can be viewed as a nation’s balance sheet with the rest of the world at a specific point in time.**

It includes **overseas assets and liabilities held by a nation’s government, the private sector, and its citizens.** The NIIP is analogous to net foreign assets (NFA), which determines whether a country is a creditor or debtor nation by measuring the difference in its external assets and liabilities.

Net International Investment Position (NIIP) Definition (investopedia.com)

Q.27) Consider the following statements regarding trends in rural agricultural wages:

1. As per the latest RBI data, agricultural workers in the state of Gujarat get the highest daily wages in the country.
2. The rate of growth of real wages in the agricultural activities for females has steadily increased between the year 2016 to 2020.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) d

Exp) Option d is the correct answer.

As rural India shows steady growth, trends in real wages depict a different scenario with stagnating agricultural and non-agricultural wages for both men and women.

Statement 1 is incorrect: Agricultural workers in the states of Gujarat and Madhya Pradesh get the lowest daily wages in the country. According to data compiled by the Reserve Bank of India (RBI), in Madhya Pradesh, male agricultural workers in rural areas got a daily wage of just Rs 217.8 while in Gujarat, it worked out to Rs 220.3 in the year ended March 2022. Significantly, daily wages in both the states are below the national average of Rs 323.2. Kerala leads in highly paid agricultural workers with an average wage of Rs 726.8 per worker.

Statement 2 is incorrect: The recent trend shows that the rate of growth in real rural wages in the agricultural activities for females has actually decreased in 2020 compared to 2016. The Table below shows the trends in the rural wages in case of both- males and females. It can be easily concluded that the female agriculture real wage growth was not steadily increasing.

Table 1: Agricultural and Non-Agricultural real wage growth

Year	Male		Female	
	Agricultural real wage growth (%)	Non-Agricultural real wage growth (%)	Agricultural real wage growth (%)	Non-Agricultural real wage growth (%)
2015	1.26	2.12	3.87	15.33
2016	0.45	-0.04	1.08	2.60
2017	3.15	1.56	3.14	-2.71
2018	0.60	0.46	1.25	1.86
2019	-0.83	-0.35	0.35	0.53
2020	-0.11	1.09	0.88	-2.34

Source: Labour Bureau (n.d.); Note: CPI (2012=100) used as a deflator.

Q.28) With reference to Indian economy, consider the following statements regarding Open Unemployment:

1. Open Unemployment Rate is defined as total unemployed people as a percentage of the working age population.
2. The fall in Open Unemployment Rate may not necessarily represent an increase in the employment rate.
3. Open Unemployment Rate in India has steadily decreased in the last five years.

Which of the statements given above is/are correct?

- a) 1 only
- b) 1 and 3 only
- c) 2 only
- d) 1, 2 and 3

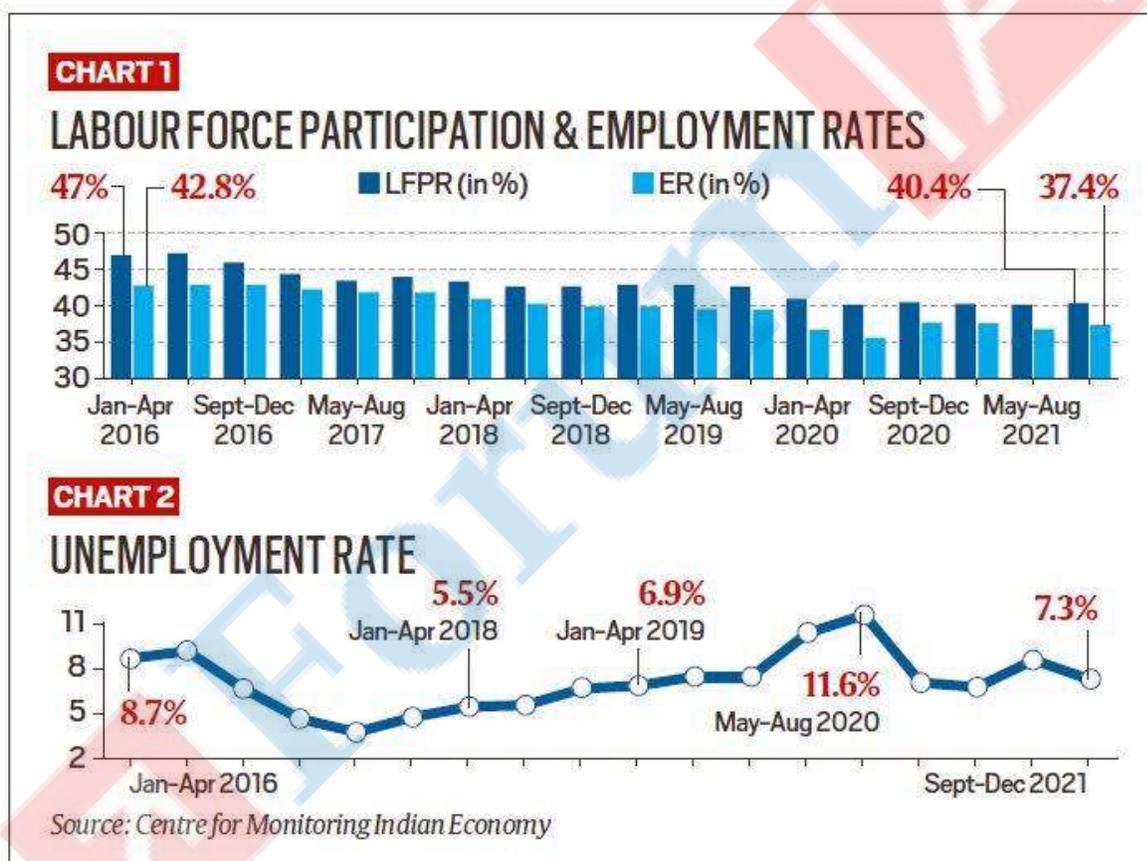

Ans) c

Exp) Option c is the correct answer.

Statement 1 is incorrect: Open Unemployment rate is defined as total unemployed people as a percentage of the **total Labour Force (those who are willing to work)**. **Open unemployment rate represents those people who are willing to work but could not find a job** in the labour market.

Statement 2 is correct: It is true that a fall in the open unemployment rate may not necessarily represent an increase in the employment rate. As **Employment rate** is total number of employed people in the **working age population (15-64)** whereas open unemployment rate is total number of unemployed people among total labour force (i.e. those who are willing to work), thus **fall in unemployment rate could also result from decrease in labour force participation rate** which means those who are demanding job in the market will get reduced.

Statement 3 is incorrect: Open unemployment rate in India has not steadily decreased in the last five years in India. For instance, the open unemployment rate in India in 2016 was 8.7% and decreased to 5.5% in 2018 but increased to 7.3% in 2021.

Source: <https://indianexpress.com/article/explained/unemployment-labour-force-participation-rate-india-economy-explained-7890638/>

Q.29) Consider the following statements regarding the Export-Import (EXIM) Bank:

1. It has been set up under an act of Parliament.
2. Export Credit Guarantee Corporation of India Limited (ECGC) is a wholly owned subsidiary of the EXIM Bank.
3. It has established 'Ubharte Sitaare Fund' for equity investments in Export-Oriented Units (EOUs).

Which of the statements given above is/ are correct?

- a) 1 only
- b) 3 only
- c) 1 and 3 only
- d) 2 and 3 only

Ans) c

Exp) Option c is the correct answer.

The EXIM Bank's mission is globalization of Indian business. It has leadership and expertise in export finance to actively assist Indian companies having global aspirations.

Statement 1 is correct: EXIM Bank has been set up under an 'Act' of Parliament. **The Export-Import Bank of India Act was passed in September, 1981** and the Bank commenced its operations in 1982. **It is wholly-owned by the Government of India.**

Statement 2 is incorrect: **The ECGC Ltd. has been set up in 1957** and is **wholly owned by the Government of India.** Its main objective is to promote exports from the country by providing **credit risk insurance and related services for exports.** The Corporation has introduced various export credit insurance schemes to meet the requirements of commercial banks extending export credit. The insurance covers enable the banks to extend timely and adequate export credit facilities to the exporters.

Statement 3 is correct: **EXIM Bank, along with Small Industries Development Bank of India (SIDBI),** has launched the 'Ubharte Sitaare Fund'. The Fund will make equity investments in export-oriented units, both in manufacturing and service sectors. The Fund will target small and mid-sized companies

Source: <https://www.eximbankindia.in/organisation>

Q.30) Consider the following statements about Codex Alimentarius, a term recently seen in the news:

1. Codex Alimentarius is a collection of internationally adopted food standards.
2. The Codex Alimentarius Commission was set up jointly by the WHO and UN Food and Agriculture Organisation (FAO).
3. India is one of the members of Codex Alimentarius Commission.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

Underlining the importance of safe and quality food in the wake of pandemic, the fifth session of the Codex Committee on Spices and Culinary Herbs (CCSCH) established under Codex Alimentarius Commission (CAC) was held in India in April 2021.

Statement 1 is correct: **The Codex Alimentarius is a collection of internationally adopted food standards and related texts presented in a uniform manner.** These food standards and related texts aim at protecting consumers' health and ensuring fair practices in the food trade. Hence, it is not a component of any banned cough syrup, rather it is an International code adopted for food and hygiene standards.

Statement 2 is correct: The Codex Alimentarius Commission (CAC) is an intergovernmental body established jointly by the UN's Food and Agriculture Organisation (FAO) and the World Health Organisation (WHO) in 1963, within the framework of the Joint Food Standards Programme to protect the health of consumers and ensure fair practices in the food trade. It meets in regular session once a year alternating between Geneva and Rome.

Statement 3 is correct: India became the member of Codex Alimentarius in 1964. Currently the Codex Alimentarius Commission has 189 Codex Members made up of 188 Member Countries and 1 Member Organization (The European Union).

Knowledge Base: To develop and expand worldwide standards for spices and culinary herbs, and to consult with other international organisations in the standards development process Codex Committee on Spices and Culinary Herbs (CCSCH) was formed in 2013 with support of more than a hundred countries with India as the host country and Spices Board as the Secretariat for organising the sessions of the committee. Since its inception, the Codex Committee on Spices and Culinary Herbs has been successful in developing harmonised global Codex standards for spices and herbs.

Q.31) With reference to present situation of India's External debt, consider the following statements:

1. Of the total external debt of India, the share of short-term debt is larger than that of long-term debt.
2. The majority part of India's external debt is denominated in US dollar, followed by Indian rupees.
3. External debt owed by the Central as well as State Governments is less than the external debt owed by non-sovereign entities.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 3 only
- d) 1 and 3 only

Ans) b

Exp) Option b is the correct answer.

India's external debt standing at **US\$ 610.5 billion** as of end-September 2022, grew by 1.3 per cent (US\$ 7.6 billion) over US\$ **602.9 billion** in end-September 2021. However, external debt as a **ratio to GDP fell to 19.2%** as of end-September 2022 from **20.3%** in end-September 2021.

Statement 1 is incorrect: Of the total external debt, the Share of **long-term debt is larger than the share of short-term debt**. The share of long-term debt to India's total external debt is 78.4% as of end-September 2022, (82.8% in 2021) and the share of short-term debt is 21.6% by end-September 2022 (17.2% in 2021).

Statement 2 is correct: It is true that the major part of India's external debt is **denominated in the US dollar (55.5%)**, the **Indian rupee-denominated component (30.2 per cent)** occupies the second largest position. This insulates the external debt from foreign currency risk, thereby strengthening the economic stability of a nation.

Statement 3 is correct: As of end-September 2022, **Sovereign External Debt (SED)** which includes debt owed by Central as well as State governments amounted to **US\$ 124.5 billion** whereas **Non-Sovereign Debt estimated at US\$ 486.0 billion** as of end-September 2022.

Table XI.3: External Debt Outstanding

(US\$ Billion unless indicated otherwise)

Sector/Instrument	Sept 2021	June 2022 PR	Sept 2022 P	Absolute Variation		Percentage Variation	
				Sept 2022 over Sept 2021	Sept 2022 over June 2022	Sept 2022 over Sept 2021	Sept 2022 over Jun 2022
1	2	3	4	5	6	7	8
I. General Government	132.0	127.7	124.5	-7.5	-3.2	-5.7	-2.5

Q.32) With reference to India's external trade in financial year 2021-22, consider the following countries:

1. United States of America (USA)
2. United Arab Emirates (UAE)
3. China
4. Saudi Arabia

Which of the following codes correctly describes India's top trading partners in an increasing order in terms of value of trade?

- a) 4-2-1-3
- b) 2-4-1-3
- c) 4-2-3-1
- d) 2-3-4-1

Ans) c

Exp) Option c is the correct answer.

Recently the United States of America (USA) surpassed China to become India's top trading partner in 2021-22, reflecting strengthening economic ties between the two countries.

Option 1: The bilateral trade between the **US and India stood at \$119.42 billion in 2021-22** as against \$80.51 billion in 2020-21. **Exports** to the US increased to \$76.11 billion in 2021-22 (\$51.62 billion in 2020-21), while **imports** rose to \$43.31 billion (\$29 billion in 2020-21).

Option 2: India's bilateral trade with the **United Arab Emirate (UAE) stood at \$72.9 billion in 2021-22** and UAE is the **third largest trading partner** of India.

Option 3: India's bilateral trade with China amounted to **\$115.42 billion in 2021-22** as compared to \$86.4 billion in 2020-21. **Exports** to China marginally increased to \$21.25 billion in 2021-22 (\$21.18 billion in 2020-21) while **imports** jumped to \$94.16 billion (\$65.21 billion in 2020-21)

Option 4: India's bilateral trade with **Saudi Arabia stood at \$42.85 billion** in 2021-22 and Saudi Arabia is the **fourth largest trading partner of India**. **Iraq** (\$34.33 billion) and **Singapore** (\$30 billion) are respectively the **fifth and sixth** largest trading partner of India.

Source: <https://indianexpress.com/article/india/us-surpasses-china-as-indias-biggest-trading-partner-in-fy22-at-119-42-bn-7942414/>

Q.33) With reference to Real Estate sector in India, consider the following statements:

1. It is mandatory for every real estate project in a state to register with the respective State Real Estate Regulatory Authority.
2. The Global Real Estate Transparency Index, 2022 placed India among a list of Opaque countries regarding real estate transactions.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) d

Exp) Option d is the correct answer.

The Real estate sector in India is expected to reach **US\$ 1 trillion in market size by 2030**, up from US\$ 200 billion in 2021. By 2025, it will contribute 13% to the country's GDP. Emergence of nuclear families, rapid

urbanisation and rising household income are likely to remain the key drivers for growth in all spheres of real estate.

Statement 1 is incorrect: Section 3 of the Real Estate Regulation and Development (RERA) Act, 2016 made it **mandatory for almost all the real estate projects to register with State RERA** to provide greater transparency in project marketing and execution.

However, section 3 (2) exempts some projects from the mandatory registration requirement. They are

(a) where the area of land proposed to be developed **does not exceed five hundred square meters** or the number of apartments proposed to be developed does not exceed eight inclusive of all phases

(b) where the promoter has received completion certificate for a real estate project prior to commencement of this Act;

(c) for the purpose of renovation or repair or re-development which does not involve marketing, advertising selling or new allotment of any apartment, plot or building, as the case may be, under the real estate project.

Statement 2 is incorrect: The **Global Real Estate Transparency Index** is published by **JLL and LaSalle's** extensive network of real estate market experts. The index classifies countries into Highly Transparent, Transparent, Semi-Transparent, Low Transparency and Opaque countries. **India is classified as a Semi-Transparent country (not opaque country) and ranked 36th as** per the Global Real Estate Transparency Index 2022.

Source: https://legislative.gov.in/sites/default/files/A2016-16_0.pdf (pg no 11 under grant of registration)

<https://www.jll.co.in/en/trends-and-insights/research/global-real-estate-transparency-index/greti-global-rankings-and-methodology>

Q.34) With reference to the Gender Inequality Index (GII), consider the following statements:

1. It is released by the World Economic Forum (WEF).
2. The index assesses male and female participation in parliamentary seats to measure gender inequality.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

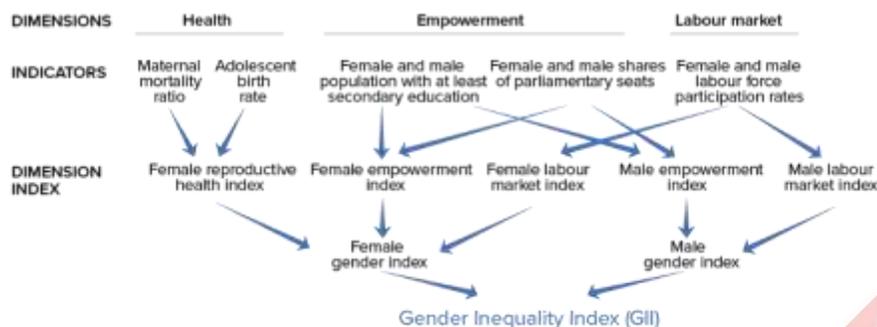

Ans) b

Exp) Option b is the correct answer.

Gender Inequality Index (GII) reflects inequality in achievements between **women and men in three dimensions: reproductive health, empowerment and the labour market.**

Statement 1 is incorrect: Gender Inequality Index (GII) **is released by the United Nations Development Programme (UNDP)** (World economic Forum publishes Global Gender Gap report). GII was introduced in the 2010 Human Development Report edition by the (UNDP) and this index measures the loss of achievement within a country due to gender inequality.

Statement 2 is correct: Gender Inequality Index measures unequal achievement between men and women in **the dimension of empowerment.** Under the dimension of empowerment, **female and male shares of parliamentary seats**, female and male population with **at least secondary education** were assessed to measure gender inequality between men and women in a nation.

Source: <https://hdr.undp.org/data-center/thematic-composite-indices/gender-inequality-index#/indicies/GII>

<https://www.thehindubusinessline.com/data-stories/data-focus/what-the-economic-survey-2022-23-says-about-gender-inclusion-in-india/article66454795.ece>

Q.35) Recently, India's first freight train with all-aluminium wagon rake was inaugurated. This was done as an advancement over existing steel wagons. Which of the following statements justify the benefits of using all-aluminium wagon for freight trains?

1. Aluminium trains consume less energy compared to steel wagons.
2. The new coaches can provide up to 80% resale value.
3. The cost of production of all-aluminium wagons is much cheaper than the steel wagons.
4. Aluminium coaches are lighter compared to steel coaches.
5. It will reduce the import burden.

Select the correct option from the codes given below:

- a) 1, 2, 3 and 4 only
- b) 2, 3, 4 and 5 only
- c) 1, 3, 4 and 5 only
- d) 1, 2, 4 and 5 only

Ans) d

Exp) Option d is the correct answer.

Union Minister for Railways, Communications and Electronics & Information Technology, Shri Ashwini Vaishnav inaugurated India's First Aluminium Freight Rake - 61 BOBRNALHSM1 at Bhubaneswar Railway Station recently.

This is a dedicated effort for Make in India program as it has been fully designed and developed indigenously in collaboration with RDSO, HINDALCO and Besco Wagon. These aluminium wagons provide several benefits over the traditional steel wagon freight trains.

Statement 1 is correct: The new aluminium rakes are lighter than the traditional steel rakes, hence the carrying capacity of the new design is reportedly 5-10% more than the steel wagons. **This allows for less consumption of energy by the all-aluminium rakes.**

Statement 2 is correct: As the aluminium metal is recyclable, it is estimated that the new coaches would have up to 80% resale value.

Statement 3 is incorrect: An all-aluminium passenger coach and wagon system would raise the cost of manufacturing rolling stocks by about 35% since the price of aluminium, globally, is far higher than that of steel. Hence, **the cost of production of all-aluminium wagons will be higher than the steel wagons.**

Statement 4 is correct: Aluminium wagons have been chosen over steel wagons to increase the speed of freight trains as former are considered to be lighter than the steel ones. **Aluminium coaches are lighter by**

up to 30% compared to the steel coaches. Hence, they offer low haulage cost, higher payload and better fuel efficiency.

Statement 5 is correct: Iron industry consumes a lot of Nickel and Cadmium which comes from import. So, proliferation of aluminium wagons will result in less import. At the same time, this is good for local aluminium industry.

Mint (Delhi Edition- Thursday, October 20, 2022)

Q.36) With reference to Raising and Accelerating MSME Performance (RAMP) Scheme, consider the following statements:

1. The scheme aims at improving MSME's access to market and credit.
2. It is a Centrally Sponsored Scheme.
3. The overall monitoring and policy overview of RAMP would be done by an apex National MSME Council, headed by the Minister for MSME.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 1 only
- c) 3 only
- d) 1 and 3 only

Ans) d

Exp) Option d is the correct answer.

The RAMP scheme aims at improving MSME's access to market and credit and addressing issues of delayed payments and greening of MSMEs. The scheme also aims at strengthening institutions and governance at the Centre and State level to improve the performance of MSMEs.

Statement 1 is correct: Raising and Accelerating MSME Performance (RAMP) scheme aims at strengthening institutions and governance at the Centre and State, improving Centre-State linkages and partnerships and **improving access of MSMEs to market and credit**, technology upgradation and addressing issues of delayed payments and greening of MSMEs.

Statement 2 is incorrect: The RAMP scheme is a Central Sector Scheme which means it is **funded by the Central government**. The total outlay for the scheme is Rs.6,062.45 crore out of which **Rs.3750 crore or USD 500 Million** would be a loan from the **World Bank** and the remaining **Rs.2312.45 crore or USD 308 Million would be funded by the Government of India (GoI)**.

Statement 3 is correct: The overall monitoring and policy overview of RAMP would be done by an apex National MSME Council, **headed by the Minister for MSME**, including representation from various Ministries and supported by a secretariat.

<https://msme.gov.in/whatsnew/inviting-comments-stakeholders-draft-environmental-and-social-assessment-essa-under-world>

Q.37) With reference to the National Family Health Survey-5, which of the following statement is/are correct?

1. Total fertility rate (TFR) has fallen below the replacement level.
2. Overall Contraceptive Prevalence Rate (CPR) has decreased substantially to about 10% at the all-India level.
3. All the States/UTs achieved the replacement level of fertility.
4. Sex ratio has risen as compared to National Family Health Survey-4.

Select the correct answer using the codes given below:

- a) 1 and 3 only
- b) 1, 2 and 3 only
- c) 1 and 4 only
- d) 4 only

Ans) c

Exp) Option c is the correct answer.

The latest National Family Health Survey-5 showed encouraging outcomes of Government programmes in the health and other social sectors. Significant improvement is seen in the health infrastructure and services reaching the public.

Statement 1 is correct. Latest NFHS-5 shows that Total Fertility Rate (TFR), an average number of children per women, has further come down to **2 in 2019-21 from 2.2 in 2015-16**. Replacement level is at 2.1. Thus, the TFR at present as per NFHS-5 is below the replacement level.

Statement 2 is incorrect. Overall Contraceptive Prevalence Rate (CPR) has **increased** substantially from 54% to 67% at the all-India level.

Statement 3 is incorrect. In all the States/UTs **except for Rajasthan, Jharkhand, Manipur, Meghalaya, Bihar, Jharkhand and Uttar Pradesh** the replacement level of fertility has been achieved.

Statement 4 is correct. Sex ratio, number of females per 1000 males, in the total population has risen from **991 females in 2015-16 (NFHS-4) to 1020 in 2019-21 (NFHS-5)**.

Source: <https://www.indiabudget.gov.in/economicsurvey/doc/eschapter/echap10.pdf>

<https://economictimes.indiatimes.com/news/economy/indicators/significant-progress-made-in-health-outcomes-economic-survey/articleshow/89256720.cms?from=mdr>

<https://www.thehindu.com/news/national/family-health-survey-suggests-more-women-than-men-in-india/article37678156.ece>

Q.38) Consider the following statements regarding Currency Swaps:

1. It is an agreement between two cross-border entities under which they can exchange principal and interest amounts at a pre-agreed exchange rate.
2. In India, only Central Government and Central Bank are allowed to enter into Currency Swaps agreements.
3. Recently, India has extended financial assistance to Sri Lanka under a Currency Swap Facility.

Which of the statements given above is/ are correct?

- a) 1 only
- b) 1 and 3 only
- c) 1 and 2 only
- d) 2 and 3 only

Ans) b

Exp) Option b is the correct answer.

A currency swap contract is a **derivative contract between two parties** that involve **exchange of principal and interest amounts that are denominated in different currencies**. For example, Company A is a US based company that is planning to expand its operations in India. Company A requires Rupees 70 lakhs to finance this expansion in India. Another company, Company B is based in India and needs \$100,000 to finance its expansion program in US. Both Company A and Company B prefers to borrow in their own domestic currencies. So, they enter into a currency swap agreement and they must exchange the principal amount (\$100,000 for Rs 70,00,000) at the beginning of the transaction. Similarly, they also need to exchange interest amounts.

Statement 1 is correct: At the inception of the swap, the principal amounts are exchanged at the spot rate. **At the end of the swap the principal amounts are swapped back** either at the prevailing spot rate **or at a pre-agreed rate (i.e. a fixed rate) such as the original exchange rate of principals**, depending on the terms of the agreement. Payment of interest can also be done either at fixed or floating rate of exchange.

Statement 2 is incorrect: **Any person resident in India is allowed to enter into a currency swap agreement**, subject to the compliance with the provisions of Foreign Exchange Management (Borrowing and Lending in Foreign Exchange) Regulations, 2000. This is further subject to the guidelines issued by RBI from time to time. **Governments and Central Bank are also eligible** to enter into currency swap agreements. For example, the Reserve Bank of India has signed currency swap agreement with Maldives Monetary Authority under the SAARC Currency Swap Framework.

Statement 3 is correct: **Sri Lanka's economic crisis is caused in part by a lack of foreign currency**, which has meant that the country cannot afford to pay for imports of staple foods and fuel, leading to acute shortages and very high prices. **The Reserve Bank of India (RBI) signed the currency swap agreement with the Central Bank of Sri Lanka under the SAARC Currency Swap Framework 2019-22.** Under the agreement, the Central Bank of Sri Lanka can make drawals of US Dollar, Euro or Indian Rupee in multiple tranches up to a maximum of \$400 million or its equivalent.

<https://www.thehindu.com/news/international/india-extends-duration-of-400-million-currency-swap-facility-with-sri-lanka/article65344950.ece>

Q.39) Consider the following statements about the recently published 'Poverty and Shared Prosperity Report' 2022:

1. The report is published by World Economic Forum.
2. According to the report, the world is unlikely to meet the Sustainable Development Goal target of ending extreme poverty by 2030.
3. The report uses data from National Sample Survey Organization for poverty estimates.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

Recently a report on global poverty estimates was released titled "Poverty and Shared Prosperity 2022: Correcting Course".

Statement 1 is incorrect: **The report is prepared and published by the World Bank** and not World Economic Forum. It provides the latest estimates and trends in global poverty and shared prosperity. The 2022 edition provides the first comprehensive look at the landscape of poverty in the aftermath of an extraordinary series of shocks to the global economy.

Statement 2 is correct: According to the report, the **world is unlikely to meet the SDG target of ending extreme poverty by 2030.** By 2015, the global extreme-poverty rate had been cut by more than half. Global poverty reduction has been slowing down since 2015 but the Covid pandemic and the war in Ukraine have completely reversed the outcomes. Current trends have shown that 574 million people, i.e., nearly 7% of the world's population will still be living on less than USD 2.15 a day in 2030, with most in Africa.

Statement 3 is incorrect: The report uses data from the **Centre for Monitoring Indian Economy (CMIE)** and not from National Sample Survey Organisation (NSSO), because there are no official estimates of

poverty available since 2011. The government decided not to release the 2017/18 National Sample Survey (NSS) round because of concerns about data quality.

<https://www.worldbank.org/en/publication/poverty-and-shared-prosperity>

Q.40) Consider the following statements about Geological Heritage Sites, recently seen in news:

1. It is a place that is recognized as having distinctive cultural or physical importance which is considered of outstanding value to humanity.
2. The first 100 Geological Heritage Sites were published recently by IUGS (International Union of Geological Sciences).
3. The Mawmluh Cave of Meghalaya is recognised recently as the IUGS Geological Heritage site.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

The International Union of Geological Sciences (IUGS) is one of the World's largest scientific organizations with 121 national members representing over a million geoscientists. It celebrated its 60th anniversary and the main IUGS 60th Anniversary Event took place in Zumaia, Basque Coast UNESCO Global Geopark (Spain). Geological Heritage sites, better known as IUGS geological heritage sites are recognised globally by the International Union of Geological Sciences (IUGS). It encourages international co-operation and participation in the Earth sciences in relation to human welfare and is a member of the International Science Council (ISC).

Statement 1 is incorrect: An IUGS Geological Heritage Site is a key place with geological elements and/or processes of scientific international relevance, used as a reference, and/or with a substantial contribution to the development of geological sciences through history. Whereas, a place that is recognized as having distinctive cultural or physical importance which is considered of outstanding value to humanity is known as **World Heritage site**, which is recognised by the UNESCO.

Statement 2 is correct: To celebrate the 60th anniversary, IUGS had announced the publication of the First 100 IUGS Geological Heritage sites in the month of October 2022. IUGS recognition of Geological Heritage Sites gives visibility to those sites. It identifies them as being of the highest scientific value. They are sites that served to develop the science of geology, particularly its early history. More than 200 experts and 10 international organizations from more than 40 countries have participated in the selection.

Statement 3 is correct: The Mawmluh Cave, located in the East Khasi Hills district of Meghalaya, has been the only site from India to be recognised as one of the first 100 IUGS geological heritage sites. The cave is a long maze with many openings and is decorated with stalactites, stalagmites, columns, drapes and moon milk. It is of the Meghalayan stage of Holocene era, which was first explored by the British official named Lieutenant Yule in 1844.

Source: [https://www.unesco.org/en/igpp/igcp-](https://www.unesco.org/en/igpp/igcp-projects/731#:~:text=In%20the%201990s%2C%20the%20Global,geological%20sites%20of%20international%20relevance.)

Q.41) In the wake of India's Balance of Payment (BoP) crisis of 1991, which among the following were the steps taken by government to overcome it?

1. Devaluation of Rupee
2. Liberalising the system of industrial licensing
3. Borrowing from international organizations.
4. Increase in Cash Reserve Ratio

Select the correct option using the code given below.

- a) 1, 2 and 3 only
- b) 3 and 4 only
- c) 1, 2 and 4 only
- d) 1, 2, 3 and 4

Ans) a

Exp) Option a is the correct answer.

BoP crisis is a situation in which a sovereign entity has developed an unsustainable balance of payments deficit. That is, a balance of payments crisis occurs when so much money is flowing outside a country that it has difficulty borrowing to make up the difference. A balance of payments crisis becomes acute in circumstances like an exceptionally large budget deficit that lasts for an extended period of time or a default on interest payments on publicly-held debt.

Statement 1 is correct. Devaluation of currency leads to **increase in export** and hence **increase in inflow of foreign currency**. Initially, the rupee was **devalued by about 20%**. There was a need to bridge the gap between the real and nominal exchange rates, which was emerged due to high inflation. The overhauled exchange rate was corrected by this devaluation.

Statement 2 is correct. The **system of quota and licensing** was dismantled and the economy was **opened for private markets, foreign investment and trade**. The road to economic liberalisation was paved by the government to balance the deficit.

Statement 3 is correct. As an immediate action taken against the crisis included taking **loan from IMF** and borrowing money from **banks of US and Switzerland** against the Gold reserves.

Statement 4 is incorrect. Various **tax reforms** were introduced to make tax structure more stable and transparent. Some of them include the reduction of tax brackets to 3 with rates of 20%, 30% and 40. The **role of monetary reform** in balancing the deficit was also significant. The **reduction in statutory liquidity ratio (SLR) and the cash reserve ratio (CRR)** and guidelines for opening new private sector banks were part of some monetary policies.

Source: <https://economictimes.indiatimes.com/news/economy/policy/4-reforms-that-pulled-india-back-after-it-ran-out-of-money-in-1991/articleshow/53308703.cms?from=mdr>

Q.42) Consider the following statements regarding the financing mechanisms 'Rapid Credit Facility (RCF)' and 'Rapid Financing Instrument (RFI)' of the International Monetary Fund (IMF):

1. RCF is available only to the low-income countries, whereas RFI is available to all the member nations of IMF.
2. A full-fledged economic reforms program is not necessary for RCF, whereas it is pre-requisite for RFI.
3. Access to finance under both the methods is determined by considering the country's Balance of Payments position.

Which of the statements given above is/ are correct?

- a) 2 and 3 only
- b) 3 only
- c) 1 and 2 only
- d) 1 and 3 only

Ans) d

Exp) Option d is the correct answer.

Important objectives of the International Monetary Fund (IMF) include macroeconomic stability and monetary cooperation, which are essential to increase productivity, job creation and economic well-being. To achieve this, IMF renders financial assistance through a variety of instruments.

Statement 1 is correct: Rapid Credit Facility (RCF) provides rapid concessional financial assistance to low-income countries facing an urgent balance of payments (BoP) need. It was created under the **Poverty Reduction and Growth Trust (PRGT)**. RCF is available only to PRGT-eligible member countries (Which include only low-income countries). On the other hand, the **Rapid Financing Instrument (RFI) is available to any member country of IMF who faces urgent balance of payment need.**

Statement 2 is incorrect: Both RCF and RFI are designed for the situations where full-fledged economic program is not necessary, because:

- 1) The need is transitory and limited in nature, or
- 2) Not feasible, because a country's policy design or implementation capacity is limited.

Hence, a full-fledged economic program is not a pre-requisite in both RCF and RFI. Limited conditionality (like some prior actions) may apply in certain cases.

Statement 3 is correct: Access to finance under both the methods is determined by the country's Balance of Payments (BoP) position. Other factors that are considered include the country's **macroeconomic policies, capacity to repay the Fund, the amount of outstanding fund credit, and the members' record of past use of Fund credit.**

Knowledge Base: The purposes for which funds can be provided under:

- 1) RCF: external shocks, natural disasters, and emergencies resulting from fragility. The RCF also provides policy support and may help catalyze foreign aid.
- 2) RFI: commodity price shocks, natural disasters, conflict and post-conflict situations, emergencies resulting from fragility, and food shocks, etc.

Source: [https://www.imf.org/en/About/Factsheets/Sheets/2016/08/02/21/08/Rapid-Credit-Facility#:~:text=The%20Rapid%20Credit%20Facility%20\(RCF,is%20neither%20necessary%20nor%20feasible](https://www.imf.org/en/About/Factsheets/Sheets/2016/08/02/21/08/Rapid-Credit-Facility#:~:text=The%20Rapid%20Credit%20Facility%20(RCF,is%20neither%20necessary%20nor%20feasible)

<https://www.imf.org/en/About/Factsheets/Sheets/2016/08/02/19/55/Rapid-Financing-Instrument>

Q.43) Consider the following statements regarding various approaches used to measure unemployment in India.

- 1. Under Usual Status Approach, unemployment is recorded for a person if he/she has no gainful work even for 1 month of the preceding year.
- 2. Weekly Status Approach records unemployment for those who did not have gainful work even for an hour or a day of the week.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) b

Exp) Option b is the correct answer.

The National Sample Survey Organization (NSSO), since its inception in 1950, does the measurement of employment / unemployment in India.

The National Sample Survey Organization (NSSO) provides three different estimates of employment and unemployment based on different approaches / reference periods used to classify an individual's activity status.

1) Usual Status Approach

2) Weekly Status Approach

3) Current daily status approach

Statement 1 is incorrect: Usual status approach considers those people as unemployed who had **no gainful work for a majority of time (not only one month) during the 365 days** preceding the date of survey.

Statement 2 is correct: Weekly status approach records unemployment for those who did not have gainful work even for an hour or a day of the week, preceding the date of survey.

The third approach used by NSSO is the Current daily status approach in which unemployment is recorded for a person if he/s has no gainful work even for 1 hour in a day. It uses each day of the seven days preceding date of survey as the reference period.

Source:

http://www.arthapedia.in/index.php/Unemployment_measurement_in_India#:~:text=The%20National%20Sample%20Survey%20Organization,of%20employment%20%2F%20unemployment%20in%20India.&text=Current%20daily%20status%20approach%20with,survey%20as%20the%20reference%20period.

Q.44) In the context of Balance of Payment (BoP) Accounts, which of the following transactions are considered as ‘transfers’?

1. Grants by international organizations which increases income and consumption in the recipient country.
2. Grants by international organization linked to the acquisition of fixed assets in the recipient country.
3. Remittances sent by workers residing abroad to their families in the native country.

Choose the correct answer from the codes given below:

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

In the context of Balance of Payment, Unrequited transfers across national borders are one-sided transactions. Suppose, for example, that the Japanese government donates to the Kyrgyz Republic buses for public transportation. To deal with such transactions, which involve no financial compensation, the balance of payments methodology includes a category called “transfers.”

Option 1 is correct: There is a distinction between current and capital transfers. **Current transfers include grants in cash or in kind made by governments or international organisations to other institutional units, which results in an increase in income and consumption in the recipient economy.** These current transfers are further categorized into- a) general government, b) other sectors, which include private transfers.

Option 2 is correct: When a transfer of cash is linked to/ conditional upon the acquisition or disposal of fixed assets by one of the parties, it is considered as a capital transfer. For example, investment grants

are considered as capital transfers as they are meant to finance all or part of the costs of acquiring fixed assets. The capital transfers are shown under the Capital Account in BoP.

Option 3 is correct: Other examples of private transfers include- grants, gifts, and **migrants' transfers by way of remittances for family maintenance**, repatriation of savings. Transfers of financial and real resources linked to a change in the resident status of migrants are also considered as private transfers.

Source:

<https://www.elibrary.imf.org/display/book/9781557756282/C04.xml#:~:text=Unrequired%20transfers%20across,category%20called%20%E2%80%9Ctransfers.%E2%80%9D>

<https://m.rbi.org.in/scripts/publicationsview.aspx?id=13013#A67:~:text=linked%20to%20a%20change%20in%20the%20resident%20status%20of%20migrants>

Q.45) With reference to Mission Lifestyle for the Environment (LiFE), consider the following statements:

1. It is a mass movement rooted in circular economy concept.
2. It was first introduced in the COP27, Sharm El Sheikh, Egypt.
3. Under this mission, Niti Aayog invites ideas from public and private institutions globally.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

Mission Lifestyle for the Environment (LiFE) is a behavioural changing campaign aims at creating global network of individuals, namely 'Pro-Planet People' (P3), with commitment to adopt and promote environmentally friendly lifestyle.

Statement 1 is correct: LiFE aims at changing the 'use-and-dispose' economy with a circular economy, which would be defined by mindful and deliberate utilization. The Mission intends to change behaviours of individuals in their daily lives that can contribute significantly to climate change by living eco-friendly sustainable life.

Statement 2 is incorrect: the concept of 'Lifestyle for the Environment (LiFE) was introduced by Prime Minister at COP26 in Glasgow on 1st November 2021, addressing the global community of individuals and institutions to drive LiFE as an international mass movement towards "mindful and deliberate utilisation, instead of mindless and destructive consumption" to protect and preserve the environment.

Statement 3 is correct: NITI Aayog and the Ministry of Environment, Forest and Climate Change (MOEFCC), in partnership with the United Nations, World Resources Institute, Centre for Social and Behaviour Change (CSBC) and Bill and Melinda Gates Foundation (BMGF), are inviting Behaviour-change solutions in areas like Water, Transport, Food, Electricity and Waste Management. Innovative solutions that create livelihood options for communities that may lose their jobs with a shift towards climate-friendly production.

Source: <https://www.livemint.com/news/india/pm-modi-launches-mission-life-lifestyle-for-environment-11666254588768.html>

Q.46) Consider the following statements regarding the Current Account Convertibility:

1. International Monetary Fund (IMF) specifically puts obligation on member countries to avoid restrictions on current account transactions.
2. Full current account convertibility has been implemented in India only after the recommendations of the Tarapore Committee.

Which of the statements given above is/ are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) a

Exp) Option a is the correct answer.

Currency convertibility refers to the freedom to convert domestic currency into other internationally accepted currencies and vice versa for exports and imports of goods and services, factor income and unilateral transfers.

Statement 1 is correct: Article VIII of the Agreement of International Monetary Fund (IMF) specifically puts obligation on the member countries to avoid restrictions on making of payments and transfers for current international transactions. It states that approval of IMF is required for imposing such restrictions. Article VI also provides for members not to restrict payment for current transactions or unduly delay transfer of funds in settlement of commitments. Hence, IMF restricts members from putting restrictions on current account transactions.

Statement 2 is incorrect: Full current account convertibility has been effective in India since early 1990s.

On the other hand, **Tarapore Committee** was set up to recommend on the capital account convertibility. **It submitted its report in May, 1997.** The second Tarapore Committee was set up to recommend a framework for fuller capital account convertibility and its report was made public in 2006. In other words, **full current account convertibility was already in place even before the report of Tarapore Committee.**

Source: <https://rbidocs.rbi.org.in/rdocs/PublicationReport/Pdfs/72250.pdf>

<https://www.imf.org/external/pubs/ft/aa/index.htm>

https://m.rbi.org.in/scripts/FS_FAQs.aspx?Id=115&fn=5#Q1

Q.47) Consider the following statements regarding the External Commercial Borrowings (ECB):

1. An ECB can be denominated in both foreign currency as well as Indian National Rupee (INR).
2. Raising ECBs for working capital purposes by an entity is completely prohibited in India.
3. Proceeds from ECB can be utilized for investment in capital markets.

Which of the statements given above is/ are correct?

- a) 1 only
- b) 3 only
- c) 1 and 3 only
- d) 2 and 3 only

Ans) a

Exp) Option a is the correct answer.

External Commercial Borrowings (ECBs) are commercial loans raised by eligible resident entities from recognized non-resident entities. ECBs are subjected to various regulations and must conform to parameters such as minimum maturity, permitted/ non-permitted end uses, maximum all-in cost ceiling etc.

Statement 1 is correct: An ECB can be denominated in both foreign currency as well as Indian National Rupee (INR). However, they are regulated differently. For example, registered societies/ trusts/ cooperatives/ Non-Government Organizations (NGOs) which are not eligible to raise Foreign Direct Investments (FDI) can only raise ECB denominated in Rupee (and not foreign currency denominated ECB)

Statement 2 is incorrect: Working capital means funds needed for day-to-day operations of an entity. In general, ECBs are not permitted for meeting working capital needs. However, RBI has prescribed certain

exceptions in this regard. For example, ECB can be raised from foreign equity holder for working capital purposes, subject to Minimum Average Maturity Period (MAMP) of 5 years. Hence, **there is no absolute or strict prohibition on raising ECB for working capital purposes.**

Statement 3 is incorrect: Raising ECB for investment in capital market is strictly prohibited. Other items for which proceeds of ECB cannot be utilized include:

- 1) **Real estate activities**
- 2) **Equity investments**
- 3) Working capital purposes (subject to exceptions)
- 4) General corporate purposes (subject to exceptions)
- 5) Repayment of Rupee loans (subject to exceptions)
- 6) On lending to an entity for above mentioned purposes (subject to exceptions)

Knowledge Base: **All eligible borrowers can raise ECB up to USD 750 million or equivalent per financial year under the automatic route. However, the automatic route limit has been increased from USD 750 million or equivalent to USD 1.5 billion or equivalent.** This relaxation is available for ECBs to be raised till December 31, 2022.

Q.48) Which of the following factors may lead to the depreciation of rupee in the global currency market?

1. Reduction in market Interest rates
2. Rising inflation in India
3. Declining Economic growth in India
4. Negative Balance of Payment of India

Select the correct answer using the code given below:

- a) 1, 2 and 3 only
- b) 2, 3 and 4 only
- c) 1, 2, 3 and 4
- d) 1, 3 and 4 only

Ans) c

Exp) Option c is the correct answer.

Currency depreciation is a **fall** in the **value** of a **currency** in a **floating exchange rate** system. Rupee depreciation means that **the rupee** has become **less valuable** with respect to the dollar.

Option 1 is correct. Currency depreciation can occur due to factors such as -

Lower interest rates - In an Expansionary monetary policy, a central bank lowers the interest rates. The higher the interest rate, the higher will be the demand for that currency. Lower interest rates **usually decrease the demand for a currency.** The reason investors look to buy currencies with **higher interest rates** is it **creates an additional rate of return on their currency exchange.**

Option 2 is correct. Rising inflation: Inflation is the **rise in prices** of goods and services. Rising Inflation means **less purchasing power of money** in market. Hence the rupee is depreciated

Additionally, inflation can lead to higher input costs for exports, which then makes a nation's exports less competitive in the global markets. This will widen the trade deficit and cause the currency to depreciate.

Option 3 is correct. Declining Economic growth: The **strength of an economy** can go a long way to boosting the strength of the nation's currency. A strong growth rate in a country will see a growing demand for products and services with better job prospects for workers as well as **being an attractive destination** for capital and investments. Hence it appreciates the currency.

However, declining economic/GDP growth rate make it an unattractive destination for investors resulting in depreciation of currency.

Option 4 is correct. Negative Balance of Payment - Current account balance: it is the **total amount of goods, services, income and current transfers** of a country against all of its trading partners.

A positive current account balance signals that a country lends more to its trading partners than it borrows, and a deficit current account balance shows that the country borrows more from its trading partners than it lends.

This total amount of trade can influence the country's exchange rate positively if there is more demand for that country's goods (and currency) from other countries. **A deficit or borrower country will see less demand for its own local goods and currency overall.**

Source: <https://www.investopedia.com/terms/c/currency-depreciation.asp>

<https://mint.intuit.com/blog/personal-finance/value-of-your-money/>

Q.49) Demographic dividend in a country will occur in which of the following conditions?

1. A country having a barrel shaped population pyramid.
2. When working-age population has grown larger than the dependant population.
3. When decline in a country's birth rate and child death rate is being witnessed.

Select the correct answer from the code given below:

- a) 1 and 2 only
- b) 1 and 3 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

Statement 1 is incorrect. **Dome-shape** or **bell-shaped pyramid** is seen in countries like India, Bangladesh, Mexico and Brazil that are witnessing demographic dividend phase. The population growth rates decline and life expectancy increases and becomes about 70 years. Lower- middle portion slightly bulges out and the shape of the pyramid resembles dome or bell.

Statement 2 is correct. Demographic dividend is seen when **working-age population** (people between 15 and 64 years of age) **has grown larger than the dependant population** – children aged 14 or below as well as people above 65 years of age.

Statement 3 is correct. To achieve the economic benefits of the demographic dividend, developing countries must substantially **lower both birth and child death rates**. With fewer births each year, a country's young dependent population declines in relation to the working-age population. With fewer people to support, a country has a window of opportunity for rapid economic growth if the right social and economic policies are developed and investments made.

Q.50) Which of the following statements best explain the term Assisted Natural Regeneration, recently seen in news?

- a) It is a method of regeneration of failed body organs/tissues naturally with the assistance of stem cell therapy.
- b) It is a method of using organic catalysers to speed up the crop regeneration in the process of ratooning.
- c) It is method of growing trees and native vegetation naturally by the local community using traditional knowledge.
- d) It is the method of regeneration of missing/lost body parts naturally by lizards by growing blastema.

Ans) c

Exp) Option c is the correct answer.

Assisted natural regeneration is a blend of active planting and passive restoration, where local people intervene to help trees and native vegetation naturally recover by eliminating barriers and threats to their growth, leaning on their knowledge of the land and on ancestral traditions.

It has been practiced widely in different regions of the world to accelerate the restoration of millions of hectares of degraded and deforested landscapes. Some of the popular practices followed as a part of Assisted Natural Regeneration are as follows:

- 1) To prevent the spread of wildfires, people can build firebreaks and clear the forest floor of dry debris.
- 2) To stop cattle from munching on saplings, they can build fences to keep them out.
- 3) To give native trees enough room to grow, they can remove invasive grasses and shrubs.
- 4) To encourage new vegetation to sprout from underground root systems, farmers can channel water into the soil and prune branches.
- 5) And, if natural regeneration on its own does not increase tree cover quickly enough or the targeted species fail to pop up on their own, people can selectively plant trees to fill the gaps.

Hence, Assisted Natural Regeneration can play a critical role in achieving global targets on climate and biodiversity, including the Paris Climate Agreement, the Trillion Trees initiative, and ambitious targets set by the Bonn Challenge – which aims to restore 350 million hectares of degraded and deforested lands by 2030.

SFG 2023 | LEVEL 2 | Test #17 – Solutions | ForumIAS

Q.1) The CHAMPIONS portal was recently seen in news. Which of the following statements correctly describes this portal?

- A platform for all Indian Citizens to access pan India e-Governance services ranging from Central to Local Government bodies.
- A platform to provide loan facilities for higher education to meritorious students.
- A platform to facilitate the enrolment, registration and identification of the unorganised workers.
- A platform to help the MSMEs in terms of their finance and raw material requirements.

Ans) d

Exp) Option d is the correct answer.

CHAMPIONS (Creation and Harmonious Application of Modern Processes for Increasing the Output and National Strength) has been launched by the Ministry of Micro, Small and Medium Enterprises as a single window system for the MSMEs. It will aim at Creation and Harmonious Application of Modern Processes for Increasing the Output and National Strength. Accordingly, the name of the system is CHAMPIONS. This is basically for making the smaller units big by helping and handholding, in particular, by solving their problems and grievances.

The ministry has put down following objectives:

- To help the MSMEs in difficult situation in terms of finance, raw materials, labour, permissions, etc.
- To identify the sparks, i.e., the bright MSMEs who can withstand at present and become national and international champions.
- To help the MSMEs capture new opportunities in manufacturing and services sectors.

Hence, Option d is correct.

Source: <https://champions.gov.in/Government-India/Ministry-MSME-Portal-handholding/msme-problem-complaint-welcome.htm>

Economic Survey 2022-23 (pg. 273)

Q.2) With reference to Industrial Policy of 1991, consider the following statements:

- Decrease in the number of industries which were reserved for the Government.
- Individual foreign investment in the security market had been allowed.
- Polluting industries to be set up at least 25 kms away from the million cities.
- It encouraged foreign investments (FI) in India.

Which of the statements given above are correct?

- 1 and 2 only
- 1, 2 and 3 only
- 1, 3 and 4 only
- 1, 2, 3 and 4

Ans) c

Exp) Option c is the correct answer.

With the Industrial Policy 1991, government kick started the very process of reform in the economy, that is why the policy is taken more as a process than a policy. The major highlights of the policy are as follows:

Statement 1 is correct: Industrial Policy 1991 started the De-reservation of the Industries. The industries which were reserved for the Central Government by the IPR, 1956, were **cut down to only eight**. In coming years many other industries were also opened for private sector investment. At present there are only two industries which are fully or partially reserved for the Central Government -1. Atomic energy and nuclear research and other related activities 2.Railways

Statement 2 is incorrect:

The government went to encourage foreign investment (FI) in both its forms - **direct and indirect**.

The **direct form** of FI was called as the foreign direct investment (FDI) under which the MNCs were allowed to set up their firms in India in the different sectors varying from 26 per cent to 100 per cent ownership. Whereas the **indirect form** of foreign investment was called the **portfolio investment scheme (PIS)** in the country, which formally commenced in 1994. Under the Portfolio Investment Scheme (PIS), the foreign institutional investors (FIIs) having good track record are allowed to invest in the Indian security/stock market. The FIIs need to register themselves as a stock broker with SEBI. However, **India has not allowed individual foreign investment** in the security market still. **Only institutional investment has been allowed till now.** Individual investors are individuals investing on their own behalf, and are also called retail investors. Whereas Institutional investors are large firms that invest money on behalf of others, and the group includes large organizations with professional analysts.

Statement 3 is correct: Now, the industries were classified into ‘polluting’ and ‘non-polluting’ categories and a highly simple provision deciding their location was announced:

- 1) Non-polluting industries might be set up anywhere.
- 2) **Polluting industries to be set up at least 25 kms away from the million cities.**

Statement 4 is correct: The new industrial policy showed good faith towards foreign capital. Not only the draconian FERA was committed to be diluted, but the government went to encourage **foreign investment (FI) in both its forms—direct and indirect.** The direct form of FI was called as the foreign direct investment (FDI) under which the MNCs were allowed to set up their firms in India in the different sectors varying from 26 per cent to 100 percent.

Source: Ramesh Singh 12th Edition Chapter 9: Industry And Infrastructure,

Q.3) Consider the following statements about National Social Assistance Program (NSAP):

1. It represents a step towards the fulfilment of some of the Directive Principles of State policy.
2. Annapurna Scheme is one of the five sub-schemes launched under this program.
3. An applicant must belong to a Below Poverty Line (BPL) family to avail the benefits of NSAP.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

National Social Assistance Programme (NSAP) was launched on 15th August, 1995, as a social security and welfare programme to provide support to aged persons, widows, disabled persons and bereaved families on death of primary bread winner.

Statement 1 is correct: **The National Social Assistance Programme (NSAP) represents a significant step towards the fulfilment of the Directive Principles in Article 41 and 42 of the Constitution** recognizing the concurrent responsibility of the Central and the State Governments in the matter. In particular, Article 41 of the Constitution of India directs the State to provide public assistance to its citizens in case of unemployment, old age, sickness and disablement and in other cases of undeserved want within the limit of its economic capacity and development.

Statement 2 is correct: On its inception in 1995 it had three components namely, National Old Age Pension Scheme (NOAPS), National Family Benefit Scheme (NFBS) and National Maternity Benefit Scheme (NMBS). Later on the schemes were revamped and few more schemes were added. Presently NSAP comprises of five schemes,

- 1) Indira Gandhi National Old Age Pension Scheme (IGNOAPS),

- 2) Indira Gandhi National Widow Pension Scheme (IGNWPS),
- 3) Indira Gandhi National Disability Pension Scheme (IGNDPS),
- 4) National Family Benefit Scheme (NFBS) and Annapurna Scheme

Statement 3 is correct: For getting benefits under NSAP the applicant must belong to a Below Poverty Line (BPL) family according to the criteria prescribed by the Govt. of India. The other eligibility criteria and the scale of central assistance are modified by the central and state governments under various sub-schemes of NSAP.

Besides the central assistance, states / UT contribute an equal amount as their share.

Source: <https://vikaspedia.in/social-welfare/rural-poverty-alleviation-1/schemes/national-social-assistance-programme>

Q.4) Which of the following are **not** the salient features of the National Investment and Manufacturing Zone (NIMZ)?

1. It is envisaged and formed under the New Industrial Policy of 1991.
2. It can be declared an Industrial Township by a State Government.
3. It should devote at least 75 per cent of the total land area to manufacturing units.
4. It enjoys 100% income tax exemption on export income for the first five years.

Select the correct answer using the code given below.

- a) 1 and 3 only
- b) 2 and 4 only
- c) 1, 3 and 4 only
- d) 1, 2, 3 and 4

Ans) c

Exp) Option c is the correct answer.

National Investment and Manufacturing Zone (NIMZ) needed 5,000 hectares (or 12355.26 acres) of contiguous land and has been identified as one of the key instruments of Centre's National Manufacturing Policy to step up share of manufacturing in GDP.

Statement 1 is incorrect: NIMZ is envisaged under the **National Manufacturing Policy 2011** (Not under the **New Industrial Policy of 1991**).

Statement 2 is correct: To enable the NIMZ to function as a self-governing and autonomous body, it will be **declared by the State Government as an Industrial Township under Article 243 Q (1)(c) of the Constitution**. These are managed by a special purpose vehicle headed by government officials. The Centre will provide financial support for trunk infrastructure while internal infrastructure will be developed on a PPP (public private partnership) mode for which access to viability gap funding would be provided.

Statement 3 is incorrect: NIMZs are conceptualised as integrated industrial townships of at least 50 sq km (5,000 hectares) with state-of-the-art infrastructure. And **at least 30 per cent (not 75%)** of the total land area would be devoted to manufacturing units.

Statement 4 is incorrect: Special Economic Zones (SEZ) and NIMZs enjoy tax related benefits. The **SEZs (not NIMZ) enjoy 100% income tax exemption on export income** for the first five years, 50% for the next five years thereafter and 50% of the ploughed back export profit for next five years. While, **NIMZ has provisions of tax incentives to small and medium enterprises (SMEs)**.

Q.5) With reference to the Quality Council of India (QCI), consider the following statements:

1. It is a non-profit organization registered under the Societies Registration Act of 1860.
2. The nodal ministry for QCI is the Ministry of Corporate Affairs
3. QCI started the workplace assessment standard called WASH.

Which of the statements given above is/are correct?

- a) 1 only
- b) 1 and 3 only
- c) 1 and 2 only
- d) 2 and 3 only

Ans) b

Exp) Option b is the correct answer.

Quality Council of India (QCI) was established as a National body for Accreditation in 1997.

Statement 1 is correct: QCI a **non-profit organization** registered under the Societies Registration Act XXI of 1860 was set up through a PPP model as an independent **autonomous organization**. It was established by Government of India and three industry associations,

- (1) Associated Chambers of Commerce and Industry of India (ASSOCHAM),
- (2) Confederation of Indian Industry (CII)
- (3) Federation of Indian Chambers of Commerce and Industry (FICCI).

Statement 2 is incorrect: This organisation comes under Department of Industrial Policy and Promotion, **Ministry of Commerce and Industry**. QCI has important role at the national level in propagating, adoption, and adherence to quality standards in all important areas like education, healthcare, environment protection, governance, social sectors etc.

Statement 3 is correct: QCI, along with industry stakeholders, has developed a standard “**Workplace Assessment for Safety and Hygiene**” (**WASH**) **for the benefit of citizens and industry**. It involves helping the organizations assess their post pandemic preparedness to restart and run their operations safely keeping workplace safety in mind.

This standard is applicable for assessment for all workplaces allowed to operate.

Source: <https://qcin.org/about-us>

Q.6) Which of the following cannot be patented in India under the Patents Act of 1970?

1. A mere discovery of a scientific principle.
2. A method of agriculture or horticulture.
3. Inventions relating to atomic energy.
4. A computer programme
5. An invention based on traditional knowledge.

Select the correct answer using the code given below.

- a) 1, 3 and 5 only
- b) 2, 3 and 5 only
- c) 1, 2, 3 and 4 only
- d) 1, 2, 3, 4 and 5

Ans) d

Exp) Option d is the correct answer.

A patent is an exclusive right to prohibit others from using, making, or selling an innovation for a fixed period of time. The government grants a patent for any innovation that is novel, non-tangible, and valuable in terms of contemporary application.

SFG 2023 | LEVEL 2 | Test #17 – Solutions | ForumIAS

As per Sections 3 and 4 of the Indian Patent Act, the following innovations are not Patentable in India:

- 1) An invention that is frivolous or trivial
- 2) The mere discovery of a scientific principle (Hence, option 1 is correct.)
- 3) Moreover, an invention whose primary goal or intended use is contrary to law or morality or is injurious to public health
- 4) The formulation of an abstract theory
- 5) Similarly, the mere arrangement or rearrangement or duplication of known devices, each functioning independently of one another in a known way
- 6) A method of agriculture or horticulture (Hence, option 2 is correct.)
- 7) Inventions relating to atomic energy (Hence, option 3 is correct.)
- 8) Any process for the medicinal, surgical, curative, prophylactic, or any other type of treatment of people or animals or other creatures
- 9) A mathematical or business method or a computer programme per se or algorithms. (Hence, option 4 is correct.)
- 10) Likewise, a literary, dramatic, musical, or artistic work or any other aesthetic creation whatsoever including cinematographic works and television productions
- 11) Similarly, a mere scheme or rule or method of performing a mental act or method of playing a game
- 12) Presentation of information
- 13) Topography of integrated circuits

An invention which in effect is traditional knowledge or is based on the properties of traditional knowledge. (Hence, option 5 is correct.)

Source: <https://vakilsearch.com/blog/what-cannot-be-patented-in-india/>

<https://www.prh.fi/en/patentit/theabcofpatenting/whatcanbepatented.html#:~:text=Patentable%20inventions%20must%20be%20technological,theory%20alone%20cannot%20be%20patented.>

Q.7) With reference to “Trade Receivables Discounting System (TReDS) Platform”, consider the following statements:

1. Only Micro, Small & Medium Enterprises (MSMEs) can participate as sellers in TReDS.
2. Only Government Departments can participate as buyers in TReDS.
3. It is mandatory for every Central Public Sector Enterprises (CPSEs) to register on TReDS.
4. Authorisation from RBI is required to set up and operate a TReDS platform.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 1 and 4 only
- c) 2, 3 and 4 only
- d) 1, 3 and 4 only

Ans) b

Exp) Option b is the correct answer.

TReDS is an electronic platform for facilitating the financing / discounting of trade receivables of Micro, Small and Medium Enterprises (MSMEs) through multiple financiers.

Statement 1 is correct: Only MSMEs can participate as sellers in TReDS.

Statement 2 is incorrect: Corporates, Government Departments, PSUs and any other entity can participate as **buyers** in TReDS.

Statement 3 is incorrect: It is mandatory only for CPSEs and companies with a turnover of Rs 500 crore and above (not every CPSE) to register on TReDS.

Statement 4 is correct: Authorisation is required to be obtained from **RBI** under the Payment and Settlement Systems (PSS) Act, 2007 to set up and operate a TReDS platform.

Source: [https://vikaspedia.in/e-governance/digital-payment/payment-systems-in-india/trade-receivables-discounting-system-treds#:~:text=TReDS%20is%20an%20electronic%20platform,Public%20Sector%20Undertakings%20\(PSUs\).](https://vikaspedia.in/e-governance/digital-payment/payment-systems-in-india/trade-receivables-discounting-system-treds#:~:text=TReDS%20is%20an%20electronic%20platform,Public%20Sector%20Undertakings%20(PSUs).)

Q.8) With reference to Bureau of Energy Efficiency (BEE), consider the following statements:

1. It is a non-statutory body functioning under the Ministry of New and Renewable Energy.
2. One of its primary objective is to reduce the energy intensity of the Indian economy.
3. BEE Star Labelling is mandatory for all kinds of Air Conditioners (ACs).

Which of the statements given above is/are correct?

- a) 1 and 3 only
- b) 2 only
- c) 2 and 3 only
- d) 1 and 2 only

Ans) c

Exp) Option c is the correct answer.

Bureau of Energy Efficiency (BEE) is established under provisions of the Energy Conservation Act 2001, to promote efficient use of energy and its conservation.

Statement 1 is incorrect: Bureau of Energy Efficiency (BEE) is a statutory body under the **Ministry of Power** (not under the Ministry of New and Renewable Energy). It is established under provisions of the Energy Conservation Act 2001, to promote efficient use of energy and its conservation.

Statement 2 is correct: The mission of the BEE is to assist in developing policies and strategies with a thrust on self-regulation and market principles, within the overall framework of the Energy Conservation Act, 2001 with the **primary objective of reducing energy intensity of the Indian economy**. Energy intensity is a measure to assess the energy efficiency of a particular economy.

Statement 3 is correct: BEE Star Labelling is mandatory for frost-free refrigerators, colour TVs, **all kind of ACs**, distribution transformers, tubular florescent lamps, LED lamps, electric geysers and direct cool refrigerators.

Q.9) With reference to different Public-Private Partnership (PPP) models in infrastructure sector, consider the following statements:

1. In the 'Build-Operate-Transfer-Toll' Model, the government is responsible for regulatory clearances of the project.
2. In the BOT Annuity model, the government is responsible for Toll collection.
3. In the Engineering- Procurement-Construction (EPC) Model, the project cost is completely borne by the government.
4. In Hybrid Annuity Model (HAM), the government and the private player are both responsible for funding project costs.

Which of the statements given above are correct?

- a) 1 and 4 only
- b) 2 and 3 only
- c) 2, 3 and 4 only
- d) 1, 2, 3 and 4

Ans) d

Exp) Option d is the correct answer.

A public-private partnership (PPP) is an arrangement between a government and private sector institutions. Typically, it involves private capital financing government projects and services up-front, and then drawing revenues from taxpayers and/or users over the course of the PPP contract.

Statement 1 is correct: In the 'Build-Operate-Transfer-Toll (BOT Toll) Model, the private party used to cover "all risks" related to - land acquisition, construction (damage), inflation, cost over-runs caused by delays and commercial. The government is responsible for regulatory clearances.

Statement 2 is correct: In the BOT Annuity model, the private players are offered a fixed amount of money annually (called 'annuity') as compensation - the party bidding for the minimum 'annuity' used to get the project. Toll collection is the responsibility of the Government.

Statement 3 is correct: Engineering-Procurement-Construction (EPC) is fully covered by the Government together with the majority of the risks-land acquisition, cost over-runs due to delay, inflation and commercial. This is a PPP model for the development of infrastructure projects, especially highways. Under this model, the cost is completely borne by the government.

Statement 4 is correct: Hybrid Annuity Model (HAM) is a mix of EPC and BOT-Annuity models. In this model the project cost is shared by the government and the private player in ratio of 40:60, respectively.

Source: Ramesh Singh, 12th edition, page no. 308

Q.10) With reference to the Emissions Gap Report 2022, consider the following statements:

1. This report was released by the United Nations Environment Programme.
2. As per the report, G20 members are responsible for less than 35 per cent of global GHG emissions.
3. India's per capita GHG emission is below the global average.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

Emissions Gap Report 2022 is the 13th report in annual series. It provides an overview of the difference between where greenhouse emissions are predicted to be in 2030 and where they should be to avoid climate disaster.

Statement 1 is correct: UNEP releases the Emissions Gap Report 2022: The Closing Window – Climate crisis. It states that world is far off on track to achieve the Paris goal of limiting the global temperature to 1.5 degrees. Implementation of the current pledges will only reduce this to a 2.4-2.6°C temperature rise by the end of the century.

Statement 2 is incorrect: As per the report, the top seven emitters are China, the EU27, India, Indonesia, Brazil, Russia, and the United States of America. These countries international transport accounted for 55% of global GHG emissions in 2020. **G20 members are responsible for 75 per cent of global GHG emissions.**

Statement 3 is correct: The global average per capita GHG emissions was 6.3 tonnes of CO₂ equivalent (tCO₂e) in 2020. **India has far below the world average GHG emission at 2.4 tCO₂e.** The US has highest level at 14 tCO₂e, followed by Russia at 13 tCO₂e, China at 9.7 tCO₂e, Brazil and Indonesia at about 7.5 tCO₂e, and the European Union at 7.2 tCO₂e.

Source: <https://indianexpress.com/article/india/emissions-in-india-6-other-nations-top-pre-covid-levels-8234183/>

Q.11) With reference to the various types of ports, which of the following pairs are correctly matched?

Types of Port	Description
1. Entrepot Ports	It is a trading port or a place where a ship stops during a journey for refueling and purchasing food
2. Packet station	Ports which are used for transportation of passengers across water bodies.
3. Ports of call	Ports which are collection centres where the goods are brought from different countries to be exported again.
4. Out ports	Ports used to serve the parent ports by receiving large ships

Select the correct answer using the code given below.

- a) 1 and 2 only
- b) 2 and 4 only
- c) 1, 2 and 3 only
- d) 2, 3 and 4 only

Ans) b

Exp) Option b is the correct answer.

Types of Port	Description
1) Entrepot Ports	Ports which are collection centres where the goods are brought from different countries for export. Here merchandise may be imported, stored, or traded before re-export, with no additional processing taking place and with no customs duties imposed. (Hence, pair 1 is incorrect.)
2) Packet station	These are also known as ferry ports. These packet stations are exclusively concerned with the transportation of passengers and mail across water bodies covering short distances. (Hence, pair 2 is correct.)
3) Ports of call	Ports used to anchor for refueling, watering and taking food items. It is a port where ships usually stop during journey (Hence, pair 3 is incorrect.)

4) Out ports	These are deep water ports built away from the actual ports. These serve the parent ports by receiving those ships which are unable to approach them due to their large size. For example, Athens and its out-port Piraeus in Greece. (Hence, pair 4 is correct.)

Q.12) With reference to Sagarmala Programme, which of the following statements are correct?

1. It is a Central Sector Scheme.
2. It aims to reduce logistics costs for exports and imports.
3. The Coastal Berth Scheme is a key initiative under Sagarmala Programme.

Select the correct answer using the code given below.

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

The Sagarmala Programme was launched with the approval of the Union Cabinet on 25th March 2015, with a view to achieve the broad objective of promoting port-led development in India.

Statement 1 is correct: The Sagarmala Programme is a Central Sector Scheme to provide financial support to Major Ports by way of grant for construction /up-gradation of coastal regions.

Statement 2 is correct: The Sagarmala scheme expected to harness India's 7,500 km long coastline, 14,500 km of potentially navigable waterways and strategic location on key international maritime trade routes.

The main vision of the Sagarmala Programme is to reduce logistics cost for EXIM and domestic trade with minimal infrastructure investment.

Statement 3 is correct: The Coastal Berth Scheme is a key initiative under the Sagarmala Programme to promote the development of dedicated infrastructure for coastal shipping of goods and passengers **across India's Major and Non-Major Ports**. The scheme provides financial aid for projects which promote coastal shipping at Indian ports. So far, 21 projects worth Rs. 729.6 Cr have been provided financial assistance of Rs. 205 Cr. under this scheme.

Q.13) The NIDHI and SAATHI initiatives, which were highlighted in the recently released Economic Survey 2022-23, are related to which of the following?

- a) Promotion of the Tourism and Hospitality industry.
- b) Providing credit facility and digitized identities to the street vendors.
- c) Providing income support to farmers and their families.
- d) Imparting vocational training to non-literates and school dropouts in rural areas.

Ans) a

Exp) Option a is the correct answer.

The Ministry of Tourism has undertaken various measures to boost the tourism sectors and promote India as a 'major tourism destination'.

Option a is correct: Both NIDHI and SAATHI initiatives are related to tourism and Hospitality industry.

National Integrated Database of Hospitality Industry (NIDHI) is a digital portal on which the Ministry of Tourism, with the help of State Governments and Union Territory Administrations, is making efforts to register accommodation units in the country.

System for Assessment, Awareness, and Training for Hospitality Industry (SAATHI) was launched in association with the Quality Council of India to restrict any further transmission of the virus while providing accommodation and other services post-lockdown. The objective of the scheme is to sensitise the industry on the Covid-19 regulations of the government.

Option b is incorrect: PM SVANidhi (Pradhan Mantri Street Vendor's Aatmanirbhar Nidhi Scheme) was launched to provide credit facility and digitisation of identities on e-Shram portal of the street vendors.

Option c is incorrect: PM-KISAN (Pradhan Mantri Kisan Samman Nidhi) was launched to provide income support to farmers and their families.

Option d is incorrect: Jan Shikshan Sansthan aims to provide vocational training to non-literates, neo-literates as well as school dropouts in rural regions by identifying skills that have a relevant market in that region.

Source: Economic Survey 2022-23 (pg. 300)

Q.14) The World Tourism Barometer, mentioned in the Economic Survey 2022-23, is an initiative of which of the following organizations?

- a) Global Forum on Tourism Statistics
- b) World Bank
- c) United Nations World Tourism Organization (UNWTO)
- d) The Global Business Travel Association (GBTA)

Ans) c

Exp) Option c is the correct answer.

The World Tourism Barometer is an initiative of the United Nations World Tourism Organisation (UNWTO) which is a specialized agency of the United Nations that works in the domain of tourism. As the leading international organization in the field of tourism, UNWTO promotes tourism as a driver of economic growth, inclusive development and environmental sustainability and offers leadership and support to the sector in advancing knowledge and tourism policies worldwide.

The Economic Survey 2022-23 mentioned the findings of the World Tourism Barometer to highlight that international tourism showed robust performance in January-September 2022, with international tourist arrivals reaching 63 per cent of the pre-pandemic level in the first nine months of 2022, boosted by strong pent-up demand, improved confidence levels and the lifting of restrictions.

Hence, option c is the correct answer.

Knowledge Base:

It also observed that, Europe, the world's largest destination region, recorded 585 million arrivals in 2022 to reach nearly 80% of pre-pandemic levels (-21% over 2019). The Middle East enjoyed the strongest relative increase across regions in 2022 with arrivals climbing to 83% of pre-pandemic numbers (-17% versus 2019). Africa and the Americas both recovered about 65% of its pre-pandemic visitors, while Asia and the Pacific reached only 23%, due to stronger pandemic-related restrictions.

By subregions, Western Europe (87%) and the Caribbean (84%) came closest to their pre-pandemic levels. The year 2022 saw a strong rebound in tourism spending, resulting in the recovery of pre-pandemic levels in income across many destinations.

<https://www.e-unwto.org/toc/wtobarometereng/21/1>

Q.15) With reference to ‘Launch Vehicle Mark-III’ (LVM-3), consider the following statements:

1. It can launch the satellites into geostationary orbit only.
2. It is the heaviest rocket of ISRO.
3. It is a four-stage vehicle with solid core stages.

Which of the statements given above is/are correct?

- a) 2 only
- b) 2 and 3 only
- c) 1 and 2 only
- d) 1 only

Ans) a

Exp) Option a is the correct answer.

The Indian Space Research Organisation (ISRO) has renamed the Geosynchronous Satellite Launch Vehicle (GSLV) Mark -III as Launch Vehicle Mark-III. Its first operational flight was used to launch the Chandrayaan-2 mission to the moon in 2019.

Statement 1 is incorrect: Earlier, the launch vehicles were named for a specific purpose, such as PSLV for putting polar satellites in orbit or GSLV for geostationary satellites. Launch Vehicle Mark-III is no longer limited only to the geosynchronous orbit. This rocket can take satellites to any orbit GEO (Geosynchronous Earth Orbit), MEO (Medium Earth Orbit), LEO (Low Earth Orbit).

Statement 2 is correct: GSLV Mk-III (LVM3) is the new heavy lift launch vehicle. It is the **heaviest rocket of ISRO**. The vehicle has the capability to launch heavier communication satellites that weigh up to **4000 kg in Geosynchronous Transfer Orbit**. GSLV Mk-II launch vehicle can deploy payloads of up to **2,500 Kilograms** to a Geosynchronous Transfer Orbit.

Statement 3 is incorrect: GSLV Mk III is a **three-stage vehicle**. It has **two solid strap-on** motors, **one liquid core stage** and a **high thrust cryogenic upper stage**. The solid motor is among the largest solid boosters in the world. Cryogenic upper stage has fully indigenous high thrust cryogenic engine.

Knowledge Base: The Gaganyaan mission will be ISRO's first manned space mission and **GSLV MK III** will be the launch vehicle to the Earth's low earth orbit.

Source: Statement 1: <https://www.thehindu.com/sci-tech/isro-renames-gslv-mark-iii-as-lvm-3/article66049577.ece>

Statement 2: <https://spaceflight101.com/members/wp-content/uploads/sites/54/2017/02/GSLV-MkII.pdf>

Statement 3: https://www.isro.gov.in/GSLVmk3_CON.html

Q.16) Consider the following statements about the Foreign Direct Investments (FDI) in India:

1. In Financial Year 2021-22, the FDI inflows in India was higher than the previous year.
2. Gross FDI as percent of GDP has steadily decreased during the last decade.
3. FDI limit in insurance sector, through automatic route, has been raised from 49% to 74%.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

A Foreign Direct Investment (FDI) is an investment made by a firm or individual in one country into business interests located in another country. The World Investment Report 2022 of UNCTAD places India as the seventh largest recipient of FDI.

Statement 1 is correct: In Financial Year 2021-22, the FDI inflows in India was higher than the previous year.

Statement 2 is incorrect: India's gross FDI has increased from an average of 2.2 per cent of GDP during FY05-FY14 to 2.6 per cent in FY15-FY22. As can be seen from below figure the gross FDI as percent of GDP:

Figure II.10: Structural shift in the Gross FDI/GDP during 2014-15

Source: RBI Handbook of Statistics on the Indian Economy (FDI data); International Monetary Fund World Economic Outlook database (Oct.2020) for US dollar GDP at current prices

Statement 3 is correct: To facilitate investment, various measures have been undertaken by the Government. **The FDI ceiling in insurance companies was raised from 49 to 74 per cent, under Automatic Route.** Further, Government has allowed 20 per cent foreign investment in Life Insurance Corporation (LIC) under the automatic route to ensure the liberalisation of investments in insurance sector along with other

sectors of economy. Along with this, the government has launched the National Single-Window system, a one-stop solution for approvals and clearances needed by investors, entrepreneurs, and businesses.

Source: Economic Survey 2022-23 (pg. 296)

<https://pib.gov.in/PressReleasePage.aspx?PRID=1845719>

Q.17) Which of the following pairs are correctly matched?

Industrial Policy	Provision/Feature
1. Industrial Policy Resolution, 1948	It provided that India is going to have a Mixed Economic Model.
2. Industrial Policy Resolution, 1956	The provision of industrial licensing was introduced.
3. Industrial Policy Statement, 1973	This policy set up Central Public Sector Undertakings (CPSUs) for the first time.
4. Industrial Policy Resolution, 1985 & 1986	The equity holding of the MNCs in the Indian subsidiaries could be up to 49 per cent.

Select the correct answer using the code given below.

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1, 2 and 4 only
- d) 1 and 4 only

Ans) c

Exp) Option c is the correct answer.

For a better understanding of the Indian economy, it is advisable to investigate the various industrial policies.

Industrial Policy	Description
Industrial Policy Resolution, 1948	1) It was the first economic policy of the country. 2) Under this, it was provided that India will be a mixed economy . (Hence, pair 1 is correct.)
Industrial Policy Resolution, 1956	3) The provision of compulsory licensing for industries was introduced in this policy. (Hence, pair 2 is correct.) 4) The industries set up under Schedule A of this policy were known as the Central Public Sector Undertakings (CPSUs) later getting popularity as 'PSUs'. 5) There was emphasis on small industries as well as the khadi and village industries.

Industrial Policy Statement, 1973	<p>6) A new class i.e., <i>core industries</i> was created. In the future, these industries came to be known as basic industries, infrastructure industries in the country.</p> <p>7) A limited permission for foreign investment was given, with the multinational corporations (MNCs) being allowed to set up subsidiaries in the country.</p> <p>8) This policy didn't set up Central Public Sector Undertakings (CPSUs). They were set up by the Industrial Policy Resolution, 1956. (Hence, pair 3 is incorrect.)</p>
Industrial Policy Resolution, 1985 and 1986	<p>9) The equity holding of the MNCs in the Indian subsidiaries could be up to 49 per cent with the Indian partner holding the rest of the 51 per cent shares (Hence, pair 4 is correct.)</p>

Source: Ramesh Singh 12th Edition Chapter 9: Industry and Infrastructure, Page no 274

Q.18) Recently, Insurance Regulatory and Development Authority of India (IRDAI) has provided approval for Bima Sugam Portal. Consider the following statements regarding Bima Sugam Portal:

1. It will bring all companies selling life and non-life insurance on a single platform.
2. It will be facilitating the purchase of insurance policies and the settlement of claims.
3. The policyholder can access various portal services through an e-insurance account (E-IA).

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

The government has said that it proposes to set up a Bima Sugam portal to address the existing protection gap across life, health and general insurance businesses in the country.

Statement 1 is correct: Insurance Regulatory and Development Authority of India (IRDAI), is set to launch the Bima Sugam Portal –an online marketplace that will house all companies selling life and non-life insurance on a single platform. The online platform will provide consumers with a one-stop destination for all insurance needs.

Statement 2 is correct: Bima Sugam portal will provide following services to the policyholders.

- 1) Buy insurance policy
- 2) Claim Settlement
- 3) Agent Portability
- 4) Policy Portability

Hence, it will be responsible for the sale, servicing and the claims management attached to the insurance policies.

Statement 3 is correct: The Bima Sugam platform will provide all these facilities to policyholders with an e-insurance account (E-IA) and E-BIMA account. It will give policyholders an option to maintain a single repository for their family, which will create ease for claim settlements due to linkages of information stored at one place.

Hence, it is envisaged to be a platform where a centralized technology infrastructure will help manage policyholders' entire policy.

Source: <https://www.livemint.com/money/personal-finance/here-is-what-you-should-know-about-the-bima-sugam-portal-11666200579440.html>

Q.19) India Investment Grid (IIG), recently seen in news, is an initiative of which of the following government ministry?

- a) Ministry of Finance
- b) Ministry of Commerce and Industry
- c) Ministry of Micro, Small & Medium Enterprises
- d) Ministry of Corporate Affairs

Ans) b

Exp) Option b is the correct answer.

India Investment Grid (IIG) is an initiative of Department for Promotion of Industry & Internal Trade (DPIIT) under Ministry of Commerce and Industry, Government of India and Invest India, the National Investment Promotion and Facilitation Agency. IIG is a comprehensive living repository that showcases a broad range of investment opportunities in India, across states and sectors. Aimed at enhancing the Ease of Doing Business in India, the IIG serves as a platform to connect potential investors to project promoters through a dynamic interactive platform.

Through IIG, promoters can access a global platform to showcase their projects to investors from around the globe, while investors can search preferred investment opportunities, and connect with the project promoters.

National Infrastructure Pipeline (NIP) is hosted on the Invest India Grid (IIG) platform and provides opportunities for States/UTs and Ministries to collate all major infrastructure projects at a single location. IIG thus acts as a centralised portal to track and review project progress across all economic and social infrastructure sub-sectors.

Hence, Option b is the correct answer.

Source: Economic survey 2022-23 (pg. 348)

<https://indiainvestmentgrid.gov.in/index.jsp>

Q.20) With reference to Swadesh Darshan scheme, consider the following statements:

1. The State Government may designate the Implementing Agency for the projects under the Scheme.
2. The Scheme is fully funded by Central government.
3. Ambedkar Circuit is one of the tourist circuits launched under this scheme.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer:

Swadesh Darshan Scheme was launched in **2014- 2015** with the aim of promoting as well as developing sustainable and responsible tourism in the country.

Statement 1 is correct: The State Government will have to designate the Implementing Agency for the projects under the Scheme and inform the Ministry of Tourism. The Ministry of Tourism, may on its own, select a Central agency for implementation of any project or initiative under the Scheme. The State or Central Implementation Agency shall ensure technical, financial and administrative compliance of the guidelines and other terms and conditions of the sanction of the project and instructions issued by the Ministry from time to time.

Statement 2 is correct: The Scheme is 100% centrally funded. The funds shall be sanctioned and released to the Implementing Agency as per the guidelines of the Scheme and in conformity with the General Financial Rules and the directions issued by the M/O Finance from time to time.

Statement 3 is correct: Few important tourist circuits launched under this scheme includes Buddhist circuit, North- East circuit and **Ambedkar circuit**. Ambedkar Circuit or Panchteerth launched to attract tourists beyond Dalit community. It would include Janma Bhoomi in Madhya Pradesh's Mhow; Shiksha Bhoomi, the place in London where he stayed while studying in the UK; Deeksha Bhoomi in Nagpur where he embraced Buddhism; Mahaparinirvan Bhoomi or the place of his demise in Delhi, and Chaitya Bhoomi, the place of his cremation, in Mumbai.

Source: statement 1 and 2 <https://www.thehindu.com/news/national/govt-to-launch-swadesh-darshan-2-with-chosen-destinations-from-15-states/article66031473.ece>

Statement 3 : <https://indianexpress.com/article/explained/explained-culture/how-ambedkar-circuit-is-good-tourism-and-good-politics-for-the-bjp-8165181/>

Q.21) With reference to the Semiconductors manufacturing in India, which of the following statements is/are correct?

1. India currently imports most of its semiconductor chips requirements.
2. Chip design and manufacturing is a highly capital-intensive business.
3. Product Linked Incentive scheme provides fiscal support to firms looking to set up semiconductor fabrication facilities in India.
4. Government has set up India Semiconductor Mission as specialized and independent division of National Informatics Centre.

Choose the correct answer using the codes given below:

- a) 1, 2 and 3 only
- b) 2 and 4 only
- c) 3 only
- d) 1, 2 and 4 only

Ans) a

Exp) Option a is the correct answer.

Government of India is taking steps to promote the manufacturing of semiconductor chips in India. Reasons for the same are as follows:

Statement 1 is correct - India imports almost all semiconductors to meet its demand, which is estimated to reach around \$100 billion by 2025 from about \$24 billion now. Further, these chips are made with embedded instructions, which may contain malware or backdoors and are impossible to diagnose. And as Semiconductor chips are used in various strategic areas like, defence and telecom, the domestic manufacturing of chips assumes strategic importance and would provide a measure of security. Further, it will cut the import bill too.

Statement 2 is correct - Chip design and manufacturing is a highly capital-intensive business. The ISRO and the DRDO have their respective fab foundries but they are primarily for their own requirements and also not as sophisticated as the latest in the world. A semiconductor fabrication facility (or fab) can **cost multiples of a billion dollars to set up even on a relatively small scale** and lagging by a generation or two behind the latest in technology. It calls for a developed ecosystem for the business to thrive. As per a government estimate, it would cost roughly \$5-\$7 billion to set up a chip fabrication unit in India.

Statement 3 is correct - To encourage semiconductor manufacturing in India, the Govt has decided to extend the PLI (Production-Linked Incentive) scheme with a budgeted incentive of Rs 76,000 crore over the next six years. The **scheme envisages providing fiscal support of up to 50% of project cost for firms looking to set up display and semiconductor fabrication facilities (FABS)** in India. The govt will work

closely with the states establish High-Tech Clusters with requisite infrastructure in terms of land, semiconductor grade water, high quality power, logistics and research.

Statement 4 is incorrect - India Semiconductor Mission is a specialised and independent business division of Digital India Corporation. The mission has been set up with the objective of building a vibrant semiconductor besides displaying ecosystem in order for India to emergence as a global hub in electronics manufacturing and design. It is authorised to negotiate with applicants under semiconductor fab scheme and display fab scheme. It has also been given autonomy to decide appropriate technology mix, node generation, applications, capacity etc. The scheme was launched with the aim of attracting large investments in manufacturing AMOLED-based display panels or TFT LCD.

Q.22) Consider the following statements about performance of insurance sector in India:

1. Life Insurance Penetration in India has seen a consistent decrease in the last decade.
2. Insurance Density in India rose in the last decade in both life and non-life segments.

Which of the statements given above is/are correct?

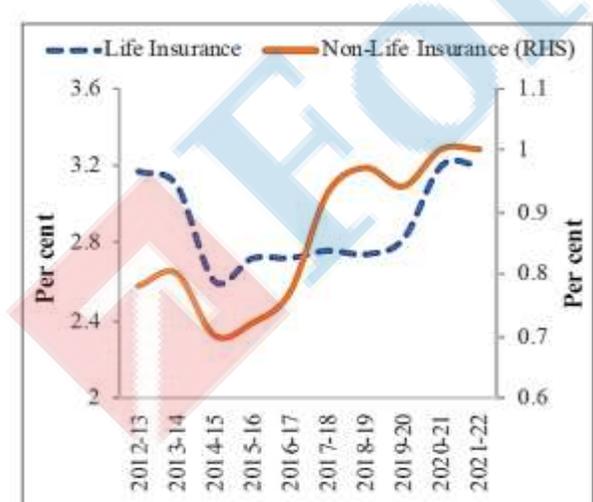

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) b

Exp) Option b is the correct answer.

Insurance, an integral part of the financial sector, plays a significant role in economic development. Apart from protecting against mortality, property, and casualty risks and providing a safety net, the insurance sector encourages savings and provides long-term funds for infrastructure development.

Statement 1 is incorrect: Insurance penetration is used as an indicator of insurance sector development within a country and is calculated as **the ratio of total insurance premiums to gross domestic product in a given year. The performance of Life insurance penetration in India in the period spanning FY2012-13 to FY2021-22 is shown:**

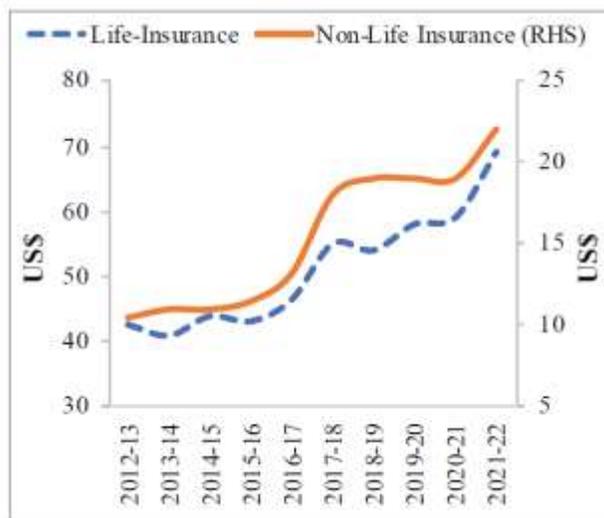

Source: Swiss Re, Sigma various issues

Statement 2 is correct: Insurance density is the ratio of premiums collected by insurance companies to the country's population. Expressed typically in dollar terms, it represents the per capita premium. The insurance density in India has increased from US\$ 11.1 in 2001 to US\$ 91 in 2021 (density for Life insurance

was US\$ 69 and Non-Life insurance was US\$ 22 in 2021) in keeping with the relatively faster expansion of the insurance market in the country.

Hence, in the period FY2012-13 to FY2021-22 the insurance density rose significantly as well as seen in the graph below.

Source: Economic survey 2022-23 (pg. 110)

Q.23) In line with the objectives of Digital India Mission, Digital Document Execution (DDE) platform was launched. In this context, consider the following statements:

1. It is a platform for paperless execution and storage of financial contracts.
2. Digital Document Execution platform was launched by National e-Governance Services Limited.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) c

Exp) Option c is the correct answer.

Statement 1 is correct: DDE is a mode for paperless execution and storage of **financial contracts**, which will result in superior enforcement, thereby enhancing the 'Ease of Doing Business' especially in times where quick financing is the need of the hour for businesses.

Statement 2 is correct: **National e-Governance Services Limited (NeSL) had launched the Digital Document Execution (DDE) in 2020**, in line with the objective of Digital India Mission. NeSL is an Information Utility registered with and regulated by the Insolvency and Bankruptcy Board of India under the aegis of the IBC 2016.

It enables e-Stamping and e-Signing with superior enforcement. DDE platform makes the contract execution process seamless, online and real-time.

Q.24) Consider the following statements regarding Micro, Small and Medium Enterprises (MSME) sector of India:

1. Government has set up a Credit Guarantee Trust Fund to facilitate credit flow to Micro and Small Enterprises (MSE).
2. As per the Economic survey, the share of MSMEs in India's overall exports has been steadily increasing in the last 5 years.
3. As per the Economic Survey, the share of MSMEs in India's overall annual GVA has remained above one-fourth during the last 5 years.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 1 and 3 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

Micro, Small and Medium Enterprises (MSME) are the backbone of the Indian economy. As of March 2022, there were **7.9 million MSMEs** in India. Such enterprises employ about 110 million (11 crore) people across India. The efforts of MSMEs in India are expected to be the **key drivers of Aatmanirbhar Bharat** and strength of the sector is important for increasing India's exports and for India's products to reach new markets.

Statement 1 is correct: Availability of bank credit **without the hassle of collateral** will help entrepreneurs to realise needed finances. With this objective **Ministry of Micro, Small & Medium Enterprises (MSME) and SIDBI** has set up **Credit Guarantee Trust Fund for Micro and Small Enterprises (CGTMSE)**. It will **strengthen credit delivery system and facilitate flow of credit** to the MSE sector.

Statement 2 is incorrect: MSME contribution in India's overall exports has shown a **fluctuating trend**. It decreased (so **no continuous increase**) in FY21 after an increase in previous years. Share of MSME in India's exports stood at 48.60 percent, 48.10 percent, 49.75 percent, 49.35 percent and 45.03 percent for the year for FY18, FY19, FY20, FY21 and FY22 respectively.

Figure IX.9a: MSME share in exports

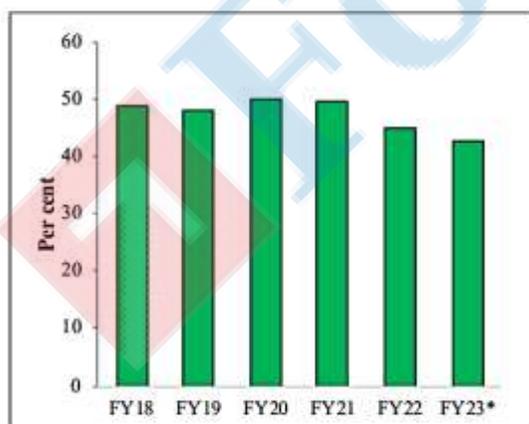

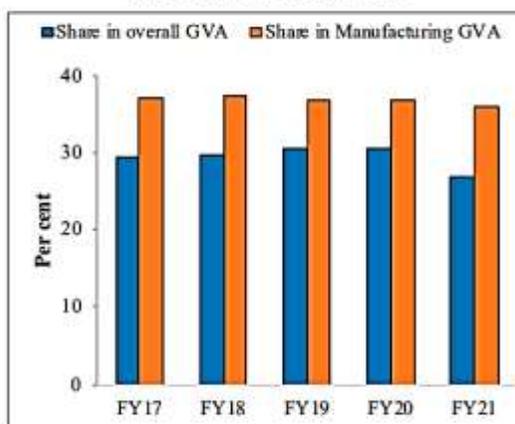

Figure IX.9b: MSME Share in overall GVA and Manufacturing GVA

Source: MoSPI, Directorate General of Commercial Intelligence and Statistics (DGCI&S)

Note: *Data for FY23 is until Aug 2022

Figure: MSME share in exports

Statement 3 is correct: Share of MSME Gross Value Added (GVA) in overall GVA was 29.3 percent, 30.5 percent, 30.5 percent and 26.8 percent for FY18, FY19, FY20 and FY21 respectively.

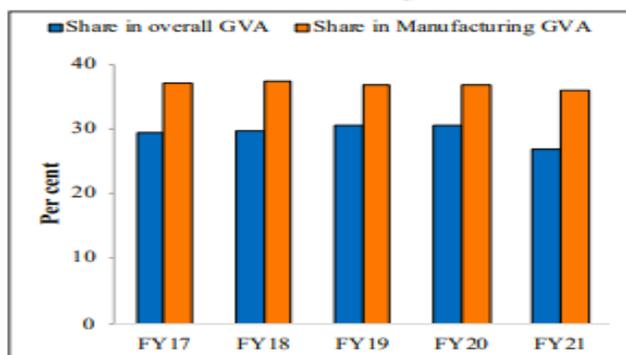

Figure: MSME Share in overall GVA and GVA MANUFACTURING

Knowledge Base: The contribution of MSMEs in exports stood at 42.6% (April 2022–August 2022). As the Indian economy is poised to reach the **US\$ 5 trillion target**, the Ministry of MSME has set a **goal of increasing its contribution to GDP to 50% by 2025**.

Source: <https://blog.forumias.com/msmes-significance-challenges-and-solutions-explained-pointwise/>

Q.25) Consider the following places recently seen in news and the countries in which they are located:

Places in news	Country
1. Groningen	Netherlands
2. Galapagos	Ecuador
3. Zaporizhzhia	Iraq

Which of the pairs given above is/are correctly matched?

- 1 and 2 only
- 2 and 3 only
- 1 only
- 1, 2 and 3

Ans) a

Exp) Option a is the correct answer.

Pair 1 is correct: Groningen is a city in the Netherlands.

Groningen is one of the world's largest gas fields in **the Netherlands** and has been described as “the only potential game-changer in Europe” to replace the increasingly disrupted gas supply from Russia.

The giant Dutch gas field once produced more than 40 billion cubic metres (bcm) of gas yearly – equivalent to 10% of the EU's consumption. But its production has now been capped due to earthquakes.

Pair 2 is correct: Galapagos are an archipelago of volcanic islands. They are distributed on each side of the equator in the Pacific Ocean, surrounding the centre of the Western Hemisphere, and are part of the Republic of Ecuador. Situated in the Pacific Ocean some 1,000 km from the South American continent, these 19 islands and the surrounding marine reserve have been called a unique ‘living museum and showcase of evolution’. Located at the confluence of three ocean currents, the Galápagos are a ‘melting pot’ of marine species. Ongoing seismic and volcanic activity reflects the processes that formed the islands.

Pair 3 is incorrect: Zaporizhzhia is in southern Ukraine. Recently Russian shelling and missile strikes have hit energy infrastructure across Ukraine and knocked out electricity supplies to Europe's largest nuclear plant in Zaporizhzhia.

Q.26) Consider the following statements regarding the concept “Privacy by Design”, sometimes seen in the news:

1. It is a framework of embedding privacy into the design and operation management of a given information technology system itself.

2. It suggests that a user's data protection should solely be assured by the compliance with regulatory frameworks designed by the government agencies.

Which of the statements given above is/are correct?

a) 1 only

b) 2 only

c) Both 1 and 2

d) Neither 1 nor 2

Ans) a

Exp) Option a is the correct answer.

Privacy by Design has been a frequently discussed topic **related to data protection**. The first thoughts of “Privacy by Design” were expressed in the 1970s and were incorporated in the 1990s into the data protection directive.

Statement 1 is correct: Privacy by Design is a framework based on **proactively embedding privacy into the design and operation management** of a given IT systems, networked infrastructure, and business practices or design specification. It specifies that technical **measures must be taken already at the time of planning** a processing system **to protect data safety**. The term Privacy by Design means nothing more than **data protection through technology design**. So, **statement** correctly depicts the definition of the term privacy by design.

Statement 2 is incorrect: Privacy by Design is a holistic approach to privacy that encompasses 7 foundational principles. These **seven fundamental principles are:** -

1) Proactive not Reactive; Preventative not Remedial

2) Privacy as the Default Setting

3) Privacy Embedded into Design

4) Full Functionality – Positive-Sum, not Zero-Sum

5) End-to-End Security – Lifecycle Protection

6) Visibility and Transparency – Keep it Open

7) Respect for User Privacy – Keep it User-Centric

The Privacy by Design advances the view that the privacy of a **user's data cannot be assured solely by compliance with regulatory frameworks designed by the governments; rather, privacy assurance must ideally become an organization's default mode of operation**. In this regard the ‘Privacy by Default setting’ principle suggests that ‘Privacy by Design’ seeks to deliver the maximum degree of privacy by ensuring that personal data are automatically protected in any given IT system or business practice. If an individual does

nothing, their privacy still remains intact. No action is required on the part of the individual to protect their privacy – it is built into the system, by default.

Q.27) Consider the following statements regarding the Index of Industrial Production (IIP):

1. It is released by the Office of the Economic Adviser.
2. The current base year for IIP is 2017-18.
3. The Eight Core Industries comprise more than half of the total weightage of items included in the IIP.

Which of the statements given above are **incorrect**?

- a) 1 and 2 only
- b) 1 and 3 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

Index of Industrial Production (IIP) is an index that **tracks manufacturing activity** in different sectors of an economy. The IIP number measures the industrial production for the period under review, **usually a month**, as against the reference period or base year.

Statement 1 is incorrect: Index of Industrial production (IIP) is released by the **National Statistical Organization (NSO)**, Ministry of Statistics and Programme Implementation (MOSPI). IIP is a vital indicator of the industrial production in the economy.

Statement 2 is incorrect: The **current base year of IIP is 2011-12 (not 2017-18). The base year was changed to 2011-12 from 2004-05 in the year 2017.** The Reserve Bank of India, the Ministry of Finance and the Office of Economic Adviser (Ministry of Commerce and Industry) use the IIP index for policy-making purposes.

Statement 3 is incorrect: In the IIP the whole industrial economy is divided into three sectors: **manufacturing (with a weight of 77.63 %), mining (14.37 %) and electricity (7.99 %).** The **Eight Core Industries (coal, crude oil, natural gas, natural gas, refinery products, fertilizers, steel, cement and electricity)** comprise **40.27 percent (less than half) of the weight of items** included in the Index of Industrial Production (IIP).

Knowledge Base: **Index of eight core industries is released by Office of the Economic Adviser (OEA)**, Department of Industrial, Policy & Promotion (DIPP), and Ministry of Commerce & Industry.

Annual Survey of Industries (ASI) is the prime source of **long-term industrial statistics**. The ASI is used to track the health of the industrial activity in the economy over a longer period. The index is compiled out of a **much larger sample of industries** compared to IIP.

Source: [https://blog.forumias.com/index-of-industrial-production-iip/#:~:text=The%20eight%20Core%20Industries%20in,Cement%20and%20\(h\)Fertilizers.](https://blog.forumias.com/index-of-industrial-production-iip/#:~:text=The%20eight%20Core%20Industries%20in,Cement%20and%20(h)Fertilizers.)

<https://www.financialexpress.com/what-is/index-of-industrial-production-iip-meaning/1616261/>

Q.28) Which of the following are the correct provisions of Mines and Minerals (Development and Regulation) Amendment Act, 2021?

1. It empowers the National Mineral Exploration Trust for the exploration and acquisition of mines outside India.
2. It provides that no mine can be reserved for particular end-use.
3. It provides that there will not be any involvement of state governments in auctioning of mines.

Choose the correct answer using the code given below:

- a) 1 and 3 only
- b) 2 only
- c) 3 only
- d) 1 and 2 only

Ans) b

Exp) Option b is the correct answer.

Mines and Minerals (Development and Regulation) Amendment Act, 2015 was enacted **to regulate the mining sector** in India. It replaced the Mines and Minerals (Development and Regulation) Act, 1957. This Act forms the basic framework of mining regulation in India. This act is **applicable to all minerals except minor minerals and atomic minerals**.

Statement 1 is incorrect: Under Mines and Minerals (Development and Regulation) Amendment Act (MMDR Act) 2015, **National Mineral Exploration Trust (NMET) was established for regional and detailed mineral exploration in the country (not outside the country and no provision related to acquisition of mines by NMET is there in the law)**. The amended act of 2021 does not make any such changes in the role and function of NMET which empowers it for the exploration and acquisition of mines outside India. **Hence the statement is incorrect.**

Statement 2 is correct: The MMDR Act 2015 empowered the central government to reserve any mine (other than coal, lignite, and atomic minerals) to be leased through an auction for a particular end-use (such as iron ore mine for a steel plant). Such mines are known as captive mines. **Now the MMDR Amendment Act 2021 provides that no mine will be reserved for particular end-use. Hence the statement is correct.**

Statement 3 is incorrect: The MMDR Amendment Act 2021 empowers the central government to specify a time period for completion of the auction process of mines in consultation with the state government. **If the state government is unable to complete the auction process within this period, the auctions may be conducted by the central government. Hence the statement is incorrect as the state governments still has the primary role in the auction process of mines and the central government can auction the mines in a particular situation only.**

Source: <https://pib.gov.in/FactsheetDetails.aspx?Id=148580>

https://prsindia.org/files/bills_acts/bills_parliament/2015/Mines_and_Minerals_Act,_2015.pdf

https://www.mines.gov.in/writereaddata/UploadFile/The_Mines-and-Minerals_Amendment_Act,2015.pdf

<https://mines.gov.in/writereaddata/UploadFile/MMDR%20Act,1957.pdf>

Q.29) Consider the following statements regarding the coal mining sector in India:

1. Currently, prior mining experience in coal mining is not mandatory for bidding for coal blocks in India.
2. Only the companies registered in India can bid in the auction of the coal mines.
3. The captive miners can sell their coal stocks in the open market.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 1 and 3 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

MMDR Act, 1957 has been amended through the Mineral Laws (Amendment) Act, 2020 to **maintain sustained mineral production in the country**. It facilitated seamless transfer of all valid rights, approvals, clearances, licenses, **for a period of two years to a new lessee** in case of minerals other than coal, lignite, and atomic minerals.

Statement 1 is correct: Under the Mines and Minerals (Development and Regulation) Amendment Act, 2015, the companies **which do not possess any prior coal mining experience in India but are financially strong and or have mining experience in other minerals or in other countries can now participate in auction of coal/lignite blocks**. This would also allow the implementation of the **100% FDI through automatic route for sale of coal**.

Statement 2 is correct: The **Coal Mines Nationalization Act of 1973** mandated that only companies registered in India can participate in auctions. Currently also **only companies registered in India can bid for commercial coal mines** despite the cabinet giving its nod to 100% foreign direct investment under automatic route for sale of coal and mining activities.

Statement 3 is correct: Mines and Minerals (Development and Regulation) Act, 1957 empowered central to reserve any mine for the particular end-use. These were the captive mines. Now, the **2021 Amendment to Mines and Minerals (Development and Regulation) Amendment Act removed the distinction between captive and merchant mines**. Now captive coal mines will also be **able to sell their stock in the open market**. Now states will get additional revenue from the sale of minerals by captive miners.

Q.30) Consider the following statements about 'Agni Prime':

1. It is developed under Integrated Guided Missile Development Program.
2. It is a two-stage canisterised solid propellant missile.
3. It is a surface-to-surface missile.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 3 only
- c) 1 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

Statement 1 is correct. Defence Research and Development Organisation (DRDO) successfully flight tested a New Generation Nuclear Capable Ballistic Missile Agni P from Dr APJ Abdul Kalam Island off the coast of Odisha, Balasore in 2021. It is the latest and sixth variant of the Agni series missiles (under IGMDP - Integrated Guided Missile Development Program).

Statement 2 and 3 are correct. Agni-P is a two-stage canisterised solid propellant missile with dual redundant navigation and guidance system. **It has a range of up to 2000 km. It is a canisterised surface-to-surface ballistic missile.**

Source: <https://pib.gov.in/PressReleasePage.aspx?PRID=1730828>

<https://pib.gov.in/PressReleasePage.aspx?PRID=1782960>

Q.31) Arrange the following renewable energy resources in ascending order as per their installed power capacity presently.

1. Hydro energy
2. Solar energy
3. Wind energy
4. Biomass energy

Select the correct answer using the code given below:

- a) 4-1-2-3
- b) 4-3-2-1
- c) 4-2-3-1
- d) 4-3-1-2

Ans) d

Exp) Option d is the correct answer.

Option d is correct: As of Feb 2023, Renewable energy sources, including large hydropower, have a combined installed capacity of 174.53 GW.

The following is the installed capacity for Renewables:

- 1) Wind power: 41.9 GW
- 2) Solar Power: 63.3 GW
- 3) Biomass/Co-generation: 10.2 GW
- 4) Small Hydro Power: 4.93 GW
- 5) Waste To Energy: 0.52 GW
- 6) Large Hydro: 46.85 GW

Hence the correct order is ascending order of installed capacities of different renewable sources is Biomass energy–Wind energy–Hydro energy (including small and large hydro) --Solar energy i.e.,4-3-1-2.

Source: <https://www.investindia.gov.in/sector/renewable-energy#:~:text=Renewable%20energy%20sources%20have%20a,Wind%20power%3A%2041.9%20GW>

Q.32) Consider the following statements regarding the power sector in India:

1. SAATHEE Portal is developed by the Bureau of Energy Efficiency to monitor the progress of energy efficiency in various states.
2. Under the scheme “Development of Solar Parks and Ultra-Mega Solar Power Projects”, solar parks with a capacity of 50 MW and below will be installed.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) a

Exp) Option a is the correct answer.

Power or electricity is a very essential constituent of infrastructure affecting economic growth and welfare of the country. India’s power sector is one of the key sectors which forms the foundation of the growth of the country.

Statement 1 is correct: SAATHEE stands for **State-wise Actions on Annual Targets and Headways on Energy Efficiency (SAATHEE)**. It is a **Management Information System (MIS) portal** which will facilitate **real-time monitoring of the progress of implementation of various Energy Conservation endeavours at**

State level. Real time data will provide efficiency and expediency in conservation measures. **The Bureau of Energy Efficiency (BEE) under the Ministry of Power has developed** this portal to monitor the progress of implementation of various energy conservation projects.

Statement 2 is incorrect: The scheme for “**Development of Solar Parks and Ultra-Mega Solar Power Projects**” was rolled out by **Ministry of New & Renewable Energy** on 12-12-2014. Under the scheme, it was proposed to set up **at least 25 solar parks, each with a capacity of 500 MW (and not 50 MW) and above** thereby targeting around targeting 20,000 MW of solar power installed capacity within a span of 5 years (later extended) starting from 2014-15. The capacity of the Scheme was enhanced from 20,000 MW to **40,000 MW** on 21-03-2017. **These parks are proposed to be set up by 2023-24.**

Knowledge Base: **BEE is a statutory body** under the Ministry of Power which is mandated to implement policy and programmes in energy efficiency and conservation. The objective of such initiatives is **to reduce energy intensity** in our country by optimizing energy demand and reducing emissions of greenhouse gasses (GHG) which are responsible for global warming and climate change.

Source: <https://blog.forumias.com/bee-launches-saathee-portal-to-track-state-energy-efficiency-targets/>

<https://pib.gov.in/PressReleaseDetailm.aspx?PRID=1687682>

Q.33) Consider the following statements with reference to the Renewable Purchase Obligation (RPO) in India:

1. Under this, all the goods manufacturing industries are obligated to obtain a minimum amount of their energy needs from Renewable Energy Sources.
2. India first adopted RPO mechanism in 2015, to realize India’s obligation under the Paris Climate Agreement.
3. In general, State Electricity Regulatory Commissions have a role in RPO mechanism within the concerned state.

Which of the above given statements is/are correct?

- a) 2 only
- b) 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

Renewable Purchase Obligation (RPO) is a tool to fulfill our renewable energy goals.

Statement 1 is incorrect: Renewable Purchase Obligation (RPO) mandates that all **electricity distribution licensees i.e., distribution companies should purchase or produce a minimum specified quantity** of their requirements from **Renewable Energy Sources. Although RPO requirements may apply to large scale manufacturing companies, they are not applicable to all the manufacturing industries (like MSMEs).** RPO uses RECs in cases Discoms are not able to produce renewable electricity from own. Renewable Energy Certificates (RECs) is market-based instruments to promote renewable sources of energy and the development of the market in electricity.

Statement 2 is incorrect: RPO was instituted in 2011, it is a mandate that requires large power procurers to buy a predetermined fraction of their electricity from renewable sources.

Statement 3 is correct: Under the RPO framework obligations have been imposed on certain entities to purchase energy from renewable sources by various state electricity regulatory commissions (SERCs) based on each state's varying renewable energy potentials.

Source: <https://cercind.gov.in/regulations/REC-Regulations-2022.pdf>

<https://elplaw.in/leadership/what-are-renewable-purchase-obligations-and-how-to-effectively-meet-rpo-targets/#:~:text=To%20provide%20a,renewable%20energy%20sources.>

Q.34) Consider the following statements with reference to the India Infrastructure Project Development Fund Scheme:

1. It is a Central Sector Scheme.
2. Projects which are covered under the Viability Gap Funding scheme are exempted from any benefits under the IIPDF scheme.

Which of the above given statements is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) a

Exp) Option a is the correct answer.

The **Department of Economic Affairs (DEA), Ministry of Finance**, in 2022 notified Scheme for Financial Support for Project Development Expenses of PPP Projects – **India Infrastructure Project Development Fund (IIPDF) Scheme**.

Statement 1 is correct: IIPDF is a central sector scheme. As a Central Sector Scheme, the India Infrastructure Project Development Fund Scheme (IIPDF Scheme) will aid development of quality PPP projects by providing necessary funding support to the project sponsoring authorities, both in the Central and State Governments, for creating a shelf of bankable viable PPP projects for achieving the vision of modern infrastructure for the country.

Statement 2 is incorrect: Projects which are covered under the Viability Gap Funding scheme are also allowed for getting the funding support of the IIPDF scheme. Under the IIPDF scheme, a maximum amount of ₹5 crore for a single proposal, inclusive of any tax implications, can be funded, which can include the cost of consultants/transaction advisers of a PPP project. Any funding requirement over and above ₹5 crore may be borne by the project sponsoring authority itself, and funding under IIPDF shall not be recovered.

Source: <https://www.indiabudget.gov.in/economicsurvey/doc/echapter.pdf>

https://mohua.gov.in/upload/uploadfiles/files/Guideline_Scheme_IIPDF.pdf

https://dea.gov.in/sites/default/files/Book_IIPDF%20Schemes%20%2805.11.2022%29.pdf

Q.35) Economy and Environment are related through Environmental Kuznets Curve in which of the following way?

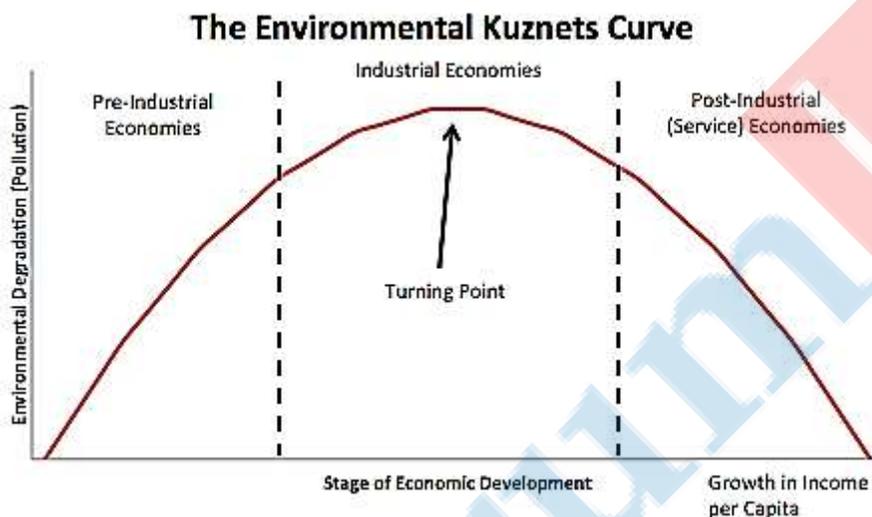

- a) An increase in Environmental pollution always decreases the National income of an economy.
- b) At higher globalisation of economy happens, environmental pollution reduces.
- c) Environmental degradation increases in the early stages of economic growth, but higher level of economic growth provides reduced environmental degradation.
- d) Greenhouse gas emissions and Per Capita income always have an inverse relationship.

Ans) c

Exp) Option c is the correct answer.

The environmental Kuznets curve (EKC) is a hypothesised relationship between various indicators of environmental degradation and per capita income. In the early stages of economic growth, pollution emissions increase and environmental quality declines, but beyond some level of per capita income (which will vary for different indicators) the trend reverses, so that **at high income levels, economic growth leads to environmental improvement**. This implies that environmental impacts or emissions per capita are an **inverted U-shaped function of per capita income**.

The Environmental Kuznets Curve is used to graph the idea that as an economy develops, market forces begin to increase and economic inequality decreases. More specifically that as the economy grows, initially the environment suffers but eventually the relationship between the environment and the society improves.

Source: <https://www.sciencedirect.com/topics/earth-and-planetary-sciences/environmental-kuznets-curve>

Q.36) Consider the following statements with reference to the Logistics Ease Across Different States (LEADS) Report:

1. It is released by the Union Ministry of Commerce and Industry.
2. It assesses the situation of logistics infrastructure across nine coastal states only.
3. Maharashtra has topped amongst the 'Achievers' states category in the 2022 LEADS Report.

Which of the above given statements is/are correct?

- a) 1 and 3 only
- b) 2 and 3 only
- c) 1 and 2 only
- d) 1 only

Ans) a

Exp) Option a is the correct answer.

LEADS report acts as a guiding & bridging mechanism for the identification of interventions enhancing logistics efficiency at State/UTs.

Statement 1 is correct and 2 is incorrect: The Ministry of Commerce and Industry releases the Logistics Ease Across Different States (LEADS) Report. The LEADS is an indigenous data-driven index to assess logistics infrastructure, services, and human resources across all 36 States and UTs.

Statement 3 is correct: There are three categories under the LEADS Report i.e., Achievers, Fast Movers and Aspirers. In the 2022 LEADS report, Maharashtra has topped amongst the ‘Achievers’ states category. Source: Economic Survey 2022-23, Ch -12 Page: 351

Q.37) Consider the following statements with reference to the Indian Telegraph Right of Way Amendment Rules, 2022:

1. It does away with the need for permission from a government authority for installing telecom infrastructure over private property.
2. Under these rules, Telecom Regulatory Authority of India (TRAI) will be the one stop entity for all telecom related Right of Way applications.

Which of the above given statements is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) a

Exp) Option a is the correct answer.

In the telecom sector, the “Right of Way” is a **right under which a telecom infrastructure provider will be facilitated the use of public property** upon application.

Statement 1 is correct: As per the Indian Telegraph Right of Way Amendment Rules, 2022, **Telecom licensees can enter into agreement with private property owners and will not require any permission from any government authority for installing telecom infrastructure** such as towers, poles or optical fibre. The amendments provide for a single window clearance system for Right of Way applications.

Statement 2 is incorrect: **Gati Shakti Sanchar Portal (not TRAI) of the Ministry of Communications** will be the single window portal for all telecom related Right of Way applications.

Source: <https://dot.gov.in/actrules/indian-telegraph-right-way-amendment-rules-2022>

Q.38) Consider the following statements with reference to the Special Economic Zones (SEZs) in India:

1. India does not have a specific SEZ legislation to provide statutory backing to such areas.
2. Entities in the SEZs are allowed duty-free import of goods for the operation and maintenance of SEZ units.
3. Units can be set up in SEZs only for manufacturing of goods and not for rendering services.
4. An entity in SEZ is prohibited from subcontracting its business operations to other entities in SEZs.

Which of the above given statements is/are correct?

- a) 2 only
- b) 2 and 4 only
- c) 1, 2 and 3 only
- d) 3 and 4 only

Ans) a

Exp) Option a is the correct answer.

Statement 1 is incorrect: The Special Economic Zones Act was passed in 2005. The Act came into force along with the SEZ Rules in 2006. Thus, SEZs are provided the legislative backing by the SEZ Act of 2005.

Statement 2 is correct: **The SEZs allows for Duty free import/domestic procurement of goods for development, operation and maintenance of SEZ units.** SEZ are essentially designated duty-free enclave

to be treated as a territory outside the customs territory of India for the purpose of authorized operations in the SEZ.

Statement 3 is incorrect: Units may be set up in SEZs for manufacturing goods and rendering services. In fact, many IT parks developed in India serve as SEZ.

Statement 4 is incorrect: An entity in the SEZ is given freedom for subcontracting its business operations to other entities in SEZs. Subcontracting is the practice of assigning, or outsourcing, part of the obligations and tasks under a contract to another party known as a subcontractor. Subcontracting is especially prevalent in areas where complex projects are the norm, such as construction and information technology.

Source: <http://sezindia.nic.in/FAQ.php>

Q.39) Which among the following best describes the 'Q-commerce' model, as seen in the news recently?

- A model of e-commerce that specifically focuses on rural areas and backward regions of the country.
- A model of e-commerce that emphasizes quick and fast delivery of goods to consumers.
- A model of e-commerce that promotes environmentally friendly and sustainable business practices.
- A model of e-commerce that targets rich consumers with luxurious and expensive products.

Ans) b

Exp) Option b is the correct answer.

"Q-commerce" (quick commerce) is a new model of e-commerce that emphasizes speed and convenience in the delivery of goods to consumers. This model aims to provide on-demand delivery of products within a very short time frame, sometimes as little as a few minutes. It usually involves the use of local micro-fulfillment centers, dark stores, or warehouses that are located in or near urban areas, enabling retailers to fulfill orders more quickly and efficiently. The Q-commerce model is gaining popularity due to the growing demand for instant gratification and convenience among consumers.

Q.40) With reference to 'Global Food Security Platform', consider the following statements:

- It is launched by the World Food Programme (WFO) in collaboration with the Food and Agriculture Organization.
- It provides finances to improve food security and to reduce volatility in food markets.

Which of the statements given above is/are correct?

- 1 only
- 2 only
- Both 1 and 2
- Neither 1 nor 2

Ans) b

Exp) Option b is the correct answer.

Statement 1 is incorrect: Global Food Security Platform is **not** launched by United Nations World Food Programme. It was launched by the World Bank's private sector investment arm, **the International Finance Corp.**

Statement 2 is correct:

Global Food Security Platform is a \$6 billion financing facility which will support vulnerable communities, boost the flow of vital commodities to emerging markets, and help **reduce food insecurity**. IFC's Global Food Security Platform **will seek to reduce volatility in food markets through emergency financing to**

farmers, commodity traders, food and feed processors, and other private players that face restricted funding and sudden spikes in costs that are limiting their operations.

Knowledge Base:

Additional information on Global Food Security Platform:

(a) It also aimed at facilitating trade of food commodities, delivery of inputs to farmers, supporting efficient production in major origins such as Iraq, Lebanon, Libya, and Tunisia etc, including Ukraine, and effective distribution of food products in destination countries

(b) The platform will supplement the World Bank's commitment of US\$30 billion in response to the food crisis.

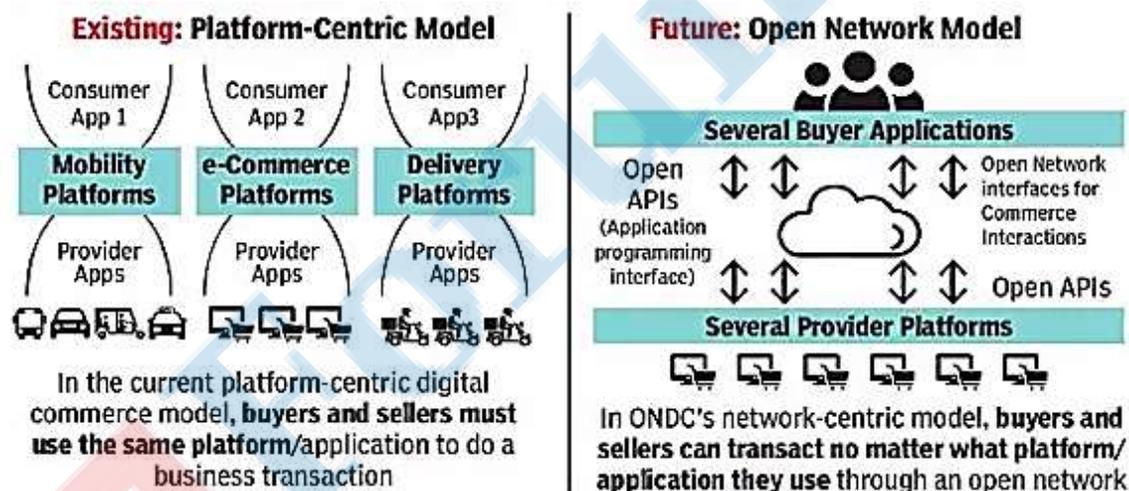

Source: Feeding the Future: IFC's Global Food Security Platform Confronts Multiple, Overlapping Crises
IFC launches financing platform to respond to global food crisis | Mint (livemint.com)

Q.41) The proposed Open Network Digital Commerce can democratize digital commerce as:

- it uses Artificial Intelligence to exclusively show the products of small businesses when user searches for a product in the category.
- it will provide sellers and consumers with a greater number of options.
- it will be utilizing machine learning algorithms that essentially favor MSME and Cottage industries.
- it will limit access to big marketplaces to the consumers and will allow exclusive access to new and innovative businesses.

Ans) b

Exp) Option b is the correct answer.

ONDC is an open e-commerce protocol set up by the Ministry of Commerce's Department of Promotion of Industry and Internal Trade (DPIIT). Under ONDC, it is envisaged that a buyer registered on one participating e-commerce site (for example, Amazon) may purchase goods from a seller on another participating e-commerce site (for example, Flipkart). Presently, buyers and sellers have to be on the same app for a transaction which happens through the same platform. For example, a buyer needs to go to Amazon, to buy a product from a seller on Amazon.

Open Network Digital Commerce has the potential to democratize digital commerce in several ways. It can promote greater competition by reducing entry barriers for smaller businesses and startups. Open networks allow businesses of all sizes (both small and big) to participate, providing a level playing field and greater opportunities for market access. **Main aim behind the ONDC is to increase the accessibility to various products by the consumers and enable the e-commerce companies, especially small companies to get access to a wider base of consumers.**

Source: <https://www.livemint.com/news/india/open-network-for-digital-commerce-will-democratize-e-commerce-goyal-11647706189203.html>

<https://pib.gov.in/PressReleaseIframePage.aspx?PRID=1884249>

Q.42) Consider the following statements with reference to the PM MITRA Scheme:

1. The scheme aims to improve the infrastructure facilities of the textile industry.
2. It provides support for both Greenfield and Brownfield projects.
3. The capital requirements of the projects under the scheme are fully funded by the Central Government.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 1 and 3 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) a

Exp) Option a is the correct answer.

The Mega Integrated Textile Region and Apparel (PM MITRA) Parks aims to integrate the entire textile value chain from spinning, weaving, processing/dyeing, printing to garment manufacturing at one location.

Statements 1 and 2 are correct: The scheme aims to develop integrated large scale and **modern industrial infrastructure facility for entire value-chain of the textile industry**. It will reduce logistics costs and improve competitiveness of Indian Textiles. Under the scheme, the **Centre will provide development capital support** for the development of common infrastructure of Rs 500 crore for each **greenfield MITRA park** and up to Rs 200 crore for each **brownfield park**.

Statement 3 is incorrect: PM MITRA Park will be developed by a Special Purpose Vehicle which will be owned by the Central and State Government and in a Public Private Partnership (PPP) Mode. The Centre will provide development capital support for the development of common infrastructure of Rs 500 crore for each greenfield MITRA park and up to Rs 200 crore for each brownfield park (**Hence central government only provide a fixed assistance and remaining amount will be accumulated through PPP model. Therefore, the projects under the scheme are not fully funded by the central government**) The scheme will help India in attracting investments, boosting employment generation and position itself strongly in the global textile market. These parks are envisaged to be located at sites which have inherent strength for Textile Industry to flourish and have necessary linkages to succeed.

Economic Survey 2022-23, Ch -9 Page: 280

Q.43) Consider the following statements with reference to the Consumer Protection (E-Commerce) Rules, 2020:

1. It requires sellers in the ecommerce marketplace to provide information regarding the country of origin of their goods.
2. These rules are applicable to both marketplace and inventory models of e-commerce.
3. The rules require e-commerce entities to get registered with the Department for Promotion of Industry and Internal Trade (DPIIT).

Which of the above given statements is/are correct?

- a) 1 and 2 only
- b) 3 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

To protect the consumers from unfair trade practices and to address their concerns, the Ministry of Consumer Affairs, Food and Public Distribution on July 23, 2020, notified the Consumer Protection (E-Commerce) Rules, 2020.

Statement 1 is correct: As per the Consumer Protection (E-Commerce) Rules, 2020, Any seller offering goods or services through a marketplace **e-commerce entity shall provide all relevant details about the goods and services offered for sale by the seller including country of origin** which are necessary for enabling the consumer to make an informed decision at the prepurchase stage.

Statement 2 is correct: The Consumer Protection (E-Commerce) Rules, 2020 are applicable to all goods and services bought or sold over digital or electronic network including digital products; all models of e-commerce, **including marketplace and inventory models of ecommerce;** all e-commerce retail, including multi-channel single brand retailers and single brand retailers in single or multiple formats.

Statement 3 is correct: The rules provided for a framework for registration of every e-commerce entity with **the DPIIT for allotment of a registration number which shall be displayed prominently on the website as well as invoice of every order placed by the e-commerce entity.** This would help create a database of genuine e-commerce entities and ensure that the consumers are able to verify the genuineness of an e-commerce entity before transacting through their platform.

Q.44) Consider the following statements regarding Micro, Small and Medium Enterprises (MSMEs) sector in India:

1. Higher number of MSMEs are present in the Manufacturing sector, than in Services sector.
2. Retail and wholesale trades are now included under MSMEs.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) c

Exp) Option c is the correct answer.

Micro, Small and Medium Enterprises (MSMEs) form the cornerstone of the Indian economy. The MSME sector in India has exhibited a strong performance and protected the economy from global adversities and shocks.

Statement 1 is correct: Out of total registered MSMEs in India – 67% are manufacturing while around 33% are into service sector.

Statement 2 is correct: In July 2021, the Indian government announced inclusion of retail and wholesale trades as MSMEs to strengthen the sector and boost economic growth. It can benefit 2.5 Crore Retail and Wholesale Traders in India. As a result of this move, retail and wholesale trade can get benefits of priority sector lending under RBI guidelines.

Source: <https://www.indiabudget.gov.in/economicsurvey/doc/echapter.pdf> chapter 9

<https://niveshmitra.up.nic.in/MSMEs.aspx#:~:text=India%20Overview&text=With%20around%20361.76%20lakh%20registered,in%20India%20after%20agriculture%20sector%20>

Q.45) With reference to ‘Sloth Bear’, consider the following statements:

1. This bear species is endemic to the Indian Subcontinent.
2. As compared to other bear species, Sloth Bear hibernate for the longest duration of time in a year.
3. It is listed as Critically Endangered in the IUCN red list.

Which of the statements given above is/are **incorrect**?

- a) 1 only
- b) 1 and 2 only
- c) 3 only
- d) 2 and 3 only

Ans) d

Exp) Option d is the correct answer.

The first World Sloth Bear Day was observed on 12th October to generate awareness and strengthen conservation efforts around the unique bear species of India.

Statement 1 is correct: The sloth bear (*Melursus ursinus*) is an important species and **endemic to the Indian subcontinent** and 90% of the species population is found in India. A small population of bears is also **found in Nepal and Sri Lanka**. Sloth bears are omnivorous and survived on termites, ants and fruits.

Statement 2 is incorrect: Bears that **do hibernate** include the **Andean bear, the American black bear**, some Asiatic black bears. But unlike these bears, **Sloth bear do not hibernate**. Bears hibernate **due to cold temperatures and to conserve energy** when food is scarce, but some of its species **adapt in the ecology and do not hibernate**.

Statement 3 is incorrect: Sloth bear is classified as ‘**Vulnerable**’ in the International Union for the Conservation of Nature (IUCN). No fewer than 20,000 sloth bears survive in the forests of Indian and Sri Lanka. It is listed in **Schedule 1 of the Indian Wildlife Protection Act, 1972**. It is also listed in **Appendix 1 under CITES** conservation status.

Sloth Bear

Knowledge Base:

Threats for Sloth bear:

- (a) For a long time, sloth bears were exploited as dancing bears by the nomadic Kalandar community members,
- (b) There has been a rise of incidents of human sloth bear conflict in States like Gujarat, Rajasthan and Maharashtra among other states,
- (c) Habitat loss,
- (d) They are also poached for body parts and hunted because of their aggressive behaviour and destruction of crops.

Source: Experts call for protection of sloth bear on first World Sloth Bear Day (thehindu.com)

Sloth Bear: A day to explore bear necessities (forumias.com)

Q.46) Consider the following statements regarding Industry 4.0:

1. It integrates technologies such as cloud computing and machine learning into the manufacturing process.
2. SAMARTH Udyog Bharat 4.0 is an initiative which promotes Industry 4.0 in India.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) c

Exp) option c is the correct answer.

Statement 1 is correct: The advent of the fourth industrial revolution or industry 4.0 as it's commonly referred to, has begun. **This transformation integrates new technologies such as cloud computing, IoT, machine learning, and artificial intelligence (AI) into manufacturing processes**, leading to efficiencies across the value chain.

Statement 2 is correct: The government is cognisant of the importance of industry 4.0 in achieving the goals of Aatmanirbharta and its ambitions of becoming a key player in global value chains. A few initiatives by the government include **the SAMARTH (Smart Advanced Manufacturing and Rapid Transformation Hubs) Udyog Bharat 4.0** under the Ministry of Heavy Industries and Public Enterprises, which aims to encourage technological solutions to Indian manufacturing units through awareness programmes and demonstrations. It aims to facilitate and create eco system for propagation of Industry 4.0 set of technologies in Indian manufacturing.

Source: <https://www.indiabudget.gov.in/economicsurvey/doc/echapter.pdf> chapter 9

Q.47) Which among the following can be considered as benefits of the Central Bank Digital Currency (CBDC)?

1. It may foster financial inclusion in India.
2. It may bring resilience to the payments system.
3. It may boost innovation in cross border payment space.
4. It may reduce operational costs in payments by reducing the use of physical cash.
5. It may increase efficiency in the payments system.

Select the correct answer using the codes given below:

- a) 2 and 5 only
- b) 2, 3 and 5 only
- c) 1, 3, 4 and 5 only
- d) 1, 2, 3, 4 and 5

Ans) d

Exp) Option d is the correct answer.

Reserve Bank of India broadly defines CBDC (Digital Rupee (e₹)) as the legal tender issued by a central bank in a digital form. It is akin to sovereign paper currency but takes a different form, exchangeable at par with the existing currency and shall be accepted as a medium of payment, legal tender and a safe store of value. The first pilot in the Digital Rupee - Wholesale segment (e₹-W) commenced on November 1, 2022. The Reserve Bank has also recently announced the launch of the first pilot for retail digital Rupee (e₹-R).

Benefits of CBDC

The introduction of CBDC will significantly boost digital financial services. Issuance of CBDC in India offers several benefits, which inter alia, include.

- 1) fostering financial inclusion, (**Statement 1 is correct**)

- 2) bringing resilience in payments system, (**Statement 2 is correct**)
- 3) boosting innovation in cross-border payments space, (**Statement 3 is correct**)
- 4) reduction in operational costs involved in physical cash management, (**Statement 4 is correct**)
- 5) increasing efficiency, and innovation in the payments system, and (**Statement 5 is correct**)
- 6) providing public with uses that any private virtual currencies can provide, without the associated risks.

Q.48) Consider the following statements regarding National Productivity Council (NPC) and National Start-up Advisory Council (NSAC):

1. Non-official members are allowed in NPC, but not in NSAC.
2. Unlike NPC, NSAC functions under the Department for Promotion of Industry and Internal Trade.
3. The NPC aims to increase productivity in all spheres of industries, and NSAC will advise measures to foster a culture of innovation amongst citizens and students.

Which of the statements given above is/are correct?

- a) 2 and 3 only
- b) 3 only
- c) 1 and 3 only
- d) 1 and 2 only

Ans) b

Exp) Option b is the correct answer.

The National Productivity Council is an **autonomous organization under the Ministry of Commerce and Industry**, Govt. of India. NPC Plays a catalytic role in productivity promotion by undertaking consultancy, training and research assignments in frontier areas of micromanagement and technology-oriented disciplines. The Department for Promotion of Industry and Internal Trade (**DPIIT**) had set up the **National Startup Advisory Council** a year back to advise the government on measures needed to build an ecosystem for nurturing innovation and start-ups in the country.

Statement 1 is incorrect: The central government has decided to nominate the **non-official members on the National Start-up Advisory Council** representing various stakeholders such as founders of successful start-ups, veterans who have grown and scaled companies in India, persons capable of representing interest of investors into start-ups, and others.

The NPC also consists of non-official members like **scholars, research workers, consultants, consumers, small industries, technician and other interests.**

Statement 2 is incorrect: NPC functions under the Department for Promotion of Industry and Internal Trade, **Ministry of Commerce & Industry.**

Statement 3 is correct: The NPC aims to increase productivity in all spheres of industries including **light, small scale, medium and large-scale industries**; and to pave the way for launching productivity drive in all spheres of economic activity of the country. The NSAC council will suggest measures to foster a **culture of innovation among citizens and students in particular**, promote **innovation in all sectors and across semi-urban and rural areas**, promote creation, protection and commercialization of intellectual property rights and make it easier to start, operate, grow and exit businesses by reducing regulatory compliances and cost.

Q.49) With reference to the Real Estate Investment Trusts (REITs) and Infrastructure Investment Trusts (InvITs), consider the following statements:

1. They aim to provide steady flow of long-term funds for the growth of infrastructure sector.
2. They are not very popular as they are not accessible to retail investors.

Which of the statements given above is/ are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) a

Exp) Option a is the correct answer.

Real Estate Investment Trusts (REITs) and Infrastructure Investment Trusts (InvITs) are financial instruments introduced by the SEBI in 2014. They are designed to pool small sums of money from several investors to invest in assets (real estate properties generating regular income) that give cash flow over a period.

REITs involve investing in investment grade and income-producing real estate properties such as offices, malls, industrial parks, warehouses, hospitality, healthcare centres, and almost any asset that can produce an annuity revenue stream.

InvITs involve investing in Specific infra like roads and highways, electricity generation & transmission, etc. which take a long time to generate steady cash flows.

Statement 1 is correct: REITs and InvITs are financial instruments that allow people to **pool money** and buy **units of infrastructure** like **roads, commercial buildings** etc, **without owning it**, just like mutual funds for securities. This ensures that **builders** have **access to long term funds** to create new infra which is critical for increasing the growth of the economy. The **loans from banks** are generally **short term** and **not suited** to these projects which have a **long gestation period** and start **creating revenue after many years** of construction.

Statement 2 is incorrect: They are popular as it makes **investing in real estate** very **accessible** to **small retail investors** as well. Like mutual funds, people are assigned units in the real estate dividends in ratio of the small investments which they make which are ultimately pooled to gather sums large enough for investing in real estate.

Knowledge Base: Minimum subscription limit for REITs Rs 50000 is and for InvITs is Rs 1 lakh.

Recently the dividends earned from capital gains from these have been brought under taxation (LTCG). Although it helps the exchequer, it is expected to decrease investor interest in them.

Source: <https://groww.in/p/difference-between-reit-and-invit>

https://www.chittorgarh.com/faq_pg/what-is-the-difference-between-reit-and-invit/754/

Q.50) With reference to 'Telecom Technology Fund Scheme', consider the following statements:

- 1 The Scheme is launched by the Ministry of Science and Technology under the 'Fund for Industrial Research Engagement' initiative.
2. The exclusive objective of the scheme is to provide financial support for the development of 5G technology in India.
3. An allocation of 5% of annual collections from Universal Service Obligation Fund will be available for funding under this scheme.

Which of the statements given above is/are correct?

- a) 1 only
- b) 1 and 2 only
- c) 3 only
- d) 2 and 3 only

Ans) c

Exp) Option c is the correct answer.

Recently, Universal Service Obligation Fund (USOF), a body under the Department of Telecommunications, officially launched Telecom Technology Development Fund (TTDF) Scheme.

Statement 1 is incorrect: Telecom Technology Development Fund (TTDF) Scheme is not launched by Ministry of Science and technology, but it is launched by **Universal Service Obligation (USOF) Fund department of communication under Ministry of Communication.**

Statement 2 is incorrect: Its objective is to **promote technology ownership and indigenous manufacturing, create a culture of technology co-innovation, reduce imports, boost export opportunities and creation of Intellectual Property.** Whereas The USOF has largely been used to aid rural connectivity. But the objective of TDF is also to boost connectivity in underserved urban areas, R&D, skill development etc. It is not devised to exclusively fund 5G technology in India.

Statement 3 is correct: Apart from the existing R&D funding mechanisms, an **allocation of 5% of annual collections from USOF will be available for funding R&D in the Telecom sector under Telecom Technology Development Fund**, starting with the funds collected in the financial year 2021-22. Telecommunication technology products require significantly large funding and long gestation periods for R&D and commercialization including the additional efforts and resources for the products to move from prototype to commercial grade.

Knowledge Base:

Universal Service Obligation Fund:

- (a) The Universal Service Obligation Fund (USOF) was formed by an Act of Parliament, was established in April 2002 under the Indian Telegraph (Amendment) Act 2003.
- (b) It aims to provide financial support for the provision of telecom services in commercially unviable rural and remote areas of the country.
- (c) The resources for the implementation of USO are raised by way of collecting a Universal Service Levy (USL), which is 5 percent of the Adjusted Gross Revenue (AGR) of Telecom Service Providers.
- (d) USOF is a non-lapsable Fund. The Levy amount is credited to the Consolidated Fund of India. The fund is made available to USOF after due appropriation by the Parliament.

Universal Service Obligation Fund (USOF) launches Telecom Technology Development Fund scheme (forumias.com)

Q.1) Which of the following measures/actions by the government/RBI will most likely lead to an increase in Demand-Pull Inflation?

1. Increasing the salaries of government employees
 2. Increasing the minimum support price (MSP)
 3. Increasing customs duty of raw materials
 4. Reducing monetary policy interest rates
- Select the correct answer using the code given below.

- a) 1, 2 and 3 only
- b) 1 and 4 only
- c) 1, 2 and 4 only
- d) 2, 3 and 4 only

Ans) c

Exp) Option c is the correct answer.

Demand-pull inflation exists when aggregate demand for a good or service outstrips aggregate supply. It starts with an increase in consumer demand. Sellers meet such an increase with more supply. But when additional supply is unavailable, sellers raise their prices. That results in demand-pull inflation, also known as "price inflation."

Option 1 is correct: Increasing the salaries of government employees will lead to an increase in government expenditure. With this consumer will have **more discretionary income to spend on goods and services**. When that increases faster than supply, it creates **demand pull inflation**.

Option 2 is correct: Enhancing the **minimum support price (MSP)** of the notified agricultural commodities will put more money into the hands of farmers. This will lead to an increase in money supply in the economy, thereby driving up the demand for goods and services thus contributing to **demand pull inflation**.

Option 3 is incorrect: Increasing customs duty will make import of **raw materials expensive** which drives up prices even without increase in aggregate demand. This is called **cost push inflation**. Cost-push inflation occurs when overall prices increase (inflation) due to increases in the cost of wages and raw materials (inputs).

Option 4 is correct: Lower interest rates: A cut in interest rates causes a **rise in consumer spending and higher investment**. This may cause a rise in aggregate demand and inflationary pressures.

Source :

<https://www.thebalancemoney.com/what-is-demand-pull-inflation-3306100#:~:text=When%20the%20government%20lowers%20taxes,rates%20increased%20demand%20of%20housing.>

Q.2) Which among the following is the primary aim of the recently launched PM VIKAS scheme?

- a) To ensure empowerment of Denotified and Nomadic Tribes (DNT) community.
- b) To provide livelihood to Safai Karamcharis
- c) To improve skills of artisans
- d) To tackle the issue of Substance Abuse

Ans) c

Exp) Option c is the correct answer.

Option a is incorrect: The Ministry, for the welfare of DNT communities has formulated a scheme namely **“Scheme for Economic Empowerment of DNT Communities (SEED)”** in February 2022 with total outlay of Rs. 200 Crore for next five years, having following four components: -

- 1) To provide coaching of good quality for DNT candidates to enable them to appear in competitive examinations,
- 2) To provide Health Insurance to them,
- 3) To facilitate livelihood initiative at community level and
- 4) To provide financial assistance for construction of houses for members of these communities.

Option b is incorrect: Swachhta Udyami Yojna (SUY) was launched with twin **objectives of cleanliness and providing livelihood to Safai Karamcharis** and liberating Manual Scavengers and their dependents.

Option c is correct: The PM VIKAS scheme is aimed at **improving the skills of artisans**, ensuring easy credit and also helping them in brand promotion so that their products reach the market quickly. It also seeks to handhold artisans and people associated with small businesses.

Option d is incorrect: To tackle the **issue of Substance Abuse** and a vision to make India Drug Free, **Nasha Mukh Bharat Abhiyaan (NMBA)** was launched in 2020, in 272 Districts identified as most vulnerable in terms of usage of drugs in the country. Youth, Educational Institutions, Women, Children, Civil Society Organizations/NGOs are envisioned as major target populations and stakeholders of the Nasha Mukh Bharat Abhiyaan.

Source : <https://www.thehindu.com/news/national/vikas-scheme-to-provide-holistic-institutional-support-to-artisans-pm-modi/article66606516.ece>

Q.3) With reference to the local level planning in India, consider the following statements:

1. It was brought to practice for the first time only after the 73rd Constitutional Amendment Act, 1992.
2. The Constitution provides for the establishment of District Planning Committees to consolidate the plans prepared by the Panchayats and the Municipalities.
3. The Community Development programme began in India on the recommendation of Ashok Mehta committee.

Which of the statements given above is/are correct?

- a) 1 only
- b) 1 and 3 only
- c) 2 only
- d) 2 and 3 only

Ans) c

Exp) Option c is the correct answer.

Local level planning is decentralized planning and is aimed at mobilization and utilization of local resources. They lay greater stress on people's participation in planned development.

Statement 1 is incorrect: The local level planning **started soon after the independence and not by the Constitutional Amendment Act of 1992.** The earliest attempts in local level planning were the Community Development Programme and its sequel the Panchayati Raj System. These were attempts of the 1950s to build structures for people's participation in planned development. These plans were being implemented at the local level via the blocks.

Statement 2 is correct: Article 243ZD provides that there shall be constituted in every State at the district level a District Planning Committee. This is to consolidate the plans prepared by the Panchayats and the Municipalities in the district and to prepare a draft development plan for the district as a whole.

Statement 3 is incorrect: The Community Development Programme was **started in 1952** to promote better living for the whole community with its active participation and initiative. The role of the government was to plan and organise the programmes on a national basis and to provide technical services and materials beyond the resources of the communities. Later, the **Balwant Rai Mehta team** was appointed in 1957 to study the Community Development Programme. **Ashok Mehta committee was appointed in 1977** to suggest measures to strengthen the declining Panchayati Raj institutions in the country.

Q.4) The budget 2023-24 adopts certain priorities. They complement each other and act as 'Saptarishi'. In this context which of the following are part of 'Saptarishi'?

1. Inclusive Development
2. Reaching the Last Mile
3. Vocal for Local
4. Unleashing the Potential
5. Youth Power
6. Free from discrimination

Select the correct answer using the code given below.

- a) 1, 2, 3 and 5 only
- b) 1, 3, 4 and 6 only
- c) 1, 2, 4 and 5 only
- d) 1, 2, 3, 4, 5 and 6

Ans) c

Exp) Option c is the correct answer.

The Budget adopts the following **seven priorities**. They complement each other and act as the '**Saptarishi**' guiding us through the Amrit Kaal.

- 1) Inclusive Development (Hence, option 1 is correct.)
- 2) Reaching the Last Mile (Hence, option 2 is correct.)
- 3) Infrastructure and Investment
- 4) Unleashing the Potential (Hence, option 4 is correct.)
- 5) Green Growth
- 6) Youth Power (Hence, option 5 is correct.)
- 7) Financial Sector

Vocal for Local and Free from discrimination are not part of 'Saptarishi'. Hence, option 3 and 6 are incorrect.

Source : https://www.indiabudget.gov.in/doc/budget_speech.pdf

Q.5) Consider the following statements regarding the Police Commissionerate system:

1. Commissioner of Police has magisterial powers under this system.
2. Power to regulate and issue license for explosives lies with the Commissioner of Police.
3. Presently, Bihar and Madhya Pradesh are the only states to follow Commissionerate system in India.

Which of the statements given above is/are correct?

- a) 2 only
- b) 1 and 2 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

In the Commissionerate system, the Commissioner of Police (CP) is the head of a unified police command structure, is responsible for the force in the city, and is accountable to the state government.

Statement 1 is correct: The office of CP also has magisterial powers, including those related to regulation, control, and licensing. The CP is drawn from the Deputy Inspector General rank or above and is assisted by Special/Joint/Additional/Deputy Commissioners.

Statement 2 is correct: Under the system, power to regulate manufacture and issue license for explosives lies with CP. Other powers enjoyed by CP are given in the box below.

POWERS UNDER POLICE COMMISSIONER	
Under the new system, the commissioner of police will have a number of powers which the district magistrate had till now	
<ul style="list-style-type: none"> ➤ It will be the commissioner of police (CP) who will issue orders to maintain public peace, such as imposition of section 144 and ordering curfew ➤ CP can directly enforce Goonda Act or Gangster Act against criminals ➤ All powers to initiate action under Immoral Traffic (Prevention) Act, 1956 will be under CP ➤ CP can direct to neutralise an animal if, in his opinion, it would be cruel to keep the animal alive, under Prevention of Cruelty to Animals Act, 1960 ➤ Power to regulate manufacture and issue licences for explosives also with CP 	 <ul style="list-style-type: none"> ➤ CP can slap penalty if prohibited items are taken into prison or rules for communication with prisoners are violated ➤ Under Act for prevention against and safety from fire, CP can issue penalty to violators, award compensation and introduce safety measures in buildings ➤ CP can take action against suspected foreigners staying in hotels, their departure or documents with them under Foreigners Act, 1946

Statement 3 is incorrect: Almost all states barring Bihar, Madhya Pradesh, UT of J&K, and some Northeastern states have a Commissionerate system. The British brought the system first in Kolkata and followed it in Mumbai and Chennai presidencies. Delhi turned into a Commissionerate during the Morarji Desai regime.

Source : <https://indianexpress.com/article/explained/explained-what-is-the-commissionerate-system-recently-implemented-in-lucknow-noida-6214871/>
<https://indianexpress.com/article/cities/lucknow/police-commissionerate-system-in-agra-ghaziabad-prayagraj-8290497/>

Q.6) Consider the following statements regarding “Indicative Planning”:

1. It recognises consumers’ sovereignty and producers’ freedom while achieving the targets.
2. In indicative planning, the State plays a marginal role in the economy.
3. Third Five Year Plan in India denotes India’s transition towards indicative planning.

Which of the statements given above is/are correct?

- a) 2 only
- b) 1 and 2 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

Statement 1 is correct: Indicative planning or planning by inducement is found in capitalist countries as well as in mixed economies, like India. The essence of indicative planning is that it **recognises not only consumers’ sovereignty but also producers’ freedom** so that the targets and priorities of the plans are achieved. It thus involves a middle path of planning mechanism and market mechanism—a kind of coordination between private and public activities.

Statement 2 is the correct: After the revival of the role and the need of market in promoting growth and development via the Washington Consensus (1985), the World Trade Organisation (1995) and the Santiago/New Consensus (1998) only indicative planning has remained possible in which the state plays

only a marginal role in the economy, especially in the areas of social importance (i.e., nutrition, healthcare, drinking water, education, social security, etc.).

Statement 3 is incorrect: India's Eighth Plan mentioned that planning would have to **be reoriented so as to make it indicative**. Eighth Plan was unique in the sense that it attempted to manage the transition from a centrally planned economy to a market-oriented economy without tearing down the socio-cultural framework of the country.

Indian Economy by Ramesh Singh, 12th Edition

Q.7) Regarding the Annual Plans adopted in India, which of following statements is **incorrect**?

- India resorted to annual planning just twice in the history of economic planning after independence.
- The annual plans were called Plan Holidays during 1966 to 1969.
- The highest allocation during annual plans of 1966-1969 was made to industry and minerals.
- The annual plans of 1990-1992 was due to balance of payment crisis.

Ans) a

Exp) Option a is the correct answer.

The Planning Commission was set up to prepare five-year plans which would indicate directions in which the Indian economy should move.

Option a is incorrect: India **resorted to annual planning thrice** in the history of economic planning:

- The first set of annual plans were announced for the period **1966-1969**. This was due to the **failure of the third five-year plans as well as the weak financial situation**.
- The Janata Government ended the fifth five-year plan one year earlier to its term i.e., only within four years span (1974-78) and introduced a new plan since April 1, 1978. This plan was named as the Rolling plan. **Rolling plan period was 1978-1980**. In the first phase of this rolling plan, the sixth plan was initially started for 5 years (1978-83). However, in 1980, the sixth plan (rolling plan) prepared by the Janata Government was abandoned by the congress Government and a new sixth plan was introduced for the period 1980-85.
- Later, annual plans were introduced between 1990 and 1992 due** political instability and balance of payment crisis.

Option b is correct: Due to the failure of the previous plan, the government announced three annual plans called Plan Holidays from 1966 to 1969. The main reason behind the plan holidays was the Indo-Pakistani war and the Sino-India war, leading to the failure of the third Five Year Plan.

Option c is correct: Almost **one-fourth (23%)** of the total resources during the annual plans of 1966-69 **went to industry and minerals**; 18% went to transport, communication and power sectors while **17% was allocated to agriculture and allied sectors**.

Option d is correct: The annual plans for the period between 1990 and 1992 was due to **severe balance of crisis**, which was **intensified by the Gulf war in 1990**. The fiscal deficit was widened and the related rise in money growth was contributing to a **rise in inflation and exerting pressure on the balance of payments (BoP)**. There was an **increase in external commercial borrowings** during 1988-90. India was thus faced with large internal and external financial imbalances and was vulnerable to adverse external shocks around 1990.

Q.8) Consider the following statements about International Bank of Reconstruction and Development (IBRD):

1. It was an outcome of the 1944 United Nations Monetary and Financial Conference.
2. It provides loans to middle-income developing countries and creditworthy lower-income countries.
3. The IBRD finances investments but does not provide technical assistance and expertise for a project.

Which of the statements given above is/are correct?

- a) 1 and 3 only
- b) 2 and 3 only
- c) 1 and 2 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

The **International Bank for Reconstruction and Development (IBRD)** is an international financial institution established in 1944 and headquartered in Washington, D.C., United States, that is the lending arm of World Bank Group.

Statement 1 is correct. The Bretton Woods Conference, officially known as the United Nations Monetary and Financial Conference, was a gathering of delegates from 44 nations that met from July 1 to 22, 1944 in Bretton Woods, New Hampshire, to agree upon a series of new rules for the post-WWII international monetary system. The two major accomplishments of the conference were the creation of the International Monetary Fund (**IMF**) and the International Bank for Reconstruction and Development (**IBRD**).

Statement 2 is correct. The IBRD was founded in 1944 with the goal of helping war-torn European countries rebuild their infrastructure and their economies. Today, the IBRD provides loans at market rates of interest to **middle-income developing countries and creditworthy lower-income countries**.

Statement 3 is incorrect. The IBRD provides financial services as well as strategic coordination and information services to its borrowing member countries along with the **technical know-how**.

Source: <https://www.worldbank.org>

<https://2001-2009.state.gov/r/pa/ho/time/wwii/98681.htm>

Q.9) Consider the following statements regarding Producer Price Index (PPI):

1. PPI measures the average change in prices received by the producer excluding indirect taxes.
2. The PPI does not include the price of imported goods.
3. Both goods as well as services are covered under PPI.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

Statement 1 is correct: PPI measures the average change in prices received by the producer and excludes indirect taxes. The prices included in the PPI are from the first commercial transaction for many products and some services.

Statement 2 is correct: Both PPI and CPI are important economic measures because they point to monthly changes in prices. But they reflect prices from different standpoints. As noted above, the Producer Price Index measures prices based on the first commercial transaction for a product or service. This is in contrast to the consumer price index (CPI), which measures price changes encountered by the consumer. **Another**

key distinction is that the PPI does not include the price of imported goods, unlike the CPI. Conversely, the PPI includes export prices while the CPI does not.

Statement 3 is correct: The **Producer Price Index (PPI)** measures the average change in sale prices for the entire domestic market of raw **goods and services**. These goods and services are bought by consumers from their primary producers, bought indirectly from retail sellers, or purchased by producers themselves.

Source: <https://www.investopedia.com/terms/p/ppi.asp#toc-producer-price-index-ppi-vs-consumer-price-index-cpi>

Q.10) The Black Sea, also known as the Euxine Sea, is one of the major water bodies and a famous inland sea in the world located between Eastern Europe and Western Asia. Which among the following countries share a border with the Black Sea?

1. Georgia
2. Turkey
3. Moldova
4. Romania
5. Bulgaria

Select the correct answer using the codes given below:

- a) 1, 2 and 4 only
- b) 2, 3 and 5 only
- c) 1, 2, 4 and 5 only
- d) 1, 2, 3, 4 and 5

Ans) c

Exp) Option c is the correct answer.

Spread across an area of 436,400 km², the Black Sea is located in Eurasia, surrounded by Europe, Caucasus and Anatolia. **The countries that share a border with the Black Sea include**

- 1) **Georgia (Statement 1 is correct)**
- 2) **Turkey (Statement 2 is correct)**
- 3) **Romania (Statement 4 is correct)**
- 4) **Bulgaria (Statement 5 is correct)**
- 5) **Ukraine**
- 6) **Russia**

Statement 4 is incorrect: Moldova is also an east European country but does not share border with Black Sea. Moldova is bounded by Ukraine to the north, east, and south and by Romania to the west.

Knowledge Base: The Black Sea connects with the Mediterranean Sea through the Bosphorus Strait and then through the Sea of Marmara and the Dardanelles Strait. The Black Sea links with the Aegean Sea and the Sea of Crete before meeting the Mediterranean.

Source : <https://www.britannica.com/place/Black-Sea>

<https://www.britannica.com/place/Moldova>

Q.11) Which of the following were the key features of the Mahalanobis Model of the Indian Economy?

1. Rapid industrialisation with a focus on heavy industries and capital goods.
2. Launch of price wage policy to check the menace of inflation on the wage-earners.
3. Focus on poverty reduction through Integrated Rural Development Program (IRDP).

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) a

Exp) Option a is the correct answer.

Statement 1 is correct: The second five-year plan was to set India on the path of industrialisation. P.C. Mahalanobis was the moving spirit behind the second five-year plan. For the Second Five Year Plan, the plan period was 1956–61. The strategy of growth laid emphasis on **rapid industrialisation with a focus on heavy industries and capital goods**. The plan was developed by Professor Mahalanobis. Due to the assumption of a closed economy, shortages of food and capital were felt during this Plan.

Statement 2 is incorrect: The Mahalanobis model did not focus on price wage policy to check the menace of inflation on the wage-earners. This plan period also saw a lack of investment in agriculture and a period marked by food shortages and drought leading to inflation.

Statement 3 is incorrect: The Sixth Five Year Plan (1980–85) was launched with the slogan of ‘Garibi Hatao’ (alleviate poverty). The plan gave emphasis on socio-economic infrastructure in the rural areas; **eliminating rural poverty and regional disparities (through the IRDP)**; commencing ‘target group’ approach together with launching a number of national level programmes and schemes aimed at specific concerns and areas of development (‘target group’ approach).

The Integrated Rural Development Program (IRDP) was launched by the Government of India during 1978 and implemented during 1980.

Source: Indian Economy by Ramesh Singh, 12th Edition

Q.12) With reference to the World Bank & International Monetary Fund (IMF), consider the following statements:

1. While IMF aims at the expansion of international trade, the aim of World Bank is to reduce global poverty.
2. It is mandatory to be a member of World Bank to become eligible for loans by IMF.
3. While IMF lends to both member countries and private sector, World Bank only lends to the member countries.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

The International Monetary Fund (IMF) oversees the stability of the world's monetary system, while the World Bank aims to reduce poverty by offering assistance to middle-income and low-income countries.

Statement 1 is correct. The **International Monetary Fund (IMF)** primarily aims to ensure the stability of the international monetary system—the system of exchange rates and international payments that enables countries and their citizens to transact with each other. It aims to **facilitate the expansion and balanced growth of international trade**. On the contrary, the **World Bank Group primarily aims at reducing poverty**, increasing shared prosperity, and promoting sustainable development. It provides financing, policy advice, and technical assistance to governments, and also focuses on strengthening the private sector in developing countries.

Statement 2 is incorrect. To become a member of the World Bank, under the International Bank for Reconstruction and Development (IBRD) Articles of Agreement, a **country must first join the International Monetary Fund (IMF) and not vice-versa**.

Statement 3 is incorrect. IMF loans are meant to **help only member countries** tackle balance of- payments problems, stabilize their economies, and restore sustainable economic growth. On the contrary, the **International Finance Corporation (IFC) of the World Banks lends to the private sector** while Multilateral Investment Guarantee Agency (MIGA) encourages private companies to invest in foreign countries.

Knowledge Base: Resources for IMF loans to its members on non-concessional terms are provided by member countries, primarily through **their payment of quotas**. Multilateral (New Arrangements to Borrow) and bilateral borrowing agreements serve as a second and third line of defence, respectively, by providing a temporary supplement to quota resources.

On the other hand, the World Bank's financial reserves come from several sources - from **funds raised in the financial markets, from earnings on its investments, from fees paid in by member countries**, from contributions made by members (particularly the wealthier ones) and from borrowing countries themselves when they pay back their loans.

Q.13) Consider the following statements regarding provisions under the Industrial Policy Resolution, 1948:

1. It provided for mixed economy as the model of Indian economic system.
2. It provided for the creation of District Industries Centers (DICs) to promote the expansion of small and cottage industries.
3. It gave permission to the multinational corporations (MNCs) to set up subsidiaries in the country.

Which of the statements given above is/are correct?

- a) 1 only
- b) 1 and 2 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) a

Exp) Option a is the correct answer.

Statement 1 is correct: Industrial Policy Resolution, 1948 was the first industrial policy statement of India. It decided the model of the economic system (i.e., the mixed economy).

The major highlights of the policy are given below:

- 1) India will be a mixed economy.
- 2) Some of the important industries were put under the Central List such as coal, power, railways, civil aviation, arms and ammunition, defense, etc.
- 3) Some other industries (usually of medium category) were put under a State List such as paper, medicines, textiles, cycles, rickshaws, two-wheelers, etc.
- 4) Rest of the industries (not covered by either the central or the state lists) were left open.
- 5) for private sector investment—with many of them having the provision of compulsory licensing.
- 6) There was a 10-year period for review of the policy.

Statement 2 is incorrect: Decentralized industrialization was given attention under Industrial Policy Statement, 1977 with the objective of linking the masses to the process of industrialization. The District Industries Centers (DICs) were set to promote the expansion of small and cottage industries at a mass scale under this policy.

Statement 3 is incorrect: Under the Industrial Policy Statement, 1973, limited permission for foreign investment was given. Also, the **multinational corporations (MNCs) were allowed to set up subsidiaries in the country.**

Source: Indian Economy by Ramesh Singh, 12th Edition

Q.14) Which of the following were the possible reasons for India to opt for economic planning after the independence?

- 1. Market mechanism alone would not have been effective at the time to bring India out of low-level equilibrium trap.
- 2. There was lack of incentive for private sector to operate in social sector.
- 3. Economic planning in India was inspired by the success of planning and socialism in the Soviet Union.

Select the correct answer using the code given below:

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

When India won independence in 1947, it was very backward economically, and the general consensus was that the planning was required for the economic development of the country.

Option d is correct: India opted for planning at the time of independence because of the following reasons:

- 1) Indian leaders were **inspired by the success of socialism in the Soviet Union.**
- 2) Relying entirely on market mechanism, India would not be able to come out of low-level equilibrium trap that it had fallen into.

- 3) Indian planners were also aware of the **dearth of the private capital** at the time of independence.
- 4) There was **lack of resources and incentive for private sector to operate in the social sector** where profit making was the main objective.
- 5) Planning was advocated to achieve social justice – reduction in poverty, tackling unemployment problem, reducing inequality etc.
- 6) Planning was needed to mobilise resources and its allocation to be done in the context of the overall development of the country.

Q.15) Consider the following statements regarding African Union (AU):

1. It is an intergovernmental organization comprising all the African Countries except Burundi.
2. It promotes participation of African citizens and civil society in decision making through the Economic, Social & Cultural Council (ECOSOCC).
3. India is implementing the Pan-African e-Network Project in conjunction with the AU.

Which of the statement(s) given above is/are correct?

- a) 1 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

The African Union (AU) is a continental body consisting of the 55 member states that make up the countries of the African Continent. It was officially launched in 2002 as a successor to the Organization of African Unity.

Statement 1 is incorrect: The AU is made up of 55 Member States which represent all the countries on the African continent. Burundi is also a member of the African Union.

AU Member States are divided into five geographic regions i.e., Central Africa, Eastern Africa, Northern Africa, Southern Africa and Western Africa.

Statement 2 is correct: The work of the AU is implemented through several principal decision-making organs: - The Assembly of Heads of State and Government, the Executive Council, the Permanent Representatives Committee (PRC), Specialized Technical Committees (STCs), the Peace and Security Council and The African Union Commission.

The AU structure promotes participation of African citizens and civil society through the Pan-African Parliament and the Economic, Social & Cultural Council (ECOSOCC).

Statement 3 is correct: The proposal for establishing the Pan-African e-Network Project was made by the then President of India at the Pan-African Parliament in 2004 and **is being implemented in conjunction with the African Union.**

Q.16) Consider the following statements regarding Stagflation:

1. It denotes a price rise of a small group of commodities over a sustained period of time.
2. It results in high inflation and unemployment levels in the economy.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) b

Exp) Option b is the correct answer.

Statement 1 is incorrect: Stagflation is a situation in an economy **when inflation and unemployment both are at higher levels**, contrary to conventional belief.

Whereas **Skewflation is a phenomenon in which there is a price rise of one or a small group of commodities** over a sustained period of time, without a traditional designation.

Statement 2 is correct: Stagflation is an economic cycle characterized by slow growth and a **high unemployment rate accompanied by inflation**. Economic policymakers find this combination particularly difficult to handle, as attempting to correct one of the factors can exacerbate another.

Source:

<https://www.thehindu.com/business/Economy/stagflation/article65422902.ece#:~:text=The%20idea%20of%20stagflation%20is,is%20low%2C%20inflation%20is%20high.>

Q.17) Consider the following statements:

1. Indian economy has become the 5th largest in the world in terms of nominal GDP.
2. Per capita income of Indians has more than tripled in the last five years.
3. India becomes 4th largest country in the world in terms of Renewable Energy installed capacity.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

In the 75th year of India's Independence, the World has recognized the Indian Economy as a 'bright star' as the Economic Growth is estimated at 7 per cent, which is the highest among all major economies, in spite of the massive global slowdown caused by COVID-19 and Russia-Ukraine War.

Union Finance Minister in her recent budget speech has highlight some of the key achievements of India in the last 9 years. Few important achievements are discussed below:

Statement 1 is correct: In the last nine 9 years, the Indian economy has increased in size from being 10th to **5th largest in the world**. Moreover, the economy has become a lot more formalized as reflected in the EPFO membership, more than doubling to 27 crore, and 7,400 crore digital payments of Rs 126 lakh crore through UPI in 2022.

Statement 2 is incorrect. Since 2014, the per capita income has **more than doubled to Rs 1.97 lakh.**

Statement 3 is correct: India stands **4th globally in Renewable Energy Installed Capacity** (including Large Hydro), 4th in Wind Power capacity & 4th in Solar Power capacity (as per REN21 Renewables 2022 Global Status Report). A total of 14.21 GW of Renewable Energy (RE) capacity was added, during the period Jan to Oct. 2022 as compared to capacity of 11.9 GW added during the period Jan to Oct. 2021.

Source: <https://pib.gov.in/PressReleasePage.aspx?PRID=1895320>

<https://pib.gov.in/PressReleasePage.aspx?PRID=1885147#:~:text=408.71%20GW%20as%20on%2031.10,Renewables%202022%20Global%20Status%20Report>

Q.18) With reference to Galloping Inflation, consider the following statements:

1. During galloping inflation, people try to get rid of currency by buying physical assets.
2. During galloping inflation, exporters will be much less motivated to export their products.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) a

Exp) Option a is the correct answer.

Galloping inflation refers to a condition when the inflation rate is extraordinarily high. In this scenario, the currency of the country will lose value. The salaries and income of common people will not be able to keep up with the ever-increasing prices of commodities. This will lead to the general instability of the economy and the country as a whole. Inflation in the double- or triple-digit range of 20, 100 or 200 percent a year is called galloping inflation.

Statement 1 is correct: As galloping inflation results in rapid decrease in the money value of local currency, people in order to preserve its real value tend to get rid of currency by purchasing precious metals, Land etc.

Statement 2 is incorrect: Exporters benefit during galloping inflation, as the local currency depreciates, making exports less expensive relative to overseas competitors. Exporters also receive hard foreign currency, which appreciates in value as the local currency depreciates. This can be a motivating factor for them to export their products.

Source :

https://www.indiaonline.com/article/news-top-story/what-are-the-different-types-of-inflation-113101402959_1.html https://insights.masterworks.com/finance/investing-strategies/who-benefits-from-inflation/#Who_Can_Benefit_From_Inflation_7_Biggest_Inflation_Winners

Q.19) With reference to the Agriculture Accelerator Fund, consider the following statements:

1. It will encourage young entrepreneurs in rural areas to set up Agri-startups.
2. It aims to open Model agricultural colleges throughout the country.
3. It mainly focuses on increasing the production of millets.

Which of the statements given above is/are correct?

- a) 1 only
- b) 1 and 3 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) a

Exp) option a is the correct answer.

Finance Minister Nirmala Sitharaman has announced the creation of an Agriculture Accelerator Fund in the latest budget. This fund would seek to fast-track agricultural entrepreneurial activity in a country where a little less than half the workforce is employed in agriculture which brings in about 18 per cent of GDP (gross domestic product).

Statement 1 is correct. The Agriculture Accelerator Fund will be set up to encourage Agri-startups by young entrepreneurs in rural areas. The Fund will aim at bringing innovative and affordable solutions for challenges faced by farmers and will also bring in modern technologies to transform agricultural practices, increase productivity and profitability, she added.

Statement 2 is incorrect. It does not aim to open new agricultural colleges throughout the country. Instead, the main aim of the fund is to provide innovative and affordable solutions in agricultural technological startups. These startups are using innovative technologies, financial services, and improved supply chain systems to improve the efficiency and profitability of Indian agriculture.

Statement 3 is incorrect. It does not mainly focus on millets. It focuses on agricultural startups which in turn aim to focus on cost effective solutions in agricultural fields. One of the primary objectives of these startups is to increase the productivity and efficiency of Indian agriculture.

Source: <https://www.investindia.gov.in/team-india-blogs/budget-2023-why-agriculture-accelerator-fund-good-idea>

Q.20) Recently, the term 'friendshoring, was seen in the news. Which among the following options best describe its meaning?

- a) Relocating business operations to countries with low risk of disruption from political chaos.
- b) Relocating a sport even to a nearby country in the hope of higher viewership.
- c) Transfer of income to another country in order to avoid taxation.
- d) Storing of data inside the boundaries of country where the data is generated

Ans) a

Exp) Option a is the correct answer.

Option a is correct: The term friend shoring has arrived out of recent economic crises and strains on global supply chains caused by various shocks to the global economy. These include the COVID-19 pandemic and Russia's invasion of Ukraine. Essentially friendshoring refers to the rerouting of supply chains to countries perceived as politically and economically safe or low risk, to avoid disruption to the flow of business.

Source: <https://www.weforum.org/agenda/2023/02/friendshoring-global-trade-buzzwords/#:~:text=Essentially%20friendshoring%20refers%20to%20the,to%20the%20flow%20of%20business.>

<https://indianexpress.com/article/explained/explained-economics/what-is-friendshoring-8277847/>

Q.21) Which among the following options correctly describes the term 'Inflationary Gap'?

- The difference between the current real GDP and the GDP of an economy operating at full employment.
- An economic cycle characterized by slow growth and a high unemployment rate accompanied by inflation.
- Measure of the changes in prices for all the goods and services produced in an economy.
- The overall change in consumer prices over time, based upon a representative basket of goods and services.

Ans) a

Exp) Option a is the correct answer.

Option a is correct: An inflationary gap measures the difference between the current real GDP and the GDP of an economy operating at full employment. An inflationary gap exists when the demand for goods and services exceeds production due to higher levels of employment, increased trade activities, or elevated government expenditure. The real GDP can exceed the potential GDP, resulting in an inflationary gap. The inflationary gap represents the point in the business cycle when the economy expands as consumers purchase more goods and services. As demand increases but production lags, prices rise to restore market equilibrium.

Option b is incorrect: Stagflation is an economic cycle characterized by **slow growth and a high unemployment rate** accompanied by inflation. Economic policymakers find this combination particularly difficult to handle, as attempting to correct one of the factors can exacerbate another.

Option c is incorrect: The GDP (gross domestic product) price deflator, also known as the **GDP deflator** or the implicit price deflator, **measures the changes in prices for all the goods and services produced in an economy.** Using the GDP price deflator helps economists compare the levels of real economic activity from one year to another.

Option d is incorrect: The **Consumer Price Index** measures the overall **change in consumer prices based on a representative basket of goods and services over time.** The CPI is the most widely used measure of inflation, closely followed by policymakers, financial markets, businesses, and consumers.

Q.22) Consider the following statements with reference to the New Development Bank (NDB):

- Only BRICS countries can be members of the New Development Bank.
- It does not provide funds for projects in the private sector.

3. Recently, the NDB announced to set up its regional office in GIFT city (Gujarat), India.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 1 and 3 only
- c) 3 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

On 15 July 2014, the first day of the 6th BRICS Summit held in Fortaleza, Brazil, the BRICS states signed the Agreement on the New Development Bank, which makes provisions for the legal basis of the bank.

Statement 1 is incorrect. New development Bank is a multilateral development bank operated by BRICS countries (Brazil, Russia, India, China and South Africa). Apart from the BRICS countries its agreement specifies that all members of the United Nations could be members of the bank, however the share of the BRICS nations can never be less than 55% of voting power. In September 2021, Bangladesh, the United Arab Emirates and Uruguay joined the NDB.

In December 2021, the NDB admitted Egypt as a new member.

Statement 2 is incorrect. NDB, prioritise infrastructure and sustainable development projects that propel economic growth and improve the lives of people in member countries. To fulfil its purpose, NDB support projects in **both public and private sectors** through loans, equity investments, and other tailored instruments.

Statement 3 is correct. NDB, the Shanghai-based multilateral bank of the BRICS countries, will open its first regional office in India at the Gujarat International Finance Tec-City (GIFT City) to cater to infrastructure and sustainable development needs of the country.

Knowledge Base:

Objectives of NDB

The bank aims to contribute to the development plans established nationally through projects that are socially, environmentally and economically sustainable. Taking this into account, the main objectives of the NDB can be summarized as follows

- 1) Promote infrastructure and sustainable development projects with a significant development impact in member countries.
- 2) Establish an extensive network of global partnerships with other multilateral development institutions and national development banks.
- 3) Build a balanced project portfolio giving a proper respect to their geographic location, financing requirements and other factors.

Q.23) Consider the following statements with respect to the impact of inflation:

1. Increase in inflation can lead to depreciation in the value of Indian rupee.
2. Rise in inflation rate will likely increase borrowing costs for businesses.
3. A decline in inflation leads to an increase in the savings rate.
4. Inflation may lead to a significant decrease in value of assets with adjustable cash flows.

Which of the statements given above are correct?

- a) 2 and 3 only
- b) 1, 3 and 4 only
- c) 1, 2 and 3 only
- d) 2 and 4 only

Ans) c

Exp) Option c is the correct answer.

Inflation is the steady rise of prices for goods and services over a period.

Statement 1 is correct: Inflation is one of the most important factors that affect the exchange rate.

Example: Suppose the exchange rate was exactly 1 in the first year. This means that with Rs 100, one could buy something that was priced at \$100 in the US. But suppose the Indian inflation is 20% and the US inflation is zero. Then, in the second year, an Indian would need Rs 120 to buy the same item priced at \$100, and the rupee's exchange rate would depreciate to 1.20. Thus, it would **lead to the depreciation of Indian rupee.**

Statement 2 is correct: High inflation may lead to **higher borrowing costs for businesses and people** needing loans and mortgages. Financial markets protect themselves against rising prices and increase the cost of borrowing **on short and longer-term debt.** If the cost of borrowing money rises, consumers and businesses have less money to spend. As demand falls, economic growth slows down.

Statement 3 is correct: Every rise in prices is affecting your cost of living, leaving a dent in your savings and investments. The reason is, with the rise in inflation, the **amount of saving or investment from income every month may not rise** at the same rate. Therefore, the rise in price puts extra pressure on your savings and investments. Similarly, decline in inflation rate leads to increase in savings rate as **relatively less amount will be spent on consumption.**

Statement 4 is incorrect: Assets with fixed, long-term cash flows tend to perform poorly when inflation is rising, since the purchasing power of those future cash flows falls over time. Conversely, commodities and **assets with adjustable cash flows (e.g., property rental income) tend to perform better with rising inflation.**

Source: <https://indianexpress.com/article/explained/how-covid-19-is-hurting-the-rupees-exchange-rate-with-other-currencies-6371536/>

<https://www.investopedia.com/articles/insights/122016/9-common-effects-inflation.asp>

Q.24) Consider the following statements regarding the 12th Ministerial Conference of the World Trade Organization (WTO):

1. An agreement on curtailing harmful fishing subsidies was agreed.
2. An agreement to temporarily waive Intellectual Property Patents on Covid-19 Vaccines could not be reached.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) a

Exp) Option a is the correct answer.

The Ministerial Conference is **the highest decision-making body of the WTO.** It is attended by trade ministers and other senior officials from the organization's 164 members. Under the Marrakesh Agreement establishing the WTO, the conference is held once every two years. At the 12th Ministerial Conference

(MC12) in June 2022, WTO members secured multilaterally negotiated outcomes on a series of key trade initiatives – the so-called Geneva Package – comprising ten agreements, declarations and decisions.

Statement 1 is correct. There is an agreement agreed on curtailing Harmful Fishing Subsidies on illegal, unreported and unregulated fishing for the next 4 years in order to protect global fish stocks.

India and other developing countries were able to win some concessions in this agreement. This would assist small scale fisherman and traditional farmers would not face any restrictions under this agreement.

Statement 2 is incorrect. The WTO members **agreed to temporarily waive Intellectual Property Patent on Covid-19 vaccine**, so that they can be more easily manufactured domestically. Members adopted a Ministerial Declaration on the WTO response to the current and future pandemics. This includes a waiver of certain requirements under the Agreement on Trade-Related Aspects of Intellectual Property Rights (TRIPS) concerning the use of compulsory licenses to produce COVID-19 vaccines.

Q.25) Which of the following options best describes the term ‘Gram Manchitra’, recently seen in news?

- It is a national map, showing the geographical locations of all the gram panchayats of the country on a single platform.
- It is a geo spatial based app used to develop and monitor developmental activities on real time basis for Panchayats.
- It is a satellite-based app for monitoring green cover in gram panchayats.
- It is a geo tagging technique for marking villages in gram panchayats.

Ans) b

Exp) Option b is the correct answer.

Union minister for Panchayati Raj has launched spatial planning application by the name “Gram Manchitra”. The Gram Manchitra is a Geo spatial based decision support system for the Panchayats and this app helps them to plan, develop and monitor developmental activities on real time basis. Gram Manchitra is developed by the National Informatics Centre (NIC). The application based on NIC’s Multilayer GIS platform Bharatmaps, is a Geo Spatial based decision support system for the panchayats.

Knowledge Base:

GRAM MANCHITRA OBJECTIVES:

- Objectivity to the process of planning as a Decision support system for GPDP.
- Integrating inter-ministerial spatial and non-spatial data spanning 29 sector.
- Enable prioritization of activities based on available resources.
- ‘Real time’ monitoring of activities/ development work.

De-duplication of asset-based activities across schemes and programmes.

Source: https://www.panchayat.gov.in/documents/448457/0/01_GramManchitra_v2.1.pdf/20b2f1b0-977c-1012-c284-037fc7be6183?t=1650449272369

Q.26) With reference to the Network for Greening the Financial System, consider the following statements:

- It is a group of central banks that aims to mobilize capital for low-carbon investments.
- The Reserve Bank of India has joined it as a member.

Which of the statements given above is/are correct?

- 1 only
- 2 only
- Both 1 and 2
- Neither 1 nor 2

Ans) c

Exp) Option c is the correct answer.

The Reserve Bank of India (RBI) has joined the Central Banks and Supervisors Network for Greening the Financial System (NGFS) as a member in 2021. Network for Greening the Financial System (NGFS) was launched at the Paris One Planet Summit in December 2017.

Statement 1 is correct: It is a **group of Central banks** and financial supervisors. The Network's purpose is to help strengthen the global response required to **meet the goals of the Paris agreement** and to enhance the **role of the financial system** to manage risks and to mobilize capital for **green and low-carbon investments**. The Network defines and promotes **best practices** to be implemented within and outside of the Membership of the NGFS and conducts or commissions analytical work on green finance.

It is located at the Bank of France headquartered in Paris.

The NGFS consists of 108 members and 17 observers.

Statement 2 is correct: **Reserve Bank of India (RBI)** has joined the Network for Greening the Financial System (NGFS) as a **member**. As Green Finance has assumed significance in the context of climate change, the RBI expects to benefit from the membership of NGFS by learning and contributing to global efforts on Green Finance.

Source: https://www.rbi.org.in/Scripts/BS_PressReleaseDisplay.aspx?prid=51496

<https://www.ngfs.net/en/about-us/membership>

<https://www.ngfs.net/en/about-us/governance/origin-and-purpose>

Q.27) With reference to the Organization for Economic Cooperation and Development (OECD), consider the following statements:

1. India is one of the founding members of the OECD.
2. 'World Employment and Social outlook' is a report published by the OECD.
3. The OECD's Base Erosion and Profit Shifting (BEPS) framework seeks to reform international tax rules to avoid tax evasion.

Which of the above statements is/are correct?

- a) 2 and 3 only
- b) 1 and 3 only
- c) 3 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

The Organization for Economic Co-operation and Development (OECD) is an international organization that works to build better policies for better lives. Its goal is to shape policies that foster prosperity, equality, opportunity and well-being for all.

Statement 1 is incorrect. The OECD was the result of the Rome treaties of 1957. It was in September 1961 when the final existence of OECD came into picture. India is neither a founding member of the OECD nor is the permanent member of OECD.

Statement 2 is incorrect. World Employment and Social outlook' is a report published by the International Labour Organization (ILO).

Statement 3 is correct. **Base erosion and profit shifting (BEPS)** refers to tax planning strategies used by multinational enterprises that exploit gaps and mismatches in tax rules to avoid paying tax. Working together in the OECD/G20 Inclusive Framework on BEPS, **over 135 countries and jurisdictions are implementing 15 Actions** to tackle tax avoidance, improve the coherence of international tax rules, ensure a more transparent tax environment and address the tax challenges arising from the digitalization of the economy.

Knowledge Base:

- 1) The Organisation for Economic Co-operation and Development (OECD) was founded in 1948 as the Organisation for European Economic Co-operation (OEEC).
- 2) The Organisation for European Economic Co-operation (OEEC) was established to oversee the Marshall Plan for postwar reconstruction on the continent, which was mostly sponsored by the United States.
- 3) When the United States and Canada joined in 1961, the OEEC was renamed the OECD to reflect a larger membership.

India and OECD.

Q.28) Consider the following statements regarding the National Digital Library of India:

1. It is initiated under the National Mission on Education through Information and Communication Technology.
2. Budget 2023-24 has proposed to start a National Digital Library for children and adolescents.
3. Its objective is to integrate all the existing digitized and digital contents across educational institutions of the nation.

Which of the statements given above is/are correct?

- a) 2 only
- b) 1 and 3 only
- c) 1 and 2 only
- d) 1, 2 and 3

Ans) d

Exp) option d is the correct answer.

To make available to the learners community learning resources through a single-window, National Mission on Education through Information and Communication Technology (NMEICT) has sponsored the National Digital Library of India (NDLI) project and arranged funding through Ministry of Education.

Statements 1 and 3 are correct. MHRD, under its National Mission on Education through Information and Communication Technology, has entrusted IIT Kharagpur to host, coordinate and set-up the National Digital Library (NDL) towards building a national asset. The objective of the project is to integrate all the existing digitized and digital contents across educational institutions of the nation to provide a single-window access with e-learning facility to different groups of users ranging from primary level to higher education level of our country.

Statement 2 is correct. In Budget Speech 2023 the Finance Minister of India has announced setting up a National Digital Library for Children and adolescents which will provide educational resources in all languages and will help in developing financial literacy among students to make up for pandemic-time learning losses.

Source: <https://library.iitkgp.ac.in/node/NationalDigitalLibrary.html>

Q.29) Consider the following statements regarding the PM PVTG Development Mission:

1. It aims to provide the particularly vulnerable tribal groups (PVTGs) habitations with basic facilities such as safe housing, and clean drinking water.
2. PVTGs are the subgroups of the Tribal Communities, which are least developed among the tribal communities.

Which of the above given statements is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) c

Exp) Option c is the correct answer.

In 1973, the Dhebar Commission created Primitive Tribal Groups (PTGs) as a separate category, who are less developed among the tribal groups. In 2006, the Government of India renamed the PTGs as PVTGs i.e., Particularly Vulnerable Tribal Groups.

Statement 1 is correct. In Budget 2023 the finance minister announced PM PVTG development Mission and a fund of Rs 15000 Cr. was allocated for the mission. The allocated fund will be used to provide the facilities to the PVTGs like Sanitation, safe housing, access to health and education and connectivity etc.

Statement 2 is correct. In India, tribal population makes up for 8.6% of the total population.

PVTGs are more vulnerable among the tribal groups. Due to this factor, more developed and assertive tribal groups take a major chunk of the tribal development funds because of which PVTGs need more funds directed for their development.

[PRADHAN%20MANTRI%20PVTG%20DEVELOPMENT%20MISSION,15000%20CRORE](https://pib.gov.in/PressReleasePage.aspx?PRID=1895298#:~:text=PRADHAN%20MANTRI%20PVTG%20DEVELOPMENT%20MISSION,15000%20CRORE)

Q.30) Consider the following statements regarding India-UN Development Partnership Fund:

1. The fund is established as a dedicated facility under the United Nations Framework Convention on Climate Change.
2. The fund is created to provide support for achieving zero carbon emissions in developing countries by 2050.
3. The fund contributes to the financial resources as well as technical knowledge to support partner Governments in achieving the Sustainable Development Goals.

Which of the statements given above is/are correct?

- a) 3 only
- b) 1 and 2 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) a

Exp) Option a is the correct answer.

The India-UN Development Partnership Fund (India-UN Fund) was established in 2017. The Government of India has committed \$150 million over 10 years to the India-UN Fund, including \$50 million under a separate Commonwealth Window, \$14 million dedicated to countries of the Caribbean Community, and \$12 million for Pacific Island developing States.

Statement 1 is incorrect: The India-UN Fund is a notable example of South-South cooperation with the multilateral system. Sponsored by the Government of India and implemented through the United Nations system, with the United Nations Office for South-South Cooperation (UNOSSC) as the coordinating partner, the Fund supports projects that advance all Sustainable Development Goals (SDGs).

Statement 2 is incorrect: Guided by an ambitious agenda to promote multilateralism and shared prosperity in the global South, the India-UN Development Partnership Fund (India-UN Fund) contributes to the efforts of developing countries towards the realization of the 2030 Agenda for Sustainable Development. There is no such goal of achieving zero carbon emissions in developing countries by 2050.

Statement 3 is correct: The India-UN Fund responds directly to the national priorities and development objectives of partner countries, **contributing financial resources and technical knowledge to support partner Governments in achieving the SDGs.** Under the umbrella of the 2030 Agenda for Sustainable Development, the Fund responds to development partners' requests in areas of their choice.

Q.31) Consider the following statements regarding the Asian Development Bank (ADB):

1. It assists its members by providing loans, technical assistance, grants, and equity investments.
2. It is dedicated to reducing poverty in Asia and the Pacific through various programmes.
3. Non - Asian countries can't be the member of ADB.
4. India's shareholding in ADB is greater than that of China.

Which of the above given statements is/are correct?

- a) 1, 2 and 3 only
- b) 2, 3 and 4 only
- c) 1 and 2 only
- d) 1, 2, 3 and 4

Ans) c

Exp) Option c is the correct answer.

The Asian Development Bank is a regional development bank (ADB) established on 19th December 1966. It is headquartered in Manila, Philippines.

Statement 1 is correct. The Asian Development Bank (ADB) is committed to achieving a prosperous, inclusive, resilient, and sustainable Asia and the Pacific, while sustaining its efforts to eradicate extreme poverty. It assists its members and partners by providing loans, technical assistance, grants, and equity investments to promote social and economic development.

Statement 2 is correct. The ADB is dedicated to reducing poverty in Asia and the Pacific through inclusive economic growth, environmentally sustainable growth and regional integration.

Statement 3 is incorrect. Asian as well as non-Asian countries can be the member of ADB. From 31 members at its establishment in 1966, ADB has grown to encompass 68 members—of which 49 are from within Asia and the Pacific and 19 outside. The bank admits the members of United Nations Economic and Social Commission for Asia and the Pacific (UNESCAP) and non-regional developed countries.

Statement 4 is incorrect. Indian shareholding in ADB is less than China. ADB's five largest shareholders are Japan and the US (each with 15.6% of total shares), China 6.4 %, India 6.3%, and Australia 5.8%.

Q.32) With reference to differences between Disinflation and Deflation, consider the following statements:

1. Deflation means a fall in prices of commodities, while disinflation means a slowdown in the rate of inflation.
2. Deflation will always lead to a decrease in the value of money whereas disinflation will always lead to an increase in the value of money.
3. Compared to disinflation, deflation is good for the financial markets.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 and 3 only
- c) 1 and 2 only
- d) 1 and 3 only

Ans) a

Exp) Option a is the correct answer.

Deflation and disinflation refer to two very different conditions with respect to the direction and change of general price levels in the economy. Deflation refers to falling prices or in other words, the opposite of inflation (rising prices).

Disinflation does not refer to the direction of prices (as inflation and deflation do). It refers to the rate of change. It is a slowdown in the rate of inflation. For example, deflation would be an inflation rate of -1 percent, while disinflation would be a change in the inflation rate from 3 percent one year to 2 percent in the next.

Statement 1 is correct: Deflation means prices are falling and the inflation rate is in the negative, while disinflation means a slowdown in the rate of inflation while still remaining in the positive.

Disinflation occurs more commonly than deflation.

Statement 2 is incorrect: During times of **deflation**, since the money supply is tightened, there is an **increase in the value of money**, which increases the real value of debt. During disinflation the price of goods and services increase over time, effectively decreasing the number of goods and services one can buy with a rupee in the future as opposed to a rupee today. This effectively decreases the time value of money. **Since inflation is positive during disinflation, the value of money decreases.**

Statement 3 is incorrect: During disinflation Stocks can, and often do, perform well when the bonds are likely to deliver above-average returns in a disinflationary scenario since it makes central banks less likely to raise interest rates and more likely to reduce them. Whereas deflation is an extremely destructive condition for the economy and financial markets. During periods of deflation, stock prices are likely to perform poorly.

Source : <https://www.thebalancemoney.com/the-difference-between-deflation-and-disinflation-416888#:~:text=Deflation%20means%20prices%20are%20falling,occurs%20more%20commonly%20than%20deflation.>

Q.33) With reference to 'Unity Mall' mentioned in budget 2023-24, consider the following statements:

1. It will be set up in all the districts of India.
2. Unity Malls will be set up exclusively for the promotion and sale of products which have got a Geographical Indication tag.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) d

Exp) Option d is the correct answer.

Finance Minister Nirmala Sitharaman announced in the Budget that states would be encouraged to set up a "Unity Mall" in their capitals, their most prominent tourism centers, or their financial capitals.

Statement 1 is incorrect: States will be encouraged to set up a Unity Mall in their **state capital or most prominent tourism center or the financial capital**. At present it does not aim to set up such mall in all the districts of India.

Statement 2 is incorrect: Unity malls focus on the promotion and sale of the state's own **"ODOPs (one district, one product), GI products and other handicraft products, and for providing space for such products of all other States"**. So, it is not exclusively for GI products.

Knowledge Base:

What is ODOP? One District, One Product is an initiative by the government which aims to make regional products more accessible, while providing capital to those who produce them. Under the scheme, the State identifies the chief product for a district, and then offers support for its processing, storage and marketing.

What is GI? A **geographical Indication (GI) tag** is given to agricultural, natural or manufactured products that originate from a specific geographical area due to which they possess unique characteristics and qualities, according to the Agricultural and Processed Food Products Export Development Authority (APEDA). Essentially, the tag guarantees that the product is coming from that specific area. It's kind of a trademark in the international market.

Q.34) With reference to iGOT Karmayogi, consider the following statements:

1. It is a comprehensive online platform to guide individual civil service officials.
2. It is only for newly recruited civil servants.
3. Competency hub is one of the key hubs in the iGOT platform.

Which of the statements given above is/are correct?

- a) 2 and 3 only
- b) 1 and 3 only
- c) 1 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

Mission Karmayogi - National Programme for Civil Services Capacity Building has been envisioned by the Government to address the changing needs and aspiration of the citizen. The Programme has been designed to enhance the civil services under a national Programme, anchored by an apex body headed by the Prime Minister.

Statement 1 is correct: **iGOT Karmayogi platform** – a comprehensive online platform to guide individual civil service officials in their capacity building journey. It is not merely a learning platform; it is a solutioning space that combines five functional hubs for online learning, competency management, career management, discussions, and networking. This will enable officials to deliver more effectively, eventually enhancing government execution capabilities.

Statement 2 is incorrect: It is not only for newly recruited civil servants but **also for experienced civil servants**.

Statement 3 is correct: **Competency hub** is one of the key hubs in the iGOT platform detailing about the recommended competencies for your position and your acquired competencies thus giving information about your competency gap.

Q.35) Recently the Union Finance Minister approved the Sovereign Green Bonds Framework. In this context, which of the following statements are correct?

1. The Framework applies to all Sovereign Green Bonds issued by the Government of India.
2. Investors do not bear any project related risks in bonds issued under this Framework.
3. Expenditure related to Nuclear Power Generation projects is eligible for using the proceeds raised from Sovereign Green Bonds.
4. The Green Financing Working Committee (GFWC) is the body constituted to validate key decisions on issuance of Sovereign Green Bonds.

Select the correct answer using the code given below:

- a) 1 and 4 only
- b) 1 and 3 only
- c) 1, 2 and 4 only
- d) 1, 2, 3 and 4

Ans) c

Exp) Option c is the correct answer.

Green bonds are bonds issued by any Sovereign entity, inter-governmental groups or alliances and corporates with the aim that the proceeds of the bonds are utilised for projects classified as environmentally sustainable. In keeping with the ambition to significantly reduce the carbon intensity of the economy, the Union Budget 2022-23 announced the issue of Sovereign Green Bonds

Statement 1 is correct. This Green Bond Framework (Framework) sets forth the obligations of the Government of India as a Green Bond issuer. The Framework applies to all sovereign Green Bonds issued by the Government of India.

Statement 2 is correct. Payments of principal and interest on the issuances under this Framework are not conditional on the performance of the eligible projects. Investors in bonds issued under this Framework do not bear any project related risks.

Statement 3 is incorrect Government of India will use the proceeds raised from Sovereign Green Bonds (SGrB) to finance and/or refinance expenditure (in parts or whole) for eligible green projects. Certain projects are excluded from getting the proceeds raised from SGrB. They are-Projects involving new or existing extraction, production and distribution of fossil fuels, including improvements and upgrades; or where the core energy source is fossil-fuel based • **Nuclear power generation** • Direct waste incineration • Alcohol, weapons, tobacco, gaming, or palm oil industries • Renewable energy projects generating energy from biomass using feedstock originating from protected areas • Landfill projects • Hydropower plants larger than 25 MW. Expenditures directly related to fossil fuel are excluded.

Statement 4 is correct. GFWC has been established with clear lines of authority to oversee and validate key decisions on issuance of Sovereign green bonds under the Chairmanship of Chief Economic Adviser, Government of India and members from implementing departments, Ministry of Environment, Forests and Climate Change (MoEFCC), Niti Aayog (India's premier public policy think-tank), Budget Division of Department of Economic Affairs (DEA) and Infrastructure Finance Secretariat, DEA

Source: <https://pib.gov.in/PressReleasePage.aspx?PRID=1874788>

<https://dea.gov.in/sites/default/files/Framework%20for%20Sovereign%20Green%20Bonds.pdf>

Q.36) Union Budget 2023-24 refer to a term 'Shree Anna'. Which of the following options best explains the term Shree Anna?

- a) It calls for reducing the wastage of food.
- b) It is used in reference to millets or coarse grains.
- c) It is used in reference to the importance of pulses.
- d) It is a scheme to provide free cereals to all citizens.

Ans) b

Exp) Option b is the correct answer.

While Presenting Union Budget 2023-24, FM Nirmala Sitharaman named **Millets i.e., coarse grains as Shree Anna**. As India is at the forefront of programs to popularize Shree Anna. India is the **largest producer and second-largest exporter of Shree Anna** in the world. India grows several types of Shree Anna including Jowar, Raagi, Bajra, Ramdana, Cheena, and Saama. The Union Budget 2023-24 highlighted that to make

India a global hub for Shree Anna, the Indian Institute of Millet Research in Hyderabad will be made into a center of excellence for sharing best practices, research and technology at the international level.

Source : <https://www.investindia.gov.in/team-india-blogs/budget-2023-india-become-global-hub-millets-shree-anna>

Q.37) Government is implementing many programmes for green fuel, green energy, green farming, green mobility, green buildings, and green equipment, and policies for efficient use of energy across various economic sectors. Which of the following initiatives have been started to achieve Green Growth according to the Union Budget 2023?

1. MISHTI Initiative
2. PM PRANAM Scheme
3. Amrit Dharohar
4. Bharat SHRI

Select the correct answer using the code given below.

- a) 1 and 3 only
- b) 3 and 4 only
- c) 1, 2 and 3 only
- d) 2, 3 and 4 only

Ans) c

Exp) Option c is the correct answer.

Green growth means fostering economic growth and development while ensuring that natural assets continue to provide the resources and environmental services on which our well-being relies.

Option 1 is correct: 'Mangrove Initiative for Shoreline Habitats & Tangible Incomes' (**MISHTI initiatives**) is taken up for **mangrove plantation** along the coastline and on salt pan lands, wherever feasible, through convergence between MGNREGS, CAMPA Fund and other sources.

Option 2 is correct: PM Program for Restoration, Awareness, Nourishment and Amelioration of Mother Earth (PM PRANAM) is to be launched to incentivise states and union territories to promote alternative fertilisers and balanced use of chemical fertilisers. Under the PM-PRANAM, the Centre plans to incentivise the states for reducing the use of chemical fertilisers and ultimately bring down the subsidy burden.

Option 3 is correct: Special scheme called '**Amrit Dharohar**' is started for protecting vital wetlands which sustain aquatic biodiversity. The scheme aims to achieve sustainable ecosystem development with the help of local communities. **It falls under 'Green Growth', one of the seven priorities of the budget.** The government will promote their unique conservation values through Amrit Dharohar, a scheme that will be implemented over the next three years to encourage optimal use of wetlands, and enhance biodiversity, carbon stock, eco-tourism opportunities and income generation for local communities.

Option 4 is incorrect: **Bharat Shared Repository of Inscriptions (Bharat SHRI)** is to be set up in a digital epigraphy museum, with digitization of one lakh ancient inscriptions in the first stage. **It is not related to Green growth.**

Q.38) With reference to Lab Grown Diamonds (LGD), consider the following statements:

1. LGDs don't need to undergo similar processes of polishing and cutting like natural diamond.
2. Pure synthetic diamonds have high thermal conductivity, but negligible electrical conductivity.
3. LGDs are environment friendly.

Which of the statements given above is/are correct?

- a) 1 and 3 only
- b) 2 and 3 only
- c) 1 and 2 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

Lab Grown Diamonds (LGD) is a technology-and innovation-driven emerging sector with high employment potential. These environment friendly diamonds have optically and chemically the same properties as natural diamonds.

Statement 1 is incorrect: Like natural diamonds, LGDs undergo similar processes of polishing and cutting that are required to provide diamonds their characteristic lustre.

Statement 2 is correct: LGDs are most often used for industrial purposes, in machines and tools. Their hardness and extra strength make them ideal for use as cutters. Furthermore, pure synthetic diamonds have high thermal conductivity, but negligible electrical conductivity.

Statement 3 is correct: Unlike mined diamonds, lab created diamonds do not cause pollution of air or water. Lab grown diamonds or eco-friendly diamonds are created in small diamond growing chambers inside safe laboratories. They produce close to negligent amounts of waste. The waste produced from these labs is recycled and disposed of by environmentally friendly methods. The energy use and emissions from diamond growing laboratories are negligible.

Source: https://www.indiabudget.gov.in/doc/budget_speech.pdf

<https://indianexpress.com/article/explained/explained-sci-tech/what-are-lab-grown-diamonds-nirmala-sitharaman-budget-speech-8417482/>

Q.39) With reference to the Financial Action Task Force (FATF), consider the following statements:

1. It works to prevent funding to weapons of mass destruction.
2. It prepares three lists sometimes referred to as – Black, Grey and White, to distinguish the countries based on performance.
3. A country entering the Black List may face sanctions from other countries.

Which of the statements given above is/are correct?

- a) 1 only
- b) 1 and 3 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

The Financial Action Task Force (FATF) is the global money laundering and terrorist financing watchdog. The inter-governmental body sets international standards that aim to prevent these illegal activities and the harm they cause to society.

Statement 1 is correct: As a policy-making body, the FATF works to generate the necessary political will to bring about national legislative and regulatory reforms in these areas.

The FATF also works to **stop funding for weapons of mass destruction.**

The FATF reviews money laundering and terrorist financing techniques and continuously strengthens its standards to address new risks, such as the regulation of virtual assets, which have spread as cryptocurrencies gain popularity.

Statement 2 is incorrect: FATF only prepares two lists – Jurisdictions Under Increased Monitoring List and High-Risk Jurisdictions subject to a Call for Action List.

Jurisdictions Under Increased Monitoring List: Also known as Grey List. Countries that are considered a safe haven for supporting terror funding and money laundering are put in this list. This inclusion serves as a warning to the country that it may enter the blacklist. Pakistan is under this list.

High-Risk Jurisdictions subject to a Call for Action List: Also known as Black List. Countries known as non-Cooperative are put on the blacklist. These countries support terror funding and money laundering activities. The FATF revises the blacklist regularly adding or deleting entries. The FATF blacklist has been issued by the FATF since 2000. Iran and North Korea are under this list.

Statement 3 is correct: The effect of the FATF Blacklist has been significant, and has proven more important in international efforts against money laundering than has the FATF Recommendations. The list is intended to serve not only as a way of negatively highlighting these countries on the world stage, but as a warning of the high money laundering and terrorism financing risk that they present. **It is extremely likely that blacklisted countries will be subject to economic sanctions and other prohibitive measures by FATF member states and international organizations.**

Knowledge Base:

The FATF has developed the FATF Recommendations, or FATF Standards, which ensure a co-ordinated global response to prevent organised crime, corruption and terrorism. They help authorities go after the money of criminals dealing in illegal drugs, human trafficking and other crimes.

Role of FATF in combating terrorism financing:

- 1) Set standards: The FATF is the global standard-setter for combating money laundering, terrorist financing and the financing of proliferation of weapons of mass destruction (WMD).
- 2) Protection: The role of the FATF is to protect the integrity of the financial system, and enhance its transparency, which contribute towards global security.
- 3) Studies: The FATF conducts and publishes expert operational and strategic studies on risks, trends, and methods. It also develops and sets global policies, standards, best practice, and guidance.
- 4) Evaluation: It evaluates FATF member countries and oversees in close cooperation with the FATF-style regional bodies.
- 5) Coordination: The FATF has developed a series of recommendations that are recognised as the international standard. They form the basis for a co-ordinated response to these threats to the integrity of the financial system and help ensure a level playing field.
- 6) Monitoring: The FATF monitors the progress of its members in implementing necessary measures, reviews money laundering and terrorist financing techniques and counter-measures.
- 7) Identify vulnerabilities: In collaboration with other international stakeholders, the FATF works to identify national-level vulnerabilities with the aim of protecting the international financial system from misuse.

Q.40) Consider the following statements with reference to BIS Hallmark:

1. Hallmarking is the accurate determination and official recording of the proportionate content of precious metal in precious metal articles.
2. BIS Hallmark is done for precious items made of Gold, Silver, Diamond and Platinum.

3. At present, there is no charge to get a BIS Hallmark on gold jewellery.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 1 only
- c) 1 and 3 only
- d) 2 and 3 only

Ans) b

Exp) Option b is the correct answer.

Statement 1 is correct and 2 is incorrect. Hallmarking is the accurate determination and official recording of the proportionate content of precious metal in precious metal articles. Hallmarks are thus official marks used in many countries as a guarantee of purity or fineness of precious metal articles. The principle objectives of the Hallmarking Scheme are to protect the public against adulteration and to obligate manufacturers to maintain legal standards of fineness. In India, at present two precious metals namely **gold and silver** have been brought under the purview of Hallmarking.

Statement 3 is incorrect. A jeweller selling you BIS hallmarked gold jewellery will charge you Rs 35 per piece of gold jewellery for the hallmarking. The hallmarking charges will be added to the cost and mentioned on the bill. The price of hallmarking a jewellery is a flat charge irrespective of the weight of the gold jewellery

Source: https://www.business-standard.com/article/economy-policy/second-phase-of-mandatory-gold-hallmarking-to-be-begin-from-june-1-govt-122043000826_1.html

<https://www.bis.gov.in/wp-content/uploads/2020/12/brief-on-Hallmarking.pdf>

Q.41) With reference to the Bank for International Settlements (BIS), consider the following statements:

1. It aims to promote global monetary and financial stability through the coordination of global central banks.
2. The BIS is an autonomous institution that functions under the International Monetary Fund.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) a

Exp) Option a is the correct answer.

Bank for International Settlements was established in 1930 and is owned by 63 central banks, representing countries from around the world that together account for about 95% of world GDP.

Statement 1 is correct: The **Bank for International Settlements** (BIS) is an international financial institution that aims to promote **global monetary and financial stability** through the coordination of **global central banks** and their monetary policy efforts.

Statement 2 is incorrect: The Bank for International Settlements (BIS) is an international financial institution **owned by central banks** that fosters international monetary and financial cooperation and serves as a bank for central banks.

Source: https://www.bis.org/about/index.htm?m=1_1

Q.42) With reference to recent trends in inflation as per Economic Survey 2022-23, consider the following statements:

1. The Headline WPI Inflation and CPI-C Inflation have never converged in the last two years.
2. Retail inflation was mainly driven by higher food inflation in 2022-23.
3. Most of the States and UTs have witnessed higher rural inflation than urban inflation in 2022-23.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

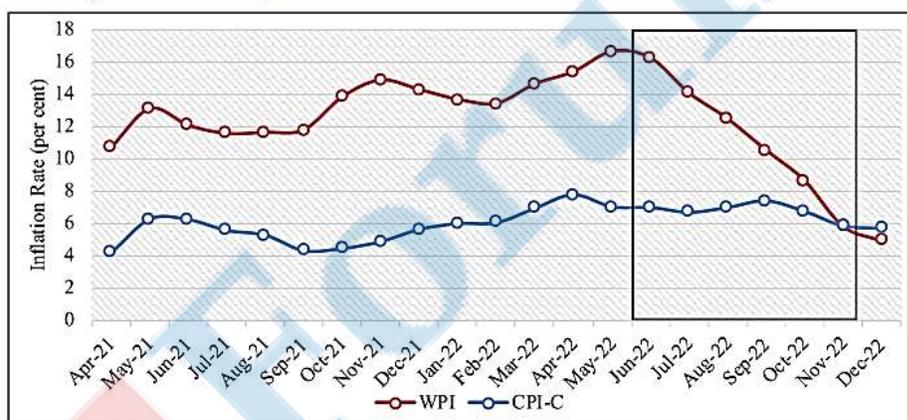

Ans) b

Exp) Option b is the correct answer.

In economics, inflation is an increase in the general price level of goods and services in an economy.

Statement 1 is incorrect: After global commodity prices, including crude oil softened and the effects of strong supporting domestic factors like favorable monsoon, vaccination-led economic resumption, etc., started to be felt, then the gap began to narrow between headline WPI and headline CPI-C inflation. **And the gap has been closed in November 2022, after 21 months.** The convergence between the WPI and CPI indices was **mainly driven by two factors.** **Firstly**, a cooling in inflation of commodities such as crude oil, iron, aluminum and cotton led to a lower WPI. **Secondly**, CPI inflation rose due to an increase in the prices of services. Services form a part of the core component of the CPI-C but are not included in the WPI basket. **Hence, the Headline WPI Inflation and Headline CPI-C Inflation have been equal in the Nov. 2022.**

Figure V.18: Convergence of Headline WPI Inflation with Headline CPI-C Inflation

Source: MoSPI and Office of Economic Adviser, DPIIT

Statement 2 is correct: In FY23, **retail inflation was mainly driven by higher food inflation**, while core inflation stayed at a moderate level. During FY23, ‘food & beverages’, ‘clothing & footwear’, and ‘fuel & light’ were the major contributors to headline inflation– the first two contributing more this fiscal than in the previous one. Food inflation ranged between 4.2 per cent to 8.6 per cent between April and December 2022, while the core inflation rate stayed at around 6 per cent except in April 2022.

Statement 3 is correct: Most of the States and UTs have witnessed **higher rural inflation than urban inflation** in the 2022-23, mainly due to marginally higher food inflation in rural areas.

Source: Economic Survey 2022-23 Chapter 5

<https://www.fortuneindia.com/budget-2023/economic-survey-2022-23-inflation-in-india-did-not-creep-too-far-above-rbis-target-level/111360>

Q.43) With reference to Pharmaceutical Drugs in India, which of the following statements is/are correct?

1. Ceiling prices for some drugs have been fixed by National Pharmaceuticals Pricing Authority.
2. Drug Price Control Order (DPCO) usually follows a cost-based pricing mechanism.
3. All the drugs marketed in the country are under price control.

Select the correct answer using the code given below.

- a) 1 only
- b) 2 only
- c) 1 and 2 only
- d) 1 and 3 only

Ans) a

Exp) Option a is the correct answer.

The principles for the regulation of the prices of drugs are based on the National Pharmaceuticals Pricing Policy, 2012, administered by the Department of Pharmaceuticals.

Statement 1 is correct: Ceiling price means a price fixed by the Government for Scheduled formulations in accordance with the provisions of DPCO 2013. Until 31 December 2022, ceiling prices for 890 formulations of 358 drugs/medicines across various therapeutic categories under National List of Essential Medicines (NLEM), 2015 have been **fixed by National Pharmaceuticals Pricing Authority (NPPA)**.

Statement 2 is incorrect: Prior to 2013, the DPCO followed a **cost-based pricing mechanism** that was based on the costs involved in manufacturing a medicine along with reasonable profit margins. While, **at present the DPCO follows a market-based pricing mechanism**. The ceiling price is worked out on the basis of the simple average price of all brands having at least 1 percent market share of the total market turnover of that drug plus a notional 16 percent retailer's margin.

Statement 3 is incorrect: All the drugs marketed in the country are **not under price control**. Generally, **the scheduled medicines under the** National List of Essential Medicines (NLEM) are under the price control. The manufacturer of a non-scheduled drugs (drugs not under direct price control) is not required to take price approvals from NPPA for such drugs. However, the prices of other drugs can be regulated, if warranted in public interest.

Q.44) Which of the following measures by the government will help in containing inflation in Food Commodities?

1. Imposing stock limits to avoid hoarding.
2. Increasing import duties on import of food commodities
3. Banning future and option contract trading in agricultural commodities

Choose the correct answer using code given below:

- a) 1 and 2 only
- b) 1 and 3 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

The government has taken several **supply-side measures** in the last year to control inflation. Prices of major essential commodities are monitored by the government on a regular basis and corrective action is taken from time to time.

Statement 1 is correct: Measures to control inflation by the government include **imposition of stock limits** on essential items. Government also maintains **buffer stock and takes measures to prevent hoarding** to check price rise.

Statement 2 is incorrect: To control inflation in essential commodities the government generally **reduces and rationalises the import duties** so that adequate supply can be maintained. Increase in import duties will lead to expansive import. It will further increase the already prevailing inflation.

Statement 3 is correct: Government sometimes ban the future and option (F&O) contracts trading in some agricultural commodities to curb the inflation. This helps in reducing speculation in prices of these agricultural commodities like rice, wheat etc. For example, government banned such trading in 7 agricultural commodities in December 2021. The commodities put under the ban list include wheat, paddy (non-basmati), chana, mustard seeds and their derivatives, soya bean, crude palm oil and moong. Read more at:

https://economictimes.indiatimes.com/markets/commodities/news/govt-bans-futures-trading-in-7-commodities-to-curb-inflation/articleshow/88384053.cms?utm_source=contentofinterest&utm_medium=text&utm_campaign=cppst

Q.45) Consider the following statements about Critical Information Infrastructure (CII), which was recently seen in news:

1. It is a computer resource, whose destruction may impact the national security, economy, public health or safety of a country or organisation.
2. Centre for Development of Advanced Computing (C-DAC) is the nodal agency for taking all measures to protect the nation's critical information infrastructure.
3. Recently, certain database related to the Census and the National Population Register (NPR) has been declared as CII.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

World over governments have been moving with alacrity to protect their critical information infrastructure. IT resources form the backbone of countless critical operations in a country's infrastructure, and given their interconnectedness, disruptions can have a cascading effect across sectors. An information technology failure at a power grid can lead to prolonged outages crippling other sectors like healthcare and banking services.

Statement 1 is correct. The Information Technology Act of 2000 defines CII as computer resource, the incapacitation or destruction of which shall have deliberated impact on national security, economy, public health or safety. Example – Banking, e- government, defence etc.

Statement 2 is incorrect. National Critical Information Infrastructure Protection Centre (NCIIPC) is an organization of Government of India created under Section 70A of Information Technology Act, 2000. It is nodal agency for taking all measures to protect the nation's critical information infrastructure.

Statement 3 is correct. The government has declared as critical information infrastructure certain databases related to the Census and the National Population Register (NPR). In a notification, the Union home ministry said the decision has been taken after exercising the powers conferred to it under the Information Technology Act, 2000, (Amended 2008).

Source: <https://indianexpress.com/article/india/census-npr-database-critical-information-infrastructure-8257516/>

<https://indianexpress.com/article/explained/explained-what-is-critical-information-infrastructure-who-protects-it-7978951/>

Q.46) Which of the following statements are correct with respect to All India House Price Index?

1. It is published by the Reserve Bank of India.
2. The base year for price calculations under this index is 1986-87.
3. The index is released for all the state capital cities of India.

Choose the correct answer from the code given below:

- a) 1 only
- b) 3 only
- c) 1 and 2 only
- d) 1 and 3 only

Ans) a

Exp) Option a is the correct answer.

Housing is one of the **necessities**, along with food and clothing. The Housing Price Index is a quarterly report by the Reserve Bank of India (RBI) based on the all-India price movement from data collected **from a few cities**. The indices are based on official data of property price transactions obtained from the respective state governments' registration authorities.

Statement 1 is correct: Reserve Bank of India releases house price index (HPI) on a quarterly basis. The overall increase in composite Housing Price Index indicates a growth in the housing sector which sets off a virtuous cycle of growth and investment.

Statement 2 is incorrect: Reserve Bank of India releases its quarterly house price index (HPI) which has **base year as 2010-11.**

Statement 3 is incorrect: Beginning with Mumbai, the Reserve Bank began compiling a house price index (HPI) in 2007 and published a quarterly HPI for **Mumbai**. The coverage has been expanded over the quarters by incorporating 9 more major cities, namely, **Delhi, Chennai, Kolkata, Bengaluru, Lucknow, Ahmedabad, Jaipur Kanpur, and Kochi**. So currently RBI publishes housing data for **ten major cities (and not for all the state capital cities)**.

Source: <https://www.indiabudget.gov.in/economicsurvey/doc/echapter.pdf>

https://www.rbi.org.in/scripts/BS_PressReleaseDisplay.aspx?prid=54293

<https://residex.nhbonline.org.in/Default.aspx>

Q.47) Consider the following statements regarding various socio-economic welfare measures provided in budget 2023-24:

1. Outlay for MGNREGA has been increased significantly compared to previous year.
2. The Aspirational Blocks Programme has been extended to all the blocks in the country.

3. The budgeted expenditure on health has reached the target of 2.5 per cent set by the National Health Policy.

4. Now under PM Garib Kalyan Anna Yojana, all Antyodaya and priority households will receive free food grains.

Which of the statements given above is/are correct?

- a) 2 and 4 only
- b) 1, 3 and 4 only
- c) 4 only
- d) 1 and 2 only

Ans) c

Exp) Option c is the correct answer.

The **Union Budget 2023-24** largely ring-fences financial outlays made to various social sectors, and it is reflected in nominal increases and consolidation of schemes and programmes to make them more effective.

Statement 1 is incorrect: The government has **sharply cut the budgetary allocation** of the rural job guarantee scheme Mahatma Gandhi National Rural Employment Guarantee Scheme (MGNREGA). It is anticipated that actual spends would be more **demand-driven** in key schemes such as MNREGA with the government retaining the recourse to supplementary budgets during the year.

Statement 2 is incorrect: Building on the success of the **Aspirational Districts Programme**, the Government has recently launched the **Aspirational Blocks Programme covering 500 blocks (and not all the blocks) for saturation of essential government services** across multiple domains such as health, nutrition, education, agriculture, water resources, financial inclusion, skill development, and basic infrastructure.

Statement 3 is incorrect: **The budgeted expenditure on health has reached 2.2 per cent of GDP**, against the 2025 target of 2.5 per cent set by the National Health Policy 2017.

Statement 4 is correct: **PM Garib Kalyan Anna Yojana (PMGKAY) aims to provide free food grain to all Antyodaya and priority households (8 million beneficiaries) for the next one year.** The entire expenditure of about 2 lakh crores will be borne by the Central Government.

Source: https://www.indiabudget.gov.in/doc/budget_speech.pdf

https://www.business-standard.com/budget/article/social-sector-the-emphasis-of-budget-is-on-the-consolidation-of-schemes-123020201839_1.html

[https://pib.gov.in/PressReleasePage.aspx?PRID=1895310#:~:text=Pradhan%20Mantri%20Garib%20Kalyan%20Anna%20Yojana%20\(PMGKAY\)&text=The%20entire%20expenditure%20of%20about,Government%20the%20Finance%20Minister%20said.](https://pib.gov.in/PressReleasePage.aspx?PRID=1895310#:~:text=Pradhan%20Mantri%20Garib%20Kalyan%20Anna%20Yojana%20(PMGKAY)&text=The%20entire%20expenditure%20of%20about,Government%20the%20Finance%20Minister%20said.)

Q.48) Which of the following items are included in calculation of both Consumer price index (CPI) and Wholesale price index (WPI) in India?

- 1. Fuel items
- 2. Electricity
- 3. Transportation Services
- 4. Educational Services
- 5. Food items

Choose the correct answer using the code given below:

- a) 1, 2 and 5 only
- b) 1,2, 3 and 5 only
- c) 2,3 and 4 only
- d) 2, 4 and 5 only

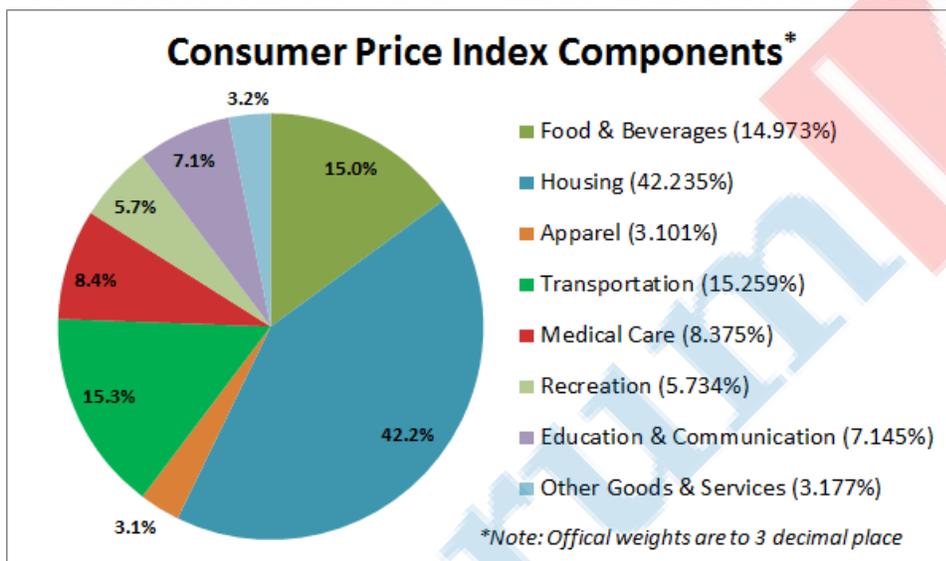

Ans) a

Exp) Option a is the correct answer.

The WPI is used to measure the change in the overall price of goods before they are sold at retail prices. This index measures inflation based on wholesale prices, or the prices of goods before they reach consumers. The Economic Adviser in the Ministry of Commerce and Industry reports the wholesale price index monthly. The index numbers used to calculate the retail inflation of a nation constitute the CPI, which is also known as the "market basket" and is responsible for tracking the shift in prices at the level of the household. The National Statistics Office (NSO) publishes CPI data every month.

Options 1, 2 and 5 are correct: The major difference between WPI and CPI is that the WPI does not measure the change in the price levels of services, but these are included in the calculation of CPI. The other items like the fuel items, electricity and food items are included in the calculation of both CPI and WPI.

Options 3 and 4 are incorrect: The services are excluded from the calculation of WPI, so Transportation services and Education services are not common items in calculation of both CPI and WPI.

Source: BLS; The most recent reweighting was in December 2015.

Composition of Wholesale Price Index		
Components	Weight (in %)	Inflation Rate (in %) In May 2022
Manufactured Products (cement, pharma, electronics, etc.)	64.23	10.11
Primary Articles (food, minerals, etc.)	22.62	19.71
Fuel And Power (LPG, petrol, etc.)	13.15	40.62
Total (All Commodities)	100	15.88

Source: https://www.business-standard.com/budget/article/measures-of-inflation-understanding-cpi-and-wpi-and-how-they-differ-123020100153_1.html#:~:text=CPI%20captures%20price%20change%20at,CPI%20uses%20the%20calendar%20year.

<https://indianexpress.com/article/explained/everyday-explainers/what-are-wholesale-price-index-consumer-price-index-inflation-rates-7820831/>

Q.49) With reference to the Non-Accelerating Inflation Rate of Unemployment (NAIRU), which of the following statements is correct?

- It is the highest level of unemployment rate that can be sustained without causing growth in wages.
- When unemployment is at NAIRU level, rate of inflation will be constant.
- It reflects the level of disguised unemployment in the country.
- It is always calculated by adjusting the inflation rate to the GDP of the economy.

Ans) b

Exp) Option b is the correct answer.

The non-accelerating inflation rate of unemployment (NAIRU) is the lowest level of unemployment that can occur in the economy before inflation starts to inch higher.

Option a is incorrect: The NAIRU is the **lowest unemployment rate (and not highest)** that can be sustained without causing wages growth and inflation to rise.

Option b is correct: The non-accelerating inflation rate of unemployment (NAIRU) is the specific unemployment rate at which the **rate of inflation stabilises and is constant** – inflation will neither increase nor decrease. When unemployment rises above NAIRU level, inflation decreases; when unemployment drops, inflation increases.

Option c is incorrect: NAIRU does not reflect the level of disguised unemployment in the economy. The **natural rate of unemployment** is sometimes called the NAIRU because it is consistent with an economy that is growing at its long-term potential, so there is **no upward or downward pressure on inflation**. Disguised unemployment is hidden unemployment where labour that is employed in a job is not actually utilised for the production of goods and services.

Option d is incorrect: There is no set formula to determine NAIRU. The countries use statistical models to put the NAIRU level. Example: The US Federal Reserve puts it somewhere between 5% and 6% unemployment.

Knowledge Base:

NAIRU is a concept that helps in gauging how much **'spare capacity'** there is in the economy and **phenomenon of hysteresis**. Hysteresis occurs when unemployed persons are unwilling to accept lower wage rates as a means of returning to work. NAIRU defies the **notion of cyclical, or self-adjusting, unemployment**. **Example:** If jobs are outsourced to lower-wage economies, workers of the home economy may over time become unqualified to take on those jobs should they return or become dependent on government welfare benefits. The NAIRU cannot be observed directly.

Source: <https://www.thehindu.com/opinion/op-ed/what-is-hysteresis-in-economics/article18701631.ece>

<https://www.investopedia.com/terms/n/non-accelerating-rate-unemployment.asp>

Q.50) Which of the statements is correct with reference to Bluebugging?

- It is situation in which a pond becomes toxic due to excess growth of Blue-Green Algae.
- It is a form of hacking through Bluetooth connection.
- It is a parasitic syndrome related to human body due to lack of Nitrogen.
- It is a disease caused by coming in contact with blue bugs and it affects human nervous system.

Ans) b

Exp) Option b is the correct answer.

Bluebugging, as the name suggests is a form of snooping into Bluetooth-enabled devices. It lets attackers – hackers – access a device through its discoverable Bluetooth connection. Once the device or phone is

'bluebugged', the attackers can access calls, divert calls to their own numbers, steal materials stored on the phone, read and send text messages, etc. Initially, the bluebugging was started to target laptops with Bluetooth capabilities. Hackers, however, did not stop and the method evolved to attack any Bluetooth-enabled device, including mobile phone.

Once a device is blue bugged, a hacker can listen to the calls, read and send messages and steal and modify contacts. Even the most secure smart phones like I Phones are vulnerable to such attacks.

Knowledge Base:

Some tricks and techniques can prevent bluebugging. As per some cyber security experts, one must update phones and laptops to their latest software versions because such updates fix bugs in the existing versions. Secondly, do not use Bluetooth when not necessary and disconnect paired Bluetooth devices. Additionally, do not or limitedly use open connections such as public Wi-Fi.

Source: <https://www.thehindu.com/sci-tech/technology/what-is-bluebugging-and-how-is-it-used-to-hack-bluetooth-enabled-devices/article66191220.ece>

Q.1) In the context of Portuguese rule in India, which of the following events had taken place during the tenure of the Governor Alfonso De Albuquerque?

1. Establishment of the first Portuguese factory at Calicut.
2. Accession of the island of Bassein.
3. Abolition of Sati.
4. Introduction of 'Blue Water Policy'.
5. Acquisition of Goa from the Sultan of Bijapur.

Choose the correct answer from the codes given below:

- a) 1, 2 and 4 only
- b) 2, 3 and 5 only
- c) 4 and 5 only
- d) 3 and 5 only

Ans) d

Exp) Option d is the correct answer.

For the first time a Portuguese expedition arrived in India in 1498. It was led by Vasco Da Gama. In 1505, the King of Portugal appointed a Governor in India for the first time. Francisco De Almeida was the first such appointee. He was succeeded by Alfonso de Albuquerque, who came to India in 1512.

Option 1 is incorrect: Pedro Alvarez Cabral led a voyage to India after the successful expedition by Vasco Da Gama. Cabral arrived at **Calicut** in 1500, where is **established the first factory**. Locals made a stiff resistance to the Portuguese's factory at Calicut, but Cabral successfully retaliated by bombarding Calicut. He also signed treaties with the local rules of Cochin and Cannanore.

Option 2 is incorrect: In 1534, the ruler of Gujarat **Bahadur Shah ceded the island of Bassein** to Portuguese in return of their help during the conflict with Humayun. Portuguese also got a hold over dependencies and revenues of the Island. The ruler also promised a base in Diu. These events happened during the Governorship of **Nino da Cunha** (assumed office in 1529).

Option 3 is correct: Alfonso de Albuquerque was not only the first Portuguese leader, but also the first amongst Europeans to abolish the practice of 'sati' in Goa. The practice of sati had spread in Goa during the Shilahara-Kadamba period. Despite, abolishing of Sati, it prevailed clandestinely in some parts of the State.

Option 4 is incorrect: The Blue Water Policy was introduced by the first Governor- **Francisco de Almeida**. It envisioned to make Portuguese the master of the Indian Ocean. was opposed to the establishment of a territorial empire in India, preferring that the Portuguese maintain supremacy at sea and limit their activities to purely commercial transactions. This is known as the **Blue Water Policy**.

Option 5 is correct: Alfonso de Albuquerque **acquired Goa from the Sultan of Bijapur**, Ismail Adil Shah, in the year 1510. The ruler of Vijayanagar Krishnadevaraya helped the Portuguese Governor. Later, the capital of Viceroyalty was also transferred from Cochin to Goa.

Spectrum's A Brief History of Modern India (Page 23, Chapter 3)

Q.2) Consider the following statements with reference to the Martanda Verma:

1. He established an independent state of Kerala with Travancore as the capital.
2. He was strictly against organizing his army on the western model.
3. He was the first Indian ruler to accept the Subsidiary Alliance.

Which of the statements given above is/are correct?

- a) 1 only
- b) 1 and 2 only
- c) 2 and 3 only
- d) 1 and 3 only

Ans) a

Exp) Option a is the correct answer.

Statement 1 is correct: Martanda Varma **established an independent state of Kerala** with Travancore as his capital. He extended the boundaries of his state from Kanyakumari to Cochin.

Statement 2 is incorrect: He made **efforts to organize his army along the Western model** and adopted various measures to develop his state.

Statement 3 is incorrect: Nizam of Hyderabad Nizam-ul-Mulk was the first Indian prince to accept the system of subsidiary Alliance in September 1798.

Source: Spectrum's A brief History of Modern India Ch 4 pg 77

Q.3) With reference to education during 18th century India, Consider the following statements:

1. Chatuspathis or Tols were the centers of primary education.
2. There was large scale participation of women in elementary schools.
3. Nadia and Utkala were famous centers of Sanskrit education.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 3 only

Ans) d

Exp) Option d is the correct answer.

The education imparted in 18th-century India was still traditional which could not match with the rapid developments in the West. The knowledge was confined to literature, law, religion, philosophy, and logic and excluded the study of physical and natural sciences, technology and geography. In fact, due to over-reliance placed on ancient learning, any original thought got discouraged. The education was confined to reading, writing, and arithmetic.

Statement 1 is incorrect: Chatuspathis or Tols, as they were called in Bihar and Bengal, were the centers of **higher education (not primary)**.

Statement 2 is incorrect: Elementary education among the Hindus and the Muslims was quite widespread. Sometimes children from the lower caste also attended the schools, **but female presence was rare**.

Statement 3 is correct: Some of the famous centers for Sanskrit education were Kasi (Varanasi), Tirhut (Mithila), **Nadia and Utkala**.

Source: Spectrum's A brief History of Modern India Ch 4 pg 82

Q.4) Consider the following events:

1. Third Battle of Panipat
2. Battle of Buxar
3. Battle of Plassey
4. Battle of Karnal

What is the correct chronological sequence of the occurrence of the above events?

- a) 1-2-4-3
- b) 2-3-1-4
- c) 3-4-1-2
- d) 4-3-1-2

Ans) d

Exp) Option d is the correct answer.

The correct chronological sequence is 4-3-1-2

- 1) Battle of Karnal (1739)
- 2) Battle of Plassey (1757)
- 3) Third battle of Panipat (1761)
- 4) Battle of Buxar (1764)

Option 4: In 1739, Nadir Shah defeated the Mughals in the **Battle of Karnal** and later imprisoned Muhammad Shah and annexed areas west of the Indus into the Persian empire.

Option 3: Battle of Plassey in June 23, 1757 between Robert Clive and Siraj ud daula, Nawab of Bengal laid the territorial foundation of British rule in India.

Option 1: The **Third Battle of Panipat in 1761** between the Marathas and Ahmad Shah Abdali put an end to the Maratha ambition of ruling over India.

Option 2: Battle of Buxar in 1764 and Hector Munro's victory over the combined armies of Nawab of Bengal, Nawab of Awadh and the Mughal Emperor at Buxar laid the real foundation of the English power

Source: Spectrum's A brief History of Modern India Ch 5 pg. 95

Q.5) With reference to 'Mangrove Alliance for Climate', consider the following statements:

- 1. It is an initiative led by India and Bangladesh, formed in collaboration with United Nations Environment Programme (UNEP).
- 2. The Alliance aims to educate and spread awareness worldwide on the role of mangroves in curbing global warming.
- 3. The parties in the Alliance will decide their own commitments and deadlines regarding the planting and restoring of mangroves.

Which of the statements given above is/are correct?

- a) 1 only
- b) 1 and 2 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

At the **27th Session of Conference of Parties (COP27)**, Mangrove Alliance for Climate (MAC) was launched. Mangroves are salt tolerant trees and shrubs that grow in the intertidal regions of the tropical and subtropical coastlines. They are among the most carbon-rich forests in the tropics. Mangrove forests serve as natural barriers against storms and rising tides. They can store ten times more carbon per hectare as compared to terrestrial forests.

Statement 1 is incorrect: Mangrove Alliance for climate is an **initiative launched by the United Arab Emirates (UAE) in partnership with Indonesia** at COP27 Summit in Egypt in 2022. It includes UAE, Indonesia, India, Sri Lanka, Australia, Japan, and Spain.

Statement 2 is correct: The alliance will raise awareness about the role of mangroves as a “nature-based solution to climate change. It aims to educate and spread awareness worldwide on the role of mangroves in curbing global warming and its potential as a solution to climate change.

Statement 3 is correct: The alliance works on a **voluntary basis** which means that there are no real checks and balances to hold members accountable. Instead, the **parties will decide their own commitments and deadlines** regarding the planting and restoring of mangroves.

Source: <https://blog.forumias.com/what-is-the-mangrove-alliance-for-climate-which-india-joined-at-cop27/>

Q.6) Consider the following statements about Mir Kasim, the then Nawab of Bengal:

1. Mir Kasim agreed to finance East India Company's war efforts in the South India.
2. He shifted the capital of Bengal from Munger to Murshidabad.
3. He abolished inland tariffs, to put Indian traders on an equal footing with English traders.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 1 only
- c) 1 and 3 only
- d) 2 and 3 only

Ans) c

Exp) Option c is the correct answer.

Mir Jafar had shown disloyalty towards the company by joining hands with the Dutch and had failed to make payments due to the company. Hence, Vansittart, the new Governor of Calcutta, agreed to support Mir Kasim's claim as Nawab after a treaty between Mir Kasim and the Company was signed in 1760.

Statement 1 is correct: The treaty signed between Mir Kasim and the company had following provisions:

- 1) Mir Kasim agreed to cede to the Company the districts of Burdwan, Midnapur and Chittagong.
- 2) The Company would get half of the share in chunam trade of Sylhet.
- 3) Mir Kasim agreed to pay off the outstanding dues to the Company.

4) Mir Kasim promised to pay a sum of rupees five lakh towards financing the Company's war efforts in southern India.

Statement 2 is incorrect: Mir Kasim shifted the capital from **Murshidabad to Munger in Bihar**. The move was taken to allow a safe distance from the Company at Calcutta.

Statement 3 is correct: Mir Kasim took the bold decision to **abolish all inland tariffs**, putting **Indian traders on an equal footing with English traders**. The majority of the Governor's Council members desired to force the Nawab to tax his subjects since only under such situation could English merchants take advantage of the Dastak.

Q.7) Consider the following pairs:

Regional State	Founder
1. Hyderabad	Burhan-ul-Mulk
2. Awadh	Nizam-ul-Mulk
3. Bengal	Murshid Kuli Khan

Which of the above given pairs is/are correctly matched?

- a) 1 only
- b) 1 and 2 only
- c) 2 and 3 only
- d) 3 only

Ans) d

Exp) Option d is the correct answer.

Pair 1 is incorrectly matched: The founder of Hyderabad was Chin Kilich Khan, popularly known as **Nizam-ul-Mulk**. It was Zulfikar Khan who had first conceived the idea of an independent state in the Deccan. But with his death in 1713 the dream remained unfulfilled.

Pair 2 is incorrectly matched: The founder of Awadh was **Saadat Khan**, popularly known as **Burhan-ul-Mulk**. He had joined in a conspiracy against the Sayyid brothers, which resulted in his being given an increased mansab. Later, driven out of court, he was prompted to find a new independent state. He was succeeded by Safdar Jang as the Nawab of Awadh.

Pair 3 is correctly matched: **Murshid Kuli Khan** was the founder of the independent state of **Bengal**. He was a capable ruler and made Bengal a prosperous state. He was succeeded in 1727 by his son Shuja-ud-din. His successor, Sarfaraz Khan, was killed in 1740 by Alivardi Khan, the deputy governor of Bihar at Gheria, who assumed power and made himself independent of the Mughal emperor by giving yearly tribute.

Source: Spectrum's A brief History of Modern India Ch 4 pg 75

Q.8) Consider the following statements about the Treaty of Allahabad signed in August 1765:

1. It was signed between the British, the Nawab of Awadh and Mir Kasim.
2. Under the treaty, Nawab of Awadh agreed to surrender Allahabad and Kara directly to the East India Company.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) d

Exp) Option d is the correct answer.

The combined armies of Mir Kasim, the Nawab of Awadh and Shah Alam II were defeated by the English forces under Major Hector Munro at Buxar on October 22, 1764, in a closely contested battle. After the battle, Robert Clive concluded the treaty of Allahabad in August 1765.

Statement 1 is incorrect: **Robert Clive after the Battle of Buxar signed two treaties at Allahabad in 1765, one with the Nawab of Awadh (Shuja-ud-Daula) and the other with the Mughal Emperor, Shah Alam II.** Mir Kasim was not a party to this treaty. He was the Nawab of Bengal from 1760 to 1763.

Statement 2 is incorrect: Under the treaty, Nawab of Awadh **Shuja-ud-Daula** agreed to:

- 1) surrender Allahabad and Kara to Emperor Shah Alam II (and not directly to the company);
- 2) pay Rs 50 lakh to the Company as war indemnity; and
- 3) give Balwant Singh, Zamindar of Banaras, full possession of his estate.

Source: Spectrum, Chapter 5, Expansion and consolidation of British power in India

Q.9) Consider the following statements regarding Kolhapur and Savant Vadi Revolt:

1. The main cause behind the revolt was the government's step to raise the salt duty.
2. The Samangarh and Bhudargarh forts were the hotspots of the revolt.
3. Kundara Proclamation was issued by the villagers under the revolt to oust British from their region.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 2 only
- d) 3 only

Ans) c

Exp) Option c is the correct answer.

Gadkaris (Hereditary militant class) from the Kolhapur and Savant Vadi areas revolted against British.

Statement 1 is incorrect: The Gadkaris were a hereditary military class which was garrisoned in the Maratha forts. These garrisons were disbanded during administrative reorganization in Kolhapur state after 1844. Facing the spectre of unemployment, the Gadkaris rose in revolt against British. Similarly, the simmering discontent caused a revolt in Savantvadi areas.

Whereas in Surat Salt Agitations (1840s), a strong anti-British sentiment resulted in attacks by the local Surat population on the Europeans in 1844 over the issue of the government's step to raise the salt duty from 50 paise to one rupee. Faced with a popular movement, the government withdrew the additional salt levy.

Statement 2 is correct: Facing the spectre of unemployment, the frustrated Gadkaris rose in revolt and occupied the Samangarh and Bhudargarh forts.

Statement 3 is incorrect: In the Diwan Velu Thampi's Revolt (1808-09), Velu Thampi addressed a gathering in Kundara, openly calling for taking up arms against the British to oust them from the native soil. This was later known as the Kundara Proclamation. As a result of which there was large-scale rebellion against the British.

Source: A brief History of Modern India, Spectrum Publication, 2020 edition.

Q.10) With reference to 'E-Waste Management Rules, 2022', consider the following statements:

1. The rules have restricted the use of lead and mercury in the manufacturing of electrical and electronic equipment.
2. The provisions for transaction of Extended Producer Responsibility (EPR) Certificate have been introduced in these rules.
3. The rule does not apply to packaging plastics which are covered under the Plastic Waste Management Rules, 2016.
4. The National Green Tribunal is tasked to monitor the compliance of reduction of hazardous substances provisions.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 1, 2 and 3 only
- c) 2, 3 and 4 only
- d) 1, 2, 3 and 4

Ans) b

Exp) Option b is the correct answer.

The government has notified E-waste (management) rules 2022, which will come into force from 1 April next year and apply to every manufacturer, producer, refurbisher, dismantler and recycler of e-waste. These rules will replace E-waste (Management) Rules, 2016 and will be effective from 1st April 2023.

Statement 1 is correct: The rules restricted the **use of hazardous substances (such as lead, mercury, and cadmium)** in manufacturing electrical and electronic equipment that have an adverse impact on human health and the environment.

Statement 2 is correct: E-Waste (Management) Rules, 2022 will launch a new Extended Producer Responsibility (EPR) regime for e-waste recycling. The salient feature of new rules is as under:

- 1) **Provision for generation and transaction of EPR Certificate has been introduced.**
- 2) Provisions for environment compensation and verification & audit have been introduced.
- 3) Provision for constitution of Steering Committee to oversee the overall implementation of these rules.

Statement 3 is correct: The E-waste (management) rules 2022 do not apply to waste batteries, packaging plastics, micro enterprises and radio-active waste. **It is also not applicable for packaging plastics, which are covered under the Plastic Waste Management Rules, 2016.** It also does not apply for micro enterprises and radio-active wastes, which are covered under the Micro, Small and Medium Enterprises Development Act, 2006 and Atomic Energy Act, 1962 respectively.

Statement 4 is incorrect: The **Central Pollution Control Board** shall conduct random sampling of electrical and electronic equipment placed on the market to **monitor and verify the compliance of reduction of hazardous substances provisions.** Companies that don't meet their annual targets will have to pay a fine or an 'environmental compensation' but the draft doesn't specify the quantum of these fines.

Source: <https://journalsofindia.com/e-waste-management-rules-2022/#:~:text=It%20is%20the%20responsibility%20of,the%20provisions%20of%20the%20law.>

[E,regime for e-waste recycling.](https://pib.gov.in/PressReleaseIframePage.aspx?PRID=1881761#:~:text=Ministry%20has%20notified%20the%20regime%20for%20e-waste%20recycling.)

Q.11) Consider the following statements regarding Durgadas Rathore:

1. He was the Rajput General in the Kingdom of Marwar.
2. He rebuilt many temples which were destroyed by Aurangzeb.
3. He was elected as the leader of the Rajput Rebellion (1708–1710) against Mughals.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 1 and 3 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

Statement 1 is correct: Durgadas Rathore (13 August 1638 – 22 November 1718) was the Rathore Rajput General of the **Kingdom of Marwar.** He preserved the rule of the Rathore dynasty over Marwar, following the death of Maharaja Jaswant Singh in the 17th century.

Statement 2 is correct: He rebuilt a large number of temples destroyed by the Aurangzeb. He also gave courage to the Hindus to stand up against the oppression of Aurangzeb.

Statement 3 is correct: He was elected as the leader of the **Rajput Rebellion (1708–1710)** along with Raja Jai Singh II of Jaipur. The Rajput rebellion **was against Mughals**, due to the harsh treatment of the Rajput Rajas by the Mughal emperor. He won a number of victories against the Mughals and forced many Mughal officers to pay tribute to him in the form of Chauth.

Source: Spectrum's A brief History of Modern India Ch 4 pg 76

<https://www.hindujagruiti.org/history/21205.html>

Q.12) The Dual Government established in Bengal in 1765 was abolished by which of the following?

- a) Robert Clive
- b) Major Hector Munro
- c) Warren Hastings
- d) Lord Cornwallis

Ans) c

Exp) Option c is the correct answer.

Robert Clive introduced the dual system of government, i.e., the rule of the two—the Company and the Nawab—in Bengal in which both the diwani, i.e., collecting revenues, and nizamat, i.e., police and judicial functions, came under the control of the Company. The Company exercised diwani rights as the diwan and the nizamat rights through its right to nominate the deputy subahdar. The Company acquired the diwani functions from the emperor and nizamat functions from the subahdar of Bengal.

However, the dual system led to an administrative breakdown and proved disastrous for the people of Bengal. Neither the Company nor the Nawab cared for administration and public welfare.

Hence, **Warren Hastings did away with the dual system in 1772 and Bengal was brought under direct control of the British. The Nawabs remained as the mere pensioners of the East India Company.**

Source: Spectrum, Chapter 5, Expansion and consolidation of British power in India, pg. 94-95

Q.13) Which among the following can be considered as the causes behind the Revolt of 1857?

1. Corruption in the Company's administration
2. Activities of Christian missionaries
3. Revival of the older system of zamindari
4. The ruin of Indian handicrafts industry

Select the correct answer using the codes given below:

- a) 1 and 3 only
- b) 1, 2 and 4 only
- c) 2, 3 and 4 only
- d) 1, 2, 3 and 4

Ans) b

Exp) Option b is the correct answer.

In 1857, Indian soldiers rose up against their British commanders. They were joined by native rulers and thousands of ordinary people in a struggle that threatened to destroy British colonial power on the Indian subcontinent. Main causes behind the revolt of 1857 are discussed below:

Statement 1 is correct: Rampant corruption in the Company's administration, especially among the police, petty officials, and lower law courts, was a major cause of discontent. Indeed, it is the view of many historians that the rampant corruption we see now in India is a legacy of the Company rule. Also, the character of the British rule imparted a foreign and alien look to it in the eyes of Indians: a kind of absentee sovereignty.

Statement 2 is correct: Racial overtones and a superiority complex characterised the British administrative attitude towards the native Indian population. The activities of Christian missionaries who followed the British flag in India were looked upon with suspicion by Indians. The attempts at socio-religious reform such as abolition of sati, support to widow-marriage, and women's education were seen by a large section of the population as interference in the social and religious domains of the Indian society by outsiders. These fears were compounded by the government's decision to tax mosque and temple lands and making laws such as the Religious Disabilities Act, 1856, which modified Hindu customs, for instance, declaring that a change of religion did not debar a son from inheriting the property of his 'heathen' father.

Statement 3 is incorrect: Zamindars were the traditional landed aristocrats. They often saw their land rights forfeited with frequent use of a quo warranto by the administration. This resulted in a loss of status for them in the villages. In Awadh, the storm centre of the revolt, 21,000 taluqdars had their estates confiscated and suddenly found themselves without a source of income, "unable to work, ashamed to beg, condemned to penury". These dispossessed taluqdars seized the opportunity presented by the sepoy revolt to oppose the British and try to regain what they had lost. Thus, in this manner the older system of zamindari was forced to disintegrate.

Statement 4 is correct: The ruin of Indian industry increased the pressure on agriculture and land, which could not support all the people; the lopsided development resulted in pauperisation of the country in general.

Source: A brief History of Modern India, Spectrum Publication, 2020 edition.

Q.14) Consider the following statements about the Second Anglo Mysore War:

1. English attempt to capture Mahe instigated Haider Ali to fight the Second Anglo Mysore war.
2. Haider Ali had forged an anti-English alliance at the beginning of the war.
3. Haider was able to successfully defeat English at the Porto Novo.
4. Treaty of Seringapatam was signed to conclude the war.

Which of the statements given above is/are correct?

- a) 1 only
- b) 1 and 2 only
- c) 3 and 4 only
- d) 1, 2 and 4 only

Ans) b

Exp) Option b is the correct answer.

The Second Anglo Mysore war was fought between Haider Ali of Mysore on one side and the British on the other.

Statement 1 is correct: Haidar Ali accused the English of breach of faith and non-observance of the Treaty of Madras when in 1771 he was attacked by the Marathas, and the English failed to come to his aid. Also, he got closer to the French who were fighting against the British in the American War of Independence. Also, through Mahe, a French possession on the Malabar coast, some French war material was brought to Mysore. This rising friendship between the French and Haider rose concerns for the British. **They therefore tried to capture Mahe, which Haidar regarded to be under his protection. Haidar considered the English attempt to capture Mahe a direct challenge to his authority.**

Statement 2 is correct: Haidar forged an anti-English alliance with the Marathas and the Nizam. He followed it up by an attack in the Carnatic, capturing Arcot, and defeating the English army under Colonel Baillie in 1781. However, in the meantime, the English (under Sir Eyre Coote) detached both the Marathas and the Nizam from Haidar's side.

Statement 3 is incorrect: It wasn't the English, but Haider Ali faced the defeat at Porto Novo at the hands of former. However, he regrouped his forces and defeated the English and captured their commander, Braithwaite.

Statement 4 is incorrect: Treaty of Mangalore was signed by the English and Tipu Sultan (as Haider Ali died in 1782) in March 1784, as both the sides were fed up with the inconclusive war. Both sides opted for peace, negotiating the treaty under which each party gave back the territories it had taken from the other.

Treaty of Seringapatam (1792) was signed after the Third Anglo Mysore War.

Source: Spectrum, Chapter 5, Expansion and consolidation of British power in India, pg. 97-98

Q.15) With reference to 'Carbon Dating Method', consider the following statements:

1. It can only determine the age of materials older than sixty thousand years.
2. It can be used to determine the age of organic materials like animal remains.
3. It can be helpful in studying the origins and evolution of various life forms on the earth.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) 2 and 3 only
- d) 1 and 3 only

Ans) c

Exp) Option c is the correct answer.

Carbon dating is a widely used method to establish the age of organic materials, things that were once living. It can be estimated by measuring the amount of carbon-14 isotope present in the subject.

Statement 1 is incorrect: Carbon dating method **cannot determine the age of organic materials older than 60 thousand years.** Organic materials that are even older than about 40,000 years are extremely difficult. This is because after 8-10 cycles of half-lives, the amount of C-14 becomes almost very small and is almost undetectable. Over 60,000 years old, and they can't be dated at all.

Statement 2 is correct: Carbon dating is used by archeologists to date organic materials like remains of trees, plants, and animal. A living organism takes in both carbon-12 and carbon-14 from the environment in the same relative proportion that they existed naturally. Once the organism dies, it stops replenishing its carbon supply, and the total carbon-14 content in the organism slowly disappears. Scientists can determine how long ago an organism died by measuring how much carbon-14 is left relative to the carbon-12.

Statement 3 is correct: Carbon Dating is used in archaeology to determine the age of artefacts and ruins and ascertain the scientific basis of ancient civilizations. Carbon dating has a host of other uses in fields of forensics and criminal investigations, and in **studying the origins and evolution of various life forms on the earth.**

Knowledge Base:

How does Carbon Dating Method work?

- 1) Plants and animals get their carbon from the atmosphere, they too acquire C-12 and C-14 in roughly the same proportion as is available in the atmosphere.
- 2) While C-12 is stable, the radioactive C-14 reduces to one-half of itself in about 5,730 years– known as its 'half-life'.
- 3) The changing ratio of C-12 to C-14 in the remains of a plant or animal after it dies can be measured and can be used to deduce the approximate time when the organism died.

Explained: What Is Carbon Dating And How Is It Relevant To The Gyanvapi Mosque Row? (outlookindia.com)

Q.16) Consider the following pairs about the treaties signed between the Marathas and the British:

Treaties	Major provisions of the treaty
1. Treaty of Surat	British ceded the territories of Salsette and Bassein to Marathas.
2. Treaty of Salbai	Peshwa should not support any other European nation than British
3. Treaty of Bassein	English troops to be kept permanently in Maratha territory.

Which of the pairs given above is/are correctly matched?

- a) 1 and 2 only
- b) 3 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

The years between the last quarter of the 18th century and the first quarter of the 19th century witnessed the Marathas and the English clashing thrice for political supremacy, with the English emerging victorious in the end. In the meantime, both the sides signed numerous treaties, which intelligently gave the English the key to India.

Pair 1 is incorrect: The background for Surat treaty was set in the context of the power tussle in the house of Peshwa between Raghunathrao and Sawai Madhavrao (minor) under the regency of Nana Phadnavis. Raghunathrao sought help from the English at Bombay by signing the Treaty of Surat in 1775. **Under the treaty, Raghunathrao ceded the territories of Salsette and Bassein to the English along with a portion of the revenues from Surat and Bharuch districts.** In return, the English were to provide Raghunath Rao with 2,500 soldiers.

Pair 2 is correct: Warren Hastings, the Governor-General in Bengal, rejected the Treaty of Wadgaon and sent a large force of soldiers against the Marathas. During struggle in February 1781 the English, under General Camac, finally defeated Sindhia at Sipri. Sindhia, hence, proposed a new treaty between the two sides, the Treaty of Salbai in 1782. **The treaty guaranteed peace between the two sides for twenty years.**

Under this, Salsette should continue in the possession of the English; The whole of the territory conquered since the Treaty of Purandhar (1776) including Bassein should be restored to the Marathas; The English should not offer any further support to Raghunath Rao and the Peshwa should grant him a maintenance allowance; **The Peshwa should not support any other European nation.**

Pair 3 is correct: Treaty of Bassein was signed between the Peshwa Bajirao II and the English on December 31, 1802. Under this treaty, **the Peshwa agreed: to receive from the Company a native infantry (consisting of not less than 6,000 troops), with the usual proportion of field artillery and European artillery men attached, to be permanently stationed in his territories.**

Q.17) With reference to Trade during 18th century India, consider the following statements:

1. India's exports were more than its imports.
2. India imported Tea and Silk from China.
3. India's major exports were textiles and precious stones.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 1 and 3 only
- c) 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

Eighteenth century India failed to make progress economically, socially or culturally, at an adequate pace. India became a land of contrasts because extreme poverty and extreme luxury existed side by side. Though trade, internal and foreign, continued without disruption and even prospered, the rest of the economy stagnated.

Option 1 is correct: On account of being self-sufficient in handicrafts and agricultural products, India did not import foreign goods on a large scale. On the other hand, its industrial and agricultural products were in good demand in foreign markets. **Hence its exports were more than its imports.**

Option 2 is correct: Items of Import from the Persian Gulf Region– pearls, raw silk, wool, dates, dried fruits, and rose water; from Arabia coffee, gold, drugs, and honey; **from China-tea, sugar, porcelain, and silk;** from Tibet–gold, musk, and Woollen cloth; from Africa–ivory and drugs; from Europe– woolen cloth, copper, iron, lead and paper.

Option 3 is correct: Major items of Export from India were **Cotton textiles, raw silk and silk fabrics,** hardware, indigo, saltpetre, opium, rice, wheat, sugar, pepper and other spices, **precious stones,** and drugs.

Source: Spectrum's A brief History of Modern India Ch 4 pg 80

Q.18) Consider the following statements regarding the Dutch Rule in India:

1. Their commercial interests remained confined only to the areas South of the Krishna River.
2. They defeated the Portuguese in the Battle of Hooghly (1759).

Which of the statements given above is/ are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) d

Exp) Option d is the correct answer.

Commercial interests led the Dutch to make voyages in the East. They were involved in the trade in India, Indonesia, Malay Archipelago etc.

Statement 1 is incorrect: The Dutch founded their first factory in Masulipatnam in 1605. They continued to expand their trading activities across the different parts of the country. They had **established factories in Gujarat, Uttar Pradesh, Bengal and Bihar (thus not confined south of Krishna River)**. Their principal factories in India were at Surat (1616), Bimlipatam (1641), Karaikal (1645), Chinsura (1653), Baranagar, Kasimbazar (near Murshidabad), Balasore, Patna, Nagapatam (1658), and Cochin (1663).

Statement 2 is incorrect: The Battle of Hooghly (1759) was fought between the **Dutch and the English**. The **Dutch were defeated** by the English, which paved the way for their decline in India.

Source: Spectrum's A Brief History of Modern India (Page 36, Chapter 3)

Q.19) Consider the following events regarding the setting up of factories in India by the European powers:

1. First French Factory at Surat
2. First Danes Factory at Tranquebar
3. First Dutch Factory at Masulipatnam
4. First Portuguese Factory at Calicut

Which of the following options represents the correct chronological order of the above events?

- a) 4-3-2-1
- b) 4-3-1-2
- c) 2-4-3-1
- d) 4-2-3-1

Ans) a

Exp) Option a is the correct answer.

Option 4: First Portuguese Factory at Calicut: It was **set up in 1500** by Pedro Alvarez **Cabral** to trade for spices. There was an incident of conflict when the Portuguese factory at Calicut was attacked by the locals. In retaliation, Cabral inflicted heavy damage and bombarded the city of Calicut. Later, Cabral succeeded in making advantageous treaties with the local rulers of Cochin and Cannanore.

Option 3: First Dutch Factory at Masulipatnam: In 1605, the Dutch founded their first factory at Masulipatnam. They also captured Nagapatnam from Portuguese and made it their stronghold in South India. They also established factories at Gujarat, Uttar Pradesh, Bengal, Bihar etc.

Option 2: First Danes Factory near Tanjore: In 1620, the Danes (Denmark) established their **first factory at Tranquebar, near Tanjore**. They sold their factories to British in 1845. The Danes are better known for their missionary activities than for commerce.

Option 1: First French Factory at Surat: The French did not achieve much success in Madagascar. In **1667, Francois Caron headed an expedition to India, setting up a factory in Surat**. This was the first French factory established in India.

Source: Spectrum's A Brief History of Modern India (Chapter 3)

Q.20) With reference to India's international engagements, the 'Delhi Dialogue' is-

- a focus group of QUAD for securing mutual cooperation.
- a '2+2' Strategic dialogue between India and USA.
- an UN platform to combat terrorists' use of advanced technologies
- an annual international conference between ASEAN and India.

Ans) d

Exp) Option d is the correct answer.

India organized the 12th edition of the Delhi Dialogue in New Delhi on 16-17 June 2022. The Delhi Dialogue was co-organized by Ministry of External Affairs, Government of India, Research, and Information System for Developing Countries (RIS), the ASEAN India Centre in the RIS and Economic Research Institute for ASEAN and East Asia (ERIA). ERIA has been a partner of the Delhi Dialogue since 2009.

Delhi Dialogue is India's premier annual track 1.5 international conference bringing together foreign ministers, senior officials, business leaders, scholars, academicians and eminent persons of India and ASEAN to discuss ways to further strengthen the ASEAN-India Strategic Partnership. Launched in 2009, twelve editions of the Dialogue have been held so far.

Since 2009 when the conference was first held, Delhi Dialogue has emerged as an important forum at which political leaders, policy makers, researchers, academicians, business leaders and media persons converge for brainstorming on a range of issues pertaining to ASEAN-India relations. Nine editions of Delhi Dialogue have been held so far.

Q.21) The Farrukhsiyar's Farman (1715) gave the East India Company (EIC) many valuable privileges in Bengal, Gujarat and Hyderabad. In this context, consider the following statements:

- The Mission to seek a Farman in 1715 was led by Sir Thomas Roe.
- The Farman decreed that the coins of EIC, minted at Bombay, could be used as currency throughout the Mughal Empire.
- The Farman provided that Company's trade in Bengal was fully exempted from custom duties.

Which of the statements given above is/ are correct?

- a) 1 only
- b) 2 only
- c) 1 and 3 only
- d) 2 and 3 only

Ans) b

Exp) Option b is the correct answer.

The Farrukhsiyar's Farman of 1715 gave many valuable privileges to East India Company (EIC) in Bengal, Gujarat and Hyderabad. These were regarded as the Magna Carta of the Company.

Statement 1 is incorrect: In 1715, the English Mission to seek Farman from Farrukhsiyar was led by **John Surman**. Thomas Roe came to India in 1615 in the Court of Jahangir. He was unsuccessful in concluding a commercial treaty with the Mughal emperor, but he was able to secure a number of privileges including to set up factories at Agra, Ahmedabad and Broach.

Statement 2 is correct: The Farman decreed that the **coins of the Company** minted at Bombay shall **have currency value throughout the Mughal Empire**. In other words, EIC's coins could be used as currency now throughout the Mughal Empire.

Statement 3 is incorrect: In Bengal, huge concessions were granted with respect to the payment of customs duty. The company's imports and exports were exempted from additional customs duties excepting the **annual payment of 3,000 rupees**, as settled in advance. There was no full exemption from custom duties.

Knowledge Base: Other privileges granted by Farman:

- (a) The Company was permitted to issue passes (dastaks) for the transportation of goods.
- (b) The Company was permitted to rent more lands around Calcutta.
- (c) In Hyderabad, the Company retained its existing privilege of freedom from duties in trade (d) But Company had to pay prevailing rents in Madras).

Exemption from levy of all duties in Surat on payment of 10,000 rupees.

Source: Spectrum's A Brief History of Modern India (Chapter 3)

Q.22) Consider the following pairs:

Leaders of 1857 revolt	Key reason of his/her revolt
1. Nana Saheb	Refusal of the Family Title
2. Kunwar Singh	Deprivation from his own estates
3. Khan Bahadur	Against the policy of Doctrine of Lapse
4. Begum Hazrat Mahal	Annexation of Awadh

How many pairs given above are correctly matched?

- a) Only one pair
- b) Only two pairs
- c) Only three pairs
- d) All four pairs

Ans) c

Exp) Option c is the correct answer.

The causes of the revolt of 1857 emerged from all aspects—socio-cultural, economic, and political—of daily existence of Indian population cutting through all sections and classes. Key leaders of the 1857 revolt along their reason of resistance are discussed below:

Pair 1 is correct: At Kanpur, leadership came to **Nana Saheb** naturally as he was the adopted son of the last peshwa, Baji Rao II. **He was refused the family title and banished from Poona and** was living near Kanpur. Nana Saheb expelled the English from Kanpur, proclaimed himself the peshwa, acknowledged Bahadur Shah as the Emperor of India, and declared himself to be his governor.

Pair 2 is correct: In Bihar, the revolt was led by **Kunwar Singh**, the zamindar of Jagdishpur. An old man in his 70s, **he nursed a grudge against the British who had deprived him of his estates.** He unhesitatingly joined the sepoys when they reached Arrah from Dinapore (Danapur).

Pair 3 is incorrect: At Bareilly, **Khan Bahadur**, a descendant of the former ruler of Rohilkhand, was placed in command. **Not enthusiastic about the pension being granted by the British**, he organised an army of 40,000 soldiers and offered stiff resistance to the British. The Doctrine of Lapse was not the reason for him joining the revolt.

Pair 4 is correct: Awadh was annexed by the British East India Company in 1856 and Nawab Wajid Ali Shah, the last Nawab of Awadh was sent into exile to Calcutta. Begum Hazrat Mahal took over the reins at Lucknow where the rebellion broke out on June 4, 1857, and popular sympathy was overwhelmingly in favour of the deposed Nawab. Her son, Birjis Qadir, was proclaimed the Nawab.

<https://indianculture.gov.in/stories/begum-hazrat-mahal-revolutionary-queen-awadh>

Q.23) With reference to social condition of India during 18th century, consider the following statements:

1. Women were not at all allowed to work outside their houses.
2. Offspring of slaves were usually considered free citizens.
3. With the advent of Europeans, slavery got heightened in India.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1, 2 and 3
- d) 1 and 3 only

Ans) b

Exp) Option b is the correct answer.

The society of 18th century India was characterized by traditional outlook and stagnation. Though there existed a certain degree of broad cultural unity, people were divided by caste, religion, region, tribe and language. The family system was primarily patriarchal, and caste was the central feature of the social life of the Hindus.

Statement 1 is incorrect: While upper class women remained at home, **lower class women worked in fields and outside their homes supplementing the family income.**

Statement 2 is correct: Status of slaves in India was better than that in Europe. Slaves were usually treated as hereditary servants rather than as menials. Marriages took place among the slaves, and the **offspring coming out of such wedlock were considered free citizens.**

Statement 3 is correct: The **advent of Europeans heightened the slavery** and slave trade in India. European trading companies purchased slaves from the markets of Bengal, Assam and Bihar and took them to the European and American market.

Source: Spectrum's A brief History of Modern India Ch 4 pg 84

Q.24) The English had been successful in ousting other European powers in the arena of political domination in India. In this context, consider the following statements regarding reasons for their success against other European powers in India:

1. East India Company (EIC) was State-owned since beginning, leading to convergence of political and commercial interests.
2. More acceptability of English by natives due to their lesser zeal for religion.
3. Total abstinence by British from use of debt to fund the Wars.
4. Naval superiority of British over its rivalries.

Which of the statements given above is/ are correct?

- a) 4 only
- b) 2 and 4 only
- c) 1, 2 and 4 only
- d) 1, 2 and 3 only

Ans) b

Exp) Option b is the correct answer.

Of all the European nations who came as traders to India after new sea routes were discovered, England emerged as the most powerful and successful by the end of the 18th century. They defeated the Portuguese, Dutch, and the French.

Statement 1 is incorrect: In the beginning, **EIC was not owned by the State**. Instead, it was formed through amalgamation of several rival companies at home. It was controlled by a **board of directors** whose members were elected annually. The shareholders of the company exercised considerable influence. The trading companies of France and Portugal were largely owned by the State, and their nature was in many ways feudalistic. The French Company was simply managed as a department of the State and no meetings of shareholders took place between 1725 and 1765.

The English company was a private enterprise—this created a sense of enthusiasm and self-confidence among the people.

Statement 2 is correct: As compared to Spain, Dutch or Portugal, Britain was **less interested in the spread of Christianity**. Its rule was, therefore, far more acceptable to the subjects than the other colonial powers.

Statement 3 is incorrect: The **use of debt** was one of the most **important factors** which helped Britain in succeeding against other colonial powers. The world's first central bank—the Bank of England—was established to sell government debt to the money markets on the promise of a decent return on Britain's defeating rival countries like France and Spain. Britain was thus **enabled to spend much more** on its military than its rivals.

Statement 4 is correct: The **Royal Navy of Britain** was the largest and the **most advanced** of its times. British were able to defeat the Portuguese and the French due to strong and fast movement of the naval ships. The English learnt from the Portuguese the importance of an efficient navy and improved their own fleet technologically.

Q.25) Which of the following countries are primarily part of 'Black Sea Grain Initiative' that was recently seen in news?

1. Germany
2. Ukraine
3. India
4. Turkey
5. Russia

Select the correct answer using the codes given below:

- a) 1, 3 and 4 only
- b) 1, 2 and 4 only
- c) 2, 4 and 5 only
- d) 1, 2, 4 and 5 only

Ans) c

Exp) Option c is the correct answer.

The Black Sea Grain initiative was brokered by the United Nations (UN) and Turkey. It was signed in Istanbul in July 2022. The Black Sea Grain initiative endeavors to tackle escalating food prices emanating from supply chain disruptions because of Russian actions in the world's 'breadbasket'.

Black Sea Grain Initiative: Also known as Initiative on the Safe Transportation of Grain and Foodstuffs from Ukrainian ports, it is an agreement between **Russia and Ukraine made with Turkey** and the **United Nations (UN)** during the 2022 Russian invasion of Ukraine.

- 1) It was aimed to tackle **escalating food prices emanating from supply chain disruptions** because of Russian actions in the world's 'breadbasket'.
- 2) It created **procedures to safely export grain from certain ports** to attempt to address the 2022 food crisis.
- 3) A **joint coordination and inspection center was set up in Turkey**, with the UN serving as secretariat. By late November, over 500 voyages had successfully left Ukrainian ports carrying over 12 million Tonnes of grain and other food products.

Source: https://www.un.org/en/black-sea-grain-initiative?gclid=Cj0KCQiAwJWdBhCYARIsAJc4idBf4pNYFdi6KBzBj30y79jK8CIUw54FNZ8v1h6kxUr_m6HEaO9gQ5IaAmqlEALw_wcB

Q.26) Consider the following statements regarding the administration of Portuguese in India:

1. 'Vedor de Fazenda' was an official responsible for the collection of revenues.
2. The Church played an important role in the administrative affairs of the State.

Which of the statements given above is/ are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) c

Exp) Option c is the correct answer.

The possessions of Portuguese were administered by a Governor, generally appointed for a period of three years. He served as the highest authority and had command over military, financial and other administrative matters.

Statement 1 is correct: In Portuguese administration, Viceroy/ Governor served as the highest authority. He generally served for a period of three years. He was assisted by his secretary and the Council. Another important person in the administrative hierarchy was **Vedor de Fazenda** who was responsible for the **collection of revenues** and cargoes and dispatch of fleets. The **administration was decentralized**, with great powers being held by the individual fortress Captains. Like the governors and viceroys, fortress captains served for three years, however their terms could be renovated.

Statement 2 is correct: The **Church played an important role** in the State. The administrative and religious affairs of the State were interrelated. For example, one of the main missions of Vasco-da-Gama for finding the sea route to India was to seek “Christians and spices”. The confiscated lands of the temples were handed over to the Church and the Comunidades. In 1557, Goa became the seat of an archbishop. Religious Orders of the Augustinians, Franciscans, Dominicans and Jesuits established mission headquarters in Goa, **giving the Catholic Church a very visible presence and influence in the capital of the State of India**, for which it earned the nickname of “Rome of the East”.

https://www.goa.gov.in/what_to_see/churches/

Q.27) Consider the following events during the reign of various Mughal emperors:

1. Emperor Jahandar Shah levied Jaziya tax for the first time since the emperor Akbar abolished it in 1564.
2. The independent State of Hyderabad was founded during the reign of the Emperor Muhammad Shah.
3. Iranian invader Ahmad Shah Abdali attacked Mughals for the first time during the reign of Ahmad Shah Bahadur.

Which of the statements given above is/ are correct?

- a) 1 only
- b) 2 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

Statement 1 is incorrect: Jahandar Shah (1712-13) is known to have **abolished Jaziya tax**. It is a tax imposed on non-Muslims by the Muslim rulers. Jahandar Shah appointed Zulfikar Khan as his Prime Minister. He introduced the Izara (revenue farming) system to improve the financial condition of the empire.

Statement 2 is correct: Muhammad Shah (1719-48) got suspicious over the activities of the Sayyid Brothers (Abdulla Khan and Hussain Ali). Muhammad Shah, with the help of Nizam-Ul-Mulk, killed the Sayyid Brothers. In 1724, **Nizam-Ul-Mulk** became the wazir and **founded the independent state of Hyderabad**. Hyderabad state, for all practical purposes, was ruled independently by Nizam. Also, Nadir Shah invaded India during his period.

Statement 3 is incorrect: Between 1748 and 1767, **Ahmad Shah Abdali** is known to come India for 8 times. He **attacked Mughals in India for the first time in 1748 during the reign of Mughal emperor Mohammad Shah (1719-1748)**. Ahmad Shah Bahadur was the predecessor of Alamgir II (1748-54). He was an incompetent ruler who left the state affairs in the hands of Udham Bai, the ‘Queen Mother’.

Source: Spectrum’s A Brief History of Modern India (Page 63, Chapter 4)

Q.28) In the context of the history of India, who were the Pindaris?

- They were allies of Haider Ali in the First Anglo-Mysore war.
- They were the rulers of the Sindh region, prior to the rule of Talpur Amirs.
- They were the mercenaries attached to the Maratha army.
- They were a class of bankers in the Bengal region.

Ans) c

Exp) Option c is the correct answer.

The Pindaris, made up of many castes and classes, were **attached to Maratha armies as mercenaries**. When the Marathas became weak after the third Anglo Maratha war, the Pindaris could not get regular employment. As a consequence, they **started plundering** neighbouring territories, including those of the Company. The English charged the Marathas with giving shelter to the Pindaris. Pindari leaders like Amir Khan and Karim Khan surrendered while Chitu Khan fled into the jungles.

The Treaty of Bassein, described as “a treaty with a cipher (the Peshwa)”, wounded the feelings of the other Maratha leaders. They saw the treaty as an absolute surrender of independence. Lord Hastings’ actions taken against the Pindaris were seen as a transgression of the sovereignty of the Marathas; they served to once again unite the Maratha confederacy. A repentant Bajirao II made a last bid in 1817 by rallying together the Maratha chiefs against the English in course of the Third Anglo-Maratha War.

Source: Spectrum, Chapter 5, Expansion and consolidation of British power in India, pg. 107-108

Q.29) Consider the following statements regarding the relation between Sindh and the British:

- Annexation of Sindh was done during the tenure of Governor General Lord William Bentinck.
- The Treaty of Eternal Friendship allowed free passage to the English traders through Sindh.
- Sindh was annexed by the British under the Doctrine of Lapse.
- Charles Napier was the first Governor of Sindh after annexation by the British.

Which of the statements given above is/are correct?

- 1 and 2 only
- 3 and 4 only
- 4 only
- 1, 2 and 4 only

Ans) c

Exp) Option c is the correct answer.

In the early 19th century, the English started to show an interest in Sindh where they enjoyed some trade facilities authorised by a farman of the Mughal Emperor in 1630.

Statement 1 is incorrect: Annexation of Sindh (1843) was done during the term of Governor General Lord Ellenborough (1842-1844) and not under Lord William Bentinck (1828-1835). Annexation of Mysore (1831) took place during latter’s tenure.

Statement 2 is incorrect: The Treaty of Eternal friendship was signed between the Amirs of Sindh and the British to exclude the French from Sindh and to exchange agents at each other’s court. The treaty was renewed in 1820 with the addition of an article excluding the Americans and resolving some border disputes on the side of Kachch. Whereas **the Treaty of 1832** by Colonel Pottinger (British officer) and the Amirs allowed for free passage for the English traders and travellers through Sindh.

Statement 3 is incorrect: Sindh was not annexed by the British under doctrine of lapse, rather Sindh accepted **Subsidiary Alliance** in 1839. According to which a British subsidiary force had to be stationed at Shikarpur and Bukkar and the Amirs of Sindh were to pay Rs 3 lakh annually for the maintenance of the Company’s troops”. Henceforth, the Amirs were debarred from having any negotiations with foreign states without the knowledge of the Company.

Statement 4 is correct: Sindh was merged into the British Empire in 1843, under Governor-General Ellenborough, and **Charles Napier was appointed its first governor.**

Source: Spectrum, Chapter 5, Expansion and consolidation of British power in India.

Q.30) Recently seen in news, 'Dirty Bomb' is a-

- Type of explosive that utilizes oxygen from the surrounding air to generate an intense explosion.
- Weapons that can attack space systems in orbit and attack targets on the earth from space.
- Second-generation thermonuclear weapon based on fusion explosion.
- Device containing radioactive material as well as conventional explosives.

Ans) d

Exp) Option d is the correct answer.

Recently, Russia has delivered a letter to the United Nations claiming that Ukraine is preparing to detonate a dirty bomb on its territory. The allegations, however, have been denied by Ukraine.

Option d is the correct: A **dirty bomb** also known as a radiological dispersal device is a weapon that **combines conventional explosives like dynamite and radioactive material** such as uranium.

- The primary objective of a dirty bomb is to **create panic, confusion and anxiety** by hurling radioactive dust and smoke into the atmosphere. Hence, it has been long feared as a potential weapon of terrorists.
- A dirty bomb doesn't need to contain highly refined radioactive material, as is used in a nuclear bomb. Instead, it could use radioactive materials from hospitals, nuclear power stations or research laboratories. This makes them much cheaper and quicker to make than nuclear weapons.

Option a is incorrect: A thermobaric bomb is a type of explosive that utilizes oxygen from the surrounding air to generate an intense, high-temperature explosion, and in practice the blast wave typically produced by such a weapon is of a significantly longer duration than that produced by a conventional condensed explosive. The fuel-air bomb is one of the best-known types of thermobaric weapons.

Option b is incorrect: Space weapons are weapons used in space warfare. They **include weapons that can attack space systems in orbit** (i.e., anti-satellite weapons), attack targets on the earth from space or disable missiles travelling through space.

Option c is incorrect: A thermonuclear weapon, **fusion weapon or hydrogen bomb** (H bomb) is a second-generation nuclear weapon design. Its greater sophistication affords it vastly greater destructive power than first-generation nuclear bombs, a more compact size, a lower mass, or a combination of these benefits.

Q.31) Consider the following statements regarding the Sikhs during the British period:

- Sikhs lost the territory of Kashmir after they failed to pay the war indemnity under Treaty of Lahore.
- The Treaty of Bhairowal was signed between the Sikhs and the British after the Second Anglo Sikh War.

Which of the statements given above is/are correct?

- 1 only
- 2 only
- Both 1 and 2
- Neither 1 nor 2

Ans) a

Exp) Option a is the correct answer.

The British interest in the region of Punjab began when the prospects of a joint Franco-Russian invasion of India through the land-route had alarmed the English. Hence, in 1807, Lord Minto sent Charles Metcalfe to Lahore at Ranjit Singh's court. From here, the power struggle began in Punjab.

Statement 1 is correct: The Treaty of Lahore was signed on March 8, 1846, after the First Anglo-Sikh war. Under this, Sikhs had to give war indemnity of more than 1 crore of rupees to the British. However, **Sikhs failed to do so, hence, Kashmir including Jammu was sold to Gulab Singh and he was required to pay Rupees 75 lakh to the Company as the price.**

Statement 2 is incorrect: Treaty of Bhairawal was not signed after the Second Anglo Sikh War. It was signed between the Sikhs and the British when the Sikhs were not satisfied with the Treaty of Lahore over the issue of Kashmir, so they rebelled. According to the provisions of this treaty, Rani Jindan was removed as regent and a council of regency for Punjab was set up.

Source: Spectrum, Chapter 5, Expansion and consolidation of British power in India.

Q.32) With reference to developments in Art, Architecture and Culture during 18th century India, consider the following statements:

1. Bada Imambara was built during the rule of Nishapur Dynasty at Lucknow.
2. Rajputana and Kangra schools of painting lost their prominence.
3. Heer Ranjha, the romantic epic in Punjabi literature, was composed.
4. Mirza Raja Man Singh I constructed pink city of Jaipur.

Which of the statements given above are correct?

- a) 1, 2 and 3 only
- b) 1 and 3 only
- c) 2 and 4 only
- d) 1, 3 and 4 only

Ans) b

Exp) Option b is the correct answer.

The decline of the imperial Mughals forced talented people to seek the patronage of newly established state courts like Hyderabad, Lucknow, Jaipur, Murshidabad, Patna, Kashmir, etc.

Statement 1 is correct: At Lucknow, **Asaf-ud-Daula** (belonged to Persian Shia Muslim dynasty from **Nishapur**) built the **bada Imambara** in 1784.

Statement 2 is incorrect: new schools of painting were created and achieved distinction in the 18th century. The paintings of the **Rajputana and Kangra schools became prominent** and revealed new vitality and taste.

Statement 3 is correct: A distinct feature of the literary life of the 18th century was the growth of regional languages. During this period, **Heer Ranjha**, the romantic epic in Punjabi literature, was composed by **Warris Shah**.

Statement 4 is incorrect: In the first half of the 18th century, **Sawai Jai Singh built the pink city of Jaipur** and five astronomical observatories at Delhi, Jaipur, Benares, Mathura and Ujjain. He also prepared a set of timetables called Jij Muhammad-shahi, to help the people in the study of astronomy.

Q.33) Consider the following statements about the Policy of Ring Fence employed by the British in India:

1. It was first introduced and employed by Lord Wellesley in India.
2. The States brought under the ring fence system were provided assured military assistance against external aggression at Company's expense.
3. The company employed this policy on the frontiers of Awadh to prevent its rule from the attacks of Marathas and Afghans.

Which of the statements given above is/are **incorrect**?

- a) 1 and 2 only
- b) 2 only
- c) 1 and 3 only
- d) 1 only

Ans) a

Exp) Option a is the correct answer.

The process of imperial expansion and consolidation of British paramountcy was carried on by the Company during the 1757-1857 period through a two-fold method: (a) policy of annexation by conquest or war; and (b) policy of annexation by diplomacy and administrative mechanisms. Later used diplomatic tools like 'ring-fence' policy, 'subsidiary alliance', and 'doctrine of lapse'.

Statement 1 is incorrect: 'Ring-fence' policy was followed by the Governor General Warren Hastings and not by Lord Wellesley. Rather, the latter resort to the Subsidiary alliance to stronghold company's position in India.

Statement 2 is incorrect: The policy aimed at creating buffer zones to defend the Company's frontiers. Broadly speaking, it was the policy of defence of their neighbours' frontiers for safeguarding their own territories. **The states brought under the ring-fence system were assured of military assistance against external aggression—but at their own expense.** In other words, these allies were required to maintain subsidiary forces which were to be organised, equipped and commanded by the officers of the Company who, in turn, were to be paid by the rulers of these states.

Statement 3 is correct: The chief danger to the Company's territories was from the Afghan invaders and the Marathas. **To safeguard against these dangers company adopted the ring fence policy. Under this, the Company undertook to organise the defence of the frontiers of Awadh** on the condition that the Nawab would defray the expenses of the defending army. The defence of Awadh constituted the defence of Bengal during that time.

Q.34) Consider the following statements about the Anglo-Nepalese relations during the British period in India:

1. The conflict between the Gorkhas and the British began during the period of Lord Hastings.
2. The Treaty of Yandabo was signed between the British and the Gorkhas to ensure mutual peace.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) a

Exp) Option a is the correct answer.

Statement 1 is correct: In 1801, the English annexed Gorakhpur which brought the Gorkhas' boundary and the Company's boundary together. The Gorkhas wrested control of Nepal from the successors of Ranjit

Malla of Bhatgaon in 1760 itself. The conflict started due to the Gorkhas' capture of Butwal and Sheoraj during the period of **Lord Hastings (1813-23)**.

Statement 2 is incorrect: The war between both sides forced them to sign the Treaty of Sagauli in 1816. However, the Treaty of Yandabo was signed between the British and the Burmese in 1826 after the First Burma War (1824-26).

Knowledge Base: The Treaty of Sagauli, 1816 was actually in favour of the British. Under this, Nepal accepted a British resident. It ceded the districts of Garhwal and Kumaon, and abandoned claims to Terai and withdrew from Sikkim. **This agreement also made the Gorkhas to join the British Indian Army in large numbers.**

Source: Spectrum, Chapter 5, Expansion and consolidation of British power in India.

Q.35) With reference to the Law Commission of India, consider the following statements:

1. It is a non-constitutional and non-statutory body.
2. Its recommendations are binding on the Government.
3. It can be chaired only by a retired judge of the Supreme court.
4. Its origin can be traced back to the pre-independent India.

Which of the statements given above is/are correct?

- a) 1 only
- b) 1, 3 and 4 only
- c) 2 and 4 only
- d) 1 and 4 only

Ans) d

Exp) Option d is the correct answer.

Recently, the Supreme Court issued notice to the Centre on **PIL seeking the Law Commission to be declared a 'statutory body'**. The PIL contended that the non-working of the Law Commission is depriving the Centre of the benefit of the law commission's insights on the various aspects of the law.

Statement 1 is correct: Law Commission of India is a non-constitutional and non-statutory body and is constituted by a **notification of the Government of India** to carry out research in the field of law and make recommendations to the Government.

Statement 2 is incorrect: The recommendations of the law commission are not binding on the government even the recommendations were made on the matter referred to it by the Supreme court. The law commission has **taken up various subjects on references made by the Department of Legal Affairs, Supreme Court and High Courts and submitted 277 reports.**

Statement 3 is incorrect: The retired chief justice of the High court can also become a **chairperson of the Law commission.** Retired High Court Chief Justice Rituraj Awasthi has been appointed as the **chairperson of the 22nd law commission of India** which was constituted in 2020. Also **Mr. M. C. Setalvad who is the first chairperson of the law commission was an Attorney General of India.**

Statement 4 is correct: The first Law Commission was established during the British Raj era in 1834. It was established by the **Charter Act of 1833 and was chaired by Lord Macaulay.** In 1955, the first Law Commission of independent India was established for a three-year term. Since then, twenty-one more Commissions have been established.

Q.36) In the context of Modern Indian history, Consider the following statements regarding uprisings in Ganjam and Gumsur in the first half of 19th century:

1. Strikara Bhanj and Dhananjay Bhanj were the leaders of this uprising.
2. The main cause of the revolt was the resentment caused due to subsidiary alliance arrangement.
3. One of the main Centers of this uprising was in the Northern Circar region.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 1 and 3 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

Ganjam and Gumsur uprising occurred in the Northern Circar region in the late 18th century against British rulers over payment of unjustifiable revenues to them.

Statement 1 is correct: Under Ganjam and Gumsur uprisings, the Northern Circars, Ganjam and its adjoining regions rose in revolt against the British rule. Strikara Bhanj, a zamindar of Gumsur in Ganjam district, refused to pay revenues in 1797. In 1800, he openly rebelled and defied the public authorities.

Dhananjay Bhanj, a son of Strikara Bhanj rose in rebellion for the second time when the British forces occupied Gumsur and Kolaida in November 1835. The revolt greatly reduced the government's authority, but Dhananjay died in December 1835 and his followers continued the resistance.

Statement 2 is incorrect: Subsidiary alliance was not the cause of revolt in the Ganjam and Gumsur. The revolt was against the payment of revenue.

Statement 3 is correct: As mentioned above, the Northern Circars, Ganjam and its adjoining regions rose in revolt against the British rule in the uprisings in Ganjam and Gumsur.

Source: A brief History of Modern India, Spectrum Publication, 2020 edition.

Q.37) Read the following paragraph carefully:

“This Mughal Emperor was also known as Ali Gauhar. He inherited a crumbling and a rather small Mughal empire. During his reign, the Mughal Empire extended only from Delhi to Palam – a suburb of Delhi. His reign saw two decisive battles—the Third Battle of Panipat (1761) and the Battle of Buxar (1764)”.

The above description is best associated with which of the following Mughal Emperor?

- a) Muhammad Shah
- b) Shah Jahan III
- c) Shah Alam II
- d) Bahadur Shah II

Ans) c

Exp) Option c is the correct answer.

The Mughal Emperor **Shah Alam II** (1760–1806) was also known as Ali Gauhar. During his tenure, the mighty Mughal empire had shrunk and confined only from **Delhi to Palam**. The fortunes of Shah Alam II rarely prospered during his lifetime. He saw two important battles-

- 1) **Third Battle of Panipat (1761):** It was fought between the Maratha Empire and the invading army of Durrani Empire. The Afghans were supported by four key allies in India: the Pashtun Rohillas under the command of Najib ad-Dawlah the Baloch Khanate of Kalat, and the Oudh State under Shuja-ud-Daula as well as elements of the declining Mughal Empire

2) **The Battle of Buxar (1764):** It was a battle fought between the English Forces, and a joint army of the Nawab of Oudh, Nawab of Bengal, and the Mughal Emperor. The battle was the result of misuse of trade privileges granted by the Nawab of Bengal.

The British won the Battle of Buxar and Treaty of Allahabad was signed. Under this treaty, Shah Alam II was taken under the East India Company's protection and resided at Allahabad. He was made to issue a Farman to grant in perpetuity the Diwani (revenue collection) rights in Bengal, Bihar and Orissa. In 1772, the Marathas took him to Delhi where he lived till 1803. In 1803, he again accepted the protection of the English, after the defeat of Daulat Rao Scindia by the English. Afterwards, the Mughal emperor became the pensioner of the English.

Q.38) Consider the following statements regarding Rani Laxmibai's role in the revolt of 1857:

1. She raised a revolt against British rulers to oppose the policy of Doctrine of Lapse.
2. Tantia Tope and Scindia Ruler of Gwalior supported her in the struggle against British.
3. She defeated Sir Hugh Rose in the Battle at Kalpi.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1 and 2 only

Ans) a

Exp) Option a is the correct answer.

Rani Lakshmi Bai is remembered for her valour during the Indian Mutiny of 1857–58. During a siege of the fort of Jhansi, she offered stiff resistance to the invading forces and did not surrender even after her troops were overwhelmed.

Statement 1 is correct: Lord Dalhousie, the governor general, had refused to allow Rani Laxmibai's adopted son to succeed to the throne after her husband Raja Gangadhar Rao died, and had annexed the state by the application of the infamous 'Doctrine of Lapse'. Driven out of Jhansi by British forces, she gave the battle cry—"main apni Jhansi nahin doongi" (I shall not give away my Jhansi).

Doctrine of Lapse: It was a formula devised by Lord Dalhousie, governor-general of India (1848–56), to deal with questions of succession to Hindu Indian states.

Statement 2 is incorrect: In her struggle against British, Rani Laxmibai was joined by Tantia Tope, a close associate of Nana Saheb, after the loss of Kanpur. The Rani of Jhansi and Tantia Tope marched towards Gwalior where they were hailed by the Indian soldiers. The Scindia, the local ruler, however, decided to side with the English and took shelter at Agra.

Statement 3 is incorrect: When Jhansi was captured by British troops in June 1858, Lakshmbai fled to Kalpi, joined forces with Tantia Tope, and captured Gwalior fort by defeating the army of the Raja of Gwalior. The Rani, however, was killed in battle and Tantia Tope went into hiding before he was finally caught and hanged in 1859. This signalled the end of the Revolt.

Sir Hugh rose defeated Rani Laxmibai and captured Jhansi in 1858. In his tribute to Rani Laxmibai he said, "Here lay the woman who was the only man among the rebels."

Q.39) Consider the following statements regarding the revolt of Moamarias:

1. The Moamarias were low-caste peasants who followed the teachings of Aniruddhadeva.
2. Jatra Bhagat was one of the key leaders of the revolt of Moamarias.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) a

Exp) Option a is the correct answer.

Moamarias Revolt represents socio-religious strife that ultimately (if not immediately) led to the fall of Ahom Kingdom in Assam.

Statement 1 is correct: The Moamarias were low-caste peasants who followed the teachings of Aniruddhadeva (1553–1624), and their rise was similar to that of other low-caste groups in North India. Their revolts weakened the Ahoms and opened the doors for others to attack the region. For instance, in 1792, the King of Darrang (Krishnanarayan), assisted by his band of burkandazes (the demobilised soldiers of the Muslim armies and zamindars), revolted.

Statement 2 is incorrect: Jatra Bhagat was associated with the Tana Bhagat Movement that happened during 1920–1921. He was not associated with the revolt of the Moamarias that happened in 1769.

Source: A brief History of Modern India, Spectrum Publication, 2020 edition.

Q.40) With reference to “UNSC Counter-Terrorism Committee”, consider the following statements:

1. It was established by UN Security Council resolution in the wake of the 9/11 terror attacks in the US.
2. It consists of the representatives from all the members of the United Nations.
3. The committee provides technical assistance on counter terrorism directly to the Member States.
4. The decisions of the committee with respect to counterterrorist activities are binding on all the member states of the United Nations.

Which of the statements given above is/are correct?

- a) 1 only
- b) 1, 2 and 3 only
- c) 2 and 4 only
- d) 1, 2 and 4 only

Ans) a

Exp) Option a is the correct answer.

Recently, India has hosted a **special meeting of the United Nations Security Council’s Counter Terrorism Committee (CTC)** to discuss terror-financing through crypto-currency and use of drones in the new-age terrorism. This will be the first such meeting of the UNSC-CTC in India since its establishment in 2001. The Permanent Representative of India (Ruchira Kamboj) to the UN (United Nations) serves as the Chair of the CTC for 2022.

Statement 1 is correct: United Nations Security Council’s Counter Terrorism Committee (CTC) was established by **Security Council resolution 1373** which was adopted unanimously on 28th September 2001 **in the wake of the 9/11 terror attacks** in the US.

Statement 2 is incorrect: The Committee **comprises all 15 Security Council members**. Five permanent members: China, France, Russian Federation, the United Kingdom, and the United States, and ten non-permanent members elected for two-year terms by the General Assembly. **Secretary-General of the UN and presiding officer of the UN General Assembly are not the members of UN CTC.**

Statement 3 is incorrect: The **UNSC Counter-Terrorism Committee do not provide technical assistance directly to Member States**. Rather, they facilitate the delivery of technical assistance, in accordance with

the CTC Policy Guidance on Technical Assistance, through **close engagement with a broad range of donor and provider organizations**.

Statement 4 is incorrect: The decisions of the committee with respect to counterterrorist activities are **non-binding**. The Committee is tasked with monitoring the implementation of resolution 1373 which **requested countries to implement a number of measures** aimed at enhancing their legal and institutional ability to counterterrorist activities.

Frequently Asked Questions (FAQs) | Security Council – Counter-Terrorism Committee (CTC)

Q.41) Consider the following statements regarding the Treaty of Lhasa, 1904:

1. Lord Curzon was the Viceroy of India when this treaty was concluded.
2. The Treaty of Lhasa mandated Tibet to recognize and accept the border of Sikkim.
3. The treaty provided that England can negotiate with the Tibet only through the mediation of the Chinese government.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) a

Exp) Option a is the correct answer.

Tibet was ruled by a theocracy of Buddhist monks (lamas) under nominal suzerainty of China. The British efforts to establish friendly and commercial relations with Tibet had not yielded any result in the past and a deadlock had been reached by the time of Curzon's arrival in India.

Statement 1 is correct: Lord Curzon served as viceroy of India from 1899 to 1905. The treaty of Lhasa was concluded in 1904. Hence Curzon was the viceroy of India when the Treaty of Lhasa was concluded.

Statement 2 is correct:

Key provisions of the treaty of Lhasa are:

Treaty of Lhasa (1904)

- (a) Tibet would pay an indemnity of 75 lakh rupees at the rate of one lakh rupees per annum;
- (b) as a security for payment, the Indian Government would occupy the Chumbi Valley (territory between Bhutan and Sikkim) for 75 years;
- (c) Tibet would respect the frontier of Sikkim;**
- (d) Trade marts would be opened at Yatung, Gyantse, Gartok; and
- (e) Tibet would not grant any concession for railways, roads, telegraph, etc., to any foreign state, but give Great Britain some control over foreign affairs of Tibet.

Later, on the insistence of the Secretary of State and true to the pledge given to Russia, the treaty was revised reducing the indemnity from Rs 75 lakh to Rs 25 lakh and providing for evacuation of Chumbi valley after three years (the valley was actually evacuated only in January 1908).

Statement 3 is incorrect: The Anglo-Russian convention of 1907 (Not the treaty of Lhasa) provided that the two great powers would not negotiate with Tibet, except through the mediation of the Chinese government.

Source: A brief History of Modern India, Spectrum Publication, 2020 edition.

Q.42) Consider the following statements with reference to the British policy in India:

1. Forward policy of Auckland implied that it was East India Company's responsibility to protect the boundary of British India from a probable Russian attack.
2. John Lawrence started a foreign policy of 'proud reserve' which was aimed at safeguarding 'spheres of influence'.
3. Lord Curzon created the North-West Frontier Province (NWFP) directly under the control of Government of India.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

Primary motive behind establishing relations with Afghan rulers was British quest to search for a scientific frontier from the Indian side. Passes of the north-west seemed to hold the key to enter India. The need was felt for Afghanistan to be under control of a ruler who would be friendly to the British.

Statement 1 is correct: Auckland came to India as the governor general in 1836 and advocated a forward policy. This implied that the Company government in India itself had to take initiatives to protect the boundary of British India from a probable Russian attack. This objective was to be achieved either through treaties with the neighboring countries or by annexing them completely.

Statement 2 is incorrect: Lytton, a nominee of the Conservative government under Benjamin Disraeli (1874–80), became the Viceroy of India in 1876. He started a new foreign policy of 'proud reserve', which was aimed at having scientific frontiers and safeguarding 'spheres of influence'. According to Lytton, the relations with Afghanistan could no longer be left ambiguous.

Statement 3 is correct: Curzon, the viceroy between 1899 and 1905, followed a policy of withdrawal and concentration. British troops withdrew from advanced posts, which were replaced by tribal levies, trained and commanded by British officers. He also encouraged the tribals to maintain peace. He created the North-West Frontier Province (NWFP) directly under the Government of India (earlier, it was under control of the lieutenant-governor of Punjab). Overall, Curzon's policies resulted in a peaceful north-west frontier. Source: A brief History of Modern India, Spectrum Publication, 2020 edition.

Q.43) Which of the following were the major causes of civil uprisings that occurred in India during the British rule?

1. Encroachments on tribal lands by the East India Company.
2. Rapid changes in the land revenue system
3. The ruin of Indian handicraft industries.
4. British interference in religious practices of Indians.

Which of the statements given above are correct?

- a) 1 and 3 only
- b) 2, 3 and 4 only
- c) 1, 2 and 3 only
- d) 1, 2, 3 and 4

Ans) d

Exp) Option d is the correct answer.

Civil uprising comprises of those uprisings which were generally led by deposed native rulers or their descendants, former zamindars, landlords, poligars and officials of the conquered kingdoms, or sometimes by religious leaders. The mass support generally came from rack-rented peasants, unemployed artisans, and demobilised soldiers, although at the centre of these uprisings were erstwhile power-wielding classes.

Major Causes of Civil Uprisings

- 1) Colonial land revenue settlements, heavy burden of new taxes, eviction of peasants from their lands, and encroachments on tribal lands by the East India Company. Hence, Statement 1 is correct.
- 2) Under the Company rule, there were rapid changes in the economy, administration, and land revenue system that went against the people. Hence, Statement 2 is correct.
- 3) Several zamindars and poligars, who had lost control over their land and its revenues due to the colonial rule, had personal scores to settle with the new rulers.
- 4) The ego of traditional zamindars and poligars was hurt due to being sidelined in rank by government officials and a new class comprising of merchants and money-lenders.
- 5) The ruin of Indian handicraft industries due to colonial policies impoverished millions of artisans whose misery was further compounded by the disappearance of their traditional patrons and buyers—princes, chieftains, and zamindars. Hence, Statement 3 is correct.
- 6) British interference in religious practices of native people was another cause of these popular rebellion. Revolts like 1857 were the direct outcome of the British interference in the religious matters of the Indian people. When Sati was abolished and Widow Remarriage Act was enacted, many people rose up against the interference of the British in their religious matters. Hence, Statement 4 is correct.

Source: A brief History of Modern India, Spectrum Publication, 2020 edition.

Q.44) Consider the following statements regarding the Revolt of Raja of Vizianagaram:

1. The primary cause of the revolt was the British annexation of Vizianagaram by applying the 'Doctrine of Lapse'.
2. The Battle of Padmanabhan is associated with this revolt.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) b

Exp) Option b is the correct answer.

Statement 1 is incorrect: Application of Doctrine of Lapse is not associated with the Revolt of Raja of Vizianagaram. In 1758, a treaty was made between the English and Ananda Gajapatiraju, the ruler of Vizianagaram, to jointly oust the French from the Northern Circars. In this mission they were successful. After their victory, the British went back on their words, demanded a tribute from the Raja and asked him to disband his troops. Raja of Vizianagaram did not accept the demands of the British and started the revolt.

Statement 2 is correct: The battle at Padmanabham is associated with this revolt. The raja died in a battle at Padmanabham (in modern Visakhapatnam district in Andhra Pradesh) in 1794 while fighting the British troops.

Source: A brief History of Modern India, Spectrum Publication, 2020 edition.

Q.45) With reference to challenges in the promotion of electric vehicles (EV) in India, consider the following statements:

1. High capital cost in purchasing of electric vehicle.
2. Insufficient charging infrastructure compared to traditional petrol stations.

3. Lack of constant power supply for EV users in India.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

India offers the world's largest untapped Electric Vehicle market, especially in case of two-wheelers. The government is aggressively promoting EV adoption in India, but it has various challenges associated with it. These include inadequate infrastructure, lack of high performing EVs and high upfront cost.

Statement 1 is correct: 63% of consumers believe that an EV is beyond their budget. Hence, **High capital cost** has always been a major factor in determining the purchase of Electric vehicle.

Statement 2 is correct: The lack of adequate charging infrastructure in our country is a huge barrier in the promotion of electric vehicle. Compared to traditional petrol stations, charging stations are harder to find, normally limited by investment costs. It is anticipated that there will be a shortage of nickel, that may cause manufacturers to use lower-quality mineral inputs, adversely affecting battery performance.

Statement 3 is correct: Power shortage is a huge barrier in the promotion of electric vehicle. There has been increasing trend of power shortages in past six years which aggravated the issue. maximum EV users will be two and three wheelers and this consumer does not get power supply 24/7.

Source: [https://www.thehindu.com/sci-tech/technology/the-road-to-the-future-of-electric-vehicles-in-](https://www.thehindu.com/sci-tech/technology/the-road-to-the-future-of-electric-vehicles-in-india/article65233617.ece#:~:text=While%20the%20government%20is%20aggressively,hindrance%20for%20its%20mass%20adoption.)

[india/article65233617.ece#:~:text=While%20the%20government%20is%20aggressively,hindrance%20for%20its%20mass%20adoption.](https://www.thehindu.com/sci-tech/technology/the-road-to-the-future-of-electric-vehicles-in-india/article65233617.ece#:~:text=While%20the%20government%20is%20aggressively,hindrance%20for%20its%20mass%20adoption.)

Q.46) During the struggle for establishment of supremacy in South India, the English and the French had fought a series of Carnatic Wars. In this context, consider the following statements:

1. The English forces won over the combined forces of Nawab of Carnatic and French in the Battle of St. Thome.
2. The French, led by Governor Duplex, won the Battle of Wandiwash in 1760.
3. The Treaty of Peace of Paris is related to the Third Carnatic War.

Which of the statements given above is/ are correct?

- a) 1 and 3 only
- b) 2 and 3 only
- c) 3 only
- d) None of the above.

Ans) c

Exp) Option c is the correct answer.

Both the British as well as French came to India for trading purposes. Later, their rivalry grew deeper due to involvement into the politics of India.

Statement 1 is incorrect: The **Battle of St. Thome took place 1746** during the First Carnatic War (1740–48). It was perceived as an extension of Anglo–French war in Europe which was caused by Austrian War of Succession. In the Battle of St. Thome, **French got the victory**. The Nawab Anwar-ud-din was supported by British and had a relatively larger army than the French. But under the leadership of Captain Paradise, French emerged victorious.

Statement 2 is incorrect: Governor Dupleix was involved in the Second Carnatic War (1749–54), whereas **Battle of Wandiwash (1760) took place during the Third Carnatic War** (1758–63). The Second Carnatic war was the result of meddling in the internal politics of Hyderabad and Carnatic regions. Dupleix was recalled from India in 1754 due to initial defeat of French army and the heavy cost incurred by the Company due to his political decisions. The **English won the Battle** of Wandiwash (1760) during the Third Carnatic War. It was **led by General Eyre Coot**. French side was led by Count Thomas Arthur de Lally.

Statement 3 is correct: The **Third Carnatic War** (1758–63) concluded with the signing of **Treaty of Peace of Paris**. As per the Treaty, The British restored to the French their factories. However, their **political influence disappeared** after the War. Thereafter, French confined themselves to their small enclaves and to commerce. The Treaty is decisive because now English had become the supreme European power in the Indian sub-continent.

Q.47) Which of the following statements is correct regarding “misl”, related to the Sikhs?

- Misls were groups of military officers first formed by Maharaja Ranjit Singh.
- Misls were democratic in nature and their administration was based on Gurumatta Sangh.
- Misls were mainly formed to protect Punjab from the invasion of Nadir Shah.
- The Unity of Khalsa weakened due to powerful nature of misls.

Ans) b

Exp) Option b is the correct answer.

Misl refers to major Sikh confederacies that sought to expand Sikh rule across the Panjab.

Statement a is incorrect. These are not formed by Maharaja Ranjit Singh. These are **powerful confederacies of Sikhs which were organized in 12 misls** and operated in different parts of the province.

Statement b is correct. These misls are **democratic in nature** and are based on **principles of equality**, with all members having an **equal voice in deciding the affairs** of misls. The central administration of a misl was based on Gurumatta Sangh which was essentially a political, social and economic system.

Statement c is incorrect. These were formed with the withdrawal of Abdali from the Punjab. And by that time Nadir Shah had already invaded. **These were formed to fill the political vacuum created by the withdrawal of Ahmad Shah Abdali.**

Statement d is incorrect. Unity of Khalsa weakened not due to powerful nature of misls, but due to weakening of democratic nature of misls. **When misl's power got weakened, the spirit of brotherhood and the unity of Khalsa also disappeared** as the powerful chiefs constantly quarreled with one another and set themselves up as independent chieftains.

Q.48) Which of the following statements best describes the Cartaz System?

- Under the system, British traders had to pay tax to the Mughal emperor for trade in India.
- It was a land revenue system introduced by British government in India.
- It was a sea pass introduced by the Portuguese East India Company in the Indian Ocean.
- It was a system under which Portuguese got right to trade spices from India by land route.

Ans) c

Exp) Option c is the correct answer.

Cartaz System a sea-pass introduced by the Portuguese East India Company in the Indian Ocean region including Bay of Bengal in the early sixteenth century. Traditionally, the Arab and Persian mariners were predominant in the Indian Ocean traffic and by virtue of their supremacy they maintained order and

security in the maritime trade of the region. From the early sixteenth century, the Portuguese superseded the Muslim dominance in the maritime regime of the Indian Ocean. By declaring sovereignty over the Indian Ocean, the Portuguese introduced *cartaz* system as a mark of their authority.

Q.49) “He possessed qualities of an effective administrator and a diplomat. He was conferred the title of ‘Nawab’ by a Mughal emperor. He was the first European to interfere in the internal politics of the Indian rulers and paved the path of European conquest of India. He used the Nawab of Carnatic to forbid the English from waging war in his territories. He is considered the originator of the practice of subsidiary alliance in India.”

The above paragraph best describes which of the following personalities?

- Lord Wellesley
- Warren Hastings
- Joseph Dupleix
- Robert Clive

Ans) c

Exp) Option c is the correct answer.

Joseph Francis Dupleix, born in 1697, was the son of a wealthy Farmer-General of Taxes and Director-General of the Company of the Indies. He possessed qualities of an administrator, a diplomat, and a leader besides having political insight with a broad vision.

- In 1730, Dupleix won his case, and was appointed as governor of Chandernagore.
- In **1741**, he was **appointed as the Director-General of French colonies** in India. Later, he was **conferred the title of Nawab** by the Mughal emperor and the subahdar of Deccan, Muzaffar Jang.
- He **enhanced the defences of Pondicherry** and made it the emporium of commerce in south India.
- The effective diplomacy of Dupleix can be seen from the analysis of the first two Carnatic wars. He used the Nawab of Carnatic to forbid the English from waging war in his territories so that the French settlements at Pondicherry could be protected till the French forces acquired enough strength.
- Dupleix was the **first European to interfere in the internal politics** of the Indian rulers. He **supported Muzaffar Jang for Hyderabad and Chanda Sahib for Carnatic** and his candidates emerged successful and, in return, gave great concessions to Dupleix.
- Dupleix was, in fact, the **originator of the practice of subsidiary alliance** in India. He placed a French army at Hyderabad at the expense of the subahdar.

Q.50) With reference to Glyphosate, consider the following statements:

- It is a broad-spectrum herbicide that can control a range of weeds.
- Indian Government has completely banned the usage of glyphosate by farmers.
- US Environmental Protection Agency recently classified glyphosate as carcinogenic.

Which of the statements given above is/are correct?

- 1 only
- 2 and 3 only
- 1 and 3 only
- 1 and 2 only

Ans) a

Exp) Option a is the correct answer.

It is an herbicide used to kill weeds. It is used to kill weeds, especially annual broadleaf weeds and grasses that compete with crops.

Statement 1 is correct: Glyphosate is a broad-spectrum herbicide that can control a wide range of weeds, whether broadleaf or grassy. It is also non-selective, designed to kill all plants encountering it. The chemical cannot ordinarily distinguish between crop and weed. Hence, it can be used in tea or rubber plantations, but not in fields where the crops and weeds are at almost the same level.

Statement 2 is incorrect: The Ministry of Agriculture and Farmers Welfare has **not banned and only restricted its usage**. The spraying of glyphosate and its derivatives shall henceforth only be permitted through pest control operators. The limited usage has been done in normal agricultural crops by virtue of it being a non-selective herbicide.

Statement 3 is incorrect: The US Environmental Protection Agency **has denied any risks to human health from current uses of glyphosate and of it causing cancer**. World Health Organisation although classified glyphosate as “probably carcinogenic to humans”, but this was based on evidence for cancer in experimental animals from “pure” glyphosate. This is opposed to that in humans from real-world exposures through diluted formulations.

SFG 2023 | LEVEL 2 | Test #20 – Solutions | 

Q.1) Consider the following statements with reference to the reason for growth of militant nationalism during the first decade of the twentieth century:

1. There was an emergence of trained leadership
2. There occurred several international events which demolished the myth of European supremacy
3. Several unfavorable legislations were passed including Indian Universities Act of 1904.
4. There was an increase in the unemployment in the country.

Which of the above given statements are correct?

- a) 1, and 2 only
- b) 1, 3 and 4 only
- c) 2, 3 and 4 only
- d) 1, 2, 3 and 4

Ans) d

Exp) Option d is the correct answer.

A radical trend of a militant nationalist approach to political activity in India started emerging in the 1890s, and it took a concrete shape by 1905.

Statement 1 is correct: By the dawn of the 20th century, a band of nationalist thinkers had emerged who advocated a more militant approach to political work. These included Raj Narain Bose, Ashwini Kumar Dutta, Aurobindo Ghosh, and Bipin Chandra Pal in Bengal; Vishnu Shastri Chiplunkar and Bal Gangadhar Tilak in Maharashtra; and Lala Lajpat Rai in Punjab. The **new leadership could provide a proper channelization of the immense potential for political struggle which the masses possessed and, as the militant nationalists thought, were ready to give expression to.** This energy of the masses got a release during the movement against the partition of Bengal, which acquired the form of the swadeshi agitation.

Statement 2 is correct: The **defeat of the Italian army by Ethiopians (1896), the Boer wars (1899– 1902) where the British faced reverses, and Japan’s victory over Russia (1905) demolished myths of European invincibility.** Also, the nationalists were inspired by the nationalist movements worldwide—in Ireland, Russia, Egypt, Turkey, Persia, and China. The Indians realised that a united people willing to make sacrifices could take on the mightiest of empires.

Statement 3 and 4 are correct: The **Indian Universities Act of 1904 ensured greater government control of British government over Indian universities,** which it described as factories producing political revolutionaries. While, on the one hand, the spread of education led to an increased awareness among the masses, **on the other hand, the rise in unemployment and underemployment among the educated drew attention to poverty and the underdeveloped state of the country’s economy under colonial rule. This added to the already simmering discontent among the more radical nationalists.**

Q.2) "He advocated widow remarriage and opposed polygamy and child marriage. Instead of depending on the scriptures, he mainly cited medical opinion against child marriage. He wrote a book named 'Bhugol', which is considered as the first science-related book written in Bangla. He also authored the Padarthavidya. He worked as an editor of the Tattvabodhini Patrika."

The above description is related to who among the following?

- a) Behramji Malabari
- b) Raja Ram Mohan Roy
- c) Ishwar Chandra Vidyasagar
- d) Akshay Kumar Datta

Ans) d

Exp) Option d is the correct answer.

Akshay Kumar Datta/Dutta (1820-1886) educationist, social reformer and the chief activist of Adi Brahma Samaj. He was a rationalist and one of the initiators of the Bengal Renaissance. In advocating widow remarriage and opposing polygamy and child marriage, Akshay Kumar was least concerned with searching for any religious sanction or finding out whether they existed in the past. His arguments were mainly based on their noticeable effects on society. Instead of depending on the scriptures, **he cited medical opinion against child marriage**. He used to teach geography and physics at Tathvabodhini Pathashala. As Bangla books on these two subjects were not available at that time, **he wrote two textbooks Bhugol (1841) and Padarthavidya (1857)**. His **Bhugol is the first science-related book written in Bangla**, and through this book Akshay Kumar introduced punctuation marks in the Bangla language. He also wrote Padarthavidya. On 16 August 1843, Tattvabodhini Patrika was launched under the patronization of Debendranath Thakur **with Akshay Kumar Datta as editor**. This paper was the organ of the Brahma Samaj, and its objective was to discuss the Brahma religion and spiritual knowledge.

https://en.banglapedia.org/index.php/Datta,_Akshay_Kumar

Q.3) Which of the following statements is/are correct regarding Aruvippuram Movement?

1. This movement was started to liberate the temples in Kerala from the administrative control of the British.
2. It was started by EV Ramaswamy Naicker among the upper castes of Kerala.

Select the correct answer using the code given below:

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) d

Exp) Option d is the correct answer.

The Aruvippuram/Sree Narayana Guru Dharma Paripalana (SNDP) movement arose from caste conflict. It was started by **Sree Narayana Guru Swamy** (1856- 1928). He began his public activity as a rebel against the Brahmanical tradition. He coined the slogan **one religion, one caste, one God for mankind**.

Statement 1 is incorrect: The Aruvippuram movement was an example of a regional movement born out of **conflict between the depressed classes and upper castes**. Sri Narayana Guru in **Kerala led a lifelong struggle against upper caste domination (and not against Britishers)**. The lower caste people were banned from entering the temples and even using the public roads.

Statement 2 is incorrect: The Aruvippuram movement was started by **Sree Narayana Guru Swamy (and not by EV Ramaswamy Naicker) among the Ezhavas of Kerala**, who were a **backward caste (and not upper caste) of toddy-tappers** and were considered to be untouchables, **denied education and entry into temples**. Sri Narayana Guru was a **saint, philosopher, poet and social reformer**. He focused on education and united lower castes for social justice.

Knowledge Base: Thus, the Aruvippuram Sree Narayana Guru Dharma Paripalana Yogam (in short SNDP) was registered in 1903 under the Indian Companies Act, with Narayana Guru as its permanent chairman, and Kumaran Asan as the general secretary.

Source: Chapter-9: A General Survey of Socio- Cultural Reform Movements, A brief history of modern India by Rajiv Ahir.

Q.4) Consider the following statements regarding the economic critique of British imperialism:

1. R. C. Dutt and Dinshaw Wacha put forward the “drain theory” to explain economic exploitation of India.
2. Early nationalists considered the policy of free trade as a major obstacle to rapid industrial development in India.
3. Indian leadership demanded encouragement to modern industry through tariff protection and direct government aid.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

The early nationalists of India analysed the colonial character of British rule in India in great detail. The economic critique produced by them was one of the remarkable achievements of the moderate nationalists.

Statement 1 is correct: The early nationalists, led by Dadabhai Naoroji, **R.C. Dutt, Dinshaw Wacha** and others, carefully analysed the political economy of British rule in India, and put forward the “**drain theory**” to explain British exploitation of India. They opposed the transformation of a basically self-sufficient Indian economy into a colonial economy (i.e., a supplier of raw materials and food stuff, an importer of finished goods and a field of investment for British capital).

Statement 2 is correct: According to early nationalists, a **major obstacle** to rapid industrial development was the **policy of free trade** which was, on the one hand running India's handcraft industries and on the other hand forcing the Infant and underdeveloped modern industries in to a premature and hence unfair and distorted competition which the highly organized and developed industries of the west.

Statement 3 is correct: To mitigate the deprivation characterizing Indian life, the early nationalists demanded severance of India's economic subservience to Britain and development of an independent economy through involvement of Indian capital and enterprise. The early nationalists demanded reduction in land revenue, abolition of salt tax, improvement in working conditions of plantation labour, reduction in military expenditure, and **encouragement to modern industry** through **tariff protection and direct government aid**.

[https://www.deshbandhucollege.ac.in/pdf/resources/1586504125_BA\(P\)-IV-His-EM-lec.pdf](https://www.deshbandhucollege.ac.in/pdf/resources/1586504125_BA(P)-IV-His-EM-lec.pdf)

Q.5) With reference to ‘North Eastern Council’, consider the following statements:

1. It is an executive body under the administrative purview of the Prime Minister's Office (PMO).
2. President nominates the chairman of the council.
3. The council is only an advisory body and cannot allocate funds for development projects in the region.

Which of the statement(s) given above is/are correct?

- a) 1 and 2 only
- b) 2 only
- c) 2 and 3 only
- d) None

Ans) d

Exp) Option d is the correct answer.

The **North Eastern Council (NEC)** was established in 1971 as a regional planning body for the eight states in the northeastern region of India: Arunachal Pradesh, Assam, Manipur, Meghalaya, Mizoram, Nagaland,

Tripura, and Sikkim. The Golden Jubilee of the NEC was celebrated in Shillong on the 18th of December 2022.

Statement 1 is incorrect: North Eastern Council is a **statutory body under the administrative purview of Ministry of Development of the North Eastern Region (not PMO)**. North Eastern Council (NEC) is a statutory advisory body constituted under the North Eastern Council Act 1971 and came into being on 7 November 1972 at Shillong.

Statement 2 is incorrect: The **North Eastern Council Act was amended by Parliament in 2002**. The 'North Eastern Areas' now means the area comprising the States of Assam, Manipur, Meghalaya, Nagaland, Tripura, Arunachal Pradesh, Sikkim and Mizoram. The Council comprises of Governors and Chief Ministers of constituent States and three members to be nominated by the President as per clause (iii) of Section 3 of the North Eastern Council (Amendment) Act, 1971. **The Union Home Minister is ex-Officio Chairman and the Minister of State-Independent Charge (MoS(IC)) DoNER is the ex-Officio Vice-Chairman of the NEC (Hence chairperson is not nominated by President)**.

Statement 3 is incorrect: The mandate of North Eastern Council is not just to formulating and coordinating the implementation of development plans and programs for the northeastern states, it also **allocates and utilizes funds for development projects** in the region. The strategy for NEC is to encourage the State Governments to fully leverage funds from the Central Ministries/Central organisations and then use **NEC funds for meeting critical gaps not covered under the Central schemes/programmes**.

Q.6) Consider the following statements regarding the Prarthana Samaj:

1. It was founded by Mahadeo Govind Ranade as a precursor of Paramhansa Sabha.
2. It supported women education and monotheism.
3. The samaj directly opposed the Hindu orthodoxy on social issues through violent measures.

Which of the statements given above is/are **incorrect**?

- a) 1 only
- b) 2 and 3 only
- c) 3 only
- d) 1 and 3 only

Ans) d

Exp) Option d is the correct answer.

Prarthana Samaj, (Prayer Society) was established in Bombay in the 1860s. It is a movement for religious and social reform in Bombay, based on earlier reform movements. **A precursor of the Prarthana Samaj was the Paramhansa Sabha, something like a secret society to spread liberal ideas and encourage the breakdown of caste and communal barriers.**

Statement 1 is incorrect: In 1867, Keshab Chandra Sen helped Atmaram Pandurang found the Prarthana Samaj in Bombay. **Mahadeo Govind Ranade joined the samaj in 1870 (he was not a founder member)**. His efforts made the samaj gain an all-India character. Other leaders of the samaj were **R.G. Bhandarkar and N.G. Chandavarkar. A predecessor of the Prarthana Samaj was the Paramhansa Sabha, a secret society to promote liberal ideas and discourage caste barriers.** So, statement 1 is incorrect.

Statement 2 is correct: The Prarthana Samaj emphasised on **monotheism**, but on the whole, the samaj was **more concerned with social reforms** than with religion. The samaj denounced priestly domination and caste distinctions. The samaj focused on **women's education and widow remarriage**.

Statement 3 is incorrect: The samaj relied on education and persuasion and not on confrontation with Hindu orthodoxy (so the samaj was not in confrontation with religious orthodox). The samaj was also focused upon disapproval of the caste system and raising the age of marriage for both males and females. Source: Chapter-9: A General Survey of Socio- Cultural Reform Movements, A brief history of modern India by Rajiv Ahir

Q.7) Consider the following statements about the Revolutionary activities during the first two decades of the 20th century:

1. The revolutionaries followed the methodology of Russian nihilist which involved individual heroic actions.
2. The “Zimmerman Plan” & the “Taxicab dacoities” are related with the Jugantar Party.
3. For promoting the revolutionary activities outside India, “India House” was established in London by Lala Har Dayal.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 1 and 3 only
- c) 2 only
- d) 1, 2 and 3

Ans) a

Exp) Option a is the correct answer.

Statement 1 is correct. The revolutionaries considered creating a violent mass revolution throughout the country but did not find it practical. Therefore, they **opted to follow the footsteps of Russian nihilists or the Irish Nationalists.** This methodology **involved individual heroic action**, such as organizing assassinations of unpopular officials and of traitors and informers among the revolutionaries themselves.

Statement 2 is correct. During the First World War, The **Jugantar Party** arranged to import German arms and ammunitions through sympathizers and revolutionaries abroad which is known as the **“German Plot or The Zimmerman Plan”**. The Jugantar party raised funds through a series of dacoities which came to be known as taxicab dacoities and boat dacoities, so as to work out the plan.

Statement 3 is incorrect. **Shyamji Krishnavarma** started in London in 1905 an Indian Home Rule society- “India House” as a center for Indian students, a scholarship scheme **to bring radical youth from India**, and a journal “The Indian Sociologist”. Revolutionaries such as **Savarkar and Hardayal became the members of India House.**

Source: Spectrum (Page 290, 291 and 292).

Q.8) Which of the following statements is/are correct regarding Bal Gangadhar Tilak and Gopal Ganesh Agarkar?

1. Due to his differences with Tilak, Agarkar resigned from the editorship of ‘Kesari’ and established a separate newspaper called ‘Sudharak’.
2. Tilak believed in reformation of society by Indians themselves whereas Agarkar had no hesitation in taking help from the British.

Select the correct answer using the code given below:

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) c

Exp) Option c is the correct answer.

Gopal Ganesh Agarkar was a proponent of rationalism, equality, and humanism, and believed that education and the press could play a critical role in spreading these ideas. Tilak and Agarkar decided to dedicate their lives to nation building. One way to do this was through education and raising public awareness through the press. **The Deccan Education Society in 1884 and Fergusson College in 1885** was established by these stalwarts of India's freedom struggle.

Statement 1 is correct: Bal Gangadhar Tilak and Gopal Ganesh Agarkar started **two newspapers Kesari in Marathi and Maratha in English in 1881. Agarkar became the editor of Kesari and Tilak that of Maratha.** Due to differences between Agarkar and Lokmanya Tilak, Agarkar resigned from the editorship of Kesari. Therefore, from then he started his own **newspaper Sudharak. Agarkar's Sudharak, like Tilak's Kesari, was available in Marathi,** a language understood by the masses.

Statement 2 is correct: Tilak believed that **Indian society can best be reformed by Indians themselves** and objected to any British interference in reforming Hindu society. **Agarkar was impressed by the democratic tradition of the West and had no hesitation in taking help from the British administration in introducing reforms in India.** Tilak believed that the answers to what ailed us could be found in the evolution of our own traditions. Tilak repeatedly stated that he is not against social reforms per se, but it should not be a top priority of the Indian struggle. Agarkar had no compunctions about borrowing from principles of modernity in the West, if this would help spawn a more progressive Indian society.

Knowledge Base: **Gopal Ganesh Agarkar was an ardent devotee of John Stuart Mill.** He was inspired from the **Age of Enlightenment in Europe** and the writings of Mill, Spencer, Voltaire and Rousseau which made him a proponent of scientific rationalism. His social reform agenda included women liberation, opposition to superstitious rituals, removal of caste discrimination, spread of scientific temperament and promotion of education for both men and women.

Chapter-9: A General Survey of Socio- Cultural Reform Movements, A brief history of modern India by Rajiv Ahir.

Q.9) Consider the following statements regarding Singh Sabha Movement:

1. One of its objectives was to promote modern western education among Sikhs.
2. The Akali Movement was an offshoot of Singh Sabha Movement.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) c

Exp) Option c is the correct answer.

The Singh Sabha Movement was founded at Amritsar in 1873. The movement's aims were the **revival of the Sikh Gurus' teachings.** This movement sought to revive **Sikh doctrine in its pristine purity.** The first unit, formed in Amritsar in 1873. The Singh Sabha Movement concerned itself with **Sikh education and religious matters.**

SFG 2023 | LEVEL 2 | Test #20 – Solutions | ForumIAS

Statement 1 is correct: One of the objectives of the Singh Sabha Movement was **to make modern western education available to the Sikhs**. For this objective, a **network of Khalsa schools** was established by the Sabha throughout Punjab. Also, its aim was the establishment of the Khalsa codes of conduct and lifestyle, as taught by the Sikh Gurus.

Statement 2 is correct: The **Akali movement** (also known as **Gurudwara Reform Movement**) was an offshoot of the Singh Sabha Movement. It aimed at **liberating the Sikh gurudwaras from the control of corrupt Udasi mahants** (the post having become hereditary). The government tried its repressive policies against the non-violent non-cooperation satyagraha launched by the Akalis in 1921 but had to bow before popular demands; it passed the **Sikh Gurudwaras Act in 1922**.

Chapter-9: A General Survey of Socio- Cultural Reform Movements, A brief history of modern India by Rajiv Ahir.

Q.10) With reference to ‘United Nations Biodiversity Conference (COP15), consider the following statements:

1. The conference was held at Montreal, Canada, under the presidentship of China.
2. The conference adopted the Global Biodiversity Framework (GBF) for the sustainable use and sharing of benefits from genetic resources.
3. A Special Trust Fund is established under the Global Environment Facility to support the implementation of the Global Biodiversity Framework.

Which of the statements given above is/are correct?

- a) 1 only
- b) 1 and 2 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

The Convention on Biological Diversity (CBD) is the international legal instrument for “the conservation of biological diversity, the sustainable use of its components and the fair and equitable sharing of the benefits arising out of the utilization of genetic resources” that has been ratified by 196 nations.

Statement 1 is correct: The **2022 United Nations Biodiversity Conference (COP15) of the Parties to the UN Convention on Biological Diversity (CBD) was planned to be held in April 2022 in Kunming, China, but was postponed**, for a fourth time, to the third quarter of 2022 according to the UN secretariat office on March 29. It was originally scheduled to be held in October 2020, but was delayed due to the COVID-19 pandemic. In June 2022, the UN secretariat for the Convention on Biological Diversity and China’s environment ministry said in separate statements that the meeting was held in **December 2022 in Montreal, Canada, where the secretariat is based, though China would remain the president of the summit.**

Statement 2 is correct: The 15th Conference of Parties (COP15) to the UN Convention on Biological Diversity (CBD) adopted the **Global Biodiversity Framework (GBF)** for sustainable use and a sharing of benefits from genetic resources. GBF features 23 targets to achieve by 2030, including: a) Restoration of 30% of terrestrial and marine ecosystems, b) Reduce to near zero the loss of areas of high biodiversity importance and high ecological integrity, c) Halving global food waste.

Statement 3 is correct: The **Global Environment Facility (GEF)** has been asked to establish in 2023, and until 2030, a **Special Trust Fund** to support the implementation of the GBF. By 2030, the GBF hopes to see

at least \$200 billion raised per year from all sources – domestic, international, public and private – towards implementation of the national action plans.

Q.11) Kadambini Ganguly, the first women graduate of Calcutta University, addressed Congress Session in 1890. Who among the following presided this session of the Congress?

- Sir William Wedderburn
- Alfred Webb
- P. Ananda Charlu
- Pherozezshah Mehta

Ans) d

Exp) Option d is the correct answer.

Option a is incorrect: Sir William Wedderburn came to India in 1860. During his service in India, his attention was focused on famine, the poverty of the Indian peasantry, the problem of agricultural indebtedness and the question of reviving the ancient village system. His concern with these problems brought him in touch with the Indian National Congress. **He presided over the fourth Congress held in Bombay in 1889.**

Option b is incorrect: Alfred Webb was an Irishman and was the third non-Indian to have presided over the Indian National Congress. He was a member of the British Parliament. **He was the President of the Madras Session of Congress in 1894.**

Option c is incorrect: P. Ananda Charlu started the Triplicane Literary Society in 1884. In 1884 he joined several public workers in Madras and founded the Madras Mahajana Sabha which became the leading public forum for years. In 1885 he was one of the seventy-two delegates to the first session of the Indian National Congress held in Bombay. **He was elected as the President of the Nagpur Session of INC in 1891.**

Option d is correct: Pherozezshah Mehta was a part of the Liberal School of Indian politics. He saw in education the means by which India could modernise itself rapidly. **He presided over the Congress session held in Calcutta (1890)** and was twice elected the President of the Reception Committee when the Congress sessions met in Bombay (1889 and 1904). **Kadambini Ganguly**, the first woman graduate of Calcutta University, addressed the Congress session of 1890 held at Calcutta. It symbolised the **commitment of the freedom struggle to give the women of India their due status in national life.**

A Brief History of Modern India- 2017 edition, chapter 10

Q.12) With reference to Bharat Mahila Parishad, consider the following statements:

- Pandita Ramabai Saraswati founded Bharat Mahila Parishad.
- It was formed under the parent organization 'National Social Conference'.

Which of the statements given above is/are correct?

- 1 only
- 2 only
- Both 1 and 2
- Neither 1 nor 2

Ans) b

Exp) Option b is the correct answer.

In the ancient and medieval periods women were largely connected only to the family. The educational experiments of the late 19th and early 20th centuries produced a new woman with interests that went beyond the household.

Statement 1 is incorrect: Ramabai Ranade (not Pandita Ramabai Saraswati) founded the Ladies Social Conference (Bharat Mahila Parishad) in 1904 in Bombay. Pandita Ramabai Saraswati founded the Arya Mahila Samaj to serve the cause of women.

Statement 2 is correct: Ladies Social Conference (Bharat Mahila Parishad) was formed under the parent organisation National Social Conference.

Indian (National) Social Conference was founded by M.G. Ranade and Raghunath Rao. It was virtually the social reform cell of the Indian National Congress. Its first session was held in Madras in December 1887.

A Brief History of Modern India Chapter 8 Socio-Religious Reform Movements: General Features

Q.13) Consider the following statements regarding the British Committee of the Indian National Congress, established in 1889 in London:

1. Its purpose was to raise awareness about Indian issues among the public in Britain.
2. Dadabhai Naoroji was the first chairman of this committee.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) a

Exp) Option a is the correct answer.

British committee of the Indian National Congress was established in London in 1889 with India as its organ.

Statement 1 is correct: Its purpose was **to raise awareness of Indian issues to the public in Britain**, to whom the Government of India was responsible. It followed the work of W.C. Bonnerjee and Dadabhai Naoroji, who raised India related issues in the British parliament through the support of radical MPs like Charles Bradlaugh.

Statement 2 is incorrect: William Wedderburn served as the first chairman of the British committee of the Indian National Congress and William Digby as secretary. However, Dadabhai Naoroji spent a substantial portion of his life and income campaigning for India's case abroad.

Q.14) Consider the following statements regarding development of modern industries in British India:

1. Britishers aggressively encouraged the growth of Indian steel industry to fulfil the supply gap in the international markets.
2. Heavy industries and power generation were neglected during British period in India.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) b

Exp) Option b is the correct answer.

The loss of traditional livelihood was not accompanied by a process of industrialisation in India, as had happened in other rapidly industrialising countries of the time. This resulted in deindustrialisation of India at a time when Europe was witnessing an intensified Industrial Revolution

Statement 1 is incorrect: The British **did not allow the Indian steel industry to grow**. Industries like the Tatas which began to produce steel after a **lot of trouble getting the required permissions** were restricted by being forced to produce a higher standard of steel for British use. The firms were **not able to produce the lower standard of steel** at the same time, so they were left out of the larger market that demanded the lower quality of steel. As restrictions were placed by Britain on Indian steel imports, this steel could only be used in India. Obviously, the **growth of the industry was hampered**.

Statement 2 is correct: The colonial factor caused certain structural and institutional changes. The industrial development was characterised by a lopsided pattern—**core and heavy industries and power generation were neglected**, and some regions were favoured more than the others—causing regional disparities. These regional disparities hampered the process of nation-building.

Q.15) With reference to ‘Orans of Rajasthan’, consider the following statements:

1. It is the open stretch of land which receives long hours of sunlight and brisk winds.
2. It is the last natural habitat for White Rumped Vulture, a critically endangered bird.
3. Recently, Ministry of Environment, Forest and Climate Change has categorized these lands as deemed forest to protect the loss of biodiversity.

Which of the statements given above is/are correct?

- a) 1 only
- b) 1 and 2 only
- c) 3 only
- d) 2 and 3 only

Ans) a

Exp) Option a is the correct answer.

Recently, 60 activists came together to create awareness over the longest ‘Oran Bachao Yatra’ and called for urgent action to preserve the sacred groves as lifelines for the desert. A unique 225-km-long yatra taken out through remote villages and hamlets in western Rajasthan for protection of orans or sacred groves.

Statement 1 is correct: Oran lands (sacred groves of Rajasthan) are the **open stretch of land, which receives long hours of sunlight and brisk winds, has become a hub of green energy with windmills and solar photovoltaic dotting it**. But these Orans are also sacred spaces, which are rich in biodiversity and usually include a water body. Communities in Rajasthan have been conserving these Orans for centuries and their lives have been intricately linked around these spaces.

Statement 2 is incorrect: The orans are among the **last natural habitats of the Great Indian bustard (not White Rumped Vulture)**. White Rumped Vulture have habitat from all the Rajasthan. Orans included varieties of grasses making these grasslands home to more than 50 species of birds and animals, including the great Indian bustard, McQueen bustard, chinkara, Indian desert cat, desert fox, etc.

Statement 3 is incorrect: Recently, Central government allotted these ancient traditions lands to various energy companies citing a huge capability for the hub of green energy. Now the villagers and activists are trying to save the sacred land and preserve the biodiversity. In 2018, the Supreme Court had ordered the

SFG 2023 | LEVEL 2 | Test #20 – Solutions | 

Orans be recorded as 'deemed forests' in the revenue records in the TN Godavarman vs. Union of India case, but **not even one Oran has been recorded as a deemed forest so far.**

A 225-km yatra to save the endangered sacred groves of Rajasthan (thehindu.com)

Q.16) Which one of the following statements is **not correct** regarding 'Raja Rammohan Roy and his contributions towards the society'?

- He advocated for Indianisation of superior civil services and separation of the executive from the judiciary.
- The first book published by him was a Persian treatise with an Arabic preface "Tuhfat-ul-Muwahhidin".
- He took the support of Vedas and Upanishads to prove that monotheism was not an original belief of Hindu religion.
- He believed that English-language education was superior to the traditional Indian education system

Ans) c

Exp) Option c is the correct answer.

Raja Ram Mohan Roy (1772 -1833) was an Indian reformer who was one of the founders of the Brahmo Sabha, the precursor of the Brahmo Samaj, a social-religious reform movement in the Indian subcontinent. He was given the **title of Raja by Akbar II**, the Mughal emperor.

Option a is correct: As a political activist, Roy condemned **oppressive practices of Bengali zamindars and demanded fixation of maximum rents**. He also demanded abolition of taxes on tax-free lands. He called for a reduction of export duties on Indian goods abroad and abolition of the East India Company's trading rights. He **demande d the Indianisation of superior services and separation of the executive from the judiciary**. He demanded judicial equality between Indians and Europeans and that trial be held by jury.

Option b is correct: After the death of his father in 1803, Roy moved to Murshidabad where he published his **first book, a Persian treatise with an Arabic preface, "Tuhfat-ul-Muwahhidin"** or "**A Gift to Monotheism**". In addition to acquiring knowledge of the ancient Vedantic literature, he also studied the Tantric works with the aid of Hariharananda Tirthaswami.

Option c is incorrect: Raja Rammohan Roy was **deeply opposed to the caste system** that prevailed in Indian society. A humanist and democrat to the core, he wrote and talked against the caste system. Another important area that concerned him was Hindu theology. **Study of the Vedas and Upanishads gave him ground to show that monotheism was the original Hindu belief and hence he denounced polytheism and idolatry**. In fact, the philosopher did not insist on the creation of a new religion but merely endeavoured to 'purify' the Vedic religion from the crude and most ignorant superstitions.

Option d is correct: Roy supported **education, particularly education of women**. He believed that **English-language education was superior to the traditional Indian education system**, and he opposed the use of government funds to support schools teaching Sanskrit. In 1822, he founded a school based on English education.

Q.17) M. Viraraghavachari, B. Subramaniya Aiyer and P. Anandacharlu were associated with which of the following associations in the history of Modern India?

- The Madras Mahajan Sabha

- b) The East India Association
- c) The Indian National Association
- d) The Indian League

Ans) a

Exp) Option a is the correct answer.

Option a is correct: The Madras Mahajan Sabha was founded in 1884 by M. Viraraghavachari, B. Subramaniya Aiyer and P. Anandacharlu. It is considered as a predecessor of the Indian National Congress along with other organisations such as Poona Sarvajanik Sabha.

Option b is incorrect: The East India Association was organised by Dadabhai Naoroji in 1866 in London to discuss the Indian question and influence public men in England to promote Indian welfare. Later, branches of the association were started in prominent Indian cities.

Option c is incorrect: Indian Association of Calcutta (also known as the Indian National Association) was founded in 1876 by younger nationalists of Bengal led by Surendranath Banerjee and Ananda Mohan Bose, who were getting discontented with the conservative and pro-landlord policies of the British Indian Association. It was the most important of pre- Congress associations. It aimed to “promote by every legitimate means the political, intellectual and material advancement of the people.”

Option d is incorrect: The Indian League was started in 1875 by Sisir Kumar Ghosh with the object of “stimulating the sense of nationalism amongst the people” and of encouraging political education.

Source: A Brief History of Modern India- 2017 edition, chapter 10

Q.18) Consider the following statements with reference to the features of early nationalists (moderate faction) on the freedom struggle of India:

1. They made the protection of civil rights an integral part of the freedom struggle.
2. They widened the democratic base of the freedom struggle by attracting masses on large scale.
3. They exposed the exploitative character of colonial rule.

Which of the above-given statements is/are correct?

- a) 1, 2 and 3
- b) 1 only
- c) 2 and 3 only
- d) 1 and 3 only

Ans) d

Exp) Option d is the correct answer.

The early nationalists believed in using constitutional methods and channels to press for their demands and to achieve their goals.

Statement 1 is correct: Civil rights included the right to speech, thought, association, and a free press. Through an incessant campaign, the nationalists were able to spread modern democratic ideas, and soon the **defence of civil rights became an integral part of the freedom struggle.**

Statement 2 is incorrect: The early nationalists **did a great deal to awaken the national sentiment, even though they could not draw the masses to them.** They failed to widen their democratic base and the scope of their demands. Nonetheless, they represented the most progressive forces of the time.

Statement 3 is correct: The early nationalists exposed the basically exploitative character of colonial rule, thus undermining its moral foundations. **Their political work was based on hard realities, and not on shallow sentiments, religion, etc.** They were able to establish the basic political truth that India should be ruled in the interest of Indians.

SFG 2023 | LEVEL 2 | Test #20 – Solutions | 

Q.19) Consider the following statements with reference to the attitude of British towards the Indian National Congress (INC) during moderate phase of freedom struggle:

1. The British Indian government wanted INC to be limited to the social issues.
2. The British officials condemned INC and called them 'disloyal babus'.
3. Lord Curzon expressed an explicit desire to ensure the demise of the INC.

Which of the above given statements is/are correct?

- a) 1 and 3 only
- b) 2 and 3 only
- c) 1 and 2 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

The British Indian Government was hostile to the Congress from the beginning despite the latter's moderate methods and emphasis on loyalty to the British Crown.

Statement 1 and 2 are correct: The official attitude of the British Indian government stiffened further after 1887 when the government failed to persuade the Congress to confine itself to social issues when the Congress was becoming increasingly critical. The government resorted to open condemnation of the Congress, calling the nationalists "seditious brahmins" and "disloyal babus".

Statement 3 is correct: Lord Curzon was the Viceroy of India from 1899 to 1905. **Lord Curzon stated that "In my belief, Congress is to totter to its fall and one of my great ambitions while in India is to assist it to a peaceful demise".** Curzon was a British Conservative Statesman.

Q.20) With reference to Defense capabilities of India, consider the following pairs:

Ships	Categories
1. INS Vagir	Attack Submarines
2. INS Marmagao	Aircraft carriers
3. INS Vikrant	Destroyers
4. INS Dhruv	Research and tracking vessels

Which of the pairs given above are correct?

- a) 1 and 2 only
- b) 1 and 4 only
- c) 2 and 3 only
- d) 3 and 4 only

Ans) b

Exp) Option b is the correct answer.

Pair 1 is correctly matched: INS Vagir (S25) is the fifth submarine of the first batch of six Kalvari-class submarines for the Indian Navy. It is a **diesel-electric attack submarine** based on the Scorpène class, designed by French naval defence and energy group Naval Group and manufactured by Mazagon Dock Limited, an Indian shipyard in Mumbai, Maharashtra.

**INS Vagir**

Pair 2 is incorrectly matched: **INS Mormugao** is the second ship of the Visakhapatnam-class **stealth guided-missile destroyers of the Indian Navy**. Its firepower comprises BrahMos surface-to-surface missiles (SSM), Barak-8 surface-to-air (SAM) missiles for a long range of shore and sea-based targets and a 76mm super rapid gun mount. It is built with over 75% indigenous content, the commissioning of INS Mormugao is a shot in the arm for India's self-reliance efforts.

**INS Mormugao**

Pair 3 is incorrectly matched: **INS Vikrant** is an **aircraft carrier** constructed by the Cochin Shipyard Limited (CSL) at Kerala for the Indian Navy. It is the first aircraft carrier to be built in India. It is named Vikrant as a tribute to India's first aircraft carrier, INS Vikrant (1961). Up to 26 Dassault Rafale-M with 4 Kamov Ka-31 or 4 MH-60R multi-role helicopters will fly from INS Vikrant.

**INS Vikrant**

Pair 4 is correctly matched: **INS Dhruv (A40)** is a research vessel and missile range instrumentation ship built by India's Hindustan Shipyard Limited (HSL). The ship can gather electronic intelligence and will be used to track missile and satellites to aid India's strategic weapons and anti-ballistic missiles. It will be jointly operated by National Technical Research Organisation, Defence Research and Development Organisation and the Indian Navy.

Q.21) Consider the following pairs:

Reform movement	Tenets/features of the movement
1. Faraizi Movement	Aimed at the eradication of social innovations or Un-Islamic practices among the Muslims
2. Ahmadiyya Movement	Its objective was propagating pure teachings of the Quran and keeping alive the spirit of jihad.
3. Deoband Movement	Based on the principles of universal religion of all humanity, opposing jihad and spreading western liberal education among the Muslims.

How many of the above given pairs are correctly matched?

- Only one pair
- Only two pairs
- All the three pairs
- None of the pairs

Ans) a

Exp) Option a is the correct answer.

There was a sense of loss of prestige among India's educated and elite Muslims due to the **transfer of power from the Mughals to the British**, and the **replacement of Persian as the language of employment and advancement in the new bureaucracy by English**. The first signs of Muslim Socio-Religious Reform Movements appeared in the **early nineteenth century, led by Sir Syed Ahmed Khan of Bareilly** in Uttar Pradesh and Shariatullah of Bengal. This was due to the **influence of western ideas and modern education, as well as Christian missionaries**. As a result, they dedicated themselves to purifying and strengthening Islam.

Pair 1 is correctly matched: The movement, also called the Faraizi Movement because of its emphasis on the Islamic pillars of faith, was founded by Haji Shariatullah in 1818. **Its scene of action was East Bengal, and it aimed at the eradication of social innovations or un-Islamic practices current among the Muslims of the region and draw their attention to their duties as Muslims**. Under the leadership of Haji's son, Dudu Mian, the movement became revolutionary from 1840 onwards. He gave the movement an organisational system from the village to the provincial level with a khalifa or authorised deputy at every level. Dudu Mian asked his followers not to pay rent to indigo planters. The organisation even established its own Law courts.

Pair 2 is incorrectly matched: The Ahmadiyya forms a sect of Islam which originated from India. It was founded by Mirza Ghulam Ahmad in 1889. It was based on liberal principles. It described itself as the standard-bearer of Mohammedan Renaissance, and **based itself, like the Brahmo Samaj, on the principles of universal religion of all humanity, opposing jihad (sacred war against non-Muslims)**. The movement

spread Western liberal education among the Indian Muslims. They believed in separating the mosque from the State as well as in human rights and tolerance. However, the Ahmadiyya Movement, like Bahaism which flourished in the West Asian countries, suffered from mysticism.

Pair 3 is incorrectly matched: The Deoband Movement was organised by the orthodox section among the Muslim ulema as a revivalist movement with **the twin objectives of propagating pure teachings of the Quran and Hadis among Muslims and keeping alive the spirit of jihad against the foreign rulers.** The Deoband Movement was begun at the Darul Uloom (or Islamic academic centre), Deoband, in Saharanpur district (United Provinces) in 1866 by Mohammad Qasim Nanotavi and Rashid Ahmed Gangohi to train religious leaders for the Muslim community.

Knowledge Base: **The Aligarh Movement emerged as a liberal, modern trend among the Muslim intelligentsia based in Mohammedan Anglo-Oriental College, Aligarh.** It aimed at spreading (i) **modern education** among Indian Muslims without weakening their allegiance to Islam; (ii) **social reforms** among Muslims relating to purdah, polygamy, widow remarriage, women's education, slavery, divorce, etc. The ideology of the followers of the movement was based on a **liberal interpretation of the Quran** and they sought to harmonise Islam with modern liberal culture. They wanted to impart a distinct socio-cultural identity to Muslims on modern lines. Soon, **Aligarh became the center of religious and cultural revival of the Muslim community.**

Source: Chapter-9: A General Survey of Socio- Cultural Reform Movements, A brief history of modern India by Rajiv Ahir.

Q.22) Consider the following statements regarding socio-religious reform movements in South India:

1. The Justice movement in Madras was started mainly to secure representation of the non-brahmins in the legislature.
2. The Self-Respect movement was started by Sri Narayan Guru Swamy.
3. The Vaikom Satyagraha was led by K.P. Kesava for opening of Hindu temples to the untouchables.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 1 and 3 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

Non-Brahminism is a movement in **opposition to caste-based discrimination and hierarchical social order.** The Non-Brahman Movement was begun in many parts of South India. It was begun by the informed and rich non-Brahman classes.

Statement 1 is correct: The Justice movement in Madras Presidency was started by C.N. Mudaliar, T.M. Nair and P. Tyagaraja to secure jobs and representation for the non-brahmins in the legislature. In 1917, **Madras Presidency Association** was formed which demanded separate representation for the lower castes in the legislature.

Statement 2 is incorrect: The Self-Respect movement was started by E.V. Ramaswamy Naicker (and not Sree Narayana Guru Swamy) commonly known as **Periyar**, in the mid-1920s. The movement aimed at nothing short of a **rejection of the Brahmanical religion and culture** which Naicker felt was the prime instrument of exploitation of lower castes. He sought to undermine the position of brahmin priests by **formalising weddings without brahmin priests.**

Statement 3 is correct: In 1924, the Vaikom Satyagraha led by K.P. Kesava, was launched in Kerala demanding the throwing open of Hindu temples and roads to the untouchables. The satyagraha was

reinforced by jathas from Punjab and Madurai. **Mahatma Gandhi undertook a tour of Kerala in support of the movement.**

Source: Chapter-9: A General Survey of Socio- Cultural Reform Movements, A brief history of modern India by Rajiv Ahir

Q.23) With respect to Constitutional Developments in British India, which of the following was/were the features of Indian Councils Act, 1892?

1. The act gave the legislative councils the power of discussing the budget and addressing questions to the executive.
2. It, for the first time, empowered the Viceroy to make rules and orders for the more convenient transaction of business in the council.
3. For the first time, the term 'election' was used in context of selection of some of the non-official members to the council.
4. It provided for the association of Indians with the executive councils of the Viceroy and Governors.

Select the correct answer using the codes given below:

- a) 1 only
- b) 2 and 4 only
- c) 3 only
- d) 2 and 3 only

Ans) a

Exp) Option a is the correct answer.

In 1885, the Indian National Congress was founded. The Congress saw reform of the councils as the "root of all other reforms". It was in response to the **Congress' demand** that the legislative councils be expanded that the number of non-official members was increased both in the central (Imperial) and provincial legislative councils by the **Indian Councils Act, 1892**.

Statement 1 is correct:

The features of **Indian Councils Act of 1892** were:

- 1) It increased the number of additional (non-official) members in the Central and provincial legislative councils but maintained the official majority in them.
- 2) It increased the functions of legislative councils and gave them the **power of discussing the budget and addressing questions to the executive**.
- 3) It provided for the **nomination of some non-official members** of the (a) Central Legislative Council by the viceroy on the recommendation of the provincial legislative councils and the Bengal Chamber of Commerce, and (b) that of the provincial legislative councils by the Governors on the recommendation of the district boards, municipalities, universities, trade associations, zamindars and chambers.

Statement 2 is incorrect: Indian Councils Act of 1861 empowered the Viceroy to make rules and orders for the more **convenient transaction of business in the council**. It also gave a recognition to the 'portfolio' system, introduced by Lord Canning in 1859.

Statement 3 is incorrect: The term '**election**' was **firmly avoided** in the **Indian Councils Act of 1892**, an element of indirect election was accepted in the selection of some of the non-official members.

Statement 4 is incorrect: Indian Councils Act, 1909 provided (for the first time) for the association of Indians with the executive councils of the Viceroy and Governors. **Satyendra Prasad Sinha became the first Indian to join the Viceroy's executive council**. He was appointed as the Law Member.

Q.24) Consider the following statements:

1. Sudesha Geetham was written by Subramania Bharati to arouse nationalism during Swadeshi Movement.
2. Jagdish Chandra Bose established the Bengal Chemical Swadeshi store in protest of the British as a part of the Swadeshi Movement.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) a

Exp) Option a is the correct answer.

Statement 1 is correct: **Subramania Bharati** was a poet, freedom fighter and social reformer from Tamil Nadu. His *songs on nationalism and freedom of India* helped to rally the masses to support the Indian Independence Movement in Tamil Nadu. He published the sensational “*Sudesa Geethangal*” in 1908 to arouse nationalism during Swadeshi phase.

Statement 2 is incorrect: **Prafullachandra Roy** (not J C Bose) established Bengal Chemical Swadeshi store in protest of the British as a part of the Swadeshi Movement. He established the first modern Indian research school in chemistry (post classical age) and is regarded as the father of chemical science in India.

Bengal Chemicals employees protest against Centre's decision to sell major stake (millenniumpost.in)

Q.25) With reference to “World Restoration Flagships”, consider the following statements:

1. It is a part of the United Nations Decade on Ecosystem Restoration.
2. Initiatives under this flagship are eligible for funding from the United Nations.
3. Namami Ganga initiative of India is part of this initiative.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 1 and 3 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

At the UN Biodiversity Conference (COP15), the United Nations has recognized ten ground-breaking initiatives from across the world for their role in restoring the natural ecosystems. These initiatives are included under World Restoration Flagships.

Statement 1 is correct: **World Restoration Flagship is part of the United Nations Decade on Ecosystem Restoration**, a global movement coordinated by the United Nations Environment Programme (UNEP) and the United Nations Food and Agriculture Organization (FAO). The UN decade on Ecosystem Restoration aims to prevent and reverse the degradation of natural spaces across the planet.

Statement 2 is correct: The initiatives which are part of World Restoration Flagships are eligible to receive **UN-backed promotion, advice or funding**. The United Nations has recognized 10 ground-breaking efforts from around the globe for their role in restoring the natural world and these 10 winning initiatives were unveiled at the UN Biodiversity Conference (COP15) in Montreal.

Statement 3 is correct: **Total 10 initiatives across the world, including Namami Ganga initiative of India, are included in the World Restoration Flagship**. Together, the 10 flagships aim to restore more than 68 million hectares – an area bigger than Myanmar, France or Somalia – and create nearly 15 million jobs.

SFG 2023 | LEVEL 2 | Test #20 – Solutions | 

Knowledge Base: The ten World Restoration Flagships are Trinational Atlantic Forest Pact (Brazil, Paraguay and Argentina), Abu Dhabi Marine Restoration (UAE), Great Green Wall (African Union), Namami Gange (India), Multi-Country Mountain Initiative (Serbia, Kyrgyzstan, Uganda and Rwanda), Small Island Developing States Restoration Drive (Vanuatu, St Lucia and Comoros), Altyn Dala Conservation Initiative (Kazakhstan), Central American Dry Corridor (Costa Rica, El Salvador, Guatemala, Honduras, Nicaragua and Panama), Building with Nature (Indonesia), and Shan-Shui Initiative (China).

Source: <https://www.unep.org/news-and-stories/press-release/un-recognizes-10-pioneering-initiatives-are-restoring-natural-world>

Q.26) Consider the following statements:

1. According to Aurobindo, Swaraj meant some sort of self-government, while for Tilak Swaraj meant complete independence from foreign rule.
2. According to Tilak there could be no social reform, no industrial progress, no fulfillment of national life without Swaraj.
3. According to Aurobindo Ghosh final fulfillment of the Vedantic ideas in politics is the true Swaraj for India.

Which of the statements given above are correct?

- a) 1 and 3 only
- b) 2 and 3 only
- c) 1 and 2 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

Statement 1 is incorrect. For **Tilak**, Swaraj meant some sort of **self – Government**, while for **Aurobindo** it meant **complete independence** from foreign rule.

Statement 2 is correct. According to Tilak Swaraj or self-government is essential for exercise of swadharma. Without swaraj there could be no social reform, no industrial progress, no useful education, no fulfillment of national life.

Statement 3 correct. According to **Aurobindo Ghosh** Swaraj is the fulfillment of ancient life of India under modern conditions, the return of satyuga of National greatness, self- liberation of the people for final **fulfillment of vedantic ideas in politics**, that is the true Swaraj for India.

Source: Spectrum (Page 266 and 272)

Q.27) Consider the following statements regarding the Ghadr Movement:

1. Ghadr revolutionaries were mainly peasants and ex-soldiers.
2. Ghadr party followed mainly the Sikh religious ideology in its strong sense.
3. It published a weekly paper, the Ghadr in English only.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 1 and 3 only
- c) 1 only
- d) 2 and 3 only

Ans) c

Exp) Option c is the correct answer.

Ghadar Party was established by the Punjabi Sikhs of the United States and Canada in June 1913. The main aim of the party was to free India from the British Rule.

Statement 1 is correct. The Ghadr Party was a revolutionary group organized around a weekly newspaper 'The Ghadr' with its headquarters at San Francisco. These revolutionaries included mainly **ex-soldiers and peasants** who had **migrated from the Punjab to the USA and Canada** in search of better employment opportunities.

Statement 2 is incorrect: Ghadar party's ideology was **secular in its strong sense**. According to Sohan Singh Bhakna, "We were not Sikhs or Punjabis. Our religion was patriotism".

Statement 3 is incorrect: Ghadr movement published a weekly paper, Ghadar, in **Urdu, Hindi, Punjabi and in other languages of India**.

Source: https://amritmahotsav.nic.in/blogdetail.htm?6/The_Ghadr_Movement
https://www.indianetzone.com/21/ghadar_party.htm

Q.28) Which of the following statements is **incorrect** regarding the Berlin Committee for Indian Independence?

1. It was established in Germany before the World War I by Shyamji Krishna Varma.
2. It aimed to organised an armed invasion of British India.
3. It worked to organise a Provisional Government of India in Kabul.

Select the correct answer using the code given below:

- a) 1 only
- b) 1 and 2 only
- c) 2 and 3 only
- d) 1 and 3 only

Ans) a

Exp) Option a is the correct answer.

During the First World War, Berlin became an organisational hub for Indian nationalist and revolutionary activities.

Statement 1 is incorrect. Berlin Committee for Indian Independence was established in 1915 by **Virendranath Chattopadhyay, Lala Hardayal and others under Zimmerman Plan**. This organisation was established with the aim to promote the cause of Indian Independence. In the beginning the organisation was called the Berlin-Indian Committee. Later, this Berlin-Indian Committee played an instrumental part in the Hindu-German Conspiracy.

Statement 2 is correct: Revolutionaries aimed to mobilise the Indian settlers abroad to send volunteers and arms to India. It mainly aimed to **incite rebellion** among Indian troops there & to **organize an armed invasion of British India to liberate the country**.

Statement 3 is correct: The committee is also known to have spread missions to Istanbul, Persia, Baghdad, and Kabul to work among Indian troops and Indian prisoners of war and to incite rebellion among Indian troops there & to organize an armed invasion of British India to liberate the country. One mission under **Raja Mahendra Pratap Singh**, Barkatullah and Obaidullah Sindhi went to Kabul to **organise a Provisional Government of India**.

Q.29) Which of the following statements is/are correct regarding the contributions of Dhondo Keshav Karve?

1. He setup the 'Stree Shikshan Samstha' Society for the education of women.
2. He founded the Nishkam Karma Math in Pune.
3. He founded the first women's university in India in 1916.

Select the correct answer using the code given below:

- a) 1 only
- b) 1, 2 and 3
- c) 1 and 2 only
- d) 2 and 3 only

Ans) b

Exp) Option b is the correct answer.

Dhondo Keshav Karve (DK Karve), popularly known as **Maharshi Karve**, was a social reformer in India in the field of women's welfare. Karve was a pioneer in promoting widows' education. The Government of India awarded him with the highest civilian award, the Bharat Ratna, in 1958, the year of his 100th birthday. He organized a conference against the practice of devdasi. He started 'Anath balikashram' an orphanage for girls. His intention was to give education to all women and make them stand on their own feet.

Statement 1 is correct: The **Stree Shikshan Samstha society** was also set up by **D K Karve** for women's education. Efforts were made by Professor D.K. Karve in **western India to advocate widow remarriage. Karve himself married a widow** in 1893.

Statement 2 is correct: In 1910, **D K Karve founded the Nishkam Karma Math (Monastery of Disinterested Work) in Pune** with the aim of creating activists who would sacrifice their body, mind and money for public service. He sought to revive Hinduism based on **ancient India's religious texts and concepts of Vedanta** against caste restrictions, oppression, superstition in Hinduism and aimed to overhaul the education system.

Statement 3 is correct: D K Karve was a **pioneer in promoting widows' education**. The **Indian Women's University set up by Professor D.K. Karve in 1916** was one of the outstanding institutions imparting education to women. **Shreemati Nathibai Damodar Thackersey (SNDT) Women's University is the first Women's university in India as well as in South-East Asia**. The first five women graduated in 1921 from this University. **The University Headquarters is in Churchgate Campus, Mumbai.**

Knowledge Base: D K Karve dedicated his life to the upliftment of Hindu widows and became the **secretary of the Widow Remarriage Association**. He **opened a widows' home in Poona** to give the high caste widows an interest in life by providing them with facilities for vocational training.

Chapter-9: A General Survey of Socio- Cultural Reform Movements, A brief history of modern India by Rajiv Ahir.

Q.30) With reference to Public Financial Management System (PFMS), consider the following statements:

1. It is a web based online platform developed by National Payment Corporation of India (NPCI).
2. It tracks expenditure incurred by the Government regarding direct payment to beneficiaries under all Schemes of central government.
3. Currently it is integrated with the Core banking system of all public sector banks in India.

Which of the statements given above are correct?

- a) 1 and 3 only
- b) 2 and 3 only
- c) 1 and 2 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

The primary function of the Public Financial Management System (PFMS) today is to facilitate a sound Public Financial Management System for the Government of India by establishing an **efficient fund flow system as well as a payment cum accounting network**. PFMS provides various stakeholders with a real time, reliable and meaningful management information system and an effective decision support system, as part of the Digital India initiative of Government of India.

Statement 1 is incorrect: The Public Financial Management System (PFMS) is a web-based online software application **developed and implemented by the Controller General of Accounts (CGA) (not by National Payment Corporation of India)** Department of Expenditure, **Ministry of Finance**.

Statement 2 is correct: It is true that PFMS tracks expenditure incurred on direct payment to beneficiaries of all schemes. PFMS started during 2009 with the objective of tracking funds released under all **Plan schemes** of Government of India, and real time reporting of expenditure at all levels of Programme implementation. Subsequently, the scope was enlarged to cover direct payment to beneficiaries under all Schemes.

Statement 3 is correct: PFMS is integrated with the Core Banking system to facilitate better financial management in the country. For example, the Government can first validate the account before pushing online payments to almost every beneficiary. At present, PFMS has interface with the **Core Banking System (CBS) of over 300 Banks, including all Public Sector Banks**, all Regional Rural Banks, major private sector banks, Reserve Bank of India, India post and Cooperative Banks

<https://pfms.nic.in/NewDefaultHome.aspx>

Q.31) Consider the following statements regarding Indian Association of Calcutta:

1. It was formed in 1866 by superseding the East India Association.
2. It was led by Surendranath Banerjea and Ananda Mohan Bose.

Which of the statements given above is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) b

Exp) Option b is the correct answer.

The Indian Association of Calcutta was the most important of pre- Congress associations. It aimed to “promote by every legitimate means the political, intellectual and material advancement of the people.”

Statement 1 is incorrect: The Indian Association of Calcutta was formed in 1876. It is also known as the Indian National Association and superseded the Indian League (and not East India Association). Its main objectives were–

- (a) To create a strong public opinion on political questions, and
- (b) To unify Indian people in a common political programme.

Statement 2 is correct: Indian Association of Calcutta was founded by younger nationalists of Bengal led by Surendranath Banerjea and Ananda Mohan Bose, who were getting discontented with the conservative and pro-landlord policies of the British Indian Association.

Source: A Brief History of Modern India- 2017 edition, chapter 10

Q.32) Arrange the following organisations in the correct chronological order based on their year of establishment:

1. The Poona Sarvajanik Sabha
2. The Bombay Presidency Association
3. The Indian League

Select the correct answer using the codes given below:

- a) 3-2-1
- b) 3-1-2
- c) 1-3-2
- d) 1-2-3

Ans) c

Exp) Option c is the correct answer.

The correct chronology is option c i.e., 1-3-2

Option 1: The **Poona Sarvajanik Sabha** was founded in **1867** by **Mahadeo Govind Ranade** and others, with the object of serving as a bridge between the government and the people.

Option 3: The **Indian League** was started in **1875** by **Sisir Kumar Ghosh** with the object of “stimulating the sense of nationalism amongst the people” and of encouraging political education.

Option 2: The **Bombay Presidency Association** was started by **Badrudin Tyabji, Pherozshah Mehta** and **K.T. Telang** in **1885**.

Source: A Brief History of Modern India- 2017 edition, chapter 10

Q.33) Consider the following statement with reference to the Partition of Bengal:

1. The British government's decision to partition Bengal was made public in 1903.
2. S N Banerjea and K.K. Mitra were among the moderate leaders of anti-partition movement.
3. By partitioning Bengal, the British wanted to promote Muslim communalists to counter the Congress and the national movement.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

The **Partition of Bengal** in 1905 was a significant event that spurred the nationalist movement in the country.

Statement 1 is correct: The **British government's decision to partition Bengal had been made public in December 1903**. The idea was to have two provinces: Bengal comprising Western Bengal as well as the provinces of Bihar and Orissa, and Eastern Bengal, and Assam. Bengal retained Calcutta as its capital, while Dacca became the capital of Eastern Bengal. The official reason given for the decision was that Bengal, with a population of 78 million (about a quarter of the population of British India), had become too big to be administered.

Statement 2 is correct: In the period 1903–05, **the anti-partition movement was led by men like Surendranath Banerjea, K.K. Mitra, and Prithwishchandra Ray**. The methods adopted were petitions to the government, public meetings, memoranda, and propaganda through pamphlets and newspapers such as Hitabadi, Sanjibani, and Bengalee. Their objective was to exert sufficient pressure on the government through an educated public opinion in India and England to prevent the unjust partition of Bengal from being implemented.

SFG 2023 | LEVEL 2 | Test #20 – Solutions | 

Statement 3 is correct: Easter half of the partitioned Bengal was to be a Muslim majority province. Trying to woo the Muslims, Curzon, the viceroy at that time, argued that Dacca could become the capital of the new Muslim majority province, which would provide them with a unity not experienced by them since the days of old Muslim viceroys and kings. Thus, it was clear that the government was up to its old policy of **propping up Muslim communalists to counter the Congress and the national movement**
 Source: A Brief History of Modern India (Spectrum), 6th Edition Page no. 277

Q.34) Consider the following statements about differences between Moderates and Extremists during India's struggle for freedom:

1. Extremists took ideological inspiration mainly from European history whereas Moderates took ideological inspiration only from Indian history and culture.
 2. Extremists accepted 'Providential Mission Theory' while moderates rejected it.
 3. Extremists mainly professed loyalty to the British Crown while Moderates vehemently rejected it.
- Which of the statements given above is/are correct?

- a) 1 only
- b) 1 and 3 only
- c) 2 only
- d) None

Ans) d

Exp) Option d is the correct answer.

There were several commonalities between Moderates and extremists, but there were also key differences between them as well.

Statement 1 is incorrect: Ideological inspiration of **Moderates were drawn from the western liberal thought** and European history. While on the other hand, the **Ideological inspiration of extremists were drawn from Indian history**, cultural heritage, and Hindu traditional symbols.

Statement 2 is incorrect: Many in Britain believed that their conquests in India had a providential purpose, and that imperial Britain had been called by God to Christianize India through an alliance of Church and empire and bring social justice. **Extremists rejected the 'providential mission theory'** as an illusion. Moderates believed that political connections with Britain to be in India's social, political, and cultural interests.

Statement 3 is incorrect: Moderates professed loyalty to the British Crown. While on the other hand, the **extremists believed that the British Crown was unworthy of claiming Indian loyalty.**

Source: A Brief History of Modern India (Spectrum), 6th Edition Page no. 275

Q.35) With reference to Price Monitoring Division, consider the following statements:

1. The division was established under the Essential commodities Act, 1995 to regulate the prices of essential goods.
2. The Union Government provides financial grants to States to strengthen the Price Monitoring Centres.
3. The prices of Sugar, Groundnut oil and Salt are monitored by this division.

Which of the statements given above is/are correct?

- a) 1 only
- b) 1 and 3 only
- c) 2 and 3 only
- d) 3 only

Ans) c

Exp) Option c is the correct answer.

SFG 2023 | LEVEL 2 | Test #20 – Solutions | 

Statement 1 is incorrect: Price Monitoring Division (PMD) was not established under the Essential Commodities Act, 1995. PMD is a division of the Department of Consumer Affairs, Ministry of Consumer Affairs, responsible for monitoring prices of selected essential commodities. The activities of the division include monitoring of the retail and wholesale prices, and spot and future prices of selected essential commodities on a daily basis.

Statement 2 is correct: It is true that Union Government i.e., the Department of Consumer Affairs, Ministry of Consumer Affairs provides financial grants to States to strengthen Price Monitoring Centres at States. Such grants will be released only through Public Financial Management System and those grants should be used by the states only for specified purposes.

Statement 3 is correct: It is true that prices of Sugar, Groundnut oil and Salt are some of the items monitored by this division. PMC monitors prices for 22 essential commodities (Rice, Wheat, Atta, Gram Dal, Tur (Arhar) Dal, Urad Dal, Moong Dal, Masur Dal, Sugar, Gur, Groundnut Oil, Mustard Oil, Vanaspati, Sunflower Oil, Soya Oil, Palm Oil, Tea, Milk, Potato, Onion, Tomato and Salt) based on data collected from 340 market centres spread across the country.

<https://pib.gov.in/PressReleasePage.aspx?PRID=1880537#:~:text=50%25%20will%20be%20funded%20by%20State%20government%20and%2050%25>

Q.36) Consider the following statements regarding Swami Vivekananda:

1. Swami Vivekanand joined Keshab Chandra Sen's Nava Vidhan.
2. He authored a book titled "Women of India".
3. He founded Ramakrishna Mission to preach ideas of his guru.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 1 and 3 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

Narendranath Datta (1862-1902), who later came to be known as **Swami Vivekananda** spread Ramakrishna's message and tried to reconcile it to the needs of contemporary Indian society. **He emerged as the preacher of neo-Hinduism. The teachings of the Upanishads and the Gita and the examples of the Buddha and Jesus are the basis of Vivekananda's message to the world about human values.** He subscribed to the Vedanta which he considered a fully rational system with a superior approach. At the **Parliament of Religions held at Chicago in 1893, Swami Vivekananda called for a blend of the materialism of the West and the spiritualism of the East** into a new harmony to produce happiness for mankind.

Statement 1 is correct: In 1880 Swami Vivekanand joined Keshab Chandra Sen's Nava Vidhan, which was established by Sen after meeting Ramakrishna. He became a member of a Freemasonry lodge "at some point before 1884" and of the Sadharan Brahmo Samaj in his twenties, a breakaway faction of the Brahmo Samaj led by Keshab Chandra Sen and Debendranath Tagore. From 1881 to 1884, he was also active in Sen's Band of Hope, which tried to discourage youths from smoking and drinking.

Statement 2 is correct: Vivekananda wrote a book titled **Women of India to describe the contemporary position of the women in India.** Swami Vivekananda also referred to the stature and glory of Indian women on several other occasions that are presented in this book. Raja-Yoga, Karma Yoga: The Yoga of Action, Meditation and Its Methods, Jnana-Yoga, Vedanta: Voice of Freedom, My India: The India Eternal, Powers of The Mind, Essentials of Hinduism, Living at the Source, My Idea of Education, Work and Its Secret, Steps

SFG 2023 | LEVEL 2 | Test #20 – Solutions | 

to Realisation, To the Youth of India, Pearls of Wisdom, Life after Death, The East and the West, Religion of Love are some other books written by him.

Statement 3 is correct: The Ramakrishna Mission is a Hindu religious and spiritual organization that is at the heart of the Ramakrishna Movement, also known as the Vedanta Movement. **The mission was created on May 1, 1897, by Ramakrishna Paramhansa's (1836-1886) principal follower Swami Vivekananda,** and is named after and inspired by the Indian spiritual Guru Ramakrishna Paramahansa. The organization primarily promotes Advaita Vedanta, a Hindu philosophy, as well as four yogic ideals: Jnana, Bhakti, Karma, and Raja yoga.

Q.37) Consider the following statements with reference to the Militant School of thought and their leaders:

1. After the partition of Bengal, Bipin Chandra Pal started the 'Bande Mataram' Newspaper.
2. Lala Lajpat Rai founded the 'Servant of the People Society' to enlist and train national missionaries for the service of the motherland.

Which of the above given statements is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

Ans) c

Exp) Option c is the correct answer.

As the counter of the early nationalists, militant nationalism spread rapidly across several parts of the country.

Statement 1 is correct: In 1906, after a year of partition of Bengal, Bipin Chandra pal started the nationalist daily paper-Bande Mataram (Bande Mataram's Paris publication was started by Madam Bhikaji Cama).

Statement 2 is correct: Servants of the People Society was founded by Lala Lajpat Rai in 1921 at Lahore, which was inaugurated by Mahatma Gandhi. The object of the Society is to enlist and train national missionaries for the service of the motherland. It is their duty to work for the educational, cultural, social, economic and political advancement of the country under the supervision of the Society.

Q.38) Consider the following statements:

1. The Anushilan Samiti was founded by Promotha Mitter.
2. Kal and Sandhya were the two secret societies working in Bengal during 1900s.
3. Barrah Dacoity was organised by Khudiram Bose in 1914.

Which of the statements given above is/are correct?

- a) 1, 2 and 3
- b) 1 and 2 only
- c) 1 only
- d) 3 only

Ans) c

Exp) Option c is the correct answer.

Statement 1 is correct: The Anushilan Samiti was one of the secret revolutionary organisations. The purpose of the Samiti was to propound revolutionary violence as a means to end British colonialism in India. It was established in the year **1902 by Promotha Mitter**. The Samiti had two prominent and somewhat independent arms in the East and West Bengal identified as the Dhaka Anushilan Samiti centred in modern day Bangladesh and the Jugantar group, situated in erstwhile Calcutta. The members of Anushilan Samiti were **primarily school and college students** who belonged to the Hindu Bhadrakalok or the upper-class Bengali households.

Statement 2 is incorrect: Kal in Maharashtra and Sandhya in Bengal **were the newspapers advocated revolutionary terrorism after 1905.**

Statement 3 is incorrect: In 1908, Barrah dacoity was organised by **Dacca Anushilan under Pulin Das** to raise funds for revolutionary activities.

Spectrum Revised edition 2019 chapter-13 page- 283, 284 ,285

Q.39) Consider the following description:

“He set up Swadesh Bandhab Samiti to propagate the Swadeshi Movement and led the Muslim peasants of Barisal in their protests. The Partition of Bengal drew him to the Swadeshi movement. He attempted reconciliation between the groups of Moderates and Extremists.”

Which among the following leader of the freedom struggle is described above?

- Romesh Chandra Dutta
- Ashwini Kumar Dutta
- Praful Ray
- Aurobindo Ghosh

Ans) b

Exp) Option b is the correct answer

Ashwini Kumar Dutt was a schoolteacher who set up Swadesh Bandhab Samiti to propagate the Swadeshi Movement and led the Muslim peasants of Barisal in their protests. Swadesh Bandhab Samiti of Ashwini Kumar Dutta emerged as a very popular and powerful means of mass mobilization. He was attracted to the Swadeshi movement due to the partition of Bengal. He was also educationist, philanthropist, and also a social reformer. When the moderates and the extremists parted ways in the Surat session, he attempted a reconciliation between the two groups. In 1908, the government of the newly formed Eastern Bengal and Assam banned the Swadesh Bandhab Samiti and deported him to the United Provinces where he was interred at the Lucknow jail. After his release in 1910, he concentrated on sustaining the Brojomohun School and Brojomohun College.

Source: A Brief History of Modern India (Spectrum), 6th Edition Page no. 843, 623

Q.40) In order to strengthen the regulatory framework of Urban Cooperative Banks (UCBs), the Reserve Bank of India (RBI) recently recategorized UCBs into four categories. In this context, which of the following statement/s is/are correct?

- The framework is applicable to all Primary Urban Cooperative Banks in India.
- This classification of UCBs is based on their credit risk.
- RBI's supervisory tool called Prompt Corrective Action (PCA) framework is applicable to all UCBs.

Which of the statement(s) given above is/are correct?

- 1 only
- 1 and 2 only
- 2 and 3 only
- 3 only

Ans) a

Exp) Option a is the correct answer.

Recently the Reserve Bank of India (RBI) announced a four-tiered regulatory framework for categorisation of Urban Cooperative Banks (UCBs), while the existing regulatory framework classifies UCBs into two tiers Tier I and Tier II. This new four tier categorisation is based on the recommendation of the Expert Committee on Urban Co-operative Banks (Chairman - Shri N. S. Vishwanathan,) constituted by RBI.

Statement 1 is correct: It is true that this new framework is applicable to all Primary (Urban) Co-operative Banks in India. Primary Cooperative Banks, popularly known as Urban Cooperative Banks (UCBs) are cooperative societies registered under provisions of the respective State Cooperative Societies Act or Multi-state Cooperative Societies Act, 2002.

Statement 2 is incorrect: The classification of Urban Cooperative Banks (UCBs) into four categories is based on the size of deposits of the UCBs (not based on their credit risk). The UCBs have been categorised into following four tiers for regulatory purposes:

- (a) Tier 1 - All unit UCBs and salary earners' UCBs (irrespective of deposit size), and all other UCBs having deposits up to ₹100 crore;
- (b) Tier 2 - UCBs with deposits more than ₹100 crore and up to ₹1000 crore;
- (c) Tier 3 - UCBs with deposits more than ₹1000 crore and up to ₹10,000 crore;
- (d) Tier 4 - UCBs with deposits more than ₹10,000 crore.

Statement 3 is incorrect: Prompt Corrective Action (PCA) Framework, a supervisory tool of RBI does not apply to Cooperative banks in India. Rather a Supervisory Action Framework (SAF) (similar to PCA) seeks to ensure expeditious resolution of financial stress faced by some of the UCBs. The parameters used by SAF are similar to PCA and they are Net Non-Performing Assets (NPAs), Return on assets and Capital to Risk Weighted Assets Ratio (CRAR) of UCBs.

Q.41) Dayananda Saraswati was founder of the Arya Samaj. With reference to him, which of the following statements are correct?

- 1. His vision of India included classless but not casteless society.
- 2. Satyarth Prakash is his famous work in which he published his views.
- 3. He was critical about the escapist Hindu belief in Maya.
- 4. He considered Vedas to be 'India's Rock of Ages'.

Select the correct answer using the codes given below:

- a) 2 and 3 only
- b) 1 and 4 only
- c) 2, 3 and 4 only
- d) 1, 2, 3, and 4

Ans) c

Exp) Option c is the correct answer.

Swami Dayanand Saraswati was a socio-religious leader of India who left deep impact on the Indian society. He founded the Arya Samaj that brought about changes in the religious perception of Indians. He voiced his opinions against idolatry and the pointless emphasis on empty ritualism, and man-made dictates that women are not allowed to read the Vedas.

Statement 1 is incorrect. Dayananda's vision of India included **classless and casteless society**, a united India (religiously, socially and nationally), and an India free from foreign rule, with Aryan religion being the common religion for all.

Statement 2 is correct. Dayananda's views were published in his famous work, **Satyarth Prakash (The True Exposition)**.

Statement 3 is correct. He strongly **criticized the escapist Hindu belief in Maya (illusion)** as the running theme of all physical existence and the aim of human life as a struggle to attain Moksha through escape from this evil world to seek union with God.

Statement 4 is correct. He took inspiration from the Vedas and **considered them to be 'India's Rock of Ages'**, the infallible and the true original seed of Hinduism. **He gave slogan 'Back to the Vedas'**.

Source: A brief history of modern India (Spectrum), Unit 4, chapter 9, page no. 235 and 236

Q.42) Consider the following statements with reference to the Extremists' Program of Swadeshi Movement:

1. The Extremists gave a call for passive resistance.
2. They called for the boycott of government schools and colleges.
3. They asked for boycott of the courts and the legislative councils as well.
4. Their program included non-payment of taxes to the government.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 1, 3 and 4 only
- c) 1, 2 and 3 only
- d) 2, 3 and 4 only

Ans) c

Exp) Option c is the correct answer.

Statement 1, 2, and 3 are correct: Emboldened by Dadabhai Naoroji's declaration at the Calcutta session (1906) that self-government or swaraj was to be the goal of the Congress, the Extremists gave a call for passive resistance in addition to swadeshi and boycott which would include a boycott of government schools and colleges, government service, courts, legislative councils, municipalities, government titles, etc.

Statement 4 is incorrect: The militant nationalists put forward several fresh ideas at the theoretical, propaganda, and programme levels including Boycott of Foreign Goods, Public Meetings and Processions Corps of Volunteers or 'Samitis', Imaginative use of Traditional Popular Festivals and Melas, Programme of Swadeshi or National Education, Swadeshi or Indigenous Enterprises. **However, there was no program of non-payment of taxes to the government as a part of Extremists' Program of Swadeshi Movement.**

Source: A Brief History of Modern India (Spectrum), 6th Edition Page no 279

Q.43) Consider the following statements regarding the freedom fighter Sachin Sanyal:

1. He was one of the founders of the Hindustan Republican Association.
2. He established a branch of an organization called Anushilan Samiti in Patna.
3. During his imprisonment in Bengal, he penned his book, 'Bandi Yatri'.
4. He opposed Gandhi's gradual approach of non-violence as the way forward for the freedom struggle.

Which of the statements given above are correct?

- a) 1, 2 and 4 only
- b) 1, 3 and 4 only
- c) 1 and 2 only
- d) 1, 2 and 3 only

Ans) a

Exp) Option a is the correct answer.

Statement 1 is correct. Sachin Nath Sanyal, a hardcore nationalist and freedom fighter, **was one of the founders of a revolutionary organization, Hindustan Republican Association (HRA), which later in 1928 became the Hindustan Socialist Republican Association (HSRA).** The top priority of HSRA was to use arms, force, and other stringent measures to resist British rule in India.

Statement 2 is correct. Sanyal was the pivotal force in awakening revolutionary ideas during the British Raj in India, and it all began in 1913. During this period, **he established a branch of an organization called the Anushilan Samiti in Patna.** This outfit supported violent measures against British rule in India and was a conglomeration of local youths from akharas (gyms).

Statement 3 is incorrect. Sanyal was believed to be the highest-ranking leader of India's revolutionary movement, after the departure of Bose to Japan. He was also a part of the Ghadar party conspiracy, where the plan was to smuggle in large scale arms and ammunitions to India to initiate an anti-British uprising across the nation. Sanyal was arrested and a life sentence was handed down to him for his involvement in the conspiracy. **During his imprisonment at Cellular jail in the Andaman and Nicobar Island (NOT in Bengal), he penned his book, "Bandi Jeevan" in 1922.**

Statement 4 is correct. An interesting narrative is the infamous argument between Sanyal and Gandhi ji, published in 'Young India'. The discussion related to issue of violence and Nonviolence. It is said that while on one hand, Sanyal vehemently opposed Gandhi's gradual approach, Gandhi on other hand, countered him by reiterating that non-violence was the only sensible way forward.

Q.44) Consider the following statements about the Ramosi Uprising:

1. The Ramosis were the hill tribes of Western Ghats who were employed by Maratha administration.
2. Chittur Singh and Babu Trimbakji Sawant were the main leaders related to the Ramosi uprising.
3. The main reason for Ramosi uprising was the British policies related to the famine of 1822.

Which of the statements given above are correct?

- a) 1 and 3 only
- b) 2 and 3 only
- c) 1 and 2 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

Statement 1 is correct. The Ramosis, were the hill tribes of Western Ghats who were employed by the Maratha administration and had not reconciled to British rule and British pattern of administration.

Statement 2 is correct. The Ramosi uprising took place in 1822 under Chittur Singh and they plundered the country around Satara. Again, there were eruptions in 1825-26 under Umaji Nayak of Poona and his supporter Babu Trimbakji Sawant, and the disturbances continued till 1829.

Statement 3 is incorrect. The Ramosis revolted against the British policy of annexation and not for famines of 1822. After the annexation of the Maratha territories by the British, the Ramosis, who had been employed by the Maratha administration, lost their means of livelihood. Hence, they revolted against the Britishers.

Source: Spectrum page no. 163

Q.45) Which of the following statements regarding the Paris Club is/are correct?

1. It is an informal group of official creditors exclusively supporting technological solutions to combat climate change.

SFG 2023 | LEVEL 2 | Test #20 – Solutions | ForumIAS

2. Representatives of international institutions like IMF and World Bank are observers of the club.
3. India is a permanent member of the Paris Club.

Select the correct answer using the code given below:

- a) 1 and 3 only
- b) 2 and 3 only
- c) 2 only
- d) 1 only

Ans) c

Exp) Option c is the correct answer.

The Paris Club will provide financial assurances to the IMF on Sri Lanka's debt.

Statement 1 is incorrect: The Paris Club is an informal group of official creditors whose role is to find coordinated and sustainable solutions to the payment difficulties experienced by debtor countries. As debtor countries undertake reforms to stabilize and restore their macroeconomic and financial situation, Paris Club creditors provide an appropriate debt treatment. Paris Club creditors provide debt treatments to debtor countries in the form of rescheduling, which is debt relief by postponement or, in the case of concessional rescheduling, reduction in debt service obligations during a defined period (flow treatment) or as of a set date (stock treatment). **The Club is not associated with providing exclusive supporting technological solutions to combat climate change.**

Statement 2 is correct: Representatives of international institutions like IMF, World Bank, OECD, UNCTAD, European Commission, African Bank of development, Asian Bank of development, European Bank for Reconstruction and Development, Inter-American Bank of development are one of the 3 categories of observers of Paris Club. Observers attend a negotiation meeting but do not participate in the negotiation itself and do not sign the agreement that formalizes the result of the negotiation.

Statement 3 is incorrect: India is one of the Ad Hoc Participants and not one of the 22 permanent member countries of the Paris Club which include US, UK and Russia.

Q.46) With reference to the National movement in India, Consider the following statements with respect to Vinayak & Ganesh Savarkar:

1. They founded a secret society by the name, "Mitra Mela".
2. They founded Abhinav Bharat society influenced from Mazzini's 'Young Italy' Movement.
3. They assassinated Curzon Wylie, who was the India office bureaucrat residing in London.

Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) a

Exp) Option a is the correct answer.

Statement 1 is correct. Vinayak Damodar Savarkar along with his brother Ganesh Damodar Savarkar organized Mitra Mela, a secret society, in 1899. This society influenced the members to fight for "absolute political independence" of India. It merged with Abhinav Bharat in 1904.

Statement 2 is correct. The Abhinav Bharat society was founded by Vinayak Damodar Savarkar and his brother Ganesh Damodar Savarkar in Nasik in 1904. The organization's name is derived from Giuseppe Mazzini's political movement, "Young Italy".

SFG 2023 | LEVEL 2 | Test #20 – Solutions | 

Statement 3 is incorrect. Neither Vinayak Damodar Savarkar nor did Ganesh Damodar Savarkar assassinated Curzon Wylie, who was the India office bureaucrat residing in London. It was Madan Lal Dhingra who assassinated the India office bureaucrat, Curzon Wylie, in London.

Q.47) With reference to Indian freedom struggle, consider the following statements regarding revolutionary leader Ajit Singh:

1. He was associated with the revolutionary activities in Bengal.
2. He established Bharatmata society and published a journal called “Bharat Mata”.
3. In 1907, he was deported to Mandalay jail in Burma.

Which of the statements given above are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2 and 3

Ans) b

Exp) Option b is the correct answer.

Statement 1 is incorrect. Sardar Ajit Singh was the uncle of Bhagat Singh (also an inspiration to him) and was an early protester in Punjab region (not Bengal), who challenged British rule and openly criticized the Indian colonial government and the anti-farmers Laws. He was active in urging non-payment of revenue and water rates among Chenab colonists.

Statement 2 is correct. Ajit Singh founded the Bharat Mata Society, which was centered around Lahore aiming to mobilize the unrest (people’s anger over the Farm Laws) into a revolt against the British Government. Many young revolutionaries like Sufi Amba Prasad, Lal Chanda Falak, Kishan Singh and Lala Ram Sarandas were among the members of Bharat Mata Society. Sardar Ajit Singh also published a journal by the name Bharat Mata, later it was compiled in a book with the same name ‘Bharat Mata’

Statement 3 is correct: In 1907, Ajit Singh was arrested and deported to Myanmar’s Mandalay jail for leading an agitation for peasant rights, popularly known as ‘Pagri Sambhal Jatta’, which planned to commemorate the 50th anniversary of 1857, the first war of Independence. Singh, alongside Congress leaders, mobilized peasants against two new colonial laws, the Colonization Act and the Doab Bari Act. These laws, instead of providing ownership of land, reduced the status of the peasants to sharecroppers.

Q.48) Consider the following pairs:

Conspiracy Cases	Leader(s) associated with the cases
1. Alipore Conspiracy Case	S. A. Dange
2. Nasik Conspiracy Case	Anant Laxman Kanhere

SFG 2023 | LEVEL 2 | Test #20 – Solutions | ForumIAS

- | | |
|---------------------------------|-------------------------------------|
| 3. Meerut
Conspiracy
case | Khudiram Bose and
Prafulla Chaki |
| 4. Lahore
Conspiracy
case | Bhagat Singh and
Sukhdev |

Which of the pairs given above are correctly matched?

- 1 and 4 only
- 3 and 4 only
- 1, 2 and 3 only
- 2 and 4 only

Ans) d

Exp) Option d is the correct answer.

Pair 1 is incorrect: Alipore Conspiracy case- It is also known as Manicktolla bomb Conspiracy or Muraripukur Conspiracy case. The Ghosh brothers (Aurobindo and Barindra) were charged with conspiracy or waging war against the king, equivalent to high treason and punishable with death by hanging. Chittaranjan Das defended Aurobindo. Aurobindo was acquitted of all the charges whereas Barindra Ghosh was given death penalty which was later commuted to life imprisonment. S.A. Dange was not related to this case and **hence pair 1 is incorrect.**

Pair 2 is correct: Nasik Conspiracy case- After the merger of the Mitra-Mela with Abhinav Bharat in 1904, Nasik, Poona and Bombay emerged as centers of bomb manufacturing. In 1909, A.M.T. Jackson, the collector of Nasik was killed by Anant Laxman Kanhere, a member of Abhinav Bharat. This killing is known as the Nasik Conspiracy case.

Pair 3 is incorrect: Meerut Conspiracy case- This case of 1929, was a court case initiated in British India in March 1929 and got finalized in 1933. Several communists including three English men were arrested for organizing an Indian railway strike. After this case the growth of communist party in India got slowed down. The main charges were framed on S. A. Dange, Shaukat Usmani, Muzaffar Ahmed along with 3 English men by the name Philip Spratt, Lester Hutchinson and Benjamin Francis Bradley. Khudiram Bose and Prafulla Chaki are not related to the Meerut Conspiracy Case, **hence pair 3 is incorrect.**

Pair 4 is correct: Lahore Conspiracy Case- To take the revenge of Lala Lajpat Rai's death during protest against Simon Commission, Bhagat Singh, Sukhdev and his associates plotted the assassination of James A. Scott, the Superintendent of Police. However, the revolutionaries mistakenly killed J. P. Saunders. This incident is famously known as the Lahore Conspiracy case of 1929.

Q.49) With regard to revolutionary activities in Punjab during 1900-1920, which of the following statements is/are correct?

- Lala Lajpat Rai organized the extremist Anjuman-i-Mohisban-i-Watan in Lahore.
- Extremism in Punjab died down quickly after 1907 after deportation of Lajpat Rai and Ajit Singh.
- Rise in land revenue and irrigation tax are the factors responsible for Punjab extremism.

Select the correct answer using the code given below:

- 1 and 2 only
- 3 only
- 2 and 3 only
- 1 and 3 only

Ans) c

Exp) Option c is the correct answer.

The 1st phase of revolutionary activities formed as a fallout of the Swadeshi and boycott movement. After the decline of the movement the patriotic energies of younger nationalists looked for new expression but were disillusioned to find new form of struggle.

Statement 1 is incorrect: Ajit Singh (Bhagat Singh's uncle) organised the extremist Anjuman-i-Mohisban-i-Watan in Lahore with its journal, Bharat Mata. Lala Lajpat Rai brought out Punjabee (with its motto of self-help at any cost).

Statement 2 is correct: After 1907, Ajit Singh and a few other associates Sufi Ambaprasad, Lalchand, Bhai Parmanand, Lala Hardayal developed into **full-scale revolutionary terrorists**. So revolutionary activities in Punjab did not die down. Infact **Extremism died down quickly** after the Government struck in May 1907 with a ban on political meetings and the deportation of Lajpat Rai and Ajit Singh.

Statement 3 is correct: The Punjab extremism was fuelled by issues such as frequent famines coupled with **rise in land revenue and irrigation tax, practice of 'begar' by zamindars** and by the events in Bengal.

Q.50) Economic Cooperation Trade Agreement (ECTA) is sometimes seen in the news in the context of negotiations held between India and-

- a) United Arab Emirates
- b) Mauritius
- c) Afghanistan
- d) Australia

Ans) d

Exp) Option d is the correct answer.

India and Australia have entered into an Economic Cooperation and Trade Agreement (Ind-Aus ECTA). The Ind-Aus ECTA was signed last year on 2nd April 2022; after Ratification and Exchange of Written Instruments, the Agreement has come into force on 29th December 2022.

ECTA provides an institutional mechanism to encourage and improve trade between two countries and covers almost all tariff lines dealt by India and Australia. Since the trade between the two countries is hugely complementary, this offers opportunities on both sides and will pave the way for a win-win solution for both India and Australia. All the labour-intensive industries with export potential for India are included in this, including gems and jewellery, textiles, leather, footwear, furniture, food, agricultural products, engineering products, medical technology, and autos. Meanwhile, India will grant Australia preferential access to over 70 percent of its tariff lines, including those that are relevant to Australia from export perspective, including raw materials and intermediaries like coal, mineral ores, wines, etc.

Directions for the following 40 (Forty) items:

Read the following 24 passages and answer the item that follows the passages. Your answers to these items should be based on the passages only.

Passage 1

The monoculture of the mind, that reduces diversity to uniformity, and uniqueness to the bland sameness of the mass market, is the foundation of globalization. This monoculture is imposed by the violent homogenization of the world through colonialism and imperialism, and by the forced reduction of the world to a single dimension through the commodity fetishism of the global marketplace. This fetishism is based on the illusion that everything can be reduced to a commodity, that everything can be assigned a price, and that everything can be owned and traded like a thing. This illusion of commodification is the denial of the sacredness and diversity of life, the denial of the intrinsic worth of every being, and the denial of the interdependence and interconnectedness of all beings. The global monoculture of the mind is the ultimate manifestation of a worldview that is rooted in separation and fragmentation. This worldview sees the world as a collection of discrete objects, rather than a web of relationships. It sees nature as a resource to be exploited, rather than a partner to be nurtured. It sees human beings as consumers, rather than citizens. It sees the market as the measure of all value, rather than a tool for meeting human needs. This worldview is the root cause of the multiple crises we face today, including the ecological crisis, the social crisis, and the political crisis.

Q.1) What does the passage suggest is the root cause of the ecological, social, and political crises faced today?

- The violent homogenization of the world through colonialism and imperialism.
- The reduction of the world to a single dimension through the commodity fetishism of the global marketplace.
- The denial of the sacredness and diversity of life.
- The reduction of everything to a commodity that can be owned and traded.

Ans) b

Exp) Option b is the correct answer.

According to the passage, the root cause of the ecological, social, and political crises faced today is the **global monoculture of the mind, which is based on the reduction of the world to a single dimension through the commodity fetishism** of the global marketplace.

Q.2) What is the central idea of the passage?

- The need for nurturing nature.
- The role of colonialism in imposing a monoculture.
- The denial of sacredness, diversity, and interdependence in the global monoculture.
- The role of globalization in reducing the worth of beings.

Ans) c

Exp) Option c is the correct answer.

The central idea of the passage is the global monoculture of the mind that reduces diversity to uniformity, uniqueness to bland sameness, and denies the sacredness, diversity, and interdependence of life. The key idea of the passage is clearly the impact and dangers of the monoculture and not just the causes of monoculture.

Passage 2

The sun beat down mercilessly on the parched desert landscape, the heat waves distorting the horizon and creating a mirage-like effect. The only sound was the occasional rustle of a scorpion or lizard as it scurried across the sandy terrain. In the distance, a lone figure could be seen trudging through the dunes, their face obscured by a tattered scarf. As they drew nearer, it became apparent that the figure was a woman, her skin tanned and weathered by the unforgiving sun. Her eyes were narrowed against the bright light, and her hair was pulled back in a tight bun to keep it from her face. She carried a heavy pack on her back, which seemed to weigh her down with each step.

Q.3) Which of the following statements best reflects the inference that can be made from the passage above?

- a) The woman is a skilled desert traveller who is accustomed to the harsh conditions.
- b) The woman is lost in the desert and does not know where she is going.
- c) The woman is carrying valuable items in her pack that she must protect.
- d) The woman is searching for water in the desert.

Ans) a

Exp) Option a is the correct answer.

The passage describes the woman as trudging through the dunes, her skin tanned and weathered by the sun, and her hair pulled back in a tight bun. These details suggest that the woman is not lost, but rather is a seasoned traveller who is able to navigate the desert.

Passage 3

The world is facing a major environmental crisis, with issues such as climate change, deforestation, and pollution threatening the health and wellbeing of humans and the planet. Climate change happens cyclically. It had started from a colder ice age and currently it is much warmer than it was two million years ago. Deforestation refers to the purposeful clearing or thinning of trees and forests. When deforestation occurs, much of the carbon stored by the trees is released back into the atmosphere and it contributes significantly to climate change. While there are many factors contributing to this crisis, one of the primary causes is the unsustainable use of natural resources. According to Global Resources Outlook 2019, the extraction and processing of materials, fuels and food contribute half of total greenhouse gas emissions and over 90% of biodiversity loss and water stress.

Q.4) Which one of the following statements best reflects the critical message conveyed by the passage given above?

- a) The environmental crisis is a significant concern.
- b) The primary cause of the environmental crisis is natural disasters.
- c) The unsustainable use of natural resources is a major contributor to the environmental crisis.
- d) Humans are responsible for climate change.

Ans) c

Exp) Option c is the correct answer.

The passage highlights the unsustainable use of natural resources as a primary cause of the environmental crisis. Therefore, the critical message conveyed by the passage is that the unsustainable use of natural resources is a major contributor to the environmental crisis.

Passage 4

Income inequality is a significant issue in today's society, with the gap between the rich and the poor widening in many countries. This has led to a range of negative consequences, including decreased social mobility, higher levels of poverty, and political instability. In societies with high levels of income inequality, it is more difficult for individuals to move up the socioeconomic ladder, as those born into poverty face systemic barriers. This can lead to a concentration of wealth among a small group of individuals, which can undermine the stability of the political system. High levels of poverty can also have negative effects on physical and mental health, education outcomes, and overall quality of life.

Q.5) Which one of the following statements best reflects the critical message conveyed by the passage given above?

- a) Income inequality is hindering social mobility.
- b) The gap between the rich and the poor is widening in many countries.
- c) Political stability is affected by income inequality.
- d) Income inequality has a range of negative consequences.

Ans) d

Exp) Option d is the correct answer.

The passage states that income inequality is a significant issue and has led to a range of negative consequences, including decreased social mobility, higher levels of poverty, and political instability. Therefore, the critical message conveyed by the passage is that income inequality has a range of negative consequences.

Passage 5

According to recent studies, a lack of sleep can have serious health consequences, including an increased risk of heart disease, diabetes, and obesity. Despite these risks, many people continue to prioritize work and other responsibilities over getting enough rest. Lack of sleep can also lead to decreased productivity, poor cognitive function, and mood changes. Getting enough rest is essential for overall health and well-being. Lack of sleep can also weaken the immune system, making individuals more susceptible to illnesses. It can cause mood swings, irritability, and decreased cognitive function, leading to decreased productivity and impaired decision-making. Chronic sleep deprivation can also increase the risk of depression, anxiety, and other mental health disorders. Additionally, lack of sleep has been linked to an increased risk of accidents, both on the road and in the workplace.

Q.6) What is the most logical and rational inference that can be drawn from this passage?

- a) Lack of sleep has disastrous effects on health.
- b) Sleep is a critical component of overall health.
- c) Work and responsibilities are important than sleep.
- d) Heart disease, diabetes, and obesity are serious health issues.

Ans) b

Exp) Option b is the correct answer.

The passage indicates that a lack of sleep can have serious health consequences, including an increased risk of heart disease, diabetes, and obesity. Therefore, the most logical and rational inference that can be drawn from this passage is that sleep is a critical component of overall health.

Passage 6

Recent studies have shown that regular exercise can have an impact on mental health. Regular physical activity has been shown to reduce symptoms of depression and anxiety, improve mood, and increase self-esteem. Exercise releases endorphins, which are natural chemicals that create feelings of happiness and well-being. It can also improve cognitive function, helping individuals to think more clearly and feel more focused. Additionally, exercise can provide a sense of accomplishment and boost self-confidence, leading to improved mental well-being. The relationship between exercise and mental well-being underscores the importance of physical activity as a component of health and wellness.

Q.7) What is the most logical and rational inference that can be drawn from this passage?

- Exercise provides a sense of accomplishment.
- Mental health has light connection to physical activity.
- Exercise can improve mental health and well-being.
- Exercise is effective for physical health.

Ans) c

Exp) Option c is the correct answer.

The passage indicates that regular exercise can have a significant impact on mental health, reducing symptoms of depression and anxiety, improving mood, and increasing self-esteem. Therefore, the most logical and rational inference that can be drawn from this passage is that exercise can improve mental health and well-being.

Passage 7

The public realm is the common world that gathers us together and yet prevents our falling over each other, that in the common things and events of our everyday life separates us from our merely private selves. Its creation and maintenance is the first task of politics. But the common world is worldly only in so far as it remains fit for common use. It is exposed to the wear and tear of time and of the elements, and needs incessant care if it is to retain its identity as a world in which men live and which they pass on to the following generations. Nothing, indeed, is more dangerous to the continuance of the public realm than the continuing life of those who are born into it and who have grown up in it as though it were a natural inheritance. The greatest enemy of the public realm is the total domination of life by private interests. This problem arises whenever the sphere of private interests becomes so large that it threatens to engulf the public realm itself.

The public realm is constituted by speech and action. It is a realm of appearances, where men and women show themselves to one another and to the world, and this showing is an end in itself. The public realm is where we appear as unique individuals, distinct from one another and yet united in our common humanity. In the public realm, we are judged and held accountable for our actions, and this judgment is necessary for the continued existence of the common world. However, the public realm is not a realm of individuality in the sense that we understand it in the private realm. It is a realm of anonymity, where our unique characteristics are subordinated to the common good. In the public realm, we are not judged for who we are as individuals, but for what we do as members of a community.

Q.8) According to the passage, what is the public realm and why is it important in politics?

- The public realm is a space that brings people together for individual expression, and it is important because it provides individuals with a space to express themselves freely.
- The public realm is a common world that separates individuals from their private selves, and it is important in politics because it is the first task of politics to create and maintain it.

- c) The public realm is a realm of anonymity where individual characteristics are subordinated to the common good, and it is important in politics because it is a space where individuals are judged for what they do as members of a community.
- d) The public realm is a sphere of private interests that threatens to engulf the common world, and it is important in politics because it creates a problem that must be addressed.

Ans) b

Exp) Option b is the correct answer.

According to the passage, the public realm is the common world that separates individuals from their private selves and provides a space where they come together. The passage further states that the first task of politics is to create and maintain the public realm.

Q.9) What does the author suggest is the greatest threat to the public realm?

- a) The wear and tear of time and the elements that require incessant care.
- b) The continuing life of those who are born into the public realm and who have grown up in it as though it were a natural inheritance.
- c) The domination of life by private interests that becomes so large that it threatens to engulf the public realm itself.
- d) The inability to distinguish between the public and private realm.

Ans) c

Exp) Option c is the correct answer.

The author suggests that the greatest enemy of the public realm is the total domination of life by private interests. This problem arises whenever the sphere of private interests becomes so large that it threatens to engulf the public realm itself.

Q.10) Which of the following best represents the author's view of the relationship between the private and public realm in politics?

- a) The private realm is more important than the public realm in politics.
- b) The public realm is more important than the private realm in politics.
- c) The private and public realms are equally important in politics.
- d) The public realm is necessary for the continued existence of the common world but the private realm is necessary for individuality.

Ans) b

Exp) Option b is the correct answer.

The author argues that the public realm is the first task of politics and the greatest enemy of the public realm is the total domination of life by private interests. The public realm is more important than the private realm in politics. The author also argues that the private and public realms are distinct and serve different functions. The private realm is necessary for individuality while the public realm is necessary for the continued existence of the common world. However, the author does not argue that the private and public realms are equally important. Author does not suggest that the private realm is necessary for individuality in the public realm.

Passage 8

India, a country with a population of over 1.3 billion, has a healthcare system that is woefully inadequate to cater to the needs of its citizens. The system is plagued with numerous problems, including a shortage of healthcare professionals, inadequate funding, poor infrastructure, and corruption. The lack of

healthcare facilities in rural areas is a major concern, as the majority of the population resides in these areas. The government's efforts to improve the healthcare system have been largely unsuccessful due to rampant corruption and mismanagement.

Moreover, India's public healthcare system suffers from a severe shortage of resources, including medical equipment, medicines, and hospital beds. This leads to long waiting times, inadequate treatment, and a high rate of medical errors. Additionally, the private healthcare sector, which is largely unregulated, is out of reach for most Indians due to high costs. India's poor healthcare system has far-reaching consequences, including increased mortality rates, lower life expectancy, and reduced economic growth. The system also exacerbates social inequality, as the poor and marginalized are the most affected. The people who are just above the poverty line get drawn into the vicious cycle of poverty and due to high out of pocket expenditure on healthcare, the education and other needs of their next generation gets compromised, thus pushing them further into the well of poverty.

Q.11) Based on the above passage following assumptions have been made:

1. Most of the Indians reside in villages.
2. There is rampant corruption in India in every sector.
3. The government has failed to regulate private healthcare.

Which of the above assumptions is/are valid ?

- a) 3 only
- b) 1 and 3 only
- c) 1 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

Passage states that 'The lack of healthcare facilities in rural areas is a major concern, as the majority of the population resides in these areas'. So, statement 1 is correct.

In the passage it's mentioned that 'The government's efforts to improve the healthcare system have been largely unsuccessful due to rampant corruption', so it assumes that corruption is rampant in the healthcare system, but it can't be said for every sector. Hence statement 2 is incorrect.

The passage states that 'private healthcare is largely unregulated', but it doesn't mean that the government has failed to regulate it. Hence statement 3 is invalid assumption.

Q.12) What are the main consequences of India's poor healthcare system?

1. Inadequate treatment of people.
2. Rise in mortality rates.
3. Rural Indians are becoming poorer.
4. The inequality in society is increasing.

Which of the above statements are correct?

- a) 1 and 2 only
- b) 3 and 4 only
- c) 2 and 3 only
- d) 1, 2 and 4 only

Ans) d

Exp) Option d is the correct answer.

The passage states that 'India's public healthcare system suffers from a severe shortage of resources, including medical equipment, medicines, and hospital beds. This leads to long waiting times, inadequate treatment'. So, statement 1 is correct.

In the passage it's mentioned that 'India's poor healthcare system has far-reaching consequences, including increased mortality rates. So, statement 2 is correct.

The passage states that 'The people who are just above the poverty line get drawn into the vicious cycle of poverty', but it doesn't mean directly that rural Indians are becoming poorer. Hence statement 3 is incorrect.

In the passage it's stated that 'The system also exacerbates social inequality', so statement 4 is correct.

Passage 9

The cacophony of car horns, screeching tires, and shouting pedestrians assaulted my ears as I made my way through the crowded city streets. The sun beat down mercilessly, causing sweat to bead on my forehead and soak through my shirt. Everywhere I looked, there were people rushing to and fro, all with their own destinations and purposes. It was overwhelming, to say the least. As I walked, I couldn't help but wonder: where was everyone going? What was driving them forward, day after day, in this endless rat race? Was it money? Success? Happiness? Or was it something deeper, more primal? An innate desire to achieve something greater, to make their mark on the world? The thought lingered in my mind as I turned a corner and found myself face-to-face with a homeless man. He was sitting on the sidewalk, his back against the wall, with a cardboard sign that read "Anything helps." His eyes were hollow, his skin leathery from years spent in the sun, and his clothes were tattered and dirty. As I passed him by, I felt a pang of guilt. Here I was, rushing around in my air-conditioned office, while this man was sitting on the street with nothing to his name. But what could I do? I was just one person, after all.

Q.13) Which of the following best reflects the main theme of the passage?

- The daily struggles of a busy city life.
- The inner drive to achieve success and make a mark on the world.
- The feeling of helplessness in the face of societal problems.
- The disparity between the rich and the poor in society.

Ans) d

Exp) Option d is the right answer.

The passage describes the chaos and rush of a busy city, but the focus shifts to the narrator's musings on the motivation behind people's actions. It then leads to a chance encounter with a homeless man, highlighting the stark difference in living conditions between the narrator and the man. This emphasizes the main theme of the passage, which is the disparity between the rich and poor in society.

Q.14) With reference to the above passage, which of the following inferences can be drawn?

- The author feels overwhelmed and unsettled by the crowded city streets.
- The city provides opportunities for success and happiness.

Select the correct answer using the code given below:

- 1 only
- 2 only
- Both 1 and 2
- Neither 1 nor 2

Ans) a

Exp) Option a is the correct answer.

The passage describes the author's experience of walking through crowded city streets and feeling overwhelmed by the noise, crowds, and fast-paced environment. Hence statement 1 can be inferred. In the passage it's stated that "As I walked, I couldn't help but wonder: where was everyone going? What was driving them forward, day after day, in this endless rat race? Was it money? Success? Happiness?". Implies the author questions everything. Hence statement 2 can't be inferred. So incorrect.

Passage 10

Advertising and marketing techniques have become increasingly sophisticated in their ability to influence consumer behavior, creating a situation where the individual is no longer in control of their own desires and choices. This is particularly true in the realm of consumer culture, where the manipulation of desire and the creation of artificial needs has become a dominant feature of modern capitalism.

The use of subliminal messages, hidden persuaders, and psychological profiling are just some of the techniques employed by advertisers and marketers to create a sense of need and desire in the consumer. These techniques are designed to bypass the conscious mind and appeal directly to the unconscious desires and fears of the individual, creating a situation where the individual is shaped and controlled by external stimuli and messages.

This has profound implications for the nature of individual autonomy in a society where the ability to make free and autonomous choices is increasingly undermined by the techniques of persuasion employed by those in power. The hidden persuaders have infiltrated every aspect of modern life, shaping our desires and beliefs in ways that are often invisible and insidious. It is only by becoming aware of these techniques and taking steps to resist their influence that we can hope to maintain our autonomy and control over our own lives.

Q.15) According to the passage, how do advertisers and marketers influence consumer behavior?

- By directly controlling individual desires and choices.
- By using subliminal messages and psychological profiling to manipulate unconscious desires and fears.
- By identifying real needs that override conscious decision-making.
- By eliminating individual autonomy through their techniques of persuasion.

Ans) b

Exp) Option b is the correct answer.

The passage states that advertisers and marketers use techniques such as subliminal messages and psychological profiling to create a sense of need and desire in the consumer. These techniques are designed to bypass the conscious mind and appeal directly to the unconscious desires and fears of the individual, thereby influencing their behaviour.

Q.16) Which of the following is a dominant feature of modern capitalism in the realm of consumer culture?

- The promotion of conscious decision-making in consumers.
- The creation of artificial needs in consumers.
- The provision of products and services based on consumer demand.
- Fostering independence and self-determination in how consumers make choices.

Ans) b

Exp) Option b is the correct answer.

The creation of desire and artificial needs has become a dominant feature of modern capitalism. This implies that advertisers and marketers use various techniques to create a sense of need and desire in the consumer, rather than catering to pre-existing consumer demand.

Q.17) What is the key message of the author that can be inferred from the passage?

- a) The manipulation of individual desires and fears by those in power.
- b) The elimination of conscious decision-making in consumers.
- c) The creation of invisible and insidious beliefs and desires.
- d) The need to become aware of and resist the influence of these techniques.

Ans) d

Exp) Option d is the correct answer.

The passage suggests that the use of advertising and marketing techniques has profound implications for individual autonomy, as individuals are increasingly shaped and controlled by external stimuli and messages. Therefore, the passage advocates becoming aware of these techniques and taking steps to resist their influence in order to maintain individual autonomy and control over one's own life.

Passage 11

In recent years, there has been a growing concern over the use of plastic products and their impact on the environment. Single-use plastic items such as straws, utensils, and grocery bags are particularly problematic, as they often end up in landfills and oceans. This has led to a push for alternatives such as paper straws and reusable bags. However, it is important to note that the manufacturing and disposal of these alternatives also have environmental impacts, and therefore the most effective solution is to reduce the overall use of single-use plastic products.

Q.18) What is the most logical conclusion that can be drawn from this passage?

- a) Paper straws and reusable bags are effective solutions for reducing plastic waste.
- b) The impact of single-use plastic products on the environment is significant.
- c) The most effective solution for reducing plastic waste is to eliminate the use of all plastic products.
- d) The most effective solution for reducing plastic waste is to reduce the overall use of single-use plastic products.

Ans) d

Exp) Option d is the correct answer.

The passage highlights the growing concern over the impact of plastic products on the environment and the push for alternatives. However, it also notes that the manufacturing and disposal of these alternatives have environmental impacts, and therefore the most effective solution is to reduce the overall use of single-use plastic products. Therefore, the most logical conclusion that can be drawn from this passage is that the most effective solution for reducing plastic waste is to reduce the overall use of single-use plastic products.

Passage 12

The increasing demand for renewable energy has led to the development of various sources such as wind, solar, hydro, and geothermal power. These sources are considered more environment friendly than traditional sources such as coal and oil, which release harmful emissions into the atmosphere, which is a major contributor to greenhouse effect and climate change. In addition to reducing greenhouse gas emissions, the use of renewable energy also helps in reducing dependence on foreign oil and creating jobs in the renewable energy sector. They are environmentally friendly and do not produce harmful emissions that contribute to air and water pollution. Renewable energy sources are also becoming more cost-effective, making them more accessible and affordable for everyone. They offer an excellent opportunity for energy security. Renewable energy sources also have significant health benefits. They do not produce harmful pollutants, which can lead to respiratory and cardiovascular diseases.

Q.19) Which of the following statement best reflects the crux of the passage given above?

- a) The benefits of renewable energy sources over traditional sources.
- b) The increasing demand for renewable energy.
- c) The harmful effects of traditional energy sources.
- d) The various sources of renewable energy and traditional sources of energy.

Ans) a

Exp) Option a is the correct answer.

The passage discusses the increasing demand for renewable energy and the various sources of renewable energy such as wind, solar, hydro, and geothermal power. However, the crux of the passage is the benefits of renewable energy sources over traditional sources such as coal and oil, which release harmful emissions into the atmosphere. The passage highlights that renewable energy not only reduces greenhouse gas emissions but also reduces dependence on foreign oil and creates jobs in the renewable energy sector. Therefore, the crux of the passage is the benefits of renewable energy sources over traditional sources.

Passage 13

In an era of globalization and rapid technological advancements, the demand for skilled workers is increasing. Education plays a crucial role in developing these skills, but traditional approaches to education may no longer be sufficient. To meet the needs of a changing workforce, educational institutions must embrace innovative strategies that emphasize practical, hands-on learning experiences. This will require a shift away from traditional classroom instruction towards more interactive and experiential learning opportunities.

Q.20) Which one of the following statements best reflects the most logical, rational, and practical suggestion implied by the passage given above?

- a) Educational institutions must prioritize interactive learning opportunities over traditional classroom instruction.
- b) Educational institutions must embrace innovative strategies that emphasize practical, hands-on learning experiences.
- c) The demand for skilled workers will increase in the future, so the government should focus on skill development.
- d) The role of education in developing skills is highly important, so state must open more schools.

Ans) b

Exp) Option b is the correct answer.

The passage specifically mentions that practical, hands-on learning experiences must be emphasized, and that a shift away from traditional classroom instruction is necessary. Therefore, the most logical, rational, and practical suggestion implied by the passage is that educational institutions must embrace innovative strategies that emphasize practical, hands-on learning experiences. Answer option C correctly reflects this suggestion.

Passage 14

The 'enlightenment', which discovered the liberties, also invented the disciplines. It is no accident that the asylum, the prison, the school, and the factory all resemble one another in certain fundamental features. They were all inscribed in the same system of coercion, which guaranteed the submission of forces and bodies. The 'enlightenment' had established them as institutions that would make possible the exercise of power without recourse to violence, which was seen as archaic, inefficient and uncertain.

These institutions represented an economy of power, reduced the random exercise of violence, and made it possible to maximize its effects by a whole series of interventions and corrections that were distributed throughout the entire social body.

Q.21) What is the key assumption of the author in the given passage?

- The institutions of asylum, prison, school, and factory are necessary for functioning society.
- The 'enlightenment' was responsible for establishing institutions that would help the society exercise power without violence.
- The concept of coercion is extremely efficient and gives us certitude of security.
- There is an inherent necessity of usage of violence in any society to make it work.

Ans) b

Exp) Option b is the correct answer.

The passage implies that the 'enlightenment' era is responsible for creating institutions that allowed power to be exercised without resorting to violence. It suggests that these institutions were created to make the random exercise of violence unnecessary and promote a more effective exercise of power through interventions and corrections.

Q.22) What does the author mean by the term 'economy of power'?"

- A system that uses a limited amount of power to maintain order, despite the potential for violence.
- A system where power is used sparingly and only in cases of absolute necessity, such as during times of crisis or emergency.
- A theory of power that emphasizes the importance of voluntary consent and individual autonomy.
- A theory of power that emphasizes the potential for violence as the primary means of maintaining social control.

Ans) a

Exp) Option a is the correct answer.

The term "economy of power" in the passage refers to a system where power is distributed and used in a controlled manner, rather than being exercised randomly or through violence. The passage suggests that institutions like prisons, asylums, schools, and factories were established as part of this system of controlled power, allowing the ruling class to maintain order without resorting to violence.

Passage 15

Autosuggestion is a term that applies to all suggestions and all self-administered stimuli which reach one's mind through the five senses. Stated in another way, autosuggestion is self-suggestion. It is the agency of communication between that part of the mind where conscious thought takes place, and that which serves as the seat of action for the subconscious mind. Through the dominating thoughts which one permits to remain in the conscious mind, (whether these thoughts be negative or positive, is immaterial), the principle of autosuggestion voluntarily reaches the subconscious mind and influences it with these thoughts. All voluntary or involuntary actions, feelings, and emotions are the result of these impressions upon the subconscious mind. The subconscious mind will not remain idle! If you fail to plant desires in your subconscious mind, it will feed upon the thoughts which reach it as the result of your neglect.

Q.23) Which one of the following is implied by the passage?

- The subconscious mind is only influenced by positive thoughts.
- The subconscious mind can only be controlled through conscious thought.

- c) The subconscious mind is solely responsible for conscious decision-making.
 d) The subconscious mind is not inactive if desires are not planted in it.

Ans) d

Exp) Option d is the correct answer.

The subconscious mind is not inactive if desires are not planted in it. This is implied by the statement "If you fail to plant desires in your subconscious mind, it will feed upon the thoughts which reach it as the result of your neglect." The passage suggests that the subconscious mind is constantly active and influenced by thoughts, whether positive or negative. It is up to the individual to actively plant positive desires in their subconscious mind in order to achieve their goals.

Q.24) What is the main idea of the passage?

- a) The subconscious mind is influenced by self-administered stimuli through the five senses.
 b) The subconscious mind is responsible for all actions, feelings, and emotions.
 c) The principle of autosuggestion voluntarily reaches the subconscious mind and influences it with thoughts.
 d) The subconscious mind requires conscious effort in order to achieve success.

Ans) c

Exp) Option c is the correct answer.

The principle of autosuggestion voluntarily reaches the subconscious mind and influences it with thoughts. This is the main idea of the passage as it is emphasized throughout. The passage explains the concept of autosuggestion and how it applies to all self-administered stimuli that reach the subconscious mind through the five senses. It also suggests that all voluntary or involuntary actions, feelings, and emotions are the result of impressions upon the subconscious mind, which is influenced by dominating thoughts in the conscious mind. The passage encourages the reader to actively plant positive desires in their subconscious mind through autosuggestion in order to achieve their goals.

Passage 16

Sugarcane is a crop that plays an important role in the global economy, providing sugar for human consumption and biofuels for transportation. However, sugarcane production is associated with a range of environmental issues. One of the main concerns is water consumption. Sugarcane requires a significant amount of water to grow, which can lead to water scarcity in areas where water is already in short supply. Sugarcane production can contribute to soil erosion and depletion, as well as deforestation as land is cleared to make way for sugarcane fields. The use of pesticides and fertilizers in sugarcane production can lead to water pollution and harm wildlife, including fish and other aquatic species. These environmental issues associated with sugarcane production highlight the need to minimize negative impacts on the environment.

Q.25) Which one of the following statements best reflects the **corollary to the passage given above?**

- a) Sugarcane production will lead to a water crisis in the world.
 b) Aquatic species will become extinct due to water pollution.
 c) Deforestation due to sugarcane production will lead to upsurge in landslides.
 d) Sustainable farming practices are necessary to save the environment.

Ans) d

Exp) Option d is the correct answer.

In the passage it's stated that "Sugarcane requires a significant amount of water to grow, which can lead to water scarcity in areas where water is already in short supply". So, the water crisis in the world can't be the natural consequence of it, as this reflects extreme case. So, statement 1 is incorrect.

The passage states that "The use of pesticides and fertilizers in sugarcane production can lead to water pollution and harm wildlife, including fish and other aquatic species". But again, extinction of aquatic species is an extreme consequence. So, statement 2 is incorrect.

It's stated in the passage that "Sugarcane production can contribute to soil erosion and depletion, as well as deforestation". But it's nowhere hinted that it will lead to an upsurge in landslides. So, statement 3 is incorrect.

The passage ends with "These environmental issues associated with sugarcane production highlight the need to minimize negative impacts on the environment". So 'sustainable farming practices are necessary' is the best way to minimize the negative impact of sugarcane production. Hence statement 4 is correct.

Passage 17

Marriage in India is a sacred institution that is deeply rooted in tradition and cultural values. In Chile, the concept of marriage is highly valued, but the customs and traditions surrounding it are quite different. In India, arranged marriages are still common, and the decision to marry is often influenced by family members. In contrast, Chilean couples typically choose their own partners and have more freedom in their decision-making. Additionally, Indian marriages often involve elaborate ceremonies and rituals that can last for days, while Chilean weddings are typically simpler and more straightforward. Despite these differences, both cultures place a strong emphasis on the importance of commitment and the lifelong nature of marriage.

Q.26) Which of the following statement best reflects the central idea of the passage given above?

- a) Indian marriages involve more elaborate ceremonies than Chilean weddings.
- b) The concept of marriage is highly valued in both Indian and Chilean cultures.
- c) The decision to marry is typically influenced by family members in India.
- d) Chilean couples have more freedom in their decision-making regarding marriage than Indian couples

Ans) b

Exp) Option b is the correct answer.

The passage compares and contrasts the customs and traditions surrounding marriage in India and Chile. It notes that Indian marriages are often arranged and involve elaborate ceremonies, while Chilean weddings are typically simpler and involve greater individual choice. However, the central idea of the passage is that the concept of marriage is highly valued in both Indian and Chilean cultures. This is reflected in the deeply rooted traditions and cultural values surrounding marriage in India and the concept of marriage being highly valued in Chilean society, as well as the strong emphasis on commitment and the lifelong nature of marriage. Answer option b correctly reflects the central idea of the passage. Answer options a, c, and d are incorrect because they focus on specific details that are not the main point of the passage.

Passage 18

Transgender individuals in India face a number of challenges and discrimination on a daily basis. Many are ostracised by society and have limited access to education and job opportunities. They also face difficulties in accessing healthcare services and often experience violence and abuse. In 2014, the Indian government recognised transgender people as a third gender, but this has not translated into significant improvements in their lives. Transgender people continue to face discrimination and violence, and many

are forced into begging or sex work to survive. The lack of legal protection and social acceptance means that they are often denied basic human rights and treated as second-class citizens.

Q.27) What is the most logical assumption that can be made from the passage given above?

- The Indian government has tried to address the issues faced by transgender individuals to a considerable extent.
- Transgender people in India have unequal access to education and job opportunities.
- Transgender people in India are completely unaccepted by society.
- Discrimination against transgender people in India is a widespread and persistent problem.

Ans) d

Exp) Option d is the right answer.

The passage highlights the challenges and discrimination faced by transgender individuals in India, including limited access to education and job opportunities, difficulties in accessing healthcare services, and experiencing violence and abuse. The passage also notes that despite the government's recognition of transgender people as a third gender, their lives have not significantly improved. Therefore, the assumption made by the author is that discrimination against transgender people in India is a widespread and persistent problem. Answer option c correctly reflects this assumption.

Passage 19

The development of agricultural technology has been a key factor in the growth and sustainability of human civilization. From the invention of the plow to the use of genetically modified crops, technological advances have revolutionized the way we produce and consume food.

Throughout history, agricultural technology has enabled humans to increase crop yields, reduce labour costs, and improve food quality. The use of irrigation systems and fertilizers, for example, has allowed farmers to cultivate crops in previously arid regions, while the development of mechanized farm equipment has reduced the amount of time and effort required to tend to crop.

However, with the increasing use of technology in agriculture comes new challenges. The overuse of fertilizers and pesticides can lead to environmental degradation, while the use of genetically modified crops raises ethical concerns about the potential long-term effects on human health and the environment.

Despite these challenges, the development of agricultural technology remains crucial for meeting the demands of a growing global population. As we continue to confront these challenges, it is important to consider both the potential benefits and drawbacks of new technologies, and to prioritize sustainability and ethical considerations in agricultural development. India's centuries old farming is based on sustenance and innovation. A right mix of technology and tradition will change the direction of farming from production centric to sustainability focused.

Q.28) Which of the following statement best describes the main idea behind the passage?

- The benefits of agricultural technology
- The ethical consideration in agricultural development.
- The history of agricultural technology.
- The need of sustainable agriculture.

Ans) d

Exp) Option d is the correct answer.

The passage discusses the benefits of agricultural technology, so it's an idea mentioned but not the main idea. hence option a is incorrect.

It's stated in the passage that 'ethical considerations should be prioritised', so its again an idea put forward, but not the main idea. So, option b is incorrect.

The history of agriculture has been explained so its again an idea but not the main idea, so option c is incorrect.

As a conclusion of this passage, author has mentioned that India's centuries old farming is based on sustenance and innovation. A right mix of technology and tradition will change the direction of farming from production centric to sustainability focused. Hence option d is the main idea of passage.

Q.29) Based on the above passage, the following assumptions have been made:

1. The agricultural technology has drawbacks.
2. The use of genetically modified crops is unethical
3. Environmental degradation is a concern in agriculture

Which of the above assumptions is/are valid?

- a) 1 and 2 only
- b) 2 only
- c) 1 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

The author acknowledges the benefits of agricultural technology but emphasizes the importance of considering the potential drawbacks and prioritizing sustainability and ethical considerations. The author assumes that agricultural technology has drawbacks. But Author has not concluded anywhere that it's unethical to use genetically modified crops. Hence, statement 1 is a valid and statement 2 is an invalid assumption.

Author also acknowledged that overuse of fertilizers and pesticides can lead to environmental degradation which has potential impact on human health and the environment. but it can't be implied that it affects agriculture in adverse way, hence it is no where implied in the passage that Environmental degradation is a concern in agriculture. So, statement 3 is an invalid assumption.

Q.30) Which of the following statement best reflects the inference that can be drawn from the passage above?

- a) Agricultural technology is the cause of environmental degradation in farming.
- b) The use of genetically modified crops is universally accepted in agriculture.
- c) The benefits of agricultural technology outweigh the potential drawbacks.
- d) Agricultural technology must be developed and used responsibly.

Ans) d

Exp) Option d is the correct answer.

The passage emphasizes the importance of considering the potential drawbacks of agricultural technology and prioritizing sustainability and ethical considerations, suggesting that responsible development and use of agricultural technology is necessary.

Passage 20

The Earth's environment is changing rapidly, and we must adapt to these changes in order to survive. The future environment of Earth may not remain same. Climate change, rising sea levels, and extreme weather events are just a few of the challenges we will face in the coming decades. One of the biggest challenges we face is climate change. The Earth's temperature is rising, and this is causing a number of

problems. For example, sea levels are rising as polar ice caps melt, leading to more frequent and severe flooding in coastal areas. The changing climate is also affecting the distribution of plant and animal species, as well as the availability of food and water for humans.

Another major challenge is the increasing scarcity of natural resources. Fossil fuels are becoming more difficult and expensive to extract, while water resources are being depleted in many areas. This is leading to conflicts over resources and a growing need for alternative sources of energy and water. In order to address these challenges, Human beings need to adopt sustainable approaches. We will need to find ways to reduce our carbon footprint and adopt more sustainable practices in agriculture, industry, and transportation. We will also need to invest in new technologies that can help us adapt to the changing environment and mitigate its impacts.

In the future, we may see the development of new, sustainable cities that are designed to be more resilient to climate change and other environmental challenges. These cities may be built using advanced materials and technologies that allow them to generate their own energy and water, and to recycle waste more efficiently.

Overall, the future environment of Earth will be shaped by our actions today. It is up to us to take responsibility for our impact on the planet and to work together to create a more sustainable and resilient future for ourselves and future generations.

Q.31) According to the passage, the author wants to convey:

1. The future environment of Earth is likely to be very different from the one we know today.
2. Number of challenges humans will face in future will become insurmountable.
3. We will need to make significant changes in the way we live and work to address environmental challenges.
4. In future, the mankind will develop technologies to overcome Fossil fuels and water deficiency.

Select the correct answer using the code given below.

- a) 1 and 3 only
- b) 2 and 4 only
- c) 1, 3 and 4 only
- d) 1 and 4 only

Ans) a

Exp) Option a is the correct answer.

It's stated in the passage that The future environment of Earth may not remain same so obviously the author wants to convey "The future environment of Earth is likely to be very different from the one we know today." Hence statement 1 is correct.

The passage states that Climate change, rising sea levels, and extreme weather events are just a few of the challenges we will face in the coming decades. But he is not meaning that challenges will be insurmountable. Hence statement 2 is incorrect.

In the passage it's stated that in order to address these challenges, Human beings need to adopt sustainable approaches. So, the author is conveying that We will need to make significant changes in the way we live and work to address environmental challenges. Hence statement 3 is correct.

Author has no where explained relation between technology with Fossil fuels and water. So, statement 4 is incorrect.

Q.32) Based on the above passage, which of the following statements is/are correct:

1. Climate change is a real and pressing threat to the environment.
2. Natural resources are becoming increasingly scarce.
3. The rising temperature of earth is the cause of environmental degradation.

Select the correct answer using the code given below.

- a) 1 only
- b) 1 and 2 only
- c) 1, 2 and 3
- d) 2 only

Ans) b

Exp) Option b is the correct answer.

The author assumes that climate change is a real and pressing threat to the environment, that natural resources are becoming increasingly scarce, and that we must make significant changes in the way we live and work to address environmental challenges. The temperature increase of earth is the effect (not the cause) of climate change.

Q.33) Which of the following statement best reflects **the crux of the passage?**

- a) The future environment of Earth is likely to be very different from the one we know today.
- b) We must adapt to the changes in the environment to survive.
- c) We must take responsibility for our impact on the planet and work together to create a more sustainable and resilient future.
- d) Sustainable cities may be built using advanced materials and technologies.

Ans) c

Exp) Option c is the correct answer.

The crux of the passage is that we must take responsibility for our impact on the planet and work together to create a more sustainable and resilient future.

Passage 21

The winds were howling, and the rain was coming down in sheets. Lightning flashed across the sky, illuminating the dark and stormy night. I huddled under my blanket, listening to the sounds of the storm outside. It was a comforting sound, in a strange sort of way. It reminded me that nature was a powerful force, something that could not be tamed or controlled. As I drifted off to sleep, I found myself thinking about the fragility of human existence. We are so small and insignificant in the grand scheme of things. Our lives are but a fleeting moment in the vast expanse of time. And yet, we strive to make our mark on the world, to leave behind something that will outlast us. But what is the point of it all? Why do we bother striving for greatness, when in the end, we will all fade into nothingness? The storm continued through the night, but I eventually fell into a deep sleep, my dreams filled with visions of great civilizations rising and falling, of epic battles waged over the centuries, and of individuals who had left their mark on history. When I woke up the next morning, the storm had passed, leaving behind a world that was fresh and renewed. The air smelled of damp earth and growing things, and the sun was just starting to peek over the horizon. As I stepped outside, I felt a sense of gratitude for being alive, for being able to witness the beauty and power of nature.

Q.34) With reference to the passage, the following assumptions have been made:

1. All the human efforts to subjugate nature have been futile till now.
2. Leaving behind something that will outlast us is a human desire.
3. The sounds of the storm are comforting.

Which of the above assumptions is/are valid?

- a) 1 only
- b) 1 and 2 only
- c) 2 only
- d) 3 only

Ans) c

Exp) Option c is the correct answer.

It's stated in the passage that 'It reminded me that nature was a powerful force, something that could not be tamed or controlled', but it does not mention or imply that humans have made any effort to subjugate it. Hence statement 1 is invalid assumption.

The author discusses the fragility of human existence and our desire to make our mark on the world, indicating that leaving behind something that will outlast us is a human desire. So, statement 2 is a valid assumption.

The author finds the sounds of the storm comforting in a strange sort of way. So, it can't be assumed that they are comforting in general. So, statement 3 is invalid assumption.

Q.35) Which one of the following statements best describes the **crux of the passage?**

- a) The power of nature during a stormy night.
- b) The fragility of human existence.
- c) The significance of human life among grand things.
- d) The need to strive for greatness

Ans) b

Exp) Option b is the correct answer.

The passage is centered around the author's contemplation of the transience and fleeting nature of human existence. The stormy night serves as a backdrop to the author's reflections on the impermanence of life and the question of why humans strive for greatness despite their mortality.

Passage 22

The sun was setting, casting a warm glow over the landscape. I stood on the edge of a cliff, looking out at the vast expanse of land before me. In the distance, I could see the outline of a city, its lights twinkling like stars in the darkness. The wind was gentle, caressing my face and playing with my hair. It was a moment of perfect stillness, a moment of serenity. But even as I stood there, taking in the beauty of the world around me, I couldn't help but feel a sense of unease. It was a feeling that had been growing within me for some time, a feeling that something was not quite right. I couldn't put my finger on it, but I knew that something was off. As I turned to leave, I heard a rustling in the bushes behind me. I spun around, my heart pounding in my chest. But there was nothing there, just the sound of the wind and the rustling of leaves. I took a deep breath and turned to go, but then I heard it again - the rustling, this time louder. And then, a voice "Hello". I turned around to see a figure emerging from the bushes. It was a man, tall and lanky, with shaggy hair and a scruffy beard. He looked like he had been living in the wilderness for some time. He smiled at me, revealing a row of yellowed teeth. "Hello there," he said again. "What brings you to this place?" I hesitated for a moment, unsure of how to respond. The man seemed harmless enough, but something about him made me uneasy. "I was just admiring the view," I said finally. The man nodded, his eyes fixed on me. "It's a beautiful view, isn't it?" he said. "But it can be dangerous up here. You should be careful." With that, he turned and disappeared back into the bushes, leaving me standing there alone. I shook my head, trying to clear my thoughts, and made my way back down the cliffside.

Q.36) With reference to the passage, the following assumptions have been made:

1. People who live in the wilderness are unpredictable and potentially dangerous.
2. It is best to avoid secluded areas like the one the author is visiting.
3. The natural world can be both beautiful and dangerous.

Which of the above assumptions is/are valid?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 3 only
- d) None of the above.

Ans) c

Exp) Option c is the correct answer.

The passage states that “The man seemed harmless enough, but something about him made me uneasy.” Something making the author uneasy doesn’t mean that people who live in the wilderness are potentially dangerous. So, statement 1 is invalid assumption.

The author was also enjoying the serenity of the place, even if there was a sense of unease within him. So, it can’t be implied that such secluded areas should be avoided. Hence statement 2 is invalid assumption.

The passage describes a moment of serenity as the protagonist admires the beauty of the natural world, but also hints at a sense of unease and danger. This is confirmed when the man emerges from the bushes and warns the protagonist about the potential danger of the area. In the passage it’s mentioned that ‘The man nodded, his eyes fixed on me. “It’s a beautiful view, isn’t it?” he said. “But it can be dangerous up here”. So, the passage suggests that the natural world can be both beautiful and dangerous. So, statement 3 is a valid assumption.

Q.37) Which one of the following statements best reflects the message of the author of the passage?

- a) The unease and apprehension that can come with being alone in nature.
- b) The beauty of nature and the serenity it can bring.
- c) The danger and unpredictability of the natural world.
- d) The excitement and adventure that can come with exploring the outdoors.

Ans) a

Exp) Option a is the correct answer.

The passage describes a serene moment in nature, but the author also mentions feeling a sense of unease and that something is not quite right. The rustling in the bushes and the voice saying “hello” at the end add to the overall sense of foreboding. Therefore, the author is trying to convey a sense of unease and apprehension to the reader.

Passage 23

The Cybersecurity has become an increasingly critical issue in India due to the rising number of cyber-attacks and data breaches. Cyber-attacks include a wide range of activities such as hacking, phishing, identity theft, cyberstalking, and cyberbullying. In recent years, there has been a significant rise in cyber-attacks incidents in India. According to a report by the National Crime Records Bureau, cyber-attacks in India increased by 63.5% in 2019 as compared to the previous year.. In recent years, India has been targeted by several high-profile cyber-attacks, including the 2016 data breach at the National Payments Corporation of India and the 2017 WannaCry ransomware attack. This highlights the need for more robust cybersecurity measures and better awareness among the public about cybercrime prevention. The Indian government has taken several steps to improve cybersecurity, such as launching the Cyber Swachhta Kendra to provide free antivirus software to citizens and setting up the National Cyber Coordination

Centre to monitor cyber threats. However, these steps have been inadequate in comparison to the intensity of attacks on critical infrastructure. There is still a need for more robust cybersecurity measures, particularly in the government sector. As more and more businesses move online, the need for cybersecurity measures becomes even more crucial. It is essential for organizations to invest in cybersecurity to protect their sensitive data and prevent cyber-attacks. In addition, individuals should be educated on safe internet practices to prevent falling victim to cybercrime.

Q.38) With reference to the passage, the following assumptions have been made:

- The steps taken by the government have failed to enhance cybersecurity.
- Protecting all organizational information is quite important nowadays.
- Cyber education is the most important tool to prevent cyber-attacks.
- Cyber-attacks are becoming a more significant threat to India's security.

Ans) d

Exp) Option d is the correct answer.

In the passage it's stated that 'these steps have been inadequate in comparison to the intensity of attacks on critical infrastructure', This doesn't imply that they have failed. So, statement 1 is an invalid assumption.

It's stated that 'It is essential for organizations to invest in cybersecurity to protect their sensitive data', so it's not meant that all organizational information has to be protected. So, statement 2 is an invalid assumption.

The passage states that 'This highlights the need for more robust cybersecurity measures and better awareness among the public about cybercrime prevention.', so cyber education is one of the tools, not the most important tool. So, statement 3 is an invalid assumption.

The passage discusses the rising number of cyber-attacks and data breaches in India and highlights the need for more robust cybersecurity measures and better awareness among the public about cybercrime prevention. Therefore, the underlying assumption of the passage is that cyber-attacks are becoming a more significant threat to India's security.

Q.39) Which of the following statements best reflects the crux of the passage?

- Cybersecurity is necessary for government organizations in India.
- Investing in cybersecurity and cyber education is the need of the hour.
- Cyber-attacks are increasing at an alarming rate in India.
- Critical infrastructure of India is at vulnerable state.

Ans) b

Exp) Option b is the correct answer.

In the passage it's stated that 'There is still a need for more robust cybersecurity measures, particularly in the government sector.' So it's an idea discussed but not the crux of the passage. So, statement 1 is incorrect.

The main idea of the passage is that cybersecurity has become an increasingly critical issue in India due to the rising number of cyber-attacks and data breaches. The passage discusses the increasing number of cyber-attacks in India and highlights the need for more robust cybersecurity measures and better awareness among the public about cybercrime prevention. Therefore, the crux of the passage is that 'Investing in cybersecurity and cyber education is the need of the hour.' So, statement 2 is correct.

The passage discusses the increase in cybercrimes in India, why it is increasing and what are the forms of cybercrimes. So, it's an idea but not the crux. So, statement 3 is incorrect.

The passage states that 'these steps have been inadequate in comparison to the intensity of attacks on critical infrastructure'. So, it's an idea but not the crux. So, statement 4 is incorrect.

Passage 24

The sky was a dark, foreboding gray, and the wind whipped through the trees, rustling their leaves in a frantic dance. The atmosphere was charged with an eerie electricity, and the birds had ceased their chirping, sensing the coming storm. As the first drops of rain began to fall, a lone figure appeared on the horizon, moving with a purposeful stride. The figure was shrouded in a long, flowing cloak that billowed in the wind, and a hood obscured their features. It was impossible to tell whether the figure was male or female, young or old. But one thing was certain: they were not to be trifled with. The air crackled with tension as the figure drew closer, until finally they came to a halt in front of the gathered crowd.

The question hung in the air: Who was this mysterious figure, and what did they want?

Q.40) What is the most likely inference drawn about the mysterious figure based on the passage?

- a) The figure is a benevolent being who has come to help the crowd.
- b) The figure is a powerful and enigmatic presence.
- c) The figure is an antagonist who has come to cause trouble.
- d) The figure is a harmless traveller who has gotten caught in the storm.

Ans) b

Exp) Option b is the correct answer.

The passage describes a mysterious figure who appears on the horizon during a storm. The figure is shrouded in a long, flowing cloak and is not easily identifiable as male or female, young or old. The passage also notes that the figure is not to be trifled with and that the atmosphere is charged with tension when they arrive. Based on these details, the most likely inference drawn about the mysterious figure is that they are a powerful and enigmatic presence. Answer option b correctly reflects this inference. Options a, c, and d are all incorrect because they either go against or are unrelated to the main point of the passage.

Q.1) What was the primary objective of the Indemnity Act, passed by the British Parliament in 1920?

- a) To give the Indian members of the Indian civil service the same powers and rights as those enjoyed by their European colleagues.
- b) To empower the rulers of Indian Princely states to carry out social welfare activities without consulting the British Government.
- c) To provide for the financial solvency of the East India Company.
- d) To provide protection to the officers who had acted in good faith for maintaining the public order and safety.

Ans) d

Exp) Option d is the correct answer.

Option d is correct. The British Parliament had passed an **Indemnity Act in 1920 (or white washing bill) for the protection of its officers.** The Act deals with the indemnity granted to persons who have carried out duties for the purpose of maintaining discipline and order, and have done other executive acts; side by side with that the Bill proposes to validate certain acts of courts and of regulations made in various parts of the world.

It provided that no action or other legal proceeding whatsoever, whether civil or criminal, shall be instituted in any court against a person belonging to the naval, military, Air Force, or civil, or by any other person acting under the authority of a person. If the act is done in good faith for the defence of the Britain interest or the public safety.

<https://api.parliament.uk/historic-hansard/commons/1920/may/03/indemnity-bill-1>

Q.2) Which of the following factor(s) led to the launch of the Home Rule Movement in India?

1. Rise in the prices of goods.
2. Disappointment of the moderates about the Morley-Minto reforms.
3. Release of Tilak from the jail

Select the correct answer using the code given below:

- a) 1 and 2 only
- b) 1 only
- c) 2 and 3 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

The Home Rule Movement was the Indian response to the First World War in a less charged but a more effective way than the response of Indians living abroad which took the form of the romantic Ghadr adventure.

Statement 1 is correct: People were feeling the burden of wartime miseries caused by high taxation and a rise in prices, and were ready to participate in any aggressive movement of protest.

Statement 2 is correct: Moderates and their followers got disappointed by the level of reforms that were introduced by the Morley-Minto reforms as they did not meet the expectations of the moderate leaders. Questions were raised about their methods of petitions and prayers. Home Rule league movement provided them another opportunity.

Statement 3 is correct: Tilak published a series of articles in his Marathi newspaper Kesari, against the British. On July 3rd, 1908, Bal Gangadhar Tilak was arrested by the British under the charge of sedition. Tilak was sentenced to jail for a period of six years i.e from 1908 to 1914 in Mandalay in Burma. Tilak was ready to assume leadership after his release in June 1914, and had made conciliatory gestures– to the

government reassuring it of his loyalty and to the Moderates that he wanted, like the Irish Home Rulers, a reform of the administration and not an overthrow of the government. He also admitted that the acts of violence had only served to retard the pace of political progress in India. He urged all Indians to assist the British government in its hour of crisis.

Q.3) In the context of modern history of India, which of the following statements is/are correct about the Lucknow Session of the Indian National Congress that was held in 1916?

1. In this session, Congress- League Pact accepted the Muslim League's position on separate electorates.
2. Annie Beasant was elected as the first women president of the Congress in this Session.
3. Jan-Gan-Man was recited for the first time in this session

Select the correct answer from the code given below:

- a) 2 and 3 only
- b) 1 and 2 only
- c) 1 only
- d) 1 and 3 only

Ans) c

Exp) Option c is the correct answer.

The Lucknow session between could be considered an important event in the course of the nationalistic struggle for freedom.

Statement 1 is correct: One of the major outcomes of the Lucknow session 1916 was the Lucknow pact between Congress and the Muslim league. Under this Pact, while the League agreed to present joint constitutional demands with the Congress to the government, the Congress accepted the Muslim League's position on separate electorates. The Muslims were also granted a fixed proportion of seats in the legislatures at all-India and provincial levels.

Statement 2 is incorrect: Annie Beasant was elected as first women president of the congress in 1917 Calcutta session of the Indian National Congress (not in Lucknow session). The president of the 1916 Lucknow session was Ambica Charan Mazumdar.

Statement 3 is incorrect: Jan-Gan-Man was recited for the time in the 1911 session of the Indian National Congress that was held in Calcutta.

Q.4) In the context of India's freedom struggle, who among the followings were referred to as the Responsivists?

- a) Those who withdrew from the legislative councils and renounced the government offices.
- b) Those who concentrated on constructive work and believed in continuation of boycott and non-cooperation.
- c) Those who advocated a consistent anti-imperialist struggle against the British to achieve Purna Swarajya.
- d) Those who wanted to cooperate with the government and hold public offices wherever possible.

Ans) d

Exp) Option d is the correct answer.

Due to several communal riots and the government strategy of divide and rule, the Swarajists began to break down into several factions as communal, Responsivists and Non-responsivists.

Option a is incorrect: Non-Responsivists like Motilal Nehru withdrew from the legislature in 1926, and renounced the public offices.

Option b is incorrect: The Non-Changers like C. Rajagopalachari, Vallabhbhai Patel, Rajendra Prasad and M.A. Ansari opposed council entry, advocated concentration on constructive work, and continuation of boycott and non-cooperation, and quiet preparation for resumption of the suspended civil disobedience programme.

Option c is incorrect: The Socialists and the leaders from the left wing within the congress like Jawaharlal Nehru and Subhash Chandra Bose were critical of both Swarajists and No-Changers. They advocated a more consistent anti-imperialist line in the form of a slogan for purna swarajya (complete independence).

Option d is correct: The Responsivist leaders among Swarajists—Lala Lajpat Rai, Madan Mohan Malaviya and N.C. Kelkar—advocated cooperation with the government and holding of office wherever possible to continue the struggle on the Constitutional lines and use councils to either end or mend them.

Q.5) Consider the following statements with reference to Bay of Bengal Initiative for Multi-Sectoral Technical and Economic Cooperation (BIMSTEC):

1. BIMSTEC Secretariat was established in Dhaka in 2014.
2. Ministerial Meetings is the supreme decision-making body of BIMSTEC.
3. The BIMSTEC Charter allows the admission of new countries in the organisation.

Which of the statements given above is/are correct?

- a) 1 only
- b) 1 and 2 only
- c) 1 and 3 only
- d) 2 and 3 only

Ans) c

Exp) Option c is the correct answer.

Intro: The BIMSTEC Charter was signed and adopted during the Fifth BIMSTEC Summit held in virtual format in Colombo, Sri Lanka, on 30 March 2022.

Statement 1 is correct: The permanent BIMSTEC Secretariat, which was established in Dhaka in 2014 replaced the Bangkok Working Group as main coordinating body.

Statement 2 is incorrect: BIMSTEC Summit is the supreme decision-making body of BIMSTEC and not the Ministerial Meetings.

Statement 3 is correct: Unlike the SAARC Charter, Article 6 of the BIMSTEC Charter talks about the 'Admission of new members' to the group. This paves the way for the admission of countries such as the Maldives.

Knowledge Base: There is also a major weakness in BIMSTEC Charter, to boost **economic integration**, does not contain the **flexible participation scheme** found in ASEAN Charter. This flexible scheme, also known as the '**ASEAN Minus X**' formula, allows two or more ASEAN members to initiate negotiations for economic commitments.

A flexible '**BIMSTEC Minus X**' formula might have allowed India and Bangladesh or India and Thailand to conduct their ongoing bilateral **free trade agreement** negotiations under the broader BIMSTEC umbrella. This would have eventually strengthened BIMSTEC by enabling the gradual and incremental expansion of these binding commitments to other members.

Q.6) In the context of Indian History, what was the significance of the ‘August Declaration of 1917’?

- Through this, Congress for the first time, adopted the extra constitutional means for achieving independence.
- It marked the starting of the Champaran Satyagraha, which is considered as the first civil dis-obedience movement in India.
- It proposed increased participation of Indians in administration and development of self-governing institutions in India
- Through this declaration, INC established a committee under Motilal Nehru for drafting a constitution for India.

Ans) c

Exp) Option c is the correct answer.

The Secretary of State for India, Edwin Samuel Montagu, made a statement on August 20, 1917 in the British House of Commons in what has come to be known as the **August Declaration of 1917**.

The statement said: “The government policy is of an **increasing participation of Indians in every branch of administration and gradual development of self-governing institutions** with a view to the progressive realisation of responsible government in India as an integral part of the British Empire.”

Source: **India’s Struggle for Independence**

Q.7) What was the main objective of Bhagat Singh and his comrades of throwing a bomb in the Central Legislative Assembly in 1929?

- To take revenge for the death of Lala Lajpat Rai.
- To get arrested and use the trial court as forum for propaganda.
- To demonstrate their anger against the Jallianwala Bagh Massacre.
- To physically harm the British officials.

Ans) b

Exp) Option b is the correct answer.

The Hindustan Socialist Republican Association (HSRA) leadership decided to let the people know about its changed objectives and the need for a revolution for the masses. Bhagat Singh and Batukeshwar Dutt were asked to throw a bomb in the Central Legislative Assembly on April 8, 1929.

Option a is incorrect: The revolutionaries Bhagat Singh and Shivaram Rajguru shot and killed John Saunders in **December 1928** to take revenge of Lala Lajpat Rai death during a lathi charge. **This event was happened before the throwing of bomb in the Central Legislative Assembly on April 8, 1929.**

Option b is correct: The objective was to get arrested and to use the trial court as a forum for propaganda so that people would become familiar with their movement and ideology.

Option c is incorrect: Option c is not related to the objective behind throwing a bomb in the Central Legislative Assembly in 1929.

Option d is incorrect: The bombs had been deliberately made harmless and were aimed at making ‘the deaf hear’.

Source: Spectrum, CHAPTER 17: Emergence of Swarajists, Socialist Ideas, Revolutionary Activities, and Other New Forces.

Q.8) With reference to Gandhi's activities in South Africa, consider the following statements:

1. He started a newspaper called 'Indian Opinion'.
 2. Phoenix Farm was established by Gandhi to experiment with Satyagraha, Sarvodaya and Ahimsa.
 3. During his stay in South Africa, he extended his support to British Empire during the Second Boer War.
- Which of the statements given above is/are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 only
- d) 1, 2 and 3

Ans) d

Exp) Option d is the correct answer.

Statement 1 is correct: On 4th June 1903, Mahatma Gandhi started his newspaper 'Indian Opinion' in South Africa to fight against racial discrimination and demand civil rights for Indians in that country.

Statement 2 is correct: Phoenix farm was founded by Mahatma Gandhi in 1904 on the north-western edge of Durban, South Africa to experiment with Satyagraha, Sarvodaya and Ahimsa (non-violence). It was here Gandhiji first used 3 principles to champion the cause of mine and sugarcane workers, liberation of women and fight against alcohol. The Phoenix Settlement was set up to put into practice the values which he followed and preached for the rest of his life – self-help, dignity of labour and simplicity.

Statement 3 is correct: Two Boer wars were fought between the British Empire and the two independent Boer republics, during the 1880 to 1902 period. Gandhi extended his support to British Empire during Second Boer war 1899. Gandhi wished to support the British in a hope that they would take steps to improve the conditions of Indians after the war. For his contributions during war, Gandhi was bestowed with a title of 'kaiser-i-Hind' by British.

Source: Spectrum's A brief History of Modern India ch-15 pg:347-351

Q.9) With reference to Gandhi's early movements in India, consider the following pairs:

Movement	Causes
1. Champaran satyagraha	Against the Tinkathia system
2. Ahmedabad mill strike	Demand for remission of taxes
3. Kheda satyagraha	Discontinuation of Plague bonus

How many of the above given pairs are correctly matched?

- a) Only one pair
- b) Only two pairs
- c) All the three pairs
- d) None of the pairs

Ans) a

Exp) Option a is the correct answer.

Pair 1 is correctly matched: Champaran Satyagraha of 1917 was the first civil disobedience movement of India. Gandhi was requested by Rajkumar Shukla, a local man, to look into the problems of the farmers in context of indigo planters of Champaran in Bihar. The European planters had been forcing the peasants to grow indigo on 3/20 part of the total land (called **tinkathia system**). When German synthetic dyes replaced

indigo at the end of the nineteenth century, European planters still demanded high rents and illegal dues from the peasants in order to maximize their profits before the peasants could switch to other crops. Furthermore, the peasants were forced to sell their produce at European-determined prices. One of the major objectives of the Champaran Satyagraha was to challenge this tinkatia system.

Pair 2 is incorrectly matched: In March 1918, Gandhi intervened in a dispute between cotton mill owners of Ahmedabad and the workers over the issue of **discontinuation of the plague bonus**. Gandhi asked the workers to go on a strike and demand a 35 percent increase in wages instead of 50 percent. When negotiations with mill owners did not progress, he himself undertook a **fast unto death (his first)** to strengthen the workers' resolve.

Pair 3 is incorrectly matched: Because of drought in 1918, the crops failed in Kheda district of Gujarat. According to the Revenue Code, if the yield was less than one-fourth the normal produce, the **farmers were entitled to remission**. The government, however, remained adamant and said that the property of the farmers would be seized if the taxes were not paid.

Gandhi asked the farmers not to pay the taxes (First non-cooperation). The revolt was remarkable in that discipline and unity were maintained. Ultimately, the government sought to bring about an agreement with the farmers. It agreed to suspend the tax for the year in question, and for the next; reduce the increase in rate; and return all the confiscated property.

Source: Spectrum's A brief History of Modern India ch-15 pg:353-356

Q.10) Consider the following statements regarding the UN Commission on Status of Women (CSW):

1. It was established by the UN General Assembly (UNGA).
2. Members to the CSW are elected for a term of eight years.
3. It monitors and reviews progress and problems in the implementation of the Beijing Declaration.

Which of the above given statements is/are correct?

- a) 2 only
- b) 1 and 3 only
- c) 3 only
- d) 1, 2 and 3

Ans) c

Exp) Option c is the correct answer.

The Commission on the Status of Women (CSW) is the principal global intergovernmental body exclusively dedicated to the promotion of gender equality and the empowerment of women.

Statement 1 is incorrect: It was established by the ECOSOC resolution of June 1946. The Commission comprises 45 Member States of the United Nations. The Commission on the Status of Women is a functional commission of the UN Economic and Social Council (UN-ECOSOC).

Statement 2 is incorrect: Forty-five Member States of the United Nations serve as members of the Commission at a time. Members are elected for a period of four years. India was elected a member of the United Nations Commission on the Status of Women, securing the most votes ahead of China.

Statement 3 is correct: In 1996, ECOSOC expanded the Commission's mandate and decided that it should take a leading role in monitoring and reviewing progress and problems in the implementation of the Beijing Declaration and Platform for Action, and in mainstreaming a gender perspective in UN activities.

Knowledge Base:

2000 Resolution: On the eve of International Women's Day, leading women's rights campaigners at the United Nations and the African Union and a Nobel Peace Prize laureate criticised male-dominated governments on March 7 for excluding women from peace negotiations.

They complained that governments are ignoring a U.N. resolution adopted in 2000 demanding equal participation for women in talks to end conflicts.

Since the 20th anniversary of the resolution in 2020 Afghanistan's Taliban rulers have imposed “gender apartheid” and war in Ethiopia's northern Tigray region reportedly led to sexual violence “at a staggering scale.”

Q.11) Many legislations were enacted in British India to curb the freedom of the Indians and to suppress the revolutionary activities of the people. In this context, Why Anarchical and Revolutionary crimes Act is infamous in India?

- For the first time, it allowed the government to arrest a person on the grounds of sedition.
- It allowed political activists to be imprisoned without a trial
- It notified certain tribes in India as criminal tribes.
- It mandated that only a European judge can trial British subjects

Ans) b

Exp) Option b is the correct answer.

Anarchical and Revolutionary crimes Act but popularly known as the Rowlatt Act, (February 1919), legislation passed by the Imperial Legislative Council, the legislature of British India. **The act allowed certain political cases to be tried without juries and permitted imprisonment of suspects without trial.** Their objective was to replace the repressive provisions of the wartime Defence of India Act (1915) by a permanent law.

Source: <https://wikisummaries.org/defense-of-india-act-impedes-the-freedom-struggle/>

Q.12) Consider the following statements about the events in the aftermath of the Jallianwala Bagh Massacre:

- As a symbol of protest, Gandhi gave up his title of Kaiser-e-Hind.
- An All-White Hunter Committee with no Indian representation, was constituted to inquire into the massacre.
- Bhagat Singh immediately established a Bharat Naujawan Sabha to protest against the massacre.

Which of the statements given above is/are correct?

- 1 only
- 1 and 3 only
- 2 and 3 only
- 1 and 2 only

Ans) a

Exp) Option a is the correct answer.

The 13 April 1919 Jallianwala Bagh Massacre (aka Amritsar Massacre) was an infamous episode of brutality which saw General Dyer order his troops to open fire on an unarmed crowd of men, women, and children trapped in an abandoned walled garden.

Statement 1 is correct: To protest against this brutal action of the British troops, Rabindranath Tagore renounced his knighthood in protest and **Gandhi gave up the title of Kaiser-i-Hind**, bestowed by the British for his work during the Boer War.

Statement 2 is incorrect: on October 14, 1919, the Government of India announced the formation of the Disorders Inquiry Committee, which came to be more widely and variously known as the Hunter Committee/Commission. **It was not an all-white committee since there were three Indians** among the members, namely, Sir Chimanlal Harilal Setalvad- Vice Chancellor of Bombay University, and advocate of

the Bombay High Court; Pandit Jagat Narayan- lawyer and Member of the Legislative Council of the United Provinces; and Sardar Sahibzada Sultan Ahmad Khan-a lawyer from Gwalior State.

Statement 3 is incorrect: Bhagat Singh was just 11 at the time of the Jallianwala Bagh massacre. Bhagat Singh's Bharat Naujawan Sabha was established in 1926.

Source: Spectrum's A brief History of Modern India ch-15 pg:358-364

Q.13) Some leaders of the Congress who were dissatisfied with the methods of struggle adopted choose to form a new organisation named Indian National Liberation Federation (INLF) in 1919. Who among the following was one of the founders of INLF?

- Acharya Narendra Dev
- Motilal Nehru
- Surendranath Banerjea
- Anand Mohan Bose

Ans) c

Exp) Option c is the correct answer.

The disputes within the Congress over the strategy of struggle forced some of the moderates to form a different front known as Indian National Liberal Federation in 1919. **This was founded by Surendranath Banerjea along with Tej Bahadur Sapru, S. Srinivasa Shastri and M. R. Jayakar.**

However, this front played a minor role in the national politics henceforward. Their goals and methods were inspired from the British liberalism. They aimed towards parliamentary democracy, both as an institutional structure and as a system of value which will help achieve national welfare through peaceful negotiations. The party members regularly participated in the elections to legislative assembly and councils at the town, provincial and central levels.

Source: Spectrum: A brief history of Modern India, Chapter 16, Non-Cooperation Movement and Khilafat Aandolan.

Q.14) Consider the following statements about the Nagpur Session of the Indian National Congress, held in December 1920:

- It provided for 'attainment of Swaraj only through constitutional means' as the goal of Congress.
- Provincial congress committee on linguistic basis were organised.
- It was held under the presidentship of Motilal Nehru.

Which of the statements given above is/are **incorrect**?

- 1 and 2 only
- 3 only
- 1 and 3 only
- 2 and 3 only

Ans) c

Exp) Option c is the correct answer.

By the mid-1920s, the Non-Cooperation Khilafat movement was started by the Khilafat committee to condemn the wrongs evil deeds of the British in Punjab and on the question of Khilafat.

The Nagpur session of the Indian National Congress (INC) which took place in December 1920 endorsed the program of Non-cooperation movement approved by INC in the special session of Calcutta (September 1920), along with other provisions.

Statement 1 is incorrect: The goal of the INC changed from the attainment of self-government through constitutional means, to attainment of swaraj through peaceful and legitimate means, by committing itself

to an extraconstitutional mass struggle. Hence, INC envisaged to attain swaraj by resorting to extraconstitutional means.

Statement 2 is correct: INC made following organisational changes in the party.

1) a congress working committee (CWC) of 15 members was set up to lead the Congress from now onwards
2) provincial congress committees on linguistic basis were organised

3) ward committees were organised

entry fee was reduced to four annas.

Statement 3 is incorrect: The Nagpur session of 1920 was held under the Presidentship of C. Vijayaraghavachariar. However, Motilal Nehru was the president of the earlier held Amritsar Session of the Indian National Congress in 1919.

Source: Spectrum: A brief history of Modern India, Chapter 16, Non-Cooperation Movement and Khilafat Aandolan

Q.15) Which of the following statements is correct with respect to India's social security system?

- National Pension System (NPS) is applicable to both Civil servants as well as Armed forces.
- Pradhan Mantri Kisan Maan Dhan Yojna (PMKMY) is a pension scheme for Small and Marginal Farmers.
- Employee Pension Scheme (EPS) is provided to workers engaged in the unorganised sector.
- All Indian citizens in the age group of 18 to 40 years are eligible to become beneficiaries of Atal pension yojana.

Ans) b

Exp) Option b is the correct answer.

The pension scheme of India especially the Old Pension Scheme (OPS) and New Pension scheme (NPS) was frequently in news due to the **decision of some States to implement the Old Pension scheme**. This sparked the debate between OPS and NPS in India.

Option a is incorrect: The New Pension Scheme (NPS) also known as National Pension System (NPS) is **not applicable to armed forces** (i.e. Army, Navy & Air Force). NPS which replaced the OPS, is **applicable to Civil servants** who joined the service after December 31,2003 i.e. NPS will start to take effect from January 1,2004.
